NEW YORK, THURSDAY, MAY 9, 1889—WITH SUPPLEMENT.

NUMBER 4,860.

FIFTH ANNUAL REPORT OF THE SUPERVISORY BOARD OF COMMISSIONERS OF THE NEW YORK MUNICIPAL CIVIL SERVICE.

Hon. HUGH J. GRANT, Mayor of the City of New York:

SIR—The questions involving a construction of the regulations, which the Supervisory Board have been asked to decide during the past year, have continued to diminish in number and importance, a natural result of greater familiarity with the working of the system on the part both of the appointing officers and of applicants for places. Early in the year the Board were so much impressed by the experience of Dr. A. H. Brown, of Boston, as medical examiner of the police force in that city, touching the value of measurements as indications of general physical condition, that he was engaged as an expert in the physical examination of Patrolmen, Firemen and Park Policemen. The result is believed to have been very satisfactory. His method appears to furnish a very useful supplement to the tests afforded by trials of muscular strength, in ascertaining the probabilities of a man's future physical capacity and continuing fitness for active service. It is based on the presumption created by a great many thousand examinations that certain measurements of the limbs and trunk, furnish reliable indications as to a man's general bodily vigor and vitality.

It has been decided by the Board, as far as they can decide it, that a storekeeper in the United States service during the war is not entitled to the precedence in examinations accorded by the act of the Legislature to veteran soldiers and sailors. A complaint from the President of the Health Department that the persons standing highest on the eligible list had failed to respond to his call for their service, and that the percentage of the others was too low to make their appointments proper, caused the cancellation of the old eligible list and the creation of a new one to meet his views. It was found necessary, during the year, to call on the Comptroller to stop the pay of a man employed by the Park Department as a "skilled laborer," and as such, appointed without examination, when he was really a computer, and should therefore have been selected from the eligible list. Similar evasions of the rules had, on previous occasions, been prevented by action of the same kind taken by that officer on our representation. The Board reluctantly, in obedience to the opinion of the Corporation Counsel, restored to the eligible list a man who had been dismissed from the police force on the discovery that he had been convicted of the crime of abduction, and had been pardoned by the Governor, the Corporation Counsel holding that the pardon operated to restore all his rights under the law. The Corporation Counsel having also recently advised that the employees of the Brooklyn Bridge are subject to the Civil Service rules, directions have been given for their classification with the view of filling, by competitive examination, such vacancies as may occur hereafter in the bridge service.

The claim of the Comptroller that the Inspectorship of Provisions and Supplies in the Finance Department is a confidential place and therefore can be filled by the Comptroller in his discretion, and without any examination of applicants for the position, has occasioned the Supervisory Board considerable difficulty. The duties of this officer are mainly the inspection of the provisions and supplies furnished by contractors to the various public institutions, for the purpose of seeing that they accord with the samples. When he detects fraud either in quantity or quality, he reports it to the Comptroller, and it is obvious that his main qualifications must be familiarity with the quality and current prices of the various supplies called for—a qualification which is very easily ascertainable by examination, and, in fact, can hardly be ascertained in any other way. Whether a man is a competent judge of tea, or pork, or flour, can only be discovered by asking him to pass upon specimens of these articles, and it is only by being such competent judge, as it seemed to the Supervisory Board, that he is fitted to detect frauds on the part of contractors or purveyors. On the other hand, in the Comptroller's opinion, the Inspector's duties as a detective, that is, as an officer watching for general indications of fraudulent design, were more important than his duties as a judge of provisions and the Inspector should report such indications to the Comptroller secretly, and should therefore stand in such a confidential relation towards him as to make it proper under the rules to dispense with any examination with respect to his qualifications. The Board found itself unable to accept this view. There is no question that serious frauds are perpetrated in the quality, if not in the quantity, of the supplies furnished to the various institutions of the city, but it has seemed to the Board that the best cure or preventive of such frauds is, in the first place, the publicly ascertained competency of the person selected as Inspector, and, in the second place, absolute publicity in all that relates either to the detection or punishment of the fraud. When fraud is detected it should be promptly exposed by the report of the Inspector, made, not privately to the Comptroller, but openly to the community at large, so as to secure publicity and punishment for the offense, and to operate also as a guarantee of competency and good faith on the part of the inspector. Reports secretly made to the Comptroller and not open to the examination of parties interested, or to the public afford no such guarantee. Dishonest reports might thus be made with comparatively little risk by an inspector who was in complicity with a fraudulent contractor or official, or who was persecuting an honest one for refusing to pay him blackmail. The Board, therefore, while acknowledging the hearty co-operation which it has received from the Comptroller in carrying out the law, were unable to concur with him in this particular matter and felt obliged to hold to the position that the Inspector's place was not a confidential one within the meaning of the regulations, and should therefore, be filled by examination, to which position the Comptroller has finally acceded.

The present Mayor having, in the exercise of his undoubted discretion, called on us for our resignation of the places we have held since our appointment in 1884 by Mayor Edson, and of which we were the first incumbents, it is perhaps fitting that before retiring we should recall the circumstances under which we received our appointment, and the nature of the duties we have endeavored to perform. Our places were created by Mayor Edson when, in 1884, the law came into operation which required him to apply the competitive system to the filling of substantially all the subordinate offices in the municipal service. He had already so applied it to a limited extent under the option given him by previous legislation which excluded from the operation of the system many departments that were subsequently brought within its scope, and had procured a classification of the city service, and drafted a set of regulations inadequate to the requirements of the new law. In creating a Supervisory Board, "to aid the Mayor, at his request, in preparing suitable regulations for the carrying into effect the provisions of the said act; to conduct such inquiries as it may deem expedient respecting the examinations in these regulations provided for; to control such examinations and the general administration of the system created by these regulations, and to decide from time to time, subject to revision by the Mayor, all questions arising under these regulations or the construction thereof, and to make an annual report to the Mayor, showing its own action, the regulations and the exceptions thereto in force, the administration thereof, with such suggestions as it may deem necessary for the more effectual accomplishment of the purpose of the said section of said regulations," he desired to recognize two facts: First, that the Mayor of a city like New York, cannot possibly find time to superintend personally the examination on a great variety of subjects of many hundred candidates annually for all sorts of places; and Second, that it is almost impossible for any incumbent of a political office in the existing state of the popular mind, to keep clear of the suspicion that any power he may have over the manner of filling places in the public service is used for his personal advantage or that of his party. The creation of the Supervisory Board was, therefore, intended to assure the public that the machinery of examinations would be used to carry out the plain intent of the law, and not to promote either individual or party interests; that the

competition provided for by the Legislature would be fair competition; that the examinations would be genuine tests of fitness for public service, and that the regulations would be construed and enforced in the public interest, and not in that of particular candidates.

That these precautions were not unnecessary will be admitted by every candid person who remembers how unfamiliar the public was with the competitive system of filling offices, and how unusual it had become to ascribe to appointing officers any motive but personal or party advantage. In selecting us for the Supervisory Board we are bound to suppose that Mayor Edson's main object was to disarm popular suspicion with regard to the working of the new system, by putting it into the hands of men who were known to be its sincere friends and advocates, and who would seek to carry it out without fear or favor. Our places do not call for the display either of great ability or great knowledge, but they do call imperatively and above all things, for belief in the reform, and a genuine and constant desire to make it succeed, and these qualifications we may, without any lack of modesty, fairly claim to have possessed. Our experience has been that no obstacle to the successful working of the Civil Service law is so serious, as the belief, both among appointing officers and among the candidates for places, that those who execute it are not in earnest; that the competition is not really intended to sift the candidates or give the office to the best man; that it has not extinguished favoritism; that high marks are not really meant to limit the appointing officer's field of choice, and that there is some room still left for the successful play of "pulls" or influence.

Another, though less serious obstacle, was the belief which we encountered, sometimes in high places, that the Civil Service law was not a law of the same binding force as other laws in the statute book, that it was not entitled to the full benefit of the rule which gives to each statute supremacy over others of earlier date, and that there was not the same want of good citizenship in seeking to evade it, or defeat it, which there would be in seeking to evade or defeat other laws. Neither of these obstacles can be overcome, except by the display of absolute good faith, through a considerable period of time, on the part of those charged with the execution of the law. It will never serve its full purpose in taking subordinate places out of politics, and in filling them according to ordinary business rules with the sole object of securing the capable administration of them, until the people have acquired the same kind of confidence in its honest administration which they now feel in the administration of justice; that is, have the confidence that a candidate who stands high on the eligible list is as sure of the opportunity of appointment which the law offers him, as he would be of the judgment the law awards him, if he went into court, on a question of property.

The competitive system is one under which unprovable wrong is almost as easy as under our judicial system. There are in it nearly as many ways in which those charged with its execution can betray their trusts without positive detection, as in the administration of justice. There is not a step the candidate makes, from the filing of his application papers, to his final rating on the eligible list, in which a dishonest examiner, acting in collusion with a dishonest appointing officer, may not deprive him of his just rights under the law without furnishing anything in the shape of evidence on which he could base a legal claim for redress. There is hardly one of the regulations which might not be so construed by an officer who was willing to bring the law into disrepute, or frustrate its operation, as to work great, though not demonstrable injustice. In fact, there is no law on the statute book which so imperatively needs to be executed by those who believe in it and desire its success. Even without serious changes in applying the regulations, it could be converted into a mere farce or simulacrum, without furnishing any injured person with the material for definite complaint.

It will be readily inferred from the foregoing how important to the Board has been the hearty support of the three Mayors under whom we have had the honor to serve. Mayor Edson, in committing to us, in the fall of 1884, the drafting of the regulations, placed no limit on our discretion, and supported us in every way in attempting a full execution of the law. It is true he was then on the eve of retiring from office, but his successor, Mayor Grace, was no less strenuous in promoting a fair trial of the new system. He favored every possible extension of the rules, as well as their vigorous application. Mayor Hewitt was equally steady in his determination to enforce the regulations both in spirit and in letter, and never failed to support us in every effort either to uphold or extend their operation.

Mayor Grace appointed to the place of Chief Examiner and Secretary Mr. Woodman, now the President of the Board of Excise, of whose services we cannot speak with too high praise. He did for the organization of the service, and arrangement of the records, and the proper execution of the regulations, everything that could be done by absolute integrity, untiring industry and administrative ability of a very high order. He completed the work that had been wisely and energetically initiated by his predecessor, Mr. Russell Sturgis, during the brief period that he held the place. His successor, Mr. Lee Phillips, who now fills the office, found the machinery of the examinations ready and in partial operation, but he has had for a still longer period than Mr. Woodman to maintain its efficiency against the open or covert attempts to evade it, which must occur with more or less frequency, until the system has taken root in the political manners of the community, and he has done so with great ability and fidelity. We cannot take leave of the service without acknowledging our great obligations both to him and his assistant, Mr. Manheimer, for the zeal, energy, accuracy and honesty which they have displayed, both in conducting the examinations and keeping the records. The needful knowledge of the regulations, and of their construction, of the mode of conducting the examinations and of forming the eligible lists cannot be acquired at once, and even a temporary break in the machinery would cause confusion and loss of confidence which it would take a great while to remedy, and which might prove to some extent irremediable. Anything which discredits the reform, even for a brief period, would furnish its enemies with weapons with which to assail it before the Legislature and the public press, of which they are only too ready to avail themselves and retard the growth of that public confidence in the fairness of the examinations and in the genuineness of the eligible list which is absolutely necessary to the success of the system.

We must add, however, in order to avoid all misunderstanding, that we have had, with very few exceptions, the hearty co-operation of the heads of departments in our efforts to enforce the regulations. To the Comptroller now in office and his predecessor, we are indebted for valuable and indeed indispensable aid in preventing evasion by stopping the pay of persons illegally appointed. To Inspector Byrnes, of the Police Department, also, our obligations have been very great, not only for the zeal and energy he has shown as an examiner, in applying the competitive system to the police force, but for his readiness on all occasions to give us the benefit of his advice and experience.

To many other officers now in the municipal service, our thanks are also justly due.

The following table exhibits the number of examinations held, and of candidates appointed since we came into office:

	Number of Examinations.	Competitive.	Non-competitive.	Number of Candidates.	Competitive.	Non-competitive.	Number of Appointments.	Competitive.	Non-competitive.
August 29 to December 31, 1884.....	63	57	6	594	497	7	164	145	19
1885.....	278	225	53	2,403	2,246	163	1,148	995	153
1886.....	280	162	118	1,927	1,740	187	1,216	1,096	120
1887.....	245	130	115	2,490	2,247	243	1,411	1,264	147
1888.....	213	104	114	2,397	2,039	358	1,524	1,008	516
1,884.....	678	406	9,727	8,769	958	5,463	4,508	955	

The law permits the holding of non-competitive or pass examinations, as they are sometimes called, "whenever competition may not be found practical." The Supervisory Board, in exercising their discretion under this proviso, have been guided in the main by the representations of the appointing officers, touching the nature of the place to be filled and the quality of the candidates presenting themselves or likely to present themselves, always making the efficiency of the public service their main consideration. They have allowed non-competitive instead of competitive examinations, where the duties of the place to be filled were such as to call for special experience only possessed by one or two persons; or where for any reason the place was so unattractive as to draw but few candidates, or where the marks of all the candidates presenting themselves were so low as to indicate positive unfitness. It will be observed in the above table that the number of non-competitive examinations has very largely increased during the year 1888, which is due in the main to the release of the hospitals and asylums from the competitive rule, for reasons given in our report of last year. We have to repeat our observations of last year as to the operation of the act of March 1, 1886, as amended May 25, 1887, and April 10, 1888, giving veterans of the late war a positive preference over all other candidates in competitive examinations, and forbidding their removal

"except for cause shown, after a hearing had." The inconvenience and even injury to the public interests of this mode of rewarding soldiers and sailors for their service to their country increases steadily. It has been considered by some of the departments such a menace to their efficiency, that they have delayed as long as possible trying to fill vacancies by competitive examination, fearing that they might have very incompetent persons of whom it would be difficult or impossible to get rid, thrust upon them under the operation of the Veteran Act, and have, when delay was no longer possible, sought in some cases refuge in a non-competitive examination of persons possessing special and known fitness for the duties to be performed. It is generally to be desired, that some provision of equal value should be made for the veterans, which would not force them into places that they were unfitted to fill, and in which their incompetence would be painful to themselves, as well as vexatious and injurious to their official chiefs. It would be much cheaper for the State to pay to every veteran presenting himself for employment in the Civil Service, a pension equal to the salary he would receive if a place were awarded him, than to allow him to occupy posts in which his unfitness would derange and retard the orderly transaction of public business.

ABRAM S. HEWITT, Mayor.

New York City Civil Service Regulations.

These regulations shall apply to all positions in the service of the City of New York, with the following exceptions, namely: "Officers elected by the people, and the subordinates of any such officer, for whose errors or violation of duty such officer is financially responsible, and the head or heads of any department of the City government and persons employed in, or who seek to enter the public service under the authority of the Board of Education, and any subordinate officer who by virtue of his office has personal custody of public moneys or public securities, for the safe keeping of which the head of an office is under official bonds."

REGULATION 2.

Schedule A shall include all deputies of officers and commissioners duly authorized to act for their principals, and all persons necessarily occupying a strictly confidential position.

Schedule B shall include clerks, copyists, recorders, bookkeepers and others rendering clerical services, except typewriters and stenographers.

Schedule C shall include policemen, both in the Police Department and the Department of Parks, and the uniformed force in the Fire Department, and doormen in the Police Department.

Schedule D shall include all persons for whose duty special expert knowledge is required not included in Schedule E.

Schedule E shall include physicians, chemists, nurses, orderlies and attendants in the city hospitals and asylums, surgeons in the Police Department and the Department of Public Parks, and medical officers in the Fire Department.

Schedule G shall include all persons employed as laborers or day workmen.

Each schedule shall also include the persons specified under that head in the classification hereto annexed, marked Appendix A.

REGULATION 3.

For the purpose of ascertaining the qualifications of persons seeking or named for positions in the departments and offices of the municipal government, there shall be a Board of Examiners for all positions in Schedules B, C, D, E and F.

This Board shall be composed of not less than six citizens designated by the Mayor and of the Secretary of the Boards.

The Secretary shall be Chairman and Chief Examiner. The Mayor may, at any time, substitute another citizen in the place of any one so designated, and the members of such board shall receive compensation only for the time when actually occupied in the performance of their duties as examiners, as shown by the minutes of such board. The Mayor will employ a suitable person who shall act as the Secretary and Executive Officer of the Examining Board and of the Supervisory Board. The rate of compensation of the members of such board and of the Secretary shall be fixed by the Mayor, who will employ assistance, procure suitable offices, and incur such other expenses as may be required for the efficient performance of the duties imposed upon him by the eighth section of chapter 354 of the Laws of the State of New York for the year 1883, as amended by chapter 410 of the Laws of the said State for the year 1884.

It shall be the duty of such Board of Examiners, by such of its members as the Secretary shall designate, to conduct all examinations called for under these regulations, except as herein otherwise provided, and to ascertain the fitness of candidates for the service of the city, with regard to character, knowledge and ability for the branch of the service into which they seek to enter, and to determine the relative excellence or standing of the persons examined, and to certify the same as herein prescribed.

The Secretary of the Boards shall keep minutes of all their proceedings, and all necessary records of the examination, standing and certification of applicants, and a complete record of all persons employed in the several departments to which these regulations apply, and of all appointments, promotions, dismissals, resignations, and other changes of any kind therein. When not in attendance upon the Boards, the Secretary shall act under the direction of the Mayor.

In addition to the Board of Examiners hereinbefore prescribed, there shall be a Supervisory Board, to be composed of three citizens, designated by the Mayor, whose duty it shall be:

First—To aid the Mayor, at his request, in preparing suitable regulations for the carrying into effect the provisions of said act.

Second—To conduct such inquiries as it may deem expedient respecting the examinations in these regulations provided for; to control such examinations and the general administration of the system created by these regulations, and to decide from time to time, subject to revision by the Mayor, all questions arising under these regulations or the construction thereof, and to make an annual report to the Mayor, showing its own action, the regulations and the exceptions thereto in force, the administration thereof, with such suggestions as it may deem necessary for the more effectual accomplishment of the purposes of the said section and of said regulations.

The vouchers for the pay-rolls, and all other expenses incurred in carrying these regulations into effect, shall be certified to the Mayor by the Secretary and Executive Officer of the Supervisory Board, and of the Examining Board, or in the absence or disability or resignation of the said Secretary, shall be certified to the Mayor by the Mayor's Secretary.

REGULATION 4.

Appointments to positions in Schedule A may be made without examination; but the appointing officer shall file with the Secretary, within five days after making any such appointment, a formal notification thereof, setting forth the full name of the appointee, the date and place of his birth, length of his residence in the City of New York, nature of previous employment, whether he has ever been in official service before, and if so, when and where; the date of beginning of such service and the term for which appointed, salary, name of person in whose place appointed, and such other statistical information as the Supervisory Board may deem proper for registration.

REGULATION 5.

Vacancies in Schedules B, C, D, E and F, not filled by promotion, shall be filled by selection from those who have passed highest in open competitive examinations, subject to the conditions herein expressed, except as hereinafter provided.

REGULATION 6.

Applications of competitors for positions included in Schedules B, D, E and F, and doormen in Schedule C, must be addressed to the "Secretary of the Civil Service Supervisory and Examining Boards, New York City," and must be accompanied with the following papers:

First—The affidavit of the applicant showing that he is not less than eighteen years of age and a citizen of the United States, giving his place of residence, with the street and number thereof, if any; the place, nature and extent of his education, and of his business training and experience, and stating whether he has ever been in the civil service of the City of New York, or in the military or naval service of the United States, and if so, when and where.

Second—A statement whether such application is limited to any particular office or offices in the service; and in the case of persons applying for positions under Schedule B, a list of the optional subjects upon which he desires to be examined, if any.

Third—A certificate of four reputable citizens of the City of New York, that they have been personally acquainted with the applicant for at least one year, and believe him to be of good moral character, of temperate and industrious habits, and in all respects fit for the service he wishes to enter, and that each of them is willing that such certificate should be published for public information, and will upon request give such further information concerning the applicant as he may possess.

In case the applicant resides out of New York City, two of the citizens making such certificate may be residents of the same place.

The requirements as to citizenship and certificates of character, in case of persons applying for positions under Schedules E and F, and the requirements as to citizenship in case of persons applying for positions under Schedule D, may be modified or dispensed with in the discretion of the Supervisory Board.

Registers of all applicants shall be kept by the Secretary of the Boards. When the applicants on a register are in excess of such number as can be conveniently examined on the same day, the applicants shall be notified to appear in their order on the register. Whenever the demands of the service may require, the Secretary shall notify the applicants of record, or such number thereof as can conveniently be examined, to appear for examination, giving place, date and hour for such examination.

REGULATION 7.

Applicants for the following positions must, before being admitted to examination, present satisfactory evidence as to the following facts:

First—If the position to be filled be that of Physician, Surgeon, Medical Officer, Inspector of Vaccination, or Sanitary Inspector, that the applicant is duly authorized by the laws of the State of New York to practice medicine and surgery.

Second—If the position to be filled be that of Chemist, or analyzer, that the applicant has received the degree of Bachelor of Sciences, or its equivalent, from some institution duly authorized by law to confer such degree.

REGULATION 8.

In positions where the duties are professional, technical or expert, the candidates will be required to show what preliminary training or technical education they have undergone to qualify them for such situations before they can be admitted to examination.

In all examinations for professional positions, or positions requiring technical knowledge, no person shall be placed on the eligible list who obtains a rating in technical knowledge of less than 60.

ELIGIBLE LIST.

An eligible list shall be prepared by the Secretary, from time to time, as the needs of the service require, for each of the different grades of every class in Schedules B, C, D, E and F. Upon each eligible list shall be placed only such persons as have been found by the Examining Board to be duly qualified for the positions for which such eligible list is prepared. The candidates shall be placed upon the eligible list, stating the order of merit, as shown by the respective percentages of their aggregate markings upon their examinations, excepting that where the candidate has been honorably discharged from the military or naval service of the United States in the late war,* he shall be preferred over all the other candidates though graded lower. Where an examination for any grade takes place before the eligible list for that grade is exhausted, a new eligible list shall be prepared after such examination, to take the place of the former eligible list. The persons upon the former eligible list who have not been examined for the new eligible list shall, unless a period of one year from the date of their original examination has elapsed, be placed respectively upon the new eligible list in the position to which the percentages of their aggregate markings upon their former examinations would entitle them if such markings had instead been given them upon the new examination.

REGULATION 14.

The actual conduct of every examination shall be under the responsible direction of the Board of Examiners, or of its designated members, free from the interference or participation or influence of the appointing officer, or of any person other than the Supervisory Board, the Secretary, Chief Clerk, assistant examiners or experts directly employed by the Board of Examiners or by the Supervisory Board.

The Supervisory Board shall have power to authorize or to order the employment of an expert to assist any Board of Examiners, whether in a special case, or in connection with the examinations for any special grade, position or office. The selection of such expert shall be made by the Board of Examiners with the consent and approval of the Supervisory Board.

All examinations shall relate to such matters as will fairly test the relative capacity and fitness of the persons examined to discharge the duties of that service to which they seek to be appointed. Excepting as these regulations otherwise provide, the Board of Examiners may, in the examinations, give such relative importance to the different subjects or matters of examination, as to them may seem fit. An applicant receiving less than a minimum general rating of 70 per cent. shall not be placed upon the eligible list.

In all examinations for appointment or for promotion to positions for which there is no eligible list, if there be not more than three competitors, no person shall be eligible for appointment or promotion who shall not have received as the result of such an examination an average rating of 85 per cent., and, in case of examinations for promotions in the uniformed force of the Fire and Park Departments and in the Police force, 90 per cent.

At or before the commencement of every examination, the weight to be given to every subject included in the examination and the minimum, if any, allowable upon each subject, shall be announced to the applicants. The appointing officer shall state to the Supervisory Board upon its request, the general qualifications or attainments, physical or mental, or both, and the experience he deems necessary or proper in the position for which an eligible list is to be formed, and also within what limits of age the persons on such lists should be.

REGULATION 16.

APPOINTMENTS.

Whenever a vacancy shall occur within any grade of any class in Schedules B, C, D, E and F, which in the opinion of the appointing officer the business of the City requires to be filled, and which, under these regulations the appointing officer cannot himself fill by promotion, he shall notify the Secretary of the vacancy.

The appointing power shall state, if position to be filled is a clerkship, whether it is a minor clerkship or whether any of the special qualifications denoted by the optional subjects are essential, and if so, which. The Secretary thereupon shall, as soon as practicable, certify to the appointing officer for appointment from the eligible list appropriate to such position as it may then exist, the three persons having the highest standing on such eligible list, indicating such of them, if any, as have been honorably discharged from the military or naval service of the United States in the late war.

If the appointing officer shall notify the Secretary of more than one vacancy at any one time, the Secretary shall certify to the appointing officer for appointment the names of as many persons as there are vacancies to be filled, with the addition of two names for the first vacancy and one name for every two vacancies in addition to the first. The appointing power shall thereupon appoint to the vacant position as many of the persons so certified as there are vacancies to be filled. If the appointing officer shall signify that attainment in one or more of the optional subjects is essential, the Secretary shall return the names of the three persons whose standings on the denoted optional subjects are the highest (not being below the minimum of seventy). The Examining Board may at any time hold a competitive examination to fill a vacancy of this kind, if in their judgment the eligible list does not contain three persons well qualified to fill the vacant position. The certificate of the Secretary shall state the percentage of the maximum obtained by each of the three persons on his examination and the names and addresses of the persons certifying to his character and habits, except in cases where such names and addresses are in the possession of the appointing power. The appointing officer shall thereupon appoint to the vacant position one of the three persons so certified to him by the Secretary, and shall, within five days thereafter, notify the Secretary of the appointment.

Whenever the appointing officer who shall have made a requisition to fill a certain number of vacancies shall appoint to office a number smaller than that of the vacancies named by him, he shall not make the selection therefor from the whole number certified to him, but only from that number of names standing highest upon the list that would have been certified to him had the requisition stated the number of vacancies which he actually filled.

All positions filled by selections based on optional or special subjects shall be specially noticed in the published list of appointments, and in the official register of qualifications and schemes for examination as being special positions in respect of such qualifications.

This regulation shall not apply to any of the positions for which provision is otherwise made in Regulation 31 or may hereafter be made pursuant to Regulation 32.

Or as a substitute for such examination by the Examining Board, an examination by the Medical Superintendent of the institution in which the vacancy exists shall in such case be sufficient, provided the applicant shall be certified by such Superintendent to be competent to fill the vacancy; but the said substituted examination shall not be held until the Secretary of the Civil Service Boards shall have notified the appointing power that there is at the time no eligible list appropriate to fill such vacancy.

All vacancies among the attendants in any Insane Asylum shall be filled by the General Superintendent and the Medical Superintendent of the institution in which such vacancies shall occur in such manner as they shall deem best, and the names of all persons so appointed shall be sent forthwith to the Secretary of the Examining Board, and they shall, if not previously dismissed, at the end of a period not exceeding four months, pass a non-competitive examination in default of which the appointment shall cease.

REGULATION 36.

PROBATION.

All employment in positions under any of the schedules, except Schedule G, shall be provisional, and such provisional service shall continue six months, except in Schedule C, when it shall be for one month, during which period the person so employed may at any time be peremptorily discharged from service. In the case of Doormen in Schedule C, the provisional service shall be for six months.

If during that period (subject as to policemen and firemen to Regulation 27) the conduct and character of the appointee are found satisfactory to the appointing officer, he shall, at the close thereof, receive an appointment, but otherwise his employment shall cease. Any one failing to receive appointment at the end of six months, except in the case of an appointment to a position the duties of which are completed before the end of the six months herein mentioned, shall be ineligible for one year for appointment in the municipal service in any department.

REGULATION 37.

Every officer under whom any person shall serve during any part of the probation provided for by these regulations, shall carefully observe the quality and value of the service rendered by such person, and shall report to the proper appointing officer, in writing, the facts observed by him, showing the character and qualifications of such person, and of the service performed by him, and such reports shall be preserved on file.

REGULATION 38.

Whenever the special qualifications required for a position are such that, in the opinion of the Examining Board, advice and assistance from experts are required, the Supervisory Board may designate, from among the persons in the employ of the department to which the applicant seeks admission, some suitable person to aid the Examining Board in determining such qualifications.

REGULATION 39.

Every false statement knowingly made by any person in his application for examination, and every connivance by him at any false statement made in any certificate which may accompany his application, shall be regarded as good cause for the removal or discharge of such person.

REGULATION 40.

No one dismissed from the service for misconduct shall be eligible to appointment in any capacity in any department of the municipal service within three years.

Any person appointed to, or employed in, any position, after due certification for the same under these rules, who shall be certified to the Secretary by the proper authorities to have been dismissed or separated therefrom without fault or delinquency on his part, may be reappointed or re-employed without further examination in the same grade within one year next following such dismissal or separation.

REGULATION 41.

All appointments made under these regulations, except under Schedule G, shall be published in the CITY RECORD within five days, giving in each instance the names of the citizens who have certified the character of the person appointed.

REGULATION 42.

No person in the public service is under any obligation to contribute to any political fund, or to render any political service, and no person shall be removed or otherwise prejudiced for refusing to do so.

REGULATION 43.

No person in said service shall use his official authority or influence to coerce the political action of any person or body.

REGULATION 44.

Notice shall within five days from the date of appointment be given, in writing, by the appointing power to the Secretary, of the person or persons selected for employment or appointment from among those who have been examined, of the place of residence of such persons, of the rejection of any such persons after probation, of transfers, resignations and removals, and of the date thereof, and a record of the same shall be kept by said Secretary. In all cases where the positions are graded according to the compensation received, and such grading determines the character of an examination, the appointing power shall, in addition to the foregoing, notify the Secretary of the rate of compensation to be paid to the person appointed.

REGULATION 45.

Temporary appointments may be made of persons on the eligible list for permanent appointment, but no such appointment shall be made more than once, or for a period exceeding six months.

Temporary appointments may be made from persons not on the eligible list, but only as follows: In the prisons, reformatories, hospitals and asylums, temporary substitutes may be appointed without examination, for not exceeding thirty days, but such temporary appointment can be made only once. In the Department of Street Cleaning, temporary appointments of captains and pilots may be made without examination for a period not exceeding thirty days. In the office of the Receiver of Taxes temporary appointments may be made without examination, as they have been heretofore commonly made during the busy season for the collection of taxes. Every temporary appointment under this regulation must be reported to the Secretary within five days, with the reason for the same.

REGULATION 46.

No person on the eligible list shall be certified more than five times to the same appointing officer, for the same bureau or institution, except at his request, nor shall the name of any person remain on the eligible list for appointment more than one year from the date of examination if any permanent appointment shall during such year have been made from such eligible list. If no such appointment be made during the year, the eligible list shall continue until such appointment is made. No person while remaining eligible on any list shall be admitted to a new examination for a position in the same schedule.

The name of any person may be stricken from the eligible list for cause satisfactory to the Supervisory Board, to be specified in the minutes of the Board and subject to revision by the Mayor.

No person's name shall remain on the eligible list for promotion more than five years. The name of any person may be dropped at his request from the eligible list for promotion after the expiration of one year from the date of entry on such list, and he may thereupon apply to be certified and examined afterwards again for promotion, subject to the requirements of the rule with respect to such certification and examination.

No person while on the eligible list for any position shall be allowed to take his or her name off the said list for the purpose of entering another examination to increase his or her rating, except at the end of one year from the day of examination.

REGULATION 47.

All officials connected with any office, in or for which any examination is to take place, shall give the Supervisory Board and the Board of Examiners such information as may be reasonably required to enable them to select competent and trustworthy examiners; and the examination by such examiners, and the work incident thereto, shall be regarded as a part of the public business to be performed at such office.

REGULATION 48.

*Persons who have been honorably discharged from service in the army or navy of the United States, in the late war, shall be preferred for appointments to positions in the civil service, over all other persons though graded lower as ascertained under these regulations, and the person thus preferred shall not be disqualified from holding any position in the civil service on account of his age nor by reason of any physical disqualification, provided such disability does not render him incompetent to perform the duties of the position applied for.

REGULATION 49.

No question in any examination, or proceeding by or under these regulations, shall call for the expression or disclosure of any political or religious opinion or affiliation, and if such opinion or affiliation be known, no discrimination shall be made by reason thereof by the examiners or the appointing power. The examiners shall discountenance all disclosure of such opinion by or concerning any applicant for examination, or by or concerning any one whose name is on any eligible list awaiting appointment.

REGULATION 50.

The Secretary may give a certificate to any person examined, except under Schedule G, stating the grade which such person attained and the proficiency in the several subjects, shown by the markings.

REGULATION 51.

Defective applications shall be suspended and applicants notified to amend the same, but no such notice shall be given, or opportunity granted, a second time. Whenever it appears by the application or other satisfactory evidence that the applicant is not within the prescribed limits of age, or otherwise not qualified under the regulations, or is manifestly unfit for the service, the application shall be rejected.

REGULATION 52.

PROMOTION.

Promotions from the lower grades to the higher shall be on the basis of merit and competition.

REGULATION 53.

Except as herein otherwise provided, the positions in the various schedules shall be filled, when vacant, by the promotion of those in the service in lower grades in the department, office or institution in which the vacancy or vacancies may occur. Promotions shall be made, subject to the provisions of these regulations, by the officer or officers having the power of appointment. If, in the judgment of such officer or officers, there be none found in the lower grades fit to perform the duties in such vacant positions, in that case, and in no other, the positions may be filled in the manner prescribed by these regulations for filling the positions in the lowest grade of the same subdivision and class.

REGULATION 54.

Promotion shall, in all cases, be based upon the positive merit of the person promoted, and upon his superior qualifications as shown by his previous service.

No person in the service who has not passed an examination under these regulations or under those heretofore prescribed, shall be promoted or transferred to any position for which examination is required without passing an examination under the regulations, of the same character as would an applicant for appointment to that position in the service.

No person shall be examined for promotion or transfer from any position in Schedule G unless he shall have been in the service of the department for at least one year immediately preceding such examination.

* Chapter 29 of the Laws of 1886.

Fitness for promotion shall be determined by the actual work of the persons named therefor, by the certificates and records hereinafter mentioned and such other information as may be required by, or furnished to, the examining body and by examination.

The appointing power, or where that power consists of more than one person, any one of such persons may direct any subordinate officer belonging to the class from which promotions may be made to be examined for promotion, and it shall thereupon be the duty of such subordinate to make application therefor, and to be so examined, unless sufficient cause to the contrary shall be shown by him to the Supervisory Board.

In all cases of persons applying for promotion or ordered to be examined therefor, it shall be the duty of the officer or officers constituting the appointing power to make and forward to the examining body their joint or several certificates as to the efficiency, character and conduct of the person to be examined during the period of his service in the grade from which his promotion would be made, with such other statements bearing upon the fitness of such person for promotion as the officer so certifying shall deem proper.

Such certificate shall be accompanied by a like certificate of the immediate official superior of the person to be examined, and a copy of the record of said person in the department to which he belongs. The examining body shall have the right to call upon the appointing power for further information upon any of the matters before them, and shall duly consider all communications that may be received by them in relation to the fitness of any candidate.

The Mayor, in any case in which he shall consider it proper so to do, may direct any examination for promotion to be held by the Supervisory Board, instead of by the Examining Board. In such cases the Supervisory Board shall have power to employ experts and special examiners, to aid them in conducting such examinations.

The appointing power shall determine by general regulation who are the immediate official superiors of the officers in each grade in the department.

REGULATION 55.

No recommendation of any person for promotion shall be entertained except in pursuance of the foregoing regulation, and the presentation of any recommendation other than those hereinbefore provided for will be considered an unwarrantable interference with the public service, and the person so recommended may be required to show, before being certified for promotion, that such recommendation was not made by his request or with his connivance.

REGULATION 56.

Examiners of persons named for promotion shall personally question them concerning their office-work and its purposes, in order to ascertain if they have a general and intelligent knowledge of the business in the department in which they are employed, and may require the persons examined to give a written description of the work done by them and its relation to the duties of others.

REGULATION 57.

Subject only to the qualifications required to be ascertained in accordance with these regulations, the power of appointment and the responsibility of selection are in all cases in the appointing officer. The power of any officer to remove is not impaired by anything contained in these regulations.

REGULATION 58.

Complaints of injustice or unfairness on the part of any examiner or examining board, or of any one acting under the Supervisory Board, shall be considered by such Board, which shall have the right to revise the marking and grading on the papers, or order a new examination, or otherwise act as substantial justice in the premises may require.

REGULATION 59.

CONDUCT OF EXAMINATIONS.

Applicants shall be admitted to examination upon the production of the official notification to appear for that purpose. Each applicant shall receive a number, which shall be indorsed upon his notification when produced, and the notifications so indorsed shall be sealed in an envelope. Each applicant shall sign his examination papers with his number, omitting his name, and the envelope shall not be opened until all the examination papers have been received and the markings and gradings made.

REGULATION 60.

All examinations shall be in writing, except such as refer to physical qualities or expertness, and except as herein otherwise provided.

REGULATION 61.

The sheets of questions shall be numbered and shall be given out in the order of their numbers, each, after the first, being given only when the competitor has returned to the examiners the last sheet given to him. In general, no examination shall extend beyond five hours without intermission; and no questions given out at any session, to any candidate, shall be allowed to be answered at another session. Each applicant must complete his examination on the obligatory subjects before taking up any of the optional subjects.

REGULATION 62.

Each examiner shall exercise all due diligence to secure fairness and prevent all collusion and fraud in the examinations.

REGULATION 63.

The time allowed for completing the examination shall be announced before the first paper is given out. For the obligatory subjects the examination shall be confined to a single day.

REGULATION 64.

MARKING.

The examination papers shall be reviewed by each examiner separately, except where otherwise directed by the Supervisory Board, and, in any case of disagreement, the average of the markings made on any question or paper by all shall be the final marking on such question or paper, subject to the regulation as to revision.

REGULATION 65.

Handwriting shall be judged by its legibility, uniform and correct formation of letters and ease of execution. Upon a comparison of the handwriting of all the competitors the best and worst shall be first agreed upon, and the two extremes of the scale thus fixed; the others shall be marked relatively to such extremes. In writing from dictation or copying from manuscript, the omission, repetition or substitution of words, the erasures, blots and other evidences of carelessness, shall proportionately to their numbers reduce the marking below 100. Spelling shall be marked with reference to the ratio the misspelt words bear to the whole number of words dictated. Making abstracts or summaries of documents and letter-writing shall be marked as in handwriting, by agreeing upon the best and worst examples and having marked them, then proportionately marking the others.

REGULATION 66.

Every paper in any examination not formally certified by the examiners shall be signed with his initials in ink by each examiner who has reviewed and marked it.

REGULATION 67.

AQUEDUCT COMMISSION.

A Special Board of Examiners shall be organized for the examination of applicants for employment by the Aqueduct Commission in Class 2, Subdivisions I., II., III., IV., V. and VI., in the classification appended to the preceding regulations. The said Board shall consist of two Civil Engineers, to be designated by the Aqueduct Commissioners and approved by the Mayor, the Civil Engineer of the Examining Board and the Secretary of the Boards. The Secretary shall be Chairman and Chief Examiner.

A quorum for the conducting of any examination shall be two, of whom in all cases one shall be an Engineer in the employ of the Aqueduct Commission, and one a member of the Regular Civil Service Examining Board, and the powers of this Board shall be the same as those given to the Regular Examining Board by these Regulations.

It shall be the duty of such Special Board of Examiners to conduct all examinations called for under this Regulation, except as herein otherwise provided, and to ascertain the fitness of candidates for the service of the Aqueduct Commission with regard to character, knowledge and ability for the branch of such service into which they seek to enter, and to determine the relative excellence or standing of the persons examined, and to certify the same as prescribed by these Regulations.

Application of competitors for positions in the Aqueduct Commission shall be made in the form to be prescribed by the Supervisory Board.

The general examination for admission to the places in Schedule D (being Part II. of the classification appended to the preceding regulations) shall be in writing and on the following subjects:

1. Handwriting (as shown in examination papers).
2. Arithmetic, viz.: addition, subtraction, multiplication and division.
3. Questions relating to the technical knowledge required for the position sought by the applicant.
4. Experience tending to qualify him for that position. In addition to this, the health and physical vigor of the applicant shall be tested as hereinbefore required.

The relative weight to be given these several subjects in making up the average standing shall be as follows:

1. Handwriting	1
2. Arithmetic	1
3. Technical knowledge	4
4. Experience	4

Total of weights..... 10

Those admitted to competition for the superior positions in Schedule D, Part I., shall be examined in writing on the following subjects:

1. Technical knowledge required for the position to be filled, and respecting which the examination is held.
2. Experience tending to qualify the applicant for that position.

As part of the examination as to experience the Special Examining Board shall make inquiries in writing of the persons with whom the applicant has studied or by whom he has been employed, on the following subjects:

- Efficiency and accuracy in his own work.
- Character for maintaining discipline among and getting good work from his subordinates, and when appropriate anything else in his character or antecedents tending to show his fitness for the position which he seeks.

The relative weight to be given to these several subjects shall be as follows:

1. Technical knowledge	50
2. Experience	50

Total..... 100

When competition may not be found practicable to meet an exigency for special work in the positions of Assistant Engineers, Instrumentmen, Draughtsmen, Superintendents and Inspectors, and the fact of the exigency shall be made to appear by the certificate of the Aqueduct Commission, it shall be in the power of the Supervisory Board to institute non-competitive examinations to temporarily fill such positions. But no appointment so made shall hold longer than for a period of three months.

Upon the presentation to the Secretary of the following certificate by the President and Chief Engineer of the Aqueduct Commission, and upon the going into effect of this regulation, all persons employed by said Commission prior to the 7th day of September, 1886, and who shall be named in such certificate, shall be considered as regularly in the employ of the said Commission; but the said Commission may in its discretion require any of the said persons to pass an open competitive examination in order to be continued in the service.

CERTIFICATE.

The undersigned, President and Chief Engineer of the Aqueduct Commission, do certify that the persons whose names are given in the annexed list were employed by said Commission after a careful examination into their qualifications for the positions respectively held by them; that we are satisfied after the experience actually had of their character and conduct that they are severally qualified for the positions specified in the said list, and that in our judgment any further examination as to their qualifications is unnecessary.

Except as in this regulation otherwise provided, the preceding regulations shall regulate and apply to all appointments made by or under the authority of the Aqueduct Commission.

POLICE DEPARTMENT OF THE CITY OF NEW YORK,
No. 300 MULBERRY STREET.

TO CONTRACTORS.

PROPOSALS FOR ESTIMATES.

SEALED ESTIMATES FOR FURNISHING THE materials and labor, and doing the work required for placing Electrical Conductors underground for this Department, will be received at the Central Office of the Department of Police in the City of New York, until 10 o'clock A. M. of Tuesday, the 21st day of May, 1889.

Bidders will state in their estimates a price: 1st. For furnishing the materials for and doing the work with the seamless insulated wires and cables of "The Safety Insulated Wire and Cable Company," as specified, or 2d. For furnishing the materials and doing the work with cables claimed to be as good or better than the seamless insulated wires and cables of "The Safety Insulated Wire and Cable Company," the bidder to specify the kind and quality proposed to be furnished, and submit samples thereof, as specified.

For information as to the amount and kind of work to be done, bidders are referred to the specifications and map which form part of these proposals, which said map now on file in the Police Department was approved by the Board of Police on the 26th day of April, 1889, and dated and signed by the Chief Clerk of said Board.

Bidders must satisfy themselves by personal examination of the nature and extent of the proposed work, and by such other means as they may prefer, as to what work will be required to be done and materials furnished, and shall not at any time after the submission of an estimate, dispute, complain or assert that there was any misunderstanding in regard to such work or materials.

The map may be seen and forms of estimates with specifications, showing the amount and kind of work to be done, may be obtained at the office of the Chief Clerk of this Department.

The work is to be completed and delivered on or before the nineteenth (9th) day after the execution of the contract.

The damages to be paid by the contractor for each day that the contract may be unfulfilled after the time specified for the completion thereof shall have expired are fixed and liquidated at twenty (20) dollars.

The person or persons making an estimate shall furnish the same in a sealed envelope, indorsed "Estimates for Electrical Conductors" and with his or their name or names, and the date of presentation to the head of said Department, at the said office, on or before the day and hour above named, at which time and place the proposals received will be publicly opened by the head of said Department and read.

The person or persons to whom the contract may be awarded will be required to give security, for the performance of the contract in the manner prescribed by law, in the sum of twenty thousand dollars.

The Police Department reserves the right to decline any and all bids or estimates if deemed for the public interest.

No estimates will be accepted from, or a contract awarded to, any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

Each estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person, making an estimate for the same purpose; and is in all respects fair, and without collusion or fraud; and that no member of the Common Council, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, upon its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled upon its completion, and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract and herein stated, over and above his debts of every nature, and over and above his liabilities as bail, surety and otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of the City of New York after the award is made and prior to the signing of the contract.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, and that the adequacy and sufficiency of the security offered has been approved by the Comptroller, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet, as provided by law.

No estimate will be received or considered unless accompanied by either a certified check upon one of the National or State banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department, who has charge of the estimate-box; and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk, and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same, within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and be retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

N. B.—As the above-mentioned quantities, though
stated with as much accuracy as possible, in advance,
are approximate only, bidders are required to submit
their estimates upon the following express conditions,
which shall apply to and become a part of every estimate
received:

(1.) Bidders must satisfy themselves by personal ex-
amination of the location of the proposed work, and by
such other means as they may prefer, as to the accuracy
of the foregoing Engineer's estimate, and shall not, at
any time after the submission of an estimate, dispute or
complain of the above statement of quantities, nor
assert that there was any misunderstanding in regard
to the nature or amount of the work to be done.

(2.) Bidders will be required to complete the entire
work to the satisfaction of the Department of Docks, and
in substantial accordance with the specifications of
the contract and the plans therein referred to. No extra
compensation, beyond the amount payable for each
class of the work before mentioned, which shall be
actually performed, at the prices therefor, to be speci-
fied by the lowest bidder, shall be due or payable for
the entire work.

The work to be done under this contract is to be com-
menced within five days after the date of the contract,
and all the work contracted for is to be fully completed

on or before the third day of September, 1889, and the
damages to be paid by the Contractor for each day that
the contract may be unfulfilled after the time fixed for
the fulfillment thereof has expired, are, by a clause in
the contract, determined, fixed and liquidated at Fifty
Dollars per day.

All the old material taken from the structure to be re-
moved under the contract will be relinquished to the
Contractor, and bidders must estimate the value of such
material when considering the price for which they will
do the work under the contract.

Bidders will state in their estimates a price for the whole
of the work to be done in each class, in conformity with
the approved form of agreement and the specifications
therein set forth, by which price the bids will be tested.
These prices are to cover all expenses of every kind in-
volved in or incidental to the fulfillment of the contract,
including any claim that may arise through delay, from
any cause, in the performing of the work thereunder.

The award of the contract, if awarded, will be made to
the bidder who is the lowest for doing the whole work
comprised in both classes, and whose estimate is regular
in all respects.

Bidders will distinctly write out, both in words and in
figures, the amount of their estimates for doing each
class of the work.

The person or persons to whom the contract may be
awarded will be required to attend at this office with the
sureties offered by him or them, and execute the con-
tract within five days from the date of the service of a
notice to that effect, and in case of failure or neglect so to
do, he or they will be considered as having abandoned it,
and as in default to the Corporation, and the contract
will be readvertised and relet, and so on until it be ac-
cepted and executed.

Bidders are required to state in their estimates their
names and places of residence; the names of all persons
interested with them therein; and if no other person be
so interested, the estimate shall distinctly state the
fact; also, that the estimate is made without any con-
nection with any other person making an estimate for
the same work, and that it is in all respects fair, and with-
out collusion or fraud; and also, that no member of the
Common Council, Head of a Department, Chief of a
Bureau, Deputy thereof, or Clerk therein, or other
officer of the Corporation, is directly or indirectly in-
terested therein, or in the supplies or work to which it re-
lates, or in any portion of the profits thereof; which
estimate must be verified by the oath, in writing, of the
party making the estimate, that the several matters
stated therein are in all respects true. Where more
than one person is interested, it is required that the
verification be made and subscribed by all the parties
interested.

Each estimate shall be accompanied by the consent,
in writing, of two householders or freeholders in the
City of New York, with their respective places of
business or residence, to the effect that if the contract be
awarded to the person or persons making the esti-
mate, they will, on its being so awarded, become
bound as his or their sureties for its faithful perform-
ance; and that if said person or persons shall omit or
refuse to execute the contract, they will pay to the Cor-
poration of the City of New York any difference between
the sum to which said person or persons would be
entitled on its completion, and that which said Cor-
poration may be obliged to pay to the person to whom
the contract may be awarded at any subsequent letting;
the amount, in each case, to be calculated upon the esti-
mated amount of the work to be done in each class, by which
the bids are tested. The consent above mentioned shall
be accompanied by the oath or affirmation, in writing, of
each of the persons signing the same, that he is a
householder or freeholder in the City of New York, and
is worth the amount of the security required for the
completion of the contract, over and above all his debts
of every nature, and over and above his liabilities as
bail, surety and otherwise; and that he has offered
himself as surety in good faith, and with the intention
to execute the bond required by law. The adequacy
and sufficiency of the security offered will be subject to
approval by the Comptroller of the City of New York
after the award is made and prior to the signing of the
contract.

No estimate will be received or considered unless
accompanied by either a certified check upon one of the
State or National Banks of the City of New York,
drawn to the order of the Comptroller, or money, to the
amount of five per centum of the amount of security
required for the faithful performance of the contract.
Such check or money must not be inclosed in the sealed
envelope containing the estimate, but must be
handed to the officer or clerk of the Department who
has charge of the Estimate-box, and no estimate can be
deposited in said box until such check or money has been
examined by said officer or clerk and found to be correct.
All such deposits, except that of the successful
bidder, will be returned to the persons making the
same, within three days after the contract is awarded.
If the successful bidder shall refuse or neglect, within
five days after notice that the contract has been awarded
to him, to execute the same, the amount of the deposit
made by him shall be forfeited to and retained by the
City of New York as liquidated damages for such neglect
or refusal; but if he shall execute the contract within
the time aforesaid, the amount of his deposit will be
returned to him.

Bidders are informed that no deviation from the
specifications will be allowed, unless under the written
instructions of the Engineer-in-Chief.

No estimate will be accepted from or contract awarded
to, any person who is in arrears to the Corporation,
upon debt or contract, or who is a defaulter, as surety
or otherwise, upon any obligation to the Corporation.

The right to decline all the estimates is reserved, if
deemed for the interest of the Corporation of the City
of New York.

Bidders are requested, in making their bids or esti-
mates, to use the blank prepared for that purpose by the
Department, a copy of which, together with the form of
the agreement, including specifications, and showing
the manner of payment for the work, can be obtained
upon application therefor at the office of the Depart-
ment.

The person or persons making any bid or estimate shall furnish the same in a sealed envelope, indorsed "Bid or Estimate for Groceries, Dry Goods, Paints, Leather and Lumber," with his or their name or names, and the date of presentation, to the head of said Department, at the said office, on or before the day and hour above named, at which time and place the bids or estimates received will be publicly opened by the President of said Department and read.

THE BOARD OF PUBLIC CHARITIES AND CORRECTION RESERVES THE RIGHT TO REJECT ALL BIDS OR ESTIMATES IF DEEMED TO BE FOR THE PUBLIC INTEREST, AS PROVIDED IN SECTION 64, CHAPTER 410, LAWS OF 1882.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Delivery will be required to be made from time to time, and in such quantities as may be directed by the said Commissioners.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect, and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, in the penal amount of fifty (50) per cent. of the ESTIMATED amount of the contract.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, Head of a Department, Chief of a Bureau, Deputy thereof or Clerk therein; or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of

business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance, and that if he shall omit or refuse to execute the same, they shall pay to the Corporation any difference between the sum to which he would be entitled on its completion, and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety and otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of the City of New York, 1880, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of this security shall, in addition to the justification and acknowledgment, be approved by the Comptroller of the City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York, as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it, and as in default to the Corporation, and the contract will be readvertised and relet, as provided by law.

The quality of the articles, supplies, goods, wares, and merchandise must conform in every respect to the samples of the same on exhibition at the office of the said Department. Bidders are cautioned to examine the specifications for particulars of the articles, etc., required before making their estimates.

Bidders will state the price for each article, by which the bids will be tested.

Bidders will write out the amount of their estimate in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract, or from time to time, as the Commissioners may determine.

The form of the contract, including specifications, showing the manner of payment, will be furnished at the office of the Department, and bidders are cautioned to examine each and all of its provisions carefully, as the Board of Public Charities and Correction will insist upon its absolute enforcement in every particular.

All closets connected in any manner with sewer shall be charged two dollars for each seat per annum, whether in a building or on any other portion of the premises. Urinals shall be charged two dollars per annum each.

WATER-CLOSET RATES.—For hoppers of any form, when water is supplied direct from the Croton supply, through any form of the so-called single or double valves, hopper-cocks, stop-cocks, self-closing cocks, or any valve or cock of any description attached to the closet, each, per year, twenty dollars.

For any pan closet, or any of the forms of valve, plunger, or other water-closet not before mentioned, supplied with water as above described, per year, ten dollars.

For any form of hopper or water-closet, supplied from the ordinary style of cistern filled with ball-cock, and overflow pipe that communicates with the pipe to the water-closet, so that overflow will run into the hopper or water-closet, when ball-cock is defective, or from which an unlimited amount of water can be drawn by holding up the handle, per year, each, five dollars.

For any form of hopper or water-closet, supplied from any of the forms of waste-preventing cisterns, that are approved by the Engineer of the Croton Aqueduct, which are so constructed that not more than three gallons of water can be drawn at each lift of the handle, or depression of the seat, if such cisterns are provided with an overflow pipe, such overflow pipe must not connect with the water-closet, but be carried like a safe-waste, as provided by the Board of Health regulations, per year, two dollars.

Cistern answering this description can be seen at this Department.

METERS.

Under the provisions of section 352, Consolidated Act 1882, water-meters, of approved pattern, shall be hereafter placed on the pipes supplying all stores, workshops, hotels, manufactories, public edifices, at wharves, ferry-houses, stables, and in all places where water is furnished for business consumption, except private dwellings.

It is provided by section 352, Laws of 1882, that "all expenses of meters, their connections and setting, water rates, and other lawful charges for the supply of Croton water, shall be a lien upon the premises where such water is supplied, as now provided by law."

All manufacturing and other business requiring a large supply of water will be fitted with a meter.

Water measured by meter, ten cents per one hundred cubic feet.

The rate charged for steam-vessels taking water daily or belonging to daily lines, is one-half cent per ton (Custom House measurement) for each time they take water.

Steamers taking water other than daily, one cent per ton (Custom House measurement).

Water supplied to sailing vessels and put on board, twenty-five cents per hundred gallons.

All matters not hereinbefore embraced are reserved for special contract by and with the Commissioner of Public Works.

HYDRANTS, HOSE, TROUGHS, FOUNTAINS, ETC., ETC.

No owner or tenant will be allowed to supply water to another person or persons.

All persons taking water from the City must keep their own service-pipes, street tap, and all fixtures connected therewith, in good repair, protected from frost, at their own risk and expense, and shall prevent all waste of water.

The use of hose to wash coaches, omnibuses, wagons, railway cars or other vehicles or horses, cannot be permitted.

No horse-troughs or horse-watering fixtures will be permitted in the street or on the sidewalk, except upon a license or permit taken out for that purpose. All licenses or permits must be annually renewed on the first of May. Such fixtures must be kept in good order and the water not allowed to drip or waste by overrunning the sidewalk or street, or to become dangerous in winter by freezing in and about such troughs or fixtures.

No hydrant will be permitted on the sidewalk or in the front area, and any hydrant standing in a yard or alley, attached to any dwelling or building, must not be left running when not in actual use, and if the drip or waste from such hydrant freezes and becomes dangerous in winter, the supply will be shut off in addition to the penalty of five dollars imposed.

Taps at wash-basins, water-closets, baths and urinals must not be left running, under the penalty of five dollars for each offense, which will be strictly enforced.

Fountains or jets in hotels, porter-houses, eating-saloons, confectioneries or other buildings are strictly prohibited.

The use of hose for washing sidewalks, stoops, areas, house-fronts, yards, court-yards, gardens, and about stables, is prohibited. Where premises are provided with wells, special permits will be issued for the use of hose, in order that the police or inspectors of this department may understand that the permission is not for the use of Croton water.

Opening fire-hydrants to fill hand sprinklers or other vessels will not be allowed.

The penalty for a violation of any of the preceding rules and regulations will be five dollars for each offense, and if not paid when imposed will become a lien on the premises in like manner as all other charges for unpaid water rates.

By order,
JOHN NEWTON,
Commissioner of Public Works.

DEPARTMENT OF PUBLIC WORKS,
COMMISSIONER'S OFFICE,
NO. 31 CHAMBERS STREET,
NEW YORK, June 21, 1887.

PUBLIC NOTICE AS TO WATER RATES.

PUBLIC NOTICE IS HEREBY GIVEN THAT in compliance with the provisions of chapter 559, Laws of 1887, amending sections 350 and 351 of the New York City Consolidation Act of 1882, passed June 9, 1887, the following changes are made in charging and collecting water rents:

1st. All extra charges for water incurred from and after June 9, 1887, shall be treated, collected and returned in arrears in the same manner as regular rents have heretofore been treated.

2d. In every building where a water meter or meters are now, or shall hereafter be in use, the charge for water by meter measurement shall be the only charge against such building, or such part thereof as is supplied through meter.

3d. The returns of arrears of water rents, including the year 1887, shall be made as heretofore on the confirmation of the tax levy by the Board of Aldermen, and shall include all charges and penalties of every nature.

4th. A penalty of five dollars (\$5) is hereby established, and will be imposed in each and every case where the rules and regulations of the Department prohibiting the use of water through hose, or in any other wasteful manner, are violated, and such penalties will be entered on the books of the Bureau against the respective buildings or property, and, if not collected, be returned in arrears in like manner as other charges for water.

5th. Charges for so-called extra water rents of every nature, imposed or incurred prior to June 9, 1881, will be canceled of record on the books of the Department.

D. LOWBER SMITH,
Deputy and Acting Commissioner of Public Works.

DEPARTMENT OF PUBLIC WORKS,
COMMISSIONER'S OFFICE,
NO. 31 CHAMBERS STREET,
NEW YORK, November 10, 1886.

NOTICE TO CROTON WATER CONSUMERS.

NUMEROUS APPLICATIONS HAVE BEEN made to this Department by citizens claiming reductions or rebates on bills for water supplied through meters, on the alleged ground of leakage caused by defective plumbing and worn-out service pipes, or by willful waste of water by tenants allowing the faucets to be turned on in full force in water-closets, sinks, etc., without the knowledge or consent of the owners of the premises.

The main object of the use of water-meters is to enable this Department to detect and check the useless and unwarrantable waste of an element so valuable and essential to the health and comfort of all the citizens, and this object can only be accomplished by enforcing payment for the water wasted.

Under the law all charges for water supplied through meters are a lien against the respective premises, and the law therefore holds the owner of the premises responsible for the amount of water used or wasted.

Notice is therefore given to all householders that, in all further applications for reduction of water rents, no allowance will be made on account of waste of water occurring through leaks, from defective service pipes or plumbing, or wasteful use of water by tenants or occupants of buildings, though such leakage or waste may have occurred without the knowledge or consent of the owners of the buildings.

House-owners are further notified that whenever their premises become vacant, and are likely to remain vacant, they must notify this Department in writing, and that unless this requirement is complied with no deductions in extra water rents will be allowed for any portion of one year.

JOHN NEWTON,
Commissioner of Public Works.

GRANTS OF LANDS UNDER WATER.

THE OWNERS OF LANDS IN THE CITY OF New York, which were formerly under water, and which were granted by the City or New York, are notified that nearly all of the grants of such lands contain covenants, on the part of the grantees, and their successors and assigns, to maintain and keep in repair the adjacent streets. The condition of many of these streets is such as to make it necessary that they should be repaired and repaved, and that the obligation resting upon the present owners of adjacent lots to do this work should now be enforced. Many of such owners have requested that such covenants be commuted, and wholly released, upon the payment by them of a certain sum per lot.

The matter will shortly be presented to the Commissioners of the Sinking Fund for their consideration, and the adjustment of the basis of commutation, and application for releases should therefore be made at once.

They may be sent to the undersigned.

Dated New York City, August 7, 1888.

JOHN NEWTON,
Commissioner of Public Works.
