The Comparoller presented the following :

HALL OF THE BOARD OF EDUCATION, NO. 146 GRAND STREET, NEW YORK, MAYOR 10, 1898.

To the Board of Education:

The Finance Committee respectfully reports that certain correspondence has occurred with regard to the payment of salaries of all employees in the school system, for the month of February, 1898. The letters are self-explanatory and are as follows:

MARCH 8, 1898.

How. BIRD S. CHLER, Comptentier:

DEAR SIR. The Finance Committee of the Board of Education is now engaged in the preparafirst since The Fischer Committee is the support of the school system during the current year. I desire to rall your attention to the fact that the proper preparation of this matter requires true and consideration in order that the various borough estimates be reduced to uniformity. In the organization of such a large system as that of the Department of Education, it is unavoidable that delays at certain kinds must ensue. In order to prevent inconvenience and hardship to the many employees of the school system, I would ask your co-operation in relation to the following automostices:

If it is within the pale of the law, I would suggest that appropriations be made by the Board of Estimate and Apportunities for the purpose of paying the sataries of Teachers, Janton and other employees for the month of February. It is possible during the next few days to present the requirements for these particular items, but it is not possible to properly submit the entire Budget.

Will you kindly communicate your views on the subject, and oblige,

RUGH KELLY, Chairman, Finance Committee of the Board of Education.

-to which the Comptroller replied as follows:

DEPARTMENT OF FINANCE.—CITY OF NEW YORK, | March 9, 1898.

HUBH KELLY, Esq., Chairman, Finance Committee, Board of Education, No. 146 Grand street:

DEAR SIR—I have received your communication of the 8th instant, in which you state that delay is likely to occur in properly preparing a Departmental Estimate of the Department of Education for the year 1898 for presentation to the Board of Estimate and Apportionment.

Heretofore in making appropriations for the several departments of the City Government the Board of Estimate and Apportionment has, without exception, adhered to the policy of passing only on estimates of expenditure for the whole year. While it would be desirable for many reasons to adhere to this policy, in the case of the Department of Education I appreciate the inconvenience and hardship which would result to the Teachers and employees of the school system if their payrolls should be long delayed.

I will gladly recommend to the Board of Estimate and Apportionment, therefore, that an

I will gladly recommend to the Board of Estimate and Apportionment, therefore, that an exception be made in this case, and I am confident, from a conversation which I have had with several members of the Board, that taxorable action will be taken upon any proper estimate of expenditure which may be submitted for the payment of salaries for the month of February. This estimate, however, should deal exclusively with salaries, and not with supplies or other expenditures.

I respectfully suggest that an estimate of this character be submitted at the earliest possible date, so that the salaries and wages of the Department of Education may be paid with as little

delay as possible.

Very truly yours, BIRD S. COLER, Comptroller.

The Committee is of opinion that the proposed arrangement, if consummated, will preclude much hardship and consequent dissatisfaction.

The committee herewith presents the requirements for the month of February, on account of salaries and wages, in the form of a resolution requesting the Board of Estimate and Apportunament to apportuning funds sufficient to meet such expenses.

Resolved, That the Board of Estimate and Apportionment of The City of New York be and it is hereby respectfully requested to apportion, on account of the sammare of expenditures for the year 1858 of the Department of Education to be hereafter submitted), the sum of seven hundred and fifty-seven thousand six hundred and thirty-four dollars and twenty-six ceats (\$757,634.26), said same to be applied in payment of salaries and wages of employees for the month of February, 1898, per detailed statement, as follows:

To the Honorable Board of Estimate and Appartionment -GENTLOMEN - I respectfully ask you to appropriate for salaries of the Janitons of the Municipal Court of the Borough of Manhattan and such other boroughs that have junitors, who have not been paid for the month of January, 1898, the sum of \$1,200 for the payment of sisteen januars, eleven being in the Borough of Manhattan, two in The Brons and three in the Borough of Booklyn,

provided in section 230, subdivision 16, of the Greater New York Charter. Respectfully yours,
JOSEPH H. STINER, President, Board of Municipal Justices.

CITY OF NEW YORK-DEPARTMENT OF FINANCE, COMPTROLLER'S OFFICE, March 3, 1898.

To the Board of Estimate and Appartmented:

At a meeting of the Board of Estimate and Apparticument held February 28, 1898, there was referred to the Comptroller the request of the Board of Municipal Justices for an appropriation to pay the salaries of the thirteen janitors of the District Courts of the former City of New York and the three janitors of the Justices' Courts of the former City of Byooklyn for month of Junuary,

As these courts were continued under their original organization until January 31, 1898, it would appear that these solaries should be paid. I find, however, that it will not be necessary for an additional appropriation to be made for

KINGS COUNTY THEASURY, Fehruary 26, 1898.

HON. ROST. A. VAN WYCK:

DEAR SIE—I have the honor to submit to you, as per request made by you to Judge Delmar, that the necessary expenditures of this office for 1898 will require the sum of \$18,000, being \$5,000 in excess of estimate sent to me by the Comparoller.

The amount allowed this office in the Brooklyn Budget for 1898: Salaries, \$12,500, and contingent expenses, \$1,100 - \$33,600.

Deductine City Department, \$11,600, and 2 Tax Clerks, \$3,800 - amounting to \$15,400 - weeld leave a balance of \$18,200 for this office at it stands at this present time.

Allow me to say that the amount asked for under the facts and figures given in my estimate was with due regard to economy and the proper conduct of the office and availance of waste in same.

Leaving the matter to your able and just consideration. I have the house to be Respectfully years, THOMAS W. KIMBALL.

Whereupon the Mayor offered the following a Resolved, That, pursuant to the provisions of section to at the Greater New York Charter, the funds received and to be received by the Chamberlain, as in that section provided, he and the same are hereby, in part, appropriated and apportioned, as follows:

In answer to this I will say that in every case it will be accessary that the thand of Estimate and Apportionment make a reappropriation in procure payment on these claims.

5. Police Pensions, Brooklyn, Chapter upon it the Laws of 1850, \$115,000.

The question seems to be, in this case, whether this amount should be reappropriated or whether the Brooklyn Police Pension Fund > to be replentished out of the Excise Fund as has been the case in the former City of New York.

The question which really underlies this subject seems to be, whether or not there is to be a separate administration of the pension funds formerly existing in the old City of New York and the City of Brooklyn, or whether the Pension Fund of the present Police force is to be administrated as a single fund of the provisions of the Charter, and especially in view of the about insignable difficulties which would arms from an attempt to administer the finds accorately under a system which allows the transfer of observe of the oil crims to different boroughs, it would seem that the Pension Fund must be administered as one ought found for the smitre force.

If this is so, then it will be noweable to reappropriate an amount sufficient to cover any

If this is so, then it will be advisable to reappropriate an autoust sufficient to cover any

If this is so, then it will be abstract.

4. (any Acctourse's salary, Brooklyn, \$1,240 (Invotiyn Budget, page 8).

It is supposed the question is whether this office has been abstract by the Charter.

Upon this sate less I have to say I find no authority under the Charter for the employment of such an officer, and therefore this position must be regarded as abstrated.

5. Spect Lighting Contracts, Richmand County.

The pagens attached to your communication in reference to this matter seem to present no legal question for determination.

To proceed money for the purpose indicated will evidently require a reappropriation.

The interpretures in question are those in the local and interior course of civil and criminal.

The interpreters in question are those in the local and interior course of civil and criminal unadiction in the Borough of Branklyn:

An examination of the list of names shows that the interpreters are surprisingly numerous

and possess germand over linguistic gitts.
These persons are swelve in number, and they assem that they interpret the following

Indiana Scientish, Slavenia Fedish, Hungarian, Scingdian ino, Lettonian (by which Lithmenian is presentably occurs). However, Bussian and German.

If it be remembered that some of the names above given represent not languages, but groups of languages, a very grave doubt arises as to the necessity of the employment of some of these tearned girethmens or their accomplishments in so many languages.

With one exception, that of Mr. Amon Brain, they claim appointment under thapter 623 of the Laws of 6575, which is as addown:

"Section 1: The common connects of the city of Brooklyn shall have power to appoint enterpt in cases now eitherwise provided by laws, such interpreture as may be necessary in the magnetisms, courts in our sity; ha took salaries, previous their duties, fill all vacuacies and remove any person of appointment in course at any time. And such appointments may be made upon the requisition or recommendations of add uncontrates."

Mr. Anian Brains a time repreture chains to have been appointed by special act of the Legislature at the year these for the various local and microiry courts of civil and criminal principles.

As I do not know of the act in quistion, I think it might be well to love Mr. Braun point out the act under which he claims.

There is no fixed term of these interpreters appointed under the set of 1875, but they may be removed at any time by the Municipal Assembly, as successor to the Common Council of the City of Breaklys, for cause, and under the power to a point "such interpreters is may be necessary," it would seem that the Municipal Assembly would have power to abolish seem positions as might re nonecessary.

However that may be, it containly his the power to be their salaries, not only under chapter to 3 of the Laws of 1875, under which they were originally appointed, but under the terms of action 30 of the present Charter.

It seems to me that this solvent of interpreters in Boookers is well worthy of a cateful inquiry, to the purpose of intermining how many of these persons are necessary, and how often their

services are required.

As regards the interpreter in question, as they are assigned under the act of 1875 to both civil and cluminal courts, so tar as they claim appointment order the act of 1875 already mentioned, they are to be appointed and removed under this ord, and not under service 4 of chapter tot of the Laws of 1803; which relates to linerar course of empired production exclusively, and which course apply to interpreters who are not attached exclusively to any empired event, but which common apply to interpretes who are not attached exclusively to any entitial event, but apparently claim a review commence to set in any forester court of civil or criminal principles within the library's of funcially.

As I have not blooms. I think the subject of interpreters in the bosough or brooklyn is one well worthy of inventigation before taking any action in the principles.

7. Problem Hospital

I are no logal effection in reappropriation for the benefit of the hospital.

The only objection possible in the practical one of establishing a procedure which might be named.

N. Supreme Court, Second Ary effort Division of Breedilyn.

I think in this case the expense of pointing the calendars, etc., should be provided for in a opacion form and not put of the appropriation made to the Supervisor of the City Record, multiple in the advice I have already given upon his reposes to the Clerk of the Court in quotion.

Yours,

City of Brooklyn.

This Board doubts its right to pay from the consolidated pension fund of the present City of New York, pensions which were due and owing prior to the first day of January, 1898, in boroughs where the amount paid in to the consolidated pension fund was less than the amount of pensions due and owing prior to January 1, in such Borough.

The Board of Police, as Trustees of the Police Pension Fund, request that your honorable body allow to the pension fund of The City of New York the sum of \$8,400.75 to meet the deficiency in the pension fund of the late City of Brooklyn as shown above.

In behalf of the Board of Police,

Hon. ROBERT A. VAN WYCK, Mayor, President of the Board of Estimate and Apportionment; DEAR SIR—An appropriation of \$10,000 was made late in December last, if my memory serves me, for the decoration of the Municipal Assembly Chamber. The plan at the time was for a competition to be held under the auspices of the Municipal Art Society. That society was to

pay all the expense of the competition, including second and third price for the innecessful competitors, the idea being that the best talent of New York would come into the competition and the result would be a fitting decoration of this Chamber. This is very much in the line of the recent decorative work done for the City, notably in the new landing for the Appellate Divisions and the decoration done by Mr. Shoundar in one of the new landing for the Appellate Divisions and the decoration done by Mr. Shoundar in one of the new Court-rooms. As the wark is to be draw in the most interesting building huternality in New York, and in the recent that is the Legislative macting place of all the boroughs, it seems a fitting place for the best work of our artists. In fact, \$10,000 is hardly a subcient sum; \$15,000 would be better. But I recognise the need for economy for the present, a need your Hotor has complianted. If it ments your approval the Municipal Art Society would like the appropriation made.

Very truly yours,

Very traly yours, HENRY E. HOWLAND

To all whom it now oweren:

Know ye, that the Board of Trustees of this Association, in meeting assembled this 250 day of February, 1808, did ununimously adopt the following resolutions:

Whereas, It has come to the knowledge of the members of this Association that it is proposed to levy a special tax upon real estate in the Borough of Brooklyn; and Whereas, The said members of this Association have, by fragality, maved and invested over

\$75,000 in homes; therefore,

\$75,000 in homes; therefore,
Resolved, That we, in the name of this Association, emphatically protest against the passage
of any and all bills, either by the State or municipal legislative bodies, seeking to impose a special
tax in the year 1898 upon real estate in said Borough of Brooklyn.

Resolved, That any arrestages that may have existed in the City of Brooklyn at the time of
its consolidation with The City of New York, should be met by the issuing of bonds or by being

included in the general tax levy for \$550, and that same be as soud in accordance with the provisions of the Charter covering all the territory in The City of New York as then constituted.

Resolved, That the levying of any special for upon real estate in said Barough of Brooklyn during the year \$505, to pay prior arreatings, is in violation of good faith and as injustice to all Brooklyn property-orders, and also in violation of the provisions of the Charter, and such a levy would result in distress and hardship; and

Resolved, That the Searchary be arrisoned and directed to send a copy of these resolutions, signed by the President, and daily attended to, to the Mayor, Comparation Council and Board of Estimate of New York, also to the Assemblyones of the distress.

DEPARTMENT OF FINANCE, | April 13, 1898.

To the Board of Local Improvements of the Borough of The Brone:

GENTLEMEN—I have the honor to transmit herewith a statement of the ground space necess ary for the use of the brunches in the Borough of The Bronx of the Bureau for the Collection of Amesaments, the Auditing Bureau and the Bureau for the Collection of Taxes.

I cannot not strongly unge upon your Honorable Body the requirements of these branches of this Department for the proper transaction of the public business and the accommodation of the traxpayers and citizens of the Borough of The Bronx.

Especial care has been taken by this Department to limit each largest to the space necessary, and I feel that you blewise will fully appreciate the importance of providing therefor, as requested in the resolution as originally submitted.

Hon, BIRD S. COLER, Compender:

Sir-I have the honor respectfully to state that I have given due consideration to the question of the amount of space that will be necessary for the use of the branch office of this "bareau" about to be established in the Borough of The Bronx, and beg to report that it will require at least thirty-seven hundred and fifty (3,750) square feet of floor surface for this purpose.

I herewith transmit a rough sketch of the second floor in the new wing of the borough hall, situate in Crotona Park, and have marked thereon with an "X" the rooms that, for the present, would suffice to transact the business of this bureau in that borough.

Very respectfully,

(Signed) EDWARD GILON, Collector of Assessments and Arcars.

Coionel David E. Austin, Receiver of Taxes, presented a diagram of the first floor, which the Comptroller also desired, he said, for the use of the Finance Department. The Comptroller's representative pointed out the desarability of affording adequate room for his branch of the Finance Department. He said that the total space (lineal feet) now occupied by his office in the Borough of Manhattan was 430.0, and that the floor space in the new building in Crotona Park would give only 150 feet, or 54 per cent. of the space occupied by the Receiver of Taxes in Manhattan Borough.

President Haffen inquired what the area in square feet is of the space occupied by the

President Haffen inquired what the area in square feet is of the space occupied by the Receiver of Taxes now. Colonel Austin said he had not ascertained this measurement. He added that the assessment rolls for 1898 for Manhattan were 41 and of The Broax 22. Broax Borough, he said, had 53 per cent, of the books which Manhattan has, and only 54 per cent, of the desk room, while the apportionment of property in The Broax is increasing 3 to 1 over Manhattan.

Mr. Edward J. Connell, Auditor of the borough of The Broax, and Chief Contract Clerk William J. Ellis also spoke as to the necessity of the Finance Department having adequate office one for the transaction of its business. The convenience of having a fully equipped branch of the office, by thought, was apparent.

nom for the transaction of its business. The convenience of baving a fully equipped branch of the office, be thought, was apparent.

President Haffen remarked that he thought the Comptroller should be accommodated. He thought, he said, that he accommodating the finance Department, the people of the Borough were being accommodated also.

Conneilman Hyland said it seemed to him to be a question as to which department should go rotated. Conneilman Hotterroth desired to know if the Finance Department had not an appropriation available for renting outside space, and Mr. Ellis said that he was uncertain as to that, but that it an appropriation were absolutely necessary it could no doubt be bad.

After further discussion Alderman Geiger moved and Conneilman Hyland seconded, that the sum iteration of the whole matter be laid over for a week.

In the affirmative—Cosmeilman Montay, Alderman McGraft, Alderman Geiger, Alderman Gas, Conneilman Hyland.
