## PROCEEDINGS OF THE PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT.

TUESDAY, DECEMBER 15, 1908.

O-657

MANHATTAN BRIDGE APPROACHES—USE BY ELEVATED RAILROAD COMPANY.

The Secretary presented a communication, dated December 12, 1908, from Bird S. Coler, President of the Borough of Brooklyn, calling attention to the plans providing for the utilization of Hudson Avenue instead of Flatbush Avenue extension to give the elevated roads in Brooklyn connection with the Manhattan Bridge, and urging the early action of the Commission either in this direction or with regard to the alternate proposition of an elevated structure over Canal Street from the Manhattan Bridge to the west side. The communication was ordered filed.

It was thereupon, on motion, duly seconded,

Case 818

BROOKLYN HEIGHTS RAILROAD Co.—OPERATION THROUGH PORTION OF 52ND STREET WITHOUT PERMISSION—OPINION.

Commissioner Bassett presented the following opinion:

IN THE MATTER OF THE OPERATION BY THE BROOKLYN HEIGHTS RAILROAD COMPANY THROUGH 52ND STREET FROM SECOND AVENUE TO THE PUBLIC DOCK, IN THE BOROUGH OF BROOKLYN, WITHOUT HAVING FIRST OBTAINED A CERTIFICATE OF PERMISSION AND APPROVAL UNDER SECTION 53 OF THE PUBLIC SERVICE COMMISSIONS LAW—ORDER No. 818.

### OPINION.

The J. P. Duffy Company, a corporation using trucks in carrying on its cement pipe business, complained against The Brooklyn Heights Railroad Company because it maintained tracks on the surface of 52nd Street, in the Borough of Brooklyn, between Second Avenue and the public dock and asserted that said tracks were laid and maintained without right. The Commission directed an inquiry to be held in order to learn whether the facts are sufficient to enable it to reach an opinion that the said company has failed or omitted to obtain a certificate of permission and approval under Section 53 of the Public Service Commissions Law. The reason why such a certificate might be necessary is because of the provision of that section that no street railroad corporation shall exercise any franchise or right not heretofore lawfully exercised without first obtaining the certificate of permission and approval. In case the inquiry should show that the company does not lawfully maintain its tracks on this street it would become the duty of the Commission under Section 57 of the Public Service Commissions Law to direct counsel to commence an action in the Supreme Court to prevent the continuation of the illegal act.

The Commission would not have been inclined to make this inquiry were it not for the fact that the complaining corporation showed that the Borough President of Brooklyn more than a year ago threatened to take up these tracks, whereupon the railroad company obtained from the Supreme Court a temporary injunction restraining him from taking such a course, and that such injunction is now in effect, no steps having been taken to bring the action to trial, although the Corporation Counsel, it is alleged, has had ample time to do so. While this situation continued it would appear as if the question of legal rights possessed by the company was an open one and that it might become the duty of the Commission to have its counsel obtain a judicial determination thereon.

On July 11th, 1887, the Board of Aldermen of the City of Brooklyn granted to the South Brooklyn Street Railroad Company the right to “construct, maintain, use and operate a street surface railroad through, upon and along any streets and avenues and portions of streets and avenues hereinafter designated; to wit, \* \* \* and the portion of 52nd and 53rd Streets between Second Avenue and the said Town of New Utrecht \* \* \* and also through, upon and along any private property in the line of such streets and avenues needed for such railroad.”

The foregoing street descriptions do not include 52nd Street between Second Avenue and the public dock. No subsequent consent of the city to place tracks here has been granted. It appears, however, that when this consent was granted 52nd Street between Second Avenue and the public dock was not a street but was private property. Furthermore, the railroad company appears subsequently to have laid its tracks while it was still private property. It owned half of the land and obtained easements over the other half. After the tracks were laid the City of Brooklyn began condemnation proceedings to take for street purposes the land within the mapped street lines. When the City of Brooklyn opened streets by condemnation it took not the fee but an easement for street purposes. As the tracks appear to have been rightfully laid in 1891 or prior thereto and the city took title in 1892 it is obvious that the railroad company continued to possess the right to maintain and use its tracks within the street unless such right was taken away from it in the condemnation proceedings. An examination of the proceedings taken shows that the city neither condemned nor paid for the tracks of the company. It does not appear that the street was dedicated prior to the condemnation proceedings. On the contrary, the records contain evidence that the street was not graded prior to March 2nd, 1891. Nor is there anything to show that the city had performed any act in the way of making improvements or taking charge of the street in token of the acceptance of a dedication. If the company had the right to lay its tracks originally that right has continued even though the land on which they were laid later became subjected to the public easement for street purposes.

There is some question about the exact location of the tracks in 1891 but it is not suggested by the complainant or any one else that the tracks are now greater in extent than they were at that time. If it can be proved that part of the track has been laid since 1892 without obtaining the consent of the city then as to that portion the company is plainly in the wrong. It is also possible that some future litigation may show that this was a dedicated street and that the city had performed acts accepting the dedication prior to 1891, in which case the street would have been a public street and the company would have needed to obtain the consent of the city to place tracks and operate upon them. However, the fact that the city in 1892 deemed it necessary to open the street

by condemnation proceedings would go far to negative such a view but I do not consider that the taking by condemnation proceedings is conclusive proof that there had not been a prior dedication and acceptance thereof.

The South Brooklyn Street Railroad Company was merged with the Brooklyn City Railroad Company. Later the Brooklyn City Railroad Company leased its property to The Brooklyn Heights Railroad Company, the operating company, complained against. It would thus appear that the rights of the South Brooklyn Street Railroad Company had passed to the operating company now in possession.

The Commission through its franchise bureau carried on extensive investigations and the results were presented at the hearings. These investigations revealed many more facts than were brought forward by the complaining party, indeed the complaining party relied quite entirely on the facts developed by the franchise bureau. The complainant was given the fullest possible opportunity to make use of the facts brought forward by our bureau and did not dispute any of these facts. It does not seem to me that the inquiry has shown that the company maintains and operates these tracks unlawfully. As the hearings were in the nature of an inquiry there is no need of an order of dismissal.

December 14, 1908.

The Chairman was authorized to send the following letter to the Hudson and Manhattan Railroad Company:

December , 1908.

W. G. McAdoo, Esq., President, Hudson & Manhattan Railroad Company, No. 30 Church Street, New York City.

DEAR SIR—Your letter of November 30, accompanying and explaining an incomplete report of operations of the Hudson and Manhattan Railroad Company for the

year ended June 30, 1908, has been considered by the Commission and found unsatisfactory. The form of annual reports adopted by the Commission in Order No. 613, requires a complete statement of operations during the year ended June 30, 1908, or during such portion of it as the company was doing business as a carrier, in accordance with the well settled practice among State Commissions. It is immaterial whether or not such operations include lines extending beyond the boundaries of the First District.

You are hereby notified to amend within thirty days the report which you filed on November 30 as provided by law. This may best be done by filing a new report made out in full according with instructions given on page 2 of the report form, and the specific instructions under each inquiry. You will of course withhold none of the specific information called for by the report form. General answers to specific inquiries do not constitute a report within the meaning of the law.

A new blank form is mailed to you under separate cover.

Very truly yours,

Chairman.

TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must also at the time of sale give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of fifty dollars, the sum of fifty dollars shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the costs and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furnishings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beamholes, etc., bricked up and the wall made to exclude wind and rain and present a clean exterior.

The roofs of adjacent buildings shall be made water-tight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of the sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

#### THE THIRD AVENUE RAILROAD COMPANY.

##### Proposed Form of Contract.

This contract, made this \_\_\_\_\_ day of \_\_\_\_\_, 1909, by and between The City of New York (hereinafter called the City,) party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and the Third Avenue Railroad Company (hereinafter called the Company), party of the second part, witnesseth:

In consideration of the mutual covenants and agreements herein contained the parties hereto do hereby covenant and agree as follows:

Section 1. The City hereby grants to the Company, subject to the terms and conditions herein after set forth, the right and privilege to construct, maintain and operate a double-track extension to its present street surface railway, with the necessary wires and equipment, for the purpose of conveying passengers in the Borough of Manhattan, City of New York, upon the following route:

Beginning and connecting with the existing double-track street surface railway on Amsterdam avenue at or near the intersection of said avenue with Fort George avenue; thence northerly, westerly and southerly in, upon and along said Fort George avenue as it winds and turns to its intersection with Audubon avenue, with a loop terminal at said intersection, to be constructed within the present roadway of said Fort George ave-

nue. The said route, with switches, crossovers and terminal loop hereby authorized, are shown upon a map entitled: "Amended map showing proposed railway of the Third Avenue Railroad Company in the Borough of Manhattan, City of New York, to accompany petition to the Board of Estimate and Apportionment, of June 2, 1908," and signed by F. W. Whitridge, Receiver, Edward A. Maher, General Manager, and T. F. Mullany, Chief Engineer, dated New York, November 27, 1908, a copy of which is attached hereto, is to be deemed a part of this contract, is to be construed with the text thereof, and is to be substantially followed; provided, that deviations therefrom and additional turnouts, switches and crossovers which are consistent with the foregoing description and the provisions of this contract may be permitted by resolution of the Board.

Sec. 2. The grant of this privilege is subject to the following conditions, which shall be complied with by the Company:

First—The consent in writing of the owners of half in value of the property bounded on said streets and avenues to the construction and operation of said railway shall be obtained by the Company within thirty (30) days from the signing of this contract by the Mayor, and a copy of such consents shall be filed with the Board within such time, or in the event that such consents cannot be obtained within such time the Company shall, within one month thereafter, make application to the Appellate Division of the Supreme Court for the appointment of Commissioners in the manner provided by the Railroad Law to determine if said railway ought to be constructed; otherwise this grant shall cease and determine.

Second—The said right to construct, maintain and operate said railway shall be held and enjoyed by the Company for a term not exceeding three (3) years, provided that if the Company shall make application to the Board, then the Board may extend the term of said right and privilege upon the same terms and conditions herein fixed for a further period not exceeding two (2) years.

Third—The Company shall pay to the City for this privilege the following sums of money:

(a) The sum of three hundred dollars (\$300) in cash within thirty (30) days after the date on which this contract is signed by the Mayor.

(b) During the term of this grant, whether for a term of three years or an extension of such term for a further period of two years, on application of the Company, as herein provided, an annual sum which shall in no case be less than one thousand one hundred dollars (\$1,100), and which shall be equal to three (3) per cent. of its gross annual receipts if such percentage shall exceed the sum of one thousand one hundred dollars (\$1,100).

The gross receipts mentioned above shall be that portion of the gross earnings of the Company from all sources as shall bear the same ratio to its whole gross earnings as the length of the route hereby authorized shall bear to the entire length of the railway of the Company in operation.

The payment of such minimum sums shall begin from the date on which this contract is signed by the Mayor.

Such minimum annual sums shall be paid into the Treasury of the City on November 1 of each year, and shall be for the amount due to September 30 next preceding.

Whenever the percentage required to be paid shall exceed the minimum amount as above, such sum over and above such minimum shall be paid to the Comptroller of the City on or before November 1 in each year for the year ending September 30 next preceding. The fiscal year shall end on September 30 next preceding said date of payment, and provisions of the Railroad Law, as it now exists, or as it may hereafter be amended, relating to the manner of payments and statements of percentages of gross receipts of street railway companies not inconsistent with this contract, shall be strictly complied with.

Any and all payments to be made by the terms of this contract to the City by the Company shall not be considered in any manner in the nature of a tax, but such payments shall be in addition to any and all taxes of whatsoever kind or description now or hereafter required to be paid by any ordinance of the City or by any law of the State of New York.

Fourth—Upon the termination of this contract or extension thereof as herein provided, or upon the termination of the rights hereby granted for any other cause, or upon the dissolution of the Company before such termination, the tracks and equipment of the Company constructed pursuant to this contract within the streets and highways shall become the property of the City without cost, and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

If, however, at the termination of this grant as above the City (by the Board) shall so order by resolution, the Company shall, upon thirty (30) days' notice from the Board, remove any and all of its tracks and other equipment constructed pursuant to this contract, and the said streets, avenues and highways shall be restored to their original condition at the sole cost and expense of the Company.

Fifth—The annual charges or payment shall continue throughout the whole term of this contract, notwithstanding any clause in any statute or in the charter of any other railway or railroad company providing for payments for railway or railroad rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted, or of any part thereof, or of any of the routes mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract, and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this contract.

Sixth—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Seventh—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual or other corporation a similar right or privilege, upon the same or other terms and conditions, over the same streets, avenues or highways.

The use of said railway which shall be constructed by the Company under this contract, including the tracks, wires and other equipment, or

any structures, in public streets and avenues owned by the Company and used in connection therewith, shall be permitted by the Company to any individual or corporation to which the City may have granted, or may hereafter grant, the right or privilege to use such streets, avenues or highways, for street railway purposes, upon payment of an annual sum by such individual or corporation to the Company, which shall not exceed the legal interest on such proportion of the whole cost of the construction of such railway and structures and of the cost of keeping the tracks and track equipment in repair as the number of cars operated by such company or individual shall bear to the number of cars operated by the companies then using the same, together with the actual cost of the power necessary for the operation of the cars thereon of such individual or corporation and the cost of laying and repairing of pavement and removal of snow and ice, and all the other duties imposed upon the Company by the terms of this contract, in connection with the maintenance or the operation of the said railway so used.

The Company shall not at any time oppose, but shall, upon the request of the Board, consent to the construction or operation of any street surface railway which may necessitate the use of any portion of the railway which shall be constructed by the Company pursuant to this contract.

Eighth—Said railway shall be operated by underground electric power substantially similar to the system of underground electric power now used by the street surface railways in the Borough of Manhattan, provided that any other power may be used, except locomotive steam power or horse power, which may be lawfully used, approved by the Board and consented to by the abutting property owners, in accordance with the provisions of law and by the Public Service Commission for the First District of the State of New York.

Ninth—No wires for the transmission of power shall be permitted unless they be placed in conduits underneath or along the side of the railway. When such conduits are constructed the Company shall provide two conduits not less than 3 inches in diameter each, for the exclusive use of the City. The Company hereby agrees that such conduits shall be used only by the Company and the City, as above.

Tenth—The Company shall commence construction of the railway herein authorized within thirty (30) days from the date upon which the consents of the property owners are obtained, or from the date upon which the decision of the Appellate Division of the Supreme Court that such railway ought to be constructed is rendered in lieu of such consents, and shall complete the construction and place the same in full operation within three (3) months from the date of obtaining such consents or such decision, otherwise this right shall cease and determine, and all sums paid, or which may be deposited with the Comptroller of the City, as hereinafter provided, shall thereupon be forfeited to the City; provided that such periods may be extended by the Board for a period or periods not exceeding in the aggregate six months each; and provided, further, that when the commencement or completion of said construction shall be prevented by legal proceedings in any court or by works of public improvement, or from other causes not within control of the Company, the time for the commencement or completion of such construction may be extended for the period of such prevention, but no delay shall be allowed for unless the court proceedings shall be diligently prosecuted by the Company, and provided, further, that in no case shall such delay be deemed to begin until the Company shall have given written notice to the Board of any such court proceedings or other occasion of delay, and deliver to the Board copies of any injunction or other orders, and the papers upon which the same shall have been granted, and unless upon the request of the Board the Company shall, in writing, consent that the Board, either in its own name as a party or in the name of the City as a party, may intervene in any such proceedings.

Eleventh—Said railway shall be constructed, maintained and operated subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided by the Charter of the City.

Twelfth—Said railway shall be constructed and operated in the latest improved manner of street railway construction and operation, and the railway and property of the Company shall be maintained in good condition throughout the term of this contract.

Thirteenth—The rate of fare for any passenger upon such railway shall not exceed 5 cents, and the Company shall not charge any passenger more than 5 cents for one continuous ride from any point on said railway, or a line or branch operated in connection therewith, to any point thereof, or of any connecting line or branch thereof, within the limits of the City.

The Company shall carry free upon the railway hereby authorized during the term of this contract all members of the Police and Fire Departments of the City, when such employees are in full uniform.

Fourteenth—No cars shall be operated upon the railway hereby authorized other than passenger cars, and cars necessary for the repair or maintenance of the railway, and no freight or express cars shall be operated upon the tracks of said railway; and the tracks hereby authorized shall not be used for the storage of cars.

Fifteenth—Cars on the said railway shall run at intervals of not more than thirty minutes both day and night, and as much oftener as reasonable convenience of the public may require or as may be directed by the Board.

Sixteenth—The Company shall attach to each car run over the said railway proper fenders and wheel guards, in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities.

Seventeenth—All cars which are operated on said railway shall be heated during the cold weather in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities.

Eighteenth—The Company, so long as it shall continue to use any of the tracks upon the streets and avenues in which said railway shall be constructed, shall cause to be watered, at least three times every twenty-four hours when the temperature is above 35 degrees Fahrenheit, the entire width of the streets and avenues, except when the width of such streets and avenues shall exceed 60 feet between curb lines, in which case the Company shall cause to be watered only 60 feet in width of such roadway, and the Company shall provide for such purpose at least one tank car, the capacity of which shall be sufficient to water such streets and avenues in a satisfactory manner.

Nineteenth—All cars operated on said railway shall be well lighted by electricity, or by some lighting system equally efficient, or as may be required by the Board.

Twentieth—The Company shall at all times keep the streets, avenues or highways upon which the said railway is constructed between its tracks, the rails of its tracks and for a distance of two feet beyond the rails on either side thereof, free and clear from ice and snow; provided, however, that the Company shall, at the option of the Com-

missioner of Street Cleaning, enter into an agreement for each winter season, or part thereof, to clean an equivalent amount of street surface from house line to house line.

Twenty-first—As long as the said railway, or any portion thereof, remains in any street, avenue or highway the Company shall have and keep in permanent repair that portion of the surface of the street, avenue or highway in which said railway is constructed, between its tracks, the rails of its tracks, and for a distance of two feet beyond the rails on either side thereof, under the supervision of the local authorities, whenever required by them to do so, and in such manner as they may prescribe. And the City shall have the right to change the material or character of the pavement of any street, avenue or highway, and in that event the Company shall be bound to replace such pavement in the manner directed by the proper City officer, at its own expense, and the provision as to repairs herein contained shall apply to such renewal or altered pavement.

Twenty-second—Any alteration to the sewerage or drainage system, or to any other subsurface or to any surface structures in the streets, required on account of the construction or operation of the railway, shall be made at the sole cost of the Company, and in such manner as the proper City officials may prescribe.

Twenty-third—Before any construction shall be commenced upon any portion of the route written permits shall be obtained from the President of the Borough of Manhattan and the Commissioner of Water Supply, Gas and Electricity, and the Company shall comply with any conditions which those officials may impose as a condition upon which such permit is granted, provided such conditions are imposed for the purpose of protecting the structures over which those officials have jurisdiction.

Twenty-fourth—It is agreed that the right hereby granted to operate a street surface railway shall not be in preference or in hindrance to public work of the City, and should the said railway in any way interfere with the construction of public works in the streets, whether the same is done by the City directly or by a contractor for the City, the Company shall, at its own expense, protect or move the tracks and appurtenances in a manner as directed by the President of the Borough of Manhattan.

Twenty-fifth—Should the grades or lines of the streets, avenues or highways in which the franchise is hereby granted be changed at any time during the term of this contract the Company shall change its tracks to conform with such new grades and lines, and during the construction of any public improvement upon said streets, avenues or highways the Company shall take care of and protect the track and appurtenances at its own expense; all to be done subject to the direction of the President of the Borough of Manhattan.

Twenty-sixth—The Company shall submit to the Board a report not later than November 1 of each year for the year ending September 30 next preceding, or at any other time upon request of the Board, which shall state:

Such report shall contain a statement of such gross earnings, the total miles in operation and the miles of railway constructed and operated under this contract, and such other information as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report, and may examine its officers under oath.

Thirtieth—The Company shall assume all liability to persons or property by reason of the construction or operation of the railway authorized by this contract, and it is a condition of this contract that the City shall assume no liability

whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or default of the Company.

Thirty-first—This grant is upon the express condition that the Company, within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of The City of New York the sum of two thousand five hundred dollars (\$2,500) either in money or securities, to be approved by him, which fund shall be security for the performance by the Company of all of the terms and conditions of this contract, especially those which relate to the payment of the annual charges for the privilege hereby granted, the efficiency of the public service rendered, the repairs of the street pavement, the removal of snow and ice and the quality of construction of the railway, and in case of default in the performance by the Company of such terms and conditions the City shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings; or after default in the payment of the annual charges shall collect the same, with interest, from the said fund after ten days' notice in writing to the Company; or in case of failure to keep the said terms and conditions of this contract relating to the roadway, heating and lighting of cars, fenders, wheel guards and watering of street pavements, the Company shall pay a penalty of fifty dollars (\$50) per day for each day of violation, and the further sum of ten dollars (\$10) per day for each car that shall not be properly heated, lighted or supplied with fenders or wheel guards, in case of the violation of the provisions relating to those matters.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

The Comptroller of the City, on complaint made, shall, in writing, notify the Company, through its President, to appear before him on a certain day, not less than ten (10) days after the date of such notice, to show cause why it should not be penalized in accordance with the foregoing provisions. If the Company fails to make an appearance, or, after a hearing, appears in the judgment of the Comptroller to be in fault, said Comptroller shall forthwith impose the prescribed penalty, or where the amount of the penalty is not prescribed herein, such amount as appears to him to be just, and without legal procedure withdraw the amount of such penalty from the security fund deposited with him. In case of any drafts made upon the security fund the Company shall, upon ten (10) days' notice in writing, pay to the Comptroller of the City a sum sufficient to restore said security fund to the original amount of two thousand five hundred dollars (\$2,500), and in default thereof this contract shall be canceled and annulled at the option of the Board, acting in behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City.

Thirty-second—The grant of this privilege is subject to whatever right, title or interest the owners of abutting property or others may have in and to the streets, avenues and highways in which the Company is authorized to operate.

Thirty-third—The words "notice" or "direction," wherever used in this contract, shall be deemed to mean a written notice or direction. Every such notice or direction to be served upon the Company shall be delivered at such office in the City as shall have been designated by the Company, or if no such office shall have been designated, or if such designation shall have for any reason become inoperative, shall be mailed in the City, postage prepaid, addressed to the Company at the City. Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing.

Thirty-fourth—If at any time the powers of the Board or any other of the authorities herein mentioned, or intended to be mentioned, shall be transferred by law to any other board, authority, officer or officers, then and in such case such other board, authority, officer or officers, shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

Sec. 3. This grant is also upon the further and express condition that the provisions of the Railroad Law applicable thereto, and all laws or ordinances now in force, or which may be adopted affecting the surface railways operating in the City, not inconsistent with the terms and conditions hereinbefore fixed, shall be strictly complied with by the Company.

Sec. 4. The Company promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms, conditions and requirements in this contract fixed and contained.

In witness whereof, the party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto signed and the corporate seal of said City to be hereunto affixed; and the party of the second part, by its officers, thereunto duly authorized, has caused its corporate name to be hereunto signed and its corporate seal to be hereunto affixed, the day and year first above written.

PUBLIC NOTICE.

PUBLIC NOTICE IS HEREBY GIVEN that at the meeting of the Board of Estimate and Apportionment, held this day, the following proceedings were had:

Whereas, The Brooklyn, Queens County and Suburban Railroad Company has, under date of September 19, 1907, made application to this Board for a grant of the right, privilege and franchise to construct, maintain and operate an extension to its existing street surface railway system upon and along Metropolitan avenue, from Dry Harbor road to Jamaica Plank road, in the Borough of Queens; and

Whereas, Section 92 of the Railroad Law and sections 72, 73 and 74 of the Greater New York Charter, as amended by chapters 629 and 630 of the Laws of 1905, provide for the manner and procedure of making such grants; and

Whereas, In pursuance of such laws, this Board adopted a resolution on October 18, 1907, fixing the date for public hearing thereon as November 15, 1907, at which citizens were entitled to appear and be heard, and publication was had for at least fourteen (14) days in the "Brooklyn Daily Eagle" and the "Brooklyn Citizen," newspapers designated by the Mayor, and in the City Record for ten days immediately prior to the date of hearing, and the public hearing was duly held on such day; and

Whereas, At a meeting of this Board held June 26, 1908, the Select Committee to whom the matter had been referred, submitted a report containing proposed conditions and a form of contract, and a resolution was adopted fixing September 18, 1908, as the date for the final public hearing; and

Whereas, At the meeting of the Board held September 18, 1908, a communication was received from the Company objecting to certain of the terms and conditions contained in the form of contract reported by the Select Committee, and an opinion was received from the Corporation Counsel stating that the matter should be referred back to the Select Committee, and such reference was accordingly made; and

Whereas, At a meeting of the Board held November 20, 1908, a further report was presented from said Select Committee recommending certain amendments in the form of contract previously presented, and the Chief Engineer was thereupon directed to prepare a contract in accordance with such recommendations, which amended form of contract has this day been received; and

Whereas, This Board has made inquiry as to the money value of the franchise or right applied for and proposed to be granted to the Brooklyn, Queens County and Suburban Railroad Company and the adequacy of the compensation proposed to be paid therefor; now therefore it is

Resolved, That the following form of the resolution for the grant of the franchise or right applied for by the Brooklyn, Queens County and Suburban Railroad Company, containing the form of proposed contract for the grant of such franchise or right, be hereby introduced and entered in the minutes of this Board, as follows, to wit:

Resolved, That the Board of Estimate and Apportionment hereby grants to the Brooklyn, Queens County and Suburban Railroad Company the franchise or right fully set out and described in the following form of proposed contract for the grant thereof, embodying all of the terms and conditions, including the provisions as to rates, fares and charges upon and subject to the terms and conditions in said proposed form of contract contained, and that the Mayor of The City of New York be and he hereby is authorized to execute and deliver such contract in the name and on behalf of the City of New York, as follows, to wit:

BROOKLYN, QUEENS COUNTY AND SUBURBAN RAILROAD COMPANY.

Proposed Form of Contract.

This contract, made this ..... day of 1909, by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board); and the Brooklyn, Queens County and Suburban Railroad Company, incorporated for the purpose of building, maintaining and operating a railroad (hereinafter called the Company), party of the second part, witnesseth:

In consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1. The City hereby grants to the Company, subject to the conditions and provisions hereinafter set forth, the right and privilege to construct, maintain and operate a double track extension to its present street surface railroad by the overhead electric system similar to that now used by the Company in the Borough of Queens, with the necessary wires and equipment, for public use in the conveyance of persons and property in the Borough of Queens, in The City of New York, upon the following route: Commencing at the intersection of Metropolitan avenue and Dry Harbor road, thence easterly in and upon Metropolitan avenue to a point where the said Metropolitan avenue intersects the Jamaica plank road, in the Village of Jamaica, together with the right to connect the aforesaid tracks with the existing tracks of the petitioner on Jamaica plank road.

The said route and connections hereby authorized are more particularly shown upon a map entitled: "Map showing the proposed extension in the routes of the Brooklyn, Queens County and Suburban Railroad, in the Borough of Queens, to accompany petition to the Board of Estimate and Apportionment, dated September 19, 1907," signed and approved by T. S. Williams, Vice-President, and W. S. Menden, Chief Engineer, which map is attached hereto, is made a part of this contract, and is to be substantially followed, provided that deviations therefrom and additional switches, crossovers and spurs which are consistent with the foregoing description, and the other provisions of this franchise may be permitted by resolution of the Board of Estimate and Apportionment.

Sec. 2. The grant of this privilege is subject to the following conditions, which shall be complied with by the Company:

First—The consent in writing of the owners of half in value of the property, bounded on said streets and avenues, to the construction and operation of said railroad shall be obtained by the Company within six months of the signing of this contract by the Mayor and a copy of such consents shall be filed with the Board within such time, or in the event that such consents cannot be obtained, the Company shall within two months thereafter,

make application to the Appellate Division of the Supreme Court for the appointment of Commissioners in the manner provided by the Railroad Law to determine if said railroad ought to be constructed; otherwise this grant shall cease and determine.

Second—The said right to construct, maintain and operate a double-track street surface railroad, as herein described, shall be held and enjoyed by the Company, its successors or assigns, for the term of twenty-five (25) years from the date when this contract is signed by the Mayor, with the privilege of renewal of said contract for the further period of twenty-five (25) years, upon a fair revaluation of such right and privilege.

If the Company shall determine to exercise its privilege of renewal it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two years and not later than one year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at a less amount than the sum required to be paid during the last year prior to the termination of the original term of this contract.

If the Company and the Board shall not reach such agreement on or before the day one year before the expiration of the original term of this contract, then the annual rate of compensation for such succeeding twenty-five (25) years shall be reasonable, and either the City (by the Board) or the Company shall be bound, upon request of the other, to enter into a written agreement with each other fixing the rate of such compensation at such amount as shall be reasonable, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate and at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board; one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of this original contract, and their report shall be filed with the Board within three months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall, in any event, be less than the sum required to be paid for the last year of this original contract. If, in any case, the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Third—The Company, its successors or assigns, shall pay to the City for this privilege the following sums of money:

The sum of one hundred dollars (\$100) in cash within thirty (30) days after the date on which this contract is signed by the Mayor.

During the first five (5) years after the commencement of operation of the extension herein provided for, annually on November 1, three (3) per cent. of its gross receipts for and during the year ending September 30 next preceding, and after the expiration of such five (5) years make a like annual payment into the treasury of the City of five (5) per cent. of its gross receipts. The Company shall pay such percentages only upon such portion of its gross receipts as shall bear the same proportion to its whole gross receipts as the length of such extension shall bear to the entire length of its line.

Fourth—Upon the termination of this original contract, or if the same be renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any other cause, or upon the dissolution of the company before such termination, the tracks and equipment of the company constructed pursuant to this contract within the streets and highways of the City shall become the property of the City without cost, and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

If, however, at the termination of this grant, as above, the City (by the Board) shall so order by resolution, the company shall, upon thirty (30) days' notice, in writing, from the Board, remove any and all of its tracks and other equipment constructed pursuant to this contract, and the said streets and highways shall be restored to their original condition at the sole cost and expense of the Company.

Fifth—The annual charges or payment shall continue throughout the whole term of the contract hereby granted, whether original or renewal, notwithstanding any clause in any statute or in the charter of any other railroad company providing for payments for railroad rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted, whether original or renewal, or of any part thereof, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this contract.

Sixth—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company, its successors or assigns, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of the City, acting by the Board, or its successors in authority, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Seventh—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual or other corporation a similar right or privilege upon the same or other terms and conditions, over the same streets, avenues or highways, and the right to make the

requisite and necessary connections with the tracks of the Company, its successors or assigns, which shall be constructed under this contract.

Eighth—The railway to be constructed under this contract may be operated by overhead electric power, substantially similar to the overhead electric traction now in use by street surface railways in the Borough of Queens, or by any other motive power, except locomotive steam power or horse power, which may be approved by the Board, and consented to by owners of property, in accordance with the provisions of law, and by the Public Service Commission for the First District of the State of New York.

Ninth—The Company shall begin construction of the extension herein authorized within the time prescribed by the Railroad Law of the State of New York, and such extension shall be completed and shall be in operation on or before December 31, 1909; otherwise this grant shall cease and determine.

Tenth—The said railway shall be constructed, maintained and operated subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided in the Charter of the City; and the Company agrees to make application to the Commissioner of Water Supply, Gas and Electricity for permission to string and maintain its electrical conductors in the streets covered by this grant.

Eleventh—The said railway shall be constructed and operated in the latest improved manner of street railway construction and operation, and the railway and property of the Company shall be maintained in good condition throughout the term of this contract.

Twelfth—The Company shall attach to each car run over the said railway proper fenders and wheel guards, in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities.

Thirteenth—All cars which are operated on said railway shall be heated during the cold weather in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities.

Fourteenth—All cars operated on said railway shall be well lighted by electricity, or by some lighting system equally efficient, or as may be required by the Board.

Fifteenth—The Company, so long as it shall continue to use any of its tracks in any street or highway covered by this grant, shall have and keep in permanent repair that portion of such street or highway between its tracks and the rails of its tracks and two feet in width outside of its tracks, under the supervision of the proper local authorities and whenever required by them to do so and in such manner as they may prescribe. In case of neglect by the Company to make pavements or repairs after the expiration of thirty days' notice to do so, or within thirty days after the publication of such notice in the City Record, the local authorities may make the same at the expense of such corporation, and such authorities may make such reasonable regulations and ordinances as to the rate of speed, mode of use of tracks and removal of ice and snow as the interest or convenience of the public may require.

Sixteenth—Any alteration which may be required to the sewerage or drainage system, or to any subsurface structures, pipes, conduits, etc., laid in the streets, on account of the construction or operation of the railway, shall be made at the sole cost of the Company and in such manner as the proper City officials may prescribe.

Seventeenth—Should the grades or lines of the streets in which franchises herein granted be changed at any time during the term of this contract, the Company shall, at its own expense, change its tracks to conform with such new grades and lines, and during the construction of any public improvement upon said street the Company shall take care of and protect the track at its own expense, all to be done subject to the direction of the President of the Borough of Queens.

Eighteenth—The Company shall at all times keep accurate books of account of the gross earnings from the privileges granted under this contract. The Company shall, on or before November 1 of each year, make a verified report to the Comptroller of The City of New York of the business done by the Company for the year ending September 30 next preceding, as he may prescribe. Such report shall contain a statement of the gross receipts from operation of the railway, together with such other information and in such detail as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report, and may examine its officers under oath.

Nineteenth—The Company shall assume all liability to persons or property by reason of the construction or operation of the railroad authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or default of the Company, giving the Company notice and the right to intervene in any action or proceeding wherein such damages may be sought.

Twentieth—This grant is upon the express condition that the Company, within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall file with the Comptroller of The City of New York a bond in the sum of ten thousand dollars (\$10,000), with a surety or sureties to be approved by him, which bond shall be security for the performance by the Company of all of the terms and conditions of this contract, especially those which relate to the payment of the annual percentages for the privilege hereby granted, the efficiency of the public service rendered, the repairs of the street pavement, the removal of snow and ice and the quality of construction of the railroad; and in case of default in the performance by the Company of such terms and conditions, the City shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings; or after default in the payment of the annual charges, shall collect the same, with interest, from the said fund after ten days' notice, in writing, to the Company; or in case of failure to keep the said terms and conditions of this contract relating to the roadway, heating and lighting of cars, fenders, wheel guards and watering of street pavements, the Company shall pay a penalty of fifty dollars (\$50) per day for each day of violation, and the further sum of ten dollars (\$10) per day for each car that shall not be properly heated, lighted or supplied with fenders or wheel guards, in case of the violation of the provisions relating to those matters. In the event of the forfeiture of the franchise for failure to complete the construction of the said extension and operate same on or before December 31, 1909, as herein provided, the said bond shall be returned to the Company.

Twenty-first—No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City. The grant of this privilege is subject to whatever right, title or interest the owners of abutting property or others

may have in and to the streets, avenues and highways in which the Company is authorized to operate.

Twenty-second—The words "notice" or "direction," wherever used in this contract, shall be deemed to mean a written notice or direction. Every such notice or direction to be served upon the Company shall be delivered at such office in the City as shall have been designated by the Company, or if no such office shall have been designated or if such designation shall have for any reason become inoperative, shall be mailed in the City, postage prepaid, addressed to the Company at the City. Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing. The Company agrees that notice printed in the City RECORD shall constitute sufficient notice within the meaning of this contract.

Twenty-third—If at any time the powers of the Board or any other of the authorities herein mentioned or intended to be mentioned shall be transferred by law to any other Board, authority, officer or officers, then and in such case such other Board, authority, officer or officers shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

Twenty-fourth—This grant is also upon the further and express condition that the provisions of Article IV. of the Railroad Law applicable thereto, and all laws or ordinances now in force, or which may be adopted affecting the streets and highways and the surface railroads operating in the City, not inconsistent with the terms and conditions hereinbefore fixed, shall be strictly complied with by the Company.

In witness whereof the party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto signed and the corporate seal of said City to be hereunto affixed, and the party of the second part, by its officers, thereunto duly authorized, has caused its corporate name to be hereunto signed and its corporate seal to be hereunto affixed the day and year first above written.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done.
