DEPARTMENT OF CORRECTION.

Report of Transactions, January 31 to February 6, 1910.

Communications Received.

From the Board of Estimate and Apportionment—Under date of February 1, 1910, Secretary transmits copy of resolutions adopted January 28, 1910, calling attention to section 1542 of the New York City Charter in regard to requests for transfers of funds. The Board suggests that all requests for such transfers, pursuant to section 237 of the Charter, shall be filed, as far as may be practicable, with the Board before the depletion of the appropriation which is to be replenished. On file with General Book-keeper and Auditor.

From the Board of Estimate and Apportionment—Assistant Secretary transmits copy of resolution adopted January 28, 1910, in regard to compensation of per diem employees, as fixed in accompanying schedule. Receipt acknowledged. This Department is complying with schedule of per diem rates as established.

From the Judges of the Court of General Sessions—In regard to visits of lawyers and their clerks to prisoners in the City Prison, Manhattan. The Judges order that rules in regard to such visits as set forth in order of April 20, 1909, be strictly enforced, with the amendment made by striking out the words "except as an ordinary visitor."

To Warden, Deputy Warden and Head Keeper, City Prison, Manhattan: You are hereby directed to comply with the resolutions adopted by the Court of General Sessions on April 20, 1909, and as amended on January 10, 1910.

To the Clerk of Court of Special Sessions: Enclosing copy of above order.

From Civil Service Commission—Acknowledging receipt of copies of resolutions adopted by the Board of Estimate and Apportionment and the Board of Aldermen, in 1906, fixing grades and salaries of Keepers in the Department of Correction. The Commission asks for further information, viz:

Are the duties of all Keepers in the Department practically the same, regardless of the salary paid?

Answer—Practically, yes.

Is it customary in your Department to advance the salaries of all Keepers when they have served the necessary length of time, provided their services have been satisfactory?

Answer—If services have been satisfactory, yes.

Above information given by Commissioner upon data furnished as to past procedure in this Department.

Civil Service Commission also states that promotion examinations will be held for Keepers who are eligible for increase of salary, as soon as possible.

Action of Department in increasing salaries of Keepers on January 17, 1910, is hereby rescinded, in accordance with ruling of Civil Service Commission. Promotions deferred until such time as Keepers shall have passed the required examinations.

Copies of letter from Civil Service Commission in regard to promotion examinations for Keepers before their salaries can be increased, sent to Heads of Institutions in this Department.

From the Comptroller—Returning proposal of James D. Browne for groceries, for substitution of surties. Substitution approved.

From the Comptroller (Audit)—Stating that a voucher had been filed in the Department of Finance in favor of Peter A. Mallon, Warden of District Prisons, for \$18.25, for disbursements made in visits to the prisons. The Comptroller asks for

information as to location of these prisons; also as to the necessity of this expenditure. Comptroller informed as to location of the nine (9) District Prisons. The Warden is required to visit each one daily. It is considered more economical to pay car fare, rather than to have a horse and wagon.

From the Department of Public Charities—Enclosing request for the transfer of Edwin A. Malone, Clerk, from Department of Correction to that of Public Charities. Approved. Consent in duplicate, signed and returned.

From Heads of Institutions—Reporting that meats, fish, bread, milk, etc., for week ending January 29, 1910, agreed with specifications of the contracts. On file.

From Heads of Institutions—Reports, census, labor, hospital cases, punishments, etc., for week ending January 29, 1910. On file.

From City Prison, Manhattan—Report of fines received during week ending January 29, 1910: From Court of Special Sessions, \$90; from City Magistrates' Court, \$10. Total, \$100. On file.

From City Prison, Manhattan—Report of fines received during month of January, 1910: from Court of Special Sessions, \$95; from City Magistrates' Courts, \$261. Total, \$356. Delivered to City Chamberlain, \$356. On file.

From District Prisons—Report of fines received during week ending January 29, 1910: From City Magistrates' Courts, \$549. On file.

From District Prisons—Report of fines received during month of January, 1910: From City Magistrates' Courts, \$2,448.50. Delivered to City Chamberlain, \$2,448.50; Health Department Pension Fund, \$3. Total, \$2,448.50. On file.

From District Prisons—Warden of District Prisons reports that Michael McCaffrey, committed in Night Court for vagrancy, was found to be ill with diphtheria. Board of Health notified, and prisoner transferred to Willard Parker Hospital, where two Keepers have been assigned to guard him, day and night. Cell, bedding, etc., thoroughly disinfected by the Department of Health. On file.

From Penitentiary, Blackwells Island—List of prisoners received during week ending January 29, 1910: Men, 63; women, 7. On file.

From Penitentiary, Blackwells Island (Manufacturing Bureau)—Reporting rejection of boys' lasts, received from P. J. Constant, "not like sample; not right shape." Request contractor to make proper delivery at once. Send copy of Warden's letter.

From Penitentiary, Blackwells Island—Warden reports that articles required by the Department of Bridges, Borough of The Bronx, and by Department of Parks, Brooklyn and Queens, cannot be furnished at present. Approved. Certificate transmitted.

From Workhouse, Blackwells Island—Reporting that fines paid at Workhouse during week ending January 29, 1910, amounted to \$45. On file.

From Workhouse, Blackwells Island—Death, on February 4, 1910, of Edward Carlin, aged fifty years. Friends unknown. On file.

From Harts Island—Warden reports that sterilizer, etc., which was to be put up by A. Winternitz, contractor, in new laundry building, had been received, but that new building (which is being erected by Department labor) is not ready for it. Warden thinks that the basement of Pavilion No. 1 is in every way a suitable place for this plant, and Department Inspector approves of suggestion of Warden, and states that there will be no extra cost on contract. Recommendations approved.

From Harts Island—From Mr. F. Boyle, relative to contract of M. A. Ryan, Inc., for isolation building, asking for an extension of time, owing to the very severe weather since contract was awarded. Receipt acknowledged. Mr. Boyle informed that the People's Surety Company has been notified that thirty-five of the one hundred days allowed for the completion of the contract have passed, and work has not yet been begun. The Department may have to call on the Surety Company to begin work.

From City Cemetery, Harts Island—List of interments made in City Cemetery during week ending January 29, 1910. On file.

From City Prison, Brooklyn—From Warden, stating that he had been informed that former Commissioner Barry had received a letter from the Clerk of a Brooklyn Court to the effect that he (the Warden) "has refused to receive" prisoners surrendered by persons who were on the bail bonds of such prisoners. The Warden states that he has done this when the prisoners had not been regularly committed to the prison. In the few cases which have occurred, the Warden has asked that such prisoners be regularly committed, and he has then received them. Copy of letter from Mr. Joseph L. Kerrigan, Clerk of the Court of Special Sessions, and copy of Warden's letter sent to Corporation Counsel and his opinion asked in regard to receiving prisoners when surrendered on bail bonds, but for whom no commitment is presented.

From City Prison, Brooklyn—From Messrs. D'Oench & Yost, architects, stating that samples of plumbing fixtures for Raymond Street Jail Improvement, submitted by Brady & Co., contractors, and now at central office of the Department, are satisfactory. Department Inspector recommends that fixtures, as proposed by contractors, be adopted. Architects informed that fixtures are approved.

From City Prison, Brooklyn—From Martin J. Burke, in charge of Department Stables, stating that old harness turned over by the Sheriff's Office to the Department of Correction, and which has been in use for some years, is not worth repairing. On file.

From City Prison, Brooklyn—Report of fines received during week ending January 29, 1910: From Court of Special Sessions, \$25; from City Magistrates' Courts, \$16. Total, \$41. On file.

Communications Transmitted.

To the State Commissioner of Labor—Transmitting list of contracts awarded by the Department of Correction since date of last report, January 20, 1910, with amounts of such contracts, names of contractors and of the sureties thereon.

To the People's Surety Company—Stating that Contractor M. A. Ryan, Inc., has delayed beginning work on contract for Isolation Building, Harts Island. In accordance with terms of contract, work must be completed within one hundred days and thirty-five days have already passed. The Department may have to call on surety to complete the work.

To Heads of Institutions, Department of Correction—It is hereby ordered that all horses in the Department of Correction be numbered, and the stalls also numbered to correspond. Martin J. Burke, in charge of Central Stables of the Department, will do the numbering of horses at all Department stables.

To Warden of the Penitentiary, Blackwells Island—Requisitions for all supplies for manufacturing purposes, for 1910, must be prepared with a view to having all materials delivered before December 31, 1910.

Appointed.

Benjamin Davidson, M. D., Resident Physician at the Penitentiary, Blackwells Island, at \$1,200 per annum, to date from February 3, 1910.

Action Rescinded.

The action of January 17, 1910, increasing the salaries of the following Keepers is hereby rescinded:

Daniel Madigan, City Prison, Manhattan;
Abe Goodman, City Prison, Manhattan;
Edgar G. McNeerney, City Prison, Brooklyn;
James McNamee, Workhouse, Blackwells Island;
John J. Norton, Penitentiary, Blackwells Island;
John C. MacNiffe, District Prisons;
Frederick L. Morehead, District Prisons;

—in compliance with letter from Civil Service Commission. Keepers required to pass promotion examination.

Resigned.

BOROUGH OF MANHATTAN.

Report of the President for the Year Ending December 31, 1909.

City of New York,
Office of the President of the Borough of Manhattan,
City Hall, February 7, 1910.

Hon. WILLIAM J. GAYNOR, Mayor:

Dear Sir—In accordance with sections 1544 and 383 of the Charter, I herewith transmit reports of the Bureaus under my jurisdiction for the year ending December 31, 1909.

Yours respectfully,

GEORGE McANENY, President, Borough of Manhattan.

Offices of Commissioner of Public Works, Manhattan,
Nos. 13 to 21 Park Row,
February 7, 1910.

Hon. GEORGE McANENY, President, Borough of Manhattan:

Dear Sir—The following is a summary of the work done by the Department of Public Works and by the Bureau of Buildings during the year 1909:

The Cashier collected \$555,631.74 for permits for various purposes.

The contracts entered into numbered 200, and involved an estimated cost of \$3,878,171.38. One hundred and sixty-eight contracts were completed at an aggregate cost of \$2,445,810.59.

Twenty-five and one-half miles of new pavement were laid, the total mileage of paved streets being 439.13. More than one-half the area of new pavement laid was sheet asphalt. The average cost of sheet asphalt on a six-inch concrete foundation, with five years' guarantee of maintenance, was \$2.13. The price in 1908 was \$2.40½. For restoring pavement damaged by fire burns the sum of \$16,501 was expended. The amount paid for similar repairs in 1908 was \$27,811. Thirty-one thousand eight hundred permits were issued to make openings in pavements, an increase of 4,000 over the preceding year. Property owners applied for and received 4,635 permits to repair sidewalks.

Ten hundred and thirty permits were issued for bay windows and for ornamental projections, the receipts for these permits being \$17,405.39.

To the sewerage system there were added 1.67 miles of sewers and 14 receiving basins, making the total length of the sewerage system 523.34 miles with 6,348 receiving basins.

The public baths in this Borough were patronized by male and female bathers numbering 5,271,422.

The Bureau of Incumbrances received and attended to 4,350 complaints of obstructions, made 720 seizures and removals of incumbrances; issued 4,398 permits to place building material on streets, 729 permits to cross sidewalks with horses and carts and 602 permits to erect sheds over sidewalks.

The Bureau of Buildings filed plans and specifications for the erection of 995 new buildings at an estimated cost of \$131,246,483.

Information in detail concerning the work of the various Bureaus during the year may be found in the following reports hereto annexed:

1. Financial statement (quarterly and annual).
2. Report of the Cashier.
3. Contracts entered into and completed.
4. Report of Chief Engineer of Highways.

It will be seen that a large amount of work was done this year, practically 50 per cent. more than that for 1908. This was made possible by the large number of contracts being carried over from the previous year and registered early in 1909.

Granite Block Pavement.

As is usual, the granite block pavement has been laid on streets where the traffic is greatest.

The most important contract let was that for replacing the asphalt pavement on First avenue, between Twentieth street and Fifty-ninth street, except where paved with asphalt under guarantee; the same being portions of the abandoned contracts for keeping in repair that portion of First avenue with asphalt.

The cost of the asphalt repairs was so great that it was deemed a business proposition to repave the avenue with granite, even if the guarantee period had not expired although abandoned.

The total amount of granite block pavement laid was 3.82 miles and the average cost of same, figured on the bids received during 1909, was \$3.14; the pavement being laid on six inches of concrete with one year's guarantee. The work last year cost \$2.99 per square yard.

Sheet Asphalt Pavement.

More than one-half of all the pavement laid in 1909 was sheet asphalt. Part of it was in renewing the old worn out pavements with the same material and the other new work.

Central Park West, an abandoned contract of the Atlantic Macatraz Asphalt Company, was repaved late in the fall, as the cost of maintaining it was exceedingly heavy. This was laid with the close binder used so successfully on Chambers street and referred to in my report of last year.

One of the most important works in sheet asphalt was the widening of Fifth avenue, from Twenty-fifth to Forty-seventh street, except the two blocks widened in 1908. This consisted in setting back the curb 7½ feet on each side and paving the widened space with asphalt. This has been a very successful improvement and the property owners on the street were so well pleased with it that a petition came in late in the season for widening the west side of the block between Forty-seventh and Forty-eighth streets, and this was also completed during the year.

The average cost of sheet asphalt pavement on bids received during 1909, laid on six inches of concrete with a five-year guarantee, has been \$2.13, as corresponding to \$2.40½ in 1908.

There were 13.81 miles of sheet asphalt laid during the year.

Asphalt Block.

Asphalt block pavement was continued in use on grades and where same was petitioned for by the property owners, which often occurs in the northern part of the Borough.

The average price for asphalt block pavement on bids received during 1909, on six inches of concrete with a five-year guarantee, has been \$2.70 per square yard, as against \$2.83 in 1908.

The total amount of this pavement laid is 5.57 miles.

Wood Block.

Wood block has also been in considerable demand, the work which is being done having been done only on petition by the property owners. It is particularly desirable on account of its noiselessness and its principal objection is its slipperiness. It should not be laid upon grades of more than two per cent. on that account.

The average cost of this pavement on bids received during 1909 on six inches of concrete with a five-year guarantee has been \$3.34, as against \$4.27 for 1908. The reason for this decrease in price is probably due to a great extent to the change in specifications.

The specifications for 1908 called for the blocks to be treated with a mixture composed of 75 parts of creosote oil and 25 parts of resin; also for the blocks to be 3½ inches deep and the period of maintenance to be ten years.

The specifications under which the bids were received this year require that the mixture should be of antiseptic and waterproofing oil of a specific gravity of 1.12; that the blocks should be four inches deep and the period of maintenance five years.

It will be noted that these two changes would cause a reduction in the cost, namely: the disuse of resin and the reduction of the maintenance period from ten to five years and that the change from 3½ to 4 inches in depth would cause an increase in price; so that it is difficult to tell just to which one this change should be attributed.

The amount of this pavement laid during the year was 2.29 miles and a number of contracts remain unfinished.

Regulating, Grading, etc.

In addition to the paving, work has been carried on upon eight contracts for regulating, grading, etc., four of which have been completed.

ASPHALT REPAIRS.

Sheet Asphalt.

The keeping in repair the asphalt pavements out of guarantee is a very important part of the work in this Bureau, and on account of its detail requires a great amount of work.

On January 1, 1909, there were out of guarantee 1,865,795 square yards of sheet asphalt. Of this there were maintained by the Park Department 19,150 square yards and by the different street railroads 98,690 square yards, leaving to be maintained by the Bureau 1,747,950 square yards.

Of the above amount there were resurfaced during the year 91,470 square yards, leaving at the end of the year 1,656,480 square yards.

During the year there expired 539,160 square yards, of which there were maintained by the various street railroads 27,630 square yards, leaving an amount to be maintained by the Bureau on January 1, 1910, of 2,168,010 square yards.

In addition there were maintained by the various street railroad companies 126,324 square yards and by the Park Department 19,150 square yards, leaving a total in the Borough out of guarantee of 2,313,489 square yards.

On account of the maintenance period expiring at different seasons of the year and as certain streets have been resurfaced as above, the total average area maintained by the Bureau during 1909 was 1,905,420 square yards.

For keeping this in repair there were paid for wear and tear \$223,595, or an average per yard of 11.7 cents. In 1908 the average cost was 17.7 cents.

The area actually laid in 1908 was 15 per cent. of the total area maintained, while in 1909 it was 12 per cent. of the actual area maintained; the cost for the four previous years being as follows:

	Percentage Relaid.	Cost Per Yard in Cents.
1906.....	23	34
1907.....	18	20
1908.....	15	17.7
1909.....	12	11.7

The reduced cost, as shown above, is caused by a reduction in the unit price as well as the increased amount to be maintained, the judicious resurfacing of several of the worst streets and possibly each year more careful looking after the work.

Asphalt Block.

On January 1, 1909, there were out of guarantee 337,766 square yards, of which the various street railways maintain 10,482 square yards, leaving to be maintained by the Bureau 327,284 square yards.

Guarantees expired during the year on contracts amounting to 35,782 square yards, of which there were maintained by the various street railway companies 1,790 square yards and by the Bureau 33,992 square yards, making the amount to be maintained by the Bureau on January 1, 1910, 361,276 square yards and by the various street railways 12,272 square yards, or 373,548 square yards.

The average amount maintained by the City during 1909 was 343,020 square yards, and there were paid for wear and tear for this work \$37,483, or per square yard 10.9 cents, which is one-tenth of one cent more than in 1908. But it must be understood that in 1908 there were not funds sufficient to continue the repairs during the year, but in 1909 they were kept in good condition all the time and it is probable that in 1910 the cost can be reduced slightly but not to any great extent.

The total amount paid for asphalt repairs of all kinds is as follows:

Sheet asphalt, wear and tear.....	\$223,595 00
Block asphalt, wear and tear.....	37,483 00
Fire burns	16,501 00
Unknown causes	4,783 00
Total.....	\$282,362 00

The cost of this same work in 1908 was \$276,271.58. It will be noticed that during 1909 the work cost \$16,000 more than in 1908, although there were about 800,000 square yards more of asphalt to be maintained.

FIRE BURNS.

Asphalt.

A large amount of pavement is destroyed every year by bonfires built by boys or other irresponsible persons upon the asphalt pavements. While the cost of the same is being reduced materially each year, still it seems that it is very much larger than it should be.

In one case serious damage was done by fires on a pavement which had not been laid more than two weeks.

The fire burns paid for in 1909, as given above, amounted to \$16,501, while in 1908 the cost was \$27,811. It must be understood, however, that the above represents the cost only of the fire burns in guaranteed streets, as the repairs to streets out of guarantee are paid for in the maintenance contract. This shows a gratifying decrease in cost, but the actual cost should be decreased each year as the amount of pavement under guarantee decreases each year.

Wood.

In 1909 there were 90 square yards of wood pavement damaged by fires, which were repaired at an expense of \$232, as against 176 square yards in 1908 repaired at an expense of \$464.48.

Abandoned Contracts.

The keeping in repair the pavement on the streets where the contracts have been abandoned has been done by letting a contract early in the season for making repairs during the year 1909. The cost of same was paid for out of the retained percentages and a fund created by the Board of Aldermen and the Board of Estimate and Apportionment, amounting to \$50,000, for this especial purpose.

The streets have all been kept in good condition during the season except the last few weeks, where, on some of them, the money has been exhausted and the necessary repairs could not be made.

As was stated under the different kinds of pavement, Central Park West, from Fifty-ninth street to One Hundred and Tenth street, has been repaved with asphalt, and a portion of First avenue repaved with granite on account of the excessive expense of keeping the same in repair.

Openings in Pavements.

The openings made in the different kinds of pavement by the different corporations, plumbers and the Water Department are the source of more trouble to the users of the streets and damage to the pavement than almost any other cause. It is impossible to prevent them entirely, but an endeavor has been made to keep their number to a minimum and to have them restored as soon as possible.

During the year there have been 31,800 permits issued for openings, an increase of about 4,000 over last year. This is unquestionably due to the change in the financial condition, as the number issued in 1908 was lower than usual. While probably all of these were not used, they represent practically the number of openings made in the pavements under the authority of this Bureau.

In addition to these, a large number has been made by the Water Department in making their repairs, as this Department does not obtain permits for such work. Of the above 2,203 were plumbers' permits.

In addition to such openings there were 270 building operations in carrying out which pavements were disturbed, 263 of which have been completed and which require the laying of 61,126 square yards of pavement. Seven remain incomplete, and these will require the restoration of about 550 square yards of pavement.

Sidewalks.

During the year 4,635 permits were issued to property owners to repair sidewalks, and 693 issued to builders for crossing sidewalks for excavating and filling lots; 9,232 notices were served on property owners, occupants of premises, to repair sidewalks.

In addition, three contracts were carried out for repairing sidewalks, and one for fencing vacant lots.

During the year eight resolutions were passed by the Board of Aldermen, authorizing the renumbering of streets or parts of streets, and the streets have been renumbered and the property owners notified to change the numbers with the exception of Fort Washington avenue, from One Hundred and Fifty-ninth to Elwood street. Plans are being prepared now.

Viaducts.

During the year the contracts for painting the Riverside Drive Viaduct as well as the One Hundred and Fifty-fifth Street Viaduct were completed. In both instances, however, the original contractor threw up the contract and the same was finished by the surety companies.

The cost of the work on the Riverside Drive Viaduct was \$12,377, and on the One Hundred and Fifty-fifth Street Viaduct, \$9,745.

Chemical Laboratory.

I quote herewith the report of the Chemist of this Bureau, and can only add that I think his work is extremely important and has been of much value to the Bureau:

"Two thousand three hundred and thirty-seven (2,337) samples were collected by our own representatives either directly from the line of work or from the plants of the various contractors. These samples include both the finished product as well as the several constituents used in manufacturing these products, and are classified as follows:

"Samples Collected.	
"Refined asphalts	284
"Asphalt cements	275
"Asphalt wearing surfaces.....	783
"Asphalt blocks	31
"Wood blocks	331
"Sands	266
"Paints	129
"Fluxes	76
"Miscellaneous	175
"Total.....	2,347

"Analyses of these samples were made in such numbers and in such a manner that at all times we attempted to have adequate control of the quality of the materials delivered to the line of work.

"In addition to the above mentioned samples, contractors submitted six hundred and ninety-eight (698) samples in connection with their bids, classified as follows:

"Samples Submitted.	
"Crude asphalts	37
"Refined asphalts	92
"Asphalt cements	65
"Asphalt blocks	42
"Wood blocks	101
"Fluxes	90
"Paving pitches	57
"Creosote oils	17
"Sands, etc.	70
"Miscellaneous	127
"Total.....	698

"A summary of the number of analyses and tests made of samples from both of the above lists is as follows:

"Summary of Tests Made During 1909.	
"Refined asphalts	293
"Asphalt cements	275
"Asphalt blocks	27
"Asphalt wearing surfaces.....	145
"Wood blocks	431
"Creosote oils	26
"Sands	227
"Paints	135
"Paving pitches	25
"Miscellaneous	23
"Total.....	1,607

"Detailed reports, giving the results of the above tests, are in your possession. as, also, reports on investigations regarding coal tar creosote oils, water gas tars, wood blocks, oil asphalts, paint oils and other subjects.

"In addition to our regular work, an investigation was carried on for the Superintendent of Public Buildings and Offices relating to lubricating oils, and specifications were drawn up for that Bureau for both engine and cylinder oils.

"During the year the structures of the Riverside Drive Viaduct and the One Hundred and Fifty-fifth Street Viaduct were repainted, and this necessitated analyzing numerous samples of pigments, oils and paints. It is gratifying to know that these structures, after considerable delay, have now been repainted in strict accordance with the requirements as laid down in the specifications for this work.

"The most notable feature of the past year is the marked improvement that has been made in the manufacture of the wood blocks of our wood block pavements. The blocks, as laid down to-day show a more uniform and far better penetration than formerly. Consequently the blocks possess a higher grade of resistance to water absorption, which is equivalent to a greater resistance to those influences causing decay.

"At the same time these blocks, although they contain the full amount of oil demanded by the specifications, have been impregnated with a much smaller proportion of creosote or waterproofing oil than was formerly used. This is a condition which is much to be desired, since an excess of oil results in a gradual oozing out of this excess, causing annoyance to pedestrians, and hindering traffic in general unless the surface is well sanded.

"The favorable results obtained to-day are due, in part, to the better quality of the waterproofing oil that is being used in treating the blocks; that is, although the specific gravity of the oil has remained constant, the viscosity is considerably less, permitting a better penetration.

"The chief cause, however, of these favorable results is a better process which the manufacturer follows in treating the blocks and certain investigations carried on by us in our laboratory were the direct means of enabling the manufacture to do this.

"It is in this way, namely, through experimental work, that the laboratory is, can be and should be of the greatest value to the City. Unfortunately, the force of the laboratory to-day, consisting as it does of the Chemist and one Attendant, is so small and the routine work demands so much attention, that comparatively little time can be devoted to research and experimental work. The past year's work represents the maximum amount that can be accomplished by our force, and yet the amount of work that ought to be done is continuously increasing. Moreover, every now and then important special matters arise, requiring immediate attention, so that the routine work suffers seriously in consequence, and construction work is often well under way or finished before analyses can be completed.

"For these reasons the laboratory force ought to be increased by several laboratory Assistants. These men could be trained to carry on the routine work so that more attention could be paid to special work, to research work, to the collection of data, so that more suitable specifications could be drawn, thus permitting of wider competition and so that better results in general might be obtained.

"The additional expense of such Assistants would be negligible compared to the benefits that the City would derive, for, with several trained Assistants, not only would the work be greatly expedited, but the Chemist himself could give his attention to far more productive and important work."

Commissioner of Public Works, Bureau of Sewers, Nos. 13 to 21 Park Row, New York, January 7, 1910.	
Hon. GEORGE McANENY, President, Borough of Manhattan:	
Dear Sir—I transmit herewith the annual report showing the work performed and operations carried on by this Bureau during the year 1909.	
The following is a brief statement of what has been accomplished and reference is made to accompanying schedules and tables for all details:	
Miles.	
New sewers paid for by assessment.....	1.33
Alteration and improvement to sewers paid for by assessment.....	.09
Repairs and reconstruction.....	.19
New sewers built by private parties under permit from this Bureau.....	.34
Total.....	1.95

In connection with the above work fourteen receiving basins were constructed. It appears, therefore, from the above, that 1.67 miles of sewers and fourteen receiving basins were added to the Borough system, making a total of 523.34 miles of sewers and 6,348 receiving basins. Classified according to material of construction there were:

Brick sewer, linear feet.....	692
Pipe sewer, linear feet.....	6,061

The cost of construction was as follows:	
New sewers and basins paid for by assessment.....	\$63,251 96
New basins paid for by assessment (built separately).....	1,525 40
Alteration and improvement to sewers paid for by assessment.....	5,005 50
Reconstruction work.....	9,894 15
Total.....	\$79,677 01

Work now in progress is as follows:	
Wooden barrel sewer, linear feet.....	1,194
Brick sewer, linear feet.....	3,652
Pipe sewer, linear feet.....	1,789
Total.....	6,635

The estimated cost of this work is \$89,634.64.
Contracts have been awarded but not executed for sewer in Park avenue, between Thirty-seventh and Thirty-eighth streets, and sewer in One Hundred and Fiftieth street, between Riverside drive and Broadway, and receiving basins at the northeast and southeast corners of One Hundred and Ninety-third street and Fort George avenue (estimated cost, \$4,812.81).
There is also advertised for letting a sewer in Theatre alley, between Ann and Beekman streets (estimated cost, \$4,000).
The work mentioned in the above statement has, as in previous years, been located in widely separated parts of the City. The work in the Dyckman tract, in the north-

erly part of the Borough, is now finished, with the exception of one incomplete contract in Emerson street, with branches in Broadway. Adjoining this tract on the west is a section of undeveloped territory which has recently been mapped and the streets declared legal streets, and property owners are taking steps to have sewerage and drainage plans adopted so that the improvement of this property may be entered upon the next season.

Other works have been constructed in various parts of the City, the most south-erly being at Avenue A, between Eleventh and Twelfth streets. In the lower part of the City there are a great number of single blocks which are without public sewers. Altogether this amounts to quite a large mileage. The total length of unsewered streets in all parts of the Borough is estimated at 23 miles. Although in built up portions of the City drainage is secured to nearby sewers, still from time to time new buildings are erected and new sewers are required. The immense traffic in such streets, however, causes such work to be put off until it becomes an absolute necessity.

Considerable work has been done by public and private corporations. The Public Service Commission, under an act of the Legislature, is building the largest sewers now under construction in the City in connection with the Williamsburg Loop Subway notably a large outlet in Duane street, from Centre street to the Hudson River. This Commission ignores the City authorities, claiming the right to do such work without supervision. Realty companies and private individuals have also constructed sewers under permit from this Department, and under its supervision, on the ground that the process required by the Charter was too slow to meet their needs.

There is no great area in this Borough now lacking a system of sewers. There are, of course, several isolated tracts which are likely to be opened for improvement in the near future. The main work, however, is likely to be the reconstruction of worn-out and inadequate sewers, and river-front work in connection with the extension of outlets to ends of piers when the same are constructed from time to time by the Department of Docks and Ferries.

The law requires the City to be divided into sewerage districts and that a drainage plan be designed and adopted which shall be filed in the offices of the Register, Board of Estimate and Apportionment and the Corporation Counsel. The sewers filed under the original plan were not all built and amendments thereto are now filed singly. It would be a saving of time and expedite public improvements if sewers for all streets now unprovided with the same were filed so that no delay would occur when these separate works are called for, and I recommend that such maps and plans be made.

The pipe sewer system laid in the years 1868-1873 should be rebuilt, being much out of repair and costing large sums to keep in order and liable to frequent stoppage, which often results in great damage to adjacent property. There are about fifty-five miles of such sewers.

Without repeating statements of my last report, I may say the conditions are similar to those described in that report in reference to work of the Public Service Commission, the work of corporations and others. The same might be said of the discharge of sewage into the waters of the Hudson, Harlem and East Rivers. Some new outlets have been constructed and are now under way, and these will be continued as fast as piers for such extensions are available.

In the contracts which have been made after public letting it will be seen that the work is now in a few hands, not more than four to six bids being received in answer to any advertisement. An examination of such bids shows that material items, such as rock excavation and timber, are bid for at 00 or one cent per unit of quantity. This is known as an unbalanced bid, it being understood that the proper prices for such items are added to other items where no variation in quantity is expected. Such bids are highly objectionable, as they often result in a change in the order of bidders on final estimate.

To correct this evil I recommend the adoption of the methods of percentage bidding. This system is coming into vogue in many places, and is used with success in the Borough of Brooklyn. The method is set forth in the following paragraph, taken from the Brooklyn contract and specification:

"The following Engineer's preliminary estimate of total cost for the completed work is to be taken as the one hundred per cent. (100%) basis for bidding. Proposals shall state a single percentage on such one hundred per cent. (100%) cost (i. e., such as 95%, 100% or 105%) for which all material and work called for in the contract and invitation to bidders is to be furnished to the City. Such percentage, as bid, shall apply to all unit items specified in the Engineer's preliminary estimate to an extent necessary to complete the work described in the contract."

This method absolutely eliminates all chance for unbalanced bids and secures reasonable prices for each item.

The maintenance of our sewer system has been directly supervised by Mr. Andrew A. Noonan, Superintendent of Maintenance, whose time is devoted to the work of cleaning sewers and receiving basins, and by Mr. William Klein, who has charge of the repair work of mechanics and who investigates and reports on the matter of complaints.

A general contract for repairs to sewers has been in force during the past year, and all work too large to be properly handled by our force of mechanics has been done under it. Certain deficiencies in the year 1908 contract were removed and the present contract has worked satisfactorily.

I recommend that a similar contract be let for the coming year. The same order could be applied with profit to cleaning sewers and basins. Nothing is of greater benefit to the City at large and more productive of good sanitary conditions than a sewer system which is clean and in good running order. A contract of this character was in force some years ago, and resulted in great efficiency and promptness in carrying on that branch of the service.

The Assistant Engineer in charge of the drafting room reports that the following work was done:

Sixteen file plans, 4 files, 4 plans each.

Nineteen contract plans, of which 15 were for sewers and 4 for receiving basins. Twenty-four inspectors' books.

Six benefit maps.

Forty-four assessment lists, consisting of 100 sheets of maps and showing 1,244 separate pieces of property.

In addition to the above the new series of large scale working maps was increased by 33 sheets, bringing the total number up to 74, of which 49 are completed and 25 in progress. The Assistant Engineer states that for this purpose actual examination of sewers, as constructed, had to be made, and of these there were required 1,047, of which 620 were made this year. Further describing this work he states that these sheets cover most of the territory between Forty-fourth and One Hundred and Fourteenth streets, from river to river. Those completed during the past year cover the territory between Fifty-ninth and One Hundred and Fourteenth streets, west of Central Park West. Their preparation involved great care in consequence to the many changes in the sewers made by the construction of the underground railway.

During the past year 853 permits for house connections were issued and 602 for repairs.

There were tested in the Cement Laboratory 280 samples of cement (three briquettes to each sample) making 840 tests altogether. Out of the total only 6 samples were rejected as not coming up to the specifications.

Accompanying this report you will find statements as follows:

1. Plans made.
2. Surveys under way.
3. Sewers and basins petitioned for.
4. Sewers completed in 1909 (assessment work).

All of which is respectfully submitted.

HORACE LOOMIS, Chief Engineer and Acting Superintendent of Sewers.

STATEMENT No. 1.

Plans were made for the following works:

Sewer in West One Hundred and Seventy-seventh street, from Fort Washington avenue to Riverside drive.

Sewer in One Hundred and Seventy-fourth street, between Audubon and Wadsworth avenues.

Sewer in One Hundred and Thirty-fourth street, between Twelfth avenue and 275 feet easterly therefrom.

Sewer in Emerson street, between Vermilyea avenue and summit east.

Sewer in One Hundred and Fifty-sixth street, between Harlem River and Eighth avenue.

Sewer in Third avenue, west side, between Twelfth and Thirteenth streets.

Extension to outlet sewer at the foot of One Hundred and Eighteenth street, Harlem River.

Alteration and improvement to sewer in One Hundred and Nineteenth street, between Third and Park avenues.

Sewer in Theatre alley, between Ann and Beckman streets.

Reconstruction of outlet sewer into Harlem River, between One Hundred and Thirty-fourth and One Hundred and Thirty-fifth streets, and in Park avenue, between One Hundred and Thirty-fourth and One Hundred and Thirty-fifth streets.

Sewer under Pier 40, North River.

Barrel sewer under pier at foot of Twenty-sixth street, East River.

Sewer on west side of Park avenue, between Thirty-seventh and Thirty-eighth streets.

Sewer in One Hundred and Fiftieth street, between Riverside drive and Broadway.

Sewer under Pier (old) 8, North River.

Receiving basin north side of Manhattan street, about 87 feet west of Twelfth avenue.

Receiving basin northeast corner One Hundred and Eleventh street and Riverside drive.

Receiving basins northeast and southeast corners One Hundred and Ninety-third street and Fort George avenue.

Receiving basins, both sides of Nagle avenue, between Academy and Dyckman streets, etc.

STATEMENT No. 2.

Surveys are under way for the following works:

Sewer in Tompkins street, between Rivington street and Houston street.

Outlet sewer under pier at foot of Fortieth street, North River.

Outlet sewer under Pier (old) 8, North River.

Survey for sewer in Third avenue, between Twenty-first and Twenty-second streets.

Survey for alteration and improvement to sewer in Fifty-sixth street, between First and Second avenues.

Survey for alteration and improvement to sewer in Seventy-fifth street, between Park and Fifth avenues.

Sewer in Haven avenue, between Buena Vista avenue and Fort Washington avenue, and in One Hundred and Sixty-ninth and One Hundred and Seventieth streets, from Fort Washington avenue to Haven avenue.

Sewer in Haven avenue, between One Hundred and Seventy-seventh and One Hundred and Seventy-eighth streets.

Sewer in Terrace View avenue, between end of present sewer and Adrian avenue.

REPORT OF THE SUPERINTENDENT OF THE BUREAU OF PUBLIC BUILDINGS AND OFFICES.

Bureau of Public Buildings and Offices,
Superintendent's Office, Nos. 13 to 21 Park Row,
New York, January 27, 1910.

Hon. GEORGE McANENY, President, Borough of Manhattan:

Dear Sir—I have the honor to submit herewith a brief report of the business of this Bureau for the year 1909:

Statement "A," herewith attached, contains a schedule of the public buildings, courts, offices, baths and comfort stations under the supervision of the Bureau, and the places

where supplies are furnished, cleaning done and work performed, together with a statement of the number of employees engaged in the maintenance of public buildings and offices therein mentioned.

Statement "B," hereto attached, shows the contracts completed and in operation during the year 1909.

Statement "C," hereto attached, gives the list of architects under contract with the Bureau and performing professional services.

Statement "D," attached hereto, gives the approximate cost for care and maintenance of various public buildings and offices, baths and comfort stations, as per vouchers transmitted for the years 1908 and 1909.

Statement "E," hereto attached, shows the number of patrons of the interior and free floating public baths for the past year; also gives the number of orders and the estimated value of the work performed by the several mechanical squads employed by the Bureau.

Communications and reports upon various subjects affecting the Bureau to the number of 1,682 were prepared and transmitted.

Requisitions to the number of 1,938 were transmitted for the issuance of orders, amounting to \$131,885.17. Vouchers were prepared and transmitted to the number of 2,340, amounting to \$1,487,860.79, which consisted of claims on orders, contracts and payrolls.

The Bureau has exercised persistent efforts in the conservation of the City's interests in the purchase of supplies, and I feel that the result striven for has been, as far as possible under all the circumstances, successfully accomplished, by means of the competitive system, where the amount involved and the circumstances warranted its use. It has been my practice to request competitive bids on all supplies or repairs where the amount involved is \$100 or more, and very often when in doubt as to the reasonableness of figures submitted to ask for additional figures on amounts less than \$100. The field of operations in this regard has been considerably broadened for the past two years, so that the work of the Bureau is transacted, as near as possible, exactly the same as if a private business was concerned. A thorough system for the distribution of all charges has been in successful operation during the past year in the "cost of maintenance ledger." It is proposed to effect still further improvement in this regard by the establishment of a more perfect system of returns from the various mechanical squads employed in the Bureau. A record has been in operation during the year showing the volume of work performed by these squads. Arrangement for the proper handling of the general supply contracts has been in operation and proves of great value in the auditing of contract claims under this heading, by means of card index.

Owing to the insufficiency of the clerical help in the Bureau during the past year I was unable to establish a catalogue and price list system for the information of those engaged on the work of inspection and certification of claims. However, I believe I will be able to have this in operation early this year. This system will consist of a library of catalogues and price lists of all reputable business houses selling supplies or performing work with which this Bureau would have to deal. This will be a more businesslike mode of operation, and save considerable work and trouble that exists at present by reason of the necessity of going out into the open market on handling inquiries from business houses as to the market value of supplies.

The condition of the Criminal Courts Building during the past year has been a subject of a great deal of thought and anxiety on the part of the Bureau, and the matter has been given considerable publicity in the press owing to the alarming condition of unsoundness which developed for some time past, and more especially during the latter part of the year. I desire to say that the Bureau exercises constant vigilance in respect to this structure and consulted and advised with Messrs. Miller & Morgan, the engineers appointed by the President of the Borough to make observations of the building and to submit reports regarding same. The building has been propped, shored and braced so as to protect life and limb, and business has been resumed by the officials occupying the same, and is now being conducted in the usual orderly manner, without any alarm or excitement.

During the year three interior public baths were opened to the public, namely, Carmine street, Oliver and Cherry streets and Rutgers place. This gives the Borough of Manhattan eleven interior public baths, all of which add not only to the health and pleasure of the patrons thereof, but in some instances enhance the architectural features of the localities in which these buildings are located. The opening of the bath corner of Oliver and Cherry streets was considerably delayed, after the same was completed by the architects, owing to the test of the steam plant by this Bureau showing that boilers of insufficient horse-power were installed. The building was therefore not accepted and the builders and architects notified to remove the boilers, replace and install new ones subject to the approval of the Bureau, which was satisfactorily reformed.

In relation to the free floating public baths, which were in a condition of repair during the summer, I desire to report that an especial effort will be made during the coming season to procure additional berths to those obtained during 1909. Of the fifteen baths, the property of this Borough, the Bureau was successful in securing only twelve on account of the difficulty of obtaining the consent and approval of the Department of Docks and Ferries to certain locations requested. These baths have been safely towed from their berths and located in their winter quarters at the foot of Twenty-second street, South Brooklyn, which property is obtained on the basis of a monthly tenancy from the Union Dime Savings Bank of Brooklyn. In the acceptance of bids on the first letting for the usual repairs to these baths I recommended the rejection of the lowest estimate, which was \$13,499 on account of its being so much in excess of the approximate cost placed on same by the Foreman of Baths and on a second letting our action and judgment was verified by closing and completing the contract for \$9,875, resulting in a saving in this single instance of \$3,624.

I would call to your careful consideration the matter of adjusting the salaries of Chief Attendants and the Assistants in charge of public baths who at present receive \$1,050 and \$900 per annum. I am of the opinion that the responsibilities involved and the intelligence and judgment necessary for the proper performance of their duties should command at least a compensation of \$1,200 per annum, especially in view of the excessive cost of living at this period which, of course, materially reduces the compensation allowed. I would also recommend that the method of control of the Chief Attendant be so arranged that he will have knowledge of the operations of both shifts in the baths and so divide his time that supervision of the same can be exercised during the entire period the same are open, thus enabling the Bureau to fix a definite responsibility on the employee in charge and not have the same divided as at present, which works materially against efficient administration.

I would also suggest that the salary of Laborers be made uniform and fixed at the sum of at least \$2.50 per diem.

In conclusion I desire to express my sincere appreciation of the assistance rendered by employees of the Bureau who have when necessary been willing to sacrifice for the time their personal interests to that of the City and who throughout the year have given faithful, honest and conscientious service to the work of this Department.

Respectfully submitted,

JOHN R. VOORHIS, Superintendent of Public Buildings and Offices.

Commissioner of Public Works, Bureau of Incumbrances,
Room 1739, Nos. 13 to 21 Park Row,
New York, January 6, 1910.

Hon. GEORGE McANENY, President, Borough of Manhattan:

Dear Sir—I respectfully submit herewith the following report of the operations of this Bureau for the year ending December 31, 1909:

During the past year about 800 more complaints of obstructions were received and attended to than during the previous year, and the number of building material permits also shows a slight increase. More than 200 special permits to cross the sidewalks with horses and carts and 186 more permits to erect temporary sheds over the sidewalks were issued than during 1908.

The receipts of the Bureau, which were derived from permits issued for temporary sheds over sidewalks, and cost \$5 each; the redemption of seized articles, and the net proceeds of the auction sale of unredeemed goods, amounted to nearly \$1,200 more than the year previous.

The appropriation Salaries and Wages as allowed in the fall of 1908 for the year 1909 was \$18,260.50, from which had to be paid the monthly salaries of the Superintendent, two Clerks, seven Inspectors, one Foreman and one Keeper, and the weekly salaries of one Foreman at \$3.50 per diem and two Laborers at \$2 per diem, which was subsequently increased to \$2.50 per diem.

The appropriation allowed for Contingencies was \$7,000 as against \$9,652.50 allowed the previous year. From this \$7,000 had to be paid the cost of the removal of obstructions to the corporation yards; the removal of dirt, stone and rubbish, etc.; the removal of fallen trees, dangerous stumps and posts; horse, wagon and driver hire for the Superintendent, and carfare expenses of the Inspectors.

As the amount allowed for Salaries and Wages would not cover the expenditures for the year, on January 15, 1909, by resolution of the Board of Estimate and Apportionment the sum of \$1,460 was transferred from the appropriation Contingencies to that of Salaries and Wages, thus making that appropriation \$19,720.50 for the year and leaving but \$5,540 to expend for the items above mentioned as drawn against Contingencies.

This small amount, in view of the number of complaints received and the other items of expense to be paid therefrom, required the strictest economy in its disbursement.

On November 12, 1909, however, by resolution of the Board of Estimate and Apportionment, the sum of \$500 was transferred from an unexpended balance in the Bureau of Highways to this appropriation, which thus allowed us the sum of \$6,040 for the year, of which sum there is an unexpended balance of \$391.65.

Following is the annual report:

Certificates in respect to the vacation of premises at No. 1656 Lexington avenue, Borough of Manhattan, and No. 751 East Two Hundred and Sixteenth street, Borough of The Bronx.

On motion, the following preamble and resolutions were adopted:

Whereas, The Sanitary Superintendent has certified to this Board that the building situated upon lot No. 1656 Lexington avenue, in the Borough of Manhattan, has become dangerous to life by reason of want of repair, and is unfit for human habitation because of defects in the plumbing, and because of the existence of a nuisance on the premises which is likely to cause sickness among its occupants:

Ordered, That all persons in said building situated on lot No. 1656 Lexington avenue, in the Borough of Manhattan, be required to vacate said building on or before February 3, 1910, for the reason that said building is dangerous to life by reason of want of repair, and is unfit for human habitation because of defects in plumbing, and because of the existence of a nuisance on the premises likely to cause sickness among its occupants.

And further, that this order be affixed conspicuously on the front of and in said building and be served as the law requires, under the direction of the Sanitary Superintendent.

Whereas, The Sanitary Superintendent has certified to this Board that the building situated upon lot No. 751 East Two Hundred and Sixteenth street, in the Borough of The Bronx, has become dangerous to life, and is unfit for human habitation because of the existence of a nuisance on the premises which is likely to cause sickness among its occupants;

Ordered, That all persons in said building situated on lot No. 751 East Two Hundred and Sixteenth street, in the Borough of The Bronx, be required to vacate said building on or before February 3, 1910, for the reason that said building is dangerous to life, and is unfit for human habitation because of the existence of a nuisance on the premises likely to cause sickness among its occupants.

And further, that this order be affixed conspicuously on the front of and in said building and be served as the law requires, under the direction of the Sanitary Superintendent.

On motion, the Board adjourned.

EUGENE W. SCHEFFER, Secretary.

Minutes of Meeting Held Tuesday, February 8, 1910.

New York, February 8, 1910.

The Board met pursuant to call.

Present—Commissioners Ernst J. Lederle, Ph. D., President; Alvah H. Doty, M. D., Health Officer of the Port; William F. Baker, Police Commissioner.

The President stated that he had called a special meeting of the Board for the purpose of considering the conditions existing in the fund appropriated for the purchase of supplies at the Kingston Avenue Hospital, in the Borough of Brooklyn, and referred to the failure of the Board of Aldermen to act favorably upon a request of the Board of Health for an issue of special revenue bonds under the provisions of subdivision 8 of section 188 of the Greater New York Charter, to the amount of \$38,550, to provide means for the maintenance of the said Kingston Avenue Hospital, and submitted the following preambles and resolution:

Whereas, The Departmental Estimate of the Department of Health for the year 1910 included the sum of \$68,550, estimated to be required for the purchase of General Supplies at the Kingston Avenue Hospital, which estimated sum was based upon the following known or estimated expenditures:

During 1907.....	\$61,406 60
During 1908.....	55,326 67
During 1909 (to December 15).....	61,655 98

—and

Whereas, Only the sum of \$30,000 was appropriated and included in the Budget for 1910 for the purpose aforesaid; and

Whereas, Heretofore the Department of Health has been in receipt of cash payments from the United States Government for the care and treatment of persons affected with contagious diseases, which receipts have been applied to augment the appropriation aforesaid; and

Whereas, Said United States Government has, since December 1, 1909, discontinued the practice of placing such immigrants under the care and treatment of the Department of Health, and there will, therefore, be no income received from this source to augment said appropriation during 1910; therefore be it

Resolved, That the Board of Aldermen, pursuant to the provisions of subdivision 8 of section 188 of the Greater New York Charter as amended, be and is hereby respectfully petitioned to request the Board of Estimate and Apportionment to authorize the Comptroller to issue special revenue bonds to an amount not exceeding \$38,550, the same representing the difference between the amount requested for General Supplies, Kingston Avenue Hospital, in the Departmental Estimate for 1910, and the amount allowed for said purpose in said Budget for said year, to defray the necessary expenses to be incurred by the said Board of Health for the preservation of the public health in the purchase of general supplies required for the maintenance of the Kingston Avenue Hospital for Contagious Diseases, in the Borough of Brooklyn.

Which were adopted, and the Secretary was directed to immediately forward same to the Board of Aldermen for reconsideration.

On motion, the meeting adjourned.

EUGENE W. SCHEFFER, Secretary.

BOROUGH OF THE BRONX.

Local Board Meeting.

MINUTES OF THE LOCAL BOARD OF CHESTER, TWENTY-THIRD DISTRICT.

Pursuant to call by the President of the Borough of The Bronx, the members of the Local Board of Chester, Twenty-third District, met in the office of the President of the Borough of the Bronx, in the Municipal Building, One Hundred and Seventy-seventh street and Third avenue, on January 28, 1910, at 8.30 p. m.

Present—All members of the Local Board.

Minutes of the previous meeting were adopted as typewritten.

President Miller announced that he had caused to be sent out to all the property owners' associations in The Bronx, and to the local newspapers, a complete copy of all the calendars of the Local Boards in this Borough, informing them as to the petitions to be presented at the various meetings to be held here this evening, and

that he had also caused to be presented by the Engineering Bureau the average cost per foot frontage of each improvement as petitioned for, and that this course would also be pursued in the future, so that property owners would know approximately the cost of the proposed work, and thus be able to tell whether they desire to have the work commenced or not. Property owners will consequently be given every opportunity to be heard for or against any improvement when presented for hearing before the Local Board, and if they are not heard, it will not be the fault of this office.

The work of defining the average cost per foot frontage of sewer improvements, President Miller explained, was a more difficult proposition than in the case of other improvements. The amount of assessment for sewer construction per foot frontage would depend entirely on the action to be taken by the Board of Assessors in reference to their decision as to the area benefited.

Hearings in Accordance With Advertisement in CITY RECORD of January 18, 1910.

No. 1. Acquiring title to Unionport road, from White Plains road at the New York, New Haven and Hartford Railroad to White Plains road near Bear Swamp road or Bronxdale avenue.

Petition signed by B. Busch, Louis Berger, John Latzko and twenty-three (23) others. No one appeared in opposition.

The Topographical Engineer reported that the last tentative plan of that part of Van Nest on which Unionport road is shown, was approved by the Board of Estimate and Apportionment on July 2, 1909, with the exception of the location of Unionport road, which did not meet with the approval of the Chief Engineer of the Board of Estimate and Apportionment.

A new plan has been prepared to be submitted to the Board of Estimate and Apportionment, and action can, therefore, not be taken on this petition until the map with dimensions and grades of Unionport road has been filed.

Laid over until map referred to is filed.

No. 2. Regulating and grading, setting curbstones and flagging sidewalks a space of 4 feet wide, laying crosswalks, building approaches, drains, walls, etc., and erecting fences where necessary in Burke avenue, from White Plains road to Bronx Park at the Bronx boulevard, full width, and from the Bronx boulevard to the Bronx River sixty (60) feet in width.

Petition signed by Charles L. Ullman, Richard O'Hara and nineteen others. Estimated cost, \$50,100; assessed value of the real estate included within the probable area of assessment is \$206,920. Title vested August 10, 1904. Grades legally established by Final Maps, section 31, January 30, 1906, and amendatory maps.

The centre line for the above named improvement is about 1,460 linear feet. On this basis, the average cost per foot of frontage will be \$17.16.

No one appeared in opposition. Dr. Lucius W. How appeared in favor. On motion, seconded, it was

Resolved, That proceedings be and the same hereby are initiated for regulating and grading, setting curbstones and flagging sidewalks a space 4 feet wide, laying crosswalks, building approaches, drains, walls, etc., and erecting fences where necessary in Burke avenue, from White Plains road to Bronx Park at the Bronx boulevard, full width, and from the Bronx boulevard to the Bronx River sixty (60) feet in width.

Unanimously adopted.

No. 239 of 1909. The following communication was read and ordered filed as Mr. Edward W. Murphy appeared at this meeting and stated that he would present three (3) new petitions in accordance with suggestions of the Engineer of Highways:

January 31, 1910.

In re Regulating and Grading Throggs Neck Boulevard.

Hon. CYRUS C. MILLER, President, Borough of The Bronx:

Dear Sir—Some time ago I brought up the matter of the regulating and grading of the Throggs Neck boulevard, in the Borough of The Bronx. This matter, as I recollect it, has been laid over by the former Board of the Chester District, awaiting an additional report. Could I trouble you to have this petition brought to the attention of the Local Board of the Chester District as its next meeting, and have me notified thereof, and oblige, dear sir,

Very truly yours,
EDWARD W. MURPHY.

Alderman Mulhearn presented several communications relative to lighting of streets and avenues in his district, which were returned to him with the suggestion that he present the same to the Department of Water Supply, Gas and Electricity, as that Department has sole jurisdiction over such work.

By Alderman Mulhearn—Whereas, On January 14, 1909, application was made for the opening and widening of Fort Schuyler road, from the Causeway over Westchester Creek to the Eastern boulevard; and

Whereas, Said application was on January 16, 1909, duly presented to the Board of Estimate and Apportionment and maps in connection with the proposed proceeding sent to the said Board in September, 1909; and

Whereas, A request has been made by certain of the property owners whose property will be affected by the proposed proceeding, to have the application and maps returned for further examination and consideration,

Resolved, That the Local Board of Chester respectfully requests the Secretary of the Board of Estimate and Apportionment to return to the said Local Board of Chester all the papers and maps in connection with the proposed proceeding to open and widen Fort Schuyler road, from the Causeway over Westchester Creek to the Eastern boulevard.

Unanimously adopted.

The following communication was placed on file as the improvement requested should be petitioned for in proper form:

Van Nest, January 28, 1910.

To the Local Board of Chester:

Dear Sirs—The undersigned member of your Local Board does hereby petition the said Local Board of Chester to take action in regard to the paving of White Plains avenue, from the Pelham parkway to Morris Park avenue, with block pavement, similar to paving now on White Plains avenue north of Burke street.

Respectfully yours,

JAS. J. MULHEARN, Alderman, Thirty-sixth District.

The following communication was placed on file, as the same is indefinite and irregular:

January 28, 1910.

Local Board of Chester:

Dear Sirs—Lyon avenue runs from Zerega avenue to Glebe avenue; it is to be opened from Glebe avenue to Castlehill avenue, one block west, owing to the fact that the property is not as yet condemned we do earnestly hope to have this thing put through as soon as possible as Mr. Brown has plans out for a block of houses on this end of Lyon avenue, we also do hope to have a drain sewer to run from Castlehill to Parker avenue.

Yours respectfully,
ANDREW BROWN.

Regulating and grading of Baychester avenue, from the southeasterly side of Boston road to Pelham Bay Park.

Communication signed by Irving Realty Company, Baychester Realty Company and seven others, was read and placed on file as the records show that this improvement was initiated by the Local Board on November 12, 1908, and is still pending in the Board of Estimate and Apportionment.

Condition of Walker avenue, under contract.

Alderman Mulhearn wrote complaining about the condition of Walker avenue, and asked that the contractor be granted no extension of time on said contract, which was referred to the Commissioner of Public Works for report.

Condition of Tremont avenue, regulating and grading contract.

Alderman Mulhearn complained of the condition of Tremont avenue, and the delay in obtaining proper transit facilities on said avenue east of the Bronx River, and asked that the contractor be granted no further extension of time on said contract.

Referred to the Commissioner of Public Works.

President Miller promised to have the contractor, a representative of the railroad, and our Borough authorities brought together with a view of having this matter adjusted to the satisfaction of the property owners and citizens interested.

Receiving basins for draining Morris Park avenue, where there are drains to empty the water into.

Alderman Mulhearn called attention to providing the necessary receiving basins along this avenue.

It appears that a petition has been in circulation by Mr. Frank Hiber, secretary, Van Nest Property Owners' Association, since December 10, 1909. See page 933 of letter book 4.

Mr. William Peters asked what provision was being made for a crossing at Unionport road and Rhineland avenue at the New York, Westchester and Boston Railroad, and Mr. F. Greiffenberg stated that the map now before the Board of Estimate and Apportionment showed an entrance to Bronx Park at that location.

The following communication was read and placed on file:

Office of the Supervisor of The City Record,)

January 7, 1910. }

GEORGE DONNELLY, Esq., Secretary, President of the Borough of The Bronx:

Dear Sir—In compliance with your request I send you the list of papers designated by the Board of City Record. You will note that no change has been made in 1910.

Respectfully yours,

PATRICK J. TRACY, Supervisor, The City Record.

The official borough papers, Borough of The Bronx, are "The Bronx Star," "The North Side News," "Bronx Independent."

On motion, seconded, the Board adjourned until February 18, 1910, at 8.30 p. m.

GEORGE DONNELLY, Secretary.

PUBLIC SERVICE COMMISSION—FIRST DISTRICT.

Proceedings of the Public Service Commission, January 10, 1910.

HEARINGS

(40) CONEY ISLAND AND BROOKLYN RAILROAD COMPANY—FENDERS AND WHEELGUARDS. Case 1048

A rehearing was held at 2:30 P. M., Commissioner Maltbie presiding, as to the Coney Island and Brooklyn Railroad Company, in regard to fenders and wheelguards. Appearances: Arthur DuBois for the Commission; Dykman, Oeland and Kuhn, by Frank Gallagher, for the company. Mr. Gallagher requested an adjournment, and made a statement in regard to the company's experiments with wheelguards on its cars. Hearing adjourned to January 14, 1910, at 3:00 P. M. [See Item No. 23.]

(41) CONEY ISLAND AND BROOKLYN RAILROAD COMPANY—FIVE CENT FARE TO CONEY ISLAND ON WEEK-DAYS. Case 1134

An adjourned hearing was held at 3:00 P. M., Commissioner Bassett presiding, upon the complaint of Jonas Monheimer against the Coney Island and Brooklyn Railroad Company in regard to a five-cent fare from New York to Coney Island on week-days. Appearances: Grosvenor H. Backus for the Commission; Dykman, Oeland and Kuhn, by William N. Dykman, for the company. Frank R. Ford, Consulting Engineer of the company, recalled, testified as to the advisability of the company's accumulating a depreciation fund, the various kinds of valuations of the company's property, certain matters affecting the company's earnings, the comparative operating costs upon a car-mile basis for the years ending August 31, 1908, and August 31, 1909, and gave in evidence a detailed memorandum of a summary of the reproduction valuation of the company's property theretofore made by him. Mr. Dykman placed in evidence the Commission's decision in Cases Nos. 350 and 352 dismissing the complaints of Jonas Monheimer and Scott MacReynolds, respectively, against the company as to the ten-cent rate of fare to Coney Island on Saturdays, Sundays and holidays. Facts were stipulated in evidence by counsel for the company and the Commission in regard to the company's routes, lines, franchises, rights, capitalization and property. G. E. Watkins, a statistician of the Commission, was cross-examined by Mr. Dykman as to his part in the preparation of the case. Adjourned to January 19, 1910, at 2:30 P. M. [See Item No. 16.]

(42) STREET RAILROAD COMPANIES—HEATING OF CARS AND HEATING REGULATIONS. Case 1170

A further hearing was held at 2:30 P. M., Commissioner Eustis presiding, in regard to the form of displaying the heating regulations with respect to all closed passenger cars operated by street railroad corporations in the City of New York, as prescribed by the Final Order in Case No. 1170. Appearances: H. H. Whitman for the Commission; Henry A. Robinson for the Third Avenue Railroad Company and Frederick W. Whitridge, its Receiver, the Dry Dock, East Broadway and Battery Railroad Company and Frederick W. Whitridge, its Receiver, the Union Railway Company and Frederick W. Whitridge, its Receiver, the Forty-second Street, Manhattanville and St. Nicholas Avenue Railway Company and Frederick W. Whitridge, its Receiver, the Southern Boulevard Railroad Company, the Kingsbridge Railway Company and the Bronx Traction Company; T. L. Waugh for the Interborough Rapid Transit Company, the New York City Interborough Railway Company, the New York and Queens County Railway Company and the New York and Long Island Traction Company. Commissioner Eustis stated that a form for displaying the heating regulations in the cars would be prescribed, but that other forms desired by the companies would have to be submitted for approval and that the forms already submitted and approved would stand. Hearing closed. [See Proceedings of 1909; Item No. 2012.]

(43) NEW YORK AND QUEENS COUNTY RAILWAY COMPANY—APPLICATION FOR APPROVAL OF ABANDONMENT OF PART OF ROUTES. Case 1187

A hearing was held at 2:30 P. M., Commissioner Bassett presiding, in the matter of the application of the New York and Queens County Railway Company for approval of the abandonment of its route in Pierce Avenue, First Avenue or Lockwood Street, Ridge Road, Academy Street and Jane Street, Borough of Queens. Appearances: Albert H. Walker for the Commission, A. G. Peacock for the company, William J. Clark for the City of New York. Mr. Peacock, Mr. Walker and Commissioner Bassett discussed a certain omission from the documents filed by the company with its application. Mr. Peacock made a statement in regard to the removal of certain of the company's tracks at the Queensboro Bridge plaza, Long Island City, the route of which was sought to be abandoned. Mr. Clark favored the application, referring to changes in routing at the bridge plaza, which were made at the city's request for traffic purposes and which necessitated the abandonment of that part of the company's tracks applied for. Hearing closed. [See Proceedings of 1909; Item No. 1971.]

TRAVIS H. WHITNEY, SECRETARY.

Proceedings of the Public Service Commission, January 11, 1910.

BOARD OF ESTIMATE AND APPORTIONMENT—COMMUNICATION AS TO ISSUE OF CORPORATE STOCK TO PAY FOR ZOOLOGICAL PARK STATION
The Secretary presented a communication dated January 10, 1910, from William M. Lawrence, Assistant Secretary of the Board of Estimate and Apportionment, stating that at a meeting of that Board on January 7, 1910, a report of the former Comptroller, recommending an issue of corporate stock to the amount of \$31,000.00 to pay for the construction of the Zoological Park station of the Manhattan Bronx Rapid Transit Railroad, had been presented and referred to the Comptroller. The communication was ordered filed. [See Proceedings of 1909; Item No. 1761.]

OPENING BROOKLYN STREETS FOR RAPID TRANSIT PURPOSES—COMMUNICATIONS TO BOARD OF ESTIMATE AND APPORTIONMENT AND BOROUGH PRESIDENT
On motion, duly seconded, the Chairman was authorized to transmit to the Board of Estimate and Apportionment the following form of communication, and a similar communication to the President of the Borough of Brooklyn:

January 14, 1910

To the Board of Estimate and Apportionment of the City of New York:

Shortly before the expiration of his term of office the former President of the Borough of Brooklyn furnished the Commission at its request with a report of the Chief Engineer of the Topographical Bureau of that Borough indicating the legal status of the streets to be used by the extensions of the Fourth Avenue rapid transit railroad which is now under construction as far as 43d Street. A copy of the report referred to is transmitted herewith together with a drawing prepared by the Commission showing graphically the situation as stated in the report.

The necessities of the situation as summed up by the Chief Engineer of the Topographical Bureau are as follows:

"Condemnation proceedings will be required in order to open the following streets:—

"I. New Utrecht Avenue from 38th street to 81st street.

"A proceeding for the opening of this street has been before the Board of Estimate and Apportionment. Although the City has sufficient rights for street purposes to 60 feet of this 80 foot street, it has been deemed advisable to include the entire width of the street in an opening proceeding so that the City may acquire title in fee for the entire street.

"II. 4th Avenue from the junction of 5th Avenue, between 94th and 95th streets, to Shore Road, except the portion already opened as Stewart Avenue.

"It may be advisable to include in the proceeding this exception so as to acquire title in fee for the entire width of the 100 foot street, as in the case of New Utrecht Avenue. I believe it is claimed by the Chief Engineer of the Board of Estimate and Apportionment that this procedure does not make any perceptible addition to the cost of an opening proceeding.

"III. Stillwell Avenue, from 86th street to Surf Avenue, except such land that has already been acquired for railroad purposes.

"A portion of Stillwell Avenue, on Coney Island, has been condemned for railroad depot purposes, which exempts such land from condemnation for street purposes without a special act of the Legislature."

On December 17, 1909, the Board of Estimate and Apportionment adopted resolutions for the opening of New Utrecht Avenue from 38th to 81st Streets as a fee street and fixing and defining the area of assessment. The Commission understands that in this proceeding there is to be acquired not only the additional twenty feet at the side of the existing street, but also any possible existing rights in the present sixty-foot street, and that condemnation maps are now being prepared.

No steps have as yet been taken to acquire title to Fourth Avenue from the junction of Fifth Avenue to Shore Road or to the portion of Stillwell Avenue from 86th Street to Surf Avenue. The Commission desires to call these matters to your attention at the present time in order that steps may now be taken to acquire the necessary rights without delaying the construction of the balance of the Fourth Avenue line. In the opinion of the Commission it is of great importance to the city in order to avoid interruption of rapid transit railroad work that the proceeding for opening New Utrecht Avenue be prosecuted as rapidly as possible and that proceedings be instituted to acquire in fee the necessary street rights in Fourth Avenue from its intersection with Fifth Avenue to Shore Road, and in Stillwell Avenue from 86th Street to Surf Avenue, with provision in all three cases for the vesting of title in the city at the earliest practicable date.

The Chief Engineer of the Topographical Bureau also suggests that the route of the subway from 81st Street and New Utrecht Avenue to 86th Street east of Eighteenth Avenue extends diagonally across the regular street system over private lands, and that it may be advisable to lay out and acquire a street over all or a portion of the land across this portion of the route. The Commission calls this suggestion to your attention for such action as you may deem advisable.

Respectfully yours,

Chairman.

LEGAL STATUS OF STREETS IN THE BRONX ALONG PROPOSED RAPID TRANSIT ROUTES—
COMMUNICATION TO BOROUGH PRESIDENT

On motion, duly seconded, the Secretary was directed to transmit the following communication to the President of the Borough of The Bronx:

January, 1910

HON. CYRUS C. MILLER, President, Borough of The Bronx, Third Avenue and 177th Street, The Bronx, New York City.

DEAR SIR:—In connection with the preparation of plans and contracts for new rapid transit lines, the Commission is endeavoring to have perfected the title to any streets that may be affected. In order that steps may be taken to dispose of any complications that might hinder beginning construction in The Bronx, the Commission will be obliged if you will have an investigation made and inform it whether all the streets affected by the following routes have been legally opened:

- (1) Portion of the Lexington Avenue route in the Borough of The Bronx.
- (2) River Avenue route.
- (3) Jerome Avenue route.
- (4) Southern Boulevard and Whitlock Avenue route.
- (5) White Plains Road route.
- (6) Connecting route recently adopted by the Commission to join the White Plains Road route with the Southern Boulevard and Whitlock Avenue route.
- (7) Westchester Avenue route.

Yours very truly,

Secretary.

SECTION 9-O-2, BROOKLYN LOOP LINES—ASSESSMENTS OF DEGNON CONTRACTING COMPANY AND SURETIES TO RESOLUTION EXTENDING TIME FOR COMPLETION OF WORK

The Secretary presented a communication dated January 13, 1910, from the Counsel to the Commission, transmitting and approving as to form the assessments of the Degnon Contracting Company dated December 30, 1909, and of its surety companies dated January 6, 1910, together with duly executed acknowledgments of the same, to the resolution adopted by the Commission on December 31, 1909, extending to midnight of December 31, 1909, the time for the company to complete its work on section 9-O-2 of the Brooklyn Loop Lines. The papers were ordered filed. [See Proceedings of 1909; Item No. 2006.]

(68) Case 1160
BRONX GAS AND ELECTRIC COMPANY—APPLICATION FOR APPROVAL OF \$1,500,000.00 BOND ISSUE—OPINION—MODIFYING ORDER

Commissioner Maltbie presented an opinion in the matter of the application of the Bronx Gas and Electric Company for approval of the issue of bonds of the par value of \$1,500,000.00, secured by first mortgage, whereof \$740,000.00 was to be issued forthwith, recommending the approval of an issue of \$18,000.00 par value of bonds, in addition to the \$625,000.00 bonds theretofore authorized, to be used for the expenses of refunding the company's outstanding issue of \$5,000,000.00 bonds and of the sale of certain of the bonds authorized.

On motion, duly seconded, the foregoing opinion was thereupon approved, and an Order in Case No. 1160 was unanimously adopted as to the Bronx Gas and Electric Company, modifying the Order therein adopted on November 12, 1909, so as to authorize an issue of \$643,000.00 bonds instead of \$625,000.00 bonds and so as to change the restrictions with reference to the retirement of all the company's outstanding bonds and the date by which outstanding bonds should be retired. [See Proceedings of 1909; Item No. 1885.]

(69) Case 1170
OCEAN ELECTRIC RAILWAY COMPANY—APPROVAL OF FORM OF NOTICE OF CAR HEATING REGULATIONS

The Secretary presented a communication dated January 11, 1910, from C. L. Addison, Vice-President of the Ocean Electric Railway Company, submitting for approval a form of notice containing the regulations in regard to the heating of cars, required to be displayed by that company in passenger cars pursuant to the Final Order in Case No. 1170, and, on motion, duly seconded, the form was duly approved. [See Item No. 42.]

(70) Case 1195
LONG ISLAND RAILROAD COMPANY—SAFETY PRECAUTIONS AT GRANT AVENUE AND NAPIER PLACE CROSSING—OPINION—FINAL ORDER

Commissioner Bassett presented an opinion in regard to safety precautions at the Grant Avenue and Napier Place crossing of the Long Island Railroad Company's tracks on Atlantic Avenue, stating that so long as the company permitted the crossing to exist over its tracks between the Grant Avenue and Napier Place crossing it should have the crossing properly protected, whether or not it was a public highway, and recommending that the company be required to erect gates at the crossing, to be operated for every train movement in either direction over the crossing during the entire day.

On motion, duly seconded, an Order in Case No. 1195 was thereupon unanimously adopted as to the Long Island Railroad Company, directing it, by March 1, 1910, to construct at the Grant Avenue and Napier Place crossing suitable gates, to be operated by a watchman thereat, on the approach of trains, during all hours when trains should be operated on the Atlantic Avenue tracks, and to maintain and operate said gates thereafter. [See Item No. 15.]

(71) R. T. 3024
SECTION 9-O-2, BROOKLYN LOOP LINES—REQUISITION OF DEGNON CONTRACTING COMPANY

The Secretary presented requisition No. 29 of the Degnon Contracting Company, dated December 17, 1909, and amounting to \$99,898.86, for work done and materials furnished on section 9-O-2 of the Brooklyn Loop Lines, less ten per cent, during the period ending November 30, 1909, together with the certificate of Henry B. Seaman, Chief Engineer, approving the same to the value of \$37,982.25, and a formal resolution, approving such certificate and directing that voucher No. 3605 be transmitted to the Comptroller of the City of New York for payment of the said \$37,982.25, which was thereupon duly adopted. [See Proceedings of 1909; Item No. 1751.]

11 (84810). Patrick J. Ward, Dockbuilder; pay allowed for one day of absence.

12 (83739). Patrick Roche, Dock Laborer; pay allowed for the month of January, 1910.

The Municipal Civil Service Commission was requested to authorize the reassignment of Thomas F. Lyons, George W. Whiteus, Philip Christman and Philip Stanley, Dock Laborers; John Thomas Fay, Dockbuilder, and Henry Wintermeyer, Dockhand.

The Chief Engineer having reported that Clinton Stephens has commenced the erection of a frame structure, to be used as a dance hall, on platform in front of his property at Clasons Point, East River, Borough of The Bronx (85040), without a permit, Stephens was directed to stop all work at once, and the Police Department requested to enforce the order.

The bids received January 5, 1910, for obtaining sand under class 2 of Contract No. 1207, and for broken stone, under classes 3 and 6, of said contract, were this day rejected by the Commissioner, and said classes were ordered readvertised in modified form (84740, 84893).

A communication (84978) was received from Edward Polak suggesting that the Department obtain from the various Borough Presidents detailed lists as well as map of the properties owned by the City along the water-front running down to and in front of the water. Advised that the Borough Presidents, Comptroller, Corporation Counsel, Department of Water Supply, Gas and Electricity, Department of Bridges, Park Department and Board of Estimate and Apportionment have been requested to furnish whatever information they possess regarding the water-front.

In accordance with the recommendation of the Chief Clerk (84892, 82005) and the opinion of the Corporation Counsel (83933), Rule 3 of the Rules and Regulations of this Department was modified so as to read as follows:

Rule 3.

No cargo shall be discharged from any vessel upon any pier, bulkhead, wharf structure or marginal street, wharf or place, at which such vessel is being unladen, after notice signed and served by the Dock Master of the District, upon the owner, consignee, master or other officer of such vessel or stevedore that such pier, bulkhead, structure or marginal street, wharf or place will be endangered by the placing of additional cargo thereon.

No further cargo, goods or merchandise shall be stored upon the marginal streets, wharves or places after notice signed and served by the Dock Master of the District, upon the owner, consignee, agent or representative of such owner or consignee of such cargo, goods or merchandise that such marginal street, wharf or place, or the pavement and surface thereof will be endangered by the storage of additional cargo, goods and merchandise thereon.

Cargo, goods or merchandise in excess of twelve (12) tons shall not be transferred on one truck upon or over any marginal street, wharf or place except by special license or permission of the Commissioner of Docks, nor shall cargo, goods or merchandise be stored or stacked upon any marginal street, wharf or place in excess of one thousand (1,000) pounds per square foot, except by special license or permission of the Commissioner of Docks, and in such manner and method as he may direct so that the surface of pavement and cover plates of the marginal streets, wharves and places shall not be damaged.

By direction of the Commissioner (84773), the following notice was served upon James H. Dougherty, Mate:

In the matter of the charges against James H. Dougherty, a Mate in the Department of Docks and Ferries of The City of New York.

Upon reading and filing certain charges in this matter, dated January 24, 1910, duly made and preferred in the form and manner prescribed by law against James H. Dougherty, a Mate in the Department of Docks and Ferries of The City of New York, and due proof having been made that a copy of such charges together with a written notice that the same had been made and preferred against the said James H. Dougherty, requiring him to appear and answer thereto on the 6th day of January, 1910, at the main office of the Department of Docks and Ferries, Pier "A," North River, at 1.45 o'clock in the afternoon of that day, has been duly served upon him, the said James H. Dougherty, and he, the said James H. Dougherty, having appeared and answered at the time and place mentioned and required by said notice, on the 26th day of January, 1910, and the said charges having been duly brought to a hearing and heard, examined and investigated into by the Deputy Commissioner of Docks, and a full opportunity having been afforded the said James H. Dougherty to defend the said charges; now therefore be it

Ordered in the matter of charges against the said James H. Dougherty, a Male in the Department of Docks and Ferries, wherein he is charged with misconduct, That after due consideration of said charges, the said James H. Dougherty is hereby found guilty of the said charges and is dismissed from the Department of Docks and Ferries to take effect on the 27th day of January, 1910.

Calvin Tomkins, Commissioner of Docks.

warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials of machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-ends, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO ON CITY REAL ESTATE BY SEALED BIDS.

AT THE REQUEST OF THE COMMISSIONERS OF PARKS FOR THE BOROUGH OF THE BRONX, public notice is hereby given that the Commissioners of the Sinking Fund, by virtue of the powers vested in them by law, will offer for sale by sealed bids all the buildings, parts of buildings, etc., now standing upon property owned by The City of New York, acquired by it for park purposes, in the

Borough of The Bronx.

Being the buildings, parts of buildings, etc., situated in Pelham Bay Park, known as the Ogden House, and the house at Rodmans Neck, all of which are more particularly described on a certain map filed in the office of the Collector of City Revenue, Department of Finance, Room 141, No. 280 Broadway, Borough of Manhattan.

Pursuant to a resolution of the Commissioners of the Sinking Fund adopted at a meeting held December 15, 1909, the sale by sealed bids of the above-described buildings and appurtenances thereto will be held by direction of the Comptroller on

THURSDAY, MARCH 10, 1910,

at 11 a. m., in lots and parcels and in manner and form as follows:

Parcel No. 1—Ogden House, a three-story frame building located on the westerly side of Eastern boulevard, 1,500 feet north of Split Rock road and 400 feet west of said boulevard.

Parcel No. 2—Two-story frame building recently occupied by the Morris Yacht Club, located at the end of the lane running southerly from the angle of City Island road and distant 950 feet southerly therefrom.

Sealed bids (blank forms of which may be obtained upon application) will be received by the Comptroller at the office of the Collector of City Revenue, Room 141, No. 280 Broadway, Borough of Manhattan, until 11 a. m., on the 10th day of March, 1910, and then publicly opened for the sale for removal of the above-described buildings and appurtenances thereto, and the award will be made to the highest bidder within twenty-four hours, or as soon as possible thereafter.

Each parcel must be bid for separately and will be sold in its entirety, as described in above advertisement.

Each and every bid must be accompanied by a deposit of cash or certified check in a sum equal to 25 per cent. of the amount of the bid, except that a minimum deposit of \$50 will be required with all bids, and that a deposit of \$500 will be sufficient to entitle bidders to bid on any or all of the buildings.

Deposits of unsuccessful bidders will be returned within twenty-four hours after successful bidders have paid purchase price in full and given security, and those of successful bidders may be declared forfeited to The City of New York by the Comptroller upon the failure of the successful bidder to further comply with the requirements of the terms and conditions of the sale as set forth hereinafter.

Successful bidders will be required to pay the purchase money and deposit the required security within twenty-four hours of the receipt of notification of the acceptance of their bids.

The Comptroller reserves the right to reject any and all bids and to waive any defects or informalities in any bid should it be deemed in the interest of The City of New York to do so.

All bids must state clearly (1) the number or description of the building or buildings bid for, (2) the amount of the bid, (3) the full name and address of the bidder.

All bids must be inclosed in properly sealed envelopes, marked "Proposals to be opened March 10, 1910," and must be delivered, or mailed in time for their delivery, prior to 11 a. m. of that date to the "Collector of City Revenue, Room 141, No. 280 Broadway, New York City," from whom any further particulars regarding the buildings to be disposed of may be obtained.

The buildings will be sold for immediate removal only, subject to the following

TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay cash or a certified check drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue

for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances, between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb, the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in the street shall be properly closed in compliance with the directions of the Bureau of Sewers, Borough of The Bronx, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances or any part thereof within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being under to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed and the costs and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-ends, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO ON CITY REAL ESTATE BY SEALED BIDS.

AT THE REQUEST OF THE BOARD OF EDUCATION, public notice is hereby given that the Commissioners of the Sinking Fund, by virtue of the powers vested in them by law, will offer for sale by sealed bids all the buildings, parts of buildings, etc., standing upon property owned by The City of New York, acquired by it for school site purposes in the

Borough of Manhattan.

Being all the buildings, parts of buildings, etc., situated on all that certain plot of ground located on the north side of West Houston street and on the south side of Clarkson street, with a frontage of 150 feet on each street, distant 125 feet easterly from Hudson street, and comprising Nos. 250 to 260 West Houston street and Nos. 10 to 20 Clarkson street, all of which are more particularly described on a certain map on file

in the office of the Collector of City Revenue, Department of Finance, Room 141, No. 280 Broadway, Borough of Manhattan.

Pursuant to a resolution of the Commissioners of the Sinking Fund, adopted at a meeting held February 16, 1910, the sale by sealed bids of the above described buildings and appurtenances thereto will be held by direction of the Comptroller on

TUESDAY, MARCH 8, 1910,

at 11 a. m., in lots and parcels and in manner and form as follows:

Parcel No. 1, No. 250 West Houston street, two and one-half story and basement brick and frame building.

Parcel No. 2, No. 252 West Houston street, five-story brick building.

Parcel No. 3, No. 250 West Houston street, three-story and basement brick building.

Parcel No. 4, Nos. 10 and 12 Clarkson street, two and one-half story and basement brick and frame buildings on front of lots, and 2 four-story brick buildings on rear of lots.

Parcel No. 5, Nos. 14 and 16 Clarkson street, 2 four-story brick buildings.

Parcel No. 6, No. 18 Clarkson street, three-story brick building.

Parcel No. 7, No. 20 Clarkson street, three and one-half story and basement brick and frame building on front of lot and four-story brick building on rear of lot.

Sealed bids (blank forms of which may be obtained upon application) will be received by the Comptroller at the office of the Collector of City Revenue, Room 141, No. 280 Broadway, Borough of Manhattan, until 11 a. m., on the 8th day of March, and then publicly opened for the sale for removal of the above-described buildings and appurtenances thereto, and the award will be made to the highest bidder within twenty-four hours, or as soon as possible thereafter.

Each parcel must be bid for separately, and will be sold in its entirety, as described in above advertisement.

Each and every bid must be accompanied by a deposit of cash or certified check in a sum equal to 25 per cent. of the amount of the bid, except that a minimum deposit of \$50 will be required with all bids, and that a deposit of \$500 will be sufficient to entitle bidders to bid on any or all of the buildings.

Deposits of unsuccessful bidders will be returned within twenty-four hours after successful bidders have paid purchase price in full and given security, and those of successful bidders may be declared forfeited to The City of New York by the Comptroller upon the failure of the successful bidder to further comply with the requirements of the terms and conditions of the sale as set forth hereinafter.

Successful bidders will be required to pay the purchase money and deposit the required security within twenty-four hours of the receipt of notification of the acceptance of their bids. The Comptroller reserves the right to reject any and all bids and to waive any defects or informalities in any bid should it be deemed in the interest of The City of New York to do so.

All bids must state clearly (1) the number or description of the building or buildings bid for, (2) the amount of the bid, (3) the full name and address of the bidder.

All bids must be inclosed in properly sealed envelopes, marked "Proposals to be opened March 8, 1910," and must be delivered, or mailed in time for their delivery, prior to 11 a. m. of that date to the "Collector of City Revenue, Room 141, No. 280 Broadway, New York City," from whom any further particulars regarding the buildings to be disposed of may be obtained.

The buildings will be sold for immediate removal only, subject to the following

TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay cash or a certified check drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. NOTICE TO PROPERTY OWNERS.

IN PURSUANCE OF SECTION 1018 OF THE Greater New York Charter, the Comptroller of The City of New York hereby gives public notice to all persons, owners of property, affected by the following assessment for LOCAL IMPROVEMENTS in the BOROUGH OF MANHATTAN:

TWELFTH WARD, SECTION 8.

AUDUBON AVENUE—RESTORING ASPHALT PAVEMENT, west side, between One Hundred and Seventy-sixth and One Hundred and Seventy-seventh streets. Area of assessment: West side of Audubon avenue, between One Hundred and Seventy-sixth and One Hundred and Seventy-seventh streets, known as Lot No. 46, in Block 2133.

The above assessment was certified to the Collector of Assessments and Arrears, under the provisions of section 391 of the Greater New York Charter.

—that the same was entered on February 15, 1910, in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, and unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessment, interest will be collected thereon, as provided in section 1019 of said Greater New York Charter.

Said section provides, in part, that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides . . . "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessment is payable to the Collector of Assessments and Arrears at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, Room 11, No. 280 Broadway, Borough of Manhattan, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m., and all payments made thereon on or before April 18, 1910, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when above assessment became a lien to the date of payment.

DEPARTMENT OF DOCKS AND FERRIES, PIER "A," FOOT OF BATTERY PLACE, NORTH RIVER, BOROUGH OF MANHATTAN, THE CITY OF NEW YORK.

FILLING PRIVILEGE.

SEALED BIDS OR ESTIMATES WILL BE received by the Commissioner of Docks at Pier "A," foot of Battery place, in The City of New York, until 12 o'clock noon on

MONDAY, MARCH 7, 1910,

FOR THE RIGHT TO DUMP AND FILL IN BEHIND THE BULKHEAD WALL NOW BUILT, OR TO BE BUILT, ON THE GOWANUS SECTION, BETWEEN THIRTY-SECOND AND THIRTY-SIXTH STREETS, SOUTH BROOKLYN, BOROUGH OF BROOKLYN.

TERMS AND CONDITIONS OF SALE.

The work to be done is to fill in with suitable material, as hereinafter described, the area behind the bulkhead wall now built, or to be built, on the Gowanus section, between the retaining structure built on about the south line of Thirty-sixth street and the fill now in place near the foot of Thirty-second street, from the face of the crib bulkhead now existing along the west side of Second avenue to the riprap proposed to be placed in the rear of the bulkhead wall; the exact limits being shown on a map at Pier "A," entitled "Filling Privilege, Twenty-eighth to Thirty-sixth Street, South Brooklyn," together with soundings and other data used in making the estimate, said map being part of this agreement. It is estimated that within the above described limits there exists a net void space to be filled in of about 165,000 cubic yards.

This estimate is arrived at by computing the void space within the boundary of the above described area to a uniform grade from the top of the crib bulkhead along Second avenue to the top of the coping of the proposed bulkhead wall, no allowance being made for shrinkage, settlement, expansion or compression of the material or its penetration into the mud.

Bidders are warned that the Department is not bound in any way by the above estimate and must satisfy themselves of the actual quantity required to fill in the above described area by examination of the premises, or such other means as they may prefer, as all of the above work is to be done at the lump sum bid. Bidders will state in writing a lump sum price, which they agree to pay for the privilege of filling, as described above. The purchaser will be required to place the filling in accordance with the following specifications:

All material must be dumped and filled in only in such manner, at such points and in such order of procedure, and at such times and seasons as may, from time to time, be directed, and the work of filling in may be entirely suspended for such periods of time as may be directed by the Engineer. The purchaser shall have no claim for damage or for any allowance from the purchase money on account of such suspension of the work.

All directions shall be given by the Engineer, and wherever the word "Engineer" is used in these specifications it refers to and designates the Chief Engineer of the Department of Docks and Ferries, or such officer or employee as may be designated by him.

Riprap stone coming directly on or against the bulkhead wall must be deposited carefully in such manner as will not injure the same.

The filling shall consist of any material satisfactory to the Engineer, and may include ashes, earth, street sweepings or clean rubbish, and not considered objectionable by the Board of Health, Garbage, or other perishable material will not be considered satisfactory.

The filling shall be commenced in the rear of one of the proposed piers, as directed by the Engineer, and carried directly outshore to the rear of the bulkhead wall, care being taken in approaching the wall to keep the centre of the fill well in advance of the sides; after the wall is reached the filling shall be carried north and south along the wall and thence inshore.

The filling shall be commenced within five days after the date of the receipt of a notification from the Engineer that the work, or any part of it, is ready to be begun, and the work shall proceed to completion at a rate satisfactory to the Engineer, but after April 1, 1910, the purchaser shall deposit not less than ten thousand (10,000) cubic yards in any one calendar month, and the whole amount of the filling called for to bring the above described basin up to grade shall be completed within one year from the date of the receipt of said notification. At the expiration of this time this agreement shall be considered closed, unless a further extension of time shall be given by the Commissioner of Docks. If at any time during the progress of the work it shall be deemed necessary to order the suspension of the whole or any part of the filling, the time for completing said filling shall be extended as much as it may have been delayed by such suspension.

In case the purchaser at any time does not proceed with the work of filling in to the satisfaction of the Commissioner of Docks, the Commissioner may at once terminate the privilege of filling and proceed to have the remainder of the work done by other parties, in such way and manner as he deems proper, and any loss which may result therefrom shall be charged against the principal and his surety, and the right is also reserved by the Commissioner of Docks to terminate the filling-in privilege after the hereinafter specified periods, to wit: After 25 per cent. of the void space is filled in, or after 50 per cent. is filled in, or after 75 per cent. of the void space is filled in, and the amount of void space so filled in at the time of the termination of this privilege shall be estimated by the Engineer, and the purchaser herein agrees to accept the statement of the Engineer as to the amount of void space filled in up to the time of the termination of this privilege.

The purchaser shall provide all the labor, plank, tools and appliances necessary for the purpose, and shall keep the dump at all times at an even grade to the satisfaction of the Engineer.

The purchaser shall during the work of filling in, and at all times until the completion thereof, take all necessary precautions and place proper guards for the prevention of accidents, and put up and maintain at night sufficient lights, and he shall indemnify and save harmless The City of New York from all damages and costs to which it may be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work of guarding the same, to which the surety is also bound.

No bid or estimate will be considered unless accompanied by a certified check drawn to the order of the Commissioner of Docks, or money to the amount of 25 per centum of the amount of the bid, which amount shall be applied in the case of the successful bidder to the first one-quarter of the amount of the filling to be deposited; 25 per centum to be paid when the first one-quarter of the filling has been completed; 25 per centum additional when one-half the filling has been completed; and the balance, 25 per centum, when three-quarters of said filling has been completed.

A surety or guarantee company, duly authorized by law to act as surety, to be approved by the Commissioner of Docks, will be required to enter

into a bond or obligation jointly and severally with the purchaser, in the sum of double the amount of the purchase price, as security for the satisfactory performance of said work, in accordance with the terms and conditions hereof.

FILLING PRIVILEGE.

SEALED BIDS OR ESTIMATES WILL BE received by the Commissioner of Docks at Pier "A," foot of Battery place, in The City of New York, until 12 o'clock noon on

MONDAY, MARCH 7, 1910,

FOR THE RIGHT TO DUMP AND FILL IN BEHIND THE BULKHEAD WALL NOW BUILT, OR TO BE BUILT, ON THE GOWANUS SECTION, BETWEEN TWENTY-EIGHTH AND THIRTY-FIRST STREETS, SOUTH BROOKLYN, BOROUGH OF BROOKLYN.

TERMS AND CONDITIONS OF SALE.

The work to be done is to fill in with suitable material, as hereinafter described, the area behind the bulkhead wall now built, or to be built, on the Gowanus Section, between the retaining structure built on about the centre line of Twenty-eighth street and the fill now in place near the foot of Thirty-first street, from the face of the crib bulkhead now existing along the west side of Second avenue to the riprap proposed to be placed in the rear of the bulkhead wall; the exact limits being shown on a map at Pier "A," entitled "Filling Privilege, Twenty-eighth to Thirty-sixth Street, South Brooklyn," together with soundings and other data used in making the estimate, said map being part of this agreement. It is estimated that within the above described limits there exists a net void space to be filled in of about 218,000 cubic yards.

This estimate is arrived at by computing the void space within the boundary of the above described area to a uniform grade from the top of the crib bulkhead along Second avenue to the top of the coping of the proposed bulkhead wall, no allowance being made for shrinkage, settlement, expansion or compression of the material or its penetration into the mud.

Bidders are warned that the Department is not bound in any way by the above estimate, and must satisfy themselves of the actual quantity required to fill in the above described area by examination of the premises, or such other means as they may prefer, as all of the above work is to be done at the lump sum bid. Bidders will state in writing a lump sum price which they agree to pay for the privilege of filling, as described above. The purchaser will be required to place the filling in accordance with the following specifications:

All material must be dumped and filled in only in such manner, at such points and in such order of procedure, and at such times and seasons as may, from time to time, be directed, and the work of filling in may be entirely suspended for such periods of time as may be directed by the Engineer. All directions shall be given by the Engineer, and wherever the word "Engineer" is used in these specifications it refers to and designates the Chief Engineer of the Department of Docks and Ferries, or such officer or employee as may be designated by him.

Riprap stone coming directly on or against the bulkhead wall must be deposited carefully in such manner as will not injure the same.

The filling shall consist of any material satisfactory to the Engineer, and may include ashes, earth, street sweepings or clean rubbish, and not considered objectionable by the Board of Health, Garbage, or other perishable material will not be considered satisfactory.

The filling shall be commenced in the rear of one of the proposed piers, as directed by the Engineer, and carried directly outshore to the rear of the bulkhead wall, care being taken in approaching the wall to keep the centre of the fill well in advance of the sides; after the wall is reached the filling shall be carried north and south along the wall and thence inshore.

The filling shall be commenced within five days after the date of the receipt of a notification from the Engineer that the work, or any part of it, is ready to be begun and the work shall proceed to completion at a rate satisfactory to the Engineer; but after April 1, 1910, the purchaser shall deposit not less than ten thousand (10,000) cubic yards in any one calendar month, and the whole amount of the filling called for to bring the above described basin up to grade shall be completed within one year from the date of the receipt of said notification. At the expiration of this time this agreement shall be considered closed, unless a further extension of time shall be given by the Commissioner of Docks. If at any time during the progress of the work it shall be deemed necessary to order the suspension of the whole or any part of the filling, the time for completing said filling shall be extended as much as it may have been delayed by such suspension.

In case the purchaser at any time does not proceed with the work of filling in to the satisfaction of the Commissioner of Docks, the Commissioner may at once terminate the privilege of filling and proceed to have the remainder of the work done by other parties, in such way and manner as he deems proper, and any loss which may result therefrom shall be charged against the principal and his surety, and the right is also reserved by the Commissioner of Docks to terminate the filling-in privilege after the hereinafter specified periods, to wit: After 25 per cent. of the void space is filled in, or after 50 per cent. is filled in, or after 75 per cent. of the void space is filled in, and the amount of void space so filled in at the time of the termination of this privilege shall be estimated by the Engineer, and the purchaser herein agrees to accept the statement of the Engineer as to the amount of void space filled in up to the time of the termination of this privilege.

The purchaser shall provide all the labor, plank, to is and appliances necessary for the purpose, and shall keep the dump at all times at an even grade to the satisfaction of the Engineer.

The purchaser shall, during the work of filling in and at all times until the completion thereof, take all necessary precautions and place proper guards for the prevention of accidents, and put up and maintain at night sufficient lights, and he shall indemnify and save harmless The City of New York from all damages and costs to which it may be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work of guarding the same, to which the surety is also bound.

No bid or estimate will be considered unless accompanied by a certified check drawn to the order of the Commissioner of Docks, or money to the amount of twenty-five per centum of the

amount of the bid, which amount shall be applied in the case of the successful bidder to the first one-quarter of the amount of the filling to be deposited; twenty-five per centum to be paid when the first one-quarter of the filling has been completed, twenty-five per centum additional when one-half the filling has been completed and the balance, twenty-five per centum, when three-quarters of said filling has been completed.

A surety or guarantee company, duly authorized by law to act as surety, to be approved by the Commissioner of Docks, will be required to enter into a bond or obligation jointly and severally with the purchaser in the sum of double the amount of the purchase price as security for the satisfactory performance of said work, in accordance with the terms and conditions hereof.

SUPREME COURT—FIRST DEPARTMENT.

FIRST DEPARTMENT.

In the matter of acquiring title by The City of New York to certain lands, premises and property situated on EAST ONE HUNDRED AND TWENTY-SIXTH STREET AND THE HARLEM RIVER, in the Borough of Manhattan, in The City of New York, duly selected as a site for a substation for the Harbor Police of The City of New York.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Appraisal in the above entitled proceeding, do hereby give notice to the owner or owners, lessee or lessees, parties or persons respectively entitled to or interested in the lands, tenements, hereditaments and premises, title to which is sought to be acquired in this proceeding, and to all others whom it may concern, to wit:

First—That we have completed our estimate of the loss and damage to the respective owners, lessees, parties or persons respectively entitled to or interested in the lands and premises affected by this proceeding, or having any interest therein, and have filed a true report or transcript of such estimate, in the office of the Police Commissioner of The City of New York, situated at No. 240 Centre street, in the Borough of Manhattan, City of New York, for the inspection of whomsoever it may concern.

Second—That all parties or persons whose rights may be affected by the said estimate, or who may object to the same, or any part thereof, may, within ten days after the first publication of this notice, Tuesday, March 1, 1910, file their objections, in writing, with us, at our office, Room 401, No. 258 Broadway, in the Borough of Manhattan, in The City of New York; and we, the said Commissioners, will hear parties so objecting, at our said office, on the 14th day of March, 1910, at 10.30 o'clock in the forenoon of that day, and up to such subsequent days as may be found necessary.

Dated New York, February 28, 1910.

PAUL L. KIERNAN,
B. AYMAR SANDS,
JOSEPH ROWAN,

Commissioners.

JOSEPH M. SCHENCK, Clerk.

SUPREME COURT, APPELLATE DIVISION, FIRST DEPARTMENT, CORNER OF TWENTY-FIFTH STREET AND MADISON AVENUE, NEW YORK CITY.

SEALED BIDS OR ESTIMATES WILL BE received by the Presiding Justice of the Appellate Division of the Supreme Court in the First Department, at the Court House, Madison square, on

WEDNESDAY, MARCH 16, 1910,

UNTIL 12 o'clock at noon

FOR FURNISHING AND DELIVERING TO THE APPELLATE DIVISION OF THE SUPREME COURT, IN THE FIRST DEPARTMENT, AND THE SUPREME COURT IN THE FIRST JUDICIAL DISTRICT, BOOKS, STATIONERY AND OTHER ARTICLES REQUIRED FOR THE SAID APPELLATE DIVISION OF THE SUPREME COURT IN THE FIRST DEPARTMENT AND THE SUPREME COURT IN THE FIRST JUDICIAL DISTRICT FOR THE YEAR 1910.

The time for the delivery of the books, stationery and other articles, as ordered by the Presiding Justice of the Appellate Division, is on or before December 31, 1910.

The amount of security required is fifty per cent. (50%) of the amount of the bid or estimate.

The bidder will state the price of each article specified in the specification or schedule contained in the contract, the total sum to be paid for each separate class to be extended, so that

the total amount paid under the contract can be ascertained, upon which total amount the award of the contract will be made.

The right is reserved to reject any and all bids if, in the opinion of the Presiding Justice of the Appellate Division of the Supreme Court in the First Department, the same shall be for the benefit of the City.

The delivery of the books, stationery and other articles will be required to be made at the time and in the manner and in such quantities as may be directed by the Presiding Justice of the Appellate Division of the Supreme Court in the First Department.

Blank forms of the contract and specifications thereon contained may be obtained at the office of the Librarian of the Appellate Division of the Supreme Court in the First Department, at the Court House, Madison square, City and County of New York.

The person or persons making an estimate shall furnish the same in a sealed envelope indorsed with the title given above, of the supplies for which the estimate is made, with his or their name or names, and the date of presentation, to the Presiding Justice of the Appellate Division of the Supreme Court in the First Department, at the Court House, Madison square, on or before the date and hour above named, at which time and place the estimates received will be publicly opened by the said Presiding Justice and read, and the award of the contract made according to law as soon thereafter as practicable.

Sample will be on exhibition at the office of the Librarian of the Appellate Division of the Supreme Court, at the Court House, Madison square, City and County of New York, until the bids are opened.

GEO. L. INGRAHAM,

Presiding Justice of the Supreme Court, First Department.

See General Instructions to Bidders on the last page, last column, of the "City Record."

FIRST DEPARTMENT.

In the matter of the application of The City of New York relative to acquiring title, wherever the same has not been heretofore acquired for the same purpose in fee, to the lands, tenements and hereditaments required for the opening and extending of WEST ONE HUNDRED AND FIFTY-SEVENTH STREET, between Broadway and Audubon place, in the Twelfth Ward, Borough of Manhattan, City of New York.

NOTICE IS HEREBY GIVEN TO ALL persons interested in the above entitled proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That the undersigned Commissioners of Estimate have completed their estimate of damage, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having any objection thereto, do file their said objections in writing, duly verified, with them at their office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 21st day of March, 1910, and that the said Commissioners will hear parties so objecting, at their said office on the 22d day of March 1910, at 3 o'clock p. m.

Second—That the undersigned Commissioner of Assessment has completed his estimate of benefit and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having any objection thereto, do file their said objections in writing, duly verified, with him at his office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 21st day of March, 1910, and that the said Commissioner will hear parties so objecting, at his said office on the 22d day of March, 1910, at 4 o'clock p. m.

Third—That the Commissioner of Assessment has assessed any or all such lands, tenements and hereditaments and premises as are within the area of assessment fixed and prescribed as the area of assessment for benefit by the Board of Estimate and Apportionment on the 29th day of January, 1910, and that the said area of assessment includes all those lands, tenements and hereditaments and premises situate and being in the Borough of Manhattan, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Bounded on the north by a line midway between West One Hundred and Fifty-seventh street and West One Hundred and Fifty-eighth street, on the east by a line distant 100 feet easterly from and parallel with the easterly line of Broadway, the said distance being measured at right angles to Broadway; on the south by a line midway between West One Hundred and Fifty-sixth street and West One Hundred and Fifty-seventh street, and on the west by a line at right angles to West One Hundred and Fifty-seventh street, and passing through a point on its southerly side midway between its intersection with Riverside drive and Audubon place.

Fourth—That the abstracts of said estimate of damage and of said assessment for benefit, together with the damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by the Commissioners of Estimate and by the Commissioner of Assessment in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 22d day of March, 1910.

Fifth—That, provided there be no objections filed to either of said abstracts, the reports as to awards and as to assessments for benefit herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III., to be held in the County Court House, in the Borough of Manhattan, in The City of New York, on the 28th day of April, 1910, at the opening of the Court on that day.

Sixth—In case, however, objections are filed to the foregoing abstracts of estimate and assessment, or to either of them, the motion to confirm the reports as to awards and as to assessments shall stand adjourned to the date to be hereafter specified in the notice provided in such cases to be given in relation to filing of the said reports, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

FIRST DEPARTMENT.

In the matter of the application of The City of New York relative to acquiring title, wherever the same has not been heretofore acquired for the same purpose in fee, to the lands, tenements and hereditaments required for the opening and extending of EAST ONE HUNDRED AND FORTY-FIRST STREET (although not yet named by proper authority), from Park avenue to Rider avenue, in the Twenty-third Ward, Borough of The Bronx, City of New York.

NOTICE IS HEREBY GIVEN TO ALL persons interested in the above entitled proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That the undersigned Commissioners of Estimate have completed their estimate of damage, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having any objection thereto, do file their said objections in writing, duly verified, with them at their office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 31 day of March, 1910, and that the said Commissioners will hear parties so objecting, and for that purpose will be in attendance at their said office on the 4th day of March, 1910, at 1 o'clock a. m.

Second—That the undersigned Commissioner of Assessment has completed his estimate of benefit, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having any objection thereto, do file their said objections in writing, duly verified, with him at his office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 31 day of March, 1910, and that the said Commissioner will hear parties so objecting, and for that purpose will be in attendance at his said office on the 4th day of March, 1910, at 2 o'clock a. m.

Third—That the Commissioner of Assessment has assessed any or all such lands, tenements and hereditaments and premises as are within the area of assessment fixed and prescribed as the area of assessment for benefit by the Board of Estimate and Apportionment on the 13th day of March, 1908, and that the said area of assessment includes all those lands, tenements and hereditaments and premises situate and being in the Borough of The Bronx, in The City of New York, which, taken together, are bounded and described as follows, viz:

Beginning at a point on the northwesterly property line of the New York and Harlem Railroad where it is intersected by the prolongation of a line midway between East One Hundred and Fortieth street and East One Hundred and Forty-first street, as laid out between Park avenue and Canal place, and running thence northerly along the northwesterly property line of the New York and Harlem Railroad to the intersection with a line which bisects the angle formed by the intersection of the prolongations of the southerly line of East One Hundred and Forty-fourth street and the northerly line of East One Hundred and Forty-first street, as laid out be-

tween Park avenue and Canal place; thence easterly along the said bisecting line to the northwesterly line of Rider avenue; thence southerly in a straight line to a point on the southerly line of Rider avenue midway between East One Hundred and Forty-first street and East One Hundred and Forty-second street; thence southerly and parallel with East One Hundred and Forty-first street to a point distant 100 feet southeasterly from the southeasterly line of Rider avenue, the said distance being measured at right angles to the line of Rider avenue; thence southerly and parallel with Rider avenue to the intersection with the prolongation of a line midway between East One Hundred and Forty-first street and East One Hundred and Forty-second street, as the said streets are laid out between Park avenue and Canal place; thence northwesterly along the said line midway between East One Hundred and Forty-first street and East One Hundred and Forty-second street and the prolongation of the said line to the point or place of beginning.

Fourth—That the abstracts of said estimate of damage and of said assessment for benefit, together with the damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by the Commissioners of Estimate and by the Commissioner of Assessment in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 4th day of March, 1910.

Fifth—That, provided there be no objections filed to either of said abstracts, the reports as to awards and as to assessments for benefit herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III, to be held in the County Court House in the Borough of Manhattan, in The City of New York, on the 28th day of April, 1910, at the opening of the Court on that day.

Sixth—In case, however, objections are filed to the foregoing abstracts of estimate and assessment, or to either of them, the motion to confirm the reports as to awards and as to assessments shall stand adjourned to the date to be hereafter specified in the notice provided in such cases to be given in relation to filing the final reports, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

NOTICE IS HEREBY GIVEN THAT, BY an order of the Supreme Court, bearing date the 30th day of December, 1909, and duly entered in the office of the Clerk of the County of Kings at his office in the Borough of Brooklyn, in The City of New York, on the 30th day of December, 1909, a copy of which order was duly filed in the office of the Register of the County of Kings, we, John F. Coffin, Michael E. Byrne and William McLaughlin, were appointed Commissioners of Estimate for the purpose of making a just and equitable estimate and assessment of the loss and damage to the respective owners, lessees, parties and persons respectively entitled to or interested in the lands, tenements, hereditaments and premises required for the purpose by and in consequence of opening and extending the above mentioned street or avenue, the same being particularly set forth and described in the petition of The City of New York, and also in the notice of the application for the said order thereto attached, filed herein in the office of the Clerk of the County of Kings on the 30th day of December, 1909, and the said Michael E. Byrne was appointed Commissioner of Assessment for the purpose of making a just and equitable estimate and assessment of the value of the benefit and advantage of the said street or avenue so to be opened and extended, to the respective owners, lessees, parties and persons respectively entitled to or interested in the lands, tenements, hereditaments and premises situated within the area of assessment adopted by the Board of Estimate and Apportionment and not required for the purpose of opening and extending the same, but benefited thereby, the said area of assessment being particularly set forth and described in the petition of The City of New York, and also in the notice of the application for the said order thereto attached, filed herein in the office of the Clerk of the County of Kings on the 30th day of December, 1909, and of ascertaining and defining the extent and boundaries of the respective tracts or parcels of land to be taken or to be assessed therefor, and of performing the trusts and duties required of us by chapter 17, title 4, of the Greater New York Charter, as amended, and the acts or parts of acts supplementary thereto or amendatory thereof.

ing the extent and boundaries of the respective tracts or parcels of land to be taken or to be assessed therefor, and of performing the trusts and duties required of us by chapter 17, title 4 of the Greater New York Charter, as amended, and the acts or parts of acts supplementary thereto or amendatory thereof.

All parties and persons interested in the real estate taken or to be taken for the purpose of opening and extending the said street or avenue, and affected thereby, and having any claim or demand on account thereof, are hereby required to present the same, duly verified, to us, the undersigned Commissioners of Estimate, at our office, No. 166 Montague street, in the Borough of Brooklyn, in The City of New York, with such affidavit or other proof as the owners or claimants may desire, within ten days after the date of this notice.

And we, the said Commissioners, will be in attendance at our said office on the 3d day of March, 1910, at 3.30 o'clock in the afternoon of that day, to hear the said parties and persons in relation thereto, and at such time and place, and at such further or other time and place as we may appoint, we will hear such owners in relation thereto and examine the proof of such claimant or claimants, or such additional proofs and allegations as may then be offered by such owner, or on behalf of The City of New York.

Dated Borough of Brooklyn, City of New York, February 17, 1910.

WILLIAM MCLAUGHLIN,
MICHAEL E. BYRNE,
JOHN F. COFFIN,
Commissioners.

SECOND DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired for the same purpose in fee, to the lands, tenements and hereditaments required for the opening and extending of STOKER-NIX STREET, between Otsego Street and Hicks Street, in the Twelfth Ward, Borough of Brooklyn, City of New York.

NOTICE IS HEREBY GIVEN TO ALL persons interested in the above entitled proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That the undersigned Commissioners of Estimate have completed their estimate of damage, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having any objection thereto, do file their said objections, in writing, duly verified, with them at their office, No. 166 Montague street, in the Borough of Brooklyn, in The City of New York, on or before the 8th day of March, 1910, and that the said Commissioners will hear parties so objecting, and for that purpose will be in attendance at their said office on the 16th day of March, 1910, at 11 o'clock a.m.

Second—That the undersigned Commissioner of Assessment has completed his estimate of benefit, and that all persons interested in this proceeding or in any of the lands, tenements and hereditaments and premises affected thereby, having any objection thereto, do file their said objections, in writing, duly verified, with him at his office, No. 166 Montague street, in the Borough of Brooklyn, in The City of New York, on or before the 8th day of March, 1910, and that the said Commissioner will hear parties so objecting, and for that purpose will be in attendance at his said office on the 11th day of March, 1910, at 11 o'clock a.m.

Third—That the Commissioner of Assessment has assessed any or all such lands, tenements and hereditaments and premises as are within the area of assessment fixed and prescribed as the area of assessment for benefit by the Board of Estimate and Apportionment on the 17th day of January, 1908, and that the said area of assessment includes all those lands, tenements and hereditaments and premises situated and being in the Borough of Brooklyn, in The City of New York, which, taken together, are bounded and described as follows, viz:

Bounded on the northeast by a line commencing midway between Signeys street and Bay street and the prolongations of the said line, on the southeast by a line distant 100 feet southwesterly from and parallel with the southerly side of Hicks street, the said distance being measured at right angles to the line of Hicks street; on the southwest by a line having midway between Signeys street and Hicks street at the prolongations of the said line, and on the northwest by a line distant 100 feet northwesterly from and parallel with the northwesterly line of Ocean street, the said distance being measured at right angles to the line of Ocean street.

Fourth—That the abstracts of said estimate of damage and of said assessment for benefit, together with the damage and benefit maps and also all the affidavits, estimates, reports and other documents used by the Commissioners of Estimate and by the Commissioner of Assessment in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, No. 166 Montague street, in the Borough of Brooklyn, in said City, there to remain until the 18th day of March, 1910.

Fifth—That, provided there be no objections filed to either of said abstracts, the reports as to lands and as to assessments for benefit herein will be presented for confirmation to the Supreme Court of the State of New York, Second Department, at a Special Term thereof, to be held in the County Court House, in the Borough of Brooklyn, in The City of New York, on the 28th day of April, 1910, at the opening of the Court on that day.

Sixth—In case, however, objections are filed to the foregoing abstracts of estimate and assessment, or to either of them, the motion to confirm the reports as to awards and as to assessments shall stand adjourned to the date to be hereafter specified in the notice provided in such cases to be given in relation to filing the final reports, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

Dated Borough of Brooklyn, New York, February 17, 1910.

JAMES V. SHORT, Jr.,
ABRAHAM SILVERSTONE,
Commissioners of Estimate.

JAMES V. SHORT, Jr.,
Commissioner of Assessment.
