DEPARTMENT OF PUBLIC PARKS.

Report for the Quarter ending June 30, 1878.

DEPARTMENT OF PUBLIC PARKS,
36 UNION SQUARE,
NEW YORK, July 17, 1878.

Hon. SMITH ELY, JR., Mayor:

SIR—I have the honor to submit the following report of the transactions of this Department for the three months ending June 30, 1878, in pursuance of the provisions of section 27, chapter 335 of the Laws of 1873.

ORGANIZATION.

On June 12, 1878, the following officers were elected to serve for the year ending May 1, 1879: President, Commissioner James F. Wenman; Treasurer, Commissioner Smith E. Lane.

On the same day the following standing Committees were appointed, viz.: Commissioners Wm. C. Wetmore and Samuel Conover, Executive Committee. Commissioners Smith E. Lane and Samuel Conover, Auditing Committee.

CENTRAL PARK.

The outsidcs of the buildings known as Mount St. Vincent, the Casino, and the Dairy were painted by Mr. C. Ryan, licensee for the sale of refreshments in Central Park, who was allowed therefor the sum of \$520, to be deducted by him from his license fees.

Two new drinking fountains were erected at the north of the Mall, replacing the old granite and bronze fountains which had become useless.

About half an acre was sown with buckwheat, for the purpose of inducing small birds to remain in the park.

A small wooden house was erected near the Arsenal, for the accommodation of the camels in the collection at the Menagerie.

Mr. Wm. R. Powell generously restocked the dove cot, at the Menagerie, with fancy pigeons.

The Trustees of the Botanical Garden "in the City of New York" having petitioned for permission to occupy the northerly portion of that part of Central Park known as Manhattan Square, as authorized by chapter 199 of the Laws of 1877, they were requested to present the plans and estimates of the work they propose, and it was directed that when such plans and estimates are approved by the Department, and the said Trustees have obtained subscriptions to a sufficient extent to carry them out, and a proper per centage of the subscriptions are paid in, that an agreement be entered into with them granting the permission they requested.

The pipes for the supply of Croton water laid in Central Park by the former Central Park Commissioners, being of a very inferior description, it has been found necessary to replace a large number of them by proper cast-iron pipes. It will be necessary to continue this work until all the old pipes, which are made of sheet iron coated with cement, are thus replaced.

Drinking fountains have been placed at the entrance to the Central Park at Fifty-ninth street and Fifth avenue, and at Mount St. Vincent in the northeast portion of the Park.

Permission was granted to Mr. Wm. Kyle to place row boats for hire on the Harlem Meer in Central Park during 1878.

The bust of Joseph Mazzini, presented by the Italian residents of the United States, was unveiled with appropriate ceremonies and formally received by your Honor on the 29th of May, 1878.

The license held by Mr. Carl H. Schultz for the sale of mineral waters at the Spring House in Central Park, was cancelled by mutual consent on May 1, 1878, Mr. Schultz paying the sum of \$906.72 in full for all arrears of his license fees, and a new license was granted to Mr. Schultz for four years from that date, by which is reserved a license fee of ten per cent. on his gross receipts. Mr. Schultz is also to repair the Spring House at his own expense, and to reduce the price of the mineral waters to five cents per glass.

The roadway at the Plaza, Fifth avenue and Fifty-ninth street, was repaired and put in proper order.

The previously existing rule of the Department, which restricted croquet playing in Central Park to ladies, was changed, and gentlemen are now allowed to take part in the game along with the ladies.

SMALLER PARKS.

The platform in the East River Park, the covering of which had been previously removed, was put in thorough repair.

The seats in Madison, Union and Washington squares were painted.

The use of the cottage on Union square was granted to the Memorial Committee of the Grand Army of the Republic, during the months of April and May.

Permission was also granted to said committee to decorate the several statues on the parks on Decoration day. This the Committee did in a very satisfactory manner, the Department assisting by lending a number of plants for the purpose.

Permission was given to Mr. John Jay to have the buildings in Washington square painted at his own expense.

The application of the New York Elevated Railway Company for permission to extend its lines over the southern portion of the Battery park was refused.

On May 8th, Mr. D. Willis James offered to present to the city a large drinking fountain, surmounted by an elegant and artistic group of bronze figures, which he is having modelled and cast in Stuttgart, Germany, by Professor Adolph Doudorf, if allowed to erect it at his own expense, in one of the smaller parks of the city. After carefully examining the several parks for the most suitable site, the Commissioners determined to set apart for the drinking fountain, the space in Union square immediately west of the large fountain, which site has met the approval of Mr. James, who is now having the work pressed forward, and it is hoped the fountain will be completed and erected during the year 1879.

Notice was given to all parties who had disfigured the rocks on Morningside Park by placing advertisements upon them, to remove the advertisements.

The Legislature having directed the Department to improve the parks in Fourth avenue between Sixty-seventh and Ninety-sixth streets, and authorized the Board of Estimate and Apportionment to appropriate \$25,000 for the purpose, by chapter 417 of the Laws of 1878, the Board of Estimate and Apportionment was, on the 19th of June, requested to appropriate the full amount authorized for the purpose.

TWENTY-THIRD AND TWENTY-FOURTH WARDS.

A thorough examination was made of the condition of the bridges over the Bronx river, one-half of which are in the limits of the city, and I annex hereto the report of the engineers who made the examination. The condition of these bridges has been brought to the attention of the Board of Estimate and Apportionment on several occasions, and an appropriation of \$15,000 was granted for the purpose of constructing new bridges in the year 1876, in conjunction with Westchester county. The authorities of that county, however, refused to make any appropriation for the purpose, and consequently nothing could be done. The only course to pursue under the circumstances and, one which appears to be absolutely necessary, is to obtain from the Legislature authority to replace the old structures with new iron bridges, and to charge Westchester county with one-half the costs.

The grade of Eagle avenue, from Westchester avenue to One Hundred and Sixty-third street, was altered, and the maps showing the change were filed, as provided by chapter 604, of the Laws of 1874.

The pay of teams employed in the Twenty-third and Twenty-fourth Wards, was fixed at \$3.50 per day.

A plan of streets and avenues, etc., for the district known as the "Central District" of the Twenty-third and Twenty-fourth Wards, and extending from One Hundred and Sixty-first street to Woodlawn Cemetery, and from Jerome avenue to Third avenue, was adopted, and directions given to have the maps of said district prepared for filing, as provided by chapter 604, of the Laws of 1874.

The maps establishing the grades of Spuyten Duyvil Parkway, from Spuyten Duyvil station to Riverdale avenue, were certified and filed; also the maps altering the grade of Sedgewick avenue between Mott avenue and Cromwell avenue.

Jerome avenue was watered during each day of the Jerome Park race meeting.

Specifications and plans for sewers in One Hundred and Thirty-fourth and One Hundred and Thirty-fifth streets and Third avenue, with branches in Lincoln avenue, Alexander avenue, and Willis avenue, were approved, and the work ordered to be advertised for public letting.

The Counsel to the Corporation was instructed to commence proceedings to acquire title to Concord avenue, from Boston road to the south side of Denman place.

The large sewer in Brook avenue has been well advanced to completion.

The sewers in Mott Haven, One Hundred and Thirty-eighth street, and One Hundred and Forty-fourth street, have not been carried on by the contractor with the energy to be desired, but the work so far done has been satisfactory, and it is hoped that it will be pressed forward more rapidly in future.

The work of regulating Concord avenue has made satisfactory progress, and will, it is expected, be completed during the summer.

The drains constructed in the heretofore swampy district near Fordham, bounded by Pelham avenue, Southern Boulevard, Arthur street, and Kingsbridge road, have been completed, and the character of the district is changed in consequence very much for the better.

Surveying and Laying Out of the Twenty-third and Twenty-fourth Wards.

The following maps, establishing the lines and locations of streets, roads, avenues and public parks and places, were certified and filed as prescribed by chapter 604 of the Laws of 1874, viz.:

April 10. Plan and profile of change of grade of Eagle avenue, from Westchester avenue to One Hundred and Sixty-third street.

" 25. Plan and profile of grades of Spuyten Duyvil Parkway, from Spuyten Duyvil Station Riverdale avenue.

May 29. Plan and profile of change of grade of Sedgewick avenue, from Cromwell avenue to Mott avenue.

June 12. Concord avenue, from Westchester avenue to Boston road, designated as a first class street. The following maps were considered, approved, and ordered to be prepared in proper form for filing, as provided by chapter 604 of the Laws of 1874:

April 17. Map of Central District of Twenty-third and Twenty-fourth Wards, lying between Jerome avenue and Third avenue, and extending from One Hundred and Sixty-first street to Woodlawn Cemetery, comprising 2,220 acres.

" 24. Map of change of grade of Sedgewick avenue, from Cromwell avenue and Mott avenue.

Calculations have been made and points defined for twenty-five monuments on the Boston road. Forty monuments have been set on new streets at Riverdale..

Four monuments have been reset on Franklin avenue.
