OFFICE OF THE PRESIDENT OF THE BOROUGH OF RICHMOND,

Hon. JOHN P. SCULLY, City Clerk, City Hall, N. Y. City:

DEAR SIR—At a meeting of the Local Board, First District, Borough of Richmond, The City of New York, held on the 4th day of December, 1900, the following resolution was adopted:

Resolved, That the Local Board, First District, Borough of Richmond, The City of New York, hereby recommends to the Municipal Assembly of The City of New York that permission be granted to the C. W. Hunt Company to extend its system of narrow-gauge shop-tracks in Van street and across Richmond terrace, in the First Ward of the Borough of Richmond, under the general supervision of the Commissioner of Highways.

I enclose herewith copies of the petition on which the Local Board acted.

Very respectfully,

GEORGE CROMWELL, President of the Borough.

WEST NEW BRIGHTON, S. I.

To the Honorable the Borough Board, New Brighton, S. I.:

DEAR SIR—The C. W. Hunt Company of West New Brighton, Borough of Richmond, respectfully applies for permission to connect their manufacturing properties on opposite sides of Richmond terrace, in West New Brighton, by an extension of its system of narrow-gauge shop-tracks in Van street and across Richmond terrace, as shown on the accompanying blue print. The principal reason for this request is to avoid the trucking of heavy weights and machinery now necessary, thereby saving the macadam pavement at this point. The length of said track connection will be about 60 yards; the track to be 21 1/2 inches gauge outside of rail-heads, and to be laid and kept in repair by the said C. W. Hunt Company. It is to be constructed in such manner as will meet with the approval of the Deputy Commissioner of Highways of the Borough of Richmond, N. Y., and the said C. W. Hunt Company hereby agrees to macadamize and keep in repair all between and two feet on each side of said tracks, where said tracks lie in the public highway and in crossing the sidewalks they agree to make such construction as will properly permit the passage of storm water in gutters and make a smooth sidewalk for pedestrians, all to be constructed with the approval of the Deputy Commissioner of Highways of the Borough of Richmond, N. Y. In the blue print above mentioned the desired extension is drawn in red ink.

Respectfully yours,

C. W. HUNT CO.,

## LOCAL BOARDS.

## FIFTH DISTRICT, BOROUGH OF BROOKLYN.

Meeting in Room 11, Borough Hall, at 4.30 P. M., Friday, May 17, 1901.

The roll was called, and the following members answered to their names:

Edward M. Groot, President; Councilman Doyle and Aldermen Kenney and Keegan.

The President submitted the following:

(No. 297.)

Petition for grading and paving West Sixteenth street, between Surf avenue and Neptune avenue; also for the construction of a sewer in West Sixteenth street, between Surf avenue and Neptune avenue.

Following report from the Department of Highways:

CITY OF NEW YORK,  
BOROUGH OF BROOKLYN—DEPARTMENT OF HIGHWAYS,  
MUNICIPAL BUILDING, May 2, 1901.

Hon. EDWARD M. GROOT, President of the Borough of Brooklyn:

DEAR SIR—The receipt of your letter of the 17th ult., transmitting petition signed by Manuel Cavanaugh, and others, for the grading and paving of West Sixteenth street, Coney Island, is hereby acknowledged.

In reply I would state that while the petition asks for the grading and paving of said West Sixteenth street as limits are given for the improvement. After an inspection of the ground by this Department, I would recommend that the street be improved between Surf and Neptune avenues. On account of the low value of the property along the line of this improvement it does not seem practicable to do anything more than grade, curb, gutter and macadamize the street, and I therefore beg to submit the following estimate of the amount of work and the cost of same:

Grading and paving West Sixteenth street, between Surf and Neptune avenues, with macadam:

10,000 cubic yards grading.
2,500 linear feet curbing.
560 square yards gutter pavement.
3,920 square yards macadam.
Total estimated cost, \$9,800.

The assessed value of the land, exclusive of improvements, within one-half block on each side of the street, is \$28,000.

Respectfully,

(Signed) THOS. R. FARRELL, Deputy Commissioner of Highways.

The following resolution was offered:

Resolved, That the Local Board of the Fifth District, Borough of Brooklyn, after hearing had this 17th day of May, 1901, deeming it for the public interest so to do, hereby recommends to the Board of Public Improvements of The City of New York that proceedings be initiated to regulate, grade and pave West Sixteenth street with macadam pavement, between Surf avenue and Neptune avenue, in the Borough of Brooklyn, and to set or reset curb, pave gutters and flag or reflag sidewalks of said street where not already done.

Which was decided in the affirmative by the following vote:

Affirmative—The President, Councilman Doyle, and Aldermen Kenney and Keegan.

Following report from the Department of Sewers:

DEPARTMENT OF SEWERS—BOROUGH OF MANHATTAN,  
Nos. 13 to 21 PARK ROW,  
NEW YORK, May 19, 1901.

Hon. EDWARD M. GROOT, President, Borough of Brooklyn:

I recommend the construction of the sewer therein.

Estimated cost.....	\$3,700 00
Assessed valuation of property within the probable area of assessment.....	21,520 00

Yours respectfully,

(Signed) JAS. KANE, Commissioner of Sewers.

The following resolution was offered:

(No. 298.)

Petition for grading and paving Seventy-second street, between Third avenue and the Shore road.

Following report from the Department of Highways:

CITY OF NEW YORK,

Hon. EDWARD M. GROUT, President of the Borough of Brooklyn:

DEAR SIR—I beg to acknowledge the receipt of your letter of the 4th instant, forwarding petition signed by Thomas B. Nitter for the grading and paving of Seventy-second street, between Third avenue and the Shore road, with macadam.

In reply, I beg to submit the following estimate of the amount of work and the cost of the improvement that the matter may be referred for the action of the Local Board of the District:

Grading and macadamizing Seventy-second street, between Third avenue and the Shore road, including the improvement of sidewalks:

20,000 cubic yards grading.  
5,720 linear feet of curbing.  
1,270 square yards gutter pavement.  
8,900 square yards macadam.  
25,300 square feet cement walk.  
Total estimated cost, \$27,200.

A proper district of assessment would be one-half the block on each side of the street, having an assessed valuation, exclusive of improvements, of \$72,100.

Respectfully,

(Signed) THOS. R. FARRELL, Deputy Commissioner of Highways.

The following resolution was offered:

Resolved, That the Local Board of the Fifth District, Borough of Brooklyn, after hearing had this 17th day of May, 1901, deeming it for the public interest so to do, hereby recommends to the Board of Public Improvements of The City of New York that proceedings be initiated to regulate, grade and pave Seventy-second street with macadam pavement, between Third avenue and the Shore road, in the Borough of Brooklyn, and to set or reset curb, pave gutters and pave sidewalks with cement of said street where not already done.

Assessed valuation of property within the probable area of assessment ..... 70,200 00

Yours respectfully,

(Signed) JAS. KANE, Commissioner of Sewers.

The Local Board was informed that the street is legally open through, having been thrown open to public use and subsequently accepted by the City.

The following resolution was offered:

Yours respectfully,

(Signed) JAS. KANE, Commissioner of Sewers.

DEPARTMENT OF SEWERS—BOROUGH OF BROOKLYN,  
NEW YORK, March 11, 1901.

Hon. JAMES KANE, Commissioner of Sewers, New York City:

DEAR SIR—I inclose herewith a copy of a communication from the office of the President of the Borough, dated February 13, 1901, together with a petition in relation to the construction of a sewer in

Twelfth avenue, between Sixtieth street and Sixty-fifth street. I beg to report that the estimated cost for the construction of this sewer is \$3,300, and the assessed valuation of the real estate within the probable area of assessment is \$43,750.

In regard to outlet sewers, information of which is requested by the President of the Borough, I beg to state that such will be necessary in

Sixty-fifth street, north side, between Tenth avenue and Twelfth avenue. The estimated cost for said outlet is \$5,400, and the assessed valuation of real estate within the probable area of assessment is \$11,190.

In regard to the streets, which are legally open, information of which is requested by the President of the Borough, I beg to state that Commissioners for opening Twelfth avenue, between Sixtieth and Sixty-fifth streets, were appointed January 26, 1899 (see CITY RECORD, page 6526, for year 1899).

Sixty-fifth street, between Tenth and Twelfth avenues, is legally open and macadamized.

Yours respectfully,

(Signed) WM. BRENNAN,  
Deputy Commissioner of Sewers, Borough of Brooklyn.

The following resolution was offered:

Resolved, That the Local Board of the Fifth District, Borough of Brooklyn, deeming it for the public interest so to do, hereby recommends to the Board of Public Improvements of The City of New York that a sewer be constructed in Twelfth avenue, between Sixtieth and Sixty-fifth street, and outlet sewer in Sixty-fifth street, north side, between Tenth avenue and Twelfth avenue, in the Borough of Brooklyn.

Which was decided in the affirmative by the following vote:

Affirmative—The President, Councilman Doyle and Aldermen Kenney and Keegan.

(No. 301.)

Petition for altering the map of The City of New York, as described in the following resolution which was offered:

Resolved, That the Local Board of the Fifth District, Borough of Brooklyn, after hearing had this 17th day of May, 1901, deeming it for the public interest so to do, hereby recommends to the Board of Public Improvements of The City of New York that, in pursuance of the provisions of section 436 of chapter 378 of the Laws of 1897, proceedings be initiated to alter the map or plan of The City of New York by changing the lines of West Sixth street, between Sixty-fifth street and Avenue X, so that the east line of the present West Sixth street will be so changed as to make the east line of the proposed changed street parallel with and distant twenty feet westerly from the present east line of West Sixth street, and the west line of the present West Sixth street

be so changed that the west line of the proposed change shall be parallel with and distant twenty feet easterly from the west line of the present West Sixth street, in the Borough of Brooklyn.

Which was decided in the affirmative by the following vote:

Affirmative—The President, Councilman Doyle and Aldermen Kenney and Keegan.

(No. 302.)

Petition for grading and paving Mermaid avenue, between West Fifteenth street and West Nineteenth street.

Following report from the Department of Highways:

CITY OF NEW YORK,  
BOROUGH OF BROOKLYN—DEPARTMENT OF HIGHWAYS,  
MUNICIPAL BUILDING, May 2, 1901.

Hon. EDWARD M. GROUT, President of the Borough of Brooklyn:

DEAR SIR—The receipt of your letter of the 27th ult., forwarding petition signed by Rev. Joseph F. Drophy, of St. James' Pro-Cathedral, No. 250 Jay street, for the grading and paving of Mermaid avenue, between West Fifteenth and West Nineteenth streets, with macadam, is hereby acknowledged.

In reply would state that there is no such street as West Eighteenth street on the Commissioners' map, and no doubt it was the intention of this petition to ask for the improvement of the street between West Fifteenth and West Nineteenth streets. I therefore beg to submit the following estimate, that the matter may be referred for the action of the Local Board of the District:

Grading and paving Mermaid avenue, between West Fifteenth and West Nineteenth streets, with macadam:

2,800 cubic yards grading.  
1,708 linear feet curbing.  
328 square yards gutter pavement.  
3,800 square yards macadam.  
8,000 square feet cement sidewalk.  
Total estimated cost, \$7,800.

The approximate assessed value of the land, exclusive of improvements, within one-half block on each side of the street is \$69,200.

In comparing the estimated cost and the assessed value of the land it would appear that a more substantial and permanent improvement would be advisable. In this respect, however, I beg to state that the assessed values extend to one-half block on each side of the street, and as these are long blocks, the bulk of the assessment would be laid upon the lots fronting on Mermaid avenue which are assessed at from \$150 to \$200 each. From this it will be seen that the laying of a more substantial pavement would involve an assessment exceeding one-half the assessed value of the lots.

Respectfully,

(Signed) THOS. R. FARRELL, Deputy Commissioner of Highways.

The following resolution was offered:

Resolved, That the Local Board of the Fifth District, Borough of Brooklyn, after hearing had this 17th day of May, 1901, deeming it for the public interest so to do, hereby recommends to the Board of Public Improvements of The City of New York, that proceedings be initiated to regulate, grade and pave Mermaid avenue with macadam pavement, between West Fifteenth street and West Nineteenth street, in the Borough of Brooklyn, and to set or reset curb, pave gutters and pave sidewalks with cement of said street where not already done.

Which was decided in the affirmative by the following vote:

Affirmative—The President, Councilman Doyle and Aldermen Kenney and Keegan.

MUNICIPAL BUILDING, March 11, 1901.

Hon. EDWARD M. GROUT, President of the Borough of Brooklyn:

DEAR SIR—The receipt of your letter of the 7th instant, forwarding petition signed by Patrick J. Farrell, No. 384 Forty-ninth street, and others, for grading lots on the south side of Forty-eighth street and on the north side of Forty-ninth street, between Fifth and Sixth avenues, is hereby acknowledged.

In reply, I beg to state that it is rather difficult to make an estimate of the cost of this work as it is invariably dependent upon special conditions unknown to the Department. If the contractors are desirous of obtaining material for use in other places, work of this kind can frequently be done at a low figure. On the other hand if there is a surplus of material and a dumping privilege has to be paid for the cost of such excavation is necessarily increased. However, from information received, I feel safe in submitting the following estimate in place of the one con-

tained in my letter to you under date of March 2, 1899, giving the estimated cost of the grading of the lots mentioned in the petition as \$18,000, and would report thereon as follows:

Grading lots on the east side of Fifth avenue, between Forty-eighth and Forty-ninth streets; on the south side of Forty-eighth street, between Fifth and Sixth avenues, and on the north side of Forty-ninth street, between Fifth and Sixth avenues, known as Lots Nos. 1, 3 to 13 inclusive, and 42 to 68 inclusive, Block 225, Eighth Ward Map. Hon. EDWARD M. GROUT, President of the Borough of Brooklyn:

DEAR SIR—An investigation has been made by this Borough Department of the condition of vacant lot No. 289 Fifty-eighth street, and it is found that same is about six feet above the grade of the street and is a nuisance to adjoining property in its present condition. I beg to bring the matter before you, therefore, and would request that you kindly refer same to the Local Board of the District, at its next meeting, that steps may be taken to grade same. The estimate, etc., is as follows:

Petition for flagging sidewalks as described in the following report of the Department of Highways:

CITY OF NEW YORK,  
BOROUGH OF BROOKLYN—DEPARTMENT OF HIGHWAYS,  
MUNICIPAL BUILDING, April 29, 1901.

Hon. EDWARD M. GROUT, President of the Borough of Brooklyn:

DEAR SIR—Your letter of the 3d inst., forwarding petition signed by R. M. Raymond, No. 1004 Fortieth street, and others, for the flagging of the sidewalks on the northeasterly and northwesterly sides of Fortieth street, between Fort Hamilton Parkway and New Utrecht avenue, is hereby acknowledged.

In reply I beg to state that report is made, after an inspection, and it is found that Fortieth street is neither curbed or otherwise improved, and there is, therefore, nothing to indicate the exact line or grade of the sidewalk. In my opinion, I do not deem it advisable to recommend these improvements. On several of these blocks, however, cement sidewalks have already been laid, and should the Local Board having jurisdiction deem it proper to order the improving of the remainder of the sidewalks, I think it would be best to improve them by laying cement walks to correspond with the work already done, and beg to submit estimates for such improvements as follows:

1. Laying cement sidewalks on the northeasterly side of Fortieth street, between Fort Hamilton avenue and Tenth avenue in front of Lots Nos. 42 and 43, Block 141, Thirtieth Ward Map. Estimated cost of cement walk, \$32. Assessed value of lots, \$23,400.

2. Laying cement sidewalks on the southwesterly side of Fortieth street, between Fort Hamilton avenue and Tenth avenue, in front of Lots Nos. 3, 4 and 69, Block 142, Thirtieth Ward Map. Estimated cost of cement walk, \$176. Assessed value of lots, \$5,200.

3. Laying cement sidewalks on the northeasterly side of Fortieth street, between Tenth avenue and New Utrecht avenue, in front of Lots Nos. 26 to 34 inclusive, Block 225, Thirtieth Ward Map. Estimated cost of cement walk, \$216. Assessed value of lots, \$3,345.

4. Laying cement sidewalks on the southwesterly side of Fortieth street, between Tenth avenue and New Utrecht avenue, in front of Lot No. 1, Block 224, Thirtieth Ward Map. Estimated cost of cement walk, \$163. Assessed value of lot, \$1,200.

In accordance with request contained in your letter of above-mentioned date I beg to submit the following estimates that the matters may be submitted for the action of the Local Board of the District.

CITY OF NEW YORK,  
BOROUGH OF BROOKLYN—DEPARTMENT OF HIGHWAYS,  
MUNICIPAL BUILDING, May 11, 1901.

Hon. EDWARD M. GROUT, President of the Borough of Brooklyn:

DEAR SIR—The receipt of your letter of the 6th inst., transmitting petition signed by H. A. Intemann and others for the grading of Seventy-fifth street (also known as Bay Ridge parkway), between Second avenue and the Shore road, is hereby acknowledged.

In reply, I beg to advise you that from an examination by this Department of the profile of this street it is found that between First and Second avenues there is a very abrupt fall in the natural surface, while the grade line runs straight from one avenue to the other, thus involving a deep cutting which would destroy one of the finest natural features of this neighborhood. The grades have been changed on the blocks to the north of Seventy-fifth street by raising the elevation at the middle of the block about ten feet, although this change has not been made in the grades of Seventy-fifth, Seventy-sixth and Seventy-seventh streets.

For your information, however, would state that notes are being made in this Department preparatory to recommending that the grade of the above-mentioned three blocks be modified in a similar way, and I therefore beg to submit the following estimate of the amount of work and cost of the improvement, based upon the assumption that such change in the grade will be made, as it reduces the amount of excavation by about one-half, and will make the property more desirable for residential purposes.

Regulating, grading, curbing, and gutters Seventy-fifth street, between Second avenue and the Shore road:

11,000 cubic yards of grading.  
3,548 linear feet of curbing.  
788 square yards gutter pavement.  
Total estimated cost, \$8,900.

A proper district of assessment would be one-half the block on each side of the street, having an assessed valuation, exclusive of improvements, of \$47,200.

Respectfully,  
(Signed) THOS. R. FARRELL, Deputy Commissioner of Highways.

The following resolution was offered:

Resolved, That the Local Board of the Fifth District, Borough of Brooklyn, after hearing had this 17th day of May, 1901, deeming it for the public interest so to do, hereby recommends to the Board of Public Improvements of The City of New York that proceedings be initiated to regulate and grade Seventy-fifth street (also known as Bay Ridge parkway), between Second avenue and the Shore road, in the Borough of Brooklyn, and to set or reset curb and pave gutters.

Which was decided in the affirmative by the following vote:

Affirmative—The President, Councilman Doyle and Aldermen Kenney and Keegan.  
(No. 328.)

The following resolution was offered:

Resolved, That the Local Board of the Fifth District, Borough of Brooklyn, after hearing had this 17th day of May, 1901, hereby transmits to the Commissioner of the Department of Parks for the boroughs of Brooklyn and Queens the following communication presented this day to the Local Board:

I beg to call your attention to the condition of the bridge in course of construction over the extension to the shore driveway at Third avenue and Sixty-seventh street.

The contract for this work was given out in June, 1900, and I understand by its terms the work was to have been completed in 120 days from date of contract, or some time in September, 1900. Almost a year has expired and the work is not half finished; if it progresses at the present rate of speed it will not be finished for from six to nine months more.

Representatives from the Citizens' Association of Bay Ridge and Fort Hamilton have called repeatedly on the Park Department, and while they have been received courteously nothing has been done to hurry the contractor along, but, on the contrary, the officials have tried to excuse the delay, which to the most unprejudiced observer is simply inexcusable. This morning there were five men working on it, and this is about the usual number.

This is a matter of vital interest to the residents of our section, and I would respectfully request that you call the attention of the Local Board to it with a view to having it finished without further delay.

Yours respectfully,  
(Signed) DAVID PORTER, President.

Resolved, That the Local Board hereby requests the Commissioner of Parks to grant the relief petitioned for.

Which was decided in the affirmative by the following vote:

Affirmative—The President, Councilman Doyle and Aldermen Keeney and Keegan.  
Adjournment.

J. W. STEVENSON, Secretary.

CITY OF NEW YORK, DEPARTMENT OF FINANCE, COMPTROLLER'S OFFICE, February 15, 1901.

#### To the Commissioners of the Sinking Fund.

GEORGE L. S. SIX PER CENT. Gold Consolidated Stock, amounting to eight million eight hundred and eighty-five thousand five hundred dollars (\$8,855,000), which was issued by the County of New York prior to its consolidation with the former City of New York, matures on July 1, 1901.

The said stock is all held by the public and is payable from the Sinking Fund for the Redemption of the City Debt (No. 1), under the provisions of section 213 of chapter 378 of the Laws of 1897.

Under an amendment to the Constitution of the State of New York adopted at the general election held in the year 1899, the said stock is exempted, for the debt-restrictive purposes of section 10 of article VIII of the Constitution, from classification as a City debt.

In view of the present heavy demands upon the City's debt-incurring capacity, especially for rapid transit and bridge construction, it is desirable to retain the advantage gained by such exemption. This advantage would be practically lost as to the amount of said stock if it were to be redeemed out of the Sinking Fund, or if it were refunded by the issue of Corporate Stock of the City of New York.

I therefore propose to extend the maturity of a considerable proportion, if not the whole of such stock, for periods not exceeding twenty years, under the authority conferred upon me by chapter 530 of the Laws of 1900 upon the best obtainable terms for the City.

It is not unlikely, however, that it may prove impossible to extend certain portions of said stock upon advantageous terms, and I therefore recommend that a resolution be adopted authorizing the Comptroller to redeem from the Sinking Fund such portions of said stock.

Respectfully,  
(Signed) BIRD S. COLER,  
Comptroller.

Whereas, Six per cent. Gold Consolidated Stock (issued by the County of New York prior to its consolidation with the former City of New York, amounting to eight million eight hundred and eighty-five thousand five hundred dollars (\$8,855,000), matures July 1, 1901, and is payable from the Sinking Fund for the Redemption of the City Debt (No. 1), under the provisions of section 213 of chapter 378 of the Laws of 1897;

Whereas, the Comptroller proposes, under the authority of chapter 530 of the Laws of 1900, to extend for periods not exceeding twenty years the maturity of as much of said stock as he may be able to so extend upon terms advantageous to the City; therefore,

Resolved, That the Comptroller be and is hereby authorized to pay out of the Sinking Fund for the Redemption of the City Debt (No. 1), such portion of the six per cent. Gold Consolidated Stock of the County of New York, payable July 1, 1901, as he may be unable to extend upon terms deemed by him to be advantageous to the City.

The report was accepted and the resolution unanimously adopted.

For the reasons set forth in the foregoing report to the Commissioners of the Sinking Fund, the Comptroller of the City of New York will avail himself of the provisions of chapter 530 of the Laws of 1900, which reads as follows:

#### CHAPTER 530.

AN ACT to authorize the extension of the funded indebtedness of the counties of New York, Kings, Queens and Richmond.

#### ACCEPTED BY THE CITY.

Became a law April 23, 1900, with the approval of the Governor. Passed, a majority being present.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. It shall be lawful for the comptroller of the city of New York, in his discretion, to provide for the extension of all or any part of the funded indebtedness of the counties of New York, Kings, Queens and Richmond, as the same may from time to time mature, Certificates of stock or bonds so extended shall bear interest at a rate not exceeding three and one-half per centum per annum, and shall be stamped across their face with the terms of such extension, which shall be for a period not exceeding twenty years.

Sec. 2. This act shall take effect immediately.

Proposals will be received by the Comptroller at his office, No. 23 Broadway, New York City, from the holders of six per cent. Gold Consolidated Stock of the County of New York, payable July 1, 1901, for extending the maturity of all or any part of the respective amounts of such stock held by them to the following dates:

JULY 1, 1917,

JULY 1, 1918,

JULY 1, 1919,

JULY 1, 1920, and

JULY 1, 1921.

Stock so extended will be payable in gold and will bear interest from July 1, 1901, at the rate of three and three-fourths (3 3/4) per cent. per annum, payable, also in gold, semi-annually, on the 1st day of January and of July in each year. The Comptroller proposes to appertain the amount of stock thus extended so that, as nearly as practicable, one-fifth of the whole amount extended shall be redeemable as such of the five maturity dates above mentioned. Preference will, as far as possible, be given to the proposals received according to priority in the date of their receipt, the proposals first received being entitled to the privilege of the longest extension period, unless such proposal shall indicate a preference for the shorter terms. The stock which is to be extended in accordance with the terms of this circular must be delivered to the Comptroller upon demand, when the certificates will be stamped across their face with the terms of the extension, in accordance with the provisions of chapter 530 of the Laws of 1900, provided, however, that such stock now outstanding in coupon form when presented for extension will be extended in the form of registered stock. Hereafter transfers may be made of such stock on the books of the Corporation in accordance with the general provisions of law and the rules of the Department

## MUNICIPAL ASSEMBLY.

## PUBLIC NOTICE.

**AN ORDINANCE GRANTING TO THE WEST TENTH STREET CONNECTING RAILWAY COMPANY THE RIGHT OR FRANCHISE TO CONSTRUCT AND OPERATE A STREET SURFACE RAILROAD IN, UPON AND ALONG CERTAIN STREETS, AVENUES, PARKWAYS AND HIGHWAYS IN THE CITY OF NEW YORK.**

*Be it Enacted by the Municipal Assembly of The City of New York, as follows:*

**WHEREAS** the WEST TENTH STREET Connecting Railway Company has duly presented to the Municipal Assembly of The City of New York, by presenting and filing with each house thereof, its application, in writing, for a grant of the franchise or right to use the streets, avenues, parkways and highways in The City of New York hereinafter mentioned, for the construction, maintenance and operation of a single-track street surface railroad in or upon the surface of the same; and

**WHEREAS** the said Municipal Assembly, by resolution adopted March 10, 1901, approved by its House the Mayor of said city on March 28, 1901, gave public notice of such application, and that at the Committee Chamber, in the City Hall, in The City of New York, on the 15th day of April, 1901, at 2 o'clock in the afternoon, such application of said railway company would be first considered and a public hearing and decision, which notice was published daily for at least fifteen (15) days successively prior to the hearing, in two daily papers published in The City of New York, viz., in the "New York Press" and in the "New York Journal and Advertiser," which papers were first designated, in writing, by his Honor the Mayor of said city, on March 10, 1901; and

**WHEREAS** after public notice given as aforesaid and at a public hearing duly held in pursuance of such notice, whereas all persons desiring were given an opportunity to be heard and were heard, such application was first considered by the Railroad Committee of both houses of said Municipal Assembly;

**SECTION 1.** The Municipal Assembly of The City of New York hereby grants to the West Tenth Street Connecting Railway Company, subject to the conditions and provisions hereinafter set forth, the right and franchise to use the streets, avenues, parkways and highways of said city, and to construct, maintain and operate a single-track street surface railroad in and upon the following streets, avenues, parkways and highways, viz.: Commencing at the intersection of Sixth avenue and West Tenth street, in The City of New York, running southeasterly with single track through, upon and along West Tenth street to the intersection of said West Tenth street with Greenwich avenue, all in the Borough of Manhattan, City of New York.

**SEC. 2.** The grant of said franchise or right to use said streets, avenues, parkways and highways is made subject to the following conditions:

**FIRST.** That the said right, privilege and franchise to construct and operate for said railway shall be held and enjoyed by said railway company, its lessee or successors, for the term of twenty-five years with the privilege of a renewal of said grant for the further period of twenty-five years upon a fair revaluation of the right, such revaluation to be of the right, privilege and franchise to maintain and operate said railroad by itself, and not to include any value derived from the ownership, control or operation of any other railroad,

line or tracks by the grantee, its successors or assigns; provided, however, that the consent of the owners of one-half in value of the property bounded on such streets, avenues, parkways and highways shall be first obtained, or in lieu thereof the favorable determination of three Commissioners, approved by the Appellate Division of the Supreme Court, that such railroad should be constructed and operated.

**SECOND.** Upon the termination of the said franchise or right, whether original or renewed, there shall be a full valuation of the plant and property of the grantee in the streets, avenues, parkways and highways aforesaid, with its appurtenances; and the said plant and property shall be and become the property of the City on the termination of the grant on paying the grantee such valuation. Such payment shall be at a fair valuation of the said plant and property as property, including any value derived from the franchise.

**THIRD.** The mode of determining the valuations and revaluations herein provided for shall be as follows: One disinterested freeholder shall be chosen by the Board of Estimate and Apportionment, one disinterested freeholder shall be chosen by the railroad company; these two shall choose a third disinterested freeholder; the three so chosen shall act as appraisers and shall make the valuations and revaluations aforesaid. Such appraisers shall be chosen at least sixty days prior to the expiration of the grant, or of the renewal thereof, and their reports shall be filed with the Comptroller of the City not more than thirty days thereafter. They shall act as appraisers and not as arbitrators; they may have their judgment upon their own experience and upon such information as they may obtain by inquiries and investigation without the presence of either party; they shall have the right to examine the books of the railroad company. The valuation so ascertained, fixed and determined shall be conclusive upon both parties.

**FOURTH.** The said West Tenth Street Connecting Railway Company shall, for and during the first five years after the commencement of the operation of any portion of its railroad, annually, on November 1, pay into the treasury of the City, to the credit of the Sinking Fund thereof, three per cent. of its gross receipts for and during the year ending September 30 next preceding; and after the expiration of such five years make a like annual payment into the treasury of the City, to the credit of the same fund, of five per cent. of its gross receipts, as required by section 25 of the Railroad Law, but such percentage of gross receipts shall not be less than one hundred and fifty dollars (\$150) annually for the first five years and not less than three hundred dollars (\$300) annually thereafter.

That but one fare shall be exacted for passage over the railroad constructed under this grant and over the lines of any railroad system or systems operated in connection therewith, and that the gross receipts from joint business shall be divided in the proportion that the length of said railroad operated hereunder shall bear to the entire length of the railroad system or systems which shall be operated in connection therewith, and of the railroad to be constructed hereunder.

**FIFTH.** Wherever and whenever this connecting railway shall make it possible for the cars of a non-percentage paying line to operate upon the tracks of a percentage paying line, the former line shall keep a separate and accurate account of all fares collected from passengers who enter said cars upon the routes of percentage lines, and amount to the City for them the same as if they had been collected on the percentage line, and to pay the same percentages thereon as is now provided by law to be paid by the company upon whom runs they operate.

**SIXTH.** The said railroad may be operated by underground electrical power substantially similar to the system of underground electrical traction now in use on the railroads in Second, Sixth, Eighth, Lenox and Madison avenues in this city, and by any other motive power, except locomotive steam power, which may be approved by the Board of Railroad Commissioners and sanctioned by the owners of property, in accordance with the provisions of the Railroad Law.

**SEVENTH.** The said railroad shall be constructed and maintained subject to the inspection and control of the Commissioner of Highways and the Commissioner of Public Buildings, Lighting and Supplies of The City of New York, in all matters with respect to which said Commissioners are respectively invested with the power of regulation and control by the Charter of said city; and the consent of the City, as owner of property bounded on West Tenth street and on Christopher street, is hereby given to the operation of the railroads now or hereafter constructed on said streets by the force of motive power provided in section fifth.

**SEC. 3.** The said grant is also upon the further conditions, namely:

**FIRST.** The said railroad shall be constructed and operated in the latest improved manner of street railway construction, and the railroad and property of said company shall be maintained in good condition throughout the full term of this grant.

**SECOND.** The rate of fare for any passenger upon said railroad shall be five cents; and said company shall not charge any passenger more than said sum for one continuous ride from any point on its road, or any road, line or branch operated by it or under its control, to any point thereon or any connecting branch thereof within the limits of The City of New York. The cars on said railroad shall be run as often as the public convenience may require.

**THIRD.** The said railroad company shall apply to each car a proper number and wheel-guards conspicuously to such laws and ordinances as may hereafter be enacted or adopted by the State or City authorities.

**FOURTH.** All cars of said railroad company shall be heated during cold weather conformably to such laws and ordinances as are now in force or may hereafter be enacted or adopted by the State or City authorities, and such car shall be well lighted either by the kerosene gas system or by electricity, or by some system of lighting equally efficient.

**FIFTH.** In case of any violation or breach of or failure to comply with any of the provisions of this section, the grant may be forfeited by suit brought by the Corporation Council on notice of ten days to the said railroad company.

**SEC. 4.** This grant is also upon the further and expressed condition that the provisions of article IV. of the Railroad Law applicable thereto be complied with.

**SEC. 5.** The said company shall at all times keep the street between its tracks and for a distance of two feet beyond the rails upon either side thereof free and clear from ice and snow.

**SEC. 6.** The said railroad company, so long as it shall continue to use any of its tracks upon said streets, avenues or public places, shall have and keep in permanent repair that portion of such streets, avenues and public places between its tracks, the rails of its tracks and two feet in width outside of its tracks, as determined by the proper local authorities, and whenever required by him to do so, and in such manner as they may prescribe.

**SEC. 7.** This grant shall not become operative unless, within ten days after the approval thereof by the Mayor of said City, or the final passage thereof, or subsequent to the taking effect of said grant by reason of the failure of said officer to return the same with his disapproval, the said railroad company shall duly execute under its corporate seal an instrument in writing, wherein said company shall promise, covenant and agree on its part and behalf to pay the compensation and to conform to, abide by and perform all the conditions and requirements in this ordinance fixed and contained, and within the said period file the said instrument in the office of the Comptroller of The City of New York.

**SEC. 8.** This ordinance shall take effect immediately. Published in accordance with a resolution adopted by the Municipal Assembly of The City of New York on the 21st day of May, 1901, and approved by his Honor the Mayor on the 24th day of May, 1901.

**SEALED BIDS OR PROPOSALS FOR THE** above work, indorsed with the above title, also with the name of the person or persons making the same, and the date of presentation, will be received at the office of the Mayor, City Hall, in The City of New York, until

MONDAY, JULY 6, 1901.

at 12 o'clock a. m., at which place and hour the bids will be publicly opened by and in the presence of the Board of Estimate and Apportionment and read. The person or persons to whom the contract may be awarded will be required to attend at the office of the Department of Public Buildings, Lighting and Supplies, with the necessary offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect.

**A B—Verification will not be given for the withdrawal of any bid or estimate. No bid will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as a surety or otherwise, upon any obligation to the Corporation.**

Bids will be received only for the whole work to be done.

Bidders are required to state in their estimates, under oath, their name, and place of residence, the names of all persons interested with them therein, and if no other person be so interested they shall distinctly state the fact; also, that it is made without any connection with any other person making any bid or estimate for the same work, and that it is in all respects fair and without collusion or fraud; and also that an officer of the Municipal Assembly, head of a department, chief of a bureau, deputy clerk or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. Where more than one person is interested, it is required that the verification be made and subscribed by all the parties interested.

Each estimate shall be accompanied by the amount, in writing, of two householders or freeholders in The City of New York, with their respective places of business or residences, or of a guaranty or surety company duly authorized by law to act as surety, to the effect that if the contract be awarded to the person making the estimate, they will, upon its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled upon its completion, and that which the Corporation may be obliged to pay to the person to whom the contract shall be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation in writing, of each of the persons signing the same, that he is a householders or freeholder in The City of New York, and is worth the amount of the security required for the completion of the contract, as stated in the proposals, over and above all his debts of every nature, and over and above his liabilities as he is, surety and otherwise, and that he has offered himself as a surety in good faith, and with an intention to execute the bond required by law. Should a guaranty or surety company be offered, the amount of the said company shall be submitted. The adequacy and sufficiency of the security offered will be subject to the approval of the Comptroller after the award is made and prior to the signing of the contract.

For the nature and extent of the work to be done bidders are referred to the specifications and the plans and drawings thereon mentioned, which can be seen at the office of the architect, John R. Thomas, No. 100 Broadway; said specifications, plans and drawings form part of the contract.

The earlier work is to be progressed simultaneously with and finished within sixty days after the completion of the contract, dated December 17, 1900, for the "Mason Work, Plaster Work, Steel and Iron Work, Roofing and Sheet Metal Work and Other Work" on Hall of Records Building.

The damages to be paid by the contractor for each day that the contract may be unfulfilled after the time specified for the completion thereof shall have expired are, by a clause in the contract, fixed and liquidated at TWO HUNDRED AND FIFTY DOLLARS PER DAY.

Bidders must state in writing, and also in figures, a price for the whole work complete, which price is to cover the furnishing of all necessary materials and labor and the performance of all the work set forth in the specifications and form of agreement.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of one per cent. of the amount of the security required for the faithful performance of the contract, such check or money must not be included in the sealed envelope containing the estimate, but must be handed to the officer or clerk who has charge of the estimate box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by The City of New York as liquidated damages for such neglect or refusal, but if he shall execute the contract and give the proper security within the time aforesaid the amount of his deposit will be returned to him.

The amount of security required is FIVE HUNDRED THOUSAND DOLLARS, as hereinabove specified.

The right is reserved by the Board to reject any or all bids if they shall deem it for the interest of the Corporation so to do.

Blank forms of bids or estimates and the form of agreement, including the specifications for the work, and further information, if required, can be obtained on application at the office of the Architect, No. 100 Broadway.
