MESSAGES FROM THE MAYOR.

The President laid before the Board the following communication from his Honor the Mayor:

No. 3400.

City of New York, Office of the Mayor, April 18, 1913.

To the Honorable the Board of Aldermen:

In December last I appointed R. A. C. Smith, Louis E. Miller, Morris D. Waldman, Michael Furst, and William A. Cokeley a Commission to examine into the matter of pushcarts in the City, and of their accommodation under shelter, in place of being exposed to the weather in the streets, and being an obstruction in the streets. I herewith transmit to you their report thereon.

At the same time I beg to call your attention to the admirable and comprehensive report of the Committee of your own body on the same subject, an advance draft of which has been shown to me.

These two reports are very much in harmony, as you will perceive on examining them.

Both reports recognize the fact that the pushcarts serve a good purpose in the localities where they ply their trade. Commodities are, by means of them, distributed at lower prices than they could be purchased for elsewhere. It is therefore not advisable to do away with the pushcarts.

But it is necessary to take them off of the streets. It seems to be the unanimous wish of the pushcart men that they be taken off of the strees and placed in suitable places or stands under cover, where they will be protected from the elements and made comfortable, and at the same time serve the purposes which they now serve. This is also the wish of the public generally. Pushcarts are a serious obstruction to many streets, and the men and women and children who attend these carts are exposed to rain, storm and severity of weather, with much resulting ill health therefrom.

Both of these reports show much space under the bridges and elsewhere available for pushcart stands. There is no lack of space for this purpose. These spaces are owned by the City, and can be put in order at a comparatively small cost. For instance, it reasonably appears that the pushcarts in the 13th, 15th and 17th Police Precincts of the First Inspection District can be housed, in the way I have suggested, at an expense of about $150,000.

The work can be gradually done. The great thing is to make a beginning, for it is certain that if we do so, the entire work will be carried out in succession. And the cost will be so small that we will not need to issue corporate stock therefor, but can meet the same by revenue bonds.

But in order to carry the work out somebody must work at it literally from day to day. If it be your wish I shall appoint a committee of citizens to do that work in conjunction with your honorable body. There are citizens very much interested in this work, and who will be glad to act as agents of your honorable body in carrying out your wishes in the matter.

I cannot too strongly urge you to take up this work and carry it through. In justice to the men, women and children engaged in this industry, we should put them under cover, and in justice to the whole community we should clear the streets of the obstruction of pushcarts. Of course, as fast as you provide spaces for pushcarts in a district the police will be instructed to see that no other pushcarts take their places in the streets.

It is worthy of mention, although by no means a controlling fact, that these pushcart stands, let out at very reasonable rates, will be sources of large revenue to the City.

W. J. GAYNOR, Mayor.

A Report by a Committee Appointed by the Mayor to Study and Recommend a Solution of the Pushcart Question; Dated March 26, 1913.

New York, March 26, 1913.

Honorable WILLIAM J. GAYNOR, Mayor of The City of New York:

Sir—From the time you appointed us, December 18, 1912, as a Committee to consider and report on the pushcart question your Committee has been steadily at work. We assume you do not want a report burdened with detailed description of the many conferences, individual and collective, inspections and hearings, but a report that gives you our conclusions with relative information and recommendations. We therefore report as follows:

First—Pushcarts have multiplied to serious proportions in numbers. In certain localities they occupy so much space on the streets that they form congestion on the highways and are a menace to the safety of citizens; a menace to the health of the persons living in the locality where the congestion exists, as well as to the entire community. They impede the use of the streets and sidewalks. They are an obstacle to the work of the Fire Department when fires occur in the neighborhood where they are congregated and they are always an impediment to the progress of the apparatus of the Fire Department and are thus a menace to life.

Second—Storekeepers, whether they be property owners or not, presume to have proprietary rights to the use of the streets and do a profitable pusiness in renting space in front of their shops to those vending from pushcarts. In many cases storekeepers maintain pushcarts of their own on the street in front of their shops for the additional profit to be gained thereby. Other storekeepers in these congested districts ordinarily would not countenance this practice but the example set by others, by which they profit and increase competition without any apparent hindrance is easily followed. This is a conspicuous feature that adds rapidly to the growing pushcart nuisance and unlawful use of the streets.

Third—Satisfactory control of pushcarts and regulations by which they may be restrained has been found impracticable. The City's ordinances are frequently violated where pushcarts make congestion. Peddlers who confess these and other infractions of orderly government, which have developed in connection with the pushcart industry, are foremost in requesting remedies.

Fourth—An official count made by the Police department in November, 1912, gives 5,534 pushcarts in operation. The Bureau of Licenses report 2,800 as the number of licenses issued. The greatest congestion exists in the 13th, 15th and 17th precincts of the First Inspection District of the Police Department.

These precincts are bounded on the north by 14th st., on the west by the Bowery and 4th ave., on the east by the East River, and on the south by East Broadway and Grand st.

The official count of the Police Department of November, 1912, gave 2,512 pushcarts operating in these three precincts.

A recount by the Police Department in March, 1913, shows 2,450 pushcarts now operating in these districts.

The population of these three precincts is 442,000, as shown by the last census.

Peddling without license increases notwithstanding the restriction your Bureau has placed upon the number of licenses. Nearly all those peddling without a license are widows, deserted women, the aged, and those of physical defect, all of whom are unable to earn a livelihood at ordinary labor or at a trade. Many of these unlicensed peddlers would fall a charge upon the public and private charities of the City if they were not permitted to ply this trade. Nevertheless they are continuously in the position of violating the City ordinances, and they are particularly subject to the exploitation of self seeking persons, who, for their own gain often extort payment from them under the pretense of protection. About one-third of the licenses granted are sold or rented for pay. These violation of City ordinances made by well intending men and women because they cannot find other means of earning a livelihood—trifling as it seems—must have a demoralizing effect, in so far as it weakens respect for the law, and leads to the impression that laws may be evaded through undue influence.

The legal status of the pushcart operator is that of a commercial outcast and his social condition is deplorable.

Fifth—It has been found that the foodstuffs sold by the peddlers is nearly uniformly wholesome. These and other commodities are sold at a considerably less cost than obtained in stores. For this reason the peddlers have become an important economic factor to the people of the localities in which they congregate. We therefore recommend that:

Pushcart peddling should be entirely prohibited on the streets of the City, but that instead—In the following places owned by the City provisions shall be made for permanent shelter markets.

Space under Williamsburgh Bridge covers 232,000 square feet, of which 18,000 is occupied by pushcarts, 18,000 used as fish markets, 5,000 comfort stations, 191,000 divided between the Board of Education, playgrounds, Street Cleaning Department and rented to contracting company for storage.

Your Committee recommends the readjustment of the space as follows:

	Sq. Ft.
From Ridge to Sheriff sts. for shelter markets with a capacity of 1,200 stalls using	71,000
Comfort station	5,000
Sheriff to Columbia sts. for fish market	26,000
For Board of Education, playgrounds, and Street Cleaning Department	130,000
Total	232,000

The fish market could be very much improved. Concrete stalls properly drained should be installed to take the place of the improvised wooden fixtures, and the space made completely sanitary and wholesome for the sale of sea food.

2. Space underneath the Manhattan Bridge, a portion thereof to be reserved for children's playground. Space owned by the City under the Manhattan Bridge, including the approach, can be made available for markets and playgrounds. For instance, the approach and the space between East Broadway and Henry st. would provide for 800 stalls and from Henry to Water st. some 65,000 square feet could be turned over to children's playground.

3. The old market building located at Grand st., between Essex and Ludlow sts., the adjacent unoccupied school building and the alley between the two.

4. That part of Hamilton Fish Park as shown in the plan.

5. A limited space in Tompkins Park with a similar structure.

6. A limited space in Mulberry Bend Park.

7. A narrow strip between the sidewalk and park walk, from 111th and 116th sts. of Thomas Jefferson Park.

If from one viewpoint it is necessary to have markets or sheltering places for the pushcart men and women, for the general walfare of the City and safety of the public at large, it is still more necessary for the welfare of the pushcart men themselves and will make them desirable tradesmen.

For the peddlers' zone now on 1st ave., between E. Houston and E. 12th sts., provision could be made for open shelters or markets in the immediate neighborhood. It is also necessary to locate some open markets or shelters to accommodate the peddlers of other congested districts. Zones should be created within these zones and open markets should be located in order to provide wholesome food for the daily requirements of the people living in these congested districts. By the creation of wholesale terminal markets under the plans now nearing completion by the Commission, of which Mr. C. C. Miller is President, much can and will be done toward the distribution of food supplies at minimum prices by direct delivery from the wholesale terminal markets to the secondary markets under which these open air peddlers' shelters may be classified. Your Committee recommends the concentration of the peddlers' market within the space named, for the reason that the people who use these markets prefer to trade with the peddlers where they are concentrated rather than when scattered. The location named gives many of those living within walking distance an opportunity to make their purchases. Space owned by the City under Manhattan Bridge, including the approach, can be made available for markets and playgrounds.

In addition your Committee submits its study for a sheltered space which may serve as a type for most any part of the City where pushcart peddling prevails. The plan herewith is drawn to scale and occupies a limited portion of Hamilton Fish Park not now in use. This improvement will add much needed breathing space for mothers and children of the congested localities. These spaces might have a canopy over certain sections of them which could provide shelter from storm and from the hot sun of summer.

This plan provides shelter for a large number of peddlers in well ventilated and wholesome space accessible from every quarter. It adds to the park space. The breathing space which provides a roof for the shelter of the peddlers is planned for 10 feet above the street level and is reached by an easy approach on a ramp. The level space would provide an attractive and well protected recreation ground for a great number of women and children of the neighborhood. The population of eight blocks surrounding Hamilton Fish Park is over 22,000. Recreation piers are now provided by the City and serve certain localities, but in some of the congested districts this form of recreation space above the street level will care for those unable to reach the piers.

The location selected to show the type of sheltered space for the sale of merchandise such as is now carried on pushcarts has been planned for the accommodation of 300 peddlers. This in itself will relieve at least fifteen of the most congested blocks.

The type of peddlers' shelter recommended by the Committee can be adapted to many localities.

Messrs. Warren & Wetmore, the well known architects, under the direction of your Committee, prepared the plan for shelters herewith attached, and submit the following information as to dimensions, quantities and approximate cost:

Floor for shelter will be 4 feet below grade.

Playground on roof will be 10 feet above grade.

Both will be reached by very easy gradients.

Shelter from floor to ceiling will be 11 feet 6 inches in the clear, to contain approximately 300 stalls in both buildings.

The two roofs together give 24,800 square feet of playground.

It is proposed to make the walls cement on brick, with steel columns and roof beams; the 50 feet width being taken in two spans with a row of columns in the centre; the shelter floor to be of cement with floor drains.

The playgrounds on roofs to have a tile surface and to be enclosed by cast iron railing 4 feet 6 inches in height; a similar railing to be on ramp to roof, and to protect area where ramps go down to market floor.

Each building contains, cubic feet	195,000
Ramps down, cubic feet	12,000
Ramp up, cubic feet	9,775
Approximate cost of each shelter	$37,040 00
Total for two shelters, including ramps	$74,080 00

Peddlers pay at the rate of $30 per annum for the hire of pushcarts, and if shelter stalls were rented at the same rate the results would be thus:

Hamilton Fish square, 300 stalls at $30 per annum	$9,000 00
Attendants, light and water	2,760 00
Net from operation	$6,240 00
Interest on cost at 4½ per cent	3,330 00
Net profit	$2,910 00
For spaces under bridges:	
2,000 stalls at $30 per annum	$60,000 00
Attendants, light and water	15,000 00
Net from operation	$45,000 00
Estimated cost of asphalt floors, iron railing, stalls, etc.:	
$100,000, interest at 4½ per cent.	4,500 00
Net profit	$40,500 00

The care and control of all of these shelters should be placed in the hands of the Comptroller through his market bureau, who shall establish such rules and regulations as may be necessary, excepting when built on any space controlled by the Park Department. In such places the Park Commissioner shall control and fix regulations.

Your Committee gave careful consideration to the waste space under the New York Central tracks, between 111th and 125th sts. on Park ave., and it would like to recommend some of the spaces between streets for the use of shelters. Possible legal obstacles might entail such delay that the plan may prove inexpedient.

In a final consideration of all the circumstances we feel that provision for those now trading with pushcarts must be made and the sooner work is begun the sooner a vexing municipal problem will have been solved. Respectfully submitted,

R. A. C. SMITH, Chairman; LOUIS E. MILLER, MORRIS D. WALDMAN, MICHAEL FURST, WILLIAM A. COKELEY.

Dated March 26, 1913.

Which, on motion of Alderman Brush, was referred to the Special Committee on Markets and Pushcarts.

The City Club of New York, 55 W. 44th St., April 21, 1913.

To the Board of Aldermen of The City of New York, City Hall, New York City:

Gentlemen—We earnestly urge upon you the passage of the Motion Picture Ordinance, introduced by Alderman Folks, throwing around the construction and operation of such theatres physical requirements safeguarding public health and safety.

The Mayor has already indicated that he will not sign an ordinance attempting to establish a moral censorship of performances held in such theatres. The Board of Aldermen has shown that it cannot pass an ordinance containing such a provision over the Mayor's veto.

It therefore becomes necessary to separate any question of censorship from the question of adequate physical requirements in motion picture theatres. In our judgment it is the manifest public duty of the Board to see that such physical requirements are made regardless of any question of censorship.

The Board has just passed a motor vehicle ordinance which reflects credit upon the Board and which we have to-day urged the Mayor to sign. We earnestly urge you to follow this up by a similarly creditable treatment of the motion picture problem. Respectfully,

THE CITY CLUB OF NEW YORK,

National Maine Monument Committee, New York City, April 22, 1913.

Board of Aldermen, City of New York:

Gentlemen—Attached hereto please find copy of a formal communication from this committee to the Board of Estimate of The City of New York.

Our committee invites your Board to act in concert with the Board of Estimate in having The City of New York contribute the sum of $7,000 toward the cost of the foundation of the National Maine Monument which is about to be unveiled at the corner of 8th ave. and 59th st., just inside of the Central Park entrance.

The monument is costing approximately $183,000, and our committee is providing all the funds for the monument proper and about $30,000 for the new entrance gates to Central Park, which were required by the Municipal Art Commission and which were not a part of the monument as originally planned and contracted for.

For further details we beg to direct your attention to the attached letter.

The unveiling of this monument marks not only the completion of a beautiful City adornment but it is of such national significance that the Secretary of the United States Navy has just directed the attendance of the entire North Atlantic fleet, with all of its magnificent ships, at the time of the dedication.

The Mayor of New York City will be invited to accept the monument on behalf of the municipality. Respectfully, JAS. GRANT WILSON, Chairman.

(Copy.)

April 18, 1913.

Board of Estimate, City of New York:

Gentlemen—The National Maine Monument, which is now practically finished, at the entrance to Central Park, at 59th st. and 8th ave., will, on May 30 of this year, be dedicated and presented to The City of New York. The Mayor will be asked to receive the monument in behalf of the City. There will be simple but impressive ceremonies, which will be attended by National officials, and State and City officials will be invited. A luncheon at a hotel also is being arranged.

The National Maine Monument Fund to date, with all trust fund interest thereon, amounts to about $143,000. The actual cost of the monument including the unveiling is at this moment estimated to be $183,000. The shortage of $40,000 is due mainly to the addition of the beautiful gates which constitute a new entrance to Central Park. As planned and contracted for originally, the monument did not include these gates. They were required by the Municipal Art Commission at the time of the original presentation in connection with the present site.

Our committee cheerfully obligated itself to see that these gates were built, and, without asking the City for one penny, has practically finished the monument, all of the great works of sculpture being ready to put in position this month. Of the approximate deficiency of $40,000 one of the members of our committee has offered to give a dollar for every dollar that is raised by our committee in any other way. This leaves about $20,000 to be raised in other ways. Of this sum prominent gentlemen have already subscribed a portion, and the committee has made arrangements to get some in other directions.

At conferences between a representative of this committee and City officials, our committee has become convinced that it is quite proper to ask The City of New York, through its Board of Estimate, if it wishes to contribute toward this great memorial. We are informed that in connection with the Carl Schurz Memorial the City originally gave $25,000 to provide means for erection of the memorial, and within a week your Board has passed a resolution giving $10,000 toward the dedication ceremonies in connection with that memorial.

Our committee is informed that in practically every instance of the building of a public monument the City has contributed either toward the foundation or other work in connection with the monument or toward the dedication of the monument. We have decided to make no request at all of the City in connection with the monument itself, the additional gates we have built or the dedication services of the National Maine Monument. We have, however, come to the conclusion that we will offer The City of New York an opportunity to provide a place on which to put the monument and the gates by expending the sum of seven thousand dollars ($7,000) for work done on the foundation for the monument under the jurisdiction of the Department of Parks. Park Commissioner Stover permits us to state that he is in hearty accord with such action, and that he feels, in view of all the public and this committee have done, it would indeed be only a small thing for the City to provide the foundation for such a permanent and beautiful patriotic memorial.

Our committee requests that the Board of Estimate by unanimous consent at its meeting on Thursday, April 17, consider a resolution providing the sum of $7,000 for the purpose stated. In conclusion, permit me to say at the time stated, I, as chairman of the National Maine Monument Committee, will in person present the monument to the Mayor of New York for the City. Respectfully.

JAS. GRANT WILSON, Chairman.

Note—The gates referred to cost about $30,000 in addition to the cost of the monument proper.

The powers granted by this act are to be exercised by the officer, officers or official body vested with such powers by any other provision of law or ordinance (subject to amendment or repeal of any such ordinance) and in the manner and subject to the conditions prescribed by law or ordinance (subject to amendment or repeal of any such ordinance), but no provision of any special or local law shall operate to defeat or limit in extent the grant of powers contained in this act; and any provision of any special or local law which in any city operates, in terms or in effect, to prevent the exercise or limit the extent of any power granted by this article, shall be superseded. Where any such provision of special or local law is superseded under the provisions of this subdivision, such power, freed from the limitations imposed by such provision, shall be exercised by the same officer, officers or official body that would be vested with the same under the provisions of this subdivision, if such provison had not been superseded, but the exercse thereof shall be subject to the limitations provided for in subdivision two of this section.

2. In the absence of any provision of law or ordinance determining by whom or in what manner or subject to what conditions any power granted by this act shall be exercised, the common council or board of aldermen or corresponding legislative body of the city shall, subject to the provisions of this section, have power by ordinance to determine by whom and in what manner and subject to what conditions said power shall be exercised. The exercise by any city of any power granted by this article not now vested in such city or now vested in such city subject to provisions which are superseded by the provisions of subdivision one of this section, shall be subject to the followng limitations:

a. No city shall issue any obligations for expenses for maintenance, repairs or current operation or administration of the property or government of the city or otherwise than for betterments, improvements and acquisitions of property of a permanent nature, or for the purpose of refunding obligations of the city. No city shall issue obligations until there shall first have been filed in the office of the city clerk a certificate of the comptroller or other chief financial officer of the city under his hand and seal, stating (1) the then existing indebtedness of the city; (2) how much, if any, thereof consists of certificates of indebtedness or revenue bonds issued in anticipation of the collection of taxes, and how much, if any, of such certificates or revenue bonds has not been paid out of the taxes for the year when such certificates or revenue bonds were issued or for the year next succeeding; (3) the amount of the assessed valuation of the real estate of the city subject to taxation, as shown by the assessment rolls of said city on the last previous assessment for state or county taxes; (4) a description of the property or improvement for the acquisition or making of which the debt is to be created; and (5) the probable life of such property or improvement. Such certificate shall be a public record. The term of payment of any obligations issued to secure such debt shall not exceed the probable life of such property or improvement as stated in such certificate and shall in no case exceed fifty years. This subdivision shall not apply to certificates of indebtedness or revenue bonds issued in anticipation of the collection of taxes for amounts actually contained or to be contained in the taxes for the year when such certificates or revenue bonds are issued and payable out of such taxes. This subdivision shall not apply to certificates of indebtedness or revenue bonds issued in anticipation of the collection of taxes for amounts to be contained in the taxes for the year next succeeding the year when such certificates or revenue bonds are issued and payable out of such taxes, except that a certificate shall be filed as required by this subdivision before any such certificates or revenue bonds shall be issued.

b. No sale or lease of city real estate or of any franchise belonging to or under the control of the city shall be made or authorized except by vote of three-fourths of all the members of the common council or corresponding legislative body of the city. In case of a proposed sale or lease of real estate or of a franchise, the ordinance must provide for a disposition of the same at public auction to the highest bidder, under proper regulations as to the giving of security and after public notice to be published at least once each week for three weeks in the official paper or papers. A sale or lease of real estate or a franchise shall not be valid or take effect unless made as aforesaid and subsequently approved by a resolution of the board of estimate and apportionment in any city having such a board, and also approved by the mayor. No franchise shall be granted or be operated for a period longer than fifty years. The common council or corresponding legislative body of the city may, however, grant to the owner or lessees of an existing franchise, under which operations are being actually carried on, such additional rights or extensions in the street or streets in which the said franchise exists, upon such terms as the interests of the city may require, with or without any advertisement, as the common council may determine, provided, however, that no such grant shall be operative unless approved by the board of estimate and aportionment in any city having such a board, and also by the mayor.

In any city the question whether any proposed sale or lease of city real estate or of any franchise belonging to or under the control of the city shall be approved

shall, upon a demand being filed, as hereinafter provided, be submitted to the voters of such city at a general or special election, after public notice to be published at least once each week for three weeks in the official paper or papers. Such demand shall be subscribed and acknowledged by voters of the city equal in number to at least ten per centum of the total number of votes cast in such city at the last preceding general election and shall be filed in the office of the clerk of such city before the adoption of an ordinace or resolution making or authorizing such sale or lease. If such demand is filed, as aforesaid, such sale or lease of real estate or such franchise shall not take effect unless in addition to the foregoing requirements a majority of the electors voting thereon at such election shall vote in the affirmative.

The foregoing limitations shall not apply to the exercise by any city of any power now vested in it, where the existing provisions of law determining by whom or in what manner or subject to what conditions such power shall be exercised are not superseded by the provisions of subdivision one of this section; but in such case the exercise of such power shall be subject only to such existing provisions of law, and shall not be limited or restricted by any provision of this section.

Section 24. Construction of this act. This article shall be construed, not as an act in derogation of the powers of the state, but as one intended to aid the state in the execution of its duties, by providing adequate power of local government for the cities of the state.

Section 2. This act shall take effect immediately.

The President laid before the Board the following communication from the President of the Borough of Richmond:

No. 3405.

The City of New York, Office of the President of the Borough of Richmond, Borough Hall, New Brighton, New York City, April 15, 1913.

Mr. P. J. SCULLY, Clerk, Board of Aldermen, City Hall, New York City:

Dear Sir—At the meeting of the Board of Estimate held April 3, 1913, a communication was presented from Corporation Counsel, referring to the resolution of that Board adopted February 6, 1913, approving of, and concurring in, an ordinance of the Board of Aldermen adopted January 6, 1913, and approved by the Mayor on January 31, 1913, said ordinance being the selection of certain property in the 2d Ward, Borough of Richmond, for the use of the Bureau of Street Cleaning, President of the Borough of Richmond.

Due to proceedings having been inaugurated for the acquisition of Tompkins avenue, to be known hereafter as Rosebank avenue, which acquisition would take by condemnation a portion of the property proposed to be acquired for the use of the Bureau of Street Cleaning, Corporation Counsel desires to have the ordinance amended; consequently, we at once asked the Board of Aldermen to take such action as might be necessary in the case, and take pleasure in furnishing herewith five copies of the revised map, with attached technical descriptions.

We would also call attention to the fact that in the technical description furnished in Corporation Counsel's letter, which may, perhaps, have been filed with the Board of Aldermen, occurs a serious error in description. The description which we are supplying is the one to be included in the amended ordinance.

We would ask for the earliest possible action in this matter, as we desire to take possession of the property at an early date for improvement in connection with our refuse destructor plant. Very truly yours,

GEORGE CROMWELL, President of the Borough.

Which was referred to the Committee on Finance.

The President laid before the Board the following communications from the Board of Estimate and Apportionment:

No. 3406.

Board of Estimate and Apportionment, City of New York, Office of the Secretary, 277 Broadway, April 22, 1913.

To the Honorable the Board of Aldermen:

Gentlemen—I transmit herewith certified copies of twenty-two resolutions adopted by this Board April 17, 1913, relative to issues of corporate stock, as follows:

Cal. No. 43A. Authorizing issue of $7,500 corporate stock, to provide for the expense incurred by the Department of Water Supply, Gas and Electricity, due to replacing pavements opened for extending the distribution systems of the various boroughs, in connection with improving the water supply systems of said boroughs.

Cal. Nos. 44A to 44G. Authorizing issue of $851,000 corporate stock for the purchase of materials, general plant materials, for use of the labor construction forces of the Department of Water Supply, Gas and Electricity, for the Boroughs of Manhattan, The Bronx, Brooklyn and Queens, and for furnishing and laying additional small distribution mains and appurtenances in all boroughs.

Cal. Nos. 47A and 47B. Authorizing issues of corporate stock for the Department of Water Supply, Gas and Electricity, as follows: $20,000 for construction of stable and building for headquarters and storage purposes at the proposed Bay Ridge repair yard; $10,000 for acquiring the necessary property at 61st st. and 11th ave., Brooklyn, for a repair yard.

Cal. Nos. 48A to 48F. Authorizing amendment of six resolutions heretofore adopted, authorizing issues of corporate stock for the acquisition of sites and erection of buildings for the Fire Department, by rescinding $12,000, unencumbered balance in four accounts, and increasing two others in like amount.

Cal. Nos. 49A to 49D. Rescinding $7,500, unencumbered balance in two corporate stock authorizations heretofore adopted; rescinding $27,500 corporate stock, authorized July 17, 1911, for the construction of an administration building at the Manhattan approach of the Madison avenue bridge, and amending resolution adopted June 3, 1910, authorizing issue of $700,000 corporate stock for the strengthening of the Williamsburg Bridge structure, by increasing said amount to $735,000.

Cal. Nos. 77A and 77B. Further amending resolution adopted June 21, 1907, authorizizng issue of $1,196,083.76 corporate stock for erection of new buildings, etc., under the jurisdiction of the Department of Public Charities, by reducing the amount to $1,188,083.76; authorizing the issue of $8,000 corporate stock to provide for the erection and equipment of an addition to North Pavilion, City Home, Blackwells Island, under the jurisdiction of the Department of Public Charities.

I also transmit copies of reports of the Corporate Stock Budget Committee relative thereto. Yours very truly,

JOSEPH HAAG, Secretary.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, March 27, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—In his corporate stock departmental estimate for 1912-13 the Commissioner of Water Supply, Gas and Electricity included an item of $21,000 for "Repairs and Replacements by Contract or Open Order—All Boroughs." In a memorandum recently submitted to the Comptroller, the Commissioner urges immediate action upon this item. In connection therewith, we report as follows:

The $21,000 is to provide for the estimated expense of repairs to pavements in connection with openings made by the Department of Water Supply, Gas and Electricity during the extension of the present water distribution systems in all boroughs.

The following table gives the cost of similar repairs during the years 1911 and 1912 as shown by the books of the Department.

Repairs to Pavements due to Openings made for Extension of Distribution Systems —All Boroughs

Boroughs.	1911.	1912.
Manhattan and The Bronx	$4,787 35	$2,834 38
Brooklyn	1,669 97	2,042 90
Queens	.....	37 50
Richmond	1,618 33	1,597 51
Totals	$8,075 65	$6,512 29

The average annual expenditure for the last two years was less than $7,300. An allowance of $7,500, therefore, would appear to be ample for 1913.

Under the classification in the 1913 Budget repairs to pavements should be provided for under the title, Contract or Open Order Service—General Repairs.

These repairs are necessary in connection with new construction work, and the cost, therefore, is properly payable from corporate stock funds.

We recommend the adoption of the attached resolutions approving of the request to the extent of $7,500, and providing for the necessary schedule modification.

Respectfully,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen; GEORGE McANENY, President, Borough of Manhattan. Corporate Stock Budget Committee.

Resolved, That, pursuant to the provisions of section 178 of the Greater New York Charter, as amended, the Board of Estimate and Apportionment hereby approves of the issue of corporate stock of The City of New York to an amount not exceeding seven thousand five hundred dollars ($7,500), to provide means for the expense incurred by the Department of Water Supply, Gas and Electricity, for Contract or Open Order Service, General Repairs, Water Supply, Distribution, due to replacing pavements opened for extending the distribution systems of the Boroughs of Manhattan, The Bronx, Brooklyn, Queens and Richmond, in connection with improving the water supply systems of said boroughs, and that when authority therefor shall have been obtained from the Board of Aldermen the Comptroller be and is hereby authorized to issue said corporate stock of The City of New York in the manner provided by section 169 of the Greater New York Charter, the proceeds thereof to the amount of the par value of the stock to be applied to the purposes aforesaid; provided, however, that no part of said proceeds shall be used for the payment of salaries or wages of employees of the Department of Water Supply, Gas and Electricity.

A true copy of resolution adopted by the Board of Estimate and Apportionment April 17, 1913.

JOSEPH HAAG, Secretary.

No. 3407.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, March 17, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—In his corporate stock departmental estimate for 1912, the Commissioner of Water Supply, Gas and Electricity included seven items, aggregating $995,000, for the purchase of supplies and materials, for the use of the Labor Construction Force of his department, and for furnishing and laying small distribution mains, in the several boroughs. In a recent communication to the Comptroller, the Commissioner states as follows:

"For the materials for the labor construction force an appropriation is extremely urgent, as otherwise we cannot efficiently continue the additions to our system that are carried out by the existing force during such time as the force are not required for regular repair work. As it takes several months to advertise contracts, and receive materials under same, it will be summer before the materials are available, even if there be no further delay in making the appropriation required. The money for the extension of the distribution systems in the five boroughs is immediately required, as we have many approved petitions for the extension of water mains and no money with which to pay for such extensions. It is customary at this time of the year to have our contract for extensions of mains awarded, to meet the demands of builders in the early spring. Delay in making the authorizations will retard building in all boroughs, and inflict a serious loss on those who are attempting to develop vacant property and thus increase the taxable values in the outlying sections."

The following table shows the amounts requested by the Commissioner for the specific items and the amounts now recommended for allowance by your Committee:

Item No.	Purpose of Authorization.	Requested Amount.	Recommended Amount.
	Purchase of Supplies and Materials for Labor Construction Force.		
1	Boroughs of Manhattan and The Bronx	$110,000 00	$100,000 00
2	Borough of Brooklyn	80,000 00	40,000 00
3	Borough of Queens	15,000 00	11,000 00
	Furnishing and Laying Small Distribution Mains.		
4	Boroughs of Manhattan and The Bronx	50,000 00	50,000 00
5	Borough of Brooklyn	240,000 00	200,000 00
6	Borough of Queens	350,000 00	350,000 00
7	Borough of Richmond	150,000 00	100,000 00
	Total	$995,000 00	$851,000 00

The following table shows a comparison of the work done by the labor construction force of the Department in 1912 with the work done in 1911:

Borough.	Year.	Linear Feet of Pipe Laid.	Number of Valves Set.	Number of Hydrants Set.
Manhattan and The Bronx	1912	22,242	1,172	1,985
Manhattan and The Bronx	1911	29,888	1,069	1,639
Brooklyn	1912	28,786	565	987
Brooklyn	1911	23,479	498	433
Queens	1911	23,176	147	99
Richmond	1911	9,135	93	137
Richmond	1912	12,271	219	156
	1911	11,094	176	144

The reasons for the recommendations previously noted are as follows:

Item No. 1.

The request for $110,000 is supported by revised detailed estimates, summarized as follows:

The total materials passing through the various pipe yards and repair shops during 1912 amounted to $229,670. Of this amount material to the value of $82,607 was furnished to contractors working on hauling and laying contracts, leaving $147,063 as the amount of material used by the labor force of the department. Of certain classes of items consumed in 1912 there was a sufficient supply on hand January 1, 1913, for a year's requirements. The cost of the items in 1912 was $18,609. The net estimated requirement for 1913 is, therefore, $128,454.

No allowance for tools is included in the estimate, as these are considered as properly maintenance charges. As no allowance for pipe, lead, etc., used in maintenance work during 1912 or for materials of which small amounts are now available, has been deducted in calculating the 1913 requirements, it is believed that the sum of $100,000 will be ample for all additional needs of the Labor Construction Force in 1913.

Item No. 2.

The $80,000 requested is to provide for the Brooklyn Distribution System, Supplies and Materials, $50,000, and Supplies and Materials for Driven Wells, $30,000. The cost of the supplies and materials consumed in extensions to the distribution system, in this borough, during 1911 and 1912, was $48,058 and $55,725, respectively, or an average of nearly $52,000. A revised estimate now submitted, based upon the detailed requirements of the force, less goods on hand or to be delivered under contracts chargeable to existing accounts, reduces this part of the request to $40,000. The new estimate, however, includes items properly chargeable to "hauling and laying contracts" elsewhere provided for. An allowance of $30,000 is considered ample for distribution system, supplies and materials to be purchased during the remainder of the year 1913.

Supplies and materials for driven well construction have in the past been purchased from other corporate stock funds and their cost is not included in the expenditures for the distribution system for 1911 and 1912, previously noted. The request for $30,000 did not take into consideration supplies already on hand, and covered certain new wells not now considered necessary. An allowance of $10,000 for well work is believed to be ample, making the total recommended allowance $40,000.

Item No. 3.

The $15,000 requested is to cover extensions to the distribution system in the Borough of Queens, made in part by private real estate companies, who do the trenching, backfilling, etc., the Department of Water Supply, Gas and Electricity furnishing the necessary supplies and materials and making the actual connections. Material to the value of $27,702 was used for this purpose in 1912. A revised estimate of the 1913 requirements show that an allowance of $11,000 will probably be ample. No item

for supplies and materials, for the Borough of Richmond, was included in the Commissioner's request, as the stock on hand in that borough is considered ample for all probable needs during 1913.

Item No. 4.

The $50,000 included in the Commissioner's 1912 estimate was to cover extensions to the distribution systems of Manhattan and The Bronx during the spring of 1913, the Commissioner stating:

"During 1912 The Bronx will be well supplied with a large hauling and laying contract. Manhattan, north of 125th street, will be supplied by a small hauling and laying contract. There will be no funds for laying small extensions during the first part of 1913."

The estimate was based upon a contract, then completed, in The Bronx, at a cost of $49,700.

During 1912 contracts for 51,070 feet of additional mains in The Bronx, and 11,985 feet of additional mains in Manhattan, were completed. Requests for additional mains in ten streets in The Bronx and four streets in Manhattan have been received, aggregating 12,565 feet. The estimated cost of labor and material for this work is $35,317. The balance of the $50,000 requested is to provide for additional small extensions required during the balance of the current year.

Item No. 5.

The $240,000 requested is to cover the regular extension work on the distribution system, in Brooklyn, based upon the record of previous years, estimated at $150,000 and to provide for strengthening the present system in certain sections, estimated at $90,000.

The number of streets for which applications were received in 1912 was 210, of which 109 were approved, and mains have been laid in 59. A contract has been prepared covering 40, of the balance of 50 streets, and it is estimated that mains in 79 additional streets will have been approved up to June 30, 1913. The revised estimate of the cost of laying mains in these 119 streets is $177,782.

The cost of extensions made during the years 1909, 1910, 1911 and 1912 was, respectively, $225,187, $126,314, $173,290 and $74,182, of an average annual cost of approximately $149,743.

The estimated cost of strengthening the present system, to afford better fire protection, which includes a new 16-inch main in 6th street, 2d, 3d, Hamilton and Prospect avenues; new 20-inch main in 19th avenue, from 70th to 86th street; new 16-inch main in 60th street, from 22d avenue to West street, and two 12-inch mains in the Flatbush avenue extension, from Fulton street to Nassau street, is stated as $83,500.

Considering the late date at which funds will be available for the proposed work it is believed that an allowance of $200,000 will provide for the $83,500 item and for all additional extensions that can be laid during 1913.

Item No. 6.

The $350,000 requested is to provide for:

Reinforcing the Water Supply to College Point and Whitestone.....	$40,000 00
For Extensions to the Distribution System.....	310,000 00
	$350,000 00

In relation to the first item the Commissioner states:

"The mains supplying College Point and Whitestone are of insufficient capacity to give adequate fire service, and if the 20-inch main, which is the principal feeder, were temporarily put out of use for repairs, the supply would be entirely inadequate for domestic or fire requirements. It is, therefore, proposed to lay a 20-inch main in Broadway, from 16th street to Lawrence street, and a 16-inch main in Lawrence street, from Broadway, to connect with the present 16-inch main on Mill Creek."

The original estimate for extensions to the distribution system was made in January, 1912, and included $195,000 for mains in streets already petitioned for, and $115,000 for additional streets for which petitions were anticipated during the year 1912. Plans for the $195,000 item were prepared in 1912, covering 26 streets in the 1st Ward and 45 streets in the 3d Ward. The revised estimate for this work is $203,000.

Water mains have since been listed for laying in 18 additional streets in the 1st Ward and 73 additional streets in the 3d Ward, at an estimated cost of $191,000. The total estimate for extension of system is $394,000, from which, however, should be deducted supplies and materials on hand to the amount of $54,000, or net requirements of $340,000. The total estimate for the two items of the original request, as now revised, therefore, is $380,000.

Although no provision is included in the revised estimate for laying mains in streets approved during the balance of the current year, it is believed that the $350,000 originally requested will be sufficient to provide for all streets actually under contract during 1913.

Item No. 7.

In support of the request of $150,000, for extension of the distribution system in the Borough of Richmond, the Commissioner's Engineers have submitted a list of the streets in that borough in which "it is proposed to make water main extensions at the earliest possible moment." The list covers over 30 miles of additional mains at an estimated cost of $277,848.

It appears, however, that materials available for this class of work to the value of approximately $50,000 are now in stock, of which only a part will be required for the Labor Construction Force, and that a contract for additional mains, in streets not included in the list submitted, has recently been awarded. An allowance of $100,000 at this time is believed to be ample for the additional requirements of the borough during 1913.

We recommend the adoption of the attached resolutions, approving the request, to the extent of $851,000, and also approving of a schedule for the administration of the appropriation for general plant materials. Respectfully,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen; GEORGE McANENY, President, Borough of Manhattan; Corporate Stock Budget Committee.

No. 3414.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, March 11, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—In his corporate stock departmental estimate for 1912 the Commissioner of Water Supply, Gas and Electricity included an item of $30,000 or land and buildings for a repair yard in the New Utrecht and Bay Ridge section of the Borough of Brooklyn. In a memorandum recently submitted to the Comptroller the Commissioner asked for immediate consideration of this item. In connection therewith we report as follows:

It is proposed to locate the new Bay Ridge Repair Yard at the northerly corner of 11th avenue and 61st street, Borough of Brooklyn. A map of the proposed site, covering a plot of land 100 feet square, or approximately .23 acre, was submitted by the Commissioner and approved by the Board of Estimate and Apportionment on September 19, 1912. In the report of the Engineer of your Board, made at that time, it was stated that the requested property was practically unimproved, and is carried on the books of the Tax Department at $3,250. The Commissioner states the following:

"For several years it has been considered that the South Brooklyn, Bay Ridge, Dyker Heights and Borough Park sections are not adequately served and protected by the existing repair yards, the distance between the Western District and Coney Island repair yards being about 8 miles. There are only four repair yards in Brooklyn, as compared with nine in the Boroughs of Manhattan and The Bronx, the number of miles of distribution mains in Brooklyn being about three-fourths of the number in Manhattan and The Bronx. It is proposed to establish a new repair yard to take over part of the territory now covered by the Western District and the Coney Island repair yards, and the appropriation requested is for the necessary land and buildings for this yard."

The request for $30,000 is based upon the following estimate:

Cost of land to be acquired.....	$10,000 00
Cost of two buildings, 20 feet by 80 feet by 30 feet.....	20,000 00
Total.....	$30,000 00

It is proposed to erect a brick stable and a headquarters building for the repair gang, with proper shade for storage purposes. The probable cost of the buildings is based upon detailed estimates for similar but slightly larger buildings to be erected at the East New York Repair Yard, at a cost of approximately $25,000.

The amount required for the land appears to be liberally estimated, in view of its assessed valuation, as previously noted. In order that the amount authorized for land may be confined to that purpose, a separate authorization for the site to be acquired is recommended.

The amount requested for buildings appears to be reasonable, and the establishment of the additional repair yard seems to be required by the extensions to the distribution system made in this locality.

We recommend the adoption of the attached resolutions, approving of the request.

Respectfully,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen; GEORGE McANENY, President, Borough of Manhattan; Corporate Stock Budget Committee.

Resolved, That, pursuant to the provisions of section 178 of the Greater New York Charter, as amended, the Board of Estimate and Apportionment hereby approves of the issue of corporate stock of The City of New York to an amount not exceeding twenty thousand dollars ($20,000) to provide means for the construction of a stable and a building for headquarters and storage purposes at the proposed Bay Ridge Repair Yard of the Department of Water Supply, Gas and Electricity at Sixty-first street and Eleventh avenue, in the Borough of Brooklyn, in connection with im-

proving the water supply system of said Borough, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller be and is hereby authorized to issue said corporate stock of The City of New York in the manner provided by section 169 of the Greater New York Charter, the proceeds thereof to the amount of the par value of the stock to be applied to the purposes aforesaid, provided, however, that no part of said proceeds shall be used for the payment of the salaries or wages of the employees of said department.

No. 3416.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, March 31, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On March 1, 1913, the Fire Commissioner requested rescindments aggregating $12,000 from four Corporate Stock authorizations and additional allowances in the sum of $12,000 for two authorizations for the Fire Department. In connection therewith we report as follows:

It is proposed to rescind $4,000 from C. F. D.—24D, Erection of New Building at Lexington Avenue and 50th Street, Borough of Manhattan; $2,000 from C. F. D.—261, Erection of Building on Site in the Vicinity of Avenue C and East 16th Street, Borough of Brooklyn; $3,000 from C. F. D.—26B, Erection of Building at 489-491 St. Johns Place, Borough of Brooklyn, and $3,000 from C. F. D.—26A, Erection of Building at S. W. Corner of Smith and Lorraine Streets, Borough of Brooklyn.

The proposed additional authorizations are $6,000 to C. F. D.—26E, Acquisition of Site and Erection of Building, North Side of Richardson Street, Borough of Brooklyn, and $6,000 to C. F. D.—28G, Erection of Building, Broad and Brook Streets, Stapleton, Borough of Richmond.

Bids were received recently for the erection of these houses. The low bid for the Richardson street house was $17,500 in excess of the appropriation, while the low bid for the house at Broad and Brook streets exceeded the appropriation by $28,700. The Commissioner considers the bids excessive, and proposes to modify the plans, and readvertise for new bids. He states that the additional $6,000 in each of the accounts is desired so that sufficient money may be available for the purposes when the new bids are opened. The authorizations in which reductions are requested show unallotted and unencumbered balances sufficient to meet the rescindments.

We recommend that the request be approved by the adoption of the attached resolutions. Respectfully,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen; GEORGE McANENY, President, Borough of Manhattan; Corporate Stock Budget Committee.

No. 3422.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, February 28, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On February 20, 1913, the Commissioner of Bridges requested the rescindment of authorizations of corporate stock in the sum of $35,000 for various bridge purposes, and the approval of an additional authorization of $35,000 for the strengthening of the Williamsburg Bridge, to permit of the running of subway trains in connection with rapid transit improvements. In connection therewith we report as follows:

On June 3, 1910, the Board of Estimate and Apportionment, and on June 28, 1910, the Board of Aldermen authorized $700,000 in corporate stock for the necessary strengthening of the structure of the Williamsburg Bridge, to permit of the running of subway trains thereon in connection with rapid transit improvements.

On June 16, 1911, a contract was awarded for the strengthening of the end span of the bridge. This work is approximately 90 per cent. completed. The Department is proceeding with its own labor to strengthen the main or river span of the bridge. The necessary steel, tools and equipment required for this work have been purchased. In order that this work may be carried on it will be necessary to provide funds to pay for the laboring force, as approved in the 1913 Budget schedules. The Commissioner states that the reason the original amount authorized is insufficient for the strengthening of the main and both end spans is that it was necessary to carry the foundations for the piers for the strengthening of the end spans to a greater depth than was anticipated. This additional cost of the pier foundations amounted to $39,965.02.

In order to fully and properly complete the work of strengthening the Williamsburg Bridge the Commissioner therefore requests the authorization of $35,000 in addition to the $700,000 previously authorized.

The $35,000 can be made available without increasing the total authorization for the department by reducing the authorizations for the erection of a new bridge over Dutch Kills, on the line of Hunters Point avenue, Borough of Queens, from $110,000 to $108,000, and for the equipping of the Queensboro Bridge and Queens Borough plaza with conduit tracks, feeder cable and other equipment incidental thereto, from $200,000 to $194,500; and by rescinding the $27,500 authorized for the construction of an administration building at the Manhattan approach of the Madison Avenue Bridge over the Harlem River for the purposes of the Department of Bridges.

We recommend the adoption of the attached resolutions approving the request.

Respectfully, WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen; GEORGE McANENY, President, Borough of Manhattan, Corporate Stock Budget Committee.

Resolved, That, subject to the concurrence herewith of the Board of Aldermen, the resolutions adopted by the Board of Estimate and Apportionment on December 11, 1908, and by the Board of Aldermen on January 4, 1909, as follows:

"Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended, the Board of Estimate and Apportionment hereby approves of the issue of corporate stock of The City of New York to an amount not exceeding *one hundred and ten thousand dollars* ($110,000) for the erection of a new bridge over Dutch Kills Creek, on the line of Hunters Point avenue, in the Borough of Queens, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue corporate stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding *one hundred and ten thousand dollars* ($110,000), the proceeds whereof to be applied to the purposes aforesaid."

A true copy of resolution adopted by the Board of Estimate and Apportionment April 17, 1913.

JOSEPH HAAG, Secretary.

No. 3427.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, March 18, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On February 6, 1913, the Commissioner of Public Charities requested that $34,477.60 of unencumbered balances in eighteen corporate stock authorizations for his Department be rescinded and reauthorized for four new Corporate Stock accounts. In connection therewith we report as follows:

The request is that the unencumbered balances be made available for the following purposes:

1. Repairs to roofs and leaders City Hospital	$6,000 00

2.	Painting infirmary and Wards K and L, Metropolitan Hospital.....	6,000 00
3.	Alterations to North Pavilion to provide for dining-room City Home, Blackwells Island	8,000 00
4.	Repairs and alterations to docks.....	14,477 60
		$34,477 60

The proposed improvements in items Nos. 1, 2 and 4 being repair work, are not proper charges against Corporate Stock funds, but should be paid for from maintenance appropriations.

Item No. 3—Alterations to North Pavilion to provide for dining-room, City Home, Blackwells Island:

This building is a two-story structure, divided into four wards, with a capacity of 43 each, or a total capacity of 172. The inmates are crippled females. By reason of their infirmities they are unable to walk to the main dining-room of the City Home. Their meals are now served in the wards, or dormitories of the pavilion, which has no dining-room. To remedy this condition, it is proposed to build an addition to the present pavilion. The addition is to be two stories in height, 16 feet by 96 feet, built of brick and glass. The first floor is to be used as a dining-room, and will provide seating capacity for 86 inmates. The second floor is to be used as a solarium. The Department's Architect estimates the cost of the proposed addition at from $8,000 to $10,000.

The Commissioner requests that the funds necessary for the work be obtained by rescinding $8,000 in an existing Corporate Stock authorization of $187,050 for the erection of a new wing at Kings County Hospital (C-CH-44) and reauthorize the amount rescinded for the erection of the addition. The status of C-CH-44 is as follows:

Amount of authorizations.....		$187,050 00
Premiums		1,157 77
Amount available		$188,207 77
Contract liability	$179,282 25	
Open market liability.....	206 00	
Total liability		179,488 25
Unencumbered balance		$8,719 52

We recommend the adoption of the attached resolutions, approving this item in the request. Respectfully,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen; GEORGE McANENY, President, Borough of Manhattan, Corporate Stock Budget Committee.

Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended, the Board of Estimate and Apportionment hereby approves of the issue of corporate stock of The City of New York to an amount not exceeding eight thousand dollars ($8,000), to provide means for the erection and equipment of an addition to the North Pavilion, City Home, Blackwells Island, under the jurisdiction of the Department of Public Charities, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller be and is hereby authorized to issue said corporate stock of The City of New York in the manner provided by section 169 of the Greater New York Charter, the proceeds thereof to the amount of the par value of the stock to be applied to the purposes aforesaid.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, April 2, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On March 18, 1913, the Commissioner of Water Supply, Gas and Electricity requested the establishment in his Department, pursuant to the provisions of section 56 of the Greater New York Charter, of the position and grade of Coal Sampler at $1,200 per annum, for one incumbent. In connection therewith we report as follows:

The Commissioner states the following:

"This request is made in order that an employee of this Department may be appointed to a position more accurately describing his duties. This man has for the past fifteen years been performing the work of coal weigher and sampler in the pumping stations of Manhattan and The Bronx, under a title which does not describe his duties as well as the title of Coal Sampler, which is a title in the competitive list of the Civil Service for which he successfully contended."

The employee in question is Patrick J. McKiernan, Axeman, at $3 per day, who is provided for in the 1913 Budget, in Schdule No. 699, for 365 days, or a total possible compensation of $1,095. The $1,200 rate proposed by the Commissioner would be an increase of $105 per annum. Mr. McKiernan is on the eligible list for the proposed position.

Coal Samplers attached to the Municipal Laboratory of the Board of Estimate and Apportionment receive $1,200 per annum. The work done by Mr. McKiernan, therefore, would appear to entitle him to the requested rate. The practice of employing an Axeman for Coal Sampling should not, in the opinion of your Committee, be continued. It is stated that provision for Mr. McKiernan at the proposed increased rate can be made by modification of No. 699 under the one-third rule of your Board governing salary increases.

We recommend the adoption of the attached resolution granting the request. Respectfully,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen; Committee on Salaries and Grades.

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the Department of Water Supply, Gas and Electricity of the position, in addition to those heretofore established, as follows:

Title.	Rate Per Annum.	Number of Incumbents.

To the Board of Estimate and Apportionment:

Gentlemen—On February 28, 1913, the Presiding Justice of the Supreme Court, Appellate Division, First Department, requestel the establishment for the Court of the grade of position of Telephone Operator, at $1,200 per annum, for one incumbent. In connection therewith we report as follows:

On October 23, 1912, the Justices of the Appellate Division of the Supreme Court, First Department, by an order filed in the office of the New York County Clerk, increased the compensation of Catherine Lynch, Telephone Operator in the Justices' Room, Supreme Court, from $1,000 to $1,200 per annum, from and after January 1, 1913. The order of the Justices was made too late for funds for the increase to be included in the 1913 budget. The Justices state that the position of necessity is of a highly confidential nature, and that Miss Lynch has performed the duties satisfactorily.

The new grade will equalize the salary of the position with that now paid for similar services in the Appellate Division Court House. No increase in appropriation to the Court is involved.

In view of the foregoing, we recommend the adoption of the attached resolution approving the request. Respectfully,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen, Committee on Salaries and Grades.

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the Supreme Court, First Department, of the grade of position, in addition to those heretofore established, as follows:

Title.	Rate Per Annum.	Number of Incumbents.

To the Board of Estimate and Apportionment:

Gentlemen—On January 24, 1913, the Commissioner of Docks requested that a rate of $4.80 per diem be established for the position of Mason in his Department. In connection therewith we report as follows:

The prevailing rate of wages for Masons has been $4.60 per diem. On April 1, 1913, the rate was increased to $4.80. The Secretary of the United Board of Business Agents and the President of the Stone Mason Contractors Association of New York state that the rate of $4.80 has been agreed to by practically all the private employers of Masons in the City. Among the contractors and builders who have agreed to this rate are the following:

Bradley Contracting Company, M. Reid & Company, Inc.; Richard Deeves & Son, Inc.; Gillies, Campbell Co., Thomas P. Kennedy, William Crawford, The P. J. Carlin Construction Company, Charles P. Galardi, Savino Di Pace, Charles Phelock, Joseph Gallick, Peter Guarino, Daniel Houlihan, Peter Indelli, Louis Lanzetta, George La Pasta, Domenica La Sala, Constantino Landadia, Emanuel M. Liguori, Owen Martin, Frank Martirano, William Masterson, Vincenzo Miserendino, George Mungo, Dominick Pelaso, A. G. Pucci, Patrick Reddy, Michael Romeo, G. Arnone, P. Auletta, Antonio Baragila, C. Bertone, Dominic Caffarelli, Celestino Catapona, Ralph Catina, Michael A. Cerussi, Adam Ciccaroni, Carmine Cioffi, George Colon, Nicholas Conforti, Robert Crant, Vito Contessa, Frank D'Amore, Joseph DeBenedetto, James DeFago, F. DelBalso.

The rate now paid in the Department of Docks and Ferries is $4.50 per diem. It appears that the prevailing rate is $4.80 per diem.

We recommend, therefore, the adoption of the attached resolution approving the $4.80 rate. Respectfully,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen, Committee on Salaries and Grades.

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the Department of Docks and Ferries of the grade of position, in addition to those heretofore established, as follows:

A true copy of resolution adopted by the Board of Estimate and Apportionment April 17, 1913. JOSEPH HAAG, Secretary.

No. 3432.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, March 18, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On February 28, 1913, the Acting President of the Borough of Queens requested the establishment in his office, pursuant to the provisions of section 56 of the Greater New York Charter, of the grade of position of Stenographer and Typewriter, at $1,650 per annum, for one incumbent. In connection therewith we report as follows:

The grade is requested for Joseph Siegel, Jr., who is employed in the Engineering Division of the Bureau of Highways. Mr. Siegel is the Stenographer to Mr. Weinberger, the Assistant Engineer in charge. He also has supervision of the making up of the payrolls; is in charge of two Stenographers and two Clerks, and attends to all Local Board matters. Mr. Siegel's compensation is $1,350 per annum.

The establishment of this new grade will entail no additional appropriation, the funds to be provided under the resolution governing increases adopted by your Board on January 30, 1913.

I recommend the adoption of the attached resolution approving the request.

Respectfully,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen; Committee on Salaries and Grades.

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the office of the President of the Borough of Queens of the grade of position, in addition to those heretofore established, as follows:

Position.	Rate Per Annum.	Number of Incumbents.
Stenographer and Typewriter	$1,650 00	1

To the Board of Estimate and Apportionment:

Gentlemen—On February 26, 1913, the Police Commissioner requested the establishment in the Police Department of the grade of position of Cable Splicer at $4.50 a day. In connection therewith we report as follows:

It is proposed to reduce the number of Linemen, at $4.50 a day, from five to four, and to appoint a Cable Splicer at the same rate of pay. The Superintendent of the Telegraph and Telephone Bureau of the Department states that the services of a Cable Splicer are needed, and that one Lineman can be dropped. He also states that repairs to underground wire now are made by contract, which necessitates delays and increased cost in keeping them in working order. The Cable Splicer is to work in this connection.

The establishment of the grade will not increase the departmental expenditures and the position is to be filled by appointment from an eligible Civil Service list.

We recommend the adoption of the attached resolution, approving the establishment of the grade for one incumbent. Respectfully,

WM. A. PRENDERGAST, Comptroller, JOHN PURROY MITCHEL, President, Board of Aldermen; Committee on Salaries and Grades.

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the Police Department of the grade of position, in addition to those heretofore established, as follows:

To the Board of Estimate and Apportionment:

Gentlemen—On March 26, 1913, the Board of Education requested the establishment, pursuant to the provisions of section 56 of the Greater New York Charter, of rates of compensation for Janitors of Public Schools 95 and 101, Brooklyn. In connection therewith we report as follows:

For 95, with portables, a temporary rate of $1,584 per annum, less rent allowance of $221, is requested. This is the same as the regular rate now paid. For the Janitor of No. 101, additional amounts of $40 and $50 per month are proposed for the care of premises 3422-24 18th avenue and 1763-72 86th street, respectively. These premises, consisting of two stores with four rooms in the rear, and three stores with six rooms in the rear, have been rented for annexes to the Bay Ridge High School, pending the completion of the new building therefor.

We recommend that the request be granted by the adoption of the attached resolution. Respectfully,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen; Committee on Salaries and Grades.

Whereas, By opinions of the Corporation Counsel as of June 28, 1910, and July 30, 1910, the Comptroller was advised that the payment of salaries of Janitors in the Department of Education is illegal unless such salary shall have been established under the provisions of section 56 of the Greater New York Charter; and

Whereas, The matter of adjusting the compensation of Janitors and the fixation of their salaries under the provisions of section 56 of the Charter is now in the hands of a special committee of the Board of Estimate and Apportionment; therefore, be it

Resolved, That, pursuant to the provisions of section 56 of the Charter, the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen, pending the report of said Committee, the compensation of Janitors in the Department of Education be fixed temporarily, and until further modified, in accordance with the following list:

	Rate of Compensation.
Janitor, Public School 95, with portables, Brooklyn, per annum, less $221	$1,584 00
Janitor, Public School 101, Brooklyn, for care of premises, 3422-24 18th avenue, Brooklyn, from October to April, inclusive, per month	40 00
From May to September, inclusive, per month	20 00
For care of premises 1768-72 86th street, Brooklyn, from October to April, inclusive, per month	50 00
From May to September, inclusive, per month	30 00

No. 3435.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, April 7, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On February 11, 1913, the Commissioners of Accounts requested the establishment, pursuant to the provisions of section 56 of the Greater New York Charter, of various grades of positions; and also requested that several grades of positions be abolished. In connection therewith we report as follows:

The establishment of the following grades of positions is proposed:

Title.	Rate Per Annum.	Number of Incumbents.
Acceountant	$3,000 00	8
Accountant	2,850 00	8
Accountant	2,550 00	8
Clerk	1,800 00	4
Examining Inspector	1,650 00	2
Examining Inspector	1,350 00	2
Examining Inspector	1,200 00	2
Stenographer to Commissioner	1,950 00	1
Stenographer to Commissioner	1,500 00	1
Stenographer to Commissioner	1,350 00	1

Title.	Rate Per Annum.	Number of Incumbents.
Examining Inspector	1,200 00	2
Law Examiner	2,950 00	1
Stenographer to Commissioner	1,950 00	1
Stenographer to Commissioner	1,500 00	1
Stenographer to Commissioner	1,350 00	1

Commissioner Rice states that these grades are for the purpose of equalizing the positions in the office so that promotions, to the extent of $150 each, can be made from time to time; and to permit of more elasticity in the salary schedule in a way that will bring increased efficiency. He also states that the higher grades in the accounting positions are for the purpose of protecting the office against the loss of high grade incumbents by transfer. He points out that recently several such transfers have been made, the loss of these men greatly handicapping the usefulness of the office.

The highest grades of Accountant in the office are at $2,100, $2,250, $2,400 and $2,700 per annum. The Commissioner states that all of the incumbents in the $2,700 grade, and several receiving less than $2,700, are eligible for promotion. A promotion examination is to be held to determine the incumbents most worthy of increase. It is proposed to increase those receiving the highest percentages to the $3,000 or $2,850 positions, and others to available positions. These increases are to be made when sufficient money is available under the rules of your board. The grades at $3,000 and $2,800 are requested for eight incumbents each, for the reason that the present grades at $2,700, $2,400 and $2,500 are each established for that number of incumbents.

There is no grade of Accountant in the office between the two highest grades of $2,700 and $2,400. The rate of $2,550, therefore, is requested for an intermediate grade, to permit of $150 increases.

The highest grade for Clerk is at $1,650 per annum, for four incumbents. The $1,800 grade requested for four incumbents is to allow $150 increases when money is available under the rules of your board. These increases also are to be made on the basis of a promotion examination.

The existing grades for Examining Inspector are $2,250, $2,000, $1,800 and $1,500. The Commissioner states that he desires the intermediate grade at $1,650, so that $150 increases may be made. The $1,350 and $1,200 rates asked for are lower than the lowest existing grade.

The Commissioner states that when funds become available under the rules of your Board, he proposes to increase Miss Mathilde F. Hook, a Confidential Stenographer, from $1,800 to $1,950 per annum, and change her title to Stenographer to Commissioner. Miss Hook has been in the service of the City for nearly eleven years, and has received $1,800 since June 15, 1910.

It is proposed to change the title of two other Confidential Stenographers to Stenographers to Commissioner. It is stated that under the rules of the Municipal Civil Service Commission, Stenographer to Commissioner is the proper title. For this reason it is proposed that the grades of Confidential Stenographer at $1,500, $1,350 and $1,200 per annum be abolished.

The grade of Law Examiner, at $2,950, is proposed for George G. Freer, now at $2,500 per annum. Mr. Freer has been in the service since August 18, 1902, and received his last increase on May 7, 1907. The requested grade of $2,950 per annum is not in accordance with the policy of your Board in regard to salary rates. We, therefore, recommend that this grade be established at the rate of $2,850 per annum.

The Commissioner states that establishment of these grades of positions will add to the general efficiency of the office without increase in appropriation.

We recommend the adoption of the attached resolution approving the grade of Law Examiner, at $2,850, and the other items in the request. Respectfully,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen, Corporate Stock Budget Committee.

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the office of the Commissioners of Accounts of the grades of positions, in addition to those heretofore established, as follows:

Title.	Rate Per Annum.	Number of Incumbents
Acountant	$3,000 00	8
Accountant	2,850 00	8
Accountant	2,550 00	8
Clerk	1,800 00	4
Examining Inspector	1,650 00	2
Examining Inspector	1,350 00	2
Examining Inspector	1,200 00	2
Stenographer to Commissioner	1,950 00	1
Stenographer to Commissioner	1,500 00	1
Stenographer to Commissioner	1,350 00	1
Law Examiner	2,850 00	1

—and that the grades of positions be hereby abolished, as follows:

Title.	Rate Per Annum.	Number of Incumbents.
Confidential Stenographer	$1,500 00	Unlimited
Confidential Stenographer	1,350 00	Unlimited
Confidential Stenographer	1,200 00	Unlimited

No. 3436.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, April 14, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On March 21, 1913, the New York County Clerk requested modification of a 1913 salary schedule to provide for changes in title for two incumbents in his office. In connection therewith we report as follows:

On March 8, 1913, the State Civil Service Commission adopted a resolution changing the titles in the office of the County Clerk of the positions of Cashier, for one incumbent and Assistant Cashier, for one incumbent, to Auditor and Deputy Auditor, respectively. On March 14, 1913, the resolution was approved by the Governor. No change in compensation is involved. Establishment of the new grades, pursuant to the provisions of section 56 is necessary in order to conform to the Civil Service changes.

In view of the foregoing we recommend the adoption of the attached resolution approving establishment of the new grades and abolishment of the unnecessary positions. Respectfully

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen; Committee on Salaries and Grades.

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the office of the New York County Clerk of the grades of positions, in addition to those heretofore established, as follows:

Title.	Rate Per Annum.	Number of Incumbents.
Auditor	$2,600 00	1
Deputy Auditor	1,600 00	1

—and that grades of positions as follows be hereby abolished.

No. 3437.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, April 12, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On March 27, 1913, the Register of New York County requested the establishment, pursuant to the provisions of section 56 of the Greater New York Charter, of the additional grade of Clerk, at $1,350 per annum, in order to increase the salaries of five incumbents in the office.

It is proposed to increase the salaries of Frank B. Bower, Charles Herrel, John H. Gliem, George T. Mount and Joseph Shapiro, all Clerks in the office, at $1,200 per annum, to $1,350 each.

Mr. Bower was appointed on March 1, 1905, and has been receiving $1,200 per annum since April 1, 1911. He is assigned to comparing and reading mortgages, conveyances, etc., after being copied.

Mr. Herrel has been in the service since March 1, 1905, and has been paid $1,200 per annum since December 1, 1908. He is the assistant to the Chief Block Index Clerk and has supervision of the alphabetical index of certified copies of the old Westchester records.

Mr. Gliem has been the Clerk of the Delivery Department since March 1, 1905. He has charge of signatures for delivery of papers and the mailing of all instruments after being recorded. He has been paid $1,200 per annum since December 1, 1908.

Mr. Mount has been in the office since September 6, 1905, and his salary has been $1,200 per annum since April 1, 1911. He has charge of the daily tickler and the indexing of all papers that are offered for record.

Mr. Shapiro, since May 15, 1905, has been the Clerk in the Bureau of Index to Satisfaction of Mortgages. He attends to the daily indexing and making references of satisfactions. His compensation has been $1,200 per annum since his appointment.

The Register states that the work of all of these employees is highly satisfactory and that they are justly entitled to the increase.

Provision for the increases will be made by the reduction of a $1,500 position to $1,000 and one from $1,500 to $1,200 and carrying $50 in unassigned balances, which is permissible under the rule established by the resolution of January 30, 1913.

In view of the foregoing we recommend the adoption of the attached resolution granting the request. Respectfully,

WM. A. PRENDERGAST, Comptroller, JOHN PURROY MITCHEL, President, Board of Aldermen, Committee on Salaries and Grades.

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the office of the Register of New York County of the grade of position, in addition to those heretofore established, as follows:

Gentlemen—On March 27, 1913, the Commissioner of Public Charities requested the establishment in his Department, pursuant to the provisions of section 56 of the Greater New York Charter, of the grade of position of Auditor (Expert), at $2,500 per annum, for one incumbent. In connection therewith we report as follows:

The position is requested to provide for the permanent employment of an Auditor to have charge of the new system of expense accounting, which has been installed in the Department. On January 30, 1913, the Board of Estimate and Apportionment approved the temporary employment of such an employee for three months, at the rate of $3,000 per annum. It is proposed to continue the services of the present incumbent at the rate of $2,500 per annum. The necessary funds are to be provided by an issue of $1,875 in special revenue bonds, which has been approved by the Board of Aldermen.

We recommend that the request be approved by the adoption of the attached resolution. Respectfully,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President. Board of Aldermen, Committee on Salaries and Grades.

The President laid before the Board the following communication from the Commissioner of Public Charities.

No. 3439.

Department of Public Charities of The City of New York, April 19, 1913.

To the Honorable the Board of Aldermen:

Gentlemen—We would respectfully request an issue of Special Revenue Bonds to the amount of $2,595.83, with which to employ the following help in this Department for seven (7) months, beginning June 1, 1913:

Metropolitan Training School, Blackwells Island.

	Per Annum.
One (1) Deputy Superintendent of Training School at the rate of	$1,050 00
Four (4) Supervising Nurses at the rate of $850 per annum each	3,400 00
Total for 12 months	$4,450 00
Total for 7 months	$2,595 83

The specific duties of these people will be as follows:

The Deputy Superintendent will have charge of the operating room.

The Supervising Nurses—One will assist with the supervision of the general hospital; one will assist with the supervision in the tuberculosis infirmary department; one for night duty, and one for the alcoholic and drug ward.

This request is made because we have an inadequate number of Supervising Nurses and with this lack of supervisory force we are unable to properly train our Nurses and keep in touch with the work. In the general hospital with nearly seven hundred (700) patients, the only people having more than $600 are the Assistant Superintendent and one (1) Supervising Nurse. In the tuberculosis infirmary with nearly one thousand (1,000) patients, the only person having more than $600 is the Second Assistant Superintendent. There is no Night Supervising Nurse and we are obliged to get along at night with $600 positions. For this reason we are unable to retain our best Nurses in responsible positions at $600, with the result that we have very frequent changes and many trying situations which could be avoided if the salaries paid were commensurate with responsibilities. Much of the time of our Superintendent of the Training School and Assistant Superintendents, which ought to go into bigger things, is spent going over the old routine with the constantly changing Nurses. Respectfully yours,

MICHAEL J. DRUMMOND, Commissioner.

Which was referred to the Committee on Finance.

The President laid before the Board the following communication from the Commissioner of Bridges.

No. 3440.

City of New York, Department of Bridges, Municipal Building, Borough of Manhattan, April 17, 1913.

Hon. P. J. SCULLY, City Clerk and Clerk to the Board of Aldermen, City Hall, New York City:

Dear Sir—Pursuant to a resolution adopted by the Board of Aldermen on January 21, 1913, I transmit herewith two prints of drawing No. 4H-23, showing the proposed passenger elevators from Blackwells Island to the Queensboro Bridge. The elevators will stop at the promenade level of the bridge for foot passengers and at the surface car level for surface car passengers on both sides of the bridge.

Each of the elevator cars is 8 feet by 8 feet in size and will accommodate a hospital stretcher and attendants. The elevator towers will be constructed of steel and will enclose the cars and also the stairways in the shafts by a glass and steel frame. The base of the elevator shafts will form an enclosed space 30 feet square, thus affording a waiting room. Yours truly,

ARTHUR J. O'KEEFFE, Commissioner.

Which was ordered on file.

No. 3441.

City of New York, Office of the President of the Borough of Manhattan, City Hall, April 21, 1913.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, New York City:

My Dear Mr. President——I am enclosing herewith a letter from the President, requesting from the Board of Aldermen special revenue bonds to cover the services of employees in the new Municipal Building. The President will be obliged if you will have this brought up at the Board's meeting to-morrow for reference to the Finance Committee. Yours very truly,

LOUIS GRAVES, Secretary to the President.

City of New York, Office of the President of the Borough of Manhattan, City Hall, April 21, 1913.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen:

Sir—In order to operate the new Municipal Building during the year 1913, application is hereby made for revenue bonds in the following amounts:

Labor	$88,719 00
Supplies	32,800 00
Total	$121,519 00

In support of the above request for labor, attached hereto find schedule showing number of employees, rate of pay and the estimated length of time each class of employees will be required during the year 1913, as also an itemized estimate of the supplies needed.

In the preparation of the above estimates we have collaborated with the Commissioner of Bridges, who approves the above request, and will be glad to appear before you in explanation and support of the same if you so desire. The Commissioner requests that as rapidly as the work upon any floor is completed, this Department assume its maintenance and operation, subject to such regulation as the Corporation Counsel may deem necessary or advisable due to pending contracts and other legal requirements or obligations. The labor schedule has been prepared after a careful study of the forces employed in the buildings and offices now under my jurisdiction and those utilized in several of the large office buildings of the city. The aim has been to provide a force adequate to maintain and operate this building as becomes its dignity and importance and yet at a cost that will compare favorably with privately operated buildings in the city.

The estimate for supplies is based upon the actual consumption of materials for maintenance and cleaning, as shown by the stores record of this Department, each amount having been arrived at by making an actual estimate of the several items that would be required for use in the building.

In presenting this request, I desire to urge as early action as is consistent with proper consideration. The building has now reached a stage where those of the engineering and electrical forces who will have charge of the work should be assigned, if they are to understand the layout of the various mechanical systems necessary to its operation. This knowledge on their part, I believe to be essential for the efficient and economical upkeep and operation of the building. Respectfully yours,

GEORGE McANENY, President, Borough of Manhattan.

Itemized Estimate of Supplies Required for the Operation of the New Municipal Building During the Year 1913.

Cleaning and toilet supplies	$4,000 00
Engine room supplies	1,000 00
Fuel	9,300 00

The City of New York, Department of Water Supply, Gas and Electricity, Commissioner's Office, 13-21 Park Row, New York, April 15, 1913.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, City Hall:

Dear Sir—Under date of March 18, 1913, this Department asked that the Board of Aldermen request the Board of Estimate and Apportionment to authorize the issue of special revenue bonds in the sum of $1,912.50, in order that there might be appointed in the Borough of Queens two Clerks and one Stenographer, each at $900 per annum.

It has become possible to provide the money necessary for the employment of these men out of the present appropriations. I therefore respectfully ask to recall the application above mentioned. Yours very truly,

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen:

Dear Sir—The automobile used in the executive division of this Department, which was purchased in 1910, has furnished excellent service, but is now in a condition that would require the expenditure of approximately $1,000 to put it in good repair.

I have received from the makers of this machine a proposition to sell to the City a new machine, the price of which is $3,250, making an allowance for the present machine of $1,450, so that the net expense would be $1,800.

I consider this an advantageous offer, and I respectfully request that your Honorable Board, in pursuance of the authority contained in section 419 of the Greater New York Charter, authorize this expenditure without public advertisement.

Yours very truly, HENRY S. THOMPSON, Commissioner.

The President laid before the Board the following communication from the President of the Borough of The Bronx:

No. 3444.

City of New York, President of the Borough of The Bronx, April 16, 1913.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, City of New York:

Dear Sir—I have the honor to request that the Board of Aldermen recommend that the Board of Estimate authorize the Comptroller to issue special revenue bonds in the sum of eighty-five hundred ($8,500) dollars, to provide for the purchase of a motor truck, buckets, etc., to be used in connection with the cleaning of receiving basins in the Borough of The Bronx. The present method of disposing of the material removed from these basins is to place it in carts and dump it wherever an opportunity presents itself. The question of proper dumps is becoming more trying each year. The hauls are getting longer, and with this the cost of disposing of the material is greatly increasing. There is really but one proper place to dispose of this refuse, and that is on the scows which carry the material gathered by the Street Cleaning Department to sea.

It is my desire to purchase a motor truck that would carry about seven tons, to be used at night. The receiving basins would be cleaned during the day by the same gangs as at present, and each cleaning gang would be provided with a circular receptacle to hold about three-fourths of a cubic yard, which is the quantity generally removed from each receiving basin. These receptacles would be left in the gutter at the receiving basin that had just been cleaned, and late in the afternoon of each day the Foremen of gangs would telephone to the yard, where a list would be made of the locations of the receptacles and given to the Chauffeur of the motor truck, and he

DAMAGED PAGE(S)

would go out and gather the refuse from the receptacles and carry it to the dumps to be taken to sea. In the morning the cleaning gangs would take the receptacles and trundle them on a small skid to the next receiving basin that needed cleaning. To do this we would have to be provided with about fifty of these receptacles.

The price furnished me by the Alco Truck Co. for the truck that is required is five thousand eight hundred and sixty ($5,860) dollars. Each receptacle would cost about fifty ($50) dollars; this would make two thousand five hundred ($2,500) dollars for the receptacles. If we are enabled to put this plan into operation we shall save a considerable sum of money each year; besides, we shall be cleaning forty-eight basins a day as against thirty-two that we now clean with our present method and force. The saving in money, however, is not the only motive for adopting this method; we are forced to it by the absolute lack of dumping facilities and the fact that our present method is resulting in the continual arrests of the drivers of our carts. Very truly yours,

CYRUS C. MILLER, President of the Borough of The Bronx.

Department of Correction of The City of New York, Commissioner's Office, 148 E. 20th St., New York, April 17, 1913.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, New York City:

Dear Sir—I enclose herewith a copy of a communication dated April 2, 1913, from Otto Kempner, Chief City Magistrate, in regard to the matter of providing attendants for the detention pens attached to the courts.

In order to provide for the needs of the situation, I would respectfully ask that your Honorable Board, pursuant to the provisions of section 188 of the Charter, request the Board of Estimate and Apportionment to authorize the issue of special revenue bonds to the amount of four thousand six hundred and sixty-six dollars and sixty-seven cents ($4,666.67), to pay the salaries of ten (10) additional Keepers at a salary of $800 per annum from June 1, 1913.

Trusting that the foregoing will receive the approval of your Honorable Board, I remain, very respectfully yours, PATRICK A. WHITNEY, Commissioner.

Office of Chief City Magistrate, Board of City Magistrates, Second Division, City of New York, No. 44 Court St., Brooklyn, New York, April 2, 1913.

Hon. PATRICK A. WHITNEY, Commissioner of Correction, No. 148 E. 20th St., N. Y.:

My Dear Commissioner—Our Magistrates have frequently discussed the question of the respective responsibility of your Department and of our courts for the care and custody of prisoners brought from jail to the courts and sent to jail by our courts. After a careful study of the law, we have reached the conclusion that you are vested with the full responsibility of such care and custody, and that we have no rights or obligations in the matter whatsoever. We are of the opinion that the detention pens attached to our courts are identical with the "district prisons" that are referred to in the "Inferior Criminal Courts Law" (see section 112), and which prisons are made subject to your control.

I now write, pursuant to a resolution of our Board, to inquire as to whether you can hold out an early prospect of providing each of our district prisons with the necessary number of attendants to take charge of the prisoners, so as to relieve us of the unlawful work that our force is now obliged to perform in that respect We are not disposed to hurry you in the matter, but we do wish to have you keep the subject in mind with a view to a definite determination of the question involved.

Yours very truly, (Signed) OTTO KEMPNER, Chief City Magistrate.

Department of Water Supply, Gas and Electricity, April 14, 1913.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen:

Dear Sir—The automobile used in the executive division of this Department, which was purchased in 1910, has furnished excellent service but is now in a condition that would require the expenditure of approximately $1,000 to put it in good repair.

I have received from the makers of this machine a proposition to sell to the City a new machine, the price of which is $3,250, making an allowance for the present machine of $1,450, so that the net expense would be $1,800.

I consider this an advantageous offer, and I respectfully request that your Honorable Board, in pursuance of the authority contained in section 419 of the Greater New York Charter, authorize this expenditure without public advertisement.

Yours very truly, HENRY S. THOMPSON, Commissioner.

Alderman Dowling, in connection therewith, offered the following resolution and moved its adoption:

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the Commissioner of the Department of Water Supply, Gas and Electricity be and he hereby is authorized and empowered to expend the sum of eighteen hundred dollars ($1,800) in exchange of an old for a new automobile without public letting.

The Committee on Finance, to which was referred on April 15, 1913 (Minutes, page 86) the annexed resolution in favor of an issue of $10,000 Corporate Stock for surveys, etc., in connection with reclamation of submerged lands lying in front of Concourse Park, Borough of Brooklyn, respectfully

REPORT:

That having examined the subject, it believes the proposed appropriation to be necessary. A history of this proposition is appended hereto.

The Committee recommends that the accompanying ordinance be adopted.

AN ORDINANCE providing for an issue of Corporate Stock of The City of New York in the sum of Ten thousand dollars ($10,000), to provide means for the purpose of paying for the expenses of surveys, plans, specifications and other work in connection with the reclamation of submerged lands in front of Concourse Park to be expended under the jurisdiction of the President of the Borough of Brooklyn.

Be it Ordained by the Board of Aldermen of The City of New York, as follows:

Section 1.—The Board of Aldermen hereby approves of and concurs in the following resolution, adopted by the Board of Estimate and Apportionment April 3, 1913 and authorizes the Comptroller to issue Corporate Stock of The City of New York to the amount and for the purposes therein specified:

Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended, the Board of Estimate and Apportionment hereby approves of the issue of corporate stock of The City of New York to an amount not exceeding ten thousand dollars ($10,000), to provide means for the purpose of paying for the expense of surveys, plans, specifications and other work in connection with the reclamation of submerged lands lying in front of Concourse Park, to be expended under the jurisdiction of the President of the Borough of Brooklyn, and when authority therefor shall have been obtained from the Board of Aldermen the Comptroller be and is hereby authorized to issue corporate stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding ten thousand dollars ($10,000), the proceeds whereof, to the amount of the par value of the stock, to be applied to the purposes aforesaid.

HENRY H. CURRAN, ROBERT F. DOWNING, JOHN DIEMER, HENRY F. GRIMM, JAMES HAMILTON, FRANCIS P. KENNEY, C. AUGUSTUS POST, Committee on Finance.

The concourse lands at Coney Island originally contained 70 acres. They have a sea frontage of 2,750 feet and a uniform depth of 1,000 feet. The shore front has materially changed at the eastern end and for a distance of over 500 feet along the shore the entire park lands have been washed away. An area of over 30 acres has disappeared at the eastern end and a small amount has been added to the west end. These lands are intersected on the north side, near the centre, by the renowned Ocean parkway. This drive, 210 feet wide, 5½ miles long, with the concourse lands and improvements, cost complete, approximately, $1,000,000. The remaining portion of the concourse lands is alone worth many times this amount, and several million dollars would not compensate for the loss of these 30 acres of shore property.

The concourse was partly improved and opened to the public in 1876. The improvement consisted of a beach concourse made of bituminous concrete running the entire length of the ocean front, 100 feet wide, for carriages and pedestrians. It did not prove very durable, as in 1884 it was not fit to use and had to be replaced by a new covering, at a cost of $30,000. It was located about 500 feet from the northern boundary. This concourse was protected on the shore side by an inclined asphalt surfacing 3 inches thick by 18 feet wide buried in the sand to low water mark and connected with the edge of the concourse concrete. It protected the concourse from being undermined by the waves when they came from the front, but proved useless when attacked obliquely at the side at the east end. During the storm which prevailed on November 24, 1885, the ocean face of the bituminous concrete upon the embank-

ment of the concourse was carried away for a length of 250 feet by 15 feet in width at the eastern end. Several schemes were adopted in an endeavor to save the remaining beach front, but owing to the fact that the Park Department was unable to secure sufficient appropriation to properly protect this property these schemes failed.

The Brooklyn Engineers' Club, through the generosity of Mr. Alfred T. White, has offered a prize to the engineer who submits the best plans and specifications for the most economical method of reclaiming the lost acres of ocean front. There are 48 contestants entered in this competition. They are scattered all over this country and Canada. The engineering schools have also taken great interest in this problem and the engineering magazines have given it considerable publicity. There is no doubt that this competition will be the means of developing a rational scheme for reclaiming this beach property.

The Board of Estimate and Apportionment has recommended this appropriation of $10,000 corporate stock, to be used by the Borough President's office to prepare plans to reclaim the concourse lands, and the problem is now being seriously considered by the administration. The success secured by the Manhattan Beach corporation in reclaiming the many acres of land washed away in front of their property demonstrates how readily and economically the concourse lands can be restored. In order to properly reclaim this land it will probably be necessary to build a strong and durable breakwater on the eastern boundary, from a secure point inland, southerly out to the sea, to the original or 1,000-foot shore line, turning the corner with an easy curve and running westward parallel with the concourse about 400 feet. It should be about 12 feet high above mean high tide, well put together with piles driven deep to protect it. It should be backed on the inside with earth or clay. The eastern front would act as a breakwater, shielding and protecting the property against the strong eastern current, which would then flow around the curve to the southern face of the barrier. Thus the natural direction of the current will be restored by the straight face of the sea wall. The building of this sea wall is not a problem of great magnitude, as might at first appear. The rock ballast can be had, in many cases, for the hauling of it, and the sand filling can be pumped in from the sea for less than ten cents per cubic yard. It can, therefore, be seen that the whole improvement would not be an expensive one, as the building of this wall is in no way an experiment. It has been accomplished at numerous points along the sea coast. Even if it was expensive, the best and most permanent things are always in the end the cheapest and most satisfactory. This broad embankment projecting well out to sea could be improved as a recreation pier, and would undoubtedly be a favorite resort in the summer time.

Inasmuch as the ocean front of the concourse grounds is limited, it is, therefore, advisable, in order to make a comprehensive system of coast protection, that the adjoining property owners on the east side of the concourse front should co-operate with the City in the construction and carrying out of such a system. The advantages of co-operating with the City can be readily demonstrated to the property owners between Manhattan Beach and the concourse lands. There is no question that it would be more economical to protect the entire ocean front, from Manhattan Beach to Dreamland Park, in one operation.

The old Iron Pier in Dreamland could be reconstructed and filled in with rock and thereby form a barrier at the west end of the boundary of the City land against the action of the ocean. Ocean parkway could be extended 1,000 feet southerly to the ocean and at its southern end a terminal feature or parking space could be provided for automobiles, etc. The old iron pier could be double decked and a municipal dancing pavilion established thereon, which would undoubtedly prove very popular and pay for the maintenance of the pier.

The improvement of this entire concourse land would probably not exceed one-half million dollars, and at the price for which the City will be compelled to pay for Dreamland Park the reclaimed portion of the concourse park will be worth over $4,000,000.

The reclamation of the concourse lands, by affording protection for Dreamland Park, would undoubtedly increase the extent of the latter, and thereby add considerably to its value.

The Committee on Finance, to which was referred on April 5, 1913 (Minutes, page 82), the annexed resolution in favor of an issue of $10,000 special revenue bonds for street signs in the Borough of Queens, to be erected under the jurisdiction of the President of said borough, respectfully

REPORTS:

That in the departmental estimate for 1913 the sum of $10,000 was asked for this purpose, and but $5,000 allowed. The present request is for $5,000 more than was then asked. While the Committee believes that an additional appropriation is needed, it does not think that any such amount as $10,000 is required; it considers that $2,500 will be entirely adequate for this purpose for this year, in addition to the original $5,000 and it, therefore, recommends that the accompanying substitute resolution be adopted.

SUBSTITUTE.

Resolved, That in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of Two thousand five hundred dollars ($2,500), the proceeds whereof to be used by the President of the Borough of Queens for the purchase and erection of street signs throughout the Borough of Queens. All obligations contracted for hereunder to be incurred on or before December 31, 1913.

City of New York, Department of Health, Office of the Secretary, April 11, 1913.
Hon. P. J. SCULLY, City Clerk, City of New York:

Sir—The enclosed resolution adopted by the Board of Health April 8, 1913, requesting the Board of Aldermen to authorize an issue of special revenue bonds in the sum of eleven thousand dollars ($11,000), for the purpose of reimbursing the Department of Docks and Ferries for contemplated work at Riverside Hospital, at North Brother Island, Borough of The Bronx, as specified therein, is forwarded with a request that you will submit it to the Board of Aldermen at its next meeting for consideration. The amount is based upon estimates submitted to the Department of Health by the Chief Engineer of the Department of Docks and Ferries, who made a thorough examination of the docks and the needs of the hospital in the matter of dredging and the urgent necessity of which cannot be too strongly enforced.

At the present time the boats cannot land at the slips set aside for them in low water, but must lay at the end of the docks, and the condition of the docks is very bad, if not in a condition dangerous to life. Very truly yours,

EUGENE W. SCHEFFER, Secretary.

REPORTS:

That having examined the subject, it believes that these supplies had to be furnished by the Sheriff for the subsistence of the prisoners, and that as the budget appropriation was insufficient for the purpose this supplemental appropriation should be made.

It, therefore, recommends that the accompanying resolution be adopted.

Resolved, That in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of two thousand, two hundred and eight 55-100 dollars ($2,208.55), the proceeds whereof to be used by the Sheriff of Richmond County for the purpose of paying bills for food supplies furnished to the Richmond County Jail during the year 1912.

City of New York, Office of the President of the Borough of Manhattan, City Hall, April 15, 1913.
Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, City Hall, New York:

Dear Sir—Request is hereby made for an issue of special revenue bonds in the amount of eight thousand dollars ($8,000) in order to provide for the requirements of the Supreme Court during the remainder of the year. The amount estimated for all purposes for 1913 was $25,000. The amount asked for was $20,000, and the amount allowed by the Board of Estimate and Apportionment was $15,000, all of which has been practically expended. The small balance remaining in the appropriation being retained for requirements of extreme and urgent necessity. Several bills have been received by me for automobile hire for the transportation of jurors from the courts to and from various hotels, where they are housed and provided for. There was no money appropriated for the purpose, neither was any provision made for room hire or lodging for jurors. It is necessary that all of these contingencies be provided for, and I therefore respectfully request that authority be given for an issue of special revenue bonds in the amount above asked for to provide for office equipment, office and food supplies, transportation and room hire. Very truly yours,

GEORGE McANENY, President of the Borough of Manhattan.

Report of Special Committee on Pushcarts and Markets—

No. 3453 (S. O. No. 249).

REPORT.

To the Honorable Board of Aldermen:

The Special Committee appointed to investigate the subject of push-carts and markets, makes the following report and recommendations, and submits the following ordinances for adoption:

This Special Committee was appointed by the Rules Committee, pursuant to a resolution introduced in the Board of Aldermen, on the 9th day of July, 1912.

Pursuant to the terms of said resolution this Committee was appointed to investigate the subject of push-carts and public markets, but in making this their report, they are dealing only with the subject of push-carts, for the reason that on the appointment of the committee and after conferences among its members, the Committee decided that immediate steps should be taken to investigate and report with their recommendations, first on the subject of push-carts, for the reason that it seemed in the judgment of this Committee that the push-cart problem was the one that required immediate attention and on account of the conditions under which push-carts were operated, some immediate relief should be afforded.

Your Committee believes that a comprehensive system of public markets should be established as soon as possible, throughout the greater City, in sections most convenient to the public and adjacent to a railway or water route, so that supplies could be delivered directly to these markets by the farmers and truck gardeners in the immediate vicinity of New York. Your Committee will make a further report in regard to markets, within a short time.

In approaching the solution of the so-called push-cart problem, three facts must be borne in mind:

First—That the push-cart is an economic necessity and tends greatly to reduce the high cost of living for the people living in the sections of the greater City, where the push-cart has become an established factor in trade.

Second—That the push-cart business is a legitimate one, and the people engaged in this business are self-respecting merchants carrying on a legitimate business, and should be treated as such, and should be accorded proper facilities under which to carry on their business.

Third—That the push-cart is as much a necessity to certain sections of New York City as are large department stores and shops in other sections. That the quality of food and merchandise sold from these push-carts is in the main of as good a quality as can be bought anywhere else in the City, and much cheaper.

This Committee has made their investigation without the aid of any appropriation, and have given their time and consideration to the solution of this very important problem. As near as your Committee can judge, there are between five and six thousand push-carts in the greater City, about three thousand of these are on the lower East Side, probably fifteen hundred on the upper East Side, and the rest scattered. About 50 per cent. of these, as near as your Committee can judge, have licenses.

Subsequent to the appointment of this Committee by the Rules Committee the Committee made a thorough investigation of the Greater City in regard to pushcarts, and they found that the principal pushcart sections in the City were at follows:

The section from 106th to 116th sts., lying between 5th ave. and East River, known as "Little Italy."

The section along 1st ave., from 6th to 14th st.

The section on the lower east side, lying between the Bowery and the East River, North and South sts.

In Brooklyn the pushcart sections are known as the Siegel, Moore st. and Graham ave. Districts and the Brownsville District.

The pushcart, at the present time, does not seem to be a problem in The Bronx, Richmond or Queens.

In this investigation that the Committee made their purpose was to afford some immediate relief to these sections where the Committee found the pushcart problem, and the Committee felt that if they waited until permanent pushcart markets could be established, owing to the length of time it would take to acquire property and to erect buildings, that the term of the present Board of Aldermen would have had long since expired before these markets would be established. Therefore, in this investigation, it was the purpose of the Committee to find, if possible, open spaces in the City where it would be practicable to segregate the pushcarts, thus relieving the sanitary and congested conditions of the City streets in these sections, and at the same time placing the pushcart peddler in a market where he would have a permanent stand and could work up an established trade and not be required, as now, under the present ordinances, to move every twenty minutes. With that end in view, the first spaces which your Committee discovered as suitable space for the establishment of pushcart markets were the spaces under the Williamsburg and Manhattan bridges, the old Essex Market Court House, between Ludlow and Essex sts.; the blind alley, between the court house and the abandoned school, and the abandoned school and the available portion of the old Union Market.

From its investigation your Committee believes that the entire [illegible] problem of the lower east side could be solved by the placing of the[illegible]s under the bridges, the Essex Market House, this blind alley and the old Union Market. The president of the Borough

the use of the Essex Market Court House for a pushcart market. Your Committee has endeavored to obtain the use of the school house from the Board of Education for this purpose, but up to the present time has been unsuccessful.

In utilizing the spaces under the Manhattan and Williamsburgh Bridges, in order to make the market a success, the streets adjacent would have to be closed to pushcart peddlers, otherwise the market would be a failure.

At the present time there are a good many pushcart peddlers under the Williamsburgh Bridge who pay a dollar a week to the City for the privilege of standing under this bridge. But many complaints, and justly so, are received by the Comptroller's office, for the reason that at the present time a peddler is allowed to stand in all the streets adjacent, many times without even obtaining a license and without paying any revenue to the City, and sell his wares, thus taking away the business of the peddler who is under the bridge.

At the present time there are probably about 200 peddlers under the Williamsburgh Bridge. From this small amount the City derives a revenue of about $12,000 a year, and the total expenses are about $3,000, making a clear profit to the City of about $9,000 from City property which, unless rented for this purpose, would otherwise be useless as a revenue producer. If all the pushcart peddlers on the lower east side were placed under these bridges and in the Essex Market Court House there would be an additional revenue to the City of about between fifty to seventy-five thousand dollars at very little additional expense. The Essex Market Court House and the old Union Market, with very little expenditure, could be placed in immediate condition for occupancy by the peddlers. The bridge spaces are immediately available and would require no outley of expense whatever. As to feasible spaces for the pushcarts along 1st ave., from 6th to 14th sts., and from 106th to 116th st., from 5th ave. to the East River, your Committee has not been able at the present time to find suitable spaces. The section lying under the New York Central tracks from 106th to 116th st. would be, in the opinion of your Committee, a suitable place for a pushcart market, and it will be recalled that some years ago the peddlers were segregated in this place under the tracks, but your Committee has been advised by the Corporation Counsel that at the present time, under section 50 of the Charter, the Board of Aldermen has no power to preempt a public highway or any part thereof for a market, and the only way in which this space could be utilized for market purposes would be by application to the Legislature to amend the Charter. It necessarily follows that this opinion would apply equally to the space under the elevated tracks from 6th to 14th st. on 1st ave.

It would seem from the result of the Committee's investigation as to the pushcart problem in the Borough of Brooklyn that the only solution of the problem, in so far as it relates to this particular Borough, would be the erection or establishment of pushcart markets, as there are no available spaces in that Borough, similar to those in Manhattan, where pushcarts could be segregated and still be conveniently located to the people who do their marketing from these carts.

In Brownsville there is now what is termed the "Peddlers' Market," which consists of a one-story building leased, as your Committee is advised, by certain peddlers in that neighborhood who have joined themselves into an association in order to better their condition, but the result of that market is practically the same as the one at present under the Williamsburgh Bridge; for as soon as the peddlers segregated themselves in this market in Brownsville and took their carts off the streets adjacent thereto other peddlers came and occupied the streets abandoned by the peddlers who went into the market, thus making it really of no advantage for the peddlers to remain in the market, on account of loss of trade and in order to protect themselves the peddlers who remained in the market were forced to place their carts on the street again. The condition of this peddlers' market is not of the best, and the food stuffs sold are not, in the opinion of your Committee, of as good a grade as were found elsewhere, and the conditions, if anything, under which food stuffs were sold, were more unsanitary. The Committee would recommend that the City, through its proper officials, should take steps as soon as practical, to acquire this market or erect one similar thereto in this section, which would be under the supervision and regulation of the Borough President and the Comptroller, and be frequently inspected by the Board of Health.

Other locations in Brooklyn suitable for pushcart markets and recommended by your Committee are the following:

The block bounded by Siegel st., Graham ave., Moore st. and Manhattan ave., 100 feet frontage on Siegel and Moore sts., running through the entire block. In Brownsville the block bounded by Sutter ave., Osborne st., Blake ave. and Thatford ave., 100 feet frontage on Sutter and Blake aves. This latter location is only a short distance away from the peddlers' market heretofore mentioned in Brownsville, and your Committee was informed at the public hearing which was held in Brooklyn in regard to pushcart locations, that these two locations could be obtained by the City for market purposes at a very small outlay.

As to the conditions under which the push-carts operate at the present time, the Committee find them most deplorable, both from a point of danger to life and limb and on account of their congestion in the streets, and also from a sanitary standpoint.

Your Committee found that during certain times of the day, between the hours of 9.30 and frequently as late as 6 or 7 o'clock, the streets, on account of the large number of push-carts, were impassable for any sort of vehicle, and it was with difficulty that your Committee were able to make their way through this congestion in order to make an inspection of the wares offered for sale. Your Committee found that frequently foodstuffs offered for sale were often placed on top of garbage cans which were filled with garbage; that half-clothed children were frequently found playing among the fruits and vegetables and other foodstuffs offered for sale; that the drippings from the carts caused stagnant pools to form under the carts; that the refuse from the push-carts were thrown indiscriminately in the streets, there to lie and decay until such time as the Street Cleaning Department could come along and remove the same. On account of these conditions, the condition of the streets were necessarily indescribably filthy, and whole blocks were so congested from this push-cart traffic that it would have been impossible, in case of fire, for the Fire Department to make their way through, and it is the opinion of your Committee that, unless these conditions are alleviated immediately, sooner or later there will be a frightful loss of life, either by people being trampled upon or on account of the Fire Department not being able to reach their destination with sufficient speed, owing to this congestion.

In approaching the solution of this problem, as before stated, the Committee have endeavored to act in a spirit of fairness to all interested in the solving of this problem, and, after the Committee had made this investigation, a public hearing was called during the month of July, which was widely advertised and at which appeared a large number of advocates of the segregation of peddlers, taking them from the streets and finding some convenient and suitable places in which they could ply their trade. A great many of the push-cart peddlers appeared also, either individually or by proxy or by the representatives of their organization.

The Committee have found that push-cart men, particularly in Manhattan, are well organized, and they are anxious to better their condition, and that at the hearing the peddlers appeared to be unanimous for the proposition to take them off the streets and give them suitable places to ply their trade, subjecting them to regulation, provided they could be placed in sections which would be convenient to the people who depend upon push-carts to do their trading. Your Committee has talked to a great many individual peddlers and to their organization representatives, and the Committee is informed and believes that the push-cart peddlers are now ready and willing to occupy these spaces under the bridges and Essex Market Court House, and such other places as could be found for them, provided ordinances could be passed to protect them in their trade when once they have submitted themselves to regulation.

As near as your Committee can ascertain, not more than 50 per cent. of the push-cart peddlers to-day have licenses, and the reason for the large discrepancy between the total number of push-carts and total number of licenses is that it has been the policy of the Bureau of Licenses, for some time past, to refuse to issue new push-cart licenses, on the ground of the great congestion which they created in the streets, and only renewal licenses were issued, and the natural result was that peddlers, finding they could not get a license, got a cart and commenced to peddle without one. The City authorities have tried to handle the push-cart problem along the lines of least resistance, until some solution of the problem could be found. Under [illegible]ent ordinances, push-cart peddlers are supposed to move on every [illegible] in the situation in which the push-cart problem is to-day, it [illegible] the whole police force to make them obey this ordinance, [illegible] little else.

[illegible] reducing the high cost of living than to establish push-cart markets, where the push-cart peddlers buy direct and sell direct, at the possible cost? The segregation of the push-cart peddler would give to his bus a permanency of character which it now necessarily lacks, and would guarantee a permanent place of business to build up his trade, and would do away with his stant moving from place to place.

It is not the desire of the Committee to make a voluminous report, but t and point out as briefly as possible what, in their opinion, would be the imm e solution of the push-cart problem. Your Committee would, therefore, recom nd that the following locations be designated by the Board of Aldermen for market purposes, and that the same shall be declared by the Board of Aldermen as public markets, and shall be set aside as a market for such purposes during the pleasure of the Board of Aldermen, subject to such rules and regulations concerning fixtures, the order of doing business and the general management of said markets, as may be made by the Comptroller of The City of New York; that the moneys received by the City for market spaces under the bridges be received by the Comptroller and be applied toward the maintenance of said bridges; that section 6 of article 1 of chapter 1 of part 2 of the Code of Ordinances be amended so as to prohibit push-cart peddling in the following streets and highways of The City of New York, and providing for a penalty for failure to obey this ordinance.

Proposed ordinances, in accordance with this report, are hereto annexed, and resolutions calling upon the Health Department, Police Department, Bridge Department and the Street Cleaning Department to co-operate with the Board of Aldermen in placing the peddlers in these spaces:

1. The Essex Market Court House.

SPECIAL ORDERS.

No. 232—Int. No. 2977.

The Committee on Finance, to which was referred on February 25, 1913 (Minutes, page 649), the annexed resolution in favor of an issue of $4,700 special revenue bonds for purchase, operation and maintenance of an automobile by the President of the Borough of Queens, respectfully

REPORTS:

That the reasons for this request are set forth in the application. The Committee believes the necessity for this auto exists. It feels, however, that $1,800 will purchase a car equal to all demands of this work and that, as an appropriation cannot well be made available until June 1, the salary of the chauffeur may well start from that date as well as the allowance for maintenance.

It therefore recommends that the accompanying substitute be adopted.

ORIGINAL.

Resolved, That, pursuant to subdivision 8, section 188, of the Charter of The City of New York, the Comptroller is hereby authorized to issue special revenue bonds to an amount not exceeding four thousand seven hundred dollars ($4,700), proceeds whereof to be expended by the President of the Borough of Queens, without public letting, for the purchase of one (1) automobile and for the operation and maintenance thereof for the year 1913.

SUBSTITUTE.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of two thousand five hundred and twenty-five dollars ($2,525), the proceeds whereof to be used by the President of the Borough of Queens for the purpose of the purchase, operation and maintenance of an automobile as follows:

Automobile	$1,800 00
Chauffeur, at $1,050 per annum, from June 1 to December 31, 1913	612 50
Maintenance, from June 1 to December 31, 1913	112 50
	$2,525 00

All obligations contracted for hereunder to be incurred on or before December 31, 1913.

The City of New York, Office of the President of the Borough of Queens, Long Island City, February 18, 1913.

To the Honorable Board of Aldermen, City Hall, New York City:

Gentlemen—Pursuant to subdivision 8 of section 188 of the Greater New York Charter, application is hereby made for an issue of special revenue bonds to an amount of four thousand seven hundred dollars ($4,700), proceeds whereof to be expended by the President of the Borough of Queens, without public letting, for the purchase of one automobile, hire of the necessary chauffeur, maintenance and storage of same for the balance of the year 1913.

As there will be over $2,000,000 worth of public improvements going on in this Borough this coming year, namely, the improving of highways and building of sewers, it is absolutely necessary for the proper transaction of business that the Consulting Engineer of this Borough keep in touch with the various works under his supervision and direction.

With the present transit facilities in this Borough it will be impossible for the Consulting Engineer to give proper and prompt attention, in the City's interest, to the multifarious problems that are continually presenting themselves throughout the Borough, as at present he has no means of transportation of this nature, and were he to depend on train or trolley, he would be compelled at times to walk four or five miles to reach certain points after disembarking from the trolley or train.

May I, therefore, request that your Honorable Board give this application your early consideration, as it is very urgent that the Consulting Engineer obtain this automobile as soon as possible, in order that he may have the use of same in the early spring, when the different contracts will be commenced, or well under way.

Resolution herewith enclosed. Yours very truly,

MAURICE E. CONNOLLY, President of the Borough of Queens.

The Vice-Chairman put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Becker, Bedell, Bolles, Boschen, Bosse, Brush, Carberry, Cole, Cummuskey, Cunningham, Curran, Delaney, Devine, Diemer, Dixson, Dotzler, Dowling, Downing, Drescher, Dujat, Dunn, Eagan, Eichhorn, Esterbrook, Fink, Folks, Gaynor, Hamilton, Hannon, Herbst, Igstaedter, Kenney, Levine, Lieberman, Loos, McCann, McCourt, McGarry, McGrath, Marks, Martyn, Molen, Moore, Morrison, Muhlbauer, Mulligan, Nicoll, Nugent, O'Connor, O'Neil, O'Rourke, Post, Pouker, Reardon, Shipley, Stapleton, Stevenson, Velten, Weil, Weston, White, Wilmot; President Connolly, President Miller, by Thomas W. Steel and iron work	250 00
Plumbing	750 00

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, 51 Chambers St., New York:

Dear Sir—On behalf of the Board of City Magistrates of the Second Division of The City of New York I hereby respectfully request that special revenue bonds to the amount of $5,000 be issued to provide for the alteration of the court building at the corner of Myrtle and Vanderbilt aves., occupied by the Domestic Relations Court. The business of that court has so largely increased and the need for additional accommodation being so very urgent we find that the pressing need for relief calls for immediate action. The building is owned by the City, and in order to equip it properly for the public uses to which it is devoted it is necessary to alter the first floor and to build an addition to the present extension.

I trust that your honorable body will give this matter your prompt attention.

Yours very truly, OTTO KEMPNER, Chief City Magistrate.

The Committee on Finance, to which was referred on March 25, 1913 (Minutes, page 1164), the annexed request from the Park Commissioner of The Bronx for $15,000 special revenue bonds for reclaiming swamp lands in Van Courtlandt Park, respectfully

REPORTS:

That having examined the subject, it believes the proposed improvement to be necessary. Many of the residents of this portion of The Bronx have appealed to the Committee and filed a petition for relief, and the Commissioner has informed the Committee that the users of the park will be greatly benefited by this additional parkage, for which he has furnished the attached estimate.

The Committee recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of fifteen thousand dollars ($15,000), the proceeds whereof to be used by the Commissioner of Parks of The Bronx for the purpose of filling in swamp lands in Van Cortlandt Park, south of the Colonial Garden.

All obligations contracted for hereunder to be incurred on or before December 31, 1913.

HENRY H. CURRAN, ROBERT F. DOWNING, FRANK J. DOTZLER, HENRY F. GRIMM, FRANCIS P. KENNEY, C. AUGUSTUS POST, Committee on Finance.

The City of New York, Department of Parks, Office of Commissioner for the Borough of The Bronx, Zbrowski Mansion, Claremont Park, March 24, 1913.

Honorable JOHN PURROY MITCHEL, President, Board of Aldermen, City Hall, New York City.

Sir—There exists in Van Cortlandt Park, south of the Colonial Garden and the main road leading into the park from the 242d Street Subway Station, an area of swamp lands covering approximately twenty-three and one-half (23½) acres, of which fully twenty (20) are typical mosquito-breeding grounds.

The many thousands who visit the park (50,000 on a fine Sunday not being an overestimate—and the number is increasing each season) find these pests a serious drawback to their enjoyment. In addition to this, the property in the neighborhood, which is highly taxed, is seriously interfered with in its development, by reason of the existing state of affairs.

In order to improve these conditions, and, in the doing so, reclaim a large part of the swamp area, which can then be used for playground purposes, I hereby respectfully request the Honorable Board of Aldermen to authorize the issue of fifteen thousand dollars ($15,000) of special revenue bonds. This sum will, it is estimated, enable the Department to fill up the low places, and so drain the swamp lands into running water, that the mosquito breeding spots will be entirely eliminated, and a large area made dry and available for baseball grounds and other forms of athletics.

The work to be done, while temporary in character, or, I might say, preliminary to permanent reclamation of the swamp lands referred to, will return to the City, by reason of value added to park lands, more than the sum herein asked for. Respectfully,

T. J. HIGGINS, Commissioner of Parks, Borough of The Bronx.

Engineer's Estimate for Filling in Swamp Lands South of the Colonial Garden in Van Cortlandt Park.

Approximate space to be filled in, 14 acres; average depth of fill, 1 foot 6 inches; estimated cost of fill in place, 50 cents per cubic yard; appropriation required, $15,000; amount of fill required, 30,000 cubic yards.

Petition to Commissioner of Parks, President of the Borough of the Bronx, The Board of Aldermen and the Board of Estimate and Apportionment.

The Northwestern Bronx Property Owners' Association and the undersigned respectfully petition you for the sum of fifteen thousand dollars in special revenue bonds, the proceeds of which are to be used solely for the filling of the lower part of Van Cortlandt Park, between Van Cortlandt Park South and the Dutch Garden, with a layer of cinders or other suitable material averaging one foot in depth so as to eliminate the malaria breeding mosquito from this district.

We wish also to remind you that on several occasions large amounts have been appropriated for filling this section of Van Cortlandt Park, but the appropriation has each time been rescinded and no work whatsoever has been done. The property owners have been spending several thousand dollars per annum through the medium of the Riverdale Health League on work of this kind, while the property of The City of New York remains a menace to the health of the community and depreciates the value of surrounding taxable property.

NORTHWESTERN BRONX PROPERTY OWNERS' ASSOCIATION—Edward C. Delafield, President; PARK DISTRICT PROTECTIVE LEAGUE, by John Ross Delafield, President; RIVERDALE HEALTH LEAGUE—Frank S. Hackett, secretary; James Douglas, Archibald Douglas, A. Van Cortlandt, Jr., and others.

Approved March 31, 1913.

CYRUS C. MILLER, President of the Borough of The Bronx.

The Vice-Chairman put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

The Committee on Finance, to which was referred on March 25, 1913 (Minutes, page 1166), the annexed resolution in favor of an issue of $300 special revenue bonds to be used by the Board of Coroners, Borough of The Bronx, for vehicular hire during 1913, respectfully

REPORTS:

That having examined the subject, it believes the proposed allowance to be necessary. The demands for this class of service have proven greater than was estimated at the time of the Budget allowance.

It, therefore, recommends that the said resolution be adopted.

Resolved, That in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of three hundred dollars ($300) the proceeds whereof to be used by the Board of Coroners, Borough of The Bronx, for the purpose of vehicular hire for the year 1913.

HENRY H. CURRAN, ROBERT F. DOWNING, FRANK J. DOTZLER, HENRY F. GRIMM, FRANCIS P. KENNEY, C. AUGUSTUS POST, Committee on Finance.

Coroners' Office, Borough of The Bronx, 1932 Arthur Avenue, Corner Tremont Avenue, New York, April 1, 1913.

Finance Committee, Board of Aldermen:

Gentlemen—Complying with your request to furnish to your Committee the amounts expended by this office for automobile hire in the past few years, we would state as follows:

In the year 1911 there was expended $247.45; in the year 1912 there was expended $104.50; for the first three months 1913 there was expended $87.

We originally asked for $250, which the Board of Estimate reduced to $100.

In explanation of our request for $300 for vehicular hire for the year 1913 would state that the business of this office has increased at least 25 per cent. yearly; that the Coroners are often called out of bed at unseasonable hours, and to reach the bedside of the deceased, or the scene of accident, it is absolutely necessary to hire an automobile; that at other times it is necessary to make haste to reach hospitals to take antemortem statements before the decedent dies; that at no time do the Coroners hire an automobile unless it is imperative that haste should be observed in reaching the scene of accident or death.

Trusting that this explanation is satisfactory, and that our request for extra appropriation will be granted, we remain, yours very truly,

JEROME F. HEALY, Coroner.

The Vice-Chairman put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Becker, Bedell, Bolles, Boschen, Bosse, Brush, Carberry, Cole, Cummuskey, Cunningham, Curran, Delaney, Devine, Diemer, Dixson, Dotzler, Dowling, Downing, Drescher, Dujat, Dunn, Eagan, Eichhorn, Esterbrook, Fink, Folks, Gaynor, Hamilton, Hannon, Herbst, Igstaedter, Kenney, Levine, Lieberman, Loos, McCann, McCourt, McGarry, McGrath, Marks, Martyn, Molen, Moore, Morrison, Muhlbauer, Mulligan, Nicoll, Nugent, O'Connor, O'Neil, O'Rourke, Post, Pouker, Reardon, Shipley, Stapleton, Stevenson, Velten, Weil, Weston, White, Wilmot; President Connolly, President Miller, by Thomas W. The Committee on Finance, to which was referred on March 25, 1913 (Minutes, page 1166), a request from the Department of Water Supply, Gas and Electricity for $122,182.33 special revenue bonds for lighting, respectfully

REPORTS:

That having thoroughly examined the subject, it believes the proposed street lighting to be necessary, as well as the small increase in force and hire of vehicles. It does not believe that all of the sums asked for public buildings will be required, and it, therefore, allows but two-thirds of these amounts. It recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of one hundred and seven thousand six hundred and eighty-five and thirty-two one-hundredth dollars ($107,685.32), the proceeds whereof to be used by the Department of Water Supply, Gas and Electricity for the purpose of supplementing the appropriation for "Illumination, Power and Heat Service" for the year 1913, in the following amounts:

The City of New York, Department of Water Supply, Gas and Electricity, Commissioner's Office, 13-21 Park row, New York, March 21, 1913.

Hon. JOHN PURROY MITCHEL, President, the Board of Aldermen, City of New York:

Sir—In the 1913 Budget appropriation for this Department, under the heading of "Illumination, Power and Heat Service," I find, on close analysis, that in a number of instances they are inadequate for the needs of the Department, and I would, therefore, request that you issue revenue bonds in addition to the present appropriations, as given below:

Code Number.		Appropriation.	Additional Revenue Bonds.
812	Street and Park Lighting, Manhattan and The Bronx..	$1,500,000 00	$30,000 00
813	Extension of Service, Manhattan and The Bronx....	15,000 00	10,000 00

820	Lighting Public Buildings, Manhattan and The Bronx.	725,700 00	20,000 00
821	Lighting Public Buildings, Brooklyn.....	216,000 00	9,000 00
822	Lighting Public Buildings, Queens.....	43,000 00	2,000 00
827	Power for City Departments, Queens.....	3,000 00	2,000 00
829	High Pressure Fire Service, Manhattan and The Bronx.	90,000 00	3,000 00
808	General Repairs, all Boroughs.....	38,600 00	7,500 00
842	H. & V., Without Drivers.....	.....	520 00
855	Hire of Automobiles.....	.....	7,700 00
685	Salaries, R. E.—Executive.....	.....	8,800 00
688	Salaries, R. E.—Inspection.....	.....	7,665 33
			$122,185 33

The reasons for the above requests are as follows:

Code No. 812, Street and Park Lighting, Manhattan and The Bronx, $30,000—This sum is required on account of misunderstanding by the Examiner of the Board of Estimate and Apportionment, in making up that part of the Budget, by which the lights installed in 1912 were not accounted for. The amount allowed, $1,500,000, covered the lights as of January 1, 1912, but did not cover the increase in that year. Consequently, we are actually facing a deficit of $30,000 in the expense of maintaining the lamps, as installed January 1, 1913, for the year 1913. Additional funds must be provided or the present lamps cannot be continued.

Code No. 813, Extension of Service, Manhattan and The Bronx, $10,000—At the time the Budget was made up we thought we could get along with $15,000, but the requests for increase of service, as shown in the attached list of streets, require more funds than we anticipated. Assuming that the installation of these lamps will approximate July 1, we request an additional $5,000 for lighting, and $5,000 for the purchase of posts for the new and more powerful system of lighting the side streets in Manhattan. On account of the improved lighting of the avenues during the past two or three years, considerable complaint has arisen over the comparative darkness of the side streets. Careful investigations were made last summer and a system devised which will cure this defect by using more powerful illuminating units on higher posts. The increased height of the posts is necessary for the proper distribution of light. The design of posts we desire to use, we think can be obtained for $15 a piece. This amount would give us about 330 posts to make a start on the more important residential sections of the Borough.

Code No. 815, Extension of Service, Brooklyn, $8,000—In the Borough of Brooklyn we originally requested $20,000. The Board gave us $12,000 for the extension of the lighting. The demand in Brooklyn, as shown by the attached list of streets which it is desired to light, would require the full $20,000. We are asking, therefore, for $8,000 more.

Code No. 817, Extension of Service, Queens, $6,000—In the Borough of Queens, for extension of service, we were tentatively allowed $15,000, [illegible] finally granted only $9,000. The demand for street lighting, as shown by [illegible]d schedule of

streets, would require the entire $15,000, and we are, therefore, asking for an additional $6,000.

It is understood that, in accordance with the procedure last year, all funds used for extension of service in street lighting shall be so expended that the cost in 1914 for such extensions shall not be more than twice the amount of increase for 1913.

Code No. 820, Lighting Public Buildings, Manhattan and The Bronx, $20,000.

The cost of Lighting Public Buildings in Manhattan and The Bronx was carefully estimated at $755,700 for the year 1913, and this was based on the best information we had at the time. We find to-day, however, that our estimate of these expenses, based on the actual expenditures for 1912, is $745,700. We were allowed in the Budget $725,700, and are asking for an additional $20,000. This allows $10,000 for the Municipal Building lighting, beginning April 1, next.

The preceding five accounts represent the major part of the increase desired for lighting streets and public buildings, and asked for in the Budget for 1913.

A last reduction was made in this Budget, just before it reached the final stage, which cut out $8,000 from the extension of service for Brooklyn, reducing the amount from $20,000 to $12,000; $6,000 from the amount allowed for extension of service in Queens, this account being $15,000, and, therefore, reducing the Queens account to $9,000. Further, $30,000 was cut from Lighting Public Buildings, Manhattan and The Bronx, reducing this item from $755,700. This, with the $30,000 omitted from the Manhattan and The Bronx Street and Park Lighting, gave a total amount below the required Budget of $74,000. The amounts from which these deductions were made had been allowed at the hearings of the Department and had been carried unreduced up to the point of the final cut in the tentative Budget.

Code No. 821, Lighting Public Buildings, Brooklyn, $9,000—In the Borough of Brooklyn the cost of lighting public buildings increased beyond the usual ratio during the year 1912, and the cost for that Borough in 1912 was $212,158.99. The Budget allowance is $216,000, and we are asking for $9,000 in addition.

Code No. 822, Lighting Public Buildings, Queens, $2,000—In the Borough of Queens an increase is also necessary over the $43,000 allowed in the Budget, to $45,000, the cost for 1912 being $42,145.27.

All of these requests for lighting public buildings are based on the actual figures of the cost of 1912, which we did not have at the time the Budget was made up last May.

Code No. 827, Power for City Departments, Queens, $2,000—In the Borough of Queens a number of sewage pumping stations are going into operation at the present time, and the amount mentioned will be required to defray the expense of same. The cost of power for city departments in Queens in 1912 was $2,472.95. The appropriation for 1913 is $3,000. We ask, therefore, that this be increased by $2,000.

Code No. 829, High Pressure Fire Service, Manhattan, $3,000—The Budget allowance for 1913 is $90,000. The appropriation for 1912 was $86,000, and the expenditures $89,502. This was due to the extension of the high pressure fire service to a larger territory during 1911 and 1912, and it is estimated that $3,000 more will be required during the year 1913.

Code No. 808, General Repairs, All Boroughs, $7,500—In this account for the year 1912, we expended $46,094.40. The appropriation for 1913 is $38,600. The expenditures for 1913 will hardly be less than for 1912, and we, therefore, request additional funds of $7,500.

Code No. 855, Hire of Automobiles, All Boroughs, $7,700—During the year 1912, the matter of furnishing small automobiles for the Chief Inspectors was discussed and apparently met the approbation of the Finance Department, on the grounds that a man could cover more territory and secure greater efficiency than he could with a horse and wagon. This proved true in the case of the General Inspectors, and request was made in the Budget to continue these appropriations. The funds had been derived from previous funds allowed for horses and wagons. In the Budget for 1913, however, the funds for the automobiles were cut out, but inadvertently the horses and wagons were not put back, and consequently our inspection service is materially crippled on account of the difficulty in getting around.

As a matter of fact, the cost of automobiles for the General Inspectors amounted to but little more than the cost of horses and wagons, and the increased convenience and saving of time in getting from place to place more than made up for the slight increase.

I would request, therefore, that an allowance be made of $7,700 for automobiles for seven (7) General Inspectors and five (5) Special Inspectors, whose work covers a large territory. This amount is based on eight months use of same, at an average price of $95 per month

No. 842. Hire of Horses and Vehicles without Drivers, $520—For the few horses and wagons that were allowed to the department in the last Budget, the appropriation did not cover the full year, and we would ask that an additional $520 be provided to keep these up throughout the balance of the year. This covers the use of two (2) equipments for four months each, at an average price of $65 per month.

The prices given here are average prices, because the prices for hire of horses and wagons and automobiles vary slightly with the service required, the borough in which they are obtained, and also vary with night and day use.

In the year 1910, in addition to our other duties, the Board of Estimate and Apportionment required by resolution that all specifications and plans covering electrical installations in the Greater City should be submitted to the Bureau of Gas and Electricity of this department for approval before being advertised and let. After this is done these installations must be inspected by this department and a report made to the Finance Department, either by certificate or by letter, that the work has been installed in accordance with the specifications and the Electrical Code. Since 1910 this work has been increasing very rapidly, and we have been unable to obtain through the Budget the necessary additional force with which to handle this work. It is work requiring engineering design and inspection of a highly technical character, and involves a great deal of responsibility. In many cases we not only have to check plans and specifications but also to design the wiring and lighting installations and write the specifications for them, at the request of other departments who are not familiar with these subjects.

We have reached the limit of the present force of the Bureau of Gas and Electricity, which can only handle between four and five hundred of these plans a year without great delay. The requests are coming to us at a rate which means a demand this year for the passage of about eight to nine hundred of these plans, with a force than can only handle a part of it. This is causing delay and great annoyance to the other departments, without mentioning the annoyance to this department and the excessive work required of its men. All this can be avoided if we can obtain the additional force listed below.

We request, therefore, revenue bonds aggregating $15,800 for additional men covering the remaining period of the year, which may be figured as the eight months following May 1st next.

685 Salaries, Regular Employees, Executive, $8,800:

1 Clerk at $1,200, for Chief Engineer of Light and Power	$800 00
1 Clerk at $900, for Assistant Chief Engineer of Light and Power	600 00
4 Clerks at $900, to be assigned to the Chief Inspectors of Illumination and Construction and Maintenance, and for checking, recording and forwarding the various plans and specifications from the time they are received and passing them through the department until they are returned to the department sending same	2,400 00
1 Stenographer and Typewriter at $900, for Supervising Inspector	600 00
1 Stenographer and Typewriter at $900, for Chief Inspector of Street Lighting	600 00
1 Stenographer and Typewriter at $900, for Chief Inspector of the Division of Construction and Maintenance	600 00
4 Inspectors at $1,200, for plan checking and inspection on electrical construction work, on plans and specifications submitted to this department	3,200 00
	$8,800 00

688 Salaries, Regular Employee, Inspection, $7,000:

4 Inspectors at $1,200, for desiging illumination and for inspection in the illumination division of the Bureau of Gas and Electricity. These men to design and pass on plans and specifications and further inspect the installation of same	$3,200 00
2 Inspectors at $1,200, for the same service in the Borough of Queens. Up to this date the work has been performed by one man. This work has grown very much in the Borough of Queens in the last year and the results obtained at present are highly unsatisfactory	1,600 00
2 Inspectors at $1,200, for work in the Borough of Brooklyn on the inspection of public buildings in that borough. Public buildings in Brooklyn are increasing quite rapidly. The present force of four men, including the General Inspector, is very much overworked, and cannot make the necessary inspections required to avoid delay in getting out plans and specifications and inspecting the work on installation	1,600 00
1 Typewriter Copyist at $900, to be assigned to the Illumination Division in the Borough of Manhattan, in order to handle the increased output of work that will be obtained, if the Inspectors above asked for in this division are allowed us	600 00
	$7,000 00
	$15,800 00

The department has cut down the requirements of the force in the above list to the utmost, and it seems a most uneconomical policy to require the Bureau of Gas and Electricity to do this work and yet refuse to give the men necessary to perform it. The present condition is practically intolerable. We have in our hands at present, for design, revision and approval, nearly 200 separate projects from the several departments in the City, involving electrical and gas work. To pass these out properly and see that they are correct as to engineering and economical design, means that they can only be taken up slowly, and there is now an unwarranted delay, for the sole reason that we have not sufficient men to do the work. As it is, the present forces are working overtime to handle the more pressing things now before us. The situation is one demanding immediate relief, and I particularly urge that this request for revenue bonds be given very careful and earnest consideration.

No. 688. Salaries, Regular Employees, Inspection, $665.33—In the Budgets for 1912 and 1913 I requested that three positions be created of Examiners for Moving Picture Operators. These operators have to be examined by this Bureau for their qualifications to handle the electrical portions of the work of displaying moving pictures. We asked for three positions—one Chief Examiner at $1,800 and two Examinging Inspectors at $1,500 each per year. In 1912 we were allowed three positions at $1,200 each, with an unassigned amount in the Budget of $1,200, which was to be assigned as part of the salary of these positions. The Board of Estimate and Apportionment objected to giving us the positions with the salaries as asked for, for the reason that we were not going to appoint new men to these positions, but were going to appoint Inspectors who had had great experience in this work in the department. In other words, while the position was new, because it was desired to put one of the present employees in the new position, we could not have it at the higher salary, as it might be construed as a promotion. But, if we desired a new and untried man, of whom we knew nothing, to go into this position, he could get this salary.

We claim, therefore, now, that these are new positions, technically, and should not be taken solely from the point of view of a promotion, but as a proposition to fill the new positions with the men best qualified to fill them. It would be ridiculous to suppose that the work of examining these operators and passing on their qualifications and, further, under the law, investigating their delinquencies and taking the cases to court, could be handled by other than carefully selected and experienced men. The temptations of the position are very great, and only men of known experience and tried integrity should be placed in such positions.

I would ask, therefore, for revenue bonds to pay the salaries of these positions at the point which was originally allowed by the Board of Estimate and Apportionment as reasonable, but, for the reasons given above were never made available by them. This sum for the remaining two-thirds of the year would be $665.33.

All the requests made above have been carefully worked out, examined and revised and are the minimum for the purposes desired.

With reference to the additional forces required and the establishment of the positions of Examiners of Moving Picture Operators at salaries commensurate with the work, I would say that these are matters which have been a growing necessity for two years and have been repeatedly asked for by this department. The lack of these forces and the delay in the work has now become well known throughout the City, and I would once more earnestly request that these proved and urgent needs of the department be filled as soon as possible.

It does not seem fair that my department and myself should be exposed to the criticism which now comes upon us for delay, when such delay is in no way our fault.

I am, very respectfully, HENRY S. THOMPSON, Commissioner.

Attached hereto is form of resolution submitted for your information, disposition and approval.

No. 238—Int. No. 3234.

The Committee on Finance to which was referred on April 1, 1913 (Minutes, page 4), the annexed request from the Justices of the Supreme Court, Brooklyn, asking for an issue of $39,000 special revenue bonds for changes in the Kings County Court House, respectfully

REPORTS:

That having examined the subject, it believes the proposed appropriation to be necessary. This issue is in connection with a corporate stock appropriation (Int. No. 3241) for the same purpose, and is divided in this manner by the advice of the Comptroller.

It, therefore, recommends that the accompanying resolution be adopted.

Resolved, That in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of thirty-nine thousand dollars ($39,000), the proceeds whereof to be used by the President of the Borough of Brooklyn for the purpose of making changes and alterations in the Kings County Court House. All obligations contracted for hereunder to be incurred on or before December 31, 1913.

Supreme Court of the State of New York, Brooklyn, N. Y., March 26, 1913.

To the Honorable the Board of Aldermen of The City of New York:

Gentlemen—The undersigned representing the Justices of the Supreme Court residing in Kings County, hereby respectfully request your honorable body to authorize pursuant to law the issuance of $39,000 of special revenue bonds for the purposes of making the changes in the Kings County Court House indicated in the communication of the Comptroller addressed to Mr. Justice Kapper, a copy of which communication is hereto annexed and made a part of this application. Respectfully,

ISAAC M. KAPPER, CHARLES H. KELBY, RUSSELL BENEDICT, Committee.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, March 24, 1913.

Hon. ISAAC M. KAPPER, Justice, Supreme Court, Brooklyn, New York:

Sir—The request signed by yourself, the Hon. Charles H. Kelby and the Hon. Russell Benedict for $150,000 corporate stock and special revenue bonds to repair the County Court House was referred to the Corporate Stock Budget Committee of which I am Chairman. I have had an investigation made by engineers to determine how much of the proposed work is chargeable to corporate stock and how much to revenue bonds. It is reported to me that that part of the work which can be regarded as a permanent improvement increasing the capacity of the building, and therefore properly chargeable to corporate stock will cost $111,000. I have had a report prepared recommending the authorization of this amount of corporate stock.

The Board of Estimate cannot take the initiative in a request for special revenue bonds and therefore it will be necessary for you to make a separate request to the Board of Aldermen. According to the report made to me it will cost $39,000 to

change the partitions and skylights on the third floor for the secretaries' and stenographers' rooms, to install a modern lighting system in place of the present system, to overhaul the ventilating and heating plant and to repaint and redecorate and do other work of repairs and replacements which cannot properly be charged to corporate stock. I suggest that you make request to the Board of Aldermen for $39,000, which, in addition to the corporate stock, will give you all that is necessary to make the changes and improvements. Yours truly,

WM. A. PRENDERGAST, Comptroller.

The Vice-Chairman put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

The Committee on Finance, to which was referred on April 1, 1913 (Minutes, page 5), the annexed resolution in favor of an issue of $676.50 special revenue bonds for increase in salaries of Steam Roller Engineers, Bureau of Highways, Borough of Queens, respectfully

REPORTS:

That an increase in such salaries having been duly allowed to meet the prevailing rate, it is unquestionably necessary to provide funds to cover same.

It, therefore, recommends that the said resolution be adopted.

Resolved, That, pursuant to the provisions of resolutions adopted by the Board of Estimate and Apportionment on March 6, 1913, the Comptroller is hereby authorized to issue special revenue bonds to an amount not exceeding six hundred and seventy-six and 50-100 dollars ($676.50), proceeds whereof to be expended by the President of the Borough of Queens, for the purpose of increasing the salaries of Steam Roller Engineers, Bureau of Highways, office of the President of the Borough of Queens, from $4.50 to $4.75 per diem.

All obligations contracted for hereunder to be incurred on or before December 31, 1913.

The Committee on Public Letting, to which was referred on February 4, 1913 (Minutes, page 449), the annexed request from the President of the Borough of The Bronx for authority to purchase an asphalt plant, without public letting, at a cost not to exceed $5,000, respectfully

REPORTS:

That, having examined the subject, it believes the proposed authorization to be necessary. The class of plant obtainable for this amount suitable for the work is limited, the committee is informed, to two makes, one made in Brooklyn, the other in Toledo, Ohio. It is proposed to make this purchase in Brooklyn, the expense being divided as follows: Machine $3,500, shed $8.00, bins $500. The committee believes the interests of the City will be conserved by a purchase without public letting, and recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the President of the Borough of The Bronx be and he is hereby authorized and empowered to purchase in the open market, without public letting, an asphalt plant for the uses of said borough at a total cost not to exceed five thousand dollars ($5,000).

City of New York, President of the Borough of The Bronx, 3d Avenue and 177th Street, Office of the President, March 12, 1913.

Hon. JOHN DIEMER, 43 Ellery Street, Brooklyn, N. Y.

Dear Sir—On January 29, 1913, I addressed a letter to the Honorable John Purroy Mitchel, President of the Board of Aldermen, requesting that your Board give me authority to purchase, without public letting, an asphalt plant, for which money had been appropriated by the Board of Estimate and Apportionment.

This matter was referred by your Board to a Committee, of which you are chairman.

In view of the fact that the season is now rapidly approaching, when we should have our forces busy repairing the pavements and making restorations over cuts made by public service corporations, it is especially urgent that we get out asphalt plant installed at the earliest possible moment.

There would be no objection on our part to purchasing this plant by public letting if it were practicable to do so. The difficulty lies in the fact that there are a great many asphalt plants on the market—a very few are good and a large number that are not suitable or adaptable to the work desired of them. We have examined asphalt plants in other cities, and have practically determined upon the type of plant that will best serve our purpose. This plant will cost approximately $3,500. The manufacturers (who, by the way, are Brooklyn people) advise us that it will require six weeks after the receipt of the order before the plant can be installed. You will therefore see that it is especially desirable that we get favorable action on the part of your Board and your committee at the earliest possible moment. Respectfully,

CYRUS C. MILLER, President.

Alderman Mulligan moved that this report and resolution be recommitted to the Committee on Public Letting.

Which motion was lost.

The Vice-Chairman then put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the negative by the following vote, two-thirds of all the members failing to vote in favor thereof.

Affirmative—Aldermen Becker, Bedell, Bolles, Boschen, Bosse, Brush, Curran, Diemer, Dotzler, Downing, Esterbrook, Folks, Hamilton, Herbst Igstaedter, Lieberman, Marks, Nicoll, Shipley, Stevenson, Weil, Wilmot and the Vice-Chairman—23.

Negative—Aldermen Eichhorn, Fink, Gilmore, McGrath and Mulligan—5.

It therefore recommends that the hereto attached substitute ordinance be adopted.

Brooklyn Teachers Association, William J. Morrison, President, Public School 73, 241 McDougall st., Brooklyn, New York, November 27, 1912.

Hon. ALFRED E. STEERS, Borough Hall, Brooklyn, N. Y.:

Dear Sir—We are all interested in honoring our heroes of Revolutionary War times. In Brooklyn, unfortunately, the misspellings of names mar the honor we would give. I refer to a few only. My school is located between two of the errors, and naturally, I dislike to err and perpetuate error. I present the following errors with the correct spellings of the names:

1. Sum(p)ter st., for Gen. Sumter.
2. McDougal st., for Gen. McDougall.
3. Sterling place, for Gen. Sterling.
4. Dean st., for Silas Deane.

This association is desirous of aiding in the correction of these mistakes. Will you kindly advise me whom we should consult in this matter?

To correct these errors, as well as some others, if any, it will be necessary:

1. To have the City authorities use the correct spellings on all new City maps and charts.
2. To have the City authorities use the correct spellings in all advertisements, contracts, orders, directions, etc.
3. To have directories print the correct spellings.
4. To have the telephone directory use the correct spellings.
5. To have the correct spellings placed on lamp posts, street signs, etc.

Kindly advise us how we may co-operate with the Borough authorities so that errors may be corrected, and true honor be given our heroes. Very respectfully,

WM. J. MORRISON.

REPORTS OF SPECIAL COMMITTEES RESUMED.

Report of Special Committee on Fourth of July Celebration, 1912—
No. 889 (G. O. No. 473).

To the Honorable Board of Aldermen:

Your Special Committee appointed to supervise the expenditure of money set aside for a Municipal celebration on July 4th, 1912, respectfully

REPORTS:

That it supervised the expenditure of the following sums for the purposes and in the Boroughs specified:

Fourth of July Celebration, 1912.

Fireworks, all Boroughs	$16,415 00
Music, all Boroughs	11,644 99
Medals, badges, buttons, etc., school celebration, athletics, etc	5,122 25
Electric illumination, lights, etc., Manhattan, The Bronx and Brooklyn	4,683 20
Decorations, flags, etc., Manhattan, The Bronx, Richmond and school celebrations	2,997 87
Printing, etc., Queens, Richmond, school celebration and athletics	2,229 80
Stands, etc., Manhattan, The Bronx, Queens and Richmond	485 00
Chairs, etc., Manhattan, Brooklyn and Richmond	57 00
Total	$43,635 11

—leaving a balance of $6,364.84 to be returned to the general fund.

Your Committee had general supervision of the entire expenditures and special direction of awarding the contracts for fireworks and illuminations. In awarding the contracts for fireworks the Committee pursued the following plan:

It received itemized bids from all dealers in fireworks in the vicinity and caused dummy samples to be furnished of each article to be used. The Committee decided to accept bids only from those firms having plants within the City limits and employing American labor. The contracts were awarded after careful examination by experts. Inspectors from the Comptroller's office sealed all shipments from the dealers before they left the premises and checked the same at the various receiving points. This procedure insured the receipt of the City of the exact fireworks contracted for and full value for every dollar expended.

The Committee believes that the various celebrations gave general satisfaction and were a proper and fitting recognition of Independence Day and that the avoidance in large measure of general disorder and casualties by which former unofficial demonstrations have been marred has justified the official regulation and observance of a "Safe and Sane Fourth."

The Committee was hampered by lack of time to make its necessary arrangements the fact that the appropriation did not become available until the 2d day of July. Should a similar celebration be contemplated for 1913, your Committee would earnestly urge an immediate appropriation, not only for the convenience of the Committee, but also for the reason that substantial economics might be accomplished in purchasing.

Your Committee desires to express the appreciation of the assistance rendered it by the offices of the Comptroller and Commissioners of Accounts and express its thanks to Messrs. Monroe, Withington and Mellick, the Committee appointed by the Comptroller to act with your Committee in considering the propriety of the proposed expenditures.

Your Committee having completed its duties respectfully requests its discharge.

JOHN A. BOLLES, NILES R. BECKER, JOHN DIEMER, W. AUGUSTUS SHIPLEY, JACOB J. VELTEN, CHARLES P. COLE, CHARLES DELANEY, FREDERICK H. WILMOT; Special Committee on Fourth of July Celebration.

Which was laid over.

MESSAGES FROM THE MAYOR, RESUMED.

The Vice-Chairman laid before the Board the following message from his Honor the Mayor:

No. 3457.

City of New York, Office of the Mayor, April 22, 1913.

To the Honorable, the Board of Aldermen:

After sending to your honorable body my communication of February 18th last concerning cab ordinances and cab service in this City, I appointed a commission of citizens to frame a proposed general cab ordinance to do away with existing evils in the cab service. I now send you the proposed cab ordinance drawn by the said Commission.

I trust that this matter may now be taken up and prosecuted to an early result.

We now have ordinances for two kinds of cabs and cabstands, one for special cabs and cabstands, and one for general cabs and cabstands. The former should be done away with. We should only have one general system of cabs and cabstands. All licensed cabs should have access to all cabstands, in their turn. As it is now the cabs licensed under the general ordinance are not permitted to deliver or receive passengers at many hotels and other public places. Only the cabs licensed under the special ordinance are permitted to do so, and for that privilege they pay the proprietors of these hotels and other public places. This should not be permitted to continue. It is an inconvenience to the public, and a discrimination which injures the cab service of the City. The City has the right to establish public cabstands at all of these places, without any compensation to the proprietors. Nevertheless under this special ordinance the proprietors are allowed to exact compensation from the cab owners for the use thereof. They are receiving in that way about $500,000 a year from the cab owners. The said special cab ordinance makes it possible for them to receive it.

For further consideration of the subject I refer you to my communication of February 18.

I shall be very glad to have this Commission continued to assist your honorable body in this matter.

W. J. GAYNOR, Mayor.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

Article I.

Title, Definitions and Applications.

1. Title.—This ordinance shall be known as the Public Hack Ordinance and shall apply to vehicles as enumerated in this Article.

2. Definitions.—A public hack is a vehicle plying for hire and which solicits public patronage upon the streets and highways of this City.

A coach is a public hack so designed and constructed as to comfortably seat, in the opinion of the Chief of the Mayor's Bureau of Licenses, four or more persons as passengers inside thereof.

A sightseeing car is a motor-driven vehicle carrying seven or more persons from a fixed locality to points of interest about the City.

A taximeter is a mechanical instrument or device by which the charge for hire of a public hack is mechanically calculated, either for distance traveled or for waiting time, or for both, and upon which such charge shall be indicated by means of figures.

A cab driven by mechanical power on which a taximeter is affixed shall be known as "a little taxicab."

A taxicab is a coach driven by mechanical power on which a taximeter is affixed.

This ordinance shall not apply to or govern any vehicle hired or obtained from a livery stable or garage and which does not solicit patronage upon the streets; nor to any omnibus running by authority of any ordinance, law, charter or permit upon a fixed route through the city.

Article II.

Such license shall be issued as of February 1, and shall expire on the 31st day of January next succeeding of each and every year hereafter unless sooner suspended or revoked by the Mayor or the Chief of the Bureau of Licenses.

2. Applications for licenses for public hacks shall be made by the owner upon blank forms to be furnished by the Bureau of Licenses, and such applications shall contain the full name and address of the owner, the class of the vehicle for which the license is desired, the length of time the vehicle has been in use, the number of persons it is capable of carrying, and, if a motor-driven vehicle, the motor power thereof.

It shall be the duty of the said Chief of the Bureau of Licenses to make, or to have made by his lawful deputies, such examination and inspection before issuing a license. It shall be the duty of such Chief of the Bureau of Licenses to refuse a license to, or if already issued, revoke or suspend the license of, any vehicle found to be in bad repair, or of sorry appearance, or otherwise unfit or unsuited for public patronage.

4. It shall be the duty of the said Chief of the Mayor's Bureau of Licenses to examine any taximeter attached to any public hack and to see that the same is accurate before issuing a license to such public hack.

6. If, upon inspection, the vehicle is found to be of proper character and in proper condition in accordance with the provisions of this ordinance, and the rules and regulations so established, and upon payment of the license fees hereinafter set forth, the same shall be licensed by delivering to the owner a card of such size and form as may be approved by the Mayor, which card shall contain the official license number of the hack so licensed, together with the date of inspection of the same, and a statement to the effect that, in case of any complaint, the Chief of the Mayor's License Bureau shall be notified, giving the license number of the cab; and such card shall be signed by the Chief of the Mayor's Bureau of Licenses or by a duly authorized deputy. Such card, suitably framed to protect it from injury, shall be affixed by the owner to such conspicuous place in the interior of the public hack as shall be designated by the Chief of the Mayor's Bureau of Licenses or his said deputy. Such cards shall contain blank spaces upon which an entry shall be made of the date of every inspection of such vehicle by the Inspector who makes such inspection.

Such cards shall be changed annually. They shall be of a distinctly different color each year, and in the case of public hacks driven by mechanical power the license number assigned hereunder shall in each case be the same as that assigned to the same vehicle by the Secretary of State of the State of New York for that year pursuant to law.

7. At the same time there shall also be affixed to a conspicuous and indispensable part of each public hack, by the Chief of the Mayor's Bureau of Licenses or his deputy by him duly authorized, a small plate not exceeding six inches in diameter which shall bear the license number of the vehicle. The design of such plates shall be changed annually.

11. Every public hack driven by mechanical power, seating four passengers or less, shall have affixed thereto a taximeter of a size and design approved by the Chief of the Mayor's Bureau of Licenses for use upon public hacks. No license shall be issued to a public hack with a taximeter attached thereto until the same shall have been inspected and found to be accurate, and no person shall use or permit to be used upon any public hack a taximeter which shall be in such condition as to be over five per cent. incorrect to the prejudice of any passenger under a penalty of fifty dollars for each and every offense.

12. After sundown the face of every taximeter shall be illuminated by a suitable light so arranged as to throw a continuous steady light upon the face thereof. A violation of this provision shall render the offender liable, upon conviction before a City Magistrate, to a fine not exceeding ten dollars, or in default of payment thereof to imprisonment in the City Prison for a period not exceeding ten days.

13. No taximeter affixed to a public hack propelled by steam, gasolene, electricity, or other motor power, shall be operated from any wheel to which the power is applied, under penalty of revocation of the license of said vehicle, and a fine of $25.

It shall be the duty of the Chief of the Bureau of Licenses, through his deputies and inspectors, to maintain constant vigilance over all public hacks licensed under this ordinance, to see that all such vehicles are kept in a condition of continued fitness for public use, and to this end it shall be the duty of the said Chief of the Bureau of Licenses, through his deputies and inspectors, as well as the duty of the Police Department, to inspect all public hacks from time to time, or on the complaint of any citizen, or as often as may be necessary. A report in writing of all inspections shall promptly be made to the Chief of the Bureau of Licenses. Licenses when so suspended or revoked shall not be reissued until the

public vehicle and all its appurtenances shall be put into fit condition for use by the public, to the satisfaction of the Chief of the Mayor's Bureau of Licenses and until any fine imposed hereunder shall be paid.

ARTICLE IV.

(d) He must not be addicted to the use of intoxicating liquors.

(e) He must produce, on forms to be provided by the Chief of the Mayor's Bureau of Licenses for that purpose, sworn testimonials of good character from two reputable citizens of the City of New York who have known him personally and observed his conduct during one year next preceding the date of his application, and a further testimonial on a form provided for that purpose from his last employer, unless in the estimation of the Chief of the Mayor's Bureau of Licenses sufficent reason is given for its omission.

(f) He must fill out upon a blank form to be provided by the Mayor's Bureau of Licenses for that purpose a statement giving his full name, residence, places of residence for five years previous to moving to his present address, age, color, height, color of eyes and hair, place of birth, length of time he has resided in the City, places of previous employment, whether married or single, whether he has ever been convicted of a felony or a midemeanor, whether he has been summoned to court, whether he has previously been licensed as a driver or chauffeur, and if so whether his license has ever been revoked, and for what cause, which statement shall be signed by the applicant in writing and sworn to and filed in the office of the Chief of the Bureau of Licenses as a permanent record of that office. Any false statement made by applicant for a license will be punishable by a fine of $25, and a record of such false statement sent by the Chief of the Bureau of Licenses to the District Attorney of the county in which the application was made.

(g) Such applicant for a license must if required by the Bureau of Licenses, in order to demonstrate his skill and ability to safely handle his vehicle, drive the vehicle through a crowded section of the City accompanied by an Inspector of the Bureau of Licenses.

(h) Each applicant shall be examined by the Mayor's Bureau of Licenses as to his knowledge of the provisions of this ordinance, the police traffic regulations, and of the geography of the City of New York, and if the result of the examination be unsatisfactory he shall be refused a license.

(i) Each such applicant for a driver's license must file with his application two recent photographs of himself of a size which may be easily attached to his license, one of which photographs shall be attached to such license when issued, the other photograph to be filed with the application in the Bureau of Licenses. The photograph of the licensee shall be attached to the license in such a way that it cannot be removed and another photograph substituted without detection. Each licensed driver shall upon demand of an inspector of licenses, a policeman, or passenger exhibit his license and photograph for inspection. In such instances where the application for a license is denied, the photograph shall be returned to the applicant by the Bureau of Licenses.

3. The Chief of the Mayor's Bureau of Licenses is hereby authorized and empowered to provide forms for applicants for drivers' licenses hereunder, and he may establish reasonable rules and regulations governing the issue of drivers' licenses not inconsistent herewith.

4. Upon satisfactory fulfillment of the conditions herein established, the applicant shall be licensed by delivering to him a license which shall be in such form as to contain a photograph of the licensee, the licensee's signature, and shall contain blank spaces upon which a record may be made of any arrest of the driver or serious complaint against him. Any licensee who defaces, removes or obliterates any entry made in these blank spaces upon his license shall be punished by the revocation of his license. There shall also be delivered to each licensee a metal badge, of such form and style as the Mayor shall approve, with his license number thereon, which must, under penalty of revocation of the license, be constantly conspicuously displayed on the outside of the driver's coat when said driver is engaged in his employment. The Mayor's Bureau of Licenses shall keep a complete record of each license issued to a driver, all renewals, suspensions and revocations thereof, which record shall be kept on file with the original application of the driver for a license.

5. Drivers' licenses shall be issued as of February 1 in each and every year, and shall be valid to and including the 31st day of January next succeeding. The Chief of the Mayor's Bureau of Licenses or his deputy may renew same from year to year by noting the fact of such renewal on the licenses.

6. A driver in applying for a renewal of his license under this ordinance can make such application upon a form to be furnished by the License Bureau entitled "Application for Renewal of License," this blank to be filled out with the full name and address of the applicant for such renewal, together with a statement of the date upon which his original license was granted and the number thereof.

The following license fees shall be paid for drivers' licenses:

For each original license	$1 00
For each renewal thereof	50

Any person now holding a public driver's license under the provisions of any former ordinance or regulation shall be entitled to have the proportion of his fee for his unexpired licenses apply in payment of the original license issued under this ordinance.

7. Drivers' licenses may be suspended or revoked at any time by the Mayor, the Chief of the Bureau of Licenses or any City Magistrate. The fact of such suspension shall be noted on the license, together with a statement of the reasons therefor, and the driver shall be deprived of his badge by the official suspending or rvoking such license. When the license is suspended or revoked by an official other than the Chief of the Mayor's Bureau of Licenses, the driver's badge and a note of the revocation or suspension shall be forthwith forwarded to him; the badge to be returned at the expiration of the period for which the license was suspended. A second suspension for the same reason, or in any case a third suspension of a driver's license, shall revoke the license. No driver whose license has been revoked shall again be licensed as a public hack driver in The City of New York. Whenever a license is suspended or revoked by a City Magistrate notice of such revocation, with the cause thereof, shall be forwarded to the Chief of the Bureau of Licenses. It shall also be the duty of the Chief of the Bureau of Licenses to notify the Police Department whenever a license is revoked.

8. Any person not having been duly licensed as a public hack driver, or any person whose license as such driver has been revoked, or any person whose license has been suspended and who during the time of such suspension, drives for hire a public hack upon the streets or highways of The City of New York, shall upon conviction before any City Magistrate be punished by a fine of not over $50 or imprisonment for a term not exceeding thirty days, or both.

Article V.

Hack Stands.

1. All public hack stands heretofore designated by this Board are hereby abolished.

2. All special hack stands are hereby abolished and licenses for the same shall not be issued hereafter.

3. The Mayor is hereby authorized to locate and designate as public hack stands the space alongside the curb adjacent to property used as public parks, public buildings, railroad stations, steamship and ferry landings, hotels, restaurants, theatres, and the centre of any street or avenue where the roadway, exclusive of the sidewalk, is 30 feet in width or more.

4. The Mayor may also designate the space beside the curb adjacent to subway entrances and elevated railway steps as stands for a limited number of public hacks. The Mayor shall further designate the number of such public hacks that shall be allowed to stand at any of the places designated by him, and the Bureau of Licenses shall prepare a metal sign, which shall be attached to a post or stanchion adjacent to the said stand, and on which sign shall be placed the number and kind of vehicles that will be allowed on that particular hack stand.

5. Owners of any property may apply to the Mayor for the establishment of a public hack stand adjacent to their premises, stating in said application the number of public hacks they desire to come on said stand, and also the kind of locomotion to be used, whether gasoline, electric motor or horses. Such application shall be granted solely in the discretion of the Mayor, and may be revoked by him at any time. There shall be delivered to the owner of the property making such application a metal sign to be affixed to a stanchion on the curb or other conspicuous place, setting forth the kinds of public hacks and the number thereof that will be allowed on said stand.

6. The Mayor may not establish a public hack stand in the centre of any street opposite to the premises where the owner has applied for and received the permit last above mentioned, during the time that said permit is in operation.

7. No public hack shall stand at any hack stand located and designated by the Mayor in accordance with section 3 of this article, adjacent to the curb of the sidewalk, within 15 feet of the entrance to any building erected on the property adjacent to the said hack stand. The said 15 feet shall be determined by measuring 15 feet on each side of a point on the curb opposite the middle of the entrance to the adjacent building. No hack shall stand within 5 feet of any cross-walk.

8. Only public hacks in such numbers and of such kinds as are set forth on the metal sign may remain at the stand while waiting for employment; and only in single file, pointed in accordance with the traffic regulations. No public hack standing at the head of any such line shall refuse to carry any orderly person applying for a hack, who agrees to pay the proper rate of fare; but this shall not prevent any person from selecting any hack he may desire on the stand whether it be at the head of the line or not. As the hacks leave the line with passengers, those behind shall move up, and any public hack seeking a space on the stand shall only approach the same from the rear end of the stand and move up as far as possible to the last cab already on the line.

9. The Mayor may suspend, for not more than 90 days, the license of any public hack driver who shall violate the above provisions by standing in front of the entrance of any building within the prohibited space after his passengers desiring to leave have alighted, or who shall attempt to stand in said prohibited space waiting for passengers, or who shall violate any of the other provisions of this section.

PUBLIC NOTICE IS HEREBY GIVEN THAT at a meeting of the Board of Estimate and Apportionment, held March 27, 1913, the following petition was received:

APPLICATION FOR LEAVE TO SURRENDER FRANCHISE.

To the Honorable the Board of Estimate and Apportionment of The City of New York:

Sirs—Electric Protection Company of New York (hereinafter called the Protection Company) respectfully petitions as follows:

(1) The Protection Company is a corporation duly organized under the Transportation Corporations Law of the State of New York.

(2) By a contract dated March 1, 1911, the City of New York granted to the Protection Company a certain franchise and entered into a certain contract with the Protection Company, whereof copies are hereto annexed and are hereby referred to as if fully incorporated in this petition.

(3) By section 2, paragraph second, of said franchise and contract, it was provided that the Protection Company should pay annually upon each first day of November, a stated percentage of its gross earnings for the year ended on the September 30th preceding each such first day of November, and that if such percentage of such gross earnings should not equal the sum of $1,200, then the Protection Company should pay the minimum sum of $1,200 per year.

(4) As a security deposit to protect the City of New York in such annual payments the Protection Company deposited with the Comptroller $5,000 in accepted securities, which deposit still remains in the hands of said Comptroller.

(5) The Protection Company has not yet commenced to avail itself in any respect whatsoever of the privileges to it granted under said franchise and contract, and has so reported to the Comptroller of the City of New York for the years ended respectively September 30, 1911, and September 30, 1912.

(6) The said minimum annual payment due November 1, 1912, not having been paid, the Comptroller, as provided by said franchise and contract, served upon the Protection Company a notice that at the expiration of ten (10) days thereafter he would cause the said payment to be made out of said security deposit. Said notice terminates and becomes effective at the opening of business on March 17, 1913.

(7) The Protection Company finds itself unable to use the privileges and benefits of its said franchise and contract and desires to surrender the same. The Protection Company has made diligent efforts to assure itself of business sufficient to justify it in using the franchise and contract and the privileges thereunder, but has not been able to secure sufficient business to warrant it in embarking upon the development of the enterprise in furtherance of which said franchise and contract were granted.

(8) The Protection Company has no subscribers for the use of its proposed service, so that the termination of its franchise will not result in embarrassment or inconvenience to third parties; and no competing companies have been deprived of the right to furnish a similar service by reason of the franchise granted to the Protection Company.

(9) Inasmuch as under the terms of said contract a large sum of money, to wit, $5,000, was paid by the Protection Company to said City of New York as a consideration for the granting of said franchise, and at the date of the granting thereof; and inasmuch as the further sum of $1,200 was paid to said City on or about November 1, 1911, being the minimum annual payment for the first year of said franchise; and inasmuch as the Protection Company has made no use whatever of said franchise and contract, nor of any of the privileges and benefits granted thereunder, nor has the Protection Company in any manner whatever imposed any burden or enjoyed any easement upon, in or under the streets of said City by virtue of said franchise and contract or otherwise howsoever, the Protection Company respectfully submits that it is justly entitled to surrender said franchise and contract, absolving the City of New York from all liability whatsoever to the Protection Company thereunder, and in return therefor should be repaid in the sum of $5,000, being the amount of said security deposit.

The Protection Company therefore respectfully prays:

(a) That it be permitted to surrender irrevocably the said franchise and contract dated March 1, 1911.

(b) That, upon the consummation of such surrender of said franchise and contract, the City of New York repay to the Protection Company the sum of $5,000 now on deposit with the Comptroller of the City of New York or such part thereof as may seem just and equitable.

Dated New York, March 17, 1913.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of $50, the sum of $50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding and The City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beamholes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids, and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.
