PETITIONS AND COMMUNICATIONS.

No. 689.

To the Honorable SETH LOW, Mayor of The City of New York, and the Honorable Board of Aldermen of The City of New York:

Honorable and Dear Sirs—We, the undersigned petitioners, residents and property-owners and taxpayers of the Fourteenth and Fifteenth Wards of the Borough of Brooklyn, City of New York, respectfully request the revocation of all permits for the explosion of fireworks in the said wards, and further request the withholding of your consent to the further suspension of the ordinance prohibiting the explosion of fireworks, on the ground that the same is a nuisance, dangerous to life, limb and property in this action. A great majority of the dwelling houses and factories are frame structures, some of which are very old and easily ignited, particularly by the explosion of skyrockets, bombs and balloons, which are discharged in great numbers and in a most reckless manner. Certain societies in these wards, from time to time, procure a suspension of said ordinance for the purpose of celebrating certain feast days. The suspension of said ordinance increases the rate of insurance and puts the property owners in said wards to the expense of hiring people to watch their buildings to prevent fire, and it is respectfully submitted that a fire from falling sparks would with certainty demolish nearly this entire section.

It is not the desire of the undersigned to in any way curtail or interfere with the celebration of the feast days of any body of citizens in said wards, only in so far as the same, by the discharge of fireworks, endangers the life, limb and property in this vicinity.

This request is of vast importance, particularly to the property-owners in said-mentioned districts, and we sincerely trust that the Honorable Mayor and the Board of Aldermen will recognize the necessity of withholding their consent to any further suspension of said ordinance, and trust that any and all permits now in operation allowing the use of fireworks as aforesaid be revoked forthwith.

COMMUNICATIONS FROM CITY, COUNTY AND BOROUGH OFFICERS.

The President laid before the Board the following communication from the Rapid Transit Railroad Commission.

No. 690.

The Board of Rapid Transit Railroad Commissioners,
Chief Engineer's Office,
No. 320 Broadway,
New York, June 2, 1902.

P. J. SCULLY, Esq., City Clerk, City Hall, New York:

My Dear Sir—I am requested by President Haffen, of the Borough of The Bronx, to explain to you the proposed change of line of the Rapid Transit Railroad near Bergen avenue on Westchester avenue.

The present route is laid out to pass from One Hundred and Forty-ninth street by a sharp reversed curve into Westchester avenue, and as soon as it reaches Westchester

avenue to begin to emerge by an open cut and then by a fill between the retaining walls, so as to become an elevated structure at Brook avenue, closing Bergen avenue.

With the present width of Westchester avenue, after the cut and fill are made in the centre of the street, and the trolley tracks moved outward so as to permit the cut and fill to be made, there will not be room enough for vehicles to pass comfortably between the sides of the trolley cars and the curb. The Rapid Transit Board, therefore, recommended to the Board of Aldermen that the sidewalks should be narrowed from 20 feet to 12 feet, thus widening the roadway 8 feet on either side of the trolley tracks. This will permit the line to be carried out according to the present route. On the other hand, a number of the property owners have petitioned the Board to change the route to continue straight across Third avenue, remaining under Bergen avenue, so as not to close it, and then by an easy curve across private property between One Hundred and Forty-ninth street and Westchester avenue, as above. This would close no streets and not interfere with any existing street traffic. The Board would have adopted this had it not been that the cost of right-of-way across the private property seemed to be extravagantly high, and, therefore, the Board requested the Board of Aldermen to widen the sidewalks on Westchester avenue.

Very truly yours,

WM. BARCLAY PARSONS,
Chief Engineer.

Which was referred to the Committee on Bridges and Tunnels.

The President laid before the Board the following communication from the Corporation Counsel:

No. 691.

Law Department, Office of the Corporation Counsel.
New York, June 9, 1902.

The Board of Aldermen:

Gentlemen—I am in receipt of the resolution adopted by your honorable Board on May 27, 1902, requesting me to inform you at my earliest convenience "by what authority the Metropolitan Express Company operates express vans and cars on the tracks of the Metropolitan Street Railway Company, in the Borough of Manhattan."

The Metropolitan Street Railway Company was organized under the General Railroad Law of the State of New York.

In *De Grauw vs. The Long Island Electric Railroad Company*, 43 N. Y., App. Div., 502, it is distinctly held that street surface railroad corporations organized under the General Railroad Law (Laws of 1890, chapter 565), section 90 of which authorized their incorporation for the conveyance of persons and property in cars for compensation, may operate cars designed and used exclusively for carrying express matter, freight or property. This decision was affirmed without opinion by the Court of Appeals, 163 N. Y., 597.

Under these decisions it cannot be successfully maintained that the operation of express vans and cars on the tracks of the Metropolitan Street Railway Company is without authority or unlawful.

Respectfully yours,

G. L. RIVES, Corporation Counsel.

Report of Committee on Finance—

No. 665—(G. O. No. 94).

The Committee on Finance, to whom was referred, on June 3, 1902 (Minutes, page 480), the annexed resolution and ordinance in favor of providing for an issue of Corporate Stock in the sum of two hundred thousand dollars, the proceeds to be used for the construction and equipment of the Borough Building in the Borough of Richmond, respectfully

REPORT:

That, having examined the subject, they find the facts to be as follows:

At present the City, Borough and County offices in the Borough of Richmond are much separated. The President of the Borough is forced to have his office as President in one building, whereas the offices of the various departments under his jurisdiction are compelled to be in another building, distant not less than a mile from his.

This causes delay in the City's work, as well as inconvenience to officials and the public. The converging point in the Borough of Richmond is St. George, where the ferries land and the railroads terminate. It is proposed to erect a municipal building there. At present the City owns a plot conveniently situated in St. George, near the ferry, located on Stuyvesant, Wall and Jay streets, containing 27.6 City lots, and purchased at a cost of \$65,418.12 for the Board of Education, for the purposes of a high school. While it would be well situated for the purposes of a borough building, it is not well situated for the purposes of a high school. It is near the railroad terminals; it is near the trolley tracks, and it has been practically determined that the Board of Education will not use the property, but that it will be returned to the Sinking Fund Commissioners for disposition, and that they will make it available as a site for a borough building in the Borough of Richmond, if the appropriation is forthcoming. There is little argument needed to show the advantages of having the City's work done in one office building. Such an arrangement will be a convenience and economy of time to both the City and the public.

The proposed expenditure will, however, also be an economy over future necessary expenditures. The Comptroller's engineers have estimated that the cost of a borough building of fire-proof construction, and furnishing 36,000 square feet, will be \$200,000 for the building, completely equipped with all modern appliances for heating, lighting and the construction of vaults. This will include everything except furnishing. The City, on April 30, was paying for 18,139 square feet of office space \$10,960 in rents. The Tax Department desires 5,000 square feet additional. There must be provision made for a topographical office in the near future, and the drafting space is inadequate for the present needs of the Bureaus of Highways and Sewers. At the present prices necessary for renting premises in the Borough of Richmond, there is needed at least an additional \$2,000 for present needs, which will make a total paid for rentals of about \$13,000. The cost of the new building, with the land upon which to erect it, will be not over \$266,000. It is evident that the City can pay its rate of interest on that amount and provide a sinking fund for considerably less than the total necessary rents will amount to, and that in so doing it will also provide space for future needs.

Your Committee accordingly recommend that the said resolution and ordinance be adopted.

AN ORDINANCE providing for an issue of Corporate Stock in the sum of two hundred thousand dollars (\$200,000), the proceeds to be used for the construction and equipment of the Borough Building in the Borough of Richmond.

Be it Ordained by the Board of Aldermen of The City of New York, as follows:

Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution, adopted by the Board of Estimate and Apportionment May 23, 1902, authorizing the Comptroller to issue Corporate Stock of The City of New York to the amount and for the purposes therein specified:

"Resolved, That, pursuant to the provisions of section 47 of the amended Greater New York Charter, the Board of Estimate and Apportionment hereby approves of the issue of bonds to an amount not exceeding two hundred thousand dollars (\$200,000), for the purpose of providing means for the construction and equipment of the Borough Building in the Borough of Richmond, and that when authority shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue Corporate Stock of The City of New York in the manner provided by section 169 of the amended Greater New York Charter to an amount not exceeding two hundred thousand dollars (\$200,000), the proceeds whereof to be applied to the purpose aforesaid."

No. 711.

Offices of the Central Federated Union, (Amalgamated Central Labor Union and Central Labor Federation), University Settlement Building, 184 Eldridge street, corner Rivington Street, New York, June 1, 1902.

Hon M. J. Kennedy:

Dear Sir:—This body would thank you if you will give the enclosed your careful consideration and call the attention of the Board of Aldermen to the same at their next session.

Thanking you in advance for the favor we consider as already granted.

We are yours truly,

J. J. PALLAS, Corresponding Secretary.

Whereas, The widespread and continuous scandal arising out of the reckless and flagrant abuse of the privilege of office by Philip Cowen, Supervisor of the City Record, inasmuch that he contracted for printing necessary for The City of New York with a firm of printers in the City of Grand Rapids, State of Michigan, amounting to \$7,000, while a large number of our citizen printers are unemployed, for whose relief the printers of New York City tax themselves seven hundred dollars per week and over.

In consequence of such impudent violation of the practice and promise of Home Rule for this City, and the earnest desire to preserve the present City Government from the consequent embarrassment and entanglements that will surely arise attendant upon the vicious exercise of prerogative by the present Supervisor of the City Record, be it therefore,

Resolved, That this body in regular meeting assembled, in the desire to protect their fellow workmen from such abuse of power in the future, and in order to protect ourselves from such reckless want of consideration for the taxpayers of this City, demand that an example be made of the said Supervisor of the City Record by his immediate dismissal; and, be it further

Resolved, That the Board of Aldermen of this City be requested to indorse the above mentioned complaint, and earnestly recommend the punishment and instant dismissal as a just and salutary example to all the heads of the other departments in control of the management of this City; and, it was further

Resolved, To condemn The Record Supervisor's action for overlooking the interest of the taxpayers of New York and for sending a contract for printing into another State, thereby lowering the prestige of the City, and still worse, gave it to a firm of non-union printers.

Resolved, That a copy be furnished Alderman Kennedy to be introduced to the notice of the Aldermen.

Attest: J. J. PALLAS, Corresponding Secretary.

Which was referred to the Committee on Public Printing.

No. 712.

Alderman Goodman asked for and obtained unanimous consent to introduce the following:

Whereas, The Board disapproves the awarding of a contract for city printing to any concern outside of the city limits, and believes that municipal work of every kind and character, that can be, should be done by those who are residents of and voters within its territory; and

Whereas, This Board also feels that there is cause for a decided and unmistakable expression of opinion on this important matter, as above set forth, and that the action of his Honor the Mayor in introducing a resolution limiting the awarding of contracts hereafter to city printers has our unqualified approval; nevertheless

Resolved, That the resolutions now pending which were adopted by the Central Federated Union be and the same are hereby referred to the Committee on Printing, with instructions to investigate the entire matter involved, to report fully thereon at an early day, after giving all the parties interested an opportunity to be heard, in order that whatever action we may take will be free from even the suspicion of partisanship, prejudice or passion, but, on the contrary, will be an exemplification of calm and deliberate consideration followed by a prudent, just and unbiased decision.

Which was referred to the Committee on Public Printing.

Alderman John T. McCall moved that the Committee on Public Printing be discharged from further consideration of the resolution offered by Alderman Kennedy.

The President put the question whether the Board would agree with said motion.

Which was decided in the negative by the following vote, three-fourths of all the members present failing to vote in favor thereof.

Affirmative—Aldermen Alt, Baldwin, Bennett, Bill, Brenner, Bridges, Chambers, Coggey, Culkin, Devlin, Dickinson, Dietz, Doull, Foley, Gaffney, Gillen, Harburger, Harnischferger, Higgins, Keely, Kennedy, Kenney, John T. McCALL, McCarthy, Malone, Marks, Metzger, Owens, Porges, Richter, Schappert, Sullivan, Twomey, Wafer, Whitaker, President Cassidy, Borough of Queens; President Haffen, Borough of The Bronx—38.

No. 733.

By Alderman Meyers—

The following communication from the Corporation Counsel was read:

Law Department—Office of the Corporation Counsel,
New York, April 4, 1902.

To the Board of Estimate and Apportionment:

Sirs—I am in receipt of a communication from your Secretary dated March 25, 1902, asking my advice as to the authority of your Board to remit the penalty for overtime charged against Patrick G. Hannan under his contract for constructing a sewer in Longfellow street, Borough of The Bronx, and asking my advice at the same time as to the procedure to be observed in the matter. The President of the Borough of The Bronx in a report dated March 21, 1902, states that the Chief Engineer in charge of sewers reported that Mr. Hannan had exceeded his contract time and allowance by sixty-four and one-half days. The Chief Engineer recommended the remission of this overtime on three separate grounds set forth in his report.

The only provision of the Charter which relates at all directly to the question raised by your Secretary is contained in section 418 and is as follows:

"It shall not be lawful for the Board of Aldermen to release any contractor with the City or with any of the departments, boards, bueraus or officers thereof from any fine or penalty incurred under his contract, save upon the unanimous recommendation of the Board of Estimate and Apportionment. And it shall not be lawful for the Board of Aldermen to extend the time for the performance of any such contract save upon the unanimous recommendation of the Board of Estimate and Apportionment."

Neither the Municipal Assembly nor its successor has adopted any resolution or ordinance prescribing the procedure to be followed in order to bring before the former Board of Public Improvement (in whom was vested by section 424 of the last Charter the power now vested in the Board of Estimate and Apportionment by section 418 of the present Charter) or before your Board the question of remitting a charge for "overtime." This charge is ordinarily regulated and defined by the liquidated damage clause contained in the usual City contract.

Section 354 of the revised ordinances of the former Mayor, Aldermen and Commonalty of The City of New York requires the insertion in City contracts of the time within which the work thereunder is to be completed, and section 356 vests in the head of Department having jurisdiction of the contract the power to extend the contractor's time so fixed for completing such work. These sections are still in force by virtue of section 41 of the Charter.

I think the Legislature intended by section 418 of the Charter above quoted to give the Board of Estimate and Apportionment authority to recommend to the Board of Aldermen, but only by unanimous vote, the remission of a charge against a contractor for overtime. Final action, however, rests with the Board of Aldermen. But it does not necessarily follow that the question of remitting overtime rests exclusively with the Board of Aldermen. The head of the Department having jurisdiction over a contract has power, under section 356 of the Revised Ordinances, to extend a contractor's time so as virtually to remit or forgive any charge against him for overtime. I think the underlying motive for the enactment of section 418 of the Charter was to provide for an appeal from the refusal of a head of Department to remit overtime and to guard against hasty or ill-considered action on the part of the Board of Aldermen upon such an appeal.

Section 418 of the Charter, therefore, may be deemed to permit an appeal to the Board of Estimate and Apportionment by a contractor who feels aggrieved at the refusal of a head of a department to extend his time for completing work under his contract so as to avoid a charge of overtime against him. While no procedure whereunder the matter may be brought to the attention of the Board of Estimate and Apportionment has been prescribed either by the Charter or ordinance of the Board of Aldermen, yet this omission does not prevent the Board from acting upon an application presented by a contractor. I think such an application may be presented to the Board either directly by a contractor or through the head of department having jurisdiction over the contract. In either case, the Board should cause an investigation to be made of the matter, and naturally this investigation would take the form of requesting a report upon the application by the head of department and his subordinate or subordinates in immediate charge of the work. The Board could, in its discretion, grant a hearing to the contractor upon the application. It would generally be advisable for it so to do. Upon consideration of the matter, if the Board should conclude that the application should be granted, it should, by resolution, unanimously adopted, recommend to the Board of Aldermen the remission of the overtime. This recommendation could take substantially the following form:

"Resolved, That the Board of Estimate and Apportionment unanimously recom-

mends to the Board of Aldermen that the penalty or liquidated damages for overtime incurred by _____ under his contract, dated _____, for _____ be remitted, and that the said _____ be released therefrom."

On the other hand, if the Board should, upon consideration conclude not to make such recommendation, an appropriate resolution could be adopted. In any case, the contractor and the head of department should be informed of the action of the Board, and a careful minute should be made, showing such action in sufficient detail, especially where a hearing may have been granted to the contractor. The documents and other papers which the Board may have had before it when considering the application should be included in the minutes, so that a complete record may be kept in like manner as other proceedings of the Board are preserved.

Respectfully yours,

G. L. RIVES, Corporation Counsel.

The President of the Borough of The Bronx offered the following resolution, which was adopted:

Resolved, That all matters now pending before the Board looking to the remission of penalty for overtime be referred back for further examination and report to the heads of departments concerned.

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen, President of the Borough of Manhattan, President of the Borough of Brooklyn, President of the Borough of The Bronx, President of the Borough of Queens and President of the Borough of Richmond—16.

AQUEDUCT COMMISSION.

Minutes of Stated Meeting of the Aqueduct Commissioners, held at their Office, No. 207 Stewart Building, on Tuesday, May 20, 1902, at 2 o'clock p. m.

Present—The Comptroller (Hon. Edward M. Grout), and Commissioners Ten Eyck (President), Ryan, Power and Windolph.

The minutes of meetings of May 13 and 14, 1902, were read and approved.

By Commissioner Windolph—

Resolved, That the following bills for State, County and Town taxes for the year 1901 on property taken in fee by The City of New York for the construction of the New Croton Reservoir are hereby approved and ordered certified to the Comptroller for payment, viz.:

Town of Cortlandt, Westchester County, N. Y..... \$593 24

Town of North Salem, Westchester County, N. Y..... 980 56

Which was adopted by the following vote:

Affirmative—The Comptroller, Commissioners Ten Eyck, Ryan, Power and Windolph—5.

The Committee of Finance and Audit reported the examination and audit of bills contained in Vouchers Nos. 14,550 to 14,556, inclusive, amounting to \$1,699.51.

Which were approved and ordered certified to the Comptroller for payment by the following vote:

Affirmative—The Comptroller, Commissioners Ten Eyck, Ryan, Power and Windolph—5.

The Comptroller presented a report, dated May 19, 1902, in connection with the application made to the Aqueduct Commissioners by the New York Telephone Company, under date of March 20, 1902, for permission to erect and maintain telegraph and telephone wires and poles along the line of, and abutting property owned by The City of New York and under the control of the Aqueduct Commissioners in the vicinity of Pine's Bridge, N. Y., as more fully set forth in said petition, the subject matter of which was referred to the Comptroller on April 29, 1902, which report was read.

Whereupon, on motion of the Comptroller, the Secretary was directed to prepare, for presentation to the Commissioners at the next stated meeting, resolutions granting the permission requested by the New York Telephone Company, subject, however, to the suggestions and recommendations contained in the report of the Comptroller, dated May 19, 1902, above referred to, and also the report (No. 359) of the Chief Engineer of the Aqueduct Commission, being dated April 8, 1902.

The Comptroller also presented a communication, dated May 19, 1902, being in relation to Estimates Nos. 8, 9, 10 and 11 in favor of Williams & Gerstle, contractors, for work done by them on the Muscote Dam during the months of January, February, March and April, 1902.

In connection therewith Commissioner Ryan called up the application of Williams & Gerstle, dated May 10, 1902, for an extension of time until November, 1903, in which to complete the contract for building the Muscote Dam, which was laid over at the previous stated meeting.

Whereupon, after discussion, on motion of the Comptroller, the matter was laid over.

A communication was received from the Acting Chief Engineer (Report No. 371), dated May 20, 1902, stating that he did not think it would be advisable to rent parcels of land known as Nos. 106 and 106½ to George Palmer, of Croton Lake, N. Y., for \$15 for the season.

On motion of Commissioner Ryan Report No. 371 was approved and ordered filed.

The following communication was received from the Acting Chief Engineer:

REPORT No. 372.

NEW YORK, May 16, 1902.

To the Aqueduct Commissioners:

GENTLEMEN—In reporting on the complaint of Clarence McCord, Croton Lake, N. Y., dated May 1, 1902, and referred to the Acting Chief Engineer May 6, 1902, I would say that, owing to the boundary line fences of the taking for the New Croton Reservoir not having yet been constructed, it is possible for stray cattle along the present highways and along the new highways under construction to encroach or trespass upon the McCord or other land in the valley.

The Division Engineer reports that hitherto everything has been done to satisfy McCord and to remove all cause for complaints, and that the contractors, who are responsible for breaking through the fences along the right-of-way of the new construction, having been notified to protect the adjoining property, in not only the McCord case, but in others, and the Division Engineer believes that during the coming season they will have no cause for further complaint.

I have directed the Division Engineer to see that the contractors repair and protect adjoining property by necessary gates or bars, so that there may be no damage caused, which damage, if done, would come against the contractor directly and indirectly against the City, and I think myself that everything will be protected so that Mr. McCord will have no reason for complaint hereafter. However, the Division Engineer reports that this is the first that he has heard of dissatisfaction from McCord.

This brings to your attention the question as to what will be your policy or desire in relation to fencing in the City's property on the New Croton Dam Division.

Very respectfully,

F. S. COOK, Acting Chief Engineer.

On motion of Commissioner Power Report No. 372 was laid over.

A communication was also received from the Acting Chief Engineer (Report No. 373), dated May 29, 1902, stating that he had caused to be issued in the "Westchester News" and the "Westchester County Reporter" the resolution adopted by the Aqueduct Commissioners May 14, 1902, setting forth the policy of the Aqueduct Commission concerning the removal of bodies, tombstones, etc., in cemeteries or burying grounds acquired by The City of New York under chapter 490 of the Laws of 1883, etc.

Which was ordered filed.

The following communication was also received from the Acting Chief Engineer:

REPORT No. 374.

NEW YORK, May 20, 1902.

To the Aqueduct Commissioners:

GENTLEMEN—In reporting on the petition of the property-owners and residents and those interested in traveling over the new highways in the New Croton Reservoir basin, which was referred to me for report, I most respectfully report that all of these new roads are designed and are to be built without a layer of broken stone, as proposed by the petitioners. Should you deem it wise to order this layer of broken stone suggested by said petitioners it will cost The City of New York a large additional amount over what is now proposed to expend; this amount would doubtless be between \$30,000 and \$60,000, depending on the way it is done. Therefore, it is a question for the Aqueduct Commissioners to decide whether it should be done or not.

The new highways now being constructed and those to be constructed hereafter are not to be turned over for the use of the public until such time as they are completed, or until the time when the reservoir is to be filled and it is made necessary to allow the public to use said new roads.

It is the policy of the Chief Engineer, and it is being done, to fill up all soft or muddy places as they occur, and doubtless within the next two years these new roads will become hard and much superior to the present old roads used by the public.

Very respectfully,

F. S. COOK, Acting Chief Engineer.

On motion of Commissioner Ryan, the above report (No. 374), was laid over.

A circular letter was received from the Mayor, dated May 13, 1902, in relation to annual report to be submitted on or before December 1st next.

On motion of Commissioner Ryan, the matter was laid over.

The following circular letter was also received from the Mayor:

Aqueduct Commissioners, 280 Broadway, New York:

SIRS—It has been called to my attention that old material which is sold from time to time by one Department, may frequently be made of use in some other Department of the city. Recently, for example, some horses which had ceased to be serviceable to the Street Cleaning Department were found to be useful to the Board of Health. The object of this circular is to ask you, whenever you are about to make a sale of old material of any kind which is of no further use to your own Department, before doing so to notify the other Departments by circular what you propose to sell. Whenever such material is desired by any other Department it can doubtless be made easy to transfer it to such Department for its use.

Respectfully,

SETH LOW, Mayor.

On motion of Commissioner Ryan, the Secretary was directed to comply therewith.

Communications were received from R. J. Hammond, No. 1597 Third avenue, City; C. C. McKeever, No. 1701 Madison avenue, City, dated May 16 and May 15, 1902, respectively, and from Richard Weeks, Croton Falls, N. Y., making inquiries concerning the removal of bodies interred in lands acquired under chapter 490, Laws of 1883.

On motion of Commissioner Windolph the same were referred to the Acting Chief Engineer.

The Secretary presented a communication from the Merchants' Association of New York, dated May 15, 1902, requesting certain information in relation to the Jerome Park Reservoir and the New Croton Dam.

On motion of Commissioner Power, the Secretary was directed to furnish the information requested.

The Secretary verbally stated that, in accordance with the direction of the Commissioners at the previous stated meeting, he had transmitted to the contractors of the Jerome Park Reservoir copy of resolution adopted May 13, 1902, requesting said contractors to state what would be the net additional cost of inserting the eight-hour clause in the contract for building said reservoir, and to also give all the items which go to make up such net additional cost.

A communication was received from the Secretary of the Municipal Civil Service Commission, dated May 19, 1902, stating that said Commission had considered the application of the Aqueduct Commissioners to have the position of Secretary to the President placed in the exempt class, and that said application had been denied.

Which was ordered filed.

The Commissioners then adjourned.

HARRY W. WALKER, Secretary.

FRIDAY, JUNE 20, 1902,

until 12 o'clock noon, for the right to dump and fill in at West One Hundred and Forty-ninth street and at West One Hundred and Fiftieth street, Harlem river, in the Borough of Manhattan, as follows:

Conditions of the right to dump and fill in at West One Hundred and Forty-ninth street and West One Hundred and Fiftieth street, Harlem river, in the Borough of Manhattan.

At West One Hundred and Forty-ninth street, Harlem river:

Extending from the end of the present filling, which is about 150 feet west of the easterly side of Seventh avenue, easterly or outshore, about 280 feet. Estimated amount, 5,500 cubic yards.

At West One Hundred and Fiftieth street, Harlem river:

Extending from the end of the present filling, which is about 150 feet east of the easterly side of Seventh avenue, easterly or outshore, about 120 feet. Estimated amount, 2,000 cubic yards.

The grade in each case will be the same as it is at present end of the filling, and will be tied at ten feet above Mean Low Water at its outshore end, and will be placed so that the foot of the bank on 1 to 1 slopes will not extend outside of the outside lines of the streets.

Filling shall be commenced within five days after receipt of notification from the Engineer that the work or any part of it is ready to be begun, and shall be carried on to the satisfaction of the Engineer.

If at any time during the progress of the work it shall be deemed necessary to order the suspension of the whole or any part of the filling, the purchaser shall immediately stop and not commence the filling until ordered so to do.

The privilege to fill in the said described area will be sold to the highest bidder, but the Commissioner reserves the right to reject all bids if deemed for the interest of the City so to do. One-half the purchase price for such right or privilege must be paid at the time of award of privilege, and the remaining half when one-half of the work of filling in has been completed.

In case the purchaser at any time does not proceed with the work of filling in to the satisfaction of the Commissioner of Docks, the said Commissioner will at once revoke the privilege of filling in and have the remainder of the filling in done by other parties in such a way as he deems proper.

The purchaser will be required to furnish a bond in double the amount of the purchase price as security for the satisfactory performance of the said work, in accordance with the terms and conditions hereof.

Dated, THE CITY OF NEW YORK, June 6, 1902.

McDOUGALL HAWKES, Commissioner of Docks.

DEPARTMENT OF DOCKS AND FERRIES, PIER "A," FOOT OF BATTERY PLACE, BOROUGH OF MANHATTAN, THE CITY OF NEW YORK.

SEALED BIDS OR ESTIMATES WILL BE received by the Commissioner of Docks at Pier "A," Battery place, in The City of New York, on

FRIDAY, JUNE 20, 1902.

until 12 o'clock noon, for the right to dump and fill in behind the crib bulkhead recently built along Lexington avenue and One Hundred and Thirty-second street, on the westerly side of the Harlem river, between said crib work and the upland banks within the lines of said streets.

Conditions of the right to dump and fill in on westerly side of Harlem river, between Lexington avenue and One Hundred and Thirty-second street, in the Borough of Manhattan.

The filling will be put in to a height of about five feet or less above mean high water mark over the above described area.

The privilege to fill in the said described area will be sold to the highest bidder, but the Commissioner reserves the right to reject all bids if deemed for the interest of the City so to do. One-half the purchase price for such right or privilege must be paid at the time of award of privilege, and the remaining half when one-half of the work of filling in has been completed.

The total estimated quantity to be filled in is about 16,500 cubic yards, more or less. This total estimated quantity is approximate only and is estimated without allowance for sinkage or settlement below the mud line. The Department is not bound in any way by such estimate and bidders must satisfy themselves of the actual quantity required to fill in the above described area by examination of the premises or such other means as they may prefer. The intention of the Department being to fill in the whole of the said premises behind the crib bulkhead to the westerly line of Lexington avenue and to the southerly line of One Hundred and Thirty-second street, and no allowance will be made to the purchaser from the purchase money on account of any discrepancy which may be found between the above estimated quantity and the actual amount of filling required. The purchaser will be required to place the filling in accordance with the specifications:

All the filling shall be placed directly in the rear of the crib and carried from the crib toward the shore until the bank of same has been carried out at the finished grade for a distance of about 40 feet from the face of the crib, at which time if so directed by the Engineer, the filling may be commenced from the shore toward the crib.

Owing to the fact that a portion of the crib work has already shown a movement, and that it is likely that it will settle further to some extent, the work of filling in will have to be conducted with much care, and for that reason the purchaser will estimate upon being delayed on the work, which it is not expected will be carried on continuously to completion from the time it is commenced.

All material must be dumped and filled in only in such manner, at such points and in such order of procedure and at such times and seasons as may from time to time be directed and the work of filling in may be entirely suspended for such periods of time as may be directed. The purchaser shall have no claim for damage or for any allowance from the purchase money on account of such suspension of the work.

All directions shall be given by the Engineer, and wherever the word Engineer is used in these specifications it refers to and designates the Engineer-in-Chief of the Department of Docks and Feries, or such officer or employee as may be designated by him.

No filling shall be placed directly on the top of the crib until all the remainder of the filling is done, unless specially so directed by the Engineer.

All the filling except as otherwise specified herein shall be of ashes, cellar dirt, broken stone, etc., entirely free from garbage or any other organic matter objectionable in the opinion of the Engineer.

No piece of rip rap stone coming directly on or against the crib work shall be greater than about three feet in its largest dimension and must be deposited carefully in such manner as will not injure the crib work.

At any section of the crib the filling shall be brought up level with the under side of the backing log of the crib at such section and no higher unless otherwise directed.

The filling shall be commenced within five days after the date of the receipt of a notification from the Engineer that the work or any part of it is ready to be begun and shall be completed on or before November 1, 1902. If at any time during the progress of the work it shall be deemed necessary to order the suspension of the whole or any part of the filling, the time for completing said filling shall be extended so much as it may have been delayed by such suspension.

The purchaser shall, during the work of filling in and at all times until the completion thereof, take all necessary precautions and place proper guards for the prevention of accidents, and put up and maintain at night sufficient lights, and he shall indemnify and save harmless The City of New York from all damages and costs to which it may be put by reason of injury to the person or property of another resulting from negligence or carelessness in the performance of the work or guarding the same.

In case the purchaser at any time does not proceed with the work of filling in to the satisfaction of the Commissioner of Docks, the said Commissioner will at once terminate the privilege of filling in and proceed to have the remainder of the filling in done by other parties in such way and manner as he deems proper.

The purchaser will be required to furnish a bond in double the amount of the purchase price, as security for the satisfactory performance of the said work, in accordance with the terms and conditions hereof.

Dated, THE CITY OF NEW YORK, June 6, 1902.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the board of aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by The City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the department for which the work is to be done.
