#### 74-145 Bus stations

The City Planning Commission may permit bus stations listed under Use Group IV(B) with fewer than 10 berths pursuant to paragraph (a) of this Section, and with 10 or more berths pursuant to paragraph (b) or paragraph (c), as applicable.

All bus stations lawfully existing on December 15, 1961 are permitted to continue for the duration of the term for which such #use# has been authorized but the #enlargement#, #extension#, reconstruction or relocation of any bus station heretofore or hereafter constructed shall not be permitted except in accordance with the provisions set forth in this Section.

(a) In C1, C2, C4, C6, C7 or C8 Districts, or in any #Manufacturing District#, the Commission may permit bus stations with fewer than 10 berths for buses on a site of not less than 20,000 square feet, provided that the following findings are made:

\* \* \*

(b) In C4, C6 or #Manufacturing Districts#, the Commission may permit the construction of a bus station with 10 or more berths for buses on a site of not less than 20,000 square feet, provided that the following findings are made:

\* \* \*

In addition, the Commission shall require the provision of adequate #accessory# off-street parking spaces necessary to prevent the creation of traffic congestion caused by the curb parking of vehicles generated by such #use# and shall determine the required spaces in accordance with the purposes established in this Resolution with respect to other major traffic-generating facilities. The Commission shall require, in any event, no less than 20 spaces for the temporary parking of automobiles.

(c) In any #Commercial District# or #Manufacturing District#, located within Community District 4 in the Borough of Manhattan, the Commission may permit the construction of a bus station with 10 or more berths for buses on a site of any size.

In conjunction with a permit for a bus station, when the air space above a #street# or portion thereof is closed, demapped and conveyed by the City to the owner of an adjoining #zoning lot# that will contain such bus station, the Commission may permit in such demapped air space the #development# or #enlargement# of a #building# or portion thereof which is part of such bus station. Additionally, the Commission may permit the modification of any applicable regulations of this Resolution, other than #floor area ratio# provisions, in connection with such bus station or any other #use# #developed# on the same #zoning lot# as such bus station.

In order to grant such a permit, the Commission shall determine that the conditions set forth in paragraph (c)(1) and the findings set forth in paragraphs (c)(2) and (c)(3) of this Section, as applicable, are met.

Where the bus station and related facilities allowed under this Section will be #developed# pursuant to Chapter 8 of Title 17 of the Unconsolidated Laws of New York, any #buildings or other structures# comprising such bus station and related facilities shall not be subject to the #bulk# regulations or other applicable regulations of this Resolution, and the floor space within such #buildings or other structures# shall be excluded from the calculation of #floor area#.

The curb level of a zoning lot of which the demapped air space is a part shall not be affected by the closing and demapping of air space above such street. However, the Commission may establish an appropriate level or levels instead of curb level as the reference plane for the applicable regulations relating to open space, yards, level of yards, equivalent rear yards, rear yard setback, minimum distance between buildings, and height and setback.

(1) Conditions

Where the #development# or #enlargement# of a #building# is allowed within one or more demapped air spaces pursuant to this Section, such demapped air spaces and any adjoining tracts of land containing such #building# may be considered as part of a single #zoning lot#, but such demapped air spaces shall not generate #floor area# to be utilized on such #zoning lot#.

(2) Findings applicable to bus station #use#

In order to allow such bus station #use#, the Commission shall find that:

- <u>(i)</u> the operation of such bus station does not create serious traffic congestion, and is not detrimental to public health or general welfare of the city;
- the principal access for such #use# is not located on a <u>(ii)</u> local #street# but is located either on an arterial highway, a major #street# or a secondary #street# within onequarter mile of an arterial highway or major #street#;
- (iii) the site plan for the bus station and related facilities includes pedestrian-oriented public spaces that, in their sizes and locations, reflect appropriate consideration of existing or planned at-grade pedestrian circulation networks;
- the design of the facility, including public entrances <u>(iv)</u> to the bus station, vehicular entrances and exits, bus ramps or overpasses, and accessory #uses# within the bus station and related facilities are sited and designed in a manner that reflects appropriate consideration of the civic importance of the site and of the experience of pedestrians within existing or planned #streets# or open
- the locations of at-grade entrances to such bus station <u>(v)</u> and related facilities are designed to encourage pedestrian circulation into and on the #zoning lot# and are well-situated in relation to existing and proposed atgrade pedestrian and bicycle circulation networks;
- the bus station provides adequate connections to and <u>(vi)</u> from existing transportation facilities;
- the bus station and surrounding transportation network accommodate projected bus volumes and reduces (vii) potential conflicts between buses and other modes of transportation in the surrounding area; and
- (viii) the #use# and #development# of the bus station will not have undue adverse impacts on the character of or land uses in the surrounding area.
- Findings applicable to modifications other than those allowing the bus station #use#

In order to modify any other applicable regulations of this Resolution, the Commission shall find that:

- such modifications will facilitate an improved site plan <u>(i)</u> for the bus station and related facilities or are otherwise in furtherance of the bus station project;
- such modifications will not unduly obstruct access to (ii) light and air from surrounding #streets#, open areas and properties; and
- any proposed modification of regulations governing #zoning lots# divided by district boundaries or the permitted transfer of #floor area# will not unduly increase the #bulk# of any #development# or (iii) #enlargement# on the #zoning lot# or the intensity of #use# on any #block# to the detriment of occupants of #building # = 10 milding # = 10 m #buildings# on the #block# or the surrounding area.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

#### HHS ACCELERATOR PREQUALIFICATION

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York ("PPB Rules"), vendors must first complete and submit an electronic HHS Accelerator Prequalification Application using the City's PASSPort system. The PASSPort system is a webbased system maintained by the City of New York for use by its Mayoral Agencies to manage procurement. Important business information collected in the Prequalification Application is required every three years. Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete. Prequalification applications will be reviewed to validate compliance with corporate filings and organizational capacity. Approved organizations will be eligible to compete and would submit electronic proposals through the PASSPort system. The PASSPort Public Portal, which lists all RFPs, including HHS RFPs that require HHS Accelerator Prequalification, may be viewed, at https://passport. cityofnewyork.us/page.aspx/en/rfp/request\_browse\_public

All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding. ## THE CITY OF NEW YORK - OFFICE OF MANAGEMENT AND BUDGET COMMUNITY DEVELOPMENT BLOCK GRANT-DISASTER RECOVERY PROGRAM

#### NOTICE OF INTENT TO REQUEST RELEASE OF FUNDS

NYC Mayor's Office of Management and Budget (NYC OMB) 255 Greenwich Street, 8th Floor New York, NY 10007 (212) 788-6130

On or about September 9, 2024, the City of New York ("the City") will submit a request to the U.S. Department of Housing and Urban Development for the release of Community Development Block Grant-Disaster Recovery (CDBG-DR) funds authorized under the Community Development Act of 1974, as amended, and the Continuing Appropriations Act, 2023 (Public Law 117-180), to undertake a project known as NYCHA Green Infrastructure for the purpose of managing stormwater runoff across seventeen (17) New York City Housing Authority ("NYCHA")-owned developments. The funds will be requested for two (2) of these sites (GI Sites):

- 1. Lafayette Gardens
- 2. Pomonok Houses

The City proposes to award funds to the NYCHA, which will procure a contractor to install green infrastructure at the GI Sites as part of the NYCHA Green Infrastructure project. The GI Sites will include a total of eight (8) assets. These include sub-surface slow-release detention chambers, which will temporarily store rainwater below ground and then release it slowly into the combined sewer after the storm has passed and capacity has returned, and retention chambers, which are designed to collect rain and channel it to below-ground natural aquifers.

The green infrastructure practices in this project are all located in parking lots or other open spaces on NYCHA properties. Excavation is required to install subsurface chambers and reconstruct catch basins and outlet control structures that are reconnected to existing sewer pipes. Once installation and reconstruction are complete, the area will be backfilled, resurfaced, and restored to its pre-existing condition;

features at or above ground level will be replaced in kind. For each green infrastructure practice, the sewer's capacity is fixed.

The primary addresses of the of the GI Sites locations include:

- Lafayette Gardens 387 Lafayette Avenue, Brooklyn, NY 11205
- Pomonok Houses 67-10 Parsons Boulevard, Fresh Meadows, NY 11365

The activities proposed are categorically excluded under HUD regulations at 24 CFR Part 58 from National Environmental Policy Act (NEPA) requirements. An Environmental Review Record (ERR) that documents the environmental determinations for this project will be made available to the public for review either electronically or by U.S. mail. Please submit your request by U.S. mail to Julie Freeman, Senior Assistant Director, New York City Office of Management and Budget, at 255 Greenwich Street, 8th Floor, New York, NY 10007, or by email to CDBGComments@omb.nyc.gov.

#### PUBLIC COMMENTS

Any individual, group, or agency may submit written comments on the ERR to the New York City Office of Management and Budget (NYC OMB) at the above address or via email to CDBGComments@omb.nyc. gov. All comments received by September 8, 2024 will be considered by NYC OMB prior to authorizing submission of a request for release of funds.

#### ENVIRONMENTAL CERTIFICATION

NYC OMB certifies to HUD that the City and Julie Freeman, in her capacity as Certifying Officer of the City's CDBG-DR Program, consents to accept the jurisdiction of the Federal Courts if an action is brought to enforce responsibilities in relation to the environmental review process and that these responsibilities have been satisfied. HUD's approval of the certification satisfies its responsibilities under NEPA and related laws and authorities and allows the City to use CDBG-DR Program funds.
