To the Board of Street Opening and Improvement of the City of New York:

Dated May 19, 1887.

Respectfully,
CARROLL BERRY, Secretary.

The Secretary reported that he had transmitted to the Department of Public Parks, to the Department of Public Works and to the Law Department copies of resolutions adopted by the Board on the 11th inst., referring various matters to these Departments.

The Sub-Committee, to whom was referred the matter of the proposed widening and extension of Elm street, submitted the following report:

NEW YORK, May 19, 1887.

The Sub-Committee, consisting of the Commissioner of Public Works, the President of the Department of Public Parks and the President of the Board of Aldermen, to whom, at the meeting held March 16, 1887, was referred back for further consideration, the matter of the proposed widening and extension of Elm street, with directions to report to the Board as to the advisability of extending Centre street to Fourth avenue in preference to Elm street, and if they advise the extension and widening of Elm street, to report their suggestions as to the termination of the southerly end of the proposed improvement, beg, respectfully, to report that they do not consider it advisable to extend Centre street to Fourth avenue in preference to Elm street, and that they do advise the extension and widening of Elm street on the lines and with the grades laid down on the map submitted, and that the southerly end of the proposed improvement be as shown on this map in blue lines.

The grade recommended by your Committee is indicated on the accompanying map by red line.

JOHN NEWTON, Commissioner D. P. W.
M. C. D. BORDEN, President D. P. P.
HENRY R. BEEKMAN, President Board of Aldermen.

Which was accepted, ordered on file and directed to be printed in full in the minutes.

Mr. Gilbert M. Speir, appeared before the Board and argued in opposition to the proposed improvement and asked for an adjournment to enable the property-owners opposed to the improvement to prepare their objections.

Upon motion, the further hearing upon this subject was adjourned to Friday, May 27, 1887, at 2 o'clock P. M.

The following report from the Department of Public Parks was presented and read by the Secretary:

CITY OF NEW YORK—DEPARTMENT OF PUBLIC PARKS,
COMMISSIONERS' OFFICE, NOS. 49 AND 51 CHAMBERS STREET,
May 17, 1887.

CARROLL BERRY, Esq., Secretary Board of Street Opening and Improvement:

SIR—Yours of 14th instant, enclosing petition of John H. Eden and others, for laying out a new street to be called "Davidson avenue," in the Twenty-fourth Ward, which petition was referred to this Department for an expression of its views in regard thereto, together with two maps showing the proposed street, is received.

In response thereto I am directed to state that the petitioners are the owners of the plot of land bounded on all sides by streets, avenues or roads and not laid out as and for a public place, and desire to sub-divide said plot and give public right of way into or through the same; and that the two maps, plans or surveys of said plot and of such proposed right of way show the proposed width of said street to be fifty feet; and that the location, extent and direction of the same, and the proposed grades thereof, are such as may properly be approved. It is therefore thought advisable to approve the maps and to grant the prayer of the petitioners.

The petition and maps referred to are herewith returned.

Yours respectfully,

CHARLES DE F. BURNS, Secretary Department of Public Parks.

Filed.

Which was, upon motion of the President of the Department of Public Parks, adopted by the following vote:

To the Board of Street Openings:

GENTLEMEN—Enclosed please find diagrams of property I have for sale.

Yours very respectfully,
H. J. SEAMAN.

The following communication from Abraham L. Jacobs upon the proposed widening and extension of Elm street was read and filed:

To the Honorable the Board of Street Opening and Improvement of the City of New York:

GENTLEMEN—Absence from the city at the time appointed for the meeting of your Board in the matter of the widening and extension of Elm street, prevents me from attending personally, in support of this proposed improvement.

After so much has been said and written about this matter, it is doubtful whether anything new can be added. However your Board may view the improvement, the city at large and the property-owners along and adjacent to the line have evinced the due appreciation of the great benefits to be derived from such an improvement, and I can safely say, from an active canvass among many people of the different classes, that there is an universal desire that the contemplated extension and improvement shall be consummated.

The only obstacle comes from those who selfishly object on account of the expense which will attach in the first instance. There is no question that the city labors under the greatest disadvantages for lack of thoroughfares for the greatly increased and constantly growing traffic, and it is only a question of a short time when we will be compelled to adopt such a course as is here contended for, or suffer irreparable loss and injury to our commerce and comfort. The improvement can now be made with comparative economy in view of the many old and worthless buildings along the route. Their destruction and the improvement will invite enterprise and capital, and will result in the erection of new and substantial structures, and make a second Broadway of the street.

In addition to this, the matter should be viewed from a broader and more liberal aspect. Our streets and avenues running north and south are constantly blocked with traffic, rendering them generally impassable; this evil is constantly increasing and I submit it is the first duty of the city to supply such facilities for the future development as may be necessary. Of the necessity of this improvement there is not the slightest doubt, and it should be consummated without delay and with the broad and intelligent spirit and liberality which ought to characterize the metropolis. The time has come for our city to realize how dangerous this want of enterprise has become to us, how important it is for us to keep pace with the growth of our commerce and its extensions in all directions; and that any indifference or neglect in immediately recognizing and adopting the needful improvements must cause lasting injury to the welfare of the city. We are all intensely interested in and proud of our city and feel that no false economy should be the cause of retarding our natural development.

Our city, especially down-town, is not what it was when the streets were laid out as they now are. The facilities for inter-mural travel are based upon an ancient plan and one entirely inadequate to our growth. We have not kept time with the changes which have occurred; and, as a necessary result, are now confronted with a most serious question; that is, whether we shall by continuing in our past lack of enterprise retard our progress, or by improving our facilities and condition by the proper action, encourage and receive the development which depend upon such improvements as the one now contemplated. It is a matter of common talk that while private capital and enterprise are ready to awaken the most distant points of the city and reconstruct such other portions as are available, the city fails to appreciate the fact, and in many instances discourages much which would largely benefit the city. Such a condition of affairs ought to, and I trust sincerely, will soon cease.

I have not spent any time upon the several selfish objections raised from time to time—they have all been fully met. A matter as vital as this one is to the City's immediate and future interests, should outweigh all objections, in view of the general and permanent good; and I respectfully submit your Honorable Board should recommend the proposed improvement.

In behalf of H. C. Stetson.

The Comptroller presented the following communication:

SIEGMUND T. MEYER & SON, REAL ESTATE,
No. 43 NEW STREET,
NEW YORK, May 13, 1887.

Hon. EDWARD V. LOEW, Comptroller of the City of New York:

DEAR SIR—We beg to enclose diagram of a block of ground located between Thirty-third and Thirty-fourth streets, Lexington and Park avenues, in this city, comprising thirty-four lots, 25 by 100 each, which we think admirably located and well adapted for a City park. Since the recent act relating to City parks has been approved and signed by the Governor we take pleasure in bringing this property to your notice, and if it is considered favorable for the purposes of said act, we shall be pleased to sell at a reasonable figure and receive payment in long City 3 per cent. Bonds.

Yours, very respectfully,
SIEGMUND T. MEYER & SONS.

Which was ordered on file.

The following petition of property-owners was presented and read, and upon motion, referred to the Department of Public Parks, with a request for an expression of the views of the said Department upon the petition:

To the Board of Street Opening and Improvement:

We, the undersigned, owners, at least of three-fourths of the linear feet of frontage on the street or avenue hereinafter described, respectfully petition your Honorable Board that the street or avenue in the Twenty-fourth Ward of the City of New York, shown on the maps on file in the office of the Department of Public Parks as being west of Sedgwick avenue and intersecting same at or near Morris Dock, and extending northward about 4,300 feet, and there intersecting another street or avenue at a point south of the old Fordham Landing road and north of the division line between lands late of Oswald Cammann and lands now of Alfred J. The Mayor presented the following communication from the Department of Public Works:

DEPARTMENT OF PUBLIC WORKS—COMMISSIONER'S OFFICE,
No. 31 CHAMBERS STREET,
NEW YORK, January 26, 1887.

Hon. ABRAM S. HEWITT, Mayor and Chairman Board of Street Opening and Improvement:

SIR—With a letter from Mr. Carroll Berry, Secretary of the Board of Street Opening and Improvement, was transmitted to me a list of the matters pending before the Board on October 21, 1886, for my examination and report. I now have the honor to submit the following report:

Opening West Fifty-fourth Street, from Tenth Avenue to the Bulkhead Line.

This street is graded, paved and sewered between Tenth and Eleventh avenues. West of Eleventh avenue there are no public or private improvements. I deem it necessary that the City acquire title to the street, not only between Tenth and Eleventh avenues, where it is already improved and used as a public thoroughfare, but westerly therefrom to the bulkhead line, so that it may at any future time be improved and used as an approach to the river front.

Opening West Fifty-second Street, from Eleventh Avenue to the Hudson River.

This street is graded and paved, and although not legally opened, has been used as a public highway for a long time. For sanitary reasons it may soon become necessary to build a sewer in the street. Under these circumstances, I deem it proper that proceedings for the legal opening of the street be consummated as speedily as practicable.

Improvement of One Hundred and Fifty-fifth Street, Between Eighth and Ninth Avenues.

This street is now legally opened, and is being regulated and graded from Eighth avenue to the new avenue west of Eighth avenue, on an easy or nearly level grade. From the new avenue to Ninth avenue, however, the grade as now established shows a rise of eighty-seven feet in three hundred and eighty feet. This is altogether impracticable for a carriageway. If the street is to be used as a carriageway its course would have to be changed to a serpentine roadway in order to obtain a grade which would be available for wagon traffic. If it is to be used for pedestrian travel only, it can, on the present grade, be made available for that purpose by the construction of a course of steps or stairways and terraces. In either case legislation would be required to authorize the change in the course of construction of the street.

De Forest Property, Between One Hundred and Fortieth and One Hundred and Forty-fifth Streets, Tenth and St. Nicholas Avenues.

I am informed that Mr. De Forest is now grading the streets and avenues shown on the plan submitted to your Board by this Department in March, 1884, and that he proposes to cede or dedicate such streets or avenues to public use. I recommend that Mr. De Forest be requested to present to the Board in writing his wishes and intentions in the matter, and that, if he is satisfied with the plan presented by the Department in March, 1884, and desires to cede the several streets and avenues for public use, your Board take the necessary action to place said streets and avenues on the map of the city, and request the Counsel to the Corporation to perform the necessary legal services for the cede of the streets.

Opening Ninety-ninth Street, between Third and Fourth Avenues.

In respect to the opening of this street, the steps now necessary to be taken are the application of your Board for the appointment of Commissioners of Estimate and Assessment, and, in case such application be made, the preparation of the necessary maps and description of land for the proceeding. I deem it proper that such proceedings be taken as early as practicable.

Opening One Hundred and Twenty-fifth Street, from the Boulevard to Claremont Avenue; Claremont Avenue, from One Hundred and Twenty-fifth Street to One Hundred and Twenty-third Street, and One Hundred and Twenty-third Street, from Claremont Avenue to Riverside Drive.

From the records in this Department, it appears that Claremont Avenue is already opened according to law, from One Hundred and Sixteenth street to One Hundred and Twenty-sixth street. In the case of the portions of One Hundred and Twenty-third and One Hundred and Twenty-fifth streets, included in this matter, the several city lots affected thereby now have frontage on the avenues already opened, and there is no immediate necessity for opening these streets for the purposes of sewerage or for public travel. Under these circumstances, it appears to me that proceedings for opening the streets should not be begun unless applied for by the owners of a majority of the property fronting thereon.

Opening One Hundred and Seventy-ninth and One Hundred and Eightieth Streets, between Tenth Avenue and Kingsbridge Road.

These proposed openings are purely local improvements, affecting at this time no public or general interest, and until, or unless the opening of these streets is applied for by a majority of the owners of the property fronting thereon or affected thereby, there appears to be no necessity for any proceedings in the matter.

Approach to McComb's Dam Bridge.

I believe that the opening of such approach would be beneficial to the public interest, and, as I am informed that the plans and maps have already been filed by the Department of Public Parks, I recommend that all further necessary measures be taken by the Board to establish and open said approach as a public thoroughfare.

Streets and Avenues between Edgecombe Road and Kingsbridge Road, and One Hundred and Fifty-ninth Street and One Hundred and Seventy-fifth Street (Fumel Property).

The Board having taken the preliminary steps, by the publication of notice of the intention of laying out these streets, the matter should be followed up by any further action necessary on the part of the Board, to have the several streets placed on the map of the city, and to have them opened for the use of the public. Whenever called upon, this Department will promptly furnish the necessary maps, etc., for the proceedings for opening these streets.

Fort Washington Ridge Road.

This is a change requested by Mr. Libby, through whose property the road runs, in order to remove the road to a greater distance from his house. This portion is not under contract for grading. The change would benefit Mr. Libby very much and would give the public as good a road as under the original plan. Mr. Libby has now graded the road, as he desires it to be, and proposes to cede it to the city in place of that portion of road through his land which the city now owns.

Opening One Hundred and Fortieth Street, between St. Nicholas and Convent Avenues.

Preliminary steps for the establishment and opening of this street have already been taken, and I deem it proper to proceed with any further necessary action to have the street opened as a public thoroughfare.

Highbridge Park.

I am not prepared to express any opinion as to the retention or establishment of this park, and in view of the apparent differences of opinion on the part of the property-owners interested or affected, I would suggest that a further hearing be given to such property-owners, so as to obtain a fair expression of their views.

One Hundred and Eighty-second Street, between Tenth Avenue and Kingsbridge Road.

The Board having declared and advertised its intention of laying out this street as a public highway, all further legal measures should be taken to have it opened for public use.

Widening and Extension of Elm Street, between Chambers Street and Fourth Avenue.

In view of the fact that since the receipt of the letter and memorandum upon which this report was made, the matter of widening and extending Elm street has been under repeated and recent discussion and consideration by the Board, and the line and grade of the proposed improvement have been decided upon, there appears to be no necessity for any report from me on the subject at this time.

Audubon Avenue, between Eleventh Avenue and Kingsbridge Road.

The proposed improvement is one of local rather than public or general interest, and the action of the Board in the matter should, therefore, be guided by the wishes of the owners of the property affected. Whenever a majority of such owners shall petition for the establishment of this avenue, the necessary steps to have it placed on the map of the city and opened as a public thoroughfare should be taken.

One Hundred and Fifty-seventh Street, from the Boulevard to Twelfth Avenue.

The Board has taken the necessary preliminary action to place this street on the map of the city, and I am informed by the Engineer in Charge of Sewers that the map and technical description of the land required for the street have been made. I recommend that all further necessary measures be taken to establish this street as a public thoroughfare and to open it for the use of the public.

One Hundred and Nineteenth, One Hundred and Twentieth and One Hundred and Twenty-first Streets, between Tenth and Morningside Avenues, and One Hundred and Twentieth Street, between Tenth Avenue and Riverside Drive.

The portion of the city in which these streets are located is being rapidly built up and populated, and the streets should be legally opened as early as practicable.

Dyckman Street, from Harlem River to Kingsbridge Road.

All necessary steps have been taken by your Board and by this Department, and the matter is now in the hands of the Counsel to the Corporation to secure the consummation of the proceedings for the opening of the street.

Seventy-first Street westerly to the Hudson River.

From examination I find that this street is now established on the map of the city, and legally opened to high-water mark as shown on the maps of the Commissioners of Central Park in 1865. The New York Central and Hudson River Railroad Company owns all the ground from that point to the bulkhead-line, and has covered it with rail tracks and other constructions. The extension and opening of the street to the bulkhead-line would, therefore, involve an expenditure out of all proportion to any present or future local or general benefit. I do not think that any action on the part of the Board in this matter is necessary at this time.

One question which has not been touched upon in the foregoing report, and which should be considered in determining the action of the Board as to the opening of the several streets, is that of grades. In several cases the grades, as now established by law, are so excessively steep as to be impracticable for general wagon traffic. In some instances these excessive grades could be moderated by building a revetment wall at the upper end of the street, with steps to give access to and from the intersecting street or avenue for pedestrians. The cases in which this treatment of grades would be practicable are the following:

Ninety-ninth street, between Lexington and Third avenues; length, 420 feet; grade, 8 feet per 100. This street is intersected at Fourth avenue by the New York and Harlem Railroad, and all business traffic with the residents along that street, will, therefore, naturally go through and from Third avenue. It might, therefore, be advantageous to cut down the grade of the street between Third and Lexington avenues to 4 feet per 100, and to build a revetment wall with steps, about 17 feet high, at Lexington avenue.

One Hundred and Fortieth street, between St. Nicholas and Convent avenues; length, 580 feet; grade, 13 feet per 100. Under any circumstances, the natural approach to the houses along this block would always be from the east or St. Nicholas avenue. Acting on this proposition, the grade of the street could be advantageously reduced to 6 feet per 100, and a revetment wall and steps built, about 40 feet high, at Convent avenue.

One Hundred and Twenty-first street, between Tenth and Morningside avenues; length, 381 feet; grade, 10 feet per 100. This block is situated much the same as in the two preceding cases, and the grades could be reduced to 5 feet per 100 by building a wall and steps, about 20 feet high, at Morningside avenue.

In the case of One Hundred and Fifty-seventh street, between the Boulevard and the Hudson river, the grade is also excessive, being 9.2 feet per 100, but, until a public street or avenue is established, intersecting the street at its westerly end, it would not be practicable to reduce the grade of the street by shutting off access to it from Tenth avenue, for wagon traffic, by the building of a revetment wall.

The treatment of grades herein suggested, by building revetment walls and steps for pedestrian travel, has been applied in this City with advantage to property-owners and to the general public in several instances.

Very respectfully,

JOHN NEWTON, Commissioner of Public Works.

Which was accepted, ordered on file and directed to be printed in full in the minutes.

The Commissioner of Public Works offered the following resolution:

Resolved, That this Board deem it for the public interest to alter the map or plan of the City of New York by laying out, opening and extending an approach to McComb's Dam Bridge, from Seventh avenue to McComb's lane, the said approach being more particularly bounded and described as follows:

"PARCEL A."

Commencing at the intersection of the southern line of One Hundred and Fifty-third street with the western line of Seventh avenue:

1st. Thence northwesterly along the southern line of One Hundred and Fifty-third street for 99.92 feet;

2d. Thence southerly on the arc of a circle, whose centre lies southerly of the preceding course and whose radius, drawn through the western extremity of the said course, forms an angle of 90 degrees with it, and is 99.92 feet for 156.92 feet to the western line of Seventh avenue;

3d. Thence northeasterly along the western line of Seventh avenue for 99.92 feet to the point of beginning.

"PARCEL B."

Beginning at the intersection of the northern line of One Hundred and Fifty-third street with the western line of Seventh avenue:

1st. Thence northeasterly along the western line of Seventh avenue for 40 feet;

2d. Thence northeasterly along a line parallel to the northern line of One Hundred and Fifty-third street, and distant 40 feet therefrom, for 99.92 feet;

3d. Thence curving to the right northerly on the arc of a circle tangent to the preceding course, whose radius is 76.97 feet, for 161.14 feet.

4th. Thence southwesterly on a line tangent to the preceding course for 48.75 feet;

5th. Thence southwesterly, deflecting to the left $1^{\circ} 36' 13''$ for 128.58 feet to the northern line of One Hundred and Fifty-third street;

6th. Thence southeasterly along the northern line of One Hundred and Fifty-third street for 252 feet to the point of beginning.

And that they propose to alter the map or plan of the said City of New York by closing and discontinuing said street as aforesaid.

Resolved, That such proposed action of this Board be laid before the Board of Aldermen, and that full notice of the same be published for ten days in the CITY RECORD.

Resolved, That the Secretary be and he is hereby directed to transmit to the Board of Aldermen a copy of the foregoing resolution, and to cause to be published the notice required by law.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Commissioner of Public Works, the President of the Department of Public Parks, the President of the Board of Aldermen—5.

The matter of the proposed streets through the DeForest property, between One Hundred and Fortieth and One Hundred and Forty-fifth streets, Tenth and St. Nicholas avenue, was, upon motion, laid over until such time as Mr. DeForest shall have presented his wishes and intentions in the matter to the Board.

The Commissioner of Public Works offered the following resolution:

Resolved, That this Board, deeming it for the public interest so to do, hereby respectfully requests the Counsel to the Corporation to take the necessary proceedings in the name of The Mayor, Aldermen and Commonalty of the City of New York, to acquire title, wherever the same has not been heretofore acquired, for the use of the public to the land required for the opening of West Fifty-second street, from Eleventh avenue to the Hudson river.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Commissioner of Public Works, the President of the Department of Public Parks, the President of the Board of Aldermen—5.

Which was adopted by the following vote:

The Mayor here called the President of the Board of Aldermen to the chair, and was, upon request, excused from further attendance.

The Commissioner of Public Works offered the following resolution:

Resolved, That this Board, deeming it for the public interest so to do, hereby respectfully requests the Counsel to the Corporation to take the necessary proceedings in the name of The Mayor, Aldermen and Commonalty of the City of New York, to acquire title wherever the same has not been heretofore acquired for the use of the public, to the land required for the opening of One Hundred and Nineteenth street, between Tenth avenue and Morningside avenue; One Hundred and Twentieth street, between Tenth avenue and Morningside avenue; One Hundred and Twenty-first street, between Tenth avenue and Morningside avenue; One Hundred and Twentieth street, between Tenth avenue and Riverside Drive.

Which was adopted by the following vote:

Affirmative—The Comptroller, the Commissioner of Public Works, the President of the Department of Public Parks, the President of the Board of Aldermen—4.

Upon motion, the petition of Mr. Libby praying that the direction of Fort Washington Ridge road be changed as shown upon a certain map or plan submitted with the petition, was referred to the Counsel to the Corporation, with a request for his opinion as to whether there is any means by which the Board can grant the petition of Mr. Libby without the necessity of applying to the Court for the appointment of Commissioners of Estimate and Assessment to award damages to the property-owners who may be injured by the proposed closing of that portion of the road necessary to carry out the suggestion of Mr. Libby.

The following report from the Department of Public Parks was received, ordered on file and directed to be printed in full in the minutes.

Report on "List of matters pending before the Board of Street Opening and Improvement of the City of New York, on October 21, 1886, referred to the Department of Public Parks for examination and report."

1st. Fordham Heights District—Establishing the grades of portions of Andrews and Aqueduct avenues, of Irene, Loring and Dayton places, of a street east of the aqueduct and of East One Hundred and Eighty-fourth street, Twenty-fourth Ward.

The maps required for filing were sent September 29, 1886.

In the matter of establishing grades, it is to be observed that at a meeting of the Board held December 10, 1886, a resolution was passed referring the question to the Counsel to the Corporation for his opinion "as to whether the Board has power under chapter 185 of the Laws of 1885, to establish the grades of streets, avenues, etc., which have been heretofore laid out by the Department of Public Parks, in the Twenty-third and Twenty-fourth Wards, but the grades not established or shown upon the maps filed by the said Department."

It is understood that a bill is now before the Legislature "to cure any possible defect in existing laws on the subject."

2d. Brook avenue—Opening from One Hundred and Sixty-fifth street to Wendover avenue. Laid over (with eighteen other cases), on account of being over one mile in length.

In this connection it is to be remarked that the Board, on April 14, 1886, passed the following resolution, viz.:

"Resolved, That the Counsel to the Corporation is hereby respectfully requested to prepare and urge the passage by the Legislature of an act repealing all laws now in force which make any portion of the amount awarded for damages and the expenses attending the opening of any street, avenue, or road in the City of New York, a charge on the city."

3d (a). Bremer avenue—Opening from Jerome avenue to Devoe street; and

3d (b). Devoe street—Opening from Bremer to Ogden avenue.

The maps required for filing were sent May 25, 1886.

3d (c). On December 10, 1886, a petition from H. P. De Graaf and William N. Clark was presented to the Board for opening Bremer avenue, from Devoe street to Birch street, in connection with the opening of said avenue, from Jerome avenue to Devoe street.

On December 16, 1886, this petition was referred to the Department of Public Parks for an expression of its views relative to the opening.

(1.) Bidders must satisfy themselves by personal examination of the location of the proposed work, and by such other means as they may prefer, as to the accuracy of the foregoing Engineer's estimate, and shall not at any time after the submission of an estimate, dispute or complain of the above statement of quantities, nor assert that there was any misunderstanding in regard to the nature or amount of the work to be done.

(2.) Bidders will be required to complete the entire work to the satisfaction of the Department of Docks, and in substantial accordance with the specifications of the contract and the plans therein referred to. No extra compensation beyond the amount payable for the several classes of the work before mentioned, which shall be actually performed at the prices therefor, to be specified by the lowest bidder, shall be due or payable for the entire work.

The work to be done under the contract is to be commenced within five days after the date of the contract, and all the work contracted for is to be fully completed on or before the first day of October, 1887; and the damages to be paid by the contractor for each day that the contract may be unfulfilled after the time fixed for the fulfillment thereof has expired, are, by a clause in the contract, determined, fixed and liquidated at Fifty Dollars per day.

All the material excavated is to be removed by the contractor, and deposited, in all respects, according to law, and any material dredged, not so deposited, shall not be paid for.

All the old material taken from the crib-bulkhead to be repaired under this contract, will be relinquished to the contractor, and bidders must estimate the value of such material when considering the price for which they will do the work under the contract.

Bidders will state in their estimates a price for the whole of the work to be done in each class in conformity with the approved form of agreement and the specifications therein set forth, by which prices the bids will be tested. These prices are to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay from any cause, in the performing of the work thereunder. The award of the contract, if awarded, will be made to the bidder who is the lowest for doing the whole of the work comprised in the four classes, and whose estimate is regular in all respects.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for doing each class of the work.

The person or persons to whom the contract may be awarded will be required to attend at this office with the sureties offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect; and in case of a failure or neglect so to do, he or they will be considered as having abandoned it, and as in default to the Corporation; and the contract will be readvertised and relet, and so on until it be accepted and executed.

Bidders are required to state in their estimates their names and places of residence; the names of all persons interested with them therein, and if no other person be so interested, the estimate shall distinctly state the fact; also that the estimate is made without any connection with any other person making an estimate for the same work, and that it is in all respects fair and without collusion or fraud; and also that no member of the Common Council, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof; which estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed to by all the parties interested.

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders of the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the estimate, they will, on its being so awarded, become bound as his or their sureties for its faithful performance, and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation of the City of New York any difference between the sum to which said

person or persons would be entitled on its completion and that which said Corporation may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting; the amount, in each case, to be calculated upon the estimated amount of the work to be done in each class by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety and otherwise; and that he has offered himself as surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of the City of New York, after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National Banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of security required for the faithful performance of the contract. Such check or money must not be enclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the Estimate-book, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same, within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York, as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Bidders are informed that no deviation from the specifications will be allowed unless under the written instructions of the Engineer-in-Chief.

No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The right to decline all the estimates is reserved, if deemed for the interest of the Corporation of the City of New York.

Bidders are requested, in making their bids or estimates, to use the blank prepared for that purpose by the Department, a copy of which, together with the form of agreement, including specifications, and showing the manner of payment for the work, can be obtained upon application therefor at the office of the Department.

Each estimate must contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and if no other person be so interested, it shall distinctly state that fact. That it is made without any connection with any other person making an estimate for the same work, and it is in all respects fair and without collusion or fraud. That no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested in the estimate or in the work to which it relates or in the profits thereof.

Each estimate must be verified by the oath, in writing, of the party making the same, that the several matters therein stated are true, and must be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, to the effect that if the contract is awarded to the person making the estimate, they will, upon its being so awarded, become bound as his sureties for its faithful performance; and that if he shall refuse or neglect to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled upon its completion, and that which the Corporation may be obliged to pay to the person to whom the contract shall be awarded at any subsequent letting; the amount to be calculated upon the estimated amount of the work by which the bids are tested.

No estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the Estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same, within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York, as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid the amount of his deposit will be returned to him.

THE COMMISSIONER OF PUBLIC WORKS RESERVES THE RIGHT TO REJECT ALL BIDS RECEIVED FOR ANY PARTICULAR WORK IF HE DEEMS IT FOR THE BEST INTERESTS OF THE CITY.

Blank forms of bid or estimate, the proper envelopes in which to inclose the same, the specifications and agreements, and any further information desired, can be obtained at Rooms No. 9, for Sewers and No. 1 for Paving, No. 31 Chambers street.

DEPARTMENT OF PUBLIC WORKS,
COMMISSIONER'S OFFICE,
ROOM 6, NO. 31 CHAMBERS STREET,
NEW YORK, November 10, 1886.

NOTICE TO CROTON WATER CONSUMERS.

NUMEROUS APPLICATIONS HAVE BEEN made to this Department by citizens claiming reductions or rebates on bills for water supplied through meters, on the alleged ground of leakage caused by defective plumbing and worn-out service pipes, or by willful waste of water by tenants allowing the faucets to be turned on in full force in water-closets, sinks, etc., without the knowledge or consent of the owners of the premises.

The main object of the use of water-meters is to enable this Department to detect and check the useless and unwarrantable waste of an element so valuable and essential to the health and comfort of all the citizens, and this object can only be accomplished by enforcing payment for the water wasted.

Under the law all charges for water supplied through meters are a lien against the respective premises, and the law therefore holds the owner of the premises responsible for the amount of water used or wasted.

Notice is therefore given to all householders that, in all further applications for reduction of water rents, no allowance will be made on account of waste of water occurring through leaks from defective service pipes or plumbing, or wasteful use of water by tenants or occupants of buildings, though such leakage or waste may have occurred without the knowledge or consent of the owners of the buildings.

House-owners are further notified that whenever their premises become vacant, and are likely to remain vacant, they must notify this Department in writing, and that unless this requirement is complied with no deductions in extra water rents will be allowed for any portion of one year.

Commissioner of Public Works.

THE BOARD OF PUBLIC CHARITIES AND CORRECTION RESERVES THE RIGHT TO REJECT ALL BIDS OR ESTIMATES IF DEEMED TO BE FOR THE PUBLIC INTEREST, AS PROVIDED IN SECTION 64, CHAPTER 410, LAWS OF 1882.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Delivery will be required to be made from time to time, and in such quantities as may be directed by the said Commissioners.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect; and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, in the penal amount of fifty (50) per cent. of the ESTIMATED amount of the contract.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose and is in all respects fair and without collusion or fraud; and that no member of the Common Council, Head of a Department, Chief of a Bureau, Deputy thereof or Clerk therein, or other officer of the Corporation is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract is awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they shall pay to the Corporation any difference between the sum to which he would be entitled upon its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in the City of New York, and is worth the amount of the security

required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities, as bail, surety or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the State or National Banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the Estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same, within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York, as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept, but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it, and as in default to the Corporation; and the contract will be readvertised and relet as provided by law.

The quality of the articles, supplies, goods, wares, and merchandise must conform in every respect to the samples of the same on exhibition at the office of the said Department. Bidders are cautioned to examine the specifications for particulars of the articles, etc., required, before making their estimates.

Bidders will state the price for each article, by which the bids will be tested.

Bidders will write out the amount of their estimate in addition to inserting the same in figures.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect; and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, each in the penal amount of TWENTY THOUSAND (\$20,000) dollars.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, Head of a Department, Chief of a Bureau, Deputy thereof, or Clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract is awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they shall pay to the Corporation any difference between the sum to which he would be entitled upon its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities, as bail, surety, or otherwise; and that he has offered himself as surety in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered, to be approved by the Comptroller of the City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the

State or National banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of security required for the faithful performance of the contract. Such check or moneys must not be enclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the Estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York, as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.

Bidders will write out the amount of their estimate in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract.

BIDDERS ARE INFORMED THAT NO DEVIATION FROM THE SPECIFICATIONS WILL BE ALLOWED, UNLESS UNDER THE WRITTEN INSTRUCTIONS OF THE COMMISSIONERS OF PUBLIC CHARITIES AND CORRECTION.

ARMORY BOARD.

ARMORY BOARD—OFFICE OF THE SECRETARY,
STAATS ZEITUNG BUILDING, TRYON ROW,
NEW YORK, May 28, 1887.)

PROPOSALS FOR ESTIMATES FOR FURNISHING MATERIALS AND PERFORMING IRON WORK IN THE ERECTION OF AN ARMORY BUILDING ON THE BLOCK BOUNDED BY THE BOULEVARD, NINTH AVENUE, SIXTY-SEVENTH AND SIXTY-EIGHTH STREETS, NEW YORK CITY.

PROPOSALS FOR ESTIMATES FOR FURNISHING materials and performing Iron Work in the erection of an Armory Building on the block bounded by the Boulevard, Ninth avenue, Sixty-seventh and Sixty-eighth streets, New York City, will be received by the Armory Board at the Mayor's office, City Hall, until 2 p. m. of 20th day of June, 1887, at which time and place they will be publicly opened and read by said Board.

Any person making an estimate for the above work shall furnish the same in a sealed envelope to the President of said Armory Board, indorsed, "Estimate for Furnishing Materials and Performing Iron Work in the Erection of an Armory Building, on the block bounded by the Boulevard, Ninth avenue, Sixty-seventh and Sixty-eighth streets," and also with the name of the person or persons presenting the same, and the date of its presentation.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect; and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, each in the amount of twenty thousand dollars (\$20,000).

Bidders are required to submit their estimates upon the following express conditions, which shall apply to and become part of every estimate received:

1st. Bidders must satisfy themselves, by personal examination of the location of the proposed work, and by such other means as they may prefer, as to the accuracy of the estimate, and shall not at any time after the submission of an estimate, dispute or complain of the statement of quantities, nor assert that there was any misunderstanding in regard to the nature or amount of the work to be done.

2d. Bidders will be required to complete the entire work to the satisfaction of the Armory Board, and in substantial accordance with the specifications of the contract and the plans therein referred to. No extra compensation beyond the amount payable for the work before mentioned, which shall be actually performed, at the prices therefor to be specified by the lowest bidder, shall be due or payable for the entire work.

Bidders will state in their estimates a price for the whole of the work to be done, in conformity with the approved form of contract and the specifications therein set forth, by which price the bids will be tested. This price is to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay, from any cause, in the performing of the work thereunder.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for doing this work. The person or persons to whom the contract may be awarded will be required to attend at this office with the sureties offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect; and in case of failure or neglect so to do, he or they will be considered as having abandoned it, and as in default to the Corporation, and the contract will be readvertised and relet, and so on until it be accepted and executed.

Bidders are required to state in their estimate their names and places of residence, the names of all persons interested with them therein; and if no other person be so interested the estimate shall distinctly state the fact; also that the estimate is made without any connection with any other person in making an estimate for the same work, and that it is in all respects fair, and without collusion or fraud; and also that no member of the Common Council, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof; which estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true.

Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the estimate they will, on its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation of the City of New York any difference between the sum to which said person or persons would be entitled on its completion, and that which said Corporation or Armory Board may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work to be done by which the bids are tested; the consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract and stated in the proposals, over and above all his debts of every nature, and over and above his liabilities as bail, surety and otherwise; and that he has offered himself as surety in good faith, and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of the City of New York, after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National Banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of one thousand dollars (\$1,000). Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Board who has charge of the Estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned by the Comptroller to the persons making the same, within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York, as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him by the Comptroller.

No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

Bidders are requested, in making their bids or estimates, to use a blank prepared for that purpose by the Board, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the work, can be seen upon application at the office of the architect, George B. Post, No. 15 Cortlandt street, New York City.

The Board reserves the right to reject any or all estimates not deemed beneficial to or for the public interest.

Plans may be examined, and specifications and blank forms for bids or estimates obtained, by application to the architect, at his office, No. 15 Cortlandt street, New York City.
