### BOARD OF ESTIMATE AND APPORTIONMENT.

#### (PUBLIC IMPROVEMENTS.)

A meeting of the Board of Estimate and Apportionment of The City of New York was held in the old Council Chamber (Room 16), City Hall, Borough of Manhattan, on Tuesday, July 8, 1902, at 10.30 o'clock a. m.

After the consideration of financial matters, the Board took up the consideration of Public Improvements.

Present—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond.

The Mayor, Hon. Seth Low, presided.

The following communication from the Corporation Counsel was read and placed on file:

LAW DEPARTMENT—OFFICE OF THE CORPORATION COUNSEL,  
NEW YORK, June 28, 1902.

Hon. EDWARD M. GROUT, Comptroller:

SIR—I have received your letter, dated May 8, 1902, in reference to the Riverside Drive and Parkway. You refer to my letter to you dated April 29, 1902, and state that you can see no objection to continuing the employment of Robert L. Waters as City Surveyor, if care is taken as to the number of days charged for. I shall accordingly endeavor to make the proper arrangements with him. Your letter continues as follows:

"As to the question of the confirmation of the estimate for damage, I may say that in a general way I am averse to having any awards become a charge on the City before the assessments are ready. The matter has been before the Board of Estimate, and on one matter I think this same Riverside Drive, where the awards were very heavy, the Board took this view of it. It is being pressed upon us for reconsideration, however, and I am unable to say what will be the final action. There are difficulties on both sides of the question. While, on the one hand, the City loses the interest if the awards are held back, on the other hand, as in the case of Elm street, for instance, it suffers very greatly from the effort to reduce the assessments, when the assessments are postponed until years after the awards are made. Then, again, as soon as the awards are made the item goes into the City debt, in many cases without any corresponding asset in the way of an assessment.

"I think the Board of Estimate will be very glad to have your views as to what is the desirable course in such matters. While, in many respects it would be desirable to treat each case on its own merits, it is going to be difficult, I think, to escape making a rule."

Your communication brings up a part of a subject to which I have given much thought and attention, to wit: How proceedings to acquire title to lands for public purposes, under the exercise of the right of eminent domain, can be conducted with less delay, expense, and, I fear, extravagance.

I think these general rules may safely be laid down: First, such proceedings should be pressed to a conclusion as soon as possible; second, title to the land should not vest until the confirmation of the report of the Commissioners; third, the awards and assessments should be confirmed at the same time.

There are doubtless many cases where the second of these rules may, for urgent reasons, be wisely departed from; but I think that the cases where either the first or third rule should be departed from are rare. The fact that the property-owners cannot receive payment of their awards until the assessments are also confirmed will of itself tend to discourage delays in the proceeding. Delays in confirmation of assessments obviously tend to aid and encourage efforts to avoid the assessment, either through the action of the courts or through appeals to the Legislature. They also give opportunity for the formation of combination agreements and schemes of all sorts not in the interests of the City.

The bearing of this upon the City debt is also important.

I analyze it as follows:

If the whole cost is recoverable by assessment and the awards and assessments are confirmed at the same time, the City debt is not increased, or if so, only temporarily.

Most assessments are paid quickly after confirmation, and in many cases they offset the awards, so that only the excess over the assessments is paid in cash by the City and the fund for Street and Park Openings is not drawn upon largely. Such of the assessments as are not paid within sixty days after confirmation draw interest at seven per cent., and hence the City does not lose from delay in payment.

In early times this was the theory and practice with regard to awards and assessments in street opening proceedings, that is that they should be conducted without any expense to the City, which would receive enough from the assessments to pay the awards.

If this practice had been adhered to and were in force at the present time, it is easy to see that street opening proceedings could be conducted as extensively as might be thought desirable without any expense on the part of the City, and probably without the necessity of resorting to the sale of bonds even for temporary purposes, to be reimbursed by the collection of assessments.

The theory and practice referred to, has, however, been departed from with the result that the City has to borrow large sums of money which are never repaid to it through assessments, and to that extent the City debt is increased and the borrowing capacity of the City diminished; and this has been done, as I shall point out below, in such a way as to conceal the real nature of the transaction.

The departures from the proper theory and practice have been made in two ways. The first and most important of these departures consisted in authorizing street openings and the payment of the awards out of the fund for Street and Park Openings, and at the same time providing that a part, even so much as a half, should not be assessed upon the property-owners but should be paid by the City at large. As matter of fact, however, the part payable by the City at large was not paid directly, but the money was taken from the fund for Street and Park Openings. In other words, the entire cost of the proceeding has been paid out of the fund for Street and Park Openings, but the part that was to be paid by the City at large was not paid into that fund as it could and should have been by the sale of bonds of the City for that specific purpose, and at the time when the awards were payable. I am informed, however, that recently the practice has been to issue bonds for the City's share of the cost.

The fund for Street and Park Openings is in the nature of a running account, into which all street opening assessments are paid and out of which all awards are paid. The assessments in one street opening proceeding are thus in effect used to pay awards in another. It has resulted that the true state of affairs was to a large extent concealed from the people; for the effect of imposing a large part of the cost of an improvement was not brought home to them at once as it would have been by an immediate issue of bonds, and the effect was lost by delay until the real cause of the increase of the City debt was forgotten.

If on every occasion when the City was required to pay part of the cost of a particular street opening it had issued bonds for that specific purpose, as the law strictly speaking requires, the attention of the public would have been called to the fact. Instead of that, the whole amount of the awards have been paid out of the fund for Street and Park Openings when a part only came back through assessments.

Whenever it becomes necessary to issue bonds to replenish the fund for Street and Park Openings an addition is made to the City's debt and the City's borrowing capacity is reduced by so much.

The second departure from the earlier theory and practice took place when the statute was amended so as to allow the vesting of title before the confirmation of the report of the Commissioners.

Down to the year 1893 title never vested in street opening proceedings until the report of the Commissioners was confirmed; but in that year was enacted the so-called Elm Street Act (chapter 660 of the Laws of 1893), which it may be observed is not peculiar to Elm street, but is a part of the general street opening law. By that act the principle that had been applied in the Water Shed Condemnation Proceedings was extended to street opening proceedings, and it was provided that, under certain conditions and restrictions, title to land required for streets might vest in the City years before the awards were ascertained, the assessments laid, and the report of the Commissioners confirmed.

It is provided in the act that where title vests previous to confirmation, interest shall run on the awards from the time of vesting title to the date of the report of the Commissioners.

A question has been raised whether the interest so allowed can be included in the assessment, but the point has not been finally determined by the courts. If it cannot be thus included the City is, of course, subjected to a large charge for interest which it must raise by general taxation.

What I have called the second departure has thus arisen in large measure from the long delay that has been common in the concluding of street opening proceedings, and the evil of it also increases from such delay.

The Board of Estimate can, I think, accomplish much to remedy this evil. It should be very careful not to authorize the vesting of title previous to confirmation except in the cases where it is deemed essential for the public interests to do so. These cases must, it seems to me, be few.

Returning to my third recommendation that the awards and assessments should be confirmed at the same time, the following may be observed:

A departure from this practice was another innovation introduced by the so-called Elm Street Act (chapter 660 of the Laws of 1893.)

It is provided in section 985 of the Charter as follows:

"Said Commissioners of Estimate and Assessment may, when authorized by a majority vote of all the members of the Board of Estimate and Apportionment, make up and file a preliminary abstract of their estimate of damages, separate and apart from their estimate of assessments for benefit. \* \* \* Such separate or partial report shall be made in the same form and manner, and such proceedings shall be had in respect thereto, as in respect to the report of the Commissioners relative to the entire lands taken and assessed as herein provided for, except that the final or last separate report shall contain the assessment for benefit."

This section is a re-enactment with modifications of section 989 of the Consolidation Act, as amended by chapter 660 of the Laws of 1893.

It is under this provision of the statute that in some cases, notably that of Elm street, the awards have been confirmed and paid, while the assessment remains unimposed and uncollected.

The result in the Elm street case, as intimated in your letter, is not such as should encourage the frequent application of the principle. Although the awards were paid several years ago in the Elm Street Widening Proceedings, the assessments have not yet been confirmed or collected, and the City has not received therefrom over \$2,500,000, which it was contemplated when the proceedings was instituted should be paid through assessments.

Under the present provisions of the Charter, the Board of Estimate and Apportionment has the control of the entire matter, as will appear from the above quotation, and the authority of that Board is necessary before the awards can be confirmed previous to, and separate and apart from, the assessments.

As already stated, it is my opinion that the cases are very rare where the Board would be justified in departing from the usual custom in this respect and authorizing the confirmation of the awards previous to the confirmation of the assessments.

The ascertainment of the awards and of the assessments is in a given case made in one street opening proceeding, and one final order of confirmation should dispose of the whole matter.

I have thus endeavored, in accordance with your suggestion, to present my views as clearly as possible as to what is the desirable course in such matters.

Respectfully yours,

G. L. RIVES, Corporation Counsel.

#### OPENING MOUNT VERNON AVENUE, BOROUGH OF THE BRONX.

The following report from the President of the Borough of The Bronx was read and the matter was referred back to him for a hearing before the Local Board:

THE CITY OF NEW YORK,  
OFFICE OF THE PRESIDENT OF THE BOROUGH OF THE BRONX,  
MUNICIPAL BUILDING,  
CROTONA PARK, June 21, 1902.

Hon. SETH LOW, Mayor, Chairman Board of Estimate and Apportionment:

DEAR SIR—In reply to the communication dated June 12, 1902, from J. W. Stevenson, Esq., Secretary, Board of Estimate and Apportionment, in relation to the application of the Commissioners of Estimate and Assessment in the matter of opening Mount Vernon avenue, from Jerome avenue to the northern boundary line of the City, in which the Board is requested to authorize them to make a partial report of awards, I beg to say that proceedings for acquiring title to Mount Vernon avenue were commenced May 15, 1896, and the final damage and benefit maps for the whole avenue were forwarded March 12, 1902.

The Woodlawn Cemetery Association, through whose property Mount Vernon avenue is laid out, as I recollect, opposed this lay out at various times, and I judge that any negotiations will result in obtaining the consent of the Woodlawn Cemetery Association to the inclusion of so much of their property as is required for Mount Vernon avenue.

Under the circumstances it seems to me that the wisest course for the Board to take would be to advertise the matter for a public hearing, so that the residents of Woodlawn Heights section can be consulted in the matter; and if public sentiment favors the discontinuance of Mount Vernon avenue, between East Two Hundred and Thirty-third street and Jerome avenue, a rearrangement of the lines of Mount Vernon avenue between East Two Hundred and Thirty-third street and the northern boundary line of the City might be deemed advisable.

The enclosed diagram is returned as requested.

Yours truly,

LOUIS F. HAFFEN,  
President of the Borough of The Bronx.

#### LAYING OUT WEST ONE HUNDRED AND THIRTY-SIXTH STREET, BOROUGH OF MANHATTAN.

The following ordinance was received from the City Clerk:

IN THE BOARD OF ALDERMEN.

AN ORDINANCE to lay out, etc., West One Hundred and Thirty-sixth street, Borough of Manhattan.

Be it Ordained by the Board of Aldermen of The City of New York, as follows:

That, in pursuance of section 442 of the Greater New York Charter, the following resolution of the Board of Estimate and Apportionment, adopted by that Board on the 9th day of May, 1902, be and the same hereby is approved, viz:

Resolved, That the Board of Estimate and Apportionment of The City of New York in pursuance of the provisions of section 442 of the Greater New York Charter, deeming it for the public interest to alter the map or plan of The City of New York by laying out and extending and establishing the grade of West One Hundred and Thirty-sixth street, from Broadway to Riverside Drive extension, in the Borough of Manhattan, City of New York, does hereby favor and approve of the same so as to lay out, extend and establish the grade of the aforesaid street, as follows:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of The Greater New York Charter, deeming it for the public interest so to do, proposes to alter the map or plan of The City of New York, by laying out and extending, and establishing the grade of West One Hundred and Thirty-sixth street, from Broadway to Riverside Drive extension, in the Borough of Manhattan, City of New York, more particularly described as follows:

The southwesterly side of the said new street to commence at a point on the northwesterly side of Broadway, distant 199.83 feet from the northerly corner of Broadway and West One Hundred and Thirty-fifth street, and to run thence northwesterly and parallel with West One Hundred and Thirty-fifth street for a distance of 584.36 feet more or less to the southeasterly side of Riverside Drive extension at a point distant 204.98 feet, more or less, northeasterly from the easterly corner of Riverside Drive extension and West One Hundred and Thirty-fifth street; the northeasterly side of the said new street to be 60 feet distant from and parallel with the southwesterly side.

#### Grades.

1. The grade at the intersection of the new street and Broadway to be 88.81 feet above mean high water datum.

2. The grade at the intersection of the new street and Riverside Drive extension to be 69.54 feet above mean high water datum.

All elevations refer to mean high water datum as established in the Borough of Manhattan.

Adopted by the Board of Aldermen June 3, 1902, two-thirds of all the members elected voting in favor thereof.

Approved by the Mayor June 12, 1902.

P. J. SCULLY, Clerk.

The following resolutions were thereupon adopted:

Whereas, The Board of Aldermen of The City of New York has concurred in the resolution adopted by this Board on the 9th day of May, 1902, to favor and approve of a change in the map or plan of The City of New York, by laying out and extending and establishing the grade of West One Hundred and Thirty-sixth street, from Broadway to Riverside Drive extension, in the Borough of Manhattan, City of New York, by passing an ordinance, adopting and approving of the same by a two-thirds vote, and the same having received the approval of the Mayor on the 12th day of June, 1902, as appears from the certificate of the City Clerk, received by this Board on the 26th day of June, 1902, and

Whereas, In pursuance of the provisions of section 442 of the Greater New York Charter, by the adoption of said ordinance by a two-thirds vote of the said Board of Aldermen and approval thereof by the Mayor, such said change in the map or plan of The City of New York, is deemed to have been made, therefore,

Resolved, That the Secretary of this Board, in pursuance of section 443 of the Greater New York Charter, be and he is hereby directed to certify the three similar maps or plans which the President of the Borough of Manhattan has caused to be made and submitted to this Board, showing such said change in the map or plan of The City of New York, as above described, and to file the same as follows: One copy so certified in the office of the Register of New York County, one copy in the office of the Corporation Counsel, and one copy in the office of the President of the Borough of Manhattan.

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen, President of the Borough of Manhattan, President of the Borough of Brooklyn, President of the Borough of The Bronx, President of the Borough of Queens and the President of the Borough of Richmond—16.

#### LAYING OUT EVERGREEN PLACE, BOROUGH OF BROOKLYN.

The following communication from the President of the Borough of Brooklyn and report from the Chief Engineer were presented, and the matter was referred back to the President of the Borough:

CITY OF NEW YORK, BOROUGH OF BROOKLYN,  
OFFICE OF THE PRESIDENT OF THE BOROUGH.

#### Board of Estimate and Apportionment:

GENTLEMEN—You are hereby notified that at a meeting of the Local Board of the Bushwick District, held May 22, 1902, a resolution, of which the annexed is a copy, was adopted, and that it is duly approved by me according to law:

Resolved, That the Local Board of the Bushwick District, Borough of Brooklyn, after hearing had this 22d day of May, 1902, deeming it for the public interest so to do, hereby determines to initiate proceedings to alter the map or plan of The City of New York, by laying out Evergreen place, where not already laid out, between New Jersey avenue and Pellington place, and extending Evergreen place from its present terminus to Pellington place, as shown on the accompanying map.

Resolved, That this resolution be forwarded to the Board of Estimate and Apportionment for its approval.

#### Inclosures:

- (1) Copy of petition.
- (2) Copy of report from the Bureau of Highways.
- (3) Map showing proposed improvement.

Approved by me this 3d day of June, 1902.

J. EDW. SWANSTROM,  
President of the Borough of Brooklyn.

The above resolution was on the 3d day of June, 1902, approved by the President of the Borough of Brooklyn.

CHIEF ENGINEER'S OFFICE, CITY HALL,  
July 2, 1902.

#### Hon. SETH LOW, Mayor, Chairman Board of Estimate and Apportionment:

SIR—The resolution of the Local Board of the Bushwick District, Borough of Brooklyn, passed May 22, 1902, proposes an alteration of the map or plan of The City of New York by laying out Evergreen Place, where not already laid out, between New Jersey avenue and Pellington place, and extending Evergreen place from its present terminus to Pellington place, as shown on the accompanying map. Evergreen place at present is a cul-de-sac extending nearly through the block between New Jersey avenue and Pellington place, but stops a little over sixty (60) feet short of the latter street. It is certainly very desirable that this street should be extended so as to have an outlet. The plan shows that, while Pellington place is only down on the map of the city for a portion of the distance between Bushwick avenue and Highland Boulevard, it is in use and built upon for the entire distance.

The report from the Bureau of Highways advises that this street be extended through to Highland Boulevard so that the connection may be made complete. If laid down as now in use it would have an irregular width and the connection with Highland Boulevard would involve a change of the grade, which might be the cause of considerable damage to houses already built. I would recommend, therefore, that Pellington place be extended northerly until it forms a complete connection with Evergreen place as extended westwardly.

The proposed extension as shown on the plan submitted nearly forms a connection with a street in use, but not laid down on the map. I beg, therefore, to recommend that the matter be referred back to the President of the Borough of Brooklyn for

further consideration, and that if submitted again, a plan be accompanied by a technical description.

Respectfully,

NELSON P. LEWIS,  
Chief Engineer.

#### LAYING OUT PARK AT FULTON AND CHAUNCEY STREETS, &c., BOROUGH OF BROOKLYN.

The following communication from the President of the Borough of Brooklyn, and report of the Chief Engineer were submitted:

CITY OF NEW YORK, BOROUGH OF BROOKLYN,  
OFFICE OF THE PRESIDENT OF THE BOROUGH.

#### Board of Estimate and Apportionment:

GENTLEMEN—You are hereby notified that at a meeting of the Local Board of the Flatbush District, held May 8, 1902, a resolution, of which the annexed is a copy, was adopted, and that it is duly approved by me according to law:

Resolved, That the Local Board of the Flatbush District, Borough of Brooklyn, after hearing had this 8th day of May, 1902, deeming it for the public interest so to do, hereby determines to alter the map or plan of The City of New York by laying out as a public park the property in the vicinity of the triangular plot, beginning at the northeasterly corner of Lewis avenue and Fulton street, running easterly on Fulton street 768 feet 10 inches, thence northerly on Stuyvesant avenue 199 feet 2 inches, thence westerly on Chauncey street, 750 feet, thence southerly on Lewis avenue 30 feet 4 inches, and beginning at the northwesterly corner Lewis avenue and Fulton street, running northerly on Lewis avenue 14 feet 7 inches, westerly on Chauncey street 64 feet 9 inches, easterly on Fulton street 66 feet 4 inches, in the Borough of Brooklyn; also by closing all public streets and avenues within the proposed park as described and including such public streets and avenues in said park.

Resolved, That this resolution be forwarded to the Board of Estimate and Apportionment for its approval.

#### Inclosure:

- (1) Copy of petition.

Approved by me this 20th day of May, 1902.

J. EDW. SWANSTROM,  
President of the Borough of Brooklyn.

The above resolution was, on the 20th day of May, 1902, approved by the President of the Borough of Brooklyn.

#### Attest:

BOARD OF ESTIMATE AND APPORTIONMENT,  
CHIEF ENGINEER'S OFFICE, CITY HALL,  
July 3, 1902.

#### Hon. SETH LOW, Mayor, Chairman Board of Estimate and Apportionment:

SIR—The accompanying resolution of the Local Board of the Flatbush District, passed May 8, 1902, recommends the changing of map or plan of The City of New York by laying out a public park to be bounded by Fulton street, Chauncey street, Lewis avenue and Stuyvesant avenue. The resolution is accompanied by a petition having 468 signatures. These would certainly indicate that there is considerable interest in the neighborhood in the proposed park. The block which it is proposed to take is now occupied in a large measure by cheap structures, the only building of any value being located at the northwest corner of Fulton street and Stuyvesant avenue and is assessed for \$28,000, the total assessed valuation of all the land being \$138,000. When this comes to be purchased, however, it is fair to assume that the cost will be \$350,000. Whether or not it will be of sufficient benefit to the city to have the cost of the acquisition of this land borne by the city at large is a question which it would be difficult to determine. In order that the matter may be fully discussed, I beg to recommend that a public hearing be given and submit a resolution with that end in view.

Respectfully,

NELSON P. LEWIS,  
Chief Engineer.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter, deeming it for the public interest so to do, proposes to alter the map or plan of The City of New York, by laying out as a public park the territory bounded by Fulton street, Chauncey street, Lewis avenue and Stuyvesant avenue, in the Borough of Brooklyn, City of New York, more particularly described as follows:

Beginning at the northeasterly corner of Lewis avenue and Fulton street, running easterly on Fulton street, seven hundred and sixty-eight feet ten inches, thence northerly on Stuyvesant avenue one hundred and ninety-nine feet two inches, thence westerly on Chauncey street seven hundred and fifty feet, thence southerly on Lewis avenue thirty feet four inches and beginning at northwesterly corner Lewis avenue and Fulton street, running northerly on Lewis avenue fourteen feet seven inches, westerly on Chauncey street sixty-four feet nine inches, easterly on Fulton street sixty-six feet four inches.

Resolved, That the President of the Borough of Brooklyn cause to be prepared for submission to this Board three similar maps or plans for certification and filing in the manner required by law, showing as nearly as possible the nature and extent of the proposed laying out of the above named territory and the location of the immediate adjacent or intersecting open or established public streets, avenues, roads, squares or places, sufficient for the identification and location thereof.

Resolved, That this Board consider the proposed laying out of the above named territory at a meeting of this Board to be held in the Council Chamber (Room 16), City Hall, Borough of Manhattan, City of New York, on the 25th day of July, 1902, at 11 o'clock a. m.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby, that the proposed laying out of the above named territory will be considered at a meeting of this Board to be held at the aforesaid time and place, to be published in the "City Record" and the Corporation newspapers for ten days continuously, Sundays and legal holidays excepted, prior to the 25th day of July, 1902.

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen, President of the Borough of Manhattan, President of the Borough of Brooklyn, President of the Borough of The Bronx, President of the Borough of Queens and the President of the Borough of Richmond—16.

#### OPENING WEST ONE HUNDRED AND THIRTY-SIXTH STREET, BOROUGH OF MANHATTAN.

The following communication from the President of the Borough of Manhattan and report of Chief Engineer were presented:

#### Local Board, Washington Heights District.

Resolved, That the Board of Local Improvements of the Washington Heights District, in the Borough of Manhattan, recommends to the Board of Estimate and Apportionment, that the necessary legal proceedings be taken to acquire title to West One Hundred and Thirty-sixth street, between Broadway and Riverside Drive extension.

#### Attest:

GEORGE W. BLAKE, Secretary.

Adopted by the Local Board of Washington Heights District April 8, 1902, having been first advertised as required by law.

JACOB A. CANTOR,  
President of the Borough of Manhattan.

BOARD OF ESTIMATE AND APPORTIONMENT,  
CHIEF ENGINEER'S OFFICE, CITY HALL,  
July 2, 1902.

Hon. SETH LOW, Mayor, Chairman Board of Estimate and Apportionment:

SIR—The resolution of the Local Board of the Washington Heights District passed on April 8, 1902, initiates proceedings to acquire title to West One Hundred and Thirty-sixth street, between Broadway and Riverside Drive extension. This street has been laid down on the Commissioners' map of The City of New York by resolution of the Board of Estimate and Apportionment after a public hearing on May 9 of the present year. This action has been confirmed by an ordinance of the Board of Aldermen adopted on June 3 and approved by the Mayor on June 12. There is no reason, therefore, why opening proceedings should not be instituted, and I would, therefore, recommend that the Corporation Counsel be requested to apply for the appointment of Commissioners for this purpose. There are buildings which encroach upon the street as laid down.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

\$4,245 deposited as security on bids.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 970 of the Greater New York Charter, deems it for the public interest that the title to the lands and premises required for the opening and extending of West One Hundred and Thirty-sixth street, from Broadway to Riverside Drive extension, in the Borough of Manhattan, City of New York, should be acquired by The City of New York.

Resolved, That the Board of Estimate and Apportionment, deeming it for the public interest so to do, hereby requests the Corporation Counsel to make application to a special term of the Supreme Court, for the appointment of Commissioners of Estimate and Assessment, and to take the necessary proceedings, in the name of The City of New York, to acquire title, whenever the same has not heretofore been acquired, for the use of the public to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending West One Hundred and Thirty-sixth street from Broadway to Riverside Drive extension, in the Borough of Manhattan, City of New York.

Resolved, That the entire cost and expense of said proceedings shall be assessed upon the property deemed to be benefited thereby.

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen, President of the Borough of Manhattan, President of the Borough of Brooklyn, President of the Borough of The Bronx, President of the Borough of Queens and the President of the Borough of Richmond—16.

The following communication from the President of the Borough of Manhattan, and report of the Chief Engineer, were presented:

*Local Board, Harlem District.*

Resolved, That, pursuant to section 433, chapter 466, Laws of 1901, the President of the Borough of Manhattan be authorized, with the consent of the Board of Estimate and Apportionment, to regulate, grade, curb and flag Ninety-fourth street, from First avenue to the East river.

Adopted by the Local Board of the Harlem District, May 20, 1902, having been first advertised as required by law.

Estimated cost, \$3,000. Assessed value of property within the probable area of assessment, \$332,500.

JACOB A. CANTOR,  
President of the Borough of Manhattan.

BOARD OF ESTIMATE AND APPORTIONMENT,  
CHIEF ENGINEER'S OFFICE, CITY HALL,  
July 1, 1902.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith I transmit a copy of a resolution adopted on May 20, 1902, by the Local Board of the Harlem District requesting that the President of the Borough of Manhattan be authorized to regulate, grade, curb and flag Ninety-fourth street from First avenue to the East river.

This block has been legally opened, but is now used very largely for storage of wagons and lumber, and for dumping refuse. The improvement requested should result in remedying this nuisance, and I recommend that it be authorized.

The estimated amount of work is as follows:

2,300 cubic yards of excavation.

934 linear feet of curbing.

3,684 square feet of flagging.

The estimated cost of this improvement is \$3,000, and the assessed value of the property within the probable area of assessment is \$332,500.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

IN BOARD OF ESTIMATE AND APPORTIONMENT.

A copy of a resolution of the Local Board of the Harlem District, duly adopted by said Board on the 20th day of May, 1902, and approved by the President of the Borough of Manhattan, having been transmitted to the Board of Estimate and Apportionment, as follows, to wit:

"Resolved, That pursuant to section 433, chapter 466, Laws of 1901, the President of the Borough of Manhattan be authorized, with the consent of the Board of Estimate and Apportionment, to regulate, grade, curb and flag Ninety-fourth street, from First avenue to the East river,"

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$3,000; and a statement of the assessed value, according to the last preceding tax roll, of the real estate included within the probable area of assessment, to wit, the sum of \$332,500 having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized. And this Board does hereby determine that no portion of the cost and expenses thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen, President of the Borough of Manhattan, President of the Borough of Brooklyn, President of the Borough of The Bronx, President of the Borough of Queens and the President of the Borough of Richmond—16.

The following communication from the President of the Borough of Manhattan and report of the Chief Engineer were presented:

*Local Board, Riverside District.*

Resolved, That pursuant to section 433, Chapter 466, Laws of 1901, the President of the Borough of Manhattan, with the consent of the Board of Estimate and Apportion-

ment, be authorized to proceed to construct a receiving basin at the northwest corner of Lenox avenue and One Hundred and Thirteenth street.

Adopted by the Local Board of the Riverside District May 20, 1902, having been first advertised as required by law.

Estimated cost, \$200; assessed value of property within the probable area of assessment, \$492,000.

JACOB A. CANTOR,  
President of the Borough of Manhattan.

BOARD OF ESTIMATE AND APPORTIONMENT,  
CHIEF ENGINEER'S OFFICE, CITY HALL,  
June 30, 1902.

Hon. SETH LOW, Mayor, Chairman Board of Estimate and Apportionment:

SIR—Herewith is transmitted a copy of a resolution adopted on May 20, 1902, by the Local Board of the Riverside District, requesting that the President of the Manhattan Borough be authorized to construct a receiving basin at the northwest corner of Lenox avenue and One Hundred and Thirteenth street.

There is a basin near the southwest corner of this street's intersection, but its location is at an elevation considerably higher than the corner, thus failing to properly relieve the corner and street crossing. I recommend favorable action upon the request. The estimated cost of the work is \$200, and the assessed value of the property within the probable area of assessment is \$492,000.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was thereupon adopted:

IN BOARD OF ESTIMATE AND APPORTIONMENT.

A copy of a resolution of the Local Board of the Riverside District, duly adopted by said Board on the 20th day of May, 1902, and approved by the President of the Borough of Manhattan, having been transmitted to the Board of Estimate and Apportionment, as follows, to wit:

"Resolved, That pursuant to section 433, chapter 466, Laws of 1901, the President of the Borough of Manhattan, with the consent of the Board of Estimate and Apportionment, be authorized to proceed to construct a receiving basin at the northwest corner of Lenox avenue and One Hundred and Thirteenth street,"

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$200; and a statement of the assessed value, according to the last preceding tax roll, of the real estate included within the probable area of assessment, to wit, the sum of \$492,000 having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized. And this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen, President of the Borough of Manhattan, President of the Borough of Brooklyn, President of the Borough of The Bronx, President of the Borough of Queens and the President of the Borough of Richmond—16.

The following communication from the President of the Borough of Manhattan and report from the Chief Engineer were presented:

*Local Board, Riverside District.*

Resolved, That pursuant to section 433, chapter 466, Laws of 1901, the President of the Borough of Manhattan be authorized, with the consent of the Board of Estimate and Apportionment, to construct receiving basins on the north and south sides of Sixty-sixth street adjoining the wall of the New York Central and Hudson River Railroad.

Adopted by the Local Board of the Riverside District May 20, 1902, having been first advertised as required by law.

Estimated cost, \$700. Assessed value of property within the probable area of assessment, \$115,000.

JACOB A. CANTOR,  
President of the Borough of Manhattan.

BOARD OF ESTIMATE AND APPORTIONMENT,  
CHIEF ENGINEER'S OFFICE, CITY HALL,  
June 30, 1902.

Hon. SETH LOW, Mayor, Chairman Board of Estimate and Apportionment:

SIR—The accompanying resolution asking authorization for the construction of receiving basins at the north and south sides of West Sixty-sixth street, adjoining the wall of the New York Central and Hudson River Railroad, was adopted on May 20, 1902, by the Local Board of the Riverside District. The paving of this block was authorized on May 16, 1902, and as the grade is downward from West End avenue, the entire drainage will collect at the railroad wall, making the improvement now requested a very necessary one. I therefore recommend that the President of the Borough of Manhattan be authorized to proceed with the work.

The estimated cost of the construction is \$700, and the assessed valuation of the property to be benefited is \$115,000.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

IN BOARD OF ESTIMATE AND APPORTIONMENT.

A copy of a resolution of the Local Board of the Riverside District, duly adopted by said Board on the 20th day of May, 1902, and approved by the President of the Borough of Manhattan, having been transmitted to the Board of Estimate and Apportionment, as follows, to wit:

"Resolved, That pursuant to section 433, chapter 466, Laws of 1901, the President of the Borough of Manhattan be authorized, with the consent of the Board of Estimate and Apportionment, to construct receiving basins on the north and south sides of Sixty-sixth street, adjoining the wall of the New York Central and Hudson River Railroad,"

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$700; and a statement of the assessed value, according to the last preceding tax roll, of the real estate included within the probable area of assessment, to wit, the sum of \$115,000, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized. And this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen, President of the Borough of Manhattan, President of the Borough of Brooklyn, President of the Borough of The Bronx, President of the Borough of Queens and the President of the Borough of Richmond—16.

The following communication from the President of the Borough of Manhattan and report from the Chief Engineer were presented:

*Local Board, Washington Heights District.*

Resolved, That pursuant to section 433, chapter 466, Laws of 1901, the President of the Borough of Manhattan be authorized, with the consent of the Board of Estimate and Apportionment, to construct sewer basin at the southwest corner of One Hundred and Twenty-sixth street and Columbus avenue.

Adopted by the Local Board of the Washington Heights District June 10, 1902, having been first advertised as required by law.

Estimated cost, \$200. Assessed value of property within the probable area of assessment, \$79,000.

JACOB A. CANTOR,  
President of the Borough of Manhattan.

BOARD OF ESTIMATE AND APPORTIONMENT,  
CHIEF ENGINEER'S OFFICE, CITY HALL,  
June 30, 1902.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—The accompanying resolution, adopted on June 10, 1902, by the Local Board of the Washington Heights District, requests that the President of the Borough of Manhattan be given authority to construct a sewer basin at the southwest corner of West One Hundred and Twenty-sixth street and Columbus avenue. Basins have already been constructed at the northeast and southeast corners, but these do not seem to be adequate to carry off the storm water which drains to this point from the north, east and west, and I would recommend that the desired authorization be given.

The estimated cost of the work is \$200, and the assessed valuation of the property to be benefited is \$79,000.

Respectfully,  
NELSON P. LEWIS, Chief Engineer.

The following resolution was thereupon adopted:

*IN BOARD OF ESTIMATE AND APPORTIONMENT.*

A copy of a resolution of the Local Board of the Washington Heights District, duly adopted by said Board on the 10th day of June, 1902, and approved by the President of the Borough of Manhattan, having been transmitted to the Board of Estimate and Apportionment, as follows, to wit:

"Resolved, That pursuant to section 433, chapter 466, Laws of 1901, the President of the Borough of Manhattan be authorized, with the consent of the Board of Estimate and Apportionment, to construct sewer basin at the southwest corner of One Hundred and Twenty-sixth street and Columbus avenue."

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$200; and a statement of the assessed value, according to the last preceding tax roll, of the real estate included within the probable area of assessment, to wit, the sum of \$79,000, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized. Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—The resolution of the Local Board of the Washington Heights District, Borough of Manhattan, passed on June 10, 1902, provides for the construction of a sewer basin at the northwest corner of One Hundred and Twenty-seventh street and Convent avenue. An examination of the locality shows that the surface drainage at this point is not properly provided for, and that the conditions would be much improved by the construction of this basin, which is hereby recommended.

The estimated cost of this work is \$225, and the assessed value of the property within the probable area of assessment is \$40,000.

Hon. SETH LOW, Mayor, Chairman Board of Estimate and Apportionment:

SIR—I transmit herewith a copy of a resolution adopted on June 3, 1902, by the Local Board of the Riverside District of the Borough of Manhattan, requesting that the President of the Borough be given authority to construct an extension to the outlet sewer at the foot of West Seventy-second street. I find that the present sewer terminates at the shore front where the discharge is creating a nuisance and which, I am informed, has been the subject of complaint. The extension will be 450 feet in length, and will be carried out to the end of a pier adjoining the street on the south side.

The estimated cost of the work is \$8,000, and the assessed valuation of the property within the district to be benefited is \$5,169,500.

I recommend that the desired improvement be authorized.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

GENTLEMEN—You are hereby notified that at a meeting of the Local Board of the Bay Ridge and Flatbush Districts, held May 1, 1902, a resolution, of which the annexed is a copy, was adopted, and that it is duly approved by me according to law:

Resolved, That the Local Board of the Bay Ridge and Flatbush Districts, Borough of Brooklyn, after hearing had this 1st day of May, 1902, deeming it for the public interest so to do, hereby determines to initiate proceedings to construct sewer in Fourteenth avenue between Thirty-ninth street and Forty-first street, and in Thirty-ninth street between Fourteenth avenue and New Utrecht avenue, and in Fortieth street between Fourteenth avenue and New Utrecht avenue, and outlet sewers in Tenth avenue, between Thirty-ninth street and New Utrecht avenue, and in New Utrecht avenue between Fifty-second street and Sixtieth street, in the Borough of Brooklyn.

Resolved, That this resolution be forwarded to the Board of Estimate and Apportionment for its approval.

Inclosures:

BOARD OF ESTIMATE AND APPORTIONMENT,  
CHIEF ENGINEER'S OFFICE, CITY HALL,  
July 2, 1902.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—The resolution of the Local Boards of the Bay Ridge and Flatbush Districts passed on May 1, 1902, initiates proceedings to construct a sewer in Fourteenth avenue between Thirty-ninth street and Forty-first street, and in Thirty-ninth street and Fortieth street between Fourteenth avenue and New Utrecht avenue, with outlet sewers in Tenth avenue between Thirty-ninth street and New Utrecht avenue, and in New Utrecht avenue, between Fifty-second street and Sixtieth street. The sewers proposed are an important part of the drainage plant for the Twenty-ninth and Thirtieth Wards of the Borough of Brooklyn, and their construction is very much to be desired.

The reports from the Bureaus of Sewers and Highways in reporting upon the legal status of the streets say that opening proceedings are under way for Fourteenth avenue. This is true, but they seem to be at a standstill, and the report from the Bureau of Highways suggests that proceedings should be pushed and Commissioners appointed at once to carry out the work. Until this shall have been done and title can vest in the City I do not see how it is possible to authorize the improvements. With respect to Thirty-ninth street and Fortieth street no evidence is furnished as to their having been opened by dedication, but I think that such evidence is available. I would recommend, therefore, that the President of the Borough of Brooklyn be requested to furnish affidavits as to the dedication of Thirty-ninth street and

Fortieth street, and that the appointment of Commissioners for the opening of Fourteenth avenue be urged. Until this action has been taken it seems impossible to authorize the contract.

Respectfully,  
NELSON P. LEWIS, Chief Engineer.

Gustave A. Jahn, being duly sworn, says that he resides in the Twenty-ninth Ward, Brooklyn, in the immediate neighborhood of that portion of East Nineteenth street sought to be improved. That deponent is familiar with the history of East Nineteenth street and with the facts stated in the affidavit of Freeman Clarkson made in the above-entitled matter. That he has read said affidavit and that the facts therein stated are true. That the portion of East Nineteenth street sought to be improved in these proceedings has been graded and otherwise improved for many years and is an actual public thoroughfare. The City has exercised jurisdiction over the same as a public highway by the repairing of the same, maintenance of sewers, gas lights and other public requirements. That no objection so far as known has been made to the improvement, but on the contrary the street is built up with exceptionally fine residences and that the owners are in urgent need of an improved pavement by curbing and asphalt and desire immediate and favorable action to that end.

City and State of New York, Borough of Brooklyn, County of Kings, ss.:

Freeman Clarkson, being duly sworn, says that he resides in the Twenty-ninth Ward, Brooklyn, and that his residence there for many years past has been located within a block of the proposed improvement. That deponent is and for several years has been the counsel for Richard Ficken, who owned that portion of East Nineteenth street sought to be improved, lying north of Avenue A; and also counsel for the estate of John C. Bergen, who owned that portion of East Nineteenth street lying between Avenue A southerly to within about 150 feet of the northerly line of what was formerly Waverly avenue; and also counsel for Gustave A. Jahn, who owned that portion of the street lying between Bergen estate line and the northerly line of Waverly avenue. That deponent also personally knew William Matthews, the former owner of that portion of East Nineteenth street lying between Avenue B and the northerly line of Waverly avenue.

That deponent is thoroughly familiar with the location and condition of said street and of its history. That prior to the year 1880 William Matthews, then owner, closed all of Waverly avenue lying west of East Nineteenth street and opened up so much of East Nineteenth street as lies between Waverly avenue and Avenue B, which had been opened in 1875 and made a public highway by condemnation proceedings taken by the Board of Improvement of the late Town of Flatbush, the said Avenue B having been graded and improved by the said Board at that time. That thereafter the various conveyances referred to said East Nineteenth street as an existing street, it having been graded and thrown open to the public use. That prior to the year 1888 Richard Ficken was the owner of that part of the street lying north of Avenue A. He opened the street through his land to Tennis Court and graded the same, laid sidewalks and otherwise improved it, and made sales and conveyances with reference to said street. That prior to the year 1888 that portion of the street owned by the estate of John C. Bergen was actually opened and graded and otherwise improved, and sales of plots made thereon, the street having been thrown open to actual use by the public as a public thoroughfare. That several years ago Gustave A. Jahn became the owner of the block bounded by Ocean avenue, Waverly avenue, East Nineteenth street and Avenue B, and also purchased the land in East Nineteenth street lying between Waverly avenue and the line of land of the estate of Bergen.

By an agreement of purchase made by the owners of land west of East Nineteenth street, this part of East Nineteenth street was paid for by them and made a public street, the use as such being reserved in the deeds as a public highway. This portion was thereupon graded and otherwise improved and made an actual public thoroughfare in common with the rest of the street. Furthermore, the City has exercised jurisdiction over the same as a public highway by the repairing of same, maintenance of sewers, gas lights and other public requirements. That the portion of East Nineteenth street sought to be improved has been an open thoroughfare for more than ten years past. That a petition was presented to the Common Council of the former City of Brooklyn fortified with affidavits setting forth the necessary facts, and pursuant to which a resolution was duly passed declaring the same a public highway. That deponent prepared such affidavits and petition at that time, but it seems that they cannot be found of record in the Department.

This portion of the street contains many fine residences in an exceptionally good neighborhood, which is greatly impaired for the want of a properly improved street. That no protest has been offered and no objection made so far as known.

BOARD OF ESTIMATE AND APPORTIONMENT,  
CHIEF ENGINEER'S OFFICE, CITY HALL,  
July 2, 1902.

Hon. SETH LOW, Mayor, Chairman, Board of Estimate and Apportionment:

SIR—The resolution of the Local Board of Flatbush District, passed May 8, 1902, initiates proceedings to regulate and grade East Nineteenth street, from Beverly road to a point 20 feet south of the southerly side of Tennis Court, including curbing and improving sidewalks. This street is and has been for years almost entirely built up and has been in constant use by the public.

Affidavits are presented showing these facts in considerable detail and in a manner which is considered satisfactory by the Corporation Counsel. The estimated amount of work involved is as follows:

2,500 cubic yards grading.  
2,644 linear feet curbing.  
12,000 square feet cement sidewalks.  
The estimated cost is \$4,900 and the assessed value of the property within the probable area of assessment is \$73,000.  
It is recommended that the desired improvement be authorized.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

Hon. SETH LOW, Mayor, Chairman, Board of Estimate and Apportionment:

SIR—I submit herewith a resolution of the Local Board of the Flatbush District passed May 8, 1902, providing for the paving with asphalt of East Nineteenth street from Beverly road to a point twenty feet south of the southerly line of Tennis Court. A report has been on this date submitted recommending the regulating and grading of this street, but inasmuch as the street is now almost exactly on grade and the regulating and grading would involve an extremely small amount of work I think it would be wise to authorize the paving of the street with asphalt in order that if it is deemed wise, the two improvements may be carried out at the same time by the President of the Borough. The estimated amount of work is 5,310 square yards of paving, the estimated cost of which is \$14,000, and the assessed value of the property within the probable area of assessment being \$73,000.

Respectfully,

BOARD OF ESTIMATE AND APPORTIONMENT,  
CHIEF ENGINEER'S OFFICE, CITY HALL,

July 3, 1902.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—The resolution of the Local Board of the Bushwick District passed on May 22, 1902, provides for grading and paving Hamburg avenue with granite block pavement between Cornelia street and Moffatt street, including curbing and improvement of sidewalks by laying cement. Hamburg avenue traverses a section of the Borough of Brooklyn which has shown a phenomenal growth in the last few years and which is yet very backward in street improvements. The proposed improvement would cover ten short blocks which are sewered throughout, although it appears from the report of the Bureau of Highways that water mains have not yet been laid on the four blocks between Cornelia and Halsey streets, and that gas mains have not been laid on the one block between Cooper and Moffatt streets. There is no record of a legal opening, although the block between Cooper and Moffatt streets was declared open by the Common Council of the City of Brooklyn on October 27, 1885, while the remainder of the street has been for a number of years occupied by a double track surface railroad.

Affidavits are attached certifying to these facts in a form acceptable to the Corporation Counsel. The resolution says nothing about paving of the spaces between the railroad tracks and rails, but, judging from the past policy of the President of the Borough of Brooklyn, it is fair to presume that these spaces will not be paved unless the railroad company owning the tracks shall have received proper notice to do the work, and that in case of their failure to do so action will be brought against them for the cost of paving, in accordance with the provisions of section 98 of the Railroad Law.

With this understanding I would recommend that the improvement be authorized. The amount of estimated work is as follows:

3,400 cubic yards grading.

5,130 linear feet curbing.

11,090 square yards granite pavement.

18,000 square feet cement sidewalks.

The estimated cost is \$31,300, while the assessed value of the property to be benefited is \$344,000.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

GENTLEMEN—You are hereby notified that at a meeting of the Local Boards of the Flatbush and Prospect Heights Districts, held May 8, 1902, a resolution, of which the annexed is a copy, was adopted, and that it is duly approved by me according to law:

Resolved, That the Local Board of the Flatbush and Prospect Heights Districts, Borough of Brooklyn, after hearing had this 8th day of May, 1902, hereby determines to initiate proceedings to regulate, grade and pave Prospect avenue with granite block pavement, between Fort Hamilton avenue and a point near Eleventh avenue, where it winds and turns, in the Borough of Brooklyn, and to set or reset curb, and pave sidewalks of said street with cement where not already done, and furthermore recommends that the extra cost over and above one-half of the assessed valuation be borne by The City of New York.

Resolved, That this resolution be forwarded to the Board of Estimate and Apportionment for its approval.

BOARD OF ESTIMATE AND APPORTIONMENT,  
CHIEF ENGINEER'S OFFICE, CITY HALL,  
July 3, 1902.

Hon. SETH LOW, Mayor, Chairman Board of Estimate and Apportionment:

SIR—The resolution of the Local Boards of the Flatbush and Prospect Heights Districts of the Borough of Brooklyn, which was passed on May 8, 1902, initiates proceedings to regulate and grade and pave Prospect avenue with granite block pavement between Fort Hamilton avenue and a point near Eleventh avenue, where the line of the street has been changed. The resolution recommends that the cost in excess of one-half of the assessed valuation be borne by The City of New York.

I cannot say too much of the importance of this proposed improvement, the desirability of which is evident to any one who will look at the map of the Borough of Brooklyn, where it will be seen that Prospect avenue is the direct extension northward of the Ocean Parkway, with its broad driveways and two bicycle paths leading directly from Prospect Park to the ocean. This northward extension of Prospect avenue connects this magnificent driveway with Hamilton Ferry, and consequently with the Battery in Manhattan. It will furnish a thoroughfare between Greenwood Cemetery on the west and Prospect Park on the east, where there is now but one desirable road, and that is adjacent to Prospect Park. Now, as to the recommendation that the City at large pay that portion of the assessment amounting to more than one-half of the assessed valuation of the property, this assessed value is \$70,300, while the estimated cost for paving with granite is \$39,600. Some of the property is improved; such property would, therefore, pay the full assessment which would doubtless be less than one-half its assessed value, while other property not now improved would very likely pay much less than one-half of its proper share per front foot. There seems to me an element of injustice in compelling the owners who have improved their property and added to the value of the City to pay so much more than those who have done nothing with their holdings and are properly assessed at a very low figure. If the City at large is to bear any portion of this expense on account of the material public benefit which would be derived from it, it seems to me that it should be a fixed proportion applying to every property owner.

The recommendation that the City bear part of the expense was probably prompted by the law enacted in 1896, chapter 862. This law provided that the Commissioner of City Works of the City of Brooklyn might, in his discretion and with the written consent of the Mayor, improve Prospect avenue in almost any way, and that while the entire cost should be paid by the Assessment Fund the amount to be collected from the property owners should be one-half of this cost. I cannot but call attention to the fact that in the opening of this street special legislation put two-thirds the cost of the opening on the City at large and the property owners were allowed ten years in which to pay the remaining third. It might seem, therefore, as though this street had received generous treatment, and it is only the great benefit which its improvement would bring to the general public that will warrant the consideration of the proposition of the City paying a portion of the expense.

I submit a resolution in which the amount to be assessed upon the property is left a blank.

The estimated amount of the work of this improvement is as follows:

25,000 cubic yards grading.

4,400 linear feet curbing.

12,240 square yards granite pavement.

20,600 square feet cement sidewalks.

The estimated cost is \$39,600, while the assessed value of the property within the probable area of assessment is \$70,300.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following communication from the President of the Borough of The Bronx, with the resolution of the Local Board, and report of the Chief Engineer, were presented.

THE CITY OF NEW YORK,  
OFFICE OF THE PRESIDENT OF THE BOROUGH OF THE BRONX,  
MUNICIPAL BUILDING, CROTONA PARK,  
June 30, 1902.

Hon. SETH LOW, Mayor, Chairman Board of Estimate and Apportionment:

DEAR SIR—In the matter of the resolution of the Local Board of Morrisania, Twenty-fourth District, Borough of The Bronx, adopted June 30, 1902, providing for the regulating and grading, etc., of the Grand Boulevard and Concourse, I deem it my duty to call your attention to the fact that this work was authorized by the former Board of Public Improvements and the former Municipal Assembly and that an ordinance for said work was adopted by the Municipal Assembly, copy of which is enclosed; that it was adopted by the Council July 10, 1900, and by the Board of Aldermen July 24, 1900, and that it was received by his Honor, the Acting Mayor, August 7, 1900, without his approval or disapproval; therefore, as provided in section 40 of the Greater New York Charter, the same took effect as if he had approved it. (See page 299, volume 3, Municipal Assembly Ordinances 1900).

The action of your Honorable Board is in the nature of a reauthorization of this work and it was deemed advisable that this course should be pursued, because the Board of Estimate and Apportionment, at a meeting held on May 16, 1902, adopted a resolution, of which the following is a copy:

"Resolved, That in the judgment of this Board there would be grave danger of the invalidity of any assessment levied for the improvement of the Grand Boulevard and Concourse under the resolution passed in January, 1900; and this Board believes the proceedings ought to be reauthorized, so that the validity of the assessment may be, beyond question, legal."

It was for this reason that new petitions were obtained and presented to the Local

Board of Morrisania, so that the views of the Board of Estimate and Apportionment should be carried out.

Respectfully,  
LOUIS F. HAFFEN,  
President of The Borough of the Bronx.

*In Local Board of Twenty-fourth District, Borough of The Bronx.*

Whereas, A petition for a local improvement described below has been received by the President of the Borough of The Bronx, and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the "City Record" that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice, and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same, and give a full hearing, now, therefore, it is

Resolved, By the Local Board of Morrisania, Twenty-fourth District, Borough of The Bronx, pursuant to Titles 2 and 3 of chapter 10, of the Greater New York Charter, that the said petition be and the same hereby is granted, and it is hereby

Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

For regulating and grading, setting of curbstones and flagging of sidewalks a space eight feet wide, laying of crosswalks, building approaches and erecting guard rails where necessary, building retaining walls, laying drains, with basins, etc., constructing masonry arch at One Hundred and Seventy-fifth street, macadamizing the side driveways and paths, and work incidental thereto on the Grand Boulevard and Concourse, from East One Hundred and Sixty-first street to Mosholu Parkway, in the Borough of The Bronx, City of New York, and it is hereby

Resolved, That this Board hereby recommends to the Board of Estimate and Apportionment and the Board of Aldermen that the said boards shall determine that seventy-five per cent. of the cost and expense of said work shall be borne and paid by The City of New York, and twenty-five per cent. of such cost and expense shall be assessed upon the property deemed to be benefited thereby.

Resolved, That copies of these resolutions be transmitted forthwith to the Board of Estimate and Apportionment for its approval, and also to the Board of Aldermen for its approval.

Adopted by the Local Board of Morrisania (Twenty-fourth) District, June 30, 1902. Aldermen John L. Goldwater, Philip Harnischfeger, Jacob Leitner, and the President of the Borough of The Bronx voting in favor thereof.

Attest:  
HENRY A. GUMBLETON, Secretary to the Local Board of Twenty-fourth District.  
Approved and certified this 30th day of June, 1902.

LOUIS F. HAFFEN,  
President of The Borough of the Bronx.

BOARD OF ESTIMATE AND APPORTIONMENT,  
CHIEF ENGINEER'S OFFICE, CITY HALL,  
July 3, 1902.

*Hon. SETH LOW, Mayor, Chairman Board of Estimate and Apportionment:*

SIR—The accompanying resolution of the Local Board of the Morrisania District, Borough of The Bronx, passed on June 30, provides for regulating and grading the Grand Boulevard and Concourse from East One Hundred and Sixty-first street to Mosholu Parkway, including curbing, flagging sidewalks, laying crosswalks, constructing a masonry arch at East One Hundred and Seventy-fifth street and such incidental work as retaining walls, bridges, guard rails, etc.

The proposed improvement of the Grand Boulevard and Concourse has been so long agitated that it needs no description. The City of New York I understand is committed to this improvement and when it was brought up before the Board of Estimate a short time ago, it seemed to be generally understood that if some technical defects in the old proceedings were remedied it would receive the approval of the Board. The resolution recommends that seventy-five per cent. of the cost and expense shall be borne and paid by The City of New York. This provision seems also to have been fully canvassed and to have met with popular approval, the street being considered a part of the park system of the City. Other improvements seem to be waiting for this one, and it would appear as though it should not be longer delayed. The estimated amount of work involved is as follows:

700,000 cubic yards excavation.  
617,600 cubic yards filling.  
36,165 cubic yards masonry of various classes.  
15,265 cubic feet coping and other fine dressed stone.  
43,150 linear feet curbing.  
322,800 square feet flagging and reflagging.  
27,650 square feet bridge.  
170,000 square yards macadam.  
33,300 square yards gutter pavement, besides the incidental work as required for drains, guard rails, etc.

The estimated cost is \$1,052,353, and the assessed value of the property within the probable area of assessment is \$1,368,000.

Respectfully,  
NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

IN BOARD OF ESTIMATE AND APPORTIONMENT.

A copy of a resolution of the Local Board of the Morrisania District, duly adopted by said Board on the 30th day of June, 1902, and approved by the President of the Borough of The Bronx on the 30th day of June, 1902, having been transmitted to the Board of Estimate and Apportionment, as follows, to wit:

"Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

"For regulating and grading, setting of curbstones and flagging of sidewalks a space eight feet wide, laying of crosswalks, building approaches and erecting guard rails where necessary, building retaining walls, laying drains with basins, etc., constructing masonry arch at One Hundred and Seventy-fifth street, macadamizing the side driveways and paths and work incidental thereto on the Grand Boulevard and Concourse, from East One Hundred and Sixty-first street to Mosholu parkway, in the Borough of The Bronx, City of New York,"

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$1,052,153; and a statement of the assessed value, according to the last preceding tax-roll, of the real estate included within the probable area of assessment, to wit, the sum of \$1,368,000, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized. And this Board does hereby determine that seventy-five per cent. of the cost and expense thereof shall be borne and paid by The City of New York, and that twenty-five per cent. of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

The following communication from the President of the Borough of The Bronx and report from the Chief Engineer were presented:

*Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:*

In accordance with section 384, chapter 466, Laws of 1901, I hereby certify that the following resolution was adopted by the Local Board of Morrisania (Twenty-fourth District) at its meeting May 26, 1902, viz:

Resolved, That proceedings be and they are hereby initiated by the Local Board of Morrisania (Twenty-fourth District), for regulating and grading, setting curbstones, flagging sidewalks a space four feet wide, laying of crosswalks, building approaches and erecting fences where necessary, in East One Hundred and Fifty-first street (Beck street) from Beach avenue to Prospect avenue, in the Borough of The Bronx, City of New York,

—in accordance with petition of P. V. Murray and others, duly advertised and submitted the 26th day of May, 1902, there having been presented to this Board an estimate in writing, in such detail as the said Board has directed, of the cost of the proposed work or improvement, and a statement of the assessed value, according to the last preceding tax-roll, of the real estate included within the probable area of assessment, the estimated cost of said work being \$4,200. The assessed value of the real estate included within the probable area of assessment is \$20,400.

Resolved, That a copy of this resolution be transmitted forthwith to the said Board of Estimate and Apportionment.

*Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:*

SIR—A resolution of the Local Board of the Morrisania District which was passed on May 26, 1902, initiates proceedings for regulating and grading East One Hundred and Fifty-first street (or Beck street) between Beach avenue and Prospect avenue. It is found upon examination that the proposed improvement is but two short blocks in length. Beach avenue is now paved with granite block, while Union avenue, which lies between the two streets limiting the improvement, is already paved with asphalt. The neighborhood is well built up and the proposed improvement is a necessary and proper one. The estimated amount of work is as follows:

3,400 cubic yards of excavation.  
780 linear feet of curbing.  
3,360 square feet of flagging.

The total estimated cost is \$4,200, and the assessed value of the property within the probable area of assessment is \$20,400.

Respectfully,  
NELSON P. LEWIS, Chief Engineer.

SIR—A resolution of the Local Board of the Morrisania District passed on May 26, 1902, provides for paving Cauldwell avenue, from East One Hundred and Sixty-first street to Westchester avenue, with asphalt block pavement on a concrete foundation. It is found that Cauldwell avenue is one of the important streets of this section of the Borough of The Bronx, that it is almost solidly built up, and already carries considerable traffic, so that a permanent surface improvement is much needed.

The estimated amount of work is the laying of 7,780 square yards asphalt block pavement on a concrete foundation, the total estimated cost being \$33,000, while the assessed value of the property within the probable area of assessment is \$448,050.

In accordance with section 384, chapter 466, Laws of 1901, I hereby certify that the following resolution was adopted by the Local Board of Morrisania (Twenty-fourth District), at its meeting May 26, 1902, viz.:

Resolved, That proceedings be and they are hereby initiated by the Local Board of Morrisania (Twenty-fourth District), for paving with granite blocks on a sand foundation Simpson street, from Westchester avenue to Freeman street, in the Borough of The Bronx, City of New York, in accordance with petition of F. Reinschmidt and others, duly advertised and submitted the 26th day of May, 1902, there having been presented to this Board an estimate in writing, in such detail as the said Board has directed, of the cost of the proposed work or improvement, and a statement of the assessed value, according to the last preceding taxroll, of the real estate included within the probable area of assessment, the estimated cost of said work being \$16,000. The assessed value of the real estate included within the probable area of assessment is \$205,700.

Resolved, That a copy of this resolution be transmitted forthwith to the said Board of Estimate and Apportionment.

Certified, May 28, 1902.

LOUIS F. HAFFEN,  
President of the Borough of The Bronx.

BOARD OF ESTIMATE AND APPORTIONMENT,  
CHIEF ENGINEER'S OFFICE, CITY HALL,  
June 30, 1902.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—A resolution of the Local Board of the Morrisania District passed on May 26, 1902, provides for the paving with granite block on a sand foundation of Simpson street, from Westchester avenue to Freeman street, in the Borough of The Bronx. This street is immediately west of and parallel with the Southern Boulevard, which latter is at present unimproved. It connects two important streets, and has already been regulated and graded, and is partially built up, while sewer, gas and water mains have already been provided for. The estimated amount of work is as follows:

The laying of 6,775 square yards of granite block paving, the estimated cost of which is \$16,000, while the assessed value of the property within the probable area of assessment is \$205,700.

Respectfully,  
NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted.

IN BOARD OF ESTIMATE AND APPORTIONMENT.

A copy of a resolution of the Local Board of the Morrisania District, duly adopted by said Board on the 26th day of May, 1902, and approved by the President of the Borough of The Bronx on the 28th day of May, 1902, having been transmitted to the Board of Estimate and Apportionment, as follows, to wit:

"Resolved, That proceedings be and they are hereby initiated by the Local Board of Morrisania (Twenty-fourth District), for paving with granite blocks on a sand foundation Simpson street, from Westchester avenue to Freeman street, in the Borough of The Bronx, City of New York"

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$16,000; and a statement of the assessed value, according to the last preceding taxroll, of the real estate included within the probable area of assessment, to wit, the sum of \$205,700 having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized. And this Board does hereby determine that no portion of the cost and expense shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen, President of the Borough of Manhattan, President of the Borough of Brooklyn, President of the Borough of The Bronx, President of the Borough of Queens and the President of the Borough of Richmond—16.

The following communication from the President of the Borough of The Bronx and report from the Chief Engineer were presented:

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

In accordance with section 384, chapter 466, Laws of 1901, I hereby certify that the following resolution was adopted by the Local Board of Morrisania (Twenty-fourth District) at its meeting May 26, 1902, viz.:

Resolved, That proceedings be and they are hereby initiated by the Local Board of Morrisania (Twenty-fourth District), for regulating and grading, setting curbstones and flagging sidewalks a space four feet wide, laying crosswalks, building approaches and flagging sidewalks where necessary, in Honeywell avenue, from East One Hundred and Seventy-seventh street to East One Hundred and Eighty-second street, Borough of The Bronx, City of New York, in accordance with petition of George Dennerlein and others, duly advertised and submitted the 26th day of May, 1902, there having been presented to this Board an estimate in writing, in such detail as the said Board has directed, of the cost of the proposed work or improvement; and a statement of the assessed value, according to the last preceding taxroll, of the real estate included within the probable area of assessment, the estimated cost of said work being \$14,000. The assessed value of the real estate included within the probable area of assessment is \$87,480.

Resolved, That a copy of this resolution be transmitted forthwith to the said Board of Estimate and Apportionment.

Certified May 26, 1902.

BOARD OF ESTIMATE AND APPORTIONMENT,  
CHIEF ENGINEER'S OFFICE, CITY HALL,  
June 30, 1902.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—A resolution of the Local Board of the Morrisania District, passed on May 26, 1902, initiates proceedings to regulate and grade Honeywell avenue, from East One Hundred and Seventy-seventh street to East One Hundred and Eighty-second street. I find upon inspection that while between One Hundred and Seventy-seventh and One Hundred and Seventy-ninth streets Honeywell avenue is considerably below grade and not in use except by a narrow wagon trail, from East One Hundred and Seventy-ninth street to East One Hundred and Eighty-second street it is partly built up and approximately on grade. The street has been regularly opened, title has been vested in the City, while a sewer has been built.

The estimated amount of work involved in this improvement is as follows:

10,400 cubic yards excavation.

8,700 cubic yards filling.

3,410 linear feet curbing.

13,600 square feet of flagging.

The total estimated cost is \$14,000, while the assessed value of the real estate within the probable area of assessment is \$87,480.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

BOARD OF ESTIMATE AND APPORTIONMENT,  
CHIEF ENGINEER'S OFFICE, CITY HALL,  
June 30, 1902.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—I submit herewith a resolution of the Local Board of the Morrisania District passed on May 26, 1902, which initiates proceedings to regulate and grade East One Hundred and Seventy-eighth street from Boston road to Southern Boulevard, in the Borough of The Bronx, including curbing, flagging sidewalks, laying crosswalks, building approaches and erecting fences where necessary. Upon inspection I find that this street is now considerably below grade, a number of houses have already been built upon it, some of which are undoubtedly below the legal grade, while others have been built in accordance therewith. A sewer has been constructed, the manholes of which having been carried to the proper grade, and in some cases ten (10) feet above the present surface.

The improvement is a desirable one, the street has been already opened and title is vested in the City. The estimated amount of work is as follows:

7,020 cubic yards excavation.

11,550 cubic yards filling.

3,640 linear feet curbing.

13,780 square feet flagging, with the incidental work necessary for retaining walls, approaches, fences, etc.

The estimated cost of this improvement is \$22,500, while the assessed value of the real estate within the probable area of assessment is \$85,964.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

June 30, 1902.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—I return herewith resolution of the Local Board of the Morrisania District passed on May 26, 1902, which provides for macadamizing with a telford base, East One Hundred and Eighty-third street, between Arthur avenue and Southern Boulevard, in the Borough of The Bronx.

I find that East One Hundred and Eighty-third street has already been regulated and graded and that the work has been recently done in apparent from the excellent condition of the curb. The street is partly built up, has a sewer and water and gas mains. It might be thought that the abutting property could afford to pay for a pavement of a more permanent character, but it is essentially a residential street which will have little travel, and with telford base the macadam will probably last for many years. I would recommend that it be authorized. The estimated amount of the work is the laying of 7,205 square yards of macadam on a telford base and including the curbing of gutters. The total estimated cost of this work is \$10,000, while the assessed value of the property within the probable area of assessment is \$257,875.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following report from the Chief Engineer was presented:

BOARD OF ESTIMATE AND APPORTIONMENT,  
CHIEF ENGINEER'S OFFICE, CITY HALL,  
June 30, 1902.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—The accompanying resolution of the Local Board of the Morrisania District passed on April 28, 1902, initiates proceedings for regulating and grading Two Hundred and Second street, from Anthony avenue to Briggs avenue, including curbing, flagging sidewalks, laying crosswalks, building approaches, and erecting fences where necessary.

It is found upon examination that Two Hundred and Second street between the points named is quite well built up, with fine shade trees twenty-five years or more old, and that water, sewer and gas mains have been put in, that the street has been regularly opened, title being vested in the City. The improvement, therefore, is much needed and I would recommend that it be authorized. The estimated amount of work required is as follows:

4,850 cubic yards excavation.  
2,600 cubic yards filling.  
1,775 linear feet curbing.  
6,950 square feet flagging and reflagging, together with the laying of crosswalks, guard rails, etc.

The total estimated cost of this improvement is \$6,600, while the assessed value of the real estate within the probable area of assessment is \$76,200.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—I return herewith the resolution of the Local Board of the Morrisania District, Borough of The Bronx, which was passed on May 26, 1902, providing for regulating and grading East One Hundred and Seventy-fourth street, between Fulton and Park avenues, including curbing, flagging, laying crosswalks, building approaches and erecting fences where necessary.

The proposed improvement covers four short blocks, three of which, or those between Park and Third avenues, are well built up, while the improvement of the remaining block between Third and Fulton avenues involves a heavy rock cutting. The improvement, however, is needed and is hereby recommended.

The estimated amount of work is as follows:

5,170 cubic yards excavation.  
1,015 cubic yards filling.  
2,000 linear feet curbing.  
7,380 square feet flagging and reflagging, together with such incidental work as may be required in the building and retaining walls, approaches and fences. The total estimated cost is \$7,700 and the assessed value of the property to be benefited is \$170,550.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

A copy of a resolution of the Local Board of the Morrisania District, duly adopted by said Board on the 26th day of May, 1902, and approved by the President of the Borough of The Bronx on the 26th day of May, 1902, having been transmitted to the Board of Estimate and Apportionment, as follows, to wit:

"Resolved, That proceedings be and they are hereby initiated by the Local Board of Morrisania (Twenty-fourth District), for regulating and grading, setting curbstones and flagging sidewalks a space four feet wide, laying crosswalks, building approaches and erecting fences where necessary in East One Hundred and Seventy-fourth street, from Fulton avenue to Park avenue, Borough of The Bronx, City of New York."

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$7,700; and a statement of the assessed value, according to the last preceding taxroll, of the real estate included within the probable area of assessment, to wit, the sum of \$170,550, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby

is approved, and the local improvement therein provided for is hereby authorized. And this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen, President of the Borough of Manhattan, President of the Borough of Brooklyn, President of the Borough of The Bronx, President of the Borough of Queens and the President of the Borough of Richmond—16.

The following communication from the President of the Borough of The Bronx and report from the Chief Engineer were presented:

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

In accordance with section 384, chapter 466, Laws of 1901, I hereby certify that the following resolution was adopted by the Local Board of Morrisania (Twenty-fourth District), at its meeting May 26, 1902, viz.:

Resolved, That proceedings be and they are hereby initiated by the Local Board of Morrisania (Twenty-fourth District), for regulating and grading, setting curbstones, flagging sidewalks a space four feet wide, laying crosswalks, building approaches and erecting fences where necessary in Briggs avenue, from Kingsbridge road to the Southern Boulevard, Borough of The Bronx, City of New York, in accordance with petition of Elizabeth D. Rowell and others, duly advertised and submitted the 26th day of May, 1902, there having been presented to this Board an estimate in writing, in such detail as the said Board has directed, of the cost of the proposed work or improvement, and a statement of the assessed value, according to the last preceding tax-roll, of the real estate included within the probable area of assessment, the estimated cost of said work being \$35,000. The assessed value of the real estate included within the probable area of assessment, is \$287,599.

Resolved, That a copy of this resolution be transmitted forthwith to the said Board of Estimate and Apportionment.

Certified May 28, 1902.

President of the Borough of The Bronx.

BOARD OF ESTIMATE AND APPORTIONMENT,  
CHIEF ENGINEER'S OFFICE, CITY HALL,  
July 1, 1902.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—I return herewith a resolution of the Local Board of the Morrisania District, Borough of The Bronx, passed on May 26, 1902, which provides for regulating and grading Briggs avenue, from Kingsbridge road to the Southern Boulevard, including curbing, flagging, laying crosswalks, building approaches and erecting fences where necessary. An inspection shows that while Briggs avenue is at present in use from East One Hundred and Ninety-sixth street to the Southern Boulevard, and while a sewer has been built in the street north of East One Hundred and Ninety-fourth street, the portion between Kingsbridge road and East One Hundred and Ninety-fourth street is not open to travel, although there are several buildings within the lines of this street at and along Kingsbridge road. The improvement is a desirable one and I would recommend that it be authorized.

The estimated amount of work involved is as follows:

9,350 cubic yards excavation.  
24,325 cubic yards filling.  
6,830 linear feet curbing.  
27,450 square feet flagging, together with the necessary crosswalks, rubble masonry for retaining walls, guard rails, etc.  
The estimated cost is \$35,000, while the assessed value of the property within the probable area of assessment is \$287,599.

Opening proceedings are under way, but have not yet been completed, although title was vested on May 8, 1902.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

BOARD OF ESTIMATE AND APPORTIONMENT,  
CHIEF ENGINEER'S OFFICE, CITY HALL,  
NEW YORK, June 30, 1902.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—I submit herewith the resolution of the Local Board of the Morrisania District, passed on May 26, 1902, providing for regulating and grading Two Hundred and Fifth street, between the Grand Boulevard and Concourse and Mosholu Parkway, including curbing, flagging sidewalks, laying crosswalks, building approaches and erecting fences where necessary.

The present surface of this street is very irregular, and it is difficult to tell just where the finished grades will be, but it is quite well built up with detached houses, and I think the improvement is a desirable one and I would recommend that it be authorized. The estimated amount of work involved is as follows:

2,550 cubic yards excavation.  
3,400 cubic yards filling.  
1,500 linear feet curbing.  
5,800 square feet flagging, together with the necessary crosswalks, rubble masonry for retaining walls, etc.

The estimated cost is \$5,800, while the assessed value of the real estate within the probable area of assessment is \$42,615.

DEPARTMENT OF WATER SUPPLY, GAS AND ELECTRICITY,  
COMMISSIONER'S OFFICE, NOS. 13-21 PARK ROW,  
CITY OF NEW YORK, July 8, 1902.

Hon. SETH LOW, Mayor, Chairman, Board of Estimate and Apportionment:

DEAR SIR—On June 9, 1902, I addressed you a communication of which I herewith inclose a printed copy. The communication relates to the subject of the burial of certain electric wires in the Borough of Brooklyn, and at the close of the communication I requested that the Board of Estimate and Apportionment would, at an early date to be determined by it, give a public hearing to all parties interested, to the end that overhead wires of the classes referred to in the letter might as early as practicable be removed from the highways of the Borough of Brooklyn.

I beg to request that your Board will appoint an early date for such a public hearing.

I am,

Yours respectfully,

J. HAMPDEN DOUGHERTY,  
Commissioner of Water Supply, Gas and Electricity.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

DEAR SIR—Section 526 of the Revised Greater New York Charter provides, among other things, as follows:

"Whenever the said Board of Estimate and Apportionment shall deem it desirable and practicable, after hearing all parties interested, that the electrical conductors in any street, avenue, highway or public place of The City of New York, lying within the boroughs of Brooklyn, Queens and Richmond, be placed underground, the said Commissioner of Water Supply, Gas and Electricity shall notify the owners or operators of the electrical conductors above ground in any such street, avenue, highway or public place, that said electrical conductors shall be placed underground within a certain time to be fixed by the said Commissioner, which said time shall be sufficient for the proper construction of underground conduits or other channels in said street, avenue, highway or public place."

It being the clearly defined policy of the Charter and the law that aerial electrical wires and conductors of every description shall, as speedily as practicable, be removed and electrical conductors in subways substituted in their place, I felt it to be my duty some weeks ago to notify the various corporations, whether transportation companies, illuminating companies or telephone or telegraph companies operating in the Borough of Brooklyn, that such is the policy of the Charter, and to invite them to a conference with me upon the general question of relieving the streets of the Borough of Brooklyn at an early date from the present load of overhead electrical constructions. In my letter I called attention to the fact that the owners and operators of electrical wires in Manhattan, although reluctant at the outset to make any change in their overhead system, were now unanimously of the opinion that the burial of their wires had operated beneficially to themselves as well as to the public. My letter to the various Brooklyn companies contained this statement: "In Fulton street, from the Borough Hall to Flatbush avenue, trolley feeder wires are strung under the elevated structure, while troughs for telephone wires have been built along the structure, and at various points where the wires leave the structure to enter buildings abutting along the street the telephone and trolley feeder wires are in such close proximity as to make contact possible. It is not at all uncommon to find pole lines on both sides of a street—the pole line on one side

carrying from ten to twenty or more electric light wires, while the pole line on the other side of the street sustains fully as many telephone wires; and in many streets trolley feeder wires and overhead trolley wires are added. In fact, the streets contain a network of wires, unsightly in appearance and dangerous to property and to life, as has been too often demonstrated. These conditions are not exceptional, and they create a state of affairs which, it seems to me, is intolerable and demands redress."

The corporations which I invited to confer with me accepted the invitation, and we have discussed existing conditions and prospective relief. The companies with which I have had conferences are the following: The Brooklyn Rapid Transit Company, which is a securities and business corporation owning the stock of the Brooklyn Heights Railroad Company, which in turn is the lessee operating all the trolley railroads in Brooklyn, with the exception of the Coney Island and Brooklyn Railroad Company; the Edison Electric Illuminating Company, which, as owner or lessee, is operating all the electrical illuminating plants in the Borough of Brooklyn, outside of the Twenty-ninth Ward of the borough; the New York and New Jersey Telephone Company; the Western Union Telegraph Company; the Postal Telegraph-Cable Company, and the Coney Island and Brooklyn Railroad Company, which operates the De Kalb Avenue, Franklin Avenue and Smith and Jay Street lines.

All of the above-named corporations professed a readiness to co-operate with the head of this Department in the earliest practicable removal of overhead wires from the Borough of Brooklyn. They realized that my intention was not to advocate or enforce a plan which would be financially injurious to the companies, and that it was not my expectation that all the overhead wires within the Borough of Brooklyn should be removed during the course of the next year. But it was made plain to them that the Department was thoroughly in earnest in its resolution to make a beginning and steadily to compel action on the part of the companies until the unsightly and dangerous network of overhead electrical constructions shall be permanently banished from the borough. No denial was made by any company of the allegations in my letter, which I have quoted above, regarding the condition of overhead wires in the borough; on the contrary, every participant in the conference admitted the fact. It is also significant and worthy of comment that, although the people of the borough are, in their own streets, subjected to the presence of wires carrying a high-tension current in close proximity to wires conveying a current of low potential, the companies operating wires of low potential express the greatest disinclination to have their wires in ducts in the same subways with wires of high potential. The desirability of union on the part of the companies employing high or low potential systems in the construction of subways appears to be self-evident, because of the extent of space which the subways occupy and of the disadvantage to the public of disturbance of the streets for various subway constructions. Obviously a single subway of sufficient accommodations for the high tension wires and a separate subway for the low tension wires would be economical from every point of view; but the protest of the telephone and telegraph companies against entering subways carrying trolley feeder wires and electric illuminating wires was as decided as it was just; in fact, the rules of this Department would not permit high and low tension wires in the same subway.

The New York and New Jersey Telephone Company has been constructing subways for a number of years, and claims to have commenced underground construction before the adoption of the first legislation looking to the removal of overhead wires. The representative of that company at the conference said: "We do not want them (the trolley wires and electric wires), if we can help ourselves, anywhere near us."

The Commissioner—"Why?"

A. "There is such a tremendous high current, and even with the best insulation their current escapes and it plays havoc with us. Our current is a very light current, the same as with telegraph companies, but the moment our wires cross one of their wires and becomes 'grounded'—there is danger. The Board of Subway Commissioners of Brooklyn insisted that signal wires should be on one side of a street and the light-bearing and power wires on the other to avoid the possibility of contact." In answer to the Commissioner's question, the operators of these high tension wires acknowledged the danger of high and low tension wires on the same side of a street. Mr. Leslie, representing the Brooklyn Edison Electric Illuminating Company, stated that he should dislike to operate a conduit containing the company's high tension wires and the trolley feeder wires to any great extent. He says: "Our Waterside station generates a current of 6,600 volts, and we have had very few interruptions to these cables carrying that pressure, and I ascribe it to a very considerable extent to the fact that no one could get into these conduits except our own people, who were always careful and who always knew the character of the service being carried on in the conduits." I have alluded at length to this subject, because the rules of the Department forbid high and low tension wires in one subway, and the different companies would not agree to occupy such a subway. Yet the confused intermingling of overhead wires of all descriptions, both high and low tension, presents even worse conditions in the public highways.

The system prevails, wherever there are elevated railroad structures, of stringing wires indiscriminately under such structures, whether they be trolley feeder wires, electric light wires, telephone or telegraph wires, despite the dangers which the operators of the various companies say exist where the wires are brought into close proximity in subways. The peril to passersby along the street is obvious under this method of procedure. Furthermore, it is a fact admitted by the companies that numerous wires diverge from the elevated structure to pass into properties along the streets; and it frequently happens that electric light wires and telegraph or telephone wires run from the elevated structure to a neighboring house within a very few inches of each other. The danger is less in the case of wires strung upon poles, because the distance between the high tension and the low tension wires where they leave the poles is usually greater than that which prevails where the wires leave the elevated structure. The elevated railroad companies obtain a rental from the various companies which use the elevated structure as a support for their wires. A serious question arises as to the right of the elevated companies to farm out such privileges; the right, however, has been sustained by the courts in so far as to authorize these companies to permit telegraph companies to string their wires under the structure.

Inspection of the maps which some of the companies have submitted to me, upon which are delineated the streets in which they now have trolley and trolley feeder wires suspended, or electric light wires or telephone or telegraph wires as the case may be, shows that an enormous mass of overhead wires of all descriptions is to be found all over the borough. The Brooklyn Rapid Transit Company, on November 1, 1901, had 655.8 miles of aerial electrical trolley feeder wires alone, and this number has not been diminished since. It maintains 382.02 miles of trolley railroad within the Borough of Brooklyn, and 433.9 miles of railroad in all. The Coney Island Railroad Company has 19.59 miles of aerial electrical trolley feeder wires and operates 23.6 miles of railroad. The Edison Electrical Illuminating Company has declined to state how many miles of aerial electrical conductors it operates within the borough; but, as it claims the right to maintain overhead conductors, under franchises, which it alleges cover the entire borough (a subject which will be discussed later), it is to be presumed that it maintains a large mileage of overhead wires. The New York and New Jersey Telephone Company has 8,974 miles of aerial electrical conductors; the Postal Telegraph-Cable Company 69 miles of such conductors; the Western Union Telegraph Company 500 miles of wires on poles in streets.

The reason why the New York and New Jersey Telephone Company has a greater mileage of aerial conductors than any other of the electrical companies operating in Brooklyn is that its system requires two wires for each telephone installed, to run from the house to the telephone exchange; thus, one telephone a mile and a half from the central office requires three miles of wire. The wires do not carry any perceptible current of electricity and are not dangerous *per se*; and it is the policy of the company, wherever possible, to cable its conductors in place of running separate wires, which greatly reduces the objection to the unsightly conditions arising where large numbers of separate wires are placed on a pole. Were all the company's wires cabled to conform to the size of the trolley feeder cables, it would have only a few more miles of cable than the trolley railroads now operate. It may be said, also, in this connection, that the New York and New Jersey Telephone Company has, according to its statement, already placed 42,211 miles of its conductors in subways within the borough, and it mentions a number of streets from which it could shortly remove the present aerial system.

The telephone and telegraph companies contend that it is inadvisable for them to combine so as to substitute a single subway for the accommodation of their overhead wires, yet it would seem that such a combination is eminently desirable in the public

interest. The only substantial objection raised by any of the low tension companies to combining in subways is the objection to combine their wires with the high tension wires. There is a general concurrence of sentiment among the companies that the policy of building subways and substituting underground conductors in lieu of aerial ones is proper, the only difference, if any, between them and the Department being with respect to the rapidity with which this policy can be carried into execution. In answer to questions respecting the time which it would take, if the companies were to proceed with reasonable expedition, to remove overhead wires, the Brooklyn Rapid Transit Company asserted, with respect to its feeder wires, that they could be replaced underground in the most populous parts of the entire Borough of Brooklyn in three years. The Coney Island Railroad fixes the same time, and the New York and New Jersey Telephone Company a like period. Neither the Western Union nor the Edison Electric Illuminating Company gives any answer to the question, and the Postal Telegraph-Cable Company states that it is "unable to say."

An impression seems to have arisen that the Department was proposing to require the removal from the streets of trolley wires in such a manner as to interfere with the unity of the existing transportation system. Obviously, such a project would be unwise and would meet with popular disapproval, but no such plan has been in mind. The Department proposes merely that the heavy trolley feeder wires, which simple inspection will show any observer, line the sides of numerous streets or run under the elevated structures, shall be removed from their present locations and that trolley feeder electrical conductors shall be placed underground. If an area with a radius of two miles from the bridge be adopted, subways could be built within it before July 1, 1903, and the work already done, although not consecutive in character, but disjointed and finished in spots, is sufficient to indicate that if the plan be steadily pursued, the streets within a radius of two miles from the Brooklyn Bridge can within the course of a year be relieved of this overhead danger.

There is no reason why the electric illuminating wires should not also be removed from a similar area within a like period. Serious questions arise as to the legal right of the Edison Electric Illuminating Company to maintain any overhead wires at all within the Borough of Brooklyn. In answer to inquiries of the Department, the company bases its claim to install and maintain aerial electrical conductors upon a franchise issued to Messrs. Pope, Sewell & Company and Messrs. Charles Cooper & Company, May 19, 1884, by the Common Council of the former City of Brooklyn. The company states in a letter to me of April 30, 1902: "Franchise of 1884 to Charles Cooper & Company and to Pope, Sewell & Company, authorizes overhead wires, so that the Edison Company now owns two franchises for the entire Borough of Brooklyn; one its original franchise of 1888 for an underground system, and the other, the franchise of 1884, originally granted to Cooper & Company and to Pope, Sewell & Company, divided by assignment between the Citizens' Company and the Municipal Company, and again united under the ownership of the Edison Company by the merger of the Citizens' and Municipal Companies into the Edison Company." And later in the same letter, in describing its methods of operation, it says that under the Citizens' and Municipal franchises, the Edison Company has the absolute right "to construct and operate its aerial or overhead electrical conductors," and that under the Kings County and Amsterdam franchises (which it controls) it has the right to construct and operate aerial or overhead electrical conductors only by permission of the Subway Commission or its successors in office. Its absolute claim which is founded upon the franchise granted by the Common Council of Brooklyn, May 19, 1884, seems to me to be in conflict with the statute passed June 14, 1884, chapter 534 of the Laws of 1884, the first paragraph of which is as follows: "All telegraph, telephonic and electric light wires and cables used in any incorporated city of this State, having a population of 500,000 or over, shall hereafter be placed under the surface of the streets, lanes and avenues of said city." Inasmuch as the law has been sustained as constitutional (and I do not find that the first section of it has been repealed), it would seem to me that the Edison Electric Illuminating Company had no authority after the date of the passage of the act to erect poles and string aerial electric light wires, despite said franchise. On May 26 I addressed a letter to the Brooklyn Edison Electric Illuminating Company, calling attention to this enactment, and that it applied to Brooklyn, as Brooklyn then had a population of over 500,000. I have just received reply that the Act of 1884 has been superseded or repealed, and that, if it is still law, the company's franchise is protected as a contract by the provision of the Federal Constitution, prohibiting legislation impairing the obligation of contracts. I do not think the reply valid. I have already stated that I understand the first section of the Act of 1884 to be in force. If the company's franchises are protected against the Act of 1884, the provisions of the revised Charter are nugatory to prevent the continuance of the company's overhead wires. Its franchises were granted conditionally, and if the company have violated the conditions, the franchise would be revocable. But whether the constructions now maintained by said company are illegal or not there can be no question that the company should, as rapidly as practicable, relieve the congested streets of the borough, within the above-described area, from the presence of its aerial constructions. These are a great source of danger in a variety of ways. Strung, as its wires repeatedly are, over or under telegraph and telephone wires on poles of great height, they are in constant danger of being thrown either to the street or into contact with the low tension wires, and the moment such contact occurs and the insulation of the wire is sufficiently abraded, the low tension wire becomes a conductor of the high tension current. Nor is the danger obvious, because the current may be carried miles, and either a pedestrian upon the street or a lineman attempting to repair, at a distance from the point of contact of the wires, receives a shock sufficient to kill or permanently injure, or a current might be carried over low potential conductors into a building, which, not having been safeguarded against the destructive current of a high potential system, would probably be set on fire, as happened in Brooklyn in February last, at No. 504 Hamilton avenue, office of Nelson Bros., according to a report of the New York Board of Fire Underwriters to me.

Under its franchise the Brooklyn Edison Electric Illuminating Company is bound to give the city certain free lamps proportioned in number to its service to private consumers, but if the records at my command are accurate, it fails to fulfill this agreement. It fails, also, to repair the streets of the borough that it opens for the purpose of erecting its poles, and these derelictions should, it seems to me, be considered when it asks to continue to maintain an overhead system that imperils life and property. During the storms of last February it is a well-known fact that poles gave way or wires were unfastened and thrown in a confused and dangerous network upon the streets, that horses were killed, and, in many instances, human life was endangered. Similar if not worse accidents have occurred in the other boroughs of the City where wires of varying potential are suspended overhead.

Repeated complaints have been received from the Fire Department as to the interference with the humane and beneficial work of that Department caused by the presence of these wires in the streets. The firemen are often prevented from raising their ladders; they receive shocks of more or less severity due to the contact of high and low tension wires occasioned in the manner heretofore indicated. And when they find it necessary to cut wires, the entire neighborhood upon that circuit may be left in darkness.

I have recently received a letter from the President of the South Brooklyn Board of Trade which, in speaking of the injury to wires wrought by the heavy storm last winter, says: "Taking Tenth street, for instance, the storm mentioned made such havoc there that the wires are in disorder still." No uniform policy seems to prevail with regard to the extension of the overhead wire system. In some streets regulations of the Subway Commission have been ignored, which prohibited high and low tension wires indiscriminately upon the same side of the street, for poles carrying high and low tension wires exist on the same side of the street to-day; and poles carry an enormous burden of wires, unduly freighted, them and rendering the poles themselves dangerous by reason of the enormous weight attached to them. In some cases the high tension electric light wires run over, and in others, under telephone or telegraph wires upon the same poles or in such a manner that the linemen who have to repair these low tension wires must, in climbing, pass the dangerous high tension wire. Recently, in the Borough of Richmond, the death of one of the repair gang was occasioned by reason of the fact that in the discharge of his duty he had to climb above this dangerous wire; and the complaints in that borough are numerous regarding this kind of construction, which obtains also in the Borough of Brooklyn. The telephone, telegraph and electric light companies are, by the terms of the franchise under which they have a right to construct subways, obligated to furnish ducts for the wires of public departments of the City Government.

To what extent aerial telegraph wires can be subjected to State control may constitute somewhat of a question. There is no doubt that regulative legislation, judiciously enforced, which does not interrupt or seriously inconvenience a telegraph company, does not infringe upon the power of Congress to regulate commerce. Assuming the elevated railway to be an independent post-road of the United States, and

that it has the authority to permit the telegraph companies, which are also arms of Federal commerce, to string their wires under its structure, there still remains certain regulative control in the State over telegraph wires; and the State may require them to be removed from poles and replaced by subway constructions.

The policy which I should advocate is briefly as follows:

That the following classes of overhead wires be removed within an area of two miles from the Brooklyn Bridge:

1. The trolley feeder wires of the Brooklyn Rapid Transit Railroad Company and of the Coney Island and Brooklyn Railroad Company. The Coney Island and Brooklyn Railroad Company has not yet constructed any subways, but there is no reason why it should not at once commence such work. The Brooklyn Rapid Transit Company has already built a number of subways within this area, and within the next year it might easily complete the construction to such an extent as to relieve this portion of the borough from overhead trolley feed wires without incurring a financial burden of too serious a nature.

2. The Edison Electric Illuminating Company should remove its overhead wires from the same area, because it is doubtful whether it has the right to maintain them there at all, and because these wires carry a dangerously high electric current and are one of the most serious menaces to life and property in the borough.

3. The New York and New Jersey Telephone Company should also remove its overhead conductors from the same area because it has already constructed a large amount of subways, and the work which it is proposing to do, if properly carried on, will enable it to achieve this much desired result within the same time, and the telegraph and signal companies should also remove their wires.

The system of subway construction employed by the Brooklyn Edison Company is a solid tube system, consisting of bare copper conductors placed inside of an iron pipe and filled solid with a resinous composition which keeps the conductors rigidly separated and which acts also as an insulator. The rules of this Department forbid the construction of subways of this kind in the future, the greatest objection to such construction being that conductors rigidly installed in a conduit cannot be withdrawn when a short-circuit or breakdown in the conductors occurs, and the only way in which either can be located is by opening the street. This may require the opening of three or four blocks before the point is reached. As the company does not repair the pavements, the system is even more objectionable. A subway of this character could not be used by the City for its own wires, and this constitutes another objection to this form of construction.

In view of the examination and investigation which I have made of this subject, it is apparent to me that the aforesaid companies might readily, within a period of one year, relieve the aforesaid area from these unnecessary overhead wires. I have therefore notified them to commence and prosecute this work in such a manner as to accomplish that end within the said time, assuming that you will concur in the view that such removal is both desirable and practicable.

I make this report to your Honorable Board and beg that you will at an early date, to be determined by you, give a public hearing to all parties interested, including not only the companies, but the inhabitants of the Borough of Brooklyn; to the end that the sanction of your Board may be added to the notice which I have given, and that these unsightly and highly dangerous incumbrances may be removed from the highways of the borough within the aforesaid time, or as early as practicable thereafter.

Very respectfully yours,

J. HAMPDEN DOUGHERTY,  
Commissioner of Water Supply, Gas and Electricity.

The Mayor moved that a public hearing be fixed for Friday, July 25, at 11 o'clock a. m., which motion was adopted by the following vote:

#### BOARD OF ESTIMATE AND APPORTIONMENT.

##### (PUBLIC IMPROVEMENTS.)

A meeting of the Board of Estimate and Apportionment of The City of New York was held in the old Council Chamber (Room 16), City Hall, on Friday, July 11, 1902, at 10.30 o'clock a. m.

Present—The Mayor, Comptroller, President of the Board of Aldermen, President of the Borough of Manhattan, President of the Borough of Brooklyn, President of the Borough of The Bronx, President of the Borough of Queens, and President of the Borough of Richmond.

The Mayor, Hon. Seth Low, presided.

After the consideration of financial matters, the Board took up the consideration of public improvements.

#### REDUCTION OF ASSESSMENTS.

The Mayor announced that all matters relating to the reduction of assessments, involving a modification of the action of the Board of Public Improvements, would be laid over, pending a decision in the injunction proceedings.

#### REDUCTION OF ASSESSMENT ON PARK, ONE HUNDRED AND FORTY-THIRD STREET AND

##### MORRIS AVENUE, BOROUGH OF THE BRONX.

This matter was laid over pending a decision in the injunction proceedings.

#### REDUCTION OF ASSESSMENT ON EAST ONE HUNDRED AND THIRTY-SECOND STREET,

##### BOROUGH OF THE BRONX.

Hearing was opened in this matter. After hearing the Hon. Charles L. Gny in support of the petition, the Comptroller moved that the petition be denied, which motion was adopted by the following vote:

Affirmative—The Mayor, President of the Board of Aldermen, Comptroller, President of the Borough of Manhattan, President of the Borough of Brooklyn, President of the Borough of The Bronx, President of the Borough of Queens, and President of the Borough of Richmond—16.

#### CHANGE OF LINES OF NORTHERN AVENUE, BOROUGH OF MANHATTAN.

In the matter of the proposed change of lines and grades of Northern avenue, Borough of Manhattan, a report of the Secretary was read, showing that the matter had been duly advertised for a hearing, as required by law.

Nobody appearing in opposition to the proposed changes, the following resolutions were adopted:

Whereas, At a meeting of this Board, held on the 13th day of June, 1902, resolutions were adopted proposing to alter the map or plan of The City of New York by changing the lines and grades of Northern avenue, from the northerly line of West One Hundred and Eighty-first street to points 784.30 feet and 756.23 feet northerly therefrom, in the Borough of Manhattan, City of New York, and for a meeting of this Board to be held in the Council Chamber (Room 16), City Hall, Borough of Manhattan, on the 11th day of July, 1902, at 11.30 o'clock a. m., at which meeting such proposed change of lines and grades would be considered by this Board, and for a notice to all persons affected thereby, of the aforesaid time and place at which such proposed change of lines and grades would be considered, to be published in the "City Record" for at least ten days continuously, exclusive of Sundays and legal holidays, prior to the 11th day of July, 1902; and

Whereas, It appears from the affidavit of the Supervisor of the City Record that the aforesaid resolutions and notice have been published in the "City Record" for ten days continuously, Sundays and legal holidays excepted, prior to the 11th day of July, 1902; and

Whereas, At the aforesaid time and place a public hearing was given to all persons affected by such proposed change of lines and grades who have appeared, and such proposed change of lines and grades was duly considered by this Board; now therefore be it

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter, deeming it for the public interest to alter the map or plan of The City of New York by changing the lines and grades of Northern avenue, from West One Hundred and Eighty-first street to points 784.30 and 756.23 feet northerly therefrom, in the Borough of Manhattan, City of New York, does hereby favor and approve of the same so as to change the lines and grades of the aforesaid avenue as follows:

Beginning at a point in the northerly line of West One Hundred and Eighty-first street distant 469.62 feet easterly from the northeasterly corner of West One Hundred and Eighty-first street and Boulevard Lafayette, as measured along the northerly line from Boulevard Lafayette.

1st. Thence northerly deflecting 13 degrees 51 minutes and 35 seconds to the right from the northerly prolongation of the radius drawn through the point of beginning for 784.30 feet.

2d. Thence easterly and deflecting to the right 105 degrees 10 minutes and 43 seconds for 62.17 feet.

3d. Thence southerly and deflecting to the right 74 degrees 49 minutes and 17 seconds for 756.23 feet to the northerly line of West One Hundred and Eighty-first street.

4th. Thence westerly along the northerly line of West One Hundred and Eighty-first street on the arc of a circle whose radius is 640 feet for 61.17 feet to the point or place of beginning.

#### Grades.

Beginning at a point in the northerly line of West One Hundred and Eighty-first street and the centre line of Northern avenue, elevation 178.64 feet above city datum. Thence northerly along the centre line of said Northern avenue, distance 769.51 feet, elevation 221.00 feet.

All elevations above city datum.

Resolved, That the foregoing resolution, approving of the above-named proposed change in the map or plan of The City of New York by changing the lines and grades of the above-named avenue, adopted by this Board, together with a statement for its reasons therefor, be transmitted to the Board of Aldermen for its action thereon.

Affirmative—The Mayor, President of the Board of Aldermen, Comptroller, President of the Borough of Manhattan, President of the Borough of Brooklyn, President of the Borough of The Bronx, President of the Borough of Queens, and President of the Borough of Richmond—16.

#### REDUCTION OF ASSESSMENT ON EAST ONE HUNDRED AND FIFTY-THIRD STREET, BOROUGH OF THE BRONX.

#### OPENING PARK IN FOURTEENTH, FIFTEENTH AND SEVENTEENTH WARDS, BOROUGH OF BROOKLYN.

#### REDUCTION OF ASSESSMENT FOR WIDENING ELM STREET, BOROUGH OF MANHATTAN.

#### PURCHASE OF NEW YORK STEAM HEATING COMPANY'S PROPERTY, BOROUGH OF MANHATTAN.

#### WIDENING DELANCEY STREET, BOROUGH OF MANHATTAN.

The above matters were laid over.

3. Thence westerly to the intersection of Centre street or Tompkins avenue, the elevation to be 48.80 feet as heretofore.

All elevations refer to mean high-water datum as established for the Borough of Richmond.

Resolved, That the foregoing resolution, approving of the above-named proposed change in the map or plan of The City of New York, by changing the grades of the above-named street, adopted by this Board, together with a statement of its reasons therefor, be transmitted to the Board of Aldermen for its action thereon.

Affirmative—The Mayor, President of the Board of Aldermen, Comptroller, President of the Borough of Manhattan, President of the Borough of Brooklyn, President of the Borough of The Bronx, President of the Borough of Queens, and President of the Borough of Richmond—16.

## LAYING OUT GRACE CHURCH PLACE, BOROUGH OF RICHMOND.

In the matter of the proposed laying out of Grace Church place, from its present terminus to Simonson place, Borough of Richmond, the report of the Secretary was presented, showing that the matter had been duly advertised as required by law.

Nobody appearing in opposition to the proposed laying out, the following resolutions were adopted:

Whereas, At a meeting of this Board held on the 20th day of June, 1902, resolutions were adopted proposing to alter the map or plan of The City of New York by laying out and extending Grace Church place, from its present terminus to Simonson place, in the Borough of Richmond, City of New York, and for a meeting of this Board to be held in the Council Chamber (Room 16), City Hall, Borough of Manhattan, on the 11th day of July, 1902, at 11 o'clock a. m., at which meeting such proposed laying out and extending would be considered by this Board, and for a notice to all persons affected thereby of the aforesaid time and place at which such proposed laying out and extending would be considered to be published in the "City Record" for at least ten days continuously, exclusive of Sundays and legal holidays, prior to the 11th day of July, 1902; and

Whereas, It appears from the affidavit of the Supervisor of the City Record that the aforesaid resolutions and notice have been published in the "City Record" for ten days continuously, Sundays and legal holidays excepted, prior to the 11th day of July, 1902; and

Whereas, At the aforesaid time and place a public hearing was given to all persons affected by such proposed laying out and extending who have appeared, and such proposed laying out and extending was duly considered by this Board; now therefore be it

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter, deeming it for the public interest to alter the map or plan of The City of New York by laying out and extending Grace Church place, from its present terminus to Simonson place, in the Borough of Richmond, City of New York, does hereby favor and approve of the same, so as to lay out and extend the aforesaid street, as follows:

Beginning at a point on the north line of Grace Church place distant 522 feet 6 inches easterly from the east line of Heberton avenue; thence on the projection easterly of the north line of Grace Church place 24 feet 4 inches; thence deflecting 9 degrees 25 minutes 50 seconds to the north, 105 feet 8½ inches to the west line of Simonson place; thence southerly along the west line of Simonson place 50 feet; thence westerly, and parallel to the last but one mentioned line and 50 feet distant therefrom, 109 feet 8 inches, to a point in the prolongation easterly of the south line of Grace Church place; thence deflecting 9 degrees 25 minutes 50 seconds to the north and on the prolongation of the south line of Grace Church place, 11 feet 11 inches, to a point on the south line of Grace Church place, distant 532 feet 7 inches, easterly from the east line of Heberton avenue; thence northerly on the line bounding Grace Church place on the east, 52 feet 8 inches, to the point or place of beginning.

Resolved, That the foregoing resolution approving of the above-named proposed change in the map or plan of The City of New York by laying out and extending the above-named street adopted by this Board, together with a statement of its reasons therefor, be transmitted to the Board of Aldermen for its action thereon.

Affirmative—The Mayor, President of the Board of Aldermen, Comptroller, President of the Borough of Manhattan, President of the Borough of Brooklyn, President of the Borough of The Bronx, President of the Borough of Queens, and President of the Borough of Richmond—16.

## LAYING OUT SHELL ROAD, BOROUGH OF BROOKLYN.

In the matter of the proposed laying out and extending of Shell road, from Avenue X to Canal avenue, and extending West Sixth street, from Neptune avenue to Sheepshead Bay road, Borough of Brooklyn, the report of the Secretary was presented, showing that the matter had been duly advertised for a hearing.

After hearing Mr. C. S. Voorhees and Mr. Wingate in support of the proposed laying out, nobody appearing in opposition, on motion of the President of the Borough of Brooklyn, the following resolutions were adopted:

Whereas, At a meeting of this Board, held on the 13th day of June, 1902, resolutions were adopted, proposing to alter the map or plan of The City of New York, by locating and laying out Shell road, from Avenue X to Canal avenue, and extending West Sixth street, from Neptune avenue to Sheepshead Bay road, in the Borough of Brooklyn, City of New York, and for a meeting of this Board to be held in the Council Chamber (Room 16), City Hall, Borough of Manhattan, on the 11th day of July, 1902, at 11.30 o'clock a. m., at which meeting such proposed laying out and extending would be considered by this Board, and for a notice to all persons affected thereby, of the aforesaid time and place at which such proposed laying out and extending would be considered, to be published in the "City Record" and the corporation newspapers for at least ten days continuously, exclusive of Sundays and legal holidays, prior to the 11th day of July, 1902; and

Whereas, It appears from the affidavit of the Supervisor of the City Record, and of the publishers of the corporation newspapers, that the aforesaid resolutions and notice have been published in the "City Record" and the corporation newspapers for ten days continuously, Sundays and legal holidays excepted, prior to the 11th day of July, 1902; and

Whereas, At the aforesaid time and place, a public hearing was given to all persons affected by such proposed laying out and extending who have appeared, and such proposed laying out and extending was duly considered by this Board; now, therefore, be it

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter, deeming it for the public interest to alter the map or plan of The City of New York, by locating and laying out Shell road, from Avenue X to Canal avenue, and extending West Sixth street, from Neptune avenue to Sheepshead Bay road, in the Borough of Brooklyn, City of New York, does hereby favor and approve of the same, so as to lay out and extend the aforesaid street as follows:

The laying out of Shell road consists in laying out a street 70 feet in width, from Avenue X, southerly to Canal avenue, covering and widening the existing Shell road; the lines of Shell road to be connected with West Sixth street at Canal avenue.

The extension of West Sixth street consists in laying out a street between Neptune avenue and Sheepshead Bay, 60 feet wide, making thereby West Sixth street a continuous street from Canal avenue to Sheepshead Bay road.

Resolved, That the foregoing resolution, approving of the above-named proposed change in the map or plan of The City of New York, by laying out and extending the above-named streets, adopted by this Board, together with a statement for its reasons therefor, be transmitted to the Board of Aldermen for its action thereon.

Affirmative—The Mayor, President of the Board of Aldermen, Comptroller, President of the Borough of Manhattan, President of the Borough of Brooklyn, President of the Borough of The Bronx, President of the Borough of Queens, and President of the Borough of Richmond—16.

#### OPENING EAST ONE HUNDRED AND THIRTY-SIXTH STREET, BOROUGH OF THE BRONX.

The matter of opening East One Hundred and Thirty-sixth street, from Locust avenue to the East river, Borough of The Bronx, which was laid over on June 27, was taken up.

After hearing Hon. Charles L. Guy, representing the Port Morris Land and Improvement Company, in opposition to the proposed opening unless the City would bear fifty per cent. of the cost, and Mr. J. H. Shipway in support of the proposed opening, the following resolutions were adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 970 of the Greater New York Charter, deems it for the public interest that the title to the lands and premises required for the opening and extending of East One Hundred and Thirty-sixth street, from Locust avenue to the East river, in the Borough of The Bronx, City of New York, should be acquired by The City of New York.

Resolved, That the Board of Estimate and Apportionment, deeming it for the public interest so to do, hereby requests the Corporation Counsel to make application to a Special Term of the Supreme Court for the appointment of Commissioners of Estimate and Assessment, and to take the necessary proceedings, in the name of The City of New York, to acquire title, whenever the same has not heretofore been acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending East One Hundred and Thirty-sixth street, from Locust avenue to the East river, in the Borough of The Bronx, City of New York.

Resolved, That the entire cost and expense of said proceedings shall be assessed upon the property deemed to be benefited thereby.

Affirmative—The Mayor, President of the Board of Aldermen, Comptroller, President of the Borough of Manhattan, President of the Borough of Brooklyn, President of the Borough of The Bronx, President of the Borough of Queens and the President of the Borough of Richmond—16.

#### OPENING SPUYTEN DUYVIL ROAD.

In the matter of the application of the Commissioners of Estimate and Assessment for the opening of Spuyten Duyvil road for authority to file a preliminary report of awards, the Comptroller moved that copies of the papers be sent to each member of the Board and that the matter be laid over, which motion was adopted.

#### CHANGE OF GRADE OF FLATBUSH AVENUE, BOROUGH OF BROOKLYN.

JUSTIN MCCARTHY, Jr., Secretary.

BOARD OF ESTIMATE AND APPORTIONMENT,  
CHIEF ENGINEER'S OFFICE, CITY HALL,  
NEW YORK, July 9, 1902.

#### Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—The accompanying resolution of the Local Board of the Flatbush District initiates proceedings for changing the grade of Flatbush avenue, between East Twenty-sixth street and Nostrand avenue. The proposed change is recommended for the reason that it conforms closely with improvements made years ago and also with the surface railroad tracks occupying the street. It is proposed to improve the street by regulating, grading and paving with asphalt, and to improve it according to the present grades would involve considerable damage to abutting property, which would be avoided by changing the grade. A technical description, with a map, for a public hearing are herewith submitted.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter, proposes to alter the map or plan of The City of New York by changing the grade of Flatbush avenue, between East Twenty-sixth street and Nostrand avenue, in the Borough of Brooklyn, City of New York, more particularly described as follows:

Beginning at the intersection of East Twenty-sixth street (east), the elevation to be 23.88 feet, as heretofore;

1. Thence southerly to the intersection of Avenue F (west), the elevation to be 21.5 feet;
2. Thence southerly to the intersection of Avenue G (west), the elevation to be 18.2 feet;
3. Thence southerly to the intersection of Avenue G (east), the elevation to be 19.2 feet;
4. Thence southerly to the intersection of Nostrand avenue, the elevation to be 22.81 feet, as heretofore.

All elevations refer to mean high-water datum as established by the Department of Highways, Borough of Brooklyn.

Resolved, That the President of the Borough of Brooklyn cause to be prepared for submission to this Board three similar maps or plans for certification and filing, in the manner required by law, showing as nearly as possible the nature and extent of the proposed change of grade of the above-named street, and the location of the immediate adjacent or intersecting open or established public streets, avenues, roads, squares or places, sufficient for the identification and location thereof.

Resolved, That this Board consider the proposed change of grade of the above-named street at a meeting of this Board to be held in the Council Chamber (Room 16), City Hall, Borough of Manhattan, on the 25th day of July, 1902, at 11 o'clock a. m.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby, that the proposed change of grade of the above-named street will be considered at a meeting of this Board to be held at the aforesaid time and place, to be published in the "City Record" and corporation newspapers for ten days continuously, Sundays and legal holidays excepted, prior to the 25th day of July, 1902.

Affirmative—The Mayor, President of the Board of Aldermen, Comptroller, President of the Borough of Manhattan, President of the Borough of Brooklyn, President of the Borough of The Bronx, President of the Borough of Queens and the President of the Borough of Richmond—16.

#### CHANGE OF GRADE OF RUTLAND ROAD, BOROUGH OF BROOKLYN.

The following communication from the President of the Borough of Brooklyn and report from the Chief Engineer were presented:

CITY OF NEW YORK—BOROUGH OF BROOKLYN,  
OFFICE OF THE PRESIDENT OF THE BOROUGH.

#### Board of Estimate and Apportionment:

GENTLEMEN—You are hereby notified that at a meeting of the Local Board of the Flatbush District, held June 26, 1902, a resolution, of which the annexed is a copy, was adopted, and that it is duly approved by me according to law:

Resolved, That the Local Board of the Flatbush District, Borough of Brooklyn, this 26th day of June, 1902, hereby amends the following resolution adopted May 8, 1902:

"Resolved, That the Local Board of the Flatbush District, Borough of Brooklyn, after hearing had this 8th day of May, 1902, deeming it for the public interest so to do, hereby determines to initiate proceedings to alter the map or plan of The City of New York by changing the grade of Rutland road, between Rogers avenue and Nostrand avenue, in the Borough of Brooklyn, to conform to the change in grade as provided for in profile submitted for change of grades of Rogers and Nostrand avenues.

"Resolved, That this resolution be forwarded to the Board of Estimate and Apportionment"

—by extending the limits to read as follows:

Resolved, That the Local Board of the Flatbush District, Borough of Brooklyn, after hearing had this 26th day of June, 1902, deeming it for the public interest so to do, hereby determines to initiate proceedings to alter the map or plan of The City of New York by changing the grade of Rutland road, between Bedford avenue and New York avenue, in the Borough of Brooklyn, to conform to the change in grade as provided for in the profile submitted for change of grades of Rogers and Nostrand avenues.

Resolved, That this resolution be forwarded to the Board of Estimate and Apportionment for its approval.

#### Enclosure:

(1) Copy of letter from the Secretary to the Board of Estimate and Apportionment.

Approved by me this 1st day of July, 1902.

J. EDW. SWANSTROM, President of the Borough of Brooklyn.

The above resolution was on 1st day of July, 1902, approved by the President of the Borough of Brooklyn.

#### Attest:

JUSTIN MCCARTHY, Jr., Secretary.

BOARD OF ESTIMATE AND APPORTIONMENT,  
CHIEF ENGINEER'S OFFICE, CITY HALL.

NEW YORK, July 9, 1902.

#### Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—The accompanying resolution of the Local Board of the Flatbush District, passed June 26, 1902, provides for changing the grade of Rutland road, between Bedford and New York avenues, in the Borough of Brooklyn. This is an amendment of a resolution adopted by the same Local Board on May 8. In accordance with recommendation presented to the Board on June 20, the change of grade is necessitated by proposed changes in the grades of Rogers and Nostrand avenues at Rutland road, and is recommended for the reason that it will meet existing conditions better than the present legal grade.

A technical description and plan for a public hearing are herewith submitted.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter, proposes to alter the map or plan of The City of New York by changing the grade of Rutland road, between Bedford avenue and New York avenue, in the Borough of Brooklyn, City of New York, more particularly described as follows:

Beginning at the intersection of Rutland road and Bedford avenue, the elevation to be 60.9 feet, as heretofore.

1. Thence easterly to a point distant 185.0 feet from the eastern side line of Bedford avenue, the elevation to be 62.0 feet;
2. Thence easterly to the intersection of Rogers avenue, the elevation to be 58.5 feet;
3. Thence easterly to the intersection of Nostrand avenue, the elevation to be 55.5 feet.
4. Thence easterly to the intersection of New York avenue, the elevation to be 47.3 feet, as heretofore.

All elevations refer to mean high-water datum as established by the Bureau of Highways, Borough of Brooklyn.

Resolved, That the President of the Borough of Brooklyn cause to be prepared for submission to this Board three similar maps or plans for certification and filing in the manner required by law, showing as nearly as possible the nature and extent of the proposed change of grade of the above-named street, and the location of the immediate adjacent or intersecting open or established public streets, avenues, roads, squares or places, sufficient for the identification and location thereof.

Resolved, That this Board consider the proposed change of grade of the above-named street at a meeting to be held in the Council Chamber (Room 16), City Hall, Borough of Manhattan, on the 25th day of July, 1902, at 11 o'clock a. m.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby, that the proposed change of grade of the above-named street will be considered at a meeting of this Board, to be held at the aforesaid time and place, to be published in the "City Record" and the corporation newspapers for

ten days continuously, Sundays and legal holidays excepted, prior to the 25th day of July, 1902.

Affirmative—The Mayor, President of the Board of Aldermen, Comptroller, President of the Borough of Manhattan, President of the Borough of Brooklyn, President of the Borough of The Bronx, President of the Borough of Queens and the President of the Borough of Richmond—16.

**Bronx Approach to Willis Avenue Bridge.**

The following report from the Chief Engineer was presented, and on motion of the Mayor the matter was laid over for one week and the papers referred to the Comptroller:

BOARD OF ESTIMATE AND APPORTIONMENT,  
CHIEF ENGINEER'S OFFICE, CITY HALL.  
July 9, 1902.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—In the matter of acquiring title to the property in the Borough of The Bronx for an additional approach to the Willis Avenue Bridge, the same being bounded by Willis Avenue, Southern Boulevard, Brown place and East One Hundred and Thirty-second street, I beg to present the following report supplementing one previously made to you on June 25, 1902: By resolution of the Board of Public Improvements, adopted on February 14, 1900, and subsequently approved by the Board of Aldermen, the Council and the Mayor, this entire block was designated on the map of the City as land to be used for the purpose of this approach.

As already reported to you, the steps necessary to secure title to the land were never completed, owing to the failure of the former Board of Estimate and Apportionment to determine whether it was necessary to purchase the whole block or to secure only sufficient land for construction purposes. The proposed structure is about 615 feet long and 68 feet wide; it starts from a point on the south side of the Southern Boulevard, about 500 feet east of Willis Avenue, and joins the present structure about on the north line of One Hundred and Thirty-second street. The block proposed to be taken is 820 feet long and 200 feet wide, and, including half of the width of One Hundred and Thirty-second street, comprises 65 lots, having an assessed value of \$136,000.

I find that by the purchase of 33 lots, having an assessed valuation of not more than \$74,000, a clear space of at least 32 feet can be secured between the lines of the structure and the boundary of adjoining property, which latter property under the present plan for the approach can be of no possible use in providing access, and which, if bought, should be considered as park land. The location immediately adjoins the yards of the New York, New Haven and Harlem Railroad Company, and for this reason can offer but little attraction for park purposes.

I would recommend that the condemnation proceedings be limited to cover the 33 lots actually required, and that the City may be amended by eliminating from the approach as laid out the remaining lots which will not be required for bridge purposes, the same comprising the parcel of land 100 feet wide on the southerly side of the Southern Boulevard, extending from Willis Avenue to a line 350 feet easterly therefrom, and also all of that portion of the block less than 245 feet distant westerly from Brown place. The title to East One Hundred and Thirty-second street, which adjoins the property to be taken, and to the centre line thereof, should be secured for the approach.

Respectfully,  
NELSON P. LEWIS, Chief Engineer.

The following communication from the Corporation Counsel was placed on file, and the Secretary was directed to forward copies to the members of the Board:

LAW DEPARTMENT, OFFICE OF THE CORPORATION COUNSEL.  
NEW YORK, July 3, 1902.

To the Board of Estimate and Apportionment:

GENTLEMEN—I have received a letter from your Secretary dated June 3, 1902, to the effect that at a meeting of the Board of Estimate and Apportionment, held on May 20, 1902, a resolution of the Local Board of Morrisania was presented for approval providing for the regulating, grading and otherwise improving of Crescent Avenue, from Arthur Avenue to East One Hundred and Eighty-seventh street, including the planting of trees on the sidewalks.

A question having arisen as to what is the effect of chapter 453 of the Laws of 1902, giving to the Park Department jurisdiction over the planting and maintenance of trees, the following resolution was adopted:

"Resolved, That the Secretary send a copy of this proposed resolution as to the regulating, grading, etc., of Crescent Avenue to the Corporation Counsel and ask him whether or not the planting of trees can be lawfully included in assessment work under the jurisdiction of the Borough President, in view of the provisions of chapter 453 of the Laws of 1902."

A copy of the resolutions of the Local Board initiating the proceedings, and a copy of the resolution of the Board of Estimate and Apportionment approving the same, were forwarded by your Secretary, with the request that I give the Board the information called for in the resolution quoted above.

The general object of chapter 453 of the Laws of 1902 was to put under the jurisdiction and control of the Park Board the preservation, planting and cultivation of trees and vegetation in the streets of the City, doubtless with the object of securing uniformity and to avoid the undesirable results that would doubtless follow if the location and kind of trees that should be placed were left to the decision of many different individuals who would often be without expert knowledge in such matters.

I think the act should be construed to mean that the planting and cultivation of trees and other forms of vegetation in the streets is now placed in the control of the Park Department, and hence that other Departments have no authority to plant trees in the streets.

I advise, therefore, that, in future, resolutions of Local Boards purporting to authorize the planting of trees in streets, and to lay assessments therefor, should not be approved by the Board of Estimate and Apportionment. If there is any doubt upon the subject, this is certainly the safer course.

The item for tree planting in a given improvement would generally be small, and it is, in my opinion, unwise to endanger the whole assessment by including therein a small item for the planting of trees.

It is to be observed also that it is provided in chapter 453 of the Laws of 1902 that the Park Board may, on the written application of any land owner, plant and cultivate trees on the streets adjoining his land, and charge for such service an amount not to exceed the actual cost to the Department for labor and materials.

This act has also the following clause:

"Whenever the President of a borough shall request the Park Board in writing to plant trees in any street in his jurisdiction said Board shall forthwith comply, provided the conditions are found to be favorable for the growth of trees."

Respectfully yours,  
G. L. RIVES, Corporation Counsel.

The following resolution of the Local Board of Jamaica, Borough of Queens, and copy of opinion from the Corporation Counsel were presented, and, on motion of the Comptroller, the matter was referred to the Chief Engineer for a report:

Whereas, The old Village of Jamaica prior to consolidation raised funds for the construction of sewers and other improvements, among which was one for the construction of a sewer in Lincoln Avenue, from the Rockaway road to within 1,400 feet of the commencement of the brick sewer, in Jamaica, Fourth Ward, Borough of Queens; and

Whereas, Contract for said Lincoln Avenue sewer was awarded to one James F. Gillon, who failed to complete said sewer in accordance with the terms of his contract; and

Whereas, There is urgent necessity for the completion of said sewer to connect the sewerage system of the old Village of Jamaica, in the Fourth Ward of the Borough of Queens, with the disposal plant; therefore be it

Resolved, That the Jamaica Local Board of Improvements, of the Borough of Queens, in meeting assembled on July 10, 1902, do hereby authorize the building and construction of the Lincoln Avenue sewer, in the Fourth Ward of the Borough of Queens, and the President of the Borough of Queens is hereby authorized to have the aforesaid sewer constructed, subject to the consent of the Board of Estimate and Apportionment.

Estimated cost, \$10,500.

Assessed value of property within probable area of assessment, \$5,000,000.

This is to certify that the foregoing is a true copy of a resolution as adopted by the Jamaica Board of Local Improvements of the Borough of Queens at its meeting held July 10, 1902.

GEORGE S. JERVIS,  
Secretary of the Board of Local Improvements  
of the Jamaica District, Borough of Queens.

Approved by me this 11th day of July, 1902.

JOS. CASSIDY, President of the Borough of Queens.

LAW DEPARTMENT, OFFICE OF CORPORATION COUNSEL.  
NEW YORK, June 28, 1902.

Hon. JOSEPH CASSIDY, President of the Borough of Queens:

SIR—I am in receipt of your letter of May 12, 1902, requesting my opinion respecting the letting of a contract for the laying of a pipe sewer in Lincoln Avenue, in the former Village of Jamaica, now in the Fourth Ward of the Borough of Queens.

The facts in your letter, and such others as have been ascertained by inquiries made in the Department of Finance, are as follows:

On March 9, 1897, pursuant to the provisions of chapter 375 of the Laws of 1889, as amended, the Sewer Commissioners of the Village of Jamaica were authorized at a special election to construct a system of sewerage and disposal works, the cost of which they thereafter determined should be a general charge upon the village. In order to pay the expenses of construction they subsequently caused to be issued and sold bonds to the amount of \$150,000, from which they derived a fund of \$159,299.91. On April 28, 1897, they entered into a contract with James F. Gillon for the construction of the work. Up to December 1, 1897, said Gillon performed work under this contract amounting, according to the Engineer's certificate, to \$125,799.48, of which \$100,639.53 was paid to the contractor, and the balance, amounting to \$25,159.95, retained under the contract. Other work in addition to that covered by the Engineer's certificate was performed by Gillon up to December 31, 1897, amounting to \$11,831.94, so that the balance then remaining unpaid on the contract was \$36,991.36.

On December 30, 1897, the Sewer Commissioners resolved to make no additional payments on the contract until further examination of the work, which had been reported defective by the Engineer. On May 22nd, 1898, the Sewer Commissioner of The City of New York notified Gillon that he had failed to complete his contract and that in default of his so doing he would proceed under the contract to complete the work and charge the cost thereof to the account of Gillon. Under date of July 22nd, 1898, the Deputy Commissioner of Sewers of the Borough of Queens was instructed to proceed under the contract and the provisions of the Charter to invite proposals for completing the work. This was done and a contract was executed November 28th, 1898, with Joseph Caccavajo & Co. for the taking up and relaying of 3,308 feet of 24-inch cement pipe sewer, commencing at the Rockaway road and running in a westerly direction along Lincoln Avenue to the brick sewer.

On December 1st, 1898, the said Joseph Caccavajo & Co. were instructed to proceed with the work, and they accordingly did so, but subsequently, and on December 20th, 1898, were notified to discontinue it until the contract awarded them had been certified by the Comptroller. The work was then discontinued until August, 1900. During this period James F. Gillon brought action to recover the balance withheld from him upon the contract first above referred to, and Joseph Caccavajo & Co. filed a claim for damages alleged to have been suffered through the suspension of the work, caused by the delay in certification of the contract, and began an action to recover such damages. At this point, as reported by the Comptroller, there was a balance of the fund turned over to him by the Sewer Commissioners of Jamaica, applicable to the payment of the expenses of the construction of the sewer system and disposal works, amounting to \$41,701.15. In August, 1900, the claim of Joseph Caccavajo & Co. was adjusted by the Comptroller at the sum of \$4,282.53, and this amount paid out of the said balance, and the contract of November 28th, 1898, was then certified. The contractors then proceeded with the work under this contract, but were again stopped in October, 1900, and two months later a supplementary contract was executed with them which provides for the substitution of sewer pipe of a different kind for that specified in the Gillon contract. The contractors then again proceeded under the original contract of November 28th, 1898, and this supplementary contract, so far as to take up and relay 1,324 feet of pipe, and then abandoned the work.

On the 30th day of April, 1902, the executor of James F. Gillon, who had been substituted upon his death as plaintiff in the pending action brought upon the contract first above referred to, recovered judgment against The City of New York upon that contract for the sum of \$45,279.92.

Upon this state of facts you have advertised and accepted bids for the completion of the work unfinished by the said Joseph Caccavajo & Co., and you now request me to advise you whether the contract to be executed by you for the completion of such work is payable out of the balance withheld from the said James F. Gillon. I understand this to be an inquiry as to whether under section 149 of the Charter, and in view of the recovery of the Gillon judgment, the sum withheld from him remains as a balance unexpended and unapplied of the appropriation or fund applicable to such contract sufficient to pay the estimated expense of executing the same, as shall be certified by you.

The balance of the sewer fund unexpended at the time of the certification of the contract of Joseph Caccavajo & Co. was, as above stated, \$41,701.15. Since that time payments have been made out of that balance to Joseph Caccavajo & Co. and for the purchase of sewer pipe, and the executor of James F. Gillon has recovered a judgment against the City upon his contract for an amount largely in excess of what remains. The existence of a balance of a fund applicable to a certain work can only be predicated upon a surplus over and above liabilities already incurred or authorized to be incurred upon account of it. Whatever doubt existed before the recovery of the Gillon judgment, as to whether his claim was in fact a liability operating to reduce or extinguish the balance unexpended of the fund applicable to the work, is resolved by the recovery of that judgment, and the fund should be deemed to be applied to its discharge, and reduced or extinguished accordingly.

I am therefore of the opinion that no balance remains of the fund applicable to the cost of the execution of the proposed contract.

You further call my attention to a typographical error in the advertisement for bids for the execution of the unfinished work referred to, consisting of the publication of the words "Linalon", Avenue, instead of "Lincoln" Avenue, and request my opinion as to whether this error would interfere in any way with the awarding of the contract.

Although it may be doubted whether any valid claim of irregularity could be based upon this error, in view of the improbability that any one could have been deceived by it when read in connection with other parts of the same advertisement, still in a case of this character, where the letting of the contract was in part to fix the liability of the previous contractor, who had abandoned the work, it would be injudicious to leave open any opportunity for the making of such a claim.

I accordingly advise you that the proposal should in any case be readvertised.

Respectfully,  
G. L. RIVES, Corporation Counsel.

The following communication from the President of the Borough of Queens and report of the Chief Engineer were presented, and the matter was referred back to the President of the Borough to procure evidences of dedication:

Local Board, Newtown District.

Hon. SETH LOW, Chairman, Board of Estimate and Apportionment:

DEAR SIR—In accordance with section 384, and pursuant to titles 2 and 3 of the Greater New York Charter, I hereby certify that the following resolution was adopted by the Local Board of Improvements of the Newtown District of the

Borough of Queens, on the petition of J. W. Bennett and others, for the legal opening of Monson street, between Fulton and Franklin streets, First Ward, Borough of Queens. On motion, it was

Resolved, That the Local Board of Improvements of the Newtown District of the Borough of Queens hereby grants said petition; and it is hereby further Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

Adopted by the Local Board of the Newtown District, May 6, 1902, having been first advertised as required by law.

JOS. CASSIDY, President of the Borough of Queens.  
GEO. S. JERVIS, Clerk of the Newtown Board.

BOARD OF ESTIMATE AND APPORTIONMENT,  
CHIEF ENGINEER'S OFFICE, CITY HALL,  
NEW YORK, July 9, 1902.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—The accompanying resolution initiating proceedings for opening Monson street, between Fulton avenue and Franklin street, of the First Ward of the Borough of Queens, was adopted by the Local Board of the Newtown District on May 6, 1902. This block has been thickly built up on the west side, and on the east side is located the High School building. There are no buildings within the lines of the street. The street gives evidence of having been in use for many years. Favorable action upon this petition is recommended.

Respectfully,  
NELSON P. LEWIS, Chief Engineer.

Local Board, Newtown District.

Hon. SETH LOW, Chairman, Board of Estimate and Apportionment:

DEAR SIR—In accordance with section 384, and pursuant to titles 2 and 3 of the Greater New York Charter, I hereby certify that the following resolution was adopted by the Local Board of Improvements of the Newtown District of the Borough of Queens, on the petition of P. Murphy and others, for the legal opening of Trowbridge street, from Van Alst avenue to Willow street, in First Ward, Borough of Queens, according to the lines laid down on a certain map on file in the office of the Queens County Clerk's Office, entitled "Map of fifty-six lots belonging to Henry L. Riker and surveyed in 1847 by Elijah A. Smith." On motion, it was

Resolved, That the Local Board of Improvements of the Newtown District of the Borough of Queens hereby grants said petition; and it is further Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

Adopted by the Local Board of the Newtown District, May 19, 1902, having been first advertised as required by law.

BOARD OF ESTIMATE AND APPORTIONMENT,  
CHIEF ENGINEER'S OFFICE, CITY HALL,  
NEW YORK, July 9, 1902.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—The accompanying petition initiating proceedings for opening Trowbridge street, in the First Ward of the Borough of Queens, between Van Pelt avenue and Willow street, was adopted by the Local Board of the Newtown District on May 10, 1902. The lines of this street have been fixed upon the map and the street itself has been largely built up and has been in actual use for several years. There are no buildings on the property to be acquired. There are evidences of the dedication of the street to public use, and it would seem as though affidavits establishing such a dedication might be secured, thus saving the expense of opening proceedings. If such testimony is not or cannot be supplied, the initiation of opening proceedings is recommended.

Respectfully,  
NELSON P. LEWIS, Chief Engineer.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is returned a copy of a resolution adopted on February 13, 1902, by the Local Board of the Newtown District, initiating proceedings for opening Bradley avenue, from Greenpoint avenue to Howard street, in the First Ward of the Borough of Queens. The length of street covered by their petition is only one block, and the adjoining portion of Bradley avenue north of Greenpoint avenue has either already been opened or the proceedings are still under way. Calvary Cemetery adjoins the block on the east, and the street is and has been subjected to considerable travel. There are no buildings within the limits of the land to be acquired. I would recommend favorable action upon the petition.

Respectfully,  
NELSON P. LEWIS, Chief Engineer.

GEO. S. JERVIS, Clerk of the Newtown Board.

BOARD OF ESTIMATE AND APPORTIONMENT,  
CHIEF ENGINEER'S OFFICE, CITY HALL,  
July 8, 1902.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—The accompanying resolution initiating proceedings for opening Skillman avenue, between Van Pelt street and Woodside avenue, in the First Ward of the Borough of Queens, was adopted by the Local Board of the Newtown District on May 6, 1902. I find that this street is open, and has been for a long period to public travel between Van Pelt and Grove streets, although it is in very bad condition. This portion has at some time in the past been lighted with gas, and at present three arc lamps are in regular use. The road as marked in the ground between the aforesaid limits is of irregular width, and the evidence of dedication to the public and acceptance of the same is probably insufficient to cover the full width of the street. Between Grove street and Woodside avenue there is at present no thoroughfare. Pending a survey it is not possible to state definitely whether or not there are buildings on the land to be acquired.

I would recommend favorable action upon the petition.

Respectfully,  
NELSON P. LEWIS, Chief Engineer.

The following resolution of the Local Board of Newtown, and report of the Chief Engineer were presented:

Local Board, Newtown District.

Resolved, By the Newtown Local Board of Improvements of the Borough of Queens, in meeting assembled on June 2, 1902, that the petition of residents and taxpayers of the First Ward of the Borough of Queens for the establishment of a Public Park on the square bounded by Van Alst, Harris, Paynter and Vernon avenues, in First Ward, Borough of Queens, be and the same hereby is granted; and be it further Resolved, That a certified copy of the foregoing resolution be forwarded to the Board of Estimate and Apportionment for approval, and to the Commissioner of Parks for the Borough of Queens.

This is to certify that the foregoing is a true copy of a petition as presented, and of a resolution as adopted by the Newtown Board of Local Improvements of the Borough of Queens at its meeting held June 2, 1902.

Newtown District, Borough of Queens.

Approved by me this 11th day of July, 1902.

JOS. CASSIDY, President of the Borough of Queens.

BOARD OF ESTIMATE AND APPORTIONMENT,  
CHIEF ENGINEER'S OFFICE, CITY HALL,  
NEW YORK, July 9, 1902.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a copy of a resolution adopted on June 2, 1902, by the Local Board of the Newtown District, initiating proceedings to alter the map or plan of The City of New York by laying out a Public Park in the First Ward of the Borough of Queens, and comprising the eighteen (18) blocks bounded by Van Alst, Harris, Paynter and Vernon avenues. This is approximately the site of the "Ravenswood Park" proposed under the original map of Long Island City. The plan was abandoned under the provisions of chapter 644 of the Laws of 1893, and the area was laid out in streets. It is also approximately the site of a park as laid out on a map approved by the late Board of Public Improvements, but which failed to secure the approval of the Common Council. The entire area is rolling, and is largely covered with a good growth of large trees; there are occasional masses of outcropping rock, and the site is as well adapted for development as park land, and probably more so than any other site in the First Ward at equal expense. The tract is crossed by the new bridge over Blackwell's Island, the land for which has already been acquired. From the records of the Commissioners of Taxes and Assessment I find that there are twelve (12) brick and six (6) frame buildings on the land to be taken, and that the whole property is valued for assessment purposes at \$210,770.

I would recommend a favorable consideration of this petition, and that a date be set for a public hearing in the matter.

Respectfully,  
NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter, proposes to alter the map or plan of The City of New York, by laying out a public park in the First Ward of the Borough of Queens, City of New York, bounded by Van Alst, Harris, Paynter and Vernon avenues.

Resolved, That the President of the Borough of Queens cause to be prepared for submission to this Board, three similar maps or plans for certification and filing in the manner required by law, showing as nearly as possible the nature and extent of the proposed laying out of the above-named streets, and the location of the immediate, adjacent or intersecting open or established public streets, avenues, roads, squares or places, sufficient for the identification and location thereof.

Resolved, That this Board consider the proposed laying out of the above-named streets, at a meeting of this Board, to be held in the Council Chamber (Room 16), City Hall, Borough of Manhattan, on the 25th day of July, 1902, at 11 o'clock a. m.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed laying out of the above-named territory will be considered at a meeting of this Board, to be held at the aforesaid time and place, to be published in the "City Record" for ten days continuously, Sundays and legal holidays excepted, prior to the 25th day of July, 1902.

Affirmative—The Mayor, President of the Board of Aldermen, Comptroller, President of the Borough of Manhattan, President of the Borough of Brooklyn, President of the Borough of The Bronx, President of the Borough of Queens and the President of the Borough of Richmond—16.

The following resolution of the Local Board of Newtown and report of the Chief Engineer were presented, and the matter was laid over:

Local Board, Newtown District.

Resolved, By the Newtown Local Board of Improvements of the Borough of Queens, in meeting assembled on June 2, 1902, that the petition of residents and taxpayers of the First Ward of the Borough of Queens for the establishment of a public park on the square bounded by Ninth and Twelfth streets, and Van Alst and East avenues, in the First Ward, Borough of Queens, be and the same hereby is granted, and be it further

Resolved, That a certified copy of the foregoing resolution be forwarded to the Board of Estimate and Apportionment for approval, and to the Commissioner of Parks for the Borough of Queens.

This is to certify that the foregoing is a true copy of a petition as presented, and of a resolution as adopted by the Newtown Board of Local Improvements of the Borough of Queens, at its meeting held June 2, 1902.

GEO. S. JERVIS,  
Secretary of the Board of Local Improvements,  
Newtown District, Borough of Queens.

Approved by me this 11th day of July, 1902.

JOS. CASSIDY, President of the Borough of Queens.

BOARD OF ESTIMATE AND APPORTIONMENT,  
CHIEF ENGINEER'S OFFICE, CITY HALL,  
NEW YORK, July 9, 1902.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—The accompanying resolution, adopted on June 2, 1902, by the Local Board of the Newtown District, provides for the alteration of the map or plan of The City of New York by laying out a public park to occupy the site of the present three (3) blocks bounded by Ninth street, Van Alst avenue, Twelfth street and East avenue, in the First Ward of the Borough of Queens. The streets now laid out across the property have been graded but not otherwise improved; the remainder of the property is flat and bare and is mostly from 3 feet to 5 feet below grade. There is a frame church building at the northwest corner of Tenth street and Van Alst avenue, other than which there are no structures of any sort on the property. This site is four (4) blocks distant from the site of another park recommended by the Local Board and reported upon on this date. With the lack of public lands that now exists in this ward it does not appear desirable to select two sites so close together and practically serving the same sections of the City.

There is a public school on Van Alst avenue, opposite this property, and about the only recommendation that the site offers is the convenient use as a children's playground; for such purpose a much smaller area would be sufficient. The assessed valuation of the property, exclusive of the church building and lots upon which it stands, is \$86,050, and the total valuation will probably be about \$95,000. I cannot recommend the laying out of a park in this locality, but if the Board thinks it wise to do so I will suggest that a public hearing be given.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following report of the Chief Engineer was presented:

July 10, 1902.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—The Board of Estimate and Apportionment having at its meeting on July 8 referred back to the Chief Engineer the matter of the proposed improvement of Prospect avenue, between Fort Hamilton avenue and the deflection near Eleventh avenue, in order that a statement might be prepared showing what portion of the expense the City would be called upon to pay, I beg to submit the following:

An examination of the Tax Books shows that the total assessed value of the property fronting on the street is \$118,000, instead of \$70,300, as stated in the communication to this Board. If the City were to pay so much of the assessments as will be in excess of one-half the assessed value the amount so paid would be about \$15,500; if the City were to pay one-half of the cost of the improvement it would have to contribute \$23,500 out of a total of \$30,600, or \$3,700 more than one-half the total cost. This excess over one-half the total cost is owing to the fact that twenty (20) parcels having an aggregate frontage of about 1,600 feet would be unable to pay even one-half of the assessments on account of the limit fixed by the Charter.

It will be seen, therefore, that if the City deliberately assumes a half the cost of the improvement it will be required to pay \$8,000 more than if it proceeds in accordance with the Charter Law, paying only such portion of the cost as cannot be legally assessed.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

On motion of the President of the Borough of Brooklyn, the following resolution was adopted:

IN BOARD OF ESTIMATE AND APPORTIONMENT.

A copy of a resolution of the Local Board of the Flatbush and Prospect Heights districts, duly approved by said Board on the 8th day of May, 1902, and approved by the President of Brooklyn on the 20th day of May, 1902, having been transmitted to the Board of Estimate and Apportionment, as follows, to wit:

"Resolved, That the Local Board of the Flatbush and Prospect Heights districts, Borough of Brooklyn, after hearing had this 8th day of May, 1902, hereby determines to initiate proceedings to regulate, grade and pave Prospect avenue with granite block pavement, between Fort Hamilton avenue and a point near Eleventh avenue, where it winds and turns, in the Borough of Brooklyn, and to set or reset curb, and pave sidewalks of said street with cement where not already done, and furthermore recommends that the extra cost over and above one-half of the assessed valuation be borne by The City of New York."

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$30,600, and a statement of the assessed value, according to the last preceding taxroll, of the real estate included within the probable area of assessment, to wit, the sum of \$70,300, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized; and this Board does hereby determine that twenty per cent. of the cost and expense thereof shall be borne and paid by The City of New York, and that eighty per cent. of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

Affirmative—The Mayor, President of the Board of Aldermen, Comptroller, President of the Borough of Manhattan, President of the Borough of Brooklyn, President of the Borough of The Bronx, President of the Borough of Queens and the President of the Borough of Richmond—16.

The above-entitled assessment was entered on the date hereinbefore given in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments, and Arrears of Taxes and Assessments and of Water Rents. Unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessment, interest will be collected thereon, as provided in section 1006 of the Greater New York Charter.

Said section provides that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides \* \* \* "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessment is payable to the Collector of Assessments and Arrears, at the Bureau for the Collection of Assessments, and Arrears of Taxes and Assessments and of Water Rents, in the Municipal Building, corner of One Hundred and Seventy-seventh street and Third avenue, Borough of The Bronx, between the hours of 9 A. M. and 2 P. M., and on Saturdays from 9 A. M. to 12 M., and all payments made thereon on or before November 17, 1902, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when above assessment became a lien to the date of payment.

### NOTICE TO TAXPAYERS.

DEPARTMENT OF FINANCE, BUREAU FOR THE COLLECTION OF TAXES, NEW YORK, September 1, 1902.

**TAXPAYERS WHO DESIRE TO OBTAIN** bills promptly should make immediate written requisition (blanks may be procured in the borough offices), stating their property by Section or Ward, Block and Lot or Map Number, making copy of same from their bills of last year.

If a taxpayer is assessed for personal tax, the requisition should also request bill for such tax.

Each requisition should be accompanied by an envelope bearing the proper address of the applicant and with return postage prepaid.

In case of any doubt in regard to Ward, Section, Block or Lot Number, taxpayers should take their deeds to the Department of Taxes and Assessment and have their property located on the maps of that Department, and forward to the Deputy Receiver of Taxes, with the requisition, a certified memorandum of their property, which will be furnished by the Department of Taxes and Assessment.

Taxpayers in this manner will receive their bills returned by mail at the earliest possible moment and avoid any delay caused by waiting on lines, as is required in case of personal application.

The requisition must be addressed and mailed to the Deputy Receiver of Taxes in whichever borough the property is located, as follows:

John J. McDonough, No. 57 Chambers street, Borough of Manhattan, New York.

John B. Underhill, corner Third and Tremont avenues, Borough of The Bronx, New York.

Jacob S. Van Wyck, Municipal Building, Borough of Brooklyn, New York.

**NOTICE IS HEREBY GIVEN THAT THE** Board of Estimate and Apportionment of The City of New York, deeming it for the public interest so to do, proposes to alter the map or plan of The City of New York by widening WESTCHESTER AVENUE at TRINITY AVENUE, in the Twenty-third Ward, Borough of The Bronx, City of New York, and that a meeting of said Board will be held in the Old Council Chamber (Room 16), City Hall, Borough of Manhattan, City of New York, on the 3d day of October, 1902, at 2:30 o'clock p. m., at which such proposed widening will be considered by said Board, all of which is more particularly set forth and described in the following resolutions adopted by said Board on the 12th day of September, 1902, notice of the adoption of which is hereby given, viz:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter, deeming it for the public interest so to do, proposes to alter the map or plan of The City of New York by widening Westchester Avenue at Trinity Avenue, in the Twenty-third Ward, Borough of The Bronx, City of New York, more particularly described as follows:

Beginning at a point on the northern line of Westchester Avenue, distant 181.01 feet easterly from the intersection of said line with the eastern line of Cauldwell Avenue.

1. Thence easterly along the northern line of Westchester Avenue for 64.40 feet to the western line of Trinity Avenue.
2. Thence northerly along last-mentioned line for 18.75 feet.
3. Thence westerly for 71.71 feet to the point of beginning.

Resolved, That the President of the Borough of The Bronx cause to be prepared for submission to this Board three similar maps or plans for certification and filing in the manner required by law, showing as nearly as possible the nature and extent of the proposed widening and the location of the immediate adjacent or intersecting open or established streets, roads, squares, or places, sufficient for the identification and location thereof.

Resolved, That this Board consider the proposed widening at a meeting of this Board, to be held in the Old Council Chamber (Room 16), City Hall, Borough of Manhattan, City of New York, on the 3d day of October, 1902, at 2:30 o'clock p. m.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed widening will be considered at a meeting of the Board, to be held at the aforesaid time and place, to be published in the "City Record" for ten days continuously, Sundays and legal holidays excepted, prior to the 3d day of October, 1902.

J. W. STEVENSON, Secretary.

OFFICE OF THE PRESIDENT OF THE BOROUGH OF MANHATTAN, CITY HALL, THE CITY OF NEW YORK, September 19th, 1902.

### NOTICE OF SALE AT PUBLIC AUCTION.

THE PRESIDENT OF THE BOROUGH OF Manhattan will sell at public auction, through Bryan L. Kennelly, Auctioneer, to the highest bidder, on 2d day of October, 1902, at 12 o'clock m., on the premises, all the buildings and parts of buildings and existing structures, with all the materials in or appurtenant thereto, then contained within the following described parcels or land, situate in the Borough of Manhattan, in the City of New York, to wit:

PARCEL A: NOS. 347 AND 349 WEST FORTY-FIRST STREET, BOROUGH OF MANHATTAN.

The said buildings and parts of buildings and existing structures above referred to will be sold in one (1) lot or parcel, and only on condition that the purchaser enter into a contract to remove the said buildings, structures, or parts thereof, and all materials comprising the same, including the tin, sheet iron, pipes and refuse therein and therefrom and that he give or furnish a bond in an amount equal to twice the amount bid for the buildings so sold, and in such form and with such securities as may be

required or may be approved by the President of the Borough, to perform all the terms and conditions in the said contract contained, or contained in the specifications which are and are to be considered a part hereof.

The whole of the purchase price bid shall be paid by the successful bidder in cash or bankable funds at the time of the sale, which sale will be made in conformity with this advertisement, the contract, specifications, and bond, copies of which may be obtained at the office of the President of the Borough, Room No. 16, City Hall, where any further information may be obtained.

(Signed) JACOB A. CANTOR,

### TO CONTRACTORS.

**CONTRACT FOR THE FINAL DISPOSITION OF ASHES, STREET SWEEPINGS AND RUBBISH AND LIGHT REFUSE IN THE BOROUGH OF BROOKLYN.**

**SEALED BIDS OR ESTIMATES FOR THE** above work, indorsed with the title, also the name of the person or persons making the estimate and the date of presentation, will be received at the Main Office of the Department of Street Cleaning, Nos. 13-21 Park Row, Borough of Manhattan, until 1 o'clock p. m. of

MONDAY, OCTOBER 13, 1902,

at which time and place the bids will be publicly opened by the head of the Department and read.

The amount of the security will be sixty thousand (\$60,000) dollars. The period of the contract will be for five years from the date of the execution of the contract and the completion of the work.

Each bid or estimate must be accompanied by a certified check on a solvent banking corporation in The City of New York, payable to the order of the Comptroller, for five per centum of the amount for which the work bid for is proposed in any one year to be performed.

The check should be enclosed in the envelope. From the bids so received the Commissioner may select the bid or estimate, the acceptance of which will, in his judgment, best secure the efficient performance of the work, or he may reject any or all of the said bids, as provided by section 544 of the Greater New York Charter as amended.

The plant must be complete, and the work must begin within nine (9) months from the execution of the contract, and bidders must specify in their bids the time within which they will be ready to begin the work.

Bidders are requested to make their bids or estimates upon the blank form prepared by the Commission, a copy of which, with the proper envelope in which to enclose the bid, together with a copy of the contract, including the specifications in the form approved by the Corporation Counsel and containing the terms approved by the Board of Estimate and Apportionment, can be obtained upon application therefor at the office of the said Commissioner.

## SECOND DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired, to the lands required for the opening and extending of BLACKWELL STREET (although not yet named by proper authority), from Broadway to Graham avenue, in the First Ward, Borough of Queens, in The City of New York.

WE, THE UNDERSIGNED, COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants, of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First.—That we have completed our estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby and having objections thereto, do present their said objections in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 15th day of October, 1902, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 17th day of October, 1902, at 2 o'clock, p. m.

Second.—That the abstract of our said estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making our report, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said city, there to remain until the 27th day of October, 1902.

Third.—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Queens, in The City of New York, which, taken together, are bounded and described as follows, viz:

Beginning at the point of intersection of the middle line of the blocks between Pierce avenue and Graham avenue and the middle line of the blocks between Bartow street and Blackwell street, running thence northerly along said last mentioned middle line of the blocks to its intersection with the middle line of the blocks between Jamaica avenue and Broadway; thence easterly along said middle line of the blocks, between Jamaica avenue and Broadway, to its intersection with the middle line of the blocks, between Blackwell street and Pomeroy street, thence southerly along said middle line of the blocks, between Blackwell street and Pomeroy street, to the middle line of the blocks between Graham avenue and Pierce avenue; thence westerly along said middle line of the blocks between Graham avenue and Pierce avenue, to the point or place of beginning, as such streets are shown on the Commissioners' map of Long Island City, filed in the office of the County Clerk of Queens County, Jamaica, on the 23rd day of April, 1873.

Fourth.—That our report herein will be presented for confirmation to the Supreme Court of the State of New York, Second Department, at a Special Term thereof, to be held in the County Court House, in the Borough of Brooklyn, in The City of New York, on the 25th day of November, 1902, at the opening of the Court on that day.

Dated, Borough of Manhattan, New York, July 1, 1902.

In the matter of the application of the Mayor, Aldermen and Commonalty of The City of New York, by and through the Counsel to the Corporation, to acquire title in fee to certain lands, tenements, hereditaments and premises, including upland and land under water, or rights therein, fronting upon Riverside Park, in The City of New York, as and for a part or extension of the Riverside Park, and for public docks, wharves or commercial purposes, under and pursuant to the provisions of chapter 152 of the Laws of 1894.

NOTICE IS HEREBY GIVEN THAT THE fourth separate and final report of Charles L. Guy, Edward V. Loew and Grosvenor S. Hubbard, the Commissioners of Appraisal duly appointed in the above entitled proceeding, which report bears date the 22d day of July, 1902, was filed in the office of the Clerk of the County of New York on the 22d day of July, 1902.

Notice is further given that the said report includes and affects the claim mentioned and described therein as the claim of the heirs of William Whitlock deceased.

Notice is further given that the said report will be presented for confirmation to the Supreme Court at a Special Term thereof, Part III., to be held in the First Judicial Department, at the County Court House, in The City of New York, Borough of Manhattan, on the 8th day of October, 1902, at the opening of the court on that day, and that then and there, or as soon thereafter as counsel can be heard thereon, a motion will be made that the said report be confirmed.

Dated New York, September 13, 1902.  
GEORGE L. RIVES,  
Corporation Counsel, No. 2 Tryon Row, Borough of Manhattan, City of New York.

## PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

## NOTICES TO CONTRACTORS.

## GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said department, and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the board of aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to The City.

The contracts must be bid for separately.

The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of The City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by The City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the department for which the work is to be done. Plans and drawings of construction work may also be seen there.
