DEPARTMENT OF PUBLIC PARKS.

Report for the Quarter ending September 30, 1893.

CITY OF NEW YORK—DEPARTMENT OF PUBLIC PARKS,
Nos. 49 AND 51 CHAMBERS STREET,
October 1, 1893.

Hon. THOMAS F. GILROY, Mayor:

SIR—In compliance with the provisions of section 49 of chapter 410 of the Laws of 1882, the Department of Public Parks hereby submits the following statement of its transactions during the quarter ending September 30, 1893:

In the period covered by this report the work of maintaining the parks has been carried on as usual, and the several works of construction already begun have been steadily progressed.

The preliminary work for the construction of the Harlem River Driveway, which is provided for by chapter 102 of the Laws of 1893, has been pushed forward with a view to putting the first section under contract as soon as practicable. The first section is the portion lying between One Hundred and Fifty-fifth street and High Bridge.

Upon the application of the Department, the War Department has given permission for an iron footway, about 12 feet in width, to be carried around the river side of the pier of High Bridge, situated upon the western bulkhead line of the river. The War Department has also altered the bulkhead-line at Washington Bridge, giving an additional 21 feet at that point.

Work on the new Macomb's Dam Bridge over the Harlem river has also been progressed.

In connection with this work the preliminary steps to the construction of the approach leading from Sedgwick and Ogden avenues to connect with the Jerome avenue approach, as provided for by chapter 319 of the Laws of 1893, have been taken, and the plans and estimate have been placed before the Board of Estimate and Apportionment, for the approval of that Board and with the request that funds be provided therefor to the amount of \$115,888.

The work of the improvement of the grounds adjacent to Castle Garden building, and converting that building into an aquarium, has been carried on during the quarter and is nearing completion.

The building used as quarters for the crew of the fire-boat located near the Aquarium has been removed, leaving the outlook upon the harbor unobstructed.

The proceeding for acquiring title to Corlear's Hook Park, in the Seventh Ward, having been confirmed on 17th of July, another park has been added to the system. The provision of law creating this park, however, failed to make appropriation for its improvement and the Department has therefore made arrangements with the Comptroller to take charge of and collect rentals and revenues from the buildings, until such time as they may be required for the purposes of a public park.

Satisfactory progress has been made in the work of enlarging the American Museum of Natural History building, which was commenced in July, as well as in the work of finishing and equipping the new wing of the Metropolitan Museum of Art.

An estimate of the amount of money which will be required to carry on the business of the Department for the year 1894 has been carefully prepared and forwarded to the Board of Estimate and Apportionment. The sum of \$1,421,335 is asked for.

Contracts have been made for the following named works:

1. Furnishing and erecting a subsidiary electric-lighting plant, in the new engine-room of the north wing of the Metropolitan Museum of Art. The New York Electric Equipment Company, contractor.
2. Constructing receiving-basins and laying drain-pipe for walk and surface drainage, in the extension of East River Park. John Cox, contractor.
3. Paving, with rock asphalt, certain walks in the extension of East River Park. T. Hugh Boorman, contractor.
4. Erection of granite steps, and foundation-walls for same, in the extension of East River Park. A. McMillan, contractor.
5. Treatment of the Obelisk in Central Park, with paraffine compound. Brick and Stone Waterproofing Company, contractor.
6. For erecting new east wing, and enlargement of the American Museum of Natural History. James Baker Smith, contractor.
7. Plumbing, carpenter work, etc., for toilet rooms in the annex of Castle Garden building. Joseph Moore, contractor.
8. Regulating, grading, etc., the easterly portion of the parade ground in Van Cortlandt Park. John Cox, contractor.
9. Erecting cattle sheds at the menagerie. J. Andrew McCloskey, contractor.
10. Constructing inclosing wall, gateways, walks, etc., for entrance to Central Park, at Pioneer's Gate, One Hundred and Tenth street and Fifth avenue. Joseph Moore, contractor.
11. Concreting around pile foundations of the new Macomb's Dam Bridge. Passaic Rolling Mill Company, contractor.
12. Furnishing and delivering a six months' supply of hay, straw, oats, corn and bran. Theodore P. Huffman, contractor.

A contract entered into with John E. McGuire for erecting a tool-house and sheds, under date of December 28, 1892, has been canceled, the contractor having died and the Department deeming it for the best interests of the City so to do.

The consent of the Department has been given to the erection of a projecting window on the dwelling of Henry R. Hoyt, to be erected on the southerly side of East Seventy-fifth street, 120 feet east of Fifth avenue. Similar consent has been given upon the application of Edward J. Berwind, for a proposed projection on a dwelling at the southeast corner of Fifth avenue and Sixty-fourth street.

A drinking-fountain for man and beast, presented to the City by the Society for the Prevention of Cruelty to Animals, has been accepted, and a site has been selected therefor on the small park at the southerly end of Cooper Union.

A site for the statue, by Sñol, of Columbus to be presented by the New York Genealogical and Biographical Society has been selected at the south end of the Mall. A site has also been selected for the statue of Dr. J. Marion Sims in Bryant Park.

The Obelisk has been thoroughly treated with a waterproofing process to protect it against the action of the elements and it has been surmounted by a gilt cap, restoring one of the ancient features of the Monolith.

Park concerts have been continued in the Central Park and several of the City Parks during the quarter.

MAINTENANCE WORK.

The gardening force has been employed in the cultivation of flower-beds, the pruning of trees and shrubs and the propagation and care of plants and shrubs in the greenhouses and nursery.

The ordinary maintenance work on the Central and City Parks has been attended to, and also other work incident to the season; the severe drought and warm weather during the quarter necessitated considerable extra labor in watering the lawns, shrubs, trees, etc.

On Fifth avenue, 500 feet of bridge-stone was cut, laid and fitted on the crossings.

The Transverse road crossing Central Park at Ninety-seventh street has been opened for traffic. Considerable labor was required to clean the roadway, and four receiving-basins were built and fitted with cap-stones.

1,760 feet of wire fence has been erected on Morningside Park.

The rolling stock, bridges, buildings and other structures, including the summer-houses, have been repaired.

The mechanical force has been employed on works of repair and in operating the Harlem river drawbridges.

NEW PARKS NORTH OF HARLEM RIVER.

The maintenance work on the several parks north of the Harlem river has consisted in the grading, opening and repairing of roads, paths, drains, culverts, etc.; repairing and attending bridges; repairing the dam in Bronx Park, and opening, cleaning and repairing sewers.

On the work of constructing inclosing wall, gateways, walks, etc., for an entrance to Central Park at One Hundred and Tenth street and Fifth avenue, 26 cubic yards one-faced wall has been built; 10 cubic yards rubble masonry has been built.

The following quantities of rock asphalt pavement have been laid: 2,416 square feet pavement with concrete base; 88,623 square feet pavement without base; 3,015 square feet asphalt laid for crosswalks.

1,890 square yards of asphalt have been laid in repairing the roadways of Washington Square.

The work of repairing the foundation and masonry of the Battery sea-wall has been steadily progressed during the quarter. The improvement of the grounds adjoining Castle Garden building has also made favorable progress.

Work on the small Park avenue parks, from Fifty-seventh to Sixty-fifth street, has been completed, and iron railings are now being put in place to inclose them.

On the extension of East River Park, walk and surface basins have been constructed, drain-pipes have been laid, rock excavated, walks laid out, rubble masonry built, and grounds sodded and shaped ready for planting.

The railing around Mount Morris Park has been gilded and is now fully completed.

On Riverside Park 1,320 cubic yards of foundation and 2,000 cubic yards of wall masonry have been laid on the work of constructing a retaining-wall on the westerly line of the park, between One Hundred and Nineteenth and One Hundred and Twenty-ninth streets.

The work of repairing and resurfacing the roadway of West Seventy-second street, from Central Park, West, to Riverside avenue, commenced during the previous quarter, has been completed.

Resolved, That the Aqueduct Commissioners hereby grant to John L. The Committee also presented the following, received from the Acting Chief Engineer, and recommended approval of such action:

NEW YORK, March 13, 1894.

To the Honorable the Committee on Construction:

GENTLEMEN—I forward herewith for your information and approval a letter to the contractor for the New Croton Dam, in which his attention is called to the great amount of important work ahead of him this coming season and to the necessity of his making every effort to accomplish it.

During last season the contractor was repeatedly urged to start some of this work, and warned that the failure to do so then might embarrass him in his attempts to accomplish all of it this coming season. As he made no attempt to carry out our wishes, it seems to me especially necessary that he should again be notified of the importance of the proposed work and that the sooner it is done the better, considering all the interests involved.

I am, respectfully,

CHARLES S. GOWEN, Acting Chief Engineer.

NEW YORK, March 14, 1894.

J. S. COLEMAN, Esq., Contractor, New Croton Dam:

DEAR SIR—I wish to call your attention again to the urgent demands that the coming season will make upon your best efforts to accomplish the turning of the Croton river into the new channel. This involves the completion of the wing-dams, the building of the river-wall from its foundation to the height of the dams, and the bottoming of that part of the channel which the masonry dam is to cover with rubble masonry of a permanent character up to the channel grade.

Reviewing the history of last season's work, and the deep regret occasioned by delay on your part, especially on the foundations of the river-wall, it seems fitting and necessary to dwell upon the large amount of work to be done, and upon the importance of an early start, and of an efficient organization to do it. It is expected that every effort will be made on your part, and I hope that it is unnecessary to call your attention to the serious consequences that would result from a failure to carry out this season's work as above outlined, causing, as it would, the loss of practically one whole season in getting at the foundation work of the dam.

While there is considerable work that can be done outside of the limits above-mentioned, it is not so essential to the proper progress of the work in general.

The eighteenth month of the contract shows \$441,000 worth of work out of a total of \$4,200,000, and it is evident that the time has come when active efforts on the more difficult part of the work should be no longer delayed.

Yours truly,

(Signed) CHAS. S. GOWEN, Acting Chief Engineer.

On motion of Commissioner Scott, the recommendation was approved.

The Committee also presented the resignation of William B. Swan, Assistant Engineer, and recommended that the same be accepted, to take effect as of March 12, 1894.

On motion of Commissioner Scott, the recommendation was approved.

The Committee also recommended that that part of the resolution adopted on March 7, 1894, having reference to the bill of Henry S. Bailey for use of horse and wagon hauling tools and materials in abating nuisances near Croton Dam, amounting to \$34.75, be rescinded.

And, in lieu thereof, recommended the adoption of the following resolution:

Resolved, That, upon the recommendation of the Acting Chief Engineer, the accompanying bill of Henry S. Bailey for use of horse and wagon hauling tools and materials in abating nuisances near Croton Dam, and for inspection, amounting to thirty-four dollars and seventy-five cents, is hereby approved and ordered certified to the Comptroller for payment.

On motion of Commissioner Scott, the recommendation was approved and the resolution adopted.

The following communication was received from John R. Thomas, architect:

J. R. THOMAS, GUERNSEY BUILDING, 160 BROADWAY,
NEW YORK CITY, March 2, 1894.

The Board of Armory Commissioners, New York City:

GENTLEMEN—In the progress of the work upon the Seventy-first Regiment Armory to this date, the terms and conditions of the contract have been complied with by the contractor, with such exceptions as have been heretofore noted.

The building is approaching completion.

Very respectfully, yours,
JOHN R. THOMAS, Architect.

The President of the Department of Taxes and Assessments presented an application and affidavit from P. Gallagher, contractor, for payment to him of \$4,037.50, with the Architect's certificate that the work has been performed in accordance with the contract and specifications, on account of his contract for the erection of the armory building at Thirty-fourth street and Park avenue, and offered the following:

Resolved, That the Comptroller be authorized to pay to P. Gallagher, the sum of four thousand and thirty-seven dollars and fifty cents (\$4,037.50), as per accompanying voucher, on account of his contract for the erection of the armory building at Thirty-fourth street and Park avenue.

Which was adopted by the following vote:

Ayes—The Mayor, the President of the Department of Taxes and Assessments, the Deputy and Acting Commissioner of Public Works, General Louis Fitzgerald and Colonel William Seward.

The President of the Department of Taxes and Assessments presented an application and affidavit from the James Reilly Repair and Supply Company for payment to them of \$642.50, with the Inspector's certificate that the work has been fully performed in accordance with the contract and specifications, in full for their contract for the completion of the alterations and repairs to the ship "New Hampshire," now in use as an armory for the first Naval Battalion, N. G., S. N. Y., and offered the following:

Resolved, That the Comptroller be authorized to pay to the James Reilly Repair and Supply Company the sum of six hundred and forty-two dollars and fifty cents (\$642.50), as per accompanying voucher, in full for their contract for the alterations and repairs to the ship "New Hampshire," in use as an armory for the first Naval Battalion, N. G., S. N. Y.

Which was adopted by the following vote:

Ayes—The Mayor, the President of the Department of Taxes and Assessments, the Deputy and Acting Commissioner of Public Works, General Louis Fitzgerald and Colonel William Seward.

Certificates were received from the Architect and the Clerk of the Works, as to the completion of the armory building at Thirty-fourth street and Park avenue.

The Mayor stated that all the members of the Armory Board had this day visited the armory building and made a personal inspection, with the view of accepting the same, and had found the building to be satisfactory.

The President of the Department of Taxes and Assessments presented the following:

To the Armory Board:

I beg to submit herewith certificates from the Architect and Clerk of the Works, certifying to the completion of the armory at Thirty-fourth street and Park avenue, according to contract, other than in the matter of lantern windows and asphalted walls.

The windows in lantern of roof are constructed different from what was shown in the original plans, but are constructed in the manner as the plans were finally worked out by the Architect. This matter was brought to your attention during the construction and then fully explained.

The matter of asphalted foundation walls, regarding which the specifications of the Architect appear to be defective, and the contractor claiming that under them he is not called upon to asphalt the foundation walls, was referred by this Board to the Counsel to the Corporation for his opinion as to the responsibility of the contractor. He has returned to me the papers with a memorandum attached and herewith submitted, apparently relieving the contractor. The Thirty-fourth street foundation wall continues to leak, the water apparently coming from the surface drainage. I am told by the Architect and the Clerk of the Works, that in their opinion the matter will be obviated by the concreting of the surface on Thirty-fourth street, as is contemplated in the contract for the sidewalk and for which proposals have been invited.

The amount due the contractor, as shown by the final certificate of the Architect, amounts to \$54,300.62.

The amount of extra work ordered by the Armory Board is as follows:

Extra door.....	\$26 00
Tablet Brigade Headquarters.....	225 00
Steps to Battery.....	175 00
Raising east wall.....	150 00
Raising west wall.....	400 00
Sally-port steps.....	400 00
Partition Signal Corps.....	95 00
Total.....	\$1,471 00

This work has all been done and I recommend that the bill of the contractor be approved.

The contractor makes claim for extra work:

Sewer.....	\$340 27
Corbelling.....	497 08
Iron work.....	2,304 10
Total.....	\$3,201 45

The Clerk of the Works has reported to me in regard to the same, and which I submit herewith, as follows:

NEW YORK, March 22, 1894.

Hon. E. P. BARKER:

SIR—In accordance with your direction I have examined the claim of P. Gallagher, contractor, for extra work on armory at Thirty-fourth street and Park avenue.

In the matter of the extra work of corbelling, if you will remember the matter came before the Armory Board, and the necessity of the prosecution of the work was made known, and the same has been done.

In regard to the sewer, upon the contractor examining the excavation it was discovered that a large hole filled with silt existed at the southeast corner of the plot on Thirty-third street, towards Lexington avenue. Until it was uncovered this was not known to exist, it evidently having formerly been an old drain or water course. It was necessary to make excavation and put in a sewer before the foundation could be put in. Had this sewer not been put in until after the foundation was laid, there would have been no security to the building, and the water could not have been kept out of the battery or rifle range.

There was nothing in the specifications calling for this sewer. The contractor put it in at his own expense. I consider that the use of it at this time, and for the future, is of much importance to the armory.

In regard to the iron work, I have previously given the matter much consideration. I do not think there was any extra work actually done other than as follows:

1st. The riveted box girder, 25 by 22, over the squad drill-room. This was not called for by the contract, specifications or plans, but was deemed necessary in the prosecution of the work and was put in, for which the contractor names \$300.

2d. The small roofs at the northeast and southeast corners of the Administration Building were altered by direction of the Building Department, the plans of the contractor not showing the right pitch and the Superintendent of Buildings ordered them to be altered, requiring this work, for which the contractor names \$345.60.

3d. There were also extra iron beams put in in the large drill-room to support the ends of the wooden beams, found necessary in the progress of the work, amounting to \$366.

4th. There was also a girder put in over the entrance to battery drill-room, which was not shown or specified. All of the above-named girders were longer and heavier than any shown or specified. Consequently would not come under the clause where it specifies to furnish any shorter girders that may be required.

5th. The brackets are not deemed an extra.

6th. The turrets over the large towers are built just the height the plans show. I therefore fail to see why any extras should be allowed for this part of the work.

Respectfully,

JOHN GUY, Clerk of the Works.

Regarding the extra iron work claimed to be done, I beg to report that I have given a number of hearings to the Architect, contractor, sub-contractor and Clerk of the Works, in regard to the matter, with the view of gaining information to be submitted to you.

The contractor claims all to be extra work, ordered by the Architect. The Architect claims that under the clause of the specifications reading and concluding—"such other small girders as may be required by the Architect"—that he had the power to direct and it was the contractor's duty to furnish such other girders as the Architect might direct, even if not shown on the plans. I cannot see the justice of this, as the contractor claims that he bid for the work as shown on the plans.

Girders have been put in by order of the Architect and not shown on the plans as follows:

1st. Over steps leading to Battery Drill Room.....	\$153 00
2d. Channel iron under Battery Drill Room removed by order of Architect and girder substituted.....	366 00
3d. Box girder under Mezzanine floor by order of the Architect.....	300 00
4th. The small roofs of corners of Administration Building were changed by order of the Building Department, and for this the contractor claims for extra work....	345 60

I think these items should have the consideration of the Board.

The other items of iron work, claimed as extra work, I report adversely upon.

This would show extra work done by the contractor, upon which I report favorably, as follows:

By order of Board.....	\$1,471 00
Sewer.....	340 27
Corbelling.....	497 08
Iron work.....	1,164 60
Total.....	\$3,472 95

The subject of penalty for over-time is presented to you. The Contractor, from my experience with the work, has, I think, been conscientious in the discharge of his duties. He has met with many embarrassments and consequent delays.

The discovery of the silt hole in the southeast corner was first. The labor troubles, resulting in strikes of granite, iron and other workers was beyond his control, and delayed him greatly. I recommend that he be relieved of any penalty.

The Architect submits his bill for services.

His agreement was 4 per cent. on contract price of \$348,900.....	\$13,956 00
Paid on account.....	10,467 00
Total.....	\$3,489 00

The Architect, upon the acceptance of his plans, gave a bond of \$1,000 that the cost of the work would not exceed \$350,000. The first bids exceeded this amount, requiring an amendment of the plans and a re-advertisement.

The work on the west wall and the asphalted should be decided upon before the bill of the Architect is audited.

Respectfully,

E. P. BARKER.

That it is made without any connection with any other person making an estimate for the same work, and is in all respects fair and without collusion or fraud. That no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested in the estimate or in the work to which it relates or in the profits thereof.

Each estimate must be verified by the oath, in writing, of the party making the same, that the several matters therein stated are true, and must be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, to the effect that if the contract is awarded to the person making the estimate, they will, upon its being so awarded, become bound as his sureties for its faithful performance; and that if he shall refuse or neglect to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled upon its completion and that which the Corporation may be obliged to pay to the person to whom the contract shall be awarded at any subsequent letting; the amount to be calculated upon the estimated amount of the work by which the bids are tested.

No estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect; and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract, by his or their bond, with two sufficient sureties, each in the penal amount of THREE THOUSAND (\$3,000) DOLLARS.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein or in the supplies to which it relates, or in any portion of the profits thereof.

Each bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract is awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance, and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion, and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the supplies by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirm-

ation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of the City of New York.

No bid or estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept, but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be re-advertised and relet as provided by law.

Bidders will write out the amount of their estimate in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract.

The terms of the contract, including specifications, and showing the manner of payment, can be obtained at the office of the Department, and bidders are cautioned to examine each and all of their provisions carefully, as the Board of Public Charities and Correction will insist upon their absolute enforcement in every particular.

TO OWNERS OF LANDS ORIGINALLY ACQUIRED BY WATER GRANTS

ATTENTION IS CALLED TO THE RECENT act of the Legislature (chapter 449, Laws of 1889), which provides that whenever any streets or avenues in the city, described in any grant of land under water, from the Mayor, Aldermen and Commonalty containing covenants requiring the grantees and their successors to pave, repave, keep in repair or maintain such streets shall be in need of repairs, pavement or repavement the Common Council may, by ordinance, require the same to be paved, repaved or repaired, and the expense thereof to be assessed on the property benefited; and whenever the owner of a lot so assessed shall have paid the assessment levied for such paving, repaving or repairing, such payment shall release and discharge such owner from any and every covenant and obligation as to paving, repaving and repairing, contained in the water grant under which the premises are held, and no further assessment shall be imposed on such lot for paving, repaving or repairing such street or avenue, unless it shall be petitioned for by a majority of the owners of the property (who shall also be the owners of a majority of the property in frontage) on the line of the proposed improvement.

The act further provides that the owner of any such lot may notify the Commissioner of Public Works, in writing, specifying the ward number and street number of the lot that he desires, for himself, his heirs and assigns, to be released from the obligation of such covenants, and elects and agrees that said lot shall be thereupon liable to be assessed as above provided, and thereupon the owner of such lot, his heirs and assigns shall thenceforth be relieved from any obligation to pave, repair, uphold or maintain said street, and the lot in respect of which such notice was given shall be liable to assessment accordingly.

The Commissioner of Public Works desires to give the following explanation of the operation of this act:

When notice, as above described, is given to the Commissioner of Public Works, the owner of the lot or lots therein described, and his heirs and assigns, are forever released from all obligation under the grant in respect to paving, repaving or repairing the street in front of or adjacent to said lot or lots, except one assessment for such paving, repaving or repairing, as the Common Council may, by ordinance, direct to be made thereafter.

No street or avenue within the limits of such grants can be paved, repaved or repaired until said work is authorized by ordinance of the Common Council, and when the owners of such lots desire their streets to be paved, repaved or repaired, they should state their desire and make their application to the Board of Aldermen and not to the Commissioner of Public Works, who has no authority in the matter until directed by ordinance of the Common Council to proceed with the pavement, repavement or repairs.
