CITY OF NEW YORK-OFFICE OF THE MAYOR, \

To the Honorable the Board of Aldermen:

I return, without approval, the resolution of your Honorable Body, adopted August 18, 1891, permitting A. J. Campbell to connect the premises Nos. 553 to 557 West Thirty-third street with the opposite premises, Nos. 550 to 558, by a four-inch shaft, incased in a wooden box.

HUGH J. GRANT, Mayor.

Resolved, That permission be and the same is hereby given to A. J. J. Campbell shall stipulate with the Commissioner of Public Works to save the city harmless from any loss or damage that may be occasioned by the exercise of the privilege hereby given, during the progress or subsequent to the completion of the work of laying said shaft, the work to be done at his own expense, under the direction of the Commissioner of Public Works; such permission to continue only during the pleasure of the Common Council.

which provides for a watering avenue.

The Commissioner of Public Works reports on this resolution, as follows:

"Lexington avenue, from Twenty-first to Thirty-second street, and Twenty-sixth street, from Madison avenue to the East river, have been repaved with asphalt. Watering-troughs are objectionable on asphalt pavements because the pavements are damaged thereby."

HUGH J. GRANT, Mayor.

Resolved, That permission be and the same is hereby given to George Kennedy to place a watering-trough on the northeast corner of Twenty-sixth street and Lexington avenue, the work to be done at his own expense, under the direction of the Commissioner of Public Works; such permission to continue only during the pleasure of the Common Council.

street, east of Lewis street.

The Commisioner of Public Works reports that he considers it objectionable to allow shafts to be placed under and across public streets, as such shafts are rigid and cannot be changed, and would interfere with the future laying of pipes and other public structures in the streets.

The President laid before the Board the following message from his Honor the Mayor:

CITY OF NEW YORK—OFFICE OF THE MAYOR, |

The Honorable the Board of Aldermen:

I return herewith, without my approval, resolution of your Honorable Body, adopted August 18, 1891, providing for laying sidewalks, setting curb-stones, etc., in Riverview Terra street, in the Twenty-fourth Ward of the City of New York, for the following reasons: in Riverview Terrace and Dock

The Commissioner of Street Improvements, Twenty-third and Twenty-fourth Wards, reports that Dock street is not legally opened and therefore no assessment for improvements can be levied thereon; that the petition of Lewis G. Morris and Fordham Morris, which states that Dock street has been in public use for twenty years, does not seem to agree with the information obtained from the survey made by Mr. William Rumble in 1870 for the Board of Public Parks; that the lane north of the property of Mr. Lewis G. Morris, which connected the old McComb's Dam road with the Morris Dock and New York Central and Hudson River Railroad before Sedgwick avenue was constructed and about eights to one hundred feet southerly of the present Dock extract and was constructed, ran about eighty to one hundred feet southerly of the present Dock street and was about thirty feet wide; that the present Dock street was substituted for the old road to Morris Dock, now abandoned, and that the lines of the said street do not coincide.

In relation to that portion of the resolution affecting Riverview Terrace, the Commissioner of Street Improvements, Twenty-third and Twenty-fourth Wards, reports that there seems to be no necessity for the resolution, as an ordinance for curbing, flagging, etc., Riverview Terrace was approved by the Mayor on August 11, 1891. HUGH J. GRANT, Mayor.

Resolved, That the curb-stones be set and the sidewalks on the south side of Dock street, from the railroad to Riverview Terrace, and on both sides of Riverview Terrace, from the junction with Sedgwick avenue to Dock street, on the west side thereof, and for a distance of five hundred and

forty-three feet on the east side thereof, be flagged a space rour feet wide through the centre thereof, and that crosswalk be laid across Dock street at its intersection with Riverview Terrace, and

crosswalks across Riverview Terrace on a line with the north and south sides of Dock street, under the direction of the Commissioner of Street Improvements of the Twenty-third and Twenty-fourth Wards; and that the accompanying ordinance therefor be adopted.

Which was laid over, ordered to be printed in the minutes and published in full in the CITY

RECORD.

The President laid before the Board the following message from his Honor the Mayor: CITY OF NEW YORK-OFFICE OF THE MAYOR,

To the Honorable the Board of Aldermen:

I return, without approval, the resolution of your Honorable Body, adopted August 18, 1891, which provides for the laying of water-mains in Kattock street, from Spuyten Duyvil Parkway to Johnson avenue.

The Commissioner of Public Works reports that Kattock street is not yet legally opened, being only laid down on the map of the city, and on private property. Under these circumstances the city can incur no expenditure to lay water-mains in this street.

HUGH J. GRANT, Mayor.

Resolved, That water pipes be laid in Kappock street, from Spuyten Duyvil Parkway to Johnson avenue, as provided in section 356 of the New York City Consolidation Act of 1882.

I return, without approval, the resolution of your Honorable Body, adopted August 18, 1891, providing for the paving of One Hundred and Nineteenth street, from Seventh to Lexington avenue, with granite blocks.

On this resolution the Commissioner of Public Works reports as follows: "One Hundred and Nineteenth street, from Lenox to Lexington avenue, has been paved for some time, and an ordinance has been approved for paving said street from Seventh to Lenox avenue." It would therefore appear that the present resolution is unnecessary.

HUGH J. GRANT, Mayor.

COMMUNICATIONS FROM DEPARTMENTS AND CORPORATION OFFICERS RESUMED.

The President laid before the Board the following communication from the Commissioner of Public Works:

DEPARTMENT OF PUBLIC WORKS—COMMISSIONER'S OFFICE, No. 31 CHAMBERS STREET, NEW YORK, September 8, 1891.

New York, September 8, 1891.

Hon. J. H. V. Arnold, President, Board of Aldermen:

Dear Sir.—In 1890, certain resolutions were passed by your Board, and approved by the Mayor, authorizing the repavement of a number of streets and avenues, under section 321 of the New York City Consolidation Act of 1882. It was subsequently found that the appropriation for Repaving Streets and Avenues for 1890 was not sufficient to cover the expense of repaving all of the streets so authorized, and several of them had to be held over for the ensuing year. A doubt having now been raised whether the expense of repaving these streets so held over could properly be charged to the appropriation for 1891, unless such charge were authorized by resolution of your Board, I have the honor to transmit a draft of a resolution giving such authority, and to ask its introduction and adoption.

Very respectfully, THOS. F. GILROY, Commissioner of Public Works.

(G. O. 567.)

Whereas, The appropriation for "Repaving Streets and Avenues," for 1890, was insufficient to meet the expense of repaving all of the several streets for the repavement of which resolutions were duly passed by this Board and approved by the Mayor in 1890; therefore,

Resolved, That the Commissioner of Public Works is hereby authorized to charge the expense of repaving said streets and avenues, for which the appropriation of 1890 was insufficient, to the appropriation for "Repaving Streets and Avenues" for 1891.

Which was laid over.

BOARD OF ELECTRICAL CONTROL.

Minutes of a meeting of the Board of Electrical Control, held at the office of the Mayor, in the City of New York, on Wednesday, September 2, 1891, at 2 o'clock P. M.

Present—Mayor Hugh J. Grant, President; Commissioners Jacob Hess and Theodore Moss. The minutes of the last meeting were read and approved.

The following report of the Engineer on the completion of subways was read by the Secretary.

NEW YORK, September 1, 1891. To the Honorable Commissioners of the Board of Electrical Control:

Gentlemen—I have to report the completion of subways since my many follows, for electric-light and power service, in Greenwich street, from Fulton street to Morris street.

Vesey street, from Church street to Broadway.
Cortlandt street, from West street to Broadway.
Park place, from Greenwich street to Broadway.
John street, from Pearl street to Broadway.
Dey street, from Washington street to Broadway.
Maiden Lane, from William street to Broadway.
Twenty-ninth street, from First avenue east to the United States Electric Light Station, will be completed in a very few days, and the usual ninety-days' notice can be sent. I have not mentioned the completion of subways of special tubing for the use of the Edison Company in my reports to your Board, as that company does not occupy poles nor require the usual ninety-days' notice of removal of poles, but I will include it in the report at the end of season.

Very respectfully,

HENRY S. KEARNY, Engineer.

On motion of Commissioner Hess the report was approved, and it was Resolved, That the Secretary be directed to send the usual ninety-days' notice to the com-panies owning or operating electrical conductors in any of the streets enumerated in the Engineer's

panies owning or operating electrical conductors in any of the streets enumerated in the Engineer's report of this date.

The Mayor—Commissioner Moss has placed before the Board a map showing the district bounded by Fifty-ninth street on the north, Eighth street on the south, Eighth avenue on the west and Third avenue on the east, in which all the lines have been removed except certain lines which are shown upon the map, and which are very few in number, and the most of those are Fire Department lines. There is a line shown here on Seventh avenue which I understood was to be removed over two weeks ago, but I still find it here, and we still have the promise of its being removed within a week or so. There is another, in East Thirty-fourth street, which I believe ought to be cut down for the reason that a subway is already built there. At the meeting of June Judge Kelly then said that he would have it in in a week or so. Is Judge Kelly here, or is there anybody here representing the East River Company? (No response.) The subway on Fifth avenue is not an electrical high-tension subway, but it is simply for street-lighting purposes. My opinion is that the lamps on that street ought to be taken down. I don't think that street should be made the exception in all that territory to have wires overhead. This part is between Twenty-third street and Clinton place.

Mayor Grant—I move that the Secretary be directed at the next meeting of the Board to present this map, with such other removals as may have taken place in the meantime.

The motion was agreed to.

The Mayor—The Secretary will read the report of the Engineer on new construction.

The Assistant Secretary read the following report:

NEW YORK, September 1, 1891.

To the Honorable Commissioners the Board of Electrical Control:
