The attention of this department has been called to the necessity of placing an electric light in Abingdon Square and one in Christopher Street Park. These parks are crowded at night with women and children, and I am informed that women have been insulted, and by reason of the surrounding shrubs and foliage, the park is so dark that it would be impossible to see the offenders. It would seem to be necessary that provision should be made at once for lighting the parks. Please bring the matter to the attention of the Gas Commission, at the earliest possible moment, and oblige,

Yours, respectfully,

(Signed)

CHAS. DE F. BURNS, Secretary, D. P. P.

Which was referred to the Commissioner of Public Works, with power.

The Secretary presented the following paper:

OCTOBER 15, 1892.

To His Honor HUGH J. GRANT, Mayor:

DEAR SIR—There has been so many commendations of the partial lighting of the Fifth avenue the last few days that I take this opportunity of asking that it be your work to authorize a complete and perfect lighting to the Park entrance at the earliest date consistence with your duty, and thus receive the grateful thanks, not only of those that live on that avenue, but those who have occasion to use it, and oblige,

Yours, respectfully,

(Signed)

Which was referred to the Commissioner of Public Works, with power.

The Secretary presented several resolutions from the Board of Aldermen, requesting that gas-mains be laid and gas-lamps erected and lighted in sundry streets at Woodlawn Heights; also a letter from J. T. Murphy, Secretary of the Woodlawn Improvement Association, as follows:

WOODLAWN HEIGHTS, January 20, 1892.

To Hon. THOMAS F. GILROY, Commissioner of Public Works:

DEAR SIR—At the regular monthly meeting of the Woodlawn Improvement Association, held on Tuesday, January 12, 1892, the following resolution was offered:

"Resolved, That the Woodlawn Improvement Association, through its Secretary, petition the Hon. Hugh J. Grant, Mayor, to approve of and cause to be laid in our streets gas-mains, and lamps lighted. The mains have been laid in Central avenue to Grand avenue, within a few hundred feet of our homes. This part of the city would grow rapidly if we had some of the improvements. It is a great detriment to our growth and a great hindrance to an increase in the value of our property to be without gas. We now have to light our homes with kerosene, which is unsafe, the rate of insurance being very high in consequence.

"We, as tax-payers, help to pay for lighting the streets of our city. Why should we not have gas here?"

As a member of the Gas Commission, we hope that you will use your best efforts to have a bill passed causing the mains to be laid and lamps lighted.

(Signed)

Very truly yours,

J. T. MURPHY, Secretary.

Which was referred to the Commissioner of Public Works.

The following communication was received:

The Supervisor of the City Record called the attention of the Board to the fact that the requisition from the Fire Department was on account of a special appropriation of \$2,000 made for 1892. The Department, he said, had been getting up the style of the cards ever since the appropriation was made, employing M. B. Brown to make the necessary sketches, etc.

By a concurrent vote of the three members of the Board, the Supervisor was directed to fill the approved requisitions by direct orders, that is, without contracts let after advertisement, that course being deemed by them to be for the best interests of the City.

The Supervisor reported that he had begun to advertise for bids to supply stationery, and that he would probably have the specifications for printed matter ready by Monday, January 9. The Mayor said that, respecting the contract to print and bind the indexes to the vital statistics, a letter had been received from John F. Hahn. The letter was read, as follows:

To the Board of City Record:

GENTLEMEN—At a meeting of your Honorable Board held December 23, the matter of printing and binding the indices for the Board of Health was again brought to your notice and was referred to the Supervisor for investigation. The offer I made—namely, to print and bind the work (same as in 1891) for the sum of \$2.70 per page, being \$1.59 per page less than is now being paid for said work, and I do further promise and agree to pay such compositors that I may employ on said work the same rate of wages as is now being paid by Mr. Mitchell (who was employed to do the work for the year 1892), namely, \$3 per day, being the Union scale of prices for hands employed by the day. In reference to the question asked by Commissioner Gilroy—"Have you a Union office?" to which I replied "Yes, sir," and so as not to have my meaning misconstrued, I most respectfully say that I consider any firm that pays the rates adopted by the Union in the class of a Union office, whether his or their names are recorded on the books of the Union or not, and to the best of my knowledge my name is not recorded, not employing sufficient help at any one time to warrant it; but compositors that I do employ at times I pay the schedule rates, which I believe ought to be satisfactory to your Honorable Board. Therefore, gentlemen, I most respectfully ask to be employed to do the work for the year 1893.

I remain, your humble servant,

JOHN F. HAHN, No. 126 William street, New York.

Mr. Hahn made a statement in support of his letter. In reply to the Mayor, he said he could do the work at the low price he had named because he would do it in the main himself, whereas another printer, like W. P. Mitchell, who now does it, and has done it, excepting for a short interval, since 1888, would have to pay for its supervision. If Mr. Mitchell would offer to do the work for \$2.69 a page, Mr. Hahn said, he (Hahn) would not underbid him.

William P. Mitchell said he had devised the system under which the work was done, and as the price he received was a low one, on the basis of "Union" rates, he asked that he be allowed to continue to do it. He said he understood that a protest against the work being given to Mr. Hahn had been sent to the Board.

A communication from W. Ferguson, Secretary of Typographical Union No. 6, was then read, as follows:

ROOMS OF NEW YORK TYPOGRAPHICAL UNION No. 6,
No. 240 WILLIAM STREET,
NEW YORK, December 27, 1892.

To the Board of City Record:

GENTLEMEN—It having been reported that John F. Hahn, an employer of non-union labor, is a competitor for the Board of Health printing, which is at present done in the office of W. P. Mitchell, I am directed to file with you the protest of five thousand citizens and taxpayers who are members of this Union against giving the work to the said John F. Hahn or any other non-union employer of cheap non-union labor, principally boys and girls. We feel that, as citizens and taxpayers, we have a right to demand that the work be given to an office paying the scale and working under the rules of the Union, as against any cheap non-union concern who depends on underpaid labor for his profits instead of his own brains and business ability.

Respectfully yours,
W. FERGUSON, Secretary.

The Mayor asked President Wilson of the Health Board whether the work had been done the more satisfactorily by Mr. Mitchell or Mr. Hahn. He said that the former had been the more satisfactory, according to his information from the Bureau of Vital Statistics.

Mr. Hahn presented a letter written in November, 1891, by Dr. Tracy, Registrar of Vital Statistics, commending his work.

The Counsel to the Corporation said that, in view of the complicated conditions before the Board, he thought it would be well to have the Supervisor prepare a special form of contract for the work and to advertise generally for bids. He moved that this course be pursued, and the motion was adopted by a concurrent vote of the three officers.

A request was received from the Commissioner of Street Improvements for authority to advertise, twice a week, for three consecutive weeks, a notice of a hearing on January 31 respecting a proposed revision of the street system bounded on the south by Third, Westchester, Prospect and Mohawk avenues, etc., on the east by the Bronx river, on the north by the City line, and the west by the Hudson and Harlem rivers and Spuyten Duyvil Creek. It was granted, and the "Sun" and "Daily News" were designated as the newspapers, by a concurrent vote of the three officers.

A contract with Martin B. Brown to supply books needed by the departments during the year 1893, for \$39,776.72, was signed.

Pay-rolls were approved as follows, for the month of December: Supervisor, Assistant Supervisor and Examiner, \$741.65; John F. Morris, John McMahon, Joseph Fehr and Henry J. Goggin, \$100 each; W. H. Hettler, Storekeeper, \$100, and Louis F. Gaffney, Expressman, \$116.66; and for the week ending December 24, Robert McManus and William H. Levett, \$21 each; for week ending December 31, Robert McManus and William H. Levett, \$17.50 each.

Bills were approved as follows: M. B. Brown \$5,161.58, for printing and distributing the CITY RECORD for the month of December; William P. Mitchell, \$574.86, for printing indices for the month of September, 1892.

Adjourned.

W. J. K. KENNY, Secretary.

HEALTH DEPARTMENT,
No. 301 MOTT STREET.

TO CONTRACTORS.

SEALED BIDS OR ESTIMATES FOR FURNISHING One Thousand Tons of White Ash Coal for the Riverside Hospital at North Brother Island, under the charge of the Board of Health, will be received at the office of the Health Department, in the City of New York, until 1.30 o'clock P. M. of the 25th day of January, 1893. The person or persons making any bid or estimate shall furnish the same in a sealed envelope, indorsed, "Bid or Estimate for furnishing Coal for Riverside Hospital," and with his or their name or names, and the date of its presentation, to the head of said Department, at the said office, on or before the day and hour above named, at which time and place the bids or estimates received will be publicly opened by the President of said Board and read.

The Board of Health reserves the right to reject all bids or estimates, as provided in section 64, chapter 410, Laws of 1882, if deemed to be for the public interest. No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

The Coal to be of good quality, and the quantity that will be required will be about One Thousand (1,000) Tons of White Ash Coal, to be well screened and in good order, each ton to be 2,240 pounds, in accordance with the specification attached to and which forms a part of the contract aforesaid.

Delivery to be made at the Riverside Hospital, North Brother Island, in such quantities and at the time required by the Board of Health; any changes in the time or place of delivery, however, may be made in writing by the Board of Health.

The above quantity is estimated and approximated only, and bidders are notified that the Board of Health reserves the right to increase or diminish said quantities by an amount not exceeding fifteen per cent. of the estimated quantities, and the contractor will be paid therefor only at the rate or price named in the contract, and that in case the above-named quantity shall not be required by the Department, no allowance will be made for any real or supposed damage or loss of profit.

The person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, each in the penal sum of THREE THOUSAND (3,000) DOLLARS.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and it is in all respects fair, and without collusion or fraud; and that no member of the Common Council, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters therein stated are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Bidders will be required to furnish testimonials that they are engaged in the coal business in the City of New York, and have the plant necessary to carry out promptly and regularly the contract, if it be awarded, to the entire satisfaction of the Board of Health, and must furnish an undertaking for the faithful performance of all the provisions thereof in the manner provided by law, executed by two householders or freeholders of the City of New York, each justifying in

the penal sum of THREE THOUSAND (3,000) DOLLARS, and agreeing that if he shall omit or refuse to execute the said contract they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract shall be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of the City of New York.

Should the person or persons to whom the contract is awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or estimate, or if he or they accept, but do not execute, the contract and give the proper security, he or they shall be considered as having abandoned it, and as in default to the Corporation; and the contract will be readvertised and relet as provided by law.

No bid or estimate will be received or considered unless accompanied by either a certified check upon one of the National or State banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of security required for the faithful performance of the contract. Such check or money must not be included in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same, within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Bidders are cautioned to examine the form of contract and the specifications for particulars before making their estimates. Bidders will write out the amount of their estimate in addition to inserting the same in figures.

Payment for the Coal will be made by requisition on the Comptroller, and as more specifically and particularly is set forth in the contract form.

Bidders are informed that no deviation from the contract and specifications will be allowed, unless under the written instruction of the Board of Health.

The form of the agreement, including specifications, showing the manner of payment, will be furnished at the office of the Department, No. 301 Mott street.

N. B.—Bidders are required to submit their estimates upon the following express conditions, which shall apply to and become a part of every estimate received:

(1.) Bidders must satisfy themselves by personal examination of the locations of the proposed work, and by such other means as they may prefer, as to the accuracy of the foregoing Engineer's estimate, and shall not at any time after the submission of an estimate, dispute or complain of the above statement of quantities, nor assert that there was any misunderstanding in regard to the nature or amount of the work to be done.

(2.) Bidders will be required to complete the entire work to the satisfaction of the Department of Docks and in substantial accordance with the specifications of the contract. No extra compensation beyond the amount payable for each class of the work before mentioned, which shall be actually performed at the prices therefor, to be specified by the lowest bidder, shall be due or payable for the entire work.

The work to be done under the contract is to be commenced on or about January 25, 1893, or within five days after notification from the Engineer-in-Chief of the Department of Docks that the premises are in such condition that the work can proceed, and the entire work is to be fully completed on or before the expiration of three months after the date of said notification from the Engineer-in-Chief or within as many days thereafter as the dumping-board on the pier may be in use or occupied by the Department of Street Cleaning, or by the Department of Docks, one month after the date of notification from the Engineer-in-Chief, and the damages to be paid by the contractor for each day that the contract may be unfulfilled after the time fixed for the fulfillment thereof has expired are, by a clause in the contract, fixed and liquidated at Fifty Dollars per day.

All the old material taken from the structures to be removed under the contract, except such portions hereinafter specified which are to be delivered to the Department of Docks, will become the property of the contractor, and bidders must estimate the value of such material when considering the prices for which they will do the work under the contract.

Bidders will state in their estimates a price for the whole of the work to be done, in each class, in conformity with the approved form of agreement and the specifications therein set forth, by which prices the bids will be tested. These prices are to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay, from any cause, in the performing of the work thereunder.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for doing each class of this work.

The person or persons to whom the contract may be awarded will be required to attend at this office with the sureties offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect; and in case of failure or neglect so to do, he or they will be considered as having abandoned it, and as in default to the Corporation; and the contract will be re-advertised and relet, and so on, until it be accepted and executed.

Bidders are required to state in their estimates their names and places of residence; the names of all persons interested with them therein, and if no other person be so interested, the estimate shall distinctly state the fact; also, that the estimate is made without any connection with any other person making an estimate for the same work, and that it is in all respects fair, and without collusion or fraud; and also that no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof; which estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed to by all the parties interested.

Each estimate shall be accompanied by the consent in writing of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the estimate, they will, upon its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation of the City of New York any difference between the sum to which said person or persons would be entitled upon its completion, and that which said Corporation may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work to be done, by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety and otherwise; and that he has offered himself as a surety in good faith, and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of the City of New York after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of seventy-five (75) dollars. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instructions of the Engineer-in-Chief.

No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

DEPARTMENT OF PUBLIC WORKS,
COMMISSIONER'S OFFICE,
NO. 31 CHAMBERS STREET,
NEW YORK.

TO OWNERS OF LANDS ORIGINALLY ACQUIRED BY WATER GRANTS.

ATTENTION IS CALLED TO THE RECENT act of the Legislature (chapter 449, Laws of 1889), which provides that whenever any streets or avenues in the city, described in any grant of land under water, from the Mayor, Aldermen and Commonalty containing covenants requiring the grantees and their successors to

pave, repave, keep in repair or maintain such streets, shall be in need of repairs, pavement or repavement, the Common Council may, by ordinance, require the same to be paved, repaved or repaired, and the expense thereof to be assessed on the property benefited; and whenever the owner of a lot so assessed shall have paid the assessment levied for such paving, repaving or repairing, such payment shall release and discharge such owner from any and every covenant and obligation as to paving, repaving and repairing, contained in the water grant under which the premises are held, and no further assessment shall be imposed on such lot for paving, repaving or repairing such street or avenue, unless it shall be petitioned for by a majority of the owners of the property (who shall also be the owners of a majority of the property in frontage) on the line of the proposed improvement.

The act further provides that the owner of any such lot may notify the Commissioner of Public Works, in writing, specifying the ward number and street number of the lot that he desires, for himself, his heirs and assigns, to be released from the obligation of such covenants, and elects and agrees that said lot shall be thereafter liable to be assessed as above provided, and thereupon the owner of such lot, his heirs and assigns shall thenceforth be relieved from any obligation to pave, repair, uphold or maintain said street, and the lot in respect of which such notice was given shall be liable to assessment accordingly.

The Commissioner of Public Works desires to give the following explanation of the operation of this act:

When notice, as above described, is given to the Commissioner of Public Works, the owner of the lot or lots therein described, and his heirs and assigns, are forever released from all obligation under the grant in respect to paving, repaving or repairing the street in front of or adjacent to said lot or lots, except one assessment for such paving, repaving or repairs, as the Common Council may, by ordinance, direct to be made thereafter.

No street or avenue within the limits of such grants can be paved, repaved or repaired until said work is authorized by ordinance of the Common Council, and when the owners of such lots desire their streets to be paved, repaved or repaired, they should state their desire and make their application to the Board of Aldermen and not to the Commissioner of Public Works, who has no authority in the matter until directed by ordinance of the Common Council to proceed with the pavement, repavement or repairs.
