The grade in each case will be the same as it is at present end of the filling, and will be fixed at ten feet above Mean Low Water at its outshore end, and will be placed so that the foot of the bank on 1 to 1 slopes will not extend outside of the outside lines of the streets.

In case the purchaser at any time does not proceed with the work of filling in to the satisfaction of the Commissioner of Docks, the said Commissioner will at once revoke the privilege of filling in and have the remainder of the filling in done by other parties in such a way as he deems proper.

The purchaser will be required to furnish a bond in double the amount of the purchase price as security for the satisfactory performance of the said work, in accordance with the terms and conditions hereof.

Dated, THE CITY OF NEW YORK, June 6, 1902.

McDOUGALL HAWKES,

Commissioner of Docks.

SEALED BIDS OR ESTIMATES WILL BE received by the Commissioner of Docks at Pier "A," Battery place, in The City of New York, on

FRIDAY, JUNE 20, 1902.

until 12 o'clock noon, for the right to dump and fill in behind the crib bulkhead recently built

along Lexington avenue and One Hundred and Thirty-second street, on the westerly side of the Harlem river, between said crib work and the upland banks within the lines of said streets.

Conditions of the right to dump and fill in on westerly side of Harlem river, between Lexington avenue and One Hundred and Thirty-second street, in the Borough of Manhattan.

The filling will be put in to a height of about five feet or less above mean high water mark over the above described area.

The privilege to fill in the said described area will be sold to the highest bidder, but the Commissioner reserves the right to reject all bids if deemed for the interest of the City so to do. One-half the purchase price for such right or privilege must be paid at the time of award of privilege, and the remaining half when one-half of the work of filling in has been completed.

The total estimated quantity to be filled in is about 16,500 cubic yards, more or less. This total estimated quantity is approximate only and is estimated without allowance for sinkage or settlement below the mud line. The Department is not bound in any way by such estimate and bidders must satisfy themselves of the actual quantity required to fill in the above described area by examination of the premises or such other means as they may prefer. The intention of the Department being to fill in the whole of the said premises behind the crib bulkhead to the westerly line of Lexington avenue and to the southerly line of One Hundred and Thirty-second street, and no allowance will be made to the purchaser from the purchase money on account of any discrepancy which may be found between the above estimated quantity and the actual amount of filling required. The purchaser will be required to place the filling in accordance with the specifications:

All the filling shall be placed directly in the rear of the crib and carried from the crib toward the shore until the bank of same has been carried out at the finished grade for a distance of about 40 feet from the face of the crib, at which time if so directed by the Engineer, the filling may be commenced from the shore toward the crib.

Owing to the fact that a portion of the crib work has already shown a movement, and that it is likely that it will settle further to some extent, the work of filling in will have to be conducted with much care, and for that reason the purchaser will estimate upon being delayed on the work, which it is not expected will be carried on continuously to completion from the time it is commenced.

All material must be dumped and filled in only in such manner, at such points and in such order of procedure and at such times and seasons as may from time to time be directed and the work of filling in may be entirely suspended for such periods of time as may be directed. The purchaser shall have no claim for damage or for any allowance from the purchase money on account of such suspension of the work.

All directions shall be given by the Engineer, and wherever the word Engineer is used in these specifications it refers to and designates the Engineer-in-Chief of the Department of Docks and Ferries, or such officer or employee as may be designated by him.

No filling shall be placed directly on the top of the crib until all the remainder of the filling is done, unless specially so directed by the Engineer.

All the filling except as otherwise specified herein shall be of ashes, cellar dirt, broken stone, etc., entirely free from garbage or any other organic matter objectionable in the opinion of the Engineer.

No piece of rip rap stone coming directly on or against the crib work shall be greater than about three feet

The time for the completion and the performance of the contract is on or before January 31, 1903.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the board of aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York, is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to The City.

The contracts must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of The City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by The City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the department for which the work is to be done. Plans and drawings of construction work may also be seen there. m14
