**STATEMENT FROM MAYOR BILL DE BLASIO ON THE CONGRESSIONAL
TAX REFORM BILLS**

“President Trump’s top economic advisor has admitted that the group most excited about their tax plan is wealthy CEOs. This plan takes from New York City’s working families and hands billions of dollars to the largest corporations and wealthiest Americans. That’s bad for our people and bad for our economy. The only way you could possibly think this plan makes any sense is if you care more about the wealth of the 1% than you do about the wealth of the middle class.”
