LOCAL BOARDS.

TWENTY-FIRST AND TWENTY-SECOND DISTRICTS, BORQUOH OF THE BRONX.

JOINT SESSION.

Pursuant to call by President Haffen, the members of the Local Boards, Twenty-first and Twenty-second Districts, Borough of The Bronx, met at 1.30 % M. June 27, 1901, at the office of the President of the Borough of The Bronx, Municipal Building, Crotona Park, One Hundred and Seventy-seventh street and Third avenue.

Present—President Haffen, Councilman Murray, Alderman Geiger, Alderman McGrath and Alderman George.

Alderman Gass.

Minutes of previous meetings (Local Boards, Twenty-first and Twenty-second Districts), were read and adopted.

Modification of the Street System in that Part of the Borough of The Bronx Bounded by Bronx Park, Webster Avenue, Flower Street, Park Avenue and Duncombe Avenue.

Bronx Park, Webster Avenue, Flower Street, Park Avenue and Duncombe Avenue.

President Haffen stated that this was a matter taken up in executive session and that from what the members of the Local Board had heard at the previous hearings from the property-owners interested, they believed that the plan as proposed by the Board of Public Improvements, and which was presented to the Local Board, should be adopted with the exception of the layout of Olin avenue (Gun Hill Road) which they believed should be only eighty (80) feet wide.

President Haffen put the question as to whether the Board was in favor of the Board of Public Improvements plan (with the exception as mentioned, namely, Olin avenue (Gun Hill road), to be an eighty (80) foot street. The Board unminously resolved to recommend the said plan with the exception as stated.

After the matter had been passed, Mr. Genrge Lyden asked to have the matter reconsidered. On motion of Alderman Gass, his request was granted. Mr. Lyden said that while he and some of the other petitioners believed that an eighty (80) foot street was sufficient hefore the trolley tracks were laid, they feared it would not be wide enough when the company would lay a double track system.

Mrs. F. Dodge, of Gun Hill road, stated that site had seen two accidents on Gun Hill road caused by the narrowness of the road; one man, she said, had his shoulder broken, and that there was a horse injured there also, because of the fact that there was not sufficient room between the curbstone and the trolley railway tracks. Mr. Tier stated that those accidents were probably caused by the roadway being covered with contractor's materials, and that as soon as the roadway was cleaned up accidents would not happen, and that he thought that this road would be wide enough, if left at eighty feet, for the next ten years.

Mr. George W. O'Connor then stated that some of the property-owners who were opposed to a 100-foot street being laid out now, would withdraw their opposition if they could be assured that the area of assessment could be extended. President Haften stated that the Local Board could give no assurances on the question of the area of assessment.

Alderman Gass moved that the matter be taken up in executive session again. Seconded by Alderman Geiger.

East Two Hundred and Twenty-second Street (Formerly Eighth Street), from the Bronz River to Seventh Avenue.

A communication dated June 5, 1901, signed by Edward Mitchell, of the firm of Messrs. Mitchell & Mitchell, was received by President Haffen, asking for a reconsideration by the Board of Public Improvements of the action taken by it on May 15 last, in reference to the ap-

plication of the Corporation Counsel for the appointment of Commissioners to acquire title to East Two Hundred and Twenty-second street (formerly Eighth street), from the Bronx river to Seventh (street) avenue, stating that it should be amended so as to provide either for acquiring title from the Bronx river to White Plains avenue, or to acquire title from the Bronx river to Pelham Ray Park, in view of the contemplated construction of a bridge over the Bronx river at East Two Hundred and Twenty-second street. Mr. Mitchell also stated in his letter that his client (Mr. Joseph Stickney) considered it an injustice to the property-owners that the entire cost and expense of said proceedings should be assessed upon the property deemed to be benefited, as set forth in the Board of Public Improvements resolution of May 15, 1901. He believed that torty (30) per cent. of the cost of acquiring title be home by the City at large.

Petition signed by Joseph Stickney, Peter Schweickert (for Maria Schweickert) and others, dated June 19, 1901, was reactived and read by the Secretary.

After discussion, the matter was laid over to be taken up in executive session.
