**ARTICLE XI –**  
**SPECIAL PURPOSE DISTRICTS**

**Chapter 8 –**  
**Special Union Square District**

\* \* \*

**118-02**

**Incorporation of Appendix A**

The District Plan of the #Special Union Square District# and Subdistricts is are set forth in Appendix A of this Chapter and is are incorporated as an integral part of the provisions of this Chapter.

**118-03**

**Subdistricts**

In order to carry out the purposes and provisions of this Chapter, Subdistrict A and Subdistrict B are established within the #Special Union Square District#.

In each of these Subdistricts certain special regulations apply which do

not apply in the remainder of the #Special Union Square District#. The Subdistricts are specified on Map 1 (Special Union Square District and Subdistricts) in Appendix A of this Chapter.

#### 118-10 USE REGULATIONS

In Subdistricts A and B, as shown on Map 1 in Appendix A of this Chapter, the underlying #use# regulations are modified by the provisions of this Section, inclusive.

#### 118-11 Ground Floor Uses

In Subdistrict A, as shown on Map 1 in Appendix A of this Chapter, #uses# #Uses# within #stories# that have a floor level within five feet of #curb level# along 14th Street shall be limited to the #uses# listed in this Section, except that entrances to above-grade or below-grade #uses# are permitted, subject to the regulations set forth in Section 118-41 (Entrances on 14th Street).

\* \* \*

#### 118-12 Sign Regulations Transient Hotels

[Note: sign regulations moved to Section 118-13]

In Subdistrict B, as shown on Map 1 in Appendix A of this Chapter, the #development# of a #transient hotel#; a change of #use# or #conversion# to a #transient hotel#, or an #enlargement#, containing a #transient hotel#, of a #building# that, as of [date of adoption], did not contain such #use#; or an #enlargement# or #extension# of a #transient hotel# that existed prior to [date of adoption] that increases the #floor area# of such #use# by 20 percent or more, shall be permitted only by special permit of the City Planning Commission, pursuant to the provisions of this Section.

In order to permit such a #transient hotel#, the Commission shall find that such #transient hotel# is so located as not to impair the essential character of, or the future use or development of, the surrounding area.

Any #transient hotel# existing prior to [date of adoption], within Subdistrict B shall be considered a conforming #use# and may be continued, structurally altered, #extended# or #enlarged# subject to the limitations set forth in this Section, and subject to the applicable district #bulk# regulations. However, if for a continuous period of two years such #transient hotel# is discontinued, or the active operation of substantially all the #uses# in the #building# or other structure# is discontinued, the space allocated to such #transient hotel# shall thereafter be used only for a conforming #use#, or may be #used# for a #transient hotel# only if the Commission grants a special permit for such #use# in accordance with the provisions of this Section. In addition, in the event a casualty damages or destroys a #transient hotel# within Subdistrict B that was in such #use# as of [date of adoption], such #building# may be reconstructed and used as a #transient hotel# without obtaining a special permit. A #non-complying building# may be reconstructed pursuant to Section 54-40 (DAMAGE OR DESTRUCTION IN NON-COMPLYING BUILDINGS).

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

**PLEASE TAKE FURTHER NOTICE**, that, pursuant to said Order and, to §§ 503 and 504 of the Eminent Domain Procedure Law (“EDPL”), of the State of New York, each and every person interested in the real property acquired, in the above-referenced proceeding and having any claim or demand on account thereof, shall have a period of two years from the Vesting Date, for this proceeding, to file a written claim, with the Clerk of the Court of Richmond County, and to serve within the same timeframe a copy thereof on the Corporation Counsel of the City of New York, Tax and Bankruptcy Litigation Division, 100 Church Street, New York, NY 10007. Pursuant to EDPL § 504, the claim shall include:

- the name and post office address of the condemnee;
- reasonable identification by reference to the acquisition map, or otherwise, of the property affected by the acquisition, and the condemnee’s interest therein;
- a general statement of the nature and type of damages claimed, including a schedule of fixture items which comprise part or all of the damages claimed; and,
- if represented by an attorney, the name, address and telephone number of the condemnee’s attorney.
- Pursuant to EDPL § 503(C), in the event a claim is made for fixtures or for any interest other than the fee in the real property acquired, a copy of the claim, together with the schedule of fixture items, if applicable, shall also be served upon the fee owner of said real property.

**PLEASE TAKE FURTHER NOTICE**, that, pursuant to § 5-310 of

the New York City Administrative Code, proof of title shall be submitted, to the Corporation Counsel of the City of New York, Tax and Bankruptcy Litigation Division, 100 Church Street, New York, NY.

### HHS ACCELERATOR

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York ("PPB Rules"), vendors must first complete and submit an electronic prequalification application using the City's Health and Human Services (HHS) Accelerator System. The HHS Accelerator System is a web-based system maintained by the City of New York for use by its human services Agencies to manage procurement. The process removes redundancy

by capturing information about boards, filings, policies, and general service experience centrally. As a result, specific proposals for funding are more focused on program design, scope, and budget.

Important information about the new method

- Prequalification applications are required every three years.
- Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete.
- Prequalification applications will be reviewed to validate compliance with corporate filings, organizational capacity, and relevant service experience.
- Approved organizations will be eligible to compete and would submit electronic proposals through the system.

The Client and Community Service Catalog, which lists all Prequalification service categories and the NYC Procurement Roadmap, which lists all RFPs to be managed by HHS Accelerator may be viewed, at <http://www.nyc.gov/html/hhsaccelerator/html/roadmap/roadmap.shtml>. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding.

### Participating NYC Agencies

HHS Accelerator, led by the Office of the Mayor, is governed by an Executive Steering Committee of Agency Heads who represent the following NYC Agencies:

Administration for Children's Services (ACS)  
Department for the Aging (DFTA)  
Department of Consumer Affairs (DCA)  
Department of Corrections (DOC)  
Department of Health and Mental Hygiene (DOHMH)  
Department of Homeless Services (DHS)  
Department of Probation (DOP)  
Department of Small Business Services (SBS)  
Department of Youth and Community Development (DYCD)  
Housing and Preservation Department (HPD)  
Human Resources Administration (HRA)  
Office of the Criminal Justice Coordinator (CJC)

To sign up for training on the new system, and for additional information about HHS Accelerator, including background materials, user guides and video tutorials, please visit [www.nyc.gov/hhsaccelerator](http://www.nyc.gov/hhsaccelerator)

##### Construction Related Services

### PREQUALIFIED VENDOR LIST: GENERAL CONSTRUCTION, NON-COMPLEX GENERAL CONSTRUCTION SITE WORK ASSOCIATED WITH NEW YORK CITY DEPARTMENT OF PARKS AND RECREATION ("DPR") AND/OR "PARKS") PARKS AND PLAYGROUNDS CONSTRUCTION AND RECONSTRUCTION PROJECTS.

NYC DPR is seeking to evaluate and pre-qualify a list of general contractors (a "PQL") exclusively to conduct non-complex general construction site work involving the construction and reconstruction of NYC DPR parks and playgrounds projects not exceeding \$3 million per contract ("General Construction").

By establishing contractor's qualification and experience in advance, NYC DPR will have a pool of competent contractors from which it can draw to promptly and effectively reconstruct and construct its parks, playgrounds, beaches, gardens and green-streets. NYC DPR will select contractors from the General Construction PQL for non-complex general construction site work of up to \$3,000,000.00 per contract, through the use of a Competitive Sealed Bid solicited from the PQL generated from this RFQ.

The vendors selected for inclusion in the General Construction PQL, will be invited to participate in the NYC Construction Mentorship. NYC Construction Mentorship focuses on increasing the use of small NYC contracts, and winning larger contracts with larger values. Firms participating in NYC Construction Mentorship will have the opportunity to take management classes and receive on-the-job training provided by a construction management firm.

NYC DPR will only consider applications for this General Construction PQL from contractors who meet any one of the following criteria:

- 1) The submitting entity must be a Certified Minority/Woman Business enterprise (M/WBE)\*;
- 2) The submitting entity must be a registered joint venture or have a valid legal agreement as a joint venture, with at least one of the entities in the joint venture being a certified M/WBE\*;
- 3) The submitting entity must indicate a commitment to sub-contract no less than 50 percent of any awarded job to a certified M/WBE for every work order awarded.

\* Firms that are in the process of becoming a New York City-Certified M/WBE, may submit a PQL application and submit a M/WBE Acknowledgement Letter, which states the Department of Small

Business Services has begun the Certification process.

Before the Department of Buildings can issue a permit, for the alteration or demolition of a multiple dwelling, in certain areas designated in the Zoning Resolution, the owner must obtain a "Certification of No Harassment" from the Department of Housing Preservation and Development ("HPD"), stating that there has not been harassment of the building's lawful occupants during a specified time period. Harassment is conduct by an owner that is intended to cause, or does cause, residents to leave or otherwise surrender any of their legal occupancy rights. It can include, but is not limited to, failure to provide essential services (such as heat, water, gas, or electricity), illegally locking out building residents, starting frivolous lawsuits, and using threats or physical force.

The owner of the building identified above has applied for a Certification of No Harassment. If you have any comments or evidence of harassment, at this building, please notify HPD, at **CONH Unit, 100 Gold Street, 6<sup>th</sup> Floor, New York, NY 10038**, by letter postmarked, not later than 30 days, from the date of this notice, or by an in-person statement made within the same period. To schedule an appointment, for an in-person statement, please call **(212) 863-5277, or (212) 863-8211**.

**For the decision on the Certification of No Harassment Final Determination, please visit our website, at [www.hpd.nyc.gov](http://www.hpd.nyc.gov), or call (212) 863-8266.**

To the Mayor, the Council, and the President and CEO of the New York Public Library,

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25- 318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission, at the Public Meeting of July 10, 2018, following the Public Hearing of the same date, voted to issue a positive report for the proposed work at the subject premises, as put forth in your application completed on June 14, 2018, and as you were notified in Status Update Letter 19-25246, issued on July 12, 2018.

The proposal, as approved, consists of replacing an existing modern metal clad concrete ramp, steps, and a landing, and metal railings adjacent to the main ground floor entrance at the north (East 125th Street) facade with a new longer granite clad concrete ramp and cheek wall, granite steps and landing, and dark brown painted ("antique bronze") metal railings; replacing existing modern metal and glass doors at the main entrance of the north facade with a pair of dark stained wood and glass paneled doors; replacing windows, mullions, and transom bars throughout the north facade, including replacing a pair of four-light fixed windows, a central mullion, a transom bar, and a round-headed five-light transom above the main entrance in-kind, except that the new infill will be metal clad wood, instead of wood; replacing four (4) modern six-over-six double-hung windows, round-headed eight-light transoms, and associated mullions and transom bars at the ground floor with metal clad wood infill, including two (2) pairs of eight-light fixed windows, a central mullion, and a round-headed six-light fixed transom, in conjunction with restoring the masonry openings by removing modern masonry infill and lowering the sills; replacing twelve (12) modern six-over-six double-hung windows, twelve-light fixed transoms, and associated mullions and transom bars at the second floor with metal clad wood infill, including two (2) pairs of eight-light fixed windows and central mullions; and replacing three (3) modern one-over-one metal windows at the third floor with metal clad wood single-light hopper windows, as well as replacing windows throughout the south (rear) facade, including replacing one-over-one, two-over-two, and twelve-over- twelve double-hung windows and eight-light transoms with metal clad wood one-over-one, two-over-two, and four-over-four double-hung windows, with select windows featuring translucent ("fritted") glazing; and constructing a grey

painted metal elevator bulkhead at the roof, as shown in a digital presentation, titled "New York Public Library Carnegie Branch Libraries, 125th Street Branch Library, 224 East 125th Street, Landmarks Preservation Commission Presentation," dated June 29, 2018, and prepared by Cannon Design, including fifty-one (51) slides, consisting of photographs and drawings, all presented as components of the application at the Public Hearing and Public Meeting.

In reviewing this proposal, the Commission noted that the New York Public Library 125th Street Branch Individual Landmark Designation Report describes 224 East 125th Street as a Renaissance Revival style library building designed by McKim, Mead & White and built in 1903-04.

With regard to this proposal, the Commission found that all the historic wood windows at the front and rear façades were replaced prior to designation with new wood and metal windows, and that the proposed replacement aluminum-clad wood windows at the primary façades will match the historic flat-headed and arch-headed windows in terms of configuration, operation, and profiles, and therefore, will bring the primary façade closer to its historic appearance; that the arched window openings at the first floor will be restored according to their original height with the removal of non-historic window infill; that the proposed windows at the visible rear façade will match the windows at the primary façade in terms of color and configuration, thereby creating a uniform window treatment throughout the building; that the current metal ramp does not comply with ADA standards, and that the installation of the proposed ramp will not destroy any significant features of the building and will provide barrier-free access to the building at the main entrance in the most direct way; that the simple details and materials of the ramp and steps, including granite cladding and wrought iron railings will complement the Classical style of the building; that the height and material of the granite wall of the ramp will match the material and height of the granite base of the building; that the historic granite bollards will be preserved and incorporated into the new design; that the paired doors and transom will recall the historic entrance infill in terms of configuration, materials and details; that the proposed elevator bulkhead will be visible over the rear façade from a distance through an adjacent park north of the library, but will not detract from the special architectural character of the building; and that the matte grey metal cladding of the bulkhead will not call undue attention to itself. Based on these findings, the Commission determined the work to be appropriate to the building and voted to approve it with the stipulation that the windows have a lighter finish to recall the historic finish and to better relate to the Renaissance Revival style of the building; and that the applicant work with staff to revise the design and dimensions of the steps to more closely match the historic steps designed by McKim, Mead, & White.

The Commission authorized the issuance of a Certificate of Appropriateness upon receipt, review and approval of two (2) or more sets of signed and sealed Department of Building filing drawings showing the approved design and incorporating the required changes.

Subsequently, on November 6, 2019, the Commission received a presentation set, titled "125th Street Branch Library," including LP-001 through LP-084, consisting of photos, drawings, and finish samples, dated (revised) November 4, 2019, and prepared by Cannon Design; a 131-page specifications project manual; an email transmittal, dated November 19, 2019; and final filing drawings DM-150.00, DM-151.00, DM-152.00, DM-153.00, DM-154.00, DM-200.00, DM-201.00, DM-202.00, DM-203.00, DM-204.00, DM-300.00, DM-301.00, DM-302.00, DM-303.00, DM-400.00, DM-401.00, DM-402.00, DM-403.00, DM-500.00, DM-501.00, DM-502.00, DM-503.00, DM-504.00, DM-600.00, DM-601.00, DM-602.00, DM-603.00, S-001.00, S-002.00, S-003.00, S-004.00, S-100.00, S-101.00, S-102.00, S-103.00, S-104.00, S-300.00, S-301.00, S-420.00, S-500.00, S-501.00, S-502.00, S-503.00, S-510.00, S-520.00, and S-1.1 dated June 21, 2019, and prepared by Elias S. Feinberg, PE.

Accordingly, staff reviewed these materials and noted that they include modifications to the proposal, consisting of changing the proposed color of the replacement windows at the north facade from black to off-white ("Oyster White"); and slightly extending the returns of the lowest step to

align with the easternmost and westernmost edges of the plinths beneath the bollards. With regard to these modifications, staff found that the light finish of the windows will recall the original finish, and will relate well to the Renaissance Revival style of the building; and that the modifications to the lowest step will help the stairs to more closely match the historic steps. Additionally, staff found that the design approved by the Commission has been maintained and that the required changes have been incorporated. Based on these and the above findings, the drawings have been marked approved with a perforated seal, and Commission Binding Report 20-01394 is being issued.

**PLEASE NOTE:** This Commission Binding Report is being issued in conjunction with Staff Binding Report 20-05157 for restorative masonry and metal work; installing louvers, mechanical equipment, light fixtures, a barrier-free access actuator, and ladders; replacing a skylight, windows, and a door; removing miscellaneous modern installations; temporarily removing and reinstalling a railing; and interior alterations.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. This report constitutes the permit; a copy must be prominently displayed at the site while work is in progress. To the Mayor, the Council, and the Commissioner of the New York City Department of Parks and Recreation,

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25-318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal for alterations to the southern end of Franz Sigel Park, located between the Grand Concourse and Walton Avenue, from Mabel Wayne Place and East 151st Street, including replacing paving, fencing and site furnishings, as well as associated landscaping work at the main Grand Concourse entrance, nearby ballfields and courts, a plaza in front of the comfort station, and the surrounding paths and landscaping, including relocating the ballfields by removing 8' and 16' tall metal fencing, backstop and hood assemblies, concrete curbs, bleachers, benches, metal storage bins, drinking fountains, and concrete and clay paving within the western side of the site and installing new 8' tall and 16' tall black painted chain link fencing, backstop wells, concrete curbs, metal bleachers, metal benches, metal drinking fountains, and concrete and clay paving further east within the same lawn; removing select existing modern light poles (sports lights) within the lawn and installing new light poles within the same lawn, corresponding to the change in location of the ballfields; installing new green finished metal electronic scoreboards at the western side of the lawn; replacing asphalt paving and granite block curbs at pathways at the west side of the site in-kind; modifying the circulation within this section of the park and formalizing a plaza at the entrance by removing the existing asphalt paving at the main Grand Concourse entrance and at a pathway connecting the basketball court with a nearby park entrance, installing asphalt and hex block pavers at the main Grand Concourse entrance (plaza) and curvilinear concrete paths between the plaza, the basketball courts and the entrance near the basketball courts, and asphalt and concrete paths adjacent to the ball fields; and removing

wood and metal benches and concrete paving (bench pads) adjacent to paths and installing new wood and metal benches and concrete pads in different locations adjacent to paths, as well as excavation, in conjunction with installing footings for the proposed fencing and regrading select areas of the lawn, in conjunction with the installation of a new 1'-6" to 3'-0" concrete retaining walls, creating barrier-free access to one of the dugouts and bleacher areas between the two fields, as shown in existing condition photographs; drawing labeled L101.00, L103.00, L201.00, and L202.00, dated (revised) October 12, 2019, and prepared by Nancy Dolores Owens, L.A., V101.00, V102.00, B101.00.00, B102.00.00, L102.00, L203.00, L401.00, L501.00, C201.00 through C203.00, C501.00 through C501.00, dated (revised) September 6, 2019, and prepared by Brendan P. Kelly, P.E., S001.00 and S501.00, dated September 6, 2019, prepared by Panagiotis Koklanos, P.E., and LT001.00, LT501.00, E-001.00, E-101.00, E-202.00 and E-501.00, dated September 6, 2019, and prepared by John Torre, P.E., all submitted as components of the application.

In reviewing this proposal, the Commission notes that the Grand Concourse Historic District Designation Report for describes 613-619 Grand Concourse as a park, originally named Cedar Park and re-named Franz Sigel Park in 1902. The Commission also notes that ballfields and courts were constructed in the southern end of the park prior to the designation of the historic district.

With regard to this proposal, the Commission finds that the replacement of the existing fencing and furnishings for ballfields with equivalent fencing and furnishings, within a lawn which has featured ballfields since prior to the designation of the historic district, will not significantly alter the character of this section of the park; that the proposed furnishings for the ballfields, including fencing, backstop and hood assemblies, bleachers, benches, storage bins, drinking fountains, lightpoles, and scoreboards, will be simply designed and typical in terms of placement, size, materials, details and finishes, thereby helping these installations remain a secondary presence within the park; that the changes to the material and footprint of the paving adjacent to the entrance, formalizing the existing plaza, will subtly differentiate this section of paving from the surrounding pathways, reflecting the use of the area, without drawing undue attention to the paving; that the changes to the placement and footprints of the pathways will be consistent with such aspects of pathways throughout the surrounding circulation system within the park; that the inclusion of paving between the two ballfields will help improve barrier free access and, within the surrounding context, this paving will be a harmonious secondary presence; that the proposed pathway and plaza paving and curbing will be consistent with paving and curbing found throughout this section of the park in terms of materials, finish and details; that the cumulative effect of the proposed work will not result in a significant increase in the overall amount of paving within this section of the park; that the proposed benches and drinking fountains will be typical in placement, number and size, as well as in keeping with benches and curbing found through this section of the park in terms of materials, design and details; and that none of the proposed work will detract from any significant architectural or historic features of the park or Grand Concourse Historic District.

**PLEASE NOTE:** As the approved work consists of subsurface work, the applicant is required to strictly adhere to all Department of Buildings' requirements for in-ground construction at, and adjacent to, historic buildings, including, when required, TPPN 10/88 monitoring.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. This report constitutes the permit; a copy must be prominently displayed at the site while work is in progress. To the Mayor, the Council, and the Commissioner of the New York City Department of Parks and Recreation,

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25- 318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Commission received a proposal for installing a condenser unit, adjacent to a bird enclosure within the zoo complex; creating masonry openings at plain masonry at an east facade; installing conduit extending from the new openings to the condenser unit; and interior alterations within the bird enclosure structure, as shown on drawings T-100.00, G-100.00, G-101.00, G-102.00, DM-200.00, M-400.00, M-500.00, and M-900.00, prepared by Ronald W. Mineo, PE and revision dated April 28, 2015, all submitted as components of the application.

With regard to this proposal, the Commission finds that the work is in accordance with the provisions set forth in Title 63 of the Rules of the City of New York, Section 2-21 for Installation of Heating, Ventilation, Air Conditioning and other Mechanical Equipment, including Section 2-21 (h)(2) for HVAC and other mechanical equipment in yards and areaways fronting secondary facades; and Section 2-21 for Installation of Heating, Ventilation, Air Conditioning and other Mechanical Equipment, including Section 2-21(d)(3) for installation of through-wall HVAC equipment on nonvisible secondary facades. Based on these findings, the work is approved.

Please see Title 63 of the Rules of the City of New York for complete text of any Rule section(s) cited in this permit: <http://www1.nyc.gov/site/lpc/applications/rules-guides.page>

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. This report constitutes the permit; a copy must be prominently displayed at the site while work is in progress. To the Mayor, the Council, and the NYC Department of Parks & Recreation Deputy Commissioner for Capital Projects:

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25- 318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has received a proposal for

repairing sections of bluestone pavement at the coved forecourts at the Congress Street (north) and Verandah Place (south) park entrances, including trimming and resetting all sound, salvageable bluestone pavers; and replacing in-kind all ruptured bluestone flags as needed, and retaining all granite perimeter curbing, as described in a scope of work letter dated July 28, 2019 and prepared by Jeffrey S. Hewitt of Williamsburg Garden Company, Inc., and as shown in existing condition photographs, and on drawings labeled "Cobble Hill Park Mid Section Entrance Verandah Place, Existing Conditions Bluestone Surface," "Cobble Hill Park Mid Section Entrance Verandah Place, Proposed Conditions Bluestone Surface," "Cobble Hill Park Mid Section Entrance Congress Street, Existing Conditions Bluestone Surface," and "Cobble Hill Park Mid Section Entrance Congress Street, Proposed Conditions Bluestone Surface," dated July 1, 2019, and a drawing labeled "Cross Section Blue Entrances, Cobble Hill Park" dated August 19, 2019 and all prepared by Williamsburg Garden Company, Inc., all submitted as components of the application.

In reviewing this proposal, the Commission notes that the Cobble Hill Historic District Designation Report describes Cobble Hill Park (aka 256-262 Clinton Street, 172-196 Congress Street, and 19-41 Verandah Place) as a public park built in 1964. The Commission further notes that Commission Binding Report 88-0016 (LPC 87-0668) was issued on June 23, 1988 for the redesign and reconstruction of the park.

With regard to this proposal, the Commission finds that the work is restorative in nature and will help maintain the Commission-approved form, detailing, and materials of park fabric dating from the 1988 redesign and reconstruction; that resetting the existing sound bluestone pavers will return these pavers to their historic level placement and help protect them from future disrepair; that the work will support the special architectural and historic character of the historic district. Based on these findings, the Commission determined that the work is appropriate to the building and to the Cobble Hill Historic District. The work, therefore, is approved.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. This report constitutes the permit; a copy must be prominently displayed at the site while work is in progress. Please direct inquiries to James Russiello.

To the Mayor, the Council, and the The City of New York, Department of Design & Construction,

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25- 318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal for

replacing one (1) black finished vent riser with one (1) light beige finished vent riser, utilizing existing attachment points, at the first floor of the south (Jones Street) facade; replacing one (1) overflow alarm in-kind at the first floor of the south facade; installing one (1) light beige finished vent riser at untinted concrete sidewalk paving; replacing one (1) metal manhole cover in-kind at the sidewalk; and interior alterations at the cellar through first floors, as shown on drawings T-000.00, G-001.00, G-002.00, G-003.00, G-004.00, EN-001.00, OT-001.00, OT- 002.00, OT-003.00, OT-004.00, OT-005.00, OT-006.00, OT-007.00, OT-008.00, OT-009.00, OT-010.00, and E-001.00, dated August 30, 2019, and prepared by Martin J. Wesolowski, PE, all submitted as components of the application.

In reviewing this proposal, the Commission notes that the Firehouse Engine Co. Thirty-Three Individual Landmark Designation Report describes 42-44 Great Jones Street, as a French Beaux Arts style firehouse, designed by Ernest Flagg and W. B. Chambers and built in 1893; and that the building's style, scale and materials are among the features which cause this building to contribute to the special architectural and historic character of the NoHo Historic District Extension.

With regard to this proposal, the Commission finds that the work is in accordance with the provisions set forth in Title 63 of the Rules of the City of New York, Section 2-20 for Health, Safety, and Utility Equipment, including Section 2-20(b) for Health, Safety, and Utility Equipment; Section 2-20(c)(1) for utility meters; and Section 2-20(c)(7) for exterior connections and vents. Based on these findings, the work is approved.

Please see Title 63 of the Rules of the City of New York for complete text of any Rule section(s) cited in this permit: <http://www1.nyc.gov/site/lpc/applications/rules-guides.page>

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. This report constitutes the permit; a copy must be prominently displayed at the site while work is in progress. To the Mayor, the Council, and the Commissioner of the New York City Police Department,

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25- 318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The approved work consists of exterior alterations at side yard adjacent to the east facade, including replacing untinted concrete paving, an underground fuel storage tank, manhole covers, and fuel pumps in-kind, as described and shown in written specifications and drawings labeled T-000.00, G-001.00 through G-005.00, EN-001.00, OT-001.00 through OT-007.00, E-001.00, and 1, dated October 7, 2019, and prepared by Martin J. Wesolowski, PE, all submitted as components of the application.

With regard to this proposal, the Commission finds that the work is in accordance with the provisions set forth in Title 63 of the Rules of the City of New York, Section 2-17 for Front, Side, and Rear Yards, including

Section 2-17(a)(2) for areaway paving, steps, or planted areas; and Section 2-21 for Installation of Heating, Ventilation, Air Conditioning and other Mechanical Equipment, Section 2-21 (h)(2) for HVAC and other mechanical equipment in yards and areaways fronting secondary facades. Based on this finding, the work is approved.

To the Mayor, the Council, and the President and CEO of the New York Public Library,

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25- 318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal for replacing a chimney liner within the existing chimney opening in-kind, as shown in six (6) current condition photos and drawings M-001.00, M-002.00, M-003.00, M-004.00, M-005.00, and EN-002.00, dated October 4, 2019; and EN-001.00, dated (received) December 9, 2019, and prepared by Louis P. Arena, PE, all submitted as components of the application.

With regard to this proposal, the Commission finds that the work will not alter, eliminate, or destroy any significant features of the building; that the new liner will be concealed within the existing chimney; and that the work will not be visible from any public thoroughfares. Based on these findings, the work is approved.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. This report constitutes the permit; a copy must be prominently displayed at the site while work is in progress. To the Mayor, the Council, and the Vice President of Capital Planning & Construction, NYPL,

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25- 318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal for restorative work throughout the north (East 125th Street) and south (rear) facades, the rear yard, and the roof, including cleaning limestone and granite using a mild detergent and low-pressure water rinse; repairing limestone and granite using a patching compound, pinning, and injection grouts; repointing limestone, granite, and plain brickwork; selectively replacing brickwork in-kind at a brick wall at the perimeter of the rear yard; selectively replacing bluestone lintels and sills throughout the south facade in-kind; and replacing copper cladding at a clerestory at the roof in-kind, as well as alterations at the north facade, including installing a brushed steel barrier-free access actuator at plain masonry adjacent to the east side of the main entrance door; replacing two (2) modern light fixtures at limestone adjacent to the main ground floor entrance with black painted metal and glass light fixtures; and installing a cove light and light emitting diode (LED) tape light anchored to plain masonry at the top of the limestone cornice; alterations at the cellar level of the south facade, including replacing a one-over-one double-hung window with a louver; and replacing a modern single-light door and three-light translucent ("fritted") glass transom in-kind; alterations at the third floor of the east facade at a light and ventilation well, including replacing a two-over-two double-hung window in-kind; and replacing a two-over-two double-hung window with a louver; alterations at the rear yard, including removing mechanical equipment, a mechanical enclosure, and a fence; and replacing the existing concrete paving in-kind; alterations at the rooftop clerestory, including replacing existing six-light fixed windows in-kind, and removing modern plywood infill at the clerestory window openings and installing six-light fixed windows; and alterations at the roof, including installing mechanical equipment and ladders; replacing a skylight in-kind; and temporarily removing and reinstalling an existing black painted metal railing, as well as interior alterations at the cellar through third floors, including structural work, as described and shown in an email transmittal, dated October 21, 2019; a presentation set, titled "125th Street Branch Library," including LP-001 through LP-084, consisting of photos, drawings, and finish samples, dated (revised) November 4, 2019, and prepared by Cannon Design; a 131-page specifications project manual; and drawings DM-150.00, DM-151.00, DM-152.00, DM-153.00, DM-154.00, DM- 200.00, DM-201.00, DM-202.00, DM-203.00, DM-204.00, DM-300.00, DM-301.00, DM-302.00, DM-303.00, DM-400.00, DM-401.00, DM-402.00, DM-403.00, DM-500.00, DM-501.00, DM-502.00, DM-503.00, DM-504.00, DM-600.00, DM-601.00, DM-602.00, DM-603.00, S-001.00, S-002.00, S-003.00, S-004.00, S-100.00, S-101.00, S-102.00, S-103.00, S-104.00, S-300.00, S-301.00, S-420.00, S-500.00, S-501.00, S-502.00, S-503.00, S-510.00, S-520.00, and S-530.00, dated June 21, 2019, and prepared by Elias S. Feinberg,

PE, all submitted as components of the application.

In reviewing this proposal, the Commission notes that the New York Public Library 125th Street Branch Individual Landmark Designation Report describes 224 East 125th Street as a Renaissance Revival style library building designed by McKim, Mead & White and built in 1903-04.

With regard to this proposal, the Commission finds that the work is in accordance with the provisions set forth in Title 63 of the Rules of the City of New York, Section 2-11 for Repair, Restoration, Replacement, and Re-creation of Building Facades and Related Exterior Elements, including Section 2-11(c)(1) for cleaning or removal of paint and coatings; Section 2-11(c)(3) for pointing mortar joints; Section 2-11(c)(4) for repair of natural or cast stone; Section 2-11(d)(1)(i) for in-kind material replacement; Section 2-11(d)(1)(iv)(B) for replacement of cast and sheet metals; and Section 2-11(d)(1)(iv)(D) for replacement of cast and natural stone; Section 2-20 for Health, Safety, and Utility Equipment, including Section 2-20(c)(3) for light fixtures and intercom panels; Section 2-18 for Barrier-Free Access, including Section 2-18(d)(1) for access actuators on building facades; Section 2-14 for Window and Doors, including Section 2-14(h)(1) for new windows and doors at secondary nonvisible or minimally visible facades; Section 2-21 for Installation of Heating, Ventilation, Air Conditioning and other Mechanical Equipment, including Section 2-21(c)(2)(ii) for HVAC equipment within window openings on secondary facades; and Section 2-21(g)(2) for installation of HVAC and other mechanical equipment on rooftops and terraces; and Section 2-15 for Rooftop and Rear Yard Additions or Enlargements, including Section 2-15(d)(1) for non-occupiable rooftop additions on Individual Landmarks. Based on these findings, the Commission determined that the work is appropriate to the Individual Landmark. The work, therefore, is approved.

Please see Title 63 of the Rules of the City of New York for complete text of any Rule section(s) cited in this permit: <http://www1.nyc.gov/site/lpc/applications/rules-guides.page>

**SAMPLES REQUIRED:** Pursuant to Title 63 of the Rules of the City of New York, Section 2-11(b)(5) and 2-11(b)(7) for Repair, Restoration, Replacement and Re-creation of Building Facades and Related Exterior Elements, this permit is being issued contingent upon the Commission's review and approval of installed sample mockups of patching, repointing, and replacement brick and bluestone units at locations requiring repair, prior to the commencement of work. Review instructions in the subsection cited above before preparing samples. Submit clear, color digital photographs of all samples to JWiesner-Chianese@lpc.nyc.gov for review, or contact staff to schedule a site visit.

**PLEASE NOTE:** This Staff Binding Report is being issued in conjunction with Commission Binding Report 20-01394 for the replacement of a barrier-free access ramp, steps, a landing, windows, and doors; and the construction of a bulkhead.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. This report constitutes the permit; a copy must be prominently displayed at the site while work is in progress. To the Mayor, the Council, and the Assistant Commissioner, NYC Department of Citywide Administrative Services,

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25-318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction,

reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal for interior alterations only at the fifth floor, as shown on drawings A-100.00 and A-200.00, dated August 16, 2019, and prepared by Arthur Arnold, R.A., both submitted as components of the application.

The Commission has reviewed the application and these drawings and finds that the work will have no effect on significant protected features of the building.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. This report constitutes the permit; a copy must be prominently displayed at the site while work is in progress. To the Mayor, the Council, and the Director, Mobile Telecom Franchises & Special Projects,

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25-318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal for installing telecommunications poletop antennas and associated transmitter boxes mounted on existing light poles, the design and attachment of which are in accordance with the guidelines established by the Public Design Commission. The work will occur at light poles located within the Boerum Hill Historic District Extension. The work consists of installing one (1) telecommunications poletop antenna and transmitter box at an existing light pole, as well as installing conduit mounted to the metal shaft of the light pole, all finished to match the existing light pole (gray); and excavating concrete pavers where the concrete will be replaced to match the pre-existing tint and scoring, as described and shown in existing conditions photographs, locator map, poletop manager print out, manhole cover diagram, and a letter, dated December 6, 2019, prepared by Brett Sikoff of NYC DoITT, and submitted as components of the application.

In reviewing this proposal, the Commission notes that multiple telecommunications poletop antenna and transmitter box are proposed to be mounted on light poles throughout New York City's historic districts; that the Department of Information Technology and Telecommunications applications for such work have been divided into multiple phases, of which the current proposal consists of one (1) of such installations.

The Commission also notes that the current application excludes any proposal for work with the African Burial Ground and The Commons Historic District, which must be reviewed and approved separately by the Landmarks Preservation Commission's Director of Archaeology. The Commission further notes that the Art Commission issued Certificate of Final Approval 22232 on September 14, 2005, approving the design of telecommunications poletop antennas and transmitter

boxes, with associated conditions. The Approved poletop identification numbers within the Boerum Hill Historic District Extension is: 15672.

With regard to this proposal, the Commission finds that the small size, neutral finish, simple design, and mounting height of the proposed poletop antenna and transmitter box will help them to be discreet installations at the upper portions of the light pole; that the installations will not call attention to themselves and will not detract from the streetscape; that the conduit run will be the thinnest possible diameter and will be finished to blend with the light pole shaft, so as not to call undue attention to itself; and that any concrete sidewalks to be excavated will be replaced with new concrete to match the tint and scoring of the adjacent concrete paving. Based on these findings, the proposed work is determined to be appropriate to this scenic landmark and these historic districts. Therefore, the work is approved.

Please provide one or more 8 by 10 inch black and white photographs of the completed work to the Public Design Commission of the City of New York, for its records.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

To the Mayor, the Council, and the Associate Commissioner, NYC Department of Design and Construction,

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25- 318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal for interior alterations only at the cellar to the roof, as shown on drawings T-001.00, T-002.00, A-100.00, A-101.00, A-200.00, A-300.00, M- 001.00, M-100.00, P-001.00, P-100.00, E-100.00, FA-100.00, and FA-101.00, dated (revised) November 15, 2019, and prepared by Ivan Pollak, P.E., all submitted as components of the application.

The Commission has reviewed the application and these drawings and finds that the work will have no effect on significant protected features of the building.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

To the Mayor, the Council, and the Commissioner, NYC Department of Transportation:

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25- 318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal to replace two (2) "cobra head" type street lampposts on West 147th Street, between Convent and St. Nicholas Avenues, with black painted "bishop's crook" type street lampposts; as described in a letter dated December 19, 2019; and as shown on existing condition photographs, a site plan, and on drawing titled "Proposed Lighting Plan," dated June 17, 2019, all prepared by the New York City Department of Transportation and submitted as components of the application.

The Commission notes that the bishop's crook post was installed throughout the city beginning in the early 20th century; and that these posts remained in place into the 1960s.

With regard to this proposal, the Commission finds that the existing cobra head lampposts are not harmonious in scale, material, details, or finish with the architectural and historic character of the historic district; that the new bishop's crook lampposts reproduce almost exactly the historic bishop's crook posts; that the proposed posts are harmonious in scale, material, details, and finish with the character of the district; that the installation will strengthen the historic character of the streetscape and district; and that the replacement of the existing posts with any other protected features of the district. Based on these findings, the Commission determined that the work is appropriate to the Hamilton Heights/Sugar Hill Historic District. The work, therefore, is approved.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

To the Mayor, the Council, and the Commissioner, NYC Department of Transportation:

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25- 318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal to replace four (4) "cobra head" type street lampposts on West 13th Street, between Greenwich Avenue and 7th Avenue, with black painted "bishop's crook" type street lampposts; as described in a letter dated December 19, 2019; and as shown on existing condition photographs, a site plan, and on drawing titled "Proposed Lighting Plan," dated February 20, 2019, all prepared by the New York City Department of Transportation and submitted as components of the application.

The Commission notes that the bishop's crook post was installed throughout the city beginning in the early 20th century; and that these posts remained in place into the 1960s.

With regard to this proposal, the Commission finds that the existing cobra head lampposts are not harmonious in scale, material, details, or finish with the architectural and historic character of the historic district; that the new bishop's crook lampposts reproduce almost exactly the historic bishop's crook posts; that the proposed posts are harmonious in scale, material, details, and finish with the character of the district; that the installation will strengthen the historic character of the streetscape and district; and that the replacement of the existing posts with bishop's crook posts in the same locations will have no effect on any other protected features of the district, including sidewalks. Based on these findings, the Commission determined that the work is appropriate to the Greenwich Village Historic District. The work, therefore, is approved.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

To the Mayor, the Council, and the Commissioner of the NYC Department of Parks & Recreation,

This report is issued pursuant to Section 25-318 of the Administrative Code of the City of New York, which requires a report from the Landmarks Preservation Commission for plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

At the Public Hearing and Public Meeting of December 3, 2019, the Landmarks Preservation Commission voted to issue a positive report for the proposed work at the subject site, as put forward in your application

completed on November 7, 2019.

The proposed work consists of the installation of a 14' tall monument, within landscaping adjacent to the center pathway, at the southern part of the Mall, featuring a bronze sculpture of three figures (Sojourner Truth, Susan B. Anthony and Elizabeth Cady Stanton) at a table and chairs, along with some of their possessions, set on a granite base, with incised lettering, painted dark grey at the east and west sides of the base; and removing seven (7) benches from the side of the pathway, adjacent to the side of the proposed monument. The work was shown in material samples, a poster of a rendering, and a computer slide presentation, titled "Women's Rights Pioneers Monument" and dated December 3, 2019, consisting of 22 slides of photographs and drawings, all prepared by Beyer Blinder Belle and presented at the Public Hearing and Public Meeting.

In reviewing this proposal, the Commission noted that Literary Walk is located at the southern end of the Mall, within an English Romantic style public park designed in 1858 by Olmsted and Vaux. The Commission also noted that the Mall was designed as a formal promenade in contrast to the more naturalistic character of the majority of Central Park; that Olmsted and Vaux and the Board of Commissioners recommended that the Mall and the entrances at the park perimeter be prescribed as the sites for commemorative statues; and that, in the 19th century, five bronze statues on granite bases were installed in the landscaping along the sides of Literary Walk.

With regard to this proposal, the Commission found that the presence of a monument, consisting of a sculpture and base, along Literary Walk at the southern end of the Mall, will be consistent with the original design intent for this portion of the park; that the monument will be in keeping with other monuments installed along the walk in the 19th century in terms of its placement in relation to the path, spacing from other monuments, overall size, materials and finishes, as well as in terms of the proportions between the sculpture and base, thereby helping it to remain compatible with the character of this section of the park; that the work will not significantly reduce the overall amount of landscaping within this area of the park or detract from any significant landscape features or vistas; that the lettering will be well scaled to the base and in keeping with the character of text historically used at the bases of some of the monuments along the walk in terms of its placement and finish; and that the work will support and enhance the historic and architectural heritage of the Central Park Scenic Landmark. Based on these findings, the Commission determined the work to be appropriate to the scenic landmark and voted to issue a positive report for the proposed work.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

This report is issued pursuant to Section 25-318 of the Administrative Code of the City of New York, which requires a report from the Landmarks Preservation Commission for plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior

landmark.

The Landmarks Preservation Commission has reviewed a proposal for restoration work at the Naumburg Bandshell and the surrounding site, including removing the modern cementitious cladding from the roof, exposing the underlying structural concrete dome, concrete ribs, insulation between ribs, concrete infill at the base and top of dome and both cast stone and limestone stepped units at the base of the dome; removal and in-kind replacement of lead coated copper flashing at the top of the band course beneath the dome; installing a cast concrete curb at the perimeter of the roof, and installing a kemper membrane system, featuring a limestone color and false scoring, replicating the finish and scoring pattern of the previously removed historic masonry roof cladding; temporarily removing and reinstalling cast stone units at and near the base of the dome; repairing limestone units, utilizing patching mortar and Dutchman; replacing new back-up brickwork behind limestone units, as needed; temporarily removing, reinstalling and anchoring limestone units in select locations, in conjunction with installing concealed waterproofing; installing and removing a temporary support structure ("shoring") at the underside of the coffered veneer panels at the ceiling, in conjunction with the in-kind replacement of cast stone units and back up masonry at the wall at the back of the stage; cleaning and repointing masonry throughout the bandshell, utilizing chemical cleansers, low pressure water rinses and lime rich mortar; removing a modern light fixture at the coffered ceiling; installing of LED cove lighting on top of a projecting band course at the base of the coffered ceiling; removing of a deteriorated historic bronze paneled door and two (2) metal modern doors and their replacement with three (3) bronze paneled doors; removing modern light fixtures and conduit at limestone above two of the doors, and the installation of new 24" wide strip lights in the masonry soffits of the entrances; replacing metal anchors, which are sometimes used for banner support, in-kind, at existing holes, as well as installing new stainless steel anchors in select locations at the new cast stone at the wall behind the stage; replacing the poured concrete paving at the stage floor, in-kind, except with slight changes to the pitch the stage, improving drainage; at the limestone steps and cheek walls, selectively resetting displaced units, and replacing damaged steps in-kind; replacing modern metal railings with simple posts and horizontal rails at the stairs, featuring an extra lower handrail ("child handrail") at the stairs and installing new black painted metal railings at the center of the stair; modifying the raised skylights, over the existing below-grade extension at the rear of the bandshell, including replacing the metal framed glass block concrete curbing, two (2) flush-mounted metal louvers, and cladding at the sides of the skylights, in-kind; and temporarily excavating landscaping adjacent to the bandshell in conjunction with waterproofing and reconstructing portions of select foundation walls; temporarily removing and reinstalling metal plaques at the shafts of two pilasters; regilding existing carved stone letters ("PRESENTED TO THE CITY OF NEW YORK AND ITS MUSIC LOVERS BY ELKAN NAUMBERG" AND "1923") at the base of the bandshell; and the removal and in-kind replacement of a limestone curb at the edge of stage, as well as work at the site immediately surrounding the bandshell, including replacing asphalt hex block pavers in-kind, and interior work within the base of the bandshell, as described and shown in letters, dated October 1, 2019 and October 8, 2019, and prepared by Denise Keaveney, and plans, color photographs, and renderings, labeled G-000.00 through G-002.00, SP-100.00, SP-101.00, A-100.00, A-101.00, A-200.00 through A-202.00, A-300.00 through A-302.00, A-400.00, A-410.00, A-500.00 through A-504.00, A-A-600.00, A-610.00, A-700.00, R-110.00, R-120.00, R-210.00 through R-215.00, R-300.00, S-100.00 through S-112.00, S-201.00 through S-212.00, S-500.00 and S-501.00, dated (revised) November 8, 2019, and prepared by Donald Friedman, P.E.

In reviewing this proposal, the Commission notes that the Naumburg Bandshell is a neo-Classical style bandshell, designed by William G. Tachau and built c. 1923, at the eastern side of the Mall within Central Park, an English Romantic style public park designed in 1858 by Olmstead and Vaux. The Commission also notes that a flag was hung at the wall behind the stage in the early 20th century, as documented historic photographs.

With regard to this proposal, the Commission finds that certain aspects of the work are in accordance with the provisions set forth in Title 63 of the Rules of the City of New York, Section 2-11 for Repair, Restoration, Replacement, and Re-creation of Building Facades and Related Exterior Elements, including Section 2-11(c)(3) for pointing mortar joints; Section 2-11(c)(1) for cleaning or removal of paint and coatings; Section 2-11(d)(1)(ii) for substitute materials and installation methods; and Section 2-11(c)(4) for repair of natural or cast stone; Section 2-20 for Health, Safety, and Utility Equipment, including Section 2-20(c)(3) for light fixtures and intercom panels; Section 2-20(b) for Health, Safety, and Utility Equipment; Section 2-14(f)(2)(v) for new windows and doors at primary facades at buildings in Scenic Landmarks; Section 2-16(c) for Excavation Work; and Section 2-19 for Sidewalks, including Section 2-19(f) for other sidewalk materials. Furthermore, with regards to these or other aspects of the work, the Commission finds that the work is restorative in nature; that the work at the roof will not replace existing historic cladding or similar masonry cladding or preclude the possibility of restoration of masonry cladding in the

future; that the cast concrete curbing at the perimeter of the roof will maintain masonry, replicating the historic roof masonry in dimensions, profiles and details at portions of the roof, which are seen in prominent views of the bandshell; that the kemper roofing system will only be used at the simply designed roof and will not be seen in conjunction with the prominent views of the bandshell or the Mall; that, when seen from the east, over the rear of the bandshell, the scoring, texture and finish of the kemper roofing system will help the installation to recall the appearance of the historic masonry; that the replacement metal anchors will only be installed at existing anchor penetration locations and at new masonry and will be small in size, limited in number and stainless steel; and that the cumulative effect of the proposed scope of work will support the long term preservation of the bandshell. Based on these findings, the Commission determined that the proposed work will be appropriate to the bandshell and the Central Park Scenic Landmark.

Please see Title 63 of the Rules of the City of New York for complete text of any Rule section(s) cited in this report: <http://www1.nyc.gov/site/lpc/applications/rules-guides.page>

**SAMPLES REQUESTED:** The submission of installed sample mockups of cleaning, patching, repointing, limestone and cast stone, as well as concrete tint at locations requiring repair for review and advisement by the Commission staff is requested. Clear, color digital photographs of all samples may be sent to [mshabrami@lpc.nyc.gov](mailto:mshabrami@lpc.nyc.gov) for review, or contact staff to schedule a site visit.

**PLEASE NOTE:** As the approved work consists of subsurface work, the applicant is required to strictly adhere to all Department of Buildings' requirements for in-ground construction at, and adjacent to, historic buildings, including, when required, TPPN 10/88 monitoring.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. This report constitutes the permit; a copy must be prominently displayed at the site while work is in progress. Please direct inquiries to Misha'el Shabrami.

| Willink Entrance Prospect Park, Scenic Landmark |                  |              |              |

To the Mayor, the Council, and the Commissioner of New York City Department of Parks and Recreation,

This report is issued pursuant to Section 25-318 of the Administrative Code of the City of New York, which requires a report from the Landmarks Preservation Commission for plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal for work at and adjacent to the Willink Entrance, located along Flatbush Avenue between Grand Army Plaza and Ocean Avenue, including removing the portions of the modern modular cobble ("Eurocobble") and asphalt paving, including the central (driveway) portion, aligning with the existing roadway within the park, and the edge portion, adjacent to the Flatbush Avenue roadbed; and installing asphalt paving, with an applied beige tinted coating ("taupe") at the central (driveway) portion and uncoated asphalt paving at the edges (new bike lanes); replacing select portions of the cobbles at sidewalks adjacent to the entrance with two granite pedestrian ramps and two granite bike ramps; and installing thermoplastic roadway markings and delineator posts at the edge portion (new bike lanes), separating vehicles and

bicycles, as described in a letter, dated October 11, 2019, and as shown on photos and on drawings labeled MD-986\_05, dated May 18, 2019, and drawings 3-12, dated October 2019, all submitted by the NYC Department Of Transportation as components of the application.

In reviewing this proposal, the Commission notes that the Prospect Park Designation Report describes Prospect Park as a primarily naturalistic style park designed in 1865 by Frederick Law Olmsted and Calvert Vaux. The Commission also notes that Staff Binding Report 93-0001 (LPC 92-2874) was issued December 22, 1992, approving replacing asphalt paving with Eurocobble and installing cast iron and granite bollards at Willink Entrance.

With regard to this proposal, the Commission found that the replacement of the existing paving will not eliminate any significant architectural or landscape features or reduce any landscaping; that the replacement asphalt paving will be in keeping with paving at entrances of this type throughout found within the park in terms of material; that the beige tinted coating will help identify the current use of this entrance as a primarily pedestrian walkway, while maintaining visual cues to its original function as a vehicular entrance; that the pedestrian and bike ramps will be simply designed and well scaled to their location; that the granite material will be consistent with paving materials at sidewalk pedestrian ramps within the boundaries of the scenic landmark; that the roadway markings and delineator posts will be typical in terms of placement, materials, size and design; that the presence of the mix of paving conditions, roadway markings and delineator posts will form a simple unified condition, at and near ground level, which will not detract from the prominent historic architectural features of the entrances, including the granite pillars, or from views of landscaping within the park; and that the cumulative effect of the proposed work will help address safety hazards, without detracting from the significant historic and naturalistic character of the Prospect Park Scenic Landmark.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. This report constitutes the permit; a copy must be prominently displayed at the site while work is in progress. ## READER'S GUIDE

The City Record (CR) is published each business day. The Procurement section of the City Record is comprised of notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Notice of solicitations and other notices for most procurement methods valued at or above \$100,000 for goods, services, and construction must be published once in the City Record, among other requirements. Other procurement methods authorized by law, such as sole source procurements, require notice in the City Record for five consecutive editions. Unless otherwise specified, the agencies and offices listed are open for business Monday through Friday from 9:00 A.M. to 5:00 P.M., except on legal holidays.

### NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptroller's Office at [www.comptroller.nyc.gov](http://www.comptroller.nyc.gov), and click on Prevailing Wage Schedules to view rates.

### CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION-RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

### VENDOR ENROLLMENT APPLICATION

New York City procures approximately \$17 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. Registration for these lists is free of charge. To register for these lists, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application, which can be found online at [www.nyc.gov/sellnyc](http://www.nyc.gov/sellnyc). To request a paper copy of the application, or if you are uncertain whether you have already submitted an application, call the Vendor Enrollment Center at (212) 857-1680.

### SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services at 110 William Street, New York, NY 10038. Sessions are convened on the second Tuesday of each month from 10:00 A.M. to 12:00 P.M. For more information, and to register, call (212) 618-8845 or visit [www.nyc.gov/html/sbs/nycbiz](http://www.nyc.gov/html/sbs/nycbiz) and click on Summary of Services, followed by Selling to Government.

### PRE-QUALIFIED LISTS

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstances. When an agency decides to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the CR. Information and qualification questionnaires for inclusion on such lists may be obtained directly from the Agency Chief Contracting Officer at each agency (see Vendor Information Manual). A completed qualification questionnaire may be submitted to an Agency Chief Contracting Officer at any time, unless otherwise indicated, and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings (OATH). Section 3-10 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists. For information regarding specific pre-qualified lists, please visit [www.nyc.gov/sellnyc](http://www.nyc.gov/sellnyc).

### NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board Rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, and the Housing Authority. Suppliers interested in applying for inclusion on bidders lists for Non-Mayoral entities should contact these

entities directly at the addresses given in the Vendor Information Manual.

### PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 9:30 A.M. to 5:00 P.M., except on legal holidays. For more information, contact the Mayor's Office of Contract Services at (212) 341-0933 or visit [www.nyc.gov/mocs](http://www.nyc.gov/mocs).

### ATTENTION: NEW YORK CITY MINORITY AND WOMEN-OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women-Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about this program, contact the Department of Small Business Services at (212) 513-6311 or visit [www.nyc.gov/sbs](http://www.nyc.gov/sbs) and click on M/WBE Certification and Access.

### PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City pays interest on all late invoices. However, there are certain types of payments that are not eligible for interest; these are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year: in January and in July.

The Rules may also be accessed on the City's website at [www.nyc.gov/sellnyc](http://www.nyc.gov/sellnyc)

### HOW TO READ CR PROCUREMENT NOTICES

Procurement notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards, and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section.

At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified unless a different one is given in the individual notice. In that event, the directions in the individual notice should be followed.

The following is a SAMPLE notice and an explanation of the notice format used by the CR.
