Coler, President, Borough of Brooklyn; Louis F. Haffen, President, Borough of The Bronx; Joseph Bermel, President, Borough of Queens; George Cromwell, President, Borough of Richmond.

The Mayor, Hon. George B. McClellan, presided.

The minutes of meetings held September 21, 28, October 1, 3, 4, 5, 8, 12, 19 and 23 1906, were approved as printed.

Frederick Loeser & Co.

A communication was received from the Mayor's office, returning, duly approved by the Mayor, resolutions as follows:

Granting to the firm of Frederick Loeser & Co. permission to maintain and operate an existing tunnel under and across a portion of Livingston street, in the Borough of Brooklyn.

Granting to the firm of Frederick Loeser & Co. permission to construct, maintain and operate a tunnel under and across the widened portion of Livingston street, in the Borough of Brooklyn.

Which was ordered filed.

Atlantic Telephone Company.

A communication was received from the Eastern District Board of Trade, requesting favorable action on the application of the Atlantic Telephone Company for a franchise.

Which was referred to the Committee of the Whole.

A communication was received from J. Edward Swannstrom, president of the Brooklyn Transit Reform League, appealing to the Board to take immediate action on the application for a franchise to construct a street surface railway on Livingston street, in the Borough of Brooklyn.

Which was referred to the Committee of the Whole.

Alteration of Manhattan End of Brooklyn Bridge.

The Secretary presented the following report from the Chief Engineer, Board of Rapid Transit Railroad Commissioners, in connection with the report of the Commissioner of Bridges, dated September 22, 1906, which was transmitted to said Board:

NEW YORK, October 10, 1906.

Hon. A. E. ORR, President, Rapid Transit Board:

DEAR SIR—Pursuant to the following resolution of the Board, adopted at its meeting held on October 4,

"Resolved, That the Chief Engineer be requested to report whether it is feasible to so reconstruct the Manhattan approach to the Brooklyn Bridge that trains may be run upon it from a subway; and whether such reconstruction can be carried on without materially interfering with the present bridge traffic."

I beg leave to report as follows:

To accommodate the additional tracks required, it would be necessary to widen the bridge from about Rose street to Pearl street to nearly the full width of its right of way, and this would be the first work to be done.

West of Rose street and east of Pearl street the width of the bridge would not be changed. Between Rose and Pearl streets the present trolley tracks would be moved to a new location on the widened structure, as shown on the accompanying plan.

The tracks to be connected with the subway tracks would occupy approximately the same location laterally as the old trolley tracks; and the necessary construction of removing masonry to obtain the correct grade and laying the new track, could be carried on without interfering with traffic in any way, except where the connections have to be made with the old tracks at Rose and Pearl streets, which would not take any more time than is now frequently occupied by changing rails, when it is customary to stop the traffic for several hours during the night. The tracks from the subway would join the elevated bridge tracks at Pearl street.

West of Rose street the subway tracks would be located near the centre line of the bridge, and would pass under the several loops formed by the trolley tracks. When a minimum distance of one foot, as shown on the plan herewith submitted, is allowed between the roof of the subway tunnels and the base of rail of the trolley tracks, the construction of the subway can be carried out without interfering with the traffic, as we have shown in a number of places along our present subway. It is, therefore, my opinion that the Manhattan approach to the Brooklyn Bridge can be rebuilt to allow the trains to run upon it from a subway without interfering with traffic, with the exception as mentioned above.

In regard to the report of Mr. J. W. Stevenson, Commissioner of Bridges, to the Board of Estimate and Apportionment, on changing the Manhattan approach to the Brooklyn Bridge, dated September 22, 1906, which was referred to me for a report, I wish to state that, in order to provide for subway tracks on the bridge, it will be necessary to close North William street, and to lower William street 16 feet. Mr. Stevenson's estimate of \$600,000 for the construction of this work corresponds very nearly with my estimate for the same.

The time necessary to complete the work I estimate at eighteen months from the time of letting the contract, barring any legal interference.

As to the question whether the cars operated in the present subway can safely run across the bridge, I would say that the weight of the subway cars in proportion to their length differs very little from the weight of the bridge cars in proportion to their length, and, therefore, without making any theoretical investigation, it is natural to assume that the subway cars can safely run across the bridge, provided, however, that the total length of the train is not materially increased.

Very truly yours,

GEORGE S. RICE, Chief Engineer.

Which was referred to the Commissioner of Bridges for a report.

New York Central and Hudson River Railroad Company.

In the matter of the communication from the Law Department, relative to the right of the New York Central and Hudson River Railroad Company to maintain and operate certain tracks on Twelfth avenue, between Fifty-eighth and Sixtieth streets, in the Borough of Manhattan, together with a report from the Bureau of Franchises, which were presented to the Board at its meeting of September 14, 1906, and laid over. The Secretary presented the following:

LAW DEPARTMENT—OFFICE OF THE CORPORATION COUNSEL,
NEW YORK, October 26, 1906.

JOSEPH HAAG, Esq., Secretary, Board of Estimate and Apportionment:

DEAR SIR—I am afraid we will not be able to finish our examination of the question as to the right of the New York Central and Hudson River Railroad Company to maintain certain tracks in Twelfth avenue, at Fifty-ninth street, and a trestle along Fifty-ninth street pier, in time for the meeting of the Board this week, and I beg to request that the Board defer consideration of the subject for one week longer.

Respectfully yours,

G. L. STERLING, Acting Corporation Counsel.

The matter was thereupon laid over for two weeks.

Erie Railroad Company.

The Secretary presented the following:

BOARD OF ESTIMATE AND APPORTIONMENT,
BUREAU OF FRANCHISES, ROOM 79, NO. 280 BROADWAY,
October 19, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—By an ordinance passed by Board of Aldermen on July 7, 1903, and approved by the Mayor July 17, 1903, the Erie Railroad Company was granted the right and privilege to construct and operate a double track surface railroad, with a single switch connecting the two tracks, to be operated by steam locomotives or other motive power which may be lawfully employed, except horses or the overhead system of electricity, across Thirteenth avenue and the marginal wharf or way extending from the westerly side of Thirteenth avenue to the waters of the Hudson river, between Twenty-seventh and Twenty-ninth streets, in the Borough of Manhattan, City, County and State of New York, subject to certain conditions and provisions, among which is the following:

Section 2, Clause 6—The said railroad may be "operated by locomotive steam power or by any other motive power which may be approved by the Board of Railroad Commissioners in accordance with the provisions of the Railroad Law, excepting overhead electrical power and horse power, provided, however, that the locomotive steam engines used shall be housed or boxed so as to conform to the type commonly known as the dummy engine."

Clause 12 of the same section provides:

"In case of any violation or breach or failure to comply with any of the provisions herein contained, this grant may be forfeited and annulled by The City of New York by an action brought by the Corporation Counsel on ten days' notice to the grantee, its successors or assigns."

The consent of the Board of Estimate and Apportionment was also given to the Erie Railroad Company by resolution adopted July 6, 1906, approved by the Mayor July 13, 1906, to construct and operate a railroad track in and across Thirteenth avenue from the marginal wharf to a warehouse on the easterly side of Thirteenth avenue, between Twenty-seventh and Twenty-eighth streets, in the Borough of Manhattan.

On June 12, 1906, a visit of inspection was made to the locality to ascertain the conditions existing at that time. It was found that a tank switching engine (No. 611) was being used to move the cars, and no dummy was seen.

On October 10, 1906, another visit was made and a switch engine was still in use moving cars across the street.

Since the provisions of the ordinance specifically require that a dummy locomotive be used, and the use of the present style of locomotive is in violation of the provisions, it would appear that the attention of the Erie Railroad Company should be called to the violation of the provisions as stated above, and required to conform to them within a reasonable time, say sixty days, or be made subject to the twelfth clause, which provides for violations of all the conditions named in the ordinance.

I offer herewith a form of resolution covering the case, to be adopted by the Board.

Respectfully,

HARRY P. NICHOLS, Assistant Engineer.

The following was offered:

Resolved, That the Secretary of the Board of Estimate and Apportionment call the attention of the Erie Railroad Company to the terms of the ordinance passed by the Board of Aldermen, July 7, 1903, and approved by the Mayor July 17, 1903, which granted to the said Erie Railroad Company the privilege of constructing and operating a double-track railroad in Thirteenth avenue, between Twenty-seventh and Twenty-ninth streets, particularly to the sixth clause of section 2, which relates to the type of locomotive to be used, which provision is not being complied with at the present time; and also to the twelfth clause of the same section, which refers to the action to be taken in case of any breach or violation of the provisions of the ordinance; and that the said Erie Railroad be thereby notified to conform to the terms relating to motive power to be used, and all others, and report to this Board when it has complied therewith.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn and Queens—14.

James S. Maher.

The Secretary presented the following:

JAMES S. MAHER, BUILDING CONSTRUCTION,
No. 1267 BROADWAY,
NEW YORK, October 16, 1906.

To the Honorable Board of Estimate and Apportionment, City of New York, No. 277 Broadway, City:

HONORABLE DEAR SIR—I herewith respectfully apply to your Honorable Board for a further extension of thirty days' time for the completion of the Brook avenue tunnels, located between Rose and Grove streets, Borough of The Bronx, for which a permit was granted me upon June 5, 1906.

In my former application for sixty days' extension of time for this work, made upon August 28, and granted by your Honorable Board, I fully expected to have this work completed on or before November 4, but have met with unavoidable delays, which will make me run a few weeks beyond the expiration of time granted me by your Board.

I am fully confident that this will be all the time necessary for me to completely finish this work, and trust that you will give me the necessary extension required upon same.

Yours very truly,

JAMES S. MAHER.

BOARD OF ESTIMATE AND APPORTIONMENT,
BUREAU OF FRANCHISES, ROOM 79, No. 280 BROADWAY,
October 23, 1906.

Hon. GEORGE B. MCCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—On May 25, 1906, a resolution was adopted by the Board of Estimate and Apportionment, approved by the Mayor June 5, 1906, the same being Approved Resolution No. 14, by which consent was granted to James S. Maher to construct, maintain and use three tunnels under Brook avenue, between Rose and Grove streets, Borough of The Bronx, to be used for the transfer of freight from the cars in the freight yard of the New York and Harlem Railroad Company to buildings about to be erected by him on the opposite side of Brook avenue.

On July 30, 1906, James S. Maher presented an application to the Board asking permission to change the location of the tunnels, and on August 28, 1906, he asked for an extension of time for the construction of the tunnels. Both of these applications were granted by resolution adopted by the Board on September 14, 1906, which was approved by the Mayor September 19, 1906, and is Approved Resolution No. 33.

During the construction of the tunnels it was found necessary to raise the water and gas pipes in Brook avenue, so that they would pass over the roof of the tunnels, and I am informed that the progress of the work has been considerably delayed in consequence.

James S. Maher has, therefore, presented an application dated October 16, 1906, for a second extension of time of thirty days, in which time he states that he will be able to complete the work. The various causes of delay as claimed were confirmed by Mr. C. H. Graham, Engineer in the Bureau of Sewers for the Borough of The Bronx, and he also reported that there appeared to be no objection to granting an extension of thirty days, as requested.

The tunnels are completed under the east sidewalk, and a little more than one-half the roadway as far as the lines of gas and water pipes. These pipes are uncovered, ready to be raised, and it was reported that the gas main would be raised on the evening of October 18, and the water pipes soon after that date.

I see no objection to such extension, and would suggest that the limit of time for the completion be fixed on December 4, 1906, with a proviso that an additional charge of twenty-five dollars (\$25) be made to cover the cost of re-examination and republication, and that a certificate of acceptance of this extension be filed by the grantee.

I transmit herewith a resolution for adoption.

Respectfully,

HARRY P. NICHOLS, Assistant Engineer.

The following was offered:

Whereas, The consent of the Corporation of The City of New York, by the Board of Estimate and Apportionment, was granted to James S. Maher, the owner of certain properties on Brook avenue, between Rose and Grove streets, in the Borough of The Bronx, to construct, maintain and operate three tunnels under and across said Brook avenue, by a resolution adopted by said Board of Estimate and Apportionment May 25, 1906, which resolution was approved by the Mayor June 5, 1906; and

Whereas, Section 11 of said consent provided that the grantee should complete the work upon the tunnels within ninety (90) days from the approval of said consent by the Mayor, provided, however, that such time might be extended by the Board of Estimate and Apportionment for a period not exceeding sixty (60) days; and

Whereas, The period of time allowed under the above resolution for the construction of the tunnels expired on September 4, 1906; and

Whereas, The said James S. Maher made application, under date of July 30, 1906, for permission to change the location of the tunnels and another application dated

August 28, 1906, for an extension of time for sixty days to complete the construction of the tunnels, both of which applications being granted by a resolution adopted by the said Board of Estimate and Apportionment September 14, 1906, which was approved by the Mayor September 19, 1906; and

Whereas, It appears that the said James S. Maher will be unable to complete the construction of the said tunnels on or before November 4, 1906, having been delayed by various causes over which he has had no control; and

Whereas, The said James S. Maher has presented another application dated October 16, 1906, requesting a further extension of thirty (30) days in the time in which to complete said tunnels, now therefore be it

Resolved, That the Board of Estimate of The City of New York hereby grants to the said James S. Maher an extension of time for thirty (30) days, or up to and including December 4, 1906, provided the said James S. Maher shall pay to the Comptroller of The City of New York the sum of twenty-five dollars (\$25) to cover the cost of re-examination and republication; and provided, also, that the said James S. Maher shall duly execute an instrument in writing wherein said grantee shall promise, covenant and agree on his part to continue to conform to, abide by and perform all the terms, conditions and requirements fixed and contained in the consent granted by the resolution adopted by said Board of Estimate and Apportionment May 25, 1906, approved by the Mayor June 5, 1906, and by the resolution adopted by said Board on September 14, 1906, approved by the Mayor September 19, 1906, and file the same with the said Board of Estimate and Apportionment of The City of New York within ten (10) days after the approval of this consent by the Mayor.

And the said grantee shall promise, covenant and agree in said instrument to hold The City of New York harmless from all damages to persons and property which may result from the construction, use, maintenance or operation of the tunnels authorized under the said resolutions above mentioned.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn and Queens—14.

George J. Hoster.

The Secretary presented the following:

JOHN F. ROUSAR,
NORTHEAST CORNER THIRTY-FOURTH STREET AND ELEVENTH AVENUE,
NEW YORK, October 8, 1906.

To the Honorable Board of Estimate and Apportionment of The City of New York:

George J. Hoster respectfully represents that he is the owner of the property on the northeast corner of Eleventh avenue and West Thirty-fourth street; that he is engaged in the brewery business and uses the building on the above property as a depot for the bottling and distributing of beer; that the said beer is brought in by rail in cars from out of the City and that said George J. Hoster respectfully makes application to your Honorable Board for the consent of The City of New York to construct, maintain and operate a single track or spur from the tracks of the New York Central and Hudson River Railroad in Eleventh avenue to his property, as above described.

The location of such spur track as shown on the accompanying plan entitled "Plan Showing Location of Proposed Railroad Track" to be constructed in Eleventh avenue, Borough of Manhattan, to accompany application of George J. Hoster to the Board of Estimate and Apportionment, dated October 8, 1906.

In the event of a favorable consideration of this application, said George J. Hoster will bind himself to comply with all the laws, ordinances and departmental regulations, any and other conditions which the Board may reasonably impose.

Respectfully yours,

GEORGE J. HOSTER.

BOARD OF ESTIMATE AND APPORTIONMENT,
BUREAU OF FRANCHISES, ROOM 79, No. 280 BROADWAY,
October 22, 1906.

Hon. GEORGE B. MCCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—George J. Hoster, the owner of the property on the northeast corner of Eleventh avenue and West Thirty-fourth street, in the Borough of Manhattan, has made application under date of September 28, 1906, for permission to construct, maintain and use a single track turnout or branch from the easterly track of the New York Central and Hudson River Railroad Company, in Eleventh avenue, just north of the present street railway tracks in Thirty-fourth street, to his property located as stated above.

The location of the proposed turnout is shown upon a plan accompanying the application and entitled:

"Plan showing location of proposed switch track to be constructed in Eleventh avenue, Borough of Manhattan, to accompany application of George J. Hoster to the Board of Estimate and Apportionment, City of New York, dated September 28, 1906," and signed by George J. Hoster.

George J. Hoster is engaged in the brewing business at Columbus, Ohio, and the products of the brewery are shipped by rail throughout the country. The building on the property is used by John F. Rousar, agent for Hoster-Columbus Associated Breweries Company, as a bottling establishment and distributing point for this district, and it is desired to transfer freight in bulk in cars received from the various railroads directly into the building.

Copies of the application and the accompanying plan were forwarded to the President of the Borough of Manhattan and the Commissioner of Water Supply, Gas and Electricity with a request that these officials have the project examined by the respective bureaus in their Departments, with a view to ascertaining if there are any special conditions which should be added to the usual form of consent for such privilege.

Replies have been received from these officials, stating that there is no objection to the construction of the proposed track. The President of the Borough of Manhattan makes suggestions as to the manner of replacing the pavement and the laying of the sidewalk on Eleventh avenue, which suggestions are provided for in the accompanying resolution.

I see no objection to granting consent and would suggest that permission be granted for a term not exceeding ten (10) years, but, as has been customary in granting such permits, revocable at the pleasure of the Board of Estimate and Apportionment, or its successors in authority, upon sixty (60) days' notice in writing, and that the sum of five hundred dollars (\$500) in money or securities, to be approved by the Comptroller, be deposited with him for the faithful performance of the terms and conditions of this consent.

In accordance with the precedent of the Board of Estimate and Apportionment fixing the charge for similar privileges, I would suggest that the compensation should be as follows:

During the first five years the annual sum of \$232.

During the second five years the annual sum of \$244.

The applicant should also pay such fee for the opening of the street as may be determined by the President of the Borough of Manhattan.

The compensation should commence upon the date of the approval of this consent by the Mayor.

I transmit herewith a resolution containing the customary provisions for adoption.

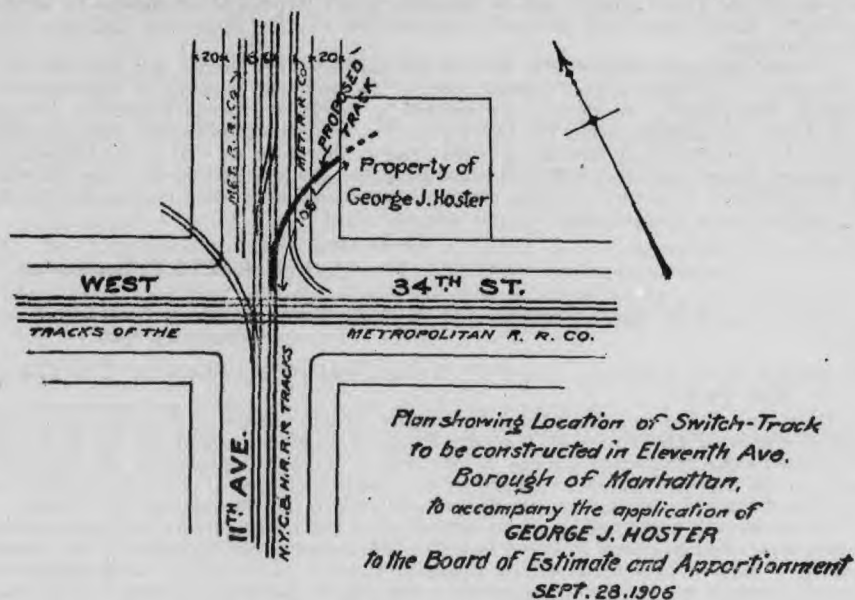

Respectfully,

HARRY P. NICHOLS, Assistant Engineer.

The following was offered:

Resolved, That the consent of the Corporation of The City of New York be and the same is hereby given to George J. Hoster, owner of the property on the north-east corner of Eleventh avenue and West Thirty-fourth street, in the Borough of Manhattan, to construct, maintain and use a single-track turnout or branch from the easterly track of the New York Central and Hudson River Railroad Company in Eleventh avenue, in the Borough of Manhattan, at West Thirty-fourth street, in and across said Eleventh avenue, to the property owned by said George J. Hoster, as shown on plan accompanying the application entitled:

"Plan showing location of proposed switch track to be constructed in Eleventh avenue, Borough of Manhattan, to accompany application of Geo. J. Hoster to the Board of Estimate and Apportionment, City of New York, dated September 28, 1906," signed by Geo. J. Hoster,

—copy of which plan is annexed hereto and made a part hereof.

The consent hereby given is subject to the following terms and conditions:

1. Said consent shall be for a term not exceeding ten (10) years from the granting of said consent, provided, however, that the same may be canceled or annulled upon six (6) months' notice in writing to the said George J. Hoster, his successors or assigns, by the Board of Estimate and Apportionment, or its successors in authority, and thereupon all rights of said grantee, his successors or assigns, in and upon said street or avenue shall cease and determine.

2. The said George J. Hoster, his successors or assigns shall pay into the Treasury of The City of New York the following sums of money:

During the first five years, the annual sum of \$232.

During the second five years, the annual sum of \$244.

Such sums shall be paid into the Treasury of The City of New York on November first of each year, provided, however, that the first payment shall be only such portion of \$232 as the time between the approval of this consent and November first following shall bear to the whole year.

The compensation herein proposed shall commence upon the date of approval hereof by the Mayor, and shall be paid annually in advance. Such compensation shall not be considered in any manner in the nature of a tax, but shall be in addition to any and all taxes of whatsoever kind or description now or hereafter to be paid by any ordinance of The City of New York or by any law of the State of New York.

3. Upon the revocation or termination by limitation of this consent, the said grantee, his successors or assigns, shall, at his own cost and expense, cause the said track to be removed and all that portion of Eleventh avenue affected by this permission to be restored to its proper and original condition, if required so to do by The City of New York or its duly authorized representatives. If the turnout or branch track to be constructed by said grantee under this consent shall not be required to be removed, it is agreed that the said turnout shall become the property of The City of New York.

4. The consent hereby given is for the exclusive use of said grantee, and shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the acts of the grantee, his successors or assigns, or by operation of law, without the consent in writing of The City of New York, acting by the Board of Estimate and Apportionment, or its successors in authority.

5. The said grantee shall pay the entire cost of:

- (a) The construction and maintenance of the railroad.
- (b) The protection of all surface and subsurface structures which shall in any way be disturbed by the construction of the railroad.
- (c) All changes in sewer or other structures made necessary by the construction of the railroad, including the laying or relaying of pipes, conduits, sewers or other structures.
- (d) The replacing or restoring the pavements in said streets and sidewalks which may be disturbed during the construction of said railroad.
- (e) Each and every item of the increased cost of any future substructure caused by the presence of said railroad under this consent.
- (f) The inspection of all work during the construction or removal of the railroad, as herein provided, which may be required by the President of the Borough of Manhattan or the Commissioner of Water Supply, Gas and Electricity.

6. Before the construction shall be commenced the grantee shall obtain permits to do the work from the President of the Borough of Manhattan and from the Commissioner of Water Supply, Gas and Electricity. The grantee shall perform all the duties which may be imposed upon the grantee by these officials, as conditions of such permits, provided such conditions are not inconsistent with the provisions of this consent. The grantee shall submit to these officials plans which shall include and show in detail the method of construction of such railroad and the mode of protection or changes in all subsurface structures required by the construction of said railroad.

7. The said railroad may be operated by any motive power other than overhead electrical power or horse-power which may be approved by the Board of Railroad Commissioners, in accordance with the provisions of the Railroad Law, and subject to such ordinances of The City of New York now in force or which may be hereafter adopted.

The number of cars to be included in any train operated upon said railroad track shall be limited to four (4), and the speed of the engine and cars shall never exceed six miles per hour, and no car shall be permitted to remain stationary within the limits of Eleventh avenue, and no freight shall be loaded or unloaded from said cars while within the limits of said street. The said grantee shall station flagmen along the railroad track to be constructed under this consent when trains are being moved, to protect the public from accidents, if required so to do by The City of New York.

Failure to comply with any of the within provisions shall make the grantee liable for a penalty of fifty dollars for each violation.

8. The railroad constructed under this consent shall be maintained and used solely by and for the benefit of the said grantee, and no one else, and for the purpose of the transportation of goods, wares and merchandise, and for no other purpose, and especially for no purpose in connection with passenger traffic as commonly understood.

9. Said railroad shall be constructed and operated in the latest improved manner of street railroad construction and operation, and solely upon the terms and according to the lines and surveys and of the character of the rails and other parts of the construction approved by the President of the Borough of Manhattan. Such track of the grantee, or his successors or assigns, shall be maintained in good condition throughout the term of this consent.

10. Said railroad shall be constructed, maintained and operated subject to the supervision and control of all the authorities of The City of New York who have jurisdiction in such matters under the Charter of The City of New York.

11. The grantee, his successors or assigns, shall at all times keep the track, and for a distance of two feet beyond the rails on either side thereof, free and clear from ice and snow.

12. The grantee, his successors or assigns, shall keep in permanent repair the portion of the surface of the street and sidewalk between the rails of the tracks and two feet in width outside of the track, under the supervision of the proper local authorities, and whenever required by them to do so and in such manner as they may prescribe. And The City of New York shall have the right to change the material or character of the pavement of the street or sidewalk, and in that event the grantee, his successors or assigns, shall be bound to replace such pavement in the manner directed by the proper City officer at his own expense, and the provision as to repairs herein contained shall apply to such renewed or altered pavement.

13. In case of any violation or breach or failure to comply with any of the provisions herein contained this consent shall be forfeited and annulled by the Board of Estimate and Apportionment upon ten (10) days' notice in writing to the said grantee, his successors or assigns.

14. This consent is given upon the further and express condition that the provisions of the Railroad Law applicable thereto, and all laws or ordinances now in force or which may be adopted relating to surface railroads operating in The City of New York, shall be strictly complied with.

15. Said grantee, his successors or assigns, shall commence the construction of the railroad under this consent and complete the same within three (3) months from the date of its approval by the Mayor, otherwise this consent shall be forfeited forthwith, and without any proceedings either at law or otherwise for that purpose; provided, however, that such time may be extended under and for causes specified in section 99 of the Railroad Law by the Board of Estimate and Apportionment, for a period not exceeding two months.

16. This consent is upon the express condition that the said grantee, within thirty days after its approval by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of The City of New York the sum of five hundred dollars (\$500), either in money or in securities, to be approved by him, which fund shall be security for the performance of the terms and conditions of this consent, especially those which relate to the repairs of the street pavement, the removal of snow and ice, the quality of construction of the railroad and to the payment of the annual charge. In case of default in the performance by said grantee of any of such terms or conditions The City of New York shall have the right to cause the work to be done and the materials to be furnished for making the necessary changes or repairs, after ten days' notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings, or in case of default in the payment of the annual charges shall collect the same with interest from such fund after ten days' notice in writing to the said grantee.

In case of any draft so made upon the security fund the grantee shall, upon thirty days' notice in writing, pay to the Comptroller of The City of New York a sum of money sufficient to restore the said fund to the original amount of five hundred dollars (\$500), and in default of the payment thereof the consent hereby given may be canceled and annulled, at the option of the Board of Estimate and Apportionment of The City of New York, acting on behalf of said City. No action or proceedings or rights under the provisions of this section shall affect any other legal rights, remedies or causes of action belonging to The City of New York.

17. This consent shall not become operative until said grantee shall duly execute an instrument in writing wherein said grantee shall promise, covenant and agree on his part and behalf to conform to and abide by and perform all the terms, conditions and requirements in this consent fixed and contained and file the same with the Board of Estimate and Apportionment within thirty days after the approval of this consent by the Mayor. And the said grantee shall promise, covenant and agree in said instrument to hold The City of New York harmless from all damages to persons or property which may result from the construction, maintenance or operation of the railroad track hereby authorized.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn and Queens—14.

United States Automatic Telephone Company.

In the matter of the application of the United States Automatic Telephone Company for a franchise to construct, maintain and operate the necessary appurtenances for the transaction of a general telephone business in and throughout all the boroughs of The City of New York, which was presented to the Board at its meeting of June 8, 1906, and referred to the Bureau of Franchises.

The Secretary presented the following:

BOARD OF ESTIMATE AND APPORTIONMENT,
BUREAU OF FRANCHISES, ROOM 79, No. 280 BROADWAY,
October 22, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—On June 8, 1906, the United States Automatic Telephone Company, in a petition dated May 31, 1906, to the Board of Estimate and Apportionment, requested the grant of a franchise or right to construct, maintain and operate the necessary appurtenances to transact a general telephone business in and throughout all the boroughs of The City of New York. This application was referred to the Bureau of Franchises for investigation and suggestions.

From a perusal of the certificate of incorporation of this company, it appears that the company is incorporated under the Stock Corporations Law, and not under the Transportation Corporations Law, thereby avoiding certain requirements of the latter law, which impose a penalty for failure to comply therewith.

Before proceeding with the necessary investigation to propose terms and conditions to govern the franchise, should it be granted, this Bureau felt that the opinion of the Corporation Counsel should be had as to whether or not a franchise could lawfully be granted to a company organized as hereinbefore set forth, and from a monetary point of view it was deemed advisable to have the opinion of the Corporation Counsel, so that, should it be unfavorable, the company would not be put to unnecessary expense, caused by advertising its petition previous to the public hearing, as required by law. Therefore a communication was addressed to the Corporation Counsel on June 26, 1906, and his attention was called to the facts as herein set forth, and he was requested to advise the Board of Estimate and Apportionment accordingly.

In a communication dated October 17, 1906, the Corporation Counsel advises:

"That the United States Automatic Telephone Company has no power to receive and the Board of Estimate and Apportionment has no power to grant the franchise applied for."

I am therefore of the opinion that the application should be denied, and I transmit herewith resolution denying same.

Respectfully,

HARRY P. NICHOLS, Assistant Engineer.

The following was offered:

Whereas, The United States Automatic Telephone Company petitioned this Board for a franchise to construct, maintain and operate the necessary appurtenances to transact a general telephone business in and throughout all the boroughs of The City of New York; and

Whereas, The Corporation Counsel of The City of New York, in an opinion dated October 17, 1906, advises "that the United States Automatic Telephone Company has no power to receive and the Board of Estimate and Apportionment has no power to grant the franchise applied for;" now therefore be it

Resolved, That the application of the United States Automatic Telephone Company be and it hereby is denied.

Mr. Elias E. Ries, president of the United States Automatic Telephone Company, appeared, stated he had just been advised of the opinion of the Corporation Counsel, and requested that action upon the application be deferred to allow him an opportunity to consult with the Corporation Counsel.

The Comptroller moved that the matter be laid over for two weeks.

Which was agreed to.

Municipal Subway Company.

On February 16, 1906, the Board referred to the Bureau of Franchises certain papers presented by this company, wherein it claimed that the Commissioner of Water Supply, Gas and Electricity had the right, and protested against his refusal to execute a contract permitting this company to lay and maintain subways and electrical conductors, under and pursuant to the provisions of chapter 334 of the Laws of 1884, as amended.

The Secretary presented the following:

BOARD OF ESTIMATE AND APPORTIONMENT,
BUREAU OF FRANCHISES, ROOM 79, No. 280 BROADWAY,
October 22, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—On February 16, 1906, the Board of Estimate and Apportionment referred to the Bureau of Franchises a brief, plans and conclusions and a proposed contract, from the Municipal Subway Company.

This company desired to enter into a contract with the Commissioner of Water Supply, Gas and Electricity, to lay and construct subways for electrical conductors under and pursuant to the provisions of chapter 334 of the Laws of 1884, as amended. It appears from the papers submitted by the company that it had previously made application to the Commissioner of Water Supply, Gas and Electricity, and the application had been denied.

From a perusal of the papers in the matter, it seemingly appeared that the question at issue was whether or not the Commissioner of Water Supply, Gas and Electricity had the power to execute the form of contract presented by the Municipal Subway Company, and it was thought advisable by this Bureau to submit the matter to the Corporation Counsel for an opinion; so, on March 15, 1906, a communication was forwarded to the Corporation Counsel, together with a copy of the proposed contract and the other papers submitted by the company.

I am in receipt of a communication, dated October 11, 1906, from the Corporation Counsel, wherein he states, after quoting section 469 of the Greater New York Charter, as amended, which section the Municipal Subway Company cites in support of its contention that the Commissioner of Water Supply, Gas and Electricity has the power to execute such contract; that

"There is not in my opinion any authority in such section giving to the Commissioner of Water Supply, Gas and Electricity the right to grant the franchise here sought."

And he further states, after an exhaustive discussion of the matter:

"The Municipal Subway Company was organized under the Business Corporations Law, and has only secured a franchise to be a corporation.

"Apart from this, however, I am of the opinion, and so advise you, that the Commissioner of Water Supply, Gas and Electricity has no authority to execute the proposed contract, and that the execution of the same was properly refused by the predecessor of the present Commissioner."

In view of this opinion it would appear that no action is necessary by the Board, and I would therefore recommend that the papers be filed, and the Secretary be directed to forward a copy of this report to the Municipal Subway Company.

Respectfully,

HARRY P. NICHOLS, Assistant Engineer.

Which was ordered filed, and the Secretary directed to forward a copy of same to the Municipal Subway Company.

Spuyten Duyvil and Port Morris Railroad Company.

The Secretary presented the following:

JOSEPH HAAG, Esq., Secretary, Board of Estimate and Apportionment, No. 277 Broadway, New York:

DEAR SIR—I have yours of the 12th inst., referring to the report of Harry P. Nichols, Assistant Engineer, upon the subject of the proposed change of route of the Spuyten Duyvil and Port Morris Railroad at Spuyten Duyvil, Borough of The Bronx.

I note the suggestion of the Engineer that the Park District Protective League be advised to confer with the President of the Borough of The Bronx, in order that proper application may be made to the Board for the laying out of the necessary streets, changing of grades and removing from the map of certain streets.

I beg to advise that the Park District Protective League will with pleasure take up the matter with the President of the Borough of The Bronx, and will hope to submit at an early date a petition and map for the necessary changes.

I understand that the railroad company is ready to execute such agreement as the Corporation Counsel may advise to be proper, covering the terms and conditions upon which the City's consent will be granted, which terms and conditions by action, previously taken, were left to the determination of the Board of Estimate and Apportionment.

I trust that your Board will be able to expedite this matter, as the electrical equipment of the road beyond Kingsbridge is awaiting the making of the proposed changes. The relief to the district represented by the Park District Protective League from the present unsatisfactory condition of traffic, we believe, will come with the completion of the electrical equipment. For this reason, therefore, as well as for the sake of the general improvements which will accompany the changes proposed in the railroad, the Park District Protective League urges all reasonable expedition on the part of the City authorities in co-operating to carry out the plans.

Yours very truly,

J. J. McKELVEY, Secretary.

NEW YORK CENTRAL AND HUDSON RIVER RAILROAD COMPANY,
October 13, 1906.

Mr. JOSEPH HAAG, Secretary, Board of Estimate and Apportionment of The City of New York:

DEAR SIR—I beg to acknowledge the receipt of your favor of the 12th inst., with copy of report of Mr. Harry P. Nichols, Assistant Engineer, dated the 8th inst., and addressed to the Honorable George B. McClellan, Mayor, Chairman of the Board of Estimate and Apportionment, in regard to the proposed change of route of the Spuyten Duyvil and Port Morris Railroad at Spuyten Duyvil, in the Borough of The Bronx.

This matter is a proceeding under section 13 of the Railroad Law. The procedure therein prescribed has been followed down to and including the approval of the alteration "by a vote of two-thirds of the Common Council of the City," being resolution adopted January 10, 1905, and approved by the Mayor January 17, 1905. That resolution provided that it should "not take effect until the terms and conditions of making such alteration or change shall be fixed and determined by the Board of Estimate and Apportionment, acting in behalf of the City, nor until said terms and conditions shall be accepted and agreed to by said Spuyten Duyvil and Port Morris Railroad Company." All that remains to be done, therefore, is the fixing of the terms and conditions, and the agreement thereto by the railroad company. Certain terms and conditions were heretofore fixed and determined by the Board, but not agreed to by the railroad company, as appears from my letter of May 4, 1905, to his Honor the Mayor, Chairman of the Board of Estimate and Apportionment.

Upon the failure of the Board and the company to agree upon terms, the property owners of the locality, represented by the Park District Protective League, at once took up the matter, and have since been endeavoring to bring about an adjustment. In connection with this matter, these property owners have suggested other important and desired improvements of the locality, in addition to those which were contemplated in the original negotiations.

With a desire to carry out this improvement, if possible, and with a further desire to meet the expressed wishes of the property owners, I have had various conferences with Mr. John J. McKelvey, representing the Park District Protective League, and I have stated to him the things which the company would do, and he, I am informed, has advised Mr. Nichols accordingly. These involve, among other things, the granting by the company of an easement in 53,500 square feet of land now owned or controlled by it, and the easement in other land not owned or controlled by the company, but to be acquired by it, if possible, at an expense of about \$35,000, all in return for the easement in 18,000 square feet of land under streets of the City required by the railroad company for the new route; in addition to this, the company to make improvements on said property estimated to cost \$76,100.

I assume that the Assistant Engineer's report to the Board is based upon the statements which I have made to Mr. McKelvey as to what the company will do. In so far as it is, it is satisfactory.

So far as the company is concerned, therefore, all that remains to complete this proceeding is to agree upon the terms and conditions. The matter of form of contract between the City and the company was heretofore and on or about April 14, 1905, referred by the Board of Estimate and Apportionment to the Corporation Counsel, and if the terms now proposed are satisfactory to the Board, all that remains to be done is to refer the matter again to the Corporation Counsel for preparation of proper contract.

Yours respectfully,

IRA A. PLACE, General Counsel.

BOARD OF ESTIMATE AND APPORTIONMENT,
BUREAU OF FRANCHISES, ROOM 79, No. 280 BROADWAY,
October 19, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—In reply to the action taken by the Board at the meeting of October 12, calling upon the Spuyten Duyvil and Port Morris Railroad Company to make proper application to the Board of Estimate and Apportionment for the additional rights required to shorten the line at Spuyten Duyvil, Mr. Ira A. Place, General Counsel, in a communication dated October 13, 1906, has replied that all the action necessary at the present time is that the Board of Estimate and Apportionment should fix the terms, the Board of Aldermen having, by resolution adopted January 10, 1905, and approved by the Mayor January 17, 1905, approved of the relocation of the road.

As I understood the matter from the Park District Protective League, who again brought up the question after the railroad company had declined to accept the terms and conditions imposed by the Board on April 14, 1905, the company does not desire to change its route to the new location, but intends to keep the present route as a siding.

In my report of October 8, 1906, of which a copy was forwarded to Mr. Place, I stated as follows:

"The situation is somewhat different than originally proposed, in that the company desires to keep its original right of way and use the same for a siding and for the storage of cars, whereas the first application was for a change of route, with the understanding that the original right of way should be abandoned."

Mr. Place entirely overlooks this matter, and if the statement contained therein is correct the procedure is not under section 13 of the Railroad Law except incidentally, the company now asking for additional rights, which must be under sections 71 and sequence of the Charter, and, in consequence, a new application is, in my opinion, necessary.

Respectfully,

HARRY P. NICHOLS, Assistant Engineer.

The Secretary was directed to notify Mr. Place accordingly.

Abraham & Straus.

In the matter of the communication presented to the Board at its meeting of September 28, 1906, from Mr. W. L. Cameron, protesting against the continuance of the permit granted to the firm of Abraham & Straus to construct a tunnel under

the widened portion of Livingston street, in the Borough of Brooklyn, and which was referred to the Corporation Counsel for opinion.

The Secretary presented the following:

LAW DEPARTMENT—OFFICE OF THE CORPORATION COUNSEL,
NEW YORK, October 22, 1906.

Board of Estimate and Apportionment:

GENTLEMEN—Under date of September 28, 1906, Joseph Haag, Secretary to the Board, wrote my predecessor as follows:

"I transmit herewith copy of a communication from Mr. W. L. Cameron, protesting against the continuance of the permit granted to the firm of Abraham & Straus to construct, maintain and operate a tunnel under and across Livingston street, in the Borough of Brooklyn. This permission was granted by resolution, copy of which I enclose, duly adopted by the Board of Estimate and Apportionment, on December 15, 1905, approved by the Mayor January 30, 1906, in accordance with an opinion from your office, dated January 25, 1906, advising the Board it had the right to grant such a privilege.

At the meeting of the Board of Estimate and Apportionment, held this day, Mr. Cameron's communication was presented, together with a report from the Bureau of Franchises, and the matter was referred to you for an opinion as to whether or not the points raised by Mr. Cameron are well taken and could be legally upheld."

The protest of Mr. W. L. Cameron, which was enclosed, was based on the following grounds:

"As a taxpayer and an interested property owner, I beg to enter my protest against the continuance of the franchise for a tunnel in Livingston street granted the firm of Abraham & Straus by the Board of Estimate and Apportionment.

"As a taxpayer—First, that the City admits the claim of the firm of Abraham & Straus to ownership of the street itself. This claim would be of great value in case the City should need this street for subway or other purposes.

"Second, that the rental to be paid is inadequate. The space involved amounts to between 30,000 and 40,000 square feet, in the most valuable block in Brooklyn, and the rental for this great space is to be about \$1,200 per year.

"As a property owner—In that the City has seized upon the easements appertaining to the lots other than those owned by the firm of Abraham & Straus and without any consideration have handed them over to said firm for its sole use and benefit."

If the maker of the protest had read carefully the resolution of the Board of Estimate and Apportionment adopted on December 15, 1905, authorizing the permit in question, I do not believe he could have raised any such objections as are stated in said protest.

In the first place, a mere license or permit was granted and not a franchise. Such permit in no way admitted the claim of Abraham & Straus to the ownership of Livingston street. The consent of the City only covered that portion of the street comprising a strip 11 feet in width and 400 feet in length, which was the widened portion of the street, and to which the City had become seized in fee.

This whole matter has heretofore been given careful consideration by this office, and I respectfully refer you to the opinion of my predecessor, dated January 25, 1906, in which the grant of such tunnel privileges was stated to be within the powers of the Board. The revocable nature of the permit enables the City at any time on six months' notice to terminate the right of Abraham & Straus to the street, and thus at any time the street can be used for subway or other purposes.

The point raised as to the amount of compensation being inadequate is a question of fact that solely concerns your Board, and no doubt your Board gave the matter due consideration and arrived at the agreed rental as being, in your opinion, a just and reasonable one. While the Board has the power to revoke the permit in question, it would appear that the City would not be acting in good faith if it should make such revocation solely for the purpose of making Abraham & Straus apply to the Board for a new permit on higher terms.

In regard to the third objection, I do not know of any easement that the adjoining lot owners have in the strip in question, title to which in fee simple was taken by the City.

I am therefore of the opinion, and so advise you, that there is no basis for the objections raised by Mr. Cameron as to the permit granted to Abraham & Straus for tunnel privileges under the widened portion of Livingston street.

Respectfully yours,
G. L. STERLING,
Acting Corporation Counsel.

Which was ordered filed and the Secretary directed to advise Mr. Cameron accordingly.

The Presidents of the Boroughs of The Bronx and Richmond appeared and took their places in the Board.

Fort George Street Railway Company.

The Secretary presented the following:

To the Honorable Board of Estimate and Apportionment of The City of New York:

The petition of the Fort George Street Railway Company respectfully shows:

First—That heretofore your petitioner presented an application verified July 3, 1906, for a franchise or right to use certain streets and highways within The City of New York, as therein more particularly described, for the purpose of a street railway, said streets including portions of One Hundred and Ninetieth street, Audubon avenue and One Hundred and Ninety-third street, making with St. Nicholas avenue a loop for the operation of the railway at its southern end. It has been found impossible to get the necessary consents from the property owners whose property abuts upon Audubon avenue, and whose assessed valuation is more than one-half that in which the railway is to run. The purpose of your petitioner, namely, to provide easy access to the land lying upon the hill between One Hundred and Ninetieth street and One Hundred and Ninety-third street, will be equally well served by operating its railway only upon St. Nicholas avenue and by abandoning the project of a loop, provided that your petitioner is permitted to institute a double-track for the single track now projected between One Hundred and Ninety-third street and One Hundred and Ninetieth street with a proper switch.

Wherefore your petitioner prays that its petition dated July 3, 1906, may be amended by eliminating from the same the application to use One Hundred and Ninety-third street, Audubon avenue, and One Hundred and Ninetieth street, and by adding an application for a double-track route with switch on St. Nicholas avenue.

And your petitioner will ever pray, etc.

Dated New York, October 16, 1906.

so far as the same are not, within his personal knowledge, are statements and reports made by officers or employees of the corporation to him as president thereof.

Nassau Electric Railroad Company.

The Secretary presented the following:

To the Honorable Board of Estimate and Apportionment of The City of New York:

The petition of the Nassau Electric Railroad Company respectfully shows:

1. Your petitioner is a street surface railroad corporation duly organized and existing under the Laws of the State of New York, and has duly made and filed, pursuant to section 90 of the Railroad Law, a statement of the names and description of the streets, roads, avenues, highways and private property in or upon which it is proposed to construct, maintain and operate extensions or branches of its railroad as herein set forth.

2. Your petitioner desires to obtain from The City of New York and hereby respectfully applies for its consent to a grant of the franchise or right to use certain streets, roads, avenues, highways or public grounds within or belonging to The City of New York for the construction and operation in and upon the surface thereof of extensions or branches of its street surface railroad to consist of a double or single track surface railroad (including necessary connections, switches, sidings, turnouts, crossovers and suitable stands or other structures necessary for the accommodation and operation of said railroad by the overhead or other system of electricity or other motive power which may be lawfully used upon the same), for public use and conveyance of persons and property for compensation.

3. The following is a description of the said certain streets, roads, avenues, highways, driveways or public ground within or belonging to The City of New York, in, through, upon and along which your petitioner desires to extend its railroad, to wit:

Route A.

Beginning at the intersection of Atlantic avenue and Alabama avenue and extending thence southerly on Alabama avenue to Livonia avenue; and on Livonia avenue, from Vesta avenue to New Lots road. From the intersection of Livonia avenue with New Lots road, it is proposed to construct a double track street surface railroad on New Lots road, from Livonia avenue to Berriman street; on Berriman street, from New Lots road to Sutter avenue, and on Sutter avenue easterly to the old Brooklyn City line, at or near Forbell avenue, under and pursuant to franchise granted by the City of Brooklyn to your petitioner by resolution of the Common Council adopted June 19, 1893.

Route B.

Beginning at the intersection of Liberty avenue and Forbell avenue, in the Borough of Brooklyn, and thence extending southerly on Forbell avenue to Spring creek.

Route C.

Beginning at the intersection of Thirty-ninth street and Eighth avenue, in the Borough of Brooklyn, and thence extending southwesterly on Eighth avenue to Seventh avenue; thence southerly on Seventh avenue to Seventy-ninth street, and thence southeasterly on Seventy-ninth street to Stillwell avenue connecting at Stillwell avenue with tracks to be constructed thereon by the Coney Island and Gravesend Railway Company, under franchise granted to the said Coney Island and Gravesend Railway Company by the Commissioners of Highways of the Town of Gravesend on August 29, 1893, and by the Town Board of the Town of Gravesend on August 31, 1893.

Route D.

Beginning at the intersection of Thirteenth avenue with Thirty-ninth street, in the Borough of Brooklyn, and extending thence southwesterly on Thirteenth avenue to Bay Ridge avenue.

Your petitioner respectfully represents that additional transportation facilities are greatly needed in those sections of the City and upon the streets and avenues hereinabove described, and this application is made at the request of large numbers of persons residing in those localities. The said routes are extensions of existing routes of transportation and their construction and operation as a part of the railroad system of your petitioner will enable residents of the localities to reach nearly all parts of the Borough of Brooklyn for a single fare of five cents.

Your petitioner has received and caused to be recorded as required by law the consents of abutting property owners owning more than half in assessed value of all the property abutting on said Alabama avenue, between Atlantic avenue and Livonia avenue; on Livonia avenue, between Vesta avenue and New Lots road, and on Eighth and Seventh avenues, between Thirty-ninth street and Seventy-ninth street (exclusive of property on said avenues owned by The City of New York), and upon the other streets and avenues mentioned, your petitioner has received consents of large numbers of property owners and assurances of consents more than sufficient to comply with all legal requirements.

4. Your petitioner proposes to operate the railroad to be constructed upon said streets and avenues by the overhead trolley system or by any other motive power other than steam locomotive power which may be approved by the State Board of Railroad Commissioners and consented to by the owners of property bounded upon said routes as provided by law.

Wherefore your petitioner prays that public notice herein of the time and place when and where this application will be first considered be given, as required by the provisions of section 92 of the Railroad Law and of all other laws applicable thereto, and that the desired consent or grant be embodied in the form of a contract with all the terms and conditions as to compensation and otherwise in accordance with the provisions of the Greater New York Charter and the Laws of the State.

Dated at the Borough of Brooklyn, City of New York, October 11, 1906.

The following was offered:

Whereas, The foregoing petition from the Nassau Electric Railroad Company, dated October 11, 1906, was presented to the Board of Estimate and Apportionment at a meeting held October 26, 1906.

Resolved, That in pursuance of law, this Board sets Friday, the 23d day of November, 1906, at 10.30 o'clock in the forenoon, and Room 16 in the City Hall, Borough of Manhattan, as the time and place when and where such petition shall be first considered, and a public hearing be had thereon, at which citizens shall be entitled to appear and be heard; and be it further

Resolved, That the Secretary is directed to cause such petition and these resolutions to be published for at least fourteen (14) days in two daily newspapers in The City of New York, to be designated by the Mayor, and for at least ten (10) days in the CITY RECORD immediately prior to such date of public hearing. The expense of such publication to be borne by the petitioner.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The petition was then referred to the Bureau of Franchises for investigation and suggestions.

Coney Island and Brooklyn Railroad Company.

The Secretary presented the following:

To the Honorable Board of Estimate and Apportionment of The City of New York:

The petition of the Coney Island and Brooklyn Railroad Company, of the Borough of Brooklyn, City of New York, respectfully shows:

First—Your petitioner is a street surface railroad corporation, duly organized and existing under the laws of the State of New York, having filed its certificate of incorporation in the office of the Secretary of State on the 10th day of December, 1860, and in the office of the Clerk of the County of Kings on the 10th day of December, 1860.

Second—Your petitioner is the owner of a certain franchise to operate a double track street surface railroad through the following streets and avenues in the Borough of Brooklyn, City of New York, to wit: From Fulton Ferry through Water street to Washington street, to High street, to Jay street, to Smith street, to Ninth street, to Ninth avenue, to Fifteenth street, to Coney Island avenue. That this franchise was acquired under chapter 324 of the Laws of 1861, and certain acts amendatory thereof and supplemental thereto, being chapter 853 of the Laws of 1866, chapter 675 of the Laws of 1868, and chapter 305 of the Laws of 1872, and a resolution of the Common Council of Brooklyn, passed January 21, 1861.

Third—The construction of the railroad has been fully completed by your petitioner, and all the conditions and terms of its franchise have been fully complied with.

Fourth—Your petitioner now desire to construct a crossover track in Water street at Dock street, in the Borough of Brooklyn, the said crossover to begin at a point in the northerly track of your petitioner on Water street, which point is about opposite the westerly curb line of Dock street, and cross from there in a southeasterly direction across the southerly track of your petitioner in Water street into the land owned by American Express Company at the southeasterly corner of Water and Dock streets. The said crossover is fully and completely shown upon the plans filed herewith and signed by John L. Heins, president of your petitioner, which plan is deemed part of this petition.

Wherefore your petitioner prays that a resolution may be passed by the Board of Estimate and Apportionment permitting the Coney Island and Brooklyn Railroad Company to construct the additional crossover as above described.

Dated October 17, 1906.

CONEY ISLAND AND BROOKLYN RAILROAD COMPANY,
By JOHN L. HEINS, President.

State of New York, County of Kings, ss.:

John L. Heins, being duly sworn, deposes and says: That he is the president of the Coney Island and Brooklyn Railroad Company, the petitioner above named; that he has read the foregoing petition and knows the contents thereof; that the same is true of his own knowledge except as to the matters therein stated to be alleged on information and belief and as to those matters he believes it to be true.

Deponent further says that the reason this verification is not made by petitioner is that it is a corporation; that he is the president thereof and makes the same from his personal knowledge and supervision of the affairs and business of such corporation.

JOHN L. HEINS.

New York, Westchester and Boston Railway Company.

In the matter of the amount of money expended for construction by the New York, Westchester and Boston Railway Company, upon which reports were submitted to this Board at its meeting of October 12, 1906, from the Bureau of Municipal Investigation and Statistics and from the Chief Engineer of the Department of Finance.

The Secretary presented the following:

October 17, 1906.

GEORGE B. MCCLELLAN, Esq., Chairman, Board of Estimate and Apportionment, City Hall, Manhattan, New York City:

DEAR SIR—Organized labor, speaking through the Central Federated Union, is very desirous of having the Board of Estimate and Apportionment declare the franchise of the proposed New York, Westchester and Boston Railroad forfeited.

The Board of Estimate and Apportionment can now forfeit this franchise under section 5, which provides that the proposed New York, Westchester and Boston Railroad shall expend \$1,000,000 for construction within two years or lose its franchise.

We call your attention to the first nine pages of the enclosed report, made by Supervising Statistician and Examiner Mr. Charles S. Hervey, and which report was submitted by the Comptroller at your meeting held October 12, and at which time action was deferred until October 19.

This report of Mr. Hervey, which is based upon the books and alleged vouchers submitted by the proposed railroad company shows that it did not do \$500,000 worth of actual construction from the time of receiving its franchise to the 2d day of August, 1906.

Proof of this statement is contained on pages 8, 9 and 17 of the Hervey report.

On page 8 the only amount probably properly chargeable to actual construction is as shown on the first column of the table, \$324,439.37. To this amount should be added the amount of the bridge material in place. The top line of the recapitulation on page 9 shows the total amount charged for bridge material to be \$314,656.32. An inspection of pages 16 and 17 will show how this amount has been made up. The most liberal interpretation to the proposed Westchester and Boston Railroad would require the rejection of all amounts claimed to be paid, or paid in cases where erection was not started, and where steel is still in the shop. Accordingly (see page 17), there should be deducted from the \$314,656.32 the following: \$122,133.41, \$18,520, \$11,564.40, or a total of \$152,217.81, which amount taken from \$314,656.32 will leave \$162,438.51 to be added to the \$324,439.37, making the total \$486,877.88, which is the total possible amount which the railroad company could charge to actual construction, which is over \$500,000 less than the amount that it was required to expend under section 5 of its franchise.

In the copy of Mr. Hervey's report we have marked some places, to more readily call them to your attention.

We ask whether it is not apparent to you or anybody else that the intention of this proposed railroad is to attempt to hold on to its franchise for four or five years longer, and play dog in the manger by holding up rapid transit and the development of The Bronx. Look at page 6, where you will find that they claim a disbursement of over \$450,000 made on July 30, which is just two days before the franchise would have expired. On the same page, it is shown that the alleged disbursements, as per their books, for the two months immediately preceding the date of the expiration, were over 70 per cent. of the total alleged disbursements for the two years. It is apparent that the entire account is simply padded.

It must be clear that their whole business is a case of bad faith. Suppose it did have material on hand and on the docks? The fact remains that most of it was not used, and has not been used. Is there anything to disprove the belief that the material on the docks was borrowed to be used to fool the Board of Estimate? The operations of the proposed railroad since August 2 last would not disprove such a belief, for the reason that they have already commenced shipping away their plant, and have already shipped one steam shovel to Buffalo, which was located at a point where the heaviest would be required. Furthermore, all of their operations have been stopped, and if you go up along the line of the railroad some day, when they do not know that you are coming, you will see that all of their work has been stopped and that they are doing nothing.

Some time ago they invited the Comptroller to accompany them on a tour of inspection. They had been doing nothing for some weeks previous, but on the day the Comptroller went over the line it was studded with men from One Hundred and Seventy-seventh street to Mount Vernon, which dummies were there for the benefit of the Comptroller, and were only there for that day, as can be readily proved.

The Central Federated Union asks that this franchise be declared forfeited by the Board of Estimate for the following reasons:

1. The history of this Westchester and Boston promotion and the character of the interests connected with it, and their disreputable practices are such that they are entitled to absolutely no mercy or consideration.
2. They have not complied with section 5 of their New York franchise.
3. They claim to have received some life in January, 1904, notwithstanding that the best attorneys of this State have repeatedly stated that they could not construct a railroad and they did not have the right to take any land by condemnation, and knowing this they did not begin a bona fide condemnation suit until March, 1906, or about 21 months after it should have started if it ever intended to build any railroad.
4. It is clear that it can not now proceed any further on account of its inability to acquire the land it will have to have, of which in The Bronx alone 50 per cent. is held by people who will not sell any land to them, and which land will have to be condemned. We are informed that it will probably take 2½ years before the Court of Appeals could finally pass upon any of these condemnation suits, in which the validity of their assumed organization is involved. During all of this time their operations would cease. Furthermore, if they are allowed to sit on that franchise for 2½ years more, other rapid transit enterprises in The Bronx will be stopped, and furthermore, the mapping of The Bronx will be stopped during all of this time, and furthermore, all building and development operations will be stopped during that time. We think that this shows finally and conclusively that the franchise should be declared forfeited by your Board in the interest of the public good.
5. No injury would be done by declaring this franchise forfeited, for the reason that if the Court of Appeals declares after two or three years that they have a right to construct a railroad, they can then make another application to your Board, and should your Board then grant them another franchise, it could do so under terms and conditions of vastly greater benefit to The City of New York.

It is probably proper for us to refer to another alleged "estimate," a copy of which we inclose. We submit that this "estimate" is not worth considering, for the following reasons:

1. The estimate was made up to September 14, 1906, which is over six weeks after the time expired.
2. In making the estimate shown on page 4 of the report made by Chandler Withington, it is remarkable how closely the figures in his report correspond with the books of the proposed railroad, that is contained in the Hervey report. There is no doubt that this Engineer had a perfect right to use Mr. Hervey's figures, but in doing so, he should have stated that he had done so, and not tried to hoodwink anybody, by submitting a report in the shape of an "estimate." That he was afraid of the matter is shown by his separation of his "estimate" under two headings shown on page 4, one entitled "Work in Place," and the other "Material Delivered." One interesting part of this alleged estimate is that it shows the sum of \$1,079,746.84 to September 14, 1906. As the company only claims from its books to having expended \$1,077,907.37, it would appear that the proposed railroad has only done \$1,839.47 worth of actual construction between August 2 and September 14, 1906, a period of about six weeks.

That this Engineer is anxious to put words into the mouth of the Board of Estimate and Apportionment, and that he is anxious to give these promoters a bill of health is shown by the last paragraph of his report.

Section 5 of the proposed New York, Westchester and Boston franchise provides that it shall have 30 days' notice of the intention of the Board of Estimate and Apportionment to act on the forfeiture.

We ask you to see that a resolution providing for this 30-day notice is introduced into the Board of Estimate and Apportionment next Friday, October 19, 1906.

Thanking you upon behalf of organized labor, we are

Yours respectfully,

CENTRAL FEDERATED UNION,

Per J. P. HOLLAND,
Chairman of the Special Committee.

BOARD OF ESTIMATE AND APPORTIONMENT,
BUREAU OF FRANCHISES, ROOM 79, No. 280 BROADWAY,
October 26, 1906.

Hon. GEORGE B. MCCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—By ordinance adopted by the Board of Aldermen July 26, 1904, and approved by the Mayor August 2, 1904, the New York, Westchester and Boston Railway Company was granted a franchise to construct, maintain and operate a street surface railroad upon and along certain streets and avenues in the Borough of The Bronx.

Section 5 of the ordinance provided as follows:

"Said railway company shall expend the sum of at least one million dollars (\$1,000,000) for construction within the limits of The City of New York within two years from the date of the signing of the ordinance, which sum shall be exclusive of any moneys expended for right of way.

"A statement of the moneys so expended for construction shall be submitted to the Comptroller of The City of New York, who shall, after investigation, report to the Board of Estimate and Apportionment his opinion as to whether such sums have been actually expended, and if, in the opinion of the said Board, the grantee has not proven an expenditure of the said sum within the time given, then said Board may declare that this grant has ceased and determined, and said action of said Board shall be prima facie evidence of such forfeiture."

On July 6, 1906, a report was presented to the Board of Estimate and Apportionment by the Bureau of Franchises, calling attention to the provisions of this section, and stating the time limit would expire on August 2, 1906, and it was suggested that the matter be referred to the Comptroller, so that he could report to the Board his opinion of the amount expended, and if the company had faithfully complied with the provisions of the aforesaid section. The matter was thereupon referred to the Comptroller, and also to the President of the Borough of The Bronx for consultation with the Comptroller.

At the meeting of October 12, 1906, the Comptroller presented reports addressed to him by the Chief Engineer and the Bureau of Municipal Investigation and Statistics of the Department of Finance, purporting to show the actual expenditure of one million dollars, which reports were ordered printed in the minutes and filed. Neither of these reports was approved or disapproved by the Comptroller.

In a communication dated October 17, 1906, Mr. J. P. Holland, Chairman of the Special Committee of the Central Federated Union, in discussing the report of the Bureau of Municipal Investigation and Statistics, states:

"This report of Mr. Hervey, which is based upon the books and alleged vouchers submitted by the proposed railroad company, shows that it did not do \$500,000 worth of actual construction from the time of receiving its franchise to the 2d day of August, 1906. Proof of this statement is contained on Pages 8, 9 and 17 of the Hervey report."

The wording of the report and the figures submitted by the Chief Engineer of the Department of Finance are criticised and questioned.

As the reports addressed to the Comptroller have been questioned, and as section 5 of the ordinance granting a franchise to the company specifically provides that the Comptroller "shall, after investigation, report to the Board of Estimate and Apportionment his opinion as to whether such sums have been actually expended," I would suggest that the matter be again referred to the Comptroller, with the request that he advise the Board of Estimate and Apportionment in a personal report or in a report approved by him as to whether or not, in his opinion, the provisions of section 5 have been complied with, so that the Board may be in a position to take whatever action it may deem fit, with a full knowledge of the facts.

Respectfully,

HARRY P. NICHOLS, Assistant Engineer.

New York Central and Hudson River Railroad Company.

In the matter of the application of the New York Central and Hudson River Railroad Company to construct ducts and subways for the purpose of electrifying its lines, in accordance with chapter 425 of the Laws of 1903, upon which report was submitted to the Board from the Bureau of Franchises September 28, 1906.

The Secretary presented the following:

October 19, 1906.

Hon. GEORGE B. MCCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment of The City of New York:

DEAR SIR—In the matter of the amended petition of the New York Central and Hudson River Railroad Company, dated September 10, 1906, to the Honorable the Board of Estimate and Apportionment, for franchise for the construction of ducts or subways through Kingsbridge road and One Hundred and Ninety-fourth street, in the Borough of The Bronx:

1. The foregoing petition was presented to the Board September 14, 1906. The Secretary was directed to cause such petition and resolutions adopted by the Board on that date to be published for at least two days in two daily newspapers in The City of New York designated by the Mayor, and for at least ten days in the CITY RECORD, immediately prior to the date of public hearing, which was fixed for September 28, 1906. Thereafter his Honor the Mayor designated the New York "Times" and the "Sun" as the daily newspapers in which such petition and resolutions should be published. Proof of the publication in each of said newspapers has heretofore been filed with the Board.

2. Prior to September 28, 1906, the company received the report, dated September 24, 1906, of Mr. Harry P. Nichols, Assistant Engineer, to which is attached a proposed form of contract to be executed by The City of New York and by the railroad company. Careful consideration has been given to this report, and pending its consideration the hearing has been adjourned from time to time.

3. The officers of the company are of the opinion that \$6,000, the annual compensation named in the third paragraph of the proposed contract, is excessive. Some of the reasons for this opinion are set forth in the letter of September 21, 1906, from Mr. E. B. Katte, electrical engineer of the company, to Mr. Harry P. Nichols, Assistant Engineer, Bureau of Franchises. Other reasons pertinent to this opinion are:

(1) The limited term of the franchise. It is understood that as to this the Board is necessarily governed by the Charter. Nevertheless, it is a serious burden to be assumed by the officers of the company, when it is perfectly clear that at the end of the term the necessity for the continued use of the ducts will be as urgent as at the present time. The structure itself will be expensive, and under the terms of the proposed grant, not only will the franchise be terminated, but the structure will revert to the City, while the railroad company must continue to maintain and operate its railroad.

(2) Under the existing Franchise Tax Law the same right for which the City now asks this compensation is taxed at its full value, or, in other words, the company owning this structure will be taxed, first upon the full value of the physical property, and then upon the full value of the right to be in the public street. It is thought that \$3,000 per annum, under all the circumstances, would be very liberal compensation for the franchise proposed to be granted by the City, and the company offers to pay that amount, provided certain other provisions of the contract can be satisfactorily modified.

(3) The ducts or subway is not an income producer, as in the case of the ordinary public service corporations, and in this case is an additional burden which the company has assumed in order to more effectually insure the safe and uninterrupted operation of its trains. It is assumed that it is the intention of paragraph eleven that the company is to be required to make good and properly restore any part of the surface of the street which it may in any manner disturb, either by the construction or maintenance of the subway, and in whatsoever manner and with whatsoever material the street is now paved or may hereafter be paved by the City. The company is willing to agree to that, but the paragraph should be made clearer on this subject. If, on the other hand, it is the intention that in case and whenever the City shall see fit to pave or repave the street in whatever manner and with whatever material it may see fit, the company shall be required to pave some twelve or thirteen feet of the streets and thereafter maintain it, the company would be unable to accede to the provisions of the paragraph.

(4) The grants of the franchise under the proposed contract are entirely subject to such use as the City may wish to make of the streets, the company being required to make all changes in its structure which may be required to conform to the City's plans for the improvements.

4. The company is unable to agree to the provision of the fourteenth paragraph, reserving two ducts the entire length of the subway for the use of the City. Its main consideration for the construction of its own subway is to have the exclusive use thereof, to the end that the operation of its trains may not be in any manner interfered with.

5. The twenty-third paragraph is objectionable in form. It should read as follows:

"Twenty-third—The subway hereby authorized shall be used only by the company, and for no purpose other than for the transmission of electrical current required in the operation, management and maintenance of its railroads, owned or leased."

It is assumed that the object of the paragraph is to prevent the use of electric current for other than such purposes as the railroad may require.

6. The twenty-fourth paragraph should end at the word "thereon," next to the last line; the words "all of which sums may be deducted from the fund hereinbefore provided," being omitted.

7. The twenty-fifth paragraph should be omitted. The company is unwilling to deposit \$10,000, as therein provided. If the company enters into the contract it is responsible for its agreements, and the City is amply protected by the other provisions of the proposed contract.

We trust that your Honorable Board may see fit to modify the terms of the proposed contract as hereinbefore set forth. If the Board should desire any further explanation of any matter not sufficiently set forth in detail, or should require the appearance before it of any representative of the company, we shall be glad to respond at any time.

Yours respectfully,

ALBERT H. HARRIS, General Attorney.

Which was referred to the Committee of the Whole.

The Secretary presented the following:

Board of Estimate and Apportionment:

GENTLEMEN—The undersigned, large owners of property in the neighborhood of the Brighton Beach Railroad and Avenues I and J, protest against any action on the part of the City which will require the elevation of the said tracks, at the junction of Avenue J and the Brighton Beach Railroad, to a height which will make a clearance of more than twelve feet, on the ground that a greater clearance at this point will needlessly and greatly damage the private property in the neighborhood without any corresponding public benefit. While a clearance of sixteen feet may be desirable, if possible, it cannot be produced at this point except by such a depression of the streets as will make them impossible of drainage because of the location of the sewers and the general low level of the land; or by such an elevation of the tracks as will close a large part of the streets and prevent access across the tracks of the railroad company. The clearance of sixteen feet would probably result in closing so many streets south of Foster avenue that for a distance of two-thirds of a mile there would be no access across the railroad.

We cannot attempt in a brief protest to go into the engineering and topographical features in detail, but we request that your Board will further and carefully re-examine this question, with proper technical advice, before making a decision.

Yours respectfully,

WOOD, HARMON & CO.,

The Secretary presented the following communication from the Supervisor of the City Record relative to the transfer of \$2,000 to the account City Record—Supplies, Rents and Contingencies for the year 1906:

THE CITY OF NEW YORK,
BOARD OF CITY RECORD—OFFICE OF THE SUPERVISOR,
October 3, 1906.

Hon. JOSEPH HAAG, Secretary, Board of Estimate and Apportionment, No. 277 Broadway, New York:

SIR—I respectfully make application to your honorable body for the transfer from some unexpended balance of the sum of two thousand dollars (\$2,000) to the appropriation made to the Board of City Record for the year 1906, entitled City Record—Supplies, Rents and Contingencies, the amount of said appropriation being insufficient because of the additional office room which it has been necessary to secure.

Respectfully submitted,

PATRICK J. TRACY, Supervisor of the City Record.

The following resolution was offered:

Resolved, That the sum of two thousand dollars (\$2,000) be and the same is hereby transferred from the appropriation made for the year 1906, entitled Rents, the same being in excess of the amount required for the purposes thereof, to the appropriation made to the Board of City Record for the same year, entitled City Record—Supplies, Rents and Contingencies, the amount of said appropriation being insufficient.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented the following communication from the Deputy and Acting Commissioner of Water Supply, Gas and Electricity, requesting the transfer of \$4,350.69 from various appropriations for 1905 to other appropriations for 1905; also transfer of \$1,426.85 from the account Borough of Queens—Maintenance and Repairs of Water Pipes, for the year 1903 to the account Borough of Queens—Pumping Stations, Fuel and Supplies for the same year.

\$3,450 69

From Maintenance and Repairs of Water Pipes, etc., 1903..... \$1,426 85
To Pumping Stations—Fuel and Supplies, 1903..... 1,426 85

Respectfully,

FRANK J. GOODWIN, Deputy and Acting Commissioner.

The following resolution was offered:

Resolved, That the sum of one thousand four hundred and twenty-six dollars and eighty-five cents (\$1,426.85) be and the same is hereby transferred from the appropriation made to the Department of Water Supply, Gas and Electricity for the year 1903, entitled Borough of Queens—Maintenance and Repairs of Water Pipes, etc., the same being in excess of the amount required for the purposes thereof, to the appropriation made to said Department for the same year entitled Borough of Queens, Pumping Stations—Fuel and Supplies, the amount of said appropriation being insufficient.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The following resolution was offered:

Resolved, That the sum of four thousand three hundred and fifty dollars and sixty-nine cents (\$4,350.69) be and the same is hereby transferred from the appropriations made to the Department of Water Supply, Gas and Electricity for the year 1905, entitled and as follows:

| | |

—the amounts of said appropriations being insufficient.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented the following communication from the Department of Street Cleaning, requesting the transfer of \$100 from the account Sweeping, Carting and Final Disposition of Material, Etc., for 1906, to the account of the Police Department, entitled Supplies for Police:

DEPARTMENT OF STREET CLEANING,
NEW YORK, October 18, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman Board of Estimate and Apportionment:

SIR—On the 10th inst. Major John McG. Woodbury, then Commissioner of Street Cleaning, communicated with the Police Commissioner as follows:

"In reply to your courteous letter of October 8 permit me to say that the decision reached by your First Deputy Commissioner fixing the value of the remains of the Panhard machine, No. 6507, which is now at the shops of this Department, at \$100, is satisfactory to me, and I am forwarding to the Board of Estimate and Apportionment a request for the transfer of this amount to your Department."

This communication had reference to the transfer of a Panhard automobile from the Police Department to the shops of this Department, upon advice of the Corporation Counsel to the effect that such a transfer would be perfectly legal and the payment for it from the appropriation of this Department to the appropriation of the Police Department would also be a legal procedure after a resolution authorizing such transfer of money by the Board of Estimate and Apportionment.

Therefore it is now requested that this Department be authorized by the Board of Estimate and Apportionment to transfer the sum of one hundred dollars (\$100) from its appropriation, account of Sweeping, Carting and Final Disposition of Material, including Cremation or Utilization, to the appropriation of the Police Department, as payment for this automobile.

Respectfully,

F. M. GIBSON,
Deputy and Acting Commissioner.

The following resolution was offered:

Resolved, That the sum of one hundred dollars (\$100) be and the same is hereby transferred from the appropriation made to the Department of Street Cleaning for the year 1906, entitled, Boroughs of Manhattan, The Bronx and Brooklyn—Sweeping, Carting and Final Disposition of Material, including Cremation or Utilization, the same being in excess of the amount required for the purposes thereof, to the appropriation made to the Police Department for the same year, entitled Supplies for Police, the amount of said appropriation being insufficient.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented a resolution of the Board of Aldermen requesting the issue of \$400 Special Revenue Bonds to be applied to completing the furnishing and equipping of the Eighth District Court-house, Westchester.

Referred to the Comptroller.

The Secretary presented a resolution of the Board of Aldermen requesting the issue of \$150,000 Special Revenue Bonds to be applied to the deficiencies in appropriations for the Department of Public Charities for the year 1906.

Referred to the Comptroller.

The Secretary presented the following communication from the Comptroller relative to the issue of \$2,585 Corporate Stock to pay the awards arising from damages to property on Twelfth avenue, between One Hundred and Twenty-ninth and One Hundred and Thirty-fifth streets, Borough of Manhattan, in the matter of the construction of the Riverside drive viaduct:

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
October 18, 1906.

To the Board of Estimate and Apportionment:

GENTLEMEN—Pursuant to the provisions of chapter 513 of the Laws of 1904, the Board of Assessors have filed in the Department of Finance a certificate of award made by them in the matter of damage sustained by owners of property on Twelfth avenue, between One Hundred and Twenty-ninth and One Hundred and Thirty-fifth streets, in the Borough of Manhattan, City of New York, by reason of the construction of the Riverside drive viaduct in said Twelfth avenue.

The amount of the award so made to Theodore F. Tone with interest thereon to November 15, 1906, is two thousand five hundred and eighty-five dollars (\$2,585).

To provide means for the payment of this award and the interest thereon, Corporate Stock to the amount of two thousand five hundred and eighty-five dollars (\$2,585) should be issued, pursuant to the provisions of chapter 513 of the Laws of 1904.

A resolution for that purpose is herewith submitted.

Respectfully,

H. A. METZ, Comptroller.

The following resolution was offered:

Resolved, That, pursuant to the provisions of chapter 513 of the Laws of 1904, the Comptroller be and hereby is authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the revised Greater New York Charter, to the amount of two thousand five hundred and eighty-five dollars (\$2,585), for the purpose of providing means to pay the award made by the Board of Assessors, in the matter of damages sustained by owners of property on Twelfth avenue, between One Hundred and Twenty-ninth and One Hundred and Thirty-fifth streets, in the Borough of Manhattan, City of New York, by reason of the construction of the Riverside drive viaduct, in said Twelfth avenue, Borough of Manhattan, City of New York.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented the following communication from the Comptroller relative to the issue of \$3,144.50 Corporate Stock to pay the awards for damages arising from the change of grade of streets or avenues in the matter of constructing a bridge over Prospect avenue at Seely street, Brooklyn:

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
October 18, 1906.

To the Board of Estimate and Apportionment:

GENTLEMEN—Pursuant to the provisions of chapter 640 of the Laws of 1905, the Board of Assessors have filed in the Department of Finance their certificate of award made by them for damages arising in the change of grade of streets or avenues, because of the construction of a bridge over Prospect avenue at Seely street, Borough of Brooklyn, in The City of New York.

The amount of the award so made to Allan L. Purves, with interest thereon to November 15, 1906, is three thousand one hundred and forty-four dollars and fifty cents (\$3,144.50).

To provide means for the payment of this award and interest thereon, Corporate Stock should be issued pursuant to the provisions of chapter 640 of the Laws of 1905.

A resolution for that purpose is herewith submitted.

Respectfully,

H. A. METZ, Comptroller.

The following resolution was offered:

Resolved, That, pursuant to the provisions of chapter 640 of the Laws of 1905, the Comptroller be and hereby is authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the revised Greater New York Charter, to the amount of three thousand one hundred and forty-four dollars and fifty cents (\$3,144.50), for the purpose of providing means to pay the award made by the Board of Assessors for damages arising from the change of grade of streets or avenues, because of the construction of a bridge over Prospect avenue at Seely street, in the Borough of Brooklyn, City of New York.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented the following communication from the Comptroller relative to the issue of \$435 Corporate Stock to replenish the Fund for Street and Park Openings in the matter of examining title, etc., of property required for the approach to the Manhattan Bridge (Bridge No. 3), Borough of Brooklyn:

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
October 18, 1906.

To the Board of Estimate and Apportionment:

GENTLEMEN—Under date of May 29, 1903, the Board of Estimate and Apportionment, pursuant to the provisions of section 442 of the revised Greater New York Charter, adopted a resolution to lay out an approach to the Manhattan Bridge (Bridge No. 3), in the Borough of Manhattan, City of New York.

Under date of December 11, 1903, the Board of Estimate and Apportionment in pursuance of the provisions of section 270 of the revised Greater New York Charter, adopted a resolution requesting the Corporation Counsel to apply for appointment of Commissioners of Estimate and Assessment, to acquire title by condemnation proceedings, to property required for the opening and extending of an approach to Manhattan Bridge (Bridge No. 3), in the Borough of Brooklyn, and determined that the entire cost and expense of said proceeding shall be borne and paid by The City of New York.

Under date of December 29, 1905, the Board of Estimate and Apportionment adopted a resolution authorizing the Comptroller to enter into a contract with the owners of a piece of property within the limits of said approach, for the purchase of the same at a price not to exceed one hundred and eighty thousand dollars (\$180,000).

In accordance with said resolution, a contract was entered into with the Roman Catholic Church of Our Lady of Mercy of Brooklyn for the purchase of the property described therein at the amount indicated.

In connection with this purchase, expenses have been incurred for the examination of the title, etc., amounting to four hundred and thirty-five dollars (\$435).

To reimburse the Fund for Street and Park Openings for this expense, Corporate Stock should be issued, pursuant to the provisions of section 174 of the revised Greater New York Charter.

A resolution for that purpose is herewith submitted.

Respectfully,

H. A. METZ, Comptroller.

The following resolution was offered:

Resolved, That, pursuant to the provisions of section 174 of the revised Greater New York Charter, the Comptroller be and hereby is authorized to issue Corporate Stock of The City of New York in the manner provided by section 169 of the revised Greater New York Charter, to the amount of four hundred and thirty-five dollars (\$435), the proceeds whereof to be applied to replenish the Fund for Street and Park Openings for this amount to be paid therefrom for examining title, etc., to property required for approach to the Manhattan Bridge (Bridge No. 3), in the Borough of Brooklyn, City of New York, as laid out by the Board of Estimate and Apportionment on the 29th day of May, 1903, the entire cost and expense of which is to be borne and paid by The City of New York, pursuant to a resolution of the Board of Estimate and Apportionment, adopted December 11, 1903.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented the following communication from the Comptroller relative to the issue of \$189.85 Corporate Stock to replenish the Fund for Street and Park Openings in the matter of examining titles, etc., of property required in the opening of a public park located at West Twenty-seventh and West Twenty-eighth streets, Ninth and Tenth avenues, Manhattan:

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
October 18, 1906.

To the Board of Estimate and Apportionment:

GENTLEMEN—Under date of February 24, 1905, the Board of Estimate and Apportionment, pursuant to section 442 of the Charter, adopted a resolution laying out a public park in the block bounded by West Twenty-seventh and West Twenty-eighth streets, Ninth and Tenth avenues, Borough of Manhattan, and also authorized the acquisition of the property within the area thereof by condemnation proceedings, pursuant to section 970 of the Charter, and determined that the entire cost and expense thereof be borne and paid by The City of New York.

Under dates of March 9 and April 20, 1906, the Board of Estimate and Apportionment adopted resolutions authorizing the Comptroller to enter into contracts with the owners of property within the limits of said park for the purchase of the same, at a sum not to exceed thirty thousand two hundred and fifty dollars (\$30,250).

In accordance with said resolutions, contracts were entered into with Mary R. Reed as trustee, etc., and Jeanette Wertheim, for the purchase of the property described therein for the sum of thirty thousand two hundred and fifty dollars (\$30,250).

In connection with the above purchases, expenses have been incurred for examining titles, etc., to the amount of one hundred and eighty-nine dollars and eighty-five cents (\$189.85).

To reimburse the Fund for Street and Park Openings for these expenses to be paid therefrom, Corporate Stock should be issued, pursuant to the provisions of section 174 of the revised Greater New York Charter.

A resolution for that purpose is herewith submitted.

Respectfully,
H. A. METZ, Comptroller.

The following resolution was offered:

Resolved, That, pursuant to the provisions of section 174 of the revised Greater New York Charter, the Comptroller be and hereby is authorized to issue Corporate Stock of The City of New York in the manner provided by section 169 of the revised Greater New York Charter, to the amount of one hundred and eighty-nine dollars and eighty-five cents (\$189.85), the proceeds whereof to be applied to replenish the Fund for Street and Park Openings for this amount to be paid therefrom for examining titles, etc., for property required for the opening of a public park in the block bounded by West Twenty-seventh and West Twenty-eighth streets, Ninth and Tenth avenues, in the Borough of Manhattan, the entire cost and expense of which is to be borne and paid by The City of New York, pursuant to a resolution of the Board of Estimate and Apportionment adopted February 24, 1905.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented the following communication from the Corporation Counsel requesting the establishment of the position of Bookkeeper in the Law Department, with salary at \$1,750 per annum:

LAW DEPARTMENT—OFFICE OF THE CORPORATION COUNSEL,
NEW YORK, October 16, 1906.

Board of Estimate and Apportionment:

DEAR SIRS—I request that your Board establish the position of Bookkeeper in this Department at an annual salary of \$1,750; at present the only Bookkeeper employed in the Department is Julius Hahn in the Bureau of Street Openings. He was appointed at a salary of \$1,500 on November 9, 1893, and has never had a promotion or increase in salary, although his services have been satisfactory in every respect. There is money enough in the salary appropriation of this Department to increase his salary to \$1,750, but before that can be done it is necessary that your Board and the Board of Aldermen fix the salary of the grade.

I would appreciate it very much if you will give this matter your early attention, and will appear before your Board when the matter is considered to make any further explanation that is necessary.

Respectfully yours,
WILLIAM B. ELLISON, Corporation Counsel.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, in accordance with the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen that the salary of the position of Bookkeeper in the Bureau of Street Openings, Law Department, be fixed at the rate of one thousand seven hundred and fifty dollars (\$1,750) per annum for one (1) incumbent.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented a communication from the Sheriff of Kings County requesting the establishment of the positions of 1 Confidential Stenographer at \$1,000 per annum, 1 Cashier at \$2,000 per annum, and 6 Cleaners for Jail, at \$750 each per annum.

Which was referred to a Select Committee consisting of the Comptroller and the President of the Board of Aldermen.

The Secretary presented a communication from Corporation Counsel requesting the establishment of positions of Assistants, Junior Assistants, Messengers and various

other positions in the Bureau of Street Openings in the offices in the Boroughs of Manhattan, Brooklyn and Queens.

Which was referred to a Select Committee consisting of the Comptroller and the President of the Board of Aldermen.

The Secretary presented a communication from Mr. Charles Blandy, Counsellor-at-Law, relative to vesting title in the City of property authorized to be condemned May 13, 1904, for the Manhattan terminal of the New York and Brooklyn Bridge.

Which was referred to the Corporation Counsel and the Comptroller.

The Secretary presented a public notice given by the State Water Supply Commission of the meeting to be had at the Village of Brewster, Putnam County, on October 24, 1906, for the purpose of hearing all persons, municipal corporations or other civil division, etc., that may be affected by the plan of securing a new and additional supply of water.

Which was referred to the Corporation Counsel.

The Secretary presented a communication from the County Judge of Queens County, requesting either the transfer of \$3,816.28 from such funds as may be available or an additional appropriation to be applied to the account Salaries, County and Supreme Courts, Queens County, for the year 1906, in order to provide for a deficiency in said account.

Which was referred to the Comptroller.

The Secretary presented a communication from the Chairman, Committee on Water Supply, the Merchants' Association of New York, urging that the Board give favorable consideration to the appropriation asked by the Commissioner of Water Supply, Gas and Electricity, to carry out the Stanley act relative to the consumption and waste of water in The City of New York.

Which was referred to the Comptroller.

The Secretary presented a communication from Alfred L. Marilley, counsellor-at-law, transmitting copy of letter addressed by him to the President, Borough of Queens, in relation to the salary paid to Mr. Herman Crueger, Topographical Draughtsman in said borough, and calling attention to the injustice of the same.

Which was referred to the President of the Borough of Queens.

The Secretary presented the following communication from the Comptroller, to whom, on October 12, 1906, was referred the request of the Commissioner of Parks, Boroughs of Manhattan and Richmond, for an additional issue of Revenue Bonds to the amount of \$75,000, to meet a deficiency in the account Labor, Maintenance, Supplies, etc., for 1906.

Which was ordered on file.

DEPARTMENT OF FINANCE—CITY OF NEW YORK,
October 19, 1906.

JOSEPH HAAG, Esq., Secretary, Board of Estimate and Apportionment:

DEAR SIR—Acknowledging your communication of the 12th inst. with its enclosures, in reference to an appropriation of Revenue Bonds to supply a possible deficiency in the Department of Parks, Boroughs of Manhattan and Richmond, I beg to say that the resolution adopted by the Board of Estimate and Apportionment on October 5, 1906, appropriating \$50,000 of Revenue Bonds for the purpose, would seem to have disposed of the matter so as to make a report from me on the subject unnecessary. The resolution was as follows:

"Resolved, That the Board of Estimate and Apportionment hereby further approves of and concurs in the resolution of the Board of Aldermen, adopted March 27, 1906, to the extent of fifty thousand dollars (\$50,000), to provide means to meet the deficiency between the sums actually required for the maintenance of parks, parkways, drives, playgrounds, kindergartens, baths and comfort stations in the Boroughs of Manhattan and Richmond during the year 1906, under the direction of the Commissioner of Parks, Boroughs of Manhattan and Richmond, and the amounts granted therefor to the said Department in the annual Budget, and that for the purpose of providing means therefor the Comptroller be and hereby is authorized, pursuant to the provisions of subdivision 8 of section 188 of the Greater New York Charter, to issue Special Revenue Bonds of The City of New York to the amount of fifty thousand dollars (\$50,000), redeemable from the tax levy of the year succeeding the year of their issue."

Yours truly,
H. A. METZ, Comptroller.

DEPARTMENT OF PARKS,
THE ARSENAL, CENTRAL PARK,
October 1, 1906.

To the Board of Estimate and Apportionment, The City of New York:

GENTLEMEN—By reason of the condition of the finances of this Department, due more particularly to the deficit in the appropriation for Labor, Maintenance, Supplies, etc., I am constrained to request that your honorable Board will authorize an additional issue of Revenue Bonds to the amount of \$75,000, to provide for carrying on the maintenance work of the Department creditably to the close of the current year.

In making this request I would refer to the reasons given in my communication of February 6, 1906, asking for an issue of \$200,000 in Revenue Bonds to meet the deficit in the appropriation. A bond issue of \$100,000 only was authorized, still leaving a deficit of \$100,000. The best economy consistent with the actual needs of the parks has been followed, but without further funds it will be impossible to carry on the work to the close of the year without the injury which would result from a large reduction of the force employed, and the omission of items of work which should not be left undone.

I would, therefore, respectfully urge upon your honorable Board the absolute necessity for the additional funds asked for, and request that this matter may receive your early consideration.

Respectfully,
MOSES HERRMAN.

Commissioner of Parks, Boroughs of Manhattan and Richmond.

The Secretary presented a communication from the President, Borough of Brooklyn, requesting the rescinding of a resolution adopted December 5, 1905, which authorized the condemnation of property on Court and Livingston streets, Brooklyn, as a site for a new municipal building in addition to that authorized to be acquired by condemnation by resolution adopted July 22, 1903, and located on Court and Joralemon streets.

Referred to the Comptroller.

The Secretary presented the following resolution authorizing the issue of \$75,000 Special Revenue Bonds to provide means for repairing streets in the Borough of Brooklyn:

Resolved, That the Board of Estimate and Apportionment hereby approves of and concurs in the resolution of the Board of Aldermen, adopted October 16, 1906, and

approved by the Mayor, October 30, 1906, in relation to an appropriation of seventy-five thousand dollars (\$75,000), for repairing streets in the Borough of Brooklyn, and that for the purpose of providing means therefor, the Comptroller be and is hereby authorized, pursuant to the provisions of subdivision 8 of section 188 of the Greater New York Charter, to issue Special Revenue Bonds of The City of New York to the amount of seventy-five thousand dollars (\$75,000), redeemable from the tax levy of the year succeeding the year of their issue.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented a resolution of the Board of Aldermen recommending to the Board of Estimate that in the preparation of the Budget, instead of following the usual course of making general and unitemized allowances to the general accounts of the various departments, specific appropriation be allowed, indicating what estimates are allowed and which denied, etc., and that the expenditure of each allowance be confined to the purposes so indicated, and to provide, as far as possible, that no transfer be made, even for different items in the same account, without the authorization of the Board of Estimate, and the following resolution concurring therein:

Whereas, The Board of Estimate and Apportionment has received certain preamble and resolutions adopted by the Board of Aldermen October 9, 1906, requesting "that the Budget do allow specific appropriations, indicating which estimates are granted and which are denied, in the case of every item in every account as they appear in the Departmental Estimate, and that the expenditure of each allowance be confined to the purposes as so indicated," etc.; and

Whereas, Time has not permitted the adoption of this plan in more than a small part of the Budget for 1907; be it therefore

Resolved, That it is the opinion of the Board of Estimate and Apportionment that the Budget of The City of New York for the year 1908, should contain, whenever possible, a specific item for each class of expenditure to be made thereunder in order that through said Budget adequate control may be had over the administrative and other cost of the various City and other departments, especially to prevent increases in salary expenditures, by department heads within the Budget allowances of said departments for the year but in excess of the annual rates of salary allowances upon which the Budget was granted, and for the purpose of carrying out this plan the Comptroller is hereby requested to direct the preparation, by the Bureau of Municipal Investigation and Statistics, of the Finance Department, and submit to the Board of Estimate and Apportionment, not later than May 1, 1907, an outline plan for the Departmental Estimate for each one of the departments and county and other offices of the City to which allowances will be made in the Budget for 1908, said plan to provide for compliance with the purpose of this resolution in the said Budget of 1908.

The consideration of this matter was postponed until Tuesday, October 30, 1906, and the Secretary was directed to send a copy of said resolution to each member of the Board.

The Secretary presented the following communication from the President, Borough of Manhattan, and report of the Comptroller and the Chief Engineer of the Board of Estimate and Apportionment, to whom, on September 14, was referred said communication relative to an additional issue of Corporate Stock to provide for the completion of the extension of Riverside drive on the contracts now in progress:

CITY OF NEW YORK,
OFFICE OF THE PRESIDENT OF THE BOROUGH OF MANHATTAN,
CITY HALL, September 6, 1906.

JOSEPH HAAG, Esq., Secretary to the Board of Estimate and Apportionment:

DEAR SIR—Request is herewith made to the Board of Estimate and Apportionment, pursuant to chapter 665 of the Laws of 1897, for an additional appropriation of Corporate Stock in the amount of seven hundred and eleven thousand five hundred and forty-six dollars (\$711,546) to be used for the purpose of completing the construction of the extension of Riverside drive, from One Hundred and Thirty-fifth street to its junction with the Boulevard Lafayette at One Hundred and Fifty-eighth street.

The reasons for this request for additional funds to complete this work are summarized as follows:

Two hundred and fifteen thousand dollars (\$215,000) for completing section No. 2 under contract with Messrs. Ryan & Parker.

Four hundred and eighty thousand dollars (\$480,000) for completing the construction of sections Nos. 3 and 4, under contract with John C. Rodgers.

The aforesaid amounts will be required to carry out the modified plans authorized by the Board of Estimate and Apportionment under date of June 23, 1905.

Sixteen thousand five hundred and forty-six dollars (\$16,546) will be required to complete the work of construction at the intersection of Riverside drive and One Hundred and Fifty-first street, also under contract with John C. Rodgers.

It has become necessary to change somewhat the original plan of construction of the drive at this point for the reason that One Hundred and Fifty-first street, west of the drive, has been officially closed by the Board of Estimate and Apportionment under date of July 7, 1905, and the grade of the street raised, also by action of the Board on May 19, 1905, in order to give access to Riverside drive from the east. The revised plans for changing the construction of the drive at One Hundred and Fifty-first street are herewith transmitted for approval.

Request is also made for permission to enter into a modified agreement with the respective contractors for furnishing material and performing the work called for by the modified plans.

There are herewith transmitted copies of the Consulting Engineer's reports showing the estimated quantities required for completing the work.

Yours respectfully,

JOHN F. AHEARN,
President of the Borough of Manhattan.

New York, October 22, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—At the meeting of the Board of Estimate and Apportionment, held on September 14, 1906, two communications were submitted by the President of the Borough of Manhattan. In one of these, dated September 6, 1906, he requested an additional appropriation of Corporate Stock to the amount of \$711,546, to be used for the completion of the extension of the Riverside Drive from West One Hundred and Thirty-fifth street to its intersection with the Boulevard Lafayette, now Riverside Drive, at West One Hundred and Fifty-eighth street. The other communication was dated September 13, 1906, and with it was transmitted a copy of a letter from Mr. John C. Rodgers, the contractor for Sections 3 and 4 of the extension of the Riverside Drive, complaining of the delay in his work caused by legal complications in connection with the changes made in the street system at West One Hundred and Fifty-first street, and suggesting as a remedy the rescission by the Board of Estimate and Apportionment of its resolutions of May 19 and July 7, 1905, providing for these changes. These communications were referred to the Comptroller and to the Chief Engineer of the Board of Estimate and Apportionment for consideration and report.

As to the request for an additional issue of Corporate Stock, we beg to report as follows:

On June 23, 1905, the Board of Estimate and Apportionment adopted two resolutions approving of certain modifications in the plans for Section 2 of the Riverside Drive improvement covered by the contract with Ryan & Parker, and for Sections 3 and 4 of the same improvement covered by the contract of John C. Rodgers. These modifications were shown upon plans prepared by Mr. F. Stuart Williamson, Consulting Engineer, in charge of the work, and the general features of the changes were described in the report submitted to the Board at the time of the adoption of the resolutions previously referred to. The approval by the Board of the changes in the plans was made conditional upon the presentation by the President of the Borough of agreements with the contractors for the two sections for carrying out these modifications. Such agreements were submitted at a meeting held on July 6, 1906, on which date the Board adopted two resolutions approving, respectively, of agreements with Ryan & Parker for Section 2 and with John C. Rodgers for Sections 3 and 4. At the time of the approval of these plans it was estimated that the changes would not materially modify the cost of the improvement, but would result in a slight decrease in the cost of one section and an increase in that of the other. The work of construction at that time had not proceeded sufficiently far to enable the Engineer in Charge to determine the variations from the estimated quantities which inevitably occur in work of this magnitude, especially where there is uncertainty as to the underlying material.

With the communication of September 6, 1906, the Borough President has submitted a detailed statement by the Consulting Engineer, giving the present estimate of the amount of various kinds of work actually required to complete the improvement, these estimates being based upon conditions actually found in the progress of the work. From these estimates it appears that there will be needed for the completion of Section 2 the sum of \$196,118, in addition to what has been allowed, and for Sections 3 and 4 an additional sum of \$439,615, to which has been added 10 per cent. for contingencies, making a total which is given in round figures as \$695,000. This, however, does not include the cost of changes at One Hundred and Fifty-first street, which are estimated to cost \$16,546, making a total additional appropriation asked for of \$711,546.

The computations of the Consulting Engineer are somewhat intricate, and it was thought best to make a more simple estimate based upon the cost of the actual work completed, certified to and paid for, and the cost of the work still to be done. This has been done by the Chief Engineer of the Department of Finance, who has been in close touch with the work since its commencement. From his computations it appears that on certain classes of work the amount certified and paid for has already exceeded the preliminary estimate, and a statement has been prepared showing the estimated cost according to the original quantities, the increase due to those items where the quantities already certified exceeded the original estimates, the decrease in those items which have not equalled the original estimates, and the additional amount of work still needed to complete the improvement. In other words, the figures of the Chief Engineer of the Department of Finance are based upon an accurate statement of the value of the work done to date, with a careful estimate of the cost of what is needed to complete the contract in accordance with the revised plans. From these figures it appears that the total cost will be as follows:

| | |
|---|----------------|
| Section 2 | \$1,756,773 42 |
| Sections 3 and 4 | 2,128,298 50 |
| Engineering and Surveyors' fees, 5 per cent. | 194,253 59 |
| Total required to complete both contracts | \$4,079,325 51 |
| Total authorizations, including premiums on bonds | 3,368,336 96 |
| Additional sum required | \$710,988 55 |
| This does not include the cost of the changes at One Hundred and Fifty-first street, which, with engineering and surveyors' fees, are estimated to cost | 17,373 30 |
| Total, including changes at West One Hundred and Fifty-first street | \$728,361 85 |

In our judgment this estimate is as accurate as it is possible to make, and we would recommend that an additional appropriation be made to complete the improvement, and that the Board of Estimate and Apportionment authorize an issue of Corporate Stock in the sum of \$729,000 for that purpose.

The subject covered by the second communication from the President of the Borough, namely, the changes in the City map at West One Hundred and Fifty-first street, being a local improvement matter, will be covered by a separate report.

Respectfully,

H. A. METZ,

Comptroller.

NELSON P. LEWIS,

Chief Engineer, Board of Estimate and Apportionment.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
October 18, 1906.

Hon. HERMAN A. METZ, Comptroller:

SIR—Hon. John F. Ahearn, President of the Borough of Manhattan, in communication under date of September 6, 1906, requests, pursuant to chapter 665 of the Laws of 1897, an additional appropriation of Corporate Stock in the amount of \$711,546, to be used for the purpose of completing the construction of the extension of Riverside drive from One Hundred and Thirty-fifth street to its intersection with the Boulevard Lafayette at One Hundred and Fifty-eighth street, Borough of Manhattan.

The President submits with his request a letter of explanation from F. Stuart Williamson, Engineer in charge of the work, which gives in detail the amounts required for the completion of each section, and the reasons for the additional appropriation, summarized as follows:

| | | |
|---|--------------|--------------|
| For Completion of Section 2, (One Hundred and Thirty-fifth to One Hundred and Forty-fifth Street). | | |
| Additional | \$497,650 00 | |
| Deduction | 303,600 00 | |
| | | \$194,050 00 |
| For Completion of Sections 3 and 4 (One Hundred and Forty-fifth to One Hundred and Fifty-eighth Street). | | |
| Additional | \$719,660 00 | |
| Deduction | 280,045 00 | |
| | | \$439,615 00 |
| | | \$633,665 00 |
| Add 10 per cent. for incidentals | | 63,366 50 |
| | | \$697,031 50 |
| In round figures | | 695,000 00 |
| Proposed changes at One Hundred and Fifty-first street | | 16,546 00 |
| Total | | \$711,546 00 |

Mr. Williamson also states that the extra cost of the work under the revised plans, adopted by the Board of Estimate and Apportionment on June 23, 1905, amounts to \$47,000 in section No. 2, and \$258,935 in sections No. 3 and No. 4, leaving \$147,050 and \$180,680 respectively, as the extra cost of the work according to the original plans.

The detailed statement of Mr. Williamson's has been carefully examined, both in the office and on the ground with Mr. Williamson's Assistant Engineer in charge of the work. The reasons assigned for the increases and decreases and the quantities as given, all appear satisfactory and approximately correct, and necessary to complete the work in accordance with the revised plans.

I would note that Mr. Williamson fails to include in his detailed statement, provisions for certain items that have already been over certified to date, although he probably considered them when he added ten per cent. (10%) to his estimate for contingencies.

Taking the detailed amount required for this work, and deducting the moneys previously appropriated, I have endeavored to ascertain the additional amount necessary to complete the work in accordance with the revised plans, adopted by the Board of Estimate and Apportionment on June 23, 1905, calculated as follows:

If the proposed work at One Hundred and Fifty-first street is carried out, it will require an additional \$17,373.30 (\$16,546 for the work and \$827.30 for engineering and Surveyor's fees), making the grand total of \$728,361.85, or in round numbers \$730,000; and \$711,000 if the proposed work at One Hundred and Fifty-first street is omitted.

Respectfully,

CHANDLER WITHINGTON, Chief Engineer.

The following resolution was offered:

Resolved, That, pursuant to chapter 665 of the Laws of 1897 and sections 169 and 170 of the Greater New York Charter, the Board of Estimate and Apportionment hereby authorizes the Comptroller to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to the amount of seven hundred and twenty-nine thousand dollars (\$729,000), the proceeds whereof to be applied to paying the cost of constructing the extension of Riverside drive, from West One Hundred and Thirty-fifth street to its intersection with the Boulevard Lafayette, at West One Hundred and Fifty-eighth street, Borough of Manhattan.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented the following resolution of the Board of Aldermen recommending to the Board of Estimate and Apportionment that in the preparation of the Budget for 1907 due allowance be made for the necessary and reasonable expenses for properly and economically carrying on each Department of the City so that Special Revenue Bond issues will be made for emergency purposes only, which was ordered printed in the minutes and placed on file.

In the Board of Aldermen.

No. 1100.

By Alderman Davies, for Committee on Finance—

Whereas, Because of the deficiency in the Budget allowances for 1906 many Departments of the City have been compelled to apply for the issuance of large amounts of Special Revenue Bonds to carry along the regular and necessary departmental work; and

Whereas, This Board believes that the issuance of Special Revenue Bonds should only be resorted to for extraordinary purposes, and not for the necessary maintenance and running expenses which can reasonably be foreseen when the Budget is in course of preparation, and which should be provided for in the Budget; therefore be it

Resolved, that this Board respectfully recommends to the Board of Estimate and Apportionment that in the preparation of the Budget for 1907 due allowance be made for the necessary and reasonable expenses for properly and economically carrying on each Department of the City, so that Special Revenue Bond issues will be made for emergency purposes only.

Resolved, That a copy of this resolution be transmitted to the Board of Estimate and Apportionment.

The resolution was then adopted.

Adopted by the Board of Aldermen August 31, 1906, a majority of all the members elected voting in favor thereof.

P. J. SCULLY, Clerk.

The Secretary presented the following communication from the Department of Parks, Boroughs of Manhattan and Richmond, relative to the communication from the Hudson-Fulton Celebration Commission, urging the establishment of a park and memorial on Inwood Hill, Borough of Manhattan.

Which was ordered on file.

DEPARTMENT OF PARKS,
THE ARSENAL, CENTRAL PARK,
October 22, 1906.

JOSEPH HAAG, Esq., Secretary, Board of Estimate and Apportionment, No. 277 Broadway, New York City:

DEAR SIR—I am directed by President Herrman, Park Commissioner for the Boroughs of Manhattan and Richmond, to say in further response to your communication of September 17, referring to the subject of a park and memorial on Inwood Hill, that the matter has been favorably reported upon by the Landscape Architect of this

Department, and the Commissioner concurs in the conclusion reached in that report. The report is as follows:

"In accordance with your request, I desire to report that the general purport of the accompanying request seems to me entirely reasonable, but in order that it may be reported upon intelligently, a map should be filed with this Department showing the location of the seventy-five acres of the northern portion of Inwood Hill which it is proposed to take for a public park. It should also be shown at what point on the said territory it is designed to erect an architectural or sculptural memorial by the Hudson-Fulton Celebration Commission."

Respectfully,

WILLIS HOLLY, Secretary, Park Board.

The Secretary presented the following communication from the Commissioner of Water Supply, Gas and Electricity and report of the Chief Engineer, Department of Finance, approved by the Comptroller, to whom on October 12, 1906, was referred said communication relative to an issue of \$1,133,500 Corporate Stock to provide means for the improvement of the distribution system, the laying of additional mains, the placing of additional fire hydrants, etc.:

DEPARTMENT OF WATER SUPPLY, GAS AND ELECTRICITY,
COMMISSIONER'S OFFICE, NOS. 13 TO 21 PARK ROW,
CITY OF NEW YORK, October 3, 1906.

Mr. JOSEPH HAAG, Secretary, Board of Estimate and Apportionment, No. 280 Broadway, Manhattan:

DEAR SIR—In order that this Department may proceed with and carry to completion the work in preparation and partly under way, it is necessary that there be appropriated Corporate Stock to the amount of \$1,133,500, in accordance with section 178 of the amended Greater New York Charter, to provide for the improvement of the distribution system, the laying of additional mains, the placing of additional fire hydrants, and also for an adequate pressure, not only for domestic purposes, but for fire protection.

The items or appropriation are as follows:

| | |
|---|-----------------------|
| 20-inch main in Crotona parkway, Prospect avenue and Jackson avenue.. | \$133,000 00 |
| 12-inch additional main to Blackwell's Island..... | 50,000 00 |
| Mains in Walton, Plimpton and Oneida avenues and White Plains road.. | 73,000 00 |
| Two 48-inch mains crossing the Harlem river at Seventh avenue..... | 150,000 00 |
| For water mains in Manhattan and The Bronx in streets and avenues where they are needed and there are none at present, and for which we have on file in this Department plans and estimates of cost..... | 410,000 00 |
| For water trunk mains where required to supply much-needed fire protection on the east side, as recommended by the Board of Fire Underwriters in their report, as follows: Second avenue, between One Hundred and Tenth and One Hundred and Twenty-fifth streets, One Hundred and Twenty-fifth street, between First and Second avenues; Twenty-first street, Marginal street, Avenue C, Pitt street, Gouverneur street, Cherry street and Chambers street to Pearl street..... | 263,000 00 |
| For new water main along the marginal street on the North river from Thirteenth to Twenty-third street, this work to be done at once, in advance of that for regulating, grading and paving the marginal street area and laying the necessary sidewalks by the Dock Department, and in compliance with the request of the latter Department.. | 42,000 00 |
| 250 additional hydrants..... | 12,500 00 |
| Total..... | <u>\$1,133,500 00</u> |

The Department has on file many applications from the Fire Department and the several Local Boards of Improvement, calling attention to the necessity for an adequate water service. Commissioner Benschel, of the Department of Docks and Ferries, has notified me that he is about to award a contract for the paving of the marginal street on the North river from Thirteenth to Twenty-third street, and earnestly requests that this Department proceed with the laying of the water mains in this street before the regulating and paving are commenced.

Very truly yours,

WILLIAM B. ELLISON, Commissioner.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
October 22, 1906.

Hon. HERMAN A. METZ, Comptroller:

SIR—Hon. William B. Ellison, Commissioner, Department of Water Supply, Gas and Electricity, in communication under date of October 3, 1906, requests the Board of Estimate and Apportionment to authorize the issue of Corporate Stock to the amount of \$1,133,500, to provide means for the improvement of the distribution system, the laying of additional mains, the placing of additional fire hydrants, etc., in the boroughs of Manhattan and The Bronx.

The items of the appropriation are as follows:

1. 20-inch main in Crotona parkway, between Prospect avenue and Jackson avenue, \$133,000.

It is proposed to lay a continuous line of pipe, 20 inches in diameter, in Crotona parkway, within the said limits for the purpose of backing up a 12-inch main in Boston road which now supplies the territory and neighborhood described.

2. 12-inch additional main to Blackwell's Island, \$50,000.

There are now two mains supplying Blackwell's Island (12-inch and 6-inch only). During the last year the 6-inch main was broken, which left the island dependent on the 12-inch main. It is now proposed to lay an additional 12-inch main for the better protection of the water system of the island. This main will be laid across the East river, opposite about Sixty-sixth street. The pipe will be laid with flexible joints, and it is estimated that it will cost \$50,000.

3. Mains in Walton, Plympton and Oneida avenues and White Plains road, \$73,000.

A 20-inch main has been laid in White Plains road, from the City line down to Morris street, and it is now proposed to continue this line from Morris street down to Morris Park avenue; 12-inch mains are also to be laid in Walton avenue, between East One Hundred and Seventy-sixth street and East One Hundred and Seventy-ninth street, and also between One Hundred and Eighty-first street and Fordham road. Also in Plympton avenue, from East One Hundred and Sixty-ninth street to Boscobel avenue, and in Oneida avenue, from East Two Hundred and Thirty-third street to Mount Vernon avenue. The above-mentioned thoroughfares are regulated and graded, and the water supply is necessary.

4. Two 40-inch mains crossing the Harlem river at Seventh avenue, \$150,000.

Large mains are now being laid to connect the new Jerome Park Reservoir with the distributing system of Manhattan Borough. Contracts have been let both south and north of the Harlem river, and the above amount is required for the purpose of making contracts to connect the mains between the north and south sides of the said Harlem river.

It is proposed to lay a 40-inch pipe with flexible joints. The amount asked for is intended to cover the cost, also of dredging, and of whatever straight pipe is necessary to connect the land ends.

5. For water mains in Manhattan and The Bronx, in streets and avenues where they are needed and where there are none at present and for which there are on file in the Water Department plans and estimates to cost the sum of \$410,000.

The above amount is asked to cover the cost of laying mains in numerous streets in the boroughs of Manhattan and The Bronx. The number of streets in which pipes are required in the Borough of Manhattan is seventeen (17). The amount it is proposed to expend for this borough is \$61,511.

In the Borough of The Bronx, west of the Bronx river, fifty-one (51) streets require water, for which it is proposed to expend \$191,955. East of the Bronx river, twenty-two (22) streets are in need of water pipes, at an expense of \$158,319.

The improvement described in the above is made in the ordinary course of extending the water service in the streets that are regulated and graded, and which are ready for and in need of water. The pipes, for the most part, are 12-inch in diameter.

6. The water trunk mains are required to supply a much needed fire protection on the east side, and recommended by the Board of Fire Underwriters in their report, \$263,000.

These mains are to be laid in compliance with the request of the National Board of Fire Underwriters (page 90 of their report of 1905). In this report, it is stated that the above-mentioned arteries are necessary, and recommendation is made that they be installed in the Manhattan low service for the purpose of re-enforcing the supply throughout the territory described where it is abnormally deficient.

It is proposed to lay a 20-inch main in Second avenue and One Hundred and Twenty-fifth street; in Twenty-first street a 36-inch main; in marginal street, between Thirteenth and Twenty-third streets, a 12-inch main. In the remaining streets, pipes varying in size from 12 to 20 inches.

7. For new water mains along the marginal street on the North river, from Thirteenth to Twenty-third street. This work to be done at once in advance of that for regulating, grading and paving the marginal street area and laying the necessary sidewalks by the Dock Department, and in compliance with the request of the latter Department, \$42,000.

The above amount asked for is intended to cover the cost not only of the work described in the above, but also to include the laying of mains between marginal street and Tenth avenue, from Thirteenth to Twenty-third street, the main to be laid varying in size from 12 to 20 inches.

8. Two hundred and fifty additional hydrants, \$12,500.

These hydrants are to be placed principally in The Bronx, where the hydrants are long distances apart, some as much as 400 and 500 feet.

The Department of Water Supply, Gas and Electricity has furnished me with the following estimated amounts of contracts for laying water mains in the boroughs of Manhattan and The Bronx, chargeable to the Water Fund:

| | |
|----------------------------------|--------------|
| Contracts made in year 1902..... | \$614,259 55 |
| Contracts made in year 1903..... | 1,008,253 41 |
| Contracts made in year 1904..... | 540,988 30 |
| Contracts made in year 1905..... | 1,077,667 40 |
| Contracts made in year 1906..... | 2,035,470 60 |

Making an average of..... \$1,055,327 85

The work as detailed all being necessary, and the amount requested being about the average expenditure for the last five (5) years, if the financial condition of the City warrants the expenditure, and my recommendations meet with your approval, I would advise that the Board of Estimate and Apportionment authorize the Comptroller to issue Corporate Stock, pursuant to section 178 of the amended Greater New York Charter, to the amount of \$1,133,500 to provide means for the improvement of the distribution system, the laying of additional mains, the placing of additional fire hydrants, etc., in the boroughs of Manhattan and The Bronx.

Respectfully,

CHANDLER WITHINGTON, Chief Engineer.

Approved:

H. A. METZ, Comptroller.

The following resolution was offered:

Resolved, That, pursuant to the provisions of section 178 of the Greater New York Charter, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock of The City of New York to the amount of one million one hundred and thirty-three thousand five hundred dollars (\$1,133,500) to provide means for the improvement of the water supply system in the Boroughs of Manhattan and The Bronx, as set forth in said section 178 of the Charter, and that when authority therefor shall have been obtained from the Board of Aldermen the Comptroller is authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding one million one hundred and thirty-three thousand five hundred dollars (\$1,133,500), the proceeds whereof to be applied to the purposes aforesaid.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented the following communication from the President, Borough of The Bronx, and report of the Chief Engineer, Department of Finance, approved by the Comptroller, relative to an issue of \$13,110 Corporate Stock for Drainage and Sewerage District Plans, Borough of The Bronx:

OFFICE OF THE PRESIDENT OF THE BOROUGH OF THE BRONX,
MUNICIPAL BUILDING, CROTONA PARK,
NEW YORK, October 11, 1906.

Mr. JOSEPH HAAG, Secretary, Board of Estimate and Apportionment:

DEAR SIR—I enclose herewith a copy of a communication from Mr. C. H. Graham, Engineer in Charge of Sewers, recommending that the Board of Estimate and Apportionment provide for an issue of Corporate Stock in the sum of \$12,000, to be used in the appropriation for "Drainage and Sewerage District Plans, Borough of The Bronx," and respectfully request that the Board of Estimate and Apportionment provide for the issue of Corporate Stock in the sum of \$12,000 for "Drainage and Sewerage District Plans, Borough of The Bronx."

Yours truly,

LOUIS F. HAFFEN,
President of the Borough of The Bronx.

October 9, 1906.

Mr. JOSIAH A. BRIGGS, Chief Engineer of the Borough of The Bronx:

SIR—In relation to appropriation for "Drainage and Sewerage District Plans, Borough of The Bronx," provided for by an issue of Corporate Stock in the amount of \$12,000, authorized by the Board of Estimate and Apportionment in December of 1905, I have to say that in the preparation of the departmental estimate of the Bureau of Sewers, Borough of The Bronx, for 1907, the requirements for this branch of the work, amounting to \$13,110, is included under the head of Preliminary Surveys, Estimates, Maps, Plans, Etc.

Inasmuch as I am informed that the Board of Estimate and Apportionment will probably desire to provide the fund necessary for drainage and sewerage district plans, as heretofore, by an issue of Corporate Stock, instead of including it in the Budget, as suggested by the departmental estimate, and inasmuch as the available balance of this fund will probably be exhausted by the end of this year, I write to respectfully recommend that application be made to the Board of Estimate and Apportionment to provide for the needs of the Bureau in this regard for 1907 by the issuance of Corporate Stock to the amount of \$13,110.

Respectfully,

CHARLES H. GRAHAM,
Engineer in Charge of Sewers.

Recommendation approved:

JOSIAH A. BRIGGS, Chief Engineer.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
October 17, 1906.

Hon. HERMAN A. METZ, Comptroller:

SIR—Hon. Louis F. Haffen, President of the Borough of The Bronx, in communication under date of October 11, 1906, requests the Board of Estimate and Apportionment to provide for the issue of Corporate Stock in the amount of \$13,110, for "Drainage and Sewerage District Plans, Borough of The Bronx."

I would report as follows:

In the departmental estimate of the said borough for 1905 the sum of \$12,000 was included as being necessary for the purpose of meeting the expense of making the necessary examinations, surveys, etc., in connection with the said drainage and sewerage district plans. The request was not allowed in the Budget of 1906, but was provided for by an issue of Corporate Stock, authorized by the Board of Estimate and Apportionment on December 22, 1905. (See page 3242, Minutes of the Board of Estimate and Apportionment, 1905.)

In communication herewith returned, addressed to Mr. Josiah A. Briggs, Chief Engineer of the Borough of The Bronx, and signed by Mr. Charles H. Graham, Engineer in charge of sewers, it is stated that the sum of \$13,110 is required for the year 1907, the increase of \$1,110 over last year being necessary in consequence of certain increases in salaries, either already made or proposed, of those engaged in the work.

The work for which the said appropriation is required consists in making certain investigations, studies, preliminary surveys, computations, maps, etc., in preparing the plans of drainage for the Chester district and also certain modifications of drainage plans for the Morrisania district.

It is my opinion that the amount asked for is necessary for the purpose stated, to provide for carrying on the work during the year 1907.

Respectfully,

CHANDLER WITHINGTON, Chief Engineer.

Approved:

H. A. METZ, Comptroller.

The following resolution was offered:

Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock of The City of New York to an amount not exceeding thirteen thousand one hundred and ten dollars (\$13,110) to provide means to carry on the work of making maps, etc., and for making drainage and sewerage district plans of the Borough of The Bronx, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue Corporate Stock of The City of New York in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding thirteen thousand one hundred and ten dollars (\$13,110), the proceeds whereof to be applied to the purposes aforesaid.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented the following communication from the Secretary, Borough of Manhattan, and report of the Chief Engineer, Department of Finance, relative to authorizing the President of the Borough of Manhattan to enter into an agreement with the Remington & Sherman Company to modify and alter their contract for alterations, etc., and for the completion of the new Hall of Records Building in an amount not to exceed \$990 for extra work:

CITY OF NEW YORK,

Secretary, Borough of Manhattan.

HALL OF RECORDS.

REMINGTON & SHERMAN COMPANY,
No. 359 BROADWAY,
NEW YORK, September 21, 1906.

MESSRS. HORGAN & SLATTERY, Architects, No. 1 Madison Avenue, City:

GENTLEMEN—We hereby agree to make the following changes for the sum of nine hundred and ninety dollars (\$990):

Making thirty-four (34) new cupboards for pedestals for roll top desks, as per change desired by Mr. Bell, of the Bureau of Taxes and Assessments.

Changing of the swing or hand of doors on thirty-four (34) cupboards.

Furnishing seventeen (17) mahogany bases for electric fixtures or lamps in the gutter on top of these desks.

To making and furnishing three (3) mahogany map cases for the Department of Taxes and Assessments, as per the sketch given us by you.

The work to be done in the shortest possible time, and under your instruction we are proceeding with the work.

Kindly send us order for the above amount—namely, nine hundred and ninety dollars (\$990)—at your earliest convenience, and oblige,

Yours very truly,

HORGAN & SLATTERY, ARCHITECTS,
No. 1 MADISON AVENUE,
NEW YORK, September 24, 1906.

Hon. JOHN F. AHEARN, President, Borough of Manhattan, City Hall, Manhattan:

DEAR SIR—We inclose herewith an extra order, in triplicate, made out to the Remington & Sherman Company, contractors for the interior furnishings and fittings of the new Hall of Records Building, amounting to nine hundred and ninety dollars (\$990). This work has been ordered by Mr. Frank J. Bell, of the Bureau of Taxes and Assessments.

We inclose copy of the estimate from the Remington & Sherman Company, and if the same meets with your approval kindly sign the extra order and forward same to the Remington & Sherman Company.

Yours truly,

(Signed) HORGAN & SLATTERY.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
October 10, 1906.

Hon. HERMAN A. METZ, Comptroller:

SIR—Under date of September 25, 1906, the Secretary to the President of the Borough of Manhattan forwards to the Board of Estimate and Apportionment a copy of a bid of the Remington & Sherman Company for extra work in the new Hall of Records building for the sum of \$990.

I have looked into the matter in detail, and I find that this proposition covers a number of small items, most of which are made necessary through some oversight or from a desire to improve some details of the furnishings as installed. There is also an item for new map cases for the Department of Taxes and Assessments. I think that the price asked is not unreasonable.

The contract of the Remington & Sherman Company permits of an increase to the amount of five (5) per cent. on the face of the contract, and this extra, in addition to a previous one amounting to \$12,915, does not exceed this five (5) per cent.

I therefore recommend that the Board of Estimate and Apportionment order and authorize the President of the Borough of Manhattan to enter into an agreement with the Remington & Sherman Company to modify and alter their contract for alterations, etc., and completion of the new Hall of Records building, in an amount not to exceed \$990, for the work detailed below:

"Making thirty-four (34) new cupboards for pedestals for rolltop desks, as per change desired by Mr. Bell of the Bureau of Taxes and Assessments.

"Changing of the swing or hand of doors on thirty-four (34) cupboards.

"Furnishing seventeen (17) mahogany bases for electric fixtures or lamps in the gutter on top of these desks.

"To making and furnishing three (3) mahogany map cases for the Department of Taxes and Assessments, as per sketch given us by you."

I believe there are funds available for this work, as premiums upon the bonds already issued, and therefore it will not be necessary to provide for additional money for this amount.

Respectfully,

CHANDLER WITHINGTON, Chief Engineer.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby authorizes the President of the Borough of Manhattan to enter into an agreement with the Remington & Sherman Company to modify and alter its contract (known as No. 13,907), for alterations, etc., and for the completion of the new Hall of Records building, in an amount not to exceed nine hundred and ninety dollars (\$990), for the work detailed below, in the rooms to be occupied by the Department of Taxes and Assessments:

"Making thirty-four (34) new cupboards for pedestals for rolltop desks, etc.

"Changing of the swing or hand of doors on thirty-four (34) cupboards.

"Furnishing seventeen (17) mahogany bases for electric fixtures or lamps in the gutter on top of these desks.

The Secretary presented the following communication from the Commissioner of Parks, Boroughs of Manhattan and Richmond, and report of the Chief Engineer, Department of Finance, approved by the Comptroller, to whom on October 12, 1906, was referred said communication relative to modified form of specifications for the plumbing and drainage work of the New York Public Library Building:

DEPARTMENT OF PARKS,
THE ARSENAL, CENTRAL PARK,
September 27, 1906.

To the Board of Estimate and Apportionment, The City of New York:

GENTLEMEN—At a meeting of your Honorable Board held on the 22d of June last, a report of the Chief Engineer of the Department of Finance, in relation to the form of contract and specifications for the plumbing and drainage work of the New York Public Library building, was referred to this Department for modification of the specifications along the lines indicated in said report.

The architects, Carrere & Hastings, have conferred with the Engineer of the Finance Department, and state that the specifications, as now changed and forwarded herewith for your approval, will, they believe, meet with the approval of the Engineer.

I therefore beg to request your early consideration of the same in order that this important work, which has been thus unfortunately delayed, may be started as soon as possible.

Respectfully,

MOSES HERRMAN,

Commissioner of Parks, Boroughs of Manhattan and Richmond.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
October 16, 1906.

Hon. HERMAN A. METZ, Comptroller:

SIR—In the matter of the approval by the Board of Estimate and Apportionment of the form of contract and specifications, for the plumbing and drainage work of the New York Public Library, Fifth avenue, Fortieth to Forty-second streets, Borough of Manhattan, I beg to report that this matter was the subject of an adverse report by this Bureau on June 14, 1906, and the Board so far agreed with the report as to refer the matter back to the Park Commissioner on June 22, 1906, for modification along the lines indicated in the report.

The amended specifications were submitted to the Board, in a communication from the Park Commissioner, dated September 27, 1906.

The whole matter has been gone over again with some care, and the plans and specifications as amended meet with my approval. I believe that the work as now designed and specified will provide the building with a sanitary equipment, not only full and adequate to all possible needs, but also adapted in elaboration of detail to a building of the character and cost of this library. The estimated cost of this work is \$110,000.

I am of the opinion, therefore, that you may properly advise the Board of Estimate and Apportionment, pursuant to chapter 556 of the Laws of 1897, as amended by chapter 627 of the Laws of 1900, to approve the contract and specifications for plumbing and drainage work of the New York Public Library Building, as requested by the Commissioner of Parks, for the boroughs of Manhattan and Richmond.

Respectfully,

CHANDLER WITHINGTON, Chief Engineer.

H. A. METZ, Comptroller.

The following resolution was offered:

Resolved, That pursuant to the provisions of chapter 556 of the Laws of 1897, the Board of Estimate and Apportionment hereby approves of the terms and conditions contained in the form of contract submitted in triplicate by the Commissioner of Parks, boroughs of Manhattan and Richmond, under date of September 27, 1906, for the installation of plumbing and drainage apparatus in the New York Library, Astor, Lenox and Tilden foundations, Fifth avenue, Fortieth to Forty-second streets, in the Borough of Manhattan.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented the following communication from the County Clerk, Kings County, and report of the Investigations Division, Department of Finance, approved by the Comptroller, to whom on September 28 was referred said communication requesting that the Board of City Record be permitted to purchase, for the use of his office, three loose leaf Miller Record Books.

COUNTY CLERK'S OFFICE, COUNTY OF KINGS,
HALL OF RECORDS, BROOKLYN, N. Y.,
September 13, 1906.

JOSEPH HAAG, Esq., Secretary, Board of Estimate and Apportionment, No. 280 Broadway, New York City:

DEAR SIR—I write to request that the Board of Estimate and Apportionment adopt a resolution permitting the Board of City Record to purchase for this office three (3) Miller loose leaf record books manufactured by the H. C. Miller Company. My reason for this request is that I am informed by the Board of City Record that they are unable to secure competition, this book being a patented article, and falling, therefore, within section 1554 of the Charter.

We find that the work of our copyists can be increased to a great extent by the use of this system, and there is apparently no other book in the market which can take its place.

Trusting that the Board will be able to act favorably upon this request at its next meeting, believe me to be

Very truly yours,

CHAS. T. HARTZHEIM, Clerk of Kings County.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
October 13, 1906.

Hon. HERMAN A. METZ, Comptroller:

SIR—In the matter of a communication from the Clerk of Kings County, under date of September 13, 1906, presented to the Board of Estimate and Apportionment on September 28, 1906, referred to the Comptroller for his consideration and report, and by you referred to the Bureau of Municipal Investigation and Statistics for examination, I beg to submit the following:

The Clerk of Kings County requests that the Board of City Record be permitted to purchase for the use of said Clerk's Office "three (3) loose leaf Miller record books manufactured by the H. C. Miller Company," the same being a patented article which cannot be secured by competition.

County Clerk Hartzheim states to your Examiner that his object in obtaining such "loose leaf" record books is to enable his Stenographer, who has passed an examination for "copyist," to utilize the unemployed portion of her time in compiling copies of records on file in his office required by law to be so copied. That, having noted the use of "loose leaf" books of record in the office of the Register of Kings County he had applied for similar record books for his own office.

An examination of the said Register's office bears out the statement of the County Clerk in so far as it appears that the "loose leaf" system of records has been installed there to a considerable extent during the present year.

While the style of "loose leaf" record books now used by the Register of Kings County are not those manufactured by the H. C. Miller Company, the fundamental idea in all such systems is the same, the various patents differing only in the style of locking device.

Section 1554 of the Greater New York Charter provides that "no patented article shall be advertised for, contracted for or purchased except under such circumstances that there can be a fair and reasonable opportunity for competition, the conditions to secure which shall be prescribed by the Board of Estimate and Apportionment."

I therefore recommend the adoption of the resolution attached hereto.

Yours respectfully,

CHARLES S. HERVEY,

Supervising Statistician and Examiner.

Approved:

H. A. METZ, Comptroller.

The following resolution was offered:

Resolved, That, pursuant to the provisions of section 1554 of the Greater New York Charter, the Board of Estimate and Apportionment approves of the purchase by the Board of City Record, for use in the office of the Clerk of Kings County, of three (3) "loose leaf" record books, and that the said Board of City Record in specifying the kind of "loose leaf" record books to be purchased shall add the words "or equal thereto."

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented a report of the Appraiser of Real Estate, Department of Finance, approved by the Comptroller, recommending the amendment of resolution adopted December 29, 1905, which authorized the condemnation of property on Bergen street, St. Mark's avenue, near Classon avenue, Brooklyn, as a site for a playground, in order to correct a slight discrepancy in the description of said property.

Which was referred to a select committee consisting of the Comptroller and the President, Borough of Brooklyn.

The Secretary presented the following resolution of the Board of Education and report of the Appraiser of Real Estate, Department of Finance, approved by the Comptroller, to whom, on September 28, was referred said resolution, requesting that title to property on Sutter avenue, Barrett and Grafton streets, Brooklyn, authorized to be condemned for school purposes, vest in the City ten days after the adoption of a resolution to that effect.

Whereas, The oaths of the Commissioners of Estimate and Appraisal in the condemnation proceeding for the acquisition of title to certain lands and premises on Sutter avenue, Barrett and Grafton streets, Borough of Brooklyn, as a site for school purposes, were filed in the office of the Clerk of the County of Kings on August 29, 1906; and

Whereas, The said lands and premises are urgently required for school purposes, and title thereto should be acquired at as early a date as possible; therefore be it

Resolved, That the Board of Estimate and Apportionment be and it is hereby respectfully requested to adopt a resolution, in accordance with the provisions of section 1439 of the Revised Charter, as amended, directing that title to said lands and premises, and all interests therein, vest in The City of New York ten days after the passage of such resolution.

A. EMERSON PALMER, Secretary, Board of Education.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
October 17, 1906.

Hon. HERMAN A. METZ, Comptroller:

SIR—The Board of Education at its meeting held September 20, 1906, adopted a resolution requesting the Board of Estimate and Apportionment, in accordance with the provisions of section 1439 of the Revised Charter, to vest the title in the City to certain lands and premises on Sutter avenue, Barrett and Grafton streets, in the Borough of Brooklyn, which was authorized to be acquired for school purposes. The property is vacant land and it appears that the Commissioners of Estimate and Appraisal in the proceeding have filed their oaths of office with the Clerk of the County of Kings on August 29, 1906.

A communication was addressed by this office to the Chairman of the Committee on Buildings of the Board of Education, under date of October 12, 1906, in order to

ascertain whether the plans were ready for the erection of a new school building on the site, and in reply thereto, under date of October 15, 1906, Hon. Richard H. Adams, Chairman, Committee on Buildings, states:

"If there is absolute certainty that title to the Sutter avenue site will pass to the City at once we will forthwith order a survey and borings, so that plans will be ready without delay."

In view of the necessity for further school accommodations in the district in question, I would respectfully recommend that the Board of Estimate and Apportionment adopt a resolution, pursuant to the provisions of section 1439 of the Revised Charter, that the title to the lands and premises on Sutter avenue, Barrett and Grafton streets, in the Borough of Brooklyn, shall vest in The City of New York on November 1, 1906.

Respectfully submitted for approval,

MORTIMER J. BROWN,

Appraiser of Real Estate, Department of Finance.

H. A. METZ, Comptroller.

The following was offered:

Whereas, On March 16, 1906, the Board of Estimate and Apportionment adopted a resolution approving the action of the Board of Education in the matter of the selection of a site for school purposes, on Sutter avenue, Barrett and Grafton streets, in the Borough of Brooklyn; and

Whereas, The Commissioners of Estimate and Appraisal having been appointed in the proceedings and having filed their oaths of office with the Clerk of the County of Kings on August 29, 1906; therefore be it

Resolved, That the Board of Estimate and Apportionment, deeming it for the public interest that the title to the hereinafter described property shall be acquired at a fixed or specified time, does hereby direct, in accordance with the provisions of section 1439 of the Greater New York Charter, as amended, that title shall vest in The City of New York on November 1, 1906, to all of the property included within the area of the following described property:

Beginning at a point formed by the intersection of the southerly line of Sutter avenue with the westerly line of Barrett street, and running thence westerly along the southerly line of Sutter avenue 200 feet to the easterly line of Grafton street; thence southerly along the easterly line of Grafton street 200 feet; thence easterly and parallel with Sutter avenue 200 feet to the westerly line of Barrett street; thence northerly along the westerly side of Barrett street 200 feet to the southerly line of Sutter avenue, the point or place of beginning, be the said several dimensions more or less.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented the following report of the Appraiser of Real Estate, Department of Finance, approved by the Comptroller, recommending the acquisition by condemnation of property heretofore authorized to be purchased and located at Richard street, Dwight street, Pioneer street and King street, Borough of Brooklyn, for a playground, and further recommending the vesting of title in the City five days after the filing of the oaths of the Commissioners.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
October 19, 1906.

Hon. HERMAN A. METZ, Comptroller:

SIR—The Board of Estimate and Apportionment at its meeting held May 4, 1906, adopted a resolution authorizing the acquisition for playground purposes of the property included within the area of the block bounded by Richard street, Dwight street, Pioneer street and King street, in the Borough of Brooklyn, at a price not exceeding \$60,000. Title to the property on the southeasterly corner of Richard street and Pioneer street, in the Borough of Brooklyn, having a frontage of 150 feet on Richard street and 100 feet on Pioneer street became vested in The City of New York on October 4, 1906, the consideration being \$10,000. Title to the balance of the block, with the exception of two triangular strips, one at the southwesterly corner of Pioneer and Dwight streets, having a frontage of 11 feet on Pioneer street and 25 feet on Dwight street; the other triangular strip at the northwesterly corner of King and Dwight streets, having a frontage of 83 feet on Dwight street and 24 feet on King street, became vested in the City on October 18, 1906, the consideration being \$49,000.

It appears that title to the strips in question not as yet acquired by the City is in adverse ownership, and it is impossible to locate the owners, which I am advised by the title company are about sixteen in number. I would therefore respectfully recommend that the Board of Estimate and Apportionment adopt a resolution authorizing the institution of condemnation proceedings for the acquisition of the following described property in the Borough of Brooklyn:

Beginning at a point formed by the intersection of the southerly side of Pioneer street with the westerly side of Dwight street; thence westerly along the southerly side of Pioneer street to the southeasterly bank of Coenties kill at high water, which is also the boundary line of land of The City of New York; thence southeasterly along said bank, which is also along the land of The City of New York to the westerly side of Dwight street; thence northerly along the said westerly side of Dwight street to the point or place of beginning; and also

Beginning at a point formed by the intersection of the northerly side of King street with the westerly side of Dwight street; thence northerly along the westerly side of Dwight street to the southerly bank of Coenties kill at high water, which is also the boundary line of land of The City of New York; thence in a southwesterly direction along said bank and along the land of The City of New York to the northerly side of King street, and thence easterly along the said northerly side of King street to the point or place of beginning. Said property being assessed on the tax maps for the year 1906 for the purposes of taxation, on the books of record of the Department of Taxes and Assessments, in the Borough of Brooklyn, City of New York, with other property, at \$700.

I would further recommend that the said resolution contain a clause that deeming it for the public interest that the title to all of the said land shall be acquired at a fixed or specified time, the title to the said land and interest therein shall vest in The City of New York five days after the filing of the oaths of the Commissioners to be appointed in the proceedings, in accordance with the provisions of section 1437 of the Amended Greater New York Charter.

Respectfully submitted for approval,

THOMAS F. BYRNES,

Appraiser of Real Estate, Department of Finance.

H. A. METZ, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves of the selection and location of a playground in the Borough of Brooklyn, bounded and described as follows:

Beginning at a point formed by the intersection of the southerly side of Pioneer street with the westerly side of Dwight street; thence westerly along the southerly side of Pioneer street to the southeasterly bank of Coenties kill at high water, which is also the boundary line of land of The City of New York; thence southeasterly along said bank, which is also along the land of The City of New York, to the westerly side of Dwight street; thence northerly along the said westerly side of Dwight street to the point or place of beginning; and also

Beginning at a point formed by the intersection of the northerly side of King street with the westerly side of Dwight street; thence northerly along the westerly side of Dwight street to the southeasterly bank of Coenties kill at high water, which is also the boundary line of land of The City of New York; thence in a southwesterly direction along said bank and along the land of The City of New York to the northerly side of King street; and thence easterly along the said northerly side of King street to the point or place of beginning. Said property being assessed on the tax maps for the year 1906 for the purposes of taxation, on the books of record of the Department of Taxes and Assessments in the Borough of Brooklyn, City of New York, with other property, at \$700.

—and the Corporation Counsel be and he hereby is authorized to institute condemnation proceedings for the acquisition of all of the property within the above described area.

The Board of Estimate and Apportionment deeming it for the public interest that the title to all of said land shall be acquired at a fixed or specified time, does hereby direct that title to said lands and interest therein shall vest in The City of New York five days after the filing of the oaths of the Commissioners to be appointed, in accordance with the provisions of section 1437 of the Amended Greater New York Charter.

The Comptroller of The City of New York is hereby requested to have three similar maps prepared of the above property, and when prepared, transmitted to the Corporation Counsel for use in the condemnation proceedings.

Nothing in this resolution contained shall be construed as preventing the Comptroller of The City of New York from entering into contracts for the acquisition of any portion of the above described premises at private sale, subject to the approval of this Board.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented the following resolution of the Board of Education and report of the Appraiser of Real Estate, Department of Finance, approved by the Comptroller, relative to the acquisition of property located on East One Hundred and Eighty-ninth street, Lorillard place and Hoffman street, Borough of The Bronx, selected as a site for school purposes:

To the Board of Education:

The Committee on Sites respectfully reports that it has given careful consideration to sundry recommendations of the Board of Superintendents and the Local School Board of District No. 26 that a site be acquired for a new school building to relieve Public School 32, Borough of The Bronx, which is greatly overcrowded, and is of the opinion that property on the north side of East One Hundred and Eighty-ninth street, running from Lorillard place to Hoffman street, should be selected for this purpose. It is the intention to erect a new building on the property mentioned as soon as title thereto is acquired, provided sufficient funds are available therefor.

The following resolutions are submitted for adoption:

Resolved, That the Board of Education hereby selects and determines as a site for school purposes the following described lands and premises on East One Hundred and Eighty-ninth street, Lorillard place and Hoffman street, in Local School Board District No. 26, Borough of The Bronx, the assessed valuation of which, as shown by the books of record on file in the Department of Taxes and Assessments, is \$20,000:

Beginning at a point formed by the intersection of the northerly line of East One Hundred and Eighty-ninth street with the easterly line of Lorillard place, and running thence easterly along the northerly line of East One Hundred and Eighty-ninth street one hundred and ninety-four and ninety-four one-hundredths (194.94) feet to the westerly line of Hoffman street, thence northerly along the westerly line of Hoffman street one hundred and sixty-nine and fifty-three one-hundredths (169.53) feet, thence westerly and parallel with East One Hundred and Eighty-ninth street one hundred and ninety-four and ninety-four one-hundredths (194.94) feet to the easterly line of Lorillard place, thence southerly along the easterly line of Lorillard place one hundred and sixty-nine and fifty-three one-hundredths (169.53) feet to the northerly line of East One Hundred and Eighty-ninth street, the point or place of beginning, be the said several dimensions more or less.

Resolved, That the Board of Estimate and Apportionment be and it is hereby requested to take such action as may be necessary and proper for the acquisition of the lands and premises above described.

Hon. HERMAN A. METZ, Comptroller:

SIR—The Board of Education, at a meeting held on the 10th day of October, 1906, adopted the following resolution:

Resolved, That the Board of Education hereby selects and determines as a site for school purposes the following described lands and premises on East One Hundred and Eighty-ninth street, Lorillard place and Hoffman street, in Local School Board District No. 26, Borough of The Bronx, the assessed valuation of which, as shown by the books of record on file in the Department of Taxes and Assessments, is \$20,000:

Beginning at a point formed by the intersection of the northerly line of East One Hundred and Eighty-ninth street with the easterly line of Lorillard place, and running thence easterly along the northerly line of East One Hundred and Eighty-ninth street one hundred and ninety-four and ninety-four one-hundredths (194.94) feet to the westerly line of Hoffman street, thence northerly along the westerly line of Hoffman street one hundred and sixty-nine and fifty-three one-hundredths (169.53) feet, thence westerly and parallel with East One Hundred and Eighty-ninth street one hundred and ninety-four and ninety-four one-hundredths (194.94) feet to the easterly line of Lorillard place, thence southerly along the easterly line of Lorillard place one hundred and sixty-nine and fifty-three one-hundredths (169.53) feet to the northerly line of East One Hundred and Eighty-ninth street, the point or place of beginning, be the said several dimensions more or less.

Resolved, That the Board of Estimate and Apportionment be and it is hereby requested to take such action as may be necessary and proper for the acquisition of the lands and premises above described.

The property described in the resolution of the Board of Education is a strip of land fronting on the northerly side of East One Hundred and Eighty-ninth street, extending from Lorillard place to Hoffman street, and running northerly along the sides of both streets about 169.53 feet. The property is owned by Isaac Chaitin and is assessed for the purposes of taxation at \$20,000. The owner asks \$45,000.

The northeast corner of East One Hundred and Eighty-ninth street and Lorillard place, 94.47 feet by 169.53 feet, was sold at public auction on January 10, 1906, for the sum of \$19,900. The northwest corner of East One Hundred and Eighty-ninth street and Hoffman street, being of the same dimensions, was sold at public auction on the same date for \$17,000, making a total of \$36,900.

Since the sale of this property at public auction the trolley line through East One Hundred and Eighty-ninth street is in operation, and, owing to the other improvements in the vicinity and the general appreciation of real estate in The Bronx, I am of the opinion that the price asked is not excessive. I would therefore respectfully recommend that the Board of Estimate and Apportionment approve of the selection of the site

by the Board of Education and authorize its acquisition at private sale at a price not exceeding \$45,000.

Respectfully submitted for approval,

MORTIMER J. BROWN,

Appraiser of Real Estate, Department of Finance.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented the following resolution of the Board of Education and report of the Appraiser of Real Estate, Department of Finance, approved by the Comptroller, relative to the acquisition of property located on Grafton avenue and Clinton place, Borough of Queens, selected as a site for school purposes.

To the Board of Education:

The Committee on Sites respectfully reports that it has given careful consideration to a recommendation of the Committee on Buildings that the plot of land on the southeast corner of Grafton avenue and Clinton place, adjoining Public School 58, Borough of Queens, be acquired for school purposes. This plot is required in order to properly carry out the plans for the erection of an addition to this school building, and your Committee is of the opinion that title thereto should be acquired. It is the intention to erect an addition to said school building as soon as said additional land is acquired, provided sufficient funds are available therefor.

The following resolutions are submitted for adoption:

Resolved, That the Board of Education hereby selects and determines as a site for school purposes the following described lands and premises on Grafton avenue and Clinton place, adjoining Public School 58, at Woodhaven, in Local School Board District No. 44, Borough of Queens, the assessed valuation of which, as shown by the books of record on file in the Department of Taxes and Assessments is \$3,200:

Beginning at a point formed by the intersection of the easterly line of Clinton place with the southerly line of Grafton avenue, and running thence easterly along the southerly line of Grafton avenue fifty (50) feet to the westerly line of the lands of Public School 58; thence southerly along the westerly line of the lands of Public School 58, one hundred (100) feet; thence westerly along the northerly line of the lands of Public School 58 fifty (50) feet to the easterly line of Clinton place; thence northerly along the easterly line of Clinton place one hundred (100) feet to the southerly line of Grafton avenue, the point or place of beginning, be the said several dimensions more or less.

Resolved, That the Board of Estimate and Apportionment be and it is hereby requested to take such action as may be necessary and proper for the acquisition of the lands and premises above described.

Resolved, That the Board of Estimate and Apportionment be and it is hereby requested to take such action as may be necessary and proper for the acquisition of the lands and premises above described.

The plot described is on the corner of Grafton avenue and Clinton place, approximately 50 by 100 feet, and adjoins on the east and south property now of the Board of Education.

There is erected on this 50-foot plot a two-story and basement, flat roof frame tenement house, 25 by 50 feet, and is assessed for the purposes of taxation, land \$900, land and building \$3,200.

The price asked by the owner of the property is greatly in excess of its fair market value, which makes it impossible for the City to acquire the property at private sale. I would therefore respectfully recommend that the Board of Estimate and Apportionment approve of the action of the Board of Education in the selection of this additional plot of land to Public School 58, Borough of Queens, and authorize its acquisition by condemnation proceedings.

The Secretary presented the following resolution of the Board of Education and report of the Appraiser of Real Estate, Department of Finance, approved by the Comptroller, relative to the acquisition of property located at Pacific street and Union Hall street, Borough of Queens, selected as a site for school purposes, and the vesting of title of said property in the City on the filing of the oaths of the Commissioners:

To the Board of Education:

The Committee on Sites respectfully reports that it has given careful consideration to a recommendation of the Jamaica Local Board of Improvements of the Borough of Queens, that the Board of Education establish a public school at Cedar Manor. The Local School Board of District No. 43 and the City Superintendent of Schools have recommended the acquisition of a site for a new school building in this vicinity, where additional school accommodations are needed to provide for the increasing population, and your Committee is of the opinion that property on Pacific and Union Hall streets, Jamaica, should be selected for this purpose. It is the intention to erect a new building on said property as soon as title thereto is acquired, provided sufficient funds are available therefor.

The following resolutions are submitted for adoption:

Resolved, That the Board of Education hereby selects and determines as a site for school purposes the following described lands and premises on Pacific and Union Hall streets, Jamaica, in Local School Board District No. 43, Borough of Queens, the assessed valuation of which, as shown by the books of record on file in the Department of Taxes and Assessments, is \$1,300:

Beginning at a point formed by the intersection of the southerly line of Pacific street with the westerly line of Union Hall street, and running thence westerly along the southerly line of Pacific street one hundred and fifty (150) feet, thence southerly and parallel with Union Hall street two hundred (200) feet, thence easterly and parallel with Pacific street one hundred and fifty (150) feet to the westerly line of Union Hall street, thence northerly along the westerly line of Union Hall street two hundred (200) feet to the southerly line of Pacific street, the point or place of beginning, be the said several dimensions more or less.

Resolved, That the Board of Estimate and Apportionment be and it is hereby requested to take such action as may be necessary and proper for the acquisition of the lands and premises above described.

The property described in the resolution of the Board of Education is a rectangular piece 150 feet on Pacific street, extending along Union Hall street 200 feet, and is assessed for the purposes of taxation at \$1,300.

The corner plot at Pacific and Union Hall streets, 100 by 100 feet, with the lots adjoining, 125 by 150 feet, was presented to the City at a cash offer of \$5,850, prior to the adoption of the resolution by the Board of Education. Subsequent to the original proposition, the owner raised his price to \$6,300, and inasmuch as the plot of ground 50 by 100 feet fronting on Pacific street is so encumbered by taxes and tax sales that it will have to be acquired by condemnation proceedings, I feel that the whole proposition should be considered by the Commissioners of Estimate and Appraisal.

I would therefore respectfully recommend that the Board of Estimate and Apportionment approve of the action of the Board of Education and authorize the acquisition of the site by condemnation proceedings.

In addition to the regular form, the resolution should contain a clause that title shall vest in The City of New York on the filing of the oaths of the Commissioners, in accordance with the provisions of sections 1437 and 1439 of the amended Greater New York Charter.

Respectfully submitted for approval,

MORTIMER J. BROWN,
Appraiser of Real Estate, Department of Finance.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves of the action of the Board of Education in the matter of the selection of the following described premises for school purposes in the Borough of Queens:

Beginning at a point formed by the intersection of the southerly line of Pacific street with the westerly line of Union Hall street, and running thence westerly along

the southerly line of Pacific street one hundred and fifty (150) feet, thence southerly and parallel with Union Hall street two hundred (200) feet, thence easterly and parallel with Pacific street one hundred and fifty (150) feet to the westerly line of Union Hall street, thence northerly along the westerly line of Union Hall street two hundred (200) feet to the southerly line of Pacific street, the point or place of beginning, be the said several dimensions more or less. The assessed valuation of the above described premises, as shown by the books of record on file in the Department of Taxes and Assessments, is \$1,300, —and the Corporation Counsel be and he is hereby authorized to institute condemnation proceedings for the acquisition of all of the parcels of land within the area of the above described premises.

Nothing in this resolution contained shall be construed as preventing the Comptroller of The City of New York from entering into a contract for the acquisition of the above described premises or any part thereof at private sale, subject to the approval of this Board, and the Board of Estimate and Apportionment, deeming it for the public interest that the title to all such land shall be acquired at a fixed or specified time, does hereby direct that title to said lands and premises, and all interests herein, shall, in accordance with the provisions of section 1439 of the amended Greater New York Charter, vest in The City of New York on the filing of the oaths of the Commissioners to be appointed in accordance with the provisions of section 1437 of said Charter.

The Secretary presented the following resolution of the Board of Education and report of the Appraiser of Real Estate, Department of Finance, approved by the Comptroller, relative to the acquisition by condemnation of property located on Pennsylvania avenue and Clifton avenue, Borough of Richmond, selected as a site for school purposes:

To the Board of Education:

The Committee on Sites respectfully reports that it has had under consideration the matter of the selection of the property on Clifton and Pennsylvania avenues, between Public School 13 and the lands of the Staten Island Rapid Transit Railroad Company, at Rosebank, Borough of Richmond. This land is cheap at the present time, and your Committee is of the opinion that the same should be acquired in order to properly protect the school property from nuisances. It is the intention to improve said property for school purposes as soon as title thereto is acquired.

The following resolutions are submitted for adoption:

Resolved, That the Board of Education hereby selects and determines as a site for school purposes the following described lands and premises on Clifton and Pennsylvania avenues, adjoining Public School 13, at Rosebank, in Local School Board District No. 16, Borough of Richmond, the assessed valuation of which, as shown by the books of record on file in the Department of Taxes and Assessments, is \$300:

Beginning at a point formed by the intersection of the westerly line of the lands of Public School 13, with the northerly line of Pennsylvania avenue; and running thence northerly along the westerly line of the lands of Public School 13 three hundred and forty (340) feet to the southerly line of Clifton avenue; thence westerly along the southerly line of Clifton avenue to the easterly line of lands of the Staten Island Rapid Transit Railroad Company; thence southerly along the easterly line of the lands of said railroad company to the northerly line of Pennsylvania avenue; thence easterly along the northerly line of Pennsylvania avenue to the westerly line of the lands of Public School 13, the point or place of beginning.

Resolved, That the Board of Estimate and Apportionment be, and it is hereby requested to take such action as may be necessary and proper for the acquisition of the lands and premises above described.

Hon. HERMAN A. METZ, Comptroller:

SIR—The Board of Education at a meeting held October 10, 1906, adopted the following resolution:

Resolved, That the Board of Education hereby selects and determines as a site for school purposes the following described lands and premises on Clifton and Pennsylvania avenues, adjoining Public School 13, at Rosebank, in Local School Board District No. 16, Borough of Richmond, the assessed valuation of which, as shown by the books of record on file in the Department of Taxes and Assessments, is \$300:

Beginning at a point formed by the intersection of the westerly line of the lands of Public School 13, with the northerly line of Pennsylvania avenue; and running thence northerly along the westerly line of the lands of Public School 13 three hundred and forty (340) feet to the southerly line of Clifton avenue; thence westerly along the southerly line of Clifton avenue to the easterly line of lands of the Staten Island Rapid Transit Railroad Company; thence southerly along the easterly line of the lands of said railroad company to the northerly line of Pennsylvania avenue; thence easterly along the northerly line of Pennsylvania avenue to the westerly line of the lands of Public School 13, the point or place of beginning.

Resolved, That the Board of Estimate and Apportionment be, and it is hereby requested to take such action as may be necessary and proper for the acquisition of the lands and premises above described.

The land described in the resolution of the Board of Education, will, when acquired, complete the block between Anderson street, Pennsylvania avenue, Clifton avenue and the land of the Staten Island Rapid Transit Railroad. Included in the description is what has been shown on the Atlas for many years a short street known as Claire street, and the tax books show that it has been exempt from taxes as a public street, but whether the title was secured by dedication, or whether it was opened in the usual way, I have been unable to learn. There has been no physical opening or improvement. There are no houses on the strip of land between Claire street and the railroad tracks, and the land between the street and the railroad tracks is assessed at a total of \$700 in the name of Clara Hodges. I have been informed that there are a number of tax sales against the premises, and even if there were not, the question of the ownership by the City of Claire street, in my opinion, should be decided upon by a commission. I therefore respectfully recommend that the Board of Estimate and Apportionment approve of the action of the Board of Education in the selection of this site, and authorize the acquisition of the same by condemnation proceedings.

Respectfully submitted for approval.

Appraiser of Real Estate, Department of Finance.

The Secretary presented the following communication from the Board of Trustees, College of The City of New York, and report of the Investigations Division, Department of Finance, approved by the Comptroller, one of the Select Committee consisting of the Comptroller and the President, Board of Aldermen, to whom, on October 12, 1906, was referred said communication relative to the establishment of the positions of one Curator at \$4,750, one Assistant Curator at \$2,500, one Janitor-in-Chief at \$18,330 (including payment of staff), and various other positions:

BOARD OF TRUSTEES, COLLEGE OF THE CITY OF NEW YORK,
LEXINGTON AVENUE AND TWENTY-THIRD STREET,
New York, October 11, 1906.

To the Hon. GEORGE B. MCCLELLAN, Mayor, Chairman, Board of Estimate and Apportionment:

DEAR SIR—The attention of the Board of Estimate and Apportionment is respectfully called to the following communication, transmitted to the Commission on Salaries and Grades on August 27, 1906:

FRANK A. SPENCER, Esq., Secretary, Commission on Salaries and Grades Appointed by the Board of Estimate and Apportionment:

DEAR SIR—In reply to the communication from your Commission, dated June 15, 1906, requesting:

1. What additional titles of positions should be created for your Department, giving reasons therefor.
2. What grades of salaries should be established for such additional positions.
3. What titles of positions now in existence can be abolished for the reason that the duties required are inconsistent with existing titles.

—the undersigned, Chairman and Secretary of the Board of Trustees of The College of The City of New York, beg to state that in order to properly care for the extensive grounds and buildings of the College at Amsterdam avenue, St. Nicholas terrace, One Hundred and Thirty-sixth to One Hundred and Fortieth streets, with their extensive and complicated apparatus, furniture and other appurtenances, it will be necessary to employ a sufficient and efficient staff of persons, and, after careful consideration of the whole matter and upon its present information and subject to the possible inclusion of the present expense of janitorial service in the gross estimate of \$18,330, the Board has decided to recommend the establishment of the following positions in addition to the persons now on the College payroll, viz:

| | |
|--|------------|
| 1 Curator | \$4,750 00 |
| 1 Assistant Curator | 2,500 00 |
| *6 Clerks, at \$600 | 3,600 00 |
| *3 Office Boys, at \$300 | 900 00 |
| 2 Elevator Boys, at \$480 | 960 00 |
| 2 Mechanics, at \$1,200 | 2,400 00 |
| 1 Photographer | 1,000 00 |
| 1 Assistant Librarian | 1,200 00 |
| 1 Cataloguer | 1,200 00 |
| 1 Helper (in stock room) | 480 00 |
| 1 Assistant Engineer (dynamo) | 1,800 00 |
| 2 Assistant Engineers, at \$1,400 | 2,800 00 |
| 6 Oilers, at \$720 | 4,320 00 |
| 5 Firemen, at \$720 | 3,600 00 |
| 4 Coal Passers, at \$720 | 2,880 00 |
| 1 Electrician | 1,800 00 |
| 1 Switchboard Tender | 720 00 |
| 1 Plumber (compensation estimated at prevailing rate, \$4 per diem) | 1,482 00 |
| 1 Carpenter (compensation estimated at prevailing rate of \$4.50 per diem) | 1,404 00 |
| 1 Janitor | 18,330 00 |

The Board of Trustees finds that the method employed in the Department of Education for the cleaning of the school buildings is to pay the Janitor a salary sufficient to enable him to pay all Cleaners, etc., and the Board is informed that this is a cheaper and more satisfactory method than employing such cleaning staff direct.

The Board is not prepared at this time to state what positions it desires to have placed in the exempt class.

On September 25, 1906, the following supplemental letter was sent to the Commission, viz:

FRANK A. SPENCER, Esq., Secretary, Commission on Salaries and Grades, Board of Estimate and Apportionment:

DEAR SIR—Supplementing the letter of the Board of Trustees of the College of The City of New York, dated August 27, 1906, addressed to you, we desire to state that at the present time the College is without a suitable person in its employ who can devote his entire time and attention to the responsible and often difficult details of the business care and maintenance of the large and costly buildings erected for the use of the College at Amsterdam avenue and One Hundred and Thirty-eighth to One Hundred and Fortieth streets. It has been deemed advisable by the Board of Trustees, in order to insure and intelligent and economical administration of the buildings, to appoint a responsible person to this proposed important position, who, from experience, would be able to superintend in an economical and efficient manner the execution of the policy for such administration prescribed by the Board of Trustees.

The duties of this new position would be various and important. The incumbent would check disbursements of the funds for maintenance of the buildings, and it would be his duty to see that they were properly expended for the different purposes for which appropriated in the care and maintenance of the buildings, the purchase of supplies, etc., and he would also be called upon to perform other important duties of administrative character.

The Board has decided that the title "Curator and Auditor" would be adequately descriptive of the duties to be performed, and would be a suitable and proper one to employ to designate this new position. It is most important for the reasons already given that this position should be created as soon as possible, and it is therefore requested that the Commission include it in the schedule of new positions recommended to be created in the preliminary report submitted to the Board of Estimate and Apportionment for its consideration and adoption.

* Positions already created.

In view of the urgent necessity for the appointment of a Curator and Auditor, the Chairman and Secretary of the Board of Trustees deem it advisable to bring this request to the attention of the Board of Estimate and Apportionment without further delay.

Yours respectfully,

EDWARD M. SHEPARD,
Chairman, Board of Trustees, College of The City
of New York.

JAS. W. HYDE,
Secretary, Board of Trustees, College of The City
of New York.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
October 25, 1906 }

Hon. HERMAN A. METZ, Comptroller:

SIR—In the matter of the communication from the Board of Trustees of the College of The City of New York requesting the fixing of the salaries of certain new positions which it is proposed to establish in said institution, which communication was referred to a select committee consisting of the Comptroller and the President of the Board of Aldermen, and by you referred to the Bureau of Municipal Investigation and Statistics. I beg to report as follows:

In order to operate the new City College plant, with its five large modern buildings and extensive grounds, extending from One Hundred and Thirty-sixth street to One Hundred and Fortieth street, between Amsterdam avenue and St. Nicholas terrace, it will be necessary to employ a considerable number of officers, clerks, engineers, janitor's helpers and other employees in addition to the present staff.

At a meeting of the Board of Estimate and Apportionment held October 12, 1906j, a communication was presented from the Board of Trustees of the College of The City of New York, requesting the fixing of salaries for the following positions:

| | |
|---|------------|
| Curator, one incumbent..... | \$4,750 00 |
| Assistant Curator, one incumbent..... | 2,500 00 |
| Elevator Boy, two incumbents..... | 480 00 |
| Mechanician, two incumbents..... | 1,200 00 |
| Photographer, one incumbent..... | 1,000 00 |
| Assistant Librarian, one incumbent..... | 1,200 00 |
| Cataloguer, one incumbent..... | 1,200 00 |
| Helper (in stack room), one incumbent..... | 480 00 |
| Assistant Engineer (dynamo), one incumbent..... | 1,800 00 |
| Assistant Engineer, two incumbents..... | 1,400 00 |
| Oiler, six incumbents..... | 720 00 |
| Fireman, five incumbents..... | 720 00 |
| Coal Passer, four incumbents..... | 720 00 |
| Electrician, one incumbent..... | 1,800 00 |
| Switchboard Tender, one incumbent..... | 720 00 |
| Plumber (compensation estimated at prevailing rate, \$4.75 per day), one incumbent..... | 1,482 00 |
| Carpenter (compensation estimated at prevailing rate, \$4.50 per day), one incumbent..... | 1,404 00 |
| Janitor, one incumbent..... | 18,330 00 |

As to Civil Service requirements concerning the above list of employees, the Board of Trustees states that it is not prepared at this time to say what positions it desires to have placed in the exempt class.

I am informed by the Secretary of the Board of Trustees that the position of Fireman has already been created, and that said item should, therefore, be eliminated from the above list.

Investigation shows that the Board of Trustees has given the matter of operating the new City College plant, with all its complicated appliances, including the most modern heating, ventilating and electrical apparatus, together with telephone and elevator service, long and careful consideration, and that the communication submitted to the Board of Estimate and Apportionment on October 12, 1906, concerning additional employees was the final outcome of the best expert opinion which said Board could secure. Early in January of the present year a special committee was appointed consisting of Parker D. Hanly and James W. Hyde, of the Board of Trustees, and Dr. John H. Finley, President of the College, which committee was requested to prepare a plan for the general organization of the supervision and care of the new buildings and grounds. Said committee secured the co-operation of the Supervisor of Janitors of the Board of Education of The City of New York, the director of buildings of Columbia University and the curator of buildings of Princeton University, and together they worked out the plan now under consideration.

It would appear that all of the above mentioned corps of additional employees will be necessary for the efficient operation and proper care of the City College plant as soon as it is completed, and that the necessity for the appointment of a curator is especially urgent, because a part of the new plant is already in use by the college authorities for school purposes.

It was first proposed that the duties of the Curator of the College should be confined to the superintending of buildings and grounds, his position being similar to that of the director of buildings at Columbia University and the curator of buildings at Princeton University. He was to have general supervision of all employees, exclusive of the teaching force, including engineers, janitors, clerks and all other persons necessary for the proper care and maintenance of the buildings and grounds. In addition to these duties it has since been deemed advisable by the Board of Trustees to have the Curator check all disbursements for the maintenance of the buildings, including the purchase of supplies, and also to perform various other important duties of an administrative character. Said Board has, therefore, requested in a supplemental letter that the title of the first position in the above list be changed to that of "Curator and Auditor." Your Examiner would recommend that the title be that requested by the Trustees.

As to the salaries set opposite the several positions mentioned in the above list, as the result of a consultation by your Examiner with the Secretary of the Commission on Salaries and Grades, appointed by the Board of Estimate and Apportionment, and an investigation of the salaries paid in corresponding positions in the various departments of the City and in other collegiate institutions, it is recommended that with the exception of the item for janitorial service, hereinafter considered, the salaries proposed by the Board of Trustees of the City College be approved.

As will appear from the above, it is proposed to employ a Janitor-in-Chief for the new City College plant at a salary of \$18,330, out of which sum said Janitor is to pay for the services of the staff of workmen which he employs to keep the buildings and grounds in proper condition. After thorough examination of both the direct and indirect system of employment which now obtain in the Department of Education of The City of New York, the Board of Trustees of the College of The City of New York concluded to adopt the so-called indirect system, wherein the chief Janitor hires his help, in providing janitor service for its new plant, the conclusion having been reached that said system is the cheapest as well as the most satisfactory.

The compensation which it is proposed to pay the Janitor-in-Chief of the City College, namely, \$18,330, was computed according to the indirect system employed by the Board of Education, which system, in so far as it relates to sweeping and cleaning, is as follows:

"Janitors' salaries shall be computed from building measurement, sidewalk areas and use of heating apparatus, as follows:

"First, the areas in square feet covered by the building or buildings under the charge of each janitor shall be multiplied by the number of stories, excluding cellars, and from the product shall be deducted the area of janitors' rooms.

"This measurement shall be multiplied by the following rates: On each thousand and quarter thousand square feet, the rate shall be \$50. When the measurement is 10,000 square feet or over the rate shall be obtained by deducting from \$47 ten cents for each quarter thousand square feet in excess of 10,000, but it shall in no case be less than \$37.

"Second, all paved, flagged or planked sidewalks and yards connected with the buildings shall also be measured in square feet, and on the same shall be calculated an amount at one-half the above-mentioned rates."

It is to be noted in considering the above system that the rate per thousand feet decreases as the area of the buildings to be cared for increases until a minimum of \$37 per thousand square feet is reached. It now appears that the Board of Education has no single plant which approximates the City College plant in extent of area, the latter having 471,776 square feet in buildings and 104,010 square feet of sidewalk, and that for this reason even the minimum rate of the Board of Education is too large to be used as the basis for computing the salary which should be paid to the Janitor-in-Chief of the City College.

I would, therefore, recommend that the question of the salary for the Janitor-in-Chief of the College of The City of New York be referred back to the Board of Trustees of said college for further consideration, and that the salaries of the remainder of the list as submitted, excluding the position of Fireman, which has already been created, be fixed as requested, according to the resolution attached hereto.

Yours respectfully,

CHARLES S. HERVEY,
Supervising Statistician and Examiner.

Upon motion said request was granted.

JAMAICA BAY IMPROVEMENT COMMISSION,
No. 215 MONTAGUE STREET, ROOM 913,
BROOKLYN, NEW YORK CITY, October 25, 1906.

To the Honorable Board of Estimate and Apportionment, City of New York:

GENTLEMEN—In pursuance of a resolution of the Sinking Fund Commission, dated December 13, 1905, approved by the Board of Estimate on March 2, 1906, and concurred in and approved by the Board of Aldermen on April 10, 1906, His Honor, the Mayor, on April 26 of this year, appointed the undersigned a commission to report as follows:

First—Upon the general improvement and development of Jamaica Bay, together with plans for the physical improvement and cost of same.

Second—Upon the general condition of the water front of the boroughs of The Bronx, Brooklyn, Queens and Richmond, etc.

In the Mayor's letter of appointment the Commissioners were asked to report before December 31, 1906. The Board of Aldermen had requested that the report be made by December 1, and the Comptroller's office regards this date as binding. As it is now but five or six weeks until the date mentioned, the Commissioners desire to state the condition of the work at the present time and to request that they be allowed an additional six months in which to file their report.

The Commissioners have collected and compiled a large amount of valuable data from the United States Coast and Geodetic Survey, from the Department of Docks and Ferries and from the Topographical Bureaus of the Boroughs of Brooklyn and Queens, concerning Jamaica bay.

They have made surveys of portions of the bay where reliable data was not to be had, and they are still continuing field work, a considerable amount of which is still unfinished.

They have new maps in course of construction and well advanced, which are believed to be the most reliable and complete to date.

They have also collected valuable statistics bearing upon the subject.

But the preliminary work is by no means complete.

The reasons for requesting additional time are:

First—Because it soon became apparent that the original time allowance was inadequate for work of such importance and scope.

Second—Because it was impossible to get a sufficiently large working force for a considerable period, owing to the scarcity of engineers and the restrictions of the Municipal Civil Service rules.

Third—The Commission has only received this week from the Department of Law, rulings as to legal questions upon which depend the extent of the engineering work to be considered.

Fourth—The United States Army Engineers are now making surveys of Rockaway inlet and bar, upon which to base recommendations to Congress as to the opening of the channel into Jamaica Bay. They will scarcely be ready before January. The recommendations of this Commission as to the improvement of the interior of the bay must depend largely upon what the United States Government will do at the inlet. Jamaica Bay has a shore line, including its mainland and principal islands, of over forty miles, and an area, including its adjoining marsh lands, approximately one-fourth the size of the total area of the Boroughs of Brooklyn and Queens.

The importance and magnitude of the work to be considered are such that the Commission finds it impossible to complete a proper report within the time limit as now fixed.

Respectfully,

PHILIP P. FARLEY,
WILLIAM G. FORD,
JOHN J. McLAUGHLIN.

The President of the Borough of Richmond presented a resolution authorizing the issue of \$20,000 Special Revenue Bonds for the "Bureau of Engineering—Construction, Salaries and Supplies," which was laid over for one week.

The Board adjourned to meet at 2 o'clock p. m.

At 2 p. m. the Board met pursuant to an adjournment.

Present—George B. McClellan, Mayor; Herman A. Metz, Comptroller; Patrick F. McGowan, President Board of Aldermen; John F. Ahearn, President Borough of Manhattan; Bird S. Coler, President Borough of Brooklyn; Louis F. Haffen, President Borough of The Bronx; George Cromwell, President Borough of Richmond.

The Mayor, Hon. George B. McClellan, presided.

On motion of the President of the Borough of The Bronx, the Board resolved itself into a Committee of the Whole for the consideration of franchise matters, pursuant to a resolution adopted May 18, 1906, with the President of the Board of Aldermen in the chair.

The Board proceeded to the consideration of the petition of the Nassau Electric Railway Company for a franchise or right to construct, maintain, etc., a double track street surface railroad upon and along Livingston street, from Court street to Flatbush avenue, etc.

Col. T. S. Williams, vice-president of the company, appeared on behalf of the railroad company.

The matter of the petition of the New York Central and Hudson River Railroad Company and the New York and Harlem Railroad Company for a franchise for the construction of ducts or subways through certain streets and avenues in the Borough of The Bronx, etc., was then considered.

Mr. Harris, counsel for said railroad companies, appeared on behalf of the petitioners.

The Committee then arose, and the President of the Borough of Manhattan reported to the Chair that the Committee had considered the several matters referred to it, but had reached no conclusion thereon, and in accordance with the motion adopted at the meeting held October 19, 1906, the Board adjourned to meet on Tuesday, October 30, 1906, at 10.30 o'clock a. m.

DEPARTMENT OF FINANCE.

Department of Finance, Bureau for the Collection of Assessments
and Arrears of Taxes, Assessments and Water Rents,
No. 280 Broadway,
New York, October 29, 1906.

NOTICE OF EXPIRATION OF TIME TO REDEEM LANDS AND TENEMENTS IN THE BOROUGH OF MANHATTAN SOLD FOR CERTAIN UNPAID TAXES AND WATER RENTS.

Under direction of Herman A. Metz, Comptroller of The City of New York, notice is hereby given to the owners, lessees, occupants and all persons otherwise interested in the lands and tenements hereinafter particularly described as sold, and to the mortgagees of the real estate so sold, their assignees or personal representatives, that the lands and tenements, described in the following list, within that part of The City of New York known as the Borough of Manhattan, were sold at public auction by the Collector of Assessments and Arrears of said City on the 14th, 21st and 28th days of June, 1905, on the 20th and 25th days of September, 1905, and on the 23d day of October, 1905, for the respective terms of years stated in the following list, in default of payment of taxes of any or all of the years 1886 to 1901, and water rents of any or all of the years 1885 to 1900, due on the said property.

And notice is hereby further given that unless the lands and tenements so sold be redeemed by the persons claiming title to the same or interest therein, or by some other person or persons, on or before the expiration of two years from the dates of sale of the said lands and tenements, respectively, which will be on the 14th, 21st and 28th days of June, 1907, on the 20th and 25th days of September, 1907, and on the 23d day of October, 1907, as the said lands and tenements are specifically enumerated in this advertisement under the respective dates of sale, by paying to the Collector of Assessments and Arrears of said City for the use of the purchasers of said lands and tenements so sold, their heirs, executors, administrators or assigns, the sums of money for which the same were sold, together with interest thereon at the rate of fourteen per centum per annum, from the respective dates of sale and the expenses allowed by law, the said lands and tenements will be conveyed to the respective purchasers, their heirs, executors, administrators or assigns, by leases executed by the said Comptroller, in the name of The City of New York, under the common seal of the City, for such term of years as the same were sold, viz., for the respective terms of years stated in the following list.

EDWARD A. SLATTERY,

Sanitary Bureau.

The following communications were received from the Sanitary Superintendent:

First—Weekly reports of the Sanitary Superintendent. Ordered on file.

Second—Weekly reports from the Willard Parker, Reception, Riverside and King-ton Avenue Hospitals. Ordered on file.

Third—Certificates in respect to the vacation of premises at Nos. 418 to 422 Broadway, and No. 277 Canal street, No. 79 White street, No. 51 East Ninth street, Nos. 320 and 322 West Thirty-fourth street, Nos. 310 to 320 East Seventy-fifth street, Borough of Manhattan.

On motion, the following preamble and resolutions were adopted:

Whereas, The Sanitary Superintendent has certified to this Board that the buildings situated upon lots Nos. 418 to 422 Broadway, and No. 277 Canal street, in the Borough of Manhattan, be required to vacate said buildings on or before September 18, 1906, for the reason that said buildings are dangerous to life and are unfit for human habitation because of the existence of a nuisance on the premises which is likely to cause sickness among its occupants,

Ordered, That all persons in said buildings situated upon lots Nos. 418 to 422 Broadway and No. 277 Canal street, in the Borough of Manhattan, be required to vacate said buildings on or before September 18, 1906, for the reason that said buildings are dangerous to life and are unfit for human habitation because of the existence of a nuisance on the premises likely to cause sickness among its occupants.

And further, that this order be affixed conspicuously on the front of and in said buildings and be served as the law requires, under the direction of the Sanitary Superintendent.

Report of the continued absence from duty, without leave, of Edward Smith, a Driver, assigned to duty in the Borough of Manhattan, was received, and, on recommendation of the Sanitary Superintendent, it was

Resolved, That the absence from duty, without leave, of Edward Smith, a Driver in the employ of this Department, assigned to duty in the Borough of Manhattan, for a period exceeding five days, be and is hereby construed as a resignation, as provided by clause 2 of Civil Service Rule 13, the same to take effect August 31, 1906.

Upon recommendation of the President, it was

Resolved, That, owing to the neglect of duties imposed upon him by law, Gerald Sheil, M. D., an Assistant Sanitary Superintendent in the employ of this Department, assigned to duty in the Borough of The Bronx, be and is hereby dismissed from the service of the Department of Health from this date.

Upon recommendation of the President it was

Resolved, That Charles F. Spencer, M. D., a Medical Inspector in the employ of this Department, assigned to duty in the Borough of The Bronx, be and is hereby detailed as Assistant Sanitary Superintendent and assigned to duty in the Borough of The Bronx, the same to take effect September 13, 1906.

Upon recommendation of the President the Secretary was directed to notify Edward Berrian, a Hospital Clerk, and Marion E. Berrian, a Helper, assigned to duty at the Sanatorium for the Treatment of Persons Living in The City of New York Affected with Tuberculosis, located at Otisville, in the Town of Mt. Hope, Orange County, New York, that their services will be dispensed with on and after September 16, 1906.

On recommendation of the President it was

Resolved, That William Cohen, an Apothecary in the employ of this Department, assigned to duty in the Drug Laboratory, Borough of Manhattan, having served as such for a period of six months, be and is hereby promoted to the second grade, with salary at the rate of \$1,200 per annum, in accordance with the Rules and Classification of the Municipal Civil Service Commission, to take effect September 1, 1906.

On motion, it was

Resolved, That the following named persons be and are hereby appointed Nurses in this Department, with salary at the rate of \$900 per annum, pursuant to the Rules and Classification of the Municipal Civil Service Commission, to take effect September 10, 1906:

Lillian Maynard, Eighty-eighth street and Narrows avenue, Borough of Brooklyn.
Elizabeth M. E. Wall, Thirteenth avenue and Eightieth street, Borough of Brooklyn.
Joanna Shea, No. 50 West One Hundred and Thirty-sixth street, Borough of Manhattan.

Violet Parbury, No. 221 Tompkins avenue, Borough of Brooklyn.
Margaret A. Carter, No. 35 West Eighty-second street, Borough of Manhattan.
Eleanor L. Rymal, No. 120 West Eighty-second street, Borough of Manhattan.
Mary Alice Shaw, No. 221 Tompkins avenue, Borough of Brooklyn.
Blanche E. Alcan, No. 1239 Franklin avenue, Borough of The Bronx.

On motion, it was

Resolved, That Sanford G. Plumb, of No. 547 South Seventh avenue, Mt. Vernon, New York, be and is hereby appointed a Disinfecter in this Department, and assigned to duty in the division of contagious diseases, Borough of Brooklyn, with salary at the rate of \$750 per annum, pursuant to the Rules and Classification of the Municipal Civil Service Commission, to take effect September 12, 1906.

On motion, it was

Resolved, That Nora A. Connell, of No. 211 Congress street, Borough of Brooklyn, be and is hereby appointed a Stenographer and Typewriter in this Department, and assigned to duty in the Division of Inspections, Borough of Manhattan, with salary at the rate of \$600 per annum, pursuant to the Rules and Classification of the Municipal Civil Service Commission, to take effect September 13, 1906.

On motion, the Board adjourned.

EUGENE W. SCHEFFER, Secretary.

BOARD OF ELECTIONS.

Meeting of the Board of Elections held Thursday, October 4, 1906, at 2 o'clock p. m. Present—Commissioners Voorhis, Page, Maguire and Dady.

The reading of the minutes of the meeting of the Board held on the 2d inst. was dispensed with.

The following communications were received and disposed of as stated, viz.:

From W. A. Willis, Executive Secretary, office of the Mayor, dated the 4th inst., calling attention to a resolution of the Board of Aldermen, approved by the Mayor, in regard to granting a leave of absence to all employees who are veterans of the Spanish War and delegates to the National Encampment of the United Spanish War Veterans for the purpose of attending such encampment, and stating that the Mayor suggests that a leave of absence from October 8 to 10, inclusive, be granted to such persons, if practicable. Filed, and ordered to be complied with as far as practicable.

From P. J. Scully, City Clerk, transmitting copy of preamble and resolution adopted by the Board of Aldermen on the 19th ult., and approved by the Mayor on the 1st inst., in regard to granting a leave of absence to all employees who are veterans of the Spanish War and delegates to the National Encampment of the United Spanish War Veterans for the purpose of attending such encampment. Filed.

From John F. Cowan, Wallace S. Fraser, John McKee and Wm. J. Ellis, dated the 1st inst., requesting and demanding that a certificate be issued by the Board setting forth that the ticket voted for at the primary election held in the Thirtieth Assembly District, New York County, on the 18th ult., headed by the names of John F. Cowan and Wallace S. Fraser, received the highest number of votes at said primary election and are entitled to be placed upon the roll of delegates to the Twenty-first Senate and Thirtieth Assembly District Democratic-Republican Conventions of the Democratic Party in the County of New York. Ordered on file and request denied for the reasons stated in communication from the Board to the Secretary of the New York County Democratic General Committee under date of the 31st ult.

From Athelstan Vaughan, dated the 2d inst., certifying that at a meeting of the Democratic General Committee of Queens County, held on October 2, 1906, for the purpose of perfecting its organization, the following officers were elected, viz.: Joseph Bermei, of Middle Village, chairman; Athelstan Vaughan, of Long Island City, secretary, and Matthew J. Goldner, of Long Island City, treasurer. Filed.

From Clarence J. Shearn, counsel for the Star Company, New York Evening Journal Publishing Company, and Morning Journal Association, dated the 2d inst., demanding that "the designation of the places for registry and voting at the ensuing election, as provided in section 10 of the Election Law," be published in the New York "American," which is published by the aforesaid Star Company, the New York Evening "Journal," which is published by the aforesaid New York Evening Journal Publishing Company, and "Das Morgen Journal," which is published by the aforesaid New York Evening Journal Publishing Company, on the ground that said newspapers are three of "only four daily newspapers published in the Borough of Manhattan which advocate the principles of the political party polling the next highest number of votes in the State at the last preceding election for Governor." Filed.

From C. J. Shearn, Secretary, Star Company, Publisher of New York "American," Morning Journal Association, publisher of Das "Morgen Journal," and the New York Evening Journal Publishing Company, publisher of New York Evening "Journal," submitting terms for publishing in said newspapers the location of the polling places in

the Borough of Manhattan for the days of registration and general election, with the boundaries of the election districts in said borough. Filed.

From Gustave Kahl, No. 2349 Third avenue, dated the 2d inst., filing claim for \$20 for damages alleged to have been done to property in the aforesaid premises during the conduct of the primary election therein on the 18th ult. Referred to the Chief Clerk of the Manhattan borough office for investigation and report.

Whereas, Objections have been made to the Board of Elections, that certain premises heretofore designated by it as polling places for the ensuing election are either insufficient in size, unsanitary in condition, changed in proprietorship or use; therefore be it

Resolved, That the designation of the following polling places specified and described in the resolution adopted by the Board of Elections, September 4, 1906, be and hereby is reconsidered and annulled, to wit:

From the Chairmen of the Executive Committees of the New York and Kings County Democratic and Republican Committees, requesting the removal of certain election officers therein named, and duly authenticating and filing the names of persons to fill the vacancies created by such removals. On motion, the said communications were ordered on file, the Secretary directed to transmit the names, etc., of the persons proposed for appointment to the Chief Clerk of the proper borough offices for notification of examination, etc., and the following preamble and resolution adopted, viz.:

Whereas, Written requests for the removal of certain election officers heretofore appointed in the Counties of New York and Kings have been filed with the Board of Elections by the Chairmen of the Executive Committees of the New York and Kings County Republican and Democratic Committees, pursuant to section 12, chapter 909, Laws of 1896 as amended; therefore be it

Resolved, That the persons heretofore appointed and qualified as Inspectors of Elections, Poll Clerks or Ballot Clerks in the election and assembly districts specified, be and are each and severally removed and dismissed as such election officers:

Additional original lists of persons proposed for appointment for the term commencing September 1, 1906, as election officers were received from the Chief Clerk of the Manhattan borough office and the following resolution adopted, viz.:

Supplemental lists of persons proposed for appointment as election officers for the term commencing September 1, 1906, were received from the Chief Clerk of the Manhattan borough office, and duly appointed:

The President announced that proposals for publishing the notices, as required by law, for the ensuing general election to be held on November 6, 1906, in the several boroughs of The City of New York, had been submitted by the newspapers to which invitations were extended. The Secretary having read the aforesaid proposals, Commissioner Voorhis moved the adoption of the following resolution:

Resolved, That public notice be given by publication as required by chapter 909 of the Laws of 1896 as amended, of the boundaries of each of the election districts in the several boroughs of The City of New York, and of the designation of the places of registration (on October 8, 9, 13 and 15), and of the polling places for the election to be held November 6, 1906, in each of the election districts in the said boroughs, said notices to be published in the boroughs as specified in the following newspapers, at a rate or price not exceeding that stated in the proposals submitted to the Board from the papers named, and also that the same be published for the districts comprised in The City of New York, as required by law, in the CITY RECORD for the days to wit, October 6, 8, 9, 12, 13, 15, and November 5.

The President then put the question on the adoption of the resolution as amended as aforesaid.

Carried—Commissioners Maguire, Page and Dady voting "aye," Commissioner Voorhis, "nay."

The Board then adjourned.

CHARLES B. PAGE, Secretary.

BOARD OF ELECTIONS.

Meeting of the Board of Elections, held Monday, October 8, 1906, at 3 o'clock p. m. Present—Commissioners Voorhis, Page, Maguire and Dady.

The reading of the minutes of the meeting of the Board held on the 4th inst. was dispensed with.

The President announced that the Board had convened for the purpose of complying with the peremptory writ of mandamus issued by Mr. Justice Greenbaum, Supreme Court, New York County, on the 6th inst., directing that the Board immediately after the receipt of said writ "convene for the purpose of designating four daily newspapers published in the Borough of Manhattan, in The City of New York, in which are to be printed the general election notices in The City of New York, Borough of Manhattan, which said newspapers advocate the election of William Randolph Hearst as the candidate of the Democratic party for Governor."

On motion, duly seconded, the following resolution was unanimously adopted, viz.:

Resolved, That the resolution adopted by the Board of Elections on the 4th inst., designating eight certain newspapers published in the Borough of Manhattan, for the publication of the list of polling places for the ensuing registration and general election, and the boundaries of the election districts in the County of New York, be and is hereby reconsidered and rescinded in all respects, in so far as the said resolution relates to and designates as such papers the New York "World," the New York "Sun," New York "Times" and the New York "Staats-Zeitung," and that any authority for the publication of the said election notices that may be contained in the letter of the President to the publishers thereof, dated October 4, 1906, be and is hereby revoked and annulled.

Commissioner Voorhis moved the adoption of the following resolution, viz.:

Resolved, Pursuant to the command of the Supreme Court, and the provisions of section 10, chapter 909, Laws of 1896, as amended, that public notice be given by publication in the newspapers below named, published in the Borough of Manhattan, the boundaries of the election districts and a list of the polling places for the ensuing election in the County of New York, said notices to be published on October 9, 12, 13, 14 and 15 and November 5 and 6, respectively, at a rate not exceeding that stated in the proposals for publication recently submitted to the Board from said newspapers, viz.:

| | |
|---|-----------|
| New York Daily "News," per 1,000 ems, agate type..... | \$13 40 |
| New York "American," per 1,000 ems, agate type..... | 16 66 2/3 |
| The "Telegraph," per 1,000 ems, agate type..... | 13 20 |
| The "Morgen Journal," per 1,000 ems, agate type..... | 8 33 1/3 |

Commissioner Maguire moved that the Board take a recess for one-half hour.

Carried. Commissioners Maguire, Page and Dady voting "Aye" and Commissioner Voorhis "Nay."

The Board reconvened at the expiration of the recess.

Commissioner Maguire moved as an amendment of the said resolution that the Evening "Journal" be substituted in the place of the Daily "News."

Mr. John D. Bogart, who represented himself to be the advertising manager of the New York Evening "Journal," here presented for the consideration of the Board two communications, signed "S. S. Carvalho, Publisher, by John D. Bogart, Advertising Manager," withdrawing the proposal of said newspaper to publish the election notices in question, for the reason that two of the days on which said notices must be published pursuant to the statute fall on Sunday and it will be impossible for the Evening "Journal" to publish an edition on said day.

Commissioner Maguire thereupon withdrew his motion to amend and the resolution as originally introduced by Commissioner Voorhis was unanimously adopted.

The following communications were received and disposed of as stated, viz.:

From John L. O'Brien, Acting Corporation Counsel, two communications, dated the 5th inst., returning, approved as to form, form of proposal for bid or estimate, bond, contract and specifications for furnishing official and sample ballots for the general election to be held November 6, 1906, and three copies of printed contract, together with advertisement for CITY RECORD. Filed.

From the Morning Telegraph Publishing Company, dated the 5th inst., submitting terms for publishing the list of polling places and boundaries of election districts in the Morning "Telegraph." Filed.

From A. B. Voorhis, dated the 8th inst., requesting to be advised in relation to his right to vote at the ensuing general election. Referred to the Secretary for answer.

From the Chief Clerk of the Board and the Chief Clerks of The Bronx, Brooklyn, Queens and Richmond borough offices, dated the 6th inst., and the Chief Clerk of the Manhattan borough office, dated the 8th inst., reporting in relation to the attendance of the clerical force in their respective offices during the preceding week. Filed.

From the Chief Clerk of the Board and the Chief Clerks of The Bronx and Queens borough offices, dated the 6th inst., reporting in relation to supplies received from the Martin B. Brown Company. Referred to the Chief Clerk of the Board for verification as to quantities called for by contract or special order.

The following paper was received and ordered on file, viz.: A certificate, verified by Morris Hillquit, as Chairman, and Miles Bartholomew, as Secretary, of a State Convention of the Socialist party, held on June 2, 1906, to the effect that a resolution was adopted at said convention concurring in and approving the action of the State Committee of said party in changing the name of said party from "Social Democratic Party" to the "Socialist Party."

An affidavit, verified by Henry N. Cary, as the business manager of the Morning Telegraph Publishing Company, stating that the Morning "Telegraph" has advocated the election of William Randolph Hearst as Governor since his nomination by the Democratic party and has in all other respects advocated the principles of the said party, and that the Evening "World," the Evening "Sun," the New York "Times" and the "Staats-Zeitung" have not since the Democratic State Convention and do not now

advocate the election of Mr. Hearst, but, on the contrary, advocate the election of Charles E. Hughes. Filed.

From the Chairmen of the Executive Committees of the New York and Kings County Democratic and Republican Committees and the Queens County Democratic Committee, requesting the removal of certain election officers therein named, and duly authenticating and filing the names of persons to fill the vacancies created by such removals. On motion, the said communications were ordered on file, the Secretary directed to transmit the names, etc., of the persons proposed for appointment to the Chief Clerks of the proper borough offices for notification of examination and the following preamble and resolution adopted, viz.:

Whereas, Written requests for the removal of certain election officers heretofore appointed in the Counties of New York, Kings and Queens have been filed with the Board of Elections by the Chairmen of the Executive Committees of the New York and Kings County Democratic and Republican Committees and the Queens County Democratic Committee, pursuant to section 12, chapter 909, Laws of 1896, as amended; therefore be it

Resolved, That the persons heretofore appointed and qualified as Inspectors of Elections, Poll Clerks or Ballot Clerks in the election and assembly districts specified be and are each and severally removed and dismissed as such election officers.

Additional original lists of persons proposed for appointment as election officers for the term ending August 31, 1906, were received from the Chief Clerks of the various borough offices of the Board, and the necessary resolution of appointment adopted.

Supplemental lists of persons proposed for appointment as election officers to fill existing vacancies for the term ending August 31, 1907, were received from the Chief Clerks of the various borough offices of the Board, and the necessary resolution of appointment adopted.

The following papers were received and disposed of as stated, viz.:

Copy of petition and order to show cause in a proceeding brought by Thomas C. Quinn in the Supreme Court, New York County, to review the action of the Board of Elections in designating certain newspapers which do not advocate the election of William Randolph Hearst for Governor as newspapers "published in the Borough of Manhattan which advocate the principles of the political party polling the next (second) highest number of votes for Governor" at the last preceding election for Governor, to publish the boundaries of election districts and list of polling places for the ensuing general election. Referred to the Corporation Counsel for such action on behalf of the Board as he may deem necessary or proper.

Copy of petition, affidavits and order to show cause in a proceeding brought by Wallace S. Fraser for an order directing the Board of Elections to issue a certificate setting forth that the ticket voted for at the primary election of the Democratic Party held on September 18, 1906, in the Thirtieth Assembly District, New York County, headed by the name of said Fraser and John F. Cowan, received the highest number of votes at said primary election and are entitled to be placed upon the roll of delegates to the Twenty-first Senate and Thirtieth Assembly Democratic-Republican Conventions, New York County. Referred to the Corporation Counsel for such action on behalf of the Board as he may deem necessary or proper.

The Board then adjourned.

CHARLES B. PAGE, Secretary.

BOARD OF ESTIMATE AND APPORTIONMENT.

CITY OF NEW YORK—BOARD OF ESTIMATE AND APPORTIONMENT.

PUBLIC NOTICE IS HEREBY GIVEN that at a meeting of the Board of Estimate and Apportionment, held October 26, 1906, the following petition was received:

To the Honorable Board of Estimate and Apportionment of The City of New York:

The petition of The Nassau Electric Railroad Company respectfully shows:

1. Your petitioner is a street surface railroad corporation duly organized and existing under the Laws of the State of New York, and has duly made and filed, pursuant to section 90 of the Railroad Law, a statement of the names and description of the streets, roads, avenues, highways and private property in or upon which it is proposed to construct, maintain and operate extensions or branches of its railroad as herein set forth.

2. Your petitioner desires to obtain from The City of New York and hereby respectfully applies for its consent to a grant of the franchise or right to use certain streets, roads, avenues, highways or public grounds within or belonging to The City of New York for the construction and operation in and upon the surface thereof of extensions or branches of its street surface railroad to consist of a double or single track surface railroad (including necessary connections, switches, sidings, turnouts, crossovers and suitable stands or other structures necessary for the accommodation and operation of said railroad by the overhead or other system of electricity or other motive power which may be lawfully used upon the same), for public use and conveyance of persons and property for compensation.

3. The following is a description of the said certain streets, roads, avenues, highways, drive-ways or public ground within or belonging to The City of New York, in, through, upon and along which your petitioner desires to extend its railroad, to wit:

Route A.

Beginning at the intersection of Atlantic avenue and Alabama avenue and extending thence southerly on Alabama avenue to Livonia avenue; and on Livonia avenue, from Vesta avenue to New Lots road. From the intersection of Livonia avenue with New Lots road, it is proposed to construct a double track street surface railroad on New Lots road, from Livonia avenue to Berriman street; on Berriman street, from New Lots road to Sutter avenue, and on Sutter avenue easterly to the old Brooklyn City line, at or near Forbell avenue, under and pursuant to franchise granted by the City of Brooklyn to your petitioner by resolution of the Common Council adopted June 19, 1893.

Route B.

Beginning at the intersection of Liberty avenue and Forbell avenue, in the Borough of Brooklyn, and thence extending southerly on Forbell avenue to Spring creek.

Route C.

Beginning at the intersection of Thirty-ninth street and Eighth avenue, in the Borough of Brooklyn, and thence extending southwesterly on Eighth avenue to Seventh avenue; thence southerly on Seventh avenue to Seventy-ninth street, and thence southeasterly on Seventy-ninth street to Stillwell avenue, connecting at Stillwell avenue with tracks to be constructed thereon by the Coney Island and Gravesend Railway Company, under franchise granted to the said Coney Island and Gravesend Railway Company by the Commissioners of Highways of the Town of Gravesend on August 29, 1893, and by the Town Board of the Town of Gravesend on August 31, 1893.

Route D.

Beginning at the intersection of Thirteenth avenue with Thirty-ninth street, in the Borough of Brooklyn, and extending thence southwesterly on Thirteenth avenue to Bay Ridge avenue.

Your petitioner respectfully represents that additional transportation facilities are greatly needed in those sections of the City and upon the streets and avenues hereinabove described, and this application is made at the request of large numbers of persons residing in those localities. The said routes are extensions of existing routes of transportation and their construction and operation as a part of the railroad system of your petitioner will enable residents of the localities to reach nearly all parts of the Borough of Brooklyn for a single fare of five cents.

Your petitioner has received and caused to be recorded as required by law the consents of abutting property owners owning more than half in assessed value of all the property abutting on said Alabama avenue, between Atlantic avenue and Livonia avenue; on Livonia avenue, between Vesta avenue and New Lots road, and on Eighth and Seventh avenues, between Thirty-ninth and Seventy-ninth streets (exclusive of property on said avenues owned by The City of New York), and upon the other streets and avenues mentioned, your petitioner has received consents of large numbers of property owners and assurances of consents more than sufficient to comply with all legal requirements.

4. Your petitioner proposes to operate the railroad to be constructed upon said streets and ave-

nues by the overhead trolley system or by any other motive power other than steam locomotive power which may be approved by the State Board of Railroad Commissioners and consented to by the owners of property bounded upon said routes as provided by law.

Wherefore your petitioner prays that public notice herein of the time and place when and where this application will be first considered be given, as required by the provisions of section 92 of the Railroad Law and of all other laws applicable thereto, and that the desired consent or grant be embodied in the form of a contract with all the terms and conditions as to compensation and otherwise in accordance with the provisions of the Greater New York Charter and the Laws of the State.

Dated at the Borough of Brooklyn, City of New York, October 11, 1906.

THE NASSAU ELECTRIC RAILROAD COMPANY.

By E. W. WINTER, President.

[SEAL]

Attest:

C. D. MENEELY, Secretary.

City and State of New York, County of Kings, ss.: Edwin W. Winter, being duly sworn, deposes and says that he is the president of the Nassau Electric Railroad Company, the petitioner named in the foregoing petition; that he has read the foregoing petition and knows the contents thereof; that the same is true of his own knowledge except as to the matters therein stated to be alleged upon information and belief, and that as to those matters he believes it to be true; that the reason why this verification is not made by the petitioner is that it is a corporation; that the deponent is an officer of the said corporation, to wit, its president; and that the grounds of his information in regard to the matters stated in the foregoing petition, so far as the same are not within his personal knowledge, are statements made by officers or agents of the corporation to him as president thereof.

E. W. WINTER.

Sworn to before me this 10th day of October, 1906.

D. F. URQUHART, JR.,

Notary Public, Kings County.

City and State of New York, County of Kings, ss.: On this 10th day of October, in the year one thousand nine hundred and six, before me personally came Edwin W. Winter, to me known, who, being by me duly sworn, did depose and say that he resided in The City of New York, New York; that he is president of the Nassau Electric Railroad Company, the corporation described in and which executed the foregoing instrument; that he knew the seal of said corporation; that the seal affixed to said instrument was such corporate seal; that it was so affixed by order of the Board of Directors of said corporation, and that he signed his name thereto by like order.

D. F. URQUHART, JR.,
Notary Public, Kings County.

—and the following resolutions were thereupon adopted:

Whereas, The foregoing petition from the Nassau Electric Railroad Company, dated October 11, 1906, was presented to the Board of Estimate and Apportionment at a meeting held October 26, 1906.

Resolved, That in pursuance of law this Board sets Friday, the 23d day of November, 1906, at 10.30 o'clock in the forenoon, and Room 16 in the City Hall, Borough of Manhattan, as the time and place when and where such petition shall be first considered, and a public hearing be had thereon, at which citizens shall be entitled to appear and be heard; and be it further

Resolved, That the Secretary is directed to cause such petition and these resolutions to be published for at least fourteen (14) days in two daily newspapers in The City of New York, to be designated by the Mayor, and for at least ten (10) days in the CITY RECORD immediately prior to such date of public hearing. The expense of such publication to be borne by the petitioner.

JOSEPH HAAG,
Secretary.

CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO ON CITY REAL ESTATE.

WILLIAM H. SMITH, AUCTIONEER.

PUBLIC NOTICE IS HEREBY GIVEN that the Commissioners of the Sinking Fund of The City of New York, by virtue of the powers vested in them by law, will offer for sale at public auction the buildings, parts of buildings, etc., standing upon property owned by The City of New York, acquired for street opening purposes, under the jurisdiction of the Commissioner of the Department of Parks, said buildings being situated in the Borough of Brooklyn and erected upon property described as follows:

Being the two buildings located on Bay Ridge parkway at Fifth avenue, between Sixty-sixth and Sixty-seventh streets, in the Borough of Brooklyn.

By direction of the Comptroller, the sale of the above-described buildings and appurtenances thereto will be made under the supervision of the Collector of City Revenue, Department of Finance.

The sale will take place on

FRIDAY, NOVEMBER 30, 1906

at 1 p. m., on the premises, and will be sold for the highest marketable price on the following

TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must either give a cash bond or an approved bond of a surety company in the amount of the purchase price as security for the proper performance of the work of removal, which must be completed within thirty working days thereafter.

All the buildings, structures and parts thereof, their fixtures and foundations of every class and description within the described area, are to be torn down to a level two feet below the existing curb, and structures which may exist within any of the buildings, such as engine beds, boiler settings, etc., and all stoops and area walls, shall be torn down to the same level. All partitions, sheds and fences shall be removed from the premises. All brick laid in mortar, all floor beams, joists, studdings, flooring, ceiling, roofing, boards and woodwork of every description, and all gas, water, steam and soil piping shall be removed from the premises. All combustible matter, such as tar and felt roofing, broken laths and fragments of timber, chips, splinters, etc., which are of no value, shall be gathered together by the contractor and burned or carried away. The purchaser at the sale shall also shut off and cap all water pipes, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity.

Failure to remove said buildings and appurtenances or any portion thereof, within said period, will work forfeiture of ownership of such buildings or appurtenances, or portion as shall then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the said City of New York will without notice to the purchaser cause the same to be removed and the cost and expense charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against any and from all damages and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of the said buildings by the said successful bidder.

Party walls and fences when existing against adjacent property not sold, shall not be taken down, but all furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls shall be taken down and removed. The walls shall be made permanently self-supporting without the aid of braces, the beam holes, etc., bricked up and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operation of the contractor.

The Comptroller of The City of New York reserves the right on the day of the sale to withdraw from sale any of the buildings or parts of buildings and machinery included in the foregoing parcel.

CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO ON CITY REAL ESTATE.

WILLIAM H. SMITH, Auctioneer.

PUBLIC NOTICE IS HEREBY GIVEN that the Commissioners of the Sinking Fund, by virtue of the powers vested in them by law, will offer for sale at public auction the buildings, parts of buildings, etc., standing upon property owned by The City of New York, acquired for street opening purposes, under the jurisdiction of the President of the Borough of Brooklyn, said buildings being situated in the Borough of Brooklyn and erected upon property described as follows:

All the right, title and interest of The City of New York in and to the buildings remaining within the area of the property acquired for the proposed opening and extending of Grand street, from Hooper street to Havemeyer and South Fourth streets, which are more particularly described on a map on file in the office of the Collector of City Revenue, Department of Finance, Room 141, No. 280 Broadway, Borough of Manhattan. The sale will take place on

WEDNESDAY, NOVEMBER 28, 1906

at 1 p. m., on the premises, and will be sold for the highest marketable price on the following

TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must either give a cash bond or an approved bond of a surety company in the amount of the purchase price as security for the proper performance of the work of removal, which must be completed within thirty working days thereafter.

All the buildings, structures and parts thereof, their fixtures and foundations of every class and description within the described area, are to be torn down to a level two feet below the existing curb, and structures which may exist within any of the buildings, such as engine beds, boiler settings, etc., and all stoops and area walls, shall be torn down to the same level. All partitions, sheds and fences shall be removed from the premises. All brick laid in mortar, all floor beams, joists, studdings, flooring, ceiling, roofing, boards and woodwork of every description, and all gas, water, steam and soil piping shall be removed from the premises. All combustible matter, such as tar and felt roofing, broken laths and fragments of timber, chips, splinters, etc., which are of no value, shall be gathered together by the contractor and burned or carried away. The purchaser at the sale shall also shut off and cap all water pipes, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity.

Failure to remove said buildings and appurtenances, or any portion thereof, within said

period, will work forfeiture of ownership of such buildings or appurtenances, or portion as shall then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the said City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against any and from all damages and costs to which it, they or any of them be put by reason of injury to the person or property of another resulting from negligence or carelessness in the performance of the work or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of the said buildings by the said successful bidder.

Party walls and fences when existing against adjacent property not sold shall not be taken down, but all furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls shall be taken down and removed. The walls shall be made permanently self-supporting without the aid of braces, the beam holes, etc., bricked up and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operation of the contractor.

The Comptroller of The City of New York reserves the right on the day of the sale to withdraw from sale any of the buildings or parts of buildings and machinery included in the foregoing parcel.

CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO ON CITY REAL ESTATE.

WILLIAM H. SMITH, Auctioneer.

PUBLIC NOTICE IS HEREBY GIVEN that the Commissioners of the Sinking Fund, by virtue of the powers vested in them by

law, will offer for sale at public auction the buildings, parts of buildings, etc., standing upon property owned by The City of New York, acquired for the use of the Park Department, said buildings being situated in the

Borough of Brooklyn
and erected upon property bounded and described as follows:

Beginning at a point on the northerly line of Sunnyside avenue distant 42.54 feet westerly from the westerly line of Warwick street; thence easterly along the northerly line of Sunnyside avenue 2,031.54 feet, more or less, to the westerly boundary line of the National Cemetery; thence southerly along the westerly boundary line of the National Cemetery 285 feet, more or less, to the northerly line of Jamaica avenue; thence westerly along the northerly line of Jamaica avenue 2,067 feet, more or less, to a point 400 feet easterly from the easterly line of Barbey street; thence northerly at right angles to Jamaica avenue 115 feet, more or less; thence easterly parallel with Jamaica avenue 7.21 feet, more or less, to a point in the southerly side of Sunnyside avenue distant 57.60 feet westerly from the westerly line of Warwick street; thence northerly 62 feet, more or less, to the point of beginning.

By direction of the Comptroller, the sale of the above-described buildings and appurtenances thereto will be made under the supervision of the Collector of City Revenue, Department of Finance. The sale will take place on

WEDNESDAY, NOVEMBER 28, 1906
at 11 a. m., on the premises, and will be sold for the highest marketable price on the following

TERMS AND CONDITIONS.
The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must either give a cash bond or an approved bond of a surety company in the amount of the purchase price as security for the proper performance of the work of removal, which must be completed within thirty working days thereafter.

All the buildings, structures and parts thereof, their fixtures and foundations of every class and description within the described area, are to be torn down to a level two feet below the existing curb, and structures which may exist within any of the buildings, such as engine beds, boiler settings, etc., and all stoops and area walls shall be torn down to the same level. All partitions, sheds and fences shall be removed from the premises. All brick laid in mortar, all floor beams, joists, studdings, flooring, ceiling, roofing, boards and woodwork of every description, and all gas, water, steam and soil piping shall be removed from the premises. All combustible matter, such as tar and felt roofing, broken laths and fragments of timber, chips, splinters, etc., which are of no value, shall be gathered together by the contractor and burned or carried away. The purchaser at the sale shall also shut off and cap all water pipes, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity.

Failure to remove said buildings and appurtenances, or any portion thereof, within said period, will work forfeiture of ownership of such buildings or appurtenances, or portion as shall then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the said City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against any and from all damages and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of the said buildings by the said successful bidder.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down, but all furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls shall be taken down and removed. The walls shall be made permanently self-supporting without the aid of braces, the beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operation of the contractor.

The Comptroller of The City of New York reserves the right on the day of the sale to withdraw from sale any of the buildings or parts of buildings and machinery included in the foregoing parcel.

at 11 a. m., on the premises, and will be sold for the highest marketable price at public auction on the following

TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must either give a cash bond or an approved bond of a surety company in the amount of the purchase price as security for the proper performance of the work of removal, which must be completed within thirty working days thereafter.

All the buildings, structures and parts thereof, their fixtures and foundations of every class and description within the described area, are to be torn down to a level two feet below the existing curb, and structures which may exist within any of the buildings, such as engine beds, boiler settings, etc., and all stoops and area walls shall be torn down to the same level. All partitions, sheds and fences shall be removed from the premises. All brick laid in mortar, all floor beams, joists, studdings, floorings, ceiling, roofing, boards and woodwork of every description, and all gas, water, steam and soil piping shall be removed from the premises. All combustible matter, such as tar and felt roofing, broken laths and fragments of timber, chips, splinters, etc., which are of no value, shall be gathered together by the contractor and burned or carried away. The purchaser at the sale shall also shut off and cap all water pipes, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity.

Failure to remove said buildings and appurtenances, or any portion thereof, within said period will work forfeiture of ownership of such buildings or appurtenances, or portion as shall then be left standing, and the bidder's assent and agreement to the above conditions being understood to be implied by the act of bidding, and the said City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against any and from all damages and costs to which it, they or any of them be put by reason of injury to the person or property of another resulting from negligence or carelessness in the performance of the work or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of the said buildings by the said successful bidder, and the bidder's assent and agreement to the above conditions are understood to be implied by the act of bidding.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down, but all furings, plaster, chimneys, projecting brick, etc., on the faces of such party walls shall be taken down and removed. The walls shall be made permanently self-supporting without the aid of braces, the beam holes, etc., bricked up and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted and made water-tight where they have been disturbed by the operation of the contractor.

The Comptroller of The City of New York reserves the right on the day of the sale to withdraw from sale any of the buildings or parts of buildings and machinery included in the foregoing parcel.

FIRST DEPARTMENT.

In the matter of the application of the Counsel to the Corporation for and on behalf of the Mayor, Aldermen and Commonalty of The City of New York, relative to the estimate of the loss and damage and to the assessment of the benefit and advantage resulting from the closing of the KINGSBRIDGE ROAD, between One Hundred and Thirty-seventh street and One Hundred and Forty-ninth street (except where said road has been retained or title thereto has been legally acquired for street purposes), in the Twelfth Ward of The City of New York.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our supplemental and amended estimate as to Damage Parcel No. 1 and assessments for benefit, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections, in writing, to us at our office, Nos. 90 and 92 West

Broadway, in the Borough of Manhattan, in The City of New York, on or before the 20th day of November, 1906, and that we, the said Commissioners, will thereafter reconsider our said estimates, or the part or parts thereof so objected to, and in case the same shall appear to us to require correction, but not otherwise, we shall and may correct the same accordingly.

Second—That the abstracts of our said estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the office of the Clerk of the County of New York, in the County Court House, in the Borough of Manhattan, in The City of New York, there to remain until the 26th day of November, 1906.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Manhattan, in The City of New York, which, taken together, are bounded and described as follows, viz:

On the north by West One Hundred and Fifty-fifth street, on the south by West One Hundred and Twenty-fifth street, on the east by Eighth avenue and on the west by Amsterdam avenue, excepting from said area all streets, avenues and roads or portions thereof heretofore legally opened as such area is shown upon our benefit maps deposited as aforesaid.

Fourth—That, provided there be no objections filed to either of said abstracts, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III., to be held in the County Court House, in the Borough of Manhattan, in The City of New York, on the 8th day of January, 1907, at the opening of the Court on that day.

Fifth—In case, however, objections are filed to any of said abstracts of estimate and assessment, the notice of motion to confirm our final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the CITY RECORD, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

Dated Borough of Manhattan, New York, November 5, 1906.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or her name and names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York, is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
