BELLEVUE AND ALLIED HOSPITALS.

A regular meeting of the Board of Trustees of Bellevue and Allied Hospitals was held in the staff room on Wednesday, March 28, 1906.

Present—Dr. Brannan, the President, in the chair; Messrs. Stern, Tack, Robbins, Tierney, Sachs and Paulding, trustees.

Dr. S. T. Armstrong, the General Medical Superintendent, reported as follows:

During the week ending March 24, twenty-seven operations were performed at Bellevue, nine at Gouverneur, two at Harlem and four at Fordham, at all of which the attending Physicians or Surgeons were present.

Attention is invited to a former recommendation that an X-ray photographer be appointed at \$1,200 a year. Recently two sets of rectifiers in the X-ray apparatus were destroyed because members of the house staff left the apparatus without turning off the current, thus causing a loss of fifty dollars. Until an experienced operator is employed it will be necessary to allow the house staff to use the apparatus.

A study of the plans for the furniture of the new Fordham Hospital kitchen indicates that these should be changed. The range as located does not permit the expansion needed should new wards be built, the coffee boilers are too small, there should be steel instead of wooden tables, there should be dish washing machines instead of wash tubs, and other changes to have an up to date equipment. The architect, Mr. Almirall, and the sub-contractor for the apparatus, Messrs. Duparquet, Huot & Moneuse Company have been consulted, and they offer to substitute the fixtures that are required in place of the apparatus originally approved at a cost of \$1,597. It is recommended that these changes be authorized and that the present sub-contractor do the work because an allowance should be made between the cost of the desired apparatus and that called for by the original plans.

On motion, duly seconded, it was Resolved, That action on the matter of appointing an X-ray photographer be deferred.

On motion, duly seconded, it was

Resolved, That the matter of the kitchen equipment of the new Fordham Hospital be referred to the Building Committee for investigation and report.

Taylor Phillips, Secretary of the Commissioners of the Sinking Fund, transmitting a certified copy of a resolution adopted by the Commissioners of the Sinking Fund assigning to the trustees of Bellevue and Allied Hospitals the new made ground in the rear of the new bulkhead wall between Twenty-sixth and Twenty-eighth streets, East river.

Reports of Committees.

Mr. Tierney reported that the Building Committee, accompanied by Mr. Heberd, Dr. Armstrong and Mr. Almirall, visited the new Fordham Hospital on Saturday, March 24. The following report was presented by the Committee:

"Upon looking over the ground and taking into consideration the fact that a great part of it will be used for purposes directly connected with the hospital, your committee is of the opinion that it is not necessary to employ a landscape architect, as the work of laying out the grounds can be done by the architect at present employed in connection with the construction of the hospital.

"Your committee examined the work done by the plumbing contractors (Messrs. McManus & Welch) and complained of by the John H. Parker Company as having been done in such a manner as to seriously interfere with the latter in the carrying on of its work. It appears to the committee that there is cause for complaint, but we cannot see grounds sufficient upon which to base a claim for the granting of an extension of five months' time to the contractor.

"Owing to the changes that have been made in the manner of handling the coal at the hospital building, there will not be any use for the track and car that were called for in the contract for the purpose of delivering coal at the vault. Your committee recommends that the track be taken up and along with the car be removed to the Harlem Hospital, where they can be used to bring the coal from the storage to the boiler.

"Your committee recommends that the grounds be inclosed with an iron fence six feet high with the exception of that portion fronting on the Southern Boulevard where the fence will be three and one-half feet high."

On motion, duly seconded, it was

Resolved, That the report of the Building Committee be accepted and approved.

On motion, duly seconded, it was

Resolved, That Mr. Raymond F. Almirall, the architect for the new Fordham Hospital, be instructed to prepare plans and specifications for laying out the grounds at the new Fordham Hospital.

Mr. Tierney presented a letter dated March 27, from Mr. J. H. Freedlander, consulting architect in charge of the work of laying out the grounds at the new Harlem Hospital.

On motion, duly seconded, it was

Resolved, That Mr. J. H. Freedlander be directed to prepare plans and specifications for laying out the grounds at the new Harlem Hospital, the coal vaults and the retaining wall, and that he be authorized to substitute granolithic for the wooden pavement.

The General Medical Superintendent, Dr. Armstrong, presented a report on the present condition of the contracts, including the amounts remaining unexpended under each contract, and additions and changes authorized by the Board on every contract during the year, and, on motion, duly seconded and carried, this report was returned to him for additional information.

Dr. Brannan reported that he had written a letter to Mr. Raymond F. Almirall on March 17 asking him to send to Messrs. J. R. Sheehan & Co. a written order for the work of widening three windows in the new wing of Gouverneur Hospital.

On motion, duly seconded, it was

Resolved, That this action be approved and that an expenditure of \$295 be authorized by the Board for this work. Dr. Brannan reported also that he had given directions that the radiators in the Out Patient Department of Gouverneur Hospital be placed nearer the walls as is the case in Bellevue and in the new Harlem Hospital, as they were much in the way in their present position, which is six or seven inches from the wall.

On motion, duly seconded, it was

Resolved, That the action of the President in this matter be approved.

Unfinished Business.

Mr. Paulding moved to reconsider the action of the Board in referring to the Corporation Counsel the Communications of the City Visiting Committee incorporating the report of Mr. Hugh Bonner upon fire conditions in the various hospitals, and this action was taken by the Board.

On motion, the Board adjourned.

J. K. PAULDING, Secretary.

Resolved, That the limit of salary placed upon the eligible list for first grade Assistant Engineer, Board of Water Supply, viz., \$1,350 per annum, be and the same is hereby removed, and the Secretary is instructed to certify from such list for appointment to the position of Assistant Engineer in the Board of Water Supply at \$1,650 per annum.

A communication was presented from the managing editor of the "Municipal Journal and Engineer," dated April 13, requesting that that journal be placed upon the list of newspapers to which are sent notices of Civil Service examinations. The Secretary was instructed to place the said journal upon the list receiving such news.

The request of Emilie L. Hill, M. D., No. 100 West One Hundred and Thirty-sixth street, that she be permitted to file an application for Oculist was granted. It appeared that when the candidate applied at the office of the Commission, by telephone, for permission to file her application, within the prescribed dates, she was erroneously informed that the time for receiving such applications had expired, which prevented her doing so until she observed in the City Record that the information given her was incorrect, and that the examination had not yet been held.

An affidavit was presented from Harry F. Coggey to the effect that he had removed from Harrison and Cornell avenues, Borough of The Bronx, to No. 225 East Fifty-seventh street, Borough of Manhattan, at which address he had resided for more than three months, and requesting that his name be transferred from the list for Court Attendant, Borough of The Bronx, to the list for Manhattan. The request was granted.

The request of Charles H. McAuley, No. 204A Spencer street, Brooklyn, under date of April 17, that he be restored to eligibility for appointment to the position of Clerk at a salary of \$900 per annum, was granted, upon his statement that his circumstances had changed since he declined appointment at that salary on April 4.

The request of Edward Henry, No. 1269 First avenue, dated April 18, that his name be restored to the list for Watchman was granted, he having declined appointment in the Brooklyn Disciplinary Training School on February 14 on account of illness, and now submitting an affidavit to the effect that he has recovered.

The request of Thomas E. Langan, No. 390 Hicks street, Brooklyn, that his name be restored to the list for Watchman was granted, the same having been dropped on the statement of the Department of Public Charities that he failed to report in answer to the notice sent him, and the fact being that he was certified with the wrong address.

The request of Andrew Portoluzzi, No. 213 West Tenth street, that his name be restored to the list for Janitor-Engineer was granted, it appearing that the notice sent him by the Board of Education failed to reach him for the reason that his name was spelled incorrectly when certified to that department.

A communication was presented from Aubrey B. Webster, M. D., No. 430 West One Hundred and Twenty-fourth street, dated April 20, protesting against the transfer of Dr. George T. Stewart from the position of Hospital Superintendent in the

Department of Health to the position of Superintendent of Hospitals in the Department of Public Charities, which transfer had been approved by the Commission at a previous meeting, on the ground that his name appeared upon an eligible list for the position of Medical Superintendent established September 23, 1903. The Secretary was instructed to communicate with Dr. Webster and state that the Commission acted within its rights in approving the said transfer, as it was made under the authority of Civil Service Rule XIV.

A communication was presented from Mr. Magnus C. Ihlseng, dated April 20, accepting appointment as Expert Examiner of engineering papers in the office of the Commission, and stating that he was in readiness to be of service when required. The communication was ordered filed.

A communication was presented from Frederick E. Kirchner, No. 603 Ford street, The Bronx, dated April 16, requesting that certification of his name from the eligible list of Gymnasium Attendant be withheld until after June 30, 1906, as he was under contract with the Board of Education to render services until that time. The Secretary was instructed to call Mr. Kirchner's attention to the provisions of Civil Service Rule XI., paragraph 4, and to inform him that he might decline the appointment offered him on any of the grounds set forth in said rule without losing his place on the eligible list.

The Commission then adjourned.

FRANK A. SPENCER, Secretary.

No. 299 Broadway,
New York City, April 27, 1906.

A meeting of the Municipal Civil Service Commission of The City of New York was held at the Commission's offices, No. 299 Broadway, on Friday, April 27, 1906, at 10 o'clock in the forenoon.

The President presided.

On motion, it was

Resolved, That, with the approval of the Mayor and the State Civil Service Commission, the provision of Municipal Civil Service Rule VIII., paragraph 2, to the effect that if the previous occupation or employment of an applicant has been wholly or in part outside The City of New York not more than two of his vouchers may be persons resident or engaged in business elsewhere, be and the same hereby is waived so far as it applies to the coming examinations for Assistant Engineer, Topographical Draughtsman and Rodman, Board of Water Supply.

On motion, it was

Resolved, That the provision of Rule VII., paragraph 12, to the effect that "No person who has entered any examination for appointment to a competitive position and failed therein, or who has withdrawn therefrom, shall be admitted within nine months from the date of such examination to a new examination for the same position," be and the same hereby is waived so far as it applies to the coming examinations for Assistant Engineer, Topographical Draughtsman and Rodman, Board of Water Supply.

A communication was presented from the Police Commissioner, dated April 26, with reference to the protest of Jacob S. Strahl, Esq., attorney, against an alleged violation of section 1344-N of the Greater New York Charter in relation to the assignment of officers and men to the Tenement House Department who have neither passed a Civil Service examination nor had the required five years' experience in the Department of Health. The Commissioner furnished a list of men serving in the Tenement House Squad since its organization who never served in the Health Squad before that time and never passed a Civil Service examination for Health or Tenement House Departments, and a list of men serving in the Tenement House Squad who had served less than five years in the Health Department prior to being transferred to the Tenement House Squad, and who never passed a Civil Service examination for the Health or Tenement House Departments, and stated that orders would immediately be issued for the transfer of these men and for the transfer of others to their places who have had the necessary five years' service in the Health Squad and who are therefore entitled to perform duty in the Tenement House Squad. The Secretary was instructed to forward a copy of General Bingham's communication to Mr. Strahl.

A communication was presented from the Chief Clerk of the Police Department, dated April 26, stating that Thomas L. Druhan had been reinstated in the position of Inspector, and that John Buchanan had been reinstated in the position of Captain in that department under authority of communications from the Corporation Counsel, dated April 5 and 13, 1906. The papers were ordered filed.

Communications were presented from the Chief Clerk of the Police Department, dated April 26, stating that Michael E. Foody had been reinstated in the position of Captain of Police as of May 9, 1905, in accordance with opinions from the Corporation Counsel dated April 5 and 13; and that Elbert C. Smith had been reinstated in the position of Inspector of Police in accordance with said opinions. The papers were ordered filed.

A communication was presented from the Chief Clerk of the Police Department, dated April 26, transmitting a pay-roll for the salary of Peter J. Beckert, Patrolman, from the time of his suspension, May 1, 1904, up to March 29, 1906; also copy of an opinion from the Corporation Counsel addressed to Comptroller Metz, dated May 12, 1906, to the effect that Beckert's claim for such salary was a valid one and that the same should be paid. The Secretary was directed to attach the certificate of the Commission to the pay-roll.

On motion, it was

Resolved, That the emergency appointment of Frank D. Callahan as Telephone Operator in the Fire Department from April 6 to 15, inclusive; and that of Thomas J. Wilkes for the same services from March 22 to 25, inclusive, be and the same hereby are approved under Rule XII., paragraph 4.

FOR THE RIGHT TO DUMP AND FILL IN BEHIND THE BULKHEAD WALL RECENTLY BUILT AT THE NORTHERLY END OF THE CHELSEA SECTION ON THE NORTH RIVER, BOROUGH OF MANHATTAN.

TERMS AND CONDITIONS OF SALE.

The work to be done is to fill in with suitable material, as hereinafter described, the area behind the new bulkhead wall extending from the northerly line of West Twenty-third street extended southerly a distance of about from 160 to 190 feet to the existing bank of solid filling.

The filling shall also extend from the rear of the bulkhead wall or coping easterly a distance of about 150 feet to the old crib bulkhead.

The filling shall be brought to a grade level with the top of the coping of the bulkhead wall and shall extend inshore on a regular grade to the top of the ground at the adjacent or inshore bank.

It is estimated that the area outlining the above-described limits will create a basin to be filled in, under this agreement, whose cubical contents in net void space is equal to 12,000 cubic yards.

Bidders will state in writing a lump sum price, which they agree to pay for the privilege of filling in the area between West Twenty-second and West Twenty-third streets, as above more fully described, and being the basin calling for the filling of a void space estimated at about 12,000 cubic yards.

In the estimated amount given, the amount in cubic yards is arrived at without placing any allowance for shrinkage, settlement, swelling of the material or penetration into the mud.

The Department is not bound in any way by such estimate, and bidders must satisfy themselves of the actual quantity required to fill in the above-described area by examination of the premises or such other means as they may prefer, the intention of the Department being to fill in the whole of the said premises behind the bulkhead wall within the above-described limits, and no allowance will be made to the purchaser from the purchase price on account of any discrepancy which may be found between the above-estimated quantity and the actual amount of filling required. The purchaser will be required to place the filling in accordance with the following specifications:

All the filling shall, unless otherwise directed, be placed directly in the rear of the bulkhead wall and carried from the bulkhead wall toward the shore until the bank of same has been carried out to the finished grade for a distance of about 40 feet from the face of the bulkhead wall, at v-ch time, if so directed by the Engineer, the filling shall be started at the bank and carried outshore toward the bulkhead wall.

All material must be dumped and filled in only in such manner, at such points and in such order of procedure and at such times and seasons as may, from time to time, be directed, and the work of filling in may be entirely suspended for such periods of time as may be directed by the Engineer. The purchaser shall have no claim for damage or for any allowance from the purchase money on account of such suspension of the work.

All directions shall be given by the Engineer, and wherever the word "Engineer" is used in these specifications it refers to and designates the Engineer-in-Chief of the Department of Docks and Ferries, or such officer or employee as may be designated by him.

Rip-rap stone coming directly on or against the bulkhead wall must be deposited carefully in such manner as will not injure the same.

All the filling, except as otherwise specified herein, shall be of ashes, cellar dirt, broken stone, etc., entirely free from garbage or any organic matter objectionable in the opinion of the Engineer.

At any section of the bulkhead wall the filling shall be brought up level with the under side of the backing log of the bulkhead wall at such section, and no higher, unless otherwise directed.

The filling shall be commenced within five days after the date of the receipt of a notification from the Engineer that the work, or any part of it, is ready to be begun, after which not less than 300 cubic yards per day shall be placed, and the whole amount of the filling called for to bring the above-described basin up to grade shall be completed within forty-five days from the date of the receipt of said notification. At the expiration of this time this agreement shall be considered closed unless a further extension of time shall be given by the Commissioner of Docks. If at any time during the progress of the work it shall be deemed necessary to order the suspension of the whole or any part of the filling, the time for completing said filling shall be extended as much as it may have been delayed by such suspension.

In case the purchaser at any time does not proceed with the work of filling in to the satisfaction of the Commissioner of Docks, the said Commissioner will at once terminate the privilege of filling in and proceed to have the remainder of the filling in done by other parties in such way and manner as he deems proper, and any loss which may result therefrom shall be charged against the principal and his surety.

The purchaser shall, during the work of filling in, and at all times until the completion thereof, take all necessary precautions and place proper guards for the prevention of accidents, and put up and maintain at night sufficient lights, and he shall indemnify and save harmless The City of New York from all damages and costs to which it may be put by reason of injury to the person or property of another resulting from negligence or carelessness in the performance of the work or guarding the same, to which the surety is also bound.

No bid or estimate will be considered unless accompanied by a certified check drawn to the order of the Commissioner of Docks, or money to the amount of twenty-five per centum of the amount of the bid, which amount shall be applied in the case of the successful bidder to the first one-quarter of the amount of the filling to be deposited; twenty-five per centum to be paid when the first one-quarter of filling has been completed; twenty-five per centum additional when one-half the filling has been completed, and the balance, twenty-five per centum, when three-quarters of said filling has been completed.

A surety or guarantee company, duly authorized by law to act as surety, to be approved by the Commissioner of Docks, will be required to enter into a bond or obligation jointly and severally with the purchaser in the sum of double the amount of the purchase price as security for the satisfactory performance of said work, in accordance with the terms and conditions hereof.

PUBLIC NOTICE.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE.

To Whom It May Concern:

On May 9, 1904, chapter 686 of the Laws of 1904, "An act to authorize the Comptroller and the Corporation Counsel of The City of New York, on behalf of said City, to compromise and settle with property owners interested, certain claims for taxes, assessments and sales for the same, and for or on account of encumbrances or indebtedness issued on account of local improvements in the territory formerly included within the boundaries of Long Island City," became a law.

The purpose of this act was to grant relief to the owners of property located within the territory of the former City of Long Island City, which property had become encumbered with liens approaching, in many cases, almost the assessed value of the property. Owing to the phenomenal increase in values of real estate in the Borough of Queens during the past year, the object for which said act was passed has ceased to exist.

Notice is therefore given that on and after May 15, 1906, the Comptroller of The City of New York will refuse to consider applications filed under chapter 686 of the Laws of 1904.

All applications filed after May 15, 1906, will be rejected.

AT A MEETING OF THE BOARD OF Estimate and Apportionment, held April 27, 1906, in the Old Council Chamber, City Hall, Borough of Manhattan, the following proceedings were had:

Whereas, The Seaboard Refrigeration Company has made application to this Board for a grant of the right, privilege and franchise to construct, maintain and operate a pipe line and all necessary appurtenances for the transportation of refrigeration under and along certain streets in Coney Island, Borough of Brooklyn; and

Whereas, Sections 72, 73 and 74 of the Greater New York Charter, as amended by chapters 629 and 630 of the Laws of 1905 provides for the manner and procedure for making such grants; and

Whereas, The Mayor has, in pursuance of such law, designated the Brooklyn Daily "Eagle" and Brooklyn "Citizen" as the two daily newspapers published in said City in which the publications hereinafter provided for are to be made, other than those required to be made in the City Record; and

Whereas, This Board has made inquiry as to the money value of the franchise or right applied for and proposed to be granted to the Seaboard Refrigeration Company, and the adequacy of the compensation proposed to be paid therefor, and the results of such inquiry and notice of a public hearing to be had thereon before this Board have been published at least ten days in the City Record and at least twice in the Brooklyn Daily "Eagle" and the Brooklyn "Citizen," two daily newspapers published in The City of New York, and a public hearing has been had thereon by this Board; now therefore it is

Resolved, That the following form of the resolution for the grant of the franchise or right applied for by the Seaboard Refrigeration Company, containing the form of proposed contract for the grant of such franchise or right be hereby introduced and entered in the minutes of this Board, as follows, to wit:

Resolved, That the Board of Estimate and Apportionment hereby grants to the Seaboard Refrigeration Company the franchise or right fully set out and described in the following form of proposed contract for the grant thereof, embodying all of the terms and conditions including the provisions as to rates and charges upon and subject to the terms and conditions in said proposed form of contract contained, and that the Mayor of The City of New York be and he hereby is authorized to execute and deliver such contract in the name and on behalf of The City of New York, as follows, to wit:

PROPOSED FORM OF CONTRACT.

This contract, made this day of 1906, by and between The City of New York, party of the first part, by the Mayor of said City acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City, and the Seaboard Refrigeration Company, a domestic corporation of the State of New York, hereinafter called the Company, party of the second part, witnesseth:

In consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1. The City of New York hereby grants to the Company, subject to the conditions and provisions hereinafter set forth, the franchise, right and privilege to construct, maintain and operate a conduit not to exceed eighteen inches in diameter, with the necessary branches and connections therefrom, leading directly into private property, for the sole purpose of supplying refrigeration to consumers, said conduit and branches to be beneath the surface of each of the following-named streets, avenues and highways, between the points described as follows, all situate in the Borough of Brooklyn, City of New York, to wit:

In, under and along West Twenty-first street, West Twelfth street and West Eighth street, between Surf avenue and Neptune avenue; in, under and along Neptune avenue, between West Twenty-first street and West Eighth street; and in, under and along Surf avenue, between West Twenty-fifth street and West Fifth street, said routes being shown on a map entitled "Map to accompany the petition of the Seaboard Refrigeration Company to the Board of Estimate and Apportionment, dated November 2, 1905, for laying conduits along designated streets and avenues on Coney Island, Borough of Brooklyn, New York," signed by Charles E. Booth, President, and Henry Guttin, Engineer, copy of which is annexed hereto and made a part of this grant.

Sec. 2. The grant of this franchise, right and privilege is subject to the following conditions:

First—The said franchise, right and privilege to lay one conduit line in each of the streets, avenues or highways, and between the limits as hereinbefore described, and the franchise, right and privilege to maintain and operate the same, shall be held and enjoyed by the said Company, its lessee or successors, for a term of fifteen years from the date of the signing of this contract, with the privilege of renewal of said grant for a further period of ten years, upon a fair revaluation of said franchise, right and privilege.

If the Company shall determine to exercise its privilege of renewal, it shall make application to the Board of Estimate and Apportionment of The City of New York, or to any authority which shall be authorized by law to act for the City in place of the said Board. Such application shall be made at any time not earlier than two years and not later than one year before the expiration of the original term of this grant. The determination of the revaluation shall be sufficient, if agreed to in writing by the Company and by the Board of Estimate and Apportionment, or by such other authority in its place. If the Company and the Board, or such other authority in its place for the City, shall not reach such agreement on or before the day one year before the expiration of the original term of this grant, then the annual rate of compensation for such succeeding ten years shall be reasonable, and either the City (by the Board or by such other authority in its place)

or the Company shall be bound upon request of the other to enter into a written agreement with such other authority, fixing the rate of such compensation at such amount as shall be reasonable; and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board of Estimate and Apportionment, or its successors in authority; one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluations aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of the contract, and their report shall be filed with the Board of Estimate and Apportionment, or its successors in authority, within three months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations without the presence of either party. They shall have the right to examine the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but shall not in any event be less than the minimum amount fixed as the sum to be paid annually for the last year of this original grant. If in any case the annual rate shall not be fixed prior to the termination of the original term of this grant then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Second—Upon the termination of this contract, or if the same be renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any other cause, all conduit lines and appurtenances thereto, constructed pursuant to this contract, shall be and become the property of The City of New York, without compensation therefor, and the same may be used by the City for any purpose whatsoever. If, however, at the termination of this grant, as above, the City by the Board of Estimate and Apportionment, or its successors in authority, shall so order by resolution, the said Company shall remove, at its own expense, said conduit line and all appurtenances thereto, and shall restore the streets and pavements to their original condition.

Third—The Company, its successors or assigns, shall pay for this privilege to The City of New York the following sums of money, to wit:

1. Five thousand dollars (\$5,000) in cash within thirty (30) days after the signing of the contract.

2. During the first five years of this contract an annual sum which shall in no case be less than eight hundred and fifty dollars (\$850), and which shall be equal to 4 per cent. of the gross receipts of the Company, if such percentage shall exceed the sum of eight hundred and fifty dollars (\$850).

During the second five years of this contract an annual sum which shall be in no case less than eleven hundred dollars (\$1,100), and which shall be equal to 5 per cent. of the gross receipts of the Company, if such percentage shall exceed the sum of eleven hundred dollars (\$1,100).

During the third and remaining five years of this contract an annual sum which shall in no case be less than fourteen hundred dollars (\$1,400), and which shall be equal to 6 per cent. of the gross receipts of the Company, if such percentage shall exceed the sum of fourteen hundred dollars (\$1,400).

3. An annual payment of ten (10) cents for each linear foot of conduit line and two dollars (\$2) for each manhole constructed within the limits of any street, avenue or highway. The sums due shall be calculated from the day when the permit is obtained to open the streets for any section of the work.

All sums herein provided for shall be paid into the Treasury of The City of New York on November 1 of each year, and shall be for the amount due to September 30 next preceding.

Any and all payments made by the terms of this franchise to The City of New York by the Company shall not be considered in any manner in the nature of a tax, but such payments shall be in addition to any and all taxes of whatsoever kind or description, now or hereafter required to be paid by any ordinance of The City of New York or by any law of the State of New York.

Fourth—The annual charges or payments shall continue throughout the whole term of the privilege hereby granted, whether original or renewal, as hereinbefore provided, notwithstanding any clause in any statute or in the charter of any other company, providing for payments of refrigerating rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted, whether original or renewal, or of any part thereof, or of any of the routes mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this grant, and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said condition as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise, exemption from liability to perform each and all of the conditions of this grant. Nothing herein contained shall apply to any mortgage or more lienor, but shall apply to any purchaser upon foreclosure or under or by virtue of any provision of a mortgage or lien.

Fifth—The rights and privileges granted hereby shall not be assigned either in whole or in part, or leased or sublet in any manner, nor shall title thereto or right, interest or property therein pass to or vest in any other person or corporation whatsoever, either by the act of the Company, its successor or assigns, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of The City of New York, acting by the Board of Estimate and Apportionment, or its successor in authority, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents. This provision, however, shall not apply to the making of a mortgage, but shall apply to a sale under foreclosure.

Sixth—The grant of this privilege is subject to whatever right, title or interest the owners of abutting property or others may have in and to the streets, avenues and highways on the route heretofore described.

Seventh—If a conduit line as herein described shall not be constructed and in actual operation

in all the streets and avenues, and upon all the routes hereby described, on May 1, 1911, all rights hereby given shall be thereupon forthwith and immediately forfeited without judicial or other proceedings, unless at least 50 per cent. of the conduit line shall then be constructed and in operation, when, in such case, the forfeiture shall affect only the Company's rights, privileges and franchises on the remaining portion of the conduit line hereby granted.

Eighth—All construction which shall be made under this grant shall be done in a manner solely upon the terms and conditions hereafter to be imposed by the President of the Borough of Brooklyn and the Commissioner of Water Supply, Gas and Electricity, or their respective successors in authority. The said Company shall submit a working plan of construction to the said President and to the said Commissioner, which shall include and show in detail the method of construction of said conduit line, connections, manholes and other appurtenances, and the mode of protection of all subsurface construction under the streets, avenues and highways described in the routes.

Ninth—The said Company shall bear the expense of keeping in repair for one year after it has been replaced, all pavement which may at any time be removed by said Company, either for the purpose of construction or for the repairing of the conduit line and its appurtenances.

Tenth—The said Company shall bear the expense of inspection, which may be required by the President of the Borough of Brooklyn and the Commissioner of Water Supply, Gas and Electricity, of all the work of construction required, or removal of the said conduit line, which shall be done under this grant.

Eleventh—The Company shall cause a test to be made of the pipes laid under this grant before said pipes shall be used for the conveyance of gas or fluid under pressure for refrigerating purposes. The pipes so tested shall be submitted to a pressure of 450 pounds per square inch, and such test shall be made under the supervision of the Commissioner of Water Supply, Gas and Electricity. A certificate showing that such a test has been made, without injury to the pipes, shall be executed by an officer of the Company, indorsed by the Commissioner of Water Supply, Gas and Electricity, and filed with the Board of Estimate and Apportionment.

Twelfth—The Company, its successors or assigns, shall not charge consumers more than three dollars and fifty cents (\$3.50) for the same amount of refrigeration which is produced by one ton of ice. During the term of this contract the Board of Estimate and Apportionment shall have absolute power to regulate the maximum and minimum rates, provided that such rates shall be reasonable and fair. All refrigeration which may be required by The City of New York at any point along the routes herein described, shall be furnished by the Company without cost to the City.

The Company, upon the application for refrigeration of any person or corporation located along the routes herein authorized, shall extend its conduit to such premises and furnish to said applicant refrigeration at the prices which are hereinafter prescribed, or at which such prices may be hereafter fixed, in properly insulated compartments, under contracts containing fair and reasonable regulations for such service; otherwise this contract shall cease and determine at the option of the Board of Estimate and Apportionment.

It is mutually understood and agreed by and between the parties hereto that in the event of any dispute arising between the company and any consumer or user of its refrigeration, as to the fairness and reasonableness of the regulations contained in said contracts, the Board of Estimate and Apportionment on the application of either said consumer, user or Seaboard Refrigeration Company shall have the power to pass upon and decide as to the fairness and reasonableness of such regulations, and said Seaboard Refrigeration Company hereby agrees to abide by such decision and conform such regulations thereto.

Thirteenth—A correct map shall be furnished to the Board of Estimate and Apportionment by the Company, showing the exact location of all the conduit lines and manholes laid with reference to the curb lines of the streets and the street surface, and the same shall be furnished on the first day of November of each year until all conduit lines which are authorized by this grant are constructed or until the right hereby authorized to construct conduit lines along the routes described have ceased by limitation, as herein provided.

Fourteenth—The grant of this privilege shall not affect in any way the right of The City of New York to grant a similar privilege upon the same or other terms and conditions to any other person or corporation.

Fifteenth—The Company shall assume all liability by reason of the construction and operation of the conduit line and the City shall assume no liability whatsoever to either persons or property by reason of its construction.

As a condition of this grant, the Company, its successor or assigns, hereby agrees to repay to the City any damages which the City shall be compelled to pay by reason of any acts or defaults of the Company, its successor or assigns. Due notice of any such demand shall be given to the Company.

Sixteenth—In case of any violation or breach or failure to comply with any of the provisions herein contained, this contract may be forfeited or avoided by The City of New York by a suit brought by the Corporation Counsel, on notice of ten days to the said Company.

Seventeenth—If the Company has in position a conduit or pipe line in streets or avenues other than those herein described, then the Company shall remove such conduit or pipe line at its own expense, within one year from the date of signing this contract. If the Company owns a conduit or pipe line in the streets or avenues herein described, such conduit or pipe line shall be deemed to be a conduit line herein authorized, but no right is hereby given to lay or construct a conduit line in addition to that which the Company already has in such streets or avenues.

Eighteenth—The conduit line hereby authorized shall be used only by the Company and for no other purpose than for supplying refrigeration by the ammonia process or such other process as may be consented to by the Board of Estimate and Apportionment.

Nineteenth—The Company hereby agrees not to issue stock or bonds other than have been heretofore issued, until a certificate of authority therefor has been issued by the Board of Estimate and Apportionment, or until such Board shall further certify in writing as to the amount of stock or bonds reasonably required for the purposes of the Company. The stock and bonds of the said Company shall not be issued in excess of the amount so certified.

The Company shall not increase its capital stock or its bonded indebtedness without the consent in writing of the Board of Estimate and Apportionment stating the amount of the authorized increase. For the purpose of making this determination as to the amount of stock and bonds to be issued, or the amount of the authorized increase of the capital stock and bonded indebtedness of the Company, the Board of Estimate and Apportionment may take and hear testimony under oath and examine the books and

papers of the Company, and require verified statements from the officers thereof, pertaining to the value of the property and of the franchise owned or operated by the Company. Such determination shall be made within sixty (60) days after the final submission of the papers or of final hearing on the application for the issue or increase of capital stock or bonds of indebtedness.

The Company shall submit a report to the Board of Estimate and Apportionment not later than November 1 of each year, for the year ending September 30 next preceding, which shall state:

1. The amount of stock issued; for cash; for property;
2. The amount paid in as by last report;

18. Total expenses for operation; including salaries;
19. An inventory of all the property of the Company.

—and such other information in regard to the business of the Company as may be required by the Board. For each failure to comply with the foregoing, the Company shall pay a penalty of one hundred dollars (\$100), which may be collected by the Comptroller without notice.

Twentieth—The Company shall at all times keep accurate books of accounts of the gross earnings from the privileges granted under this contract. The Company shall, on or before November 1 in each year, make a verified report to the Comptroller of The City of New York, of the business done by the Company for the year ending September 30 next preceding, as he may prescribe. Such report shall contain the number of feet of conduit laid and the number of manholes constructed during the year, and also a statement of the gross receipts from all business of furnishing refrigeration to consumers, together with such other information and in such detail as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report and may examine its officers under oath.

Twenty-first—If the said Company, its successors or assigns, shall fail to give efficient public service at the rates herein fixed, or fails to maintain its structures in good condition throughout the full term of its occupancy of such streets, the Board of Estimate and Apportionment of The City of New York may give written notice to the said Company specifying any default on the part of said Company, and requiring said Company to remedy the same within a reasonable time, and upon the failure of the Company to remedy said default within a reasonable time, said Company shall for each day thereafter during which the default or defect remains, pay to The City of New York a sum of fifty dollars (\$50) as fixed or liquidated damages, or the said City, in case such structures which may affect the surface of the streets, shall not be put in good condition within a reasonable time after notice by the Board as aforesaid, shall have the right to make all needed repairs at the expense of the Company, in which case the said Company shall pay to the City the amount of the cost of such repairs with legal interest thereon, all of which sums may be deducted from the fund hereinbefore provided.

Twenty-second—This grant is upon the express condition that the Company, within thirty days after the execution of this contract and before anything is done in exercise of the rights conferred thereby, shall deposit with the Comptroller of The City of New York the sum of five thousand dollars (\$5,000), either in money or in securities to be approved by him, which fund shall be security for the performance by the Company of the terms and conditions of this grant, especially those which relate to the payment of the annual charge for the privilege and the penalties herein provided, and in case of default in the performance by said Company of such terms and conditions The City of New York shall have the right, after due notice, to collect the same from the said fund without legal proceedings, or after default in the payment of the annual charges shall collect the same, with interest, from said fund after ten days' notice in writing to the said Company. In case of any drafts so made upon this security fund the said Company shall, upon thirty days' notice in writing, pay to the Comptroller of The City of New York a sum of money sufficient to restore the said fund to the original amount of five thousand dollars (\$5,000), and in default thereof the grant hereby made may be canceled and annulled at the option of the Comptroller of The City of New York, acting on behalf of said City. No action or proceeding or rights under the provisions of this section shall affect other legal rights, remedies or causes of action belonging to The City of New York.

Twenty-third—The Company promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms, conditions and requirements in this contract fixed and contained.

Twenty-fourth—The Company agrees to assume and comply with any of the existing provisions or future amendments of Article V. of the Transportation Corporations Law relating to pipe lines, imposing conditions, restrictions or penalties should the Board of Estimate and Apportionment from time to time so require, in the same manner and to the same extent as if the Company had been incorporated under the said Transportation Corporations Law.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
