A communication was presented from the Chief Examiner, dated March 3, in regard to the appeal of Martin J. Boyne, candidate for promotion to Assistant Foreman, Fire Department, suggesting that, as there seemed to be a confusion of dates as to the time of performing the rescue of which the candidate made mention and the time of receiving credit for same, the Commission defer action on the case pending a personal inspection of the records at fire headquarters by some member of the Examining Board. The recommendation was adopted.

A communication was presented from the Chief Examiner, dated March 5, forwarding a report of Mr. Fuld, Examiner, on the application of Joseph Gales, Jr., for Court Stenographer. The matter was referred to the President for consideration.

A communication was presented from the Assistant Chief Examiner, dated March 5, submitting for inspection and consideration the government papers of candidates Nos. 612, 613 and 614 in the recent examination for Patrolman. The government papers of candidates Nos. 705 and 706 were also submitted as being nearly identical. The matter was referred to the President for consideration.

A communication was presented from the Chief Examiner, dated March 10, requesting instructions as to whether or not the name of Patrick F. Kiernan, candidate for Janitor-Engineer, should be placed on the eligible list. It appeared that at the time of the examination the candidate had no license, but that he had, on March 10, presented license (third class) No. 8885, dated February 28, 1908. After consideration of the matter it was ordered that the candidate's name be placed on the eligible list, in accordance with his general average in the examination.

William J. Burns vs. William F. Baker and others, constituting the Municipal Civil Service Commission," commanding the Board to rerate the relator on the eligible list for promotion to Sergeant or Lieutenant by giving him credit for an act of bravery and a medal awarded to him as a Patrolman; that the claim of the Commission and of the Law Department that the candidate had received due credit for the individual act of bravery, for which he received a medal, in his examination for promotion from Patrolman to Roundsman, had been disallowed at Special Term, but that the Appellate Division had sustained the contention, and that an order would be immediately entered upon the decision of the Appellate Division. It appearing that the Department had failed to report on the further allegation of Boyle that Frank P. Leddy, an Inspector of Pipe Laying, Pipes and Hydrants, had been assigned to the duties formerly performed by Curry, Inspector of Masonry Construction, the Secretary was directed to refer the matter back to the Department with a request for further information, and to state that the Commission did not consider that a satisfactory answer had been made.

A communication was presented from the Comptroller, dated March 2, stating that he had appointed Mr. Joseph L. Nowlan, of No. 353 Twelfth street, Brooklyn, as a temporary Expert Clerk in place of Mr. L. H. On the recommendation of the President, to whom the matter had been referred at the meeting of the Commission held March 5, the name of Frederick Eldred, No. 13 Chauncey street, Brooklyn, was restored to the eligible list of Patrolman.

A communication was presented from the Comptroller, dated March 9, transmitting reports of the Collector of Assessments and Arrears, dated March 5 and March 9, respectively, in relation to the complaint of the President of the Borough of Brooklyn against the temporary Expert Clerks employed in his Bureau; also transmitting a statement of the Collector of Assessments and Arrears with reference to the necessity of ascertaining definitely the status of the arrearages on the public records in that Bureau. After careful consideration of the matter, the Commission decided to release the payrolls of the Clerks with the exception of those of John J. Cleary and Edward Wheeler, which the Secretary was directed to hold pending the receipt of further information as to the qualifications of those employees. The Secretary was further directed to communicate with the Comptroller and state that by passing the payrolls the Commission did not necessarily accept his report as final, and that, upon receipt of the addresses of a number of the Clerks, which were requested on March 7, the matter would be further investigated. The Secretary was also directed to transmit copies of the reports to the President of the Borough of Brooklyn.

A communication was presented from the Comptroller, dated March 2, relative to the complaint of Henry W. Herbetz and others, representing the temporary Clerks in the Municipal Civil Service, against the employment of temporary Expert Clerks in the Bureau for the Collection of Assessments and Arrears, on the ground that the

services performed by the latter were such as were ordinarily performed by the temporary Clerks taken from the regular Civil Service list, which complaint had been forwarded by the State Commission for investigation. The matter was laid over.

William H. Fields, of No. 3198 Third avenue, The Bronx, then appeared before the Commission, as directed, to show cause why his name should not be removed from the list for promotion to Clerk, fourth grade, in the Bureau of Buildings, Borough of The Bronx, in accordance with Rule VII., clause 14, he having impersonated one William J. Stone in an examination for Fireman held on December 7, 1904. Mr. Fields declined to make a statement and asked for an adjournment of one week in order that he might be represented by counsel. The request was denied. After the said employee had retired, it was

Resolved, That the Secretary be and he hereby is directed to remove the name of William H. Fields from the list for promotion to Clerk, fourth grade, in the Bureau of Buildings, Borough of The Bronx, in accordance with clause 14 of Civil Service Rule VII.

The Secretary was directed further to communicate with the President of the Borough of The Bronx and transmit to him a copy of the communication from Mr. William J. Kinsley, Handwriting Expert, of No. 245 Broadway, Manhattan, stating that a careful comparison of the handwriting of William H. Fields with that in the papers purporting to be those of William J. Stone, candidate for Fireman, had left no doubt in his mind that the latter papers had been written by Fields; and to request that he take the necessary steps to dismiss the said employee from this Department.

The application of Miss Emily M. Kraft, of Mermaid avenue and West Twenty-second street, Brooklyn, for the position of Telephone Operator was rejected for the reason that she had not attained the minimum age fixed for that position.

The application of Mr. Thomas J. Smith, of No. 177 Stanley avenue, Yonkers, for the position of Process Server, containing the certificates of two non-residents of The City of New York, was accepted.

The application of William M. Lewis, of No. 257 Gold street, Brooklyn, for the position of Process Server, was accepted, it appearing from his statement that he had obtained naturalization papers when he was twenty years of age on account of his discharge from the Civil War, and had voted on them since the year 1868.

The application of Morris D. Silverstein, of No. 24 East One Hundred and Eighteenth street, Manhattan, for Process Server was rejected for the reason that the applicant was not a citizen of the United States.

The application of Samuel Feinblatt, of No. 54 East Fourth street, Manhattan, for Process Server was rejected for the reason that the applicant lacked seven days of the minimum age fixed for that position.

The application of Bowman C. Crowell, M. D., of No. 44 West Twenty-fifth street, Manhattan, for the position of Pathologist was accepted, it appearing that he had filed his declaration of intention to become a citizen of the United States, and that the number of applications received for the examination for Pathologist was very small.

The Secretary presented, with a request for instructions, the application of Thomas M. McGrath, of No. 341 Pearl street, Brooklyn, for the position of Court Stenographer, fourth and fifth grades, which had been received at the office of the Commission on February 25, at 2.14 p. m., and stated that the official time for the closing of the receipt of such applications was February 24, at 4 p. m., but, that in accordance with the prevailing practice, all applications that had been received by mail up to noon the following day had been accepted. After careful consideration of the matter, the application was accepted; and, on motion, it was

Resolved, That, hereafter, under no consideration shall an application be accepted that is not filed in the office of the Commission, by mail or otherwise, before 4 o'clock (or 12 o'clock, as the case may be) on the closing date for the receipt of such applications; and that the practice of receiving applications that are delivered in the early mails on the day following the closing date for the receipt of applications for a given position be discontinued.

The request of John F. Sullivan, of No. 602 West One Hundred and Thirty-seventh street, Manhattan, that he be restored to eligibility for appointment as Inspector of Steel Construction at a salary of \$1,650 per annum was granted upon his statement that when he declined appointment at that salary in the Department of Bridges, he was employed as an Assistant Engineer on the Pennsylvania railroad tunnels at a higher salary, but that a reduction of the tunnel forces necessitated his seeking a new position.

The request of Miss Lilian C. Brennan, of No. 16 Lincoln place, Brooklyn, that she be restored to eligibility for appointment to the position of Stenographer and Typewriter in the Borough of Manhattan was denied for laches.

The request of John H. A. Filan, of No. 1207 Lexington avenue, Manhattan, that he be restored to the list of Clerk, third grade, was granted upon his statement that he was out of the city when notified to report at the Tenement House Department on March 4, 1908, but that he had reported there on March 5 upon his return.

The request of James Faulkner, of No. 1383 Broadway, Brooklyn, that his name be restored to the list of Typewriting Copyist was granted upon his statement that he had failed to receive a notice from the Department of Health in September, 1907, at which time the said Department reported in his case that he had failed to reply.

The request of Miss Nellie F. Bagley, of No. 458 East One Hundred and Eighty-sixth street, The Bronx, that she be restored to eligibility for appointment to the position of Stenographer and Typewriter at a salary of \$750 per annum was granted upon her affidavit that her reason for declining appointment in the Fordham Hospital on March 4 was that the duties were those of a Clerk rather than a Stenographer.

The request of William J. Slater, of No. 334 East Fifty-third street, Manhattan, that he be restored to eligibility for appointment as Stationary Engineer at a salary of \$3.50 a day was granted upon his statement that his reason for declining appointment in the Brooklyn Disciplinary Training School at that salary was that he would have been obliged to work twelve hours a day.

The request of Henry A. Fairclough, of Fourteenth street and Castle Hill avenue, Unionport, New York, that his name be restored to the list of Patrolman was granted upon his affidavit that he was out of the city in January, 1908, when notified by the Police Commissioner to report regarding a possible appointment.

A letter was presented from Joseph T. Lee, of No. 685 Lexington avenue, Manhattan, requesting that his name be restored to the eligible list of Fireman. The Secretary stated that Mr. Lee was appointed in the Fire Department on April 24, 1907, and that he resigned on May 2, before completing his period of probation. The Secretary was directed to communicate with the candidate and state that it would be necessary for the Fire Commissioner to indicate his willingness to reappoint him before his name could be restored to the list.

A letter was presented from Charles F. Kelly, of No. 110 East Ninety-sixth street, Manhattan, requesting that his position on the preferred list of Inspector of Regulating, Grading and Paving be determined by the date of his original appointment in the City service—March 14, 1903—instead of August 16, 1906, the date of a subsequent appointment. The matter was laid over.

A communication was presented from John T. Boyle, Esq., Secretary and Treasurer of the National Assembly of Civil Service Commissions, dated March 6, stating that the biennial session of that organization would be held in Chicago on May 7 and 8, 1908, and requesting that a representative of the Commission attend. The Secretary was directed to represent the Commission, and to remit the membership fee of ten dollars.

The Commission then adjourned to meet Wednesday, March 18, 1908, at 10 o'clock in the forenoon.

F. A. SPENCER, Secretary.

## BOARD OF ESTIMATE AND APPORTIONMENT.

## EXTRACT FROM

MINUTES, BOARD OF ESTIMATE AND APPORTIONMENT, CITY OF NEW YORK,  
MARCH 27, 1908.

## RAPID TRANSIT RAILWAY.

*Manhattan Bridge Route (Revised), Brooklyn and Manhattan Loop Line, Fourth Avenue Route and Tri-Borough Route.*

At the meeting of March 20, 1908, a communication was received from the Public Service Commission for the First District, transmitting, for approval, six forms of contracts for the construction of a rapid transit railway in Fourth avenue and other streets in the Borough of Brooklyn, extending from the Brooklyn approach to the Manhattan Bridge to a point at or near Forty-third street, and the matter was referred to a Select Committee consisting of the Comptroller, the Corporation Counsel and the Chief Engineer.

The Comptroller, as Chairman of the Select Committee, presented the following:

BOARD OF ESTIMATE AND APPORTIONMENT. }  
NEW YORK, March 26, 1908. }

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—At the meeting of the Board of Estimate and Apportionment held on March 20 there was referred to a Committee consisting of the Comptroller, the Corporation Counsel and the Chief Engineer of the Board a communication from the Public Service Commission transmitting for approval six contracts for the construction of a Rapid Transit Railway in the extension of Flatbush avenue, Fulton street, Ashland place and Fourth avenue, extending from the Manhattan Bridge to a point at or near Forty-third street, in the Borough of Brooklyn, in order that the said Committee might report to the Board as to whether it would not be better, if the condition of the finances of the City will permit, to approve of the first three contracts covering the portion of the route between the Manhattan Bridge and Sackett street.

There were also referred to the Committee an opinion rendered by the Corporation Counsel and former Justice John F. Dillon on the question of whether contracts for subway construction could be so drawn that the amount charged against the debt limit will be only the amount required to be expended from year to year for construction, and also certain resolutions adopted at a mass meeting of the citizens of South Brooklyn relative to the authorization of the construction of the Fourth Avenue Subway as now laid out.

Your Committee begs to submit the following report:

The estimated cost of the different sections covered by these six contracts is as follows:

Section I. From the Manhattan Bridge approach at Nassau street to Willoughby street .....	\$1,750,000 00
Section II. From Willoughby street to a point in Ashland place south of Fulton street .....	2,750,000 00
Section III. From a point in Ashland place south of Fulton street to Sackett street .....	3,000,000 00
Section IV. From Sackett street to Tenth street .....	2,250,000 00
Section V. From Tenth street to Twenty-seventh street .....	3,000,000 00
Section VI. From Twenty-seventh street to Forty-third street .....	2,250,000 00
Total .....	\$15,000,000 00

This estimate does not include the cost of property which it will be necessary to acquire in order to carry out the plans as presented.

The contract covering Section II. provides for no less than eight tracks in Fulton street east of Flatbush avenue, and it is proposed to acquire the entire frontage on Fulton street, between the extension of Flatbush avenue and a point about one hundred feet east of Rockwell place, together with about one-half the frontage on the east side of the Flatbush avenue extension, between DeKalb avenue and Fulton street. The present assessed value of the land which thus taken and the improvements which would be affected is \$696,000, and in view of the great increase in values which has already followed and which will continue to follow the opening of the subway in Fulton street and Flatbush avenue, we believe that the actual cost of acquiring this property will be at least \$2,000,000.

The plans also contemplate the taking of the entire frontage on Fulton street, between Rockwell place and Ashland place, and the widening of Ashland place between Fulton street and Flatbush avenue. The assessed value of the land and improvements required for this widening is \$425,600. These assessed values will also be increased through the opening of the subway and by the new Academy of Music, which fronts on Ashland place, and it is probable that the cost of acquiring the property will be not less than \$1,500,000. It is evident, therefore, that to carry out the proposed plans will involve an expense of at least \$3,500,000 for real estate in addition to the estimated cost of construction which has been given above.

The expense of constructing Sections I., II. and III., with the acquisition of the real estate necessary for such construction, will reach the sum of \$11,000,000. To construct Sections I. and II., with the acquisition of the land needed for this purpose, avoiding the expense of widening Ashland place at the present time, would be:

For construction .....	\$4,500,000 00
For land, about .....	2,800,000 00

A total of..... \$7,300,000 00

We understand that the available funds for immediate use are less than either of these sums. It has been suggested that the expense of acquiring the land might be deferred for some time if it is taken by condemnation proceedings, but an obligation would be incurred immediately upon the vesting of title in the City, and the expense would be increased by 6 per cent. interest on the awards from the date of vesting title. If the land damage is included it would only be possible to authorize Section I. at the present time. This is a question for the Board to determine. Your Committee would, however, recommend that if Section I. only be authorized at the present time the Public Service Commission be asked to consider and advise the Board as to the practicability and desirability of the following changes:

1. Building that portion of Section II., between Willoughby street and Fulton street as planned, in order that the extension of Flatbush avenue may be completed and paved. Then modifying the plan for the portion of Fulton street, between Flatbush avenue and Ashland place by reducing the number of tracks and lessening the width of the construction so as to necessitate taking as little real estate as possible.

2. The construction at the present time of only two tracks on Ashland place or rearranging the proposed tracks so as to avoid the necessity and expense of acquiring the real estate necessary for widening that street, these tracks to be so arranged as to permit the construction of additional tracks when desired.

The present plans for Contracts II. and III. make necessary the acquiring of property which will cost from \$2,000,000 to \$4,000,000, which can be largely saved by modifying the plans so as to restrict the number of tracks to what is absolutely necessary for the continuation of the Fourth avenue subway.

The Committee seriously considered the suggestion made by the Comptroller, after consultation with the Public Service Commission, of having contracts submitted for excavation only of a part or the whole of the route to Forty-third street with the view of asking bids on the excavation only, as well as for completed sections. In view, however, of the Corporation Counsel's opinion that such contracts for excavation only for part or the whole route might be of doubtful legality under the present Rapid Transit Act, and that action by the Legislature changing the provisions of the statute would probably be necessary, the Committee does not feel that it can consider that course. This matter can be considered by the Public Service Commission and such additional powers asked from the Legislature as they may deem necessary.

The Comptroller thinks it probable that legislation suggested by the Public Service Commission will be obtained within a few weeks which will make it possible for the City to make an advantageous contract for the construction and operation of the Fourth avenue line in conjunction with the line now under construction in Centre street.

We would therefore recommend the immediate authorization of proposed Contract No. 1, and the reference back to the Public Service Commission of the remaining contracts for the consideration by the said Commission of the feasibility of the suggestions which are herein made.

Respectfully,

H. A. METZ, Comptroller.

F. K. PENDLETON, Corporation Counsel.

NELSON P. LEWIS,

Chief Engineer, Board of Estimate and Apportionment.

The following was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves the proposed form of contract submitted by the Public Service Commission for the First District, with a communication dated March 12, 1908, for the construction of a portion of the Manhattan Bridge route (revised), such section being known as "Manhattan Bridge No. 1," and being the route under the Flatbush avenue extension from Nassau street to Willoughby street, Borough of Brooklyn; and be it further

The President of the Borough of Brooklyn offered the following amendment by way of a substitute:

Second. No. 9-C-1—From a point near Willoughby street to Ashland place.

Third. Nos. 11-E-1 and 11-A-1—From Ashland place and Fulton street to Fourth avenue and Sackett street.

Fourth. No. 11-A-2—From Fourth avenue and Sackett street to Fourth avenue and Tenth street.

Fifth. No. 11-A-3—From Fourth avenue and Tenth street to Fourth avenue and Twenty-seventh street.

—and requests the Public Service Commission to advertise immediately for proposals on said contracts.

The President of the Borough of Manhattan offered the following as an addition to the amendment offered by the President of the Borough of Brooklyn, and which addition was accepted by the President of the Borough of Brooklyn:

The President of the Borough of Brooklyn moved that the addition to his resolution, as requested by the President of the Borough of Manhattan and accepted by him, be stricken out.

Which was adopted by the following vote:

Affirmative—The Acting President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—10.

Negative—The Mayor and the Comptroller—6.

The President of the Borough of Manhattan then requested that the resolution as offered by him, as an addition to the resolution offered by the President of the Borough of Brooklyn, be considered by unanimous consent.

Which was objected to by the Comptroller, and thereupon, under the custom of the Board, was laid over to be placed on the calendar for the next meeting.

The following matter not on the calendar for this day was considered by unanimous consent:

#### NEW YORK CENTRAL AND HUDSON RIVER RAILROAD COMPANY.

By resolution adopted January 17, 1908, the New York Central and Hudson River Railroad Company was requested to submit plans for the construction of a foot bridge over the tracks of the company at the intersection of Tenth avenue and Thirtieth street, Borough of Manhattan, and when such plans were approved by the Chief Engineer of this Board, the company was requested to construct such bridge within sixty days thereafter.

The Chief Engineer submitted the following agreement, proposed to be entered into with the company:

Agreement, made this day of March, in the year one thousand nine hundred and eight, between The City of New York, acting by its Board of Estimate and Apportionment, party of the first part, and the New York Central and Hudson River Railroad Company, a corporation organized and existing under the Laws of the State of New York, party of the second part,

Whereas, The party of the second part is the owner of a railroad operated by steam, and extending through Tenth avenue at the intersection of Thirtieth street, and through other streets in The City of New York, to St. Johns Park; and

Whereas, the Board of Aldermen of the party of the first part, at a regular meeting held on November 19, 1907, requested the Board of Estimate and Apportionment to authorize the Comptroller to issue Special Revenue Bonds in an amount not exceeding five thousand dollars (\$5,000) for the purpose of defraying the cost of the construction of an elevated foot bridge across Thirtieth street at Tenth avenue, over the tracks of the party of the second part; and

Whereas, By a resolution adopted by the Board of Estimate and Apportionment on January 17, 1908, the party of the second part was requested to submit plans for such structure to said Board, and the President of the Borough of Manhattan was authorized to issue a permit or permits for the erection of said bridge, when plans therefor had been duly approved by the Chief Engineer of the Board of Estimate and Apportionment; and

Whereas, The party of the second part has, pursuant to said request, duly prepared a plan for the construction of said foot bridge extending from the northeast corner of Tenth avenue and Thirtieth street to the southwest corner of Tenth avenue and Thirtieth street, and entitled "N. Y. C. & H. R. R. R. West Side Improvements, Foot Bridge at 10th Ave. and 30th St. New York City. New York, Feb. 10th, 1908. Approved, Geo. W. Kittredge, Chief Engineer, N. Y. C. & H. R. R. R. Co. Approved Board of Estimate and Apportionment, New York, March 1908. Nelson P. Lewis, Chief Engineer."

Now, therefore, this agreement witnesseth:

First—That the party of the second part, at the request of the party of the first part, agrees within sixty (60) days from the date hereof to construct for and as the contractor of the party of the first part, a foot bridge over Tenth avenue at Thirtieth street, with platforms and stairways, all as shown upon said plan, which said bridge shall be the property of the party of the first part, and be subject to its control and jurisdiction.

Second—The party of the second part agrees to defray the expense of said construction, and to maintain the said bridge in the future, subject to the control of the party of the first part.

Third—Nothing herein contained shall be construed as establishing any right or liability on the part of either of the parties hereto with reference to the erection of similar structures at other streets intersected by the tracks of the party of the second part.

Fourth—It is further understood and agreed that the party of the second part may place on said bridge, and maintain thereon, in such manner as not to interfere with traffic on said bridge, such signal service and apparatus as may, in the opinion of the General Manager of the party of the second part, or other officer having like authority, be necessary or desirable for the proper management and operation of the railroad of the party of the second part.

In witness whereof the party of the first part, acting by its Board of Estimate and Apportionment, has caused its corporate seal to be hereunto affixed and duly attested, and this instrument to be signed by its Mayor, and the party of the second part has caused its corporate seal to be hereunto affixed and this instrument to be signed by its President, the day and year first above written.

Chairman, Commissioners of the Sinking Fund.  
m30,a14

**PUBLIC NOTICE IS HEREBY GIVEN** that the Commissioners of the Sinking Fund, in accordance with the provisions of chapter 372 of the Laws of 1907, will hold a public hearing in Room 16, City Hall, Borough of Manhattan, at 11.05 o'clock in the forenoon, on

**TUESDAY, APRIL 14, 1908,**

relative to a plan adopted by the Commissioner of Docks March 2, 1908, for improving the waterfront of The City of New York, between Montgomery and Jackson streets, East River, and amending the former plan for improving this portion of the waterfront adopted by the Commissioners of the Sinking Fund April 27, 1871, and transmitted to the Commissioners of the Sinking Fund for approval.

A technical description of the proposed amendment is as follows:

It is proposed to amend the new plan determined by the Board of Docks April 13, 1871, and adopted by the Commissioners of the Sinking Fund April 27, 1871, between Montgomery and Jackson streets, East River, in accordance with the map submitted herewith in duplicate, as follows:

The six piers between Montgomery and Jackson streets, East River, including the pier at the foot of Montgomery street, shown on the new plan for improving the waterfront of The City of New York on the East River, determined by the Board of Docks April 13, 1871, and adopted by the Commissioners of the Sinking Fund April 27, 1871, are hereby discontinued.

The bulkhead line established on said new plan of 1871, extending from the westerly side of Corlears Hook Park and prolonged southerly to a point in said bulkhead line where a line drawn parallel with and 100 feet southerly from the northerly line of South street intersects the same, is hereby discontinued.

A new bulkhead line is hereby established 100 feet southerly from and parallel with the northerly line of South street, to extend westerly from the southerly prolongation of the westerly side of Corlears Hook Park to an intersection with the bulkhead line established in 1871 below Montgomery street.

A marginal street, wharf or place 30 feet in width is hereby established adjoining the southerly side of South street and adjoining said new bulkhead line, extending from the southerly prolongation of the westerly side of Corlears Hook Park southerly to the westerly side of Montgomery street.

A new pier 60 feet wide is hereby established at the foot of Montgomery street, with its easterly line extending southerly and at right angles from the said proposed bulkhead line at a point where the southerly prolongation of the easterly side of Montgomery street intersects said bulkhead line.

A new pier 70 feet wide is hereby established easterly of the preceding pier with its westerly line parallel with and distant 140 feet easterly from the easterly line of the last described pier at Montgomery street.

A new pier 70 feet wide is hereby established at the foot of Gouverneur slip, with its easterly line extending southerly or outshore at right angles from the said proposed bulkhead line at a point where the southerly prolongation of the easterly line of Gouverneur slip intersects said bulkhead line.

A new pier 60 feet wide is hereby established easterly of the preceding pier, with its westerly line parallel with and distant 120.62 feet easterly from the easterly line of the preceding described pier at the foot of Gouverneur slip.

A new pier 60 feet wide is hereby established easterly of the last described pier, with its westerly line parallel with and distant 106 feet easterly from the easterly line of the last described pier.

A new pier 60 feet wide is hereby established at the foot of Jackson street, with its easterly line extending southerly or outshore at an angle of 90 degrees from the said proposed bulkhead line at a point where the southerly prolongation of the westerly side of Corlears Hook Park intersects said bulkhead line.

A new pier 60 feet wide is hereby established westerly of the last described pier, with its easterly line parallel with and 140 feet westerly from the westerly line of the last described pier, at the foot of Jackson street.

All of the seven hereinbefore described new piers to extend from the said proposed new bulkhead line southerly and at right angles with said bulkhead line to the pierhead line established by the Secretary of War in 1890.

The Engineer of the Department of Finance, in his report to the Comptroller, states that the newly adopted plan reduces the width of the marginal street between Montgomery and Jackson streets 30 feet, making the combined width of the marginal street and South street 100 feet, which is wide enough.

The advantage of this plan is that large piers and greater wharfage length is provided than in the plan adopted in 1871, and he recommends its approval by the Commissioners of the Sinking Fund.

The plan as adopted by the Commissioner of Docks, together with his communication and the report of the Chief Engineer of the Department of Finance, approved by the Comptroller, are open to the inspection of any citizen, at the office of the Comptroller of the City of New York, No. 280 Broadway, Borough of Manhattan, at all times during business hours.

Chairman, Commissioners of the Sinking Fund.

## GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York, is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done.
