PETITIONS AND COMMUNICATIONS

No. 668.

New York Chapter,
American Institute of Architects,
New York, February 14, 1910.

Hon. JOHN PURROY MITCHEL, President of the Board of Aldermen, City of New York:

Sir—The New York Chapter has directed me to transmit to you a letter which has been addressed to the Hon. Jacob A. Cantor, Chairman of the Committee on Congestion of Population, setting forth the views of the Chapter in relation to City planning.

The Chapter wishes to protest against this particular form of a Commission to be appointed for the consideration of this matter, which, we understand, has been submitted to his Honor the Mayor, and begs to be allowed to present its views on the question in support of this protest.

I have the honor to remain,

Respectfully,

FRANK H. HOLDEN, Secretary.

New York Chapter,
American Institute of Architects,
New York, February 14, 1910.

Hon. JACOB A. CANTOR, Chairman, Committee on the Congestion of Population, New York City:

Sir—The New York Chapter of the American Institute of Architects is in receipt of a communication from your Committee asking that it co-operate with you in urging upon his Honor William J. Gaynor, Mayor of The City of New York, the appointment of an official committee to study the matter of congestion of population in this City, and also to prepare a definite plan for City development with a view of obviating the conditions which now prevail. This Chapter, having given careful consideration to what you propose, wishes to reply to your suggestion as follows:

The New York Chapter of the American Institute of Architects maintains the position it definitely stated at one of your conferences last year. It believes that no adequate result will ever be attained by the appointment of a commission outside of the City Government itself; the history of every such commission in the past is the production of many schemes, beautiful to look at and admirable in themselves were they possible of execution, but the actual result of the work of these previous commissions has been almost nil.

The New York Chapter of the American Institute of Architects considers it most important that a city plan for New York be prepared at a very early date, and further, that such a plan and the preliminary study leading up to its preparation should be made entirely by experts, civil engineers, architects and landscape engineers working in or attached to the City Departments eventually having in charge the execution of any such plan or scheme. The services of such a commission would not only consist of preparing such a plan as is proposed by your Committee but also would have in charge and under its consideration current schemes of City engineering as a whole, which of necessity would be contingent upon a City plan and its development.

The Chapter would welcome the opportunity to be of any possible service to the City in offering whatever material or information it has at its command for what the city officers may need in order to inaugurate such a scheme.

It is believed that the best results for the City can be obtained in the preparation and execution of this work only by a body like the Board of Public Improvements provided for in the amended Charter of The City of Greater New York, as submitted to the New York Legislature during its session of 1909. The Chapter feels strongly that the attitude herein announced is for the best interest of the City and it is the intention of the Chapter to present this point of view to his Honor the Mayor and to the Borough Presidents at the earliest possible date.

I have the honor to remain,

Respectfully,

FRANK H. HOLDEN, Secretary.

No. 669.

Copy of resolution adopted by the Real Estate Exchange of Long Island at a regular meeting held at its rooms, No. 353 Fifth avenue, New York City, March 22, 1910:

Whereas, The present transit facilities of The City of New York as apply to both the transportation of population and the transportation of freight are of such a nature as to cause a great congestion of enterprises employing the working class of the City and likewise a great congestion of their living conditions, and

Whereas, Such congestion of employment as well as of living accommodations is extremely detrimental to the health, life and morals of the City's inhabitants, resulting in a low health standard and an expenditure of more than ten million dollars a year by the Department of Health and the Department of Charities and also the public hospitals and institutions for the injured indigent, and many more millions for the suppression and prosecution of crime, which would be greatly reduced but for the congestion referred to, and owing to the remarkable rapidity with which this City is growing in population, said growth exceeding 200,000 per year at the present time, and

Whereas, Under the present transit facilities this population is compelled to bank itself up in the present highly congested areas, thus largely aggravating this deplorable condition year by year, and

Whereas, There has not been to the present time any concerted or intelligent effort made to relieve this deplorable condition and prevent its recurrence in other sections of the City not now so affected, therefore

Resolved, That the Real Estate Exchange of Long Island hereby request and urge upon the Board of Aldermen that said Board appoint a Commission to be known as the "Commission for the Prevention of Congestion of Population in New York City," as provided for by an ordinance introduced in that body and referred to the Committee on Laws and Legislation on Tuesday, February 1, 1910.

New York, April 2, 1910.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, City:

My Dear President Mitchel—I am deeply interested in the matter of the prevention of congestion in our City and beg to say that I hope that the resolution recently introduced in the Board of Aldermen to provide for the appointment of a Commission on the Prevention of Congestion will have your approval and support.

The serious evils that have grown up largely from lack of foresight in planning for the development of our City are so obvious that it seems as if the appointment of a Commission to prevent a repetition of these evils in the future would commend itself to all who have the interest of the City at heart.

Yours very truly,

GAYLORD S. WHITE.

Hon. JOHN PURROY MITCHEL, No. 25 Liberty Street:

My Dear Mr. Mitchel—I am very heartily in favor of the plan for the appointment of a Commission on the Prevention of Congestion of Population in New York City. I know of scarcely any other question so important as this, and there are several aspects of it which can be very appropriately considered by a municipal commission of this kind. Of course there are other aspects which can only be dealt with by State legislation.

I hope that the ordinance providing for the appointment of a commission will be passed by the Board of Aldermen.

Respectfully yours,

EDWARD T. DEVINE.

Dear Sir—The question of the congestion of population in New York City is becoming a very serious one, and I hope that you will use your influence in persuading the Board of Aldermen to adopt the proposed ordinance for the appointment of a Commission to consider the subject.

Yours respectfully,

COMMUNICATIONS FROM CITY, COUNTY AND BOROUGH OFFICERS.

The President laid before the Board the following communications from the Board of Estimate and Apportionment:

No. 675.

Board of Estimate and Apportionment,
Office of the Secretary,
April 1, 1910.

Hon. P. J. SCULLY, City Clerk and Clerk to the Board of Aldermen:

Dear Sir—I transmit herewith, for the information of the Board of Aldermen, copy of a communication from the Commissioner of the Department of Docks and Ferries, reporting on the resolution of the Board of Aldermen relative to the erection of a recreation pier at the foot of Gold street, Brooklyn, stating that it is deemed inadvisable to consider the construction of such a pier, owing to the existence of the large trunk sewer outlet at said point, but that the Department will take up and consider, as soon as possible, the question of building a recreation pier at a more suitable location in the vicinity of Gold street, which was presented at a meeting of the Board of Estimate and Apportionment held April 1, 1910, and copy thereof ordered sent to the Board of Aldermen.

At the meeting held January 21, 1910, the above resolution was referred to the Commissioner of the Department of Docks and Ferries for consideration and report.

Very truly yours,

JOSEPH HAAG, Secretary.

Pier "A," North River,
New York, March 22, 1910.

Hon. WM. J. GAYNOR, Mayor and Chairman of the Board of Estimate and Apportionment:

Sir—A contract has been prepared for widening and extending the pier at the foot of Gold street, Brooklyn, at an estimated cost of \$9,270.

The work, being new construction work, is chargeable against corporate stock appropriations, and the pier, as widened and extended, is intended to meet the demands for additional wharfage accommodations at the locality.

The old pier at the foot of Gold street was used by the Department of Street Cleaning, but was surrendered by that Department when the construction of a trunk sewer was undertaken. I am in receipt of a letter from the Commissioner of Street Cleaning stating that he does not desire the use of the premises, and it is therefore advisable to make the structure available for public wharfage purposes.

I respectfully request authorization for the advertising and award of this contract.

A resolution was recently adopted by the Board of Aldermen recommending to the favorable consideration of the Commissioner of Docks and the Board of Estimate and Apportionment the erection of a recreation pier at the foot of Gold street, and that resolution was referred to this Department by the Board of Estimate and Apportionment at a meeting held January 21, 1910. In this connection, I am of the opinion that it would be inadvisable to consider the construction of a recreation pier at the foot of Gold street, owing to the existence of the large trunk sewer outlet thereat.

The Department will take up and consider, as soon as possible, the question of whether a recreation pier could be built at a more suitable location in the vicinity of Gold street.

Yours respectfully,

CALVIN TOMKINS, Commissioner of Docks.

Which was ordered on file.

No. 676.

Board of Estimate and Apportionment,
Office of the Secretary,
April 4, 1910.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen:

Dear Sir—I transmit herewith certified copies of two resolutions adopted by the Board of Estimate and Apportionment April 1, 1910, relative to the issues of corporate stock, as follows:

Rescinding resolution adopted December 10, 1909, authorizing the issue of \$855,000 corporate stock to provide means for the acquisition, and expenses in connection therewith, of property located on the southwest corner of Sixteenth street and Irving place, Borough of Manhattan, for the use of the Health Department, Tenement House Department and the Bureau of Buildings, office of the President, Borough of Manhattan.

Authorizing the issue of \$780,000 corporate stock to provide means for the acquisition of the above mentioned property.

The resolution adopted December 10, 1909, authorizing the issue of \$855,000 corporate stock, as above, was transmitted to the Board of Aldermen December 13, 1909, but failed of action up to December 31, 1909.

I also transmit copy of report of the Comptroller relative to said resolutions, together with form of ordinance for adoption by the Board of Aldermen to indicate its concurrence in the resolution relative to the issue of \$780,000 corporate stock.

Yours very truly,

JOSEPH HAAG, Secretary.

March 29, 1910.

The Honorable the Board of Estimate and Apportionment:

Gentlemen—In the matter of the proposed purchase by The City of New York of the property on the southwest corner of Sixteenth street and Irving place, Borough of Manhattan, for the use of the Department of Health, Tenement House Department and the Bureau of Buildings, office of the President of the Borough of Manhattan, which was referred to the Comptroller for further investigation and report by the Board of Estimate and Apportionment at its meeting of March 4, 1910, I report as follows:

The Board of Health, under date of July 23, 1909, transmitted preamble and resolutions to the Board of Estimate and Apportionment in which attention was called to the fact that the lease of premises occupied by the Department of Health as its chief office at Nos. 963 to 969 Sixth avenue, Borough of Manhattan, terminated on the 1st day of May, 1909, and that it was deemed best for the interests of The City of New York not to renew this lease; that a proposition had been received from Mr. Reon Barnes, agent for the Kips Bay Realty Company, owners of the premises at the southwest corner of Irving place and Sixteenth street, Borough of Manhattan, consisting of a plot of land 100 feet in length on Sixteenth street and 123 feet and 9 inches in length on Irving place, upon which was in course of construction a twelve-story and basement steel, brick, terra cotta and reinforced concrete office building, to sell the site and building when completed to The City of New York for the sum of \$850,000; that the site and the amount stipulated for the purchase of the property met with the approval of the Board of Health, and necessary action was requested by the Board of Estimate and Apportionment and the Board of Aldermen for the issue of corporate stock in an amount not to exceed \$855,000 for the purchase thereof, and the approval of the Board of Estimate and Apportionment was asked confirming the selection of the site.

The minutes of the Board of Estimate and Apportionment show that on September 17, 1909, these requests were referred to the Comptroller for consideration and report.

At the meeting of the Board of Estimate and Apportionment of December 10, 1909, the then Comptroller, Hon. Herman A. Metz, submitted two communications, one over his own signature, under date of November 30, 1909, and a second, under date of December 7, 1909, being a report of the Appraiser of Real Estate of the Department of Finance with an accompanying memorandum to the Board of Estimate and Apportionment signed by Mr. Metz.

In the communication of November 30, 1909, Mr. Metz stated that he had been informed by the Real Estate Bureau that the market value of the land under consideration was \$275,000, and that the Engineers reported the value of the building to be \$450,000, making a total of \$725,000; that as this total value was very much less than the asking price named by the party trying to sell the property to the City, he, therefore, could not in accordance with the Charter deem the price to be reasonable and just. Mr. Metz submitted the matter to the Board of Estimate and Apportionment for such action as it might deem necessary and proper.

The communication of December 7, 1909, in that part prepared by the Appraiser of Real Estate, stated that two appraisals had been made upon the property, one by De Selding Brothers, who fixed a value of \$339,400, and the other by Mr. Frank A. Curry, who fixed a price of \$302,500. Accepting the appraisal of De Selding Brothers of the land at \$340,000 and the value of the building at \$450,000, the amount computed by the Real Estate Expert of the Department of Finance was \$790,000, or \$60,000 less than the price asked by the owners. The Real Estate Appraiser in this communication made no recommendation.

In the memorandum of former Comptroller Metz attached to the report of the Appraiser, Mr. Metz stated that taking all in all and making allowances for the difference of opinion of experts, he thought the land then was or soon would be worth \$350,000, as some of the expert appraisers fixed; that adding to this the actual cost of putting up the building, which was conceded to be \$400,000, a figure of \$800,000 was reached. In view of the fact that the City would obtain a completed building on an accessible site for a less sum than it could erect a similar building, and at a great saving of time, Mr. Metz believed the City would receive at a price of \$850,000 a fair bargain, and recommended the adoption of a resolution authorizing an issue of corporate stock to an amount not to exceed \$855,000 to provide for the purchase of the property and the expenses in connection therewith. This resolution was approved by the Board of Estimate and Apportionment, only the President of the Borough of Brooklyn voting in the negative. The resolution authorizing the selection of the site was approved at the same meeting, with the President of the Borough of Brooklyn and the Acting President of the Borough of Manhattan voting in the negative.

The resolution for the authorization of the corporate stock failed of action in the Board of Aldermen up to December 31, 1909, when that body adjourned sine die.

Under date of February 24, 1910, the Board of Health addressed a communication to the Board of Estimate and Apportionment requesting that the matter of the purchase of this property be taken up again in order that the purchase might be completed. The resolutions transmitted by the Board of Health referred to the experience of said Board in the matter of the continuation of the lease of its present location, calling attention to the fact that the owners of the property attempted to dispossess the Board, and only consented to withdraw the dispossession proceedings upon the consent of the City to pay an enormously increased rental, which now amounts to the sum of \$30,000 per annum. At this advanced rate the lease expires on May 1, 1910, and no provision has been made for housing the Department after that time. This request of the Board of Health is the matter which was referred to me by the Board of Estimate and Apportionment on March 4, 1910.

I have had several conferences with the representatives of the owners of the property at Irving place and Sixteenth street, and as a result of such conferences an offer has been made which seems to me to be favorable to the City. The Kips Bay Realty Company will sell the property to the City for \$775,000, a reduction of \$75,000 from the original price of \$850,000, providing the offer is promptly accepted.

The Board of Estimate and Apportionment having already adopted a resolution approving of the selection of the site, no further action is necessary in that respect. I submit herewith a resolution for adoption authorizing an issue of corporate stock to an amount not exceeding \$780,000, representing the purchase price of the property at \$775,000, and \$5,000 to cover whatever added expenses there may be in connection with the transaction.

Respectfully,

WM. A. PRENDERGAST, Comptroller.

Resolved, That the resolution adopted by the Board of Estimate and Apportionment December 10, 1909, which reads as follows:

Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter as amended, the Board of Estimate and Apportionment hereby approves of the issue of corporate stock of The City of New York to an amount not exceeding the sum of eight hundred and fifty-five thousand dollars (\$855,000), to provide means for the acquisition, and expenses in connection therewith, of property located on the southwest corner of Sixteenth street and Irving place, Borough of Manhattan, for the use of the Health Department, the Tenement House Department and the Bureau of Buildings, office of the President, Borough of Manhattan, and when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue corporate stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding eight hundred and fifty-five thousand dollars (\$855,000), the proceeds whereof to be applied to the purposes aforesaid.

—be and the same is hereby rescinded.

A true copy of resolution adopted by the Board of Estimate and Apportionment April 1, 1910.

JOSEPH HAAG, Secretary.

AN ORDINANCE providing for an issue of corporate stock of The City of New York in the sum of seven hundred and eighty thousand dollars (\$780,000), to provide means for the acquisition, and expenses in connection therewith, of property located on the southwest corner of Sixteenth street and Irving place, Borough of Manhattan, for the use of the Health Department, the Tenement House Department and the Bureau of Buildings, office of the President, Borough of Manhattan.

Be it Ordained by the Board of Aldermen of The City of New York, as follows:

Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment April 1, 1910, and authorizes the Comptroller to issue corporate stock of The City of New York to the amount and for the purposes therein specified:

The Honorable Board of Estimate and Apportionment:

Gentlemen—In the matter of the request of the Sergeants of the Police Department for an increase in their salaries, which request was referred by the Board of Estimate and Apportionment on January 7, 1910, to a Select Committee consisting of the Comptroller and President of the Board of Aldermen for consideration, your Committee respectfully submits the following report:

The present quota of Police Sergeants is 586, their present rate of compensation being \$1,500 each; the aggregate for the year is \$879,000. If their salaries should be fixed at \$1,750 each, the sum of \$1,025,500 would be required annually to pay them, the increased cost being \$146,500 per annum.

The Police Sergeants assert that the salary paid them is not commensurate with the services rendered by them or in keeping with the rank they hold. A Police Captain receives \$2,750 per annum, a Police Lieutenant receives \$2,250 per annum, the grade of the position at this rate having been established by the Board of Estimate and Apportionment on November 19 and concurred in by the Board of Aldermen on November 30, 1909. The salary previously paid was at the rate of \$2,000 per annum.

The maximum salary of a Patrolman is \$1,400 per annum. A Police Lieutenant receives \$750 per annum more than a Sergeant, while a Sergeant receives only \$100 per annum more than the maximum grade of Patrolman. The present salary of the Sergeants was fixed in 1894, sixteen years ago, when the position was designated as Roundsman. At that time the position was a detail position and no civil service examination was required for promotion from the ranks. A Patrolman has now to pass a competitive examination for promotion to a Sergeantcy.

The duties of a Sergeant are of an important character, as they relate to the discipline of the Patrolman on post. It is the duty of the Sergeants to see that the Patrolmen are performing their duties properly. The Sergeants must be familiar with the post of each Patrolman in their respective precincts. Fully ninety per cent. of the charges preferred against Patrolmen for infractions of the rules of the Police Department and neglect of duty are preferred by Sergeants. A Sergeant who performs the duties required of him, without fear or favor, is one of the best assets of the Police Department. While it is one of the most important and responsible positions in the Department, it is not the most popular one to hold. His duties, if rigidly adhered to, compel him to be a detective employed to see that Patrolmen are properly attending to their duties. Efficient Sergeants make Patrolmen efficient. It would seem that the position of Sergeant, with its responsibilities and its importance, should be established at a higher rate of pay than \$1,500 per annum.

In view of the facts stated herein, your Committee is of the opinion that the salary of a Police Sergeant should be increased from \$1,500 to \$1,750 per annum, and would recommend the adoption of the resolution hereto attached, which makes the grade operative on July 1, 1910.

Respectfully,

WM. A. PRENDERGAST, Comptroller;
JOHN PURROY MITCHEL, President, Board of Aldermen;
Select Committee.

Whereas, The Board of Estimate and Apportionment adopted the following resolution at a meeting held April 1, 1910:

Resolved, That, in accordance with the provisions of section 56 of the Greater New York Charter, the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen the establishment of the grade of the position of Sergeant of Police in the Department of Police, in addition to those already existing therein, with salary at the rate of seventeen hundred and fifty dollars (\$1,750) per annum, to take effect July 1, 1910.

Resolved, That the Board of Aldermen hereby approves of and concurs in the above resolution and fixes the salary of said position as set forth therein.

No. 678.

City of New York, Department of Finance,
Bureau of Municipal Investigation and Statistics,
March 18, 1910.

The Honorable Board of Estimate and Apportionment:

Gentlemen—In the matter of a communication from the President of the Municipal Civil Service Commission requesting the establishment of new grades for several positions in the office of the Commission, which was referred by the Board of Estimate and Apportionment to a Select Committee consisting of the Comptroller and the President of the Board of Aldermen for consideration, we would report as follows:

The new grades which it is proposed to establish are:

	Incumbents.	Per Annum.
Clerk	1	\$1,650 00
Clerk	1	1,050 00
Stenographer and Typewriter (additional).....	1	1,350 00
Stenographer and Typewriter.....	1	750 00

The salaries of the Clerks in the office of the Commission for the grades as now established range from \$300 to \$3,500 per annum. It is the purpose of the Commission, in requesting the establishment of a new grade at \$1,650 per annum for one incumbent, and \$1,050 per annum for one incumbent, to increase the salaries of one Clerk, now receiving \$1,500 per annum, to \$1,650 per annum, and to increase the salary of one Clerk now receiving a salary of \$900 per annum, to \$1,050 per annum.

Mr. John C. McGuire, President of the Commission, stated that the Clerks herein under consideration have been in the service for upward of seven years, are well qualified for their positions and are deserving of the increase contemplated.

At the present time there are eight Stenographers and Typewriters in the office of the Commission, two receiving \$1,500 each per annum, two \$1,350 each, two \$1,200 each, one \$1,050 and one \$900. Request is made for the establishment of an additional grade at \$1,350 and \$750, respectively. President McGuire stated that the Commission proposes to advance one Stenographer, now receiving \$1,200 per annum, to \$1,350. The Stenographer in question, he states, has received no increase in salary in over three years and has rendered excellent service. The President further states that the reason the Commission requests the establishment of an additional grade at \$750, for one incumbent, is that the increase in business of the office during the past year made necessary the appointment of an additional Stenographer.

The revised schedule of the Budget appropriation for 1910 for the office of the Municipal Civil Service Commission, as amended, contains an item of "unassigned balance" sufficient to provide for the additional grades which it is proposed to establish. In view of the facts submitted, we recommend that the request of the Commission be granted.

Respectfully,
WM. A. PRENDERGAST, Comptroller;
JOHN PURROY MITCHEL, President, Board of Aldermen;
Select Committee.

Whereas, The Board of Estimate and Apportionment adopted the following resolution at a meeting held April 1, 1910:

Resolved, That, in accordance with the provisions of section 56 of the Greater New York Charter, the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen the establishment of the following grades of positions in the office of the Municipal Civil Service Commission, in addition to those already existing therein:

	Incumbents.	Per Annum.
Clerk	1	\$1,650 00
Clerk	1	1,050 00
Stenographer and Typewriter (additional).....	1	1,350 00
Stenographer and Typewriter (additional).....	1	750 00

Resolved, That the Board of Aldermen hereby approves of and concurs in the above resolution and fixes the salaries of said positions as set forth therein.

The Honorable Board of Estimate and Apportionment:

Gentlemen—In the matter of a communication received from the Commissioner of Parks, Boroughs of Manhattan and Richmond, under date of February 28, 1910, requesting the establishment of the position of Chief Bookkeeper at \$2,800 per annum and Principal Assistant Engineer at \$2,500 per annum, which matter was referred to a Select Committee consisting of the Comptroller and the President of the Board of Aldermen for consideration, your committee submits the following report:

Provision was made in the Budget for the year 1910 for these positions, for the reason that on May 21, 1902, the Municipal Civil Service Commission, upon a request of the Park Commissioner, adopted a resolution changing the titles of John J. Odell from Clerk to Chief Bookkeeper, and William E. Richards from Assistant Engineer to Principal Assistant Engineer, the change being made so that the titles of the employees would be more descriptive of the duties performed by them.

These incumbents have appeared upon the payroll of the Park Department under these titles, and were paid for services rendered until February, 1910, when, installing the new card index system in the Department of Finance, it was found that the positions had never been established under section 56 of the Greater New York Charter, and in order that these employees might be paid, it would be necessary to modify the schedules supporting the appropriations made for Salaries in the Budget for the year 1910, by placing them under their old titles until such time as the position of Chief Bookkeeper and Principal Assistant Engineer could be established under section 56 of the Charter.

The Commissioner, in a communication under date of February 8, 1910, requested the necessary modification, which was referred to the Comptroller for consideration, and a favorable report upon the matter was presented to your Board at the meeting held February 25, 1910, at which meeting a resolution was adopted authorizing the change of titles.

Your committee is of the opinion that the grades of Chief Bookkeeper and Principal Assistant Engineer should be established so that the services rendered by the incumbents in question will be more descriptive of the actual duties performed by them, and will better comply with Rule 2, section 5 of the Municipal Civil Service Commission, which reads, in part, as follows:

"No person shall be appointed to or employed in any position in the classified service under any title or designation not appropriate to the duties he is regularly to perform."

In view of the facts stated herein, and the fact that the establishment of the grades entails no additional cost to the City, your committee recommends favorable consideration of the resolution hereunto appended.

Respectfully,
WM. A. PRENDERGAST, Comptroller;
JOHN PURROY MITCHEL, President, Board of Aldermen;
Select Committee.

Whereas, The Board of Estimate and Apportionment adopted the following resolution at a meeting held April 1, 1910:

Resolved, That, in accordance with the provisions of section 56 of the Greater New York Charter, the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen the establishment of the following positions in the Department of Parks, Boroughs of Manhattan and Richmond:

	Incumbents.	Per Annum.
Chief Bookkeeper	1	\$2,800 00
Principal Assistant Engineer.....	1	2,500 00

Resolved, That the Board of Aldermen hereby approves of and concurs in the above resolution and fixes the salaries of said positions as set forth therein.

No. 680.

City of New York, Department of Finance,
Bureau of Municipal Investigation and Statistics,
March 29, 1910.

The Honorable Board of Estimate and Apportionment:

Gentlemen—In the matter of a petition requesting that the salaries of Foremen and Assistant Foremen in the Fire Department be fixed at the same rates as those paid to Captains and Lieutenants in the Police Department, presented to your Board at its meeting held on January 7, 1910, and referred to a Select Committee consisting of the Comptroller and President of the Board of Aldermen for consideration, we report as follows:

Foremen and Assistant Foremen in the Fire Department are compensated at the rate of \$2,160 and \$1,800 per annum, respectively. The petition, which is endorsed by the Chief of the Department, requests that their salaries be increased to the same amounts as paid to Captains and Lieutenants in the Police Department, viz., \$2,750 and \$2,250, respectively, and its approval will result in an increase of \$325,070 in the yearly salary cost of the Department, based upon the 268 Foremen and 371 Assistant Foremen for whom provision is made in the Budget for 1910.

The salaries now paid to Foremen and Assistant Foremen are the same as paid in the former City of New York for some years previous to the formation of the present city; in the former City of Brooklyn the salaries paid in 1897 were \$1,900 and \$1,600, which were increased in the year 1900 to the rates now received.

While the salaries of the two classes of officers of the Fire Department under consideration are the same as paid for a number of years, their work has greatly increased through the development of the city, the records of the Department showing that the number of fires increased from 6,442 in 1898 to upwards of 13,000 in 1908, or over 100 per cent.; while the increase in the number of Foremen and Assistant Foremen has been considerably less in proportion. Another fact which enters into the consideration of the petition is the character of the work in which the Foremen and Assistant Foremen are engaged, which is as perilous, if not more so, than that of any other Department of the City government, and frequently results in permanent injury and not infrequently in death.

In view of the facts stated herein, your committee is of the opinion that the salaries of the Foremen and Assistant Foremen should be advanced to a point which will

be more commensurate with their responsible and dangerous duties as protectors of life and property, and therefore recommend the establishment of the grade of the position of Foreman in the Fire Department at \$2,500 per annum, an increase of \$340 over the present rate, and that of Assistant Foreman at \$2,100, an increase of \$300, involving an increase of \$202,420 over the present yearly salary cost, the same to take effect July 1, 1910. Resolution for adoption, in accordance with the recommendation, is attached hereto.

Respectfully,
WM. A. PRENDERGAST, Comptroller;
JOHN PURROY MITCHEL, President, Board of Aldermen;
Select Committee.

Whereas, The Board of Estimate and Apportionment adopted the following resolution at a meeting held April 1, 1910:

The Honorable Board of Estimate and Apportionment:

Gentlemen—In reference to a communication from the Sheriff of New York County dated February 28, 1910, requesting the establishment of the grades of positions of Engineer and Assistant Engineer be fixed at the rate of \$450 per day for two incumbents, which was referred to a Select Committee consisting of the Comptroller and the President of the Board of Aldermen for consideration and report, we report thereon as follows:

The Sheriff states that both the incumbents of the above positions have instituted suits against the City for the recovery of the difference in the rate they now receive of \$1,200 and \$900, respectively, and the prevailing rate for Engineers and Assistant Engineers, which is \$450 per day.

In view of the facts as herein stated, we would recommend the approval of the request of the Sheriff in accordance with the resolution hereto appended.

Respectfully,

JOHN PURROY MITCHEL, President, Board of Aldermen;

Whereas, The Board of Estimate and Apportionment adopted the following resolution at a meeting held April 1, 1910:

Engineer, at \$450 per diem (for one incumbent).
Assistant Engineer at \$450 per diem (for one incumbent).

The Honorable Board of Estimate and Apportionment:

Gentlemen—Referring to the communication addressed to your Honorable Board under date of January 6, 1910, by the President of the Borough of Queens requesting the establishment of the following grades of positions under his jurisdiction, viz:

Attendant, \$450 per diem; Attendant, \$4 per diem; Messenger, \$450 per diem; Messenger, \$4 per diem; Messenger, \$1,500 per annum.

—which was referred by your Board at the meeting held on January 14, 1910, to a Select Committee consisting of the Comptroller and the President of the Board of Aldermen, for consideration and report, we submit the following:

The President of the Borough of Queens says the establishment of the grades of the positions hereinbefore indicated is made necessary by the action of the Municipal Civil Service Commission in changing the titles of the positions of the employees affected from Foremen to Attendants and Messengers, in pursuance of the policy of said Commission to have the titles of all positions conform with duties of the incumbents. The establishment of the proposed grades of positions will involve no increase in the salary or wages heretofore paid.

The employees affected are as follows:

James Rourke, entered the service on March 26, 1901, and is engaged in the office of the Commissioner of Public Works in the performance of duties usually incumbent upon an Attendant; also, is employed in the filing of public documents.

Christian Berner, entered the service on February 19, 1907, and acts in the capacity of Attendant in the office of the Borough President.

William P. Buckley, entered the service on April 4, 1902, and performs the duties of a Messenger in the General Administration Division of the office of the Commissioner of Public Works. Being familiar with the procedure attending the execution of contracts, he is utilized in conveying contracts to various Bureaus, officials, Departments and surety companies for appropriate action, and in addition to his general duties as a Messenger is required to maintain an index of such contracts, and has charge of the cabinet for the filing of documents in connection therewith.

Jefferson J. Reilly, entered the service on June 12, 1902, and is employed in the office of the Engineer of Highways as a Messenger in conveying maps, documents, etc., between said office, the President's office, the Board of Estimate and Apportionment, Department of Finance and Topographical Bureau.

Michael J. Sullivan, entered the service on August 1, 1904, and is attached to the Topographical Bureau, as a Messenger, and, aside from his regular duties as such, is required to render services in connection with the making of necessary blueprints, his knowledge thereof being utilized when not otherwise employed.

John Hipple, entered the service on August 1, 1904, and performs duties ordinarily incumbent upon a Messenger; is engaged in such capacity in the Topographical Bureau and is also employed in the indexing and filing of maps and correspondence relating thereto.

It appears that the aforementioned employees have not received any compensation for the services rendered by them for several months past. The Borough President avers that the non-establishment of the grades of positions under consideration thereby precluding the payment of any moneys to said employees, has imposed upon them a great hardship; that they have remained loyally at their respective posts of duty, rendering satisfactory services in their several positions, in hopeful anticipation of favorable action by your Board upon the application herein considered. The Borough President further states that the retention of the hereinbefore named employees is absolutely necessary, as the services rendered by them are essential to the proper administration of the several bureaus or divisions under his jurisdiction. Excepting those employees mentioned herein, there are no other employees acting as Messengers or Attendants in the several offices and divisions in which the said employees are engaged.

In view of the facts stated herein, we recommend that the request of the President of the Borough of Queens be complied with, as per the resolution hereto attached.

Yours respectfully,
WM. A. PRENDERGAST, Comptroller;
JOHN PURROY MITCHEL, President, Board of Aldermen;
Select Committee.

Whereas, The Board of Estimate and Apportionment adopted the following resolution at a meeting held April 1, 1910:
Resolved, That, in accordance with the provisions of section 56 of the Greater New York Charter, the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen the establishment of the following grades of positions in the office of the President of the Borough of Queens, in addition to those already existing therein, viz.:

	Incum- bents.	Per Annum.
Messenger	2	\$1,500 00
		Per Diem.
Messenger	1	\$4 50
Messenger	1	4 00
Attendant	1	4 50
Attendant	1	4 00

Resolved, That the Board of Aldermen hereby approves of and concurs in the above resolution and fixes the salary and compensation of said positions as set forth therein.
Which were severally referred to the Committee on Salaries and Offices.

The President laid before the Board the following communications from the President, Borough of Queens:

No. 683.
The City of New York,
Office of the President of the Borough of Queens,
Long Island City, April 1, 1910.

The Honorable the Board of Aldermen of The City of New York:
Gentlemen—Pursuant to a resolution of the Sinking Fund Commission as of February 8, 1909, to wit:
Resolved, That the Commissioners of the Sinking Fund hereby directs the heads of Departments who desire the leasing of premises not heretofore leased or included in the statement presented to the Board of Estimate and Apportionment and included in the Budget, to make application to the Board of Aldermen for an issue of Special Revenue Bonds covering the amount of rent which the City will have to pay if the leases are authorized by the Commissioners of the Sinking Fund.
—application is hereby made for an issue of special revenue bonds to the amount of two thousand dollars (\$2,000), the proceeds whereof to be expended to pay the rent of a plot of ground 99.62 by 150 feet, at the southwest corner of State and Leavitt streets, Flushing, Borough of Queens, occupied by the Bureau of Highways and the Department of Water Supply, Gas and Electricity as a corporation yard since consolidation. This property was originally acquired by The City of New York under an old tax sale of the Village of Flushing. No rental has heretofore been paid by the City.
It becomes necessary, at this time, to enter into a lease, application for which is now pending before the Sinking Fund Commission.
By virtue of a judgment of the Supreme Court, the title to this property was vested in Mrs. Annie G. Callan from November 24, 1909. Resolution is herewith enclosed.
Respectfully yours,
LAWRENCE GRESSER, President, Borough of Queens.

Resolved, That the Comptroller of The City of New York be and he is hereby authorized, in accordance with subdivision 8, section 188 of the Greater New York Charter, to issue special revenue bonds to an amount not exceeding two thousand dollars (\$2,000), the proceeds whereof to pay the rental, for five (5) years, from November 24, 1909, of the following described property:
Plot of ground situate on the southwest corner of State and Leavitt streets, being 99.62 by 100 feet in size, in Flushing, Borough of Queens.
—occupied by the President of the Borough of Queens and the Department of Water Supply, Gas and Electricity, for corporation purposes.

No. 684.
The City of New York,
Office of the President of the Borough of Queens,
Long Island City, April 4, 1910.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen:
Dear Sir—In accordance with the provisions of section 188 of the Greater New York Charter, it is respectfully requested that your Honorable Board approve of and recommend to the Board of Estimate and Apportionment the necessary authorization for the issue of nineteen thousand and thirty dollars (\$19,030), special revenue bonds for necessary additional help required to care for and clean the new Queens County Court House.

The money requested is intended to be used for the payment of salaries and wages, from May 1, 1910, and as follows:

22 Female Cleaners, \$40 per month.....	\$7,040 00
10 Laborers, at \$2.50 per diem.....	5,050 00
2 Watchmen, at \$900 per annum.....	1,200 00
2 Elevatormen, at \$900 per annum.....	1,200 00
2 Telephone Operators, at \$900 per annum.....	1,200 00
1 Electrician, at \$4.50 per diem.....	1,095 00
2 Stationary Engineers, at \$4.50 per diem.....	2,245 00
	\$19,030 00

The force requested will be required to clean about 90,000 square feet of floor space, divided into 20 large and 63 small rooms and corridors, 400 windows, 100 glass panel doors, 7 public and 9 private toilets, 1 large and 2 small glass domes, 150 glass transoms, about 150 cuspidors and all furniture.
The appropriation for two additional Stationary Engineers is necessary for the reason that the Municipal Civil Service Commission has directed that it is a violation of the Civil Service Law to employ licensed Firemen to care for the boilers and apparatus at any time, and it is therefore absolutely necessary to employ these additional men in order that there may be three shifts of Engineers of eight hours each.
The Court House will be ready for occupancy on or about May 1, 1910, and it is, therefore, respectfully requested that your Honorable Board take action on this request as early a date as possible.
Yours respectfully,
LAWRENCE GRESSER, President, Borough of Queens.
Which were severally referred to the Committee on Finance.

The President laid before the Board the following communications from the Trustees of Bellevue and Allied Hospitals:

No. 685.
Board of Trustees, Bellevue and Allied Hospitals,
First Avenue and Twenty-sixth Street,
New York, March 30, 1910.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, New York City:
Sir—The Trustees of Bellevue and Allied Hospitals have the honor to request the Board of Aldermen to authorize the issue of special revenue bonds to an amount not exceeding \$800 for the purpose of meeting the rent of the premises No. 117 West One Hundred and Thirty-sixth street, which is proposed to be used for the accommodation of Nurses at Harlem Hospital. The annual rent is \$1,200, and it is believed that the Sinking Fund will authorize the lease of the premises. The appropriation requested is necessary to pay the rent for the balance of the present year.
Respectfully,
J. K. PAULDING, Secretary, Board of Trustees.

No. 686.
Board of Trustees, Bellevue and Allied Hospitals,
First Avenue and Twenty-sixth Street,
New York, March 30, 1910.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, New York City:
Sir—The Trustees of Bellevue and Allied Hospitals have the honor to request the Board of Aldermen to authorize the issue of special revenue bonds to an amount not exceeding \$20,000 for the purpose of constructing an extension to the psychopathic pavilion at Bellevue Hospital and a covered passageway leading from the admitting office of Bellevue Hospital to Pavilions A and B. Additional accommodations for the care of persons alleged to be insane are urgently needed, as the present facilities do not afford any segregation of the patients. There is only one ward for each sex, noisy and quiet patients alike. The covered passageway is required for the protection of the patients in stormy weather.
Respectfully,
J. K. PAULDING, Secretary, Board of Trustees.

The President laid before the Board the following communication from the County Clerk, New York County:

No. 687.
County Clerk's Office, County of New York,
New County Court House,
New York, April 4, 1910.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, City:
Dear Sir—I enclose a copy of a letter I received to-day from the Hon. Eugene H. Porter, State Commissioner of Health.
In order to bring the work referred to up to date a resolution was introduced in the Board of Aldermen recommending the issuing of \$10,000 in special revenue bonds, the proceeds to be used to pay the salaries of temporary clerks whom it is necessary that we should employ.
This resolution was referred to the Finance Committee and reported out last week, but has not been acted upon by the Board.
I appeared before the Finance Committee and explained the situation and cause of delay. I urged immediate action. In doing so, I have fully complied with the Health Commissioner's request and that absolves me from any charge of negligence in this matter.
In view of the fact that this resolution is before the Board of Aldermen I felt that I should advise you concerning the matter.
Yours very truly,
WM. F. SCHNEIDER, County Clerk.
April 1, 1910.

Mr. W. F. SCHNEIDER, County Clerk, New York City:
Dear Sir—It becomes my duty again to urge you to see that copies of all marriage records on file in your office not previously reported are filed with this Department without further delay.
You are a year behind in your returns, and the work of keeping our index work suffers correspondingly.
Inasmuch as there is no reasonable excuse for your local authorities having failed to provide the necessary help to insure prompt returns being filed with this Department, as required by law, unless some action is taken in the near future, and efforts made to see that the law is complied with, I shall be compelled to refer the matter to the District Attorney for prosecution.
Yours very truly,
EUGENE H. PORTER, Commissioner of Health.

Which was ordered on file.

REPORTS OF STANDING COMMITTEES.

Reports of Committee on Finance—

No. 380.

The Committee on Finance, to which was referred on March 1, 1910 (Minutes, page 616), the annexed request of the Commissioner of Street Cleaning for \$74,611.30 special revenue bonds to equip the Borough of The Bronx with additional force, respectfully

REPORTS:

That Commissioner Edwards twice appeared before the Committee in support of this request, the details of which are set forth therein. He stated that his Departmental estimate for 1910 had been cut to a large extent, and the only funds available against the proposed increase in force was an item of \$20,000 for ash removal, \$16,000 of which had been used principally owing to the severe snowfalls. The Committee believes that this Borough should receive the increased service which this change contemplates, but deducts from the amount requested one-tenth to cover the month of March already passed and the \$4,000 left on the ash removal account. It recommends that the accompanying resolution be adopted:

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of sixty-three thousand one hundred and fifty dollars (\$63,150), the proceeds whereof to be used by the Department of Street Cleaning for the purpose of providing additional force in the Borough of The Bronx.

Department of Street Cleaning, City of New York,
Nos. 13 to 21 Park Row,
New York, February 24, 1910.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, City of New York:

Sir—When the estimate was made up for the year 1910 there was included in the amount of money asked for enough increase in the Bronx appropriation to meet the conditions which have arisen during the past year, but this Budget allowance for the Borough of The Bronx was cut down and instead of the increase being allowed the total amount was decreased.

A new stable has been opened recently in the Borough of The Bronx and this stable must be properly equipped with officers, drivers, etc. Heretofore some of the collections of ashes, etc., in the Borough have been made under contract, but it is my desire to do this work with Department carts, as it can be done much more efficiently. This calls for more Drivers, Hostlers and Stablemen. The scarcity of Sweepers in the Borough of The Bronx has for several years been noticed and, owing to the fact that the streets are ever increasing in number and that the population also is increasing, for which we have to provide Department service, our force necessarily should be increased to meet the demands made upon the Department in that Borough.

I therefore request your Honorable Board to authorize, pursuant to subdivision 8 of section 188 of the Charter, in conjunction with the Board of Estimate and Apportionment, the issue of special revenue bonds to the amount of seventy-four thousand six hundred and eleven dollars and thirty cents (\$74,611.30) to meet the conditions which I have described in the Borough of The Bronx.

An itemized statement of this request follows. This request conforms practically to my estimate for 1910 for The Bronx:

Salaries and Wages, Division of Sweeping—	
1 Assistant to Section Foreman.....	\$900 00
50 Sweepers, at \$780 each.....	39,000 00
Sweepers' extra pay for Sundays, at 25 cents per hour....	2,600 00
	\$42,500 00
Salaries and Wages, Division of Carting and Stable—	
1 Stable Foreman	\$1,500 00
1 Assistant Stable Foreman	1,000 00
3 Assistants to Stable Foreman, at \$900 each.....	2,700 00
35 Drivers, at \$800 each.....	28,000 00
Drivers' extra pay for Sundays, at 25 cents per hour.....	1,820 00

6 Hostlers, at \$800 each.....	4,800 00
Hostlers' extra pay for Sundays, at \$2.30 each.....	717 60
8 Stablemen, at \$760 each.....	6,080 00
Stablemen's extra pay for Sundays, at 25 cents per hour..	416 00
	<u>47,033 60</u>

Total for one year \$89,533 60

For ten months (March 1 to December 31, 1910)..... \$74,611 30

Respectfully,
WM. H. EDWARDS, Commissioner.

Under Rule 21, consideration of this report was deferred. Subsequently Alderman Dowling moved the adoption of this report.

No. 590.

The Committee on Finance, to which was referred on March 22, 1910 (Minutes, page 1199), the annexed request of the Commissioner of Public Charities for \$340,272.31 special revenue bonds to meet deficit in 1910, respectfully

REPORTS:

That Commissioner Drummond appeared before the Committee and stated that in the item of supplies alone the Budget allowance for 1910 had been cut \$172,000 from the amount requested. He submitted tables hereto annexed, showing large increase annually in the number of inmates in the various institutions under the care of his Department for the past eight years, and also increases in the market value of supplies based on a list of twenty staples, showing an increase over 1909 of 114-10 per cent. He stated that this Department had a similar deficit in 1909 when the cost for supplies had been \$208 per inmate, while the Budget allowance was \$175 per inmate. The Committee believes the amount asked for to be a necessity, and recommends that the accompanying resolution be adopted.

Resolved, That in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the

amount of three hundred and forty thousand two hundred and seventy-two dollars and thirty-one cents (\$340,272.31), the proceeds whereof to be used by the Department of Public Charities for the purpose of meeting deficits in 1910 accounts.

The Committee on Finance, to which was referred on March 22, 1910 (Minutes, page 1204), the annexed request from the Coroner of the Borough of Richmond for an appropriation for an automobile, respectfully

REPORTS:

That, having examined the subject, it believes the proposed automobile to be necessary; this matter has been already reported favorably by this Committee, the amount for such machine being fixed by the Coroner at \$2,500, but the resolution failed of passage before the Board. The Committee recommends that the accompanying resolution be adopted.

Resolved, That in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of two thousand five hundred dollars (\$2,500), the proceeds whereof to

be used by the Coroner, Borough of Richmond, for the purpose of purchasing an automobile.

FRANK L. DOWLING, WM. J. HEFFERNAN, FRANCIS P. KENNEY, JOHN F. WALSH, THOMAS J. McALEER, DANIEL EHNTOLT, CHARLES P. COLE, Committee on Finance.

Coroner's Office, Borough of Richmond,
New Brighton, N. Y., March 14, 1910.

Hon. JOHN PURROY MITCHEL, City Hall, New York City:

Dear Sir—Following out our conversation of the other day, relative to additional facts why the Coroner's office of the Borough of Richmond should have an automobile, I beg to submit the following:

There are sixty-eight square miles of territory that the Coroner must cover in the Borough of Richmond in the least possible time. A greater part of the territory is inaccessible by transit facilities, and after 1 o'clock at night all transit facilities are practically shut down and the only means of satisfactory transportation would be an automobile.

We have on Staten Island three large fireworks manufactories, the large Proctor & Gamble Soap Works employing 400 men, Milliken Brothers Iron Works employing 600 men, the Linoleumville Manufacturing Company employing 700 men, the S. S. White Dental Works employing about 600 men, the DeJonge Paper Mills, several shipbuilding companies, in all of which the work is more or less of a hazardous nature and serious accidents are frequently occurring. Many of these concerns are located in extreme parts of the island, and in case of accident the only prompt way for the Coroner to get to the scene is by aid of an automobile.

In the summer time Staten Island is a mecca for thousands of summer excursionists who visit our numerous bathing beaches and there is constantly occurring fatalities at these resorts. In drowning cases it is not very pleasant for bodies to lay on the beach to be gazed at by thousands of people awaiting the arrival of the Coroner. It has frequently happened, however, that bodies have lain several hours owing to the inability of the Coroner to arrive on the scene because of lack of traveling conditions.

In addition to this, Staten Island, owing to its location, is a receiving basin for drowned bodies from New Jersey, North River, East River and the Boroughs of Manhattan and Brooklyn, and during the course of a year the Coroner is called upon to care for quite a number of these unfortunates. Aside from these drowning cases which usually come from distant shores, within the Borough proper the Coroner has some three hundred cases yearly to look after.

In view of the facts here presented I think you will agree with me that for the prompt and efficient conduct of the office of the Coroner in this Borough an automobile is a necessity, and believing that this administration is desirous of doing business in a business way I am certain that the Board of Aldermen will lend its assistance toward making the Coroner's office of the Borough of Richmond up to date and efficient by having the appropriation asked for made.

Yours respectfully,

WM. H. JACKSON, Coroner.

Under Rule 21, consideration of this report was deferred. Subsequently Alderman Dowling moved the adoption of this report.

Alderman Johnson moved that the resolution be amended by striking therefrom the words and figures "two thousand five hundred dollars (\$2,500)" and inserting in lieu thereof the words and figures "One thousand eight hundred dollars (\$1,800)."

Which motion was agreed to.

The President then put the question whether the Board would agree to accept such report and adopt said resolution as amended.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Baldwin, Barton, Becker, Bolles, Boschen, Brady, Brush, Campbell, Carberry, Cole, Cornell, Cunningham, Davis, Delaney, Desmond, Diemer, Dotzler, Dowling, A. S. Drescher, W. That, having examined the subject, it believes the proposed increase in the wages of the Cook, who, it is informed, is the baker for three institutions, be allowed, it being but \$10 per month, but it does not feel that the Physician should be allowed to accept a reduction of \$250 per annum and thus, perhaps, keep a much more competent man from taking the place. Report of Committee on Police—

No. 420.

The Committee on Police, to which was referred, on March 1, 1910 (Minutes, page 680), the annexed resolution requesting the Commissioner of Police to abolish the rule now in vogue requiring Patrolmen of the Borough of The Bronx to ring the Police signal at intervals of every hour, respectfully

REPORTS:

That, having examined the subject, it recommends that the said resolution be adopted.

Resolved, That the Board of Aldermen of The City of New York request the Commissioner of Police to abolish the rule now in vogue requiring Patrolmen of the Borough of The Bronx to ring the Police signal at intervals of every hour; and be it further

Resolved, That for the better protection of property, both real and personal, and for the public in general, that the reason for this action is based on the following practical and just facts:

The districts assigned to Patrolmen in the suburban section cover a very large area, and in the event a Patrolman about due to ring the box should discover a suspicious character he would be unable to shadow him until he had given the station the required signal; again, if a burglar should plan to rob a place in the vicinity of the signal box he could watch until the Patrolman would ring, and could then feel safe that it would be another hour before he would return; the same would also apply to a hold-up case.

By this system the taxpayers of this particular section are not getting the proper protection; it is a case of the Patrolman watching the Police signal instead of watching his beat.

Which resignation was accepted.

GENERAL ORDERS.

Alderman Becker called up General Order No. 16, Introductory No. 402, which, on motion of Alderman Dowling, was laid over for one week.

Alderman Becker called up General Order No. 13, being a report and resolution, as follows:

No. 462.

The Committee on Finance, to which was referred on March 8, 1910 (Minutes, page 1004), the annexed resolution in favor of an issue of \$5,000 special revenue bonds for Department of Water Supply, Gas and Electricity to provide means for purchase of a motor boat with which to detect water thieves, respectfully

REPORTS:

That, Deputy Commissioner Bemis informed the Committee that it was the intention of the Department to sell the yacht now in commission which required a crew of eight men, and purchase a motor boat requiring a crew of but three men. That the yacht would sell for almost the cost of the proposed motor boat, and the latter would be much better adapted for the purpose for which it is to be used, besides the saving of two-thirds in maintenance. The Committee recommends that the said resolution be adopted.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and is hereby required to authorize the Comptroller to issue special revenue bonds to the amount of five thousand dollars (\$5,000), the proceeds whereof to be used by the Commissioner of Water Supply, Gas and Electricity for the purchase of a motor patrol boat.

FRANK L. DOWLING, WM. P. KENNEALLY, WM. J. HEFFERNAN, JOHN F. WALSH, FRANCIS P. KENNEY, DANIEL EHNTHOLT, THOS. J. McALEER, TRISTAM B. JOHNSON, Committee on Finance.

The President put the question whether the Board would agree to accept such report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Baldwin, Barton, Becker, Bolles, Boschen, Brady, Brush, Campbell, Carberry, Cole, Cornell, Cunningham, Davis, Delaney, Desmond, Diemer, Dotzler, Dowling, Downing, W. Drescher, Dujat, Eichhorn, Esterbrook, Fagan, Fink, Finley, Finnigan, Folks, Gaynor, Godwin, Grimm, Hamilton, Heffernan, Herbst, Hickey, Hoertz, Johnson, Kenneally, Kenney, Levine, Loos, McAleer, Markert, Marx, Meagher, Mulhearn, Nicoll, Nugent, Reardon, Shipley, Snell, Townen, Volkman, Van Nostrand, Walsh, Weston, White, Willard, President Cromwell, President Gresser, President Miller, President Steers, President McAneeny and the Vice-Chairman—64.

Alderman Bolles called up General Order No. 14, being a report and resolution, as follows:

No. 474.

The Committee on Finance, to which was referred on March 8, 1910 (Minutes, page 1015), the annexed request from the Commissioner of Street Cleaning for \$10,000 special revenue bonds for dredging in and around Departmental dumps, respectfully

REPORTS:

That the details of this application are partially set forth in the letter of the Commissioner of Street Cleaning. The Dock Commissioner was requested by the Committee to state why this work was not to be done out of his appropriation as heretofore and his reply is annexed. Commissioner Edwards explained that it was impossible to estimate the amount needed with exactitude. The Committee recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of ten thousand dollars (\$10,000), the proceeds whereof to be used by the Commissioner of Street Cleaning for the purpose of dredging in and around Departmental dumps.

FRANK L. DOWLING, WM. P. KENNEALLY, W. J. HEFFERNAN, JOHN F. WALSH, DANIEL EHNTHOLT, THOS. J. McALEER, Committee on Finance.

Department of Street Cleaning, City of New York,

Nos. 13 to 21 Park Row.

New York, March 4, 1910.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, City of New York:

Sir—I find that it will be necessary to do a great deal of dredging during this year in and about the various water-front dumps of this Department in the Boroughs of Manhattan and The Bronx. Heretofore this work was always done for this Department by the Department of Docks and Ferries, but I am now informed by that Department that it declines to continue that policy for the reason that it is required to follow closely its Budget in all of its outlay, and as this sudden change of policy on the part of the Department of Docks and Ferries was not foreseen, no provision for this expense was made by this Department in its Budget for 1910.

It is estimated that the amount required for the year 1910 for this work of dredging will be about ten thousand dollars (\$10,000), and I therefore request your

Board, pursuant to subdivision 8 of section 188 of the Greater New York Charter, to recommend to the Board of Estimate and Apportionment the issue of revenue bonds to the amount of ten thousand dollars (\$10,000), to meet the expense of dredging the waters in and about the dumps of this Department in the Boroughs of Manhattan and The Bronx for the year 1910.

Respectfully,

WM. H. EDWARDS, Commissioner.

The President put the question whether the Board would agree to accept such report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Baldwin, Barton, Becker, Bolles, Boschen, Brady, Brush, Campbell, Carberry, Cole, Cornell, Cunningham, Davis, Delaney, Desmond, Diemer, Dotzler, Dowling, Downing, A. S. Drescher, W. Drescher, Dujat, Ehntholt, Esterbrook, Fagan, Fink, Finley, Folks, Godwin, Hamilton, Hannon, Heffernan, Herbst, Hickey, Hoertz, Kenneally, Kenney, Levine, Loos, McAleer, McCann, Markert, Marx, Mulhearn, Nicoll, Nugent, Reardon, Schloss, Shipley, Smith, Snell, Sohmer, Stapleton, Townen, Volkmann, Van Nostrand, Walsh, Wendel, Weston, Willard, President Cromwell, President Gresser, President Steers, President McAneny and the Vice-Chairman—65.

Alderman Bolles called up General Order No. 17, being a report and resolution, as follows:

No. 523.

The Committee on Finance, to which was referred on March 15, 1910 (Minutes, page 1101), the annexed ordinance in favor of an issue of \$5,000 corporate stock for plans to eliminate railroad grade crossings in the Borough of Richmond, respectfully

REPORTS:

That, having examined the subject, it believes the proposed issue to be necessary in order that the cost of this work may be kept separate, although done by the regular force, so that the same may be assessed pro rata on the State and the railroad company. President Cromwell informed the Committee that these grade crossings were very dangerous. The Committee recommends that the said ordinance be adopted.

AN ORDINANCE providing for an issue of corporate stock of The City of New York in the sum of five thousand dollars (\$5,000), for the purpose of defraying expenses of making studies and plans for the elimination of grade crossings of steam railroads in the Borough of Richmond.

Be it Ordained by the Board of Aldermen of The City of New York, as follows:

Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment March 11, 1910, and authorizes the Comptroller to issue corporate stock of The City of New York to the amount and for the purposes therein specified:

Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, the Board of Estimate and Apportionment hereby approves of the issue of corporate stock of The City of New York, to an amount not exceeding five thousand dollars (\$5,000) for the purpose of defraying the expense of making studies and plans for the elimination of grade crossings of steam railroads in the Borough of Richmond, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue corporate stock of The City of New York in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding five thousand dollars (\$5,000), the proceeds whereof to be applied to the purposes aforesaid.

FRANK L. DOWLING, WM. P. KENNEALLY, CHARLES P. COLE, WILLIAM J. HEFFERNAN, FRANCIS P. KENNEY, JOHN F. WALSH, THOS. J. McALEER, MICHAEL STAPLETON, DANIEL EHNTHOLT, TRISTAM B. JOHNSON, Committee on Finance.

The President put the question whether the Board would agree to accept such report and adopt said ordinance.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Baldwin, Bolles, Boschen, Brady, Brush, Campbell, Carberry, Cole, Cornell, Cunningham, Davis, Delaney, Desmond, Dowling, W. Drescher, Dujat, Ehntholt, Esterbrook, Fink, Finley, Folks, Godwin, Hamilton, Hannon, Heffernan, Herbst, Hickey, Johnson, Kenneally, Kenney, Levine, McAleer, Markert, Marx, Mulhearn, Nicoll, Nugent, Reardon, Shipley, Smith, Snell, Townen, Volkmann, Van Nostrand, Walsh, Wendel, Weston, White, Willard, President Cromwell, President Gresser, President Steers and President McAneny—51.

Alderman Boschen called up General Order No. 19, being a report and resolution, as follows:

No. 600.

The Committee on Public Letting, to which was referred on March 22, 1910 (Minutes, page 1236), the annexed resolution in favor of permitting the President of the Borough of Manhattan to purchase automobiles without public letting to an amount not exceeding \$16,000, respectfully

REPORTS:

That President McAneny appeared before the Committee and stated that it was proposed to use these autos as substitutes for the horses and wagons and autos now in use which it cost \$34,000 to maintain in 1909, whereas it was estimated that the autos could be maintained at a cost of \$25,000 per annum. That there is now but one auto left in his Department capable of service and that one is rapidly falling to pieces. These cars are to be purchased out of the appropriation for supplies for 1910. That this method of purchase enables a much better selection to be made. That it is proposed to buy one car for the President and Public Works Commissioner for \$4,000, one for Bureau of Buildings at \$3,000, one truck for supplies at \$3,000, two at \$2,000 each and two at \$1,000 each, being for use of the Bureaus of Highways and Sewers. That this would do away with 11 or 12 buggies. The Committee recommends that the said resolution be adopted.

Resolved, That, pursuant to section 419 of the Greater New York Charter, the President of the Borough of Manhattan be and he is hereby authorized to purchase, without public letting, automobiles for the uses of the several Bureaus under his jurisdiction, the total expense not to exceed the sum of sixteen thousand dollars (\$16,000).

FRANCIS P. BENT, JAMES J. SMITH, JOHN McCANN, ALEXANDER S. DRESCHER, JOHN F. WALSH, MAX S. LEVINE, Committee on Public Letting.

The President put the question whether the Board would agree to accept such report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Baldwin, Barton, Becker, Bolles, Boschen, Brady, Brush, Campbell, Carberry, Cornell, Cunningham, Davis, Delaney, Desmond, Dotzler, Dowling, Downing, A. S. Drescher, W. Alderman Boschen called up General Order No. 18, being a report and resolution, as follows:

No. 573.

The Committee on Finance, to which was referred on March 15, 1910 (Minutes, page 1179), the annexed resolution in favor of an issue of \$750 special revenue bonds for emergent hire of Interpreters in the City Magistrates' Court, Second Division, First District, Borough of Richmond, during 1910, respectfully

REPORTS:

That, having examined the subject, it believes the proposed issue to be necessary. The Judges of this Court have submitted the attached statement urging favorable action. A resolution for this amount was passed in 1909. The Committee understands that this allowance was omitted from the Budget because of its emergent character. It therefore recommends that the said resolution be adopted.

Resolved, That in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of seven hundred and fifty dollars (\$750), the proceeds whereof to be used by the City Magistrates, Second Division, for the purpose of paying for the services

of Interpreters in the City Magistrates' Court, Second Division, First District, Borough of Richmond, during the year 1910.

FRANK L. DOWLING, WM. P. KENNEALLY, CHARLES P. COLE, WILLIAM J. HEFFERNAN, FRANCIS P. KENNEY, JOHN F. WALSH, THOS. J. McALEER, MICHAEL STAPLETON, DANIEL EHNTHOLT, Committee on Finance.

City Magistrates' Court, First District,

Second Division, City of New York,

New Brighton, S. I., March 28, 1910.

Finance Committee, Board of Aldermen, City of New York:

Gentlemen—The undersigned are the only City Magistrates in the Borough of Richmond. We have but one Interpreter for both Courts. He speaks only the German and English languages. Italian speaking foreigners are by far the largest percentage of foreigners who come to our Courts as litigants and witnesses. We need a fund out of which to pay such an Interpreter so that we shall not have to call upon bootblacks, barbers or anybody else that will come and interpret.

For the past two years we have been able to get an appropriation of seven hundred and fifty dollars (\$750) for that purpose and to employ an Interpreter per diem under Civil Service Rule 12. The need is greater now than ever before because there are more Italian cases than ever before.

We jointly request that you authorize the issuing of special revenue bonds to the amount of seven hundred and fifty dollars (\$750) for the purpose of employing an Interpreter upon a per diem basis in the City Magistrates' Court, Borough of Richmond.

Yours truly,

JOSEPH B. HANDY,

City Magistrate, First District, Borough of Richmond;

NATHANIEL MARSH,

City Magistrate, Second District, Borough of Richmond.

The President put the question whether the Board would agree to accept such report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Baldwin, Barton, Becker, Bolles, Boschen, Brady, Brush, Campbell, Carberry, Cole, Cornell, Cunningham, Davis, Delaney, Desmond, Diemer, Dotzler, Dowling, A. S. Drescher, W. Alderman Brady called up General Order No. 20, being a report and resolution, as follows:

No. 466.

The Committee on Finance, to which was referred on March 8, 1910 (Minutes, page 1007), the annexed resolution in favor of an issue of \$1,182.50 special revenue bonds to provide means for purchase of ten new book typewriting machines for office of Clerk of Queens County, respectfully

REPORTS:

That the details of this application are set forth in the letter of request. Deputy County Clerk O'Connell appeared before the Committee and urged the passage of the resolution, stating that it was much more economical to purchase new machines than repair the ones now in use, which were from five to twelve years in service. The Committee recommends that the accompanying substitute resolution be adopted.

(SUBSTITUTE.)

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of one thousand one hundred and eighty-two dollars and fifty cents (\$1,182.50), the proceeds whereof to be used by the County Clerk, Queens County, for the purpose of providing means for the purchase of ten new book typewriting machines.

(ORIGINAL.)

Resolved, That, in pursuance of subdivision 8, section 188 of the Charter, the Comptroller of The City of New York be and he hereby is authorized and empowered to issue special revenue bonds of The City of New York in the sum of \$1,182.50 for the purpose of purchasing ten new book typewriting machines for use in the office of the County Clerk of Queens County.

Office of the County Clerk of Queens County,

Jamaica, Borough of Queens,

New York, March 2, 1910.

To the Honorable the Board of Aldermen of The City of New York, Aldermanic Chamber, City Hall, New York:

Gentlemen—I hereby make application for the issue of special revenue bonds for the sum of \$1,182.50 with which to purchase ten new book typewriting machines for use in this office.

These machines are to replace ten old machines now here which have outlived their usefulness, and as it will cost at least fifty dollars apiece to repair these machines, I have deemed it advisable and in the interest of public economy to ask for this appropriation.

These machines cost \$145 each, and the manufacturer has agreed to allow the sum of \$267.50 for the ten old machines, which would make the net cost for the ten new ones the sum of \$1,182.50, as follows:

Ten machines at \$145 each.....	\$1,450 00
Allowance for old machines.....	267 50

Amount requested.....	\$1,182 50
-----------------------	------------

I therefore urge the adoption of the enclosed resolution.

Respectfully yours,

MARTIN MAGER, County Clerk.

State of New York, County of Queens, ss.:

Charles F. O'Donnell, being duly sworn says that he is an assistant in the office of the County Clerk of Queens County, New York.

That under instructions from Martin Mager, the County Clerk, he called at several places in the City of New York where typewriting machines are sold and sought prices and information regarding machines for typewriting in bound books for use in the said Clerk's office. That at all the places he called he was informed that the only concern that manufactured or sold typewriting machines for use on bound books was the Elliott-Fisher Company.

That several of these manufacturers handled machines for typewriting in loose leaf books, but only the one concern for bound books.

That the prices of these machines from the Elliott-Fisher Company is one hundred and forty-five dollars (\$145).

CHARLES F. O'DONNELL.

W. L. Dench, being duly sworn, says that he is Secretary of Elliott-Fisher Company, in the City of New York. That said company manufactures and sells typewriting machines for both loose leaf books and for bound books. That it is the only company that manufactures machines for typewriting in bound books, to the best of the deponent's information and belief, and has exclusive patent rights on certain parts of these machines.

That deponent has been Secretary of and connected with the said company for several years last passed, and during that time has not heard of any concern in the State of New York that manufactures a machine of this kind for this purpose.

That the prices of these machines, as quoted to the County Clerk, are one hundred and forty-five dollars (\$145) each, the prices at which they have been sold in the past and the present market price.

No. 699.

By Alderman A. S. Drescher—

Whereas, The Board of Estimate has in its wisdom seen fit to recognize the hazardous services, the long hours and the devotion to duty of the Foremen and Assistant Foremen in the Fire Department by an increase in the salaries of these two grades.

Whereas, The previous administration in its last year provided a substantial increase in the salary of the ranking officer of the Fire Department as indicative of its appreciation of the high standard of efficiency which he established in the Department, especially in the Boroughs of Manhattan, The Bronx and Richmond.

Whereas, The efficiency of the Deputy in Brooklyn and Queens is maintained on an equally high standard by the Deputy Chief in charge. Upon him rests the responsibility of the entire uniformed force of the two Boroughs. The territory which he is called upon to cover in the discharge of his duties embraces an area of 194½ square miles, as compared to the 126 square miles which is the area of Manhattan, The Bronx and Richmond. The efficient manner in which he has performed these duties, as well as the excellent discipline which he has maintained among the members of the uniformed force has received the highest commendation of the press and the civic organizations in Brooklyn and Queens.

Whereas, The consensus of opinion in Brooklyn and Queens is that some appreciation should be shown to the Deputy Chief in charge of these two Boroughs for his efficient and faithful service in the interests of the City, and that this appreciation should be commensurate with the vast responsibilities of his official position, it is hereby

Resolved, That in the opinion of the Board of Aldermen the grade of Deputy Chief in charge of Brooklyn and Queens should be fixed at \$7,500 per annum, and that the Board of Aldermen respectfully requests the Board of Estimate to refer this preamble and resolution to its Committee on Salaries, consisting of the Comptroller and the President of the Board of Aldermen, so that the Committee may examine and

investigate the facts therein contained and make such recommendations as it sees fit in pursuance of section 56 of the Charter; and be it further

Resolved, That a copy of this preamble and resolution be also forwarded to the Fire Commissioner and he is respectfully requested to confer with the Committee on Salaries of the Board of Estimate when the Committee undertakes the consideration of this resolution.

Alderman Esterbrook moved that this resolution be referred to the Committee on Salaries and Offices.

The President put the question whether the Board would agree with said motion. Which was decided in the negative by the following vote:

Affirmative—Aldermen Becker, Bolles, Brady, Brush, W. Drescher, Esterbrook, Fagan, Folks, Gaynor, Grimm, Johnson, Markert, Mulhearn and Willard—14.

Negative—Aldermen Baldwin, Campbell, Carberry, Cole, Cornell, Cunningham, Delaney, Diemer, Dowling, Downing, A. S. Drescher, Dujat, Eichhorn, Fink, Hoertz, Kenneally, Meagher, Schloss, Smith, Snell, Solmer, Stapleton, Townen, Walsh, White and the Vice-Chairman—26.

Resolved, That all employees of The City of New York who are Exempt Veteran or Active Volunteer Firemen, be allowed five days with pay from August 15, 1910, to August 19, 1910, inclusive, provided that in each case satisfactory proof shall be given to the head of the Department that such employee has attended the thirty-eighth annual convention of the Firemen's Association of the State of New York, which is to be held at Watertown, New York, during the week beginning August 15, 1910; and be it further

The Comptroller reserves the right to reject any and all bids and to waive any defects or informalities in any bid should it be deemed in the interest of The City of New York to do so.

All bids must state clearly (1) the number or description of the building or buildings bid for; (2) the amount of the bid; (3) the full name and address of the bidder.

All bids must be inclosed in properly sealed envelopes, marked "Proposals to be opened April 13, 1910," and must be delivered, or mailed in time for their delivery, prior to 11 a. m. of that date, to the "Collector of City Revenue, Room 141, No. 280 Broadway, New York City," from whom any further particulars regarding the buildings to be disposed of may be obtained.

The buildings will be sold for immediate removal only, subject to the following

TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay cash or a certified check drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time, after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances, between the time of the sale thereof and the time of delivering possession to

the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cess-pools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers, Borough of Brooklyn, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances or any part thereof within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed and the costs and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beams, holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

Each parcel must be bid for separately and will be sold in its entirety, as described in above advertisement.

Each and every bid must be accompanied by a deposit of cash or certified check in a sum equal to 25 per cent. of the amount of the bid, except that a minimum deposit of \$50 will be required with all bids, and that a deposit of \$500 will be sufficient to entitle bidders to bid on any or all of the buildings.

Deposits of unsuccessful bidders will be returned within twenty-four hours after successful bidders have paid purchase price in full and given security, and those of successful bidders may be declared forfeited to The City of New York by the Comptroller upon the failure of the successful bidder to further comply with the requirements of the terms and conditions of the sale as set forth hereinafter.

Successful bidders will be required to pay the purchase money and deposit the required security within twenty-four hours of the receipt of notification of the acceptance of their bids.

The Comptroller reserves the right to reject any and all bids and to waive any defects or informalities in any bid should it be deemed in the interest of The City of New York to do so.

All bids must state clearly (1) the number or description of the building or buildings bid for, (2) the amount of the bid, (3) the full name and address of the bidder.

All bids must be enclosed in properly sealed envelopes, marked "Proposals to be opened April 12, 1910," and must be delivered, or mailed, in time for their delivery, prior to 11 a. m. of that date to the "Collector of City Revenue, Room 141, No. 280 Broadway, New York City," from whom any further particulars regarding the buildings to be disposed of may be obtained.

The buildings will be sold for immediate removal only, subject to the following

TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay cash or a certified check drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in full the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances, between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers, Borough of Brooklyn, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the costs and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike

manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of adjacent buildings shall be properly flashed and painted and made water tight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.
