ARTHUR McMULLIN, Clerk.

CITY OF NEW YORK—FINANCE DEPARTMENT,
COMPTROLLER'S OFFICE,
September 17, 1890.

To the Board of Estimate and Apportionment :

Herewith I present a resolution adopted by the Board of Education on June 18, 1890, requesting this Board to transfer the sum of \$2,081.48 from an appropriation entitled "Public Instruction—For Salaries of Teachers and Janitors in Evening Schools," for 1889, and the sum of \$5,018.52, from the same entitled appropriation for 1890, or \$8,000 in all, to an appropriation to be entitled "Public Instruction—For an Evening High School in the Nineteenth Ward."

Three evening high schools for males are established in other localities, viz. : One in One Hundred and Twenty-fifth street, between Second and Third avenues, with an average attendance of 700; one in Norfolk street, Tenth Ward, with an average attendance of 900, and one in West Thirtieth street, near Sixth avenue, with an average attendance also of 900. The young men who attend these schools are engaged in occupations during the day, which prevent them from attending school at any other time than in the evening, and it is extremely important that provision should be made to give them the opportunity of education in those studies which will make them intelligent and useful citizens.

The location in the Nineteenth Ward in Sixty-third street, between Second and Third avenues, where the proposed evening high school is to be established, is one where a school is much needed, being distant from all the schools above referred to as already established. It is important that it shall go into operation immediately, and if the Board of Estimate and Apportionment considers it advisable to provide for an evening high school in the Nineteenth Ward, to be established in the fall of 1890, there is an unexpended balance of \$2,081.48 in the appropriation entitled "Public

Instruction—For Salaries of Teachers and Janitors in Evening Schools" for 1889, which may be transferred to the same appropriation for 1890; and the Board of Education may be authorized to apply the sum of \$8,000 for the purpose of establishing the school in the Nineteenth Ward, out of that appropriation for 1890, and thus provide the means required.

There is no appropriation entitled "Public Instruction—For an Evening High School in the Nineteenth Ward," and therefore the transfer asked for by the Board of Education to such an appropriation can be made in the manner herein recommended.

Resolutions are submitted to make a transfer of \$2,081.48 from the unexpended balance of the appropriation for 1889, and to authorize and apply the sum of \$8,000 out of the appropriation for 1890, to establish an evening high school for males in the Nineteenth Ward, in pursuance of the provisions of chapter 34 of the Laws of 1889, for such action as the Board of Estimate and Apportionment may deem advisable.

Respectfully,
THEO. W. MYERS, Comptroller.

And offered the following preamble and resolutions :

Whereas, The Board of Education desires to establish an evening high school in the Nineteenth Ward, pursuant to the authority of chapter 34 of the Laws of 1889, and

Whereas, No appropriation has been made for the expense of such school, and the Board of Education has requested a transfer of \$8,000 from other appropriations to meet such expense,

Resolved, That the sum of \$2,081.48 be and is hereby transferred from the unexpended balance of an appropriation entitled "Public Instruction—For Salaries of Teachers and Janitors in Evening Schools," for 1889, \$2,081.48, which is in excess of the amount required for the purposes thereof, to the appropriation entitled "Public Instruction—Salaries of Teachers and Janitors in Evening Schools," for 1890; and further

Resolved, That the Board of Education be and is hereby authorized to apply and expend the sum of \$8,000 of the appropriation entitled "Public Instruction—For Salaries of Teachers and Janitors in Evening Schools," for 1890, for an evening high school in the Nineteenth Ward, established pursuant to chapter 34 of the Laws of 1889.

Which were adopted by the following vote :

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen and President of the Department of Taxes and Assessments—4.

The President of the Department of Taxes and Assessments presented the following report :

To the Board of Estimate and Apportionment :

GENTLEMEN—I have examined the plot of ground 18 feet 10 by 44, adjoining the westerly side of Horatio street school, and find the property worth six thousand dollars. The same is 18 feet 10 by 44. The piece upon the easterly side, 168 by 88, is worth ten thousand five hundred dollars.

Eightieth street, south side, 150 feet east of Third avenue (No. 3), 25 by 100, small two-story frame in front, and two-story brick stable on rear. Improvements of little value. Land, \$10,000; \$10,500 with building.

Eightieth street, south side, 175 feet east of Third avenue (No. 4), 24 by 100, small one-story frame in front, and three-story brick stable on rear. Land, \$10,000; building \$2,500—\$12,500; say, \$13,000.

South side, Forty-sixth street, 200 feet west of Sixth avenue. This plot contains about 17,127 square feet, and as a plot, with the improvements such as now used, I am of the opinion it would sell for about the price asked, but it must be well known that when the school is erected it will adjoin a livery stable on the east and west and on the south, fronting Forty-fifth street; also, that this particular block would not be desirable to locate a female school.

Fifty-fourth street, 425 feet west of Sixth avenue, 25 by 100.5, \$24,000.

Fifty-fifth street, 325 feet west of Sixth avenue, 25 by 100.5, \$25,000.

These two pieces are improved, each having two-story brick private stables. They are worth for the uses now carried on twenty-four thousand and twenty-five thousand each; but it must be remembered that Fifty-fourth and Fifty-fifth streets, between Sixth and Seventh avenues, have numerous stables which, in my judgment, would be a serious objection to enlarging the school, and if the location on Forty-sixth street is purchased and a new school built, then it may not be necessary to purchase these two pieces or enlarge the present school.

Eighty-second street, north side, 100 feet east of West End avenue, 50 by 102.2. This location is rapidly improving, and the full value would not exceed the price placed by the Comptroller.

M. COLEMAN, President of the Department of Taxes and Assessments.

Whereupon the Comptroller offered the following preamble and resolution :

Whereas, The Board of Education presented to this Board on June 24, 1890, a number of resolutions adopted June 20, 1890, appropriating the sum of \$248,000 from the proceeds of further additional bonds to be issued under the provisions of chapter 252 of the Laws of 1889, for the purchase, as sites for school purposes, certain pieces or parcels of land, as follows, to wit :

Total.....	\$248,000 00

Whereas, The Board of Education has requested the Comptroller to issue such further additional bonds, and the Board of Estimate and Apportionment to approve of the same and of the purposes for which such expenditure is to be made, and to designate and appropriate the amount necessary to be expended for such purposes,

Resolved, That, pursuant to the provisions of chapter 252 of the Laws of 1889, the Board of Estimate and Apportionment hereby approves of the issue of additional school-house bonds, in the name of the Mayor, Aldermen and Commonalty of the City of New York, to be known as Consolidated Stock of the City of New York, as provided by section 132 of the New York City Consolidation Act of 1882, to the amount of two hundred and forty-eight thousand dollars (\$248,000), and the Comptroller is hereby authorized and directed to issue the same, to run for such term as he shall determine, not longer than twenty years, and at a rate of interest not exceeding three per cent. per annum, the proceeds of which bonds shall be applied, pursuant to said act of 1889, to the purchase of said lands for said purposes.

Which were adopted by the following vote :

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen and President of the Department of Taxes and Assessments—4.

(In Board of Education, June 4, 1890.)

Resolved, That, subject to the approval of the Board of Estimate and Apportionment, the sum of forty-eight thousand dollars (\$48,000) be and is hereby appropriated from the proceeds of further additional bonds to be issued under and in pursuance of the provisions of the act, chapter 252 of the Laws of 1889, for the purchase, as a site for school purposes, of all that certain piece or parcel of land situate, lying and being on the northerly side of Thirteenth street, between First and Second

CITY OF NEW YORK—FINANCE DEPARTMENT,
COMPTROLLER'S OFFICE,
August 30, 1890.

Hon. THEODORE W. MYERS, Comptroller:

SIR—I have examined the premises on Thirteenth street, north side, which the Board of Education desires to purchase for the sum of \$48,000.

I think the price proposed is high. I estimate the market value of the property to be, at the outside, \$15,000 per lot, or \$45,000 for the whole plot.

At the same time, as shown by the above diagram, it is of great advantage to the school property that it should be purchased, and being the only lots that would give the advantages sought, it is not unreasonable to expect that the owner would insist on a high price.

Respectfully,

EUGENE E. McLEAN, Engineer.

And offered the following resolution:

Resolved, That, pursuant to the provisions of chapter 252 of the Laws of 1889, the Comptroller be and is hereby authorized and directed to issue additional school-house bonds in the name of the Mayor, Aldermen and Commonalty of the City of New York, to be known as "Consolidated Stock of the City of New York," to an amount not exceeding the sum of \$48,000, at a rate of interest not exceeding three per cent. per annum, to run for a period not exceeding twenty years from the date of issue; the proceeds thereof to be applied to the purchase of the piece or parcel of land known as Nos. 343, 345 and 347 East Thirteenth street, as described in the resolution of the Board of Education adopted June 4, 1890, as a site for school purposes.

Which was adopted by the following vote:

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen, and President of the Department of Taxes and Assessments—4.

The Chairman presented the following:

Which were received and laid over:

The President of the Department of Taxes and Assessments offered the following preamble and resolution :

Whereas, A plan has been presented for the improvement of the Westerly Riverside, north of Seventy-second street, which contemplates the building of a sea-wall or bulkhead from Seventy-second to Ninety-sixth street, the reclaiming of the land under water, and the establishment along its entire length, ten feet above tide-water, of a traffic road or avenue for commercial and general business purposes, and also adjoining the said avenue the construction of an elevated place or terrace, thirty feet above tide-water and one and a quarter miles long, under which the intersecting streets can be carried by a double arched viaduct, and upon which a perpetual road, for unrestricted driving as to speed, eighty feet wide, is to be constructed, divided so as to admit of driving in different directions ; also a permanent promenade equestrian road, at least fifty feet wide, established, together with adjoining walks for the accommodation of pedestrians and lookers-on, the adjacent railroad tracks to be secluded by a wall sufficiently high and by trees and shrubbery artistically planted. The terrace being connected with Riverside Drive at Seventy-second street and Ninety-eighth street, and forming a circuit relation to the Central Park ; and

Whereas, We regard the objects thus proposed to be accomplished eminently important and desirable, calculated to meet long pressing and meritorious demands, to relieve in a most agreeable way the undue pressure on the equestrian roads of Central Park, and by attracting carriage riding to the Riverside Drive to diminish the excessive crowding of the most conveniently situated roads of that park ; in addition the City will practically gain over fifty acres of valuable land, and not only secure the ground to be occupied against injurious and depreciating uses, but promote in a most unique and attractive form the prosperity of the west end of the city, which has been so remarkably advanced by private enterprise ; and

Whereas, This project presents a special case involving considerations of a novel and important character, affecting largely the interests of the whole community, and should receive exceptional treatment in order to secure the best results ; therefore

Resolved, That his Honor the Mayor be and he is hereby requested to name a special or advisory commission of citizens to informally consider said plan, and any other that may be presented on the subject, and to report to this Board a project which will, in their judgment, best accomplish the above contemplated objects, together with an approximate estimate of the cost thereof, with the view to such legislative action in the premises as may be necessary to consummate the measure at the earliest practicable period, and that his Honor the Mayor be a member of said Commission.

Which were received, laid over, and ordered to be printed in the minutes.

Hon. HUGH J. GRANT, Mayor, and Chairman, Board of Estimate and Apportionment:

The iron railing on top of the retaining-wall in Mitchell place, or East Forty-ninth street, between First avenue and Beekman place, is very much in need of repairing and painting, and I respectfully ask that the Board of Estimate and Apportionment, by resolution, authorize the payment of the expense of such repairing and painting, not to exceed the sum of \$1,200 from the said unexpended balance.

Very respectfully,

THOS. F. GILROY, Commissioner of Public Works.

And offered the following preamble and resolution:

To the Board of Estimate and Apportionment:

Herewith I present a request of the Commissioner of Public Works for a transfer to complete the work of laying water-mains in Ninetieth street, Eighth avenue, etc., under a contract made in 1889.

I have had an examination made of the work, and submit a report of Mr. E. E. McLean, Engineer of the Finance Department, in which the cost is estimated at \$800.

DEPARTMENT OF PUBLIC WORKS—COMMISSIONER'S OFFICE,
NO. 31 CHAMBERS STREET,
NEW YORK, July 29, 1890.

Hon. HUGH J. GRANT, Mayor, and Chairman, Board of Estimate and Apportionment:

DEAR SIR—In 1889 a contract was made for laying 48-inch water-mains in Ninetieth street, Eighth avenue, etc., to be paid for out of the appropriation for "Laying Croton Pipes" for 1889. The character of the soil, consisting principally of loose filling, in the streets through which the mains are laid, has been found to be such as to make it necessary to excavate deeper and wider than was contemplated in the plans and estimates, and to place dry stone filling under the water-mains, and to pave the whole width of Ninetieth street, and reset the curbstones and reflag the sidewalks, all of which work could not be foreseen when the plans and estimates were made. The cost of completing the work will, therefore, exceed the preliminary estimate and the appropriation, and I respectfully ask that the sum of \$2,428.31 be transferred to the appropriation for "Laying Croton Pipes" for 1889, from the appropriation for "Water Supply, Twenty-fourth Ward" for 1889, for the purposes of which the said sum is not needed.

Very respectfully,

THOMAS F. GILROY, Commissioner of Public Works.

And offered the following preamble and resolution:

Whereas, The cost of completing the work of laying 48-inch water-mains in Ninetieth street, Eighth avenue, etc., under a contract made in 1889, exceeds the preliminary estimate and the appropriation therefor, on account of the character of the soil, etc., as stated by the Commissioner

of Public Works in a communication dated July 29, 1890, and it is necessary to provide for the execution and completion of said work, the cost of which is estimated at about \$800,

Resolved, That the sum of eight hundred dollars (\$800) be and is hereby transferred from the appropriation entitled "Water Supply, Twenty-fourth Ward," for 1889, which is in excess of the amount required for the purposes thereof, to the appropriation entitled "Laying Croton Water Pipes," for 1889, which is insufficient for the purposes thereof.

Which were adopted by the following vote:

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen and President of the Department of Taxes and Assessments—4.

Thomas F. Gilroy, Commissioner of Public Works, appeared before the Board and made a statement in explanation thereof.

The Comptroller offered the following resolution:

Resolved, That the sum of one thousand seven hundred and sixty-eight dollars and sixty-three cents (\$1,768.63) be and is hereby transferred from the appropriation entitled "Judgments," for 1890, which is in excess of the amount required for the purposes thereof, to the appropriation entitled, "For Disbursements and Fees of County Officers and Witnesses," for 1890, which is insufficient for the purposes thereof, to be applied to the payment of bills for services of official Stenographers in the Courts of General Sessions and Common Pleas, as follows:

John Standfast—Extraordinary Term, Court of Common Pleas, June, 1890.....	\$208 33
Frank S. Beard—	
General Sessions, 1889.....	\$104 40
1890.....	325 00
Peter P. McLoughlin—General Sessions, 1890.....	429 40
William Anderson—General Sessions, 1890.....	751 10
	379 80
Total.....	\$1,768 63

Which was laid over.

The Comptroller offered the following preamble and resolution:

Whereas, On February 22, 1890, James M. Fitzsimons was appointed a Justice of the City Court in the place of the late William F. Pitshke; and

Whereas, An appropriation was made for the salaries of only five Justices of the City Court, instead of six Justices for the year 1890;

Resolved, That the sum of nine thousand five hundred and one dollars and ninety cents (\$9,501.90) be and is hereby transferred from the appropriation entitled "Judgments" for 1890, which is in excess of the amount required for the purposes thereof, to the appropriation entitled "Salaries—Judiciary—(The City Court of New York)" which is insufficient for the purposes, the said amount to be applied to the payment of the salary of James M. Fitzsimons, Justice of the City Court for ten months and six days from February 22, 1890.

Which were adopted by the following vote:

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen and President of the Department of Taxes and Assessments—4.

The Comptroller presented the following:

CITY OF NEW YORK—DEPARTMENT OF PUBLIC PARKS,
COMMISSIONER'S OFFICE, NOS. 49 AND 51 CHAMBERS STREET,
August 22, 1890.

To the Honorable Board of Estimate and Apportionment:

GENTLEMEN—The attention of this Department having been called to the unsound condition of the Obelisk in Central Park, the Board of Parks, on November 30, 1889, requested an examination by a committee of experts, consisting of Lt.-Col. G. L. Gillespie, U. S. E., Profs. R. Ogden Doremus, J. S. Newberry, A. H. Gallatin and Alexis A. Julien, and a report as to its condition, with reference particularly as to its preservation. In compliance with this request a thorough and careful examination of the Obelisk has been made by the gentlemen above named, who recommend treatment of the defective parts by the paraffine process, and state that, if such recommendation is carried out in the manner suggested, they are of opinion that the present condition of the Obelisk may be maintained indefinitely, in its present location, without anxiety as to its permanent preservation. In compliance with the recommendation of the committee of experts, which was approved by the Board of Parks, an estimate has been obtained of the total cost of the treatment of the stone, which is two thousand seven hundred and fifty dollars (\$2,750) including the erection of all necessary staging. As this Department has no funds available from the appropriation for the current year, I am directed to request that a transfer be made of the amount required, \$2,750, from the appropriation for "Police Salaries, 1889," to the appropriation for "Labor, Maintenance, Supplies, Construction and Repairs" for the current year, for the purpose of doing this work. As it is important that the work should be done during good summer weather, early action upon this application is requested.

Very respectfully,

CHARLES DE F. BURNS, Secretary, D. P. P.

BOARD OF EDUCATION, No. 146 GRAND STREET,
NEW YORK, August 22, 1890.

Commissioner M. COLEMAN, Secretary, Board of Estimate and Apportionment, N. Y. City:

DEAR SIR—At a meeting of the Board of Estimate and Apportionment on June 4 the Comptroller presented a report (1b p. 128, 129), in the matter of the requisition of the Board of Education dated May 7, 1889, for the issue of school bonds under chapter 136 of the Laws of 1888 for furniture and heating apparatus for new Grammar School Building No. 89, for the sum of \$1,722.22. On the 18th December, 1889, the Board of Education appropriated from the unappropriated balance on the first issue of school bonds,

For furniture, Parts I and 2, Grammar School No. 89.....	\$10,500 00
For heating apparatus, Grammar School No. 89.....	8,430 32
Total.....	\$18,930 32

It was afterwards discovered that the balance unappropriated was but \$18,590.32; taking this difference of \$340 from the amount set aside for furniture, gives amount appropriated \$10,160.

The contract for furniture was subsequently let for—

Part I.....	\$5,077 00
Part II.....	5,335 54
	\$10,412 54
Already appropriated.....	10,160 00

Balance needed.....	\$252 54
---------------------	----------

The contract for heating apparatus was subsequently let for.....	\$9,900 00
Already appropriated.....	8,430 32

Balance needed.....	\$1,469 68
---------------------	------------

Add amount needed for furniture.....	252 54
--------------------------------------	--------

Total.....	\$1,722 22
------------	------------

In order that the record of the Board of Estimate and Apportionment may read correctly, I respectfully request that it may be amended as follows, page 130, so that from third line it will read:

"For furniture, Part II, required for the new building, Grammar School No. 89, in the Twelfth Ward (to complete the amount of a contract to be entered into with the Andrews Manufacturing Company for \$5,335.54)....."	\$52 54
"For heating apparatus required for the new building, Grammar School No. 89, in the Twelfth Ward (to complete the amount of a contract to be entered into with C. Nally for \$9,900)....."	1,469 68
	\$1,722 22

On page 129 of Proceedings of the Board of Estimate and Apportionment, for June 4, the 25th line now reads:

"For heating apparatus for Grammar School No. 89....."	\$8,430 00
The amount should be \$8,430.32.	

Will you please have this correction made in these minutes.

Respectfully, yours,

ARTHUR McMULLEN, Clerk.

To the Honorable the Board of Estimate and Apportionment :

We, the undersigned, a committee of citizens, organized for the purpose of procuring the erection of a suitable monument in honor and memory of John Ericsson in one of the public parks, squares or places in this city, respectfully petition your Honorable Board to include in the Provisional and Final Estimates, for the ensuing year, an appropriation of ten thousand dollars to enable the Park Department to comply with the provisions of chapter 266 of the Laws of 1889, entitled, "An Act to authorize and provide for the erection by the City of New York of a monument in any of the Public Parks, Squares or Places belonging to said City, in honor and memory of John Ericsson, deceased," which act authorizes said Department to erect such a monument, and empowers your Board to appropriate the sum of ten thousand dollars therefor.

Should such an appropriation be made, we propose to submit to the Park Department designs and specifications for such a monument, and if the same are adopted we will provide for any expense of executing such designs, in excess of ten thousand dollars, which may be found to be necessary.

M. A. KELLOGG, Esq., Engineer of Construction, D. P. P. :

DEAR SIR—Answering your favor 17th inst., will say that I cannot tell how long present MacComb's Dam Bridge can be kept in service ; so far as the new bridge over the river is concerned, certainly another year, since the surveys are yet to be made, the structure to be planned and work prepared for letting, which involves several months before any work can be commenced.

So far as the present bridge interferes with viaduct much work can be done before working at that point ; still, if the contractor demands possession of the grounds for working on the MacComb's Dam lane abutment I cannot refuse (as he is working under a penalty contract), in which case the west span and abutment of present bridge will have to be torn away, probably within the next two or three months. I presume it would be possible to put in a temporary pile structure from the draw span around the viaduct work on the south, which would not interfere with viaduct and make present bridge available until we get to work on the new bridge ; I think under this arrangement all the masonry could be put in without breaking travel, which could be retained in that case for a couple of years.

Yours, truly,

(Signed) ALF. P. BOLLER, Constructing Engineer.

CITY OF NEW YORK—DEPARTMENT OF PUBLIC PARKS,
COMMISSIONERS' OFFICE, NOS. 49 AND 51 CHAMBERS STREET,
July 28, 1890.

To the Secretary of the Board of Estimate and Apportionment :

DEAR SIR—At a recent meeting of the Board the question was raised as to the propriety of continuing work upon the new span of the bridge at Seventh avenue in order to make it temporarily safe pending the construction of the new iron bridge at that place. The question was referred to Mr. Boller and Mr. Kellogg, the Engineer of this Department, as to how long the present bridge could be used. A copy of a letter from Mr. Boller to Mr. Kellogg is herewith inclosed for the information of your Board. It appearing therefrom that, in case a temporary structure can be built at the southerly end of the Seventh Avenue Bridge so as not to interfere with the contractors' work, that bridge can remain in service for about two years. If the new draw was not placed in position there would be no thoroughfare for the period during which the construction of the new bridge was being continued.

Very respectfully, yours,

CHARLES DE F. BURNS, Secretary, D. P. P.

CITY OF NEW YORK—FINANCE DEPARTMENT,
COMPTROLLER'S OFFICE,
July 31, 1890.

Hon. THEODORE W. MYERS, Comptroller :

SIR—In considering the communication of the Department of Public Parks, of the 28th instant, inclosing a letter from Mr. A. P. Boller, Constructing Engineer, it is necessary to bear in mind that the One Hundred and Fifty-fifth street viaduct starts, at the easterly end, at or near the same point that will be the westerly end of the new bridge, and at the same grade, and that this point is also near the westerly end of the old bridge. The viaduct is now under contract, but the new bridge has not been exactly located, the surveys and plans not having yet been completed.

As stated by Mr. Boller, the contractor for the viaduct may so arrange his work as to require a certain portion of the old bridge to be torn away, in which case a temporary pile structure could be erected so as to avoid breaking travel, and it could thus remain probably for two years. How much or when the old bridge may be interfered with by the building of the new one cannot now be exactly fixed.

In the meantime it is necessary to complete the draw of the old bridge, the old draw having been condemned as dangerous. This work is now well advanced.

Respectfully,

EUG. E. MCLEAN, Engineer.

Which were received and referred to the Comptroller.

On motion, the Board adjourned.

M. COLEMAN, Secretary.

F. T. Fitzgerald, Register, and Dwight H. Olmstead, appeared before the Board and made statements in explanation thereof.

The Comptroller presented the following :

CITY OF NEW YORK—FINANCE DEPARTMENT,
COMPTROLLER'S OFFICE,
September 18, 1890.

To the Board of Estimate and Apportionment :

The estimate submitted by the Board of Police of the amount which will be required for the purpose of carrying out the provisions of the new Election Law, passed May 2, 1890, at the ensuing election, amounts to the sum of \$370,481.

An appropriation for "Election Expenses," in 1890 was included in the Final Estimate for 1890, of the sum of \$220,857, besides the sum of \$32,000 appropriated for Advertising Election Districts, Election Notices by the Clerk of the Common Council and the Sheriff and other Incidental Expenses of the Election in 1890.

The appropriation of \$220,857 for "Election Expenses" in 1890, is applicable to the expenses for which the Board of Police has submitted an estimate of \$370,481, and the difference between these two sums is an additional amount required to carry out the provisions of the new Election Law, to wit : Chapter 262, Laws of 1890, entitled "An Act to promote the independence of voters at public elections, enforce the secrecy of the ballot, and provide for the printing and distribution of ballots at public expense."

The difference between the amount of the appropriation for election expenses in 1890 and the amount of the estimate of the Board of Police is \$149,624, which is the additional sum required to be provided for carrying out the provisions of the new Election Law at the ensuing election.

An act to provide for the expense of conducting public elections, passed May 14, 1890, provides for the expense of elections by taxation or by the issue of revenue bonds, to be redeemed from taxes of the following year.

For the payment of the additional amount of expenses of the ensuing election required by the estimate of the Board of Police over and above the appropriation made for election expenses in 1890, applicable to that purpose, revenue bonds, redeemable in 1891, may be issued.

In submitting, therefore, the resolution necessary to provide the amount asked for by the Board of Police, to enable them to carry out the provisions of the new Election Law, I desire to simply state that my previous objection to a passage of a similar resolution was based entirely on a belief that this Board had no right to hastily authorize such a large additional expenditure over the usual election expenses, especially when, through protracted delay, the usual and most desirable method of advertising for bids has been rendered impossible.

There is no doubt that this Board must supply the amount needed to carry out the provisions of the law. There is also no doubt, from such cursory examination as I have been enabled to make in the last few hours, that the estimate of the Police Board is reasonable under the circumstances.

While, therefore, I most strongly object to the delay in the submission of this estimate which has undoubtedly entailed an expense upon the City which might have been avoided, and which has substituted for desirable open competition the system of private awards, always to be condemned, I offer the accompanying necessary resolution, believing its passage to be imperatively required.

Respectfully,

THEO. W. MYERS, Comptroller.

And offered the following preamble and resolution :

Whereas, The Board of Police has submitted an estimate of the amount which will be required for the purpose of carrying out the provisions of chapter 262 of the Laws of 1890 at the ensuing election ; and

Whereas, The amount of said estimate exceeds the amount appropriated for "Election Expenses" in the Final Estimate for 1890, which is applicable to such purpose ;

Resolved, That, in pursuance of the provisions of chapter 330 of the Laws of 1890, the Comptroller be and is hereby authorized and directed to issue Revenue Bonds of the Mayor, Aldermen and Commonalty of the City of New York, to the amount of one hundred and forty-four thousand six hundred and twenty-four dollars (\$144,624), redeemable in the year 1891, at such time as may be determined by the Comptroller, for the purpose of paying election expenses at the ensuing election in excess of the amount appropriated therefor in the Final Estimate for 1890, which is applicable to such expenses contained in the estimate thereof submitted by the Board of Police, and required under chapter 262 of the Laws of 1890, and as modified by a reduction of five thousand dollars, which said amount of Revenue Bonds shall be included in the Final Estimate for 1891, to be raised by tax for their redemption.

Which were adopted by the following vote :

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen and President of the Department of Taxes and Assessments—4.

John R. Voorhis, James J. Martin and John McClave, Commissioners of Police, appeared before the Board and made statements in explanation thereof.

On motion, the Board adjourned.

M. COLEMAN, Secretary.

NEW YORK, September 9, 1890. }

The Hons. John H. V. Arnold, Acting Mayor ; W. H. Clark, Counsel to the Corporation, and Thomas F. Gilroy, Commissioner of Public Works, the officers designated by section 66 of the New York City Consolidation Act, met this day.

The minutes of the meeting of September 2 were read and approved.

The Supervisor of the City Record presented the following report :

To the Hons. the Mayor, Counsel to the Corporation, and Commissioner of Public Works :

GENTLEMEN—The articles called for by the requisitions laid before you to-day should be allowed. The warrants and Paymaster's checks for the Finance Department are covered by the general requisition of that department. The pay-roll boxes are made necessary by the Weekly

The forms of indictment required by the District Attorney are new. The Corporation Counsel needs paper and envelopes.

Respectfully submitted,

W. J. K. KENNY.

The person or persons making any bid or estimate shall
furnish the same in a sealed envelope, indorsed "Bid
or Estimate for Groceries, Dry Goods, Leather and Lime,"
with his or their name or names, and the date of presen-
tation, to the head of said Department, at the said office

on or before the day and hour above named, at which
time and place the bids or estimates received will be
publicly opened by the President of said Department and
read.

THE BOARD OF PUBLIC CHARITIES AND CORRECTION
RESERVES THE RIGHT TO REJECT ALL BIDS OR ESTI-
MATES IF DEEMED TO BE FOR THE PUBLIC INTEREST,
AS PROVIDED IN SECTION 64, CHAPTER 410, LAWS OF
1882.

No bid or estimate will be accepted from, or contract
awarded to, any person who is in arrears to the Cor-
poration upon debt or contract, or who is a defaulter, as
surety or otherwise, upon any obligation to the Cor-
poration.

The award of the contract will be made as soon as
practicable after the opening of the bids.

Delivery will be required to be made from time to
time, and in such quantities as may be directed by the
said Commissioners.

Any bidder for this contract must be known to be en-
gaged in and well prepared for the business, and must
have satisfactory testimonials to that effect, and the
person or persons to whom the contract may be awarded
will be required to give security for the performance of
the contract by his or their bond, with two sufficient
sureties, in the penal amount of fifty (50) per cent of the
ESTIMATED amount of the contract.

Each bid or estimate shall contain and state the name
and place of residence of each of the persons making the
same; the names of all persons interested with him or
them therein; and if no other person be so interested,
it shall distinctly state that fact; also that it is made
without any connection with any other person making
an estimate for the same purpose, and is in all respects
fair and without collusion or fraud; and that no member
of the Common Council, head of a department, chief
of a bureau, deputy thereof, or clerk therein, or other
officer of the Corporation, is directly or indirectly inter-
ested therein, or in the supplies or work to which it
relates, or in any portion of the profits thereof. The
bid or estimate must be verified by the oath, in writing,
of the party or parties making the estimate, that the
several matters stated therein are in all respects true.
Where more than one person is interested, it is requisite
that the VERIFICATION be made and subscribed by all the
parties interested.

Each bid or estimate shall be accompanied by the con-
sent, in writing, of two householders or freeholders in
the City of New York, with their respective places of
business or residence, to the effect that if the contract
be awarded to the person making the estimate, they
will, on its being so awarded, become bound as his sure-
ties for its faithful performance; and that if he shall
omit or refuse to execute the same, they will pay to the
Corporation any difference between the sum to which
he would be entitled on its completion and that which
the Corporation may be obliged to pay to the person or
persons to whom the contract may be awarded at any
subsequent letting; the amount in each case to be
calculated upon the estimated amount of the work by
which the bids are tested. The consent above men-
tioned shall be accompanied by the oath or affirmation,
in writing, of each of the persons signing the same that
he is a householder or freeholder in the City of New
York, and is worth the amount of the security required
for the completion of this contract, over and above all
his debts of every nature, and over and above his
liabilities as bail, surety or otherwise; and that he has
offered himself as a surety in good faith and with the
intention to execute the bond required by section 12 of
chapter 7 of the Revised Ordinances of the City of New
York, if the contract shall be awarded to the person
or persons for whom he consents to become surety.
The adequacy and sufficiency of the security offered to
be approved by the Comptroller of the City of New York.

No bid or estimate will be considered unless ac-
companied by either a certified check upon one of the
State or National banks of the City of New York,
drawn to the order of the Comptroller, or money, to the
amount of five per centum of the amount of the security
required for the faithful performance of the contract.
Such check or money must NOT be inclosed in the sealed
envelope containing the estimate, but must be handed to
the officer or clerk of the Department who has charge of
the estimate-box, and no estimate can be deposited in
said box until such check or money has been examined
by said officer or clerk and found to be correct. All such
deposits, except that of the successful bidder, will be
returned to the persons making the same, within three
days after the contract is awarded. If the successful
bidder shall refuse or neglect, within five days after
notice that the contract has been awarded to him, to
execute the same, the amount of the deposit made by
him shall be forfeited to and retained by the City of New
York, as liquidated damages for such neglect or refusal;
but if he shall execute the contract within the time afore-
said, the amount of his deposit will be returned to him.
Should the person or persons to whom the contract
may be awarded neglect or refuse to accept the contract
within five days after written notice that the same has
been awarded to his or their bid or proposal, or if he or
they accept but do not execute the contract and give
the proper security, he or they shall be considered
as having abandoned it and as in default to the Cor-
poration, and the contract will be readvertised and relet
as provided by law.

The quality of the articles, supplies, goods, wares, and
merchandise must conform in every respect to the sam-
ples of the same on exhibition at the office of the said
Department. Bidders are cautioned to examine the
specifications for particulars of the articles, etc., re-
quired, before making their estimates.

Bidders will state the price for each article, by which
the bids will be tested.

Bidders will write out the amount of their estimate in
addition to inserting the same in figures.

Payment will be made by a requisition on the Com-
ptroller, in accordance with the terms of the contract, or
from time to time, as the Commissioners may determine.

The form of the contract, including specifications, and
showing the manner of payment, will be furnished at
the office of the Department; and bidders are cautioned
to examine each and all of its provisions carefully, as
the Board of Public Charities and Correction will insist
upon its absolute enforcement in every particular.

Bidders will write out the amount of their estimate in addition to inserting the same in figures.

The award of the contract will be made as soon as practicable after the opening of the bids.

Any person making an estimate for the above shall present the same in a sealed envelope to said Commissioner of Street Cleaning, at said office, on or before the day and hour above named, which envelope shall be indorsed with the name or names of the person or persons presenting the same, the date of its presentation, and a statement of the work to which it relates.

The Commissioner of Street Cleaning reserves the right to decline any and all bids or estimates if deemed to be for the public interest. No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders of the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as sureties for its faithful performance in the sum of four thousand (\$4,000) dollars; and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract over and above all his debts of every nature, and over and above his liabilities as bail, surety, or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of the City of New York before the award is made and prior to the signing of the contract.

No estimate will be considered unless accompanied by either a certified check upon one of the banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of two hundred (\$200) dollars. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal, but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to him or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.

HEALTH DEPARTMENT.

HEALTH DEPARTMENT—CITY OF NEW YORK,
No. 301 MOTT STREET,
NEW YORK, September 17, 1890.

PROPOSALS FOR ESTIMATES FOR BUILDING A SEA WALL ON NORTH BROTHER ISLAND.

PROPOSALS FOR ESTIMATES FOR BUILDING a sea wall on North Brother Island, City and County of New York, will be received by the Commissioners of the Health Department, at their office, No. 301 Mott street, until 2.30 o'clock P. M. of the 30th day of September, 1890, at which time and place they will be publicly opened and read by said Commissioners.

Any person making an estimate for the above work shall furnish the same in a sealed envelope to the head of said Health Department, indorsed "Estimate for Building a Sea Wall on North Brother Island, City and County of New York," and also with the name of the person or persons presenting the same, and the date of its presentation.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect; and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, each in the penal sum of SIX THOUSAND DOLLARS.

Bidders are required to submit their estimates upon the following express conditions, which shall apply to and become part of every estimate received:

1st. Bidders must satisfy themselves by personal examination of the location of the proposed work, and by such other means as they may prefer, as to the accuracy of the estimate, and shall not at any time after the submission of an estimate, dispute or complain of the statement of quantities, nor assert that there was any misunderstanding in regard to the nature or amount of the work to be done.

2d. Bidders will be required to complete the entire work to the satisfaction of the Health Department, and in substantial accordance with the specifications of the contract and the plans therein referred to. No extra compensation beyond the amount payable for the work before mentioned, which shall be actually performed, at the prices therefor, to be specified by the lowest bidder, shall be due or payable for the entire work.

Bidders will state in their estimates a price for the whole of the work to be done, in conformity with the approved form of contract and the specifications therein set forth, by which price the bids will be tested. This price is to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay, from any cause, in the performing of the work thereunder.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for doing this work.

The person or persons to whom the contract may be awarded will be required to attend at this office with the sureties offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect; and in case of failure or neglect so to do, he or they will be considered as having abandoned it, and as in default to the Corporation; and the contract will be readvertised and relet, and so on until it be accepted and executed.

Bidders are required to state in their estimates their names and places of residence; the names of all persons interested with them therein; and if no other person be so interested, the estimate shall distinctly state the fact; also that the estimate is made without any connection with any other person making an estimate for the same work, and that it is in all respects fair, and without collusion or fraud; and also that no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof; which estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, to the effect that if the contract be awarded to the person or persons making the estimate, they will, on its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation of the City of New York any difference between the sum to which said person or persons would be entitled on its completion, and that which said Corporation or the Health Department may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work to be done by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract and stated in the proposals, over and above all his debts of every nature, and over and above his liabilities as bail, surety and otherwise; and that he has offered himself as surety in good faith, and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of the City of New York after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned by the Comptroller to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him by the Comptroller.

No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

Bidders are requested, in making their bids or estimates, to use a blank prepared for that purpose by the Department, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the work, can be obtained upon application therefor at the office of the Department.

The Department reserves the right to reject any or all estimates not deemed beneficial to or for the public interest.

Plans may be examined, and specifications and blank forms for bids or estimates obtained by application to the Secretary of the Board, at his office, No. 301 Mott street, New York.

(No. 352.)

PROPOSALS FOR ESTIMATES FOR DREDGING FOR PROPOSED BULKHEAD-WALL AT EAST ONE HUNDRED AND SECOND STREET SECTION, ON THE HARLEM RIVER.

ESTIMATES FOR DREDGING AT THE ABOVE-named place on the Harlem river will be received by the Board of Commissioners at the head of the Department of Docks, at the office of said Department, on Pier "A," foot of Battery place, North river, in the City of New York, until 12 o'clock M. of

FRIDAY, OCTOBER 3, 1890,

at which time and place the estimates will be publicly opened by the head of said Department. The award of the contract, if awarded, will be made as soon as practicable after the opening of the bids.

Any person making an estimate for the work shall furnish the same in a sealed envelope to said Board, at said office, on or before the day and hour above-named, which envelope shall be indorsed with the name or names of the person or persons presenting the same, the date of its presentation, and a statement of the work to which it relates.

The bidder to whom the award is made shall give security for the faithful performance of the contract, in the manner prescribed and required by ordinance, in the sum of One Thousand Seven Hundred Dollars.

The Engineer's estimate of the quantities of material necessary to be dredged in order to secure at the premises mentioned the depth of water set opposite thereto in the specifications is as follows:

For proposed bulkhead-wall at East One Hundred and Second Section, Harlem river..... 16,000 cubic yards.

N. B.—Bidders are required to submit their estimates upon the following express conditions, which shall apply to and become a part of every estimate received:

1. Bidders must satisfy themselves, by personal examination of the location of the proposed dredging, and by such other means as they may prefer, as to the accuracy of the foregoing Engineer's estimate, and shall not at any time after the submission of an estimate, dispute or complain of the above statement of quantities, nor assert that there was any misunderstanding in regard to the nature or amount of the work to be done.

2. Bidders will be required to complete the entire work to the satisfaction of the Department of Docks, and in substantial accordance with the specifications of the contract. No extra compensation, beyond the amount payable for the work before mentioned, which shall be actually performed, at the price therefor per cubic yard, to be specified by the lowest bidder, shall be due or payable for the entire work.

The work to be done under the contract is to be commenced within five days after the date of the contract, and all the work contracted for is to be fully completed on or before the 15th day of October, 1890, and the damages to be paid by the Contractor for each day that the contract may be unfulfilled after the time fixed for the fulfillment has expired, are, by a clause in the contract, fixed and liquidated at Fifty Dollars per day.

Bidders will state in their estimates a price per cubic yard for doing such dredging in conformity with the approved form of agreement and the specifications therein set forth, by which price the bids will be tested. This price is to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay, from any cause, in the performing of the work thereunder.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for doing this work.

The person or persons to whom the contract may be awarded will be required to attend at this office with the sureties offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect; and in case of failure or neglect so to do, he or they will be considered as having abandoned it, and as in default to the Corporation; and the contract will be readvertised and relet, and so on until it be accepted and executed.

Bidders are required to state in their estimates their names and places of residence; and the names of all persons interested with them therein; and if no other person be so interested, the estimate shall distinctly state the fact; also that the estimate is made without any connection with any other person making an estimate for the same work, and that it is in all respects fair and without collusion or fraud; and also that no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof; which estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. *Where more than one person is interested, it is requisite that the verification be made and subscribed to by all the parties interested.*

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the estimate, they will, upon its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation of the City of New York any difference between the sum to which said person or persons would be entitled upon its completion, and that which said Corporation may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting; the amount, in each case, to be calculated upon the estimated amount of the work to be done by which the bids are tested. The consent above-mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety and otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of

the security offered will be subject to approval by the Comptroller of the City of New York, after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instructions of the Engineer-in-Chief.

No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

THE RIGHT TO DECLINE ALL THE ESTIMATES IS RESERVED, IF DEEMED FOR THE INTEREST OF THE CORPORATION OF THE CITY OF NEW YORK.

Bidders are requested, in making their bids or estimates, to use the blank prepared for that purpose by the Department, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the work, can be obtained upon application therefor at the office of the Department.
