ACQUIRING LAND FOR WATER DEPARTMENT, QUEENS.

The following communication from the Commissioner of Water Supply was read:

DEPARTMENT OF WATER SUPPLY, September 13, 1900.

Hon. MAURICE F. HOLAHAN, President, Board of Public Improvements:

DEAR SIR—In pursuance of the provisions of section 486 of the Greater New York Charter, I have the honor to submit herewith for the approval of your Board, a map duly signed by the Engineer in charge of the Brooklyn water supply, the Engineer of Water Supply of that Borough, the Chief Engineer of this Department and myself, showing lands in The City of New York, Borough of Queens and in the Town of Hempstead, County of Nassau, to be acquired for the purpose of maintaining, preserving and increasing the supply of pure and wholesome water for the use of this City in the Borough of Brooklyn, and for the purpose of preventing and removing contamination and pollution of such supply.

I further request that if the map be provisionally adopted or approved, opportunity be given to all persons interested to be heard respecting the map and the acquisition of the real estate shown thereon, and that public notice of such hearing be given in the CITY RECORD, the corporation papers and in two papers published in the county or counties in which the real estate is situated, as required by said section 486 of the City Charter.

Very respectfully,

WILLIAM DALTON, Commissioner of Water Supply.

The following resolution was thereupon unanimously adopted:

Whereas, A map, showing lands in The City of New York, Borough of Queens, and in the Town of Hempstead, County of Nassau, to be acquired for the purpose of maintaining, preserving and increasing the supply of pure and wholesome water for the use of this City, in the Borough of Brooklyn, has been prepared by the Commissioner of Water Supply, has been submitted to this Board for approval, in pursuance of section 486 of chapter 378, Laws of 1897,

Resolved, That, in pursuance of said section 486 of chapter 378, Laws of 1897, a public hearing by this Board will be given at a meeting of this Board, to be held in the office of this Board on the 31st day of October, 1900, at 2 o'clock P. M., to all persons interested in or affected by such said map, and the acquisition of the lands shown thereon.

PURCHASE OF JUMEL MANSION.

The following communication from the Park Commissioners was read :

DEPARTMENT OF PARKS, September 14, 1900.

Hon. MAURICE F. HOLAHAN, President, Board of Public Improvements, No. 21 Park row, City :

DEAR SIR—I am directed by President Clausen, Park Commissioner for the boroughs of Manhattan and Richmond, to acknowledge and reply to your favor of August 6, and other communications supplemental thereto, in reference to the purchase by the City of the Jumel Mansion and grounds.

The matter has received careful attention from President Clausen, and has been reported upon by the Landscape Architect and the Landscape Gardner of this Department. Upon their reports, and the results of his own observation, the President heartily approves and endorses the project to acquire the property for the city and place it under the jurisdiction of the Department of Parks.

The report of the Landscape Gardner, Borough of Manhattan, Mr. N. Jonsson Rose, was as follows :

"The property is located directly west of Highbridge Park, and Edgecomb road, on the high bluff overlooking the Harlem river. It appears to be a desirable piece of property aside from its value as an historical site."

The Landscape Architect of this Department for The City of New York, Mr. John DeWolf, reported as follows :

"I have to say in answer to your request to examine and report upon the advisability of the City's acquiring the Jumel property, that I have carefully done so and most strongly advise that it be acquired by the City."

"While it is to be regretted that no more of the land remains in a condition to be restored as in Colonial times, enough remains to make it the most interesting historical site in the City."

"The changes that have been made in the house have not materially altered its character, and it can be restored to its original condition and appearance, both inside and out, at a most reasonable outlay."

"New York is so lacking in objects that inspire patriotism or awaken enthusiasm for things American that I think this historic spot should be cherished to counteract as much as possible the un-American tendencies of the age."

"It will also be an object of great interest to people visiting the City from other parts of the country and add to the attractiveness of our City as a resort for travelers."

"The grounds should be restored in conformity with the style prevailing when the house was built and planted in the fashion of those days."

"The preservation by the City of this historical relic will undoubtedly meet with popular approval and be appreciated by the people as long as it exists."

Very respectfully yours,

WILLIS HOLLY, Secretary, Park Board.

The following resolution was then unanimously adopted :

Whereas, The Local Board of the Nineteenth District of the Borough of Manhattan and the Department of Parks have approved of the many petitions presented to this Board that the so-called Jumel Mansion be purchased by The City of New York as a museum for historical relics, and that the surrounding land be acquired and laid out as a public park.

Resolved, That the President of this Board cause a map or plan to be prepared showing the land required to be laid out for such public park, together with a technical description of the same, for the purpose of a public hearing in the matter, to be given by this Board.

CLOSING SEA BREEZE AVENUE, BROOKLYN.

The following communication from the Commissioner of Parks for the Borough of Brooklyn was read :

DEPARTMENT OF PARKS—BOROUGH OF BROOKLYN, }
September 19, 1900. }

To the Board of Public Improvements :

GENTLEMEN—I regret my inability to appear before your Board to-day in person. I send you with this communication, however, Mr. Zartmann, the Engineer of this Department, who is familiar with the boundaries, and who made the survey, which he will present to you.

The property in question is very valuable, probably the most valuable at Coney Island, and is the only stretch of land belonging to the city having frontage on the ocean which the public can enjoy. To close Sea Breeze avenue at the present time would be very detrimental not only at the present time but also in the future, as steps have already been taken by the city to protect its property.

The parties who are petitioning for the closing of Sea Breeze avenue have already erected a large bathing pavilion, which not only projects over the centre of Sea Breeze avenue but is upon land belonging to this Department. They have excavated on Sea Breeze avenue and on land belonging to the city, which excavation has weakened the shores and brings the water up to the property of the opposite owner on Sea Breeze avenue to the destruction of the city's property. The closing of this avenue may also lead to serious legal troubles in regard to the ownership of property or that may occur by the inroads of the ocean.

A copy of the map, with my protest as Commissioner, has been forwarded to the Law Department with the request that they protect the City from trespassing in the erection of the Parkway Bathing Pavilion. After much trouble and expense Sea Breeze avenue has been defined, and, until all the interests of the parties have been settled by reason of the jetties and such other erections as may be placed in the water, it would be unfortunate if we should disturb it and render what has heretofore been a very troublesome boundary of no avail.

The very erection of this bathing pavilion, fronting as it does upon land belonging to the City, is a self-evident fact that the parties in spending their money upon the erection of this building intended to use the City's water-front for the use of their patrons.

We have been having a great many complaints all through the season of the lack of some place and means of accommodating the many thousands of people who gather upon this beach, and efforts are now being made by this Department in order to secure an appropriation to improve the beach and take such steps as our engineers may report to be most favorable toward restoring and recovering the property lost by the ocean's inroads and protect that which remains.

I regret my inability to be with you, but I think, from an examination of the maps and with my Engineer's assistance, you will be able to see your way clear not to grant the petition to close Sea Breeze avenue until the City's property and interests are protected.

Sincerely yours,

GEO. V. BROWER, Commissioner.

On motion of the Deputy Comptroller, the petition for the closing of said Sea Breeze avenue was denied.

LAYING OUT NEW STREET, RICHMOND.

The following report from the Topographical Engineer was placed on file :

TOPOGRAPHICAL BUREAU, September 15, 1900.

Mr. JOHN H. MOONEY, Secretary, Board of Public Improvements :

SIR—In reply to the communications of Father Murphy, of the Convent of Visitation, and of the Deputy Commissioner of Highways of the Borough of Richmond, in relation to laying out of a street along the property line of the convent, from Richmond turnpike to Ward avenue, in the Borough of Richmond, I wish to state that the Board of Public Improvements on January 30, 1900, filed a map in accordance with certain directions given by a resolution of the Local Board of the Borough of Richmond. These directions turned out to be different from what was intended by Father Murphy of the convent, and on June 15, 1900, a new resolution was passed by the Local Board shifting the location of the said street twenty feet. On August 3, 1900, a communication was received from the Deputy Commissioner of Highways with a sketch showing the location of the street as finally decided on between him and the convent.

A map showing this change of line is in preparation, and will be presented to the Board at its next meeting for public hearing and adoption.

Papers in the matter herewith returned.

Respectfully,

F. GREIFFENBERG,
Principal Assistant Topographical Engineer.

OPENING HAMILTON TERRACE, MANHATTAN.

The following petition was read, and, on motion of the President of the Borough of Brooklyn, the matter was referred to the Commissioner of Highways for a report as to the probability of proceedings be immediately commenced for the grading and paving of Hamilton terrace :

IN THE MATTER

of

The Application to the Board of Public Improvements for permission to vest title to Hamilton terrace in the City.

We, the undersigned, being the owners of premises abutting on Hamilton terrace, between West One Hundred and Forty-first street and West One Hundred and Forty-fourth street, in the Borough of Manhattan in The City of New York, and being the owners of the bed of said Hamilton terrace in front of said premises to the centre line thereof, do hereby request :

First—That Hamilton terrace, from West One Hundred and Forty-first street to West One

Hundred and Forty-fourth street, as laid down on the final maps, be acquired by the City at once, and that the City take proceedings to have the title to said Hamilton terrace vested at once in the City ; and we do hereby consent, if such proceedings be taken, that no interest shall be paid upon the award which is to be made to us for the property taken for said proposed Hamilton terrace until such time as it would otherwise be payable to us if such vesting were to follow the usual procedure.

Second—The purpose of having said title vest at once is that The City of New York may at once regulate, grade and pave said street.

Dated New York, September 19, 1900.

CLOSING TWO HUNDRED AND TENTH STREET, BRONX.

The matter of the closing of Two Hundred and Tenth street, which was laid over at the meeting of August 29 (Minutes, p. 2438), was brought up for consideration, and, on motion of the Deputy Comptroller, the matter was referred to the Local Board for its further consideration.

REPORTS FROM COMMISSIONER OF WATER SUPPLY.

The following communication from the Commissioner of Water Supply was read :

DEPARTMENT OF WATER SUPPLY, September 17, 1900.

Hon. MAURICE F. HOLAHAN, President, Board of Public Improvements :

DEAR SIR—In pursuance of the provisions of section 413 of the City Charter, I respectfully ask the authorization of your Board for the making of the following contracts for materials and supplies required for the public water service in the Borough of Brooklyn, the expense thereof to be charged to the fund derived from "Water Revenue, Borough of Brooklyn."

For furnishing shovels, yarn, lead, castings, hydrant caps, etc., required in repairs of the system of distributing mains, estimated cost, \$2,700.

For furnishing shovels, barrows, well-points, well-pipe, boiler tubes, nails, etc., required in the maintenance and repairs of conduit line, well stations and pumping stations, estimated cost, \$7,800.

For furnishing brick, fire-brick, fire-clay, cement and asbestos required in repairs of pumping stations, estimated cost, \$4,000.

I inclose herewith draft of a resolution for adoption by the Board, covering these contracts.

Very respectfully,

WILLIAM DALTON, Commissioner of Water Supply.

The following resolution was thereupon adopted :

Resolved, That, in pursuance of the provisions of the Greater New York Charter, the Commissioner of Water Supply be and hereby is authorized to make the following contracts for materials and supplies required in the maintenance of the public water system in the Borough of Brooklyn, the expense thereof to be charged to the fund derived from "Water Revenue, Borough of Brooklyn."

For furnishing shovels, yarn, lead, castings, hydrant caps, etc., required in repairs of distributing mains.

For furnishing shovels, barrows, well-points, well-pipe, boiler tubes, nails, etc., required in repairs of the conduit line, well stations and pumping stations.

For furnishing brick, fire-brick, fire-clay, cement and asbestos required in repairs of pumping stations.

Affirmative—Commissioner of Water Supply, Commissioner of Street Cleaning, Commissioner of Bridges, President of the Borough of Brooklyn and President of the Board.

Negative—None.

The following communication from the Commissioner of Water Supply was read :

DEPARTMENT OF WATER SUPPLY, September 17, 1900.

Hon. MAURICE F. HOLAHAN, President, Board of Public Improvements :

DEAR SIR—The measures reported and recommended to your Board from this office since the early part of 1898 for the necessary enlargement and improvement of the water supply for the Borough of The Bronx, and which have been promptly and favorably acted upon by the Board, but have as yet failed of final adoption and authorization in the Municipal Assembly, included the construction and operation of a high-service pumping station adjoining the site of the Jerome Park Reservoir, now in course of construction under the direction of the Aqueduct Commissioners, and the laying of a 48-inch main thence through the central and southerly, that is, the densely populated section of the borough, and the ultimate extension of the water service into the territory east of the Bronx river, now inadequately supplied with water by the New York and Westchester Water Company.

The two great difficulties to be contended with in providing an adequate water supply to all parts of the Borough of The Bronx are :

First—That hitherto it has been dependent entirely on the supply obtainable from the Bronx and Byram rivers, the limited capacity of which has long ago been overtaxed, so that during the past summer season and at the present time, when rainfall has been exceptionally small, the temperature high and consumption of water excessive, the available supply has fallen short by eight to fifteen per cent. of the quantity required for distribution and actually distributed.

Second—That large sections of the populated part of the borough are on elevations beyond the reach for effective water service by the service from the Bronx and Byram river water system.

To tide over the time not less than two and possibly three years which will be required to complete the high-service pumping station and to make the necessary connections with it and lay the radiating distributing mains from it, this Department early last year recommended and received the approval of your Board for the laying of a 48-inch main directly from the Croton Aqueduct to and through the central and southerly section of the borough, and the requisite authority and means for this purpose have been granted by the co-ordinate branches of the City Government, except one branch of the Municipal Assembly, where it is still pending. In the meantime, through the circumstances herein related, the pressures in the water service have been so much diminished that there is actual distress in what may be called the Kingsbridge district, which includes some of the highest grounds in the borough. This district is in need of relief by a more speedy method than the carrying out of the general plan of a high-service station and radiating mains therefrom. The speedier method which I herewith present for the approval and adoption of the Board is the laying of a 48-inch main from the Croton Aqueduct, near Gun Hill road, through Van Cortlandt Park to Bailey avenue, through Bailey avenue to Harlem river terrace and through Harlem river terrace to Fordham road, with the necessary connections, stop-cocks and hydrants.

To this end I present for the adoption of the Board the annexed resolution approving the laying of this line of 48-inch mains, with the necessary connections, stop-cocks and hydrants, the expense to be provided for by the issue of bonds of the Corporate Stock of The City of New York to the amount of \$150,000, and I recommend that a corresponding ordinance be transmitted to the Municipal Assembly for adoption.

Very respectfully,

WILLIAM DALTON, Commissioner of Water Supply.

The following resolution was thereupon adopted :

Resolved, by the Board of Public Improvements, That, in pursuance of section 413 of the Greater New York Charter, the laying of a line of 48-inch water-mains from the Croton Aqueduct, near Gun Hill road, through Van Cortlandt Park to Bailey avenue, through Bailey avenue to Harlem river terrace, and through Harlem river terrace to Fordham road, with necessary connections, stop-cocks and hydrants, in the Borough of The Bronx, and the making of a contract for the same by the Commissioner of Water Supply, be and the same is hereby authorized and approved, the cost of said public work or improvement to be paid for from the issue of bonds of the Corporate Stock of The City of New York.

Affirmative—Commissioners of Water Supply, Commissioner of Highways, Commissioner of Street Cleaning, Commissioner of Bridges, President of the Borough of The Bronx and President of the Board.

Negative—None.

In connection with the foregoing resolution the following form of ordinance was approved for transmission to the Municipal Assembly :

IN MUNICIPAL ASSEMBLY.

Be it Ordained by the Municipal Assembly of The City of New York, as follows :

That, in pursuance of section 413 of the Greater New York Charter, the following resolution of the Board of Public Improvements, adopted by that Board on the 19th day of September, 1900, be and the same hereby is approved, and the public work or improvement therein provided for is hereby authorized, viz. :

"Resolved, by the Board of Public Improvements, That, in pursuance of section 413 of the Greater New York Charter, the laying of a line of 48-inch water-mains from the Croton Aqueduct, near Gun Hill road, through Van Cortlandt Park to Bailey avenue, through Bailey avenue to Harlem river terrace, and through Harlem river terrace to Fordham road, with necessary connections, stop-cocks and hydrants, in the Borough of The Bronx, and the making of a contract for the same by the Commissioner of Water Supply, be and the same is hereby authorized and approved, the cost of said public work or improvement to be paid for from the issue of bonds of the Corporate Stock of The City of New York."

REPORTS FROM COMMISSIONER OF HIGHWAYS.

The following communication from the Commissioner of Highways was read :

DEPARTMENT OF HIGHWAYS, September 19, 1900.

Hon. MAURICE F. HOLAHAN, President, Board of Public Improvements :

DEAR SIR—Mr. Thomas J. McLaughlin, contractor for regulating, grading, etc., One Hundred and Seventy-second street, between the Southern Boulevard and the Bronx river, has

applied to this Department for the remission of the overtime on said contract, on the ground that, by the debt-limit question the construction of a sewer in West Farms road and the laying of gas-mains, he was delayed in the prosecution of his work for a period equal to the overtime of 375½ days.

While it would be difficult to specify the exact amount of delay caused by the construction of the sewer by the laying of gas-mains, and by the debt-limit question, respectively, I believe the contractor has, in the aggregate, been delayed in the execution of his contract for a period equal to the overtime. Moreover, if this Department should take the view that the contractor is not entitled to all the overtime he claims, there is strong probability that he could get judgment against the City for the full amount of his claim, as I am advised by the Law Department that the City has no substantial defense to advance against contractors' pleas of delay caused by the debt-limit question.

Under these circumstances, and keeping in mind the best interests of the City in saving the expense of litigation where it is evident that a suit would result favorably to the contractor, I respectfully recommend that authority be granted to cancel the 375½ days' overtime under said contract.

Very respectfully,
JAMES P. KEATING, Commissioner of Highways.

The following resolution was then adopted:

Resolved, by the Board of Public Improvements, That, the Commissioner of Highways be and is hereby authorized to remit the penalty for three hundred and seventy-five and one-half (375½) days' overtime on the contract of Thomas J. McLaughlin for regulating, grading, etc., One Hundred and Seventy-second street, between the Southern Boulevard and the Bronx river, in the Borough of The Bronx, on condition that he execute a release to the City from all claims arising by reason of failure of the City to make payments to him on said contract when due.

Affirmative—Commissioner of Water Supply, Commissioner of Street Cleaning, Commissioner of Bridges, President of the Borough of Brooklyn and President of the Board.

Negative—None.

BOROUGH OF BROOKLYN, September 17, 1900

Board of Public Improvements:

GENTLEMEN—The Local Board of the Fifth District, Borough of Brooklyn, after hearing had at a meeting held September 14, 1900, duly advertised, adopted the following:

"Resolved, That the Local Board of the Fifth District, Borough of Brooklyn, hereby reaffirms its recommendation to the Board of Public Improvements of November 23, 1899, appearing in the minutes of said Board on November 29, 1899, page 2515, and requests that the Topographical Bureau be instructed to forthwith prepare a street plan and a sewer plan for the section of Coney Island requiring a sewerage system."

This resolution was passed at the same time with other resolutions here transmitted relating to Coney Island, and has in view the bringing about of a change in the condition of Coney Island, if possible, before the next season. The present sanitary arrangements of Coney Island are such that I deem this matter of more importance than any other suggested improvement in that locality.

GENTLEMEN—The Local Board of the Fifth District, Borough of Brooklyn, after hearing had at a meeting held on September 14, 1900, duly advertised, adopted the following:

"Resolved, That the Local Board of the Fifth District, Borough of Brooklyn, after hearing had this 14th day of September, 1900, and on various other dates, hereby recommends to the Board of Public Improvements of The City of New York that the map of The City of New York be altered by laying out as a highway a strip of land extending along the Atlantic Ocean from high-water mark to a point inland, and from the concourse lands to Beach Thirty-seventh street, in the Thirty-first Ward of the Borough of Brooklyn; and be it further

"Resolved, That the Local Board requests that the matter of the details of such highway and of building a board walk thereon and improving and protecting the beach at Coney Island be referred to the Topographical Bureau for an early report; and it is hereby suggested to the Board of Public Improvements that the Local Board, after hearing those having property interests at Coney Island and others who are interested in improving conditions there, believes that there should be a board walk ten feet high constructed on such highway similar to that at Atlantic City, and under similar regulations, especially that on such highway no business should be transacted and no structures erected, no railroads ever constructed thereon, and that in case of the beach making out beyond the present high water line to the extent of one hundred and fifty feet the highway should be moved out so that the present property-owners should not lose their present right to the accretion; and that the entire cost of acquiring the highway be assessed upon the property deemed to be benefited thereby and the entire cost of improving the highway be paid by the City."

The property-owners at Coney Island appear to be unanimously in favor of the foregoing plan, and, in a number of cases, are willing to make cession of the land for the highway. The comments in the public press have also, without exception, commended this plan in preference to anything else in the way of a park or other public improvement which has been suggested at Coney Island. As the expense of acquiring the highway would thus fall upon the property-owners, the cost of the improvement to the city, limited to the construction of the board-walk, would be comparatively slight. The inclosed report, which was before the Local Board at the time of the hearing, gives an estimate of the cost which, on the basis of the experience of Atlantic City for a similar structure, I think is high. Such estimate is for a wooden structure with wooden piers or columns. Where Atlantic City constructed more recently it has built with steel columns supporting the walk, and the cost there for ten thousand feet of such structure forty feet wide was, I am informed by Mr. Phillip P. Farley, Civil Engineer, who was assistant engineer in the construction of such walk in Atlantic City, and who is now located at No. 215 Montague street, Brooklyn, the sum of \$130,000. The distance covered in the proposed walk at Coney Island is eight thousand feet. I would recommend Mr. Farley to the Topographical Bureau as a reliable source of further information. The plan proposed here has a highway of one hundred feet in width from high-water mark inland, of which the fifty feet inland would be devoted to a board walk and the fifty feet between the walk and the ocean would be a part of the public beach; but the Local Board, with a view to securing the best possible result, has left the width of the proposed highway open until it should have a full report from the Topographical Bureau. The restrictions upon the proposed highway, which are contained in the resolution, may be such as the City authorities cannot legally impose. They will commend themselves in point of propriety, however, to any one familiar with Coney Island, and if it should be doubtful that we have the authority to make such restrictions it would become necessary to apply to the Legislature for the necessary power.

The conditions in Coney Island need immediate change, of that there can be no doubt, and the reasons for it are so well known to everybody that I need not here enlarge upon them. If possible, we ought to bring about a change before the next season opens, and I request that this matter be referred to the Topographical Bureau with instructions to make a full report thereon at the earliest possible moment.

Yours very truly,

EDWARD M. GROUT, President of the Borough.

BROOKLYN, N. Y., September 4, 1900.

Hon. EDWARD M. GROUT, President of the Borough of Brooklyn:

DEAR SIR—In accordance with instructions from you to prepare a tentative plan, with estimate of cost, of a board walk along the ocean front at Coney Island, I report as follows:

The City can, by condemning land one hundred feet inland from high-water mark, and parallel with the shore, from West Fifth street, adjoining the concourse lands, to Beach Thirty-seventh street, procure sufficient land on which to construct a substantial board walk fifty feet wide and about eight thousand feet long, leaving a beach fifty feet at high tide and at low tide a beach varying from one hundred to two hundred feet.

The apportioned, estimated value of the land required, based on the assumption that the assessed valuation is only sixty per cent. of the real or market value, would be about \$190,000.

I have had considerable experience in the Apportionment Department, in the Bureau for the Collection of Taxes in New York and Queens Counties, and have apportioned values in more than a thousand cases. The above estimate is therefore not guess work, but based on rules and figures now in force.

The value of building and other obstructions now erected on the strip of land referred to would not, in my judgment, exceed \$110,000. They are for the most part frame structures, unpretentious and cheap, used principally for bathing houses and open pavilions.

The cost of removing the obstructions would be very trifling; in fact, they could be sold for old lumber or other purposes and removed by the purchasers at once.

The land between high and low water has been, in some cases, sold by the State to the owners of the adjoining uplands.

In the event of this proposition being put into effect, it might be advisable to acquire these riparian rights. They could be bought, probably, for very little more than the amount paid to the State.

In any event, even if the City did not acquire these rights, it would in no way affect the carrying out of this plan, as the deed from the State specifically requires that the right of way be open to the public, the same as if the grant had not been made, and in no case shall the owners fence off their land under water.

The walk itself would require four hundred thousand square feet of yellow pine flooring, two and one-half inches thick, making one million feet, board measure, of lumber, at \$35 per one thousand feet, \$35,000.

Thirty-five thousand running feet of six by eight inch yellow pine stringers, making one hundred and forty thousand feet of lumber, at \$35 per one hundred feet, \$4,900.

The labor and nails would be sixty per cent. of cost of material, making \$23,940. To be substantially built and in keeping with the heavy flooring, piles should be driven fifteen feet apart each way, running and crossways. This would require two thousand one hundred and thirty-two piles at \$3.50 each, furnished and driven, costing \$7,462; fifteen thousand feet of railing at twenty cents a foot in position, \$3,000, making a total of \$74,302 for a board walk fifty feet wide and eight thousand feet long, which should prove with proper care invulnerable against the elements.

This board walk, when complete would, more than any plan yet proposed, in my opinion, meet the requirements of Coney Island.

It would do to a great extent for Coney Island what the somewhat similar board walk has done for Atlantic City.

As this board walk would directly benefit the abutting property-owners they would be assessed a portion of the cost of improvement.

This board walk would also increase greatly the value of land, thereby assuring the City an increase in taxes which in a few years would repay the outlay.

The total estimated cost of improvement would be as follows:

For Walk—	
Piles for walk, 2,132.....	\$7,462 00
6 x 8 inch stringers.....	4,900 00
Flooring.....	35,000 00
Railing.....	3,000 00
Labor.....	23,940 00

Total..... \$74,302 00

Cost of land.....	190,000 00
Cost of buildings.....	110,000 00

Total..... \$374,302 00

Add 2 per cent. for deficiencies..... 7,486 04

Grand total..... \$381,788 04

The accompanying sketch shows, as near as possible without surveys, the location of obstructions in the line of proposed board walk and the land to be acquired.

Respectfully submitted,

(Signed) JOHN R. KEEFE, Investigator of Complaints.

POLICE DEPARTMENT.

POLICE DEPARTMENT OF THE CITY OF NEW YORK,
No. 300 MULBERRY STREET.

TO CONTRACTORS.

PROPOSALS FOR ESTIMATES.

SEALED ESTIMATES FOR SUPPLYING THE Police Department with three copies of the Enrollment Books used on the days of Registration for the General Election of 1900, will be received at the Central Office of the Department of Police, in The City of New York, until 2 o'clock P. M. of

THURSDAY, THE 11th DAY OF OCTOBER, 1900.

The person or persons making an estimate shall furnish the same in a sealed envelope, indorsed "Estimate for Furnishing Copies of Enrollment Books," and with his or their name or names, and the date of presentation, to the head of said Department, at the said office, on or before the day and hour above named, at which time and place the estimates received will be publicly opened by the head of said Department and read, and the award of the contract made to the lowest bidder, with adequate security, as soon thereafter as practicable.

For particulars as to the quantity and kind of copies required, reference must be made to the specifications, blank forms of which may be obtained at the office of the Chief Clerk in the Central Department.

Bidders will state a price for the work and materials furnished in accordance with the specifications. The price must be written in the bid and stated in figures. Permission will not be given for the withdrawal of any bid or estimate, and the right is expressly reserved by the head of said Department to reject any or all bids which may be deemed prejudicial to the public interests.

No estimates will be accepted from, or a contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The entire quantity is to be delivered as stated in the specifications and as shall be directed by the Superintendent of Elections of The City of New York.

The person or persons to whom the contract may be awarded will be required to give security for the performance of the contract, in the manner prescribed by law, in the sum of Ten Thousand Dollars.

Each estimate shall contain and state the name and place of residence of each of the persons making the same, the names of all persons interested with him or them therein, and if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as a surety, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, upon its being so awarded, become bound as his sureties for its faithful performance, and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled upon its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in The City of New York, and is worth the amount of the security required for the completion of this contract and herein stated, over and above all his debts of every nature, and over and above his liabilities as bail, surety and otherwise, and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of The City of New York after the award is made and prior to the signing of the contract.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, and that the adequacy and sufficiency of the security offered has been approved by the Comptroller, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet, as provided by law.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be included in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days

after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and be retained by The City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

The Board of Police reserves the right to reject all the bids received if deemed for the best interests of the City so to do, and to readvertise until satisfactory bids or proposals shall be received.

Blank forms of bid or estimate and also the proper envelopes in which to inclose the same, together with the form of agreement, including the specifications approved as to form by the Corporation Counsel, and showing the manner of payment, can be obtained upon application therefor at the office of the Superintendent of Elections of The City of New York, at his office in the Central Department.

Where more than one person is interested it is requisite that the verification be made and subscribed to by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two (2) surety companies, householders or freeholders in The City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, upon its being so awarded, become bound as his sureties for its faithful performance, and that if he shall omit or refuse to execute the same they will pay to the Corporation any difference between the sum to which he would be entitled upon its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons or surety companies signing the same, that he is a householder or freeholder in The City of New York and is worth the amount of the security required for the completion of this contract and herein stated, over and above all his debts of every nature, and over and above his liabilities as bail, surety and otherwise, and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of The City of New York after the award is made and prior to the signing of the contract.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, and that the adequacy and sufficiency of the security offered has been approved by the Comptroller, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet, as provided by law.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be included in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate box; and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and be retained by The City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

For particulars as to the quantity and quality of the supplies or the nature and extent of the work required or of the materials to be furnished, bidders are referred to the printed specifications and the plans. Such work and materials must conform in every respect to printed specifications and plans. Bidders are cautioned to examine the specifications for particulars of the articles, etc., required, before making their estimates. Plans may be examined and specifications and blank estimates may be obtained by application to the undersigned at his office in the Central Department.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in The City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise, and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. MANHATTAN, NEW YORK CITY.

TO CONTRACTORS.

PROPOSALS FOR BIDS OR ESTIMATES FOR REPAIRING THE ASPHALT PAVEMENT OF WASHINGTON BRIDGE, OF MACOMB'S DAM BRIDGE, AND OF THIRD AVENUE BRIDGE, OVER THE HARLEM RIVER.

SEALED ESTIMATES FOR THE ABOVE WORK, indorsed with the above title, also with the name of the person or persons making the same, and the date of presentation, will be received at the office of the Department of Bridges, Nos. 13 to 21 Park Row, New York City, until 12 o'clock M., on

MONDAY, THE 1st DAY OF OCTOBER, 1900,

at which place and hour the bids will be publicly opened by the head of said Department and read, and the award of the contract will be made as soon thereafter as practicable.

The person or persons to whom the contract may be awarded will be required to attend at the office of the said Department, with the sureties offered by him or them, and execute the contract within five days after written notice that the same has been awarded to his or their bid or estimate, and that the sureties offered by him or them have been approved by the Comptroller; and in case of failure or neglect so to do, he or they will be considered as having abandoned it, and as in default to the Corporation, and thereupon the work will be readvertised and relet, and so on until the contract be accepted and executed. The work to commence at such time as the Commissioner of Bridges may designate.

The prices must be written in the bid and also stated in figures, and all estimates will be considered as informal which do not contain bids for all items called for in these specifications, or which contain bids for items not called for therein. Permission will not be given for the withdrawal of any bid or estimate, and the right is expressly reserved by the Commissioner of Bridges to reject all bids should he deem it to the public interest so to do. No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The price is to include the furnishing of all the necessary materials and labor, and the performance of the whole of the work mentioned in the specifications annexed.

The following is a statement of the Engineer's estimate of the nature and extent of the work to be done and the quality and quantity of the materials to be furnished, and the several bids will be tested by the quantities mentioned in such statement:

1. 13,500 square yards patching asphalt pavement on Washington Bridge.
2. 500 square yards patching asphalt pavement on Macomb's Dam Bridge.
3. 1,842 square yards new asphalt wearing surface on draw-span of Macomb's Dam Bridge.
4. 400 square yards patching asphalt pavement on Third Avenue Bridge.

For further particulars as to the quantity and quality of the supplies or of the nature and extent of the work required or of the materials to be furnished, bidders are referred to the printed specifications. Such work and materials must conform in every respect to printed specifications and plans.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall neglect or refuse, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by The City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid the amount of his deposit will be returned to him.

Bidders are required to state in their estimates, under oath, their names and places of residence, the names of all persons interested with them therein, and if no other person be so interested they shall distinctly state the fact; also, that such estimate is made without any connection with any other person making a bid or estimate for the same purpose, and that it is in all respects fair and without collusion or fraud; and also, that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof.

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders of The City of New York, with their respective places of business or residence, or of a guaranty or surety company duly authorized by law to act as surety, to the effect that if the contract be awarded to the person making the estimate, they will, or it will, on its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they will, or it will, pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the persons to whom the

contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in The City of New York, and is worth the amount of the security required for the completion of the contract and stated in the proposals, over and above all his debts of every nature, and over and above all his liabilities as bail, surety or otherwise; that he has offered himself as a surety in good faith and with an intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be determined by the Comptroller of The City of New York after the award is made and prior to the signing of the contract.

The time allowed for the completion of the whole work will be sixty working days. And the damages to be paid by the contractor for each day that the contract or any part thereof may be unfulfilled after the time fixed for the completion of the whole work has expired are, by a clause in the contract, fixed and liquidated at twenty dollars per day.

The amount of security required is Fifteen Thousand Dollars.

Blank forms of proposals, the form of agreement, including the specifications, the proper envelopes in which to inclose the same, approved as to form by the Corporation Counsel, and showing the manner of payment and further information, will be furnished at the office of the Department of Bridges. Bidders are cautioned to examine each and all the provisions thereof carefully before making their estimate.

If the successful bidder shall neglect or refuse, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by The City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid the amount of his deposit will be returned to him.

Bidders are required to state in their estimate, under oath, their names and places of residence, the names of all persons interested with them therein, and if no other person be so interested they shall distinctly state the fact; also, that such estimate is made without any connection with any other person making a bid or estimate for the same purpose, and that it is in all

respects fair and without collusion or fraud; and also, that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof.

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders of The City of New York, with their respective places of business or residence, or of a guaranty or surety company duly authorized by law to act as surety, to the effect that if the contract be awarded to the person making the estimate, they will, or it will, on its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they will, or it will, pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in The City of New York, and is worth the amount of the security required for the completion of the contract and stated in the proposals, over and above all his debts of every nature and over and above all his liabilities as bail, surety or otherwise; that he has offered himself as a surety in good faith and with an intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be determined by the Comptroller of The City of New York after the award is made and prior to the signing of the contract.

The time allowed for the completion of the whole work will be one hundred and twenty-five working days. And the damages to be paid by the contractor for each day that the contract or any part thereof may be unfulfilled after the time fixed for the completion of the whole work has expired are, by a clause in the contract, fixed and liquidated at twenty dollars per day.

The amount of security required is Ten Thousand Dollars. Blank forms of proposals, the form of agreement, including the specifications, the proper envelopes in which to inclose the same, approved as to form by the Corporation Counsel, and showing the manner of payment and further information will be furnished at the office of the Department of Bridges. Bidders are cautioned to examine each and all the provisions thereof carefully before making their estimate.

No. 2.....	3,000 00

Further particulars as to the nature, quantity and quality of the work required will be found in the printed specifications and contracts for the said supplies.

BIDDERS MUST NAME A PRICE FOR EACH AND EVERY ITEM INCLUDED IN THE SPECIFICATIONS UPON WHICH THESE BIDS ARE BASED, AND ALSO STATE THE TOTAL AMOUNT OF THEIR BIDS FOR THE CLASS SUPPLIES NAMED.

Bidders, or their representatives, must satisfy themselves, by personal examination, as to the nature and quantity of the supplies required, and shall not at any time after the submission of an estimate dispute or complain of such statement, nor assert that there was any misunderstanding relative to the quality or quantity of the supplies to be furnished.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same, the names of all persons interested with him or them therein, and if no other person be so interested it shall distinctly state that fact; that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested it is required that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance, and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature and over and above his liabilities as bail, surety or otherwise, and that he has offered himself as a surety in good faith and with the intention to execute the bond required by the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

No bid or estimate will be received or considered unless accompanied by either a certified check upon one of the State or National Banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid the amount of his deposit will be returned to him.

N. B.—The prices must be written in the estimate and also stated in figures, and all estimates will be considered as informal which do not contain bids for all items for which bids are herein called, or which contain bids for items for which bids are not herewith called for. Permission will not be given for the withdrawal of any bid or estimate. No bid will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The Fire Commissioner reserves the right to reject all the bids received in response to this advertisement if he should deem it for the interest of the City so to do.

For further particulars as to the quantity and quality of the supplies to be furnished bidders are referred to the printed specifications. Such supplies must conform in every respect to the printed specifications. Bidders are cautioned to examine the specifications for particulars of what is required before making their estimates.

Blank forms of bid or estimate, and also the proper envelopes in which to inclose the same, together with the form of agreement, including specifications approved as to form by the Corporation Counsel, and showing the manner of payment, can be obtained upon application therefor at the office of the Fire Department, Nos. 157 and 159 East Sixty-seventh street, in the Borough of Manhattan, New York City.

No estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in a sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct.
