CLOSING EAST SEVENTY-SEVENTH STREET, MANHATTAN.

Hearing in the matter of the proposed closing and discontinuance of East Seventy-seventh street, between Exterior street and the western boundary of John Jay Park, in the Borough of Manhattan, which was postponed from May 3, was opened.

After hearing Hon. Everett P. Wheeler in favor of the closing, nobody appearing in opposition thereto, the hearing was closed.

Consideration of the matter was postponed until June 14.

CHANGE OF GRADE OF SEVENTY-SECOND STREET, BROOKLYN.

In the matter of the proposed change of grade of Seventy-second street, from the Shore road to Narrows avenue, in the Borough of Brooklyn, affidavits of publication were presented showing that the matter had been duly advertised.

Nobody appearing in favor of or in opposition to the proposed change, the hearing was closed.

The following resolution was then adopted:

Whereas, At a meeting of this Board, held on the 19th day of April, 1907, resolutions were adopted proposing to change the map or plan of The City of New York so as to change the grade of Seventy-second street, from the Shore road to Narrows avenue, in the Borough of Brooklyn, City of New York, and appointing a hearing at a meeting of this Board to be held on the 17th day of May, 1907, at 10.30 o'clock a. m., at which meeting such proposed action would be considered by this Board, and requesting a notice to all persons affected thereby, of the aforesaid time and place at which such proposed action would be considered, to be published in the CITY RECORD and in the corporation newspapers for ten days prior to the 17th day of May, 1907; and

Whereas, It appears from the affidavits of the Supervisor of the City Record and the publishers of the corporation newspapers, that the aforesaid resolutions and notice have been published in the CITY RECORD and in the corporation newspapers for ten days prior to the 17th day of May, 1907; and

Whereas, At the aforesaid time and place, a public hearing was given to all persons interested in such proposed change who have appeared, and such proposed change was duly considered by this Board; now therefore be it

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter, as amended, deeming it for the public interest to change the map or plan of The City of New York by changing the grade of Seventy-second street, from the Shore road to Narrows avenue, in the Borough of Brooklyn, City of New York, does hereby favor the same, so as to make the aforesaid change as follows:

Beginning at the intersection of Seventy-second street and the Shore road, the elevation to be 22.80 feet as established by the Public Driveway and Parkway Commission May 18, 1896; thence southeasterly to the intersection of Narrows avenue, the elevation to be 21 feet as heretofore.

Note—All elevations refer to mean high water datum as determined by the Bureau of Highways, Borough of Brooklyn.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens—15.

CHANGE OF GRADE OF SEVENTY-NINTH STREET, BROOKLYN.

In the matter of the proposed change of grade of Seventy-ninth street, from Fifth avenue to Sixth avenue, Borough of Brooklyn, affidavits of publication were presented showing that the matter had been duly advertised.

Nobody appearing in favor of or in opposition to the proposed change, the hearing was closed.

The following resolution was then adopted:

Whereas, At a meeting of this Board, held on the 19th day of April, 1907, resolutions were adopted proposing to change the map or plan of The City of New York so as to change the grade of Seventy-ninth street, between Fifth avenue and Sixth avenue, in the Borough of Brooklyn, City of New York, and appointing a hearing at a meeting of this Board to be held on the 17th day of May, 1907, at 10.30 o'clock a. m., at which meeting such proposed action would be considered by this Board, and requesting a notice to all persons affected thereby, of the aforesaid time and place at which such proposed action would be considered, to be published in the CITY RECORD and in the corporation newspapers for ten days prior to the 17th day of May, 1907; and

Whereas, It appears from the affidavits of the Supervisor of the City Record and the publishers of the corporation newspapers, that the aforesaid resolutions and notice have been published in the CITY RECORD and in the corporation newspapers for ten days prior to the 17th day of May, 1907; and

Whereas, At the aforesaid time and place, a public hearing was given to all persons interested in such proposed change who have appeared, and such proposed change was duly considered by this Board; now therefore be it

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter as amended, deeming it for the public interest to change the map or plan of The City of New York by changing the grade of Seventy-ninth street, between Fifth avenue and Sixth avenue, in the Borough of Brooklyn, City of New York, does hereby favor the same so as to make the aforesaid change, as follows:

Beginning at the intersection of Seventy-ninth street and Fifth avenue, the elevation to be 65.96 feet, as heretofore; thence southeasterly along a uniformly ascending grade to the intersection of Sixth avenue, the elevation to be 68.85 feet, as heretofore.

Note—All elevations refer to mean high water datum as determined by the Bureau of Highways, Borough of Brooklyn.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens—15.

CHANGE OF GRADES OF UTICA, EAST NEW YORK AND REMSEN AVENUES, BROOKLYN.

In the matter of the proposed change of grades of Utica avenue, from Rutland road to Lefferts avenue, East New York avenue, from 130 feet east of East Forty-eighth street to East Ninety-first street, and Remsen avenue, from East New York avenue to East Fifty-first street, in the Borough of Brooklyn, City of New York, affidavits of publication were presented showing that the matter had been duly advertised.

Nobody appearing in favor of or in opposition to the proposed changes, the hearing was closed.

The following resolution was then adopted:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens—15.

On motion of the President of the Board of Aldermen, the matter of fixing the change of lines of Utica avenue was referred to the President of the Borough of Brooklyn.

STREET SYSTEM IN THROGG'S NECK DISTRICT, THE BRONX.

In the matter of the proposed laying out of a street system in the Throgg's Neck District, Borough of The Bronx, affidavit of publication was presented showing that the matter had been duly advertised.

Nobody appearing in favor of or in opposition to the proposed street system, the hearing was closed.

The President of the Board of Aldermen moved that the matter be referred to a committee consisting of the President of the Board of Aldermen, the Comptroller, the President of the Borough of The Bronx and the Chief Engineer of the Board, which motion was unanimously agreed to.

On motion, the following resolutions were adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York by laying out a street system at Throgg's Neck, in the territory bounded by Middletown road, Pelham Bay Park, Long Island Sound, Fort Schuyler Reservation, East river, Fort Schuyler road, Eastern boulevard, Balcom avenue and Appleton road, in the Borough of The Bronx, City of New York, more particularly shown on map or plan submitted by the President of the Borough of The Bronx, dated May 11, 1907.

Resolved, That this Board consider the proposed change at a meeting of the Board, to be held in the City Hall, Borough of Manhattan, City of New York, on the 14th day of June, 1907, at 10.30 o'clock a. m.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board, to be held at the aforesaid time and place, to be published in the CITY RECORD for ten days continuously, Sundays and legal holidays excepted, prior to the 14th day of June, 1907.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens—15.

CLOSING WILLOW AVENUE, ETC., THE BRONX.

In the matter of the proposed closing of Willow avenue, south of East One Hundred and Thirty-second street; Walnut avenue, south of East One Hundred and Thirty-second street; Locust avenue, south of East One Hundred and Thirty-second street; and East One Hundred and Twenty-ninth, East One Hundred and Thirtieth and East One Hundred and Thirty-first streets, east of the easterly line of Willow avenue, Borough of The Bronx, affidavit of publication was presented showing that the matter had been duly advertised.

Hon. Edward M. Grout appeared in favor of the proposed closing, and Hon. A. C. Hottenroth appeared in opposition thereto.

The hearing was closed, and on motion of the President of the Board of Aldermen the matter was referred to a committee consisting of the President of the Board of Aldermen, the Comptroller, the President of the Borough of The Bronx and the Chief Engineer of the Board, with instructions to report at the next meeting.

CHANGE OF GRADES IN TERRITORY BOUNDED BY LAWRENCE STREET, EAST RIVER, NINETEENTH AVENUE AND FLUSHING AVENUE, QUEENS.

In the matter of the proposed change of street grades in the territory bounded by Lawrence street, East river, Nineteenth avenue and Flushing avenue, in the Borough of Queens, affidavit of publication was presented showing that the matter had been duly advertised.

Nobody appearing in favor of, or in opposition to the proposed changes, the hearing was closed.

The President of the Board of Aldermen moved that the plan submitted by the President of the Borough of Queens be approved, with the exception of that portion of Ditmars avenue between Theodore street and Seventeenth avenue.

The following resolution was then adopted:

Whereas, At a meeting of this Board, held on the 26th day of April, 1907, resolutions were adopted proposing to change the map or plan of The City of New York so as to change the street grades in the territory bounded by Lawrence street, East river, Nineteenth avenue and Flushing avenue, First Ward, in the Borough of Queens, City of New York, and appointing a hearing at a meeting of this Board to be held on the 17th day of May, 1907, at 10.30 o'clock a. m., at which meeting such proposed action would be considered by this Board, and requesting a notice to all persons affected thereby, of the aforesaid time and place at which such proposed action would be considered, to be published in the CITY RECORD for ten days prior to the 17th day of May, 1907; and

Whereas, It appears from the affidavits of the Supervisor of the City Record that the aforesaid resolutions and notice have been published in the CITY RECORD for ten days prior to the 17th day of May, 1907; and

Whereas, At the aforesaid time and place, a public hearing was given to all persons interested in such proposed change who have appeared, and such proposed change was duly considered by this Board; now therefore be it

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter, as amended, deeming it for the public interest to change the map or plan of The City of New York by changing the street grades in the territory bounded by Lawrence street, East river, Nineteenth avenue and Flushing avenue, First Ward, in the Borough of Queens, City of New York, does hereby favor the same, so as to make the aforesaid changes in accordance with map or plan submitted by the President of the

Borough of Queens, excepting that the grades previously fixed on Ditmars avenue, between Theodore street and Seventeenth avenue, shall be retained.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

OPENING GREENPOINT AVENUE, BROOKLYN.

In the matter of fixing an area of assessment for the opening of Greenpoint avenue, between Jewell street and Newtown creek, in the Borough of Queens, affidavit of publication was presented, showing that the matter had been duly advertised.

Nobody appearing in favor of, or in opposition to the proposed area of assessment, the hearing was closed.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 970 of the Greater New York Charter, as amended, deems it for the public interest that the title, for the uses and to the extent thereof as herein mentioned, to the lands and premises required for the opening and extending of Greenpoint avenue, from Jewell street to Newtown creek, in the Borough of Brooklyn, City of New York, should be acquired by The City of New York.

Resolved, That the title to be so acquired is hereby determined to be a title in fee in such premises.

Resolved, That the Board of Estimate and Apportionment, deeming it for the public interest so to do, hereby requests the Corporation Counsel to make application to a Special Term of the Supreme Court, for the appointment of Commissioners of Estimate and of one Commissioner of Assessment, and to take the necessary proceedings, in the name of The City of New York, to acquire title as herein determined, wherever the same has not heretofore been acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending Greenpoint avenue, from Jewell street to Newtown creek, in the Borough of Brooklyn, City of New York.

Resolved, That no portion of the cost and expense of said proceedings, incurred by reason of the provisions of title 4, chapter 17, of the Greater New York Charter, as amended, shall be borne and paid by The City of New York, but that the whole of such cost and expense, including the expense of the Bureau of Street Openings and of the awards, if any, for damages caused by intended regulation and all other expenses and disbursements authorized by section 997 of said title, as amended, shall be assessed upon the property deemed to be benefited thereby; and

Whereas, It appears from the affidavits of the Supervisor of the City Record and the publishers of the corporation newspapers that due notice was given therein that at the time of the adoption of the resolution directing the institution of proceedings herein to acquire title to the lands required for this improvement that the Board of Estimate and Apportionment would consider a proposed area of assessment as herein described and would give a public hearing thereon upon the 17th day of May, 1907; and

Whereas, At the aforesaid time and place a public hearing was given to all persons interested in such proposed area of assessment who appeared, and such proposed area of assessment was duly considered by this Board.

Resolved, That the area of assessment for benefit in these proceedings be and is hereby fixed and determined to be as follows:

Three hundred feet on each side of the street to be opened between the bulkhead line of Newtown creek and a line midway between the westerly side of Jewell street and the easterly side of Diamond street, and the prolongation of the said line north of Greenpoint avenue.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

OPENING LINWOOD STREET, BROOKLYN.

In the matter of fixing an area of assessment for the opening of Linwood street, from New Lots road to Vandalia avenue, in the Borough of Brooklyn, affidavits of publication were presented, showing that the matter had been duly advertised.

Nobody appearing in favor of or in opposition to the proposed area of assessment, the hearing was closed.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 970 of the Greater New York Charter, as amended, deems it for the public interest that the title, for the uses and to the extent thereof as herein mentioned, to the lands and premises required for the opening and extending of Linwood street, from New Lots road to Vandalia avenue, in the Borough of Brooklyn, City of New York, should be acquired by The City of New York.

Resolved, That the title to be so acquired is hereby determined to be a title in fee in such premises.

Resolved, That the Board of Estimate and Apportionment, deeming it for the public interest so to do, hereby requests the Corporation Counsel to make application to a Special Term of the Supreme Court, for the appointment of Commissioners of Estimate and of one Commissioner of Assessment, and to take the necessary proceedings, in the name of The City of New York, to acquire title as herein determined, wherever the same has not heretofore been acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending Linwood street, from New Lots road to Vandalia avenue, in the Borough of Brooklyn, City of New York.

Resolved, That no portion of the cost and expense of said proceedings, incurred by reason of the provisions of title 4, chapter 17, of the Greater New York Charter as amended, shall be borne and paid by The City of New York, but that the whole of such cost and expense, including the expense of the Bureau of Street Openings and of the awards, if any, for damages caused by intended regulation and all other expenses and disbursements authorized by section 997 of said title, as amended, shall be assessed upon the property deemed to be benefited thereby; and

Whereas, It appears from the affidavits of the Supervisor of the City Record and the publishers of the corporation newspapers that due notice was given therein that at the time of the adoption of the resolution directing the institution of proceedings herein to acquire title to the lands required for this improvement that the Board of Estimate and Apportionment would consider a proposed area of assessment as therein described and would give a public hearing thereon upon the 17th day of May, 1907; and

Whereas, At the aforesaid time and place a public hearing was given to all persons interested in such proposed area of assessment who appeared, and such proposed area of assessment was duly considered by this Board;

Resolved, That the area of assessment for benefit in these proceedings be and is hereby fixed and determined to be as follows:

Bounded on the west by a line midway between Linwood street and Elton street; on the north by a line 100 feet north of and parallel with the northerly line of New Lots road, the said distance being measured at right angles to the line of New Lots road; on the east by a line midway between Linwood street and Essex street, and on the south by a line 100 feet south of and parallel with the southerly side of Vandalia avenue, the said distance being measured at right angles to the line of Vandalia avenue.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

OPENING PLOT BOUNDED BY NINETY-FOURTH STREET, FOURTH AND FIFTH AVENUES, BROOKLYN.

In the matter of fixing an area of assessment for the opening of the triangular plot bounded by Ninety-fourth street, Fourth and Fifth avenues, in the Borough of Brooklyn, affidavits of publication were presented showing that the matter had been duly advertised.

Nobody appearing in favor of or in opposition to the proposed area of assessment, the hearing was closed.

The Comptroller moved the adoption of a resolution providing for acquiring title to the plot, the entire expense to be assessed upon the property benefited, which motion was agreed to.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 970 of the Greater New York Charter, as amended, deems it for the public interest that the title, for the uses and to the extent thereof as herein mentioned, to the lands and premises required for the opening and extending of the triangular parcel of land bounded by Ninety-fourth street, Fourth avenue and Fifth avenue, in the Borough of Brooklyn, City of New York, should be acquired by The City of New York.

Resolved, That the title to be so acquired is hereby determined to be a title in fee in such premises.

Resolved, That the Board of Estimate and Apportionment, deeming it for the public interest so to do, hereby requests the Corporation Counsel to make application to a Special Term of the Supreme Court, for the appointment of Commissioners of Estimate and of one Commissioner of Assessment, and to take the necessary proceedings, in the name of The City of New York, to acquire title as herein determined, wherever the same has not heretofore been acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending the triangular parcel of land bounded by Ninety-fourth street, Fourth avenue and Fifth avenue, in the Borough of Brooklyn, City of New York.

Resolved, That no portion of the cost and expense of said proceedings, incurred by reason of the provisions of title 4, chapter 17, of the Greater New York Charter, as amended, shall be borne and paid by The City of New York, but that the whole of such cost and expense, including the expense of the Bureau of Street Openings and of the awards, if any, for damages caused by intended regulation and all other expenses and disbursements authorized by section 997 of said title, as amended, shall be assessed upon the property deemed to be benefited thereby; and

Whereas, It appears from the affidavits of the Supervisor of the City Record and the publishers of the corporation newspapers that due notice was given therein that at the time of the adoption of the resolution directing the institution of proceedings herein to acquire title to the lands required for this improvement that the Board of Estimate and Apportionment would consider a proposed area of assessment as therein described and would give a public hearing thereon upon the 17th day of May, 1907; and

Whereas, At the aforesaid time and place a public hearing was given to all persons interested in such proposed area of assessment who appeared, and such proposed area of assessment was duly considered by this Board;

Resolved, That the area of assessment for benefit in these proceedings be and is hereby fixed and determined to be as follows:

Bounded on the west by a line 100 feet westerly from and parallel with the westerly line of Fourth avenue, the said distance being measured at right angles to the line of Fourth avenue; on the north by a line 100 feet north of the northerly line of Ninety-fourth street, the said distance being measured at right angles to the line of Ninety-fourth street; on the east by a line 100 feet east of the easterly line of Fifth avenue, the said distance being measured at right angles to the line of Fifth avenue, and on the south by a line midway between Ninety-fifth street and Ninety-sixth street, through that portion of their length west of Fourth avenue, and by the prolongation of the said line.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

OPENING PAULDING AVENUE, THE BRONX.

The following communication from the Comptroller and inclosures were placed on file, and the Secretary was directed to forward copies to the Corporation Counsel:

COMPTROLLER'S OFFICE, May 15, 1907.

To the Board of Estimate and Apportionment:

GENTLEMEN—At a meeting of the Board of Estimate and Apportionment to be held on May 17, 1907, there will be presented the matter of a public hearing to determine the area of assessment for the expenses of opening William street, from Metropolitan avenue to Arctic street, Second Ward, Borough of Queens, City of New York.

This office is in receipt of a communication signed by Merrill Brothers, who state that they own more than one-half the street between Atlantic street and Arctic street; from John Frank, who states that he needs the property on the northeasterly corner of the intersection of William and Atlantic streets; from Valentine Muller, who states that he owns property on the northwest corner of William and Atlantic streets. The three gentlemen are willing to deed to The City of New York that portion of William street which lies in front of their premises. I would therefore respectfully suggest that this matter be spread at large on the minutes of the Board of Estimate and Apportionment in this proceeding, and that a certified copy of the matter, together with the communications of the above mentioned people, be transmitted to the Assistant Corporation Counsel in charge of the proceedings, in order that he may take such action as he may deem necessary and proper in accordance with the provisions of section 990 of the Greater New York Charter.

Respectfully,

H. A. METZ, Comptroller.

BROOKLYN, N. Y., May 7, 1907.

Hon. HERMAN A. METZ, Comptroller, City of New York, No. 280 Broadway, New York:

DEAR SIR—I have been advised that there is soon to be a public hearing regarding the opening of William street, from Metropolitan avenue to Arctic street, Queens Borough, Second Ward, to determine upon the area of assessment for the expenses of opening the street.

I own the property on the northwest corner at the intersection of William and Atlantic streets, and I am willing to deed to the City that part of the street in William street which I own, provided my property will not be assessed for any of the opening proceedings affecting William street.

Yours truly,

VALENTINE MULLER.

No. 465 KENT AVENUE,
BROOKLYN, N. Y., May 7, 1907.

Hon. HERMAN A. METZ, Comptroller, City of New York, New York, N. Y.:

DEAR SIR—We understand that there will be a public hearing on the 17th inst. to determine the area of assessment for the expenses of opening William street, from Metropolitan avenue to Arctic street, Queens Borough, Second Ward.

We own more than half of the street between Atlantic street and Arctic street, and we will consent to deed to the City that part of the street in William street which we own, provided the balance of the property which we own will not be assessed for any of the opening proceedings affecting William street.

Yours truly,

MERRILL DROP HAMMER COMPANY,
Per E. W. MERRILL, JR., President.

BROOKLYN, N. Y., May 7, 1907.

Hon. HERMAN A. METZ, Comptroller, City of New York, No. 280 Broadway, New York:

DEAR SIR—I have been advised that there is soon to be a public hearing regarding the opening of William street, from Metropolitan avenue to Arctic street, Queens Borough, Second Ward, to determine upon the area of assessment for the expenses of opening the street.

I own the property on the northeast corner at the intersection of William and Atlantic streets, and I am willing to deed to the City that part of the street in William street which I own, provided my property will not be assessed for any of the opening proceedings affecting William street.

Yours truly,

JOHN FRANK.

OPENING ELY AVENUE, QUEENS.

In the matter of fixing an area of assessment for the opening of Ely avenue, between Nott and Grand avenues, in the Borough of Queens, affidavit of publication was presented showing that the matter had been duly advertised.

Nobody appearing in favor of or in opposition to the proposed area of assessment, the hearing was closed.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 970 of the Greater New York Charter as amended, deems it for the public interest that the title, for the uses and to the extent thereof as herein mentioned, to the lands and premises required for the opening and extending of Ely avenue, between Nott avenue and Grand avenue, First Ward, in the Borough of Queens, City of New York, should be acquired by The City of New York.

Resolved, That the title to be so acquired is hereby determined to be a title in fee in such premises.

Resolved, That the Board of Estimate and Apportionment, deeming it for the public interest so to do, hereby requests the Corporation Counsel to make application to a Special Term of the Supreme Court, for the appointment of Commissioners of Estimate and of one Commissioner of Assessment, and to take the necessary proceedings, in the name of The City of New York, to acquire title as herein determined, wherever the same has not heretofore been acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending Ely avenue, between Nott avenue and Grand avenue, First Ward, in the Borough of Queens.

Resolved, That 5 per cent. of the cost and expense of said proceedings incurred by reason of the provisions of title 4, chapter 17, of the Greater New York Charter as amended, including the expense of the Bureau of Street Openings and of awards, if any, for damages, caused by intended regulation and all other expenses and disbursements authorized by section 997 of the said title, as amended, shall be borne and paid by The City of New York, and that the remainder thereof shall be assessed upon the property deemed to be benefited thereby; and

Whereas, It appears from the affidavits of the Supervisor of the City Record that due notice was given therein that at the time of the adoption of the resolution directing the institution of proceedings herein to acquire title to the lands required for this improvement that the Board of Estimate and Apportionment would consider a proposed area of assessment as therein described and would give a public hearing thereon upon the 17th day of May, 1907; and

Whereas, At the aforesaid time and place a public hearing was given to all persons interested in such proposed area of assessment who appeared, and such proposed area of assessment was duly considered by this Board.

Resolved, That the area of assessment for benefit in these proceedings be and is hereby fixed and determined to be as follows:

Beginning at the intersection of the prolongation of a line midway between Ely avenue and Van Alst avenue with a line midway between Grand avenue and Taylor street, and running thence southeastwardly and along the said line midway between Grand avenue and Taylor street to the intersection with the prolongation of a line midway between Ely avenue and the Crescent; thence southwestwardly and along the said line midway between Ely avenue and the Crescent, and the prolongation thereof, to the intersection with a line midway between Orange street and Graham avenue; thence southeastwardly and along the said line midway between Orange street and Graham avenue to the intersection with the prolongation of a line midway between William street and the Crescent; thence southwestwardly and along the said line midway between William street and the Crescent, and along the prolongation of the said line, to the intersection with a line midway between Nott avenue and Twelfth street; thence westwardly and along the said line midway between Nott avenue and Twelfth street to the intersection with a line midway between Ely avenue and Van Alst avenue; thence northwardly and along the said line midway between Ely avenue and Van Alst avenue to the intersection with a line midway between Thirteenth street and Fourteenth street; thence westwardly and along the said line midway between Thirteenth street and Fourteenth street to the intersection with the prolongation of a line midway between Sunswick street and Van Alst avenue; thence northeastwardly and along the said line midway between Sunswick street and Van Alst avenue, and the prolongation of the said line, to the intersection with a line midway between Graham avenue and Orange street; thence southeastwardly and along the said line midway between Graham avenue and Orange street to the intersection with a line midway between Ely avenue and Van Alst avenue; thence northeastwardly and along the said line midway between Ely avenue and Van Alst avenue, and the prolongation of the same, to the point or place of beginning.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

REPORT No. 5093.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
May 3, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution adopted on January 29, 1907, by the Local Board of the Washington Heights District, Borough of Manhattan, recommending a change in the map or plan of The City of New York by laying out and fixing grades for the following streets:

Broadway Terrace, between Fairview avenue and West One Hundred and Ninety-third street.

Wadsworth Terrace, between West One Hundred and Ninetieth street and Fairview avenue.

West One Hundred and Ninetieth street, between Wadsworth avenue and Wadsworth Terrace.

West One Hundred and Ninety-third street, between Broadway and Broadway terrace.

The streets designated on this map as Broadway terrace and Wadsworth terrace are intended to traverse the steep hillside located between Wadsworth avenue and Broadway, the former extending from Fairview avenue northerly about 400 feet and the latter southerly about 800 feet. The width proposed for Broadway terrace is 40 feet, while that indicated for the three other streets is 60 feet. West One Hundred and Ninetieth street is indicated as having its westerly terminal at the southerly terminal of Wadsworth terrace, and the grade proposed for both streets is about 7.5 per cent. Broadway terrace is indicated as having its northerly terminal at the easterly terminal of West One Hundred and Ninety-third street. The grade proposed for the former street is nearly 11 per cent., and that for the latter is about 9 per cent. Wadsworth terrace is shown as located about 182 feet west of Wadsworth avenue. I am informally advised that this location and the narrow width suggested for the street has been selected for the purpose of making the westerly street line coincide with a high and expensive retaining wall which has already been built. Representatives of the owners of the property on both sides of the street have advised that the property on the westerly side is too low to be utilized, and that the street cannot be widened on its easterly side without reducing the block depth to an undesirable extent, while if the widening were provided by the inclusion of more land on the westerly side it would become necessary to reconstruct the retaining wall already referred to.

In my judgment it would be very undesirable to incorporate Wadsworth terrace upon the map of the City as now proposed without first providing for increasing the width. The street will probably never be subjected to heavy traffic, but it would be exceedingly dangerous for vehicles traveling in opposite directions to pass one another by reason of the very narrow roadway, the steep gradient and the curved alignment indicated. I see no reason why a suitable width cannot be given to this street, the same to be not less than 60 feet. Provision could be made for improving the surface and at the same time utilizing the retaining wall until such time as the abutting property on the westerly side is improved, or need shown for a wider street. The ownership of the entire width of the street would then be in the City, and there could be no encroachments upon the street to make unduly expensive the widening which, I anticipate, would otherwise be ultimately required.

I would also call attention to the desirability of completing a plan for a street system for the territory between Wadsworth avenue and Broadway. It is probable that a street system will be required south of West One Hundred and Ninetieth street and north of West One Hundred and Ninety-third street, and, in my judgment, the same should be taken into consideration at this time. I therefore recommend that the resolution be referred back to the President of the Borough for the purpose of including a greater area than indicated, and also for the provision of an increased width for Wadsworth terrace.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

CLOSING COUWENHOVEN LANE, BROOKLYN.

The following resolution of the Local Board of Bay Ridge, Borough of Brooklyn, and report of the Chief Engineer were presented:

In the Local Board of the Bay Ridge District.

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Brooklyn; and

Resolved, by the Local Board of the Bay Ridge District, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, That the said petition be and the same hereby is granted; and it is hereby

Resolved, That the Local Board of the Bay Ridge District, Borough of Brooklyn, this 3d day of April, 1907, hereby recommends to the Board of Estimate and Apportionment an alteration in the map or plan of The City of New York by closing and discontinuing Couwenhoven lane, from Fifth avenue to Sixty-seventh street, as shown on the accompanying map and more particularly described as follows:

The southern line of Couwenhoven lane as herewith closed begins at a point in the eastern line of Fifth avenue distant 264.31 feet northerly from the intersection of the northern line of Sixty-eighth street with the eastern line of Fifth avenue, as the same are laid out on the map of the City.

Thence easterly in a straight line 487.15 feet to a point in the southern line of Sixty-seventh street distant 228.16 feet westerly from the intersection of the western line of Sixth avenue with the southern line of Sixty-seventh street.

The northern line of Couwenhoven lane as herewith closed is 33 feet from and parallel with the above described line.

And it is hereby

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

REPORT No. 5097.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
May 6, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Bay Ridge District, Borough of Brooklyn, adopted on April 3, 1907, recommending a change in the map or plan of The City of New York by closing and discontinuing Couwenhoven lane, between Fifth avenue and Sixty-seventh street.

Couwenhoven lane has been in use for a very long period of time and it is possible that it is one of the old Dutch roads, the fee of which is now vested in The City of New York. The street has a width of 33 feet. The portion of it which it is proposed to discontinue under the resolution has a length of one short block, or a little less than 500 feet. It is in use at the present time, and hot-houses have been erected with a frontage coinciding with and extending the entire length of the street on the southerly side. The land on the northerly side, and located between this lane and Sixty-seventh street, has recently been improved by the erection of three houses, all of which, however, have frontage upon Sixty-seventh street.

The petition appears to have been made by persons interested in property on the northerly side of the street, but I am advised that the owners of the land on the southerly side object strongly to the action proposed, for the reason that it would deprive them of a large amount of their frontage upon a public highway.

An examination of the City map shows that Couwenhoven lane subdivides very irregularly the block bounded by Sixty-seventh street, Sixth avenue, Sixty-eighth street and Fifth avenue, this block having a frontage of about 450 feet on Fifth avenue, about 750 feet on Sixty-seventh street, about 360 feet on Sixth avenue and about 725 feet on Sixty-eighth street. The provision of an additional street area in this block will evidently be required, or a large amount of the area will be without frontage upon a street. The location of Couwenhoven lane, as it now exists, would be of little value in making provision for the relief which will unquestionably be later required. It would be possible to lay out two parallel streets across this block, having the same direction as Fifth and Sixth avenues, giving each a width of 60 feet and an intervening block depth of about 200 feet.

In my judgment it would be inadvisable to discontinue Couwenhoven lane until after provision had been made upon the map of the City of some street or streets to take its place. It is suggested, however, that a public hearing be given in the matter, that the views of those interested in this locality may be obtained.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter as amended, deeming it for the public interest so to do, propose to change the map or plan of The City of New York by closing and discontinuing Couwenhoven lane from Fifth avenue to Sixty-seventh street, in the Borough of Brooklyn, City of New York, more particularly described as follows:

The southern line of Couwenhoven lane as herewith closed begins at a point in the eastern line of Fifth avenue distant 264.31 feet northerly from the intersection of the northern line of Sixty-eighth street with the eastern line of Fifth avenue, as the same are laid out on the map of the City.

Thence easterly in a straight line 487.15 feet to a point in the southern line of Sixty-seventh street distant 228.16 feet westerly from the intersection of the western line of Sixth avenue with the southern line of Sixty-seventh street.

The northern line of Couwenhoven lane as herewith closed is 33 feet from and parallel with the above described line.

Resolved, That this Board consider the proposed change at a meeting of the Board to be held in the City Hall, Borough of Manhattan, City of New York, on the 14th day of June, 1907, at 10.30 o'clock a. m.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board to be held at the aforesaid time and place, to be published in the CITY RECORD and the corporation newspapers for ten days continuously, Sundays and legal holidays excepted, prior to the 14th day of June, 1907.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

CHANGE OF GRADE OF CLEVELAND STREET, BROOKLYN.

The following resolution of the Local Board of Bushwick, Borough of Brooklyn, and report of the Chief Engineer were presented:

In the Local Board of the Bushwick District.

Resolved, That the Local Board of the Bushwick District, Borough of Brooklyn, pursuant to section 428 of the Greater New York Charter, after duly advertised hearing had this 26th day of November, 1906, hereby recommends to the Board of Estimate and Apportionment an alteration in the map or plan of The City of New York by changing the grade of Cleveland street, between Dumont avenue and New Lots

road, as shown on the accompanying map and more particularly described as follows:

Beginning at the intersection of Cleveland street and Dumont avenue, the elevation to be 16.55 feet as heretofore.

Thence southerly to a summit distant 176 feet from the southerly building line of Dumont avenue, the elevation to be 17.52 feet; thence southerly to the intersection of Livonia avenue and New Lots road, the elevation to be 15.81 feet as heretofore.

Note—All elevations refer to mean high water datum as determined by the Bureau of Highways, Borough of Brooklyn.

—and it is hereby

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

REPORT No. 4925.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
March 6, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Bushwick District, Borough of Brooklyn, adopted on November 26, 1906, recommending a change in the grade of Cleveland street, between Dumont avenue and New Lots road.

On March 9, 1906, a resolution was adopted by the Board of Estimate and Apportionment providing for grading Cleveland street. In preparing plans for carrying out the work it was found that the legal grade through the block between Dumont avenue and New Lots road was insufficient to permit of drainage. It is desired to remedy this condition by the insertion of a summit at a point 176 feet south of Dumont avenue, the same being given a sufficient elevation to permit of carrying drainage in both directions.

The approval of the change is recommended.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York by changing the grade of Cleveland street, from Dumont avenue to New Lots road, in the Borough of Brooklyn, City of New York, more particularly described as follows:

Beginning at the intersection of Cleveland street and Dumont avenue, the elevation to be 16.55 feet, as heretofore;

Thence southerly to a summit distant 176 feet from the southerly building line of Dumont avenue, the elevation to be 17.52 feet;

Thence southerly to the intersection of Livonia avenue and New Lots road, the elevation to be 15.81 feet, as heretofore.

Note—All elevations refer to mean high-water datum as determined by the Bureau of Highways, Borough of Brooklyn.

Resolved, That this Board consider the proposed change at a meeting of the Board to be held in the City Hall, Borough of Manhattan, City of New York, on the 14th day of June, 1907, at 10.30 o'clock a. m.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board, to be held at the aforesaid time and place, to be published in the CITY RECORD and the corporation newspapers for ten days continuously, Sundays and legal holidays excepted, prior to the 14th day of June, 1907.

CHANGE OF GRADE OF CARROLL STREET, BROOKLYN.

The following report from the Chief Engineer was presented:

REPORT No. 5046.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
April 18, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—On December 14, 1906, a resolution was adopted by the Board of Estimate and Apportionment providing for a change in the grades of streets within the territory bounded by Eastern parkway, Nostrand avenue, Sullivan street and Bedford avenue, in the Borough of Brooklyn. These changes included one in Carroll street, between Nostrand and Bedford avenues. The map submitted with this resolution indicated that it was proposed to insert a summit in the block between Rogers and Bedford avenues with an elevation of 114.88 feet. The Commissioner of Public Works of the Borough, through his Secretary, now advises the Board that through a typographical error in the resolution this summit was given an elevation of 113.88 feet, and the Board is requested to adopt a new resolution providing for establishing the grade desired. The elevation fixed for the intersection of Carroll street with Bedford avenue is 113.60 feet, and the grade adopted through the error noted by the Commissioner is too flat to provide surface drainage.

I would recommend that a new resolution be adopted providing for rectifying the error by making the grade of the crown 114.88, this crown being located 438 feet west of the westerly building line of Rogers avenue.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York by changing the grade of Carroll street, between Bedford avenue and Rogers avenue, in the Borough of Brooklyn, City of New York, more particularly described as follows:

Beginning at the intersection of Carroll street and Rogers avenue, the elevation to be 112.60 feet, as heretofore;

Thence westerly to a summit distant 438 feet from the westerly building line of Rogers avenue, the elevation to be 114.88 feet;

Thence westerly to the intersection of Carroll street and Bedford avenue, the elevation to be 113.60 feet, as heretofore.

Note—All elevations refer to mean high-water datum as determined by the Bureau of Highways, Borough of Brooklyn.

Resolved, That this Board consider the proposed change at a meeting of the Board to be held in the City Hall, Borough of Manhattan, City of New York, on the 14th day of June, 1907, at 10.30 o'clock a. m.

REPORT No. 4988.

BOARD OF ESTIMATE AND APPOINTMENT,
OFFICE OF THE CHIEF ENGINEER,
March 27, 1907.

Hon. GEORGE B. MCCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith are transmitted three resolutions adopted on November 26, 1906, by the Local Board of the Williamsburg District, Borough of Brooklyn, recommending a change in the lines of Apollo street and Pollock street, between Bridgewater and Front streets and Newtown creek, and a widening of Webster street, between Front street and Newtown creek.

On February 23, 1906, two resolutions of the Local Board of the Williamsburg District, the same providing for a change in the location of the lines of Apollo street and of Pollock street, between Bridgewater street and Newtown creek, were referred back to the President of the Borough for the reason that the changes then proposed would result in an unnecessary irregularity in the depth of the block between Vandam street and Apollo street and between Apollo street and Pollock street at the canal, and it was suggested that the map be amended to overcome this objection. Attention was also called at this time to the desirability of widening Webster street and Wright street, between Front street and Newtown creek, both of these streets, as laid out, having a width of only 50 feet. The proposed changes in the lines of Apollo street and Pollock street are for the purpose of making the former a continuation of the street as laid out south of Bridgewater street and to give the latter a more direct connection with Hausman avenue. The widening of Webster street recommended by the Local Board harmonizes with the recommendations which have been made, as do also the changes proposed in the alignment of Apollo street and of Pollock street. The Engineer of the Topographical Bureau advises that a number of buildings have been erected upon the property abutting on Wright street and that these have been carried out to the present street line, so that a widening at this time would not be practicable.

The changes proposed relate to adjoining streets in the same locality and I see no reason why they should not be considered simultaneously. The approval of these changes is recommended after a public hearing.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York by changing the lines of Apollo street and Pollock street, between Bridgewater and Front streets and Newtown creek, and by widening Webster street between Front street and Newtown creek, in the Borough of Brooklyn, City of New York, more particularly described as follows:

The eastern line of Apollo street as herewith changed, from Bridgewater street to the bulkhead line of Newtown creek, to begin at a point on the northern line of Bridgewater street distant 260 feet westerly from the northwest corner of Vandam street and Bridgewater street, as now laid out on the map of the City;

Thence in a straight line to a point on the bulkhead line of Newtown creek distant 200 feet westerly from the western line of Vandam street.

The western line of Apollo street as herewith changed to be 60 feet from and parallel with the above described line.

The western line of Pollock street as herewith changed, from Front street to the bulkhead line of Newtown creek, to begin at a point on the northern line of Front street distant 220 feet easterly from the intersection of the eastern line of Webster street with the northern line of Front street as now laid out on the map of the City;

Thence northerly in a straight line to a point on the bulkhead line of Newtown creek distant 165 feet easterly from the eastern line of Webster street, as now laid out on the map of the city.

The eastern line of Pollock street as herewith changed to be 60 feet from and parallel with the above described line.

The eastern line of Webster street as herewith changed, from Front street to the bulkhead line of Newtown creek, to be 5 feet easterly from and parallel with the eastern line of Webster street as now laid out on the map of the city.

The western line as herewith changed to be 60 feet from and parallel with the above described line.

Resolved, That this Board consider the proposed change at a meeting of the Board, to be held in the City Hall, Borough of Manhattan, City of New York, on the 14th day of June, 1907, at 10.30 o'clock a. m.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board, to be held at the aforesaid time and place, to be published in the CITY RECORD and the corporation newspapers for ten days continuously, Sundays and legal holidays excepted, prior to the 14th day of June, 1907.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

CLOSING EAST ELEVENTH STREET, BROOKLYN.

The following resolution of the Local Board of Flatbush, Borough of Brooklyn, and report of the Chief Engineer were presented:

In the Local Board of the Flatbush District.

Resolved, That the Local Board of the Flatbush District, Borough of Brooklyn, pursuant to section 428 of the Greater New York Charter, after duly advertised hearing, had this 1st day of November, 1906, hereby recommends to the Board of Estimate and Apportionment an alteration in the map or plan of The City of New York by reducing the width of East Eleventh street, between Avenue D and Ditmas ave-

nue, from 100 feet to 60 feet, as shown on the accompanying map and more particularly described as follows:

The western line to be 60 feet from and parallel with the eastern line of East Eleventh street, as now laid down on the map of the city; and it is hereby

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

March 6, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—On March 9, 1906, a resolution was adopted by the Board of Estimate and Apportionment providing for discontinuing East Eleventh street, south of Ditmas avenue, Borough of Brooklyn.

In reporting upon this change of the map it was recommended that the attention of the President of the Borough be drawn to the desirability of reducing the width of East Eleventh street through the block between Avenue D and Ditmas avenue, the width of 100 feet provided by the map being entirely unnecessary. Acting upon the recommendation, the Local Board of the Flatbush District, on November 1, 1906, have adopted a resolution recommending the change suggested.

The width of East Eleventh street was originally fixed at 100 feet through its entire length, but the same has already been reduced through the portion north of Avenue D to 60 feet. Under the resolution now presented the width will be made 60 feet through the block between Avenue D and Ditmas avenue.

The street is in use at the present time and has been graded, curbed and flagged. A number of houses have been built upon the abutting property. All of the improvements appear to conform with the lines of a street 60 feet wide and as shown upon the map.

The change is, in my judgment, a proper one and the approval of the map is recommended after a public hearing.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter, as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York by reducing the width of East Eleventh street, from Avenue D to Ditmas avenue, from 100 feet to 60 feet, in the Borough of Brooklyn, City of New York, more particularly described as follows:

The western line to be 60 feet from and parallel with the eastern line of East Eleventh street, as now laid down on the map of the city.

Resolved, That this Board consider the proposed change at a meeting of the Board, to be held in the City Hall, Borough of Manhattan, City of New York, on the 14th day of June, 1907, at 10.30 o'clock a. m.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board, to be held at the aforesaid time and place, to be published in the CITY RECORD and the corporation newspapers for ten days continuously, Sundays and legal holidays excepted, prior to the 14th day of June, 1907.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

CHANGE OF GRADE OF BELMONT STREET, THE BRONX.

The following communication from the President of the Borough of The Bronx and report of the Chief Engineer were presented:

OFFICE OF THE PRESIDENT OF THE BOROUGH OF THE BRONX,
MUNICIPAL BUILDING, CROTONA PARK,
October 12, 1906.

JOSEPH HAAG, Esq., Secretary, Board of Estimate and Apportionment:

DEAR SIR—I transmit herewith "Map or plan showing a change of grade of Belmont street, from the Grand Boulevard and Concourse to Morris avenue, in the Twenty-fourth Ward, Borough of The Bronx, City of New York," for the approval of the Board of Estimate and Apportionment.

This change of grade was recommended by the Local Board of Morrisania, Twenty-fourth District, at its meeting on the 11th inst.

Yours truly,

LOUIS F. HAFFEN,
President of the Borough of The Bronx.

REPORT No. 5092.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
May 3, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a communication from the President of the Borough of The Bronx, bearing date of October 12, 1906, advising that the Local Board of the Morrisania District, at a meeting held on October 11, 1906, recommended a change in the grade of Belmont street, between the Grand Boulevard and Concourse and Morris avenue. On December 23, 1904, the width of Belmont street, between Morris avenue and the Grand Boulevard and Concourse was increased to 185.8 feet, the change including within the street lines an old road which it was believed had been dedicated to public use, and also providing a more adequate connection with the Concourse. No change, however, was made in the grade of the street.

The adopted maps provide for a ramp extending from Sheridan avenue to connect with the Grand Boulevard and Concourse, while a transverse road is laid out to be carried below the Concourse. Under the grades heretofore adopted that of the ramp will be about 9 per cent., while the transverse road will be very nearly level. In view of the increased importance given the Belmont street intersection it has evidently appeared to the borough authorities desirable to provide a better gradient for the street. Under the change proposed the grade of the ramp will be about 6.5 per cent., while the maximum indicated for the transverse road will be about 4.5 per cent. To carry out this change the grade of Belmont street is raised at Sheridan avenue from 6.5 feet to 7.5 feet, and at Eden avenue the elevation will be increased 7 feet. The changes also affect the grade of Sheridan avenue and of Eden avenue through the portions of their length immediately adjoining Belmont street. The grades heretofore adopted are considerably above the existing surface, and those now proposed will materially increase the fill required. None of the streets affected have yet been improved, and the reasons set forth for the change appear to be substantial ones.

The approval of the plan is recommended after a public hearing.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York by changing the grades of Belmont street, from the Grand Boulevard and Concourse to Morris avenue; Sheridan avenue, from East One Hundred and Seventy-second street to Belmont street, and Eden avenue, from a point 383.34 feet south of Belmont street to East One Hundred and Seventy-third street, in the Twenty-fourth Ward, in the Borough of The Bronx, City of New York, more particularly described as follows:

A. Belmont Street.

The grades at the intersection with Morris avenue to be 66.1± and 65.4± feet, as heretofore;

The grade at the intersection with Eden avenue to be 75 feet;

The grades at the intersection with Sheridan avenue to be 79 feet and 80 feet;

The grade at the Grand Boulevard and Concourse to be 91 feet, as heretofore;

The grade of the transverse road to be 72.5 feet.

B. Sheridan Avenue.

The grade at the intersection with East One Hundred and Seventy-second street to be 90.5 feet, as heretofore;

The grades at the intersection with Belmont street to be 79 feet and 80 feet.

Eden Avenue.

The grade at the point 383.34 feet south of Belmont street to be 72 feet, as heretofore;

The grade at the intersection with Belmont street to be 75 feet;

The grade at the intersection with East One Hundred and Seventy-third street to be 66 feet, as heretofore;

All grades refer to mean high water datum as established in the Borough of The Bronx.

Resolved, That this Board consider the proposed change at a meeting of the Board to be held in the City Hall, Borough of Manhattan, City of New York, on the 14th day of June, 1907, at 10.30 o'clock a. m.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board to be held at the aforesaid time and place, to be published in the CITY RECORD for ten days continuously, Sundays and legal holidays excepted, prior to the 14th day of June, 1907.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

ESTABLISHING GRADES OF STREETS INTERSECTING LONG ISLAND RAILROAD, QUEENS.

The following communication from the President of the Long Island Railroad Company was presented and referred to the Chief Engineer:

THE LONG ISLAND RAILROAD COMPANY,
OFFICE OF THE PRESIDENT AND GENERAL MANAGER,
LONG ISLAND CITY, N. Y., May 2, 1907.

Hon. GEORGE B. McCLELLAN, Mayor of The City of New York, New York, N. Y.:

DEAR SIR—We desire to call to the attention of yourself and the Board of Estimate of The City of New York the very important question of crossings at grade upon the lines of this Company, within the boundaries of Greater New York, particularly Queens Borough.

You are, of course, familiar with the very thorough and complete work which is being carried on under the Atlantic Avenue Improvement Commission and the Brooklyn Grade Crossing Commission, which takes care of grade crossing conditions in the Borough of Brooklyn.

There are about fifty miles of railroad operated by this Company in Queens Borough, and a small section of Brooklyn Borough, with two hundred and three grade crossings.

The railroad company has plans under way at the present time for building additional tracks to Jamaica from Long Island City in connection with the completion of the tunnel and the Sunnyside Yard, and have arranged to take care of the majority of the grade crossings within that territory at its own expense. It is impossible for the railroad company to eliminate all of these grade crossings without financial assistance, and we respectfully urge upon you the great importance of the City and the railroad joining in this work.

We do not mean that the work will all be undertaken at one time, but certain sections should be done each year until it is all completed, so that the grade crossing question within the City, where the development is so rapid, will be fully taken care of, thus minimizing the danger of accident and allowing better transit facilities to and from the City.

In this connection we call attention to the importance of the City Engineers in conjunction with the railroad engineers working out a permanent system of grade lines, both for streets and for the railroad, in order that such grades may be adopted at once, and thus fix the character of all improvements in such manner as to avoid damage and expense when the time comes to separate the tracks and streets to their proper levels.

In view of the fact that many old streets are being improved, many new streets being laid out and developed, and many buildings being erected along the lines of these streets, the grades of which would doubtless have to be modified to a greater or less extent in any solution of this problem, it would be most desirable to have these grades established at an early date, in order that damages for changing grades already fixed by the City authorities, or by usage, may be avoided, and I would suggest, if it meets with your approval, that the Chief Engineer of the Board of Estimate and Apportionment be authorized to confer with the Chief Engineer of this Company, and submit to the Board a plan of action looking to the establishment as soon as possible of street grades which would conform with the reasonable readjustment of the railroad grades on at least a portion of our lines.

This company is ready to join the City in the preliminary expenses necessary to establish these final grades, and to work up plans covering the entire territory affected.

I inclose a map of the territory to be taken care of, with the various railroad lines in various colors, representing the natural way of taking care of the crossings referred to, which is respectfully submitted for your consideration.

Yours very truly,

RALPH PETERS,
President and General Manager.

EXTENDING KISSENA LAKE PARK, QUEENS.

The following communication from the Comptroller was presented:

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
May 15, 1907.

Hon. HERMAN A. METZ, Comptroller:

SIR—The Board of Estimate and Apportionment at its meeting held December 7, 1906, adopted a resolution authorizing the acquisition of property required for a public park, which will include Kissena lake and the land to the south of the Fresh Meadow

road, from the College Point Water Works, together with such upland to the south and east of the lake as may be necessary to protect the lands of the watershed, in the Third Ward of the Borough of Queens, City of New York.

In order to meet the needs of the Borough of Queens, it has been proposed to increase the area of the park system, so that with the increasing population the borough will be properly laid out, and it has been suggested that the property acquired by the City for park purposes in the neighborhood of Kissena lake be extended.

I would therefore respectfully recommend that the Board of Estimate and Apportionment propose to change the map or plan of The City of New York so as to lay out an extension of Kissena lake, in the Borough of Queens, and appoint a hearing at the meeting of the Board to be held on the 14th day of June, 1907, at 10.30 a. m., at which meeting such proposed action should be considered, and requesting a notice to all persons affected thereby, of the aforesaid time and place at which such proposed action should be considered, in the corporation newspapers and the City Record for ten days before the 14th day of June, 1907. The property intended to be acquired for the extension of the said park is more particularly bounded and described as follows, and situated in the Third Ward of the Borough of Queens, City of New York.

Beginning at a point where the southerly line of the lands of the Central Railroad of Long Island intersects the westerly line of the lands of the New York and Queens County Electric Railroad Company; running thence in a southwesterly direction and along the said westerly line of the lands of the New York and Queens County Electric Railroad Company, to where the said westerly line intersects the northerly line of the North Hempstead Plank road; thence in a northwesterly direction and along the said northerly line of the North Hempstead Plank road to a point where the centre line of the extension of Twentieth street as laid down on a topographical map of the Borough of Queens, City of New York, to a point where said centre line intersects the said southerly line of the lands of the Central Railroad of Long Island, and thence in a southeasterly direction and along the said southerly line of the lands of the Central Railroad of Long Island to the point or place of beginning; and also

Beginning at a point at the intersection of Jamaica avenue and the right of way of the Central Railroad of Long Island; running thence along an irregular line in a southwesterly direction to the land now owned or about to be purchased for The City of New York for the purposes of the Police Department; thence in a northeasterly, southwesterly, northeasterly and southeasterly direction, following the line of the lands of the property of The City of New York, formerly owned by one Schoomacher, and along the Brook still bounding the lands owned or about to be purchased by The City of New York, in a southeasterly direction to the land of Fogarty; thence southwesterly along the land of The City of New York to a point on the northerly line of the North Hempstead Plank road, where the lands of Fogarty separate the land of The City of New York; thence in a southeasterly direction and along the said northerly line of the North Hempstead Plank road to a point where the centre line of an extension of Twentieth street, as laid down on the topographical map of The City of New York intersects the northerly line of the North Hempstead Plank road; thence in a northeasterly direction and along the said centre line of the said extension of the said Twentieth street, to a point where the said centre line intersects the southerly line of the lands of the Central Railroad of Long Island, and thence in a northwesterly direction and along the said southerly line of the lands of the Central Railroad of Long Island to the point or place of beginning; and also

Beginning at a point at the centre line of the intersection of Parsons avenue and Rose street; running thence westerly along the centre line of Rose street to the point where Rose street and the right of way of the Central Railroad of Long Island intersect; running thence along the right of way of the Central Railroad of Long Island, along a curved line to the centre line of the Mill brook, in a southeasterly direction; thence in a northeasterly direction through the centre line of the Mill brook to the point where again the line of the right of way of the Central Railroad of Long Island intersects; thence southeasterly along the line of the said Central Railroad of Long Island to the centre line of Parsons avenue; thence northwesterly along the centre line of Parsons avenue to the point or place of beginning.

Respectfully submitted for approval,

THOMAS F. BYRNES,

Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York by extending Kissena Lake Park, in the Borough of Queens, City of New York, more particularly described as follows:

Beginning at a point formed by the intersection of the centre line of Rose street with the centre line of Parsons avenue, as the same are laid down on the map of Ingleside, adopted by the Board of Estimate and Apportionment May 1, 1903;

Running thence southerly through the centre line of Parsons avenue to the northerly line of the right of way of the Central Railroad of Long Island; running thence westerly along the northerly line of the right of way of the Central Railroad of Long Island to a point formed by the intersection of the northerly line of the Central Railroad of Long Island with the centre line of Rose street; thence running easterly along the centre line of Rose street to its intersection with the centre line of Parsons avenue, the point or place of beginning; also

Beginning at a point formed by the intersection of the southerly line of the right of way of the Central Railroad of Long Island with the westerly line of the right of way of the New York and Queens County Electric Railroad Company;

Running thence southerly along the westerly line of the New York and Queens County Electric Railroad Company to the northerly side of the North Hempstead Plank road; thence westerly along the northerly side of the North Hempstead Plank road to the division line between property of The City of New York and property formerly belonging to Fogarty; thence northerly along said property line to a brook; thence along the property belonging to The City of New York to the easterly line of Jamaica avenue; thence northerly along the easterly side of Jamaica avenue to the southerly line of the right of way of the Central Railroad of Long Island; thence easterly along the southerly line of the Central Railroad of Long Island to the westerly line of the right of way of the New York and Queens County Electric Company, the point or place of beginning.

Resolved, That this Board consider the proposed change at a meeting of the Board to be held in the City Hall, Borough of Manhattan, City of New York, on the 14th day of June, 1907, at 10.30 o'clock a. m.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board to be held at the aforesaid time and place, to be published in the City Record for ten days continuously, Sundays and legal holidays excepted, prior to the 14th day of June, 1907.

LAYING OUT PELTON AVENUE, RICHMOND.

The following communication from the President of the Borough of Richmond and report of the Chief Engineer were presented, and the matter was referred back to the President of the Borough of Richmond:

OFFICE OF THE PRESIDENT OF THE BOROUGH OF RICHMOND,
NEW BRIGHTON,
NEW YORK, October 15, 1906.

Board of Estimate and Apportionment, No. 277 Broadway, New York:

GENTLEMEN—I send you herewith for public hearing and adoption upon the map of the City, a map showing layout and grades of Pelton avenue, in the First Ward of the Borough of Richmond, extending from Richmond terrace to Harrison avenue. The greater portion of this avenue has been opened by the property owner and improved, a temporary outlet being at present made near the northerly end, connecting with Richmond terrace as at present in use, in order to avoid, for the present, a stone dwelling. The deed, however, which the property owner wishes to give to the City, must include the property as indicated upon the map sent herewith, extending in a straight line through to the present lines of Richmond terrace. As the streets to the eastward and westward of Pelton avenue are both main thoroughfares, it was not thought necessary to insist on Pelton avenue (the new street) being made over fifty feet in width, particularly as the property owner in question had divided his property into lots, which would scarcely have been possible for sale if more than fifty feet had been taken for a street. Even now some of these lots are but ninety-four feet in depth. For many years to come the district is likely to be purely residential, and the houses would naturally be placed well back from the street line, so that the width of fifty feet would seem to be all that is necessary in the case.

Yours respectfully,

GEORGE CROMWELL,

President of the Borough of Richmond.

REPORT No. 5105.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
May 7, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—In the accompanying communication from the President of the Borough of Richmond, dated October 15, 1906, request is made for the adoption of a map laying out and fixing grades for Pelton avenue, between Richmond terrace and Harrison avenue, in the First Ward. In this communication the Borough President states that the street has already been improved through the greater portion of its length by the owner of the property and that it is the intent of this owner to deed all of the land to the City.

The map submitted shows that Pelton avenue will have a length of about 2,200 feet and a width of 50 feet. No provision is made at the present time for laying out intersecting streets and the map fails to show the location of parallel streets which may be contemplated in the future. An examination of the property maps of the Borough shows that the proposed location of Pelton avenue is about in the centre of a parcel of land designated on these maps as belonging to the "Estate of Daniel Pelton," this land extending from Henderson avenue to Richmond terrace and having a width of about 240 feet. The Borough President, in his communication, advises that the owner of this property would not have a sufficient depth for lots if a greater width than 50 feet were provided for the street. The atlas of the borough shows that Pelton avenue will approximately parallel Davis avenue, located about 320 feet to the east, and Bement avenue, located about 500 feet to the west, both of which are very old streets although they have never been formally incorporated upon the map of the City. By reason of improvements which have been made upon the abutting property along each of these streets it seems probable that they will be retained in the final maps. If this is the case it is evident that the proposed location of Pelton avenue will leave a very irregular block depth when the map is completed and that it is one to secure a maximum of benefit to a single property owner without regard to its effect upon the general street system. I would therefore suggest that the map be referred back to the President of the Borough for reconsideration and would recommend that his attention be drawn to the desirability of increasing the width to at least 60 feet, and the provision for a street system to include at least the entire area bounded by Davis street, Henderson avenue, Bement avenue, and Richmond terrace. Any change required in the location of Pelton avenue to meet this general map could at the same time be made.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

OPENING TWO HUNDRED AND TWENTY-FIFTH (MUSCOOTA) STREET, MANHATTAN.

The following report from the Chief Engineer was presented:

REPORT No. 5149.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
May 15, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—At a meeting of the Board of Estimate and Apportionment held on May 3, 1907, a resolution was considered providing for acquiring title to West Two Hundred and Twenty-fifth street (Muscoota street), between Broadway and the borough line, Borough of Manhattan. Objection was raised to the district of assessment which it was proposed to fix in this proceeding, on the ground that it failed to include all of the property benefited. Consideration has been given to this contention, and after a further study of the case I beg to suggest a revision of the district of assessment and that it include the following area:

Beginning at the intersection of a line midway between West Two Hundred and Eighteenth street and West Two Hundred and Nineteenth street with a line distant 100 feet northwesterly from and parallel with the northwesterly side of Broadway, the said distance being measured at right angles to the line of Broadway, and running thence northeastwardly always parallel with and distant 100 feet from the northwesterly side of Broadway to the intersection with the prolongation of a line passing through a point on the southeasterly side of Bailey avenue midway between Reed place and West Two Hundred and Thirtieth street, and a point on the southwesterly line of Heath avenue midway between Reed place and West Two Hundred and Thirtieth street; thence running southeastwardly along the said line passing through a point on the southeasterly side of Bailey avenue and a point on the southwesterly side of Heath avenue midway between Reed place and West Two Hundred and Thirtieth street, and along the prolongation of the said line, to the intersection with the southwesterly line of Heath avenue; thence southwardly to a point on a line distant 100 feet southeasterly from and parallel with the southeasterly line of Sedgwick avenue, the said distance being measured at right angles to the line of Sedgwick avenue, located 700 feet northwesterly, measured along the said line, from the intersection of the said line with the northwesterly side of Kingsbridge road; thence southwestwardly and along a line always distant 100 feet southeasterly from and parallel with the southeasterly side of Sedgwick avenue to a point on the said line distant 700 feet southwesterly, measured along the said line, from its intersection with the southwesterly side of Kingsbridge road; thence northwardly to a point on the northwesterly side of Bailey avenue midway between West One Hundred and Ninety-second street and West One Hundred and Ninety-fourth street; thence northwesterly along a line midway between West One Hundred and Ninety-second street and West One Hundred and Ninety-fourth street, and along the prolongation of the said line, to the easterly bulkhead line of the Harlem River Ship Canal; thence northwardly and northwesterly along the said easterly and northwesterly bulkhead line of the Harlem River Ship Canal to the intersection with a line distant 100 feet southeasterly from and parallel with the southeasterly side of Broadway, the said distance being measured at right angles to the line of Broadway; thence southwestwardly and along a line distant 100 feet from and parallel with the southeasterly line of Broadway to the intersection with a line midway between West Two Hundred and Eighteenth street and West Two Hundred and Nineteenth street; thence northwesterly along the said line midway between West Two Hundred and Eighteenth

street and West Two Hundred and Nineteenth street to the point or place of beginning.

Respectfully,
NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Whereas, The Board of Estimate and Apportionment of The City of New York is considering the advisability of instituting proceedings to acquire title to the lands and premises required for the opening and extending of Two Hundred and Twenty-fifth street (Muscoota street), from Broadway to the line dividing the Boroughs of Manhattan and The Bronx, in the Borough of Manhattan, City of New York; and

Whereas, The Board of Estimate and Apportionment is authorized and required at the time of the adoption of the resolution directing the institution of proceedings to acquire title to the lands required for the foregoing improvement to fix and determine upon an area or areas of assessment for benefit for said proceeding.

Resolved, That the Board of Estimate and Apportionment, in pursuance of the provisions of section 980 of the Greater New York Charter, hereby gives notice that the following is the proposed area of assessment for benefit in this proceeding:

Beginning at the intersection of a line midway between West Two Hundred and Eighteenth street and West Two Hundred and Nineteenth street with a line distant 100 feet northwesterly from and parallel with the northwesterly side of Broadway, the said distance being measured at right angles to the line of Broadway, and running thence northeastwardly always parallel with and distant 100 feet from the northwesterly side of Broadway to the intersection with the prolongation of a line passing through a point on the southeasterly side of Bailey avenue midway between Reed place and West Two Hundred and Thirtieth street, and a point on the northwesterly line of Heath avenue midway between Reed place and West Two Hundred and Thirtieth street; thence running southeastwardly along the said line, passing through a point on the southeasterly side of Bailey avenue and a point on the northwesterly side of Heath avenue midway between Reed place and West Two Hundred and Thirtieth street, and along the prolongation of the said line to the intersection with the northwesterly line of Heath avenue; thence southwardly to a point on a line distant 100 feet southeasterly from and parallel with the southeasterly line of Sedgwick avenue, the said distance being measured at right angles to the line of Sedgwick avenue, located 700 feet northeasterly, measured along the said line, from the intersection of the said line with the northeasterly side of Kingsbridge road; thence southwestwardly and along a line always distant 100 feet southeasterly from and parallel with the southeasterly side of Sedgwick avenue to a point on the said line distant 700 feet southwestwardly, measured along the said line, from its intersection with the southwestwardly side of Kingsbridge road; thence northwardly to a point on the northwesterly side of Bailey avenue midway between West One Hundred and Ninety-second street and West One Hundred and Ninety-fourth street; thence northwardly along a line midway between West One Hundred and Ninety-second street and West One Hundred and Ninety-fourth street, and along the prolongation of the said line to the easterly bulkhead line of the Harlem river ship canal; thence northwardly and northwestwardly along the said easterly and northeasterly bulkhead line of the Harlem river ship canal to the intersection with a line distant 100 feet southeasterly from and parallel with the southeasterly side of Broadway, the said distance being measured at right angles to the line of Broadway; thence southwestwardly and along a line distant 100 feet from and parallel with the southeasterly line of Broadway to the intersection with a line midway between West Two Hundred and Eighteenth street and West Two Hundred and Nineteenth street; thence northwardly along the said line midway between West Two Hundred and Eighteenth street and West Two Hundred and Nineteenth street to the point or place of beginning.

Resolved, That this Board consider the proposed area of assessment at a meeting of the Board, to be held in The City of New York, Borough of Manhattan, in the City Hall, on the 14th day of June, 1907, at 10.30 a. m., and that at the same time and place a public hearing thereon will then and there be had.

Resolved, That the Secretary of this Board cause this resolution and a notice to all persons affected thereby to be published in the CITY RECORD for ten days prior to the 14th day of June, 1907.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

ACQUIRING LAND OPPOSITE PROSPECT PARK PLAZA, BROOKLYN.

The following communication from the Corporation Counsel and report of the Chief Engineer were presented, and the matter was referred to the Committee on Small Parks for the Borough of Brooklyn, consisting of the Comptroller, the President of the Board of Aldermen and the President of the Borough of Brooklyn:

LAW DEPARTMENT,
OFFICE OF THE CORPORATION COUNSEL,
New York, May 3, 1907.

WILLIAM M. LAWRENCE, Assistant Secretary, Board of Estimate and Apportionment,
No. 277 Broadway:

DEAR SIR—I have your communication of April 9, 1907, in which you enclose copies of seven resolutions adopted by the Local Board of the Prospect Heights District, Borough of Brooklyn, for the acquisition of certain lands fronting on Prospect Park plaza, together with a copy of a report made by the Chief Engineer of this Board.

You say that the Engineer raises the question as to the authority of the Board to authorize the acquisition of this property without designating for what purpose it is required; and in accordance with the action taken by your Board, you request that I will kindly advise you whether the City has power under the provisions of section 970 of the Charter, as amended, to authorize the acquisition of this land, and if so, you further request me to outline the method of procedure to be followed by your Board. In answer I desire to say that chapter 658 of the Laws of 1906, amending section 970 of the Greater New York Charter, as amended, provides:

"The Board of Estimate and Apportionment is authorized to specify what use is required of the lands which it may be determined to be acquired for public use and the extent of such use, and it is hereby authorized to change the map or plan of The City of New York in accordance with the provisions of this act on the subject, and to direct the same to be acquired whenever and as often as it shall deem it for the public interest so to do. The lands, tenements and hereditaments that may be required for such purposes may be taken therefor and compensation and recompense made to the parties and persons if any such there shall be to whom the loss and damage thereby shall be deemed to exceed the benefit and advantage thereof to the excess of the damage over and above the value of said benefit. The City of New York is authorized to make application or to cause application to be made to the Supreme Court of this State in the First Judicial Department when the lands to be taken are situated within New York County, and in the Second Judicial Department, when the lands to be taken are situated in the counties of Kings, Queens or Richmond, for the appointment of commissioners of estimate to ascertain and determine the compensation and recompense which should justly be made to the re-

spective owners, lessees, parties and persons, respectively, entitled unto or interested in the lands, tenements hereditaments and premises proposed to be taken for any of the purposes aforesaid. * * *

In view of the foregoing I am of the opinion that your Board has authority to acquire the premises referred to in the enclosed resolution of the Local Board of the Prospect Heights District, provided your Board specifies the uses and extent thereof which it is desired to be acquired in the premises proposed to be taken for public purposes.

The usual procedure adopted by your Board in authorizing the acquisition of property for public use under section 970 of the Greater New York Charter, as amended, should be followed.

Very respectfully,
G. L. STERLING, Acting Corporation Counsel.

REPORT No. P-5.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
May 8, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—At the meeting of the Board of Estimate and Apportionment held on April 5, 1907, there were presented seven different resolutions adopted by the Local Board of the Prospect Heights District, Borough of Brooklyn, providing for the acquisition of title to portions of seven different blocks adjacent to the plaza at the main entrance to Prospect Park, and on the northerly side of the Eastern parkway, between the plaza and Washington avenue. It was stated in the report accompanying these resolutions that there was no attempt made to designate the particular purpose for which the land was to be acquired, but that from interviews had with the petitioners it was evident that the object of the proceedings was to set aside the property for future use for public buildings and in order to preserve the dignity and beauty of this entrance to Prospect Park and the site already occupied by the Brooklyn Institute of Arts and Sciences and the proposed site of the Brooklyn Public Library. It was recommended that the Corporation Counsel be asked for advice as to whether or not the Board could properly initiate proceedings to acquire title to land for such a general purpose and without specifying the precise use to which the land would be put. In an opinion dated May 3, 1907, the Corporation Counsel refers to section 970 of the Greater New York Charter as amended, and states his opinion that the Board "has authority to acquire the premises referred to in the inclosed resolutions of the Local Board of the Prospect Heights District, provided your Board specifies the uses and extent thereof which it is desired to be acquired in the premises proposed to be taken for public purposes." Since receiving the opinion I have personally conferred with the Street Opening Bureau of the Corporation Counsel's office and asked whether a sufficient designation of the uses for which the land might be acquired would be "as sites for public buildings, the precise nature of which is yet undetermined, and in order to protect the dignity and beauty of this entrance to Prospect Park and the environment of public buildings already erected or about to be erected." I am advised that this would probably be a sufficient designation within the meaning of section 970 of the Charter as amended, and that he would be glad to have an opportunity to test this interpretation of the section by a proceeding of this sort.

The object which it is sought to attain is undoubtedly desirable, and there is in my judgment little doubt but that profitable use would be found for all of this land as sites for public buildings within the next ten years. If it were set aside for such a purpose it would make this plaza at the entrance to Prospect Park one of the most beautiful to be found in any city.

The present assessed value of the property which it is proposed to acquire is as follows:

Block 1066	\$76,500 00
Block 1170	49,750 00
Block 1171	90,700 00
Block 1172	114,700 00
Block 1176	149,750 00
Block 1179	277,750 00
Block 1180	646,950 00
Total	\$806,100 00

None of these blocks contains any buildings except Block 1066, the value of which includes buildings assessed at \$10,500. There are considerable portions of these blocks which the City already owns.

With the great demands now being made upon the City for appropriations for various purposes, the Board may feel that the time for such action is inopportune, and the statement that the acquisition of this property at the present time would involve far less expense than would be the case at a later date may not be considered a sound reason for favorable action, but it is believed that the matter is worthy of serious consideration, and is presented to the Board for such action as it may deem best.

Respectfully,
NELSON P. LEWIS, Chief Engineer.

OPENING SULLIVAN STREET, BROOKLYN.

The following report from the Chief Engineer was presented:

REPORT No. 5043.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
April 17, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—On December 18, 1905, a resolution was adopted by the Board of Estimate and Apportionment providing for acquiring title to Sullivan street, between Washington and Nostrand avenues, in the Borough of Brooklyn. On the date when the amended Street Opening Law became effective the Commissioners of Estimate and Assessment had not been appointed, for which reason the resolution has been returned by the Corporation Counsel to be reauthorized.

In the original report it was shown that the resolution affected the entire length of the street, the same being about one-half mile. The street has a width of 70 feet, and is not in use at the present time. Through approximately its easterly half the street, as mapped, includes what was formerly known as the "Old Clove Road." A few buildings encroach upon the land to be acquired.

I would recommend that this resolution be again approved; that title to the land be acquired in fee, and that 95 per cent. of the costs of the proceeding, including the expenses of the Bureau of Street Openings and any damages allowed for intended regulating, be assessed upon the property to be benefited and the remainder assumed by the City at large. The relief recommended is based upon the provisions of the rule adopted by the Board relative to streets having a width of 70 feet. It is suggested that a district of assessment be laid out to comprise the following area:

Beginning at a point on the easterly side of Washington avenue midway between Montgomery street and Sullivan street and running thence eastwardly to a point on the westerly line of Bedford avenue midway between Montgomery street and Sullivan street; thence eastwardly to a point on the westerly line of Nostrand avenue midway between Montgomery street and Sullivan street; thence eastwardly at right angles to the line of Nostrand avenue to a point 100 feet east of the easterly line of Nostrand avenue; thence southwardly and always parallel with the line of Nostrand avenue and 100 feet distant therefrom to the intersection with the prolongation of a line midway between Sullivan street and Malbone street; thence westwardly and along the said line midway between Sullivan street and Malbone street, and along the prolongation of the said line to the intersection with a line 100 feet westwardly from and parallel with the westerly line of Washington avenue, the said distance being measured at right angles to the line of Washington avenue; thence northwardly and parallel with Washington avenue to the intersection with a line at right angles thereto and passing

through the point described as the point or place of beginning; and thence eastwardly to the said point or place of beginning.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Whereas, The Board of Estimate and Apportionment of The City of New York is considering the advisability of instituting proceedings to acquire title to the lands and premises required for the opening and extending of Sullivan street, from Washington avenue to Nostrand avenue, in the Borough of Brooklyn, City of New York; and

Whereas, The Board of Estimate and Apportionment is authorized and required at the time of the adoption of the resolution directing the institution of proceedings to acquire title to the lands required for the foregoing improvement to fix and determine upon an area or areas of assessment for benefit for said proceeding.

Resolved, That the Board of Estimate and Apportionment, in pursuance of the provisions of section 980 of the Greater New York Charter, hereby gives notice that the following is the proposed area of assessment for benefit in this proceeding:

Beginning at a point on the easterly side of Washington avenue, midway between Montgomery street and Sullivan street, and running thence eastwardly to a point on the westerly line of Bedford avenue, midway between Montgomery street and Sullivan street; thence eastwardly to a point on the westerly line of Nostrand avenue, midway between Montgomery street and Sullivan street; thence eastwardly at right angles to the line of Nostrand avenue to a point 100 feet east of the easterly line of Nostrand avenue; thence southwardly and always parallel with the line of Nostrand avenue and 100 feet distant therefrom to the intersection with the prolongation of a line midway between Sullivan street and Malbone street; thence westwardly and along the said line midway between Sullivan street and Malbone street, and along the prolongation of the said line, to the intersection with a line 100 feet westwardly from and parallel with the westerly line of Washington avenue, the said distance being measured at right angles to the line of Washington avenue; thence northwardly and parallel with Washington avenue to the intersection with a line at right angles thereto and passing through the point described as the point or place of beginning; and thence eastwardly to the said point or place of beginning.

Resolved, That this Board consider the proposed area of assessment at a meeting of the Board, to be held in The City of New York, Borough of Manhattan, in the City Hall, on the 14th day of June, 1907, at 10.30 a. m., and that at the same time and place a public hearing thereon will then and there be had.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby to be published in the CITY RECORD and the corporation newspapers for ten days prior to the 14th day of June, 1907.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

OPENING AVENUE R, BROOKLYN.

The following resolution of the Local Board of the Bay Ridge District, Borough of Brooklyn, and report of the Chief Engineer were presented:

In the Local Board of the Bay Ridge District.

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Brooklyn; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the CITY RECORD that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same, and give a full hearing thereon; now therefore it is

Resolved, by the Local Board of the Bay Ridge District, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, That the said petition be and the same hereby is granted; and it is hereby

Resolved, That the Local Board of the Bay Ridge District, Borough of Brooklyn, this 3d day of May, 1905, hereby amends pending proceedings for opening Avenue R, from Coney Island avenue to East Seventeenth street, by excluding therefrom the land occupied by the Brooklyn and Brighton Beach Railroad, the amended resolution to read as follows:

Resolved, That the Local Board of the Bay Ridge District, Borough of Brooklyn, after hearing had this 3d day of May, 1905, hereby initiates proceedings to open Avenue R, from Coney Island avenue to East Seventeenth street, excepting the land occupied by the Brooklyn and Brighton Beach Railroad; and it is hereby

Resolved, That a copy of the resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

Adopted by the Local Board of the Bay Ridge District, on the 3d day of May, 1905. President Littleton and Aldermen Malone and Lundy voting in favor thereof.

JOHN A. HEFFERNAN, Secretary.

Approved this 13th day of June, 1905.

MARTIN W. LITTLETON,
President of the Borough of Brooklyn.

REPORT No. 5091.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
May 3, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Bay Ridge District, Borough of Brooklyn, adopted on May 3, 1905, amending a resolution for acquiring title to Avenue R, between Coney Island avenue and East Seventeenth street, by excluding therefrom the land occupied by the Brooklyn and Brighton Beach Railroad. The original resolution for acquiring title to Avenue R between the limits named was adopted by the Board of Public Improvements on February 20, 1901. The street crosses lands occupied by the Brooklyn and Brighton Beach Railroad, located between East Fifteenth and East Sixteenth streets, but the provisions of the Railroad Law relating to the acquisition of title to streets crossing railroad lands were not complied with, for which reason the Commissioners of Estimate and Assessment have never been appointed. The Local Board resolution of May 3, 1905, provides for the removal of the defect in the original resolution. It includes a length of six short blocks of the street, which has been placed upon the map of the city to have a width of 80 feet. The street is in use through its westerly half and through the greater portion of this length it has been graded and partially flagged. A number of buildings have been erected upon the abutting property. Through the easterly half the street is not in use at the present time. Among the improvements now being carried out along the line of the Brooklyn and Brighton Beach Railroad, under the direction of the Brooklyn Grade Crossing Commission, is the erection of a bridge over Avenue R.

I see no reason why the amended resolution should not be approved, and would recommend such action. It is believed that no buildings encroach upon the lands to be acquired. I would also recommend that title to the street be acquired in fee, and that 92 per cent. of the costs of the proceeding, including the expenses of the Bureau of Street Openings and any damages allowed for intended regulating, be assessed upon the property benefited, the remainder to be assumed by the City at large; this relief is based upon the provisions of the rule adopted by the Board of Estimate and Apportionment on July 25, 1902, relating to streets having a width of 80 feet. It is suggested that a district of assessment be laid out to comprise the following area:

Bounded on the north by a line midway between Avenue Q and Avenue R, on the east by a line midway between East Seventeenth street and East Eighteenth street, on the south by a line midway between Avenue R and Avenue S, and on the west by a line distant 100 feet westerly from and parallel with the westerly line of Coney Island avenue, the said distance being measured at right angles to the line of Coney Island avenue.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Whereas, The Board of Estimate and Apportionment of The City of New York is considering the advisability of instituting proceedings to acquire title to the lands and premises required for the opening and extending of Avenue R, from Coney Island avenue to East Seventeenth street, excluding the land occupied by the Brooklyn and Brighton Beach Railroad, in the Borough of Brooklyn, City of New York; and

Whereas, The Board of Estimate and Apportionment is authorized and required at the time of the adoption of the resolution directing the institution of proceedings to acquire title to the lands required for the foregoing improvement to fix and determine upon an area or areas of assessment for benefit for said proceeding.

Resolved, That the Board of Estimate and Apportionment, in pursuance of the provisions of section 980 of the Greater New York Charter, hereby gives notice that the following is the proposed area of assessment for benefit in this proceeding:

Bounded on the north by a line midway between Avenue Q and Avenue R; on the east by a line midway between East Seventeenth street and East Eighteenth street; on the south by a line midway between Avenue R and Avenue S; and on the west by a line distant 100 feet westerly from and parallel with the westerly line of Coney Island avenue, the said distance being measured at right angles to the line of Coney Island avenue.

Resolved, That this Board consider the proposed area of assessment at a meeting of the Board, to be held in The City of New York, Borough of Manhattan, in the City Hall, on the 14th day of June, 1907, at 10.30 a. m., and that at the same time and place a public hearing thereon will then and there be had.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby to be published in the CITY RECORD and the corporation newspapers for ten days prior to the 14th day of June, 1907.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

AMENDING PROCEEDINGS FOR OPENING AVENUE V, BROOKLYN.

The following resolution of the Local Board of Bay Ridge, Borough of Brooklyn, and report of the Chief Engineer were presented:

In the Local Board of the Bay Ridge District.

REPORT No. 5044.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
April 17, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Bay Ridge District, Borough of Brooklyn, adopted on April 26, 1906, providing for amending the proceedings now in progress for acquiring title to Avenue V, between Ocean parkway and Ocean avenue, and between Stillwell avenue and Eighty-sixth street, by excluding the portion lying between Eighty-sixth street and West Thirteenth street.

The proceeding described in the Local Board resolution was authorized by the Board of Estimate and Apportionment on February 3, 1905, and the oaths of the Commissioners of Estimate and Assessment were filed on June 20 following. This resolution, however, provided for the omission of the lands lying between the westerly boundary of the Brooklyn and Brighton Beach Railroad and the westerly line of East Sixteenth street. The matter of acquiring title to Avenue V was originally presented by a Local Board resolution of 1902, providing only for proceedings through the block between Stillwell avenue and West Thirteenth street, where it was desired to build an outlet sewer. The attention of the Borough President was called to the desirability of including a greater portion of the street in the proceeding, and as a result it was extended to include a considerable length.

On November 3, 1905, provision was made for vesting title in the City to the block between Stillwell avenue and West Thirteenth street on February 1, 1906. The resolution now submitted appears to have been adopted as the result of a request made by the owner of all of the property affected. The papers accompanying this resolution show that there is no easement to the portion of the street which it is desired to exclude from the opening proceeding, the same comprising three short blocks, and no substantial reason is offered to show the occasion for the amendment proposed. There can be no question but that it will be necessary to acquire title at some time to the land lying within this street, and in my judgment the proceeding, which has not been in progress for more than two years, should be continued.

It is recommended that the Local Board resolution be disapproved.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

Resolved, That the Board of Estimate and Apportionment hereby disapproves the resolution adopted by the Local Board of the Bay Ridge District, Borough of Brooklyn, on the 26th day of April, 1906, amending proceedings for opening Avenue V, between Ocean avenue and Ocean parkway, and between Stillwell avenue and Eighty-sixth street, by excluding from said proceedings that portion of Avenue V lying between Eighty-sixth street and West Thirteenth street.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

OPENING BRONX STREET, THE BRONX.

The following communications from the Interborough Rapid Transit Company and the Corporation Counsel and report from the Chief Engineer were presented:

In the Matter

of

Opening Bronx Street, between Tremont Avenue, or One Hundred and Seventy-seventh Street, and One Hundred and Eightieth Street.

To the Honorable the Board of Estimate and Apportionment:

The petition of the Interborough Rapid Transit Company respectfully requests that the resolution adopted by the Board of Estimate and Apportionment on the 19th day of May, 1905, providing for the acquisition by The City of New York of the title in fee of the land required for the opening of Bronx street, between Tremont avenue, or One Hundred and Seventy-seventh street, and One Hundred and Eightieth street, be modified by authorizing the acquisition by The City of New York of an easement in the land of your petitioner with the street lines of the purpose of surface and subsurface uses, subject to the right of your petitioner to maintain its structures and terminal yards overhead. Your petitioner's request is based upon the following grounds:

1. The City of New York, acting by and through the Board of Rapid Transit Railroad Commissioners, organized and constituted under and pursuant to the provisions of chapter 4 of the Laws of 1891, and acts mandatory, on or about the 21st day of February, 1900, by an instrument dated on said day and duly executed, entered into a contract with John B. McDonald for the construction and operation of the rapid transit railroad system in The City of New York, as authorized by said acts, upon the routes and general plan theretofore duly determined upon by said Rapid Transit Railroad Commissioners, which contract was thereafter modified in certain particulars by agreements supplemental thereto and amendatory thereof, bearing date the 21st day of February, 1900; the 21st day of June, 1900, and the 10th day of January, 1901, and the 2d day of May, 1901, respectively, which said contracts and agreements supplemental thereto and amendatory thereof are hereinafter referred to as the Rapid Transit Contract. One of the routes provided was on and along Boston road, upon which the property of your petitioner, more particularly hereinafter described, abuts.

2. Thereafter the said John B. McDonald entered upon such construction, and thereafter the said Board of Rapid Transit Railroad Commissioners designated the premises hereinafter described as a suitable site for the location of yards and terminals for said rapid transit railroad system. At a meeting of the Board of Rapid Transit Railroad Commissioners, held on the 10th day of March, 1904, a resolution was unanimously adopted authorizing the purchase by the contractor of the said premises for the said purpose. The said contractor, John B. McDonald, acting through Rapid Transit Subway Construction Company, a corporation which aided in the construction of said railroad under agreements with said McDonald, thereupon purchased the same and took title thereto by the four following deeds, to wit: (1) Deed from George Steinmetz and wife, dated and recorded May 9, 1904, in Liber 62, Section 11, Conveyances, page 479; (2) deed from John Merz and wife, dated and recorded same day, in Liber 62, Section 11, Conveyances, page 483; (3) deed from Bernard Bryne and wife, dated May 6, 1904, recorded May 9, 1904, in Liber 62, Section 11, Conveyances, page 478; (4) deed from Weigand Weber and wife, dated and recorded May 9, 1904, in Liber 62, Section 11, Conveyances, page 481. The boundaries of the whole parcel so acquired, with reference to the streets laid out adjacent thereto and Bronx street, are shown upon the map or diagram annexed, marked "Schedule A."

3. The said contractor thereafter, acting by and through the Rapid Transit Subway Construction Company, prepared and submitted to the Board of Rapid Transit Railroad Commissioners plans for the construction of the foundations of steel work and superstructure for the terminal yards to be erected, maintained and operated upon the land included in the said deeds. On the 10th day of June, 1904, the plan for the foundation was approved, a copy of which is hereto annexed, marked "Schedule B," and on the 17th day of June, 1904, the plan for the steel work of the superstructure was approved, and on the 30th day of June, 1904, was further approved as revised, and a true copy thereof is hereto annexed, marked "Schedule C." The work called for by the said plan was commenced on the 29th day of July, 1904, and was completed on February 15, 1905.

4. Your petitioner was organized under and pursuant to chapter 565 of the Laws of 1890, known as the Railroad Law, and the acts amendatory thereof and supplemental thereto, and pursuant to the provisions of chapter 544 of the Laws of 1902, being entitled "An act to amend chapter four of the laws of eighteen hundred and ninety-one," for the purposes, among other things, of maintaining and operating a railroad, already built, not owned by a railroad corporation, namely, the railway already constructed or in process of construction under the contract made between The City of New York (acting by its Board of Rapid Transit Railroad Commissioners) and John B. McDonald, dated February 21, 1900, and by an agreement made between John B. McDonald and the Interborough Rapid Transit Company, dated the 10th day of July, 1902, the said Interborough Rapid Transit Company took by assignment all the right of the said contractor to so much of the contract hereinbefore referred to as related to the operation and equipment of said rapid transit railroad, and all the rights to a lease from The City of New York for the purpose of operating said rapid transit railroad, which said agreement was entered into by the authority and consent of the Board of Rapid Transit Railroad Commissioners, as evidenced by an instrument in writing dated July 10, 1902, and duly executed by The City of New York, acting by and through the Board of Rapid Transit Railroad Commissioners, and by the Interborough Rapid Transit Company and by John B. McDonald, and your petitioner is now, and for some time past has been, engaged in the operation of the railroad.

5. On or about the 28th day of September, 1905, the title to the above-mentioned premises was duly conveyed to your petitioner by a deed from the Subway Rapid Transit Construction Company, dated and acknowledged on the said 28th day of September, 1905, and your petitioner has ever since remained and still is the owner thereof, and is engaged in using the same for terminals as part of the said rapid transit railway system.

6. Your petitioner is advised that by reason of the proceedings had as aforesaid under which the said premises were set apart for the public use of operating and maintaining said railroad, as provided by the said Rapid Transit Act, the said lands or any part thereof are not subject to acquisition for street purposes. Nevertheless, in view of the apparent desire of the City to open Bronx street, through the

same, as hereinafter stated, your petitioner will waive its objections thereto for the reasons stated, among others, provided that such title only be acquired by easement as may be necessary for street purposes and not involve the great injury and loss to your petitioner and the expense to the City which would result from the acquisition of title in fee as contemplated by the proceedings instituted for the opening of said street.

7. By a resolution of your Honorable Board, adopted the 19th day of May, 1905, the Corporation Counsel of The City of New York was instructed and directed to make application to the Supreme Court for the appointment of Commissioners of Estimate and Assessment, and to take necessary proceedings, in the name of The City of New York, to acquire title for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending Bronx street, from Tremont avenue, or One Hundred and Seventy-seventh street, to One Hundred and Eightieth street, in the Borough of The Bronx, City of New York. Pursuant to such authority, application was made to the Supreme Court, at Special Term, on August 15, 1905, by petition, dated and verified on August 14, 1905, and the said Court, by an order dated on the said 15th day of August, 1905, and entered on the 28th day of August, 1905, appointed William Lynskey, Thomas G. Fennell and Joseph Jacobs, as such Commissioners of Estimate and Assessment, as aforesaid; and by a further order, dated January 2, 1906, and entered January 3, 1906, Stephen J. Navin was appointed and substituted in place and stead of the said Thomas G. Fennell, resigned.

8. On the 19th day of January, 1906, the oaths of the said Commissioners having been duly filed, they gave notice of their appointment and called upon all parties and persons interested in the real estate provided to be taken and condemned therefor to present their claims for damages to said Commissioners, as required by law, and the said proceeding is now pending before said Commissioners, who have caused to be prepared a damage map showing the parcels directed to be taken and condemned by The City of New York for the purposes as aforesaid. A copy of so much of said map as is necessary to show the relation of the proposed opening to your petitioner's said property is hereto annexed and marked "Schedule D," the parcels belonging to your petitioner and directed to be taken therefor as aforesaid, being shown thereon colored red and distinguished by the damage numbers 6, 7 and 9.

Your petitioner was not informed as to the said proceedings until the Commissioners of Estimate and Assessment had been appointed and had entered upon the performance of their duties.

9. The said lands and the structures placed thereon for the purposes aforesaid have cost your petitioner upwards of the sum of \$300,000, and are now essential for the maintenance and operation of the said railroad as there is no other place available for terminal purposes at the end of the east side branch of the Rapid Transit Railway as at present constructed. Under the proceedings instituted to open said street, as aforesaid, if completed as the same have been heretofore authorized, it is claimed that the fee title to the land in Bronx street and of the structures of your petitioner within the lines of said street will be acquired by the City. By such acquisition your petitioner would be deprived of the use of said premises and the damage which it would sustain would be very great. Such damage if added to the cost and expense of acquiring title to the other lands and premises required for said street and assessed upon the property abutting thereon, would result in an exceedingly large and onerous assessment for benefit.

The said structures have been so constructed that the acquisition by the City of an easement in the land of your petitioner within the street lines for the purpose of surface and subsurface uses, but subject to the right of your petitioner to maintain its supporting columns along the sides of the street, and the structures overhead, will answer every future requirement or possible necessity of the City and vicinity, and eliminate the great cost and expense of acquiring title as heretofore authorized.

Your petitioner therefore prays that your Honorable Board will amend and modify the resolution adopted as aforesaid on May 19, 1905, so as to provide for the acquisition by the City of only an easement, as above stated.

Dated New York, December 27, 1906.

INTERBOROUGH RAPID TRANSIT COMPANY,

By E. P. BRYAN, Vice-President,

Petitioner.

LAW DEPARTMENT,
OFFICE OF THE CORPORATION COUNSEL,
NEW YORK, March 13, 1907.

JOSEPH HAAG, Esq., Secretary, Board of Estimate and Apportionment:

DEAR SIR—I am in receipt of your letter dated January 7, 1907, in which you request that you be advised as to certain questions set forth in a communication addressed to you by Nelson P. Lewis, Chief Engineer of the Board of Estimate and Apportionment, in relation to the opening of Bronx street, from East One Hundred and Seventy-seventh street to East One Hundred and Eightieth street, in the Borough of The Bronx, which is inclosed.

He says that the Interborough Rapid Transit Company is the owner of certain land lying within the lines of the proposed Bronx street, that the title to this land has, by resolution of the Board of Estimate and Apportionment, vested in the City on July 11, 1906, and that the Interborough Rapid Transit Company has petitioned the Board of Estimate and Apportionment to amend this resolution so as to provide that the City shall take a "surface and subsurface" easement in this land instead of the fee.

It has been suggested, he says, "that as the fee has vested in the City, that fee might be taken subject to the easement of the Interborough Rapid Transit Company to maintain its elevated structure across the street, the only difference being that the City would own the fee subject to the easement of the Interborough Rapid Transit Company to maintain its structure instead of the said company owning the fee subject to the right of the City to use the surface and subsurface of the street beneath its structure."

He asks that you be advised as to which of the two ways herein suggested would be for the best interests of the City.

Inasmuch as the title to the property referred to in this communication has already vested in the City, only one of the ways suggested can be considered, that is, for the City to retain title to this property subject to the right of the Interborough Rapid Transit Company to maintain its overhead structure.

The property of the Interborough Rapid Transit Company was acquired under the provisions of the Rapid Transit Act. That act provides that "in all cases the use of the lands and the right of way through the same for the purpose of a railway or railways shall be considered and is declared to be a public use consistent with the uses for which the roads, streets, avenues and public places are publicly held."

The uses for which the City acquired title to this property under the resolution of the Board of Estimate and Apportionment, are for the uses for which the roads, streets, avenues and public places are publicly held, which uses are in every way consistent with the uses for which this property was acquired under the provisions of the Rapid Transit Act.

Therefore, as between the two plans suggested in said communication, the one that would, in my opinion, be for the best interests of the City would be to retain the fee in this property subject to the right of the railroad company to maintain its overhead structure.

This plan is a practicable one, and can be made effective without interfering with the uses for which this property was acquired.

I return herewith the communication of Nelson P. Lewis, Chief Engineer of the Board of Estimate and Apportionment.

Yours respectfully,

G. L. STERLING, Acting Corporation Counsel.

REPORT No. 5106.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
May 8, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Under date of December 29, 1906, Mr. James A. Deering submitted to the Board of Estimate and Apportionment a petition of the Interborough Rapid Transit

Company, signed by Mr. E. P. Bryan, Vice-President, requesting that proceedings now in progress for acquiring title to Bronx street, between East One Hundred and Seventy-seventh and East One Hundred and Eightieth streets, in the Borough of The Bronx, be modified by authorizing the acquisition of an easement in the land owned by the petitioner for the purpose of surface and subsurface uses, subject to the right of the petitioner to maintain its structures and terminal yards, which have already been built over the street.

Proceedings to open Bronx street were authorized by the Board of Estimate and Apportionment on May 19, 1905. Commissioners were appointed and filed their oaths, and, on May 4, 1906, in connection with the regulating and grading improvement which was authorized, the Board adopted a resolution providing that title should vest in the City on July 11, 1906, that date being six months after the filing of the oaths of the Commissioners. It will be seen, therefore, that the fee title was already in the City at the time of this petition. The Interborough Rapid Transit Company has built on the adjoining property on both sides of Bronx street and over the street itself an elevated terminal yard. Before reporting to the Board the resolution to acquire title to this street, your Engineer, being aware of this elevated terminal, consulted the Engineering Department of the Interborough Rapid Transit Company, advising them that it was proposed to open this street, and asking for a sketch showing what property the company had acquired, and whether any of the columns supporting the elevated structure would be located within the lines of the street as then laid down. On April 6, 1905, the chief engineer of the company forwarded a sketch giving the information required, and showing that none of the columns would fall within the lines of the street and that the lower flanges of the girders would be about 43 feet above the street grade. These facts were presented to the Board in reporting upon the opening resolution, and the proceedings to acquire title were authorized.

The petitioners now ask that the City require an easement only, inasmuch as structures already erected have cost upwards of \$300,000, and these structures are essential for the maintenance and operation of the railroad, and if the actual fee is taken the structures crossing the street will be acquired by the City, depriving the petitioners of the use of their property and adding largely to the cost of opening the street. It appeared to your Engineer that there was no reason why the railroad company should be disturbed in the use of its property or why the City should acquire an easement only, leaving the fee in the railroad company, but that it would be perfectly proper and feasible for the City to acquire the fee subject to the easement of the company to maintain the structures already built over the street. In fact, this course alone seemed possible, owing to the fact that the fee title was actually vested in the City on July 11, 1906. The facts, however, were laid before the Corporation Counsel, and in a communication dated March 13, 1907, and addressed to the Secretary, the Corporation Counsel confirms the opinion above expressed, stating that inasmuch as title to the property has already vested in the City, the City should retain such right subject to the right of the railroad company to maintain its overhead structure, and that this property was acquired by the railroad company under the provisions of the Rapid Transit Act, which provides that "In all cases the use of the lands and the right of way through the same for the purpose of a railway or railways shall be considered and is declared to be a public use consistent with the uses for which the roads, streets, avenues and public places are publicly held." He further states that the title acquired by the City is for the use for which roads, streets, avenues, etc., are publicly held, which uses are in every way consistent with the uses for which the property was acquired under the provisions of the Rapid Transit Act, and he advises the Board that it is entirely practicable for the City to take the fee in Bronx street, and that it would be for the best interests of the City to retain this fee subject to the right of the railroad company to maintain its overhead structure. No specific action seems necessary, therefore, but it is recommended that the Corporation Counsel be requested to see that in the conduct of this proceeding the fee taken by the City be subject to the right of the railroad company to maintain its present structure, as advised in his communication of March 13.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

Whereas, The Board of Estimate and Apportionment of The City of New York did, on the 19th day of May, 1905, institute proceedings for the acquisition of title to the lands and premises required for the opening of Bronx street, from East One Hundred and Seventy-seventh street to East One Hundred and Eightieth street, in the Borough of The Bronx, since which time title to the said lands and premises has vested in The City of New York; and

Whereas, The Interborough Rapid Transit Company owns certain overhead terminal yards and structures across said street;

Resolved, That the Corporation Counsel be and hereby is requested and directed to acquire the fee in said street subject to the right of the Interborough Rapid Transit Company to maintain its present overhead structure across said street.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

OPENING DEKALB AVENUE, THE BRONX.

The following resolution of the Local Board of Morrisania, Borough of The Bronx, and report of the Chief Engineer were presented:

In Local Board of Morrisania, Twenty-fourth District, Borough of The Bronx.

Whereas, A petition for a local improvement described below has been received by the President of the Borough of The Bronx; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the CITY RECORD that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same and give a full hearing thereon; now therefore it is

Resolved, by the Local Board of Morrisania, Twenty-fourth District, Borough of The Bronx, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, That the said petition be and the same hereby is granted; and it is hereby

Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

For acquiring title to the lands necessary for DeKalb avenue, from East Two Hundred and Eighth street to Gun Hill road, in the Borough of The Bronx, City of New York; and it is hereby

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

Adopted by the Local Board of Morrisania, Twenty-fourth District, on the 1st day of March, 1906.

REPORT No. 5086.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
May 1, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Morrisania District, Borough of The Bronx, adopted on March 1, 1906, initiating proceedings for acquiring title to DeKalb avenue, between East Two Hundred and Eighth street and Gun Hill road.

This resolution affects the southerly block of DeKalb avenue, the same having a length of about 350 feet. The street, as mapped, has a width of 60 feet. The roadway has been approximately graded and broken stone sidewalks have been provided. The abutting property is unimproved.

I would recommend the approval of this resolution; that title to the street be acquired in fee; and that all of the costs of the proceeding, including the expenses of the Bureau of Street Openings and any damages allowed for intended regulating, be assessed upon the property to be benefited. It is suggested that a district of assessment be laid out to comprise the following area:

Bounded on the northwest by a line midway between DeKalb avenue and Jerome avenue through that portion of the length of each located between East Two Hundred and Eighth street and Gun Hill road, and by the prolongation of the said line; on the northeast by a line 100 feet northeasterly from and parallel with the northeasterly line of Gun Hill road, the said distance being measured at right angles to the line of Gun Hill road; on the southeast by a line 100 feet southeasterly from and parallel with the southeasterly line of DeKalb avenue through that portion of its length located between East Two Hundred and Eighth street and Gun Hill road, the said distance being measured at right angles to the line of DeKalb avenue, and by the prolongation of the said line; and on the southwest by a line always distant 100 feet southwesterly from and parallel with the southwesterly line of East Two Hundred and Eighth street, the said distance being measured at right angles to the line of East Two Hundred and Eighth street.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Whereas, The Board of Estimate and Apportionment of The City of New York is considering the advisability of instituting proceedings to acquire title to the lands and premises required for the opening and extending of DeKalb avenue, from East Two Hundred and Eighth street to Gun Hill road, in the Borough of The Bronx, City of New York; and

Whereas, The Board of Estimate and Apportionment is authorized and required at the time of the adoption of the resolution directing the institution of proceedings to acquire title to the lands required for the foregoing improvement to fix and determine upon an area of assessment for benefit for said proceeding.

Resolved, That the Board of Estimate and Apportionment, in pursuance of the provisions of section 980 of the Greater New York Charter, hereby gives notice that the following is the proposed area of assessment for benefit in this proceeding:

Bounded on the northwest by a line midway between DeKalb avenue and Jerome avenue through that portion of the length of each located between East Two Hundred and Eighth street and Gun Hill road, and by the prolongation of the said line; on the northeast by a line 100 feet northeasterly from and parallel with the northeasterly line of Gun Hill road, the said distance being measured at right angles to the line of Gun Hill road; on the southeast by a line 100 feet southeasterly from and parallel with the southeasterly line of DeKalb avenue through that portion of its length located between East Two Hundred and Eighth street and Gun Hill road, the said distance being measured at right angles to the line of DeKalb avenue, and by the prolongation of the said line; and on the southwest by a line always distant 100 feet southwesterly from and parallel with the southwesterly line of East Two Hundred and Eighth street, the said distance being measured at right angles to the line of East Two Hundred and Eighth street.

Resolved, That this Board consider the proposed area of assessment at a meeting of the Board to be held in The City of New York, Borough of Manhattan, in the City Hall, on the 14th day of June, 1907, at 10.30 a. m., and that at the same time and place a public hearing thereon will then and there be had.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby to be published in the CITY RECORD for ten days prior to the 14th day of June, 1907.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

REPORT No. 5088.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
May 1, 1907.

Hon. GEORGE B. MCCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith are transmitted seven resolutions adopted by the Local Board of the Chester District, Borough of The Bronx, the same providing for acquiring title to Rosedale avenue, Commonwealth avenue, St. Lawrence avenue, Taylor avenue and Leland avenue, between Westchester avenue and West Farms road, and to Beach avenue and Theriot avenue, between Gleason avenue and West Farms road. The resolutions relating to Rosedale avenue, Commonwealth avenue and St. Lawrence avenue were adopted on June 14, 1906; those relating to Taylor avenue and Leland avenue were adopted on October 25, 1906; and the ones affecting Beach avenue and Theriot avenue were adopted on January 17, 1907.

The streets are all shown upon a map of the territory bounded by St. Lawrence avenue, Westchester avenue, Noble avenue, Bronx River avenue, the land of the New York, New Haven and Hartford Railroad Company; Catholic Protectors, Pugsley avenue, Storey avenue, White Plains road and Ludlow avenue, which was adopted by the Board of Estimate and Apportionment on April 5, 1907. The streets which are made the subject of these resolutions are located in the sections commonly known as McGraw Estate, Mapes Estate and Park Versailles. The resolutions include all of the streets which have been laid out between Rosedale avenue and Leland avenue,

having a north and south direction and limited by West Farms road on the north and, with two exceptions, by Westchester avenue on the south. The Beach avenue and Theriot avenue resolutions include one block south of Westchester avenue, the southerly terminal of the proceeding in each case being Gleason avenue.

Rosedale avenue has a width of 80 feet, and Leland avenue a width of 75 feet. The remaining streets are 60 feet wide.

Rosedale avenue, Commonwealth avenue and St. Lawrence avenue are in use north of Beacon avenue. Beach avenue includes, through a portion of its length, what was formerly known as Clason's Point road; it is in use north of McGraw avenue and south of Westchester avenue. Taylor avenue, Theriot avenue and Leland avenue are in use through the greater portion of their length south of Wood avenue, and the two latter are also in use between Guerlain street and West Farms road.

The maps which have been submitted show that the old roadways in use and designated as Rosedale avenue, Commonwealth avenue, St. Lawrence avenue and Taylor avenue, were of a lesser width than that indicated upon the map adopted, as is also the case with Clason's Point road through the portions incorporated in the lines of Beach avenue.

I see no reason why the seven resolutions should not be combined and made the subject of a single proceeding, such treatment being recommended.

Buildings encroach upon the land to be taken in Rosedale avenue, Commonwealth avenue, St. Lawrence avenue and Taylor avenue.

I would recommend the approval of this resolution, that title to the streets be acquired in fee, and that 92 per cent. of the costs of the proceeding relating to Rosedale avenue, 93 per cent. of the costs of the proceeding affecting Leland avenue, and all of the costs of the proceeding relating to Commonwealth avenue, St. Lawrence avenue, Beach avenue, Taylor avenue and Theriot avenue, including the expenses of the Bureau of Street Openings and any damages allowed for intended regulating, be assessed upon the property to be benefited, the remainder to be assumed by the city at large. This relief is based upon the provisions of the rule adopted by the Board of Estimate and Apportionment on July 25, 1902. It is suggested that a district of assessment be laid out to comprise the following area:

Beginning at the intersection of the prolongation of a line midway between Noble avenue and Croes avenue with the southerly line of the lands of the New York, New Haven and Hartford Railroad Company adjoining West Farms road, and running thence eastwardly along the said southerly line of the New York, New Haven and Hartford Railroad Company's lands adjoining West Farms road to the intersection with a line distant 100 feet easterly from and parallel with the easterly line of the White Plains road, the said distance being measured at right angles to the line of the White Plains road; thence southwardly and along a line always distant 100 feet easterly from and parallel with the easterly line of the White Plains road, the said distance being measured at right angles to the line of the White Plains road, to the intersection with a line 100 feet south of and parallel with the southerly line of Westchester avenue, the said distance being measured at right angles to the line of Westchester avenue; thence westwardly and always parallel with and distant 100 feet southerly from the southerly line of Westchester avenue to the intersection with a line midway between Leland avenue and Theriot avenue; thence southwardly along a line midway between Theriot avenue and Leland avenue to a point 100 feet south of the southerly line of Gleason avenue; thence westwardly and parallel with Gleason avenue to the intersection with a line midway between Theriot avenue and Taylor avenue; thence northwardly along the said line midway between Theriot avenue and Taylor avenue to the intersection with a line distant 100 feet southerly from and parallel with the southerly line of Westchester avenue, the said distance being measured at right angles to the line of Westchester avenue; thence westwardly and parallel with the line of Westchester avenue to the intersection with a line midway between Taylor avenue and Beach avenue; thence southwardly and along the said line midway between Taylor avenue and Beach avenue to a point distant 100 feet south of the southerly line of Gleason avenue; thence westwardly and parallel with the line of Gleason avenue to the intersection with a line midway between Beach avenue and St. Lawrence avenue; thence northwardly and along the said line midway between Beach avenue and St. Lawrence avenue to the intersection with a line 100 feet southerly from and parallel with the southerly line of Westchester avenue, the said distance being measured at right angles to the line of Westchester avenue; thence westwardly and parallel with the line of Westchester avenue to the intersection with a line midway between Noble avenue and Croes avenue; thence northwardly along the said line midway between Noble avenue and Croes avenue, and along the prolongation of the said line, to the point or place of beginning.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Whereas, The Board of Estimate and Apportionment of The City of New York is considering the advisability of instituting proceedings to acquire title to the lands and premises required for the opening and extending of Rosedale avenue, Commonwealth avenue, St. Lawrence avenue, Taylor avenue (formerly Harrison avenue), Leland avenue (formerly Saxe avenue), between Westchester avenue and West Farms road; and Beach avenue (formerly One Hundred and Seventy-third street), and Theriot avenue (formerly One Hundred and Seventy-fifth street), between Gleason avenue and West Farms road, in the Borough of The Bronx, City of New York; and

Whereas, The Board of Estimate and Apportionment is authorized and required at the time of the adoption of the resolution directing the institution of proceedings to acquire title to the lands required for the foregoing improvement to fix and determine upon an area or areas of assessment for benefit for said proceeding.

Resolved, That the Board of Estimate and Apportionment, in pursuance of the provisions of section 980 of the Greater New York Charter, hereby gives notice that the following is the proposed area of assessment for benefit in this proceeding:

Beginning at the intersection of the prolongation of a line midway between Noble avenue and Croes avenue with the southerly line of the lands of the New York, New Haven and Hartford Railroad Company adjoining West Farms road, and running thence eastwardly along the said southerly line of the New York, New Haven and Hartford Railroad Company's lands adjoining West Farms road to the intersection with a line distant 100 feet easterly from and parallel with the easterly line of the White Plains road, the said distance being measured at right angles to the line of the White Plains road; thence southwardly and along a line always distant 100 feet easterly from and parallel with the easterly line of the White Plains road, the said distance being measured at right angles to the line of the White Plains road, to the intersection with a line 100 feet south of and parallel with the southerly line of Westchester avenue, the said distance being measured at right angles to the line of Westchester avenue; thence westwardly and always parallel with and distant 100 feet southerly from the southerly line of Westchester avenue to the intersection with a line midway between Leland avenue and Theriot avenue; thence southwardly along a line midway between Theriot avenue and Leland avenue to a point 100 feet south of the southerly line of Gleason avenue; thence westwardly and parallel with Gleason avenue to the intersection with a line midway between Theriot avenue and Taylor avenue; thence northwardly along the said line midway between Theriot avenue and Taylor avenue to the intersection with a line distant 100 feet southerly from and parallel with the southerly line of Westchester avenue, the said distance being measured at right angles to the line of Westchester avenue; thence westwardly and parallel with the line of Westchester avenue to the intersection with a line midway between Taylor avenue and Beach avenue; thence southwardly and along the said line midway between Taylor avenue and Beach avenue to a point distant 100 feet south of the southerly line of Gleason avenue; thence westwardly and parallel with the line of Gleason avenue to the intersection with a line midway between Beach avenue and St. Lawrence avenue; thence northwardly and along the said line midway between

Beach avenue and St. Lawrence avenue to the intersection with a line 100 feet southerly from and parallel with the southerly line of Westchester avenue, the said distance being measured at right angles to the line of Westchester avenue; thence westwardly and parallel with the line of Westchester avenue to the intersection with a line midway between Noble avenue and Croes avenue; thence northwardly along the said line midway between Noble avenue and Croes avenue, and along the prolongation of the said line, to the point or place of beginning.

Resolved, That this Board consider the proposed area of assessment at a meeting of the Board to be held in The City of New York, Borough of Manhattan, in the City Hall, on the 14th day of June, 1907, at 10.30 a. m., and that at the same time and place a public hearing thereon will then and there be had.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby to be published in the CITY RECORD for ten days prior to the 14th day of June, 1907.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

REPORT No. 5087.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
May 1, 1907.

Hon. GEORGE B. MCCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith are transmitted two resolutions, adopted on March 1, 1906, by the Local Board of the Morrisania District, Borough of The Bronx. One of these provides for acquiring title to Knox place, between Mosholu Parkway North and Gun Hill road, and the other provides for acquiring title to Gates place, between the same limits.

Knox place and Gates place are parallel and adjoining streets, each having a length of one block and a width of 60 feet. I see no reason why the resolutions providing for acquiring title to these streets should not be combined and made the subject of one proceeding. Both streets have been approximately graded, and broken stone walks have been laid. There are no buildings upon the land abutting on Knox place, and, with the exception of an old building located at the intersection of Gates place and Gun Hill road, the abutting property on Gates place is unimproved.

I would recommend the authorization of this proceeding; that title to the streets be acquired in fee, and that all of the costs of the proceeding, including the expenses of the Bureau of Street Openings, and any damage allowed for intended regulating, be

assessed upon the property to be benefited. It is suggested that a district of assessment be laid out to comprise the following area:

Beginning at the intersection of a line 100 feet northwesterly from and parallel with the northwesterly line of Gates place, the said distance being measured at right angles to the line of Gates place, with the westerly line of Mosholu Parkway North, and running thence northeastwardly and parallel with the line of Gates place to the intersection with the northeasterly line of Gun Hill road; thence northeastwardly on a radial line 100 feet; thence southeastwardly and always parallel with and distant 100 feet from the northeasterly line of Gun Hill road to the intersection with a line distant 100 feet southeasterly from and parallel with the southeasterly line of Knox place, the said distance being measured at right angles to the line of Knox place; thence southwestwardly and parallel with the southeasterly line of Knox place to the intersection with the easterly line of Mosholu Parkway North; thence westwardly at right angles to the line of Mosholu Parkway North 160 feet; thence northwardly and always parallel with the line of Mosholu Parkway North to the intersection with a line at right angles to Mosholu Parkway North and passing through the point described as the point or place of beginning; thence eastwardly to the point or place of beginning.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Whereas, The Board of Estimate and Apportionment of The City of New York is considering the advisability of instituting proceedings to acquire title to the lands and premises required for the opening and extending of Knox place, from Mosholu Parkway North to Gun Hill road; and Gates place, from Mosholu Parkway North to Gun Hill road, in the Borough of The Bronx, City of New York; and

Whereas, The Board of Estimate and Apportionment is authorized and required at the time of the adoption of the resolution directing the institution of proceedings to acquire title to the lands required for the foregoing improvement to fix and determine upon an area or areas of assessment for benefit for said proceeding.

Resolved, That the Board of Estimate and Apportionment, in pursuance of the provisions of section 980 of the Greater New York Charter, hereby gives notice that the following is the proposed area of assessment for benefit in this proceeding:

Beginning at the intersection of a line 100 feet northwesterly from and parallel with the northwesterly line of Gates place, the said distance being measured at right angles to the line of Gates place, with the westerly line of Mosholu Parkway North, and running thence northeastwardly and parallel with the line of Gates place to the intersection with the northeasterly line of Gun Hill road; thence northeastwardly on a radial line 100 feet; thence southeastwardly and always parallel with and distant 100 feet from the northeasterly line of Gun Hill road to the intersection with a line distant 100 feet southeasterly from and parallel with the southeasterly line of Knox place, the said distance being measured at right angles to the line of Knox place; thence southwestwardly and parallel with the southeasterly line of Knox place to the intersection with the easterly line of Mosholu Parkway North; thence westwardly at right angles to the line of Mosholu Parkway North 160 feet; thence northwardly and always parallel with the line of Mosholu Parkway North to the intersection with a line at right angles to Mosholu Parkway North and passing through the point described as the point or place of beginning; thence eastwardly to the point or place of beginning.

Resolved, That this Board consider the proposed area of assessment at a meeting of the Board to be held in The City of New York, Borough of Manhattan, in the City Hall, on the 14th day of June, 1907, at 10.30 a. m., and that at the same time and place a public hearing thereon will then and there be had.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby to be published in the CITY RECORD for ten days prior to the 14th day of June, 1907.

OPENING MONSON STREET, QUEENS.

The following resolution of the Local Board of Newtown, Borough of Queens, and report of the Chief Engineer were presented:

In the Local Board of the Newtown District.

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Queens; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the CITY RECORD that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same, and give a full hearing thereon; now therefore it is

Resolved, by the Local Board of the Newtown District, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, That the said petition be and the same hereby is granted; and it is hereby

Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

To legally open Monson street, from Fulton avenue north to the East river, in the First Ward of the Borough of Queens; and it is hereby further

Resolved, That a copy of the resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

REPORT No. 5090.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
May 3, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Newtown District, Borough of Queens, adopted on September 20, 1905, initiating proceedings for acquiring title to Monson street, from Fulton avenue northwardly to the East river, in the First Ward.

Monson street has been placed upon the map of the City with a length of four blocks, extending from Hallett's Cove to Hell Gate. The resolution of the Local Board excludes the southerly block, the land here being occupied by a shipyard. On

April 19 last a resolution for acquiring title to Halsey street, located distant one block east of Monson street, was amended to make the southerly terminal Fulton avenue, instead of Hallett's Cove, the amendment having been requested for the reason that the property south of Fulton avenue was occupied by the shipyard already alluded to, and if the street were to be opened through the property it would result in serious damage to an industry which it was desired to continue, and also in an extremely heavy assessment. It is assumed that the exclusion of the portion of Monson street between Fulton avenue and Hallett's Cove is due to the same reason.

Monson street has been laid out to have a width of 60 feet. The street is in use at the present time through the two blocks between Fulton avenue and Orchard street. In the southerly block the roadway is in use for the entire width, and a number of buildings have been erected upon the abutting property, these including a public school. Between Franklin street and Orchard street the roadway is narrow and there are only two buildings.

I see no reason why this resolution should not be approved, and would recommend such action. It is believed that no buildings encroach upon the land to be acquired. I would also recommend that title to the street be acquired in fee; that all of the costs of the proceeding, including the expenses of the Bureau of Street Openings and any damages allowed for intended regulating, be assessed upon the property to be benefited, and that a district of assessment be laid out to comprise the following area:

Bounded on the north by the East river, on the east by a line midway between Monson street and Halsey street, on the south by the East river, and on the west by a line midway between Monson street and Mills street, and by the prolongation of the said line.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

Whereas, The Board of Estimate and Apportionment of The City of New York is considering the advisability of instituting proceedings to acquire title to the lands and premises required for the opening and extending of Monson street, from Fulton avenue northwardly to the East river, First Ward, in the Borough of Queens, City of New York; and

Whereas, The Board of Estimate and Apportionment is authorized and required at the time of the adoption of the resolution directing the institution of proceedings to acquire title to the lands required for the foregoing improvement to fix and determine upon an area or areas of assessment for benefit for said proceeding.

Resolved, That the Board of Estimate and Apportionment, in pursuance of the provisions of section 980 of the Greater New York Charter, hereby gives notice that the following is the proposed area of assessment for benefit in this proceeding:

Bounded on the north by the East river, on the east by a line midway between Monson street and Halsey street, on the south by the East river, and on the west by a line midway between Monson street and Mills street, and by the prolongation of the said line.

Resolved, That this Board consider the proposed area of assessment at a meeting of the Board to be held in The City of New York, Borough of Manhattan, in the City Hall, on the 14th day of June, 1907, at 10.30 a. m., and that at the same time and place a public hearing thereon will then and there be had.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby to be published in the CITY RECORD for ten days prior to the 14th day of June, 1907.

REPORT No. 5099.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
May 6, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—On March 8, 1907, a resolution was adopted by the Board of Estimate and Apportionment providing for acquiring title to Garrison avenue, between Maspeth avenue and Flushing avenue, in the Second Ward of the Borough of Queens. In reporting upon this proceeding, attention was not drawn to the fact that the street crossed a railroad, and I find that the railroad company was not advised of the intention of the Board to institute opening proceedings, for which reason it will not be possible to secure the appointment of Commissioners of Estimate and Assessment.

At a meeting of the Board held on May 3, 1907, it was decided to obtain the opinion of the Corporation Counsel as to whether the maps which had been adopted laying out a street system in the Second Ward, Borough of Queens, furnished sufficient data as to the location of the street lines to permit of carrying out opening proceedings, and it was understood at that time that no proceedings would be begun until after the desired opinion had been obtained. I would therefore recommend that the resolution for acquiring title to Garrison avenue be rescinded, and that further action in the case be deferred until after the advice of the Corporation Counsel has been obtained.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

Resolved, That the resolution adopted by the Board of Estimate and Apportionment March 8, 1907, authorizing the acquisition of the lands and premises required for the opening of Garrison avenue, between Maspeth avenue and Flushing avenue, in the second Ward, Borough of Queens, be and the same is hereby rescinded.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

NEW YORK CENTRAL AND HUDSON RIVER RAILROAD TERMINAL PLANS, MANHATTAN.

The following communication and report of the Chief Engineer were presented:

NEW YORK CENTRAL AND HUDSON RIVER RAILROAD COMPANY,
April 12, 1907.

To the Honorable the Board of Estimate and Apportionment of The City of New York:

GENTLEMEN—The New York Central and Hudson River Railroad Company has prepared, and herewith submits to the Board of Estimate and Apportionment for its approval, plans and profiles, in duplicate, showing modifications in the plans and profiles, approved by the Board on the 28th day of April, 1905, of the Grand Central terminal improvement, exhibiting plans of the streets, avenues and viaducts between Forty-second and Fifty-seventh streets, and between Madison and Lexington avenues, said plans being of the yards and structures forming the terminal of the New York and Harlem Railroad Company, and the approaches thereto.

These plans and profiles are submitted both under the authority contained in section 5 of the chapter 425 of the Laws of 1903, authorizing certain alterations, changes or additions, and under section 8 of said Act, as amended by chapter 639 of the Laws of 1904, authorizing the modification of plans and profiles already submitted.

The changes shown in these plans are to provide for modifications made necessary in developing the plans already approved by the Board of Estimate and Apportionment, and

to provide the facilities which are necessary for the new terminal. No radical changes are made with reference to the plans already approved by your Honorable Board, and it is believed that the changes shown are in the interest not only of the railroad company but of the City as well.

I send with the plans a letter addressed to me by Mr. W. J. Wilgus, vice-president in charge of construction, describing with some detail the proposed changes, which may be of use to the Board or its Chief Engineer in considering the plans.

Yours very truly,

W. H. NEWMAN, President.

REPORT No. 10.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
May 7, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment.

SIR—At the meeting of the Board of Estimate and Apportionment held on April 12, 1907, a communication was presented by Mr. W. H. Newman, President of the New York Central and Hudson River Railroad Company, with which were submitted, in duplicate, plans and profiles showing modifications in the plans and profiles which were approved by the Board of Estimate and Apportionment on April 28, 1905, for the Grand Central Terminal improvement, in accordance with the provisions of chapter 425 of the Laws of 1903, and chapter 639 of the Laws of 1904. These plans were referred to the Chief Engineer of the Board for examination and report.

The amended plans are in nearly all essential particulars identical with those already approved. There are, however, a number of minor changes which, in the judgment of your Engineer, do not affect the improvement being carried out in its relation to the street lines and grades or the general use of the streets by the public. The following changes are noted:

1. The bridge over Vanderbilt avenue, between the Grand Central Station and the block between East Forty-third and East Forty-fourth streets is omitted.

2. The roadway of Forty-third street is increased seven feet by taking eight feet from the sidewalk in front of the temporary office building of the company. Slight changes are made in the curb lines on Vanderbilt avenue and Forty-second street. These changes are simply designed to provide for islands above the level of the pavement, back of which will be additional driveways, the greater part of which will be on property owned by the railroad company, and which are to be used for carriages and other vehicles approaching or stopping at the station. In none of these cases is the curb line to be placed outside the present curb except on Forty-second street, where it is proposed to place the outer side of these curbed islands on line with the Forty-second street curb west of Vanderbilt avenue. This position is seven feet outside of the present curb east of Vanderbilt avenue, but inasmuch as a far greater area is made available as a driveway for vehicles inside of these curbed islands, I do not think there can be any objection.

3. On the Park avenue viaduct the positions of ventilators in the space between the roadways is definitely shown, as was not done on the previous plans, although the presence of ventilators was indicated. On the outer sidewalks of Park avenue on each block between East Forty-fifth and East Fifty-sixth streets, lens lights are shown for a portion of the sidewalk width. These were not indicated on the former plans. In several blocks these lens lights are interrupted by paved driveways. This is a change to which objection has been made by the F. & M. Schaefer Brewing Company. The railroad company has already attempted to place some of these lens lights, and have been enjoined by the brewing company on the ground that the work they were doing was in violation of approved plans. The brewing company has advised me that they wish an opportunity to be heard before the plans showing such lens lights in front of their property are approved.

4. The viaduct on East Forty-second street is indicated as 55 feet in width, and that on East Forty-ninth street as 60 feet in width, while both of them were shown as 50 feet wide on the original plans. The five feet in one case and the ten feet in the other is being added at the expense of the railroad company and is for the reason that the abutting property is to be covered by buildings which will be placed above the yard. There can be no objection to this arrangement.

5. The arrangement of lamps on the viaducts and along the streets has been materially changed. The original plans showed an extremely liberal provision for lights, but I am advised that the Chief of the Bureau of Lighting, of the Department of Water Supply, Gas and Electricity, objected to the large number of lamps, the lighting of which would involve very large expense. The provisions for lighting as now proposed appear to be fully as liberal as is to be found on other streets of the City.

6. The track grades of the express level and of the suburban level have both been changed by lowering them to give additional headway. The viaduct grades remain as before, and the lowering of the tracks is advantageous, rather than otherwise, as the trains will be less noticeable.

7. All of the bridges show that provision has been made for water and gas mains and other structures in accordance with the requests of the Department of Water Supply, Gas and Electricity, and that these pipes are to be encased in concrete.

There are a number of other changes in the details of construction which in no way affect the public streets, but which relate wholly to construction on the property of the railroad company, and which, in my judgment, the Board will not care to consider.

I can see no objection to any of these changes, although the F. & M. Schaefer Brewing Company, as already stated, has raised an objection to the lens lights in the sidewalks in front of their premises on Park avenue, and it is recommended that before the Board gives its approval to the amended plans, this company be given an opportunity to be heard.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

Mr. Edward W. Lauterbach, representing the F. & M. Schaefer Brewing Company, appeared in opposition to the plans submitted.

The President of the Board of Aldermen moved that the matter be referred to a committee consisting of the President of the Board of Aldermen, the Comptroller, the President of the Borough of Manhattan and the Chief Engineer of the Board, which motion was unanimously agreed to, with instructions to report at the next meeting.

PAVING WEST TWO HUNDRED AND SECOND STREET, MANHATTAN.

The following resolution of the Local Board of Washington Heights, Borough of Manhattan, and report of the Chief Engineer were presented:

In the Local Board of the Washington Heights District.

May 1, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment.

SIR—Herewith is transmitted a resolution of the Local Board of the Washington Heights District, Borough of Manhattan, adopted on April 9, 1907, initiating proceedings for curbing and recurring West Two Hundred and Second street, between Tenth avenue and a point 200 feet east of Ninth avenue, and for laying an asphalt block pavement.

This resolution affects a length of a little over one block of West Two Hundred and Second street, title to which has been legally acquired. The street has been graded, curbed and flagged, the sewer has been built and the water main has been laid. The gas main, however, is lacking. With the exception of a factory located on the southerly side of the street near the river, the abutting property is unimproved.

The approval of the resolution is recommended with the understanding that before the work is begun the gas main will be laid. The work to be done comprises the following:

1,670 linear feet new and old curbing.

2,830 square yards asphalt block pavement.

The estimated cost of construction is \$9,200, and the assessed valuation of the property to be benefited is \$285,000.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

A copy of a resolution of the Local Board of the Washington Heights District, duly adopted by said Board on the 9th day of April, 1907, and approved by the President of the Borough of Manhattan on the 10th day of April, 1907, having been transmitted to the Board of Estimate and Apportionment, as follows, to wit:

"Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

"To pave with asphalt block pavement on concrete foundation, curb and recurb West Two Hundred and Second street, from the easterly line of Tenth avenue to a point 200 feet east of the easterly line of Ninth avenue."

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$9,200, and a statement of the assessed value, according to the last preceding tax roll, of the real estate included within the probable area of assessment, to wit, the sum of \$285,000, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized, and this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The following resolution of the Local Board of Washington Heights and report of the Chief Engineer were presented:

In the Local Board of the Washington Heights District.

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Manhattan; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the CITY RECORD that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same and give a full hearing thereon; now therefore it is

Resolved, by the Local Board of the Washington Heights District, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, That the said petition be and the same hereby is granted; and it is hereby

Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

To pave with asphalt block pavement on concrete foundation, curb and recurb West Two Hundred and First street, from the easterly line of Academy street to a point 200 feet east of the easterly line of Ninth avenue; and it is hereby further

Resolved, That a copy of the resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

Adopted by the Local Board of the Washington Heights District on the 9th day of April, 1907, all the members present voting in favor thereof.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment.

SIR—Herewith is transmitted a resolution of the Local Board of the Washington Heights District, Borough of Manhattan, adopted on April 9, 1907, initiating proceed-

ings for curbing and recurring West Two Hundred and First street, from Academy street to a point 200 feet east of Ninth avenue, and for laying an asphalt block pavement.

This resolution affects a length of a little over one block of West Two Hundred and First street, title to which has been legally acquired. The street has been graded, curbed and flagged, the water main has been laid and the sewer has been built. The gas main, however, is lacking. A factory has been erected on the northerly side of the street near the water front and a boat house at the edge of the river appears to be partially within the street lines.

The approval of the resolution is recommended with the understanding that the gas main will be provided before the construction is begun. The work to be done comprises the following:

1,775 square yards asphalt block pavement.

1,060 linear feet new and old curbing.

The estimated cost of construction is \$5,900, and the assessed valuation of the property to be benefited is \$84,000.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

REPORT No. 5050.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
April 18, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—On June 15, 1906, a resolution providing for grading Fiftieth street, between Eighth and Fort Hamilton avenues, Borough of Brooklyn, was referred back to the President of the Borough with the recommendation that it be amended by including the curbing. The Local Board of the Bay Ridge District, on October 31, 1906, acting upon this recommendation, have adopted a new resolution providing for grading and curbing Fiftieth street, between the same limits as those named in the original resolution, these comprising two long blocks and one short block.

Title to the street was vested in the City last year in connection with a resolution providing for the construction of a sewer. The street is in use through the westerly block, and a few buildings have here been erected upon the abutting property. Through the two blocks between Ninth and Fort Hamilton avenues, the street is not in use, and the abutting property is unimproved.

The resolution now submitted is, in my judgment, a proper one, and its approval is recommended. The work to be done comprises the following:

20,000 cubic yards grading.

3,640 linear feet curbing.

The estimated cost of construction is \$12,600, and the assessed valuation of the land to be benefited is \$33,300.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

A copy of a resolution of the Local Board of the Bay Ridge District, duly adopted by said Board on the 31st day of October, 1906, and approved by the President of the Borough of Brooklyn on the 11th day of December, 1906, having been transmitted to the Board of Estimate and Apportionment as follows, to wit:

"Resolved, That the Local Board of the Bay Ridge District, Borough of Brooklyn, this 31st day of October, 1906, hereby initiates proceedings to regulate, grade and curb Fiftieth street, between Eighth and Fort Hamilton avenues,"

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$12,600, and a statement of the assessed value, according to the last preceding tax roll, of the real estate included within the probable area of assessment, to wit, the sum of \$33,300, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized. And this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
March 21, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Bay Ridge District, Borough of Brooklyn, adopted on July 2, 1906, initiating proceedings for grading, curbing and flagging Eightieth street, between Twenty-second and Twenty-third avenues.

Title to this block of Eightieth street has not been acquired under formal proceedings, but in a communication addressed to the President of the Borough on December 6, 1906, the Acting Corporation Counsel advised that condemnation proceedings are not required by reason of the improvements which have been made along the line of the street.

An examination of the ground shows that the roadway has been approximately graded, shade trees have been planted, some flagging has been laid, and a large number of houses have been built upon the abutting property.

The evidences of dedication are, in my judgment, satisfactory, and the authorization of the work proposed is recommended. The work to be done comprises the following:

1,000 cubic yards grading.

1,450 linear feet curbing.

7,500 square feet new and old flagging.

The estimated cost of construction is \$3,500, and the assessed valuation of the land to be benefited is \$21,300.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
April 18, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—On September 21, 1906, a resolution of the Local Board of the Bay Ridge District, Borough of Brooklyn, providing for grading, curbing, flagging, guttering and macadamizing Ninety-third street, between Third and Fourth avenues, was referred back to the President of the Borough with the recommendation that a more substantial pavement be provided than the one proposed. Acting upon this recommendation the Local Board of the Bay Ridge District of the Borough adopted a new resolution on October 31, 1906, providing for grading, curbing and flagging Ninety-third street, between the limits named in the original resolution and for laying an asphalt pavement.

This improvement affects a length of one block of Ninety-third street, title to which has been acquired under formal proceedings. The roadway is in use at the present time and several frame buildings have been erected upon the abutting property. All of the subsurface improvements have been provided and the approval of the resolution is now recommended, the work to be done comprising the following:

- 1,200 cubic yards grading.
- 1,540 linear feet curbing.
- 7,700 square feet cement walk.
- 2,740 square yards asphalt pavement.

The estimated cost of construction is \$10,200, and the assessed valuation of the land to be benefited is \$36,200.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

A copy of a resolution of the Local Board of the Bay Ridge District, duly adopted by said Board on the 31st day of October, 1906, and approved by the President of the Borough of Brooklyn, on the 11th day of December, 1906, having been transmitted to the Board of Estimate and Apportionment as follows, to wit:

"Resolved, That the Local Board of the Bay Ridge District, Borough of Brooklyn, this 31st day of October, 1906, hereby initiates proceedings to regulate, grade, set curb on concrete, pave with asphalt on concrete foundation and lay cement sidewalks on Ninety-third street, between Third and Fourth avenues,"

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$10,200, and a statement of the assessed value, according to the last preceding tax roll, of the real estate included within the probable area of assessment, to wit, the sum of \$36,200, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized, and this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
May 1, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Flatbush District, Borough of Brooklyn, adopted on January 30, 1907, initiating proceedings for grading, curbing and flagging East Thirty-fourth street, between Church and Clarkson avenues.

This resolution affects a length of one short block and two long blocks of East Thirty-fourth street. Proceedings for acquiring title to the street between these limits were authorized on February 3, 1905, and the oaths of the Commissioners of Estimate and Assessment were filed on July 31, 1905. Through the block between Church avenue and Linden street a narrow roadway is in use, a small portion of the cement walk has been laid and a few houses have been erected upon the abutting property. Through the remainder of its length the street is not in use at the present time.

The improvement appears to be a proper one, and the approval of the resolution is recommended. The work to be done comprises the following:

- 5,000 cubic yards grading.
- 3,200 linear feet curbing.
- 15,600 square feet cement walk.

The estimated cost of construction is \$6,700 and the assessed valuation of the property to be benefited is \$35,400. I would recommend that title to East Thirty-fourth street be vested in the City on July 1, 1907.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Whereas, The Board of Estimate and Apportionment on the 3d day of February, 1905, adopted a resolution requesting the Corporation Counsel to acquire title, wherever the same has not heretofore been acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending East Thirty-fourth street, from Church avenue to Clarkson avenue, in the Borough of Brooklyn, City of New York; and

Whereas, Commissioners of Estimate and Assessment have been appointed by the Supreme Court in proceedings to acquire title to said Thirty-fourth street, and the oaths of said Commissioners of Estimate and Assessment were duly filed as required by law on the 31st day of July, 1905; therefore be it

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 990 of the Greater New York Charter, directs that upon the 1st day of July, 1907, the title to each and every piece or parcel of land lying within the lines of said East Thirty-fourth street, from Church avenue to Clarkson avenue, in the Borough of Brooklyn, City of New York, so required, shall be vested in The City of New York.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

A copy of a resolution of the Local Board of the Flatbush District, duly adopted by said Board on the 30th day of January, 1907, and approved by the President of the Borough of Brooklyn on the 28th day of February, 1907, having been transmitted to the Board of Estimate and Apportionment as follows, to wit:

"Resolved, That the Local Board of the Flatbush District, Borough of Brooklyn, this 30th day of January, 1907, hereby initiates proceedings to regulate, grade, set cement curb and lay cement sidewalks on East Thirty-fourth street, between Church and Clarkson avenues,"

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$6,700, and a statement of the assessed value, according to the last preceding tax-roll, of the real estate included within the probable area of assessment, to wit, the sum of \$35,400, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized, and this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
March 21, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Williamsburg District, Borough of Brooklyn, adopted on November 26, 1906, initiating proceedings for grading, curbing and flagging Huron street, from a point about 160 feet east of Oakland street to Provost street.

This resolution affects the greater portion of one long block of Huron street, title to which has been legally acquired. The street is in use at the present time, and through the portion of the block which is omitted from the resolution it has already been curbed and paved. The abutting property is partially improved.

There seems to be no reason to prevent the approval of this resolution, such action being recommended. The work to be done comprises the following:

500 cubic yards grading.

920 linear feet curbing.

6,100 square feet new and old flagging.

The estimated cost of construction is \$2,400, and the assessed valuation of the property to be benefited is \$42,700.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

A copy of a resolution of the Local Board of the Williamsburg District, duly adopted by said Board on the 26th day of November, 1906, and approved by the President of the Borough of Brooklyn on the 8th day of December, 1906, having been transmitted to the Board of Estimate and Apportionment, as follows, to wit:

"Resolved, That the Local Board of the Williamsburg District, Borough of Brooklyn, this 26th day of November, 1906, hereby initiates proceedings to regulate, grade, set curb on concrete and lay cement sidewalks on Huron street, from a point about 160 feet east of Oakland street to Provost street."

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$2,400, and a statement of the assessed value, according to the last preceding tax-roll, of the real estate included within the probable area of assessment, to wit, the sum of \$42,700, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized, and this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

The following resolution of the Local Board of Bay Ridge, Borough of Brooklyn, and report of the Chief Engineer were presented:

In the Local Board of the Bay Ridge District.

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Brooklyn; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the CITY RECORD that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same, and give a full hearing thereon; now therefore it is

Resolved, by the Local Board of the Bay Ridge District, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, That the said petition be and the same hereby is granted; and it is hereby

Resolved, That the Local Board of the Bay Ridge District, Borough of Brooklyn, this 31st day of October, 1906, hereby initiates proceedings to regulate, grade, set curb on concrete and lay cement sidewalks on Fifty-sixth street, between First and Second avenues; and it is hereby

Resolved, That a copy of the resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

Adopted by the Local Board of the Bay Ridge District on the 31st day of October, 1906.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
March 21, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Bay Ridge District, Borough of Brooklyn, adopted on October 31, 1906, initiating proceedings for grading, curbing and flagging Fifty-sixth street, between First and Second avenues.

This resolution affects a length of one block of Fifty-sixth street, title to which was acquired in 1892. A rough roadway is in use at the present time, but the abutting property is unimproved. On this date a report has been prepared recommending the construction of a sewer in this street.

The improvement appears to be a proper one, and its authorization is recommended. The work to be done comprises the following:

600 cubic yards grading.

1,464 linear feet curbing.

7,320 square feet flagging.

The estimated cost of construction is \$3,300, and the assessed valuation of the property to be benefited is \$51,900.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

A copy of a resolution of the Local Board of the Bay Ridge District, duly adopted by said Board on the 31st day of October, 1906, and approved by the President of the Borough of Brooklyn, on the 11th day of December, 1906, having been transmitted to the Board of Estimate and Apportionment, as follows, to wit:

"Resolved, That the Local Board of the Bay Ridge District, Borough of Brooklyn, this 31st day of October, 1906, hereby initiates proceedings to regulate, grade, set curb on concrete and lay cement sidewalks on Fifty-sixth street, between First and Second avenues."

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
May 6, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Flatbush District, Borough of Brooklyn, adopted on November 1, 1906, initiating proceedings for grading, curbing and flagging Mansfield place, between a point about 100 feet south of Farragut road and Avenue G.

Title to Mansfield place or East Twenty-fourth street, between the limits named, has never been acquired under formal proceedings. On July 1, 1904, the construction of a sewer was authorized, at which time evidences were presented to show that the street had been dedicated to public use. With the resolution now submitted there is presented a communication from the Acting Corporation Counsel, dated March 30, 1907, and addressed to the President of the Borough, advising that condemnation proceedings are unnecessary. The street is in use at the present time and has been approximately graded. A large number of houses have been erected upon the abutting property. Between Farragut road and a point about 100 feet south of the same the street has already been graded, curbed and macadamized, for which reason this portion of it is omitted from the improvement.

The approval of the resolution is recommended, the work to be done comprising the following:

500 cubic yards grading.

1,400 linear feet curbing.

7,000 square feet cement walk.

The estimated cost of construction is \$2,600, and the assessed valuation of the land to be benefited is \$60,600.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

Hon. GEORGE B. MCCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Bay Ridge District, Borough of Brooklyn, adopted on April 3, 1907, initiating proceedings for grading, curbing and flagging Eighty-seventh street, between Third and Fourth avenues.

Title to this block of Eighty-seventh street was vested in the City on October 15, 1904, under opening proceedings which were then in progress, for the purpose of carrying out a sewer improvement. The proceedings were confirmed on March 29 last. The roadway is in use at the present time and several buildings have been erected upon the abutting property.

The improvement appears to be a proper one, and its authorization is recommended. The work to be done comprises the following:

1,500 cubic yards grading.
1,486 linear feet curbing.
7,180 square feet cement walk.

The estimated cost of construction is \$3,700, and the assessed valuation of the land to be benefited is \$38,000.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

Hon. GEORGE B. MCCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Flatbush District, Borough of Brooklyn, adopted on June 7, 1905, initiating proceedings for grading and curbing East Thirty-second street, between Glenwood road and Avenue H.

This resolution affects a length of one block of East Thirty-second street, title to which has never been acquired under formal proceedings. There is submitted, however, a communication addressed to the President of the Borough by the Acting Corporation Counsel under date of July 5, 1906, advising that the street between the limits named has been dedicated to public use. On July 8, 1903, the construction of a sewer was authorized, at which time affidavits establishing a dedication were presented. The street is in use at the present time, the sidewalk has been laid, shade trees have been planted and a large number of buildings have been erected upon the abutting property.

The improvement appears to be a proper one and its authorization is recommended. The work to be done comprises the following:

1,600 cubic yards grading.
1,600 linear feet curbing.

The estimated cost of construction is \$2,600, and the assessed valuation of the land to be benefited is \$36,680.

Hon. GEORGE B. MCCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Flatbush District, Borough of Brooklyn, adopted on January 30, 1907, initiating proceedings for laying an asphalt pavement on Linden avenue, between Nostrand and New York avenues.

Title to the block of Linden avenue affected by this resolution has not been acquired under formal proceedings. A grading improvement was authorized in 1903, at which time evidences were presented to show that the street had been dedicated to public use. The grading has been done and a large number of houses have been erected upon the abutting property. The sewer has not yet been completed through the entire length of the block, but the Chief Engineer of the Bureau of Sewers advises that the plans provide for the sewers on each side of the street and that they will be located under the sidewalks. The water main has been provided.

The approval of this resolution is recommended, with the understanding that any of the gas mains yet uncompleted will be supplied before the work is begun. The work to be done comprises the laying of 3,800 square yards of asphalt pavement at an estimated cost of \$9,000. The assessed valuation of the land to be benefited is \$42,900.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

A copy of a resolution of the Local Board of the Flatbush District, duly adopted by said Board on the 30th day of January, 1907, and approved by the President of the Borough of Brooklyn on the 28th day of February, 1907, having been transmitted to the Board of Estimate and Apportionment, as follows, to wit:

"Resolved, That the Local Board of the Flatbush District, Borough of Brooklyn, this 30th day of January, 1907, hereby initiates proceedings to pave with asphalt on concrete foundation Linden avenue, between Nostrand and New York avenues,"

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$9,000, and a statement of the assessed value, according to the last preceding tax roll, of the real estate included within the probable area of assessment, to wit, the sum of \$42,900, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized, and this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
May 9, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Prospect Heights District, Borough of Brooklyn, adopted on September 26, 1904, initiating proceedings for laying an asphalt pavement on Eleventh avenue, between Fifteenth and Eighteenth streets.

This resolution affects a length of six blocks of Eleventh avenue, title to which has been legally acquired. A grading improvement was authorized in 1905 and has been completed. The water main is laid through a portion of the street and the Deputy Commissioner of Water Supply for the Borough now advises that arrangements have been made for completing it at once. The abutting property is only slightly improved but work has already been begun on a number of houses. The sewer has been built.

The approval of this resolution is recommended with the understanding that before the work is begun the gas main will be laid. The work to be done comprises the laying of 6,540 square yards of asphalt pavement at an estimated cost of \$15,400. The assessed valuation of the property to be benefited is \$217,300.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

A copy of a resolution of the Local Board of the Prospect Heights District, duly adopted by said Board on the 26th day of September, 1904, and approved by the President of the Borough of Brooklyn on the 19th day of January, 1905, having been transmitted to the Board of Estimate and Apportionment, as follows, to wit:

"Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

"To pave with asphalt on concrete foundation, Eleventh avenue, from Fifteenth street to Eighteenth street, in the Borough of Brooklyn,"

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$15,400, and a statement of the assessed value, according to the last preceding tax roll, of the real estate included within the probable area of assessment, to wit, the sum of \$217,300, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized, and this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
April 19, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution adopted on March 25, 1907, at a joint-meeting of the Local Boards of the Bay Ridge and Flatbush Districts, Borough of Brooklyn, initiating proceedings for laying an asphalt pavement on Foster avenue, between Flatbush avenue and East Seventeenth street, and between East Fourteenth street and Coney Island avenue.

On December 18, 1905, a resolution providing for grading, curbing and flagging Foster avenue between the same limits was approved by the Board of Estimate and Apportionment.

Title to the street has been legally acquired; the grading improvement has been carried out; the water main has been laid, and the sewer has been built. A portion of the gas main, however, is lacking. The abutting property is generally unimproved, although a large number of buildings have been erected upon the intersecting streets. The three blocks omitted from the improvement, extending from East Fourteenth street to East Seventeenth street, include the land occupied by the Brighton Beach Railroad, the improvement of which, by the elimination of grade crossings, is now in progress.

I see no reason why the pavement should not be laid at this time, and would recommend the approval of the resolution, with the understanding, however, that the gas main will be completed before the work is begun. The work to be done comprises the laying of 16,000 square yards of asphalt pavement at an estimated cost of \$37,800. The assessed valuation of the property to be benefited is \$165,200.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$37,800, and a statement of the assessed value, according to the last preceding tax roll, of the real estate included within the probable area of assessment, to wit, the sum of \$165,200, having also been presented it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized. And this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
April 18, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—On June 15, 1906, a resolution of the Local Board of the Bay Ridge District, Borough of Brooklyn, providing for macadamizing Bay Twenty-sixth street,

between Cropsey avenue and Eighty-sixth street, was referred back to the President of the Borough with the recommendation that a more substantial pavement be provided than the one named in the resolution. Acting upon this recommendation the Local Board of the Bay Ridge District, on October 31, 1906, adopted a new resolution providing for laying an asphalt pavement between the same limits as are named in the original resolution, these comprising three blocks of the street.

Title to Bay Twenty-sixth street has not been acquired under formal proceedings, but a grading improvement was authorized in 1905, at which time evidences were presented to show that the street had been dedicated to public use. The grading has been done and all of the subsurface improvements have been provided. A number of frame dwellings have been erected upon each block of the street.

The approval of the resolution is recommended, the work to be done comprising the laying of 5,720 square yards of asphalt pavement. The estimated cost of construction is \$12,900, and the assessed valuation of the property to be benefited is \$86,200.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

A copy of a resolution of the Local Board of the Bay Ridge District, duly adopted by said Board on the 31st day of October, 1906, and approved by the President of the Borough of Brooklyn on the 11th day of December, 1906, having been transmitted to the Board of Estimate and Apportionment, as follows, to wit:

"Resolved, That the Local Board of the Bay Ridge District, Borough of Brooklyn, this 31st day of October, 1906, hereby initiates proceedings to pave with asphalt on concrete foundation Bay Twenty-sixth street, between Cropsey avenue and Eighty-sixth street."

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$12,900, and a statement of the assessed value, according to the last preceding tax roll, of the real estate included within the probable area of assessment, to wit, the sum of \$86,200, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized, and this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
May 7, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Bay Ridge District, Borough of Brooklyn, adopted on September 27, 1905, initiating proceedings for the construction of a sewer in Seventy-fourth street, between Thirteenth and Fourteenth avenues.

Title to the block of Seventy-fourth street affected by this resolution has never been acquired under formal proceedings, but there is presented with the resolution a communication, addressed on March 30, 1907, to the President of the Borough, by the Acting Corporation Counsel, advising that Seventy-fourth street between the limits named has been dedicated to public use.

An examination of the ground shows that the roadway has been graded, a portion of the sidewalk has been laid, the street is lit by gas, and a number of houses have been erected upon the abutting property.

The dedication is, in my judgment, well marked and, the outlet sewer having been built, the approval of the resolution is recommended. The work to be done comprises the following:

765 linear feet 18-inch pipe sewer.
8 manholes.

The estimated cost of construction is \$3,800, and the assessed valuation of the property to be benefited is \$124,745.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

A copy of a resolution of the Local Board of the Bay Ridge District, duly adopted by said Board on the 27th day of September, 1905, and approved by the President of the Borough of Brooklyn, on the 16th day of October, 1905, having been transmitted to the Board of Estimate and Apportionment, as follows, to wit:

"Resolved, That the Local Board of the Bay Ridge District, Borough of Brooklyn, this 27th day of September, 1905, hereby initiates proceedings to construct a sewer in Seventy-fourth street, between Thirteenth and Fourteenth avenues,"

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$3,800, and a statement of the assessed value, according to the last preceding tax roll, of the real estate included within the probable area of assessment, to wit, the sum of \$124,745, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized, and this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

REPORT No. 5049.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
April 18, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Bay Ridge District, Borough of Brooklyn, adopted on October 31, 1906, initiating proceedings for the construction of a sewer in Second avenue, between Sixtieth and Sixty-fourth streets.

Title to the four blocks of Second avenue affected by this resolution has been legally acquired. The street has been paved with asphalt for many years, but the abutting property is unimproved. The petition attached to the resolution bears the names of two of the owners of property fronting upon the street. The outlet sewer has been built, and the approval of the resolution is recommended. The work to be done comprises the following:

265 linear feet 24-inch pipe sewer.
260 linear feet 18-inch pipe sewer.
260 linear feet 15-inch pipe sewer.
250 linear feet 12-inch pipe sewer.
10 manholes.
7 receiving basins.

The estimated cost of construction is \$5,500, and the assessed valuation of the property to be benefited is \$140,992.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

A copy of a resolution of the Local Board of the Bay Ridge District, duly adopted by said Board on the 31st day of October, 1906, and approved by the President of the Borough of Brooklyn, on the 11th day of December, 1906, having been transmitted to the Board of Estimate and Apportionment, as follows, to wit:

"Resolved, That the Local Board of the Bay Ridge District, Borough of Brooklyn, this 31st day of October, 1906, hereby initiates proceedings to construct a sewer in Second avenue, between Sixtieth and Sixty-fourth streets,"

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$5,500, and a statement of the assessed value, according to the last preceding tax roll, of the real estate included within the probable area of assessment, to wit, the sum of \$140,992, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized. And this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

SEWERS IN FORT HAMILTON AVENUE, BROOKLYN.

The following resolution of the Local Board of Bay Ridge, Borough of Brooklyn, and report of the Chief Engineer were presented:

In the Local Board of the Bay Ridge District.

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Brooklyn; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the CITY RECORD that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same and give a full hearing thereon; now therefore it is

Resolved, by the Local Board of the Bay Ridge District, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, That the said petition be and the same hereby is granted; and it is hereby

Resolved, That the Local Board of the Bay Ridge District, Borough of Brooklyn, this 31st day of October, 1906, hereby initiates proceedings to construct sewers in both sides of Fort Hamilton avenue, between Eighty-eighth and Ninetieth streets, with outlet sewers in both sides of Fort Hamilton avenue, between Ninetieth and Ninety-second streets; and it is hereby

Resolved, That a copy of the resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

Adopted by the Local Board of the Bay Ridge District on the 31st day of October, 1906.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
March 18, 1907.

Hon. GEORGE B. MCCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Bay Ridge District, Borough of Brooklyn, adopted on October 31, 1906, initiating proceedings for the construction of sewer basins at the southerly and easterly corners of Sixteenth and Cropsey avenues.

Sixteenth avenue has been graded and curbed, and Cropsey avenue has been macadamized. The basins described in the resolution are needed for the removal of drainage from both streets. It is proposed to connect these basins with an old sewer which will later be superseded by one of greater capacity.

There seems to be no reason to prevent the authorization of this work and such action is recommended. The estimated cost of construction is \$400, and the assessed valuation of the property to be benefited is \$65,700.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

In the Board of Estimate and Apportionment.

A copy of a resolution of the Local Board of the Bay Ridge District, duly adopted by said Board on the 31st day of October, 1906, and approved by the President of the Borough of Brooklyn on the 11th day of December, 1906, having been transmitted to the Board of Estimate and Apportionment, as follows, to wit:

"Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

"To construct sewer basins at the southerly and easterly corners of Sixteenth avenue and Cropsey avenue,"

—and there having been presented to said Board of Estimate and Apportionment an Estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$400, and a statement of the assessed value, according to the last preceding tax roll, of the real estate included within the probable area of assessment, to wit, the sum of \$65,700, having also been presented, it is

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
March 21, 1907.

Hon. GEORGE B. MCCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Flatbush District, Borough of Brooklyn, adopted on November 1, 1906, initiating proceedings for the construction of a receiving basin at the southeast corner of Chester street and Dumont avenue. This basin is needed for the removal of drainage from the south and east along the line of the streets named, both of which have been paved with asphalt.

The approval of the resolution is recommended. The estimated cost of construction is \$200, and the assessed valuation of the property to be benefited is \$84,500.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

In the Board of Estimate and Apportionment.

A copy of a resolution of the Local Board of the Flatbush District, duly adopted by said Board on the 1st day of November, 1906, and approved by the President of the Borough of Brooklyn on the 30th day of November, 1906, having been transmitted to the Board of Estimate and Apportionment as follows, to wit:

"Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
May 6, 1907.

Hon. GEORGE B. MCCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Flatbush District, Borough of Brooklyn, adopted on January 30, 1907, initiating proceedings for the construction of receiving basins on the northerly and southerly sides of Albemarle road, on the west side of the Brighton Beach improvement.

Albemarle road has been paved and a retaining wall has been built at its intersection with the Brighton Beach Railroad tracks. The drainage now accumu-

lates at this point, no provision having been made for its removal. The outlet sewer has been built and the improvement, in my judgment, is a proper one and its authorization is recommended. The estimated cost of construction is \$400, and the assessed valuation of the property to be benefited is \$67,400.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

In the Board of Estimate and Apportionment.

A copy of a resolution of the Local Board of the Flatbush District, duly adopted by said Board on the 30th day of January, 1907, and approved by the President of the Borough of Brooklyn, on the 28th day of February, 1907, having been transmitted to the Board of Estimate and Apportionment, as follows, to wit:

DRAINAGE PLAN FOR SEWERS IN EASTERN PARKWAY, UNION STREET, PRESIDENT STREET AND CLASSON AVENUE, BROOKLYN.

The following communication and report of the Chief Engineer were presented:

THE CITY OF NEW YORK,
OFFICE OF THE PRESIDENT OF THE BOROUGH OF BROOKLYN,
BROOKLYN, February 5, 1907.

Mr. JOSEPH HAAG, No. 277 Broadway:

DEAR SIR—I am directed by the Commissioner to transmit herewith plans showing a change of plan for sewers in President street, Union street, Eastern parkway and Classon avenue.

The Superintendent of Sewers reports that this change is necessary because the sewers in the three first named streets cannot be built according to the old plan near enough to the line of the cut of the Brighton Beach Railroad so that the property can be connected with them. According to this old plan, when a point is reached 170 feet from the right of way of this railroad, the sewer has only three feet of earth above it. This, of course, is not sufficient to serve the property as a sewer, and a change of plan is therefore necessary.

Respectfully yours,

JOHN MULLER, Secretary.

REPORT No. 4974.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
March 21, 1907.

Hon. GEORGE B. MCCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—In the accompanying communication, dated February 5, 1907, the Commissioner of Public Works of the Borough of Brooklyn, through his Secretary, requests the approval of a modification in the drainage plan prepared for the following streets: Eastern parkway, between the Brooklyn and Brighton Beach Railroad and Classon avenue.

Union street, between Franklin avenue and Classon avenue.

President street, between Franklin avenue and Classon avenue.

Classon avenue, between Lincoln place and President street.

Under the sewerage plan heretofore prepared, the sewers in President street, Union street and Eastern parkway, could not be extended to the land of the Brooklyn and Brighton Beach Railroad, owing to the grades adopted, the same giving practically no covering for the sewers at the railroad line. The plan submitted provides for overcoming this difficulty and the approval of the same is recommended.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

Resolved, That the Board of Estimate and Apportionment, in pursuance of the provisions of the Greater New York Charter, hereby approves the map submitted by the President of the Borough of Brooklyn, entitled "Change of Plan of Maps K, District 23; L, District 24, and T, District 40," and dated February 7, 1906.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

SEWER PLAN FOR SENATOR STREET, BROOKLYN.

THE CITY OF NEW YORK,
OFFICE OF THE PRESIDENT OF THE BOROUGH OF BROOKLYN,
BROOKLYN, February 25, 1907.

Mr. JOSEPH HAAG, Secretary, Board of Estimate and Apportionment, No. 277 Broadway, New York:

DEAR SIR—I am directed by the Commissioner to transmit herewith maps showing a change of plan for sewers in Senator street, in the vicinity of Third avenue. This change of plan is necessitated by the fact that the lines of Senator street were recently changed, and it was necessary to provide sewerage facilities for the new street.

Respectfully yours,

JOHN MULLER, Secretary.

REPORT No. 4972.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
March 21, 1907.

Hon. GEORGE B. MCCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a communication of the Commissioner of Public Works of the Borough of Brooklyn, through his Secretary, dated February 25, 1907, requesting the adoption of a change in the sewer plan of Senator street, between Second and Third avenues.

On September 16, 1903, the lines of Senator street at its intersection with Third avenue were changed for the purpose of permitting the construction of an incline to connect the elevated railroad structure with the street level. The change in the sewer plan now desired is for the purpose of conforming with the change made in the lines of the street, and its approval is recommended.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

Resolved, That the Board of Estimate and Apportionment, in pursuance of the provisions of the Greater New York Charter, hereby approves the map submitted by the President of the Borough of Brooklyn, entitled "Change of Plan of Map T, District 40," and dated February 26, 1907.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

REDUCTION OF ASSESSMENT FOR GRADING MORRIS AVENUE, THE BRONX.

The following petitions and report of the Chief Engineer were presented and placed on file:

In the Matter

of
Regulating, grading, etc., Morris avenue,
from the east side of the New York and
Harlem Railroad to the Grand Boulevard
and Concourse.

To the Board of Estimate and Apportionment:

The undersigned property owner assessed in the above entitled proceeding now pending before the Board of Assessors, respectfully shows to your Honorable Board:

1. That the actual cost of said work greatly exceeds the estimated cost in certain particulars.

Commencing at about One Hundred and Sixty-ninth street and extending to about Teller avenue, Morris avenue was laid out over a considerable depression, most of which was a deep morass. Over one hundred thousand (100,000) cubic yards of material was dumped into this morass and disappeared below the surface thereof. The original contract for the work contemplated its performance within 500 days, but as a matter of fact the work extended over a period of about 8 years. This delay was due entirely to the difficulties encountered in filling this swamp. Not only was the sum paid the contractor very much increased, approximately in the sum of \$50,000, by reason of this difficulty, but similarly the charge for inspection and interest on payments to the contractor were correspondingly swelled. The interest item alone was \$39,973.26, or about 25 per cent. of the actual cost of the work.

2. Your petitioner's property is situated on the west side of Morris avenue, from the point where the improvement begins, extending north to One Hundred and Sixty-first street, and consists of a train and storage yard used in connection with the railroads of your petitioner, the grade of which is from 27 to 33 feet below the grade of Morris avenue, and separated therefrom by a steep embankment or retaining wall. The relative cost of the improvement to Morris avenue over the portion thereof upon which said train yard abuts is very much less than the proportion in which your petitioner has been assessed for said improvement, viz., the sum of \$14,765.78.

3. That the cost of this improvement by reason of the facts above specified is out of all proportion to the benefit conferred upon the abutting owners, the principal benefit being to The City of New York at large in opening a northerly and southerly thoroughfare over the undeveloped section in question.

Your petitioner, therefore, respectfully urges that the entire cost and expense of the opening of said Morris avenue should not be imposed upon the property adjacent to the improvement, and that a resolution of this Board be passed directing that only one-half of the expense be assessed upon the property deemed to be benefited by the Board of Assessors.

Respectfully submitted,

THE NEW YORK CENTRAL AND HUDSON RIVER
RAILROAD COMPANY,

By M. S. BARGER, Assistant Treasurer.

ALBERT H. HARRIS, Attorney.

State of New York, County of New York, ss.:

M. S. Barger, being duly sworn, says: That he is the Assistant Treasurer of the above named petitioner, the New York Central and Hudson River Railroad Company; that he has read the foregoing petition and knows the contents thereof, and that the statements therein contained are true to his knowledge, except as to those matters therein stated to be alleged upon information and belief, and as to those matters he believes it to be true. That the reason why this affidavit is made by the deponent and not by the said the New York Central and Hudson River Railroad Company is that said company is a domestic corporation.

M. S. BARGER.

In the Matter

of

Regulating and grading Morris avenue,
from the New York and Harlem Rail-
road to Grand Boulevard and Concourse.

To the Board of Estimate and Apportionment:

The undersigned property owners, assessed in the above entitled proceedings now pending before the Board of Assessors, respectfully show to your Honorable Board:

First—That the actual cost of said work greatly exceeded the estimated cost in certain particulars. The filling exceeded the estimated quantity by about 100,000 cubic yards, at an extra cost of about \$50,000.

Second—That the items for engineering and inspection amount to \$14,722.90. By the terms of the contract the work was to be done within five hundred consecutive working days. The contract was dated December 2, 1897. The work was commenced, but was not completed until November 6, 1904, or a period of nearly seven years, equivalent to about 2,100 working days.

Third—That the charge for interest, by reason of this great delay in the completion of the work, amounts to the enormous sum of \$39,973.26, which is about 25 per cent. of the actual cost of the work.

Fourth—The long delay and the excess of cost in this matter due to unforeseen conditions, the existence of which consumed a great deal of time and required a very large amount of extra work.

Your petitioners therefore respectfully urge that the resolution of this Board for the regulating of said Morris avenue should be amended so that only one-half of such expense be assessed upon the property deemed to be benefited by the Board of Assessors.

Respectfully submitted,

J. ROOSEVELT ROOSEVELT,
DOUGLAS ROBINSON,

REPORT No. 5107.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
May 9, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—The New York Central and Hudson River Railroad Company, through Mr. M. S. Barger, Assistant Treasurer, and Mr. Albert H. Harris, attorney, and Mr. John Jacob Astor and the estate of William Astor, by Messrs. J. Roosevelt Roosevelt, Douglas Robinson and Robert H. M. Ferguson, trustees, have petitioned the Board of Estimate and Apportionment for relief from a portion of the assessment for regulating and grading Morris avenue, between the New York and Harlem Railroad and the Grand Boulevard and Concourse. Both petitioners ask that only one-half of the cost of this improvement be assessed upon the property benefited.

This is the first instance of a request for relief from assessment for a physical improvement after the contract has been completed, which has been presented to the Board as now constituted, or since January 1, 1902. The contract for the regulating and grading of Morris avenue was executed on December 2, 1897, and the work was completed on November 16, 1904. There were long delays, owing principally to the fact that a large amount of embankment disappeared in a morass, or quagmire, which was encountered on the line of the street. Consequently the amount of embankment actually met by the contractor was greater than originally estimated, and for this he appears to have been paid at the contract price. The facts were placed before the Board of Assessors, which Board is empowered by the Charter, not to specifically relieve property owners from any portion of the assessment, but to limit the assessment levied to actual benefit, and the Board of Assessors in the exercise of the discretion given them reduced the assessment to be levied by the sum of \$26,348.08. The matter was then brought to the attention of the Board of Revision of Assessments, and after further consideration on March 28 last an additional reduction was made amounting to \$24,649.18, or a total reduction of \$50,997.26. The original assessment certified was \$231,757.95, so that a reduction of more than 22 per cent. has been allowed. The assessment as so reduced was confirmed on April 2, 1907.

The relief asked for, and which was in the judgment of your Engineer improperly addressed to the Board of Estimate and Apportionment, has therefore been granted to about 44 per cent. of the amount asked, and action by this Board is not required. It is recommended that the petitions be filed.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
May 10, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Morrisania District, Borough of The Bronx, adopted on March 14, 1907, initiating proceedings for grading, curbing and flagging East One Hundred and Ninety-ninth street, between Bainbridge and Jerome avenues.

Title to the four blocks of East One Hundred and Ninety-ninth street comprised within the limits named in this resolution, was acquired under proceedings confirmed in March last. The roadway is in use through the entire length of the street, and through the block between the Grand Boulevard and Concourse and Valentine avenue it has been approximately graded. A few buildings have been erected upon the abutting property.

The improvement appears to be a proper one, and its authorization is recommended. The work to be done comprises the following:

10,700 cubic yards filling.
2,350 linear feet curbing.
9,400 square feet flagging.

The estimated cost of construction is \$13,000, and the assessed valuation of the property to be benefited is \$307,900.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

A copy of a resolution of the Local Board of the Morrisania District, duly adopted by said Board on the 14th day of March, 1907, and approved by the President of the Borough of The Bronx on the 16th day of March, 1907, having been transmitted to the Board of Estimate and Apportionment as follows, to wit:

"Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

"For regulating and grading, setting curbstones and flagging sidewalks a space 4 feet wide, laying crosswalks, building approaches and erecting fences where necessary, in East One Hundred and Ninety-ninth street, from Bainbridge avenue to Jerome avenue, in the Borough of The Bronx, City of New York,"

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$13,000, and a statement of the assessed value, according to the last preceding tax roll, of the real estate included within the probable area of assessment, to wit, the sum of \$307,900, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized, and this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
April 12, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Morrisania District, Borough of The Bronx, adopted on December 20, 1906, initiating proceedings for grading, curbing and flagging Andrews avenue, between Fordham road and West One Hundred and Eighty-eighth street.

On September 30, 1903, a resolution was adopted by the Board of Estimate and Apportionment providing for acquiring title to a public park bounded by Aqueduct avenue, Fordham road, Sedgwick avenue and East One Hundred and Eighty-eighth street. The land described in this resolution was acquired directly from the owners without resorting to condemnation proceedings, and included the block of Andrews avenue which had been laid out to cross the park. No assessment for acquiring title to the street was imposed upon any of the property in the vicinity, the cost having been borne by the City at large. An examination of the map shows that Andrews avenue approximately bisects the park area, and it would seem that a better effect would be secured if the street were treated as a park road and made to harmonize with the park development, rather than as an ordinary thoroughfare, and more particularly so since the street as laid out does not follow the same alignment of Andrews avenue south of Fordham road, and is not continued north of East One Hundred and Eighty-eighth street. There is no legal reason, however, to prevent the approval of the resolution, and the matter is submitted for such action as the Board may deem proper. The work to be done comprises the following:

2,600 cubic yards filling.

400 linear feet curbing.

1,725 square feet flagging.

The estimated cost of construction is \$2,500, and the assessed valuation of the property to be benefited is \$57,300.

It should be pointed out that all of the abutting property is owned by the City, and that all of the cost, or practically all of it, will be borne by the City, whether the work is done under the jurisdiction of the President of the Borough as an assessable improvement or paid for out of the funds of the Park Department.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
April 3, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Morrisania District, Borough of The Bronx, adopted on January 24, 1907, initiating proceedings for paving East One Hundred and Eighty-second street, between Quarry road and Boston road, asphalt block pavement to be used through the sections where the grade is not more than 4 per cent., and granite block for steeper gradients.

The resolution includes the entire length of East One Hundred and Eighty-second street, as laid out east of Quarry road, the same comprising fifteen short blocks. Title to the street has been legally acquired. The grading, curbing and flagging of this street was authorized in 1903, and on June 15 of last year the construction of a sewer was authorized through that portion of it between Belmont and Arthur avenues. All of the remaining subsurface improvements have been completed and several buildings have been erected upon the abutting property. Between Boston road and Southern Boulevard this street forms the southerly boundary of Bronx Park.

The improvement appears to be a proper one and its authorization is recommended. The work to be done comprises the following:

12,600 square yards asphalt block pavement.

6,200 square yards granite block pavement.

7,700 linear feet curbing reset.

The estimated cost of construction is \$49,000, and the assessed valuation of the property to be benefited is \$946,130.

Respectfully,

REPORT No. 5006

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
April 3, 1907.

Hon. GEORGE B. MCCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Morrisania District, Borough of The Bronx, adopted on January 24, 1907, initiating proceedings for paving East One Hundred and Eighty-ninth street, between Fordham road and Southern Boulevard, asphalt block pavement to be used through the portions where the grade is less than 3½ per cent. and granite block for steeper gradients.

This resolution affects a length of twenty-one short blocks of East One Hundred and Eighty-ninth street, title to which has been legally acquired. The street has been graded, curbed and flagged, but the abutting property is only slightly improved. On May 4, 1906, the construction of a sewer was authorized through the portion of the street between Washington and Arthur avenues, and on February 8 last a sewer was provided for in the block between Park avenue and Third avenue. Through the remaining length of the street the sewer has already been built, and the water main has been completed. The gas main is lacking through almost all of that portion of the street between Southern Boulevard and Park avenue. There is a break in the alignment of East One Hundred and Eighty-ninth street at Third avenue, making it difficult to understand the occasion for grouping the improvement of the section east of this street with that to the west, the former of which is occupied by trolley tracks. The request for the improvement which accompanies the resolution bears the signature of but one property owner, whose interests seem to consist only of one building.

I see no reason to prevent the approval of the resolution, and such action is recommended, with the understanding that before the work is begun the gas main will be completed. The work to be done comprises the following:

13,150 square yards asphalt block pavement.
9,100 square yards granite block pavement.

10,300 linear feet curbing reset.

The estimated cost of construction is \$71,000, and the assessed valuation of the property to be benefited is \$1,691,065. It is estimated that about \$17,000 of the cost of this improvement will be borne by the railroad company.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

A copy of a resolution of the Local Board of the Morrisania District, duly adopted by said Board on the 24th day of January, 1907, and approved by the President of the Borough of The Bronx on the 29th day of January, 1907, having been transmitted to the Board of Estimate and Apportionment, as follows, to wit:

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$71,000, and a statement of the assessed value, according to the last preceding tax roll, of the real estate included within the probable area of assessment, to wit, the sum of \$1,691,065, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized. And this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
April 3, 1907.

Hon. GEORGE B. MCCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Morrisania District, Borough of The Bronx, adopted on January 24, 1907, initiating proceedings for laying an asphalt block pavement on East One Hundred and Eighty-sixth street, between Third and Park avenues. The resolution also includes a recommendation that the laying of the pavement be deferred until after all of the subsurface improvements have been completed.

The improvement affects a length of two blocks of East One Hundred and Eighty-sixth street, title to which has been legally acquired. The street has been graded, curbed and flagged, the sewer has been built and the water main has been laid. The gas main appears to be lacking between Washington and Third avenues. Between Park and Washington avenues the abutting property on one side of the street has been compactly built up, but along the remaining portion of the street no buildings have yet been erected.

The approval of the resolution is recommended, with the understanding that the gas main will be completed before the work is begun. The work to be done comprises the following:

1,400 square yards asphalt block pavement.

1,080 linear feet curbing reset.

The estimated cost of construction is \$4,400 and the assessed valuation of the property to be benefited is \$247,800.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
April 3, 1907.

Hon. GEORGE B. MCCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of Morrisania District, Borough of The Bronx, adopted on November 15, 1906, initiating proceedings for the construction of a receiving basin at the southwesterly corner of East One Hundred and Fifty-eighth street and St. Ann's avenue. This basin is needed for the removal of drainage from both of the streets named in the resolution. East One Hundred and Fifty-eighth street has been paved with asphalt while a granite block pavement has been laid on St. Ann's avenue.

The improvement is, in my judgment, a proper one, and its authorization is recommended. The estimated cost of construction is \$200, and the assessed valuation of the property to be benefited is \$220,500.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

A copy of a resolution of the Local Board of the Morrisania District, duly adopted by said Board on the 15th day of November, 1906, and approved by the President of the Borough of The Bronx on the 19th day of November, 1906, having been transmitted to the Board of Estimate and Apportionment as follows, to wit:

"Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
March 18, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—On February 8, 1907, a resolution of the Local Board of the Newtown District, Borough of Queens, providing for grading, curbing and flagging Seventeenth avenue, between Jackson and Flushing avenues, in the First Ward, was referred back to the President of the Borough for the reason that the assessed valuation shown for the abutting property was insufficient to permit of collecting the entire assessment.

Under date of March 12, 1907, the President has submitted a revised estimate of the value of the property which would be called upon to defray the cost of the work, the same appearing now to be \$156,300, as compared with \$110,000, shown in the original statement. The estimated cost of the improvement is \$51,000.

An examination of the tax books shows that the unimproved property through the southerly block, extending from Jackson avenue to Broadway, averages about \$12 per

linear foot of frontage upon the street. Through the remaining five blocks, covering the distance between Broadway and Flushing avenue, the interior unimproved lots have an assessed valuation per linear foot of frontage ranging from \$5 to \$8, the average of 207 lots being but a little over \$6. The Engineer's estimate of the cost of the improvement requires an assessed valuation of about \$9.50 per front foot.

It is evident that the new estimate submitted by the President of the Borough does not remove the objections previously noted, and it is recommended that the resolution be not approved.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
May 9, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Newtown District, Borough of Queens, adopted on October 10, 1906, initiating proceedings for laying an asphalt block pavement in Academy street, between Freeman avenue and Wilbur avenue, in the First Ward. This resolution affects a length of three blocks of Academy street, title to which has been legally acquired.

The street has been graded, curbed and flagged, the sewer has been built and the water main is laid. A large number of buildings have been erected upon the abutting property.

The improvement appears to be a proper one and its authorization is recommended, with the understanding that the gas main will be completed before the work is begun. The work to be done comprises the laying of 2,850 square yards of asphalt block pavement at an estimated cost of \$10,000. The assessed valuation of the property to be benefited is \$68,500.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

In the Board of Estimate and Apportionment.

A copy of a resolution of the Local Board of the Newtown District, duly adopted by said Board on the 10th day of October, 1906, and approved by the President of the Borough of Queens on the 10th day of October, 1906, having been transmitted to the Board of Estimate and Apportionment, as follows, to wit:

"Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

"To pave with asphalt block pavement on a concrete foundation the roadway of Academy street, from Freeman avenue to Wilbur avenue, in the First Ward of the Borough of Queens,"

REPORT No. 5113.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
May 9, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a communication from the Secretary of the Borough of Queens, submitting for adoption a map showing temporary sewers in Tenth avenue, between the Long Island Railroad Bridge and Fourteenth street, and in Fourteenth street, between Tenth avenue and Eighth avenue, at Whitestone, in the Third Ward. The Local Board has adopted a resolution providing for the construction of these sewers, which are required in advance of the preparation of a drainage plan for the section. No one of the streets affected has yet been placed upon the map of the City, and the designation of the drainage plan proposed as "temporary," is in accordance with the provisions of section 394 of the Charter.

The plan submitted appears to be a proper one, and its approval is recommended.

Respectfully,
NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

Resolved, That the Board of Estimate and Apportionment hereby approves the map submitted by the President of the Borough of Queens, entitled "Plan of temporary sewer in Tenth avenue, from the Long Island Railroad bridge to Fourteenth street, and in Fourteenth street, from Tenth avenue to Eighth avenue, in Whitestone, in the Third Ward, Borough of Queens," and dated April 18, 1907.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
May 9, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Jamaica District, Borough of Queens, adopted on June 12, 1906, initiating proceedings for the construction of temporary sewers in the following streets, in the Third Ward: Tenth avenue, between the Long Island Railroad Bridge and Fourteenth street. Fourteenth street, between Eighth avenue and Tenth avenue.

These streets are located within the limits of what was formerly the village of Whitestone. Neither of them has yet been placed upon the map of the City, and in the absence of such plans the sewers are designated as "temporary." On this date a report recommending the adoption of a plan showing these sewers has been prepared.

The resolution is accompanied by four affidavits, two of which show that Tenth avenue between the limits named in the resolution has been in public use for more than twenty years, and the other two give similar information with reference to Fourteenth street. There are also submitted certificates from the Engineer of the Topographical Bureau, setting forth evidences to indicate that both of these streets have been dedicated to public use.

An examination of the ground shows that a narrow macadam roadway is in use along the line of Fourteenth street and Tenth avenue and that several houses have been erected upon the property abutting on each street. I think that there can be no question as to the existence of a sufficient easement to permit of carrying out the improvement proposed. The outlet sewer has been built, and after the drainage plan has been approved the authorization of the work is recommended. The work to be done comprises the following:

410 linear feet 10-inch pipe sewer.
725 linear feet 12-inch pipe sewer.
7 manholes.

The estimated cost of construction is \$3,300 and the assessed valuation of the property to be benefited is \$26,250.

Respectfully,
NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

In the Board of Estimate and Apportionment.

A copy of a resolution of the Local Board of the Jamaica District, duly adopted by said Board on the 12th day of June, 1906, and approved by the President of the Borough of Queens, on the 12th day of June, 1906, having been transmitted to the Board of Estimate and Apportionment, as follows, to wit:

"Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

REPORT No. 4916.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
March 5, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Jamaica District, Borough of Queens, adopted on November 15, 1906, initiating proceedings for the construction of temporary sewers in the following streets located at College Point, in the Third Ward:

Third avenue, between Eighth street and Tenth street.

Tenth street, between Third avenue and Fifth avenue.

Fifth avenue, between Tenth street and a point 100 feet westerly therefrom.

The sewers proposed are described as temporary sewers for the reason that the streets in which they are to be built have never been placed upon the map of the City, and there is presented with the resolution a map showing the location and grade of each. There are also submitted two or more affidavits relating to each street showing that they have been in public use for more than twenty years. These affidavits are verified by certificates of dedication prepared by the Engineer of the Topographical Bureau. The streets are in use at the present time, the roadways have been macadamized and the abutting property is partially improved.

At the present time the sewage of the vicinity is discharged partly through a drain having an outlet on the mud flats at the foot of Eighth street and partly through another drain having a similar outlet at the foot of Fourth avenue. These flats appear to be bare at low tide and the Health Department has filed a complaint with the President of the Borough and requested the discontinuance of the present conditions, the same constituting a nuisance. Under the plan proposed the existing sewers will be connected into a new line extending from the junction of Eighth street and Third avenue through Third avenue, North Tenth street and Fifth avenue, discharging into deep water at the sea wall, which has been built at the foot of the latter street at a point distant about 100 feet west of North Tenth street. The plan submitted shows that it is the intention to extend the outlet sewer to the end of the docks now in use on adjoining property, but title to the land which will have to be occupied has not been acquired, making it necessary to limit the work to be done at this time and as described in the resolution.

The authorization of the work is recommended, the same comprising the following:

125 linear feet 5-foot brick sewer.
555 linear feet 4-foot 6-inch brick sewer.
325 linear feet 3-foot 6-inch brick sewer.
490 linear feet 2-foot 6-inch brick sewer.
10 manholes.

The estimated cost of construction is \$17,000, and the assessed valuation of the property to be benefited is \$1,460,750. The approval of the plan of these sewers is also recommended.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment, in pursuance of the provisions of the Greater New York Charter, hereby approves the map submitted by the President of the Borough of Queens, entitled "Map showing the reconstruction of the Sewer Outlets—Eighth street, Fourth avenue and Fifth avenue, College Point, in the Third Ward, Borough of Queens."

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

"Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

"To construct a temporary sewer and appurtenances in Third avenue, from Eighth street to Tenth street; in Tenth street, from Third avenue to Fifth avenue, and in Fifth avenue, from Tenth street to one hundred (100) feet west thereof, at College Point, Third Ward of the Borough of Queens,"

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$17,000, and a statement of the assessed value, according to the last preceding tax roll, of the real estate included within the probable area of assessment, to wit, the sum of \$1,460,750, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized, and this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

APPROVED PAPERS.

May 16, 1907.

To the Board of Estimate and Apportionment:

GENTLEMEN—I beg to inform you that his Honor the Mayor has returned to this office, approved by him on the 14th inst., the following resolutions adopted by the Board of Estimate and Apportionment on April 19, 1907:

166. Laying out West One Hundred and Seventy-second, West One Hundred and Seventy-third and West One Hundred and Seventy-fifth streets, between Fort Washington avenue and Buena Vista avenue, and a new avenue between Fort Washington avenue and Buena Vista avenue, extending from West One Hundred and Seventy-third street to West One Hundred and Seventy-seventh street, and widening the present Buena Vista avenue from the present terminus of Haven avenue to West One Hundred and Seventy-seventh street, Borough of Manhattan.

167. Closing and discontinuing East Sixteenth street between Albemarle road and the right-of-way of the Brooklyn and Brighton Beach Railroad, Borough of Brooklyn.

168. Modifying the grades of East One Hundred and Seventy-second street and East One Hundred and Seventy-fourth street at the Bronx river, and fixing grades in both of these streets between the Bronx river and Bronx River avenue, and in Bronx River avenue between Damis avenue and Ward avenue, Borough of The Bronx.

169. Amending the street system in Section 49 of the final maps of the Borough of The Bronx, which is bounded by St. Lawrence avenue, Lacombe avenue, Leland avenue, Randall avenue, White Plains road, Seward avenue, Pugsley avenue, Story avenue, Olmstead avenue, Lafayette avenue, Castle Hill avenue, Seward avenue, Havemeyer avenue, Randall avenue, Castle Hill avenue, Lacombe avenue, Olmstead avenue, Pugsley creek, O'Brien avenue, Pugsley avenue, Gildersleeve avenue, White Plains road and the East river, Borough of The Bronx.

170. Discontinuing and closing West One Hundred and Eighty-first street, between Aqueduct avenue and Andrews avenue, Borough of The Bronx.

171. Laying out an extension of West One Hundred and Sixty-fourth street, from Summit avenue to Lind avenue, the extension to have a width of 20 feet, Borough of The Bronx.

172. Changing the grade of East Two Hundred and Thirteenth street, between Jerome avenue and Woodlawn road; Jerome avenue, between East Two Hundred and Twelfth street and Woodlawn road, and DeKalb avenue, between East Two Hundred and Twelfth street and East Two Hundred and Thirteenth street, Borough of The Bronx.

173. Changing the lines of Edenwald avenue, between East Two Hundred and Thirty-third street and the city line, Borough of The Bronx.

174. Changing the grade of Burke avenue (Morris street), between White Plains road and the Bronx river, and laying out an extension of Burke avenue from the Bronx river to Webster avenue, together with a change of grade in intersecting streets, Borough of The Bronx.

175. Establishing the widths of Thirteenth street and Fifteenth street, between Broadway and Mitchell avenue, at 60 feet, Borough of Queens.

Respectfully,

JOSEPH HAAG, Secretary.

NEW YORK CENTRAL AND HUDSON RIVER RAILROAD IMPROVEMENTS.

The following communication from the Corporation Counsel and accompanying deeds were presented and placed on file:

May 14, 1907.

To the Board of Estimate and Apportionment:

SIRS—I am in receipt of a communication from the Secretary of the Board, under date of April 11, 1907, transmitting deeds in duplicate by the Spuyten Duyvil and Port Morris Railroad Company et al., to The City of New York, forwarded to your office by the Mayor's office, with the suggestion that one copy should be transmitted to this office for the purpose of having it recorded in the Register's office.

The communication suggests that as soon as the deeds are recorded one be sent to the Comptroller for his information and the other returned to the office of your Board.

The deed from the Railroad Company to the City has been recorded in the Register's office in Section 13, Liber 8, page 38c and indexed under Blocks 3402, 3403, 3404, 3405 and 3406 on the land map of The City of New York.

The deed from the City to the railroad company has probably been recorded by this time at the request of said company.

I return for filing in your office deed from the City to the railroad company, and deed from the railroad company to the City.

As suggested in the communication, I have sent the duplicate copy to the Finance Department.

Respectfully yours,

G. L. STERLING, Acting Corporation Counsel.

This indenture, made this 8th day of February, in the year nineteen hundred and seven, by and between The City of New York, a municipal corporation, acting by its Board of Estimate and Apportionment, party of the first part, and the Spuyten Duyvil and Port Morris Railroad Company, a corporation organized and existing under the laws of the State of New York, party of the second part, witnesseth:

Whereas, The Spuyten Duyvil and Port Morris Railroad Company has heretofore, in the manner provided by the Railroad Law, altered and changed the route of that part of its railroad extending from a point at or near East One Hundred and Ninety-first street to a point at or near Spuyten Duyvil road from the present route to a route which follows, as nearly as practicable, the northerly line of the Harlem Ship canal; and

Whereas, The City of New York, acting by its Board of Estimate and Apportionment, has discontinued and closed portions of West, formerly East One Hundred and Ninety-second street, Exterior street and Teunisson place, as authorized and empowered by chapter 423 of the Laws of 1903, entitled "an act to provide for the abolition, discontinuance and avoidance of certain grade crossings in The City of New York," being the portions of said streets and place cross hatched and shown upon the map entitled "New York Central and Hudson River Railroad, leased and operated lines. New York City. Plan and profile for abolishing, discontinuing and avoiding the grade crossings at Kingsbridge road, East Two Hundred and Thirtieth street, Broadway, Corlear street, Tibbett avenue, West Two Hundred and Thirtieth street, West Two Hundred and Twenty-seventh street, of the tracks of the Spuyten Duyvil and Port Morris Railroad Company, prepared by the New York Central and Hudson River Railroad Company and submitted in duplicate to the Board of Estimate and Apportionment of The City of New York for its approval on the 21st day of October, 1903, pursuant to chapter 423 of the Laws of 1903, which took effect on the 7th day of May, 1903. Scale, 1 inch—150 feet. By W. J. Wilgus, Fifth Vice-President," and approved by the Board of Estimate and Apportionment of The City of New York at a meeting held on the 4th day of December, 1903, and filed in accordance with the provisions of said act;

Now, therefore, the said party of the first part, in consideration of the premises and of the sum of one dollar to it duly paid by the party of the second part, the receipt of which is hereby acknowledged, does hereby, in pursuance of the said act of the Legislature of the State of New York, chapter 423 of the Laws of 1903, grant and release unto the said party of the second part, its successors and assigns, for the term of its or their corporate existence, and subject to the right of the said City to construct and maintain all necessary sewers therein, all the right, title and interest of The City of New York in and to the said discontinued and closed portions of said West, formerly East One Hundred and Ninety-second street, Exterior street and Teunisson place, as shown on said map and profile, described as follows:

All that certain piece or parcel of land situated in the Borough of The Bronx, City, County and State of New York, bounded and described as follows:

Beginning at the southeasterly corner of Leyden street and Teunisson place, and running thence southwesterly along the southeasterly line of Teunisson place to the pier and bulkhead of the Harlem River Ship canal; thence northwesterly along said bulkhead line to the northwesterly line of Teunisson place; thence northeasterly along the northwesterly line of Teunisson place to a point in the southwesterly line of Leyden street extended northwesterly; thence southeasterly along said northwesterly extension to the place of beginning; also

All that certain piece or parcel of land situate in the Borough of The Bronx, City, County and State of New York, bounded and described as follows:

Beginning at the intersection of the southerly line of West, formerly East One Hundred and Ninety-second street with the westerly exterior line of land conveyed to the Spuyten Duyvil and Port Morris Railroad Company by the Guaranty Trust Company of New York, by deed dated June 27, 1904, and recorded in the office of the Register of the County of New York on the 26th day of July, 1904, in Block Series of Conveyances, Section 11, Liber 66, page 231, and in Section 13, Liber 8, page 1;

And running thence northerly along the westerly exterior line of land so as aforesaid conveyed to the northerly line of West, formerly East One Hundred and Ninety-second street;

Thence easterly along the northerly line of West, formerly East One Hundred and Ninety-second street, and northeasterly along the northwesterly line of Exterior street, to a point distant easterly seventy-five (75) feet radially from the westerly exterior line of land so as aforesaid conveyed;

Thence southerly by a curve to the right with a radius of one thousand seven hundred and eighty-four and fifty-nine-hundredths (1,784.59) feet to a point in the southerly line of West, formerly East One Hundred and Ninety-second street, distant easterly seventy-five (75) feet radially from the westerly exterior line of land so as aforesaid conveyed;

Thence westerly along the southerly line of West, formerly East One Hundred and Ninety-second street to the place of beginning;

Together with the appurtenances and all the estate and rights of the said party of the first part in and to said premises.

To have and to hold the above granted premises unto the party of the second part, its successors and assigns, for the term of its or their corporate existence.

In witness whereof the said City of New York, the party of the first part, has caused these presents to be subscribed by its Mayor and by its City Clerk, and its common seal to be hereunto affixed, the day and year first above written.

[SEAL.]

THE CITY OF NEW YORK,

GEO. B. MCCLELLAN, Mayor.

P. J. SCULLY, City Clerk.

Approved as to form:

G. L. STERLING, Acting Corporation Counsel.

State of New York, County of New York, ss.:

On the 8th day of February, in the year nineteen hundred and seven, before me personally came P. J. Scully, with whom I am personally acquainted and known to me to be the City Clerk of The City of New York, who, being by me duly sworn, did depose and say: That he resides in the Borough of Manhattan, City of New York; that he is City Clerk of The City of New York, the corporation described in and which executed the foregoing instrument; that he knew the seal of said corporation; that the seal affixed to said instrument was such corporate seal; that it was so affixed by due authority of said corporation, and that he signed his name thereto as City Clerk by like authority; and, further, that he knows and is acquainted with George B. McClellan, and knows him to be the person described in and who, as Mayor of The City of New York, executed the said instrument; that he saw him subscribe, execute and deliver the same; and that he acknowledged to him, the said P. J. Scully, that he executed and delivered the same; and he, the said P. J. Scully, thereupon subscribed his name thereto.

JAMES H. CROSS,

Commissioner of Deeds, City of New York.

This indenture, made this 13th day of February, in the year one thousand nine hundred and seven, by and between the Spuyten Duyvil and Port Morris Railroad Company and the New York Central and Hudson River Railroad Company, lessee of the Spuyten Duyvil and Port Morris Railroad, corporations organized and existing under the laws of the State of New York, parties of the first part, and The City of New York, a municipal corporation, party of the second part.

Whereas, The Spuyten Duyvil and Port Morris Railroad Company has heretofore, in the manner provided by the Railroad Law, altered and changed the route of that part of its railroad extending from a point at or near West, formerly East, One Hundred and Ninety-first street, to a point at or near Spuyten Duyvil road, from the present route to a route which follows as nearly as practicable the northerly line of the Harlem ship canal; and

Whereas, The City of New York, acting by its Board of Estimate and Apportionment, has discontinued and closed portions of West, formerly East, One Hundred and Ninety-second street, Exterior street and Teunisson place, as it was authorized and empowered to do by chapter 423 of the Laws of 1903, entitled "An act to provide for the abolition, discontinuance and avoidance of certain grade crossings in The City of New York"; and

Whereas, The said the New York Central and Hudson River Railroad Company, the lessee of the Spuyten Duyvil and Port Morris Railroad and the New York and Putnam Railroad, has submitted plans and profiles, in duplicate, for the abolition, discontinuance and avoidance of the grade crossings at Depot place, Fordham road and West, formerly East, One Hundred and Seventy-seventh street, to the Board of Estimate and Apportionment of The City of New York for its approval, and such plans having been approved by the said Board of Estimate and Apportionment and filed in the manner provided by said chapter 423 of the Laws of 1903;

Now, therefore, said parties of the first part, and each of them, in consideration of the premises and of the sum of one dollar (\$1), to each in hand paid by the party of the second part, the receipts of which are hereby acknowledged, do, and each of them does, hereby, in pursuance of the said act of the Legislature of The City of New York, chapter 423 of the Laws of 1903, grant and release unto the said City of

New York, party of the second part, all the right, title and interest of said railroad companies, or either of them, parties of the first part hereto, in and to the following described premises, to wit:

All that certain piece or parcel of land situate in the Borough of The Bronx, City, County and State of New York, bounded and described as follows:

Beginning at a point in the division line between land formerly of William G. Ackerman and land formerly of Joseph H. Godwin, distant westerly twenty-five (25) feet at right angles from the centre line of original location of the Spuyten Duyvil and Port Morris Railroad, as now monumented; and running thence northerly parallel with said centre line fifty-nine (59) feet, more or less, to a point opposite a stone monument inscribed P. CLOSING HEMLOCK STREET, BROOKLYN.

The Comptroller asked unanimous consent for the present consideration of a report from the committee to which was referred, on December 14, 1906, the matter of striking from the map that portion of Hemlock street lying between Ridgewood avenue and Fulton street, in the Borough of Brooklyn.

No objection being made, the following report was presented:

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
May 7, 1907.

To the Board of Estimate and Apportionment:

GENTLEMEN—At a meeting of the Board of Estimate and Apportionment held December 14, 1906, there was referred to a committee consisting of the Comptroller, the President of the Board of Aldermen and the President of the Borough of Brooklyn, the matter of changing the City map by striking therefrom that portion of Hemlock street lying between Ridgewood avenue and Fulton street, in the Borough of Brooklyn.

The request for the closing of this street was brought about by the fact that the Adelphi College desired to lay out an athletic field which would include the property. It seems that the title to Hemlock street is already vested in The City of New York, and that contract for the improvement of the street has been let. Assessments were made to extend over the whole length of High street, from Atlantic avenue to Jamaica avenue.

Under date of June 18, 1906, a report was presented to the Board of Estimate and Apportionment in which it was shown that if the Board of Estimate and Apportionment approved of the action of the Local Board and closed the street, Adelphi College would have a 60-foot strip between Ridgewood avenue and Fulton street, except that portion which is owned by Adolph A. Kloster. The City would save the \$12,700 award on the property, which had been made by the Commissioners, but would still have to relevy the assessments for the balance of the three blocks, and would immediately find itself confronted with a lawsuit, for the reason that Mr. Kloster, who owns property in the block adjoining Adelphi College, might seriously object to having Hemlock street closed, and the owners of the property fronting on Hemlock street, other than the block desired to be closed, would object to having an increased proportion of assessment.

The Board of Education, at a meeting held October 24, 1906, adopted a resolution requesting the acquisition of property on the southerly side of Ridgewood avenue, extending from Hemlock street to Railroad avenue, and if this street were closed it would be impossible for the Board of Education to acquire the property.

We are of the opinion that the best interests of the City would be served by allowing the street to remain open, and we therefore recommend to the Board that all action taken for the closing of Hemlock street, between Fulton street and Ridgewood avenue, be discontinued, and that the proper resolutions be adopted by said Board looking to that end.

Respectfully submitted,

H. A. METZ, Comptroller.

P. F. MCGOWAN, President, Board of Aldermen.

BIRD S. COLER, President, Borough of Brooklyn.

The following resolution was then adopted:

Resolved, That the Board of Estimate and Apportionment hereby disapproves the resolutions adopted by the Local Board of the Bushwick District, Borough of Brooklyn, providing for amending the proceedings for opening Hemlock street, between Jamaica and Atlantic avenues, by omitting from the proceedings that portion of Hemlock street lying between Ridgewood avenue and Fulton street, and for changing the City map by striking therefrom that portion of Hemlock street lying between Ridgewood avenue and Fulton street, in the Borough of Brooklyn.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

GRADING NEW STREET, MANHATTAN.

The President of the Borough of Manhattan asked unanimous consent for the present consideration of a resolution of the Local Board for grading the new street on the west side of the Hall of Records.

No objection being made, the following resolution of the Local Board of Bowling Green, Borough of Manhattan, and report of the Chief Engineer were presented:

In the Local Board of the Bowling Green District.

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Manhattan; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the CITY RECORD that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same, and give a full hearing thereon; now therefore it is

Resolved, by the Local Board of the Bowling Green District, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, That the said petition be and the same hereby is granted; and it is hereby

Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

To regulate, grade, curb, recurb and flag the new street on the west side of the Hall of Records, from Reade street to Chambers street, and lay necessary bridge stone in connection therewith; and it is hereby further

Resolved, That a copy of the resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

Adopted by the Local Board of the Bowling Green District on the 16th day of April, 1907, all the members present voting in favor thereof.

Attest:

BERNARD DOWNING, Secretary.

Approved this 17th day of April, 1907.

REPORT NO. 5127.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
May 16, 1907.

Hon. GEORGE B. MCCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Bowling Green District, Borough of Manhattan, adopted on April 16, 1907, initiating proceedings for grading, curbing and flagging the new street located on the westerly side of the Hall of Records, extending from Reade street to Chambers street.

This improvement is petitioned for by the Deputy Comptroller, who has called the attention of the Borough President to the fact that the street is used for traffic and that it is in a very dangerous condition.

Title to this street was vested in the City in 1901. The curbing and flagging have been provided on the side adjacent to the Hall of Records and the street is approximately at grade, although it has never been shaped.

The improvement is, in my judgment, a very much needed one and the approval of the resolution is recommended. The work to be done comprises the following:

100 cubic yards excavation.
205 linear feet new and old curbing.
2,000 square feet flagging.

The estimated cost of construction is \$1,000 and the assessed valuation of the property to be benefited is \$3,000,000.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

A copy of a resolution of the Local Board of the Bowling Green District, duly adopted by said Board on the 16th day of April, 1907, and approved by the President of the Borough of Manhattan, on the 17th day of April, 1907, having been transmitted to the Board of Estimate and Apportionment, as follows, to wit:

"Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

"To regulate, grade, curb, recurb and flag the new street on the west side of the Hall of Records, from Reade street to Chambers street, and lay necessary bridge-stone in connection therewith,"

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$1,000, and a statement of the assessed value, according to the last preceding tax roll, of the real estate included within the probable area of assessment, to wit, the sum of \$3,000,000, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized, and this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Board then took up the consideration of financial matters.

Minutes of meeting of Board of Estimate and Apportionment, City of New York, held in Room 16, City Hall, Friday, May 24, 1907.

The Board met in pursuance of adjournment.

Present—Hon. George B. McClellan, Mayor; Hon. Herman A. Metz, Comptroller; Hon. Patrick F. McGowan, President, Board of Aldermen; Hon. John F. Ahearn, President, Borough of Manhattan; Hon. Bird S. Coler, President, Borough of Brooklyn; Hon. Louis F. Haffen, President, Borough of The Bronx; Hon. Joseph Bermel, President, Borough of Queens, and Hon. George Cromwell, President, Borough of Richmond.

The Mayor, Hon. George B. McClellan, presided.

After considering franchise and financial matters, the Board took up the consideration of public improvement matters.

WIDENING RIVERSIDE DRIVE, MANHATTAN.

The following petition and report of the Chief Engineer were presented, and, on motion of the Comptroller, the matter was referred to a Committee consisting of the Comptroller, the President of the Board of Aldermen and the President of the Borough of Manhattan:

To the Honorable the Board of Estimate and Apportionment of The City of New York:

The undersigned, owners of land in the vicinity of and within the area or district of assessment described in the notice, dated April 7, 1907, of the Commissioners of Estimate and Apportionment for the widening of Riverside drive, from West One Hundred and Fifty-eighth street to West One Hundred and Sixty-fifth street, in the Twelfth Ward, Borough of Manhattan, City of New York, respectfully request your Honorable Board, pursuant to section 1000 of the City Charter, to discontinue the proceedings taken for the said widening, for the reason that the awards made for the land taken and the area of assessment adopted are equally unjust to the public and private interests affected.

Your petitioners respectfully represent that, by resolution adopted December 22, 1905, the Board directed proceedings to be had for the acquisition of title for the said widening, and of certain streets extending thereto, to wit: One Hundred and Sixtieth, One Hundred and Sixty-first, One Hundred and Sixty-second and One Hundred and Sixty-third streets, from Broadway to Riverside drive, all of which were laid out on a map adopted by the Board on June 23, 1905, and in and by said resolution directed that the total expense of acquiring title for all of said streets should be assessed upon the property deemed to be benefited, except in the case of the widening of the drive, wherein the City assumes one-half. Prior to the adoption of said resolution no estimate of the cost of the improvement was submitted to the Board, nor did the Board fix or determine any area of assessment. Pursuant to said resolution, Commissioners of Estimate and Assessment were appointed for the widening of Riverside drive, who, under date of April 7, 1907, gave notice of the filing of their report, stating the awards made and describing the area of assessment for benefit laid out by them.

The said area includes all lots bounded by Seventy-second street on the south, Dyckman street on the north, the Hudson river on the west, the Harlem river to Eighth avenue, Eighth avenue to One Hundred and Twenty-fifth street, Broadway from One Hundred and Twenty-fifth street to Seventy-second street on the east.

In and by their said report they made the following awards for damages:

Damage No.	Area, Square Feet.	Award.	Rate Per Square Foot.	Rate Per City Lot.
1, land.....	134.04	\$4,010 00	\$29 91 +	\$74,691 00
2, land.....	3,690.83	52,992 00	14 35 +	35,894 37
3, land.....	3,956.40	55,848 00	14 11 +	35,289 65
4, land.....	2,327.22	32,296 00	13 87 +	34,693 75
5, land.....	2,183.95	30,112 00	13 73 +	34,469 66
6, land.....	8,234.72	168,640 00	13 29 +	33,232 03
7, land.....	4,451.83			
8, land.....	35,544.56	482,948 00	13 55 +	33,882 05
9, land.....	89.93			
10, land.....	23,321.17	290,417 00	12 45 +	31,132 35
	83,924.65	\$1,117,263 00	\$13 31	\$33,277 75

Note—The award for Parcel 2, land and improvement, is \$77,992; allowing \$25,000 for the improvements the award for the land would be \$52,992.

Your petitioners respectfully represent that the awards so made are extravagant and excessive, and several times, in the opinion of your petitioners, the value of the land taken. The strip so taken for the widening has an average of less than 40 feet, added to the drive as originally laid out of the width of 100 feet, so as to make the width of said drive between said streets 140 feet. The easterly 40 feet of the original drive has not been graded or improved, and the parcel taken has no actual frontage upon the graded portion of the said drive. There are no intersecting streets actually open or in use extending easterly from the drive, and the surface of the land rises to a considerable elevation above the grade of the said drive. The valuation placed by the Commissioners upon the parcel so taken is at a rate much in excess of the market value of lots upon the main established thoroughfares in that section of the City, which are fully improved and ready and suitable for immediate improvement.

Your petitioners, as indicating to a great extent the excessive allowances made as damages, respectfully call attention to the extraordinary disparity between the City's assessed valuation of the land, a small part of which only is taken, and the awards made as aforesaid. Parcels 8 and 9, containing 35,634 square feet, for which \$482,948 has been allowed, are part of a tract between One Hundred and Sixtieth and One Hundred and Sixty-third streets, extending from the drive to Fort Washington avenue, designated on the tax maps by the Block No. 2136, Lots Nos. 34, 36, 83 and 140, containing an area approximately of 513,660 square feet, the land of which for the purpose of taxation is assessed \$393,000, or at the average value per city lot of \$1,917, whereas the damages allowed are at the rate of \$33,377 per city lot. Furthermore, The City of New York acquired title in the year 1896, by condemnation, to all the lands required for Fort Washington Park, extending from Riverside drive to the Hudson river, and from about One Hundred and Seventieth street, if extended, to near One Hundred and Eighty-first street, containing 702 city lots, and including many substantial buildings, for the sum of \$804,865.20, or at the average rate of \$1,143 per lot. For a parcel fronting on the westerly side of the drive, which was graded and improved, about 200 feet in depth and in part on grade, containing about 38 city lots, there was allowed \$64,700, or at the rate of \$1,642 per lot.

If comparison be made with the prices obtained within a short time for lots on Riverside drive, between Seventy-second and One Hundred and Twenty-second streets

(which, with the park adjoining the same, has been fully completed for a number of years, and whereon owners have made valuable improvements), the excessiveness of the awards will be more apparent. Attention is here called to one of many of a similar kind: A parcel having the entire frontage on Riverside drive, between Cathedral parkway (One Hundred and Tenth street) and One Hundred and Eleventh street, also a frontage on Cathedral parkway of 120 feet and on One Hundred and Eleventh street of 135 feet, and an area of 26,079 square feet, or 10 2-5 city lots, was conveyed by the City Real Estate Company on April 12, 1906, for the sum of \$330,000, or at the rate of \$31,620 per lot. The parcel was within 175 feet of Broadway, where there was a station of the Subway Company and upon which there was a surface railroad. It was also in the vicinity of the Columbia College buildings, the Cathedral Church of St. John the Divine, and other institutions. Cathedral parkway is the main crosstown thoroughfare connecting Riverside Park with Morningside Park and Central Park. The elevation of the drive between One Hundred and Tenth and One Hundred and Eleventh streets is 105 feet, giving the property a commanding view of the river, an elevation exceeding that of the greater portion of the drive between One Hundred and Fifty-eighth and One Hundred and Sixty-fifth streets.

Your petitioners further show that the widening of the said drive between One Hundred and Fifty-eighth and One Hundred and Sixty-fifth streets is part of a plan which included the laying out of cross streets between the drive and Fort Washington avenue for the special benefit of the property between One Hundred and Fifty-ninth and One Hundred and Sixty-fifth streets. Your petitioners are informed that the 40 feet additional was added on the easterly side thereof, and a grade established therefor about 20 feet higher than the grade of the drive as theretofore laid out and graded, for the purposes of affording easier grades to the streets so established east of the drive, and thereby reduce the amount of rock cutting and excavation necessary to construct said streets and to adopt the lots to the grade of the said streets; that the said layout and grades were so established for the sole benefit of the said property, notwithstanding which the Commissioners of Estimate and Assessment have fixed the large area of assessment hereinbefore mentioned.

Your petitioners respectfully represent that, in view of the circumstances above stated, it is to the interest of The City of New York, as well as the owners in the district to be assessed for the improvement, that the present proceedings should be discontinued, so that the Board, having now information which it did not possess when directing said proceedings to be taken as to the probable cost, may, within the powers given to it by the Charter, as since amended, to correct abuses in condemnation proceedings, acquire title upon just and reasonable terms, and limit the area of assessment to the property which, in its judgment, is immediately benefited.

New York, May 18, 1907.

JULIA MARSH LORD,
By SAMUEL MARSH, Attorney.

REPORT No. P-7.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
May 22, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—The accompanying petition of Julia Marsh Lord, by Samuel Marsh, attorney, dated May 18, 1907, asks the Board of Estimate and Apportionment to discontinue the proceedings now in progress for acquiring title to the land needed for the widening of Riverside drive from West One Hundred and Fifty-eighth to West One Hundred and Sixty-fifth streets, in the Borough of Manhattan, for the reason that the awards made for the land taken and the area of assessment adopted by the Commissioners are unjust to the public and to the private interests affected.

The proceedings referred to were authorized on December 22, 1905, when the Board adopted a resolution providing for acquiring title not only to the land needed for the widening of Riverside drive between the points named, but also for acquiring title to West One Hundred and Sixtieth, West One Hundred and Sixty-first, West One Hundred and Sixty-second and West One Hundred and Sixty-third streets, from Broadway to Riverside drive. I understand that, while all of these streets were included in one resolution of the Board, they have been made the subjects of separate proceedings by the Corporation Counsel.

It appears from the petition that the awards tentatively agreed upon average at the rate of about \$33,377 a City lot. Such awards are alleged to be extravagant and excessive, and several times the actual value of the land taken. To sustain this contention the petitioner refers to the following awards for property taken by the City, or prices secured at private sale, and also to the assessed value of the land:

In 1896, in acquiring the land for Fort Washington Park, extending from the Riverside drive to the Hudson river, the awards for some 702 lots, and including a number of substantial buildings, averaged \$1,145 per lot.

For a parcel on the westerly side of the drive, which was graded and improved, and containing about 38 City lots, the awards averaged \$1,642 per lot.

In April, 1906, a parcel covering the entire frontage on the Riverside drive, between Cathedral parkway and One Hundred and Eleventh street, with frontages on the adjoining streets of 120 feet and 135 feet, and containing about 10 2/5 City lots, was conveyed by the City Real Estate Company at an average price of \$31,620 per lot.

The present assessed value of the land which is to be taken by the proceedings under consideration is given as an average of \$1,917 per City lot, which is less than one-seventeenth of the awards which it is said that the Commissioners propose to allow.

Attention is also called to the area of assessment, which is made to extend from Seventy-second street, on the south, to Dykman street, on the north, and from the Hudson river, on the west, to the Harlem river and Eighth avenue, on the east, although the widening of the drive was avowedly a local improvement to permit the construction of a roadway at a higher level than the remainder of the Riverside drive, to form an outlet for the intersecting streets and to save heavy cutting on both streets and lots. At the time these proceedings were instituted, the Board of Estimate and Apportionment did not have the power to fix the area of assessment, as it has at the present time.

Your Engineer has not had an opportunity to verify all of the statements contained in this petition, but doubtless they are substantially correct, and it would appear that there is good ground for the complaint of excessive awards and of an area of assessment out of all proportion to the benefit.

Before taking any positive action, I beg to suggest that the Corporation Counsel be requested to advise the Board as to what course he would suggest under the circumstances.

Respectfully,
NELSON P. LEWIS, Chief Engineer.

VESTING TITLE TO OWL'S HEAD PARK, BROOKLYN.

The following petition and report of the Chief Engineer were presented, and the matter was laid on the table:

NEW YORK SUPREME COURT,
COUNTY OF KINGS.

In re parcels Damage Map Nos. 8, 15 and 16.

In the Matter
of
Acquiring title to Owl's Head Park,
bounded by First avenue, Shore road,
Wakeman place and Bay Ridge avenue,
in the Thirtieth Ward, in the Borough
of Brooklyn, in The City of New York.

To the Board of Estimate and Apportionment of The City of New York:

GENTLEMEN—As attorneys for and in behalf of the owner, the undersigned respectfully make application to have title to the real property hereinafter described, and under condemnation in this proceeding, vest in The City of New York at once.

The property sought to be acquired in this proceeding was located and laid out as a public park by resolution of your Honorable Board adopted February 17, 1905, and approved by the Mayor February 28, 1905.

In June, 1905, the then Comptroller of The City of New York made known to the owner the desire and intent of the City to acquire, for the purposes of such park, the parcels of land designated on the Damage Map made for the purposes of this proceeding as Nos. 8, 15 and 16, known as the Tracy property; said parcel 8, as laid down on said map, is situated at the northeast corner of Sixty-eighth street and the Shore road, has a frontage of 147.88 feet on the Shore road and a frontage of 83.84 feet on Sixty-eighth street, and contains, according to said map, 10,907.68 square feet; said parcels 15 and 16 together comprise a tract bounded by the Shore road, Bay Ridge avenue and Sixty-eighth street, and by other property under condemnation in this proceeding, and contain, according to said map, 319,551.49 square feet.

In the autumn of 1905 the Board instructed the Corporation Counsel to institute proceedings for the acquisition of the property required for such park by condemnation. Such proceedings were afterward instituted, and Commissioners of Estimate were appointed by order of the Supreme Court, dated May 29, 1906, but such Commissioners having, for different reasons, been unable to act, others were appointed, who afterward qualified, and the first meeting of the Commissioners occurred January 7, 1907, since which date proceedings before them have continued and are now pending.

The said parcels of land designated on the Damage Map by the numbers 8, 15 and 16 are unimproved and produce no income to the owner. The pendency of the condemnation proceedings has prevented, and still prevents, the disposition of the property to advantage by the owner; and although ever since the first meeting of the Commissioners the proceedings have been prosecuted with diligence and much testimony taken, and although the Commissioners and the Corporation Counsel have manifested an earnest desire to hasten the proceedings to a conclusion, it is probable that much further time will be necessarily consumed before such proceedings can be concluded.

In view of the purposes for which the property is to be acquired and its availability for immediate improvement for such purposes during the present favorable season, it is respectfully suggested that it will be for the public interest that the title to the property be forthwith vested in the City, and that, to make less burdensome to the owner the delays necessarily incident to the proceedings, your Honorable Board, pursuant to section 1430 of the City Charter, direct by resolution that as early a date as possible, to be specified in such resolution, the title to the said land and premises shall vest in The City of New York.

Dated New York, May 16, 1907.

EVARTS, TRACY & SHERMAN,
Attorneys for Owner,
No. 60 Wall street, Manhattan, New York City.

REPORT No. P-6.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
May 22, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Under date of May 16, 1907, Messrs. Evarts, Tracy & Sherman, attorneys for the owner of a portion of the property included in the proposed Owl's Head Park, in the Borough of Brooklyn, title to which is now being acquired, have petitioned the Board of Estimate and Apportionment asking it to provide at as early a date as possible that title to the land and premises shall vest in The City of New York. The reasons given for this request are that, while the Board authorized the acquisition of this property by condemnation proceedings in the fall of 1905, and while the Commissioners were appointed on May 29, 1906, they were unable to act, and it became necessary to appoint other Commissioners, who did qualify and who held their first meeting on January 7, 1907, since which time the proceedings have been actually in progress.

The petitioner claims that the pendency of these proceedings has prevented and still prevents the disposition of the property to advantage, while if the City proposes to use it as a public park it is desirable to have it immediately made available for improvement during the summer season.

I have conferred with the Assistant Corporation Counsel in charge of the Bureau of Street Openings in the Borough of Brooklyn, and find that testimony is now being taken as to the value of the property, and that the claims for the portion between Bay Ridge avenue, the Shore road and Second avenue aggregate, approximately, \$1,376,000. This does not include the large area lying between the Shore road and the bulkhead line, which is considered very valuable. The Bureau of Street Openings feels grave doubt as to whether the proceedings instituted by the Board included this latter area, and I am advised that the Corporation Counsel is about to communicate with the Board concerning it, and that meanwhile he believes that it would be unwise to take action providing for the immediate vesting of title, although it is undoubtedly true that values in this section are increasing quite rapidly.

In view of this statement it would seem wise for the Board of Estimate and Apportionment to defer action until the Corporation Counsel shall have had an opportunity to raise the question as to the regularity of the present proceeding and have it determined. This it should be possible to do in the near future.

Respectfully,
NELSON P. LEWIS, Chief Engineer.

The Comptroller moved that when the Board adjourn, it adjourn to meet on Friday, June 7, at 10.30 o'clock in the forenoon.

Which motion was unanimously agreed to.

STREET SYSTEM IN TERRITORY BOUNDED BY BOSTON ROAD, CITY LINE, PELHAM BAY PARK AND HUTCHINSON RIVER, THE BRONX.

The President of the Borough of The Bronx asked unanimous consent for the present consideration of a resolution fixing a hearing in the matter of laying out a street system in the territory bounded by Boston road, northerly boundary line of The City of New York, Pelham Bay Park and Hutchinson river.

No objection being made, the following resolutions were adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York, by laying out streets and establishing grades therefor within the area bounded by Boston road, northerly boundary line of The City of New York, Pelham Bay Park and Hutchinson river, in the Borough of The Bronx, City of New York, more particularly shown on map or plan submitted by the President of the Borough of The Bronx.

Resolved, That this Board consider the proposed change at a meeting of the Board, to be held in the City Hall, Borough of Manhattan, City of New York, on the 14th day of June, 1907, at 10.30 o'clock a. m.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board, to be held at the aforesaid time and place, to be published in the CITY RECORD for ten days continuously, Sundays and legal holidays excepted, prior to the 14th day of June, 1907.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

On motion, the Board adjourned to Friday, June 7.

JOSEPH HAAG, Secretary.

CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO ON CITY REAL ESTATE.

AT THE REQUEST OF THE PRESIDENT of the Borough of The Bronx, public notice is hereby given that the Commissioners of the Sinking Fund of The City of New York, by virtue of the powers vested in them by law, will offer for sale at public auction the buildings, parts of buildings, etc., standing within the lines of property owned by The City of New York, acquired for street purposes in the

Borough of The Bronx.

Being all those certain encroachments within the area of Belmont avenue, from East One Hundred and Seventy-fifth street to East One Hundred and Seventy-seventh street, in the Borough of The Bronx, which are more particularly described on a certain map on file in the office of the Collector of City Revenue, Department of Finance, Room 141, No. 280 Broadway, Borough of Manhattan.

Pursuant to a resolution of the Commissioners of the Sinking Fund adopted at a meeting held May 22, 1907, the sale of the above described buildings and appurtenances thereto will be held by direction of the Comptroller on

MONDAY, JUNE 10, 1907,

at 11 a. m., on the premises, upon the following

TERMS AND CONDITIONS.

It being understood that the purchasers, at the time of the auction sale, when the said bid is accepted by the City, shall execute a contract with The City of New York for the proper compliance with these terms and conditions, which contract shall provide for liquidated damages at so much per day for each and every day the removal of the buildings, etc., remains incomplete after the expiration of sixty days from the day of sale. A copy of said contract is on file in the office of the Collector of City Revenue, Department of Finance, Room 141, No. 280 Broadway, Borough of Manhattan.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must either give a cash bond or an approved bond of a surety company in the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale and of the contract.

All the buildings, structures and parts thereof, their fixtures and foundations of every class and description within the described area are to be torn down to a level two feet below the existing curb, and structures which may exist within any of the buildings, such as engine beds, boiler setting, etc., and all stoops and area walls shall be torn down to the same level. All partitions, sheds and fences shall be removed from the premises. All brick laid in mortar, all floor beams, joists, studdings, flooring, ceiling, roofing, boards and woodwork of every description, and all gas, water, steam and soil piping shall be removed from the premises. All combustible matter, such as tar and felt roofing, broken laths and fragments of timber, chips, splinters, etc., which are of no value, shall be gathered together by the contractor and burned or carried away. The purchaser at the sale shall also shut off and cap all water pipes in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity.

Failure to remove said buildings and appurtenances, or any portion thereof, within sixty days from the day of sale will work forfeiture of ownership of such buildings or appurtenances or portion as shall then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the said City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within sixty days from the day of sale, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against any and all damages and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of the said buildings by the said successful bidder.

Party walls and fences when existing against adjacent property not sold shall not be taken down, but all furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls, shall be taken down and removed. The walls shall be made permanently self-supporting without the aid of braces, the beamholes, etc., bricked up and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operation of the contractor.

CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO ON CITY REAL ESTATE.

AT THE REQUEST OF THE PRESIDENT of the Board of Trustees of the Bellevue and Allied Hospitals, public notice is hereby given that the Commissioners of the Sinking Fund of The City of New York, by virtue of the powers vested in them by law, will offer for sale at public auction the buildings, parts of buildings, etc., standing within the lines of property owned by The City of New York, acquired by it for hospital purposes, said buildings being situated upon land, described as follows, in the

Borough of Manhattan.

Being the buildings, parts of buildings, etc., situated within the area of the block bounded by the northerly side of East Twenty-eighth street, southerly side of East Twenty-ninth street, easterly side of First avenue and the East river, Borough of Manhattan.

The sale of the above-described buildings, parts of buildings, etc., will take place under the supervision of the Collector of City Revenue, Department of Finance, and will be held by direction of the Comptroller on

WEDNESDAY, JUNE 12, 1907,

at 11 a. m., on the premises, upon the following

TERMS AND CONDITIONS.

It being understood that the purchasers, at the time of the auction sale, when the said bid is accepted by the City, shall execute a contract with The City of New York for the proper compliance with these terms and conditions, which contract shall provide for liquidated damages at so much per day for each and every day the removal of the buildings, etc., remains incomplete after the expiration of sixty days from the day of sale. A copy of said contract is on file in the office of the Collector of City Revenue, Department of Finance, Room 141, No. 280 Broadway, Borough of Manhattan.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must either give a cash bond or an approved bond of a surety company in the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale and of the contract.

All the buildings, structures and parts thereof, their fixtures and foundations of every class and description within the described area are to be torn down to a level two feet below the existing curb, and structures which may exist within any of the buildings, such as engine beds, boiler setting, etc., and all stoops and area walls shall be torn down to the same level. All partitions, sheds and fences shall be removed from the premises. All brick laid in mortar, all floor beams, joists, studdings, flooring, ceiling, roofing, boards and woodwork of every description, and all gas, water, steam and soil piping shall be removed from the premises. All combustible matter, such as tar and felt roofing, broken laths and fragments of timber, chips, splinters, etc., which are of no value, shall be gathered together by the contractor and burned or carried away. The purchaser at the sale shall also shut off and cap all water pipes in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity.

Failure to remove said buildings and appurtenances, or any portion thereof, within sixty days from the day of sale, will work forfeiture of ownership of such buildings or appurtenances or portion as shall then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the said City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner and must be completed within sixty days from the day of sale, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against any and all damages and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of the said buildings by the said successful bidder.

Party walls and fences when existing against adjacent property not sold shall not be taken down, but all furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls, shall be taken down and removed. The walls shall be made permanently self-supporting without the aid of braces, the beamholes, etc., bricked up and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operation of the contractor.

The Comptroller of The City of New York reserves the right on the day of the sale to withdraw from sale any of the buildings or parts of buildings and machinery included in the foregoing parcel, and to reject any or all bids.

BOARD OF ESTIMATE AND APPOINTMENT.

PUBLIC NOTICE.

PUBLIC NOTICE IS HEREBY GIVEN that at a meeting of the Board of Estimate and Apportionment held in the Old Council Chamber, Room 16, City Hall, Borough of Manhattan, on Friday, May 24, 1907, the following proceedings were had:

Whereas, The Nassau Electric Railroad Company has, under date of May 29, 1905, made application to this Board for a grant of the right, privilege and franchise to construct, maintain and operate a street surface railroad upon and along Livingston and other streets, in the Borough of Brooklyn; and

Whereas, Section 92 of the Railroad Law and sections 72, 73 and 74 of the Greater New York Charter, as amended by chapters 629 and 630 of the Laws of 1905, provide for the manner and procedure of making such grants; and

Whereas, In pursuance of such laws, this Board adopted a resolution on June 2, 1905, fixing the date for public hearing thereon as June 30, 1905, at which citizens were entitled to appear and be heard, and publication was had for at least fourteen (14) days in the Brooklyn Daily "Eagle" and the Brooklyn "Citizen," newspapers designated by the Mayor, and in the City Record for ten days immediately prior to the date of hearing, and the public hearing was duly held on such day; and

Whereas, This Board has made inquiry as to the money value of the franchise or right applied for and proposed to be granted to the Nassau Electric Railroad Company and the adequacy of the compensation proposed to be paid therefor; now therefore it is

Resolved, That the following form of the resolution for the grant of the franchise or right applied for by the Nassau Electric Railroad Company, containing the form of proposed contract for the grant of such franchise or right, be hereby introduced and entered in the minutes of this Board, as follows, to wit:

Resolved, That the Board of Estimate and Apportionment hereby grants to the Nassau Electric Railroad Company the franchise or right fully set out and described in the following form of proposed contract for the grant thereof, embodying all of the terms and conditions, including the provisions as to rates, fares and charges upon and subject to the terms and conditions in said proposed form of contract contained, and that the Mayor of The City of New York be and he hereby is authorized to execute and deliver such contract in the name and on behalf of The City of New York, as follows, to wit:

This contract, made this day of 1907, by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and the Nassau Electric Railroad Company, incorporated for the purpose of building, maintaining and operating a railroad (hereinafter called the Nassau Company), party of the second part, witnesseth:

In consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1. The City hereby grants to the Nassau Company, subject to the conditions and provisions hereinafter set forth, the right and privilege to construct, maintain and operate a double-track street surface railroad, with the necessary wires and equipment, crossovers, switches and turnouts, for the purpose of conveying persons and property in the Borough of Brooklyn, City of New York, upon the following route:

Commencing at the intersection of Livingston street and Court street; thence through and along Livingston street to Flatbush avenue; thence through and along Flatbush avenue to Lafayette avenue; thence through and along Lafayette avenue to Fulton street, together with the right to connect the aforesaid tracks with the existing tracks of the Brooklyn City Railroad Company upon Court street, Flatbush avenue and Fulton street; with the existing tracks of the Nassau Electric Railroad Company upon Boerum place, and with the existing tracks of the Brooklyn City and Newtown Railroad Company upon Smith street.

The said route, with crossovers, switches and turnouts, is illustratively shown upon the plan and profile herewith attached, entitled "Map showing plan of tracks of Nassau Electric Railroad Company on application for franchise from City of New York," dated May 29, 1905, and signed E. W. Winter, President; approved, Eugene Keapp, Chief Engineer; which plan and profile are to be deemed and hereby are made a part of this franchise. Provided that deviations therefrom and additional crossovers, switches and turnouts which are consistent with the foregoing description and other provisions of this franchise, may be permitted by resolution of the Board of Estimate and Apportionment.

Sec. 2. The grant of this privilege is subject to the following conditions, which shall be complied with by the Nassau Company:

First—The consent in writing of the owners of half in value of the property bounded on said streets and avenues to the construction and operation of said railroad shall be obtained by the Nassau Company within six months of the signing of this contract by the Mayor, and a copy of such consents shall be filed with the Board within such time, or in the event that such consents cannot be obtained, the Nassau Company shall, within two months thereafter, make application to the Appellate Division of the Supreme Court for the appointment of Commissioners in the manner provided by the Railroad Law to determine if said railroad ought to be constructed; otherwise this grant shall cease and determine.

Second—The said right to construct, maintain and operate a double track street surface railroad and the connections as herein described shall be held and enjoyed by the Nassau Company, its successors or assigns, for the term of ten (10) years from the date when this contract is signed by the Mayor, with the privilege of renewal of said contract for a further period of ten (10) years upon a fair revaluation of such right and privilege. Such revaluation shall be of the right and privilege to maintain and operate the said railroad by itself, and not to include any valuation derived from the ownership, operation or control of any other railroad by the Nassau Company, its successors or assigns.

If the Nassau Company shall determine to exercise its privilege of renewal it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two years and not later than one year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Nassau Company and the Board.

If the Nassau Company and the Board shall not reach such agreement on or before the day one year before the expiration of the original

term of this contract, then the annual rate of compensation for such succeeding ten years shall be reasonable, and either the City (by the Board) or the Nassau Company shall be bound upon request of the other to enter into a written agreement with each other fixing the rate of compensation at such amount as shall be reasonable, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate and at such amount as shall be determined by three freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board; one disinterested freeholder shall be chosen by the Nassau Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of this original contract, and their report shall be filed with the Board within three months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgments upon their own experience and upon such information as they may obtain by inquiries and investigations, without the presence of either party. They shall have the right to examine any of the books of the Nassau Company and its officers under oath. The valuation so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall, in any event, be less than the sum required to be paid for the last year of this original contract. If, in any case, the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Nassau Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expense of the said appraisers shall be borne jointly by the City and the Nassau Company, each paying one-half thereof.

Third—Upon the termination of this original contract, or if the same be renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any other cause, the tracks and appurtenances, including sub and superstructure, poles, wires and subways for electrical conduits, constructed pursuant to this contract, within the streets and highways hereinbefore described, may be acquired by the City in the manner hereinafter described, and, if so acquired, the same may be used or disposed of by the City for any lawful purpose whatsoever, or may be leased to any company or individual. In case the City should decide, by resolution of the Board, to acquire said tangible property constructed in connection with and pertaining to the franchise herein conferred, a certified copy of the resolution of the Board declaring such intention shall be served upon the Nassau Company at least six months prior to the termination of this contract; or, if the same be renewed, then at least six months prior to the termination of the said renewal term; or, in case of the termination of this contract for any other cause than by expiration, within thirty days after such termination. If the City (by the Board) and the Nassau Company, after the declaration of such intention by the Board and the receipt of said resolution by the Nassau Company, can agree as to the then value of such tangible property, the amount thus agreed upon shall thereupon be paid by the City to the Nassau Company, and the property thus acquired shall become the property of the City from and after the date of termination of this contract or any renewal thereof. Nothing shall be included in such amount for any value derived from the franchise. In case, however, the City (by the Board) and the Nassau Company shall not agree as to the then value of said property within a reasonable time, such value shall be determined by appraisal in the manner hereinbefore described in connection with the revaluation of the terms of this franchise in case of a renewal thereof. If, however, within the time or times hereinabove mentioned, the City shall not declare its intention of acquiring said tangible property, the Nassau Company shall, at the termination of this contract or of any renewal thereof, remove any and all of its tracks and appurtenances constructed pursuant to this contract in said streets and avenues, and said streets and avenues shall be restored to their original condition, at the sole cost and expense of the Nassau Company. In case the Nassau Company shall neglect, after due notice from the City (by the Board) to remove said tracks and appurtenances after the expiration of this contract or any renewal thereof, then the City shall have the right to make such removal and to collect the expense thereof from the Nassau Company. Fourth—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual or other corporation a similar right or privilege upon the same or other terms and conditions, over the same streets, avenues or highways and the right to make the requisite and necessary connections with the tracks of the Nassau Company, its successors or assigns, which shall be constructed under this contract.

The use of the railroad which shall be constructed and maintained in the streets, avenues and highways under this contract including the tracks, wires and other equipment used in connection therewith, shall be permitted by the Nassau Company, its successors or assigns, to any individual or corporation to which the City may have granted, or may hereafter grant, the right or privilege to use such streets, avenues or highways for street railroad purposes, upon payment of an annual sum by such individual or corporation to the Nassau Company, which shall not exceed the legal interest on such proportion of the whole cost of the construction of such railroad, and such proportion of the cost of keeping the tracks and track equipment in repair, as the number of cars operated by such company or individual shall bear to the number of cars operated by the companies then using the same, together with the actual cost of the power necessary for the operation of the cars thereon of such individual or corporation, and such proportion of the cost of laying and repairing of pavement and removal of snow and ice, and of all the other obligations imposed upon the Nassau Company by the terms of this contract, in connection with the maintenance or the operation of the said railroad so used, as the number of cars operated by such company or individual shall bear to the number of cars operated by the companies using the same. And, in addition to the said annual sum, computed as aforesaid, the Nassau Company shall have the right to charge such corporation or individual a portion of the original cost of said railroad—the amount so charged to be in proportion to the respective use of said railroad, and to be also based upon that proportion of such part of the original cost as the unexpired portion of the franchise shall bear to the entire period thereof.

If at any time during the terms of this contract the City shall operate a street surface railroad over the whole or any portion of the railroad which shall be constructed under this contract, the Nassau Company shall allow the City to use the whole or any part of the track and track equipment upon payment by the City of

an annual sum, which shall be no greater in proportion to the use than is provided above in the case of the use of said tracks and track equipment by other street railroad companies.

Each individual and corporation shall be charged by the Nassau Company a rental for the use of the aforesaid railroad tracks and appurtenances thereof that shall be uniform in proportion to use with that which the Nassau Company charges any other individual or corporation.

Fifth—The Nassau Company, its successors or assigns, shall pay for the right to construct, maintain and operate the tracks hereby authorized and described for and during the first five years after the commencement of the operation of this extension, into the treasury of the City, to the credit of the Sinking Fund thereof, three per cent. (3%) of its gross receipts for and during the year ending September 30 next preceding; and after the expiration of such five years make a like annual payment into the treasury of the City, to the credit of the Sinking Fund, of five per cent. (5%) of its gross receipts, such percentages to be paid only upon such portion of the Nassau Company's gross receipts as shall bear the same proportion to its whole gross receipts as the length of its extension shall bear to the entire length of its railroad.

The president and the treasurer of the Nassau Company shall, on or before November 1 in each year, make a verified report to the Comptroller or chief fiscal officer of the City of the gross amount of its receipts for the year ending September 30 next preceding, and the books of such corporation shall be open to inspection and examination by such Comptroller or officer, or his duly appointed agent, for the purpose of ascertaining the correctness of its reports as to its gross receipts, and shall state in such report the total mileage of its extension herein authorized and the total mileage of the Company.

All payments provided for under this paragraph shall be made on or before November 1 in each year.

The annual charges of payments shall continue throughout the whole term of the contract hereby granted, notwithstanding any clause in any statute or in the charter of any other railroad company providing for payments for railroad rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted, or of any part thereof, or of any of the routes mentioned herein, or of any parts thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee or lessee assumes and will be bound by all of said conditions, especially said conditions as to payments, anything in the statute or in the charter of such assignee or lessee to the contrary notwithstanding; and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim, by reason thereof or otherwise, exemption from liability to perform each and all of the conditions of this contract.

The rights and privileges granted hereby shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by act of the Nassau Company, its successors or assigns, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of the City of New York, acting by the Board of Estimate and Apportionment or its successors in authority, evidenced by an instrument under seal, anything herein contained to the contrary thereof in any wise notwithstanding. And the granting, giving or waiving of any two or more of such consents shall not render unnecessary any subsequent consent or consents.

Nothing in this contract shall interfere with or prevent the Nassau Company making traffic arrangements for cars of the Brooklyn Rapid Transit system, and shall not be construed to prevent other companies or the City operating over the tracks of this extension hereby granted.

All compensation received by the Nassau Company from other railroad companies or from the City for the use of the tracks covered by this agreement shall be included in the amount of gross receipts upon which the Nassau Company is required to pay to the City annually the percentage provided above.

Sixth—The Nassau Company shall commence construction of the railroad herein authorized within three months from the day upon which the consents of the property owners are obtained, or from the decision of the Appellate Division of the Supreme Court, that such railroad ought to be constructed, and shall complete the construction of the same within six months from the same date, otherwise this grant shall cease and determine, and all sums paid, or which may be deposited with the Comptroller of the City, as hereinafter provided, shall thereupon be forfeited to the City; provided that such periods may be extended by the Board for a period or periods not exceeding in the aggregate six months each; and provided, further, that if the commencement or completion of said construction shall be prevented by legal proceedings in any Court, or by works of public improvement or from any other different cause not within the control of the Nassau Company, the time for the commencement or completion of such construction shall be extended for a period covered by such prevention.

Seventh—The said railroad shall be constructed, maintained and operated subject to the supervision and control of all the authorities of the City, who have jurisdiction in such matters, as provided in the Charter of the City.

Eighth—The said railroad shall be constructed and operated in the latest improved manner of street railway construction and operation for overhead trolley railroads, and the railroad and property of the Nassau Company shall be maintained in good condition throughout the term of this contract.

Ninth—The rate of fare charged for any passenger upon such railroad by any corporation operating thereon not to exceed the rate lawfully chargeable by such corporation for any passenger for one continuous ride from any point on its railroad, or of any road, line or branch operated by it or under its control, to any other point thereof, or of any connecting line or branch thereof within the limits of the City.

Tenth—The cars of each of the lines of the Nassau Company shall be run both day and night, as often as the reasonable convenience of the public may require, or as directed by the Board.

Eleventh—The Nassau Company shall attach to each car run over the said railroad proper fenders or safeguards, in conformity with such laws and ordinances as are now enforced, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities.

Twelfth—All cars which are operated on said railroad shall be heated during the cold weather, in conformity with such laws and ordinances as are now enforced, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities.

Thirteenth—The Nassau Company, so long as it shall continue to use any of the tracks upon

the streets and avenues in which the railroad shall be constructed under this contract, shall cause to be watered the entire roadway of such streets and avenues, at least three times in every twenty-four hours, when the temperature is above 35 degrees Fahrenheit, and shall provide for such purpose at least one tank car, to be propelled by electric power, the capacity of which shall be sufficient to water such streets and avenues in a satisfactory manner.

Fourteenth—All cars operated on said railroad shall be well lighted by electricity or by some lighting system equally efficient, or as may be required by the Board.

Fifteenth—The Nassau Company shall at all times keep the streets, avenues or highways upon which the said railroad is constructed, between its tracks, the rails of its tracks, and for a distance of two feet beyond the rails, on either side thereof, free and clear from ice and snow; provided, however, that the Nassau Company shall, at the option of the Commissioner of Street Cleaning, enter into an agreement for each winter season or part thereof to clean an equivalent amount of street surface from curb line to curb line.

Sixteenth—The Nassau Company shall pave and keep in permanent repair that portion of the surface of the street, avenue or highway in which said railroad is constructed, between its tracks, the rails of its tracks and for a distance of two feet beyond the rails on either side thereof, under the supervision of the local authorities and whenever required by them to do so, and in such manner as they may prescribe.

In case of the neglect of the corporation to make pavements or repairs after the expiration of thirty days' notice to do so, the local authorities may make the same at the expense of such corporation. The Company agrees that notice printed in the City Record shall constitute sufficient notice within the meaning of this contract. And the City shall have the right to change the material or character of the pavement of any such street, avenue or highway, and in that event the Nassau Company, its successor or assigns, shall be bound to replace the pavement on the portion of the street it is responsible for in the manner directed by the proper City officer at its own expense, and the provisions as to repairs herein contained shall apply to such renewed or altered pavement.

Seventeenth—In case of any violation or breach or failure to comply with any of the provisions herein contained, where not otherwise provided by self-executing penalties, this contract may be forfeited by a suit brought by the Corporation Counsel on notice of ten days to the Nassau Company, or at the option of the Board by resolution of said Board.

Eighteenth—If the Nassau Company, its successors or assigns, shall fail to give efficient public service at the rates herein fixed or to maintain its structures in good condition throughout the whole term of this contract, the Board may give notice to the Nassau Company, specifying any default on the part of the Nassau Company, and requiring the Nassau Company to remedy the same within a reasonable time; and upon failure of the Nassau Company to remedy such default within a reasonable time the Board of Estimate and Apportionment shall, after the hearing hereinafter provided for, fix such an amount that said Nassau Company shall pay as a penalty as shall seem just and fair to said Board, or the Board, in case such structures which may affect the surface of the streets shall not be put in good condition within a reasonable time after notice by the Board, as aforesaid, shall have the right to make all needed repairs at the expense of the Nassau Company, in which case the Nassau Company shall pay to the City the amount of the cost of such repairs, with legal interest thereon, all of which sums may be deducted from the fund hereinafter provided.

Nineteenth—The Nassau Company shall assume all liability to persons or property by reason of the construction or operation of the railroad authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Nassau Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or default of the Company.

Twentieth—This grant is based upon the expressed condition that the Nassau Company, within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of the City of New York the sum of ten thousand dollars (\$10,000), either in money or securities, to be approved by him, which fund shall be security for the performance by the Nassau Company of all of the terms and conditions of this contract, especially those which relate to the payment of the annual charges for the privilege hereby granted, the efficiency of the public service rendered, the repairs of the street pavement, the removal of snow and ice and the quality of the construction of the railroad; and in case of default in the performance by the Nassau Company of such terms and conditions, the City shall have the right to cause the work to be done and material to be furnished for the performance thereof, after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceeding; or after default in the payment of the annual charges, shall collect the same, with interest, from the said fund, after ten days' notice in writing to the Nassau Company. Or in case of failure to keep the said terms and conditions of this contract relating to the roadway, heating and lighting of cars, fenders, wheelguards and watering of street pavements, the Company shall pay a penalty to be fixed by the Board of Estimate and Apportionment after the hearing hereinafter provided for.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

The Comptroller of the City, on complaint made, shall, in writing, notify the Nassau Company, through its president, to appear before the Board of Estimate and Apportionment on a certain day, not less than ten days after the date of such notice, to show cause why it should not be penalized in accordance with the foregoing provisions. If the Nassau Company fails to make an appearance, or, after a hearing, appears in the judgment of the Board of Estimate and Apportionment to be in fault, said Board of Estimate and Apportionment shall forthwith impose such an amount as a penalty as appears to it to be just and fair, and without legal procedure instruct the Comptroller to withdraw the said amount of such penalty from the security fund deposited with the Comptroller. In case of any drafts made upon the security fund the Nassau Company shall, upon ten days' notice in writing, pay to the Comptroller of the City a sum sufficient to restore said security fund to the original amount of ten thousand dollars, and in default thereof this contract shall be canceled and null, at the option of the Board, acting in behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any of the legal rights, remedies or causes of action belonging to the City.

The Company agrees to make application to the Commissioner of Water Supply, Gas and Electricity for permission to string and maintain

its electrical conductors in the streets covered by this grant.

Resolved, That the results of the inquiry made by this Board as to the money value of the franchise or right proposed to be granted and the adequacy of the compensation proposed to be paid therefor, and of the terms and conditions, including the provision as to rates, fares and charges, are as hereinbefore specified and fully set forth in and by the foregoing form of proposed contract for the grant of such franchise or right;

Resolved, That these preambles and resolutions, including the said resolution for the grant of a franchise or right applied for by the Nassau Electric Railroad Company and the said form of proposed contract for the grant of such franchise or right containing said results of such inquiry, after the same shall be entered in the minutes of this Board, shall be published for at least twenty (20) days immediately prior to June 28, 1907, in the City Record and at least twice during the ten days immediately prior to June 28, 1907, in the Brooklyn Daily "Eagle" and the Brooklyn "Citizen," two daily newspapers designated by the Mayor therefor and published in the City of New York, at the expense of the Nassau Electric Railroad Company, together with the following notice, to wit:

Notice is hereby given that the Board of Estimate and Apportionment, before authorizing any contract for the grant of the franchise or right applied for by the Nassau Electric Railroad Company, and fully set forth and described in the foregoing form of proposed contract for the grant of such franchise or right, and before adopting any resolution authorizing any such contract, will, at a meeting of said Board, to be held in the Old Council Chamber, City Hall, Borough of Manhattan, City of New York, on June 28, 1907, at 10.30 o'clock a. m., hold a public hearing thereon at which citizens shall be entitled to appear and be heard.

NOTICE IS HEREBY GIVEN THAT THE Board of Estimate and Apportionment of the City of New York, deeming it for the public interest so to do, proposes to change the map or plan of the City of New York so as to lay out a public place, bounded by Forty-fifth street, Fort Hamilton avenue and New Utrecht avenue, Borough of Brooklyn, and that a meeting of said Board will be held in the Old Council Chamber, City Hall, Borough of Manhattan, City of New York, on June 14, 1907, at 10.30 o'clock a. m., at which such proposed change will be considered by said Board; all of which is more particularly set forth and described in the following resolutions, adopted by the Board on May 3, 1907, notice of the adoption of which is hereby given, viz.:

Resolved, That the Board of Estimate and Apportionment of the City of New York, in pursuance of the provisions of section 442, of the Greater New York Charter, as amended, deeming it for the public interest so to do, proposes to change the map or plan of the City of New York, by laying out a public place, bounded by Forty-fifth street, Fort Hamilton avenue and New Utrecht avenue, in the Borough of Brooklyn, City of New York, more particularly described as follows:

Beginning at a point in the western line of New Utrecht avenue, at the intersection of the northern line of Forty-fifth street, as the same are laid down on the map of the City;

1. Thence westerly along the northern line of Forty-fifth street 33.3 feet to the eastern line of Fort Hamilton avenue;

2. Thence northerly along the eastern line of Fort Hamilton avenue 36.8 feet to the western line of New Utrecht avenue;

3. Thence southerly along the western line of New Utrecht avenue 44.3 feet to the point of beginning.

Note—These dimensions are approximate.

Resolved, That this Board consider the proposed change at a meeting of the Board, to be held in the City Hall, Borough of Manhattan, City of New York, on the 14th day of June, 1907, at 10.30 o'clock a. m.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board, to be held at the aforesaid time and place, to be published in the City Record and the corporation newspapers for ten days continuously, Sundays and legal holidays excepted, prior to the 14th day of June, 1907.

Beginning at a point in the western line of Benson avenue distant 94 feet southerly from the intersection of the western line of Benson avenue and the southern line of Bay Twenty-third street, as the same are laid down on the map of the City;

Thence southerly along the western line of Benson avenue 30 feet;

Thence 93 degrees 22 minutes to the right 52 feet;

Thence 1 degree 12 minutes to the right 422 feet to the eastern line of Bath avenue;

Thence northerly along the eastern line of Bath avenue 35 feet to a point distant 90 feet southerly from the southern line of Bay Twenty-third street;

Thence 94 degrees 59 minutes to the right 288 feet;

Thence 185 feet to the point of beginning.

Parcel "B."

The northern line of DeBruyn's lane, beginning at a point in the western line of Bath avenue at a point distant 90 feet southerly from the southern line of Bay Twenty-third street;

Thence in a straight line 497 feet to a point in the eastern line of Cropsy avenue distant 73 feet southerly from the southern line of Bay Twenty-third street;

The southern line of DeBruyn's lane being 33 feet from and parallel with the above described line.

Note—These angles and dimensions are approximate.

Resolved, That this Board consider the proposed change at a meeting of the Board, to be held in the City Hall, Borough of Manhattan, City of New York, on the 14th day of June, 1907, at 10.30 o'clock a. m.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board, to be held at the aforesaid time and place, to be published in the City Record and the corporation newspapers for ten days continuously, Sundays and legal holidays excepted, prior to the 14th day of June, 1907.

PUBLIC NOTICE.

AT A MEETING OF THE BOARD OF Estimate and Apportionment held May 10, 1907, in the Old Council Chamber, City Hall, Borough of Manhattan, the following proceedings were had:

Whereas, The City of New York by an ordinance adopted by the Board of Aldermen March 16, 1903, and approved by the Mayor March 31, 1903, granted to the New York City Interborough Railway Company the right to construct, maintain and operate a street surface railroad upon certain routes particularly set forth in Section I of said ordinance, and which ordinance, including all the terms and conditions thereof, was accepted by said Company by an instrument in writing duly filed with the Comptroller of The City of New York on April 3, 1903; and

Whereas, The said Company has petitioned the Board of Estimate and Apportionment under dates of June 26, 1905; June 21, 1906, and March 12, 1907, for the consent of The City of New York to certain modifications and alterations in said routes, as is fully set forth in said petitions; and

Whereas, The Board of Estimate and Apportionment has, in accordance with the provisions of law, held public hearings on the several peti-

tions, to wit: On September 15, 1905; September 28, 1906, and on April 12, 1907, respectively; due notice of such applications and of such dates for public hearings having been published according to law; and

Whereas, It was provided by Section VI. of said ordinance that the said Company should complete the construction of at least twenty-four miles of double-track railroad on or before July 1, 1905; and

Whereas, Said Company has petitioned this Board under date of May 18, 1906, for an extension of time in which to complete the construction of said twenty-four miles of railroad; and

Whereas, This Board has made inquiry as to the proposed modifications and alterations in the said routes of said Company, and as to the extension of time applied for, and has reached the conclusion that certain of such modifications and alterations are desirable and in the public interest, and that an extension of time is warranted in order to permit of the construction of twenty-four miles of double-track railroad, including such modified or altered routes; now therefore it is

Resolved, That the following form of resolution for the consent or right applied for by the New York City Interborough Railway Company containing the form of proposed contract for the grant of such right be hereby introduced and entered in the minutes of this Board, as follows:

Resolved, That the Board of Estimate and Apportionment hereby consents to certain modifications and alterations in the route of the New York City Interborough Railway Company as granted by an ordinance adopted by the Board of Aldermen on March 16, 1903, and hereby consents to an extension of time in which to complete twenty-four miles of double-track railroad, including such modified or altered routes, such modifications and alterations in said routes and such extension of time being fully set forth and described in the following form of proposed contract for the granting thereof, embodying such terms and conditions as modify or alter said ordinance as approved March 31, 1903; which said ordinance otherwise remains unchanged as to all the other terms and conditions expressed therein; and be it further

Resolved, That the Mayor of The City of New York be and he hereby is authorized to execute and deliver such contract in the name and on behalf of The City of New York, as follows, to wit:

NEW YORK CITY INTERBOROUGH RAILWAY COMPANY.

Proposed Form of Contract for Alterations in Routes and Extension of Time for Completion of Construction.

This contract, made the day of 1907, by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of the said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and the New York City Interborough Railway Company (hereinafter called the Company), party of the second part, witnesseth:

Whereas, A certain ordinance, entitled: "An ordinance granting to the New York City Interborough Railway Company the right or franchise to construct and operate a street surface railroad in, upon and along certain streets, avenues, parkways, highways and bridges of The City of New York," was heretofore adopted by the Board of Aldermen, March 16, 1903, and approved by the Mayor of The City of New York on March 31, 1903; and

Whereas, Thereafter the Company on April 3, 1903, filed with the Comptroller of said City a written acceptance, executed March 31, 1903, of said ordinance, and of the terms, conditions and provisions thereof, and an agreement to perform and observe the same; and

Whereas, In and by said ordinance the consent of the corporation of The City of New York was granted to the Company for the construction, maintenance and operation of the railroad of said railway company upon certain enumerated streets, avenues, highways, etc., within said City, and across certain streets, avenues, highways, etc., as may be encountered in its route; and

Whereas, On the 10th day of April, 1905, on the 20th day of June, 1906, and on the 11th day of March, 1907, the Board of Directors of the said Company at meetings of said Board duly held on said dates, and by a vote of two-thirds of all the directors of the said Company passed resolutions amending said routes as are more particularly shown on maps filed on April 25, 1905, on the 20th day of June, 1906, and on the 12th day of March, 1907, respectively, in the office of the Clerk of New York County; and

Whereas, It is the intention of said railway company when the consent of the City has been obtained to relinquish part of the routes as originally granted by the ordinance above referred to, and to substitute such changed or altered routes therefor; and

Whereas, The said Company has applied to the Board of Estimate and Apportionment as the local authorities of The City of New York by verified petitions dated June 26, 1905, June 21, 1906, and March 12, 1907, for the consent of such local authorities for such alterations and for the modification of the said ordinance in accordance therewith; and

Whereas, The Company has presented a petition dated May 18, 1906, for an extension of time in which to complete twenty-four miles of double-track railroad;

Now, therefore, in consideration of the premises, and of the mutual covenants herein contained, the parties do hereby covenant and agree as follows:

Section 1. The City hereby grants to the Company, subject to the provisions and conditions hereinafter set forth, the right to relinquish routes as heretofore granted to said Company, and to the substitution in the place thereof of certain other routes, all of which are shown on a map entitled: "New York City Interborough Railway Company," signed, Alfred Skitt, President; A. And further grants an extension of time in which to complete the construction of twenty-four miles of double-track railroad upon the routes of the Company as heretofore granted, and hereby modified, from July 1, 1905, to a time eighteen months after the execution of this contract by the Mayor.

Section 2. The grant of this franchise, right and privilege is subject to the following conditions:

First—That all the terms, provisions and conditions contained in said ordinance approved March 31, 1903, except only the description of the routes which are hereby modified, and excepting so much of said ordinance as related to the completion of twenty-four miles of double-track railroad on or before July 1, 1905, shall apply to the routes of the said Company as described herein with the same force and effect as when they applied to the routes described in said ordinance approved March 31, 1903, and as though said altered routes had been specifically described in said ordinance.

Second—That the Company covenants and agrees to abandon and relinquish, and does hereby abandon and relinquish to The City of New York all its right and franchise to construct, maintain and operate a street surface railroad over the routes marked "Routes Relinquished" in the paragraphs entitled Change First, Change Second, Change Third, Change Fourth, Change Fifth, Change Sixth and Change Seventh in Section One hereof.

Third—That the company covenants and agrees to complete the construction and put in operation twenty-four miles of double-track railroad upon the route described in the ordinance approved March 31, 1903, and as herein modified, within eighteen months from the date of the execution of this contract by the Mayor of the City.

Fourth—That this contract shall not become operative until the Company shall procure to be executed and approved, in proper form for record, and duly delivered to the Board of Estimate and Apportionment an agreement wherein the Union Railway Company of New York City shall agree to waive any right it may have to exclusive franchises by former grants to or now owned by the said Union Railway Company in streets or avenues for which authority to construct railways therein is hereby given, and in which agreement the said Union Railway Company shall further agree to allow the use of its tracks in such streets and avenues by the said New York City Interborough Railway Company, its successors or assigns, The City of New York and any other company to which the City may hereafter grant or lease rights.

Fifth—Nothing in this contract shall be deemed to affect in any way the right of the

City to grant to any individual or other corporation similar rights or privileges upon the same or other terms and conditions in or upon which a railway is herein authorized.

Sixth—That this contract shall not become operative until the Company shall duly execute under its corporate seal an instrument in writing, to be first approved by the Corporation Counsel, and shall file the same in the office of the Comptroller of the said City within thirty days from the execution of this contract by the Mayor, in and by which said instrument in writing said Company shall covenant and agree that the consent of the Board of Estimate and Apportionment to the change of route shall not in any way change, alter or amend any of the terms, conditions and requirements in said ordinance approved March 31, 1903, fixed and contained and heretofore duly accepted by said Company by an instrument filed with the Comptroller of The City of New York on April 3, 1903, except only the description of the routes which are hereby modified, and excepting so much of said ordinance which relates to the time for the completion of twenty-four miles of double-track railroad, and that said ordinance approved March 31, 1903, shall remain in full force and effect, and said Company shall further covenant and agree, in said instrument, to abide by and perform all the conditions and requirements of this contract.

In witness whereof, the party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate seal of said City to be hereunto affixed, and the party of the second part, by its officers, thereunto duly authorized, has caused its corporate name to be hereunto signed and its corporate seal to be hereunto affixed the day and year first above written.

THE CITY OF NEW YORK.

By..... Mayor.

[CORPORATE SEAL.]

Attest:..... City Clerk.

NEW YORK CITY INTERBOROUGH RAILWAY COMPANY.

By..... President.

[SEAL.]

Attest:..... Secretary.

(Here add acknowledgments.)

Resolved, That the results of the inquiry made by this Board as to the money value of the proposed franchise and the adequacy of the compensation proposed to be paid therefor and of the terms and conditions, are as specified and fully set forth in the ordinance approved by the Mayor March 31, 1903, as amended by the foregoing form of proposed contract for the consent to such modifications and alterations.

Resolved, That these preambles and resolutions including said resolution for the consent of The City of New York to the modifications and alterations as applied for by the New York City Interborough Railway Company and the said form of proposed contract for the grant of said franchise or right containing said results of such inquiry after the same shall be entered in the minutes of this Board, shall be published for at least twenty days immediately prior to June 21, 1907, in the City Record, and at least twice during the ten days immediately prior to June 21, 1907, in the "North Side News" and "New York Tribune," two daily newspapers designated by the Mayor thereof, and published in The City of New York, at the expense of the New York City Interborough Railway Company, together with the following notice, to wit:

Notice is hereby given that the Board of Estimate and Apportionment before authorizing any contract for the consent of the City to certain modifications and alterations in the routes of the New York City Interborough Railway Company, as granted by ordinance approved March 31, 1903, and before consenting to an extension of time in which to complete twenty-four miles of double track railroad, as required by said ordinance, such modifications and consent being fully set forth and contained in the foregoing form of proposed contract for the granting of such franchise or right, and before adopting any such contract will, at a meeting of said Board, to be held in the Old Council Chamber, City Hall, Borough of Manhattan, City of New York, on the 21st day of June, 1907, at 10.30 a.m., hold a public hearing thereon at which citizens shall be entitled to appear and be heard.

BOARD OF RAPID TRANSIT RAILROAD COMMISSIONERS.

INVITATION TO CONTRACTORS.

Delancey Street, between the Bowery and Norfolk Street.

THE CITY OF NEW YORK (HEREIN after called the City) acting by its Board of Rapid Transit Commissioners (hereinafter called the Board) contemplates building a certain rapid transit railroad, known as Route No. 9, in Delancey street (Manhattan) and other streets in the boroughs of Manhattan and Brooklyn, including ultimately Centre street, Grand street, Desbrosses street, Canal street and William street

in Manhattan, and Fulton street, Lafayette avenue and Broadway in Brooklyn.

By this advertisement, the City invites proposals to construct that part of said railroad which is situated in Delancey street, between the Bowery and Norfolk street, in accordance with the detailed plans and specifications adopted therefor.

The general plan of construction calls for a subsurface railroad with four tracks. Suitable cross-overs, turn-outs and sidings are also to be provided, all as shown in the detailed plans of construction. The tunnels are to have a height of not less than thirteen (13) feet in the clear, and a maximum width of fifteen (15) feet for each track, except at curves, etc., where the width may be increased. The roof of the tunnels is generally to be as near the surface of the street as street conditions and grades will permit, but will be depressed whenever necessary to avoid grade crossings. The roof and sides of the tunnels will be of iron or steel and masonry. The manner of construction shall be by excavation under cover, unless otherwise directed by the Board.

In the detailed plans for construction, provisions for pipe galleries through Delancey street are included. Bids for the construction of the railroad must be accompanied by a separate bid for the construction of the pipe galleries above referred to, as it is essential for the City to separate the cost of the railroad from the cost of the pipe galleries. The Board reserves the right to accept a bid for construction of the railroad and at the same time to reject the accompanying bid for pipe galleries.

The price stated for railroad construction is to include the furnishing of all materials and the performance of all labor requisite to the complete construction of that part of the proposed railroad which is to be built under this contract, including all sewer and street construction and reconstruction and other work caused by or incidental to the construction of the same as set out in the proposed form of contract.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated in the printed form of contract now on file in the office of the Board, No. 320 Broadway, Borough of Manhattan, and in the detailed drawings therein referred to, at which office copies of the contract and of the form of bond and contractor's proposal may be had on application. The contract drawings may be inspected at the same office. The printed form of contract and the detailed drawings are to be deemed a part of this invitation.

Partial payments to the contractor will be made monthly as the work proceeds, as provided in the form of contract.

The work of construction (including pipe galleries) is to be completed as soon as practicable, and within twenty months from the date of delivery of the contract.

SEALED BIDS OR PROPOSALS WILL BE RECEIVED AT THE SAID OFFICE OF THE BOARD, AT NO. 320 BROADWAY, BOROUGH OF MANHATTAN, CITY OF NEW YORK UNTIL

THURSDAY, JUNE 13, 1907,

AT 12 O'CLOCK NOON, AT WHICH TIME OR AT A LATER DATE TO BE FIXED BY THE BOARD THE PROPOSALS WILL BE PUBLICLY OPENED.

Proposals must be in the form prescribed by the Board, copies of which may be obtained at the office of the Board.

Each proposal must be signed and acknowledged and also verified by an affidavit of the bidder (or if it be a corporation then by an officer thereof) to the effect that the several matters therein stated are in all respects true. If the proposal is made by a firm it will be sufficient if the proposal is signed and acknowledged and the affidavit sworn to by one member of the firm.

Each proposal must specify an office within The City of New York at which notices may be delivered; and delivery of a notice at such office shall be deemed a sufficient delivery and notice to the bidder.

Each proposal or bid must contain the name and place of residence of the person or persons making the same, the names of all persons interested with him therein, and if no other person be so interested, it shall distinctly state that fact; and if the bidder shall be a corporation there shall be submitted a certified copy of its certificate of incorporation, with a certificate of the amount of stock paid in in cash, and the names and business addresses of all officers and directors of the corporation shall be stated; also, that it is made without any connection with any other person making a proposal or bid for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of department, chief of bureau, deputy thereof or clerk therein, or other officer of the corporation, is interested, directly or indirectly, as contracting party, partner, stockholder or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof.

No proposal will be allowed to be withdrawn for any reason whatever after it shall have been deposited with the Board.

The Board is not obliged by law to accept any of the proposals received by it, but may reject all such proposals and readvertise, or may accept any of such proposals as will, in the judgment of the Board, best promote the public interest, and award a contract accordingly, subject to approval by the Board of Estimate and Apportionment, as required by law.

The award of the contract or contracts (if awarded) will be made by the Board within ten days after the opening of the proposals. The bidder or bidders whose proposal shall be accepted shall in person or by duly authorized representative attend at the said office of the Board within ten days after the delivery of a notice by the Board that the proposal is accepted and that the contract is approved by the Board of Estimate and Apportionment; and such bidder or bidders shall then deliver a contract in the form referred to, duly executed with its execution duly proved.

At the time of the delivery of a contract, the contractor will be required to furnish security to the City by giving a bond in the penalty of one hundred and eighty thousand dollars. At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under this contract they must be of the character of securities in which savings banks may invest their funds and must be approved by the Board. The contractor's bond must be in the form annexed to the form of contract.

In addition, and as further security to the City, 10 per cent. of each amount certified from time to time to be due to the contractor will be retained until the work is fully completed.

Each bidder must state in his proposal the names and places of business of the proposed sureties on the bond and describe any securities proposed to be deposited.

Bidders whose proposals are otherwise satisfactory to the Board may, in case the sureties or securities named by them are not approved by the Board, substitute in their proposals the

names of new sureties or a different schedule of securities approved by the Board; but such substitution must be made within five days after notice of disapproval by the Board, unless this period is extended by the Board.

In case of failure or neglect to execute and deliver the contract or to make the required deposit or to execute and deliver the required bond, such bidder or bidders will, at the option of the Board, be deemed either to have made the contract or to have abandoned the contract. In the latter case the Board will give notice thereof to the defaulting bidder or bidders. And the Board may thereupon proceed to make another contract with such, if any, of the original bidders as, in the opinion of the Board, it will be to the best interest of the City to contract with or may, by new advertisement, invite further proposals. The defaulting bidder or bidders shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder or bidders.

Every proposal must, when submitted, be enclosed in a sealed envelope endorsed "Proposal for Constructing Rapid Transit Railroad—(Delancey Street)" and must be delivered to the Board or to its Secretary; and in the presence of the person offering the proposal it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a certified check drawn upon a National or State bank or trust company within The City of New York and satisfactory to the Board, payable to the order of the Comptroller of The City of New York, for the sum of fifteen thousand dollars.

If the Board shall give notice to any bidder that his or its proposal is accepted and the contract is approved by the Board of Estimate and Apportionment, and if the bidder shall fail within ten days thereafter or within such further period, if any, as may be prescribed by the Board, to execute and deliver the contract and to execute and deliver the bond with sureties, or make a deposit in cash or securities, then this invitation to contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damages by it sustained by reason of such failure; and in such case the bidder hereby absolutely assigns to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

Such check must not be enclosed in the sealed envelope containing the proposal, but must be separately delivered to the Board or to its Secretary, who will give a proper voucher for the deposit.

All such deposits made by bidders whose proposals shall not be accepted by the Board will be returned to the person or persons making the same within five days after the contract shall be executed and delivered. The deposit of the successful bidder or bidders will be returned when the contract is executed and its provisions as to security are complied with.

THE BOARD OF RAPID TRANSIT RAILROAD COMMISSIONERS FOR THE CITY OF NEW YORK.

By A. E. Orr,
President.

Secretary.

INVITATION TO CONTRACTORS.

Pearl Street to Park Row.

THE CITY OF NEW YORK (HEREIN after called the City), acting by its Board of Rapid Transit Commissioners (hereinafter called the Board), contemplates building a certain rapid transit railroad, known as Route No. 9, in Centre street (Manhattan) and other streets in the Boroughs of Manhattan and Brooklyn, including ultimately Delancey street, Grand street, Desbrosses street, Canal street and William street, in Manhattan, and Fulton street, Lafayette avenue and Broadway, in Brooklyn.

By this advertisement the City invites proposals to construct that part of said railroad which is situated between a line crossing Centre street about forty feet north of Pearl street, and the southeasterly side of Park row, in accordance with the detailed plans and specifications adopted therefor. This part will consist principally of an underground railway station, together with the railroad tracks running through it and extending for short distances northerly and southerly from it. Suitable cross-overs, turn-outs and sidings are also to be provided, all as shown in the detailed plans of construction. The railroad tunnels are to have a height of not less than thirteen (13) feet in the clear, and a maximum width of fifteen (15) feet for each track, except at curves, etc., where the width may be increased. The roof of the tunnels is generally to be as near the surface of the street as street conditions and grades will permit. The roof and sides of the tunnels will be of iron or steel and masonry. Entrances to the station are intended to be placed on property acquired or to be acquired by the City.

The manner of construction shall be by excavation under cover within the lines of Centre, Pearl, Duane, Reade and New Chambers streets and Park row; within the lines of Park street and City Hall place, and, except as noted above, by open excavation, unless otherwise directed by the Board.

In the detailed plans for construction, provisions for pipe galleries on the westerly side of Centre street are included, as indicated on the detailed plans. Bids for the construction of the station and railroad tracks must be accompanied by a separate bid for the construction of the pipe galleries above referred to, as it is essential for the City to separate the cost of railroad construction from the cost of the pipe galleries. The Board reserves the right to accept a bid for the railroad construction, and at the same time to reject the accompanying bid for pipe galleries.

The price stated for railroad construction is to include the furnishing of all materials and the performance of all labor requisite to the complete construction of that part of the proposed railroad which is to be built under this contract, including the station, and all sewer and street construction and reconstruction and other work caused by or incidental to the construction of the same as set out in the proposed form of contract.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated in the printed form of contract now on file in the office of the Board, No. 320 Broadway, Borough of Manhattan, and in the detailed drawings therein referred to, at which office copies of the contract and of the form of bond and contractor's proposal may be had on application. The contract drawings may be inspected at the same office. The printed form of contract and the detailed drawings are to be deemed a part of this invitation.

Partial payments to the contractor will be made monthly as the work proceeds, as provided in the form of contract.

The work of construction (including pipe galleries) is to be completed as soon as practicable, and within twenty months from the date of delivery of the contract.

SEALED BIDS OR PROPOSALS WILL BE RECEIVED AT THE SAID OFFICE OF THE BOARD, AT NO. 320 BROADWAY, BOROUGH OF MANHATTAN, CITY OF NEW YORK, UNTIL

THURSDAY, JUNE 13, 1907,

AT 12 O'CLOCK NOON, AT WHICH TIME OR AT A LATER DATE TO BE FIXED BY THE BOARD THE PROPOSALS WILL BE PUBLICLY OPENED.

Proposals must be in the form prescribed by the Board, copies of which may be obtained at the office of the Board.

Each proposal must be signed and acknowledged and also verified by an affidavit of the bidder (or if it be a corporation, then by an officer thereof) to the effect that the several matters therein stated are in all respects true. If the proposal is made by a firm, it will be sufficient if the proposal is signed and acknowledged, and the affidavit sworn to, by one member of the firm.

Each proposal must specify an office within The City of New York at which notices may be delivered, and delivery of a notice at such office shall be deemed a sufficient delivery and notice to the bidder.

Each proposal or bid must contain the name and place of residence of the person or persons making the same, the names of all persons interested with him therein, and if no other person be so interested, it shall distinctly state that fact; and if the bidder shall be a corporation, there shall be submitted a certified copy of its certificate of incorporation, with a certificate of the amount of stock paid in in cash, and the names and business addresses of all officers and directors of the corporation shall be stated; also, that it is made without any connection with any other person making a proposal or bid for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of department, chief of bureau, deputy thereof or clerk therein, or other officer of the corporation, or any member or employee of the Board, is interested, directly or indirectly, as contracting party, partner, stockholder, or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof.

No proposal will be allowed to be withdrawn for any reason whatever after it shall have been deposited with the Board.

The Board is not obliged by law to accept any of the proposals received by it but may reject all such proposals and readvertise, or may accept any of such proposals as will in the judgment of the Board best promote the public interest and award a contract accordingly, subject to approval by the Board of Estimate and Apportionment as required by law.

The award of the contract or contracts (if awarded) will be made by the Board within ten days after the opening of the proposals. The bidder whose proposal shall be accepted shall in person or by duly authorized representative attend at the said office of the Board within ten days after the delivery of a notice by the Board that his proposal is accepted and that the contract is approved by the Board of Estimate and Apportionment; and such bidder shall then deliver a contract in the form referred to, duly executed with its execution duly proved.

At the time of the delivery of a contract, the contractor will be required to furnish security to the City by giving a bond in the penalty of one hundred and sixty thousand dollars. At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under this contract, they must be of the character of securities in which savings banks may invest their funds and must be approved by the Board. The contractor's bond must be in the form annexed to the form of contract.

In addition and as further security to the City, ten per cent. of each amount certified from time to time to be due to the contractor will be retained until the work is fully completed.

Each bidder must state in his proposal the names and places of business of the proposed sureties on the bond and describe any securities proposed to be deposited.

A bidder whose proposals are otherwise satisfactory to the Board may, in case the sureties or securities named by him are not approved by the Board, substitute the names of new sureties or a different schedule of securities approved by the Board; but such substitution must be made within five days after notice of disapproval by the Board, unless this period is extended by the Board.

In case of failure or neglect to execute and deliver the contract or to make the required deposit or to execute and deliver the required bond, the bidder whose proposal was accepted will, at the option of the Board, be deemed either to have made the contract or to have abandoned the contract. In the latter case the Board will give notice thereof to such defaulting bidder. And the Board may thereupon proceed to make another contract with such, if any, of the original bidders as, in the opinion of the Board, it will be to the best interest of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

Every proposal must, when submitted, be enclosed in a sealed envelope endorsed "Proposal for Constructing Rapid Transit Railroad—(Pearl Street to Park Row)" and must be delivered to the Board or to its Secretary; and in the presence of the person offering the proposal it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a certified check drawn upon a National or State bank or trust company within The City of New York and satisfactory to the Board, payable to the order of the Comptroller of The City of New York, for the sum of twelve thousand five hundred dollars.

If the Board shall give notice to any bidder that his or its proposal is accepted and the contract is approved by the Board of Estimate and Apportionment, and if the bidder shall fail within ten days thereafter or within such further period, if any, as may be prescribed by the Board, to execute and deliver the contract and to execute and deliver the bond with sureties, or make a deposit in cash or securities, then this invitation to contractors and proposal accepted as aforesaid shall be a contract binding such bidder to pay to the City the damages by it sustained by reason of such failure; and in that case the bidder hereby absolutely assigns to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

Such check must not be enclosed in the sealed envelope containing the proposal, but must be separately delivered to the Board or to its Secretary, who will give a proper voucher for the deposit.

All such deposits made by bidders whose proposals shall not be accepted by the Board will be returned to the person or persons making the same within five days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions as to security are complied with.

is executed and its provisions as to security are complied with.

THE BOARD OF RAPID TRANSIT RAILROAD COMMISSIONERS FOR THE CITY OF NEW YORK.

By A. E. Orr,
President.

BION L. BURROWS,
Secretary.

INVITATION TO CONTRACTORS.

Centre Street to the Bowery.

THE CITY OF NEW YORK (HEREIN after called the City), acting by its Board of Rapid Transit Commissioners (hereinafter called the Board), contemplates building a certain rapid transit railroad, known as Route No. 9, in Delancey street, Manhattan, and other streets in the Boroughs of Manhattan and Brooklyn, including ultimately Centre street, Grand street, Desbrosses street, Canal street and William street, in Manhattan, and Fulton street, Lafayette avenue and Broadway, in Brooklyn.

By this advertisement the City invites proposals to construct that part of said railroad which begins at the northerly side of Broome street and curves through Cleveland place (formerly Marion street) and private property into the new Delancey street extension, and runs thence under said extension and under and across the Bowery and under Delancey street to a point about 225 feet east of the centre line of the Bowery.

The general plan of construction calls for a four-track sub-surface railroad. A station at the Bowery and extending to points between Elizabeth and Chrystie streets will be constructed, and suitable cross-overs, turn-outs and sidings are also to be provided, all as shown in the detailed plans of construction. The tunnels are to have a height of not less than thirteen (13) feet in the clear, and a maximum width of fifteen (15) feet for each track, except at curves, etc., where the width may be increased. The roof of the tunnels is generally to be as near the surface of the street as street conditions and grades will permit, but will be depressed at the Bowery in order to avoid a grade crossing with a subway to be hereafter built. The roof and sides of the tunnels will be of iron or steel and masonry. Entrances to the station are intended to be placed within private property, rights in which will be acquired for the purpose.

The manner of construction shall be by excavation under cover, unless otherwise directed by the Board.

In the detailed plans for construction, provisions for pipe galleries through Delancey street and the new extension are included. Bids for the construction of the railroad must be accompanied by a separate bid for the construction of the pipe galleries above referred to, as it is essential for the City to separate the cost of the railroad from the cost of the pipe galleries. The Board reserves the right to accept a bid for construction of the railroad and at the same time to reject the accompanying bid for pipe galleries.

Bidders must visit the location of the railroad and station to be built under this contract and note the present conditions, especially along the line of the new Delancey street extension. The buildings standing within the lines of the said new street on May 1, 1907, are to be demolished and the materials removed by other contractors.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated in the printed form of contract now on file in the office of the Board, No. 320 Broadway, Borough of Manhattan, and in the detailed drawings therein referred to, at which office copies of the contract and of the form of bond and contractor's proposal may be had on application. The contract drawings may be inspected at the same office. The printed form of contract and the detailed drawings are to be deemed a part of this invitation.

Partial payments to the contractor will be made monthly as the work proceeds, as provided in the form of contract.

The work of construction (including pipe galleries) is to be completed as soon as practicable, and within twenty months from the date of delivery of the contract.

SEALED BIDS OR PROPOSALS WILL BE RECEIVED AT THE SAID OFFICE OF THE BOARD, AT NO. 320 BROADWAY, BOROUGH OF MANHATTAN, CITY OF NEW YORK, UNTIL

THURSDAY, JUNE 13, 1907,

AT 12 O'CLOCK NOON, AT WHICH TIME OR AT A LATER DATE TO BE FIXED BY THE BOARD THE PROPOSALS WILL BE PUBLICLY OPENED.

Proposals must be in the form prescribed by the Board, copies of which may be obtained at the office of the Board.

Each proposal must be signed and verified by an affidavit of the bidder (or if it be a corporation then by an officer thereof) to the effect that the several matters therein stated are in all respects true. If the proposal is made by a firm, it will be sufficient if the proposal is signed and the affidavit sworn to by one member of the firm.

Each proposal must specify an office within The City of New York at which notices may be delivered; and delivery of a notice at such office shall be deemed a sufficient delivery and notice to the bidder.

Each proposal or bid must contain the name and place of residence of the person or persons making the same, the names of all persons interested with him therein, and if no other person be so interested, it shall distinctly state that fact; and if the bidder shall be a corporation, there shall be submitted a certified copy of its certificate of incorporation, with a certificate of the amount of stock paid in in cash, and the names and business addresses of all officers and directors of the corporation shall be stated; also, that it is made without any connection with any other person making a proposal or bid for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of department, chief of bureau, deputy thereof or clerk therein, or other officer of the corporation, or any member or employee of the Board, is interested, directly or indirectly, as contracting party, partner, stockholder or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof.

No proposal will be allowed to be withdrawn for any reason whatever after it shall have been deposited with the Board.

The Board is not obliged by law to accept any of the proposals received by it, but may reject all such proposals and readvertise, or may accept any of such proposals as will, in the judgment of the Board, best promote the public interest, and award a contract accordingly, subject to approval by the Board of Estimate and Apportionment, as required by law.

The award of the contract or contracts (if awarded) will be made by the Board within ten days after the opening of the proposals. The bidder or bidders whose proposal shall be accepted shall in person or by duly authorized representative attend at the said office of the Board within ten days after the delivery of a notice by the Board that the proposal is accepted and that the contract is approved by the Board of Estimate and Apportionment; and such bidder or bidders shall then deliver a contract in the form referred to, duly executed with its execution duly proved.

At the time of the delivery of a contract, the contractor will be required to furnish security to the City by giving a bond in the penalty of one hundred and fifty thousand dollars. At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under this contract, they must be of the character of securities in which savings banks may invest their funds and must be approved by the Board. The contractor's bond must be in the form annexed to the form of contract.

In addition, and as further security to the City, 10 per cent. of each amount certified from time to time to be due to the contractor will be retained until the work is fully completed.

Each bidder must state in his proposal the names and places of business of the proposed sureties on the bond and describe any securities proposed to be deposited.

Bidders whose proposals are otherwise satisfactory to the Board may, in case the sureties or securities named by them are not approved by the Board, substitute in their proposals the names of new sureties or a different schedule of securities approved by the Board; but such substitution must be made within five days after notice of disapproval by the Board, unless this period is extended by the Board.

In case of failure or neglect to execute and deliver the contract or to make the required deposit or to execute and deliver the required bond, such bidder will, at the option of the Board, be deemed either to have made the contract or to have abandoned the contract. In the latter case the Board will give notice thereof to the defaulting bidder. And the Board may thereupon proceed to make another contract with such, if any, of the original bidders as, in the opinion of the Board, it will be to the best interest of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

Every proposal must, when submitted, be enclosed in a sealed envelope endorsed "Proposal for Constructing Rapid Transit Railroad—(Centre Street to the Bowery)" and must be delivered to the Board or to its Secretary; and in the presence of the person offering the proposal it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a certified check drawn upon a National or State bank or trust company within The City of New York and satisfactory to the Board, payable to the order of the Comptroller of The City of New York, for the sum of twelve thousand five hundred dollars.

If the Board shall give notice to any bidder that his or its proposal is accepted and the contract is approved by the Board of Estimate and Apportionment, and if the bidder shall fail within ten days thereafter or within such further period, if any, as may be prescribed by the Board, to execute and deliver the contract and to execute and deliver the bond with sureties, or make a deposit in cash or securities, then this invitation to contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damages by it sustained by reason of such failure; and in such case the bidder hereby absolutely assigns to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

Such check must not be enclosed in the sealed envelope containing the proposal, but must be separately delivered to the Board or to its Secretary, who will give a proper voucher for the deposit.

All such deposits made by bidders whose proposals shall not be accepted by the Board will be returned to the person or persons making the same within five days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions as to security are complied with.

In the matter of the application of The City of New York relative to acquiring title, wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the opening and extending of HAWKSTONE STREET (although not yet named by proper authority), from Walton avenue to the Grand Boulevard and Concourse, in the Twenty-fourth Ward, Borough of The Bronx, City of New York.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our supplemental and amended estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections, in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 24th day of June, 1907, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 26th day of June, 1907, at 12 o'clock m.

Second—That the abstracts of our said supplemental and amended estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 26th day of June, 1907.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of The Bronx, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at the point of intersection of the northerly line of East One Hundred and Seventy-second street with the middle line of the block between Townsend avenue and Walton avenue; running thence northerly along said middle line of the block to its intersection with the southerly line of Belmont street; thence easterly along the southerly line of Belmont street to its intersection with the middle line of the block between the Grand Boulevard and Concourse and Sheridan avenue; thence southerly along said last-mentioned middle line of the block to its intersection with the northerly line of East One Hundred and Seventy-second street; thence westerly along the northerly line of East One Hundred and Seventy-second street to the point or place of beginning; as such streets are shown upon the final maps and profiles of the Twenty-third and Twenty-fourth Wards of The City of New York, excepting from said area all streets, avenues and roads, or portions thereof, heretofore legally opened as such area is shown upon our benefit maps deposited as aforesaid.

Fourth—That, provided there be no objections filed to either of said abstracts, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part I., to be held in the County Court House, in the Borough of Manhattan, in The City of New York, on the 25th day of July, 1907, at the opening of the Court on that day.

Fifth—In case, however, objections are filed to either of said abstracts of estimate and assessment, the notice of motion to confirm our final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the CITY RECORD, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 466 of the Laws of 1906.

FIRST DEPARTMENT.

In the matter of the application of The City of New York relative to acquiring title, wherever the same has not been heretofore acquired, for the same purpose in fee to the lands and premises required for the opening and extending of LANE AVENUE, between Westchester avenue and the West Farms road with the PUBLIC PLACE bounded by Lane avenue, West Farms road and Westchester avenue, and of WESTCHESTER AVENUE, between Main street and West Farms road and the Eastern Boulevard, at Pelham Bay Park, in the Twenty-fourth Ward, Borough of The Bronx, City of New York.

NOTICE IS HEREBY GIVEN THAT BY an order of the Supreme Court, bearing date the 24th day of April, 1907, and duly entered in the office of the Clerk of the County of New York, at his office in the Borough of Manhattan, in The City of New York, on the 1st day of May, 1907, a copy of which order was duly filed in the office of the Register of the County of New York, we, Edward D. Dowling, Floyd M. Lord and John J. Mackin, were appointed Commissioners of Estimate for the purpose of making a just and equitable estimate and assessment of the loss and damage to the respective owners, lessees, parties and persons respectively entitled unto or interested in the lands, tenements, hereditaments and premises required for the purpose by and in consequence of opening and extending the above-mentioned streets or avenues and public place, the same being particularly set forth and described in the petition of The City of New York, and also in the notice of the application for the said order thereto attached, filed herein in the office of the Clerk of the County of New York on the 1st day of May, 1907, and the said Edward D. Dowling was appointed Commissioner of Assessment for the purpose of making a just and equitable estimate and assessment of the value of the benefit and advantage of the said streets or avenues and public place so to be opened and extended to the respective owners, lessees, parties and persons respectively entitled to or interested in the respective lands, tenements, hereditaments and premises situated within the area of assessment adopted by the Board of Estimate and Apportionment and not required for the purpose of opening and extending the same, but benefited thereby, the said area of assessment being particularly set forth and described in the petition of The City of New York, and also in the notice of the application for the said order thereto attached, filed herein in the office of the Clerk of the County of New York on the 1st day of May, 1907, and of ascertaining and defining the extent and boundaries of the respective tracts or parcels of land to be taken or to be assessed therefor, and of performing the trusts and duties required of us by chapter 17, title 4 of the Greater New York Charter, as amended, and the acts or parts of acts supplementary thereto or amendatory thereof.

All parties and persons interested in the real estate taken or to be taken for the purpose of opening and extending the said streets or avenues and public place, and affected thereby and having any claim or demand on account thereof, are hereby required to present the same, duly verified, to us, the undersigned Commissioners of Estimate, at our office, ninth floor, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in the City of New York, with such affidavit or other proof as the owners or claimants may desire within ten days after the date of this notice.

And we, the said Commissioners, will be in attendance at our said office on the 14th day of June, 1907, at 11 o'clock in the forenoon of that day, to hear the said parties and persons in relation thereto. And at such time and place, and at such further or other time and place as we may appoint, we will hear such owners in relation thereto and examine the proofs of such claimant or claimants, or such additional proofs and allegations as may then be offered by such owner, or on behalf of The City of New York.

Dated Borough of Manhattan, The City of New York, May 29, 1907.

SECTION No. 7.

Notice of Application for the Appointment of Commissioners of Appraisal.

PUBLIC NOTICE IS HEREBY GIVEN that it is the intention of the Corporation Counsel of The City of New York to make application to the Supreme Court of the State of New York for the appointment of Commissioners of Appraisal under chapter 724 of the Laws of 1905, as amended. Such application will be made at a Special Term of the Supreme Court, to be held in and for the Third Judicial District, at the City Hall, City of Albany, N. Y., on June 29, 1907, at 10 o'clock in the forenoon of that day, or as soon thereafter as counsel can be heard.

The object of such application is to obtain an order of the Court appointing three disinterested and competent freeholders, one of whom shall reside in the County of New York, and at least one of whom shall reside in the county where the real estate hereinafter described is situated, to act as Commissioners of Appraisal under said act and discharge all the duties conferred by the said act, and the acts amendatory thereof, upon such Commissioners of Appraisal, for the purpose of providing an additional supply of pure and wholesome water for The City of New York.

The real estate to be acquired herein is situated in the Towns of Olive and Hurley, and is to be acquired in fee for the purpose of furnishing an additional supply of pure and wholesome water to The City of New York.

The following is a statement of the boundaries of the lands to be acquired herein, with a reference to the date and place of filing the map.

All the parcels herein described are to be acquired in fee, and are colored pink on the map hereinafter referred to.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
