Commissioner Bassett presented an opinion in the matter of the application of the Long Island Railroad Company for the discontinuance and relocation of its station at Gaston Avenue, Arverne, stating that the facilities and accommodations at the existing location of that station were insufficient and inadequate, that the company had no property at that point on which to construct additional facilities and could not, except at great expense, acquire such property at that point, and that the security and convenience of the public would be promoted and adequate service and facilities for the transportation of passengers would be secured by the proposed changes, and recommending that the company's application be granted, subject to certain conditions.

On motion, duly seconded, the foregoing opinion was approved and an Order in Case No. 1149 was thereupon unanimously adopted as to the Long Island Railroad Company, consenting to the discontinuance of the company's existing station at Gaston Avenue, Arverne, subject to the conditions (1) that the company provide a new station between Vernam Avenue and Remington Avenue, Arverne, (2) that the company, before beginning the construction, submit to the Commission for approval plans and specifications of the new station, (3) that after completion of the new station the company notify the Commission and submit the work for the Commission's final approval, and (4) that the company do not cease using the existing station as a stopping place until it should have begun to use the new station, and further providing that the consent should take effect only after these conditions should be complied with and that the order should not be construed as being in derogation of a certain writ of mandamus against the company. INTERBOROUGH RAPID TRANSIT COMPANY—PROCEEDINGS AS TO REMOVAL OF SLOT MACHINES FROM SUBWAY—RESOLUTION TO DISCONTINUE

The Secretary presented the following communication from the Counsel to the Commission:

March 1, 1910

Public Service Commission for the First District.

SIRS:—There is now pending a suit instituted by the former Rapid Transit Board to compel the Interborough Rapid Transit Company to remove the slot and weighing machines in the Manhattan-Bronx Rapid Transit Railroad. This case was decided against the city by Mr. Justice McCall, sitting at Special Term, and an appeal was taken by the Rapid Transit Board, but the appeal was not perfected by the making and filing of the record on appeal. This has since been done but the case has not been brought on for argument before the Appellate Division for two reasons. In the first place, at the time the appeal was perfected there was pending a suit also instituted by the Rapid Transit Board to enjoin the Interborough Rapid Transit Company from making use of the ducts in the subway for supplying power to outside companies. This was deemed a much stronger case for the city, and it was thought better to press that forward and withhold further proceedings in the slot machine case pending the decision of the Court of Appeals in the duct case. In the second place, it was thought that there was small chance of a favorable decision in the slot machine case, and that by pressing it not only an unfavorable decision to the city in this instance would be obtained, but by expressions of judges in opinions of the Court it might be that general rules would be laid down that might have a prejudicial effect on other interests of the city. The Court of Appeals has decided the duct case adversely to the city, and as both cases involve largely the same principles and as in my opinion the duct case was by far the stronger of the two, I think the chances of success in the slot machine case are so slight as not to warrant further proceedings. There is involved in this case only a point of law whether the Interborough Company possesses certain rights incidental to the operation of the subway, for while there is some discussion of the presence of the slot and weighing machines constituting a nuisance the proof to that effect is so meagre that it would not sustain serious argument.

I desire to call this matter to your attention at this time and recommend that this suit either be not pressed or be discontinued.

Respectfully yours,
(Signed) Geo. S. COLEMAN,
Counsel to the Commission.

The adoption of the following resolution was thereupon moved and duly seconded:

RESOLVED: That the Counsel to the Commission be and he hereby is authorized to discontinue the suit against the Interborough Rapid Transit Company as suggested in his communication to the Commission of March 1, 1910.

"Referring to your communication of February 21, 1910, stating that your work on section 9-O-2 of the Brooklyn Loop Lines has been completed and requesting the Commission to advise you of the acceptance of the work, I am directed by the Commission to inform you that it is advised by its Chief Engineer that the matter of repairs to buildings has not yet been satisfactorily adjusted and that certain bills for work which you claim to be extra work have not yet been rendered. No certificate of acceptance can therefore be made as you request. The Commission is willing to take over the care and maintenance of the subway structure, however, as soon as it can make the necessary arrangements to do so. As soon as the Commission is in a position to take over the care and maintenance of the subway, I shall advise you of that fact.

The Secretary presented a petition dated February 28, 1910, from the Long Island Electric Railway Company, asking for permission to continue for a further period the temporary grade crossing by its tracks of the Long Island Railroad Company's tracks at the Jamaica and Hempstead Turnpike, Queens, as approved by the Board of Railroad Commissioners on June 19, 1905.

CONEY ISLAND AND BROOKLYN RAILROAD COMPANY—APPLICATION FOR \$372,000.00 BONDS—ISSUE—OPINION—ORDER AFTER REHEARING

Commissioner Bassett presented an opinion in the matter of the application of the Coney Island and Brooklyn Railroad Company for the approval of the issue of additional bonds of the par value of \$372,000.00, stating that the cost of the company's work on Smith Street, DeKalb Avenue and Franklin Avenue exceeded the original estimates thereof, and recommending that the company be authorized to issue bonds of the par value of \$151,000.00 so that, if sold at eighty per cent, they would realize and net to the company \$120,800.00, the proceeds of said bonds to be applied only to pay for such betterments and improvements in the carrying out of the work.

On motion, duly seconded, the foregoing opinion was approved and an Order in Case No. 1109 was thereupon unanimously adopted as to the Coney Island and Brooklyn Railroad Company, approving an issue of \$151,000.00 par value four per cent bonds of the company, instead of \$107,000.00 bonds as authorized by the Approval Order of October 22, 1909, and providing for (1) the sale of said bonds at not less than eighty per cent of the par value and application of the proceeds to the purposes therein specified, (2) the keeping of accounts of the proceeds and making verified reports to the Commission by the fifth day of each month, (3) the submission to, and approval by, the Commission of proper bills for each proposed expenditure of the proceeds of the said bonds as properly chargeable to capital as a betterment or improvement of the physical property of the company, and (4) the amortization of the discount and expenses connected with the sale of the bonds.

In voting for the adoption of the above order, Commissioner McCarroll made the following statement:

"I want to be noted, Mr. Chairman, as taking exception to specification No. 3, as being an intrusion into details of the company's discretion which I don't think this Commission should undertake, while agreeing with the principle of the order."

The Chairman, in voting for the order, spoke as follows:

"I want to be recorded as saying that I don't think that is a necessary part of the order, but I coincide with all that the order provides otherwise."

On motion, duly seconded, the foregoing opinion was approved and an Order in Case No. 1196 was thereupon unanimously adopted as to the New York Central and Hudson River Railroad Company and the City of New York, directing that West 135th Street when constructed across the tracks of the company should cross them at their present grade, that the space between the tracks should be paved in a prescribed manner, and that suitable gates should be erected east and west of the said tracks and operated for every train movement over the crossing at all hours between 7:00 A. All members present.

Minutes of the previous meeting were adopted as typewritten.

Hearings in Pursuance to Advertisement in CITY RECORD.

No. 19. Regulating and grading Beach avenue, from Bronx River avenue to Westchester avenue, and all work incidental thereto, and setting curb stones, flagging sidewalks a space four feet wide, laying crosswalks, building approaches and erecting fences where necessary, from Bronx River avenue to Clasons Point road only.

Petition signed by Willard P. Beach, M. D., and two others.

Estimated cost, \$107,900. Assessed value of the real estate included within the probable area of assessment is \$433,890.

Titles not vested, but proceedings initiated from Gleason avenue to Bronx River avenue.

The centre line length for the above named improvement is about 7,650 linear feet. On this basis the average cost per linear foot of frontage will be \$7.05, or \$176.25 for a 25-foot lot.

A resolution in favor of the improvement was adopted by the Local Board, but after it was learned that the City had no title to Beach avenue the petition was laid over until March 29, 1910.

Vesting of title to Beach avenue, from Bronx River avenue to Westchester avenue. On motion, seconded, the following was unanimously adopted:

Resolved, That the Local Board of Chester, Twenty-fifth District, hereby recommends to the Board of Estimate and Apportionment that it fix the date of vesting of title to the lands necessary for that portion of Beach avenue, from Bronx River avenue to Westchester avenue, Borough of The Bronx, City of New York.

No. 20. Regulating and grading, setting curb stones and flagging sidewalks a space four feet wide, laying crosswalks, building approaches and erecting fences where necessary in Beach avenue, from Bronx River avenue to Clasons Point road, and all work incidental thereto.

Petition signed by Dr. W. P. Beach and two others.

Estimated cost, \$36,700. Assessed value of the real estate included within probable area of assessment is \$88,140.

Estimated cost, \$100,000. Assessed value of the real estate included within the probable area of assessment is \$310,000.

The centre line length for the above named improvement is about 3,230 linear feet. On this basis the average cost per linear foot of frontage will be \$15.45.

Mr. Edward W. Murphy appeared in favor and stated that if the City would vest title to said boulevard, the petitioners would waive whatever interest might be due them, so as not to increase the cost of acquiring title to said lands.

Laid over until March 29, 1910, on motion of Alderman Mulhearn.

No. 24. Regulating and grading, building approaches, drains, walls, etc., and erecting fences where necessary in Throggs Neck boulevard, from Evans avenue to Dewey avenue, and all work incidental thereto.

Pursuant to a resolution of the Commissioners of the Sinking Fund, adopted at a meeting held April 6, 1910, the sale by sealed bids of the above described building and appurtenances thereto will be held by direction of the Comptroller on

FRIDAY, APRIL 20, 1910,

at 11 a. m., in lots and parcels and in manner and form as follows:

Parcel No. 1. Two-story frame building on the west side of Johnson avenue, about 300 feet south of Jamaica avenue.

Sealed bids (blank forms of which may be obtained upon application) will be received by the Comptroller at the office of the Collector of City Revenue, Room 141, No. 280 Broadway, Borough of Manhattan, until 11 a. m. on the 29th day of April, and then publicly opened for the sale for removal of the above-described buildings and appurtenances thereto, and the award will be made to the highest bidder within twenty-four hours, or as soon as possible thereafter.

Each parcel must be bid for separately and will be sold in its entirety, as described in above advertisement.

Each and every bid must be accompanied by a deposit of cash or certified check in a sum equal to 25 per cent. of the amount of the bid, except that a minimum deposit of \$50 will be required with all bids, and that a deposit of \$500 will be sufficient to entitle bidders to bid on any or all of the buildings.

Deposits of unsuccessful bidders will be returned within twenty-four hours after successful bidders have paid purchase price in full and given security, and those of successful bidders may be declared forfeited to The City of New York by the Comptroller upon the failure of the successful bidder to further comply with the requirements of the terms and conditions of the sale as set forth hereinafter.

Successful bidders will be required to pay the purchase money and deposit the required security within twenty-four hours of the receipt of notification of the acceptance of their bids.

The Comptroller reserves the right to reject any and all bids and to waive any defects or informalities in any bid should it be deemed in the interest of The City of New York to do so.

All bids must state clearly (1) the number or description of the building or buildings bid for, (2) the amount of the bid, (3) the full name and address of the bidder.

All bids must be enclosed in properly sealed envelopes, marked "Proposals to be opened April 29, 1910," and must be delivered, or mailed in time for their delivery, prior to 11 a. m. of that date to the "Collector of City Revenue, Room 141, No. 280 Broadway, New York City," from whom any further particulars regarding the buildings to be disposed of may be obtained.

The buildings will be sold for immediate removal only, subject to the following

TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay cash or a certified check drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area, shall be torn down and removed from the premises.

None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar and plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers, Borough of Queens, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the costs and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and

demands of every name and description brought against it, them or any of them, and against from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be included in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
