Citizens Union of The City of New York, 41 Park Row (Old Times Building), November 15, 1913.

Hon. O. GRANT ESTERBROOK, Member, Committee on Laws and Legislation, 40 Wall St., City:

Dear Sir—Concerning ordinance "Relating to Public Places of Amusement and Regulating the Issue of and Trafficking in Tickets of Admission Thereto," Int. No. 4545, which is now before your Committee, we respectfully urge that this ordinance should be amended by omitting therefrom that part designated as section 2. We strongly question the constitutionality of the provisions contained in this section of the ordinance, and though such provisions are constitutional and expedient, we do not believe that they would accomplish the results at which they are aimed.

We favor those provisions of the proposed ordinance which require that all tickets for admission to places of amusement should have stamped upon them their price. We urge the passage of the ordinance amended as suggested above.

Yours very truly,  
W. E. YOUKER, Assistant Secretary.

Motion Picture Exhibitors Association of Greater New York, New York, November 12, 1913.

O. GRANT ESTERBROOK, Esq., 58th Aldermanic District:

My Dear Alderman—The ordinances of The City of New York as they exist to-day permit people to stand under certain conditions in places of public amusement in which machinery and scenery are used, but do not permit people to stand in motion picture theatres.

The motion picture business is less, certainly not more hazardous, than the theatrical and vaudeville business and the businesses conducted in many other places of public amusement in this City. The patrons of moving picture theatres are certainly protected as well, if not better, than the patrons of other places of amusement.

In theatres and vaudeville houses, as you undoubtedly know, the seats are reserved, and as a rule but one performance is given during the afternoon and one during the evening, whereas, in motion picture theatres three or four performances are given during the day and evenings because the seats are unreserved, because the people insist upon coming and going at their will and sitting where they please. It is invariably true that during each performance in a motion picture theatre there are a number of seats in the front and throughout the auditorium vacant because people will not sit so close to the screen, and the glare of light upon the screen, or because people who come with each other are unable to sit together, but prefer to stand and await the end of the picture, at which time a number of persons always leave the theatre. The number of persons in the theatre, including those standing, do not in many cases, exceed the total seating capacity of the theatre.

Do you think such discrimination is fair and just?

Are not the motion picture exhibitors entitled to the same rights, privileges and conditions as are granted to others in the entertaining business?

There is now pending before the Committee on Laws and Legislation of the Board of Aldermen, an ordinance which grants to the motion picture exhibitor the same privileges which are enjoyed by theatrical, vaudeville and other public entertainers, but the Committee refuses to report and it is impossible to have the ordinance acted upon.

Will you assist us to eliminate this unfair discrimination? Will you do your part in compelling the Committee to report on the ordinance or have it discharged from further consideration thereof so that the ordinance may be brought before the Board and considered upon its merits? Very sincerely yours,

MORRIS NEEDLE, A. WACK, ROBERT C. WHITTEN, R. SANDERS.

Which was referred to the Committee on Laws and Legislation.

No. 4915.

National Highways Protective Society, 1 W. 34th St., New York City,

The Honorable the Board of Aldermen, 51 Chambers St., New York:

Gentlemen—On behalf of the National Highways Protective Society I wish to write to you concerning the proposed amendment to the Speed Ordinance adopted by the Board of Aldermen, April 15, 1913, known as an "Ordinance Relative to Speed Regulation." This proposed amendment, I understand, will eliminate from among the exceptions to the operation of the regulations within the City motor vehicles

carrying United States mail. The public safety demands the immediate passage of this amendment.

The present ordinance especially excepts from its operation United States mail wagons. There is no Federal law governing them in their transit through out highways. They, thus, to-day form a class above and outside the law and the public is left wholly to the mercy of the individual who happens to be driving these wagons and who at the present moment finds himself unfettered by the rules and regulations applying to others.

This condition of affairs is anomalous, unnecessary and highly dangerous. I am convinced that there is no reason for excepting these vehicles from the ordinary police rules and ordinances of the State of New York while they are on the State's highways. The exception in the ordinance must, I am convinced, have been due to a misconception of the powers of the local authorities over our highway traffic.

Nothing can be found in the Constitution of the United States, the Federal Laws or the decisions of the Supreme Court of the United States requiring that mail wagons should be exempted from ordinary police regulations of State or City designed merely for the elementary purpose of protecting human life. There is here no question of interfering with any Federal power and the fact that they are engaged in the Federal service cannot exempt them from ordinary local regulations, equally applicable to all.

Our Society has already called the matter to the attention of the Department of Justice of the United States, but, we are, of course, met with the fact that the City's own ordinance expressly exempts these vehicles. The Department would be inclined, I believe, to assist, as far as may be in its power, in assuring that the mail wagons shall not violate local regulations. It is contended that this may interfere with the timely and regular delivery of mail. Granted that this be true, human life and safety are of even more importance than a regular mail delivery; but with competent drivers and proper traffic regulations we do not believe that there is any substance in this argument. Especially is this true, in view of the fact that the present contractor asserts that his motor vehicles are so constructed that they cannot, at the present time, exceed a speed of fifteen miles an hour. The two positions of the contractor would, therefore, seem to be wholly inconsistent.

It is also claimed that there has been a change of contractors and that greater care is now exercised in the driving of motor vehicles. The statistics collated and compiled by the Society give the following results:

Since January 1, 1913, in The City of New York, eleven people have been killed and twelve injured by the mail trucks. Of these five of the killed were children.

It is only fair to say, however, that there was a change of contractors during the month of August and that the new contractor is not chargeable with the accidents happening prior to the time of the transfer. The casualties since the first of September, 1913, however, were six persons killed and three injured by the automobile mail trucks. Two of those killed were children. There was also one person killed on the third of August and one on the 9th.

Under no circumstances do we feel that there is any ground for placing the mail wagons in a class outside of the law and you will, I am sure, feel it your imperative duty to pass the pending amendment and place these vehicles upon the same footing as the other vehicles on the highways and within the operation of all regulations made for the prevention of accident and the punishment of reckless and dangerous driving.

Our Society feels confident that the Board of Aldermen, charged as it is with enacting adequate laws for the safety of our people, will give this question its earliest and promptest attention, and this must be our justification for calling your attention to this deplorable situation and the crying need for a speedy and effective remedy.

Yours very truly,

FREDERIC R. COUDERT, President National Highways Protective Society.

Independence League, Thirty-second Assembly District, South, 373 Willis Ave., New York, November 15, 1913.

To the President and the Honorable the Members of the Board of Aldermen:

Gentlemen—At the last regular meeting of the Independence League Party, held on above date, the following resolution was unanimously endorsed:

Whereas, Since a very recent date the number of people of our City being treated for rabies has increased approximately 100 per cent.; and

Whereas, Were it not for the fact that those in authority in our City have not the proper regard for human rights and sufferings, and in indifference permit the cause of hydrophobia to infest our houses and streets, compelling us to be even in the presence of this danger; therefore be it

Resolved, That we demand in the name of our fellow citizens, our women and our children that the Board of Aldermen in our City give deep consideration to the alarming increase in the number of victims of the treachery of "man's best friend," the dog. And along these lines do we demand the abolition of all private societies having at the present time a control over the welfare of the animals in our City; pointing out that if all authority in City matters is retained by the elected public administrators that more zeal will be displayed in "human welfare" and upright justice dealt to animals.

We believe that if a prohibition tax or license were instituted against mortals who have more love for dogs and cats than they display for children and their fellow man, it would be a step in lessening the number of animals now housed in our City. And be it further

Resolved, That his Honor the President of the Board of Aldermen be asked to acknowledge this communication. This resolution prevailed. Respectfully yours,

J. J. SPRINZ, Secretary.

State Council, Per Diem Employees, New York State Civil Service Ass'n, Incorporated, Brooklyn, N. Y., October 18, 1913.

Hon. O. GRANT ESTERBROOK, 300 Sterling Place, Brooklyn, N. Y.:

Dear Sir—We have for a number of years endeavored to establish the principle of a per diem basis as one of the best means to promote efficiency in our City service. We believe this principle of assurance of steady employment will invite and retain the best men in our employ.

Temporary employment is the source of more dissatisfaction among the employees than any other cause. Dissatisfaction breeds inactivity and other conditions not conducive to the highest efficiency.

We have appealed to those in charge of our various city departments, and, while it has been generally conceded that steady employment would work for the best interests of all concerned, still nothing has been done. Our late Mayor, Hon. William J. Gaynor, was familiar with the conditions of the per diem employee, and proposed and had partly under way a conference between the heads of departments to devise a way to relieve the deplorable plan under which the laboring employee is compelled to toil in the City service, recognizing the fact that this great city of ours with its great wealth and resources could ill afford to keep its employees on an uncertain pittance. He realized that uncertain conditions have a tendency to make unreliable men, and that with the present high cost of living the mechanic and laborer even with steady time must economize in the extreme in order to make both ends meet.

Much could be said in behalf of the cause from a humanitarian standpoint alone, but I will not dwell on this except to say that in this day of ours, with all its boasted civilization, this factor is being more and more recognized. May we not count upon your Honorable Committee in your deliberation, to give this principle consideration?

From the ethical standpoint I believe that the City Beautiful should commence by endeavoring to raise the standard of its citizenship; that it must first remove fear and want from the minds of those within its walls. In other words, man is first physical, and all effort to raise him mentally and morally must begin by improving the economic conditions under which he lives. The one enjoying a steady income, who is sure of his livelihood, we may safely look for all that is highest in life.

From a practical standpoint it will work for the best interests of all concerned. This ordinance is just and fair. We do not ask that the temporary employee be provided for during the closed season, but it does seek to create a permanent force among the employees who are now carried on as temporary employees to be provided for in the annual Budget on a per annum basis. If this point is thoroughly understood, namely, that the employees necessary for the upkeep of our departments be provided for on a yearly basis, I am sure that it will meet with the approval of all affected.

May I leave this humble plea in behalf of the mechanic and laborer who toil and labor by the sweat of their brows, and who have labored long and patiently under trying conditions, hoping that this uncertainty of employment may be removed?

We believe that your Committee will be guided by the principle involved and the undivided sympathy and support of all the City employees and organized labor in its decision.

The whole matter may be summarized as follows:

First—Per annum basis best to promote efficiency.

Second—It will work for the extension of the merit system.

Third—Temporary employment works for indifference and uncertainty.

Fourth—Under the temporary system no fair or just estimate of the employee can be made.

Fifth—Employers recognize steadiness in their employees as indicative of character and efficiency.

Sixth—Our officials are often at a loss for men—a great many failing to report for work owing to its temporary nature.

Seventh—The employees are willing and anxious to work and have steady jobs.

Eighth—A well-paid steady employee makes a good citizen.

Ninth—Work can be provided for men during inclement weather under sheds, in tool rooms, etc. And the men in many cases would provide themselves with oil suits. Here it must be understood the ordinance calls for only men necessary for the upkeep of the departments.

Tenth—The rate of compensation to be on the basis of what they are now receiving per diem.

Eleventh—An investigation will show that the average weekly wage under temporary employment is far below that necessary to cover expenses under fair living conditions.

Twelfth—Mayor Gaynor's Committee on Congestion reports \$900 per annum as a fair standard to maintain a family in our city. With steady time many of our men will average but \$780 per annum.

Thirteenth—It is a progressive idea and is in tune with advancing progress.

Fourteenth—The effect of a steady competence will be far-reaching, touching as it will the family, children, and in consequence, the future.

Fifteenth—It is no gift, as a return will be given.

In conclusion, I believe that this measure is one of the most important acts affecting the welfare of the City employee, and may we count on your Committee taking favorable action and in reporting this ordinance out of committee? By so doing, it will be possible to place an ordinance on our books that will be fair and just to the City and employee. Respectfully,

JOSEPH BEERE, Chairman, Civil Service Committee.

Van Owners' Association of Greater New York, Boroughs of Manhattan and The Bronx, Organized April 7, 1913, New York City, November 8, 1913.

O. GRANT ESTERBROOK, Esq., 639 Putnam avenue, Brooklyn, N. Y.:

Dear Sir—A committee hearing by your Committee was held on Friday, relative to the ordinance hereinafter referred to. Through an inadvertence, numerous business men and associations failed to receive notice of said hearing and therefore did not appear in favor of the ordinance, as was their intention. We earnestly request your honorable Committee to again set this ordinance down for public hearing, at the earliest possible date, so that the consideration of the matter by the Board may not be deferred.

An amendment to section 313 of the Code of Ordinances in respect to rates to be charged by public carts and cartmen was introduced in the Board of Aldermen on Tuesday, October 28, 1913, and has been referred to the Committee on Laws and Legislation.

For the passage of this amendment, as one of your constituents, I solicit your earnest and hearty co-operation. The amendment in substance, changes the rate to be charged by public cartmen for moving household furniture and goods, wares and merchandise from a charge based upon the number of loads and mileage to a time basis.

The purpose of the amendment is to have a legal rate which shall at least approximately conform to the modern needs brought about by new and changed living conditions in New York City.

Since the time when the present section 313 of the Code of Ordinances was passed, the erection of tremendous apartment houses and apartment hotels has brought with it great difficulties in respect to ingress and egress in so far as moving is concerned. These difficulties have resulted largely from two particular circumstances: First, that the moving days in the City of New York have been practically limited to a very few days in the beginning of May and a very few days in the beginning of October. Second, the number of families that move into these apartment houses and hotels during this very short space of time is so great and the facilities for ingress and egress relatively so small, that the public cartman may be obliged to spend as much as five or six hours waiting for an opportunity to deliver his load, or, again when the opportunity is given, the facilities for transporting the household goods up to the particular apartment are relatively so inadequate, that an unfair proportion of time is consumed. It is, therefore, obvious that the conditions with respect to public carts and public cartmen have very materially changed since the time the present ordinance was passed and that it is practically obsolete in so far as the rates therein prescribed in any way measure the value of the services which are performed. The passage of this ordinance will result in a rate which is fair to the public and will bring about a betterment of the present facilities for moving in and out of these large apartment hotels and thickly populated dwelling places, much to the benefit of the tenants.

In soliciting your hearty support for the passage of this ordinance, I may say that the Van Owners' Association of the Boroughs of Manhattan and The Bronx, as well as of the Boroughs of Brooklyn and Queens, and the New York Furniture Warehousemen's Association, lists of whose memberships are herewith enclosed are heartily in favor of, and seek the adoption of this ordinance, because their experience has taught them that the existing ordinance, passed so many years ago, is no longer properly applicable to the conditions of to-day. In addition to the uniform experience of the members of these two associations, we may say that the cities of Chicago, Detroit, Cleveland, Denver and many other localities have come to the conclusion that the only equitable basis upon which legal charges for these services can be fixed is upon a time basis, and these localities have, therefore, amended their laws to conform to this principle.

Trusting that we may be favored with your co-operation and support, and deeply appreciating the service which you will render to the public as well as to the public cartmen, in procuring the passage of this ordinance, we remain,

Respectfully yours,

CHARLES S. MORRIS, President.

The Honorable the Board of Aldermen, New York City:

Gentlemen—We wish to urge upon the Board of Aldermen and especially upon the members of the Committee on Buildings, the importance of taking action prior to the end of the year with respect to the Building Code now pending before the Committee on Buildings.

For at least eight years this matter has received consideration by each of the four boards of Aldermen but no new building code has been adopted. The present Committee on Buildings, therefore, had at its command the information secured as a result of six years' labor on this subject, both by public officials and technical and civic organizations and has given the matter extended consideration.

We therefore hope that the results of the efforts of the past eight years may be brought to a conclusion by the present board because if no action is taken now it will entail at least a further delay of from one to two years, since the 1914-1915 Board of Aldermen would have to go over this same ground for a fifth time.

Very truly yours,

WILLIAM H. ALLEN, Director.

No. 4920.

Post Office Department, Second Assistant Postmaster General, Washington, November 17, 1913.

Hon. O. GRANT ESTERBROOK, President, Board of Aldermen, New York, N. Y.:

My Dear Sir—I am informed that there is pending before the Board of Aldermen a proposition to revoke the exemption of vehicles carrying United States mails from the limitations prescribed by sections 1, 2 and 3 of the ordinance relative to speed regulations, approved April 29, 1913. I am further informed that this proposed action is the result of certain agitation in New York City, in the press and otherwise, against reckless driving of automobiles on the streets of your city. The vehicles

carrying the United States mails appear to have been selected to bear the burden of this criticism. From representations made to me by the contractor for mail transportation service in New York City and which, upon personal inquiry and observation made by me, appear to be reliable, I think that the manner of driving the mail wagons has not been especially censurable and I am further informed that most of the accidents in which they have been involved have resulted primarily from the negligence of those who were injured or killed. It is also stated that such reckless driving as may have occurred on the part of the chauffeurs was done by those who have recently left the service of the contractor. If there has been just cause for criticism against the driving of mail wagons in the past, I am confident that since the beginning of the new contracts, July 1 and September 1 of this year, these causes have been removed or materially reduced and that the service is now being performed in as safe a manner as can be expected under the traffic conditions of your city.

The Post Office Department has always in the past been accorded the generous and effective co-operation of the City of New York in providing the best mail service possible. Due consideration has been given by your authorities to the importance of moving the mails between post office stations and between such stations and railroad terminals upon schedule time and to this end the exemptions referred to have been made. All our transportation schedules have been fixed upon the basis of the latest close of mails at the post office or stations that can be made in connection with a reasonable running time, as a rule not exceeding nine miles an hour, to enable the mail wagon to reach the railroad station and deliver the mails to the outgoing trains. The schedules for transporting incoming mails to stations and post offices and to connect with outgoing trains from other terminals are also fixed upon close running time. It would be impracticable to maintain these schedules if the mail wagons are subjected to the restrictions in all respects applying to ordinary traffic. Any material change in these schedules would necessarily result in an impaired mail service for New York City, and the patrons of the mails generally, as mails would be delayed in their delivery and also in their dispatch.

If reckless driving of motor vehicles carrying the mails actually occurs, I see no reason why those who are guilty of the same may not be readily reached without resorting to the expediency of withdrawing the exemption which enables the Post Office Department to maintain its transportation service upon an efficient and acceptable basis.

I therefore have the honor to request that no action be taken by your body looking to the withdrawal of this exemption of the vehicles carrying the United States mails. If your honorable Board has any further doubts as to the wisdom of continuing this co-operation with the Department, I shall be pleased to have an opportunity of further representing my views and the reasons therefor.

Very truly yours, JOSEPH STEWART, Second Assistant Postmaster General.  
Which was referred to the Special Committee on Speed Regulations.  
In connection herewith Alderman Folks called up General Order.

No. 601—Int. No. 4889.

AN ORDINANCE to amend an Ordinance relative to speed regulations, proposed by the Special Committee on Speed Regulations, adopted April 15, 1913, and approved April 29, 1913, as amended by an ordinance adopted June 10, 1913, and approved June 16, 1913.

Be it Ordained by the Board of Aldermen of The City of New York as follows: Section 1. Section 4 of "An Ordinance relative to speed regulations proposed by the Special Committee on Speed Regulations," which was adopted April 15, 1913, and approved by the Mayor April 29, 1913, as amended by an ordinance adopted June 10, 1913, and approved June 16, 1913, is hereby repealed and the following substituted in lieu thereof:

4. Application of sections 1, 2 and 3—Nothing contained in any of the provisions of section one (1) as to specific rates of speed, or in any of the provisions of either section two (2) or section three (3) shall apply to vehicles which run only on rails and tracks; or to any of the following vehicles, when the same are responding for emergency work in case of fire, accident, public disaster or impending danger, to wit: wagons, trucks and apparatus of the Fire Department, of the Insurance Patrol, of the Police Department, of the Bureaus of Buildings and of the Military, emergency repair wagons of Public Service Corporations, and ambulances.

Section 2. This ordinance shall take effect immediately.

On motion of Alderman Folks this ordinance was referred to the Special Committee on Speed Regulations.

Alderman Folks, Chairman of the Special Committee on Speed Regulations, then announced a public hearing before said Committee, in relation to the above matter, on Friday, November 21, 1913, at 10 o'clock a. m., and invited all the members of the Board to be present.

Alderman Dowling, by unanimous consent, presented the following communication:

No. 4921.

City of New York, Law Department, Office of the Corporation Counsel, Hall of Records, November 18, 1913.

Hon. FRANK L. DOWLING, Alderman, Seventh District:

Dear Sir—I have carefully considered your two questions, as contained in your letter of the 14th inst. First, whether or not the Board of Aldermen has power by resolution to make assignments of offices to City and County Departments, Boards and Commissions, and, second, whether the authority conferred upon the Board of Aldermen by section 383 of the Charter, to assign offices for use of the Borough Presidents, has been abrogated by any subsequent enactment.

Unless the power to assign offices in a public building to the use of a particular officer or department of the City or County is specifically conferred by some charter or other statutory provision, it is my opinion that the Board of Aldermen may make such assignment.

With respect to the authority of the Board of Aldermen to assign offices for the use of the Borough Presidents under the provisions of section 383 of the Charter, I find that those provisions have not been abrogated except in so far as the Board of Commissioners of the Sinking Fund are empowered by section 4 of chapter 670 of the Laws of 1907, to designate what departments, boards, bureaus and officers of The City of New York, in addition to the Department of Bridges, shall occupy any part or portion of the new Municipal Building. Respectfully yours,

LOUIS H. HAHLO, Acting Corporation Counsel.

Which was ordered printed in the minutes, and the Clerk directed to forward a copy to the Sinking Fund Commission.

#### No. 4925.

The City of New York, Office of the President of the Borough of Richmond, Borough Hall, New Brighton, New York City, November 3, 1913.

Honorable Board of Aldermen, City Hall, New York City:

Gentlemen—I am this day transmitting to the Board of Estimate and Apportion- ment a request for the establishing, under section 56 of the Charter, of the grade of Rodman at \$1,500 per annum for one incumbent, and would ask favorable con- sideration when the matter shall come before your Board.

This action is requested in order that we may promote a Rodman in this office now receiving \$1,350 per annum, whom we deem worthy of this promotion for the reason that he has acceptably filled the place of an Assistant Engineer made vacant last spring by death. The work referred to is the care of the sidewalks of the Borough and it is our intention to continue this Rodman in charge of the work and not to fill the vacancy of the Assistant Engineer. The highest grade of Rodman now established for this office is \$1,350 per annum. Your respectfully,

GEORGE CROMWELL, President of the Borough of Richmond.

Honorable Board of Aldermen, City Hall, New York City:

Gentlemen—Request is hereby made for the issue of special revenue bonds to the amount of \$1,000, proceeds thereof to be used in making necessary repairs to the Barclay Mansion, located in Gaynor Park, Astoria, Borough of Queens.

This park, formerly known as the East River Park, has recently been acquired by the City and contains a building which is of very considerable value and will be useful for park purposes.

The roof is in bad condition and with every rain the water enters freely. Serious damage can only be avoided by the prompt expenditure of the amount hereby asked for. Respectfully,

W. G. ELIOT, Commissioner of Parks, Borough of Queens.

#### No. 4931.

City of New York, Board of Estimate and Apportionment, Office of the Secretary, 277 Broadway, November 17, 1913.

To the Honorable the Board of Aldermen:

Gentlemen—I transmit herewith certified copy of resolution adopted by the Board of Estimate and Apportionment November 13, 1913, authorizing the issue of \$25,000

corporate stock to provide means for installing a refrigerating plant in Washington Market, Borough of Manhattan, under the jurisdiction of the President, Borough of Manhattan.

I also enclose copy of report of the Corporate Stock Budget Committee relative thereto. Yours very truly,

JOSEPH HAAG, Secretary.

Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended, the Board of Estimate and Apportionment hereby approves of the issue of corporate stock of The City of New York to an amount not exceeding twenty-five thousand dollars (\$25,000), to provide means for installing a refrigerating plant in Washington Market, Borough of Manhattan, under the jurisdiction of the President of the Borough of Manhattan, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller be and is hereby authorized to issue corporate stock of The City of New York in the manner provided by section 169 of the Greater New York Charter, the proceeds thereof to the amount of the par value of the stock to be applied to the purposes aforesaid.

JOSEPH HAAG, Secretary.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, November 11, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On November 10, 1913, the President of the Borough of Manhattan requested \$25,000 corporate stock for the purpose of installing a refrigerating plant in Washington Market. In connection therewith we report as follows:

The Board of Health has inspected the Market and requires that the refrigerating plant be installed. On October 16, your Board authorized a transfer of \$38,500 for the purpose of making repairs to Washington Market, to comply with the Health regulation. In that report, it was stated that a refrigerating plant is one of the things necessary, but it was then suggested by the President of the Borough of Manhattan that the money should be provided for this purpose from corporate stock rather than through budget funds. The President is ready to proceed with the repairs for which funds were transferred, but the appropriate time to install the refrigerating plant is while the repairs are being made, and it is therefore desirable that the corporate stock for the refrigerating plant be authorized at once.

We recommend the adoption of the attached resolution granting the request. Respectfully, DOUGLAS MATHEWSON, Deputy and Acting Comptroller; E. V. FROTHINGHAM, Acting President, Borough of Manhattan; LEWIS H. POUNDS, President, Borough of Brooklyn; CYRUS C. MILLER, President, Borough of The Bronx; Corporate Stock Budget Committee.

My recommendation is based on the understanding that extra rent is to be paid for the repairs, and security given for the rent.

CYRUS C. MILLER.

To the Honorable the Board of Aldermen:

Gentlemen—I transmit herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment November 13, 1913, recommending that the Board of Aldermen request the Board of Estimate and Apportionment to issue \$2,500 special revenue bonds for the purpose of erecting and making suitable for use the portable school building under the jurisdiction of the Department of Education, located at Forest Hills, Borough of Queens.

I transmit herewith copies of two reports of the Comptroller relative thereto.

Yours very truly,

JOSEPH HAAG, Secretary.

Resolved, That the Board of Estimate and Apportionment hereby recommends that the Board of Aldermen request this Board to authorize the issue of special revenue bonds of The City of New York in the sum of two thousand five hundred dollars (\$2,500) for the purpose of erecting and making suitable for use the portable school buildings under the jurisdiction of the Board of Education at Forest Hills, Borough of Queens.

A true copy of resolution adopted by the Board of Estimate and Apportionment November 13, 1913.

JOSEPH HAAG, Secretary.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, October 31, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On October 9, 1913, the Board of Estimate and Apportionment adopted a resolution authorizing issue of \$5,150 special revenue bonds, the proceeds to be used by the Department of Education for the purpose of defraying the cost of moving two portable buildings from Public School 15, Borough of Queens, Forest Hills Gardens, Borough of Queens. The Board of Education has adopted a resolution requesting the rescindment of the resolution authorizing revenue bonds, because the Committee on Buildings has decided to permit the portable buildings at Public School 15, Borough of Queens, to remain in their present location, and to erect a new four (4) unit portable building at Forest Hills Gardens from the issue of corporate stock recently authorized for the erection of portable buildings.

I recommend the adoption of the attached resolution granting the request.

Respectfully,

WM. A. PRENDERGAST, Comptroller.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, November 12, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On September 30, 1913, the Board of Aldermen adopted an ordinance authorizing the issue of \$5,150 special revenue bonds to provide means for the transfer of two portable school buildings from the grounds of Public School 15 and re-erecting the same in Forest Hills, Borough of Queens. On October 7 the resolution was approved by his Honor the Mayor. On October 9 the resolution was approved by the Board of Estimate and Apportionment.

On October 22 the Board of Education adopted a resolution to the effect that the Committee on Buildings had decided to permit these two portable buildings at Public School 15 to remain in their present location and to erect a new four unit portable building at Forest Hills from the corporate stock authorized by the Board of Estimate and Apportionment on June 24, 1913. The Board of Education requested the rescindment of the resolution authorizing \$5,150 revenue bonds for removing the buildings.

While the portable buildings themselves are to be paid for from the proceeds of corporate stock, certain expenses incidental to setting them up and providing adequate fixtures are of such a temporary character that they should not draw interest for a period of fifty years and should be paid from the proceeds of special revenue bonds. The Engineers of the Department of Finance have made a computation of these expenses and estimate that the expense incidental to erecting the building will amount to \$1,055. The expense of installing fixtures, etc., is \$1,300, making a total of \$2,355. The residents of Forest Hills are in need of school facilities, and it is desirable that they be provided at the earliest possible moment.

As it has been determined not to move these portable schools, the purpose for which the revenue bonds were authorized by the Board of Aldermen, has failed, and the funds cannot be used for any other purpose without specific authority from the Board of Aldermen. Rather than have the resolution amended I think the purpose would be affected in a less complicated manner if the resolution already adopted were rescinded and the attached resolution adopted by this Board, requesting the Board of Aldermen to approve an issue of two thousand five hundred dollars (\$2,500) in special revenue bonds, the proceeds whereof to be used in connection with the erection and making suitable for use the portable school buildings.

I recommend the adoption of the attached resolution. Respectfully,

DOUGLAS MATHEWSON, Deputy and Acting Comptroller.

Which was ordered on file.

The Vice-Chairman laid before the Board the following communication from the Commissioner of Street Cleaning:

No. 4934.

Department of Street Cleaning, of The City of New York, 13-21 Park Row, New York, November 17, 1913.

Hon. O. GRANT ESTERBROOK, President, Board of Aldermen, City of New York:

Sir—Pursuant to section 188, sub-division 8, of the Greater New York Charter, I respectfully request that your Honorable Board authorize the issue of revenue bonds of The City of New York in the sum of ten thousand dollars (\$10,000), the proceeds thereof to be used for the hire of trucks, horses and drivers in the collection of ashes, street sweepings and rubbish, etc., in the Borough of The Bronx.

The reason for making this request is that the balance remaining in the appropriation for hired trucks is insufficient, due to the increased output of material during the winter months and the present force being insufficient to cope with the situation. Respectfully,

WM. H. EDWARDS, Commissioner.

Which was referred to the Committee on Finance.

The Vice-Chairman laid before the Board the following communication from the Comptroller:

No. 4935.

City of New York, Department of Finance, November 15, 1913.

Hon. O. GRANT ESTERBROOK, Acting President, Board of Aldermen, City of New York:

Dear Sir—It is hereby suggested that your Board adopt a resolution, in the manner provided in subdivision 8 of section 188 of the City Charter, requesting the Board of Estimate and Apportionment to authorize the Comptroller to issue special revenue bonds for liabilities incurred by the City as follows:

For expenditures attending the funeral services of the late Mayor Gaynor, certified to the Department of Finance by the President of the Borough of Manhattan as a charge against account 1913-2805, "Contract or Open Order Service, General Repairs, Care of Public Buildings and Offices, Repairing Office Buildings," with the understanding between this department and that of the Borough President that these expenses were to be paid and the account thereafter reimbursed:

Voucher of John Wanamaker .....	\$247 62
Voucher of William Compt .....	234 85
Voucher of Edward Jeans .....	1,388 55
Voucher of M. A. Bowe .....	530 50
	<hr/>
	\$2,401 52

In addition to the payments made by the Borough President, it has been learned that some obligations were incurred by the Board of Aldermen for flowers and for draping the Aldermanic chamber, the amounts being \$100 and \$250 respectively.

It is suggested that provision also be made for the payment of these bills, by the authorization of special revenue bonds, in the event that there are not sufficient funds in the regular appropriation of the Board of Aldermen for contingencies.

Yours very truly,

E. D. FISHER, Deputy and Acting Comptroller.

Which was ordered on file.

The Vice-Chairman laid before the Board the following communication from the President of the Borough of Queens:

No. 4936.

The City of New York, Office of the President of the Borough of Queens, Long Island City, November 15, 1913.

To the Honorable Board of Aldermen, City of New York:

Gentlemen—The appropriation made in the budget for the year 1913, Code No. 3239, Transportation, Hire of Horses and Vehicles with Driver, Bureau of Sewers, this department will be exhausted by the latter end of November, 1913.

I desire to state that the appropriation made in the budget for the current year was for 5,108 days, approximately sufficient to cover 18 horses and carts for the entire year at the rate of 278 working days each. The maintenance force as organized and as submitted in our annual request has required the services of 20 horses and carts, which number has been employed and must be continued. It is also our intention to engage one more horse and cart to cover the new system opened at Richmond Hill. This is necessary for the reason that basins are built in unimproved streets and the need of a basin cleaning gang is imperative to clean said basins.

As it is absolutely necessary to have additional funds to employ the Horses and Vehicles with Driver for 576 days from the date of their expiration to January 1, 1914, application is hereby made to your Honorable Board for an issue of special revenue bonds to an amount not exceeding the sum of two thousand and sixteen (\$2,016) dollars, proceeds whereof to be expended by the President of the Borough of Queens to continue the employment of the horses and vehicles with driver to January 1, 1914, to wit:

Number of days short for 20 teams.....	478½ days
Required for one for Richmond Hill from October 1 to the end of the year .....	67½ days
Required for emergency work.....	30 days
	<hr/>
Total .....	576 days

576 days at \$3.50, \$2,016.

May I, therefore, request that your Honorable Board give this matter your immediate attention, to the end that the maintenance force of this bureau will not be compelled to work without the necessary horses and carts. Yours very truly,

MAURICE E. CONNOLLY, President of the Borough of Queens.

Be It Ordained by the Board of Aldermen of The City of New York as follows: Section 1. The Board of Aldermen hereby selects as a site for an addition to the Cumberland Street Hospital, in the Borough of Brooklyn, the following lands and premises located in the County of Kings, in The City of New York, described in metes and bounds as follows:

"Beginning at a point on the easterly side of Cumberland st. distant 312 feet 3 inches northerly from the corner formed by the intersection of the said easterly side of Cumberland st. with the northerly side of Myrtle ave.; running thence easterly at right angles to Cumberland st. 200 feet to the westerly side of Carlton ave.; running thence northerly along the westerly side of Carlton ave. 50 feet; running thence westerly at right angles to Carlton ave. 200 feet to the easterly side of Cumberland st.; running thence southerly along the easterly side of Cumberland st. 50 feet to the point or place of beginning; together with all the right, title and interest, if any, of the parties of the first part, of, in and to the streets or avenues in front thereof to the centre thereof."

Section 4. The Clerk of this Board is hereby directed to prepare two similar surveys, maps or plans of said lands and premises and file the same—one in the office of this Board and the other in the office of the Clerk of the County of Kings.

Section 5. This ordinance shall take effect immediately.

Department of Public Charities of The City of New York, Foot of E. 26th St., October 27, 1913:

Re: Acquisition of Site for Addition to Cumberland Street Hospital, Brooklyn.

To the Honorable the Board of Aldermen:

Gentlemen—The Board of Estimate and Apportionment, at a meeting held June 26, 1913, adopted the following resolution, which was concurred in by the Board of Aldermen on July 15 and approved by the Mayor August 5:

"Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended, the Board of Estimate and Apportionment hereby approves of the issue of corporate stock of The City of New York to an amount not exceeding forty-five thousand dollars (\$45,000) to be used as follows: Twenty-five thousand dollars (\$25,000) for the purchase of property adjoining Cumberland Street Hospital, Borough of Brooklyn, and twenty thousand dollars (\$20,000) for the remodeling of buildings thereon under the jurisdiction of the Department of Public Charities, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller be and is hereby authorized to issue said corporate stock of The City of New York in the manner provided by section 169 of the Greater New York Charter, the proceeds thereof to the amount of the par value of the stock to be applied to the purposes aforesaid."

The site referred to is fifty feet adjacent to the south side of the present Cumberland Street Hospital, which piece of property extends from Cumberland st. to Carlton ave., fifty feet wide, adjoining the present Cumberland Street Hospital, situated 109 Cumberland st., Brooklyn. The metes and bounds of this property are as follows:

"Beginning at a point on the easterly side of Cumberland st. distant 312 feet 3 inches northerly from the corner formed by the intersection of the said easterly side of Cumberland st. with the northerly side of Myrtle ave.; running thence easterly at right angles to Cumberland st. 200 feet to the westerly side of Carlton ave.; running thence northerly along the westerly side of Carlton ave. 50 feet; running thence westerly at right angles to Carlton ave. 200 feet to the easterly side of Cumberland st.; running thence southerly along the easterly side of Cumberland st. 50 feet to the point or place of beginning; together with all the right, title and interest, if any, of the parties of the first part, of, in and to the streets or avenues in front thereof to the centre thereof."

The Real Estate Bureau connected with the Department of Finance had an option on this property and it was thought it could be bought at private sale. The owners, however, now refuse to sell it at the prices agreed upon and we are advised

by the Corporation Counsel that request should be made to your Board to select by ordinance, for municipal purposes under the care and jurisdiction of this Department, the property described above.

I would therefore respectfully request that your Board adopt an ordinance authorizing the acquisition of this property.

Respectfully yours,  
MICHAEL J. DRUMMOND, Commissioner.

#### REPORTS:

That, having examined the subject, it believes the proposed permission to be advisable.

It, therefore, recommends that the said resolution be adopted.

Whereas, The Municipal Art Commission, pursuant to section 637 of the Greater New York Charter, by resolution, adopted March 10, 1913, has approved the design and location for four (4) ornamental pylons to be erected at the corners of 116th st. and Amsterdam ave. and 116th st. and Broadway, as indicated upon Exhibits 723-A, 723-B and 723-C, on file in the records of the said Commission, now therefore, be it

Resolved, That permission be and the same is hereby granted to the Trustees of the Columbia University to erect and maintain the four said pylons as shown upon the exhibits aforesaid, copies of which are on file with the Clerk of this Board, at the following points: One at the northeast corner of Broadway and 116th st.; one at the southeast corner of Broadway and 116th st.; one at the northwest corner of Amsterdam ave. and 116th st.; one at the southwest corner of Amsterdam ave. and 116th st.; all the work of constructing and erecting the same, the opening and closing of the street or sidewalk, where it may be necessary, to be done at the expense of the said Trustees of the Columbia University, under the direction of the President

of the Borough of Manhattan, the said pylons to remain so placed only during the pleasure of this Board.

HENRY H. CURRAN, ROBERT F. DOWNING, FRANK J. DOTZLER, JOHN DIEMER, C. AUGUSTUS POST, FRANCIS P. KENNEY, Committee on Finance.

City of New York, Office of the President of the Borough of Manhattan, City Hall, November 7, 1913.

Honorable Board of Aldermen, City Hall, New York:

Gentlemen—On March 10, 1913, the Art Commission approved the designs and locations of four (4) pylons to be erected by the Trustees of Columbia University on 116th st.; two of them being at the corner of Broadway and 116th st. and the other two being at the corner of Amsterdam ave. and 116th st.

As you are probably aware, Columbia University is the owner of the property on both sides of 116th st., between Broadway and Amsterdam ave., and the buildings of the University have been and are now being erected on both sides of that street. It is the intention of the trustees to add to the attractiveness of the block by planting trees, grass plots, cultivation and otherwise, and it is for the purpose of still further adding to the architectural beauty of the surroundings that they are now planning to erect these pylons. They are to correspond in size and general design with the architecture of the University buildings, and it is proposed to place them within the building lines of Broadway and Amsterdam ave. and within the curb line of 116th st. The locations at the four corners have been approved by the Art Commission, and the permission of your Board is now requested so that the authorities may proceed to have the columns constructed. Similar authority was granted by your Board in the case of The College of the City of New York under a resolution adopted March 12, 1908.

Inasmuch as these columns will add to the ornamental character of this block and will not interfere with street traffic, I have already approved of the application of the Trustees of the University, and trust that your Board will grant the necessary permission by the adoption of the attached resolution. Yours very truly,

GEORGE McANENY, President, Borough of Manhattan.

#### REPORTS:

That, having carefully examined the subject, it believes a certain allowance to be necessary. It calculates that \$2,000 will be sufficient for the purpose, and recommends that the accompanying resolution be adopted.

All obligations contracted for hereunder to be incurred on or before December 31, 1913.

HENRY H. CURRAN, C. AUGUSTUS POST, ROBERT F. DOWNING, FRANK J. DOTZLER, JOHN DIEMER, FRANCIS P. KENNEY, Committee on Finance.

District Attorney's Office, County of Kings, Brooklyn, New York, October 18, 1913.

Honorable Board of Aldermen, City of New York, New York, N. Y.:

Dear Sirs—Under date of July 23, 1913, I wrote you making application for the issuance of special revenue bonds in the amount of three thousand dollars, pursuant to the provision of subdivision 8 of section 188 of the Charter, to replenish the account for contingencies for this office. I have assumed that the matter was receiving attention, but inquiry recently made elicited the information that apparently my letter was either not received or if received has not been acted on. I will therefore set forth the basis of my application again:

In the Budget for this year the sum of three thousand dollars was allowed for contingencies. That sum had been entirely expended before the middle of July of this year. Since then we have had practically all the balances transferred to the contingency account which were available and which the Board of Estimate would permit to be so transferred, but with all these transfers there is now to the credit of the contingencies account only three hundred dollars, which will certainly not be enough to carry us through the year. There is quite a substantial balance to the credit of "Experts Account," but that I understand the Board of Estimate will not permit to be transferred to contingencies.

Last year the sum of eighty-nine hundred dollars was appropriated in the Budget for contingencies of this office. They did not then have an account called "Experts" or certain other accounts which this year were established, and in making up the Budget for this year they allowed for contingencies but three thousand dollars, as I have stated, although the total of all the allowances for this year was the same as the total for last year. Last year the amount appropriated for contingencies covered every expense save but a very few dollars. The division of the appropriation into a number of different accounts this year has made the change, especially as moneys cannot be transferred from some of these accounts, as I have stated, to the contingencies account. Then, too, the contingency expenses of an office such as this necessarily vary greatly one year from another.

Of course the work of this office cannot be carried on without a contingency fund, and as there is now practically no money available for such expenses, I am obliged to request the issue of revenue bonds and trust this application may receive prompt attention and approval. Truly yours,

JAMES C. CROSEY, District Attorney.

The Vice-Chairman put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Becker, Bedell, Bolles, Boschen, Bosse, Brush, Carberry, Cummuskey, Cunningham, Curran, Delaney, Devine, Diemer, Dixon, Doherty, Dotzler, Dowling, Donnelly, Downing, Dunn, Dujat, Eagan, Fink, Folks, Gaynor, Grimm, Hannon, Herbst, Igstaedter, Kenneally, Kenney, Lieberman, Loos, McCann, McCourt, McGarry, McGrath, Marks, Martyn, Molen, Moore, Morrison, Muhlbauer, Nicoll, Nugent, O'Connor, O'Neil, O'Rourke, Pendry, Post, Pouker, Schmidt, Shipley, Smith, Stapleton, Stevenson, Velten, Weil, Wendel, Weston, White, Wilmot; President Pounds, by George W. Tillson, Commissioner of Public Works; the Vice-Chairman—65.

The Committee on Finance, to which was referred on September 23, 1913 (Minutes, page 392), the annexed request from the Commissioner of Correction for \$25,000 special revenue bonds for material for manufacturing at penitentiary, respectfully

#### REPORTS:

That, having examined the subject, it believes a certain allowance to be necessary. It has gone over the needs of the Department very carefully, having in mind also the shortage in special revenue bonds, and concludes that \$10,000 will be sufficient for this purpose for the remainder of the year.

It recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of ten thousand dollars (\$10,000), the proceeds whereof to be used by the Department of Correction for the purpose of purchasing materials for manufacturing purposes for use at the Penitentiary, Blackwells Island. All obligations contracted for hereunder must be incurred on or before December 31, 1913.

Department of Correction of the City of New York, Commissioner's Office, 148 E. 20th st., New York, September 4, 1913.

Hon. ARDOLPH L. KLINE, President, Board of Aldermen, New York City:

Dear Sir—Pursuant to the provisions of section 188 of the Charter, I respectfully ask that your Honorable Board will request the Board of Estimate and Apportionment to authorize the issue of Special Revenue Bonds to the amount of twenty-five thousand dollars (\$25,000) for the use of the Department of Correction during the current year, in the purchase of materials for manufacturing purposes, at the Penitentiary, Blackwells Island.

This amount will be needed for the balance of the year to fill the orders which we are receiving from other City Departments for brooms, brushes, beds, mattresses, etc.

If this money is not granted, our manufacturing industries will have to close down by October 15.

Below you will find a table showing the value of goods manufactured for the different City Departments for the first eight months of the past five years:

1909 .....	\$80,810 83
1910 .....	77,267 03
1911 .....	95,389 64
1912 .....	108,350 39
1913 .....	131,388 63

Inasmuch as all the money allowed for the above purposes (\$100,000 each year), finds its way to the Sinking Fund, for the reduction of taxation, together with the profits amounting to thirty-five or forty per cent., it would seem that this source of revenue for the City should not be neglected. Very respectfully yours,

PATRICK A. WHITNEY, Commissioner.

The Vice-Chairman put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

The Committee on Finance, to which was referred on September 23, 1913 (Minutes, page 393), the annexed request from the President of the Borough of Queens for \$43,753.50 to pay for horses and carts for use by the Bureau of Highways, respectfully

#### REPORTS:

That, having examined the subject, it believes a certain allowance to be necessary for this purpose. After a close scrutiny of the accounts, and consultation with the Department of Finance, it concludes that under ordinary circumstances \$5,735 will be sufficient to carry on this work, and it therefore recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of five thousand three hundred and seventy-five dollars (\$5,375), the proceeds whereof to be used by the President of the Borough of Queens for the purpose of employing horses and carts and teams in the work of repairing and maintaining roadways in said Borough. The City of New York, Office of The President of the Borough of Queens, Long Island City, September 6, 1913.

To the Honorable Board of Aldermen, City of New York.

Gentlemen—I respectfully call your attention to the allotment of Code No. 3238TS of the Bureau of Highways, this Department, for the hire of horses and vehicles and teams with drivers, which appropriation shows the allowance for 99 horses and carts will be exhausted on September 29, 1913, and the allotment for 58 teams will be exhausted on September 27, 1913.

To keep the roads in proper and safe repair for the travelling public, it is absolutely necessary that we employ horses and carts and teams to the number sufficient to carry on the work of properly taking care of the numerous dirt thoroughfares in this Borough.

The Superintendent of the Bureau of Highways reports that it is absolutely necessary to have funds to employ the horses and carts and teams for 63 days each from the date of their expiration until December 15, 1913, and to that end application is hereby made for an issue of special revenue bonds to an amount not exceeding forty-three thousand seven hundred and fifty-three dollars and fifty cents (\$43,753.50), proceeds whereof to be expended by the President of the Borough of Queens to continue the employment of the horses and carts and teams to December 15, 1913, to wit:

Horses and Carts.  
From September 30 to December 15, 1913, 6,237 days at \$3.50 per diem.... \$21,829 50  
Teams.  
From September 30 to December 15, 1913, 3,654 days at \$6 per diem.... 21,924 00

\$43,753 50

I would further state that the Bureau of Highways has sufficient work on hand to be done for the balance of the year, and also has funds to employ the laboring forces up to December 15, 1913.

Resolution herewith enclosed. Yours respectfully,

JOSEPH FLANAGAN, Commissioner of Public Works and Acting President of the Borough of Queens.

To the Honorable the Board of Aldermen, City of New York:

Gentlemen—In accordance with the provisions of subdivision 8 of section 188 of the Greater New York Charter, I hereby request your approval of an issue of special revenue bonds amounting to \$2,077.50, the proceeds of which are to be applied for the purchase of coal necessary in the operation of sewage disposal plants at Newtown and also at Far Rockaway.

In justification of the request, I desire to call your attention to the fact that the quantity of coal consumed so far this year has been greatly in excess of that of the past two years due to the fact that a greater amount of sewage has been treated in the plants. I am informed that this department has been compelled to pay about 7½ per cent. more per ton for coal this year than last. It is essential that this matter receive prompt attention for the reason that our funds will be exhausted about October 1, in which case it will be impossible to operate the plants without a sufficient supply of coal. Yours very truly,

MAURICE E. CONNOLLY, President of the Borough of Queens.

Law Department, Office of the Corporation Counsel, New York, October 22, 1913.

To the Honorable the Board of Aldermen of The City of New York:

Gentlemen—On November 12, 1912, your Honorable Board passed a resolution by which the Comptroller was authorized to issue special revenue bonds to the amount of \$6,000, the proceeds whereof to be used by the Corporation Counsel for the purpose of supplying furniture and fittings in the new quarters assigned to the branch office of the Law Department of The City of New York, in the Borough of Brooklyn, located in the Assembly at No. 153 Pierrepont st., in said borough, all obligations contracted for thereunder to be incurred on or before December 31, 1912. This resolution was received from his Honor the Mayor November 25, 1912, without his approval or disapproval thereof, and the same took effect as if he had approved it.

On or about January 9, 1913, the Board of Estimate and Apportionment passed a resolution approving of a schedule for a special revenue bond appropriation made to the Law Department for the year 1912, as follows:

"Law Department, Purchase of Furniture and Fittings, Special Bond Allowance, \$6,000."

Subsequently, and on the 4th day of February, 1913, said resolution was amended by your Honorable Board so that the time for incurring obligations thereunder was extended to July 1, 1913.

Subsequently, and on the 13th day of March, 1913, the Board of Estimate and Apportionment passed a resolution amending the foregoing resolution and extending the time within which obligations contracted for thereunder may be incurred by striking out the words and figures "December 31, 1912," and inserting in lieu thereof the words "July 1, 1913."

Supplies and furniture were purchased pursuant to the foregoing resolution, and there now remains a balance of \$299 of the fund appropriated.

For the completion of the furnishings of the office of the Law Department of The City of New York, in the Borough of Brooklyn, it is necessary that desk lights should be furnished for the various Assistants and other employees of the office. An estimate has been made of the cost of these fittings, and \$150 will cover the entire cost of the same, together with their installation.

I request your honorable body to further amend the original resolution of November 12, 1912, by extending the time within which obligations may be incurred, payable out of the above fund, to December 31, 1913.

Respectfully yours,

LOUIS H. HAHLO, Acting Corporation Counsel.

The Committee on Finance, to which was referred on October 28, 1913 (Minutes, page 85), the annexed request from Justice Giegerich for \$6,000 special revenue bonds for requirements of Supreme Court, New York County, respectfully

#### REPORTS:

That, having carefully examined the subject, it believes an allowance to be necessary for this purpose. It has figured closely on this request and believes that \$5,000 will be sufficient.

It, therefore, recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of five thousand dollars (\$5,000), the proceeds whereof to be used by the President of the Borough of Manhattan for the purpose of providing for the requirements of the Supreme Court, New York County. All obligations contracted for hereunder must be contracted for on or before December 31, 1913.

HENRY H. CURRAN, C. AUGUSTUS POST, ROBERT F. DOWNING, FRANK J. DOTZLER, JOHN DIEMER, FRANCIS P. KENNEY, Committee on Finance.

Supreme Court, Chambers St., New York, October 23, 1913.

To the Honorable Board of Aldermen, City Hall, New York City:

Gentlemen—Request is hereby made for an issue of special revenue bonds in the amount of five thousand dollars (\$5,000) in order to provide for the requirements of the Supreme Court during the remainder of the year.

The budgetary allowance for this year was, some time ago, found totally inadequate for the purpose, which necessitated an issue of special revenue bonds in the amount of \$6,000.

This amount has been practically expended and an additional issue of the amount above mentioned will be necessary to carry us along to the end of the year.

The funds should be made available to the President, Borough of Manhattan, under whose jurisdiction all expenditures for this department are made.

Respectfully yours,

L. A. GIEGERICH, Chairman, Old Court House Committee.

No. 4805.

The Committee on Finance, to which was referred on October 28, 1913 (Minutes, page 85), the annexed resolution from the Board of Education asking for a rescindment of an issue of \$5,150 special revenue bonds for transferring two portable buildings in Queens, respectfully

#### REPORTS:

That this rescindment will be made by the Board of Estimate and Apportionment. A report from the Comptroller to that body in reference to this matter is hereto attached, in which it appears that \$2,500 is needed to erect a four unit portable building at Forest Hills. The Committee believes that the interests of both sections of Queens will be conserved by this course, and it, therefore, recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of two thousand five hundred dollars (\$2,500), the proceeds whereof to be used by the Board of Education, for the purpose of erecting and making suitable for use the portable school buildings under the jurisdiction of the Board of Education at Forest Hills, Borough of Queens.

All obligations contracted for hereunder to be incurred on or before December 31, 1913.

HENRY H. CURRAN, C. AUGUSTUS POST, ROBERT F. DOWNING, FRANK J. DOTZLER, JOHN DIEMER, FRANCIS P. KENNEY, Committee on Finance.

Mr. Wilsey, on behalf of the Committee on Buildings, offered the following:

Whereas, Upon the request of the Board of Education, the Board of Aldermen and the Board of Estimate and Apportionment have adopted resolutions providing for the issue of special revenue bonds to the amount of \$5,150 for transferring two portable buildings from the grounds of Public School 15, Queens, and re-erecting the same at Forest Hills Gardens, Queens; and

Whereas, The Committee on Buildings has decided to permit the portable buildings at Public School 15, Queens, to remain in their present location and to erect a new four-unit portable building at Forest Hills Gardens from the issue of corporate stock recently authorized for the erection of portable buildings; be it

Resolved, That the Board of Estimate and Apportionment and the Board of Aldermen be notified of the action hereinbefore stated, to the end that they may rescind the resolutions adopted by them in reference to the issue of special revenue bonds to the amount of \$5,150 for the purpose above mentioned.

A true copy of preamble and resolution adopted by the Board of Education on October 22, 1913.

A. E. PALMER, Secretary, Board of Education.

November 12, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On September 30, 1913, the Board of Aldermen adopted an ordinance authorizing the issue of \$5,150 special revenue bonds to provide means for the transfer of two portable school buildings from the grounds of Public School No. 15, and re-erecting the same in Forest Hills, Borough of Queens. On October 7 the resolution was approved by his Honor the Mayor. On October 9 the resolution was approved by the Board of Estimate and Apportionment.

On October 22 the Board of Education adopted a resolution to the effect that the Committee on Buildings had decided to permit these two portable buildings at Public School No. 15 to remain in their present location, and to erect a new four unit portable building at Forest Hills from the corporate stock authorized by the Board of Estimate and Apportionment on June 24, 1913. The Board of Education requested the rescindment of the resolution authorizing \$5,150 revenue bonds for removing the buildings.

While the portable buildings themselves are to be paid for from the proceeds of corporate stock certain expenses incidental to setting them up and providing adequate fixtures are of such temporary character that they should not draw interest for a period of fifty years, and should be paid from the proceeds of special revenue bonds. The Engineers of the Department of Finance have made a computation of these expenses and estimate that the expense incidental to erecting the building will amount to \$1,055. The expense of installing fixtures, etc., is \$1,300, making a total of \$2,355. The residents of Forest Hills are in need of school facilities and it is desirable that they be provided at the earliest possible moment.

As it has been determined not to move these portable schools the purpose for which the revenue bonds were authorized by the Board of Aldermen has failed, and the funds cannot be used for any other purpose without specific authority from the Board of Aldermen. Rather than have the resolution amended, I think the purpose would be affected in a less complicated manner if the resolution already adopted were rescinded and the attached resolution adopted by this Board, requesting the Board of Aldermen to approve an issue of two thousand five hundred dollars (\$2,500) in special revenue bonds, the proceeds whereof to be used in connection with the erection and making suitable for use the portable school buildings.

I recommend the adoption of the attached resolution. Respectfully,

....., Deputy and Acting Comptroller.

Resolved, That the Board of Estimate and Apportionment hereby recommends that the Board of Aldermen request this Board to authorize the issue of special revenue bonds of The City of New York in the sum of two thousand five hundred dollars (\$2,500) for the purpose of erecting and making suitable for use the portable school buildings under the jurisdiction of the Board of Education, at Forest Hills, Borough of Queens.

The Vice-Chairman put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Becker, Bedell, Bolles, Boschen, Bosse, Brush, Carberry, Cummskey, Cunningham, Curran, Delaney, Devine, Diemer, Dixon, Doherty, Dotzler, Dowling, Donnelly, Downing, Dunn, Dujat, Eagan, Fink, Folks, Gaynor, Grimm, Hannon, Herbst, Igstaedter, Kenneally, Kenney, Lieberman, Loos, McCann, McCourt, McGarry, McGrath, Marks, Martyn, Molen, Moore, Morrison, Muhlbauer, Nicoll, Nugent, O'Connor, O'Neil, O'Rourke, Pendry, Post, Pouker, Schmidt, Shipley, Smith, Stapleton, Stevenson, Velten, Weil, Wendel, Weston, White, Wilmot; President Pounds, by George W. Tillson, Commissioner of Public Works; President McAneny, by E. V. Frothingham, Commissioner of Public Works; the Vice-Chairman—65.

No. 4865.

The Committee on Finance, to which was referred on November 11, 1913 (Minutes, page 207), the annexed request from the Commissioner of Water Supply, Gas and Electricity for \$14,000 special revenue bonds for purchase of coal, and \$3,000 special revenue bonds for purchase of hypochlorite of lime, respectfully

#### REPORTS:

That having carefully examined the subject, it believes the proposed materials

to be necessary. It calculates, however, that \$11,000 will suffice for the necessary coal.

It recommends that the accompanying resolution be adopted.

Resolved, That in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of fourteen thousand dollars (\$14,000), the proceeds whereof to be used by the Department of Water Supply, Gas and Electricity, for the purpose of purchasing coal for pumping stations in an amount not to exceed in cost the sum of \$11,000, and purchasing hypochlorite of lime in an amount not to exceed in cost \$3,000.

All obligations contracted for hereunder to be incurred on or before December 31, 1913.

The City of New York, Department of Water Supply, Gas and Electricity, Commissioner's Office, 13-21 Park Row, New York, November 3, 1913.

Hon. O. GRANT ESTERBROOK, Acting President, Board of Aldermen:

Dear Sir—I respectfully request that your Honorable Board ask the Board of Estimate and Apportionment to authorize the issue of revenue bonds in the amount of \$14,000 to permit the purchase of coal to operate the pumping stations of this department for the Boroughs of Manhattan, The Bronx and Richmond until December 31, and to allow a 30-days' supply on hand at that date.

I also request that the sum of \$3,000 revenue bonds be likewise authorized for the purchase of hypochlorite of lime, which is necessary to properly protect the water supply for the remainder of the year and to provide a two-weeks' supply in January.

Both the appropriation accounts from which these supplies have been purchased are now practically exhausted, and there are no funds in any other appropriations of this department available for transfer. Revenue bonds for installing a driven well system on lands adjacent to the Flushing Pumping Station, Queens, were authorized for this department on the request of your Honorable Board by resolution adopted April 1, 1913. This money will not be needed and this authorization may be rescinded.

Yours very truly,

HENRY S. THOMPSON, Commissioner.

#### REPORTS:

That, having examined the subject, it believes the proposed allowance for moving to be necessary. The matter of equipping new quarters may be taken up with requests of other departments for the same purpose.

It, therefore, recommends that the accompanying resolution be adopted.

Resolved, That in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of one thousand five hundred dollars (\$1,500), the proceeds whereof to be used by the Tenement House Department for the purpose of defraying expenses of moving offices of said department from 44 E. 23d st. to the Municipal Building.

For expenditures attending the funeral services of the late Mayor Gaynor certified to the Department of Finance by the President of the Borough of Manhattan as a charge against account 1913-2805, "Contract or Open Order Service, General Repairs, Care of Public Buildings and Offices, Repairing Office Buildings," with the understanding between this department and that of the Borough President that these expenses were to be paid and the account thereafter reimbursed:

#### GENERAL ORDERS.

No. 579—Int. No. 3258.

The Committee on Laws and Legislation, to which was referred on April 1, 1913 (Minutes, page 65), the annexed ordinance in favor of amending the Code of Ordinances in relation to the sale of real estate belonging to the Sinking Fund, respectfully

#### REPORTS:

That having examined the subject, it believes the proposed change to be a wise provision and one which when inaugurated will prove a substantial saving to the City by creating a fund for the purchase of real estate, obviating the necessity of a new bond issue and thus saving the interest on a second installment of bonds, when a prior issue has still a number of years to run.

It, therefore, recommends that the said ordinance be adopted.

AN ORDINANCE to amend section 53 of article 3 of part 1 of the Code of Ordinances of The City of New York relating to the Sinking Fund of The City of New York, and section 76 of article 4 of the same part, in relation to the sale of real estate belonging to the Sinking Fund.

1. For commutation of quit-rents on grants.
2. For quit-rents arising from such grants as were issued prior to the year one thousand eight hundred and four.
3. The net proceeds of all sales of real estate belonging to the corporation when sold (.), except when the same are made payable to a fund, the purpose of which is restricted to the purchase of other real estate, as provided by the Charter of The City of New York.
4. The net proceeds of all bonds and mortgages payable to the corporation when collected (.), except when the said bonds and mortgages are part of the proceeds of the sale of real estate and the proceeds thereof are deposited in a fund, the purpose of which is restricted to the purchase of other real estate, as provided by the Charter of The City of New York.
5. For licenses to pawn brokers and dealers in the purchase or sale of second-hand furniture, metals or clothes.
6. For hackney-coach licenses and street vaults.
7. For exclusive occupation of private wharves, basins and piers.
8. For market fees and market rents.
9. The proceeds of all bonds and mortgages which may have or shall become the property of the corporation, in pursuance of the ordinance creating the fire loan stock of The City of New York.
10. The building included in the establishment called the Almshouse, at Bellevue, together with the lots of land and water rights attached thereto when sold, and the rents when leased.
11. Such portions thereof of the annual taxes levied in The City and County of New York as may be collected for the redemption of the floating debt stock of The City of New York and the fire indemnity stock of The City of New York.
12. All such other sources of revenue or sums of money as the said corporation shall hereafter think proper to appropriate to said fund.

Sec. 2. Section 76 of article 4, of part 1, of the Code of Ordinances of The City of New York, relating to the Sale of Real Estate Belonging to the Sinking Fund, is hereby amended to read as follows:

Whenever any real estate shall have been sold pursuant to the preceding sections of this article, it shall be the duty of the Board of Commissioners of the Sinking Fund, or a majority of them, to give a certificate, under their hands, that the same has been sold pursuant to the provisions of this article, and upon the production of such certificate and the evidence that the proceeds of such sale have been paid into the treasury to the credit of the sinking fund for the redemption of the city debt (.), or such other appropriate fund as provided by the Charter of The City of New York, it shall be the duty of the Mayor of the City and the Clerk of the Board of Aldermen to execute proper conveyances of such real estate under their hands and the seal of the city corporation.

Sec. 3. This ordinance shall take effect immediately.

By the President, Borough of Manhattan—  
City of New York, Office of the President of the Borough of Manhattan, City Hall, November 18, 1913.

To the Honorable Board of Aldermen, City Hall, New York City:

Gentlemen—It is urgent that a contract be authorized for repairing sheet asphalt pavements on such streets and avenues in that portion of the Borough of Manhattan designated as section 4, and bounded by 72d st., North River, 116th st. and East River, where the guarantee of maintenance has expired or is about to expire.

Owing to the late date, the question of advertising a contract with the attendant delay of award and registration, coupled with the approach of winter, makes it very desirable that provision for asphalt repairs be authorized at once.

The estimated cost of the work, all of which would be executed on or before December 31, 1913, is \$9,330. This estimate is in accordance with a contract that was duly advertised and let for the section in question and which was in force from January until it was used up during the present month.

Pursuant to section 419 of the Greater New York Charter I would request authority to award a contract for this work without public letting.

Very truly yours, E. V. FROTHINGHAM, Acting President, Borough of Manhattan.

PETITION.

To the Honorable the Board of Aldermen, City of New York:

We, the undersigned residents and property owners of Racket st., formerly known as Vanderveer ave., lying between Lott ave. on the west and Shaw (Leggett) ave. on the east, and running from the northerly side of Jamaica ave. in a northerly direction to Forest Park, in the 4th Ward of the Borough of Queens, City of New York, representing the full assessable value of property on said thoroughfare, hereby respectfully petition your honorable Board to remove from the maps of the Borough of Queens the name of Racket st., as recently applied to the above designated

thoroughfare, and restore or re-apply thereto the former name of Vanderveer ave., on the following grounds and for the reasons set forth:

First—The thoroughfare is one of over thirty years' existence and has borne the name of the old Vanderveer family of Long Island for the major part of that time, and is, therefore, well known and most readily identified thereby.

Second—The residents and taxpayers of the thoroughfare were unaware of the impending change of name and hence were unable to protest thereagainst to your honorable body.

Third—The word "Racket," as applied to the thoroughfare, is meaningless, is of no historic origin or extraction, and does not possess any attribute which would commend it as a street title. In fact, in its application to the thoroughfare in question, it is a decided misnomer for obvious reasons, and is so considered and protested against by the taxpayers and voters.

Fourth—In making changes in street names in this ward, the name "Vanderveer," when removed from the street now known as Racket st., was applied to the thoroughfare lying east of Hopkinton ave. and running in a southerly direction from Jamaica ave., which was formerly known as Vanderveer place. Vanderveer place is improved for one block only, and, upon information and belief, it is not a thoroughfare which has been accepted by the City. Vanderveer ave., the present Racket st., is several blocks in length and is improved from end to end, both sides of the thoroughfare being practically solidly built up, and the title to the street being vested in the City.

Fifth—All thoroughfares, or the greater part of them, extending northerly from Jamaica ave. are designated as avenues, not as streets, the former method of designation having a considerable bearing upon the rental of property on the thoroughfare and adding to its saleability and value.

Wherefore, Your Honors are respectfully petitioned to give careful consideration to the foregoing reasons, particularly to that contained in paragraph Fourth, and take such action as may be required to restore to the thoroughfare now known as Racket st. the designation Vanderveer ave.

Communications on the subject may be addressed to P. Frank Sonnek, No. 34 Vanderveer ave. (Racket st.), Union Course, New York.

Respectfully submitted, WILLIAM MILLER, 26 Vanderveer ave., et al.

New York, November 17, 1913.

Hon. FRANK DOWLING, Alderman, City of New York:

Sir—Enclosed please find proposed amended ordinance relative to reinstatement of civilian employees of the Police Department, who are excluded by the wording of the previous resolution passed, thus making Police Department employees the only ones in the whole City Government ineligible for reinstatement.

Anything you can do to have the ordinance passed will be greatly appreciated by the Police Department employees.

Thanking you in advance for the kindness, I am,

Respectfully,

CHAS. D. GOTT.

AN ORDINANCE to amend "An ordinance in relation to the rehearing of charges against members of the Police Force and Fire Department of The City of New York," adopted by the Board of Aldermen October 14, 1913.

Be It Ordained by the Board of Aldermen of The City of New York as follows:

Section 1. Section 1 of "An ordinance in relation to the rehearing of charges against members of the Police Force and Fire Department of The City of New York," which was adopted October 14, 1913, and received from his Honor the Mayor October 28, 1913, without his approval or disapproval thereof, is hereby amended to read as follows:

Section 1. When a member of the Police Department or Fire Department shall have been dismissed or reduced after trial by the Police Commissioner or Fire Commissioner from the position or rank theretofore held by him, the person aggrieved may make written application to the Mayor, setting forth the reasons for demanding a rehearing of the charges upon which he was dismissed or reduced, and provided that such dismissed or reduced member shall waive in writing all claim against The City of New York for back pay, the Mayor may, in writing, consent to such rehearing, stating the reasons why such charges should be reheard.

Such application for a rehearing shall be made within one year after this enactment, or within one year from the date of the dismissal or reduction, if such dismissal or reduction occurs after this act takes effect.

Such rehearing shall be had by and before the Police Commissioner of The City of New York, if the applicant be a member of the Police Department, and before the Fire Commissioner, if the applicant be a member of the Fire Department, and if such Commissioner shall determine that such member has been illegally or unjustly dismissed or reduced from his position or rank, such Commissioner may restore him to the position or rank from which he was dismissed or reduced, and allow him the whole of his time since any such dismissal or reduction, to be applied on his time of service in such department, or for such other or further relief as such Commissioner may determine just, or affirm the dismissal or reduction, as he may determine from the evidence.

Sec. 2. This ordinance shall take effect immediately.

Memorandum.

The object of this amendment is to secure to the non-uniformed members of the Police Department the privilege of rehearing after dismissal in certain cases, now possessed by every other employee of the City, either under section 1543b of the Charter or under the provisions of the ordinance of which amendment is here requested.

The civilian employees of the Police Department were excluded from the pro-

visions of section 1543b of the Charter because it was supposed that they were provided for in section 1543a, which, however, referred only to the uniformed force. It is also unlikely that the Board of Aldermen intentionally excluded the Police Department employees in the ordinance of October 14 from the privilege there granted to the Fire Department members, of applying to the Mayor for rehearing of charges upon which a member had been dismissed.

The amendment consists in substituting the words "Police Department" for the words "Police Force."

**PUBLIC SERVICE COMMISSION.**

**Proposals**

**INVITATION TO CONTRACTORS.**

**PART OF THE SEVENTH AVENUE-LEXINGTON AVENUE RAPID TRANSIT RAILROAD.**

**THE PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT (hereinafter called "the Commission")** invites proposals to construct Section No. 2 of Routes 4 and 38, a part of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad.

The points within The City of New York between which the said part is to run and the route or routes to be followed are briefly as follows:

Section No. 2. Beginning at a point under Greenwich st., in the Borough of Manhattan, near the intersection of West Broadway, about seventy (70) feet south of the southerly building line of Vesey st., and extending thence northerly under Greenwich st., West Broadway and Varick st. to a point about one hundred (100) feet south of the southerly building line of Beach st.

Also a branch to this line, beginning at a point under Park place, in the Borough of Manhattan, about one hundred and seventeen (117) feet east of the easterly line of West Broadway and curving thence northwesterly under Park place, private property and West Broadway to a connection with the main line.

The general plan of construction calls for a subsurface railroad having two and four tracks. The details of the construction of the railroad and appurtenances are more particularly indicated on the contract drawings.

Bidders will not be required to provide or lay tracks, ties or ballast, nor to do station finish work.

The work of construction under the contract will include the construction of all necessary sewers and connections along or off the route of the railroad; also the necessary support, maintenance, readjustment and reconstruction of vaults adjacent to buildings, pipes, tubes, conduits, subways or other subsurface structures; the support and care, including underpinning or the maintaining, protecting and securing where necessary of all buildings, monuments, surface and elevated railroads and other surface, subsurface and overhead structures of any kind, etc., affected by or interfered with during the construction of the

work; also the restoration of the sidewalks and roadways.

The method of construction will be by trench excavation under cover, unless otherwise permitted by the Commission, as set forth in the form of contract.

Bidders must examine the form of contract and the specifications, maps and plans; must visit the location of the work and inform themselves of the present conditions along the line thereof and make their own estimates of the facilities and difficulties attending the execution of the proposed work.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated in the printed form of contract and in the contract drawings therein referred to. Printed copies of the form of contract, bond and contractor's proposal may be had on application at the office of the Commission, No. 154 Nassau st., Borough of Manhattan, City of New York. The contract drawings may be inspected at the same office, and copies thereof may be purchased by prospective bidders on payment of five dollars (\$5).

The printed form of contract and the contract drawings are to be deemed a part of this invitation.

The City and the Interborough Rapid Transit Company will both be parties to the contract; the Interborough Rapid Transit Company being a party for the purpose of disbursing part of its contribution toward the cost of construction, as provided in the contract dated March 19, 1913, between The City of New York, acting by the Commission, and Interborough Rapid Transit Company for the equipment, maintenance and operation of additional rapid transit railroads.

The liability of Interborough Rapid Transit Company under the contract for which bids are now invited will be limited to an amount equal to ninety-five (95) per centum of the aggregate sum arrived at by multiplying the estimated approximate quantities by the Unit Prices as contained in the Schedule of Unit Prices in the contractor's proposal.

The contractor is to accept the obligation of the Interborough Rapid Transit Company to make payments to the amount and in the manner provided in the contract and is to agree not to look to the City, except to the extent that the amounts earned under the contract may exceed the amount for which the Interborough Rapid Transit Company is liable.

The Commission is informed by the Department of Docks and Ferries that docks and bulkheads along the East River or along the North River may be available for dumping purposes. Information in regard thereto may be obtained by any intending bidder upon inquiry at the office of the Department of Docks and Ferries, with whom all arrangements must be made with respect to utilizing such docks and bulkheads as may be available.

Partial payments to the Contractor will be made monthly as the work proceeds, as provided in the form of contract.

The Contractor will be required to complete the work as soon as practicable and within a period of thirty-six (36) months from the date of the delivery of the contract.

Sealed bids or proposals will be received at the office of the Commission at No. 154 Nassau street, Borough of Manhattan, City of New York, until the 2d day of December, 1913, at twelve fifteen (12.15) o'clock p. m., at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission, copies of which may be obtained at the office of the Commission.

A statement based upon estimate of the Engineer, of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work required is to be found in the schedule forming a part of the form of contract's proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same, except as provided in the specifications and form of contract.

All proposals must, when submitted, be enclosed in a sealed envelope endorsed "Proposal for Constructing Part of Rapid Transit Railroad—Routes Nos. 4 and 38, Section No. 2," and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal, it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a separate certified check drawn upon a national or state bank or trust company having its principal office in The City of New York satisfactory to the Commission and payable to the order of the Comptroller of The City of New York for the sum of fifteen thousand dollars (\$15,000). Such check must not be enclosed in the envelope containing the proposal.

The unit prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Bidders whose proposals are otherwise satisfactory, in case the sureties or securities named by them are not approved by the Commission, may substitute in their proposals the names of other sureties or securities approved by the Commission, but such substitution must be made within five (5) days after notice of disapproval, unless such period is extended by the Commission.

A bidder whose proposal shall be accepted shall, in person or by duly authorized representative, attend at the said office of the Commission within ten days after the delivery of a notice by the Commission that his proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and such bidder shall then deliver a contract in the form referred to, duly executed and with its execution duly proved.

At the time of the delivery of the contract, the contractor will be required to furnish security to the City by giving a bond for seventy-five thousand dollars (\$75,000). At the option of the successful bidder, cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under this contract, they must be of the character of securities in which savings banks may invest their funds and must be approved by the Commission.

The contractor's bond must be in the form annexed to the form of contract.

In addition and as further security, fifteen (15) per centum of the amounts certified from time to time to be due to the contractor will be deducted until the amounts so deducted and retained shall equal ten (10) per centum of the sum of the amounts resulting from the product of the estimated approximate quantities and the Unit Prices as contained in the schedule of unit prices in the contractor's proposal. Thereafter there shall be so deducted and retained for such purpose ten (10) per centum of the amounts certified from time to time to be due to the contractor. The contractor may from time to time withdraw portions of the amount so retained upon depositing in lieu thereof corporate stock of The City of New York equal in market value to the amount so withdrawn.

In case of failure or neglect to execute and deliver the contract or to make the required deposit, such bidder will, at the option of the Commission, be deemed either to have made the contract or to have abandoned the contract. In the latter case, the Commission will give notice thereof to such defaulting bidder, and the Commission may thereupon proceed to make another contract with such, if any, of the original bidders as, in the opinion of the Commission, it will be to the best interests of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

If the Commission shall give notice to any bidder that his or its proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and if the bidder shall fail within ten (10) days thereafter or within such further period, if any, as may be prescribed by the Commission, to execute and deliver the contract and to execute and deliver the bond with sureties, or to make the required deposit, then the Invitation to Contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damage by it sustained by reason of such failure, and in such case the bidder shall, by the terms of the proposal, absolutely assign to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

All such deposits made by bidders whose proposals shall not be accepted by the Commission will be returned to the person or persons making the same within five (5) days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

**PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT.** By EDWARD E. McCALL, Chairman.

**INVITATION TO CONTRACTORS.**

**PART OF THE SEVENTH AVENUE-LEXINGTON AVENUE RAPID TRANSIT RAILROAD.**

**THE PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT (hereinafter called "the Commission")** invites proposals to construct Section 1 of Route 16, a part of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad.

The points within The City of New York between which the said part is to run and the route or routes to be followed are briefly as follows:

Section 1. Beginning at a point in property owned by the City on the easterly side of River avenue, in the Borough of The Bronx, about one hundred and twenty (120) feet south of the southerly building line of East 137th street and extending thence northerly along and over private property, River avenue and Jerome avenue to a point about forty-five (45) feet north of the northerly building line of East 182d street.

The general plan of construction calls for an elevated railroad. The details of the construction of the railroad and appurtenances are more particularly indicated on the contract drawings.

Bidders will not be required to provide or lay any tracks or ties, nor to do station finish work.

The work of construction under the contract will include the construction of all necessary sewers and connections, along or off the route of the railroad; also the necessary support, maintenance, readjustment and reconstruction of vaults adjacent to buildings, pipes, tubes, conduits, subways or other subsurface structures; the support and care, including underpinning or the maintaining, protecting and securing where necessary, of all buildings, monuments, surface railroads and other surface, subsurface and overhead structures of any kind, etc., affected by or interfered with during the construction of the work; also the restoration of the sidewalks and roadways.

Bidders must examine the form of contract and specifications, maps and plans; must visit the location of the work and inform themselves of the present conditions along the line thereof and make their own estimates of the facilities and difficulties attending the execution of the proposed work.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated, in the printed form of contract and in the contract drawings therein referred to. Printed copies of the form of contract, bond and contractor's proposal may be had on application at the office of the Commission, No. 154 Nassau street, Borough of Manhattan, City of New York. The contract drawings may be inspected at the same office, and copies thereof may be purchased by prospective bidders on payment of five dollars (\$5). The printed form of contract and the contract drawings are to be deemed a part of this invitation.

The City of New York (hereinafter called "the City") and the Interborough Rapid Transit Company will both be parties to the contract; the Interborough Rapid Transit Company being a party for the purpose of disbursing part of its contribution toward the cost of construction, as provided in the contract dated March 19, 1913, between The City of New York, acting by the Commission, and Interborough Rapid Transit Company for the equipment, maintenance and operation of additional rapid transit railroads.

The liability of Interborough Rapid Transit Company under the contract for which bids are now invited will be limited to an amount equal to ninety-five per centum (95%) of the aggregate sum arrived at by multiplying the estimated approximate quantities by the UNIT PRICES as contained in the SCHEDULE OF UNIT PRICES in the contractor's proposal. The contractor is to accept the obligation of the Interborough Rapid Transit Company to make payments to the amount and in the manner provided in the contract and is to agree not to look to the City, except to the extent that the amounts earned under the contract may exceed the amount for which the Interborough Rapid Transit Company is liable.

Partial payments to the contractor will be made monthly as the work proceeds as provided in the form of contract.

The contractor will be required to complete the work as soon as practicable and within a period of eighteen (18) months from the date of the delivery of the contract.

Sealed bids or proposals will be received at the office of the Commission at No. 154 Nassau street, Borough of Manhattan, City of New York, until the 28th day of November, 1913, at twelve fifteen (12.15) o'clock p. m., at which time, or at a later date to be set by the Commission, the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission, copies of which may be obtained at the office of the Commission.

A statement based upon estimate of the Engineer, of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work required is to be found in the schedule forming a part of the contractor's

proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same, except as provided in the specifications and form of contract.

All proposals must, when submitted, be enclosed in a sealed envelope endorsed "Proposal for Constructing Part of Rapid Transit Railroad—Route No. 16, Section No. 1," and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal, it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a separate certified check drawn upon a national or state bank or trust company having its principal office in The City of New York, satisfactory to the Commission and payable to the order of the Comptroller of The City of New York for the sum of fifteen thousand (\$15,000) dollars. Such check must not be enclosed in the envelope containing the proposal.

The unit prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Bidders whose proposals are otherwise satisfactory, in case the sureties or securities named by them are not approved by the Commission, may substitute in their proposals the names of other sureties or securities approved by the Commission, but such substitution must be made within five (5) days after notice of disapproval, unless such period is extended by the Commission.

A bidder whose proposal shall be accepted shall, in person or by duly authorized representative, attend at the said office of the Commission within ten (10) days after the delivery of a notice by the Commission that his proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and such bidder shall then deliver a contract in the form referred to, duly executed and with its execution duly proved.

At the time of the delivery of the contract, the contractor will be required to furnish security to the City by giving a bond for one hundred thousand (\$100,000) dollars. At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under the contract, they must be of the character of securities in which savings banks may invest their funds and must be approved by the Commission.

The contractor's bond must be in the form annexed to the form of contract.

In addition and as further security, fifteen (15) per centum of the amounts certified from time to time to be due to the contractor will be deducted until the amounts so deducted and retained shall equal ten (10) per centum of the sum of the amounts resulting from the product of the estimated approximate quantities and the Unit Prices as contained in the schedule of unit prices in the contractor's proposal. Thereafter there shall be so deducted and retained for such purpose ten (10) per centum of the amounts certified from time to time to be due to the contractor. The contractor may from time to time withdraw portions of the amount so retained upon depositing in lieu thereof corporate stock of The City of New York equal in market value to the amount so withdrawn.

In case of failure or neglect to execute and deliver the contract or to make the required deposit, such bidder will, at the option of the Commission, be deemed either to have made the contract or to have abandoned the contract. In the latter case, the Commission will give notice thereof to such defaulting bidder, and the Commission may thereupon proceed to make another contract with such, if any, of the original bidders as, in the opinion of the Commission, it will be to the best interests of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

If the Commission shall give notice to any bidder that his or its proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and if the bidder shall fail within ten (10) days thereafter or within such further period, if any, as may be prescribed by the Commission, to execute and deliver the contract and to execute and deliver the bond with sureties, or to make the required deposit, then the Invitation to Contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damage by it sustained by reason of such failure, and in such case the bidder shall, by the terms of the proposal, absolutely assign to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

All such deposits made by bidders whose proposals shall not be accepted by the Commission will be returned to the person or persons making the same within five (5) days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

#### INVITATION TO CONTRACTORS.

PART OF THE SEVENTH AVENUE-LEXINGTON AVENUE RAPID TRANSIT RAILROAD.

Part of Route No. 19 and 22.  
The Public Service Commission for the First District (hereinafter called "the Commission") invites proposals to construct Section No. 1-A of Route 19 and 22, a part of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad.

The points within The City of New York between which the said part is to run and the route or routes to be followed are briefly as follows: Section 1-A—Beginning at a point under Southern boulevard in the Borough of The Bronx about two hundred and seventy (270) feet north of the northeast corner of East 147th street and extending thence northerly under Southern boulevard, Hunts Point road, the public park, Dongan street and Whitlock avenue to a point over Whitlock avenue about one hundred and thirty (130) feet south of the southerly building line of Bancroft street.

The general plan of construction calls for a subsurface and elevated railroad having three tracks. The details of the construction and appurtenances are more particularly indicated on the contract drawings.

Bidders will not be required to provide or lay tracks, ties, or ballast, nor to do station finish work.

The work of construction under the contract will include the construction of all necessary sewers and connections, along or off the route of the railroad; also the necessary support, maintenance, readjustment and reconstruction of vaults adjacent to buildings, pipes, tubes, conduits, subways or other subsurface structures; the support and care, including underpinning or the maintaining, protecting and securing where necessary, of all buildings, monuments, surface railroads and other surface, subsurface and overhead structures of any kind, etc., affected by or interfering with during the construction of the work; also the restoration of the sidewalks and roadways.

The method of construction, unless otherwise permitted by the Commission, will be partly by trench excavation under cover and partly by open trench excavation without cover as set forth in the form of contract.

Bidders must examine the form of contract and specifications, maps and plans; must visit the location of the work and inform themselves of the present conditions along the line thereof and make their own estimates of the facilities and difficulties attending the execution of the proposed work.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated, in the printed form of contract and in the contract drawings therein referred to. Printed copies of the form of contract, bond and contractor's proposal may be had on application at the office of the Commission, No. 154 Nassau street, Borough of Manhattan, City of New York. The contract drawings may be inspected at the same office, and copies thereof may be purchased by prospective bidders on payment of five dollars (\$5). The printed form of contract and the contract drawings are to be deemed a part of this invitation.

The City and the Interborough Rapid Transit Company will both be parties to the contract; the Interborough Rapid Transit Company being a party for the purpose of disbursing part of its contribution toward the cost of construction as provided in the contract dated March 19, 1913, between The City of New York, acting by the Commission, and Interborough Rapid Transit Company for the equipment, maintenance and operation of additional rapid transit railroads. The liability of Interborough Rapid Transit Company under the contract for which bids are now invited will be limited to an amount equal to ninety-five per centum (95%) of the aggregate sum arrived at by multiplying the estimated approximate quantities by the unit prices as contained in the SCHEDULE OF UNIT PRICES in the contractor's proposal. The contractor is to accept the obligation of the Interborough Rapid Transit Company to make payments to the amount and in the manner provided in the contract and is to agree not to look to the City except to the extent that the amounts earned under the contract may exceed the amount for which the Interborough Rapid Transit Company is liable.

Partial payments to the contractor will be made monthly as the work proceeds as provided in the form of contract.

The contractor will be required to complete the work as soon as practicable and within a period of thirty (30) months from the date of the delivery of the contract.

**Sealed bids or proposals will be received at the office of the Commission at No. 154 Nassau street, Borough of Manhattan, City of New York, until the 1st day of December, 1913, at twelve fifteen (12.15) o'clock p. m., at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.**

Proposals must be in the form prescribed by

the Commission, copies of which may be obtained at the office of the Commission.

A statement based upon estimate of the Engineer, of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work required is to be found in the schedule forming a part of the contractor's proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same, except as provided in the specifications and form of contract.

All proposals must, when submitted, be enclosed in a sealed envelope endorsed "Proposals for Constructing Part of Rapid Transit Railroad—Route No. 19 and 22, Section No. 1-A," and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a separate certified check drawn upon a national or state bank or trust company having its principal office in The City of New York, satisfactory to the Commission and payable to the order of the Comptroller of The City of New York for the sum of fifteen thousand (\$15,000) dollars. Such check must not be enclosed in the envelope containing the proposal.

*The Unit Prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.*

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Bidders whose proposals are otherwise satisfactory, in case the sureties or securities named by them are not approved by the Commission, may substitute in their proposals the names of other sureties or securities approved by the Commission, but such substitution must be made within five (5) days after notice of disapproval, unless such period is extended by the Commission.

A bidder whose proposal shall be accepted shall, in person or by duly authorized representative, attend at the said office of the Commission within ten (10) days after the delivery of a notice by the Commission that his proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and such bidder shall then deliver a contract in the form referred to, duly executed and with its execution duly proved.

At the time of the delivery of the contract, the contractor will be required to furnish security to the City by giving a bond for one hundred and fifty thousand (\$150,000) dollars. At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under the contract, they must be of the character of securities in which savings banks may invest their funds and must be approved by the Commission.

The contractor's bond must be in the form annexed to the form of contract.

In addition and as further security fifteen (15) per centum of the amounts certified from time to time to be due to the contractor will be deducted until the amounts so deducted and retained shall equal ten (10) per centum of the sum of the amounts resulting from the product of the estimated approximate quantities and the Unit Prices as contained in the schedule of unit prices in the contractor's proposal. Thereafter there shall be so deducted and retained for such purpose ten (10) per centum of the amounts certified from time to time to be due to the contractor. The contractor may from time to time withdraw portions of the amounts so retained upon depositing in lieu thereof corporate stock of The City of New York equal in market value to the amount so withdrawn.

In case of failure or neglect to execute and deliver the contract or to execute and deliver the required deposit, such bidder will, at the option of the Commission, be deemed either to have made the contract or to have abandoned the contract. In the latter case, the Commission will give notice thereof to such defaulting bidder, and the Commission may thereupon proceed to make another contract with such, if any, of the original bidders as, in the opinion of the Commission, it will be to the best interests of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

If the Commission shall give notice to any bidder that his or its proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and if the bidder shall fail within ten (10) days thereafter or within such further period, if any, as may be prescribed by the Commission, to execute and deliver the contract and to execute and deliver the bond with sureties, or to make the required deposit, then the Invitation to Contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damage by it sustained by reason of such failure, and in such case the bidder shall, by the terms of the proposal, absolutely assign to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

All such deposits made by bidders whose proposals shall not be accepted by the Commission will be returned to the person or persons making the same within five (5) days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

The points within The City of New York between which the said part is to run and the route or routes to be followed are briefly as follows:

Section No. 2—Beginning at a point near the intersection of 10th ave. and 39th st., in the Borough of Brooklyn, and extending thence southerly over and along 10th ave. to New Utrecht ave., thence southerly over and along New Utrecht ave. to a point therein at or near 81st st., and thence extending southerly over private property, 84th st. private property, 18th ave., private property, 85th st., private property and 86th st. to a point in 86th st. near 19th

ave.; thence southeasterly over and along 86th st. to a point at or near the intersection of 86th st. with Bay 41st st., thence curving southeasterly into Stillwell ave.; continuing thence along and over Stillwell ave. to a point about one hundred and fifty (150) feet north of the centre line of Avenue Y, where a connection may be made with a railroad which will be provided and kept available for use by the New York Municipal Railway Corporation.

The general plan of construction calls for an elevated railroad. The details of the construction of the railroad and appurtenances are more particularly indicated on the contract drawings.

Bidders will not be required to provide or lay tracks or ties, nor to do station finish work.

The work of construction under the contract will include the construction of all necessary sewers and connections along or off the route of the railroad; also the necessary support, maintenance, readjustment and reconstruction of vaults adjacent to buildings, pipes, tubes, conduits, subways or other subsurface structures; the support and care of all buildings, monuments, surface railroads and other surface, subsurface and overhead structures of any kind, etc., affected by or interfering with during the construction of the work; also the restoration of the sidewalks and roadways.

Bidders must examine the form of contract and the specifications, maps and plans; must visit the location of the work and inform themselves of the present conditions along the line thereof, and make their own estimates of the facilities and difficulties attending the execution of the proposed work.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated, in the printed form of contract and in the contract drawings therein referred to. Printed copies of the form of contract, bond and contractor's proposal may be had on application at the office of the Commission, No. 154 Nassau st., Borough of Manhattan, City of New York. The contract drawings may be inspected at the same office, and copies thereof may be purchased by prospective bidders on payment of five dollars (\$5). The printed form of contract and the contract drawings are to be deemed a part of this invitation.

Partial payments to the Contractor will be made monthly as the work proceeds, as provided in the form of contract.

The Contractor will be required to complete the work as soon as practicable and within a period of eighteen (18) months from the date of the delivery of the contract.

**Sealed bids or proposals will be received at the office of the Commission at No. 154 Nassau street, Borough of Manhattan, City of New York, until the 21st day of November, 1913, at twelve fifteen (12.15) o'clock p. m., at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.**

Proposals must be in the form prescribed by the Commission, copies of which may be obtained at the office of the Commission.

A statement based upon estimate of the Engineer, of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work required is to be found in the schedule forming a part of the form of contractor's proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids, and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same, except as provided in the specifications and form of contract.

All proposals must, when submitted, be enclosed in a sealed envelope endorsed "Proposals for Constructing Part of Rapid Transit Railroad—Route No. 39, Section No. 2," and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal, it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a separate certified check drawn upon a national or state bank or trust company having its principal office in The City of New York, satisfactory to the Commission and payable to the order of the Comptroller of The City of New York for the sum of fifteen thousand dollars (\$15,000). Such check must not be enclosed in the envelope containing the proposal.

*The unit prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.*

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Bidders whose proposals are otherwise satisfactory, in case the sureties or securities named by them are not approved by the Commission, may substitute in their proposals the names of other sureties or securities approved by the Commission, but such substitution must be made within five (5) days after notice of disapproval, unless such period is extended by the Commission.

A bidder whose proposal shall be accepted shall, in person or by duly authorized representative, attend at the said office of the Commission within ten (10) days after the delivery of a notice by the Commission that his proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and such bidder shall then deliver the contract in the form referred to, duly executed and with its execution duly proved.

At the time of the delivery of the contract the Contractor will be required to furnish security to the City by giving a bond for one hundred thousand dollars (\$100,000). At the option of the successful bidder, cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under the contract, they must be of the character of securities in which savings banks may invest their funds, and must be approved by the Commission.

The Contractor's bond must be in the form annexed to the form of contract.

In addition and as further security, fifteen (15) per centum of the amounts certified from time to time to be due to the Contractor will be deducted until the amounts so deducted and retained shall equal ten (10) per centum of the sum of the amounts resulting from the product of the estimated approximate quantities and the unit prices as contained in the schedule of unit prices in the contractor's proposal. Thereafter there shall be so deducted and retained for such purpose ten (10) per centum of the amounts certified from time to time to be due to the Contractor. The Contractor may from time to time withdraw portions of the amounts so retained upon depositing in lieu thereof corporate stock of The City of New York equal in market value to the amount so withdrawn.

In case of failure or neglect to execute and deliver the contract or to execute and deliver the required deposit, such bidder will, at the option of the Commission, be deemed either to have made the contract or to have abandoned the contract. In the latter case, the Commission will give notice thereof to such defaulting bidder, and the Commission may thereupon proceed to make another contract with such, if any, of the original bidders, as, in the opinion of the Commission, it will be to the best interests of the City to contract

with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

If the Commission shall give notice to any bidder that his or its proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and if the bidder shall fail within ten (10) days thereafter or within such further period, if any, as may be prescribed by the Commission, to execute and deliver the contract and to execute and deliver the bond with sureties, or to make the required deposit, then the invitation to contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damage by it sustained by reason of such failure, and in such case the bidder shall, by the terms of the proposal, absolutely assign to the City the ownership of the check accompanying his or its proposal as a payment on account of such damage.

All such deposits made by bidders whose proposals shall not be accepted by the Commission will be returned to the person or persons making the same within five (5) days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions in respect of the bond or deposit are complied with. The right to reject any and all bids is reserved.

#### NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer

in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless, The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrows, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beams, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.
