CERTIFICATE 25124

RESOLVED That the Design Commission, having considered designs for the construction of a university residential building as part of Phase I of the construction of Cornell University/Technion-Israel Institute of Technology's applied sciences campus, Roosevelt Island, Manhattan, submitted by the Economic Development Corporation, represented by exhibits 241-GE, GF, GR & GS of record in this matter, hereby gives to the same unanimous preliminary approval (1) subject to the submission of a rendering from the point of view of the southern part of the campus and (2) with the understanding that the future adjacent conference center/hotel should have a similar façade treatment, so the two structures create a backdrop to the campus.

The Commission notes that the height of the residential building, though less than what zoning allows, is out of scale for the site, especially given the proximity to the Queensboro Bridge, and that it is critical that the design is as neutral as possible.

Preliminary approval is conditioned upon submission of this project for final review and approval before August 4, 2016.
