The President laid before the Board the following communication from the Comptroller:

CITY OF NEW YORK—FINANCE DEPARTMENT, COMPTROLLER'S OFFICE, October 18, 1889.

To the Honorable the Board of Aldermen:

Thave the honor to transmit to your Honorable Boly herewith a duplicate copy of the Departmental Estimate of the amount of expenditure required in the Finance Department in the ensuing fiscal year 1890, specifying in detail the objects thereof, and including a statement of each of the salaries of the officers, clerks, employees and subordinates of that Department, pursuant to the provisions contained in section 189 of the New York City Consolidation Act of 1882.

Respectfully submitted,

THEO. W. MYERS, Comptroller.

CITY OF NEW YORK—FINANCE DEPARTMENT, COMPTROLLER'S OFFICE, October 15, 1889.

To the Board of Estimate and Apportionment:

To the Board of Estimate and Apportionment:

I have the honor to submit herewith the Departmental Estimate of the Finance Department for the year 1890, pursuant to the provisions of section 189 of the New York City Consolidation Act of 1882, in which is specified in detail the amount of all expenditures required by that department for said fiscal year, and the objects and purposes thereof, the amount of all salaries of officers, clerks and employees in the service of said department, including the compensation of temporary clerks required annually during the latter part of the year to perform additional clerical duties then required in the Bureau for the Collection of Taxes.

Statements in detail are also submitted of all the stocks and bonds of the City and County of New York and of the territory annexed from Westchester County, now constituting the Twenty-third and Twenty-fourth Wards, which will become due and payable in the said year 1890, from taxation and the Sinking Fund for the Redemption of the City Debt, and from collections of assessments, together with statements of interest becoming due thereon in said year, and estimates of the amounts required to be raised by tax for interest on Revenue Bonds to be issued in 1890, and other classes of stocks and bonds.

The principal of stocks and bonds payable in the year 1890 from taxation and from the Sinking

classes of stocks and bonds.

The principal of stocks and bonds payable in the year 1890 from taxation and from the Sinking Fund, as provided by sections 176 and 177 of the Consolidation Act, as shown by the statement thereof, amounting to the sum of \$4,298,000, and for ning a portion of the Funded Debt, can be paid from the Sinking Fund for the Redemption of the City Debt, and need not be included by the Board of Estimate and Apportonment in the Final Estimate for 1890.

A statement shows that stocks for the sum of \$321,400 become due in 1890, which will be redeemed from the Sinking Fund for the Redemption of the City Debt, under section 177 of the Consolidation Act, which provides for the payment, from that fund, of certain "preferred stocks and bonds," originally payable by law from taxation.

Bonds issued for various purposes become due and payable in 1890 from taxation, which are to be provided for by the Board of Estimate and Apportonment, amount to the sum of \$134,587.41, as shown by a statement thereof.

Bonds issued for various purposes become due and payable in 1890 from taxation, which are to be provided for by the Board of Estimate and Apport onment, amount to the sum of \$134,587.41, as shown by a statement thereof.

Bonds amounting to \$2,600,000, payable from the collections of assessments for street improvements, become due and payable in 1890, which may be provided for, if the amount in the City Treasury derived from assessments should not be sufficient, by the issue of bonds for the amount required under the authority of section 150 of the Consolidation Act ot 1882.

The sum of \$963,666.54 is estimated to be required and raised by tax in 1890, under the provisions of section 11 of the State Constitution, as amended in 1884, which provides for an amount to be raised annually, sufficient with the accumulation of interest thereon to redeem the stocks payable from taxation, issued after December 31, 1884, for the supply of water.

In my Departmental Estimate for 1883, I called attention to the rapidly augmenting burden imposed upon the taxpayers by the provision of section 192 of the Consolidation Act, requiring to be included in the annual estimate and raised by tax, a sum sufficient, with the accumulation of increst thereon, to meet and discharge the amount of bonds and stocks payable from taxation, pursuant to any statute authorizing the same, issued after June 3, 1878.

An act (chapter 178, Laws of 1889) was passed at the last session of the Legislature relieving the taxpayers of this burden, by providing for the redemption of said bonds and stocks from the Sinking Fund for the Redemption of the City Debt, and authorizing the Board of Estimate and Apportionment to "reconsider, revise and amend the Final Estimate for 1889," which was done at a meeting held on April 26 last, by striking out and deducting the sum of \$975,760.02, which was included therein to provide for installments required to be raised by tax in that year, to pay the bonds and stocks payable by law from taxation, issued after June 3, 187

There was also a further reduction under said act, of the sum of \$00,000, which was included in the Final Estimate for 1889, to provide for interest to accrue on bonds and stocks to be issued in that year, which the Commissioners of the Sinking Fund would probably take as an investment, making a total amount of \$2.653,684.56, which was stricken from the Final Estimate for 1889, under the act of 1889, and payment provided for from the Sinking Fund, as shown by the statement

thereof.

The amount of the installment which, under the provisions of section 192 of the Consolidation Act, would be required to be included in the Final Estimate and raised by tax in 1890, to provide for the redemption of bonds and stocks issued after June 3, 1878, excepting those issued for the supply of water, is \$1,078,529.33.

Under the provisions of chapter 178 of the Laws of 1889, this amount will be set apart out of the surplus revenues and accumulations of the Sinking Fund for the Redemption of the City Debt, for the payment of such stocks and bonds at maturity, instead of raising the amount by tax in 1890.

The amount of interest on stocks and bonds now held by the Commissioners of the Sinking Fund, and which will be purchased for investment in 1890, as estimated, which under the statutes

authorizing the issue of such stocks would have to be paid by tax in that year, is \$1,701,597.86. Under said act of 1889 this amount will be paid from the "Sinking Fund for the Payment of Interest on the City Debt, "Instead of being included in the Final Estimate and raised by tax in 1890. As will be seen by the accompanying statement, the interest on the City Debt (including interest on the debt of the territory annexed from Westchester County), on bonds and stock issued and outstanding September 1, 1889, exclasive of funded debt held for investment by the Commissioners of the Sinking Fund, amounts to the sum of \$4,922,746.69, which amount will be included in the Final Estimate and raised by tax in 1890.

The estimated amount of interest required to be raised by tax in 1890, on stocks and bonds to be issued after August 31, 1890, and in 1890, less such stocks and bonds which, as estimated, will be purchased by the Commissioners of the Sinking Fund, is \$214,807,50, as shown by the statement thereof.

The principal and interest of bonds issued by the towns of Morrisania and West Farms prior to annexation to the City of New York, which become due and payable from tratation in the year 1890, amount to the sum of \$72,840, as shown by the statements thereof for each town, which amount is included in other statements under the proper heads.

The quota of State tax of the City and Lounty of New York to be raised by tax in 1890, including the tax for Common Schools in the state and expenses of the Shore Inspector, is \$5,698,248.89, being an increase of \$15,597,420,18 over the amount for the present year. This large increase of the State tax furgoes a heavy burden upon the City of New York, which is all the more onerous on account of the increase in valuations upon which the State tax is assessed, as fixed by the State Board of Equalization over the amount of valuations fixed by the Commissioners of Taxes and Assessments, upon which the city tax is assessed. This injustice has been heretotore the subject of discussion a

Respectfully submitted, $$\operatorname{THEO}$$, W. MVERS, Comptroller.
