DEPARTMENT OF CORRECTION OF THE CITY OF NEW YORK,
COMMISSIONER'S OFFICE, No. 148 EAST TWENTIETH STREET,
NEW YORK, April 28, 1899.

To the Honorable the Board of Estimate and Apportionment:

I respectfully ask for the transfer of four thousand five hundred dollars (\$4,500) from the appropriation entitled "Repairs to Sea-wall, Blackwell's Island," 1899, to the appropriation entitled "Repairs to Buildings and Apparatus," for the same year.

The amount (\$10,000) appropriated for "Repairs to Buildings and Apparatus," is insufficient for the purposes required. \$7,000 of the sum appropriated has been used to install a new steam plant in the Workhouse and a pumping outfit for the stone quarry. No repairs of importance had been made to the steam plant at the Workhouse for many years, and it was feared that an accident might occur. The quarry could not be used on account of the water therein (about 40 feet), and the pumping engine, etc., were absolutely necessary. The balance of the appropriation has been spent for lumber, paints, oils, fittings, etc.

Trusting that you will grant the above transfer as soon as possible.

Very respectfully,

FRANCIS J. LANTRY, Commissioner.

DEPARTMENT OF FINANCE—CITY OF NEW YORK, }
May 12, 1899.

Hon. BIRD S. COLER, Comptroller:

SIR—The Commissioner of the Department of Correction, in communication of April 28, 1899, to the Board of Estimate and Apportionment, requests the transfer of \$4,500 from the appropriation entitled "Repairs to Sea-wall, Blackwell's Island," 1899, to the appropriation entitled "Repairs to Buildings and Apparatus," for the same year.

The Commissioner explains how the appropriation of \$10,000 for "Repairs to Buildings and Apparatus" has been exhausted, and he informs me that the "Repairs to Sea-wall, Blackwell's Island," for which the appropriation was \$4,500, he intends to postpone.

As the Commissioner has decided that it is not necessary to repair the sea-wall at present, I see no objection to transferring the amount appropriated for it to the "Repairs to Buildings and Apparatus," where it is required.

Respectfully,

EUG. E. McLEAN, Engineer.

P. S.—This has nothing to do with Riker's Island.

E. E. McL.

And offered the following:

To the Honorable the Board of Estimate and Apportionment:

I beg to submit for your consideration, plans and specifications for fire-escapes proposed to be placed on new kitchen and keepers' quarters, at the Penitentiary, Blackwell's Island. If the same meets with the approval of your Board, I would respectfully request that the sum of three thousand dollars (\$3,000) be set aside for the purpose out of the amount authorized to be raised by the issue of bonds, pursuant to the provisions of chapter 626 of the Laws of 1896 and chapter 642, Laws of 1897.

I deem it imperatively necessary that the lives of those domiciled at and sleeping in the building, night and day, should be protected in the event of fire.

I am informed that the above sum of \$3,000 is intended as "the estimate of approximate probable cost," required by section 2 of the law. The plans and specifications submitted are full and satisfactorily explain the work to be done. They are duly signed by the Architect, Mr. George M. Walgrove, and are approved by the Commissioner and by the Consulting Architect, Mr. John R. Thomas.

I think the Board of Estimate and Apportionment may properly give its approval, and make the necessary provision for carrying out the work, as requested by the Commissioner.

Under the provisions of section 3 of the law, the work has to be done by contract, made at public letting, so that the cost may be more or less than the estimate.

Respectfully,

EUG. E. McLEAN, Engineer.

Resolved, That the sum of three thousand dollars (\$3,000), unapplied and unexpended from the proceeds of bonds sold pursuant to the provisions of chapter 626 of the Laws of 1896, and chapter 642 of the Laws of 1897, be and the same is hereby set aside and made applicable for the construction of fire-escapes to be placed on the new kitchen and keepers' quarters at the Penitentiary, Blackwell's Island, and that the plans and specifications submitted to this Board for that purpose, duly signed by the Architect, George M. Walgrove, approved by the Commissioner and the Consulting Architect, Mr. John R. Thomas, be and the same are hereby approved.

DEPARTMENT OF FINANCE—CITY OF NEW YORK,
May 12, 1899.

Hon. BIRD S. COLER, Comptroller :

SIR—The Commissioner of the Department of Correction, in communication of May 12, 1899, to the Board of Estimate and Apportionment, recommends "that the proposal of P. J. Carlin & Co. (contractors for mason work), for strengthening floors and removing and replacing fireproofing, new city prison, as per plans and specifications of Withers & Dickson, Architects, as approved by George B. Post, Consulting Architect, for \$11,000, be approved by your Board in order that I may accept the same, as I believe such proposal will be for the best interests of the City."

In previous communications the Commissioner has submitted to the Board the plans and specifications of the proposed work, duly approved by him and the Architects, Messrs. Withers and Dickson, and the Consulting Architect, Mr. George B. Post; also the offer of the contractor to perform the required work at the price of \$11,000, approved by the same architects and the consulting architect; also the consent of the sureties of the said contractors. All of these papers are submitted in accordance with the requirements of section 3, chapter 626, Laws of 1896, as follows: "The Commissioner of Correction, with the approval of the Board of Estimate and Apportionment first had and obtained, is hereby authorized and empowered, with the consent in writing of the contractor and his sureties, to alter any plans, and the terms and specifications of any contract entered into by authority of this Act, provided that such alteration shall in no case involve or require an increased expense greater than five per centum of the whole expenditure provided for in said contract."

The contract of P. J. Carlin & Co., the contractors for general construction, masonry, etc., amounts to \$350,000, and five per centum of this amount is \$17,250.

All the requirements of the law have been fulfilled, and the work being considered necessary, in order that the building may have the proper strength, I think the Board of Estimate and Apportionment may properly give its approval to the changes proposed.

Respectfully,

EUG. E. McLEAN, Engineer.

The Comptroller presented the following :

OFFICE OF THE COMMISSIONER OF RECORDS,
BROOKLYN, N. Y., May 12, 1899.

The Board of Estimate and Apportionment of The City of New York :

GENTLEMEN: The Commissioners of Record of the County of Kings respectfully request that your Honorable Board set apart the sum of four hundred and eighty-three dollars and thirty cents (\$483.30) for the payment of Index-Book O, P, Q and R of Wills, Letters Testamentary, Letters of Administration and Administrators' bonds, in the office of the Surrogate of Kings County, out of the unexpended balance of the appropriation made by you to the said Commissioners for the year 1898, which balance amounts to \$1,376.45.

Yours very truly,

JOHN M. RIDER, Chairman.

And offered the following :

Resolved, That the sum of four hundred and eighty-three dollars and thirty cents (\$483.30) remaining unexpended of the appropriation made to the Commissioners of Records, Kings County, for the year 1898, be and the same is hereby made applicable for the payment of expenses incurred under the authority of said Commissioners in the Surrogate's Court of the County of Kings.

Which was adopted by the following vote :

The Comptroller presented the following :

DEPARTMENT OF CORRECTION OF THE CITY OF NEW YORK,
COMMISSIONER'S OFFICE, NO. 148 EAST TWENTIETH STREET,
NEW YORK, May 8, 1899.

Hon. ROBERT A. VAN WYCK, Mayor, and Chairman Board of Estimate and Apportionment :

DEAR SIR—On March 16th you appointed me to represent The City of New York in the transfer from the State Insane Department to the City of Hart's Island and all buildings and property belonging to the City. The transfer has been made, and report has been made to you of all properties received by me, with a full inventory of the same.

These buildings are in poor condition; the boilers also need repairs made at once.

I have transferred to Hart's Island all the helpless inmates of the Workhouse, who have been committed by Police Magistrates for being homeless and destitute, but who are charged with no other offense. I have taken away their stripes, and have clothed them in blue suits. This I have been able to do from my appropriation, and also to provide for the keepers and attendants necessary for their care. But I would respectfully request that you will allow me the following sums :

For coal to heat the buildings on Hart's Island.....	\$1,000 00
For necessary repairs to boilers, etc.....	2,000 00
For water.....	1,000 00

The Water Contract was between the State and the Westchester Water Company, which contract has now ceased, so that I will have to pay for all the water used on the Island since it was vacated by the State Insane.

Hoping you will see some way to help me in this matter, I remain,

Respectfully,

FRANCIS J. LANTRY, Commissioner.

DEPARTMENT OF FINANCE—CITY OF NEW YORK,
May 12, 1899.

Hon. BIRD S. COLER, Comptroller.

SIR—The Commissioner of the Department of Correction, in communication of May 8, 1899, to the Board of Estimate and Apportionment, states that the transfer from the State Insane Department to the City, of Hart's Island, and all buildings and property belonging to the City, has been made; that the buildings are in poor condition, and that the boilers require immediate repairs; that he has transferred to Hart's Island all the helpless inmates of the workhouse, who have been committed by Police Magistrates for being homeless and destitute, but who are charged with no other offense; that he has been able to do this from his appropriation, and also to provide for the keepers and attendants necessary for their care.

He requests an appropriation of the following sums :

For coal to heat the buildings on Hart's Island.....	\$1,000 00
For necessary repairs to boilers, etc.....	2,000 00
For water.....	1,000 00

\$4,000 00

To meet the above absolutely necessary expenditures the Commissioner informs me he has no funds, the island coming within his control unexpectedly at this time.

The emergency appears to be such that I think the funds should be furnished if it can possibly be legally done.

Respectfully,

EUG. E. McLEAN, Engineer.

And offered the following :

Resolved, That the sum of four thousand dollars (\$4,000) be and the same is hereby transferred from the appropriation made to the Department of Finance for the year 1899, entitled, "Salaries," Borough of Queens, to the following appropriations made to the Department of Correction for the year 1899, and as follows :

Borough of Manhattan.

"Supplies".....	\$2,000 00
"Repairs to Building and Apparatus".....	2,000 00
	\$4,000 00

—said transfer being made to provide for the care of the buildings and property on Hart's Island, surrendered to the City from the State.

Which was adopted by the following vote :

Affirmative—The Mayor, Comptroller, Corporation Counsel, President of the Council and President of the Department of Taxes and Assessments—5.

The Comptroller presented the following :

HEADQUARTERS FIRE DEPARTMENT, CITY OF NEW YORK,
Nos. 157 AND 159 EAST SIXTY-SEVENTH STREET,
BOROUGH OF MANHATTAN, April 27, 1899.

Hon. ROBERT A. VAN WYCK, Mayor, and Chairman, Board of Estimate and Apportionment :

SIR—It is my intention at an early day, provided your Honorable Board will permit, to advertise on behalf of this Department for the purchase of the following apparatus :

Boroughs of Manhattan and The Bronx.

One third-size steel-frame hook and ladder truck.
One first-size La France steam fire-engine.
Two combination chemical engines and hose wagons.
Two first-size hose wagons.
One 85-foot Dederick aerial hook and ladder truck.
One first-size steam fire-engine, Fox sectional boiler.

Boroughs of Brooklyn and Queens.

Six first-size hose wagons.
One 60-foot Babcock aerial turn-table hook and ladder truck.
Three Hayes extension-ladder trucks and fire-escapes (large size).
Three combination hook and ladder trucks and chemical engines.

As the apparatus above enumerated are patented, I am advised by section 63 of the Consolidation Act, as it existed in 1891, and by section 1554 of the Greater New York Charter, that it will become necessary, before said advertisement is published, to secure from your Honorable Board the conditions it may prescribe in order to secure a fair and reasonable opportunity for competition.

The apparatus enumerated are required for the proper transaction of the business of this Department, and I therefore respectfully request that you will bring the matter to the attention of the Board of Estimate and Apportionment at the earliest practicable date.

Yours respectfully,

JOHN J. SCANNELL, Commissioner.

DEPARTMENT OF FINANCE—CITY OF NEW YORK,
May 11, 1899.

Hon. BIRD S. COLER, Comptroller :

SIR—The Commissioner of the Fire Department, in communication of April 27, 1899, to the Board of Estimate and Apportionment, enumerates certain apparatus which it is his intention to advertise for the purchase of at an early day, and says: "As the apparatus above enumerated are patented, I am advised by section 63 of the Consolidation Act, as it existed in 1891, and by section 1554 of the Greater New York Charter, that it will become necessary, before said advertisement is published, to secure from your Honorable Board the conditions it may prescribe in order to secure a fair and reasonable opportunity for competition."

It is absolutely necessary that the Fire Department should be equipped with the very best apparatus that can be obtained, and such perfect apparatus is usually patented. The Commissioner states that those enumerated by him are patented.

Section 1554 of the Charter says: "No patented article shall be advertised for, contracted for, or purchased, except under such circumstances that there can be a fair and reasonable opportunity for competition, the conditions to secure which shall be prescribed by the Board of Estimate and Apportionment."

Under the circumstances set forth above, the necessity of purchasing the best, and the prohibition of section 1554, I see no proper course for the Board to pursue than to direct that the advertisement calling for proposals for any apparatus shall have the words "or equal thereto," added.

This would not, probably, lead to any other choice than that now made by the Commissioner, but it leaves the matter open as far as it can be, and the method being prescribed by the Board of Estimate and Apportionment, the law will not be violated.

The estimated value of the apparatus enumerated is about \$38,500.

Respectfully,

EUG. E. McLEAN, Engineer.

And offered the following :

Resolved, That pursuant to the provisions of section 1554 of the Greater New York Charter, the Board of Estimate and Apportionment hereby approves of the advertising by the Fire Commissioner for proposals for the purchase of the apparatus described in his communication to this Board dated April 27, 1899, upon specifications which shall refer to said articles as patented, with the addition of the words in said specifications "or equal thereto."

Which was adopted by the following vote :

Affirmative—The Mayor, Comptroller, Corporation Counsel, President of the Council and President of the Department of Taxes and Assessments—5.

The Comptroller presented the following :

DEPARTMENT OF PARKS—CITY OF NEW YORK,
THE ARSENAL, CENTRAL PARK,
May 3, 1899.

To the Board of Estimate and Apportionment, The City of New York :

GENTLEMEN—At a meeting of the Park Board, held on the 27th ultimo, the following resolution was adopted :

"Resolved, That the bids or proposals this day received for the removal of the Forty-second Street Reservoir, and other work in connection with the construction of the public library building in Bryant Park, to be erected by the New York Public Library, Astor, Lenox and Tilden Foundations, be forwarded to the Board of Estimate and Apportionment for the action of that Board, as provided by section 2 of chapter 556 of the Laws of 1897."

Inclosed herewith I beg to forward bids or proposals, twelve in number, referred to in the foregoing resolution, together with a table, showing the prices and amounts of the several bids.

Respectfully,

WILLIS HOLLY, Secretary, Park Board.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
May 11, 1899.

Hon. BIRD S. COLER, Comptroller :

SIR—The Park Board, in communication of May 3, 1899, in conformity with a resolution adopted by the Board April 27, 1899, transmits to the Board of Estimate and Apportionment the bids or proposals received on that date, for the removal of the Forty-second Street Reservoir and other work in connection therewith, as provided by section 2 of chapter 556, Laws of 1897.

These bids or proposals are twelve in number, and a table, showing the prices and amounts of the several bids, is also inclosed by the Park Board.

A brief explanation of the sections of the specifications on which the bids were made appears to be necessary.

Section 1.

Provides for the entire removal from the site of the masonry and rubbish of the reservoir, building a fence, and executing some other work not necessary to enumerate.

Section 2.

Includes all the work specified in Section 1, excepting only that 18,000 cubic yards of the cut stone and the face stone, and the best of the rubble stone will be cleaned and stacked on the site. The coved cornice not to be included in this amount.

Section 3.

Includes all the work specified in Section 1, "excepting only that 7,200 square feet of the battered face cut stone, 1,050 cubic yards of face stone from the masonry main walls, 600 cubic yards of rough stone for rubble-work, and 5,500 square feet of coping to be cleaned and delivered by contractor at the pier at Riker's Island, where it is to be unloaded and removed by the Department of Correction.

From the best of the remaining masonry of the reservoir the quantity (18,000 cubic yards) and character of stone described in Section 2 to be cleaned and stacked on the ground.

Section 4.

Includes excavation for cellars, trenches, etc., and building foundation walls to a certain height. The work on this section is itemized, and the bids are given on each item.

In the twelve bids submitted, a sum is named for the work on each of these sections, but in that of Isaac A. Hopper, for Sections 2 and 3, there is evidently a misconception of the requirements.

He bids for Section 1.....	\$235,250 00
He bids for Section 2.....	18,000 00
He bids for Section 3.....	7,500 00
He bids for Section 4, aggregate sum of all the items, as per tabular statement.....	289,618 89

In my opinion, as Sections 2 and 3 include everything called for in Section 1, with the exceptions described, the award will have to be made on Sections 2 and 4 or on Sections 3 and 4.

On this principle, with the figures of Mr. Hopper's bid, his award would be for Sections 2 and 4, \$307,618.89, and for Sections 3 and 4, \$297,118.89, which would be the lowest bid; but, being evidently made on a misconception of the requirements of the specifications and the form of proposal, it cannot be expected that a contract would be entered into by him at the above figures.

I give below a table showing the amounts of the different bids calculated on this principle:

	SECTION I.	SECTIONS II. AND IV.	SECTIONS III. AND IV.
Norton & Dalton.....	\$95,000 00	\$416,360 78	\$416,360 78
Isaac A. Hopper.....	235,250 00	307,618 89	297,118 89
A. C. Gildersleeve.....	178,970 00	533,041 22	534,371 22
Frawley & Rooney.....	172,639 00	453,431 00	458,931 00
Eugene Lentilhon.....	115,500 00	378,692 39	382,192 39
Bart. Dunn.....	116,000 00	403,013 33	405,013 33
P. J. Carlin & Co.....	274,000 00	577,829 44	580,829 44
Farrell & Hopper.....	117,742 00	490,530 78	491,032 78
Sturgis & Hill Company.....	196,325 00	493,963 89	495,773 89
The United Company.....	198,891 00	526,467 89	528,467 89
Crimmins & O'Rourke.....	163,000 00	484,296 67	486,296 67
Prescott, Buckley & Callanan.....	108,000 00	452,496 67	459,496 67

From this table it will be seen that the lowest bidder, except Isaac A. Hopper, is Eugene Lentilhon, his bid being, on Sections 2 and 4, \$378,692.39, and on Sections 3 and 4, \$382,192.39. The bids are submitted to the Board of Estimate and Apportionment under the requirements of section 2, chapter 556, Laws of 1897, as follows:

"The bids shall be opened by said commissioners and shall be submitted to the board of estimate and apportionment. Said board may select such bid or bids, proposal or proposals, the acceptance of which will, in their judgment, best secure the efficient performance of the work, or they may reject any or all of said bids, and direct a readvertisement, as herein above provided."

It will be observed that in the above bid of Lentilhon, that for Sections 3 and 4, involving the Riker's Island requirement, is \$3,500 more than that for Sections 2 and 4.

I inclose herewith a letter from Messrs. Carrere & Hastings, the architects of the building, in favor of accepting one of the proposals for Section 2. He says: "If the bid for Section 3 were accepted, it would be necessary to supply for the library work some new material to replace the best of the material removed to Riker's Island."

They also give the following memorandum:

Material for Riker's Island.

Value of same at the Island if purchased new, using same quality as now existing in the reservoir.....	\$11,700 00
Value of material of equal amount, but of the character and quality usual in such work as contemplated at Riker's Island.....	7,400 00
Value of material specified to be removed to Riker's Island, if used in the library..	10,700 00

I think these points are worthy of consideration in choosing between Sections 2 and 3, inasmuch as the gain at Riker's Island would be followed, in the construction of this building, by the purchase of at least a portion of new material to replace that taken, and that the value of the material if used in the library would be \$10,700, whereas suitable material for the work at Riker's Island might be procured for \$7,400. If we add the excess, \$3,500, in the bid of Section 3 over Section 2, we would encounter a loss of \$14,200, and gain at Riker's Island only \$7,400.

This does not appear to be a favorable showing for the City. Leaving out the anomalous bid of Mr. Hopper, the range of bids for Sections 2 and 4 is from \$378,692.39 to \$577,829.44, and the range for Sections 3 and 4 is from \$382,192.39 to \$580,829.44.

Respectfully,
EUG. E. McLEAN, Engineer.

CARRERE & HASTINGS, ARCHITECTS,
NO. 28 EAST FORTY-FIRST STREET,
NEW YORK, May 10, 1899.

To Mr. McLEAN, Finance Department:

DEAR SIR—We inclose a memorandum of our estimate of the value of material from the Forty-second Street Reservoir, which it is proposed to take to Riker's Island. In view of the fact that the material is of more value to the Park Department, for use in the foundations of the library, we have recommended to Mr. Clausen, the Park Commissioner, that the material be retained at the library site, and that one of the proposals for Section II. of the reservoir contract be accepted. If the bid for Section III. were accepted it would be necessary to supply for the library work some new material—

Material for Riker's Island.

Value of the same at the Island if purchased new, using same quality as now existing in the reservoir.....	\$11,700 00
Value of material of equal amount, but of the character and quality usual in such work as contemplated at Riker's Island.....	7,400 00
Value of material specified to be removed to Riker's Island, if used in the library..	10,700 00

—to replace the best of the material removed to Riker's Island. Aside from the expense saved by using the material in the library foundations, we believe that the public would be much gratified by the use of the stone in the building. We shall be very glad to confer with you again as to these matters, if you so prefer.

Yours truly,
CARRERE & HASTINGS.

And offered the following:

Resolved, That the Board of Estimate and Apportionment hereby selects and accepts the bid of Eugene Lentilhon, amounting to three hundred and seventy-eight thousand six hundred and ninety-two dollars and thirty-nine cents for the work described in Sections 2 and 4 of the contract and specifications for the removal of the Forty-second Street Reservoir, and other work in connection therewith, as provided by section 2 of chapter 556 of the Laws of 1897.

Which was adopted by the following vote:

Affirmative—The Mayor, Comptroller, Corporation Counsel, President of the Council and President of the Department of Taxes and Assessments—5.

John M. Carrere, architect, appeared before the Board and made a statement in relation thereto.

The Comptroller presented the following:

COUNTY CLERK'S OFFICE, NEW COUNTY COURT-HOUSE,
NEW YORK, May 3, 1899.

To the Honorable the Board of Estimate and Apportionment of The City of New York:

GENTLEMEN—I have the honor to submit herewith the pay-rolls of Inspectors of Election who assisted in the canvass of the soldiers' and sailors' ballots in the County of New York, also the pay-roll of landlords who leased polling-places for said canvass, also the pay-roll of the accountant and clerks who assisted in the preparation of said ballots for distribution, and the canvass of the same before the County Board of Canvassers.

The pay-roll of Inspectors was prepared by obtaining the names of the Inspectors from the "original statement" filed in this office.

It will be necessary to give to each Inspector a card, certifying that he is the proper person to receive payment from the Paymaster. I have employed four clerks to perform the labor of preparing the pay-rolls of inspectors and landlords, and their duties will not be completed until these cards are distributed.

I have estimated the time to be occupied in preparing said pay-rolls and distributing said card certificates at fourteen days, and I consider a fair compensation for such labor to be \$3 per day.

This would make an additional item of \$168 for the payment of these four Clerks, which amount I respectfully request be allowed by your Honorable Board, to be paid to said Clerks when their labors are completed.

Respectfully yours,
WM. SOHMER, County Clerk.

DEPARTMENT OF FINANCE—CITY OF NEW YORK,

I have received these claims from the County Clerks of the Counties of New York, Kings, Queens and Richmond. I have examined each claim, and find the same to be just and equitable, and not to exceed the amount authorized to be paid by said chapter 59 of the Laws of 1899.

The Comptroller presented the following:

LAW DEPARTMENT,
OFFICE OF THE CORPORATION COUNSEL,
NEW YORK, May 11, 1899.

Hon. BIRD S. COLER, Comptroller:

SIR—The claims of Henry Sauter and John Stuart for salary as laborers in the Armory of Troop C, N. G. N. Y., have been referred to me for examination. Separate claims have been filed by these men for each of the months of January, February and March, 1899.

Sauter and Stuart, together with four other men, were appointed on December 1, 1898, by Bertram T. Clayton, the Captain in Command, as laborers in the armory, at a salary of \$2 per day.

Previous to their appointment the General Commanding the Brigade certified to the necessity for their employment and said certificate was forwarded November 30, 1898, to your office.

Their appointment was in conformance with the provisions of the Military Code (chapter 212 of 1898, as amended by chapter 601 of 1898). Section 139 of the Code makes provision for laborers as follows:

"For armories of squadrons, troops, batteries and signal corps * * * one laborer to each ten horses therein stabled and used for military purposes."

The appointments are to be made by the ranking commanding officer of the organization and the necessity for their employment must be certified in the following manner:

"Before any such appointment is made the necessity for the employment of such laborer or laborers shall be certified by the commanding officer of the brigade, and such certificate shall be filed in the office of the disbursing officer of the county in which the armory is situated."

By Section 140 the compensation of laborers is to be fixed by the commanding officer at a sum not to exceed \$2 per day.

All these requirements of the law have been complied with. Of the six men appointed four have been paid regularly. These plaintiffs have not been paid since January 1, 1898, for the reason, as I am informed by the Auditor in the Borough of Brooklyn, that there is no appropriation available.

At the time the Board of Estimate and Apportionment fixed the appropriation, Troop C was in the service of the United States, and its armory was occupied by a substitute organization, Troop CC. The latter organization used but forty horses and was, therefore, entitled to only four laborers.

Upon the return of Troop C it became entitled to six laborers, as it uses over sixty horses, the law giving an absolute right to one laborer for every ten horses, when the necessity for their employment is properly certified.

On the claims filed by Sauter and Stuart for the month of January, 1899, actions have been begun and they can only be paid by judgment. To that end offers of judgment have been made.

As their salaries for the months of February, March and April are already due, and as additional installments will fall due on the first of each month, some provision for their payment should be made in order to save a large amount of costs against the City. Such provision can be made by the issue of special revenue bonds under subdivision 7 of Section 188 of the Charter, this being a charge which is by law specifically imposed upon the County of Kings.

I therefore recommend that such an issue be made and that the salaries of these claimants be paid out of the proceeds thereof until such time as other provision for their payment is made.

Respectfully yours,

JOHN WHALEN, Corporation Counsel.

And offered the following:

Resolved, That the sum of one thousand three hundred and thirty-six dollars (\$1,336) be and hereby is transferred from the appropriation made to the County of Kings for the year 1899, entitled "County Contingent Fund," the same being in excess of the amount necessary for the purposes thereof, to the appropriation made to the said County for 1899, entitled "Armories and Drill-rooms—For Wages of Armories, Janitors, Engineers and Laborers, for the State National Guard, Etc.," the amount of said appropriation being insufficient for the payment of salaries of two additional laborers in the Armory of Troop C., N. G., N. Y.

To the Board of Estimate and Apportionment; to the Honorable ROBERT A. VAN WYCK, Mayor of The City of New York:

Pursuant to the preambles and resolution adopted by the Commission of the New East River Bridge, at a meeting held on the 27th day of April, 1899, a copy of which is hereto annexed, the Commissioners of the New East River Bridge do hereby make requisition upon The City of New York for the issue of bonds, as follows:

[SEAL]

And offered the following:

Resolved, That, subject to concurrence herewith by the Municipal Assembly, the Comptroller be authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to the amount of five hundred thousand dollars (\$500,000), the proceeds whereof shall be expended by the Commissioners of the New East River Bridge for the purposes specified in chapter 789 of the Laws of 1895, as amended.

Which was adopted by the following vote:

The Comptroller presented the following:

CITY OF NEW YORK,
DEPARTMENT OF PUBLIC BUILDINGS, LIGHTING AND SUPPLIES,
Nos. 13 TO 21 PARK ROW,
NEW YORK, May 10, 1899.

Hon. ROBERT A. VAN WYCK, Mayor, Chairman, Board of Estimate and Apportionment:

DEAR SIR—I have to request that you will authorize the transfer of \$1,400 from the appropriation of "Salaries of Deputies, Clerks, etc.," of this Department in the Borough of Brooklyn, for the year 1899, to the Department of Health, Borough of Brooklyn, 1899.

When the appropriations were made for this Department for the year 1899, an item of cleaning and caring for a building at No. 40 Clinton street, Borough of Brooklyn, occupied by the Department of Health, was provided for as heretofore, upon the supposition that it was the duty of this Department to care for and clean that building.

Under an opinion from the Corporation Counsel's office, dated April 4, 1899, this Department is advised that it is not the duty of the Department of Public Buildings, Lighting and Supplies to care for and maintain this building, but the duty of the Department of Health.

There being no appropriation to cover this item given to the Department of Health, it is desirable that this transfer be made.

Very respectfully,

HENRY S. KEARNY, Commissioner.

And offered the following:

Resolved, That the sum of one thousand four hundred dollars (\$1,400) be and hereby is transferred from the appropriation made to the Department of Public Buildings, Lighting and Supplies, for the year 1899, entitled "Salaries of Deputies, Clerks, Laborers, Cleaners, Janitors and Employees, Borough of Brooklyn," the same being in excess of the amount required for the purposes thereof, to the appropriation made to the Department of Health, for 1899, entitled "Contingencies, Borough of Brooklyn," the amount of said appropriation being insufficient.

Which was adopted by the following vote:

Affirmative—The Mayor, Comptroller, President of the Council and President of the Department of Taxes and Assessments—4.

The Comptroller presented the following:

LAW DEPARTMENT,
OFFICE OF THE CORPORATION COUNSEL,
NEW YORK, May 18, 1899.

Hon. BIRD S. COLER, Comptroller:

SIR—I am in receipt of your communication of March 31, 1899, which reads as follows:

"The enclosed deeds have been left with me by Hon. W. J. LaRoche for action under chapter 89 of the Laws of 1899, which authorizes the Board of Estimate and Apportionment to acquire the right, title and interest in certain lands in the Borough of Brooklyn and release the interest of the City in certain lands therein.

"Before presenting this matter to the Board of Estimate and Apportionment will you please advise me whether the deeds are proper and will be approved by you as to form, and what action should be taken by the Board of Estimate and Apportionment in order to comply with this law, copies of which are attached to the deeds?

"If you do not approve of the form of the deeds please prepare new deeds and approve them as to form."

In reply thereto I would say that I am of opinion, if the Board of Estimate and Apportionment should determine to acquire and release the lands referred to in chapter 89 of the Laws of 1899, such determination should be expressed by a resolution of said body, either in the following form, or one similar in substance:

"Resolved, That under the authority conferred upon the Board of Estimate and Apportionment of The City of New York by chapter 89 of the Laws of 1899, passed March 15, 1899, it is hereby determined, upon the execution and delivery of a full covenant warranty deed made by William J. LaRoche and Ella, his wife, to the Comptroller, conveying to The City of New York in fee simple all that certain piece or parcel of land situate, lying and being in the Ninth Ward in the Borough of Brooklyn, City of New York, bounded and described as follows, to wit:

Beginning at a point formed by the intersection of the northerly line or side of Berkeley place with the westerly line or side of Plaza street, running thence northerly along the westerly line or side of Plaza street eight feet and three inches to a point where it intersects the dwelling house of the parties of the first part; thence westerly on a radius of ten feet, more or less, thirteen feet and one inch, to a point on the northerly line or side of Berkeley place, distant fourteen feet and two inches westerly from the place of beginning, and running thence easterly along the said northerly line or side of Berkeley place fourteen feet and two inches to the point or place of beginning, The City of New York will convey by quit-claim deed to William J. LaRoche all that certain piece or parcel of land situate, lying and being in the Ninth Ward, in the Borough of Brooklyn, City of New York, bounded and described as follows, to wit: Beginning at a point on the westerly line or side of Plaza street, distant eight feet and three inches northerly from the corner formed by the intersection of the westerly line or side of Plaza street with the northerly line or side of Berkeley place, running thence northerly on a radius of ten feet, sixteen feet and four inches, to a point distant easterly one foot and three inches from the westerly line or side of Plaza street; thence northerly and parallel with said Plaza street thirty-two feet to a point; thence again northerly and on a radius of ten feet, sixteen feet and nine inches, to a point on the westerly line or side of Plaza street, and running thence southerly along the said westerly line or side of Plaza street sixty-one feet and four inches to the point or place of beginning."

"Resolved, That the Comptroller, acting on behalf of The City of New York, be and is hereby authorized and directed to execute and deliver said quit-claim deed to William J. LaRoche upon receipt of the afore-mentioned deed from William J. LaRoche, and Ella, his wife, to The City of New York."

To the Board of Estimate and Apportionment:

GENTLEMEN—The report of the Commissioners of Estimate in the proceeding to acquire title to lands fronting upon Riverside Park, as and for a part of extension of Riverside Park, and for public docks, wharves, etc., pursuant to the provisions of chapter 152 of the Laws of 1894, was confirmed on May 3, 1899. These expenses are partly payable out of the funds for street and park openings and partly out of the dock fund. The awards payable out of the fund for street and park openings amount to \$204,521, upon which interest is running from May 3, 1899, at the rate of six per cent. per annum. I estimate that \$2,999.64 will be sufficient to provide for the payment of this interest if the bonds are authorized with reasonable celerity. This total amount, i. e., \$207,520.64, should be provided for by the issue of Corporate Stock in the manner provided by section 174 of the Charter, as no portion of the cost is to be assessed upon private property. The following resolution is therefore submitted.

Respectfully,

BIRD S. COLER, Comptroller.

And offered the following :

Resolved, That pursuant to the provisions of section 174 of the Greater New York Charter, the Comptroller be authorized, subject to concurrence herewith of the Municipal Assembly, to issue Corporate Stock of The City of New York in the manner provided by section 169 of the Greater New York Charter, to the amount of two hundred and seven thousand five hundred and twenty dollars and sixty-four cents (\$207,520.64), the proceeds whereof shall be applied to replenishing the fund for street and park openings for the following expenses payable from said fund and chargeable against The City of New York :

Awards and interest in the proceedings to acquire title to lands in fee, etc., including upland and land under water, etc., fronting on Riverside Park, as and for a part of extension of Riverside Park, and for public docks, wharves, etc., pursuant to chapter 152 of the Laws of 1894, \$207,520.64.

The Comptroller presented the following :

JOHN R. THOMAS, ARCHITECT,
No. 160 BROADWAY,
NEW YORK, May 16, 1899.

The Board of Estimate and Apportionment of The City of New York :

GENTLEMEN—I submit to you herewith the drawings and specifications for the equipment and finishing of the new "Hall of Records," and suggest that bids be advertised for.

Very respectfully yours,
JOHN R. THOMAS, Architect.
CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
May 24, 1899.

Hon. BIRD S. COLER, Comptroller :

SIR—The architect of the New Hall of Records Building, Mr. John R. Thomas, in communication of May 16, 1899, to the Board of Estimate and Apportionment, submits "drawings and specifications for the equipment and finishing of the 'New Hall of Records,'" and suggests that "bids be advertised for." He, also, submits a form of proposal and a form of contract.

I have examined with great care these drawings and specifications. The drawings are in great and elaborate detail, and fully designate the work to be done.

The specifications are exceedingly minute and full, and explain the whole work in such great detail as to leave nothing ambiguous.

The work to be included in this contract is extensive and costly.

It includes the "plaster work, cabinet finish, hardware, marblework, ornamental metalwork, electric equipment, steam power, heating apparatus, plumbing and drainage system, elevator equipment and other work," all designated in the contract as the "finishing and equipment" of the building.

Mr. Thomas does not submit with his communication any approximate estimate of the cost, but he informs me that, in his opinion, the work covered by this contract will cost about \$2,500,000. It may be more or less, which can only be disclosed by the competitive bids.

The specifications call for the very best of material and work in every particular.

Without going largely into the details so fully elaborated in the drawings and specifications, I will mention the following prominent points :

The building is to be lighted entirely by electricity. The electricity to be generated by the electric plant in the building. No arrangements whatever for gas. This electric plant is located in the sub-basement, and is ample.

The heating and ventilation will be on the plenum or blower system, the fresh air being drawn from the street at the height of the sidewalks.

Heat will also be supplied by direct radiation, through radiators heated by steam.

There will be six passenger elevators, four private elevators and one sidewalk elevator ; one of the six passenger elevators will be so constructed as to be able to carry 8,000 pounds, say a safe of that weight.

The elevators are to be worked on the hydraulic system.

The plumbing is to be of the best and most modern system. The sanitary arrangements have open fixtures, and are equal to all requirements.

Cold drinking water, at a temperature of 40 degrees, is to be furnished throughout the building. The water to be equal to commercial water known as "Hygeia" water.

The steam power is furnished by five boilers, which, with all other machinery, are located in the sub-basement.

There will be no wooden floors in the building. The floors of the vestibules, the rotunda and the corridors to be of marble, those of the rooms to be of mosaic.

The trim throughout the building is of marble, except in the two Surrogates' Courts, which are, one of mahogany, and the other of quartered oak.

No wood is used in the building, except as above mentioned in the courts, and in the doors and windows. The wood of window frames is covered by copper.

The ceilings in all the rooms will be plain, except in the two court-rooms, where they are rich and highly ornamental.

The ceilings of the first-story vestibules will be finished in marble mosaics.

I call attention to the paragraph at bottom of page 64 of the specifications, as follows :

"The contractor shall have this mosaic executed by artists selected by the Architect, to provide the mosaic work of ceilings (subject to the stipulation in the preceding paragraph), and shall pay to said artist the sum of ten thousand dollars (\$10,000) (free and clear of all rebates, discounts and allowances) for his work, the said artist supplying his own marbles and glass, together with any glazes or foils which he may use back of the glass mosaic."

Also, under the head of sculpture, page 72, is the following :

"The contractor shall provide and set two sculptured groups of three figures each ; one group on each side of the Chambers street entrance—two seated figures—one on each cheek of Centre street steps—twenty-four single standing figures on pedestals above main cornice between sixth, story windows on Centre street front, and on Chambers and Reade street pavilions, and two groups as shown, one group over each east and west door in Chambers street vestibule.

"These latter will be in the best selected flawless white, Carrara statuary marble of the size shown. All other of this sculpture will be in the best selected flawless Hollowell statuary granite."

"The contractor shall have the models made for all of this sculpture by artists selected by the Architect, paying to the selected artists for the models, or casts thereof, as directed by the Architect, delivered in New York, the sums directed by the Architect, the aggregate being eighty-five thousand (\$85,000) dollars, free and clear of all rebates, discounts and allowances."

It will be observed in the case of the mosaic, the price is fixed by the Architect at \$10,000. In the other he fixes the amounts to be paid.

This is an unusual power, and requires consideration.

In the contract for the erection of the Appellate Court Building, Twenty-fifth street and Madison avenue, the sculpture and mural painting is provided for as follows :

"The contractor must allow for statuary, sculpture and mural painting the sum of \$215,000 net.

"All statuary and sculpture must be executed by such sculptors as may be designated by the Architect, and the Justices of the Appellate Division of the Supreme Court, First Department, or a majority of them.

"No work of any sculptor not so designated will be accepted or considered as conforming to the terms of this contract.

"The contractor shall execute with each sculptor so selected a contract based upon specifications furnished by the Architect, which contract and specifications shall be approved by the Justices of the said Appellate Division, or a majority of them * * * .

"In the event of the actual work for statuary, sculpture and mural painting being obtained under the above conditions for less than the sum hereinbefore allowed, the difference must be credited to the party of the first part and deducted from the gross amount to be paid to the party of the second part under this contract."

In this there appears to be some control. In the case presented the matter is left entirely with the Architect.

It is questionable, in my mind, that, under the law, the Architect can properly fix a price for work to the amount of \$10,000.

The propriety is also questionable of his having under his sole control the patronage attending the expenditure of \$85,000 for models.

However this matter may be arranged, the control should remain with the Board of Estimate and Apportionment.

The specifications define the following kinds of marble to be used :

Throughout the basement the mingled white and dark green Lake Champlain marble known as "Verde Antique."

The marble of all stories from the first to the fifth mezzanine, both inclusive, and of the stairs from the basement to the roof, but excepting in all rooms of the 2d, 3d, 4th, 5th and 5th mezzanine stories will be Monterrenti Sienna marble.

In the rooms of the first story it will be Connemara green marble.

In the rooms of the 2d story it will be Pavonazza marble.

In the 3d and 4th stories it will be of Lake Champlain marble, the 3d story being "Verde Antique" and the 4th that known as "Jasper."

In the north court room it will be of old Convent Monterrenti Sienna, rich yellow, with black veinings. In south court room it will be Connemara green marble. In other rooms of the 5th and 5th story mezzanine it will be Lake Champlain red marble known as "Oriental."

The marble work in 6th story, except for the stairs and rooms, to be of Lake Champlain "Verde Antique." In the 6th story rooms it will be yellow Numidian marble.

The marble work in 7th story, except for stairs and in rooms, will be of Lake Champlain marble known as "Jasper."

In the seventh-story rooms and in the eighth story, except stairs, it will be of the grey or drab Lake Champlain marble known as "Olive."

The finish of the rotunda, of the first and second-story corridors surrounding the same and of the east and west vestibules will be of marble. The marble of rotunda will extend up to and stop at the band above the cornice at the level of the third-story floor.

I think the work as detailed will present a rich and harmonious interior, and every possible ordinary want is provided for ; the building, when finished according to these designs, will be as nearly perfect as can be looked for.

With the exceptions noted above, I have no adverse criticism to offer.

Respectfully,
EUG. E. MCLEAN, Engineer.

Following report from the Department of Sewers:

CITY OF NEW YORK—BOROUGH OF BROOKLYN,
DEPARTMENT OF SEWERS—OFFICE OF DEPUTY COMMISSIONER,
ROOM 42, MUNICIPAL BUILDING, BROOKLYN,
April 22, 1899.

Hon. EDWARD M. GROUT, President of the Borough:

DEAR SIR—In answer to your communication of April 15, 1899, relative to the construction of sewer in Fifty-fourth street, between Fifth and Sixth avenues, I respectfully report as follows:

The estimated cost of the improvement is \$1,150; the assessed valuation of the property within the probable area of assessment is \$27,800.

Very respectfully,

(Signed) WM. BRENNAN,
Deputy Commissioner of Sewers, Borough of Brooklyn.

The following resolution was adopted:

Resolved, That the Local Board of the Fifth District, Borough of Brooklyn, after hearing had this 19th day of May, 1899, and deeming it for the public interest so to do, hereby recommends to the Board of Public Improvements of The City of New York that a sewer be constructed in Fifty-fourth street, between Fifth avenue and Sixth avenue, in the Borough of Brooklyn.

(No. 73.)

Petition of the Convent of the Sisters of Mercy made by Elizabeth Dillon, President, for the grading and macadamizing of Twelfth avenue, between Sixtieth and Sixty-fifth streets.

Following report from the Department of Highways:

DEPARTMENT OF HIGHWAYS—COMMISSIONER'S OFFICE,
NO. 150 NASSAU STREET,
NEW YORK, May 3, 1899.

Hon. EDWARD M. GROUT, President of the Borough of Brooklyn:

DEAR SIR—Referring to your communication of February 6, 1899, to the Deputy Commissioner of Highways, Borough of Brooklyn, asking him to furnish you with an estimate of the cost of grading and paving with macadam the roadway of Twelfth avenue, between Sixtieth and Sixty-fifth streets, with a statement of the assessed value of the real estate within the probable area of assessment, I beg to say that the delay which has occurred in furnishing the desired information is due to the necessity of thoroughly investigating the matter before making a report thereon.

It is ascertained that between Sixtieth and Sixty-first streets the tracks of the Sea Beach and Manhattan Beach Railroads cross Twelfth avenue (each occupying a right of way of about fifty feet adjacent to each other), and that they are about 10½ and 14 feet, respectively, below grade, rendering necessary the construction of a bridge across them.

Representatives of the railroad companies have been conferred with on the subject. The companies object to the erection of piers or abutments on their property, hence the bridge will have a span of about 100 feet, and should be 50 feet in width, with a roadway of 34 feet between the centres of the trusses, and sidewalks 8 feet in width each, outside the main trusses.

At the present prices of steel for such structures the cost of such a bridge, with a floor of two courses of yellow pine plank, is estimated at about \$10,000, while the expense of the abutments is quoted at \$5,000, making a total estimated cost of \$15,000 for the necessary bridge.

The grade elevation at Twelfth avenue and Sixty-first street should be raised from 63.25 to 66.0 and straight grades run from the latter elevation to the present grades at Sixtieth street to the north, and at Sixty-fourth street to the south. There will be almost a sufficient quantity of material in the cut between Sixty-third street and Sixty-fifth street to make the fill. This will necessitate the lowering of the Sea Beach Railroad fully three feet and the Manhattan Beach Railroad fully one foot.

The general railroad law, as amended by chapter 754 of the Laws of 1897, section 65, provides that:

"Whenever, under the provisions of section 61 of this act a new street, avenue or highway is constructed across an existing railroad, the railroad corporation shall pay one-half and the municipal corporation wherein such street, avenue or highway is located shall pay the remaining one-half of the expense of making such crossing above or below grade * * * and "In carrying out the provisions of sections 60, 61, and 62 of this act the work shall be done by the railroad corporation or corporations affected thereby, subject to the supervision and approval of the Board of Railroad Commissioners, and in all cases except where the entire expense is paid by the railroad corporation the expense of construction shall be paid primarily by the railroad company."

In view of the heavy fill required it would not be advisable to pave the street now, and the ordinance to authorize the improvement should provide for the regulating and grading, curbing and paving gutters, and laying sidewalks and crosswalks where necessary. The estimated cost of this work is \$11,000, while the assessed value of the real estate within the probable area of assessment is \$60,700.

This is a most necessary improvement, and it is very desirable that steps should immediately be taken to obtain the necessary authority to carry it out.

When the subject of establishing grade crossings over the Manhattan Beach Railroad at Utica avenue and at Avenue U; over the Brooklyn and Brighton Beach Railroad at Avenue U; and over the Long Island Railroad on Gravesend avenue, at Avenue U, was under consideration some time ago the Corporation Counsel advised that in order to conform as nearly as possible to the requirements of both the Railroad Law and of the Charter, the Board of Public Improvements should give to the railroad companies the necessary notices of a hearing before the Board and an opportunity to be heard at a time and place to be designated in such notice; that after such hearing a resolution should be passed by the Board of Public Improvements including their determination in the matter, which resolution should be transmitted to the Municipal Assembly for its action, and that thereafter application should be made to the Railroad Commissioners, in accordance with section 61 of the Railroad Law.

Presumably the same course of procedure should be followed with respect to the construction of a bridge over the tracks of the Sea Beach and Manhattan Beach Railroads on Twelfth avenue, between Sixtieth and Sixty-first streets.

With this statement of the facts and circumstances of the matter, I leave it in your hands, feeling sure that it will receive intelligent attention, with the object of having the desired improvement undertaken as early as practicable.

Very respectfully,

(Signed) JAMES P. KEATING.

Transmitted through Hon. Thomas R. Farrell, Deputy Commissioner of Highways, Borough of Brooklyn.

The following resolutions were adopted:

The following resolution was adopted:

SEALED BIDS OR ESTIMATES FOR FURNISHING the above-mentioned Supplies, in conformity with samples and specifications, will be received at the Central Office of this Department, foot of East Twenty-sixth street, until 12 o'clock noon, on

MONDAY, JUNE 12, 1899.

1486. 4 Sewing Machines, "Domestic" No. 11, with cover.

All goods to be delivered in installments as may be required during the year 1899, free of expense.

No empty packages are to be returned to bidders or contractors and none will be paid for by the Department.

The person or persons making any bid or estimate shall furnish the same in a sealed envelope, indorsed "Bid or Estimate for Sewing Machines," with his or their name or names, and the date of presentation, to the head of said Department, at the said office, on or before the day and hour above named, at which time and place the bids or estimates received will be publicly opened by the President of said Department, or his duly authorized agent, and read.

THE BOARD OF PUBLIC CHARITIES RESERVES THE RIGHT TO REJECT ALL BIDS OR ESTIMATES IF DEEMED TO BE FOR THE PUBLIC INTEREST, AS PROVIDED IN SECTION 419, CHAPTER 378, LAWS OF 1897.

No bid or estimate will be accepted from or contract awarded to any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Delivery will be required to be made from time to time and in such quantities as may be directed by the said Commissioners.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect, and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract, by his or their bond, with two sufficient sureties, each in the penal amount of fifty (50) per cent. of the bid for each article. (No bonds or deposit required on bids under One Thousand Dollars.)

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same, the names of all persons interested with him or them therein, and if no other person be so interested it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated therein are in all respects true. Where more than one person is interested it is requisite that

the VERIFICATION be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance, and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above-mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in The City of New York, and is worth the amount of the security required for the completion of this contract over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise, and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of The City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of The City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the State or National Banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by The City of New York as liquidated damages for such neglect or refusal, but if he shall execute the contract within the time aforesaid the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet, as provided by law.

The quality of the articles, supplies, goods, wares and merchandise must conform in every respect to the samples of the same on exhibition at the office of the said Department, or, in the absence of samples, to the printed specifications. Bidders are cautioned to examine the specifications for particulars of the articles, etc., required before making their estimates, and are cautioned against referring to any samples or specifications other than those furnished by the Department. Such references are cause for rejecting bids whereon they are written, and will in no case govern the action of the Department officers in passing upon tenders.

Bidders will state the price for each article, by which the bids will be tested.

Bidders will write out the amount of their estimates in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller in accordance with the terms of the contract, or from time to time, as the Commissioners may determine.

The form of the contract, including specifications, and showing the manner of payment, can be obtained at the office of the General Bookkeeper and Auditor, foot of East Twenty-sixth street, and bidders are cautioned to examine each and all of its provisions carefully, as the Board of Public Charities will insist upon its absolute enforcement in every particular.
