To the Honorable the Board of Estimate and Apportionment of The City of New York:

DEAR SIRS—The Trustees of the College respectfully request that some provision be made whereby an appropriation of \$12,500 may be available to the college in addition to the appropriation of \$299,362 fixed by your Honorable Board for the year 1904. The appropriation allowed for 1904 was the same as that made for 1903, namely, \$299,362. This sum will allow us, with the exercise of the most rigid economy, to make provision for the students we now have, but over six hundred pupils graduating from the public schools this week are applying for admission to our Sub-Freshman Department, and to provide tuition and books for these will require at least the additional sum of \$12,500.

That the appropriation of \$299,362 is inadequate to meet the present needs of the college and to provide for the students who desire admission is shown by the following statement:

Fixed charges which cannot be reduced:

Salaries	\$253,855 00	
Rent	25,500 00	
		\$279,355 00

In addition to these, the following disbursements are necessary and imperative:

Fuel	\$1,386 00
Light	1,300 00
Printing, stationery, examinations, etc.	3,700 00
Supplies for Departments of Chemistry, Physics and Natural History	2,100 00
Repairs to scientific apparatus, building and plumbing.	3,400 00
Text books	2,500 00
Binding text books	1,100 00
Library	500 00
Care of Cass Building	1,620 00
Telephone	250 00
Diplomas	300 00
Emergency and President's Fund	1,200 00
	\$19,416 00
	\$298,771 00

It is thus seen that there are practically no means available for the payment of new tutors and for the purchase of text books for the incoming students. The minimum expense for securing tutors for these students in sections of 35 to a class (the maximum number that can be accommodated in the available rooms of the college) will be \$9,900. The cost of new text books is estimated at the sum of \$2,600, making a total of \$12,500.

We therefore respectfully petition your Honorable Board in this emergency to grant to the college the additional sum of \$12,500 for the year 1904.

Respectfully yours,

THEO. F. MILLER,

Chairman, Committee on Finance of the Board of Trustees.

JOHN H. FINLEY, President of the College.

Mr. Theodore F. Miller, Chairman of the Committee on Finance of the Board of Trustees, and Mr. John Finley, President of the College of The City of New York, appeared in support of the request.

The Comptroller offered the following resolution:

Resolved, That the sum of twelve thousand five hundred dollars (\$12,500) be and the same is hereby transferred from the appropriation made for "Interest on Bonds and Stock to be issued in 1903 after September 30 and in 1904," the same being in excess of the amount required for the purposes thereof, to the appropriation made for the year 1904 to "The College of The City of New York," the amount of said appropriation being insufficient.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

The Comptroller presented the following communication submitting reports showing the delay occurring between the time of the acquisition of land for school buildings, and the beginning of the construction of the buildings:

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
JANUARY 26, 1904.

To the Board of Estimate and Apportionment:

GENTLEMEN—I submit herewith two reports showing the habitual delay which occurs between the acquisition of land for school buildings and the beginning of the construction of the buildings, together with a reckoning of the cost of such delay to the City by loss of taxation, and of payment of interest and carrying charges. One report shows the condition as to sites still standing idle; the other as to sites where building contracts have been made during the past three years. As the delay has occurred in 78 out of the 81 sites examined, it may fairly be termed habitual, and as

like delay has occurred sometimes in other Departments than that of Education, any remedy applied should be general. It would seem reasonable that any request for the acquisition of land, made to you, should be accompanied with a clear and detailed statement of the reasons which make the land necessary, and of the date when the Department can actually use the same for building. That seems to me to be a remedy, and I submit a resolution to that effect.

The loss to the City, shown in the case of the 81 sites contained in these two reports, is one-half million dollars. On the 40 sites under contract, buildings in many cases are still unfinished. On 41 sites, no contracts have yet been let. Twelve more are under condemnation, and there are pending requests for the taking of 44 more. By applying such a remedy as suggested, this Board can prevent like loss of money in the cases of these pending 44 sites and in all future sites.

A careful study of the facts presented in these reports will bring up other questions than the one appearing on the surface, i. e., the lack of co-ordinated action between land acquisition and building. For instance, many of these idle properties are situated in sections most in want of additional seating capacity. If there had been less haste in acquiring more sites and the money and energy had been devoted more to building, some relief to the excluded or insufficiently accommodated school children might have earlier been provided. Again, this habitual delay in building is doubtless largely due to the inability of the Building Bureau to prepare plans as rapidly as wanted. But this might be avoided and great economy made in that Bureau if the same plans were used for several different buildings, located in different sections of the City, instead of requiring entirely new plans for every school building constructed. These phases of this matter are well worth further consideration.

Respectfully,

EDWARD M. GROUT, Comptroller.

JANUARY 22, 1904.

Hon. EDWARD M. GROUT, Comptroller:

SIR—In accordance with your instructions the following report and attached data relative to properties acquired for school purposes is respectfully submitted. The condition of the various properties included in the detailed statement attached was ascertained through inspection by your representatives on January 8 and 9, 1904, to which date calculations of interest were also made. The loss of taxes is figured on the valuations and at the rates which prevailed in the boroughs for the different years, less an allowance for the cost of condemnation proceedings.

In the Borough of Manhattan there are 20 plots of property, aggregating about 80 lots, or about 175,000 square feet of land. On all of these 20 plots the buildings which originally incumbered them when title was vested in the City are still standing. The City was in physical possession of these properties for periods varying from 2 months to 70 months. One plot owned for nearly 6 years cost the City \$326,645.90, and the carrying charges for interest (3½ per cent.) on the bonds issued to pay for the plot, together with an annual installment of 1 per cent., to provide for the redemption of bonds at maturity, has now amounted to \$85,744.58, exclusive of the loss of taxes to the City, which, up to and including 1903, amounted to \$25,750.80. Another plot has been in the City's possession for 57 months, 6 for two years or more, 5 from 10 months to 19 months, and the balance from 2 to 9 months.

The cost of acquiring these 20 plots in Manhattan was	\$1,539,854 34
Interest or carrying cost to January 9, 1904 (4½ per cent.), paid out of the Budget and included in tax levies	162,489 52
Loss of taxes on those 20 plots	51,693 28

Total cost to City to January 9, 1904

All of these properties are absolutely useless for school purposes in the condition in which they have been allowed to remain, no matter for what school purposes they were intended.

In addition to the 20 plots on which buildings are standing, there have been acquired four plots, consisting of about 18 vacant lots, containing 45,000 square feet of land. One of these, west of Seventh avenue, running through from One Hundred and Forty-seventh to One Hundred and Forty-eighth street, has a frontage on both streets of 150 feet. It has been in possession of the City since April 25, 1901—over 32 months. It has never been improved and is now used as a recreation ground. No objection is made to this use of the property unless it is determined that increased school capacity has been needed in that neighborhood. In that event the property could have been improved and the same recreation facilities provided on the roof of the building, as is now being successfully done.

In the Borough of The Bronx six plots, containing 186,000 square feet, are in possession of the City. With the exception of a building on one of the sites, these properties are all vacant and available for use for school purposes. Part of one of these plots was acquired nine years ago and the balance of the same plot four years ago. Of the others, one plot has been held 53 months, one 30 months, and the others 3, 4 and 5 months.

The property cost the City	\$140,486 20
Carrying charges to January 9, 1904	8,973 18
Loss of taxes	3,444 33

Total cost to the City to January 9, 1904

The Borough of Queens has six vacant plots available, containing 150,000 square feet. The City has owned one of these plots 4½ years, one for 3 years, two others for 2½ years, and one which adjoins a school 1½ years, and the remaining one for 4 months.

These properties cost the City	\$35,410 11
Carrying charges to January 9, 1904	3,879 82
Loss of taxes	1,556 66

Total cost to the City to January 9, 1904

In the Borough of Richmond there are two plots, one acquired 8 months, and the other over 2 months ago. Both plots are vacant and available and contain about 61,000 square feet.

They cost the City	\$4,750 00
Carrying charges up to January 9, 1904	48 00
Loss of taxes	5 73

Total cost to the City to January 9, 1904

In the Borough of Brooklyn the City owns seven plots of property, containing about 165,000 square feet of land. From 4 of these plots the buildings have never been removed, and the other 2 are vacant lots. They have been owned by the City, 1 for 48 months, 1 for 30, one for 15, and the others for 8, 6 and 4 months, respectively. They are all available for school purposes. The City has paid for these Brooklyn plots

\$209,808 20
Carrying charges to January 9, 1904
8,360 20
Loss of taxes
2,896 47

Total cost to the City to January 9, 1904

In addition to these 7 plots, 5 plots have been purchased by the City, 2 of which are used for light and air, and 2 for playgrounds. One of the latter, however, is reported as being fenced in and not apparently used. The remaining plot, 150 by 252, is in the rear of Erasmus Hall. There are 7 frame buildings on this piece of ground which are used for classrooms. The Board of Education on December 31, 1903, reported that plans were under way for this plot. It has been owned by the City for 28 months and has been available for improvement all that time.

Your attention is respectfully called to the fact that the present Board of Education was not in control of the schools in the Borough of Brooklyn until February, 1902. The condition reported herein, however, shows the condition as it now exists.

The Board of Education, under date of December 31, 1903, in reply to your request, submitted a list of "Property acquired for school purposes not yet improved." In this list there are mentioned 34 plots, 29 of which are included in the 41 mentioned in this report, and the other 5 are included in those which are vacant properties acquired for light, air or recreation purposes and not included in the estimate of the cost of the 41 sites. In the report the Board of Education states that it has plans under way for 12 of these plots and plans ready for 2. Of the 12 plots for which plans are under way, 5 are in Manhattan, and have been in the possession of the City 31 months, 26 months, 6 months, 4 months and 2 months, respectively. Four of these are for additions to existing school-houses and 1 for a new school. Buildings are still standing on all of these 5 plots, as is the condition also of the property for which plans are reported ready.

In the Borough of The Bronx plans are under way for 2 plots, one of which has been in the possession of the City for 53 months and the other for 5 months.

In the Borough of Brooklyn plans are reported under way for 2 plots which the City has held for 15 months and 4 months, respectively.

Plans are also under way for a plot in Queens which the City has held title to for 17 months, and plans ready for a plot which has been in the City's hands for 4 months.

In Richmond Borough plans are under way for the 2 plots that have been in the possession of the City for 2 and 8 months, respectively.

You will notice that in no case has a contract been reported let or awarded for the improvement of any of the 41 plots that have been in possession of the City from 2 to 70 months. The attached compilation will show these plots, for the improvement of which there are plans under way or ready.

The Board of Education, in its report of December 31, 1903, does not account for all of the plots mentioned in your report. They are, however, properly included in your report, as in each case the buildings are still standing and the plots are useless in the present condition.

Under date of December 17, 1902, you addressed a communication to the President of the Board of Education, giving a list of 42 properties acquired for school purposes throughout the city. You requested that the list be examined and that you be advised as to the intention of the Board of Education concerning these properties, and that the properties not needed for school purposes be turned over to the Commissioners of the Sinking Fund for their disposition. The Board of Education on January 17, 1903, submitted a report in reply to your request, in which it explained the status of each of the 42 sites or properties. In the report of the Board of Education 10 of the 41 properties treated of in this report are mentioned--8 in Manhattan and 2 each in The Bronx and Brooklyn.

Borough of Manhattan.—Of the property on Fifteenth and Sixteenth streets, between First and Livingston avenues, which has been owned by the City for 70 months, the Board of Education says that it is its intention to use the site "for manual training high school and girls' technical high school. It is expected that contracts will be let early this year" (1903). In the report of the Board of Education of December 31, 1903, nearly a year later, it is indicated that no action has been taken to improve this site. In their report of January 17, 1903, the Board of Education reports on the following properties:

Nos. 208-218 East Thirty-third street;
Nos. 437-439 West Forty-ninth street;
Nos. 327-337 East Fourth street;

—that they "will be improved as soon as funds are available." In their report of December 31, 1903, plans under way are reported for the Fourth street site, but nothing is said about the other two. Regarding No. 29 Norfolk street it is reported, on January 17, 1903, that additional property is being acquired, and a large building will soon be erected. No action toward this improvement was reported in the December 31 report.

Of the plot facing on Broome, Clarke and Dominick streets, which was acquired for a new school, the Board of Education reports, on January 17, 1903, that "a new building will probably be erected in the near future." On December 31, 1903, according to the report of the Board of Education, plans were not yet under way for this site, which has been owned by the City for over 30 months, and has now cost, for carrying charges and loss of taxes, over \$36,000. Regarding No. 456 West Fifty-eighth street and Nos. 169-173 East One Hundred and Fourteenth street, it is stated in the January 17, 1903, report that they will be improved "as soon as funds are available."

The Board of Education, in this same report of January 17, 1903, reports on one site in the Borough of The Bronx, located at Eagle avenue and One Hundred and Sixty-third street. It says that "addition will be built as soon as required and funds are available." The December, 1903, report of the Board of Education does not show anything that has been done with this site. In the Borough of Brooklyn the Board of Education reports in January, 1903, in connection with the McKibbin street property, that it "will be improved as soon as funds are available."

As to the availability of funds, it is found, by an investigation of the condition of the School Building Fund, that on January 1, 1903, ample funds were available. The condition of the School Building Fund on January 1, 1903, as shown by the books of this Department, was as follows:

Cash balances for all boroughs..... \$4,452,320 46
Bonds fully authorized and unissued..... 5,300,000 00

Contract liability..... \$4,133,435 68
Land liability..... 69,550 00
\$9,752,320 46
4,202,985 68

Available January 1, 1903, for school sites and the improvement of sites..... \$5,549,334 78

The condition of this same fund on December 31, 1903, was:

Cash balances for all boroughs..... \$639,631 79
Bonds fully authorized and unissued..... 11,718,430 00

Contract liability..... \$5,344,258 58
Land liability..... 585,172 00
\$5,929,430 58

Available January 1, 1904, for school sites and the improvement of sites..... \$6,428,631 21

To summarize, your investigation has developed the fact that there are in the Greater City, available for school purposes, 41 plots which have been left idle and unimproved. Most of those in Manhattan and Brooklyn are well distributed and favorably located for school purposes, as are those also in the other boroughs.

It cannot be urged that those properties on which buildings have been allowed to remain for the great length of time reported were awaiting plans and specifications for the proposed new purposes, nor can this excuse be more properly made in connection with the vacant properties. There are several instances where the Board of Education actually opened bids for the erection of new school buildings before the title of the property on which they were to be built became

vested in the City. These instances are reported on in the supplementary report affecting the condition of school sites that have been improved. While this condition is irregular it is not entirely improper.

The Board of Education is practically assured that a site will be available for its purposes when action has been taken by the Board of Estimate and Apportionment, and it is practicable to have plans prepared during the interval between the action of the Board of Estimate and Apportionment and the time when the City takes physical possession of a site.

The failure of the Board of Education to improve the sites which have been available and subject to their orders has not only aggravated the condition of inadequate seating capacity for children of school age, but has placed an unnecessary burden on the taxpayers, as the following statement shows:

The City has paid for the forty-one sites mentioned, which does not include those acquired and actually used for light, air and ventilation, or for play and recreation grounds:

	COST OF PROPERTY.	CARRYING CHARGES TO JAN. 9, 1904.	AMOUNT OF TAX LOSS.
Manhattan.....	\$1,539,854 74	\$162,489 52	\$51,693 28
The Bronx.....	149,486 20	8,973 18	3,404 33
Brooklyn.....	209,808 20	8,360 20	2,896 47
Queens.....	35,410 11	3,879 82	1,556 66
Richmond.....	4,750 00	48 00	5 73
	\$1,939,308 85	\$183,750 72	\$59,556 47
	183,750 72		
	59,556 47		
	\$2,182,616 04		

This is the amount that has been needlessly employed, as not a single contract has been let for improvements on any of the property included in this large sum. The \$183,750.72, carrying charges, has been a direct drain on the taxpayers, as the interest and installment amounts for the bonds are raised by taxation. This is also true of the \$59,556.47, the loss of taxes which would have been paid into the City treasury, and have reduced taxes by just that amount. It will cost the City each year that these properties remain in their present condition, for carrying charges, \$87,268.90. This is the annual cost of carrying the principal invested, and will have to be raised by taxation annually. In addition, the loss of taxes will, at a \$1.50 rate for all boroughs, amount to \$29,032.35 annually.

The revenue from buildings on the property acquired in the form of rents has been more than offset by the appropriations that have been made for buildings and quarters rented by the Board of Education for use as class rooms. The Board has been allowed for 1904 for rent, \$129,366.20.

At least 90 per cent. of this will be used for class rooms. In the estimate of expenses for 1904, submitted to the Board of Estimate and Apportionment by the Board of Education, they requested that money be provided for 101 properties that they desired to lease, in which estimate the sum of \$26,750 was not itemized.

Manhattan..... 27 leases requested and \$10,000 not itemized
Brooklyn..... 37 " 5,000 "
The Bronx..... 14 " 5,000 "
Queens..... 17 " 5,750 "
Richmond..... 6 " 1,000 "

In addition to the 41 properties or sites already mentioned, the Board of Education has by resolutions requested the Board of Estimate and Apportionment to authorize the following:

Manhattan..... 7 sites.
The Bronx..... 5 "
Brooklyn..... 18 "
Richmond..... 7 "
Queens..... 7 "
44 "

These applications are now being considered. Exclusive of the 44 sites requested, there are now in the course of condemnation:

Manhattan..... 3 sites.
Queens..... 2 "
Brooklyn..... 7 "
12 "

Respectfully submitted,
(Signed) E. E. SCHIFF,
Clerk to the Comptroller.

Hon. EDWARD M. GROUT, Comptroller :

JANUARY 22, 1904.

SIR—Supplementary to the report showing the status of property acquired for school purposes and not improved, the following report, with attached data, showing the condition of properties acquired that have been improved, is respectfully submitted in pursuance with your instructions.

The investigation to ascertain how long sites upon which contracts for construction have been let during the past three years were held before being improved shows the same condition of premature purchase and investment in properties, with the attendant loss growing out of carrying charges and the loss of taxes, as exists in connection with the properties purchased and not improved.

In the Borough of Manhattan contracts were let for 12 new schools, or additions to schools already built. The title for the properties improved have been vested in the City for one of the plots, that on which the DeWitt Clinton High School is being erected, for nearly seven years before a contract was let. The cost to carry this piece of property from vesting date to the date the contract was let, was \$62,564.76, and the loss of taxes amounted to \$16,634.84, a total of \$79,199.60.

Of the other plots, one was owned by the City for 61 months, one for 60 months, one for 55 months, one for 24 months, the others for 13, 12, 9, 7, 6 and 4 months respectively. The contract for the improvement of the remaining plot, an addition to Public School 106, on Mott and Elizabeth streets, near Spring street, was let on December 30, 1902, two days before title to the property was vested (January 2, 1903), in the city.

The carrying charges for the Manhattan properties from the date title was

vested to the date that contracts were let, were \$150,499 42
Loss of taxes..... 38,323 48

Cost to the city for carrying charges and taxes..... 188,822 90

Taxes are computed on the basis of the valuations, and at the rates that prevailed in the different boroughs during the period these properties were unimproved. Taxes are not charged for any year in which a contract was let on the assumption that the property would have been bought in such year. Neither are they figured for any year where title vested after the first Monday of October. Allowance was also made for condemnation costs.

In the Borough of The Bronx four contracts were let, the plots being in possession of the city for 59 months, 45 months, 8 months and 2 months respectively.

The carrying charges for the Borough of The Bronx were..... \$21,679 43
Loss of taxes..... 4,446 06

Cost to the city for carrying charges and taxes \$26,125 49

In the Borough of Queens four contracts were let after the properties had been in the city's possession for 23, 12, 6 and 3 months respectively.

The carrying charges for the Borough of Queens were..... \$2,275 38
Loss of taxes..... 431 55

Cost to the city for carrying charges and taxes..... \$2,706 93

In Richmond Borough two contracts were let, the city being in possession of the properties for 7 and 4 months.

The carrying charges were..... \$556 10

For the Borough of Brooklyn the attached compilation is arranged to show properties improved, for which title was vested in the city previous to February, 1902, when the present Board of Education assumed control of the school affairs of that borough, and those that were acquired subsequent to that time. The whole, however, presents the conditions that existed and consists of eighteen plots of property. They were in possession of the city before contracts for improvements were let, for periods varying from 3 months to 33 months. Contracts for schools on two of these plots were let before title to the property was vested in the city. The contract for School 145, Central avenue and Noll street, was let December 29, 1902, and the title to the site was not vested in the city until January 9, 1903, eleven days later. The contract for School 47, on Pacific street, between Third avenue and Nevins street, was let April 6, 1903, the city coming in possession of the site on May 20, 1903, over six weeks later.

The carrying charges for the Brooklyn properties were..... \$30,950 97
Loss of taxes..... 6,971 55

Cost to the city for carrying charges and taxes..... \$37,922 52

Summarized, the cost of allowing school sites to remain idle for the periods mentioned, was:

	FOR CARRYING CHARGES	FOR LOSS OF TAXES.
Manhattan.....	\$150,499 42	\$38,323 48
Bronx.....	21,679 43	4,446 06
Brooklyn.....	30,950 97	6,971 55

	\$205,961 30	\$50,172 64
	50,172 64	
Total Cost to City.....	\$256,133 94	

The detail of the 40 improvements mentioned in this report will be found on the attached compilation.

Respectfully submitted,
(Signed) E. E. SCHIFF, Clerk to the Comptroller.

And offered the following resolution:

Resolved, That all applications for the acquisition of land for any and all public purposes shall be accompanied by a detailed statement of the reasons which make the acquisition of land necessary, and also the date when the department, commission, bureau or officer making the application can actually use the same for the purposes for which the land is to be acquired.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

The Secretary presented the following report of the Appraiser of Real Estate, Department of Finance, relative to the request of the Board of Education for the acquisition of land as a site for school purposes on Eighty-ninth street, between Avenues A and B, in the Borough of Manhattan:

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
January 25, 1904.

Hon. EDWARD M. GROUT, Comptroller:

SIR—The Board of Education, at a meeting held October 28, 1903, adopted the following resolution:

"Resolved, That the Board of Education hereby selects and determines as a site for school purposes the following described lands and premises on East Eighty-ninth street, between Avenues A and B, in Local School Board District No 16, Borough of Manhattan:

"Beginning at a point on the southerly line of East Eighty-ninth street distant 100 feet easterly from the easterly line of Avenue A, and running thence southerly and parallel with Avenue A one hundred (100) feet eight and one-half (8½) inches; thence easterly and parallel with Eighty-ninth street one hundred and sixty-eight (168) feet nine (9) inches; thence northerly and again parallel with Avenue A one hundred (100) feet eight and one-half (8½) inches to the southerly line of Eighty-ninth street; thence westerly along the southerly line of East Eighty-ninth street one hundred and sixty-eight (168) feet nine (9) inches to the point or place of beginning.

"Assessed valuation of the above described lands and premises, as shown by the books of record on file in the Department of Taxes and Assessments, fifty-nine thousand five hundred dollars.

"Resolved, That the Board of Estimate and Apportionment be, and it is hereby requested to take such action as may be necessary and proper for the acquisition of the lands and premises above described."

This plot is composed of nine lots, each lot being 18 feet 9 inches in width front and rear, with a depth of 100 feet 8½ inches on each side, and are known as Nos. 504 to 520 inclusive, East Eighty-ninth street, and there are erected thereon nine two-story and basement brownstone dwellings, each 18 feet 9 inches by 48 feet.

No. 504 East Eighty-ninth street has a third story brick addition to the main building 16 by 30 feet, and is assessed at \$7,500, while all the rest of the property is assessed at \$6,500 each, which makes a total assessed valuation of \$59,500. Several of these houses are owned by Alderman John Schappert, and two others (Nos. 504 and 506) by Peter Zimmerman, and Mr. Mallowney, of this Department, who made the investigation as to this site, has informed me that he understood from Alderman Schappert that the entire row of houses had been in the hands of an attorney for the past six months. I have been in communication with the attorney, Mr. Joseph A. Flannery, who represents a great many litigants in condemnation proceedings, and have been informed by Mr. Flannery that the price at which he is authorized to sell the property to the City is the sum of \$124,500.

The fair market value of the premises mentioned in the resolution of the Board of Education is \$83,000; No. 504, \$11,000, the other eight at \$9,000 each, a total of \$72,000.

The premises desired by the Board of Education is in the interior of the block facing on Eighty-ninth street, with the rear of the school site abutting upon five-story tenements on Eighty-eighth street, the front directly opposite the House of the Good Shepherd, located in the block bounded by Avenue A, East Eighty-ninth, East Ninetieth, the water front and East End avenue. I am informed that the windows in the building of the House of the Good Shepherd are iron barred, and I don't believe it would be as good a selection as a site for a public school as another piece of property hereinafter mentioned within a block of this same location.

On the corner of Avenue A, extending from East Ninetieth to East Ninety-first street, there is a vacant plot of ground on Avenue A 201 feet 5 inches front by 150 feet in depth on East Ninetieth and Ninety-first street, upon which this office has an option for the sale of the same to the City, and it can be purchased for the sum of \$118,000. The plot of ground selected by the Board of Education contains 17,001.56 square feet. In the site mentioned and described by me there are 30,212.4 square feet.

I would respectfully recommend that the request of the Board of Education for the approval of the Board of Estimate and Apportionment of the acquisition of the site named in the resolution of the Board of Education be refused, on the grounds: First, that the price asked for the property is excessive and that condemnation proceedings will have to be instituted for the acquisition of the site, which will cause delay and expense, and that in acquiring this site, the City is paying for buildings upon the property which will have to be removed therefrom.

Second, that the school building erected on the site selected by the Board of Education would be surrounded by houses on all sides, thus cutting off light and air, and that the Board of Education be requested to examine the vacant plot on the corner of Avenue A, between East Ninetieth street and East Ninety-first street, fronting 200 feet on Avenue A by 150 feet on East Ninetieth and East Ninety-first streets, and if as suitable for school purposes as the site on East Eighty-ninth street, that they be requested to rescind their resolution for the school site on East Eighty-ninth street and adopt a resolution, selecting Avenue A, East Ninetieth and East Ninety-first streets as a school site.

Respectfully submitted for approval.

MORTIMER J. BROWN,
Appraiser of Real Estate in Charge of Bureau.

The Comptroller moved that the matter be referred back to the Board of Education, together with a copy of the report of the Appraiser of Real Estate, Department of Finance, relative thereto, for consideration and action.

The Secretary presented the following communication from the Corporation Counsel, requesting the transfer of \$12,000 to "Supplies and Contingencies, including Deficiencies:"

LAW DEPARTMENT—OFFICE OF THE CORPORATION COUNSEL,
NEW YORK, January 28, 1904.

The Board of Estimate and Apportionment of The City of New York:

DEAR SIRS—The appropriation which was made to this Department for "Supplies and Contingencies, including Deficiencies, 1903," is practically exhausted. Bills have been received at this Department up to the present time against that appropriation which amount to \$11,153.49. A list of these bills has already been transmitted to your Board. All these bills were contracted by my predecessor in office and are properly chargeable to the appropriation, and I am therefore compelled to ask your Board to make a transfer, in order that they may be paid.

The appropriation made to this department for 1904 is available for the payment of deficiencies, but the amount appropriated is only \$60,000, and our records show that over \$100,000 has been actually expended for this purpose during each of the several past years. It is evident that the appropriation is already insufficient to meet the demands which will be made upon it, and it would be a great handicap to start the year by paying out \$12,000 for bills which were contracted during the previous year.

It is possible that other bills will be presented in the future which will be properly payable from this appropriation, and there does not seem to be any way in which I can ascertain just how many bills of this description may be presented; but I think that the list which has been sent to you, which aggregates \$11,153.49, covers almost all of the outstanding indebtedness of the Department for "Supplies and Contingencies," and that if the sum of \$12,000 is transferred, it will be sufficient to meet all of the demands which will be made for payment.

I therefore request that your Board transfer to the appropriation for "Supplies and Contingencies, including Deficiencies, 1903," from any available fund, the sum of \$12,000.

Yours respectfully,
JOHN J. DELANY, Corporation Counsel.

The following resolution was offered:

Resolved, That the sum of twelve thousand dollars (\$12,000), be and the same is hereby transferred from the following appropriations made to Charitable Institutions for the year 1903, entitled and as follows:

The Society of the Lying-in Hospital of The City of New York.....	\$4,000 00
New York Catholic Protectory.....	6,000 00
Brooklyn Children's Aid Society, for Seaside Home.....	2,000 00
	<u>\$12,000</u>

—the same being in excess of the amounts required for the purposes thereof, to the appropriation made to the Law Department for the year 1903, entitled "Supplies and Contingencies, including Deficiencies," the amount of said appropriation being insufficient.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

BOARD OF EXAMINERS.

JANUARY 26, 1904.

Present—Messrs. William J. Fryer, Warren A. Conover, William C. Smith, Charles Buck, Charles G. Smith, Charles W. Kruger and Walter Cook (Chairman).

Meeting called to order at 3 P. M.

On motion, minutes approved as read.

Appeal 6—On presentation of report and on motion appeal was approved.

Appeal 7—On presentation of report and on motion appeal was approved.

Appeal 8—On presentation of report and on motion appeal was denied.

Appeal 10 of 1904—New Building 888 of 1903, Nos. 27 and 29 Thompson street, Manhattan, Saas & Smallheiser, architects and appellants:

"Brick partition wall should be provided in upper stories where span of floor beams exceeds 26 feet."

An equally good and more desirable form of construction can be employed.

To substitute steel beams to support floor beams on second and upper stories in place of brick walls. The partition directly under said girder will be built of 4-inch fireproof blocks, and the partitions between and separating all the apartments will be plastered on metal lath on both sides, as marked on plans.

As the said girders are sufficient to carry the floor loads, and as the said brick wall would be impracticable, as the area of the rooms would be reduced considerably and considerable dead weight would be imposed over the first story. The applicants agree to give their own personal supervision of all matters relating to this appeal and to see that these measures are carried out.

Mr. Samuel Sass appeared before the Board.

On motion, approved.

Appeal 11 of 1904—New Building 869 of 1903, Nos. 14 and 16 Bedford street, Manhattan, Bernstein & Bernstein, architects and appellants:

"Where span exceeds 26 feet between brick walls, brick partition walls should be built."

We propose to substitute in place of brick wall a steel I beam girder with 4-inch fireproof brick partition wall directly underneath same, and all apartments will be separated from one another with brick filled partitions.

Approved, on condition that the appellants agree to give their personal supervision to all matters relating to this appeal, and to see that these measures are carried out.

Appeal 12 of 1904—New Buildings 646 of 1903, Nos. 335 to 341 West Sixteenth street, Manhattan, L. A. Goldstone, architect and appellant:

"No. 1. That top-story wall should not be less than 16 inches thick."

It is proposed to build said top-story wall of brick 12 inches thick and front and rear girder bearing piers 16 inches thick laid in cement mortar, in view of the fact that said wall will support roof beams only; furthermore, that said wall can never have any greater load to carry, and that the said wall being laid up 12 inches in thickness with cement mortar will be equally as good for the purposes it is intended and that the amount involved will exceed the sum of \$1,000.

That the top-story wall be permitted to be built 12 inches thick and front and rear girder bearing piers 16 inches thick and laid in cement mortar, instead of entire wall 16 inches thick.

That said wall has to support roof beams only, or a uniformly distributed load of 585 pounds per square foot; whereas said wall being but 12 inches thick and laid up in cement mortar is capable of safely sustaining a uniformly distributed load of 30,000 pounds per square foot.

Mr. L. A. Goldstone appeared before the Board.

On motion, denied.

Adjourned.

THOMAS F. DONOHUE, Clerk.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either enclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
