Respectfully submitted,

CHARLES H. GRAHAM,
Engineer in Charge Sewers, The Bronx.

Office of Topographical Engineer.

One Hundred and Seventy-seventh Street and Third Avenue,
New York, October 2, 1905.

Mr. JOSIAH A. BRIGGS, Chief Engineer of the Borough of The Bronx:

Sir—In accordance with your instructions I have the honor to submit the following report of work done under my charge during the months of July, August and September, 1905.

The Topographical Bureau of the President of the Borough of The Bronx is charged with the following duties:

1. To make the topographical surveys, computations, maps or plans and profiles and reports in connection with the following three (3) divisions of work:

(a) The preparation of a design for the street system in those parts of the borough where a design is not adopted as yet, and the making of surveys, maps, etc., showing changes of adopted street systems and grades; also the preparation of three copies for filing of all matters which have been adopted by the Local Boards or approved by the Board of Estimate and Apportionment.

(b) The actual demarcation on the ground by monument stones and copper bolts of the lines of adopted avenues, streets, public squares, places, etc., and the protection of the same when improvements are being made.

(c) The making of surveys, searches, maps, technical descriptions, profiles, etc., for the Commissioners of Estimate and Assessment in the matter of acquiring title by the City to avenues, streets and other public property.

2. To keep in custody the records and maps of all matters pertaining to work under the jurisdiction of the Topographical Bureau; also keeping in custody all maps filed in relation to the Borough of The Bronx under the Department of Public Parks, the Commissioner of Street Improvements of the Twenty-third and Twenty-fourth Wards and the President of the Borough of The Bronx.

3. To make examinations, maps and reports on miscellaneous matters referred by the Chief Engineer of the Borough of The Bronx.

1 (a). Preparation of the Design of a Street System, Maps Showing Changes of Adopted Street Systems, etc.

The Board of Estimate and Apportionment on May 29, 1903, approved a tentative plan of the street system, east of the Bronx river, which amended previously filed plans and laid out streets over such areas which had not been taken up.

A resolution was passed as follows:

Resolved, That the President of the Borough of The Bronx cause to be prepared for submission to this Board, in suitable sections and drawn to a larger scale, three similar copies of the Adopted General Plan of the Street System for certification and filing in the manner required by law, showing as nearly as possible in a general way the nature and extent of the proposed changes and amendments, laying out and extending of streets, roads, avenues, squares or places.

Sections 31 and 33, which were forwarded to the Board of Estimate and Apportionment on April 29, 1905, and April 12, 1905, were approved by said Board on September 22, 1905, and copies for filing will be prepared.

The three copies for filing of section 32 are made, but have not been filed as yet.

These maps give the side lines of blocks, grades and all necessary information required for the legal opening of such streets.

Computations and maps in relation to amendments and new sections, namely, 29, 33, 35, 37, 38, 43 and 46, were progressed.

Computations to establish the intersections of avenues and streets with the proposed New York, Westchester and Boston Railway and the New York and Port Chester Railroad, were made.

The fixture sheets, which show the relation between the new street system and existing street lines and property lines by dimensions and co-ordinates, were progressed.

Computations were also made for all the changes or establishing of new street lines, grades, etc., which had been before the Local Boards, and for which maps were forwarded to the Board of Estimate and Apportionment for adoption and filing.

The following is a tabular statement of office work in relation to computations:

CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO OF CITY REAL ESTATE.

AT THE REQUEST OF THE COMMISSIONER OF DOCKS, public notice is hereby given that the Commissioners of the Sinking Fund of the City of New York, pursuant to the resolution adopted at their meeting held March 8, 1906, and by virtue of the powers vested in them by law, will offer for sale at public auction the buildings, parts of buildings, etc., standing within the lines and on property owned by The City of New York, acquired for dock purposes, in the Borough of Manhattan, the property being the steel freight shed now located on Pier, old 10, between Cuyler's alley and Old Slip, East River, Borough of Manhattan, which consists of two parts—the office portion at the inshore end and the shed proper. The office portion is about 60 feet long by 37½ feet wide, and is built in two stories; the centre height from the dock of the pier is about 35 feet. The shed proper is a single story structure, about 384 feet long and about 37 feet wide; its centre height from the dock of the pier is about 20 feet. The entire shed covers an area of about 16,458 square feet.

All the posts, stanchions, trusses and bracing composing the framing of the shed are of structural steel. The roof sheathing, window frames, partitions, walls, ceiling, office doors, etc., of the second story of the office portion are of woodwork, in first class condition. The sides of the building, not taken up by doors, are covered by galvanized corrugated steel. The roof of the office portion is covered with roofing tin laid on boards which rest on the wooden purlins. The roof of the shed proper is composed of double spruce covering and laid over with 1½-inch tongue and grooved yellow pine flooring.

The principal parts or items composing the shed on Pier, old 10, East River, are all the trusses, columns, studs, purlins, bracing, corrugated steel folding doors, corrugated steel sheeting composing sides and end of shed, steel frames and all material of every description comprising the shed proper and office portion down to the decking of the pier, excepting the backing log, and any portion or portions of the pier proper which may be above the level of said decking of the pier.

The items enumerated above are believed to be approximately correct, but bidders must satisfy themselves as to the quantity, quality and condition of the material composing the shed, at the time of sale.

By direction of the Comptroller the sale of the above-described shed and appurtenances thereto will be made under the supervision of the Collector of City Revenue, Department of Finance. The sale will take place on

MONDAY, APRIL 10, 1906,

at 11 a. m., on the premises, the property being sold in the condition in which it is in on the day of the sale, possession of which will be given immediately, upon which date the purchaser shall begin the work of removal and shall complete all such work within thirty days from that date, and will be sold for the highest marketable price at public auction on the following

TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of the City of New York, and must give either a cash bond or an approved bond of a surety company in the amount of the purchase price as security for the proper performance of the work of removal, which must be completed within thirty working days thereafter.

All the buildings, structures and parts thereof, their fixtures of every class and description, within the described area, are to be torn down to the decking of the pier, excepting the backing log and any portion or portions of the pier proper which may be above the level of said decking of the pier. All tin from roofs, cornices, sides of buildings or partitions, sheds and fences shall be removed from the premises. All brick laid in mortar, all floor beams, joists, studding, flooring, ceiling, roofing, boards and woodwork of every description, and all gas, water, steam and soil piping shall be removed from the premises. All combustible matter, such as tar and felt roofing, broken lath and fragments of timber, chips, splinters, etc., which are of no value, shall be gathered together by the contractor and burned or carried away.

Failure to remove the said buildings and appurtenances, or any portion thereof, within said period will work forfeiture of ownership of such buildings or appurtenances, or any portion as shall then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the said City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against and from all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damages and costs to which it, they or any of them be put by reason of injury to the person or property of another resulting from negligence or carelessness in the performance of the work or in guarding the same, or from any improper or defective materials or machinery, implements or appliance used in the removal of the said buildings by the said suc-

cessful bidder, and the bidder's assent and agreement to the above conditions are understood to be implied by the act of bidding.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down, but all furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls shall be taken down and removed. The walls shall be made permanently self-supporting, without the aid of braces, the beamholes, etc., bricked up and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted and made water tight where they have been disturbed by the operation of the contractor.

The Comptroller of the City of New York reserves the right on the day of the sale to withdraw from sale any of the buildings or parts of buildings and machinery included in the foregoing parcel.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Of the 306 proceedings now in the Bureau, 70 have been practically completed and 101 are active, in which the taking of testimony and hearing of objections is going on. Forty-one preliminary abstracts of awards and assessments are being prepared, and hearings will take place in these proceedings in a short time.

Ninety-four proceedings are awaiting maps, and these maps are coming in in fairly reasonable time.

In 40 cases resolutions to open streets and rule maps have been received, and applications for the appointment of Commissioners in these 40 proceedings will be made this month. Additional resolutions have been received, in which application will have to be made for the appointment of Commissioners as soon as the rule maps are received.

On December 31, 1904, there were 264 proceedings pending, and on December 31, 1905, 306 proceedings were pending, an increase of 42.

Notwithstanding 113 proceedings were confirmed during the year and 11 reports were submitted for confirmation, applications are to be made this month for 37 additional proceedings, making an increase at this date of 79 proceedings pending.

The proceedings pending on December 31, 1905, are classified by boroughs as follows:

Manhattan	34
The Bronx	118
Queens	62
Richmond	11
Brooklyn	81

The additional proceedings to be instituted are classified as follows:

Manhattan	1
Queens	25
Richmond	1
The Bronx	10

In view of this situation it is imperative that steps should be taken at once to increase the office force of the Bureau of Street Openings, so as to handle not only the additional proceedings instituted, but to decrease, if possible, the number of pending proceedings at the end of the year. For this purpose I recommend that authority be obtained either from the Board of Estimate and Apportionment or from the Legislature to make this increase as speedily as possible.

Yours respectfully,

JOHN P. DUNN,

Assistant Corporation Counsel in Charge of Bureau of Street Openings.

This report embraced eleven parcels and one separate claim, embodying 123,718 acres, for which the awards amounted to \$107,275.

In re Cornell Dam, Ninth Supplemental Proceeding.

The proceedings before the Commissioners herein have been concluded, and the Commissioners will sign a final report shortly after the first of the coming year.

In re Byram Pond and Bear Gutter Creek. (Parcels 61 and 62.)

The trial of this proceeding has been continued during the present year, but no report has yet been rendered.

Carmel or Lake Gleneida Proceeding.

The trial of this proceeding has been continued and the taking of testimony closed. A final report will shortly be signed by the Commission.

In re Eighth Cornell, Parcel 141.

This parcel, which was sent to a new Commission, was partially tried on behalf of the claimant, and then compromised by the claimant withdrawing his claim, owing to a settlement of the entire highway question between the Aqueduct Commissioners and the County of Westchester, mentioned below.

New Proceedings, Cross River.

Proceedings were instituted to acquire lands for the construction of a reservoir and dam at Cross River. On application of counsel for the claimant, this proceeding was divided and two sets of Commissioners were appointed.

In the first division the first separate report, embracing five parcels in the sum of \$33,250 awards, was confirmed on the 11th day of September, 1905. Testimony has been almost concluded in reference to five other parcels, upon which the Commissioners expect to make a report in a short time.

The second division has made two separate reports, embracing ten parcels, amounting to the sum of \$43,400 awards.

Cross River, Supplemental Proceedings.

Proceedings have been instituted to acquire fifteen additional parcels of land required for the construction of the Cross River Dam and Reservoir, and also for the purpose of taking possession of certain old highways, and it is expected that Commissioners will be appointed shortly.

Croton Falls Reservoir.

In pursuance of the Corporation Counsel's instructions, I have been furnishing the Aqueduct Commissioners with descriptions and the names of owners of parcels of land proposed to be taken and now being surveyed on the west branch of the Croton river for the purpose of acquiring land for the construction of the Croton Falls Reservoir, and it is expected that Commissioners will be appointed shortly.

Mount Kisco Proceeding.

Efforts have been made from time to time on the part of the Board of Health of The City of New York to have proceedings taken to prevent the pollution of the City's water supply at Mount Kisco, and an agreement has been practically reached between the Department of Water Supply, Gas and Electricity and the Village of Mount Kisco, whereby the sewage from said village will be satisfactorily disposed of. This will require the condemnation of certain low swamp lands by The City of New York, and maps are being prepared to that end.

Byram River Diversion.

In the matter of making settlements with the owners of lands having a frontage on the Byram river, caused by the diversion of the waters of said river, five claimants have signed agreements to accept the amount fixed by the Comptroller and have been paid and have given releases. One claim is awaiting warrant from the Comptroller, and one claim is awaiting disposition of an action in the Supreme Court, New York County. One is awaiting Surrogate's final proceedings, claimant having died. Two claims are awaiting adjustment of dispute as to the number of feet frontage. Seven have not yet signed agreements with the Comptroller.

New Highways.

In the construction of the new Cornell Dam and Reservoirs, various roads and highways would be flooded. This necessitated the selection of new routes of highways to take the place of the old highways flooded, and was the source of considerable dissension between the various town authorities and the City. Matters, however, have been amicably adjusted, and the necessary agreements between the various towns have been made, transferring the old highways and accepting the new ones.

Whitlock Bridge, New Highway 32.

In the construction of the new highways, the question arose as to whether the City or the railroad should erect and maintain a bridge over the railroad where it intersects New Highway 32. This has been adjusted between the railroad company, the Whitlock estate and The City of New York, by which the building of a bridge has been dispensed with, and proceedings have been instituted and are now nearing completion whereby a portion of the old road will be discontinued.

Fees of Commissioners and Clerks.

The fees of the Commissioners of Appraisal, known as Cornell Eighth Supplemental Proceeding, which were presented for taxation, were thought exorbitant and taxation was opposed, and a referee appointed, who reported a slight reduction. Motion to confirm said report will be opposed.

The bill of the Clerk appointed by the Cornell Dam Ninth Supplemental Proceeding presented for taxation, was opposed on the ground that there was no necessity for the same, and a referee has been appointed, but has not yet held any hearings.

The bill of the Clerk of the Cross River, First Division, was presented for taxation and was opposed, and a referee has been appointed, but has held no hearings.

MATTER OF TAXATION OF CITY LANDS, WESTCHESTER AND PUTNAM COUNTIES.*In re Application, City of New York for Writ of Certiorari to the Assessors of the Towns of Southeast, Kent, Carmel, New Castle, Yorktown, Cortlandt, North Salem, Mount Pleasant, Greenburgh, Somers, North Castle.*

These were proceedings begun in 1902 and 1903, to review the legality of the assessment of the dam and other structures formerly exempt, and the inequality of said assessments were submitted to the Court of Appeals and a decision was handed down, deciding the matter adversely to The City of New York, on the sole question, however, of the right to tax the structures; the inequality was not determined, and certiorari proceedings have been taken to review the assessments for 1904 and 1905, and a referee has been appointed in the 1905 proceeding to take evidence on the question of inequality. In the 1904 proceedings a motion was made to quash the writ on the ground that the Court of Appeals decision was conclusive, but the matter has not yet been determined.

Injunction Suits.

City of New York vs. Edward B. Kear, Supervisor, Yorktown.
City of New York vs. A. Smith Hopkins, Supervisor, North Castle.
City of New York vs. Frank S. Reynolds, Supervisor, North Salem.
City of New York vs. S. Fletcher Allen, Supervisor, Cortlandt.
City of New York vs. Alex. McClelland, Supervisor, Greenburgh.
City of New York vs. John J. Sinnott, Supervisor, Mt. Pleasant.

In connection with the certiorari proceedings, six suits were brought to enjoin the Supervisors of the towns of Yorktown, North Salem, Cortlandt, Greenburgh, Mt. Pleasant and North Castle from selling the land of the City for unpaid taxes. These suits are at issue, but have not been tried. A preliminary injunction has been granted, and the City is not desirous of moving unless compelled to, and will probably withdraw these suits as soon as the certiorari proceedings are determined.

City of New York vs. Frank Wells, as County Treasurer.

This is a similar suit to the six above mentioned, and was tried before Justice William D. Dickey and decided adversely to the City, whereupon the City took an appeal to the Appellate Division. After the decision of the certiorari cases in the Court of Appeals, the appeal in this matter was withdrawn, and the matter has been settled, as said decision rendered this appeal useless.

Croton Dam Suits.

Carmalla Guss vs. City of New York et al.
Antonio Franzaga vs. City of New York et al.
Philomena Crapist vs. City of New York et al.
Gabriele Scalzo vs. City of New York et al.
Angelo Camarato vs. City of New York et al.
Carline Paonessa vs. City of New York et al.
Saverio Costanzo vs. City of New York et al.
Guzzie vs. City of New York et al.

The above suits, which have been instituted by certain persons owning property below the new Croton Dam, for damages caused by dumping excavated material upon the bank of the Croton river, and thereby causing it to overflow the opposite bank, are at issue and on the trial calendar, but have not been reached. Thorough investigation has been made and the necessary facts and witnesses obtained to protect the City's interests.

Gouverneur vs. City of New York.

This is an action to enjoin the City from drawing down the waters of Lake Gilead below low water mark. After action was brought the City acquired by condemnation proceedings the property owned by plaintiff, and the action was held in abeyance and no answer served. Recently the matter has been urged by plaintiff's attorney, and answer has been served. No further proceedings have been taken.

Elmsford Drainage Commission.

The Commission herein appointed by the County Court in the matter of the application of the Elmsford Real Estate Company and others for the drainage of certain low, wet and marsh lands in the town of Greenburgh, filed their report in the office of the Clerk of Westchester County December 6, 1901, assessing certain benefits against various parties, including The City of New York, from which report the City appealed, and the matter, under the statute, is being again tried before a referee. The City submitted its testimony December, 1903, and the case for the appellant was closed Saturday, December 10, 1904. The case has been finally closed, and briefs are to be submitted in one month.

In re Claim of New York and Harlem Railroad Company.

The negotiations between the City and the Railroad Company herein regarding the conveyance of the right of way have been satisfactorily adjusted and a form of conveyance has been agreed upon and executed by the Mayor, but has not yet been delivered, pending the settlement of the controversy as to the Whitlock Bridge, which is now, however, in process of adjustment. (See report above.)

Amawalk Reservoir.

Certain questions have arisen as to the custody and control of the highways surrounding this reservoir. The matter was referred to me and has been adjusted, and nothing remains to be done except to draw the necessary agreements, which are in preparation.

Dated New York, March 12, 1906.

Respectfully submitted,

I. J. BEAUDRIAS, Special Counsel.
