This security may at any time after the expira-

tion of the contract period be applied by the City of New York to the cost of completing any other work required under the contract, but unfinished at the expiration of the contract period.

All the materials of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the sidewalk and curb in front of said buildings extending within the described area and down to the level of the cellar bottom, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises except old mortar or plaster only which may be left, but not higher at any point than two feet below the curb opposite that point; also the foundation walls of all classes shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building.

The work of removal must be carried on in every respect in a thorough and workmanlike manner and must be completed within sixty days from the day of sale, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the personal property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of the said buildings.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. PUBLIC NOTICE IS HEREBY GIVEN that at a meeting of the Board of Estimate and Apportionment, held June 5, 1908, the following petition was received:

To the Honorable the Board of Estimate and Apportionment:

The petition of the Union Railway of New York City respectfully shows:

First—That your petitioner is a street surface railway company, organized and existing under the laws of the State of New York, having been formed by the filing of articles of consolidation in the office of the Secretary of State of New York on the fifth day of July, 1892.

Second—That for many years it has been engaged in the operation of a double-track street surface railroad, with extensions and branches thereof, for the carriage of passengers in the Boroughs of Manhattan and The Bronx, in The City of New York, and using the overhead trolley system of electric traction as motive power thereon.

Third—That one of the lines of the petitioner's railroad has been operated for many years upon Fordham avenue and Bailey avenue, in the Borough of The Bronx, and afforded a convenient connection for public travel between the easterly portion of the Bronx Borough, in which are operated the steam lines of the New York and Harlem Railroad, the elevated lines of the Manhattan Railway and the Kingsbridge section of the Borough of The Bronx.

An additional line of the petitioner's railroad has been operated on Broadway, between Two Hundred and Thirtieth street and the northerly line of The City of New York, affording also a convenient line of travel to and from the terminus of the subway line to many thousands of people traveling daily thereon.

Fourth—Your petitioner now proposes to connect its road upon Fordham and Bailey avenues, which now terminates at the intersection of Two Hundred and Thirtieth street and Bailey avenue, with the road upon Broadway, which now terminates at Two Hundred and Thirtieth street, by the construction of a double-track extension, or branch, in said Borough of The Bronx, in The City of New York, upon the following streets and avenues:

Beginning at and connecting with the petitioner's double-track road now constructed on Bailey avenue, at the intersection thereof with West Two Hundred and Thirtieth street; running thence westerly in or upon the surface of West Two Hundred and Thirtieth street to its intersection with Broadway, there to connect with the petitioner's double-track road now operated thereon.

Fifth—That heretofore and on or about the 23d day of August, 1892, the Common Council of The City of New York gave its consent to the construction of an extension to the petitioner's railroad upon streets described in the resolution as "thence northerly along said (Sedgwick) avenue to its intersection with Bailey avenue; thence along Bailey avenue to its intersection with Broadway at Kingsbridge."

Your petitioner believes that by such description the Common Council giving such consent intended to include the right to construct upon Two Hundred and Thirtieth street the extension herein applied for, but said resolution was not effective for such purpose by reason of failure to specifically describe the said street.

Sixth—That such extension or branch will be 750 feet in length and, when constructed, will enable the petitioner to operate a continuous line of cars upon and over its Bailey avenue and Broadway lines above described.

Seventh—That your petitioner proposes to operate said extension or branch by the overhead system of electricity, similar in all respects to that now in use on its other lines of road.

Eighth—That for the purpose of constructing and operating such branch or extension of its road, your petitioner desires to obtain from your Honorable Board, and hereby applies for its consent to and a grant of the franchise or right for the construction, maintenance and operation of a double-track extension or branch of its existing railroad for public use in the conveyance of persons and property for compensation over the street and avenues above mentioned.

Wherefore your petitioner prays that public notice of this application and of the time and place when and where the same will be first considered be given, as required by law, and that a franchise or right be granted in accordance with the provisions of the Greater New York Charter.

Dated New York, May 28, 1908.

PUBLIC NOTICE IS HEREBY GIVEN that at a meeting of the Board of Estimate and Apportionment, held June 5, 1908, the following petition was received:

To the Honorable the Board of Estimate and Apportionment:

The petition of the Third Avenue Railroad Company respectfully shows, on information and belief, as follows:

First—That your petitioner is a street surface railway company, organized and existing under

the laws of the State of New York, having filed its articles of association in the office of the Secretary of State on the 8th day of October, 1853.

Second—That for many years it has operated a double track street surface railroad for the carriage of passengers in the Borough of Manhattan, City of New York, from the City Hall, in said City, upon Park row, Bowery and Third avenue to the Harlem River; upon One Hundred and Twenty-fifth street and Manhattan street, from East River to North River, and upon Amsterdam avenue, from One Hundred and Twenty-fifth street to the northerly terminus thereof at Fort George, at or near the intersection of Fort George avenue, using the underground system of electrical traction as motive power for such operation.

Third—That your petitioner proposes to extend its road on Amsterdam avenue and construct a branch thereof with double tracks and such connections, switches and appurtenances as may be necessary for the accommodation and operation of the said extension or branch in, through and upon the surface of such streets, avenues and highways in the Borough of Manhattan, City of New York, as are described as follows: Beginning at and connecting with the double track road upon Amsterdam avenue, owned by the Third Avenue Railroad Company, at or near the connection of said avenue with Fort George avenue, running thence northerly, westerly and southerly in, upon and along said Fort George avenue, as it winds and turns to the connection thereof with St. Nicholas avenue, running thence southerly in, upon and along St. Nicholas avenue to the intersection of One Hundred and Ninetieth (190th) street, and running thence easterly in, upon and along said One Hundred and Ninetieth (190th) street to the intersection of said street with Amsterdam avenue, there to connect with the existing railroad on said avenue, now owned by the said company.

Fourth—That such extension or branch will be 3,500 feet or thereabouts in length. When constructed it will enable the petitioner to operate cars over a continuous line of road, and avoid the inconvenience arising from the use of a stub end railroad terminal. The present operation will be accelerated thereby and quicker transportation given to the public seeking to depart from the Fort George territory.

Fifth—That your petitioner proposes to operate said extension or branch by the underground system of electrical operation, of the character now used on the petitioner's road on Third avenue, Amsterdam avenue and other streets above referred to.

Sixth—That for the purpose of constructing and operating said extension or branch of its road your petitioner desires to obtain from your Honorable Board and hereby applies for its consent to, and a grant of, the franchise or right for the construction, maintenance and operation of a double track extension branch of its existing railroad, for public use in the conveyance of persons and property for compensation, in or upon the avenues, streets and highways above described.

Wherefore, your petitioner prays that public notice of this application and of the time and place when and where the same will be first considered, be given, as required by law, and that a franchise or right be granted for the construction, maintenance and operation of said above described extension and branch be granted in accordance with the provisions of the Greater New York Charter.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
