### Bellevue and Allied Hospitals.

A regular meeting of the Board of Trustees of Bellevue and Allied Hospitals was held in the staff room of Bellevue Hospital on Wednesday, June 9, 1915, at 3 o'clock.

Present:—Dr. Brannan, the President, in the chair; Messrs. Paulding, O'Keeffe, Sachs and Stern, Trustees. Excused—Mr. Farley, Mr. Robbins and Mr. Kingsbury, Commissioner of Public Charities.

The minutes of the meeting of May 18 were held as read and approved.

Dr. O'Hanlon, the General Medical Superintendent, reported as follows:

Dr. Louis C. Schroeder, Resident Physician on the Children's Service, and Dr. Miller E. Trask, Admitting Physician at Gouverneur Hospital, have each resigned, to become effective June 30.

Dr. Norris, Director of Laboratories,

asks for the appointment of Dr. Willis Baker and Mr. Robert Harwood as Resident Pathologists, at salaries of \$600 to fill the two existing vacancies in the laboratory.

Miss Wadley has asked for one month's vacation, and two months' leave of absence, if necessary, on account of ill health.

The boats Westfield and Southfield are very much in need of repairs, painting, etc., involving an expenditure of several hundred dollars each. It would seem desirable to make some effort to secure new boats for this purpose if this work is to be continued.

The following midwives have completed their course of training, and your authorization is requested for the granting of the usual diploma: Wladyslaw Truszkowska (2d course), Katherine

Bauer (2d course), Rosina Disalve, Adella Fractman, Margaret Orosz, Frances Salmene, Marie E. Schweizer, Catherine Mira, Emma De Cillia, Barbara Shine, Margaret Wattay, Patronilla Mochus, Aino Maria Palmer, Mary J. Caruso, Bessie Dolane, Emma F. Del Bono.

I am in receipt of a communication from Dr. Norris, Chairman of the Publication Committee, for permission to buy reprints and incorporate in the Medical and Surgical reports of the hospital "The Analysis and Cost of Ready to Serve Foods," by Gephart and Lusk, and part 2 of No. 5, "Archives of Internal Medicine," issued in May, this year. The Corporation Counsel states that we could purchase these publications and distribute them as books. This would not be advisable as certain additional printing is necessary.

The absences of the members of the

Visiting Staff at the various hospitals for the month of May did not in any case exceed the number permitted except in the case of Dr. Hotchkiss, who had a leave of absence.

The contractors have completed about 10 per cent. of the work on the new refrigerating system at the nurses' residence, Bellevue, and the contractors on the roof ward in pavilions A and B are putting in the foundations and have completed the painting of the iron work. About 40 per cent. of the rewiring of the old part of Harlem Hospital has been completed.

On separate motion, duly seconded and carried in each instance, action was taken upon the report of the General Medical Superintendent as follows:

The resignations of Dr. Schroeder and Dr. Trask were accepted with regret.

The appointments of Dr. Willis Baker and Mr. Harwood as Resident Pathologists were approved.

After consideration, it was resolved to grant Miss Wadley one month's vacation and two months' leave of absence.

The General Medical Superintendent was authorized to request the Department of Docks and Ferries to obtain, if possible, boats to replace the Westfield and Southfield.

The granting of the usual diploma was authorized to the midwives, mentioned in the General Medical Superintendent's report, who have completed their course of training.

Action was deferred on the request of Dr. Norris for permission to buy reprints for the medical and surgical publications of the department, pending the receipt of further information.

#### COMMITTEE REPORTS.

The Fordham Hospital Conference Committee recommended the appointment of Dr. Louis Neuwelt as Assistant Surgeon to Out-Patients. The report of the Committee was approved and the appointment made accordingly.

The Harlem Hospital Conference Committee recommended the following appointments: Dr. E. E. Meyers, Assistant Surgeon to Out-Patients (otology and laryngology); Dr. Joseph E. Taylor, Assistant Surgeon to Out-Patients (nose and throat); Dr. Harry Rodman, Assistant Surgeon to Out-Patients (nose and throat); Dr. David Katz, Assistant Surgeon to Out-Patients (gynaecology); Dr. Arthur J. Greenberger, Assistant Surgeon to Out-Patients (children's clinic).

On motion, duly seconded and carried, this report was approved and appointments made accordingly.

The Building Committee presented an application from the National Surety Company for payment of the retained percentage on the contract of Daniel J. Ryan for the construction of the roof wards of pavilions A and B. McKim, Mead & White, under date of May 26, certified that all the requirements of the contract have been fulfilled by the National Surety Company, who completed the contract, and recommended the payment of this amount. On the recommendation of the Building Committee, it was moved, seconded and carried, to authorize the payment of the retained percentage on this contract.

The Building Committee reported that they had considered the estimate of \$980 from Frank Nebeling, presented by J. H. Freedlander in his communication of May 17, to conceal the electric wiring instead of open wiring in the main building of Harlem Hospital, as called for in the specifications, and recommended that no change be made for the present. On motion, duly seconded and carried, this report was approved.

The Building Committee presented a communication, dated May 22, from the Department of Water Supply, Gas and Electricity, stating that Mr. Nebeling, the present contractor at Harlem Hospital, was willing to conceal part of the electric wiring without additional cost, which arrangement is satisfactory to that department. On the recommendation of the Building Committee, on motion duly seconded and carried, this change was approved.

The Building Committee recommended the installation of additional bathtubs in the Admitting Office of pavilions I and K and additional fire lines in the tunnel to the pathological building. After consideration, on motion, duly seconded and carried, this report was approved and the additional work authorized.

On the recommendation of the Building Committee, it was moved, seconded and carried, to authorize McKim, Mead & White to prepare the plans and specifications for the layout of the grounds around pavilions L and M.

The Building Committee presented a communication from J. H. Freedlander, dated May 27, transmitting an estimate of \$560 from A. W. King, contractors for the alterations to Harlem Hospital, for changes in the medical board room. On the recommendation of the Building Committee, it was moved, seconded and carried, not to accept this estimate and to make no change in this room for the present.

The Building Committee reported that they considered the contents of a letter from the Department of Water Supply, Gas and Electricity, dated May 26, relative to the lighting fixtures in the new and old wing at Harlem Hospital and reported that the drawings of fixture designs submitted by J. H. Freedlander were the ones the Committee approved and recommended that the Board authorize the changing of the fixtures in the Nebeling contract so that all the fixtures will be of the same design, provided no additional charge is made. On motion, duly seconded and carried, this report was approved.

The President referred to the desirability of adopting an arrangement to appoint Committees of the Month to visit

the Neponsit Beach Hospital for Children, and presented the following outline: January, Mr. Farley, Mr. Paulding; February, Mr. Paulding, Mr. Stern; March, Mr. Stern, Mr. O'Keeffe; April, Mr. O'Keeffe, Mr. Robbins; May, Mr. Robbins, Mr. Sachs; June, Mr. Sachs, Mr. Farley; July, Mr. Farley, Mr. Paulding; August, Mr. Paulding, Mr. Stern; September, Mr. Stern, Mr. O'Keeffe; October, Mr. O'Keeffe, Mr. Robbins; November, Mr. Robbins, Mr. Sachs; December, Mr. Sachs, Mr. Farley. On motion, duly seconded and carried, it was resolved to adopt this plan to become effective at once.

Mr. O'Keeffe reported, as set forth in his letter of May 29, that he had attended a meeting of the Board of Estimate and Apportionment on May 28 and saw the Commissioner of the Department of Street Cleaning in an effort to obtain the removal of the dump at the foot of East 30th Street. Commissioner Fetherston informed him that the contracts for the new model street cleaning district are being let, which will move the dump from East 30th Street to East 19th Street and that their first plan was to complete the work by July 1, but felt confident that the dump at the foot of East 30th Street would be removed by September 1. On motion, duly seconded and carried, this report was approved.

A report was presented from Dr. O'Hanlon, the General Medical Superintendent, that Dr. Gregory, the Director of the Alcoholic and Psychopathic Service, had informed him that it would be impossible with our present staff of physicians to comply with the request of the Board of Inebriety as set forth in their communication of May 3d, to make arrangements for the certification of persons in Manhattan and Bronx sent to Bellevue by that board for commitment under the Inebriety Law. Mr. Stern reported that aside from this request the alcoholic and psychopathic department is in need of an additional Physician for its service. After discussion, on motion, duly seconded and carried, it was

Resolved, To request the Board of Aldermen for an issue of special revenue bonds to pay the salary of a Resident Alienist for the remainder of the year 1915.

The President referred to an investigation to eliminate the odors from the Barren Island disposal plants, and a report thereon made by Mr. Irwin Osborn, Sanitary Engineer, under the direction of the Committee on Street Cleaning of the Board of Estimate and Apportionment. Copies of the recommendations and conclusions of the report had been sent to each Trustee in advance. After discussion, it was moved, seconded and carried, to adopt the following preamble and resolution:

Whereas, The report hereinbefore mentioned emphatically states that the vile odors emitted from the plants at Barren Island can be eliminated by the installation of modern equipment and by closer attention to the methods of operation; therefore be it

Resolved, That the Board of Trustees of Bellevue and Allied Hospitals present a most urgent appeal to the Board of Estimate and Apportionment for the early adoption of the recommendations set forth in the report of Mr. Irwin Osborn, in order that the nuisance from the Barren Island plants may be abated as soon as possible; and be it further

Resolved, To co-operate with the Department of Health in every manner possible to put an end to the nuisance at Barren Island.

Dr. John McGrath, in compliance with his request to appear before the Board of Trustees and speak on several phases of the medical and surgical administration of Harlem Hospital, appeared in his personal capacity and was heard by the Board. Action on the desirability of providing a continuous service or increasing the number of visitings at Harlem Hospital was deferred until such time as the number of patients at that hospital warrants the Trustees in taking action thereon.

#### COMMUNICATIONS.

A letter, dated June 1, was presented from Acting Mayor, George McAneny, calling attention to a resolution of the Board of Estimate and Apportionment, requesting all departments to submit their departmental estimates for 1916 on July 15 and asking that the budget be presented to the Mayor not later than July 10. On motion, duly seconded and carried, it was

The minutes of the Medical Board of Fordham Hospital for June 3 were presented. On motion, duly seconded and carried, the report that the Medical Board take measures to obtain the services of undergraduates to assist in the out-patient department was approved; and it was further

Resolved, To recommend to the other Medical Boards of the department that they take similar action.

The minutes of the meeting of the Board of Managers of the Bellevue Training School for May 28 were presented. On motion, duly seconded and carried, the resolution relative to placing on the Civil Service list the Superintendent of Seaview Hospital (undoubtedly intended to mean Neponsit Beach Hospital for Children) was noted, and after discussion, it was

Resolved, To inform the Board of Managers that the appointment of Superintendents to all hospitals of the department is a matter of administration, under the sole jurisdiction of the Board of Trustees, subject only to the approval of the Civil Service Commission; and it was further

Resolved, To inform them that the Trustees have made special efforts to have the Civil Service Commission place the position in the exempt or non-competitive class. Other matters were referred to the General Medical Superintendent.

A letter, dated May 28, was presented from Dr. Herbert L. Wheeler, Director of the Dental Service, reporting that he does not approve the creation of the place of Consulting Dentist to Harlem Hospital, as requested in the minutes of the Medical Board for May 4, 1915, because the creation of a new title would not in any way improve the dental service or secure more of it, which is now taken care of by the Visiting and Assistant Visitings. On motion, duly seconded and carried, this report was accepted.

Reference was made to the recommendation contained in the annual report of Dr. Herbert L. Wheeler that a dental interne be appointed to Harlem and Fordham Hospitals. After consideration, it was resolved to create the place of dental interne to Harlem, Fordham, and also Neponsit Beach Hospital for Children; and it was further

Resolved, To request Dr. Wheeler to present nominations for these places.

A letter, dated June 1, was presented from the Law Department relative to the specifications for the installation of an automatic telephone system in pavilions I, K, L and M, and stating that these should be so drawn as to allow competition between the different kinds of telephone systems, and stating what method is to be followed. It was moved, seconded and carried, to instruct the architects, Messrs. McKim, Mead and White, to comply with this opinion.

McKim, Mead and White, under date of June 8, presented a letter and three copies of the plans and specifications for the painting of pavilions I and K, the estimated cost of which is \$12,000, chargeable against appropriation C. B. H.—10. On motion, duly seconded and carried, it was

Resolved, To transmit these plans and specifications to the Board of Estimate and Apportionment for approval; and it was further

Resolved, To authorize the advertisement for this work when such approval shall have been obtained.

A communication was presented from the Department of Finance, under date of June 2, stating that no expenditures are to be charged against corporate stock funds unless these charges are specifically approved by the Board of Estimate and Apportionment. On motion, duly seconded and carried, this was referred to the General Medical Superintendent for compliance.

A communication was presented from

the Board of Estimate and Apportionment, dated May 29, transmitting a certified copy of a resolution adopted by that Board on May 28 approving the plans and specifications as amended for the out-patient department of Gouverneur Hospital. On motion, duly seconded and carried, this was ordered placed on file.

**BOARD OF ESTIMATE AND APPORTIONMENT.****Notice of Public Hearing.****FRANCHISE MATTERS.**

PUBLIC NOTICE IS HEREBY GIVEN THAT at a meeting of the Board of Estimate and Apportionment held this day the following resolutions were adopted:

Whereas, The Marconi Telegraph-Cable Company, Inc., has, by a petition dated June 11, 1914, applied to this Board for the right to lay, construct, maintain and operate electric telegraph wires and the necessary branches therefrom under the streets, avenues and public places of The City of New York, for the purpose of conducting and maintaining a general telegraph business; and

Whereas, Sections 72, 73 and 74 of the Greater New York Charter, as amended by Chapters 629 and 630 of the Laws of 1905, and Chapter 467 of the Laws of 1914, provide for the manner and procedure of making such grants; and

Whereas, In pursuance of such laws, this Board adopted a resolution on July 2, 1914, fixing the date for public hearing thereon as September 18, 1914, at which citizens were entitled to appear and be heard, and by resolution adopted July 30, 1914, said hearing was continued to September 21, 1914, and publication was had for at least two (2) days in the "Morning Telegraph" and "The Globe," newspapers designated by the Mayor, and in the City Record for ten (10) days immediately prior to the date of hearing, and the public hearing was duly held on said last-named day; and

Whereas, The Corporation Counsel of the City has advised the Board that the Company, by its acceptance of the Post Roads Act of Congress, obtained a right to use the City's streets, subject to the right of the Board to regulate the use thereof and to demand reasonable compensation therefor; now, therefore, it is

Resolved, That the following form of the resolution for the grant of the consent applied for by the Marconi Telegraph-Cable Company, Inc., containing the form of proposed contract for the grant of such consent, be hereby introduced and entered in the minutes of this Board as follows, to wit:

Resolved, That the Board of Estimate and Apportionment hereby grants to the Marconi Telegraph-Cable Company, Inc., the consent of The City of New York as more fully set out and described in the following form of proposed contract for the grant thereof, upon and subject to the terms and conditions in said proposed form of contract contained, and that the Mayor of The City of New York be and he hereby is authorized to execute and deliver such contract in the name and on behalf of The City of New York, as follows, to wit:

**PROPOSED FORM OF CONTRACT.**

This contract, made and executed in duplicate this day of 1915, by and between THE CITY OF NEW YORK (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and the MARCONI TELEGRAPH-CABLE COMPANY, INC., a corporation formed under and pursuant to the Laws of the State of New York (hereinafter called the Company), party of the second part, WITNESSETH:

Whereas, The Marconi Wireless Telegraph Company of America, a corporation formed under and pursuant to the Laws of the State of New Jersey, has constructed and proposes to operate certain wireless receiving and transmitting stations at Belmar and New Brunswick, in the State of New Jersey, and for the purpose of establishing offices in the City of New York obtained the incorporation of and controls the applicant Company, which is to act as its agent in the establishment of such offices in the City of New York and to receive and deliver from such offices messages intended for and received by wireless communication; and

Whereas, The said applicant Company on or about June 22, 1914, filed with the Postmaster-General of the United States of America a certificate of acceptance of the restrictions and obligations imposed on telegraph companies by an Act of Congress of the United States, approved July 24, 1866, entitled "An Act to aid in the construction of telegraph lines and to secure to the government the use of the same for postal, military and other purposes;" and

Whereas, The Company has now applied for authority to lay, construct, maintain and operate or use electric telegraph wires, with the necessary branches in connection therewith, under and along the streets, avenues and public places within the territory of the City of New York, according to the terms and conditions which the Board may determine, for the purpose of conducting and maintaining a general telegraph business; and

Whereas, The Corporation Counsel of the City has advised the Board that the Company by its acceptance of the Post Roads Act obtained a right to use the City's streets, subject to the right of the Board to regulate the use thereof and to demand reasonable compensation therefor;

Now, therefore, in consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1. Subject to the conditions and provisions hereinafter set forth, the City hereby consents to the construction, maintenance and operation or use by the Company of suitable wires or other electrical conductors in the streets and avenues within the City of New York, for the purpose of electrically connecting various telegraph offices to be established by it

ductors, connections, instruments and all appurtenances thereto, shall be constructed, maintained and operated in the latest approved manner and with the most modern and improved appliances, and it is hereby agreed that the Board may require the Company to improve or add to its plant, conduits, wires, conductors, connections, instruments and appurtenances, from time to time, as such additions or improvements are determined by the Board, after hearing, to be reasonable and necessary. Upon failure on the part of the Company to comply with the directions of the Board within a reasonable time, this consent and contract shall cease and determine.

**Eighth**—All cables and wires of the Company laid pursuant to this contract shall be placed in ducts, conduits or subways (referred to in this paragraph as "subways"). Such subways shall be leased from the company or companies having control thereof under the provisions of law, or from the City, should it succeed to the right of such company or companies. If the City shall construct or acquire subways for electrical conductors of the character or tension of those used by the Company or similar companies, the Company hereby agrees to lay its wires and conductors in such subways, and the City agrees to lease to the Company such space as may be necessary and available for the operation of the system herein referred to.

No cables or wires shall be strung above the surface of the streets and avenues by the Company.

**Ninth**—It is a condition of this contract that the Company shall bear the entire expense of all work undertaken by it in the territory referred to herein.

**Tenth**—The Company shall file with the Board on the first day of February in each year a map or plan upon which shall be plainly and separately indicated the number of wires which were in use by the Company on December 31 preceding and the streets in which the same are located, and also those which were put in use during the year preceding that date. It shall also file with the Department of Water Supply, Gas and Electricity, on or before the tenth day of each month, a map or plan of the locations in which wires have been placed by it during the preceding month.

**Eleventh**—The wires of the Company shall be employed for no other purpose than those explicitly set forth herein and the Company binds itself not to lay, use, lease or operate wires for illegal purposes or to illegal places.

**Twelfth**—The Company shall assume all liability to persons or property by reason of the construction or operation of the system referred to in this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or defaults of the Company.

**Thirteenth**—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual or other corporation its consent to the exercise of a franchise or to grant a franchise right or privilege upon the same or other terms and conditions in the territory referred to in this contract, or any part thereof.

**Fourteenth**—If the Company shall fail to maintain its structures and equipment as herein provided in good condition throughout the whole term of this contract, the Board may give notice to the Company, specifying any default on the part of the Company, and requiring the Company to remedy the same within a reasonable time, and upon failure of the Company to remedy such default within a reasonable time, the Company shall, for each day thereafter during which the default or defect remains pay to the City the sum of one hundred dollars (\$100) as fixed or liquidated damages, or the Board, in case such structures or equipment which may affect the surface of the streets shall not be put in good condition within a reasonable time after notice by the Board as aforesaid, shall have the right to make all needed repairs at the expense of the Company, in which case the Company shall pay to the City the amount of the cost of such repairs, with legal interest thereon, all of which sums may be deducted from the fund herein after provided for.

**Fifteenth**—If for a period of three consecutive months after the commencement of its transatlantic service by the Marconi Wireless Telegraph Company of America the system of the Company shall not be operated, or if the same shall not be operated for a period of six months out of any consecutive twelve months, the Board may revoke its consent and declare this contract terminated without further proceedings at law or in equity.

**Sixteenth**—The Company shall submit to the Board a report, not later than February 1 of each year for the year ending December 31 next preceding, and at any other time upon request of the Board, which shall state:

1. The amount of stock issued for cash; for property.
2. The amount paid in as by last report.

7. The total amount of floating debt.
8. The total amount of funded and floating debt.
9. The average rate per annum of interest on funded debt.
10. Statement of dividends paid during the year, and the rate of same.
11. The names of the directors and officers elected at the last meeting of the corporation held for such purpose.

15. Number and location of offices of the Company in the City and the offices and companies to which the same are connected.
16. Total receipts of the Company.
17. Proportion of receipts retained by the Company as compensation for its services; the amount of such proportion and the rate per word of such proportion with respect to the messages received and transmitted by it.
18. Amounts paid by the Company for damage to persons or property on account of construction and operation.
19. Total expenses for operation, including salaries.

—and such other information in regard to the business of the Company as may be required by the Board.

The Company shall also file annually with the above report a certified copy of its then existing contract or contracts with the Marconi Wireless Telegraph Company of America and its affiliated companies.

**Seventeenth**—The Company shall, on or before February 1 of each year, make a verified report to the Comptroller of the total mileage of metallic circuits in use or operation by it in the City on December 31 preceding, and the location of the various offices, of whatever description, connected by the same, or should it not have sufficient data to enable it to furnish a statement of the mileage of such metallic circuits, then

the Company shall, on February 1, furnish to the Comptroller a verified report of the various offices of whatever description connected by the circuits in use by it on December 31 next preceding. The Company shall also in the same manner furnish such other information as the Comptroller may require. The Comptroller shall have access to all books of the Company, for the purpose of ascertaining the correctness of its report, and may examine its officers under oath.

**Eighteenth**—This consent is upon the express condition that the Company, within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in the construction or operation of its system, shall deposit with the Comptroller of the City the sum of five thousand dollars (\$5,000), either in money or securities, to be approved by him, which fund shall be security for the performance by the Company of all of the terms and conditions of this contract, and each and every one thereof. In the event of default in the payment of the annual charge or other payments herein required the City shall collect the same, with interest, from the said fund after ten (10) days' notice to the Company.

In case of failure of the Company to comply with the terms of this contract relating to the filing of annual statements, the installation or maintenance of its structures and equipment, or its neglect or refusal to comply with any demand or direction of the Board or other municipal officials, made pursuant to the terms of this contract, or under the authority of any laws, ordinances or departmental regulations now or hereafter in force, in such case and in any of these events the Company, except as herein otherwise provided, shall pay to the City a penalty of fifty dollars (\$50) for each violation.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

The Board, on complaint made, shall give notice to the Company, directing its President or other officer to appear before the Board on a certain day not less than ten (10) days after the date of such notice, to show cause why the Company should not be penalized in accordance with the provisions of this contract. If the Company fails to make an appearance, or after a hearing appears in the judgment of the Board to be in fault, said Board shall forthwith impose the prescribed penalty, or where the amount of the penalty is not prescribed herein, such amount as appears to the Board to be just, and without legal procedure, direct the Comptroller to withdraw the amount of such penalty from the security fund deposited with him. In case of any drafts made upon the security fund the Company shall, upon ten (10) days' notice in writing, pay to the City a sum sufficient to restore said security fund to the original amount of five thousand dollars (\$5,000) and in default thereof this contract shall be cancelled and annulled at the option of the Board, acting in behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City.

**Nineteenth**—In case of any violation or breach or failure to comply with any of the provisions herein contained, this contract may be forfeited by a suit brought by the Corporation Counsel, on notice of ten (10) days to the Company, or at the option of the Board, by resolution of the Board. Provided, however, that such action by the Board shall not be taken until the Board shall give notice to the Company, served in the same manner as a summons in an action in the Supreme Court, to appear before it on a certain day not less than ten (10) days after the date of such notice, to show cause why such resolution declaring the contract forfeited should not be adopted. In case the Company fails to appear action may be taken by the Board forthwith.

**Twentieth**—If at any time the powers of the Board or any other of the authorities herein mentioned, or intended to be mentioned, shall be transferred by law to any other board, authority, officer or officers, then and in such case such other board, authority, officer or officers shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

**Twenty-first**—The words "notice" or "direction" wherever used in this contract shall be deemed to mean a written notice or direction. #### For the Station Finish Work for Part of the Queensboro Subway Rapid Transit Railroad.

The Public Service Commission for the First District (hereinafter called the "Commission"), acting for and on behalf of The City of New York (hereinafter called the "City"), invites proposals to construct station finish for the six (6) stations on Section No. 2 of Routes Nos. 36 & 37, a part of the Queensboro Subway Rapid Transit Railroad. The location within the City at which the said work is to be performed is on Second (formerly Debevoise) Avenue in the Borough of Queens, between Beebe and Ditmars Avenues.

The Railroad for which the station finish is to be provided is now under construction. The Contractor shall begin actual work within thirty (30) days after the delivery of the contract and shall complete the entire work covered by the contract within six (6) months from the delivery of the contract. The City may enter into a contract for the installation of tracks on the Railroad and the work of installation may be in progress at the time that the station finish work is in progress. It may also be necessary for the Interborough Rapid Transit Company, its contractors or employees, to do the work on the Railroad in connection with the equipment of the Railroad during the time that the station finish work is in progress. The Contractor must conduct his work so as not to impede or interfere with such other work, as provided in the contract.

The Railroad or a portion thereof may also be opened and operated for passenger traffic before the completion of the station finish work. In such event the Contractor must conduct his work so as to avoid interference with the operation of the Railroad and injury to passengers, as provided in the contract; and payment for all additional expense, loss, risk and damage due to such opening and operating for traffic will be made by increasing the percentage stipulated in Item X in the Schedule contained in the Contractor's Proposal, the prices as stipulated in said Schedule for the station finish work performed after the date of such opening and operating for passenger traffic at each station so opened and used for passenger traffic and at each portion of the Railroad between stations so opened and operated for passenger traffic, except as provided in the contract. Each bidder shall state in said Item X in the Schedule contained in the form of Contractor's Proposal the percentage required on such prices in payment for the additional expense, loss, risk and damage in the event of such opening and operating for traffic. For the purpose of comparing the bids only, and not for any other purpose, it will be assumed that the percentage so bid will be required to be paid on one-quarter (1/4) of the estimated amount of the station finish work. If any bidder shall not desire any such increase in said prices on account of such opening and operating for traffic, he shall strike out said Item X in said Schedule contained in his Proposal.

Bidders must examine the form of contract and the specifications and contract drawings, must visit the location of the work and inform themselves of the conditions and make their own estimates of the facilities and difficulties attending the execution of the work.

A fuller description of the work and other requirements, provisions, details and specifications are given in the form of contract and in the contract drawings therein referred to. Copies of the forms of contract, bond and contractor's proposal and of the contract drawings may be inspected and purchased at the office of the Commission, No. 154 Nassau Street, Borough of Manhattan, New York City. The forms of contract, bond and contractor's proposal and the contract drawings are to be deemed a part of this Invitation.

Partial payments to the Contractor will be made as the work proceeds, as provided in the contract.

At the time of the delivery of the contract the Contractor must furnish security to the City by depositing a bond, cash or securities in the sum of twenty-five thousand dollars (\$25,000). As further security ten per centum (10%) of the amounts certified from time to time to be due to the Contractor will be deducted.

**Sealed bids or proposals will be received at the office of the Commission, No. 154 Nassau Street, Borough of Manhattan, New York City, until the 4th day of August, 1915, at twelve fifteen (12:15) o'clock p. m., at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.**

Proposals must be in the form prescribed by the Commission.

A statement, based upon the estimate of the Chief Engineer of the Commission, of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work is to be found in the schedule in the form of contractor's proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids, and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same except as provided in the specifications and form of contract.

Every proposal must when submitted be enclosed in a sealed envelope endorsed "Proposal for Constructing Station Finish for Part of Rapid Transit Railroad—Routes Nos. 36 & 37, Section No. 2," and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal, it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received unless accompanied by a separate certified check for ten thousand dollars (\$10,000) payable to the order of the Comptroller of the City and drawn upon a national or state bank or trust company satisfactory to the Commission and having its principal office in New York City. Such check must not be enclosed in the envelope containing the proposal.

*The Unit Prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.*

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Deposits made by bidders whose proposals are not accepted will be returned within three (3) days after the contract is executed and delivered and its provisions in respect of the bond or deposit are complied with, unless all proposals shall be rejected, in which event such deposits will be returned within three (3) days after such rejection. The deposit of the successful bidder will be returned when the contract is executed and delivered and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

The Public Service Commission for the First District (hereinafter called the "Commission"), acting for and on behalf of The City of New York (hereinafter called the "City"), invites proposals to construct Section No. 1 of Route No. 49, a part of the Culver Rapid Transit Railroad.

The points within the City between which the said part is to run and the route or routes to be followed are briefly as follows:

Section No. 1. Beginning in private property on the southerly side of 37th Street, about two hundred and forty-six (246) feet southeasterly from the southeast building line of Tenth Avenue, in the Borough of Brooklyn, and continuing thence southeasterly over private property and parallel to 37th Street and crossing over intersecting streets to West Street; thence continuing southeasterly over West Street, private property,

Cortelyou Road and private property to Gravesend Avenue; thence continuing southerly over Gravesend Avenue to a point about five hundred and twenty-five (525) feet south of the intersection of the center line of Gravesend Avenue and the southerly building line of Bay Parkway (Twenty-second Avenue) produced.

The general plan of construction calls for an elevated railroad having three tracks.

The Contractor will not be required to provide or lay tracks or ties nor to do station finish work.

The work under the contract will include the care and support of buildings, vaults, sewers, pipes, railroads and other surface, subsurface and overhead structures, the movement of certain street surface railroad tracks laterally, the maintenance of traffic and the restoration of pavements and other surfaces.

Bidders must examine the form of contract, the specifications and the contract drawings, must visit the location of the work and inform themselves of the conditions along the line of the work and make their own estimates of the facilities and difficulties attending the execution of the work.

A fuller description of the work and other requirements, provisions, details and specifications are given in the form of contract and in the contract drawings therein referred to. Copies of the forms of contract, bond and contractor's proposal and of the contract drawings may be inspected and purchased at the office of the Commission, No. 154 Nassau Street, Borough of Manhattan, New York City. The forms of contract, bond and contractor's proposal and the contract drawings are to be deemed a part of this invitation.

Partial payments to the Contractor will be made monthly as the work proceeds as provided in the contract.

The Contractor must complete the work within fifteen (15) months from the delivery of the contract.

At the time of the delivery of the contract the Contractor must furnish security to the City by depositing a bond, cash or securities, in the sum of one hundred thousand dollars (\$100,000). As further security fifteen per centum (15%) of the amounts certified from time to time to be due to the Contractor will be deducted until the amounts so deducted shall equal ten per centum (10%) of the total estimated amount to be paid to the Contractor under the contract. Thereafter there shall be so deducted and retained for such purpose ten per centum (10%) of the amounts certified from time to time to be due to the Contractor.

**Sealed bids or proposals will be received at the office of the Commission at No. 154 Nassau Street, Borough of Manhattan, City of New York, until the 20th day of July, at twelve fifteen (12:15) o'clock p. m., at which time and place, or at a later date to be fixed by the Commission, the proposals will be publicly opened.**

Proposals must be in the form prescribed by the Commission.

A statement, based upon the estimate of the Chief Engineer of the Commission, of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work is to be found in the schedule in the form of contractor's proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids, and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same, except as provided in the specifications and form of contract.

Every proposal must when submitted be enclosed in a sealed envelope endorsed "Proposal for Constructing Part of Rapid Transit Railroad—Route No. 49, Section No. 1," and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal, it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received unless accompanied by a separate certified check for twenty-five thousand dollars (\$25,000), payable to the order of the Comptroller of the City and drawn upon a national or state bank or trust company satisfactory to the Commission and having its principal office in New York City. Such check must not be enclosed in the envelope containing the proposal.

The Unit Prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Deposits made by bidders whose proposals are not accepted will be returned within three (3) days after the contract is executed and delivered and its provisions in respect of the bond or deposit are complied with, unless all proposals shall be rejected, in which event such deposits will be returned within three (3) days after such rejection. The deposit of the successful bidder will be returned when the contract is executed and delivered and its provisions in respect of the bond or deposit are complied with.

## NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all

house sewer connections to the main sewer in the street and the openings of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, protecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money or corporate stock or certificates of indebtedness of any nature issued by The City of New York, which the Comptroller shall approve as of equal value with the security required in the advertisement to the amount of not less than three nor more than five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The amount shall be as specified in the proposals or instructions to bidders and shall not be in excess of 5 per cent.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
