DEPARTMENT OF PUBLIC WORKS,
COMMISSIONER'S OFFICE, NO. 31 CHAMBERS STREET,
NEW YORK, April 25, 1892.

Hon. HUGH J. GRANT, Chairman, Board of Estimate and Apportionment :

DEAR SIR—In compliance with the action of your Board, at its meeting on the 13th instant, directing me "to report what streets in the residential and tenement districts it is desirable to repave with asphalt," I have the honor to present the following list of streets for asphalt repavement on the present pavements :

Division street, from Catharine street to Pitt street—The present pavement is specification trap blocks on sand foundation, laid about the year 1880, and now in very poor condition. It is a main outlet and thoroughfare through a densely populated tenement district from Chatham Square, and the many streets which centre there, to the easterly end of Grand street and the ferry at the foot of that street. It would also serve as the connecting link and southern base for asphalt repavements which are to begin there, running northward, and already authorized or included in the present list; area, 12,650 square yards; estimated cost..... \$51,800 00

Chrystie street, from Division street to Grand street—This street passes through an exclusively tenement district and is now paved with old square trap blocks, laid in 1870, and in bad condition; area, 4,300 square yards; estimated cost..... 18,000 00

Forsyth street, from Division street to Grand street—The street passes through an exclusively tenement district. The present pavement is old square granite blocks laid in 1871, and now in bad condition; area, 3,750 square yards; estimated cost..... 15,300 00

Attorney street, from Broome street to Houston street—This street also passes through a tenement district. The present pavement is old square granite blocks, laid in 1871, now much worn and in bad condition; area, 4,850 square yards; estimated cost..... 20,000 00

Willet street, from Broome street to Houston street—This also passes through a tenement district. The present pavement is old square granite blocks from Broome to Rivington street, and specification trap blocks on sand foundation from Rivington to Houston street, all very much worn and in poor condition; area, 5,000 square yards; estimated cost..... 20,500 00

The reason for excluding in the two foregoing streets the block between Grand and Broome streets, is that the grade is too steep for asphalt pavements.

Cherry street, from Roosevelt street to Catharine street—The street passes through a crowded tenement district. The present pavement is specification trap blocks, on sand foundation, laid about 1880, and now much worn and in bad condition; area, 1,850 square yards; estimated cost..... 7,600 00

Spring street, from Hudson street to Clarke street—The street is built up partly with old style private houses, and partly with tenements, but is rapidly becoming an exclusively tenement street. The present pavement is old square trap blocks, laid about 1866, and now completely worn out; area, 2,850 square yards; estimated cost..... 11,500 00

Dominick street from Hudson street to Clarke street—The character and condition of the pavement and of the buildings fronting on it are the same as in the case of Spring street preceding; area 2,800 square yards; estimated cost..... 11,500 00

Second street, from the Bowery to Avenue A—The street passes through a tenement district, and is paved with old square trap blocks, laid about 1866, and now much worn and in poor condition; area, 6,100 square yards; estimated cost..... 25,000 00

Tenth street, from Second avenue to Avenue A—This is a tenement street in a tenement section, and is now paved with old square trap blocks, laid about 1866, and much worn and in poor condition; area, 4,300 square yards; estimated cost..... 17,500 00

Thirty-seventh street, from First avenue to Third avenue—There are two churches and a public school on this part of Thirty-seventh street, the other lots being occupied by tenants. The present pavement is old square trap blocks, laid about 1866, and now much worn and in poor condition; area, 4,500 square yards; estimated cost..... 18,500 00

Thirty-eighth street, from Park avenue to Lexington avenue—This is a residential street, very much in need of repavement. The present pavement is old square trap blocks, laid in 1871, and now in bad condition; area, 1,425 square yards; estimated cost..... 6,000 00

One Hundred and Twenty-third street, from Lenox avenue to Seventh avenue—This is also a residential street which is very much in need of repavement. The present pavement is Macadam on Telford foundation, laid in 1872, and now very much worn and absolutely unfit for this or any similar street. The asphalt should be laid on the present Telford foundation; area, 2,760 square yards; estimated cost..... 11,700 00

Second avenue, from Houston street to Twenty-second street, and Twenty-second street, from Second avenue to Third avenue—I again submit these two streets as proper ones for asphalt repavement for the reasons and objects stated in my report of March 2 ultimo. The object is to obtain a smooth driveway from the tenement districts lying east of Second avenue, and south as well as north of Houston street, to the Central Park, by connection with the present asphalt pavements on Lexington avenue, Madison avenue and intersecting streets. The immediate frontage on this portion of Second avenue and Twenty-second street consists partly of residences and partly of tenements, and they are contiguous to crowded tenement districts. The present pavements are old, worn and in bad condition, especially on Second avenue; area, 27,150 square yards; estimated cost..... \$111,800 00

Very respectfully,
THOMAS F. GILROY, Commissioner of Public Works.

Whereupon the Comptroller offered the following :

Resolved, That in pursuance of chapter 35 of the Laws of 1892, the Board of Estimate and Apportionment hereby authorizes and determines that the following streets be repaved with asphalt pavement, to be laid on the present stone-block pavements, and that crosswalks be laid at the abutting streets and avenues and at the several street intersections where deemed necessary by the Commissioner of Public Works :

Division street, from Catharine street to Pitt street—Estimated area, 12,650 square yards; estimated cost..... \$51,800 00

Chrystie street, from Division street to Grand street—Estimated area, 4,300 square yards; estimated cost..... 18,000 00

Forsyth street, from Division street to Grand street—Estimated area, 3,750 square yards; estimated cost..... 15,300 00

Attorney street, from Broome street to Houston street—Estimated area, 4,850 square yards; estimated cost..... 20,000 00

Willet street, from Broome street to Houston street—Estimated area, 5,000 square yards; estimated cost..... 20,500 00

Cherry street, from Roosevelt street to Catharine street—Estimated area, 1,850 square yards; estimated cost..... 7,600 00

Spring street, from Hudson street to Clarke street—Estimated area, 2,850 square yards; estimated cost..... 11,500 00

Dominick street, from Hudson street to Clark street—Estimated area, 2,800 square yards; estimated cost..... 11,500 00

Second street, from the Bowery to Avenue A—Estimated area, 6,100 square yards; estimated cost..... 25,000 00

Tenth street, from Second avenue to Avenue A—Estimated area, 4,300 square yards; estimated cost..... 17,500 00

Thirty-seventh street, from First avenue to Third avenue—Estimated area, 4,500 square yards; estimated cost..... 18,500 00

Thirty-eighth street, from Park avenue to Lexington avenue—Estimated area, 1,425 square yards; estimated cost..... 6,000 00

Second avenue, from Houston street to Twenty-second street, and Twenty-second street, from Second avenue to Third avenue—Estimated area, 27,150 square yards; estimated cost..... 111,800 00

Which was adopted by the following vote :

Affirmative—The Acting Mayor, Comptroller and President of the Department of Taxes and Assessments—3.

The Comptroller offered the following :

Resolved, That, in pursuance of chapter 35 of the Laws of 1892, the Board of Estimate and Apportionment hereby authorizes and determines that One Hundred and Twenty-third street, from Lenox avenue to Seventh avenue, be repaved with asphalt pavement, to be laid on the present Telford foundation on said street, and that crosswalks be laid at the abutting avenues, if deemed necessary by the Commissioner of Public Works, the area of such repavement being two thousand seven hundred and sixty square yards, and the estimated cost eleven thousand seven hundred dollars.

DEPARTMENT OF PUBLIC WORKS—COMMISSIONER'S OFFICE,
NO. 31 CHAMBERS STREET,
NEW YORK, April 25, 1892.

Hon. HUGH J. GRANT, Chairman, Board of Estimate and Apportionment :

DEAR SIR—In the Final Estimate for 1890 the sum of \$15,000 was set apart for "Retaining-walls in East Fifty-first street and East Forty-second street." The contract for the retaining-wall, steps, etc., in East Fifty-first street, near Beekman place, was made the same year, and after taking the aggregate amount of the contract according to the Engineer's preliminary estimate of quantities and the prices at which the work was let, and adding thereto the expenditure required for repairs on the Forty-second street retaining-wall, it appeared that the sum of \$5,000 could be spared from this appropriation, and said sum was transferred to the appropriation for "Boulevards, Roads and Avenues, Maintenance of," for the purposes of which it was needed.

I now find, from report made to me by the Superintendent of Street Improvements and the Assistant Engineer who made the preliminary estimate for the work on the Fifty-first street retaining-wall, etc., that in the progress of the work it was found that a greater portion of the old retaining-wall and foundation have to be torn out and rebuilt than could be foreseen when the preliminary estimate was made, thus increasing the quantities of work to be done and expense to be incurred under the appropriation of 1890 to the extent of requiring a supplementary appropriation or transfer of \$1,200 to the balance of the appropriation now available.

I therefore respectfully ask that the sum of twelve hundred dollars (\$1,200) be transferred to the appropriation for "Retaining-walls in East Fifty-first street and East Forty-second street" for 1890, from the appropriation for "Repaving Streets and Avenues" for 1891, for the purposes of which the said amount is not needed.

Very respectfully,

THOS. F. GILROY, Commissioner of Public Works.

Referred to the Comptroller.

The following communication was received :

DEPARTMENT OF PUBLIC WORKS—COMMISSIONER'S OFFICE,
NO. 31 CHAMBERS STREET,
NEW YORK, April 25, 1892.

Hon. HUGH J. GRANT, Mayor :

DEAR SIR—I have the honor to transmit herewith a copy of a series of preambles and resolutions adopted by the Washington Heights Taxpayers' Association, calling for the construction of a masonry retaining-wall, with steps and railing, at the northwesterly end of the One Hundred and Fifty-fifth street Viaduct and its connection with St. Nicholas place.

The Chief Engineer of the Croton Aqueduct, to whom I referred the matter for examination and report, states that the proposed wall, steps and railing would complete the Viaduct improvement at that point, and that the reason for not including them in the original Viaduct plan and contract was the uncertainty of the disposition to be made of the property north of the Viaduct, and the improvements to be made thereon. Since that time the owner of this property has built a roadway along the Viaduct wall and north of the north line of One Hundred and Fifty-fifth street,

and has made a lease of the property itself for a number of years for use as public amusement grounds, which terminates for some time uncertainty as to the future use and improvement of the property.

The Chief Engineer's estimate of the probable cost of the proposed addition to the Viaduct structure, according to the general plan herewith transmitted, is as follows:

300 cubic yards rock excavation, at \$1.15	\$345 00
500 cubic yards earth excavation, at 90 cents.	450 00
800 cubic yards filling, at 35 cents.	280 00
300 cubic yards common cement concrete at \$5.50	1,650 00
5,000 cubic yards second-class ashlar stone work, at \$8	40,000 00
500 cubic feet granite coping, at \$2.10	1,050 00
500 cubic feet granite steps and landings, at \$1.90	950 00
50,000 feet B. M. timber grilling, at \$40 per M	2,000 00
200 piles cut off in place, at \$12.	2,400 00
250 lineal feet wrought-iron railing, at \$4.25	1,062 50
8 lamp-posts, at \$30.	240 00
200 lineal feet gas-pipe, at 65c.	130 00

Total \$50,557 50

The entire subject is respectfully submitted for the consideration and action of your Board on the question of appropriating the additional amount required for this work under the provisions of the One Hundred and Fifty-fifth street Viaduct Act, chapter 546, Laws of 1887.

Very respectfully,

THOS. F. GILROY, Commissioner of Public Works.

(Copy.)

At a meeting of the Washington Heights Taxpayers' Association, held on the 11th day of April, 1892, a series of resolutions, of which the following is a copy, was adopted:

Whereas, In the plans of the One Hundred and Fifty-fifth Street Viaduct provision is made for a dry retaining-wall at the northern side of its western terminus; and

Whereas, Such a wall is not in keeping with the general character of the remainder of this important structure, and it is very material that the attention of the proper authorities be called to this defect, and also to the necessity of providing some means of direct access at this point to the street below before the rebuilding of said wall is commenced; and

Whereas, The defects can best be remedied by substituting for such dry wall a mortar wall with steps along its base; therefore, be it

Resolved, That it is the sense of this association that the plans of said Viaduct should be so changed as to provide for a mortar retaining-wall with steps along its base at the western terminus thereof; and be it further

Resolved, That the Viaduct Committee of this association be directed to bring this matter to the attention of the authorities in charge of this work and urge upon them the adoption of the changes herein suggested; and be it further

Resolved, That the said committee deliver a copy of these resolutions to the Honorable Thomas F. Gilroy, Commissioner of Public Works of the City of New York, and also to the Board of Estimate and Apportionment.

(Signed)

THOMAS ALEXANDER, Secretary.

Referred to the Comptroller.

Hon. THEO. W. MYERS, Comptroller:

SIR—The Board of Education, by resolution adopted April 20, 1892, requests the Board of Estimate and Apportionment to transfer the sum of \$17.09 to the appropriation entitled "Public Instruction—For Salaries of Janitors in Grammar and Primary Schools, 1890," which is insufficient for the purposes thereof, from the appropriation entitled "Public Instruction—For Incidental Expenses of Ward Schools, 1890," which is in excess of the needs thereof.

This transfer is asked for in order to pay for the services of John Mullin, Janitor, for the care of annex to Grammar School No. 2, \$52, as per resolution adopted December 30, 1891. These services were for four months from September 1 to December 31, 1890, being an allowance for the time during which the annex was under his charge, and bringing his compensation up to the same rate at which he has been paid in 1891.

It appears from the minutes (page 434, 1892), "that the premises occupied by the annex to Grammar School No. 2 were not hired by the Board at the time of making the annual estimate of funds for 1890."

I see no reason why the transfer should not be made as requested.

I present herewith a resolution adopted by the Board of Education at the meeting of April 6, 1892, appropriating the sum of \$22,374.50 from the proceeds of bonds to be issued under chapter 264 of the Laws of 1891, for the purpose of paying the wages of inspectors and draughtsmen employed in the construction of new school buildings, and to complete the amount required for that purpose for the six months ending September 30, 1892. From the schedule presented there are nine inspectors, at \$4.50 per day each, and one inspector, at \$5 per day, making a total of \$7,371

for the six months. The draughtsmen are fourteen in number, and are paid wages running from \$30 to \$7.50 per week, amounting to \$8,464.50 for the six months, the total being \$15,835.50. The increased amount is asked for, for the increased force of draughtsmen which is required so as to more readily carry on the work at one time, and relieve the great pressure for additional school accommodations in the Tenth, Twelfth, Seventeenth, Nineteenth and Twenty-second Wards.

I offer the following resolution approving of the action of the Board of Education in the above matter, and to authorize the issue of the bonds, as requested by said resolution, for such action as this Board may deem advisable.

Respectfully,
THEO. W. MYERS, Comptroller.

The above schedule indicates the work upon which the corps of fourteen men are and have been engaged. The desire and calculation was, and is, to increase the number of men, that a greater number of plans could be carried on at one time and thus hasten matters so as to relieve the great pressure for additional school accommodations in the Tenth, Twelfth, Seventeenth, Twenty-second and Nineteenth Wards, and the estimate made for the months of January, February and March, was based upon a calculation to increase the number of Draughtsmen so as to more readily carry on the work at one time and relieve the pressure heretofore noted, and also to get the work out before the rush caused by vacation repairs to over one hundred and fifty school buildings.

CITY OF NEW YORK—FINANCE DEPARTMENT, }
COMPTROLLER'S OFFICE, }
April 25, 1892. }

Hon. THEO. W. MYERS, Comptroller :

SIR—The Board of Education, by resolution adopted April 6, 1892, request the approval of the Board of Estimate and Apportionment to an appropriation of \$22,374.50 to be applied in payment of the wages of Inspectors and Draughtsmen employed in the construction of new school buildings, to complete the amount required for that purpose for the six months ending September 30, 1892.

Enclosed herewith is a copy of the estimate of amount actually required for the force now employed amounting to \$7,919.75 for three months, also detailing the work on which the force is engaged. This sum doubled would amount to \$15,839.50. In asking for the \$22,374.50 of the resolution, allowance is made for the increased force required in draughtsmen so as to more readily carry on the work at one time, so as to relieve the great pressure for additional school accommodations in the Tenth, Twelfth, Seventeenth, Twenty-second and Nineteenth Wards.

This work is exceedingly important and necessary, and I do not see any reason why the appropriation should not be approved.

Respectfully,
EUG. E. McLEAN, Engineer.

And offered the following :

Whereas, The Board of Education adopted a resolution on April 6, 1892, that, subject to the approval of this Board, the sum of twenty-two thousand three hundred and seventy-four dollars and fifty cents (\$22,374.50) be appropriated from the proceeds of bonds to be issued under the provisions of chapter 264 of the Laws of 1891, to provide the necessary funds to pay the wages of the Inspectors and Draughtsmen employed in the construction of new school buildings and to complete the amount required for that purpose for the six months ending September 30, 1892; and

Whereas, The amount appropriated includes a provision for an increased force of Draughtsmen to relieve the pressure for additional accommodation in certain Wards; therefore,

Resolved, That this Board hereby approves of the action of the Board of Education in the above matter; and

Resolved, That pursuant to the provisions of chapter 264 of the Laws of 1891, the Comptroller be and he is hereby authorized and directed to issue School-house Bonds in the name of the Mayor, Aldermen and Commonalty of the City of New York, to be known as Consolidated Stock of the City of New York, as provided by section 132 of the New York City Consolidation Act of 1882, to the amount of twenty-two thousand three hundred and seventy-four dollars and fifty cents (\$22,374.50), to run for such period as the Comptroller shall determine, not longer than twenty years from the date of issue, and at a rate of interest not exceeding three per cent. per annum, the proceeds of which bonds are to be applied to the purpose mentioned in said resolution; and

Resolved, That the Commissioners of the Sinking Fund be requested to exempt the said stock from taxation by the City and County of New York, pursuant to an ordinance of the Common Council, approved by the Mayor October 2, 1880, and the provisions of section 137 of the New York City Consolidation Act of 1882.

Which were adopted by the following vote :

Affirmative—The Acting Mayor, Comptroller and President of the Department of Taxes and Assessments—3.

William Lummis, Commissioner of Education appeared and made statements in explanation of the above.

The Comptroller presented the following :

COMMISSIONERS' OFFICE, No. 66 THIRD AVENUE, }
NEW YORK, April 13, 1892. }

Hon. HUGH J. GRANT, Mayor, and Chairman of the Board of Estimate and Apportionment :

SIR—Enclosed please find copy of a communication from his Honor the Counsel to the Corporation, in regard to the case of Eugene F. Kiernan, formerly a Keeper in this Department, against the Mayor, Aldermen and Commonalty of the City of New York. The case, so far as the matter of arrears of salary is concerned, was settled by the payment to Mr. Kiernan of \$400, with the understanding that he was to be reinstated in the position which he held at the time of his suspension, and he is now awaiting reinstatement. This the Board is unable to do, as the salary appropriation is inadequate.

I am directed to request that a transfer of five hundred and thirty-three dollars and thirty-three cents (\$533.33) be made from the appropriation for Transportation of Paupers, Medicines, Coffins and Support of Out-door Poor for 1892, to the Salary appropriation for the City Prison for 1892, to enable this Department to carry out the agreement made by the Counsel to the Corporation, that being the amount required to pay for eight months (the remainder of the year from May 1), the salary being at the rate of \$800 per annum.

By order,

G. F. BRITTON, Secretary.

LAW DEPARTMENT, }
OFFICE OF THE COUNSEL TO THE CORPORATION, }
NEW YORK, March 12, 1892. }

Hon. HENRY H. PORTER, President, etc. :

DEAR SIR—An action was commenced against the Mayor, Aldermen and Commonalty of the City of New York, by one Eugene F. Kiernan for \$1,600, salary alleged to be due him as a Keeper in the City Prison, from January 1, 1889, to January 1, 1891.

From the information furnished by your Department in regard to this claim, it appears that on the 3d day of January, 1889, Kiernan was "relieved from duty" as Keeper in the City Prison, on the report of the Warden, Mr. Osborne.

Kiernan is a veteran, and therefore entitled to the protection accorded by chapter 119 of the Laws of 1888 to honorably discharged soldiers, sailors or marines who served as such in the Union army or navy during the late rebellion, namely, exemption from discharge, except "for cause shown after a hearing had."

Your records show that Kiernan was not discharged but "relieved from duty," nor was a hearing given to him.

Under the statutes and decisions of our courts, Kiernan would be entitled to recover from the City an amount equal to his salary from January 1, 1889.

Inasmuch as the facts of the case would not enable the City to defend the action successfully, with the concurrence of the Comptroller, I accepted an offer of compromise made by the plaintiff, whereby he agreed, in consideration of \$400 and a reinstatement to his position, to release the City from all liability.

The \$400 has been paid to him by the Comptroller and the release has been executed by the plaintiff.

His reinstatement is the only thing remaining to be done to close the transaction, and I recommend that he be restored to his position as soon as practicable.

Permit me also to offer the suggestion that in all future cases where the intention of your Board is to discharge any one holding a position under you, the term "discharge" be used in the resolution of removal, and that same be communicated to the person removed.

Yours, respectfully,

(Signed) WM. H. CLARK, Counsel to the Corporation.

LAW DEPARTMENT, }
OFFICE OF THE COUNSEL TO THE CORPORATION, }
NEW YORK, April 18, 1892. }

Hon. THEODORE W. MYERS, Comptroller :

SIR—Yours of the 19th ultimo inclosing communication from the Department of Public Charities and Correction in relation to the matter of Eugene F. Kiernan, is received.

Kiernan was a Keeper in the City Prison and his salary was fixed at \$800. On the 3d of January, 1889, he was "relieved from duty" as such Keeper by resolution of the Commissioners of Charities and Correction.

He commenced an action against the City to recover his salary from January 1, 1889, and as a successful defense could not be interposed, I deemed it best for the interests of the City to secure from Kiernan as favorable a settlement as possible. The terms of the agreement are embodied in my letter to President Porter under date of March 12, 1892, a copy of which has been sent to you.

As Kiernan has never been properly removed he is still legally entitled to the position of Keeper and could be restored to it by mandamus.

Yours respectfully,

WM. H. CLARK, Counsel to the Corporation.

And offered the following :

Resolved, That the sum of five hundred and thirty-three dollars and thirty-three cents (\$533.33) be and the same is hereby transferred from the appropriation for the year 1892, made to the Department of Public Charities and Correction, entitled "Public Charities and Correction—For Transportation of Paupers, Medicines, Coffins and Support of Out-door Poor," which is in excess of the amount required for the needs thereof, to the appropriation made to the said Department for the year 1892, entitled "Public Charities and Correction—For Salaries, City Prison," which is insufficient for the purposes and objects thereof, for the purpose of paying the salary of Eugene F. Kiernan, reinstated as Keeper of the City Prison, in accordance with an opinion of the Counsel to the Corporation of April 18, 1892.

Which was adopted by the following vote :

Affirmative—The Acting Mayor, Comptroller and President of the Department of Taxes and Assessments—3.

On motion, the Board adjourned.

If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of the deposit will be returned to him.

The Commissioner of Street Improvements of the Twenty-third and Twenty-fourth Wards reserves the right to reject all bids received for any particular work if he deems it for the best interests of the city.

DEPARTMENT OF PUBLIC WORKS,
COMMISSIONER'S OFFICE,
NO. 31 CHAMBERS STREET,
NEW YORK, August 14, 1889.

TO OWNERS OF LANDS ORIGINALLY ACQUIRED BY WATER GRANTS.

ATTENTION IS CALLED TO THE RECENT act of the Legislature (chapter 449, Laws of 1889), which provides that whenever any streets or avenues in the city, described in any grant of land under water, from the Mayor, Aldermen and Commonalty containing covenants requiring the grantees and their successors to pave, repave, keep in repair or maintain such streets, shall be in need of repairs, pavement or repavement, the Common Council may, by ordinance, require the same to be paved, repaved or repaired, and the expense thereof to be assessed on the property benefited; and whenever the owner of a lot so assessed shall have paid the assessment levied for such paving, repaving or repairing, such payment shall release and discharge such owner from any and every covenant and obligation as to paving, repaving and repairing, contained in the water grant under which the premises are held, and no further assessment shall be imposed on such lot for paving, repaving or repairing such street or avenue, unless it shall be petitioned for by a majority of the owners of the property (who shall also be the owners of a majority of the property in frontage) on the line of the proposed improvement.

The act further provides that the owner of any such lot may notify the Commissioner of Public Works, in writing, specifying the ward number and street number of the lot that he desires, for himself, his heirs and assigns, to be released from the obligation of such covenants, and elects and agrees that said lot shall be thereupon liable to be assessed as above provided, and thereupon the owner of such lot, his heirs and assigns shall thereupon be relieved from any obligation to pave, repair, uphold or maintain said street, and the lot in respect of which such notice was given shall be liable to assessment accordingly.

The Commissioner of Public Works desires to give the following explanation of the operation of this act:

When notice, as above described, is given to the Commissioner of Public Works, the owner of the lot or lots therein described, and his heirs and assigns, are forever released from all obligation under the grant in respect to paving, repaving or repairing the street in front of or adjacent to said lot or lots, except one assessment for such paving, repaving or repairs, as the Common Council may, by ordinance, direct to be made thereafter.

No street or avenue within the limits of such grants can be paved, repaved or repaired until said work is authorized by ordinance of the Common Council, and when the owners of such lots desire their streets to be paved, repaved or repaired, they should state their desire and make their application to the Board of Aldermen and not to the Commissioner of Public Works, who has no authority in the matter until directed by ordinance of the Common Council to proceed with the pavement, repavement or repairs.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same, the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; that it is made without any connection with any other person making an estimate for the same purpose; and is in all respects fair and without collusion or fraud; and that no member of the Common Council, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract over and above all his debts of every nature, and over and above his liabilities, as bail, surety or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 27 of chapter 8 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

No bid or estimate will be received or considered unless accompanied by either a certified check upon one of the National or State banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box; and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

N. B.—The prices must be written in the estimate and also stated in figures, and all estimates will be considered as informal which do not contain bids for all items for which bids are herein called, or which contain bids for items for which bids are not herewith called for. Permission will not be given for the withdrawal of

any bid or estimate. No bid will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The amount in which security will be required for the performance of the contract is \$2,000.

The Department of Public Parks reserves the right to reject any or all the bids received in response to this advertisement if it should deem it for the interest of the City so to do, and to readvertise until satisfactory bids or proposals shall be received. that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders of the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as sureties for its faithful performance in the sum of eight thousand (\$8,000) dollars; and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of the City of New York before the award is made and prior to the signing of the contract.

No estimate will be considered unless accompanied by either a certified check upon one of the banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of four hundred (\$400) dollars. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same, within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it, and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.
