To the Hon. Board of Aldermen:

Gentlemen—The following resolution was unanimously adopted by this body Sunday, September 11, 1904, and a copy ordered remitted to your Board.

Very truly,

ERNEST BOHM, Corresponding Secretary.

"Whereas, The public schools of The City of New York are operated on a system very similar to that known as the padrone system, be it

"Resolved, That this Central Federated Union urge the Board of Estimate and Apportionment to at once appropriate a sufficient sum of money to the School Board, thus enabling said Board to engage and employ all necessary help, directly the same as is done by other public City Departments; and be it further

"Resolved, That the Board of Aldermen be urged to recommend to the Board of Estimate and Apportionment and the School Board that the direct employment system be extended to all public schools of this City."

St. James Building, New York City,
September 24, 1904.

To the Honorable Board of Aldermen, New York City:

Gentlemen—The undersigned vigorously protest against the condition of the road-beds of Sixth avenue, known as Lenox avenue, from One Hundred and Tenth street northward to One Hundred and Sixteenth street, because of the condition of the centre of same roadbed being encumbered by railroad tracks not in use, nor have they been for the last ten years to my knowledge. The roadbeds separate from the centre of the street has been asphalted, leaving the centre covered by the tracks, which in wet weather are mud holes, and in dry weather are dust piles, both injurious to the health and comfort of the neighborhood. These tracks belong to the New York Street Railway, formerly known as the Metropolitan Street Railway; they are an incumbrance and a damage to property on said avenue, both east and west sides, and even the adjoining streets. This is only one instance in which this said railroad incumbers the roadbed by means of unused tracks. Shortly ago a gentleman and myself counted some twenty-seven places in this city where the unused tracks was an incumbrance.

I respectfully request that your Board take such immediate action that will remove forever the evils complained of.

Yours very truly,

WM. BURNETT,

Which was referred to the Committee on Streets, Highways and Sewers.

New York, September 6, 1904.

Honorable Board of Aldermen:

Many disasters in fires could be avoided if an ordinance was passed compelling all tenement houses, factories, etc., to provide a coil of rope to be kept at the top floors of these buildings. A rope seems to me as safe or sometimes safer than a fire escape, as it can be attached or fastened in a place where the fire cannot reach it. How many lives could have been saved if this precaution had been taken!

Hoping that my suggestion may be taken in consideration by your Honorable Body,

I am, respectfully,

JOHN B. VAN OPSTAL.

Which was referred to the Committee on Fire.

COMMUNICATIONS FROM CITY, COUNTY AND BOROUGH OFFICERS.

The President laid before the Board the following communication from the Police Commissioner:

No. 993.

Police Department of The City of New York,
No. 300 Mulberry Street,
September 14, 1904.

To the Honorable the Board of Aldermen:

Gentlemen—I am compelled to again call your attention to the absolute necessity of increasing the number of Patrolmen for duty in this City. There is now pending before one of your committees a resolution increasing the number of men to the extent of four hundred (400). I most respectfully request this matter receive your immediate attention, as I am in constant receipt of reasonable and legitimate requests to increase the number of men for patrol duty in many of the precincts within the limits of Greater New York, where life, property and public order require the increase of the Force. In many instances the number of posts are out of proportion to the number of Patrolmen available for duty, without making allowance for absence resulting from sickness and other causes. The inadequacy is most marked in the congested districts of the Borough of Manhattan. Charged with the responsibility of proper policing the City, I feel it my duty to thus make direct appeal to you.

Permit me, in this connection, to add that the number of precincts in Greater New York now is eighty-three (83), and when I have the men I will be compelled to add to this at least two more precincts in boroughs other than Manhattan.

Very respectfully,

W. McADOO, Police Commissioner.

Which was ordered on file.

The President laid before the Board the following communication from the Department of Finance (for summary of which see CITY RECORD Supplement hereafter).

Hon. CHARLES V. FORNES, President Board of Aldermen:

Dear Sir—I send you herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment September 16, 1904, authorizing the issue of corporate stock to the amount of \$10,000, to provide means for preliminary surveys, borings and plans for a monumental bridge or viaduct, to be erected across the Spuyten Duyvil creek, connecting Inwood Heights, in the Borough of Manhattan, with Spuyten Duyvil Heights, in the Borough of The Bronx, together with copy of a report from the President of the Borough of Manhattan and the Engineer of the Board of Estimate and Apportionment, relative thereto.

Very truly yours,

J. W. STEVENSON, Deputy Comptroller.

June 24, 1904.

Hon. GEORGE B. McCLELLAN, Chairman of the Board of Estimate and Apportionment:

Sir—At the meeting of the Board of Estimate and Apportionment held on May 13, there was referred to the President of the Borough of Manhattan and the Chief

Engineer of the Board of Estimate and Apportionment a communication from the Hudson Tri-Centennial Association, through Mr. T. P. Fowler, its President, submitting, with its endorsement, a petition calling attention to the fact that on September 12, 1909, will occur the three hundredth anniversary of the discovery of the Hudson river by Hendrik Hudson. The Association urges that this event be properly commemorated, and suggests as a proper means of doing so the dedication on the date of the anniversary, of a monumental bridge or viaduct across the Spuyten Duyvil creek connecting Inwood Heights, in the Borough of Manhattan, with Spuyten Duyvil Heights, in the Borough of The Bronx, this viaduct being the connecting link between what will be the extension of the Riverside Drive and Boulevard Lafayette and the Spuyten Duyvil parkway, already laid out and improved to the northernmost limit of the city. It is stated in the petition that "if this structure be built by the City our public-spirited citizens may be relied upon to provide the sculpture and decorative features necessary for its commemorative character."

All of the studies which have thus far been made for mapping the upper end of the Island of Manhattan, known as the Twelfth Ward, have indicated the extension of the Boulevard Lafayette across the Dyckman street valley along Inwood Heights and across Spuyten Duyvil creek by means of a viaduct such as is now proposed, to connect with Spuyten Duyvil parkway. While the proposed location of such a viaduct varies slightly in the different schemes, it has in all of them been designed to connect the heights on the Manhattan side of the Spuyten Duyvil creek with those of The Bronx. The suggestion, therefore, is not a new one, but it is made with peculiar appropriateness at this time, and would be a fitting memorial of the discovery of the Hudson river. The Riverside Drive is now being extended from Manhattan Valley to the Boulevard Lafayette at a cost of several millions of dollars. It may be said that the construction of such a viaduct as is proposed would be an unnecessary expense, when more useful and pressing improvements are needed. Several monumental structures have already been erected on the northerly end of Manhattan Island at the expense of the City at large, and inasmuch as the Borough of Manhattan contains by far the most valuable property in The City of New York and pays a corresponding share of the expenses of the City government and of the great public improvements which are not assessed upon the property locally benefited, and as the former City of New York had provided before consolidation the most of these great improvements at her own expense, it seems but fair that generous provision should be made for the completion of the superb Riverside Boulevard by adding one more monumental bridge across the waterway separating Manhattan and The Bronx.

A study of such a structure has already been prepared by Messrs. Boller & Hodge, Consulting Engineers, with whom Messrs. Morris & Walker collaborated as architects. Mr. Boller has advised us that, while at the present time it is impossible to make accurate estimates of the cost of such a structure, he believes that such a bridge as has been designed can, without the monumental adjuncts, be built at a cost not to exceed \$1,600,000. As is stated in the petition addressed to the Board, it is expected that the Hudson Tri-Centennial Association and its public spirited friends will provide the monumental and decorative features.

Only five years remain before the anniversary which it is desired to commemorate, and if the suggestion which has been presented to the Board is to be favorably considered, the initial steps should be taken without delay. The work is so important that it would seem worthy of the selection of a special commission to carry it out, as was successfully done in the case of the Washington Bridge, rather than to impose the responsibility for its successful execution upon either the Bridge Department or the Park Board, both of which have other exacting duties.

While the Board will probably not be prepared to commit itself to this undertaking, we believe that it would be wise to have the necessary surveys and borings made to permit of the preparation of more detailed plans. An accurate contour map of the two sides of Spuyten Duyvil creek could probably be prepared at slight expense by the Presidents of the boroughs of Manhattan and The Bronx, and we believe that the sum of \$10,000 would cover the cost of all the necessary borings and of the making of plans of sufficient detail to permit of accurate estimates of cost. We beg, therefore, to recommend that the Board authorize an issue of Corporate Stock in the sum of \$10,000 to provide for such preliminary surveys, borings and plans, and that the Presidents of the two boroughs which would be connected by the proposed structure be requested to provide the necessary surveys and maps, or that the employment of competent city surveyors to do this work be authorized.

Respectfully,
(Signed) JOHN F. AHEARN,
President, Borough of Manhattan.
(Signed) NELSON P. LEWIS,
Chief Engineer, Board of Estimate and Apportionment.

AN ORDINANCE providing for an issue of Corporate Stock in the sum of ten thousand dollars (\$10,000), to provide means for preliminary surveys, borings and plans for a monumental bridge or viaduct to be erected across the Spuyten Duyvil Creek, connecting Inwood Heights in the Borough of Manhattan with Spuyten Duyvil Heights, in the Borough of The Bronx.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment September 16, 1904, and authorizes the Comptroller to issue Corporate Stock of The City of New York to the amount and for the purposes therein specified:

"Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended by chapter 409 of the Laws of 1904, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock of The City of New York to an amount not exceeding ten thousand dollars (\$10,000), to provide means for preliminary surveys, borings and plans for a monumental bridge or viaduct to be erected across the Spuyten Duyvil Creek, connecting Inwood Heights, in the Borough of Manhattan, with Spuyten Duyvil Heights in the Borough of The Bronx, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding ten thousand dollars (\$10,000), the proceeds whereof to be applied to the purposes aforesaid."

Which were severally referred to the Committee on Finance.

The President laid before the Board the following communication from the Board of Estimate and Apportionment, transmitting ordinance.

No. 998.

Department of Finance,
City of New York,
September 22, 1904.

Hon. CHARLES V. FORNES, President, Board of Aldermen:

Dear Sir—I send you herewith certified copy of resolution adopted by the Board of Estimate and Apportionment September 16, 1904, authorizing the issue of Corporate Stock in the sum of \$250,000 for the purpose of providing additional means for the construction and equipment of the Borough Building, in the Borough of Richmond; also copies of communications from Messrs. Carrere & Hastings, architects; Eugene McLean, Engineer, Department of Finance, and the President of the Borough of Richmond, relative thereto.

I also inclose form of ordinance for adoption by the Board of Aldermen to indicate its concurrence therein.

Very truly yours,
J. W. STEVENSON, Deputy Comptroller.

E. E. McLEAN, Esq., Engineer, Finance Department, No. 280 Broadway, New York:

Dear Sir—In response to your request for further details regarding the proposed expenditure to complete the Richmond Borough Hall, at St. George, S. I., for which an additional appropriation is asked for, we beg to state as follows:

The contracts that have been awarded and which have practically used up the appropriations granted, cover the excavation, the building of the structure itself with-

out interior finish, the installation of plumbing, heating and power, elevators and all conduits and wiring for electric lighting and power.

To finish all of the interior of the building we have applied for an additional appropriation of \$200,000. The plans have been prepared with full details and specifications for this work, and we have obtained a figure from the J. C. Vreeland Building Company, now executing the contract for the main building, in amount of \$196,000. Allowing five per cent, which would be saved by obtaining competitive estimates, this will offset our commissions for professional services. We therefore feel justified in asking for the appropriation of \$200,000.

This contract would embrace the furring of all outside walls with terra cotta, the furring and lathing of ceilings, all plain plastering and the necessary ornamental plastering in Court-room, President's audience room and in main hallways; also all carpentry, including all window frames with sash and glass, all exterior doors, all interior doors, trims, sash, frames, glass, all interior wood partitions with glass; also ornamental iron work, including the stairways, elevator fronts, safe doors and the necessary shelving and metal filing cases in the vaults; also all marble work in the main halls, on the main stairs, slate base in all rooms and the terrazzo (crushed marble) floors throughout; also the glass linings for seven feet in height in toilet rooms, and including the mail chute, telephone booths, and two clocks in the towers. The contract would also include the furniture that is actually built in, but no portable furniture. This would complete the building in every respect in the interior, excepting only the electric fixtures, which are mentioned hereafter.

We have also applied for a further appropriation of \$50,000 to complete the approaches around the building. This contract would include all necessary grading, building of retaining walls, of the steps, of the terrace walls, and of all work on the exterior, including the curbing and sidewalks around the property.

This appropriation would also include the cost of all electric fixtures which will be necessary throughout the building, and will leave the entire building and grounds complete.

In laying out this work and specifying for it, we have aimed to get the building thoroughly fireproof; we have specified only the best materials, but have asked for nothing that is extravagant or unnecessary.

We trust that these explanations are clear to you, and we will be glad to give you any further details that you may require.

Yours truly,
(Signed) CARRERE & HASTINGS.

August 10, 1904.

J. W. STEVENSON, Esq., Secretary Board of Estimate and Apportionment, No. 280 Broadway, New York, N. Y.:

Dear Sir—Of the \$300,000 appropriated toward the erection of Richmond Borough Hall, the following contracts have already been awarded:

Contract No. 1—For clearing the site, excavating, sheet piling and filling and grading required for the erection of Richmond Borough Hall.....	\$5,580 00
Contract No. 2—Embracing all work and materials for the erection of Richmond Borough Hall.....	230,000 00
Contract No. 3—Embracing all work and materials for the electrical equipment of Richmond Borough Hall.....	7,998 00
Contract No. 4—Embracing all work and materials for the plumbing and drainage equipment of Richmond Borough Hall.....	9,400 00
Contract No. 5—Embracing all work and materials for the heating and power equipment of Richmond Borough Hall....	21,994 00
Contract No. 6—Embracing all work and materials for the passenger and freight elevator equipment of Richmond Borough Hall.....	12,940 00
Total.....	\$287,912 00

The actual construction of the building began as soon as the weather permitted last spring, and the structure is now up to the second floor beams; in fact, most of the beams of this floor have already been laid.

Including the architects' fees on the work already done, the entire appropriation has now been exhausted, and it is necessary for me to ask the Board of Estimate and Apportionment for an additional appropriation to complete the work. I have asked the architects to make a careful estimate for me of the amount necessary to economically, but fittingly, complete the building, and I am advised that an additional appropriation of at least \$250,000 will be necessary for the purpose. Their letter in full is as follows:

"July 20, 1904.

"Dear Mr. Cromwell:

"We beg to report to you regarding the further work necessary to complete the new Borough Hall for the Borough of Richmond, as follows:

"We have completed our drawings for the interiors to a point so that we have been enabled to obtain intelligent estimates as to the cost.

"The cost to complete the building, including all interior work, other than the work now under contract, or work estimated for and for which the letting of contract is pending, we estimate will cost \$200,000.

"For the completion of the work on the grounds, including all terraces, steps, copings, platforms, pavements and curbs, and for the necessary fittings and furnishings inside of the building, such as electric fixtures, etc., we estimate the cost to be \$50,000.

"As the original appropriation is practically used up, this will make an additional appropriation of \$250,000 necessary.

"These estimates are based on our drawings and on outline specifications covering the work and is for all good work, but for nothing that is at all extravagant.

Yours very truly,
(Signed) "CARRERE & HASTINGS."

I accordingly respectfully ask that the issue of Corporate Stock in the sum of \$250,000 be at once authorized by the Board of Estimate and Apportionment for the purpose of building Richmond Borough Hall.

Yours respectfully,

GEORGE CROMWELL, President of the Borough.
September 13, 1904.

Hon. EDWARD M. GROUT, Comptroller:

Sir—Hon. George Cromwell, President of the Borough of Richmond, in communication under date of August 10, 1904, requests the Board of Estimate and Apportionment to authorize an additional issue of Corporate Stock in the sum of \$250,000 for the completion of the Richmond Borough Hall. I would report that the original architects' estimate for this building was \$400,000, but, as noted in my report dated July 21, 1903, the President of the Borough of Richmond in 1903, stated to me that the architects' plans could be so amended and that a structure could be erected which would provide ample accommodations for the present and immediate future, for \$300,000; there is also a clause in the architects' contract that states that the cost of the building shall be well within the sum of \$300,000; the total \$300,000 has been authorized for this work by the Board of Estimate and Apportionment as follows:

At meeting of May 23, 1902 (page 1052).....	\$300,000 00
At meeting of July 31, 1903 (page 1881).....	100,000 00

Of this appropriation the following contracts have already been awarded:

1. For cleaning site, excavating, sheet piling and filling and grading....	\$5,580 00
2. Erection of building. Structure without interior finish.....	230,000 00
3. Electrical equipment.....	7,998 00
4. Plumbing and drainage.....	9,400 00
5. Heating and power equipment.....	21,994 00
6. Elevators.....	12,940 00

Total.....\$287,912 00

To this should be added the contract of the architects, Carrere & Hastings, which has been certified to for \$15,000. This will make the total liability to date \$302,912, which is more than the appropriation.

It will be noted that although \$300,000 was appropriated for the entire building with this expenditure the building will be far from completion, and it is absolutely necessary to appropriate an additional sum to finish the building.

To finish all of the interior of the building the architects estimate that it will cost \$200,000; this estimate is based upon a figure obtained from a builder. This contract will embrace the furring of all outside walls with terra cotta, the furring and lathing of ceilings, all plain plastering and the necessary ornamental plastering in court-room, President's audience room, and in main hallways; also all carpentry, including all window frames with sash and glass, all exterior doors, all interior doors, trims, sash, frames, glass, all interior wood partitions with glass; also ornamental iron work, including the stairways, elevator fronts, safe doors and the necessary shelving and metal filing cases in the vaults; also all marble work in main halls, on the main stairs, slate base in all rooms and the terrazzo floors throughout; also the linings for seven feet in height in toilet-rooms and including the mail chute, telephone booths and two clocks in the towers. The contract would also include the furniture that is actually built in, but no portable furniture. The architects state that this will complete the building in every respect in the interior, excepting the electric fixtures; \$50,000 is requested to complete the approaches around the building. This contract will include all necessary grading, building of retaining walls, of the steps, of the terrace walls and of all work on the exterior, including the curbing and sidewalks around the property.

This appropriation will also include the cost of all the electric fixtures which will be necessary throughout the building, and will, I am informed by the architects, leave the entire building and grounds complete.

I have examined the general plans for this additional work, and, as stated before, it is absolutely necessary to have an additional appropriation to finish the building, and from my examination and interview with the architects, I am led to believe that nothing that is extravagant or unnecessary is specified, hence I think the Board of Estimate and Apportionment may properly authorize the Comptroller, pursuant to section 47 of the Amended Greater New York Charter, to issue additional Corporate Stock to the amount of \$250,000 to provide for the completion of the Richmond Borough Hall.

Respectfully,
(Signed) E. E. McLEAN, Engineer.

Dear Sir—I send you herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment September 16, 1904, approving of the issue of Corporate Stock to the amount of \$250,000 for the erection of new buildings and additions, and improving and permanently bettering and equipping existing buildings under the jurisdiction of the Commissioner of Public Charities, and copy of a communication from the Commissioner of Public Charities relative thereto.

Hon. GEORGE B. McCLELLAN, Mayor of The City of New York:

Sir—Under date of June 10, 1904, your Board passed the following resolution: "Resolved, That the resolution adopted by the Board of Estimate and Apportionment at a meeting held May 6, 1904, in relation to the issue of Corporate Stock to the amount of two hundred and fifty thousand dollars (\$250,000), for the erection of buildings and additions thereto, under the jurisdiction of the Commissioner of Public Charities, be amended to read as follows:

"Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended by chapter 409 of the Laws of 1904, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock of The City of New York to the amount not exceeding two hundred and fifty thousand dollars (\$250,000), to provide means for the erection of new buildings and additions, improving and permanently bettering and equipping existing buildings, under the jurisdiction of the Commissioner of Public Charities, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding two hundred and fifty thousand dollars (\$250,000), the proceeds whereof to be applied to the purposes aforesaid."

Under date of August 2 your Honor returned to the Board of Aldermen, without your approval, an ordinance authorizing the issue of two hundred and fifty thousand dollars (\$250,000) of Corporate Stock for the Department of Public Charities, which passed their Honorable Body July 26, 1904, by reason of expiration of time, as provided in section 48 of the amended chapter. The reason why your Honor refused to approve this ordinance was that it was clerically inaccurate, in that it proposes to concur in the resolution of the Board of Estimate and Apportionment, dated May 6, 1904, whereas the resolution was duly amended by the Board of Estimate and Apportionment by a resolution dated June 10, which was really the resolution they meant to concur in.

I would therefore respectfully request your Board to reaffirm this resolution of June 10, as it seems that is the only way to get the Board of Aldermen to take action on the matter.

Respectfully,

JAMES H. TULLY, Commissioner.

Dear Sir—I send you herewith certified copy of resolution adopted by the Board of Estimate and Apportionment September 16, 1904, authorizing the issue of Corporate Stock in the sum of \$18,000, to provide means for the construction of a comfort station in Madison Square Park, Borough of Manhattan, together with copies of communications from the Department of Parks and Mr. Eugene McLean, Engineer of the Department of Finance, relative thereto.

To the Board of Estimate and Apportionment, The City of New York:

Gentlemen—I have the honor to request that your Honorable Board will authorize an issue of Corporate Stock in the sum of eighteen thousand dollars (\$18,000), for the purpose of defraying the expense of constructing and equipping a public comfort building in Madison Square Park, to be built of stone and erected in the place of the old existing structure now used for such purpose in said park.

The building at present used as a comfort station in Madison square affords inadequate facilities and is altogether unsuited to the purpose, for the reasons set forth in the accompanying report of the Architect of the Department.

Complaints are frequent from citizens, as well as from the Board of Health, as to the unsanitary condition of the place. I also inclose for the information of your Board a communication from the Health Department on the same subject.

The matter thus shown to be one of urgent importance, your early consideration and favorable action are respectfully requested.

Respectfully,

JNO. J. PALLAS,
Commissioner of Parks, Boroughs of Manhattan and Richmond.

July 18, 1904.

WILLIS HOLLY, Esq., Secretary, Park Board:

Dear Sir—I herewith return letter from the Board of Health regarding the condition of the men's toilet in the Madison Square cottage. The complaint of the filthy condition of this portion of the cottage is one that has been frequently made for a number of years, and it is largely due to the physical condition of the building. The facts in connection with this comfort station are as follows:

The upper portion of the building was converted into a woman's toilet only, and the basement was dug out for the use of storing tools and working implements by the Laborers engaged on the park. Complaint had been made from time to time by the Fore-

man that the workmen left the park and neglected their work, and it was considered advisable to place a closet in the basement for their use exclusively. This closet was not for public use for the men at any time, but through public clamor it was fitted up temporarily for that purpose. The condition and the size of the basement are such that nothing can be placed there for public use that would be sanitary, and I have repeatedly reported against its use by the public. I will again reiterate one of my numerous reports on the matter in recommending that all existing plumbing fixtures of every description be removed from the basement; that one closet be placed there again for the use of the laboring force exclusively; that the public be prohibited from entering the building, and that the door be locked at all times. Secondly, that the present comfort station be removed, and that a new combination comfort station to be built of stone and to cost about \$18,000 be erected in the place of the existing one, and that an application be made for the issue of bonds to the Board of Estimate and Apportionment.

Unless both these suggestions are carried out, you will continue to receive complaints about this building, and I hope that some definite action will be taken, as, in its present condition, it will not permit of any further delay.

Respectfully,

JULIUS F. MUNCKEWITZ, Architect.

July 15, 1904.

WILLIS HOLLY, Esq., Secretary, Department of Parks:

Dear Sir—With reference to yours of the 14th inst., relative to reports of inspections of the water closets located in Madison Square Park, made by Inspectors of this Department, in which you state that the cottage in Madison Square Park is in as good a condition as it has been found possible to keep it while the present building is maintained, the inspection made by Sanitary Inspector Graef is not the only one that has been made by Inspectors of this Department; each inspection that has been made confirms the result of the previous one.

It can only be reiterated for the information of the Park Board that the water closets and the water closet apartments for the males in the toilets located in Madison Square Park are in a filthy condition. The wooden, metal-covered urinal in the male apartment is filthy, saturated and offensive.

Continued complaints of these conditions are being received by the Department of Health, and if the same is to be remedied at all, the Department of Parks is deemed the proper one to undertake the same.

Respectfully yours,

EUGENE W. SCHEFFER, Secretary.

September 9, 1904.

Hon. EDWARD M. GROUT, Comptroller:

Sir—Hon. John J. Pallas, Commissioner of Parks, Boroughs of Manhattan and Richmond, in communication under date of July 20, 1904, requests the Board of Estimate and Apportionment to authorize an issue of Corporate Stock in the sum of \$18,000, for the purpose of defraying the expenses of constructing and equipping a public comfort station in Madison Square Park, to be erected in the place of the old existing structure now used for such purpose in said park.

I would report that I have had the present comfort station in Madison Square Park examined, and it is found that the building now used for a comfort station is a one-story wooden structure raised 5 or 6 feet above ground level. The main floor is used as a comfort station for women and the basement for a furnace room, storage for tools, etc., and a small room adapted to the uses of a men's comfort station. The facilities are, in the first place, inadequate, and, secondly, the fixtures are of primitive character, not well adapted to present day uses, set with wooden surroundings and supports. The nature of these fittings and surroundings, together with the considerable use to which they are subject, precludes their being kept in a sanitary condition or even decently clean, and I fully concur with the Architect of the Park Department that this building should be replaced by a modern comfort station adapted to the location, and I think the Board of Estimate and Apportionment may properly authorize the Comptroller, pursuant to section 47 of the amended Greater New York Charter, to issue Corporate Stock of The City of New York to the amount of \$18,000 to provide for the erection of a comfort station in Madison Square Park, Borough of Manhattan.

Respectfully,

E. E. McLEAN, Engineer.

"Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended by chapter 409 of the Laws of 1904, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock of The City of New York, to an amount not exceeding eighteen thousand dollars (\$18,000), to provide means for the construction of a Comfort Station in Madison Square Park, Borough of Manhattan, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding eighteen thousand dollars (\$18,000), the proceeds whereof to be applied to the purposes aforesaid."

The Vice-Chairman moved the adoption of this ordinance.

The President put the question whether the Board would agree with said ordinance.

Which was unanimously decided in the affirmative by the following vote:

Department of Docks and Ferries of The City of New York, }
Pier "A," North River, New York, }
August 31, 1904.

Hon. J. W. STEVENSON, Secretary, Board of Estimate and Apportionment:

Sir—There are in the employ of this Department, at the present time, two persons holding the title of "Foreman of Yard," Robert M. Sterrett and Edward T. DuBois, who receive a salary of \$1,500 per annum. After an examination of the work performed by these two men, I am thoroughly convinced that they are not sufficiently compensated; I therefore desire to increase their salary to \$1,800 per annum.

Mr. Sterrett was appointed in this Department on July 8, 1872, and Mr. DuBois on June 9, 1889, the former being assigned at the west Fifty-seventh Street Yard, on the North river, and the latter at the East Twenty-fourth Street Yard, on the East river. In their capacity of Foreman it is their duty to keep an accurate account of all material received or distributed at the yard, they are responsible for the correctness of the payroll of the Department in so far as it applies to the men at the yards, they are responsible for the care of the Department's enormous plant, which when not in commission is tied up at the yards; in general, as their title would imply, they are responsible for the orderly and proper handling of the business at the yards. These duties have, during the past few years enormously increased, owing to the general increase in the business of this Department.

I would therefore respectfully request that the Board of Estimate recommend to the Board of Aldermen the establishment of the position of "Foreman of Yard" for this Department, with compensation at the rate of \$1,800 per annum.

Yours respectfully,

MAURICE FEATHERSON, Commissioner.

Whereas, The Board of Estimate and Apportionment, at a meeting held September 16, 1904, adopted the following resolution:

Resolved, That the Board of Aldermen hereby concurs in said resolution and fixes the salary of the position of "Foreman of Yard," in the Department of Docks and Ferries, at the rate of eighteen hundred dollars per annum.

Hon. JAMES W. STEVENSON, Secretary, Board of Estimate and Apportionment:

Sir—I beg to advise that, pursuant to certification received from the Municipal Civil Service Commission, the salary of James Weir, Clerk in this Department, has this day been fixed at the rate of \$3,000 per annum, subject to the approval of the Board of Estimate and Apportionment and the Board of Aldermen.

Mr. Weir was appointed in this Department on October 23, 1872, and has therefore been in the service of the City for almost thirty-two years. He has always performed his duties in a highly satisfactory manner, and now has charge of all apportionment accounts and of all employees engaged in connection with the records of the cost of construction and repair work done by the Department.

His present salary of \$2,400 per annum is entirely inadequate for the character of work performed, and he has not received any advance in salary during the past fourteen years.

I therefore respectfully request that the Board of Estimate and Apportionment recommend to the Board of Aldermen the establishment of the position of Clerk for this Department, with salary at the rate of \$3,000 per annum.

Yours respectfully,

To the Board of Estimate and Apportionment of The City of New York:

Dear Sirs—I inclose herewith a draft of a proposed resolution, making a slight change in the salary list of this Department. The resolution abolishes the position of one Assistant at \$6,000 and one Assistant at \$3,000, making a total of \$9,000, and substitutes in place thereof one Assistant at \$5,000 and one Assistant at \$4,000, making a similar total of \$9,000.

The position of Assistant at \$6,000 which is thus abolished or reduced to \$5,000, is that formerly held by the late James M. Ward, and is now vacant, no appointment having been made up to the present time to fill the vacancy caused by Mr. Ward's death.

As the contemplated change in the salary list entails no additional expenditure, and is made solely for the purpose of providing for the present needs of the Department, I presume that your Board will have no objection to the change, and I would be very glad to have the resolution passed and transmitted to the Board of Aldermen at the earliest possible date.

Respectfully yours,

Hon. JAMES W. STEVENSON, Deputy and Acting Comptroller:

My Dear Sir—Referring to our late visit to your Department as a special committee appointed by the Board of Managers of this institution, composed of Messrs. Hoogland, Bogert and Bennett, and myself as President, an ex-officio member, recommending an advance in the salary of one of our most deserving employees, recorded on the pay-roll as House Mother, and filling the position of Trained Nurse in the dispensing of medicines and administering such other technical services as our Visiting Physician directs in the care of the population of this institution of 325.

The female help of the institution is under her direction, and being qualified by a certificate from the Board of Health and that of a teacher by the Board of Education, her services are highly appreciated by the Committee on Employment of the Board of Management and the recommendation of the Superintendent.

Recognizing her great service to the institution and the low salary received, the following resolution was introduced at a meeting of the Board of Management held on Tuesday, June 21, 1904:

"Resolved, That application be made to the Board of Estimate and Apportionment for an increase in the salary of the House Mother in the Brooklyn Disciplinary Training School for Boys from the sum of six hundred dollars to the sum of seven hundred and twenty dollars per annum."

The motion was duly seconded and unanimously carried.

The same was confirmed on July 26, 1904, by the appointment of the above Committee of the Board to call on you personally and request that you present the same before the Honorable Board of Estimate and Apportionment at as early a date as possible.

Miss Anna J. Hutchinson, the employee for whom we solicit this advance, is deserving of the consideration requested, and great fear is felt that should our appeal not be granted by your Honorable Board, the institution may lose the services of so valuable an employee.

It will be noted that Miss Hutchinson was recommended for this advance on our schedule presented last year, and will be repeated in the schedule for 1905.

With the foregoing assurance of qualification and merit we trust the petition of our Board will receive favorable action with your personal attention.

Respectfully yours,

To the Board of Estimate and Apportionment, City of New York:

Gentlemen—Upon my requisition the Board of Estimate and Apportionment last year made an annual appropriation for the year 1904 for certain increased salaries in the Department of the County Court and Surrogate's Court of Richmond County, but such salaries have never been fixed by the Board. The increases asked for are Thomas Kenny, Jr., Court Stenographer, and Secretary to the Surrogate, whose salary is now \$2,000, to be fixed at \$2,300, and Joseph E. Mullins, Clerk in the Surrogate's office, whose salary is now \$1,300, to be fixed at \$1,400. The amounts asked for I believe to be not only reasonable and just, but very moderate, and are within the limit of their classification under the State Civil Service Law, and I would respectfully ask that they be fixed accordingly, as no additional appropriation will be required—the amount in the salary fund to the credit of my Department being sufficient for such purposes.

New York, September 22, 1904.

Hon. CHARLES V. FORNES, President, Board of Aldermen, New York City:

Dear Sir—I desire to ask the co-operation of the Board of Aldermen in an important matter, to expedite the work of this Department. I am anxious to secure the consent of the Board to the purchase, without advertising and public letting, of 3,200 yards, more or less, of garden mould, to be delivered on the Spuyten Duyvil parkway, in the Borough of The Bronx.

We are very much in need of this mould, and it is important that we secure it at once, as it will be impossible to get another lot so good or so cheap as that offered at present. We have advertised a public letting for this mould, and the lowest price for which we have been able to secure it has been at the rate of \$1.85 a cubic yard.

We have a proposition from a rival contractor, who agrees to furnish and place the mould above mentioned for the sum of \$1.65 a cubic yard. In addition to that, he offers to furnish earth for additional fill without charge to this Department.

The proposition is so favorable that I would like to avail myself of this opportunity at the earliest possible moment.

Respectfully yours,
WILLIAM P. SCHMITT, Commissioner.

Resolved, That the Commissioner for the Department of Parks for the Borough of The Bronx be and he is hereby authorized, in pursuance of the provisions of section 419 of the Amended Greater New York Charter, to contract for, without advertising and public letting, three thousand and two hundred cubic yards, more or less, of garden mould and the placing of the same, at a cost not exceeding one dollar and sixty-five cents per cubic yard.

Alderman McCall moved the adoption of this resolution.

The President put the question whether the Board would agree with said resolution.

Which was unanimously decided in the affirmative by the following vote:

COMMUNICATIONS FROM CITY, COUNTY AND BOROUGH OFFICERS RESUMED.

The President laid before the Board the following communication from the Board of Estimate and Apportionment, transmitting Ordinance

No. 1016.
Department of Finance, City of New York, }
September 22, 1904.

Hon. CHARLES V. FORNES, President, Board of Aldermen:

Dear Sir—I send you herewith certified copy of resolution adopted September 16, 1904, authorizing the issue of Corporate Stock to the amount of \$5,000, in addition to the sum heretofore authorized, to provide means for the completion of the bridge across the Bronx river and the approaches to the bridge to be erected by the New York and Harlem Railroad over its tracks at East Two Hundred and Thirty-third street, in the Borough of The Bronx; also copy of communication from the President of said borough relative thereto.

I also inclose form of ordinance for adoption by the Board of Aldermen to indicate its concurrence therein.

Very truly yours,
J. W. STEVENSON, Deputy Comptroller.

(Copy.)

The City of New York,
Office of the President of the Borough of The Bronx,
Municipal Building, Crotona Park, September 2, 1904.

To the Honorable the Board of Estimate and Apportionment:

Gentlemen—Request is hereby made for an additional appropriation of \$5,000, necessary to continue the work "In the construction of the bridge across the Bronx river and the approaches to the bridge to be erected by the New York and Harlem Railroad over its tracks at East Two Hundred and Thirty-third street, in the Borough of The Bronx."

The contract for above work was awarded to the lowest bidder for the sum of \$71,462, and from the present indications the margin remaining between that sum and the appropriation of \$75,000 will be insufficient to pay the cost of engineering and inspection, and the amount requested, viz.: (\$5,000), will be needed for the purposes stated during the continuation of said work.

Respectfully,
(Signed) LOUIS F. HAFFEN,
President of the Borough of The Bronx.

AN ORDINANCE providing for an issue of Corporate Stock in the sum of five thousand dollars (\$5,000), in addition to the sum heretofore authorized, to provide means for the completion of the bridge across the Bronx river and the approaches to the bridge to be erected by the New York and Harlem Railroad over its tracks at East Two Hundred and Thirty-third street, in the Borough of The Bronx.

Be it Ordained by the Board of Aldermen of The City of New York as follows: Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution, adopted by the Board of Estimate and Apportionment September 16, 1904, and authorizes the Comptroller to issue Corporate Stock of The City of New York to the amount and for the purposes therein specified:

"Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended by chapter 409 of the Laws of 1904, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock in the sum of five thousand dollars (\$5,000), in addition to the sum heretofore authorized, to provide means for the completion of the bridge across the Bronx river and the approaches to the bridge to be erected by the New York and Harlem Railroad over its tracks at East Two Hundred and Thirty-third street, in the Borough of The Bronx, and that when authority therefor shall have been obtained from the Board of Aldermen the Comptroller is authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to the amount of five thousand dollars (\$5,000), the proceeds whereof to be applied to the purposes aforesaid."

President Haffen moved the adoption of this resolution.

The President put the question whether the Board would agree with said resolution.

Which was unanimously decided in the affirmative by the following vote:

Affirmative—Aldermen Ahner, Baldwin, Boerner, Boyhan, Callahan, Chambers, Coggey, Collins, Davies, Diemer, Donohue, Doull, Downing, Gillies, Gillen, Goodman, Griffenhagen, Grimm, Haenlein, Haggerty, Harburger, Harnischfeger, Hann, James, Jones, Kenney, Kevin, Kline, Koch, Lochner, McCall, McCarthy, Marks, Meyers, Morris, Arthur H. REPORT:

Police Department of The City of New York,
No. 300 Mulberry Street,
April 12, 1904.

Hon. CHARLES V. FORNES, President, Board of Aldermen:

Sir—I beg again to call your attention to resolution to be acted upon by your body, providing for the appointment of 150 additional Patrolmen for the Police Force and the issuing of bonds to pay for salaries of same. This matter is of such exceedingly vital importance to the efficient policing of New York that I respectfully request that your Board at the meeting to-morrow, if possible, pass same. In addition to this needed increase of the Force, the number of vacancies in the Force made by retirements

and other causes cannot be filled until this resolution is passed, so that not only are we in need of this increase of the number now allowed by law, but are short of the actual number we should carry on the rolls.

Very respectfully,

W. McADOO, Police Commissioner.

No. 1020.

By Alderman McCall—

Whereas, A contract for the construction of the power houses and elevator towers on the piers of the Blackwell's Island Bridge (No. 4) over the East river, between the boroughs of Manhattan and Queens, was entered into on or about the 31st of December, 1903, by and between The City of New York, acting through the Commissioner of Bridges, and the Williams Engineering and Contracting Company, as contractors, for the sum of \$685,000;

Whereas, The construction at this time of the power houses, stair and elevator towers on or about Piers 2 and 3, situated on Blackwell's Island, will seriously interfere with the erection of the steel superstructure of the Blackwell's Island Bridge and delay this construction, involving serious loss of time to the City, inconvenience to other contractors and liability of accident to the employees; and since it appears that the construction of the aforesaid power houses, stair and elevator towers may advantageously be postponed for an indefinite period to the advantage of the City and of the parties of this contract; and

Whereas, The Commissioner of Bridges has deemed it advisable and in the public interest, that certain modifications be made in the work and in the contract therefor, as follows:

1. The stair and elevator towers and the power houses, with foundations on Piers 2 and 3, situated on Blackwell's Island, in the Borough of Manhattan, will be omitted and shall not be built under the original contract or this agreement, but the attics on the aforesaid Piers 2 and 3, situated on Blackwell's Island, shall be built and finished in and about the steel work of the bridge towers and braces, and finished at the ends, in conformity with the drawing affixed hereto and made a part of this supplemental agreement.

2. With the exception of the stair and elevator towers and the power-houses with foundations on Piers 2 and 3, situated on Blackwell's Island, and with the exception of the aforesaid modifications in the finish of the attics on these two piers, the original contract shall be executed in its entirety.

3. It is hereby expressly understood and agreed that the parties of the second part may and shall proceed with the construction of the work to be done under the original contract, as limited by this special agreement (excepting that involved in the attics on Piers 1, 2, 3 and 4), immediately, and that this portion of the work shall be completed within the time mentioned for the completion of the original contract, to wit, two hundred and sixty (260) working days; and it is also specially understood and agreed that the work on the attics on Piers 1, 2, 3 and 4 shall not be commenced before the first day of April, one thousand nine hundred and five, and shall be built and erected as the work on the steel towers on the aforesaid piers proceeds; that the necessities of the construction of the steel work shall be considered in the construction of these attics, and that the said attics on the aforesaid piers shall be completed within ninety (90) days after the contractors shall have received notice that the steel work on the towers is ready for the completion of the aforesaid attics; be it

Resolved, That the said work be omitted from the contract heretofore executed on or about December 31; and be it

Resolved, That the work set forth in said contract dated December 31, 1903, be executed with the modification heretofore set forth and that the contractors therefor be paid the sum of \$345,000; and be it further

Resolved, That the Commissioner of Bridges be and is hereby authorized to execute a contract with the Williams Engineering and Contracting Company for the work in question at the sum of \$345,000.
