BOARD OF EXAMINERS.

October 6, 1903.

Present—Messrs. William J. Fryer, Warren A. Conover, William C. Smith, Charles D. Purroy, Charles G. Smith, Charles Buek and Walter Cook (Chairman).

Meeting called to order at 2 p. m.

Minutes of meeting of the 29th ult., on motion, approved as read.

Appeal No. 202 of 1903, Fireproof Shutter Case No. 33, No. 2076 Second avenue, Manhattan, H. J. Ferris, appellant.

On presentation of report and on motion, appeal was denied, inasmuch as all openings on the north side of building must be provided with fireproof shutters.

Appeal No. 203 of 1903, Fireproof Shutter Case No. 34 of 1903, No. 2369 Second avenue, Manhattan, Messrs. Mahoney Bros., appellants.

On motion, referred to Chief Purroy for examination and report with recommendation.

Appeal No. 204 of 1903, New Building No. 628 of 1903, north side of Thirty-ninth street, 100 feet from northeast corner of Broadway, Hackett-Hankinson Company, architects and appellants.

"No. 22—Objection No. 10 should be complied with; dressing room should be ventilated by windows to the external air.

"No. 23—Objection No. 15 should be complied with; stage sidewalks should be increased in thickness.

"No. 24—Exits are insufficient.

"Awaiting Board's action on Objections Nos. 5, 6, 7 and 8—
"No. 5—Two open courts should be provided, extending the length of the auditorium proper.

"No. 6—Two exits on each side of each tier should be provided, leading into open courts.

"No. 7—Distinct and separate places of exit should be provided for balcony and gallery, with direct exterior outlets.

"No. 8—Two independent stairs should be provided for each gallery on opposite sides.

"There are practical difficulties caused by the situation, location and surroundings of property which prevent the designing of building to meet the requirements of Building Code in the respects as cited in the objections hereinbefore stated. We claim, however, that our plan in these respects is not only equally as good, but superior to the Code requirements.

"It is an imperative condition of designing that the stage be located adjacent to the Thirty-ninth street side of property, and working under this condition we find it difficult to place the courts at the sides of auditorium, as required by Code, and at the same time secure the best possible means of exit. We believe that our design of courts is a better one in all respects.

"Further, that the exits to courts, while not being sufficient in number, are, however, sufficient in capacity. We maintain that the width of the narrowest part of an exit determines its capacity, and in this case the stairway in court is the minimum width and determines the capacity of court as an exit. If this be true, then the door being of greater width is sufficient and has the merit over two doors of being a check on the overcrowding of the stairs.

"Further, your attention is called to the fact that in the use of exits in courts, escapes are made by descent, whereas in the case of a regularly constructed court people in exit must ascend quite a distance to doors.

"The gallery stairs and exits from same are sufficient, both as to location and capacity."

Mr. Martin J. Hackett appeared before the Board.

On motion, laid over, pending additional amendments, which are to be filed prior to next meeting.

Appeal No. 205 of 1903, Alteration No. 1396 of 1903, No. 1418 Broadway, Manhattan, Hackett-Hankinson Company, architects and appellants.

"Awaiting Board's action on Objection No. 1—State whether building is fireproof.

"Subject to Tenement House Department approval.

"Inasmuch as the first story is to be used for lobby and entrance and parts of the second and third stories for ladies' rooms, etc., all such portions are to be made absolutely fireproof, in conformity with law.

"To convert first story into lobby and entrance to theatre, as shown.

"It is essential for the success of the theatre (the lobby of which is to be placed in this building) that entrance be located on Broadway. There exists on this property a non-fireproof building. The basement, first story and parts of second and third stories are made fireproof, in conformity with Code."

Mr. Martin J. Hackett appeared before the Board.

On motion, laid over, pending additional amendments, which are to be filed prior to next meeting.

Appeal No. 206 of 1903, New Buildings No. 699 of 1903, east side of Tompkins street, 50 feet from Delancey street, Thomas H. Styles, architect and appellant.

"I respectfully ask that the law be modified to allow construction of said coal pocket, according to plans filed. The Code makes no direct provision for structures of this character, grain elevators at tide-water being nearest thereto. Similar pockets have been erected in this City during the past few years. The location and surroundings of this pocket are such that, should fire occur, it could do no damage to adjoining buildings, nor could fire at other buildings damage this structure.

"It would be impracticable to construct this pocket of other material than timber, owing to the dampness and water from coal, which affects the iron and eventually destroys it by rust and corrosion; the cost, too, becomes an important factor, owing to competition with adjacent towns where iron pockets are unknown, and as coal must be handled on small margin, the first cost of such structures is of great importance."

Mr. Thomas H. Styles appeared before the Board.

On motion, laid over, pending block plan to be filed by appellant, showing surroundings, etc.

Adjourned.

JAMES GAFFNEY, Clerk.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the City of New York is, shall be, or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered, unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be included in the envelope containing the bid or estimate, but should be either included in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department. No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
