J. W. SAVAGE, Secretary.

New York, March 22, 1907.

The following communications were received, action being taken thereon as noted, to wit:

From the Corporation Counsel (71741)—Requesting to be advised as to department's opinion of Senate Bill No. 843, Int. 707, to amend section 826 of the Charter by directing the retention in the Municipal ferry service of the City, in addition to the employees named in the present law, of all ticket counters, ticket clerks, stewaresses, porters, money collectors and clerks who were employed as such on January 1, 1905, on any ferry, the operation of which has been or shall be assumed by the City. Advised that the department is opposed to the passage of the bill because it would cause confusion and would seriously affect the discipline and organization at present maintained, and would necessitate the removal of those employees at present performing the duties of these positions.

From the Municipal Civil Service Commission—

1 (71775). Authorizing transfer of Thomas Kennelly, from the position of Dockbuilder to that of Ship Carpenter. Kennelly transferred to Ship Carpenter with compensation at the rate of 50 cents per hour, while employed, to take effect March 23, 1907.

From Edward T. Huerstel (71579)—Requesting permission to install electricity as the hoisting power at his ice bridge at the bulkhead on approach to Pier 47, North river, for the handling of ice thereat. Permit granted, the work to be done under the supervision of the Engineer-in-Chief of this Department.

From William S. Rogers (71329)—Complaining of the offensive condition of the sewer discharging at the foot of One Hundred and Twenty-fourth street, Harlem river. Engineer-in-Chief directed to order dredging to a depth of 7 feet at mean low water at the locality.

From the Superintendent of Ferries (71496)—Preferring charges of inattention to duty against John Lyons, Deckhand. Lyons reprimanded and ordered reassigned to work.

The Fulton Market Fishmonger's Association was advised that as the premises it is to occupy under lease (Pier 17, portion of Pier 18, and platform between, East river) are completed, the permit granted for the occupation of land under water, between Piers 18 and 19, East river, as per agreement of November 3, 1904, has expired, and the association was directed to remove its structures from the premises.

In accordance with his requests, the Corporation Counsel was advised,  
1. That the department considers Assembly Bill No. 1478, Int. 1226, amending the State Law in relation to the providing of life boats on steamboats and vessels, unnecessary as the United States Government has entire jurisdiction over the matter.  
2. That Senate Bill No. 791, Int. 663 (71738), for the establishment of a bulkhead line and marginal street for that part of Jamaica Bay lying between Far Rockaway and Rockaway Point, in the Fifth Ward of the Borough of Queens, The City of New York, and authorizing the Board of Estimate and Apportionment to settle disputes with owners of adjacent property and to acquire title in relation thereto, is unnecessary as the Commissioner of Docks, with the approval of the Commissioners of the Sinking Fund, has under existing statutes ample authority in the premises.

The following Department order was issued:

No.	Issued To and For.	Price.
23236.	Loring Lane, fire extinguishers .....	\$88 00

In accordance with his request (71748), permission was granted E. E. Olcott to berth steamer "Albany" at the new West Fifteenth Street Pier, North river, until about May 15, 1907, at regular wharfage rates.

On motion of Alderman Harnischfeger the following preambles and resolutions were adopted:

Whereas, At the meeting of the Board of Estimate and Apportionment on April 12, 1907, a communication from the Board of Rapid Transit Commissioners was read transmitting form of proposed agreement modifying contract dated February 21, 1900, which modification provides for the construction of a new station stairway and entrance to the rapid transit railway at and near the southeasterly corner of Third avenue and East One Hundred and Forty-ninth street.

Whereas, At the meeting of April 5, 1907, the President of the Borough of The Bronx suggested that an additional entrance and exit should be constructed on One Hundred and Forty-ninth street, immediately to the east of the existing entrance, and the Secretary of the Board of Estimate and Apportionment was directed to so advise the Rapid Transit Commission to this effect; therefore be it

Resolved, That the Local Board of Morrisania, Twenty-fourth District, Borough of The Bronx, hereby approves of the recommendation made by the President of the Borough of The Bronx at said meeting of the Board of Estimate and Apportionment on the 5th day of April, 1907; and it is hereby further

Recommended that an additional provision be made for the construction of a covered passageway from the Manhattan elevated station from the southwesterly corner of Third avenue to the entrance of the subway at the northwest corner of One Hundred and Forty-ninth street and Melrose avenue; and be it further

Resolved, That this Local Board hereby recommends to the Board of Estimate and Apportionment that special efforts be made to have the conditions existing at these entrances and exits remedied at the very earliest date and that whatever moneys are necessary be appropriated without delay, and that the railroad companies responsible for the present dangerous conditions be urged to co-operate in bettering the facilities of this section of our borough; it is hereby further

Resolved, That this Local Board, in connection with the foregoing resolutions, forward to the Mayor of The City of New York and the Board of Aldermen a copy of its resolutions declaring the conditions at present existing at East One Hundred and Forty-ninth street and Third avenue (caused by the present inadequate facilities for handling the railway traffic), to be a public nuisance under section 429 of the Greater New York Charter.

Unanimously adopted.

Whereas, For a long time past the system of transferring passengers from the narrow station of the Manhattan elevated branch of the Interborough Railroad to the subway station at East One Hundred and Forty-ninth street and Third avenue, and vice versa, has resulted in overcrowding of the worst possible kind, and is moreover very dangerous on the stations, stairways and the adjacent sidewalks, owing to the lack of sufficient entrances and exits and to the absence of proper guard rails at any of these stations.

Therefore the Local Board of Morrisania, Twenty-fourth District, Borough of The Bronx, hereby declares these conditions to be a public nuisance violative of good order and of the laws of this State and city, and in accordance with section 429 of the Greater New York Charter, we hereby direct that the Secretary of this Board forward a copy of these preambles and resolutions to the Mayor of The City of New York and to the Board of Aldermen of The City of New York for their consideration and attention.

Adopted by the Local Board of Morrisania, Twenty-fourth District, on April 11, 1907.

Adjourned to meet again on April 25, 1907, at 4.30 p. m.

HENRY A. GUMBLETON, Secretary.

Laying out a public place between the west side of Cedar avenue and the railroad lands, 125 feet northerly and southerly of West One Hundred and Seventy-seventh street.

Petition of J. E. Eustis, Edwin F. Branning and others was read.

Laid over.

Whereas, The Local Board of Morrisania, Twenty-fourth District, Borough of The Bronx, believes that the project as presented by Hon. Edward M. Grout, Hon. Ernest Hall and others, in favor of a railroad terminal, etc., for the New York, New Haven and Hartford Railroad and the Pennsylvania Railroad, as well as wharfage and dockage facilities for the Fall River Line of Sound steamers at the lower end of Port Morris, south of East One Hundred and Thirty-second street, bordering on the Bronx Kills, has great merit and is a worthy enterprise, and one which deserves earnest consideration and due attention, as the Port Morris section has for years been waiting for and expecting just such an undertaking for its development, and one such as this will not only be productive of material wealth to those interested in the land of that portion of our borough, but will be the means of populating that vicinity and giving steady employment to those who will permanently locate there and therefore build up Port Morris, this Local Board therefore concludes that the project is of sufficient interest to all and of special interest and value to that part of our borough and its welfare, that the Board of Estimate and Apportionment should give it serious consideration and fix a day for a hearing before said Board at the City Hall, in order that those who desire to appear for or against may be heard and for that reason, according to our impartial judgment, we forward it, as we believe it our duty, to the said Board of Estimate and Apportionment, with our recommendation that a public hearing be given on the subject matter at as early a date as the said Board may deem expedient and advisable, it being of sufficiently great importance to our borough, in our opinion, to warrant such public hearing.

Adopted.

Water main required in Tiebout avenue, between One Hundred and Eighty-third and One Hundred and Eighty-fourth streets.

Recommended to the favorable consideration of the Department of Water Supply, Gas and Electricity, under whose control such work is.

Whereas, The trains operated by the Interborough Rapid Transit Company do not stop at all stations on the elevated structure of the subway division from One Hundred and Forty-ninth street to One Hundred and Seventy-fourth street, Borough of The Bronx, causing a great deal of annoyance and loss of time; therefore be it

Resolved, That the Board of Rapid Transit Railroad Commissioners of The City of New York be requested to compel the Interborough Rapid Transit Company to have their trains stop at all stations on the local route.

Adopted by the Local Board of Morrisania, Twenty-fourth District, on April 18, 1907.

## BOROUGH OF THE BRONX.

## SPECIAL MEETING OF THE LOCAL BOARD OF CHESTER, TWENTY-FIFTH DISTRICT.

Pursuant to call by the President of the Borough of The Bronx, the members of the Local Board of Chester, Twenty-fifth District, met in the office of the said President, in the Municipal Building, Crotona Park, One Hundred and Seventy-seventh street and Third avenue, on Monday, May 6, 1907, at 11 a. m.

Present—Alderman Dinwoodie, Alderman Mulligan, and the President of the Borough of The Bronx.

No. 115. Acquiring title to the lands necessary for Barnes avenue, from Nereid avenue to Baychester avenue.

It appeared that the above matter was No. 16 on the calendar of the Board of Estimate and Apportionment at the meeting held May 3, 1907, and had been duly advertised by said Board for a hearing. The Engineer of said Board reported (4775) that Barnes avenue and Byron avenue were two adjacent and parallel streets, and could be advantageously included in one proceeding. Such action was recommended by him, and an area of assessment suggested; also that 8 per cent. of the expense in the case of Barnes avenue be assumed by the City, this street having a width of 80 feet.

The following gentlemen appeared at the Local Board meeting this day in opposition to these proceedings:

J. J. McGuire, P. Schuyler Bolton, John C. Gartleman, Geo. Witt, B. Nelson, John Georgen, Friedolin Weber, John Elterich and others.

They would withdraw their opposition, they said, if the owners of the land affected would cede the land for street purposes to the City, where it was possible for them to do so, otherwise they believed that the property in that neighborhood would not now be able to stand the heavy assessments that would be levied against it.

On motion of Alderman Mulligan, duly seconded, it was Resolved, That the resolution of this Board initiating proceedings for acquiring title to the lands necessary for Barnes avenue, between Nereid avenue and Baychester avenue, under date of March 22, 1906, be recalled from the Board of Estimate and Apportionment and reconsidered by this Board on May 9, 1907, in regular meeting. Adopted.

No. 131. Acquiring title to the lands necessary for Byron avenue, from Nereid avenue to Baychester avenue.

On motion of Alderman Mulligan, duly seconded, it was Resolved, That the resolution of this Board initiating proceedings for acquiring title to the lands necessary for Byron avenue, from Nereid avenue to Baychester avenue, under date of March 22, 1906, be recalled from the Board of Estimate and Apportionment and reconsidered by this Board on May 9, 1907, in regular meeting. Adopted.

On motion, the Board adjourned, to meet again on May 9, 1907, at 2.30 p. m.

HENRY A. GUMBLETON, Secretary.

Resolved, That the following form of the resolution for the grant of the franchise or right applied for by the Fort George Street Railway Company, containing the form of proposed contract for the grant of such franchise or right, be hereby introduced and entered in the minutes of this Board, as follows, to wit:

Resolved, That the Board of Estimate and Apportionment hereby grants to the Fort George Street Railway Company the franchise or right fully set out and described in the following form of proposed contract for the grant thereof, embodying all of the terms and conditions, including the provisions as to rates, fares and charges upon and subject to the terms and conditions in said proposed form of contract contained, and that the Mayor of The City of New York be and he hereby is authorized to execute and deliver such contract in the name and on behalf of The City of New York, as follows, to wit:

FORT GEORGE STREET RAILWAY COMPANY.

#### Proposed Form of Contract.

This contract made this day of 1907, by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and the Fort George Street Railway Company, incorporated for the purpose of building, maintaining and operating a street surface railroad (hereinafter called the Company), party of the second part, witnesseth: In consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1. The City hereby grants to the Company, subject to the conditions and provisions hereinafter set forth, the right and privilege to construct, maintain and operate a street surface railroad by electrical system, together with the necessary wires and other equipment for the purpose of conveying persons and property in the Borough of Manhattan, City of New York, upon the following route:

Beginning at a point about seven hundred feet south of the intersection of Dyckman street and Nagle avenue, running thence by double track in a southerly direction through, upon and along St. Nicholas avenue to its intersection with West One Hundred and Ninetieth street, all in the Borough of Manhattan, in the City, County and State of New York.

Said route, together with turnouts, switches, stands and crossovers hereby authorized, are shown upon a map entitled:

"Map showing proposed route of the Fort George Street Railway Company, to accompany amended petition to the Board of Estimate and Apportionment. Dated October 16, 1906. Original petition dated July 3, 1906," and signed by R. E. Simon, President, and A. E. Kalbach, Consulting Engineer.

Sec. 2. The grant of this privilege is subject to the following conditions, which shall be complied with by the Company:

First—The consent in writing of the owners of half in value of the property bounded on said streets and avenues to the construction and operation of said railroad shall be obtained by the Company within six months of the signing of this contract by the Mayor, and a copy of such consents shall be filed with the Board within such time, or in the event that such consents cannot be obtained within such time, the Company shall within two months thereafter make application to the Appellate Division of the Supreme Court for the appointment of Commissioners in the manner provided by the Railroad Law, to determine if said railroad ought to be constructed; otherwise this grant shall cease and determine, unless the period shall be extended by the Board of Estimate and Apportionment.

Second—This consent is upon the express condition that the Company within sixty days after the signing of this contract by the Mayor and before anything is done in the exercise of the rights conferred thereby, shall enter into a traffic agreement with the Interborough Rapid Transit Company whereby passengers entering the cars of either the Company or the Interborough Rapid Transit Company (subway) shall be entitled to a continuous passage on both of the said lines upon the payment of a single fare of five cents; such agreement shall be for a period of at least twenty-five years.

Third—The said right to construct, maintain and operate a street surface railroad as herein described, shall be held and enjoyed by the Company, its successors or assigns, for the term of twenty-five years from the date when this contract is signed by the Mayor, with the privilege of renewal of said contract for the further period of twenty-five years, upon a fair revaluation of such right and privilege. Such revaluation shall be of the right and privilege to maintain and operate the said railroad by itself, and not to include any valuation derived from the ownership, operation or control of any other railroad by the Company, its successors or assigns. The Company shall, however, not have the right to exercise such privilege of renewal until it has entered into a traffic agreement with the Interborough Rapid Transit Company, or its successors, in the operation of the Rapid Transit Railroad (subway), as above, for said renewal period.

If the Company shall determine to exercise its privilege of renewal it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two years and not later than one year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at a less amount than that sum required to be paid during the last year in this original contract.

If the Company and the Board shall not reach such agreement on or before the day one year before the expiration of the original term of this contract, then the annual rate of compensation for such succeeding twenty-five years shall be reasonable, and either the City (by the Board) or the Company shall be bound upon request of the other, to enter into a written agreement with each other fixing the rate of such compensation at such amount as shall be reasonable, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate and at such amount as shall be determined by three disinterested freeholders, selected in the following manner:

One disinterested freeholder shall be chosen by the Board; one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of this original contract, and their report shall be filed with the Board within three months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigation, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall, in any event, be less than the sum required to be paid for the last year of this original contract. If in any case the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Fourth—Upon the termination of this original contract, or if the same is renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any other cause, or upon the dissolution of the Company before such termination, the tracks and equipment of the Company constructed pursuant to this contract, within the streets and highways of the City, shall become the property of the City, without cost, and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

At the termination of this grant as above, the City, at the election of the Board, shall have the right to purchase all the property of the Company not within the streets or avenues, at its fair market value, exclusive of any value which such property may have by reason of this contract. Such valuation shall be determined in the same manner as revaluation for a renewal of this contract, as herein provided.

If, however, at the termination of this grant as above, the City (by the Board) shall so order by resolution, the Company shall upon thirty (30) days' notice in writing from the Board, remove any and all of its tracks and other equipment constructed pursuant to this contract, and the said streets and highways shall be restored to their original condition at the sole cost and expense of the Company.

Fifth—The Company, its successors or assigns, shall pay to the City for the right to construct, maintain and operate a street surface railway on the route herein described, the following sums of money:

1. Five thousand dollars (\$5,000) in cash, within thirty (30) days after the signing of this contract by the Mayor.

2. During the first five years of this contract an annual sum, which shall in no case be less than five hundred dollars (\$500), and which shall be equal to three per cent. of the gross receipts of the Company, if such percentage shall exceed a sum of five hundred dollars (\$500).

During the remaining twenty years of this contract an annual sum, which shall in no case be less than one thousand dollars (\$1,000), and which shall be equal to five per cent. of the gross receipts of the Company, if such percentage shall exceed the sum of one thousand dollars (\$1,000).

The payment of such minimum sums shall begin from the day on which the contract is signed by the Mayor.

The terms hereafter to be fixed for any renewal term of this contract shall not be less than the sum required to be paid for the last year of this original contract, and no renewal shall provide for a further renewal.

Such minimum annual sums shall be paid into the Treasury of The City of New York on November 1 of each year, and shall be for the amount due to September 30, next preceding.

Whenever the percentage required to be paid shall exceed the minimum amount as above, such sum over and above such minimum shall be paid to the said Comptroller on or before November 1, in each year, for the year ending September 30, next preceding. The fiscal year shall end on September 30, next preceding said date of payment, and provisions of the Railroad Law as it now exists, or as it may hereafter be amended, relating to the matter of payments and statements of percentages of gross receipts of street railway companies not inconsistent with this contract, shall be strictly complied with. The intention of this paragraph is to fix an annual charge to be paid by the Company, its successors or assigns, to the City for the rights and privileges hereby granted, and it shall be construed as providing for the payment by the Company, its successors or assigns, for said right and privilege of a percentage of gross receipts within the meaning of any general or special statute, or of any ordinance of the City.

Any and all payments to be made by the terms of this contract to the City, by the Company, shall not be considered in any manner in the nature of a tax, but such payments shall be in addition to any and all taxes of whatsoever kind or description now or hereafter required to be paid by any ordinance of the City or resolution of the Board or by any law of the State of New York.

Sixth—The annual charges or payments shall continue throughout the whole term of the contract hereby granted, whether original or renewal, notwithstanding any clause in any statute or in the charter of any other railroad company providing for payments for railroad rights or franchise at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted, whether original or renewal, or of any part thereof, or of any part of the route mentioned herein, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this contract.

Seventh—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company, its successors or assigns, or by operation of law whether under the provisions of the statutes relating to the consolidation or merger of corporations, or otherwise, without the consent of the City, acting by the Board, or its successors in authority, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving, or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Eighth—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual or other corporation a similar right or privilege upon the same or other terms and conditions, over the same streets, avenues or highways, and the right to make the requisite and necessary connections with the tracks of the Company, its successors or assigns, which shall be constructed under this contract.

The use of the railroad which shall be constructed and maintained in the streets, avenues and highways under this contract, including the tracks, wires and other equipment used in connection therewith, shall be permitted by the Company, its successors or assigns, to any individual or corporation to which the City may have granted, or may hereafter grant, the right or privilege to use such streets, avenues or highways, for street railroad purposes, upon payment of an annual sum by such individual or corporation to the Company, which shall not exceed the legal interest on such proportion of the whole cost of the construction of such railroad and of the cost of keeping the tracks and track equipment in repair, as the number of

cars operated by such company or individual shall bear to the number of cars operated by the companies then using the same, together with the actual cost of the power necessary for the operation of the cars thereon of such individual or corporation and the cost of laying and repairing of pavement and removal of snow and ice, and all the other duties imposed upon the Company by the terms of this contract, in connection with the maintenance or the operation of the said railroad so used.

The Company shall not at any time oppose, but shall, upon the request of the Board, consent to the construction or operation of any street surface railroad which may necessitate the use of any portion of the railroad which shall be constructed under this contract.

Ninth—The railroad to be constructed under this contract may be operated by overhead electrical power substantially similar to the system of overhead electrical traction now in use by the New York City Interborough Railway Company or by the underground electric system now in use by the lines of the New York City Railway Company. Provided, however, that the Board of Estimate and Apportionment, or its successors in authority, after five years from the date of this contract, may, upon giving to the grantee, its successor or assigns, six months' notice in writing, require it or them to operate the railroad upon the whole or upon any portion of its route by underground electrical power substantially similar to the system now in use on the lines of the New York City Railway Company in the Borough of Manhattan, above referred to, and thereupon to discontinue the use of the overhead trolley system, and to remove its poles, wires and other structures used by it for that purpose from the streets and highways.

When the change shall have been made to the underground system, all wires for the transmission of power or otherwise, shall be placed in conduits underneath or alongside of the railroad. The Company shall provide two conduits, not less than three (3) inches in diameter each for the exclusive use of the City. Such conduits shall be used only by the Company and by the City.

This provision shall in no way be taken as a limitation on the Police powers of the City, as provided in sections 525 et seq. of the Greater New York Charter.

Tenth—The Company shall commence construction of the railroad herein authorized within three months from the date upon which the consents of the property owners are obtained, or upon the decision of the Appellate Division of the Supreme Court that such railroad ought to be constructed, and shall complete the construction of the same within twelve months from the same date, otherwise this grant shall cease and determine, and all sums paid, or which may be deposited with the Comptroller of the City, as hereinafter provided, shall thereupon be forfeited to the City; provided, that such periods may be extended by the Board for a period or periods not exceeding in the aggregate six months each.

Eleventh—The said railroad shall be constructed, maintained and operated, subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided in the Charter of the City.

Twelfth—The said railroad shall be constructed and operated in the latest improved manner of street railway construction and operation, and the railroad and property of the Company shall be maintained in good condition throughout the term of this contract.

The Company shall remove the stub-end terminal at St. Nicholas avenue, north of West One Hundred and Eighty street, hereby authorized, upon six (6) months' notice in writing from the Board of Estimate and Apportionment.

Thirteenth—The rate of fare for any passenger upon such railroad shall not exceed five cents, and the Company shall not charge any passenger more than five cents for one continuous ride from any point on said railroad, or a line or branch operated by it, its lessees or assigns in connection therewith, to any point thereof, or of any connecting line or branch thereof, within the limits of The City of New York.

Transfers shall be given between the Interborough Rapid Transit Company (subway division) and the Company at the Interborough Rapid Transit Railway station at Dyckman street for a single fare of five cents, as required by traffic agreement between said companies.

The rate for the carrying of property over the said railroad upon the cars of the Company shall in all cases be reasonable in amount, subject to the control of the Board, or its successors in authority, and may be fixed by such Board after notice to the Company and a hearing had thereon, and when so fixed such rates shall be binding upon the Company, its successors or assigns, and no greater sums shall be charged for such service than provided for by it.

Fourteenth—The cars of the Company shall be run both day and night as often as the reasonable convenience of the public may require, or as may be directed by the Board, but at no time shall the headway at any point on the railway be more than twenty minutes between the hours of 8 o'clock p. m. and midnight.

Fifteenth—The Company shall attach to each car run over the said railroad proper fenders and wheel guards in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities.

Sixteenth—All cars which are operated on said railroad shall be equipped with both hand and power brakes.

Seventeenth—All cars which are operated on said railroad shall be heated during the cold weather in conformity with such laws and ordinances as are now in force or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities.

Eighteenth—The Company, so long as it shall continue to use any of the tracks upon the streets and avenues in which the railroad shall be constructed under this contract, shall cause to be watered the entire roadway of such streets and avenues at least three times in every twenty-four hours, when the temperature is above 35 degrees Fahrenheit, when so required by the Board of Estimate and Apportionment.

Nineteenth—All cars operated on said railroad shall be well lighted by electricity, or by some lighting system equally efficient, or as may be required by the Board.

Twentieth—The Company shall at all times keep the streets, avenues or highways upon which the said railroad is constructed, between its tracks, the rails of its tracks and for a distance of two feet beyond the rails, on either side thereof, free and clear from ice and snow; provided, however, that the Company shall, at the option of the Commissioner of Street Cleaning, enter into an agreement for each winter season, or part thereof, to clean an equivalent amount of street surface from house line to house line.

Twenty-first—The Company shall cause to be paved that portion of the street between its tracks, the rails of its tracks and two feet in width outside of its tracks upon and along the streets, avenues and highways of the route hereby authorized, which are now either unpaved

or paved with macadam. The work of such paving shall be done under the supervision of the Municipal authorities having jurisdiction in such matters. Such authorities shall designate the character of the pavement to be laid.

As long as the said railroad, or any portion thereof, remains in the street, avenue or highway, the Company shall pave and keep in permanent repair that portion of the surface of the street, avenue or highway in which said railroad is constructed, between its tracks, the rails of its tracks and for a distance of two feet beyond the rails on either side thereof, under the supervision of the local authorities, whenever required by them to do so, and in such manner as they may prescribe. And it shall not be necessary in the event that the portion of the surface of the street, avenue or highway in which said railroad is constructed, shall not be repaired by the Company as hereinafter provided, for the City to give any notice to the Company of such state of disrepair, but the City may make such repairs and charge the same to the Company, which the said Company agrees to pay, any statute to the contrary notwithstanding. And the City shall have the right to change the material or character of the pavement of any such street, avenue or highway, and in that event the Company, its successors or assigns, shall be bound to replace such pavement in the manner directed by the proper city officer at its own expense and the provision as to repairs herein contained shall apply to such renewal or altered pavement. The Company agrees to pay to the City any sum or sums that the City may pay, either as a result of a judgment against it or by way of settlement or compromise, for any injuries either to person or property arising from failure of the Company to pave and keep in permanent repair that portion of the surface of the street, avenue or highway in which said railway is constructed, as hereinafter provided.

Twenty-second—Any alteration which may be required to the sewerage or drainage system, or to any subsurface structures, pipes, conduits, etc., laid in the streets on account of the construction or operation of the railroad shall be made at the sole cost of the railroad company and in such manner as the proper City officials may prescribe.

Twenty-third—The Company hereby agrees not to issue stock other than has been heretofore issued until a certificate of authority therefor has been issued by the Board of Estimate and Apportionment, or until such Board shall further certify in writing as to the amount of stock reasonably required for the purposes of the Company. The stock of the Company shall not be issued in excess of the amount so certified.

The Company shall not increase its capital stock above the \$25,000 now authorized, without the consent in writing of the Board of Estimate and Apportionment, stating the amount of the authorized increase. For the purpose of making this determination as to the amount of stocks to be issued, or the amount of the authorized increase of the capital stock of the Company, the Board of Estimate and Apportionment may take and hear testimony under oath, and examine the books and papers of the Company, and require verified statements from the officers thereof pertaining to the value of the property and of the franchise owned or operated by the Company. Such determination shall be made within sixty (60) days after the final submission of the papers or of the final hearing on the application for the issue or increase of capital stock.

Twenty-fourth—The Company shall at all times keep accurate books of account of the gross earnings from the privileges granted under this contract. The Company shall on or before November 1 of each year make a verified report to the Comptroller of The City of New York of the business done by the Company for the year ending September 30 next preceding, as he may prescribe. Such report shall contain a statement of the gross receipts from operation of the railway, together with such other information and in such detail as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report, and may examine its officers under oath.

Twenty-fifth—In case of any violation or breach or failure to comply with any of the provisions herein contained, this contract may be forfeited by a suit brought by the Corporation Counsel, on notice of ten days to the Company, or at the option of the Board by resolution of said Board, which said resolution may contain a provision to the effect that the railroad constructed and in use by virtue of this contract shall thereupon become the property of the City without proceedings at law or in equity.

Twenty-sixth—If the Company, its successors or assigns, shall fail to give efficient public service at the rates herein fixed, or fail to maintain its structures in good condition throughout the whole term of this contract, the Board may give notice to the Company specifying any default on the part of the Company, and requiring the Company to remedy the same within a reasonable time; and upon failure of the Company to remedy such default within a reasonable time, the Company shall for each day thereafter during which the default or defect remains, except for those defaults or defects for which penalties are hereinafter provided, pay to the City the sum of two hundred and fifty dollars (\$250) as fixed or liquidated damages, or the Board, in case such structures which may affect the surface of the streets shall not be put in condition within a reasonable time after notice by the Board as aforesaid, shall have the right to make all needed repairs at the expense of the Company, in which case the Company shall pay to the City the amount of the cost of such repairs with legal interest thereon, all of which sums may be deducted from the fund hereinafter provided.

Twenty-seventh—The Company shall assume all liability to persons or property by reason of the construction or operation of the railroad authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or default of the Company.

Twenty-eighth—This grant is upon the express condition that the Company within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of The City of New York the sum of seven thousand dollars (\$7,000) either in money or securities, to be approved by him, which fund shall be security for the performance by the Company of all the terms and conditions of this contract, especially those which relate to the payment of the annual charges for the privilege hereby granted, the efficiency of the public service rendered, the repairs of the street pavement, the removal of snow and ice and the quality of construction of the railroad; and in case of default in the performance by the Company of such terms and conditions the City shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the

said fund without legal proceedings; or after default in the payment of the annual charges, shall collect the same, with interest, from the said fund after ten days' notice in writing to the Company; or in case of failure to keep the said terms and conditions of this contract relating to the headway, heating and lighting of cars, fenders, wheel guards and watering of street pavements, the Company shall pay a penalty of twenty-five dollars (\$25) per day for each day of violation, and the further sum of ten dollars (\$10) per day for each car that shall not be properly heated, lighted or supplied with fenders or wheel guards, in case of the violation of the provision relating to those matters.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

The Comptroller of the City, on complaint made, shall, in writing, notify the Company, through its President, to appear before him on a certain day not less than ten (10) days after the date of such notice, to show cause why it should not be penalized in accordance with the foregoing provisions. If the Company fails to make an appearance, or, after a hearing, appears in the judgment of the Comptroller to be in fault, said Comptroller shall forthwith impose the prescribed penalty, or where the amount of the penalty is not prescribed herein, such amount as appears to him to be just, and without legal procedure withdraw the amount of such penalty from the security fund deposited with him. In case of any drafts made upon the security fund the Company shall, upon ten (10) days' notice in writing, pay to the Comptroller of the City a sum sufficient to restore said security fund to the original amount of seven thousand dollars (\$7,000), and in default thereof this contract shall be canceled and annulled at the option of the Board, acting in behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City.

Sec. 3. This contract is also upon the further and express condition that the provisions of the Railroad Law, applicable thereto, and all laws or ordinances now in force, or which may be adopted affecting the surface railroads operating in the City, not inconsistent with the terms and conditions hereinafter fixed, shall be strictly complied with by the Company.

Sec. 4. The Company promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms and conditions and requirements in this contract fixed and contained.

In witness whereof, the party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto signed, and the corporate seal of said City to be hereunto affixed, and the party of the second part, by its officers, thereunto duly authorized, has caused its corporate name to be hereunto signed, and its corporate seal to be hereunto affixed, the day and year first above written.
