Saladino, No. 199 Euclid avenue, Brooklyn, a candidate for Patrolman, that his papers be rated. The communication stated that there was no question that the candidate had communicated with another candidate who was seated behind him, but that he had finished his examination and handed in his papers at the time, and that as the appeal of the other candidate, who was disqualified at the same time, had been allowed, he was obliged to recommend that Mr. Saladino's appeal should be granted also. The recommendation was adopted.

A communication was presented from the Chief Examiner, dated April 2, with reference to the appeal of Samuel Silverstein, a candidate for Patrolman on Aqueduct, who had been disqualified by him before the close of the examination for communicating. The action of the Chief Examiner was sustained.

A report was presented from Mr. Rafferty, Examiner, dated March 31, with reference to the case of Frank Van Iderstine, of No. 202 West One Hundred and Sixth street, Manhattan, candidate for Inspector of Sewer Construction, who gave the date of his birth in his application as October 5, 1882, and in the "declaration sheet," when appointed, as October 5, 1886, the figure "2," however, being written over the "6." The matter was referred to the President.

A communication was presented from Mr. Rafferty, Examiner, dated April 1, recommending, with the approval of the Chief Examiner, that the application of George Helmer, No. 145 West End avenue, Manhattan, candidate for Patrolman, be rejected. It appeared that in his application filed in 1903, under the name of "George E. Helme," the candidate had given the date of his birth as June 20, 1874, and in his second application the date was given as June 19, 1879.

On motion, it was

Resolved, That the application of George Helmer, No. 145 West End avenue, Manhattan, for the position of Patrolman (No. 30866) be and the same hereby is rejected, pursuant to the provisions of Rule VII., clause 14.

A report was presented from Examiner Bonnett in relation to the request of the International Association of Machinists that in the examination for Inspector of Hydrants, Stop-cocks and Shop Work a trade examination be given the candidates. It appeared from the report that in the opinion of the Examiner such an examination could not be combined with the examination as previously conducted. The matter was referred to the President.

The Commission then considered the question of rating the papers of the following-named candidates for Patrolman, the same having been referred to them by the Examiners for the reason that the answers to the several questions on the papers were nearly identical:

The Secretary stated that such salary had been remitted pursuant to the decision of Justice Giegerich of the Supreme Court in the matter of McCauley. The payroll was approved.

A letter was presented from the Board of Education, dated April 7, stating that the Comptroller had withheld approval of the payrolls of Mr. Harvey A. Lawton and Mr. Frank McDavitt, appointed as Cataloguers, at a salary of \$600 per annum, on February 15 and March 16, respectively, for the reason that such position had never been established for the Board of Education by the Board of Estimate and Apportionment and the Board of Aldermen, and requesting, therefore, that the appointment of Messrs. Lawton and McDavitt be approved by the Commission under the title of Clerk (Cataloguer). The request was granted.

A communication was presented from the Commissioner of Parks, Borough of The Bronx, dated April 6, with further reference to the proposed employment of Frank Stafford as a Blaster in that Department, and stating, in answer to the Commission's inquiry, that the need for the services of an additional Blaster was caused by the fact that the territory to be covered—4,142 acres—was too large to be attended to by one man. On motion, it was

Resolved, That Frank Stafford, of No. 2 West Burnside avenue, Borough of The Bronx, be and he hereby is excepted from examination, pursuant to the provisions of Rule XII., clause 6, to be employed from time to time during the current year in the Department of Parks, Borough of The Bronx, as an Expert Licensed Rockman and Blaster; provided, however, that his total compensation shall not exceed the sum of \$750.

The request of Max Ehrlich, of No. 255 East Fourth street, Manhattan, that his application for Law Clerk be accepted, was denied for the reason that he had not attained the minimum age fixed for that position.

A letter was presented from Joseph Burke, of No. 405 East One Hundred and Sixty-second street, dated April 6, requesting permission to correct his application for Inspector of Regulating, Grading and Paving (filed in 1900), to show that he was born in Ireland, and stating that his reason for giving New York as his birthplace was that his naturalization papers had been mislaid, and he feared that he would be barred from the examination. The request was granted.

The request of Frederick W. Voelbel, Patrolman of the Police Department, that he be permitted to enter the coming examination for promotion to Sergeant, was denied, for the reason that he had not served the requisite length of time in his grade.

The request of Edward J. Judge, of No. 201 East Fifty-eighth street, Manhattan, that his application for Inspector of Pipe Laying be accepted, was denied, in the absence of proof of citizenship.

The following requests for restoration to the eligible lists indicated were granted: Margaret M. Fleming, No. 49 Ross street, Brooklyn, Stenographer and Type-writer, at less than \$900 per annum, stated that when she declined appointment at \$800 per annum she was receiving a larger salary.

Max Shapiro, No. 327 Madison street, Manhattan, Rodman, Board of Water Supply, at \$1,050 per annum, stated that he declined appointment on account of salary, and not on account of location (Croton Falls), as reported by the Aqueduct Commission on October 23, 1907.

The request of James Molloy, of No. 1600 Third avenue, Manhattan, that his name be restored to the eligible list of Park Laborer, Borough of Manhattan, was granted, it appearing that he had been appointed in the Department of Parks, Borough of Manhattan, on October 28, 1907, but was compelled to resign his position on December 21, 1907, owing to illness.

The request of John J. Rodriguez, No. 1317 Avenue A, Manhattan, that his name be placed on the eligible list of Deckhand, promulgated on January 1, 1908, was denied on the statement of the Labor Clerk that the candidate's name had been retained on the previous list of Deckhand until it terminated on December 31, 1907.

A communication was presented from Messrs. R. Parks McBride and Richard W. McDonald, dated April 6, protesting against the transfer of Horace Loomis from the position of Assistant Engineer in the Aqueduct Commission to that of Transitman in the Department of Docks and Ferries, on the ground that their names appeared upon a promotion list for the latter position. The communication was ordered filed.

The Commission then adjourned, to meet Wednesday, April 15, 1908, at 10 o'clock in the forenoon.

F. A. SPENCER, Secretary.

PROPOSALS FOR CONSTRUCTION OF  
RAPID TRANSIT LINES IN BROOKLYN.

## INVITATION TO CONTRACTORS.

(FLATBUSH AVENUE EXTENSION, NASSAU STREET TO WILLOUGHBY STREET, MANHATTAN BRIDGE, No. 1.)

THE City of New York, acting by the Public Service Commission for the First District, by this advertisement invites proposals to construct that part of the proposed Fourth Avenue Subway in the Borough of Brooklyn which begins at the northerly side of Nassau Street and runs thence under said Flatbush Avenue Extension to a point about 20 feet north of the centre line of Willoughby Street.

The general plan of construction calls for a four-track subsurface Railroad, but the Contractor will not be required under the contract proposed to provide or lay tracks, ties or ballast. A station between Tillary Street and Johnson Street will be constructed; and suitable cross-overs, turn-outs and sidings are also to be provided, all as indicated on the detailed plans of construction. The tunnels are to have a height of not less than thirteen (13) feet in the clear, and a maximum width of fifteen (15) feet for each track, except at curves, etc., where the width may be increased. The roof of the tunnels is generally to be as near the surface of the street as street conditions and grades will permit. The roof and sides of the tunnels will be of iron or steel and masonry. Entrances to the station are intended to be placed within private property, rights in which will be acquired for the purpose, or on the streets, or on the sidewalks adjacent to private property, as indicated on the plans.

The manner of construction shall be by open excavation unless otherwise provided in the contract or directed by the Commission; such portions of the street, however, where the work may not be completed and the backfill is not placed at the expiration of fifteen months from the time of executing the contract, must be substantially boarded over to permit freedom of traffic, if so ordered by the Commission.

In the detailed plans for construction, provisions for pipe galleries along the line of the tunnel are included. Bids for the construction of the railroad must be accompanied by a separate bid for the construction of the pipe galleries above referred to, as it is essential for the City to separate the cost of the railroad from the cost of the pipe galleries. The Commission reserves the right to accept a bid for construction of the railroad and at the same time to reject the accompanying bid for pipe galleries. Bidders must visit the location of the railroad and station to be built under this contract and note the present conditions along the line of the proposed railroad. The buildings standing within the lines of the said Flatbush Avenue Extension are being, or are to be, demolished and the materials removed by other contractors.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated in the printed form of contract now on file in the office of the Commission, No. 154 Nassau Street, in the Borough of Manhattan, and in the detailed drawings therein referred to, at which office copies of the contract and of the form of bond and contractor's proposal may be had on application. The contract drawings may be inspected at the same office. The printed form of contract and the detailed drawings are to be deemed a part of this invitation.

Partial payments to the contractor will be made monthly as the work proceeds, as provided in the form of contract.

The work of construction (including pipe galleries) is to be completed as soon as practicable, and within twenty-four months from the date of delivery of the contract.

Sealed bids or proposals will be received at the said office of the Commission, at No. 154 Nassau Street, in the Borough of Manhattan, The City of New York, until

FRIDAY, THE 8TH DAY OF MAY, 1908,

at 12 o'clock noon, at which time or at a later date to be fixed by the Commission the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission, copies of which may be obtained at the office of the Commission.

The proposal must contain a statement, in the form prescribed, of the quantities and unit values upon which the bid is based. Such statement shall be merely for the information of the Commission to enable it to determine upon what basis the proposal is made and for no other purpose whatsoever, and the Commission shall not be bound in any way to make payments or value work done, upon the basis of such quantities and unit values contained in such statement.

No proposal will be allowed to be withdrawn for any reason whatever after it shall have been deposited with the Commission.

The award of the contract or contracts (if awarded) will be made by the Commission within twenty days after the opening of the proposals. The bidder whose proposal shall be accepted shall in person or by duly authorized representative attend at the said office of the Commission within ten days after the delivery of a notice by the Commission that his proposal is accepted and that the contract is approved by the Board of Estimate and Apportionment; and such bidder shall then deliver a contract in the form referred to, duly executed and with its execution duly proved.

At the time of the delivery of the contract, the contractor will be required to furnish security to the City by giving a bond in the penalty of one hundred and fifty thousand dollars. At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under this contract, they must be of the character of securities in which Savings Banks may invest their funds and must be approved by the Commission. The Contractor's bond must be in the form annexed to the form of contract.

In addition and as further security to the City, ten per cent. of each amount certified from time to time to be due to the contractor will be retained until the work is fully completed.

Bidders whose proposals are otherwise satisfactory to the Commission may, in case the sureties or securities named by them are not approved by the Commission, substitute in their proposals the names of new sureties or a different schedule of securities approved by the Commission; but such substitution must be made within five days after notice of disapproval by the Commission, unless this period is extended by the Commission.

In case of failure or neglect to execute and deliver the contract or to make the required deposit or to execute and deliver the required bond, such bidder will, at the option of the Commission, be deemed either to have made the contract or to have abandoned the contract.

In the latter case the Commission will give notice thereof to the defaulting bidder. And the Commission may thereupon proceed to make another contract with such, if any, of the original bidders, as, in the opinion of the Commission, it will be to the best interest of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

Every proposal must, when submitted, be enclosed in a sealed envelope endorsed "PROPOSAL FOR CONSTRUCTING RAPID TRANSIT RAILROAD—FLATBUSH AVENUE EXTENSION, NASSAU STREET TO WILLOUGHBY STREET," and must be delivered to the Commission or to its Secretary; and in the presence of the person offering the proposal it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a certified check drawn upon a National or State Bank or Trust Company within The City of New York and satisfactory to the Commission, payable to the order of the Comptroller of The City of New York, for the sum of twelve thousand five hundred dollars.

If the Commission shall give notice to any bidder that his or its proposal is accepted and that the contract is approved by the Board of Estimate and Apportionment, and if the bidder shall fail within ten days thereafter or within such further period, if any, as may be prescribed by the Commission, to execute and deliver the contract and to execute and deliver the bond with sureties, or make a deposit in cash or securities, then this invitation to Contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damages by it sustained by reason of such failure; and in such case the bidder shall, by the terms of the proposal, absolutely assign to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

All such deposits made by bidders whose proposals shall not be accepted by the Commission will be returned to the person or persons making the same within five days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions as to security are complied with.

## INVITATION TO CONTRACTORS.

WILLOUGHBY STREET TO ASHLAND PLACE.

THE City of New York, acting by the Public Service Commission for the First District, by this advertisement, invites proposals to construct that part of the proposed Fourth Avenue Subway in the Borough of Brooklyn which begins at a point about 20 feet north of the centre line of Willoughby Street and runs through Flatbush Avenue Extension, private property and Fulton Street to and under Ashland Place to a point about 40 feet south of the south line of Fulton Street.

The general plan of construction calls for a subsurface Railroad having four or more tracks, but the Contractor will not be required under the proposed contract to provide or lay tracks, ties or ballast. All such deposits made by bidders whose proposals shall not be accepted by the Commission will be returned to the person or persons making the same within five days after the contract shall be executed and delivered. #### PROPOSALS FOR CONSTRUCTION OF RAPID TRANSIT LINES IN BROOKLYN.

##### INVITATION TO CONTRACTORS.

(FOURTH AVENUE FROM TENTH STREET TO TWENTY-SEVENTH STREET.)

THE City of New York, acting by the Public Service Commission for the First District, by this advertisement invites proposals to construct that part of the proposed Fourth Avenue Subway in the Borough of Brooklyn between points on Fourth Avenue 10 feet north of the north line of Tenth Street and 15 feet south of the south line of Twenty-seventh Street.

The general plan of construction calls for a four-track subsurface Railroad, but the contractor will not be required under the contract proposed to provide or lay tracks, ties or ballast. Two stations, one between Prospect Avenue and Seventeenth Street, and one between Twenty-fifth Street and Twenty-sixth Street, will be constructed; and suitable cross-overs, turnouts and sidings

are also to be provided, all as indicated on the detailed plans of construction. The tunnels are to have a height of not less than thirteen (13) feet in the clear, and a maximum width of fifteen (15) feet for each track, except at curves, etc., where the width may be increased. The roof of the tunnels is generally to be as near the surface of the street as street conditions and grades will permit. The roof and sides of the tunnels will be of iron or steel and masonry. Entrances to the stations are intended to be placed within private property, rights in which will be acquired for the purpose, or on the streets, or on the sidewalks adjacent to private property, as indicated on the plans.

The manner of construction shall be by excavation in open trench, unless otherwise provided in the contract or directed by the Commission.

In the detailed plans for construction, provisions for pipe galleries along the line of the railroad are included. Bids for the construction of the railroad must be accompanied by a separate bid for the construction of the pipe galleries above referred to, as it is essential for the City to separate the cost of the railroad from the cost of the pipe galleries. The Commission reserves the right to accept a bid for construction of the railroad and at the same time to reject the accompanying bid for pipe galleries.

Bidders must visit the location of the railroad and stations to be built under this contract and note the present conditions along the line of the proposed railroad.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated in the printed form of contract now on file in the office of the Commission, No. 154 Nassau Street, in the Borough of Manhattan, and in the detailed drawings therein referred to, at which office copies of the contract and of the form of bond and contractor's proposal may be had on application. The contract drawings may be inspected at the same office. The printed form of contract and the detailed drawings are to be deemed a part of this invitation.

Partial payments to the contractor will be made monthly as the work proceeds, as provided in the form of contract.

The work of construction (including pipe galleries) is to be completed as soon as practicable, and within twenty-four months from the date of delivery of the contract.

Sealed bids or proposals will be received at the said office of the Commission, at No. 154 Nassau Street, in the Borough of Manhattan, The City of New York, until

FRIDAY, THE 8TH DAY OF MAY, 1908,

at 12 o'clock noon, at which time or at a later date to be fixed by the Commission the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission, copies of which may be obtained at the office of the Commission.

The proposal must contain a statement, in the form prescribed, of the quantities and unit values upon which the bid is based. Such statement shall be merely for the information of the Commission, to enable it to determine upon what basis the proposal is made and for no other purpose whatsoever, and the Commission shall not be bound in any way to make payments or value work done, upon the basis of such quantities and unit values contained in such statement.

No proposal will be allowed to be withdrawn for any reason whatever after it shall have been deposited with the Commission.

The award of the contract or contracts (if awarded) will be made by the Commission within twenty days after the opening of the proposals. The bidder whose proposal shall be accepted shall in person or by duly authorized representative attend at the said office of the Commission within ten days after the delivery of a notice by the Commission that his proposal is accepted and that the contract is approved by the Board of Estimate and Apportionment; and such bidder shall then deliver a contract in the form referred to, duly executed and with its execution duly proved.

At the time of the delivery of the contract, the contractor will be required to furnish security to the City by giving a bond in the penalty of one hundred and fifty thousand dollars. At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under this contract, they must be of the character of securities in which Savings Banks may invest their funds and must be approved by the Commission. The Contractor's bond must be in the form annexed to the form of contract.

In addition and as further security to the City, ten per cent. of each amount certified from time to time to be due to the contractor will be retained until the work is fully completed.

Bidders whose proposals are otherwise satisfactory to the Commission may, in case the securities or securities named by them are not approved by the Commission, substitute in their proposals the names of new sureties or a different schedule of securities approved by the Commission; but such substitution must be made within five days after notice of disapproval by the Commission, unless this period is extended by the Commission.

In case of failure or neglect to execute and deliver the contract or to make the required deposit or to execute and deliver the required bond, such bidder will, at the option of the Commission, be deemed either to have made the contract or to have abandoned the contract. In the latter case the Commission will give notice thereof to the defaulting bidder. And the Commission may thereupon proceed to make another contract with such, if any, of the original bidders, as, in the opinion of the Commission, it will be to the best interest of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

Every proposal must, when submitted, be enclosed in a sealed envelope endorsed "PROPOSAL FOR CONSTRUCTING RAPID TRANSIT RAILROAD—(FOURTH AVENUE, TENTH STREET TO TWENTY-SEVENTH STREET)" and must be delivered to the Commission or to its Secretary; and in the presence of the person offering the proposal it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a certified check drawn upon a National or State Bank or Trust Company within The City of New York and satisfactory to the Commission, payable to the order of the Comptroller of The City of New York, for the sum of twelve thousand five hundred dollars.

If the Commission shall give notice to any bidder that his or its proposal is accepted and that the contract is approved by the Board of Estimate and Apportionment, and if the bidder shall fail within ten days thereafter or within such further period, if any, as may be prescribed by the Commission, to execute and deliver the contract and to execute and deliver the bond with sureties, or make a deposit in cash or securities, then this invitation to Contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damages by it sustained by reason of such failure; and in such case the bidder shall, by the terms of the proposal, absolutely assign to the City the owner-

ship of the check accompanying his or its proposal as a payment on account of such damages.

All such deposits made by bidders whose proposals shall not be accepted by the Commission will be returned to the person or persons making the same within five days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions as to security are complied with.
