A. FTELEY, Chief Engineer.

—and recommended the adoption of the following resolution:

On motion of Commissioner Scott, the report was approved and the resolution adopted.

The Committee also presented the following communication, received from the Commissioner of Public Works, and the following opinion, received from the Counsel to the Corporation:

DEPARTMENT OF PUBLIC WORKS—COMMISSIONER'S OFFICE,  
NO. 31 CHAMBERS STREET,  
NEW YORK, June 19, 1891.

General JAMES C. DUANE, President, Aqueduct Commissioners:

DEAR SIR—I have the honor to acknowledge receipt of your letter of 17th instant, stating that some of the Aqueduct Commissioners have received intimation from the Comptroller that he may hereafter refuse to honor the weekly pay-rolls of the Commissioners, and that in such event the Commissioners would be unable to pay a number of the employees now engaged on the Aqueduct between Croton Lake and the Central Park, and would probably be deprived of the services of these employees. I am requested to hold myself in readiness to supply from this Department, at short notice, if necessary, the few men required to regulate and watch the flow of water through the Aqueduct, and it is intimated that otherwise it would become necessary to shut off the supply of water through the Aqueduct.

The closing of the Aqueduct at this or any future time would be a calamity resulting in incalculable injury, and the continuance of the supply through the Aqueduct must be maintained under all circumstances and at all hazards.

To relieve any anxiety on this account, I beg to say there is no necessity of closing the Aqueduct for want of competent men to take charge of it. This Department has for some time been, and is now, ready at any moment to take charge of the structure and to station competent men on each division to perform the duties required to keep the structure in effective operation. It only rests with the Aqueduct Commissioners to designate the time when this Department shall take charge.

Very respectfully,

THOS. F. GILROY, Commissioner of Public Works.

LAW DEPARTMENT,  
OFFICE OF THE COUNSEL TO THE CORPORATION,  
NEW YORK, June 22, 1891.

Hon. JAMES C. DUANE, President of the Aqueduct Commissioners:

SIR—I have received your letter of June, 17th inst., in which the following facts were communicated, namely:

1. The New Aqueduct, although not yet fully completed, has been for eleven months in operation, and is now bringing to the City a daily supply of 84,000,000 gallons of water.

2. That since July 15, 1890, the tunnel proper has been finished.

3. That the work of construction still remaining to be done consists, in the main, of the construction of a head-house (1) from the large gate-house at Croton Lake; (2) the building of a road; (3) the building of eleven head-houses over the open shafts along the line; (4) the completion of Shaft 21, on Section 10; (5) the building of a blow-off and shaft-house on the north side of the Harlem river; (6) the building of a permanent head-house for a double shaft on the south side of the Harlem river and the grading of the ground for the erection of a pumping station; (7) the grading and fencing of the ground around the One Hundred and Twenty-fifth Street Gate-house. The Comptroller questions the right and authority of the Aqueduct Commission, under the statute, to employ men or pay wages for the maintenance of the Aqueduct.

It is understood that the authority of the Aqueduct Commission to make expenditures for the construction of the uncompleted work upon the Aqueduct is not challenged by the Comptroller, but that officer contends that the Aqueduct Commission have no authority to incur and he has no authority to pay expenses connected with or relating to the control and maintenance of the completed tunnel, which is now in use for the conveyance of the water supply.

The act which prescribes the powers and duties of the Aqueduct Commissioners, chapter 490 of the Laws of 1883, is entitled "An act to provide new reservoirs, dams and a new aqueduct, with the appurtenances thereto, for the purpose of supplying the City of New York with an increased supply of pure and wholesome water."

The act referred to, after providing for the creation of a Board of Commissioners, provides for the preparation of plans for a new aqueduct and reservoirs.

Also for the condemnation of the lands and easements necessary to be acquired, and for the payment of the damages incurred by the owners of such lands, etc.

Also for the making of contracts for the construction of the tunnel, the dams, reservoirs and appurtenances.

The act then authorizes the Comptroller of the City of New York to raise, from time to time, on bonds of the City, sufficient moneys to pay for the lands and easements acquired, and for the expenses incurred in surveying, etc., and also for the construction of the aqueduct, dams, reservoirs, sluices, culverts, canals, pumping works, bridges, tunnels, ventilating shafts, blow-offs, and other appliances and appurtenances.

The bonds to be issued are called the additional water stock of the City of New York.

By the Consolidation Act, section 315, the Department of Public Works is invested with the cognizance and control of all structures and property connected with the supply and distribution of Croton water.

A bureau in that Department is charged with the care of all structures and property connected with the supply and distribution of Croton water; the Chief Engineer of that bureau is called the Chief Engineer of the Croton Aqueduct.

Section 357 of the Consolidation Act provides:

"The Department of Public Works is charged with the preservation of the Croton lake and all waters from which a water supply is drawn by the City, with the preservation of the banks of the Croton river and other waters from injury or nuisances, with the execution of such measures as may be necessary to preserve and increase the quantity of water and keep it pure, with the management, preservation and repairs of the dam, gates, aqueduct, high bridge, reservoirs, mains, pipes, pipe yard, and property of every description belonging to the water-works, and shall have the construction of such new works, and the purchase and laying down of such mains and pipe as may be authorized in accordance with law. Said Department shall be responsible for the supply of water and the good order and security of all the works from the Croton lake to the City, inclusive, for the exactness and durability of the structures which may be erected and of the daily work to be performed, and for the sufficiency of the supply in the pipe yard to meet every casualty, and for the fidelity, care and attention of all persons employed by the Department in watching the works and in making constructions and repairs, and shall inspect thoroughly the interior of the aqueduct and make the necessary repairs at least twice in the year."

No express provision is found in the Act for the construction of the New Aqueduct in relation to the termination of the office and functions of the Commissioners, or the disposition of the structures which they are empowered to construct, when such structures shall have been completed.

It is, however, obvious that the Act of 1883 is simply and only an act to provide for construction. No provisions are contained therein in relation to the maintenance of the Aqueduct and its appurtenances.

It is obviously the intent of the act that the official powers of the Commissioners, and their jurisdiction and control of the structures which they are to create, will cease as to each portion thereof when the same is completed and put into service.

From that time the sole duty connected with the completed structure is one of maintenance, regulation and use; and under the charter and the Consolidation Act the duty of maintenance, and the power to regulate the use and to care for all structures and property connected with the distribution of the water supply, is vested in the Commissioner of Public Works.

The Act of 1883 must be read in connection with the Consolidation Act; and, in relation to the water supply, they are acts in pari materia.

The work of constructing the New Aqueduct with its appurtenances has been committed by the Act of 1883 to the Aqueduct Commissioners.

As from time to time the work committed to the Aqueduct Commissioners is completed and the structure which they have created accepted and brought into use, the jurisdiction to control and use that structure passes under the Consolidation Act to the Commissioner of Public Works.

The observance of this system is important to the proper financial administration of the affairs of the municipality.

The moneys authorized to be raised by the issue of bonds under the Aqueduct Act can be used only to pay expense incurred in construction.

The expenses of maintenance of the completed portion of the work, when in use for procuring or distributing the water supply, are chargeable against the appropriations made for maintenance, and raised in the annual tax levies; such expenses cannot lawfully be paid from the proceeds of the additional water stock issued under the Aqueduct Act.

I am, therefore, of the opinion, and advise you, that the position of the Comptroller is well taken, and that you have no authority to incur expense otherwise than for works of construction.

That the custody, control and regulation of the tunnel proper, which was finished on July 15, 1890, and any other completed constructions now in use for the supply or distribution of water, belongs to the Department of Public Works, which has cognizance and control thereof; and the expense of such maintenance cannot lawfully be paid on your certificate from the proceeds of additional water stock, but must be paid, on the certificate of the Commissioner of Public Works, from the fund applicable to the maintenance of the structures and property connected with the supply and distribution of Croton water.

I remain,

Yours, very respectfully,

WM. H. CLARK, Counsel to the Corporation.

On motion of Commissioner Scott, the same were ordered spread on the minutes and filed.

The Committee also reported that at a meeting of the Committee, held on the 23d instant, the following preambles and resolutions were adopted:

Whereas, The Corporation Counsel has given his opinion that from the time of completed structure the maintenance of the tunnel and structures of the Aqueduct that are completed is vested in the Commissioner of Public Works; and

Whereas, The Commissioner of Public Works, in a communication addressed to the President of this Commission, bearing date the 19th day of June, 1891, has expressed his readiness to station competent men on each division of the Aqueduct, at whatever time the Aqueduct Commissioners shall designate, to perform the duties required to keep the structure in effective operation; and

Whereas, The Chief Engineer has verbally reported to this Committee that the running and control of the water in the Aqueduct, including the control of the gates at all the gate-houses, except the gates, machinery and appurtenances at Shaft 25, which are now under construction, and Shaft 21, which is not yet completed, can be committed to the care of the Department of Public Works, provided an arrangement is arrived at by which the work of construction still remaining to be completed will not be interfered with; therefore

Resolved, That the Chief Engineer of this Commission be and hereby is instructed to consult with the Chief Engineer of the Croton Aqueduct, and with him to report the stations and places at which it will be necessary for the Department of Public Works to place men in charge to perform such duties as may be required to keep the structure in effective operation and to prevent any interruption or diminution in the flow of the water; such assumption of charge by the Department of Public Works to be effected in such a manner as will not interfere with the works of construction now in progress or still remaining to be completed.

On motion of Commissioner Scott, the action of the Committee was approved.

The Committee also presented the following joint report, made by the Chief Engineers of the Aqueduct Commissioners and of the Croton Aqueduct, and recommended that the same be approved and spread in full on the minutes:

NEW YORK, June 24, 1891.

To the Honorable the Committee on Construction:

GENTLEMEN—In pursuance of your resolution of yesterday, we have consulted as to the best methods of transferring to the Department of Public Works the control of certain parts of the Aqueduct, and we have to report the following suggestions:

1st. The Aqueduct Commissioners to transfer to the Commissioner of Public Works the control of the gates, machinery and appliances necessary to regulate the flow of water of the Aqueduct at the following points:

The Croton Gate-house.  
The three Blow-offs (so-called) at Pocantico.  
Ardsley and South Yonkers.  
The Gate-house at One Hundred and Thirty-fifth street.  
The New Gate house in Central Park.

It being understood that such control shall in no way interfere with the work of construction now in progress or still remaining to be completed.

2d. The Aqueduct Commissioners to retain the control of Shafts 21, 24 and 25, with all their machinery and appliances, with the understanding that the flow of water is not to be interfered with except by consent or request of the Commissioner of Public Works.

3d. The Commissioner of Public Works to station such men as he may find necessary at the above-mentioned points, and in order to facilitate the continuous running of the Aqueduct, the services of the said men to begin on Wednesday, July 1, 1891.

4th. The Chief Engineers of the Aqueduct Commission and of the Croton Aqueduct to have charge of carrying out the details of the above arrangement.

Respectfully submitted,

A. FTELEY, Chief Engineer Aqueduct Commissioners.

G. W. BIRDSALL, Chief Engineer Croton Aqueduct.

On motion of Commissioner Scott, the recommendation was approved.

On motion of Commissioner Cannon, the following resolution was adopted:

Resolved, That the President be and is hereby instructed to consult with the Chief Engineer and report at the next meeting of the Commissioners what readjustment of the force now employed, if any, can be made upon the consummation of the agreement between the Chief Engineer of this Commission and the Chief Engineer of the Croton Aqueduct, this day approved by the Commission.

The Committee also presented the following communication, received from the Chief Engineer, and recommended that the same be approved, spread in full on the minutes, and a copy of the same transmitted to the Comptroller:

NEW YORK, June 24, 1891.

To the Honorable the Committee on Construction:

GENTLEMEN—On June 10, 1890, I forwarded to you a final estimate for Section 17 of the New Aqueduct, as, owing to the circumstances of the case, I understood that the Commissioners did not wish to exercise the authority and power vested in them by the contract, Clause O, Item (a) to retain any money from the total value of the work.

The Comptroller, however, in accordance with Clause O, Items (a) and (b) of the contract, retained for a period of one year, five (5) per cent. of the whole amount of money payable under the contract; and now, inasmuch as a year has elapsed since my certificate was given, I hereby certify, under Clause O (Item c) that the pipe, special castings and their connections, the embank-

ments, masonry work, walls and other places are in good order, and that the contractor, in my opinion, is entitled to a final payment on account of his contract for Section 17 of the New Aqueduct. I am, very respectfully,

A. FTELEY, Chief Engineer.

On motion of Commissioner Scott, the recommendation was approved.

The Committee also presented the following communication, received from the Chief Engineer:

NEW YORK, June 24, 1891.

To the Honorable the Committee on Construction:

GENTLEMEN—This is to inform you that in connection with the contract for building the blow-off at Shaft 24, and in conformity with the plans, I have ordered from the Passaic Rolling Mill Co. iron beams, the price of which will not exceed the sum of \$200, including the delivery of the same, and to respectfully ask that my action be approved.

I am, very respectfully,

A. FTELEY, Chief Engineer.

—and recommended the adoption of the following resolution:

Resolved, That the above action of the Chief Engineer be and hereby is approved, and an appropriation of \$200 is hereby made to cover the expense thereby incurred.

On motion of Commissioner Tucker, the report was approved and the resolution adopted.

On motion of Commissioner Scott, the minutes of stated meeting of June 10, 1891, were ordered approved.

The Commissioners then adjourned.

J. C. LULLEY, Secretary pro tem.

tract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect; and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, each in the penal amount of **FOUR THOUSAND (\$4,000) DOLLARS**.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they shall pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise; and that he has offered himself as surety in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of the City of New York, 1880, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of this security shall, in addition to the justification and acknowledgment, be approved by the Comptroller of the City of New York.

No bid or estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be included in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York, as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept, but do not execute the contract and provide such proper security, as has been heretofore stated to be requisite, he or they shall be considered as having abandoned it, and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.

Bidders will write out the amount of their estimate in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract, or from time to time, as the Commissioners may determine.

The form of the contract, including specifications showing the manner of payment, will be furnished at the office of the Department; and bidders are cautioned to examine each and all of its provisions carefully, as the Board of Public Charities and Correction will insist upon its absolute enforcement in every particular.

The estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, upon its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled upon its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract and herein stated, over and above all his debts of every nature, and over and above his liabilities as bail, surety, and otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of the City of New York after the award is made and prior to the signing of the contract.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, and that the adequacy and sufficiency of the security offered has been approved by the Comptroller, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet, as provided by law.

No estimate will be received or considered unless accompanied by either a certified check upon one of the National or State banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same, within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after

notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York, as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Blank forms for estimates may be obtained by application to the undersigned, at his office in the Central Department.

(1.) Bidders must satisfy themselves, by personal examination, of the location of the proposed work, and by such other means as they may prefer, as to the accuracy of the foregoing Engineer's estimate, and shall not, at any time after the submission of an estimate, dispute or complain of the above statement of quantities, nor assert that there was any misunderstanding in regard to the nature or amount of the work to be done.

(2.) Bidders will be required to complete the entire work to the satisfaction of the Department of Docks, and in substantial accordance with the specifications of the contract and the plans therein referred to. No extra compensation, beyond the amount payable for the work before mentioned, which shall be actually performed, at the prices therefor, to be specified by the lowest bidder, shall be due or payable for the entire work.

The work to be done under the contract is to be commenced within five days after the date of the contract, or of a notification of the Engineer-in-Chief of the Department of Docks, and all the work contracted for is to be fully completed on or before the 30th day of November, 1891, and the damages to be paid by the contractor for each day that the contract may be unfulfilled after the time fixed for the fulfillment thereof has expired, are, by a clause in the contract, determined, fixed and liquidated at Fifty Dollars per day.

All the old material taken from the old crib-work and the dumping-board to be removed under the contract will be relinquished to the contractor, and bidders must estimate the value of such material when considering the price for which they will do the work under this contract.

Bidders will state in their estimates a price for the whole of the work to be done, in conformity with the approved form of agreement and the specifications therein set forth, by which price the bids will be tested. This price is to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay, from any cause, in the performing of the work thereunder.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for doing the work.

The person or persons to whom the contract may be awarded will be required to attend at this office with the sureties offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect; and in case of failure or neglect so to do, he or they will be considered as having abandoned it, and as in default to the Corporation, and the contract will be readvertised and relet, and so on until it be accepted and executed.

Bidders are required to state in their estimates their names and places of residence; the names of all persons interested with them therein; and if no other person be so interested, the estimate shall distinctly state the fact; also, that the estimate is made without any connection with any other person making an estimate for the same work, and that it is in all respects fair, and without collusion or fraud; and also, that no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof; which estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed to by all the parties interested.

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the estimate, they will, on its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation of the City of New York any difference between the sum to which said person or persons would be entitled upon its completion and that which said Corporation may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting; the amount, in each case, to be calculated upon the estimated amount of the work to be done, by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety and otherwise; and that he has offered himself as surety in good faith, and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of the City of New York after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, to the amount of five per centum of the amount of security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same, within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded

to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instructions of the Engineer-in-Chief.

No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

THE RIGHT TO DECLINE ALL THE ESTIMATES IS RESERVED, IF DEEMED FOR THE INTEREST OF THE CORPORATION OF THE CITY OF NEW YORK.

Bidders are requested, in making their bids or estimates, to use the blank prepared for that purpose by the Department, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the work, can be obtained upon application therefor at the office of the Department.

Each estimate must contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and if no other person be so interested, it shall distinctly state that fact. That it is made without any connection with any other person making an estimate for the same work, and is in all respects fair and without collusion or fraud. That no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation is directly or indirectly interested in the estimate, or in the work to which it relates or in the profits thereof.

Each estimate must be verified by the oath, in writing, of the party making the same, that the several matters therein stated are true, and must be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, to the effect that if the contract is awarded to the person making the estimate, they will, upon its being so awarded, become bound as his sureties for its faithful performance; and that if he shall refuse or neglect to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled upon its completion and that which the Corporation may be obliged to pay to the person to whom the contract shall be awarded at any subsequent letting; the amount to be calculated upon the estimated amount of the work by which the bids are tested.

The consent last above mentioned must be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety, or otherwise, and that he has offered himself as surety in good faith, with the intention to execute the bond required by law.

No estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be

returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of the deposit will be returned to him.

THE COMMISSIONER OF PUBLIC WORKS RESERVES THE RIGHT TO REJECT ALL BIDS RECEIVED FOR ANY PARTICULAR WORK IF HE DEEMS IT FOR THE BEST INTERESTS OF THE CITY.

## TO OWNERS OF LANDS ORIGINALLY ACQUIRED BY WATER GRANTS.

ATTENTION IS CALLED TO THE RECENT act of the Legislature (chapter 449, Laws of 1889), which provides that whenever any streets or avenues in the city, described in any grant of land under water, from the Mayor, Aldermen and Commonalty containing covenants requiring the grantees and their successors to pave, repave, keep in repair or maintain such streets, shall be in need of repairs, pavement or repavement the Common Council may, by ordinance, require the same to be paved, repaved or repaired, and the expense thereof to be assessed on the property benefited; and whenever the owner of a lot so assessed shall have paid the assessment levied for such paving, repaving or repairing, such payment shall release and discharge such owner from any and every covenant and obligation as to paving, repaving and repairing, contained in the water grant under which the premises are held, and no further assessment shall be imposed on such lot for paving, repaving or repairing such street or avenue, unless it shall be petitioned for by a majority of the owners of the property (who shall also be the owners of a majority of the property in frontage) on the line of the proposed improvement.

The act further provides that the owner of any such lot may notify the Commissioner of Public Works, in writing, specifying the ward number and street number of the lot that he desires, for himself, his heirs and assigns, to be released from the obligation of such covenants and elects and agrees that said lot shall be thereafter liable to be assessed as above provided, and thereupon the owner of such lot, his heirs and assigns shall thenceforth be relieved from any obligation to pave, repair, uphold or maintain said street, and the lot in respect of which such notice was given shall be liable to assessment accordingly.

The Commissioner of Public Works desires to give the following explanation of the operation of this act: When notice, as above described, is given to the Commissioner of Public Works, the owner of the lot or lots therein described, and his heirs and assigns, are forever released from all obligation under the grant in respect to paving, repaving or repairing the street in front of or adjacent to said lot or lots, except one assessment for such paving, repaving or repairs, as the Common Council may, by ordinance direct to be made thereafter.

No street or avenue within the limits of such grants can be paved, repaved or repaired until said work is authorized by ordinance of the Common Council, and when the owners of such lots desire their streets to be paved, repaved or repaired, they should state their desire and make their application to the Board of Aldermen and not to the Commissioner of Public Works, who has no authority in the matter until directed by ordinance of the Common Council to proceed with the pavement, repavement or repairs.

THOS. F. GILROY,  
Commissioner of Public Works.
