OPENING RUTLAND ROAD, BROOKLYN.

The following report from the Chief Topographical Engineer was read:

CITY OF NEW YORK,
PRESIDENT OF BOARD OF PUBLIC IMPROVEMENTS,
TOPOGRAPHICAL BUREAU,
ONE HUNDRED AND SEVENTY-SEVENTH STREET AND THIRD AVENUE,
NEW YORK, October 17, 1901.

Mr. JOHN H. MOONEY, Secretary, Board of Public Improvements:

SIR—In reply to the action taken by the Board of Public Improvements, referring for report a communication from the President of the Borough of Brooklyn, in which he states that the Local Board of the Eighth District, on September 20, 1901, rescinded its action of October 11, 1900, for the legal opening of Rutland road, from Rogers avenue to Remsen avenue, and passed a new resolution for the legal opening of Rutland road, from Canarsie avenue or road to Remsen avenue, I have to state that two affidavits having been submitted that the street was in use as a public highway between Rogers avenue and Canarsie avenue since 1887, the limit for opening should be changed as requested by the Local Board.

There are no buildings on the land to be acquired.

Paper in the matter is herewith returned.

Respectfully,

LOUIS A. RISSE,

Chief Topographical Engineer and Engineer of Concourse.

The following resolution was therefore adopted:

Resolved, That the resolution adopted by this Board on the 16th day of January, 1901, for the opening of Rutland road, from Rogers avenue to Remsen avenue, in the Borough of Brooklyn, be and the same is hereby rescinded.

Affirmative—Comptroller, Commissioner of Water Supply, Commissioner of Street Cleaning, Commissioner of Sewers, Commissioner of Bridges and President of the Board.

Negative—None.

The following amended resolution was then adopted:

Resolved, That the Board of Public Improvements of The City of New York, in pursuance of the provisions of section 970 of chapter 378, Laws of 1897, deems it for the public interest that the title to the lands and premises required for the opening and extending of Rutland road, from Canarsie avenue or road to Remsen avenue, in the Borough of Brooklyn, City of New York, should be acquired by The City of New York.

Resolved, That the Board of Public Improvements, deeming it for the public interest so to do, hereby requests the Corporation Counsel to make application to a Special Term of the Supreme Court for the appointment of Commissioners of Estimate and Assessment, and to take the necessary proceedings, in the name of The City of New York, to acquire title, whenever the same has not heretofore been acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending Rutland road, from Canarsie avenue or road to Remsen avenue, in the Borough of Brooklyn, City of New York.

Resolved, That the entire cost and expense of said proceedings shall be assessed upon the property deemed to be benefited thereby.

Affirmative—Comptroller, Commissioner of Water Supply, Commissioner of Street Cleaning, Commissioner of Sewers, Commissioner of Bridges and President of the Board.

Negative—None.

DEDICATION OF LAND AT INGLESIDE, QUEENS.

The following report from the Chief Topographical Engineer was read and the matter was referred to the Corporation Counsel:

CITY OF NEW YORK,
PRESIDENT OF BOARD OF PUBLIC IMPROVEMENTS,
TOPOGRAPHICAL BUREAU,
ONE HUNDRED AND SEVENTY-SEVENTH STREET AND THIRD AVENUE,
NEW YORK, October 22, 1901.

Mr. JOHN H. MOONEY, Secretary, Board of Public Improvements:

SIR—In reply to the action taken by the Board of Public Improvements on January 10, 1900, transmitting for investigation and report an application of William Zeigler, dated November 23, 1899, for permission to dedicate the land lying within certain streets and avenues at Ingleside and extension, also to pave said street and place sewers therein, if said work should not be done by the City within one year after January 1, 1900, I have to state, as follows:

This application of Mr. Zeigler was approved by the Local Board of the Borough of Queens December 29, 1899.

No action could be taken in this matter until the avenues and streets in Ingleside and extension were officially laid out and filed by the Board of Public Improvements. This was done July 2, 1901, and the Topographical Bureau is enabled now to forward a technical description in the matter of dedicating certain lands in that part of the Borough of Queens known as Ingleside and extension, and being all those certain streets, places and avenues marked and laid out on a certain map entitled, "Realty Trust Map No. 13, showing Ingleside and extension, Third Ward, Borough of Queens, City of New York, 1899," and filed in the office of the Clerk of the County of Queens, New York, April 18, 1899, as Map No. 990.

Agreements in the matter of paving and sewerage the avenues and streets of Ingleside and extension can be made between the owners and the Departments of Highways and Sewers after the City has accepted the dedication of streets.

Technical description and map are submitted in duplicate.

Papers in the matter are herewith returned.

Respectfully,

LOUIS A. RISSE,

Chief Topographical Engineer and Engineer of Concourse.

DEDICATION OF LAND FOR PEARL STREET, ETC., RICHMOND.

The following report from the Chief Topographical Engineer was referred to the Corporation Counsel:

TOPOGRAPHICAL BUREAU, October 22, 1901.

Mr. JOHN H. MOONEY, Secretary, Board of Public Improvements:

SIR—In reply to the communication of Mr. James T. Kitchell, stating that Pearl street, Calvin place, and Murray street, Borough of Richmond, had been deeded to the City, and that he held a receipt of Mr. John P. Dunn, Assistant in charge of the Bureau of Street Openings, dated March 21, 1901, for said deed, I have to report that there is no record that the deed has been accepted.

I recommend, therefore, that the Corporation Counsel be requested to inform the Board of Public Improvements whether the deeds to the above mentioned streets have officially been accepted.

Letter in the matter is herewith returned.

Respectfully,

LOUIS A. RISSE,

Chief Topographical Engineer and Engineer of Concourse.

The following report from the Chief Topographical Engineer was read, and the matter was referred to the Mayor:

CITY OF NEW YORK,
PRESIDENT OF BOARD OF PUBLIC IMPROVEMENTS,
TOPOGRAPHICAL BUREAU,
ONE HUNDRED AND SEVENTY-SEVENTH STREET AND THIRD AVENUE,
NEW YORK, October 18, 1901.

Mr. JOHN H. MOONEY, Secretary, Board of Public Improvements:

SIR—In reply to the petition of O. J. Stephens, No. 444 East One Hundred and Thirty-eighth street, and others, addressed to Hon. John L. Shea, Commissioner of Bridges, requesting that a map or plan showing the approaches to the bridge over the Harlem river at One Hundred and Thirty-eighth street, and the changes of street and grades affected thereby in the boroughs of Manhattan and The Bronx, which was approved by the Board of Public Improvements on February 21, 1900, be filed, I have to report as follows:

This map or plan was sent with the proper form of resolution to the Municipal Assembly February 21, 1900, and to my knowledge no action was taken as yet, although the matter is of the greatest importance to the people in the neighborhood of the so-called Madison Avenue Bridge.

East One Hundred and Thirty-eighth street, which is a main artery in the Twenty-third Ward, Borough of The Bronx, is in a deplorable condition, from Third avenue to the Harlem river, and no permanent improvement can be made there until it has been decided whether the proper approaches for the bridge over the Harlem river can be built.

The Municipal Assembly not having taken any steps either to approve or to reject the map after nineteen months, I wish to recommend that the map be sent to the Mayor for his approval, with the statement that these changes are necessitated to bring the street plan in harmony with the bridge approaches, and that, therefore, the whole map should be considered as coming under the head of "Approaches to Bridges," which matters need not be approved by the Municipal Assembly.

Papers in the matter are herewith returned and map forwarded.

Respectfully,

LOUIS A. RISSE,

Chief Topographical Engineer and Engineer of Concourse.

OPENING NINTH AVENUE, BROOKLYN.

The following report from the Chief Topographical Engineer was read:

TOPOGRAPHICAL BUREAU, October 22, 1901.

Mr. JOHN H. MOONEY, Secretary, Board of Public Improvements:

SIR—In reply to the action taken by the Board of Public Improvements, referring for report a communication from the Commissioner of Sewers, requesting that title be vested in the City immediately to Ninth avenue, from Thirty-seventh street to Bay Ridge avenue, Borough of Brooklyn, in order to prevent the closing of a contract for a partially completed sewer in said avenue, between Sixty-second street and Fifty-fourth street, Borough of Brooklyn, I have to report as follows:

The Board of Public Improvements, on May 9, 1900, initiated proceedings for acquiring title to Ninth avenue, from Thirty-seventh street to Bay Ridge avenue, and stated in its resolution that buildings are on the land to be acquired.

These buildings, consisting of some sheds, were removed, the original resolution should be rescinded and a new one initiated in order that title can be vested as soon as possible.

Papers in the matter are herewith returned.

Respectfully,

LOUIS A. RISSE,

Chief Topographical Engineer and Engineer of Concourse.

The following resolution was then adopted:

Resolved, That the resolution adopted by this Board on the 2d day of October, 1901, fixing the 20th day of March, 1902, as the date when title to Ninth avenue, from Thirty-seventh street to Bay Ridge avenue, in the Borough of Brooklyn, shall be vested in The City of New York, be and the same is hereby rescinded.

Affirmative—Comptroller, Commissioner of Water Supply, Commissioner of Street Cleaning, Commissioner of Sewers, Commissioner of Bridges and President of the Board.

Negative—None.

The following amended resolution was thereupon adopted:

"Whereas, The Board of Public Improvements, on the 9th day of May, 1900, adopted a resolution requesting the Corporation Counsel to acquire title, whenever the same has not heretofore been acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending Ninth avenue, from Thirty-seventh street to Bay Ridge avenue, in the Borough of Brooklyn, City of New York; and

"Whereas, It appears to the said Board, from the surveys made and information furnished to it by the President of the said Board, that there are no buildings upon the lands that shall or may be required for the purpose of opening and extending said Ninth avenue; and

Affirmative—Comptroller, Commissioner of Water Supply, Commissioner of Street Cleaning, Commissioner of Sewers, Commissioner of Bridges and President of the Board.

Negative—None.

REPORTS FROM COMMISSIONER OF HIGHWAYS.

The following report from the Commissioner of Highways was read:

DEPARTMENT OF HIGHWAYS,
NEW YORK, October 21, 1901.

Hon. MAURICE F. HOLAHAN, President, Board of Public Improvements:

DEAR SIR—Referring to a letter dated September 27, from the Secretary of the Board, with a resolution adopted by the Local Board of the Nineteenth District, Borough of Manhattan, recommending that vacant lots on the west side of Amsterdam avenue, from One Hundred and Thirty-ninth to One Hundred and Fortieth streets; on the south side of West One Hundred and Fortieth street, between Amsterdam avenue and Hamilton place; on the east side of Hamilton place, between One Hundred and Thirty-ninth and One Hundred and Fortieth streets, and on the north side of West One Hundred and Thirty-ninth street, between Amsterdam avenue and Hamilton place, be properly fenced, I beg to report that the estimated cost of fencing the lots described in the resolution with a close board fence, six feet high, is \$560, and the assessed value of the real estate within the probable area of assessment is \$86,000.

I recommend that the work be authorized.

Very respectfully,

WM. SHANNON, Deputy and Acting Commissioner of Highways.

The following resolution was then adopted:

Resolved, by the Board of Public Improvements, That, in pursuance of section 403 of the Greater New York Charter, the following resolution of the Local Board of the Nineteenth District, in the Borough of Manhattan, be and the same hereby is approved, and the public work or improvement therein mentioned is hereby authorized, and the Commissioner of Highways is hereby directed to proceed forthwith in the execution thereof, namely:

"Resolved, That the Board of Local Improvements of the Nineteenth District of the Borough of Manhattan, recommends to the Board of Public Improvements, that vacant lots on the west side of Amsterdam avenue, from One Hundred and Thirty-ninth to One Hundred and Fortieth street; on the south side of West One Hundred and Fortieth street, between Amsterdam avenue and Hamilton place; on the east side of Hamilton place, between One Hundred and Thirty-ninth and One Hundred and Fortieth streets, and on the north side of West One Hundred and Thirty-ninth street, between Amsterdam avenue and Hamilton place, be properly fenced," there having been presented to this Board an estimate in writing of the cost of said work or improvement, and a statement of the assessed value, according to the last preceding tax-roll, of the real estate included within the probable area of assessment. The estimated cost of said work is five hundred and sixty dollars. The said assessed value of the real estate included within the probable area of assessment is eighty-six thousand dollars; and it is further

Resolved, by this Board, That, in pursuance of section 422 of the Greater New York Charter, this Board does hereby determine that no portion of the cost and expense of said local improvement shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited thereby.

Affirmative—Comptroller, Commissioner of Water Supply, Commissioner of Highways, Commissioner of Street Cleaning, Commissioner of Sewers, Commissioner of Bridges and President of the Board.

The following report from the Commissioner of Highways was read, and the matter was laid over:

DEPARTMENT OF HIGHWAYS,
NEW YORK, October 15, 1901.

Hon. MAURICE F. HOLAHAN, President, Board of Public Improvements:

DEAR SIR—With a letter dated August 16, 1901, from the Secretary of the Board, I received for investigation and report a resolution adopted by the Local Board of the Fifteenth District, Borough of Manhattan, recommending that the pavement at the intersection of East Fortieth street and Park avenue be relaid at the proper grade by removing the top of the arch of the tunnel, and substituting a flat arch of iron girders, as recommended in the report of the Engineer of Street Openings.

In reply, I beg to report that the Chief Engineer of this Department agrees in general with the accompanying report of Mr. Joseph O. B. Webster, Engineer of Street Openings, and I herewith submit a preliminary sketch showing an arrangement of the flat arches proposed to be substituted for the old curved arch; also a sketch showing elevations, both old and new, on Fortieth street, as they will exist after the change is made.

As reported by Engineer Webster, the change at Thirty-fourth street was effected by the railway Company at their own expense when new girder rails were placed and the motive power changed on Thirty-fourth street, this change being for the company's own benefit. The railroad Company would undoubtedly object to bearing the expense of changing the grade and substituting steel girders at the intersection of Park avenue and Fortieth street, and the cost of the work would, therefore, have to be borne by the City.

It is estimated that it would cost \$6,000 to change the grade, including the tearing down of the old arch, the placing of new cross girders of steel, and the relaying of the pavement with asphalt, as well as curbing, sodding, etc., as shown on the accompanying plan. This Department has no appropriation which could be expended for this purpose.

It now seems to be in order to make application to the Board of Estimate and Apportionment for the necessary funds if the Board of Public Improvements should deem such action advisable.

Very respectfully,
JAMES P. KEATING, Commissioner of Highways.

The following report from the Commissioner of Highways was placed on file:

Very respectfully,
W. M. SHANNON, Deputy and Acting Commissioner of Highways.

REPORTS FROM COMMISSIONER OF BRIDGES.

The following communication from the Commissioner of Bridges was read :

DEPARTMENT OF BRIDGES, October 23, 1901.

Hon. MAURICE F. HOLAHAN, President, Board of Public Improvements :

SIR—I transmit herewith for the consideration of the Board a report of the Engineer in Charge of the construction of bridge connecting Pelham Bay Park with City Island duly approved by the Chief Engineer of this Department, and also a report of said Chief Engineer, upon which I recommend that a resolution be adopted by the Board of Public Improvements excusing the apparent overtime of John F. O'Rourke, contractor for the construction of said bridge, no expense chargeable to the City having been incurred by the said contractor during said overtime by reason thereof.

Respectfully,

JOHN L. SHEA, Commissioner of Bridges.

DEPARTMENT OF BRIDGES, October 23, 1901.

Hon. JOHN L. SHEA, Commissioner of Bridges :

SIR—I am of the opinion that the contractor is in no way responsible for the overtime required for the work of building the City Island bridge; that all the delays were caused by insufficient knowledge of the character of the material, the depth required to be dredged for the

channel piers and the increase of quantities required to make up for this depth; that change were made in the location of the City Island end of the bridge, and the complications arising from this change, and the failure to obtain the right to use the land under water from its owners, are matters with which the contractor had nothing to do and for which delay he should not be mulcted.

I think that the contractor should not be charged for any portion of the increased time which was made necessary by the delays that he could not control.

Respectfully,

SAM'L R. PROBASCO, Chief Engineer, Department of Bridges.

DEPARTMENT OF BRIDGES—BOROUGH OF THE BRONX.

SAMUEL R. PROBASCO, Esq., Chief Engineer, Department of Bridges :

DEAR SIR—I submit the following statement of facts in regard to the claim of John F. O'Rourke for relief from penalty for overtime in the matter of constructing the new City Island Bridge :

Bids opened December 27, 1897.

Contract dated December 13, 1898.

Notice to begin work served on contractor December 19, 1898.

Bridge opened to public July 4, 1901.

Contract time, 200 working days.

	Days.
Time elapsed, calendar days	927
Allowable for Sundays, holidays and days on which work could not be done, days..	320
Allowable for contract time, days.....	200
	520
Overtime.....	407

The allowance of 520 days is made under the terms of the contract.

It should be noted in fixing the penalty that the amount of work done has exceeded the preliminary estimate, as shown in the following schedule :

Cubic yards rip-rap stone around piers, abutments, etc.	4,000	1,237.5
Feet (board measure) of timber in grillage or other square timber, etc.	80,000	137,022	57,022.0
Pounds iron and steel work of plate-girder span.....	1,190,000	1,359,250	169,250.0

Pounds iron and steel work of turn-table.	220,000	181,406
Linear feet of wrought iron or steel railing.	2,500	2,659.1	159.1
Square yards of Trinidad asphalt roadway flooring	2,210	1,944.1
Square yards of Trinidad asphalt sidewalk flooring.....	875	853.6
Cubic yards embankment filling, including rock footing.	24,500	27,985.6	3,485.6
Square yards of rip-rap pavement on slopes	2,760	3,233.9	473.9
Granite posts for sidewalk railing on embankment.....	200	255	55
Linear feet of new curbstones	1,400	2,427.6	1,027.6
Square feet of gravel sidewalk on rubble-stone foundation.....	10,000	16,952.1	6,952.1
Square yards of gravel roadway on Telford foundation, etc.....	2,800	4,757.6	1,957.6
Gutter outlets with basin and 8-inch vitrified pipe.....	4	4
Cubic yards of garden mould on slopes	280	523.5	243.5
Square yards of sod on slopes.....	570	1,015.1	445.1

The principal reason for this excess is the fact that, in order to secure suitable foundation for the piers, it was necessary to dredge a larger amount of material from the bed of the Narrows than the preliminary test borings indicated.

This increased not only the amount of dredged material, but also on account of the greater depth, the concrete in piers, the crib-fender, and the square timber in permanent foundations and in crib-fender. The necessary change of plan for the approaches increased the amount of embankment filling, rip-rap pavement, curbstones, gravel sidewalk, gravel roadway, garden mould, sod and railing.

Article D, page 32, of the contract provides :

"But if the execution and completion of the said work shall require work or material in greater amounts or quantities than those mentioned and set forth in the Engineer's estimate, then the said time shall be increased as much as the said Commissioners shall deem just and reasonable and fairly proportioned to the amount of said increase."

It is my opinion that the contract time should be extended on account of this increased amount of work that was done beyond the preliminary estimate.

Such allowance might be based (A) on the ratio of the preliminary estimate cost to the final cost shown on the accompanying final certificate, or it might be based (B) on the increases in quantities of the separate items of work by assuming that a certain amount of each class of work could be done per day by the contractor. This latter method is in use in the Department of Highways, and an allowance of one day for every 100 cubic yards of filling, one day for every 50 cubic yards of earth excavation, and one day for every 25 yards of rock excavation forms part of the standard contracts for grading, etc. It is likewise in use in the Department of Sewers. If it be assumed, however, that the excess in cost is a fair measure for an increased time allowance, the contract time should be raised about 28½ per cent., or 57 days. I recommend, therefore, that at least 57 days be deducted from the overtime, thus reducing it to 350 days.

The contractor claims a general release from all penalty on the following grounds : First, delay in furnishing plans and changes therein; second, delay in acquiring lands for the east approach. I believe that the aggregate allowance on these accounts must be of considerable amount, although it is difficult, if not impossible, to give its exact value.

In reaching a conclusion as to the weight which should be attached to the two preceding claims, it should be remembered that, when the contract was awarded by the former Department of Public Parks, no surveys had been made on which plans for either approach could be formed. The matter of interference with water grants had not been recognized or taken up, nor was it known what land, if any, would have to be purchased for the City Island approach. The solution of all questions depending upon these unsettled features of the work had to be reached subsequent to the award of the contract, and largely during the actual progress of the work on the river portion of the structure. Those portions of the final plans depending upon unknown data involved in reality both approaches, and the settlement of all questions connected with them was not reached until March of the present year.

Although notice to begin work on the bridge spans and their foundations was given to the contractor on December 19, 1898, it was found advisable subsequently to that date to modify the masonry and foundation plans and to enlarge the east approach, so as to conform to the new street lay-out of City Island. No decision was reached in these premises until January 24, 1899, when the proposed modifications were rejected by the Board of Estimate and Apportionment. The enlarged east approach was then abandoned, and on February 23, 1899, I received orders that only so much should be completed as would be covered by the quantities of the preliminary estimate. A plan to illustrate this scheme was prepared on which it was shown that only forty feet of the two hundred and eighty-seven feet City Island approach could be built complete. The order for this modified work was given to the contractor, but the partial approach was not completed.

The modification of plans involving the increased dimensions of piers was not secured without considerable delay, and it was May 11, 1899, before the contractor was ordered to proceed under the modified plans. In the meantime the east or City Island approach remained in an unfinished condition until July, 1900, when the contractor was instructed to complete the work. For various legal reasons alleged by the contractor he refused to proceed to the completion of that approach

work, as outlined in my report to the Commissioner of Bridges, dated July 28, 1900. After a number of conferences it was decided to prepare a supplementary contract with specifications and estimate for finishing the approach, which was done by the Consulting Engineer and myself. This proposed contract with specifications was not finally used as, on October 4, 1900, the contractor, under instructions from the Department of Bridges, proceeded to complete the work under his original contract. The work then proceeded with little delay until suspension on account of winter weather. This work was done in anticipation of the approval of the final plans by the Board of Estimate and Apportionment, the Sinking Fund having authorized the lease of certain lands (pending condemnation) on November 14, 1900. As late as September 18, 1899, the contractor was threatened for trespass by one of the property-owners, although it was possible, had he desired, to deposit filling as far as high-water mark on City Island, since the land under water was given to the City for a nominal consideration in 1899.

In consequence of all these complications the plans for the City Island approach were only finally completed so as to receive the approval of the Board of Estimate and Apportionment on March 8, 1901. Obviously, therefore, it was not possible for the contractor to complete the work under his contract prior to March 8 of the present year. After that date he proceeded with the work with reasonable diligence, and it was completed for the opening of the structure to travel without unreasonable delays.

Under these circumstances it would appear, from an engineering point of view, that no over-time could accrue on which the penalty clause of the contract could operate prior to March 8, 1901, since which date there was no unreasonable delay on the part of the contractor prior to the opening of the structure to traffic. It is my judgment, therefore, and my recommendation, that no penalty for overtime in the completion of this contract be imposed.

Respectfully,

J. G. THEBAU, Engineer-in-Charge, Borough of The Bronx.

OCTOBER 23, 1901.

I fully approve the conclusion finally reached by Mr. Thebau in the matter of the overtime proposed to be charged to the contractor.

SAM'L R. PROBASCO, Chief Engineer, Department of Bridges.

The following resolution was then adopted:

Resolved, by the Board of Public Improvements, That the Commissioner of Bridges be and is hereby authorized to remit the penalty for four hundred and seven (407) days' overtime on the contract of John F. O'Rourke, contractor for the new City Island Bridge, Borough of The Bronx, said overtime not having been caused through any fault of the contractor.

Affirmative—Commissioner of Highways, Commissioner of Street Cleaning, Commissioner of Sewers, Commissioner of Bridges, President of the Borough of The Bronx and President of the Board.

Negative—None.

REPORTS FROM TOPOGRAPHICAL ENGINEER.

The following report from the Chief Topographical Engineer was referred to the Commissioner of Sewers:

TOPOGRAPHICAL BUREAU, NEW YORK, October 18, 1901.

Mr. JOHN H. MOONEY, Secretary, Board of Public Improvements:

SIR—In reply to the action taken by the Board of Public Improvements, referring for report a communication from the President of the Borough of Queens, recommending the construction of a public sewer in "Crescent," between Hoyt avenue and Flushing avenue, First Ward, Borough of Queens, I have to state, that the sewer cannot be built until the proper plan of drainage has been filed, which is necessary on account of the radical change made in the location of the trunk sewer.

I submit for this purpose for adoption and the approval by the Commissioner of Sewers, a map entitled "Modified Plan of Drainage, showing the location, sizes and grades in Sewerage Districts Nos. 6-8, 'Crescent,' between Hoyt and Flushing avenues, in the First Ward (formerly Long Island City), Borough of Queens, City of New York."

This plan is a modification of the sewer, shown in the grade, monument and sewer book of Long Island City, filed in the City Clerk's office, December 31, 1875.

"Crescent" is not legally opened, but the portion between Hoyt avenue and Flushing

avenue is included in proceedings initiated February 15, 1899, for opening "Crescent," from Hunter avenue to Winthrop avenue.

Papers in the matter are herewith returned.

Respectfully,

LOUIS A. RISSE,
Chief Topographical Engineer and Engineer of Concourse.

MISCELLANEOUS COMMUNICATIONS.

The following communications were referred to the Chief Topographical Engineer:

No. 34 PINE STREET, October 18, 1901.

To the Board of Public Improvements of The City of New York:

GENTLEMEN—Mr. Edmund Coffin is the owner of the land on the west side of Edgcombe avenue, 475 feet south of One Hundred and Forty-fifth street, New York City, upon which he has just erected a large livery stable; these premises are within the lines of the new street proposed by resolution of your Board to be laid upon the City Map between Edgcombe avenue and St. Nicholas avenue.

I respectfully protest against the passage of this resolution on the ground that the grade between these two avenues is impracticable, being over 16 feet in every 100 feet, and such street would be of no benefit to the public.

Will you kindly notify me when this resolution will be considered, and oblige,

Yours truly,

ISIDOR GRAYHEAD, Attorney for Edmund Coffin.

To the Board of Public Improvements, Hon. MAURICE F. HOLAHAN, President:

The petition of the undersigned respectfully shows:

That your petitioners are the owners of all the lands lying between Mills street and the East river, within and abutting upon the lines of a street laid out on the map of the First Ward of the Borough of Queens, and known as Franklin street.

That all arteries necessary, requiring an outlet to the East River for shipping or other purposes, are sufficiently supplied by the establishment of contiguous streets, and the demand either from existing improvements or contemplated changes in the development of the surrounding territory is adequately aided by the opening of eleven other streets running direct to the East river in a total frontage on said river of twenty-six hundred (2,600) feet.

That the premises of your petitioners are improved, and the taking of the land necessary for the opening of Franklin street would result in the destruction of buildings to the value of two hundred thousand dollars (\$200,000). The greater share of the expense of such acquisition the City of New York would be obliged to bear.

Wherefore your petitioners pray that your Honorable Board will grant them the relief sought herein by closing and discontinuing said Franklin street, between Mills street and the East river.

Dated August 27, 1901.

NEW YORK AND QUEENS ELECTRIC LIGHT AND POWER COMPANY,
By HENRY R. WILSON, Vice-President.

BERTHA VOLKENING.

The following communication was placed on file:

To the Board of Public Improvements of The City of New York:

We, the undersigned, owners of property in the Borough of the Bronx, proposed to be assessed for alleged benefit by reason of proceedings to acquire title to West Farms road, from Southern Boulevard and Westchester avenue to Boston road, in the Borough of the Bronx, in the City of New York, respectfully petition your Honorable Board to direct that one-half of said assessments be placed upon the City at large, for the following reasons:

The road as proposed to be acquired is to be an eighty-foot street, whereas a street of the usual width of sixty feet would completely meet all the requirements of the property in this section, and the additional twenty feet is acquired in order to make this road a wide public thoroughfare.

The Commissioners in this proceeding have seen fit to limit the area of assessment on the east by the Bronx river, which is an average distance of less than 300 feet from the improvement, and for that reason have imposed a very large assessment upon property directly benefited, and have extended the area of assessment to the west to the extent of over 1,200 feet, thus including property which derives absolutely no direct or indirect benefit by reason of this improvement. If the total amount to be raised by assessment in this proceeding is reduced by placing a portion of it upon the City, the said Commissioners may then reduce the burden of the assessment upon the properties abutting on West Farms road and lessen the area of assessment so as to cover only those parcels which receive benefit by reason of this proceeding without making the assessment so high as to make it a practical confiscation of property.

Dated, New York, October 17, 1901.

LEWIS W. MINFORD AND THOMAS MINFORD,
Executors, etc., of THOMAS MINFORD, deceased.

By CHARLES V. GABRIEL, their attorney,
No. 320 Broadway, New York City.
