### Proposals.

#### INVITATION TO CONTRACTORS.

Part of the Broadway-Fourth Avenue and Eastern Parkway Rapid Transit Railroad.

**THE PUBLIC SERVICE COMMISSION FOR** the First District (hereinafter called the "Commission"), acting for and on behalf of The City of New York (hereinafter called the "City"), invites proposals to construct Section No. 1 of Route No. 12, a part of the Broadway-Fourth Avenue Rapid Transit Railroad and of the Eastern Parkway Rapid Transit Railroad.

The points within the City of New York between which the said part is to run and the route or routes to be followed are briefly as follows:

Section No. 1. Beginning at a point under Flatbush Avenue, in the Borough of Brooklyn, about the intersection of the center lines of Atlantic Avenue and Flatbush Avenue, where a connection is to be made with the existing Brooklyn-Manhattan Rapid Transit Railroad and extending thence southeasterly under Flatbush Avenue to a point about two hundred and seventy-four (274) feet southeast of the northeast corner of St. Marks Avenue and Flatbush Avenue.

Also beginning at a point under Fulton Street about the intersection of the center lines of Fulton Street and Ashland Place, where a connection is to be made with the existing Fourth Avenue Rapid Transit Railroad, and extending thence easterly under Fulton Street to a point about sixty-five (65) feet east of the easterly building line of Ashland Place, curving thence southeasterly under Fulton Street and private property into St. Felix Street, extending thence southeasterly under St. Felix Street to a point about opposite the northerly building line of Hanson Place.

Also beginning at a point under private property to be acquired by the City in the block bounded by Atlantic Avenue, Fifth Avenue and Flatbush Avenue, thence curving southeasterly under Flatbush Avenue to a connection with the main line.

The general plan of construction calls for a subsurface railroad having two, four and six tracks.

The Contractor will not be required to provide or lay tracks, ties or ballast, nor to do station finish work.

The work under the contract will include the care and support of buildings, vaults, sewers, pipes, railroads and other surface, subsurface and overhead structures, the maintenance of traffic and the restoration of pavements and other surfaces.

The method of construction will be by trench excavation under cover, unless otherwise permitted by the Commission.
