## AN APPROVED PAPER.

Whereas, May 28, 1904, the Saturday next preceding Memorial Day, is a half-holiday; and

Whereas, The annual services that shall make manifest the nation's never-dying gratitude towards its heroic dead will occupy all of Sunday and Memorial Day, causing much of the preparation therefor to fall on said preceding Saturday; and

Whereas, July 2, 1904, the Saturday next preceding Independence Day, is a half-holiday; and

Whereas, Many persons and families desire to and do leave town on Friday evening, July 1, to remain away until Tuesday morning, July 5; therefore be it

Resolved, That the heads of the several departments of the Government of The City of New York be and they are hereby requested to close their respective offices on the said Saturdays, May 28 and July 2, 1904; and that all offices not by law required to be kept open for public business be closed on said Saturdays, and the said heads of departments are severally requested to pay all per diem men for these days where practicable.

Adopted by the Board of Aldermen May 24, 1904.

Approved by the Mayor May 25, 1904.

Chester District Alliance,  
Westchester, New York City, June 25, 1904.

P. J. SCULLY, Esq., Clerk of Board of Aldermen, New York City:

Dear Sir—The Chester District Alliance has learned with great satisfaction that the Board of Estimate and Apportionment yesterday approved the ordinance asked for by the New York, Westchester and Boston Railway Company. The matter has been delayed so long that every progressive step signifies a great deal to our people. We have for many years been forced to submit to the most serious transportation inconveniences. Our borough has suffered and our property owners have suffered. The approval of this ordinance, however, points a way to what we believe will be the end of our thralldom.

This measure will come before the Board of Aldermen on next Tuesday. The members of our organization earnestly hope that you, as a member of the Board, will do everything possible to secure the final passage of this ordinance on that date. The matter has been thoroughly discussed. The time has come for action.

The supreme demand of the Borough of The Bronx is for rapid transit. Will you not help us, by voting to approve the action of the Board of Estimate to secure that which we so sorely need.

Yours very respectfully,

WILLIAM A. COKELEY.

Van Nest Property-Owners' Association,  
Affiliated with the Taxpayers' Alliance,  
of the 23d and 24th Wards, New York City,  
New York, June 24, 1904.

To the President and Members of the Board of Aldermen of New York, City Hall, N. Y.:

Gentlemen—Upon behalf of the Van Nest Property-Owners' Association, I inclose you matter which has been sent to us by representatives of the public, relating to the contest between the people and the New York Board of Aldermen, in the effort of the people to secure from the Board of Aldermen the ordinance for the New York and Port Chester Railroad.

The inclosures are as follows:

(1) Resolutions passed by the Journeymen's Stone Cutters' Association of New York and vicinity, on June 16, 1904, calling attention to the fact that organized labor demands the immediate passage of the Port Chester ordinance, and the rejection of the ordinance of the dead New York, Westchester and Boston Railroad.

(2) Circular letter sent out by the "North Side News," the leading paper of the Borough of The Bronx, to the north side business men, calling the attention of the north side business men to the injury which The Bronx is being subjected to on account of the Aldermanic hold-up of the Port Chester ordinance, and the attempt of certain members of the Board of Aldermen to foist upon the public against its united protest, an ordinance of the dead New York, Westchester and Boston Company.

(3) Circular letter from the "North Side News" to the working men and representatives of organized labor of The Bronx, calling attention to the Aldermanic hold-up and the injury to which organized labor is being subjected by the Aldermen in their hold-up of the Port Chester Railroad, and the attempt of that Board to pass an ordinance for the dead Westchester and Boston Railroad.

(4) A preamble and set of resolutions adopted by the Common Council of the City of Mount Vernon at its meeting held June 21, 1904, and wherein the Common Council, upon behalf of organized labor, property-owners and the public, demand the passage of the Port Chester ordinance before the summer vacation of the Board of Aldermen, and wherein the said Common Council, upon behalf of organized labor and property-owners and the City of Mount Vernon, demands the rejection of the ordinance of the dead Westchester and Boston Railroad, for the reason that the passage of that ordinance will injure organized labor and the City of Mount Vernon in general.

(5) Preamble and resolutions adopted by the Common Council of the City of New Rochelle on June 21, 1904, asking the Board of Aldermen, the Mayor and The City of New York, to pass the Port Chester ordinance before the summer vacation, and to protect the City of New Rochelle and its labor, property-owners and other interests, by rejecting the ordinance of the dead Westchester and Boston Railroad.

All of the foregoing has been received by us, and we herewith send it to you to be presented to the Board of Aldermen at its next meeting, and for the reason that we desire it to become part of the records of the Board of Aldermen in this matter.

Yours respectfully,

Whereas, This organization did, on the 2d day of June, 1904, pass resolutions respectfully requesting the Board of Aldermen to pass favorably upon the petition of the New York and Port Chester Railway Company for a permit permitting the said railway to build a road through the Borough of The Bronx; and

Whereas, The said Board of Aldermen did in the month of January of this year pass upon the application of the New York and Westchester Railway Company favorably, knowing that the Court of Appeals had decided that said company could not build a road in The City of New York, and that said New York, Westchester and Boston Railway Company was dead beyond resurrection; and

Whereas, The Board of Estimate and Apportionment are now taking into consideration the advisability of placing certain conditions on this defunct corporation which, if carried out, would result in delaying the building of the New York and Port Chester Railway Company, thus depriving the people of The Bronx of the long-needed facilities of transit and keeping thousands of our members from employment; and

Whereas, The Board of Aldermen have treated the resolutions passed by this body with contempt and derision, refusing to act favorably upon the petition of the New York and Port Chester Railway Company, although it is now over a year since the application was first made to said Board of Aldermen for a permit to build its road, and the people of the City wanting to know why this hold-up continues; it is hereby

Resolved, That we demand that the Board of Aldermen, our representatives, elected by the people to do their duty honestly in all matters coming before them, pass favorably upon the petition of the New York and Port Chester Railway Company's application in order that work may be commenced during the summer months, thus giving to thousands of our members work, which is always needed and is necessary for their welfare; and

Resolved, That a copy of this resolution be sent to the Railway Committee of the Board of Aldermen, the President of the Board of Aldermen, the members of the Board of Estimate and Apportionment and the press.

To Working Men of The Bronx:

Every North Side labor organization should be represented at the Port Chester hearing of the Railroad Committee, in the Aldermanic Chamber, on Tuesday next at 11 A. M. The building of this road, extending from the Harlem river to Port Chester, involves an outlay of \$13,000,000, a large part of which will be paid out to working men employed on the job. Unless a permit to cross streets is given to the Port Chester Company, no railroad can be built, since the New York, Westchester and Boston Company has no charter, and so can make no use of the permit granted by the Board of Aldermen. It is, therefore, a plain issue between having a railroad which will furnish two years' employment for a large body of workers and no railroad and no employment for anybody. In holding up the Port Chester application the Railroad Committee and the Board of Aldermen are guilty of directing an open hostility to labor.

Working men owe it to themselves and the cause maintained and vindicated by unions to serve formal notice on the Board of Aldermen that this policy of obstruction must stop, and the Port Chester ordinance be promptly passed, so that the railroad may be constructed and labor have a new field opened for its activity.

Don't forget the hour, 11 A. M.

The North Side News,  
North Side News Building,  
One Hundred and Forty-ninth Street and Bergen Avenue, Bronx,  
New York, June 18, 1904.

To North Side Business Men:

The business community of The Bronx should be effectively represented at the Port Chester hearing of the Railroad Committee, in the Aldermanic Chamber, next Tuesday at 11 A. M. Every branch of trade and industry in the borough suffers enormous loss by the persistent denial of adequate transit facilities. To-day an unprecedented building boom is in progress in the Morrisania half of the borough, but east of the Bronx river there is universal stagnation. This condition has but one cause, and the evil can be removed only by the building of a railroad. The Port Chester Company can and will construct a line from the Harlem line to the State boundary of Connecticut, if it secures the necessary permit from the Board of Aldermen. It has a charter from the State and abundance of capital. The New York, Westchester and Boston Company, on the other hand, has no charter, and, therefore, a permit from the Board of Aldermen and the possession of unlimited capital are of no avail. During the first five months of 1904 the estimated cost of new buildings for which plans were filed in The Bronx approximates \$4,000,000, most of which is in Morrisania. To inaugurate a building boom in Chester, and general activity in a material trade, as well as stimulate every branch of business, it is only necessary to construct and open the railroad which will bring everything else now waited for in its train.

For this reason the Railroad Committee and the Board of Aldermen should be warned to desist immediately from its determination to strike a fatal blow at the business interests of the North Side. To bring the issue home to the Aldermen, The Bronx business community must make itself heard in the Aldermanic Chamber on Tuesday.

Don't forget the hour, 11 A. M.

STUMPF & STEURER.

Whereas, The city of Mount Vernon, acting through its Common Council, and upon behalf of the public, the laboring men and taxpayers of the city of Mount Vernon, did, in 1903, petition the Board of Aldermen to expeditiously grant the application of the New York and Port Chester Railroad, conferring upon that road the right to cross those streets of the Borough of The Bronx which will be crossed by the line of its road; and

Whereas, Said action of the Common Council of Mount Vernon upon behalf of its citizens and the public, was only taken after the said New York and Port Chester Railroad had secured its charter from the State Railroad Commission, and had twice unanimously sustained that charter by decisions from the New York Court of Appeals, and after it had already secured from the cities of Mount Vernon, New Rochelle, and from the Supreme Court, the right to cross all of the streets and public highways of Westchester County which would be crossed by the line of its road, and shown itself entitled to the confidence and respect of the public; and

Whereas, The delay to which the entire public of The City of New York, Mount Vernon, Westchester County, and the Borough of The Bronx are being subjected by the New York Aldermen, is greatly to the injury of many thousands of workmen and many thousands of property-owners and taxpayers; and

Whereas, Organized labor of The City of New York, through its central bodies, the Central Federated Union and the Journeymen's Stonecutters' Association of New York, representing together over 300,000 union workmen, have already petitioned the Board of Aldermen and the Mayor to at once act favorably on the application of the New York and Port Chester Railroad, and, at the same time petitioned, requested and demanded the Mayor, the Board of Aldermen and the Board of Estimate and Apportionment to at once reject the application of the defunct New York, Westchester and Boston Railroad Company, and thereby, by so doing, protect the interests and rights of organized labor and the taxpayers and property-owners; and

Whereas, As is well known, the New York Board of Aldermen does each summer adjourn during the month of August; and

Whereas, The public sentiment of Westchester County and the Borough of The Bronx always has been, and is yet, and will continue to be unanimous in demanding of the New York Board of Aldermen that they grant this great public improvement by at once acting favorably upon the ordinance of the New York and Port Chester Railroad Company, and that they do so before the adjournment of the said Board of Aldermen for the summer; and

Whereas, The highest courts of the State of New York have declared that the alleged corporation which has recently sought to obtain from the New York Board of Aldermen the same right to which the Port Chester Road alone is entitled, is a defunct corporation, and in view of the decisions of the said Supreme Court and the Court of Appeals, it is apparent that the said defunct New York, Westchester and Boston Railroad Company can never build any road within The City of New York, even should the Board of Aldermen and the Mayor attempt to confer upon them a right to do so; and

Whereas, The attempted conferring of any rights by the Mayor, the Board of Aldermen or the Board of Estimate and Apportionment of The City of New York upon the defunct Westchester and Boston Railroad will be directly against the interests and wishes of thousands of laboring men, as well as prevent the investment of much capital, now ready for investment in The Bronx and Westchester County, as well as prevent the public of The Bronx and Westchester County from receiving the necessary and imperative transportation facilities which the New York and Port Chester Railroad alone can and will give to it, and which the said public has fought for for the past four years; therefore

Resolved, That the Common Council of the City of Mount Vernon, at a meeting held on Tuesday, June 21, 1904, does hereby, upon behalf of the City of Mount Vernon and upon behalf of the laboring men, citizens and taxpayers of Mount Vernon protest against The City of New York injuring the interests of the City of Mount Vernon and its citizens by attempting to confer any rights upon the defunct New York, Westchester and Boston Railroad, and does hereby request the said Board of Aldermen, the said Mayor, and the said Board of Estimate and Apportionment of The City of New York to at once reject the application of the defunct Westchester and Boston Railroad and demand that the said defunct Westchester and Boston Railroad shall first secure its certificate from the Railroad Commission, and shall demonstrate by a decision of the Court of Appeals that it has a legal existence; and it is further

Resolved, That the Board of Aldermen, and the Mayor of The City of New York be and hereby are requested upon behalf of the city of Mt. Vernon, its citizens, laboring men and taxpayers, to grant to the New York and Port Chester Railroad the right for which that railroad has applied and to which it alone is entitled, to cross the streets of The Bronx which its road will cross; and it is further

Resolved, That a Committee of three of the members of the Common Council of the City of Mt. Vernon be and hereby is appointed to attend the public hearing in the matter of the New York and Port Chester Railroad, called for Tuesday, June 28, 1904, and to at that hearing present to the Railroad Committee a copy of these resolutions, and to request of the said Railroad Committee and the Board of Aldermen at that hearing that the application of the New York and Port Chester Railroad be granted before the Board of Aldermen adjourns for the summer; and it is further

Resolved, That copies of this resolution be sent to the President and members of the Board of Aldermen, to the Mayor, and to the President and members of the Board of Estimate and Apportionment of The City of New York.

I, A. W. Reynolds, Clerk of the City of Mount Vernon, N. Y., do hereby certify that the above is a true and correct transcript from the minutes of the Common Council of the City of Mount Vernon, N. Y., at a meeting held June 21, 1904.

Given, under the hand of the Clerk of the City of Mount Vernon, N. Y., and the seal of said city affixed hereto, this 23d day of June, 1904.

[SEAL]

A. W. REYNOLDS, City Clerk.

Whereas, At the public hearing held by the Railroad Committee of the New York Board of Aldermen on May 23, 1904, it was again unanimously demonstrated that the entire sentiment, interest and welfare of the public of Westchester County and the Borough of The Bronx, demands immediate favorable action by the Railroad Committee and the New York Board of Aldermen on the application of the New York and Port Chester Railroad Company; and

Whereas, The said New York and Port Chester Railroad Company has acquired from the cities of New Rochelle and Mount Vernon, as well as from the Supreme Court of Westchester County, the right to cross every street in Westchester County which its line will cross, and has, in addition, sustained its charter by two unanimous decisions of the Appellate Division of the Supreme Court, and by two unanimous decisions of the Court of Appeals of the State of New York; and

Whereas, The said Appellate Division of the Supreme Court of the State of New York and the said Court of Appeals of the State of New York have both unanimously decided that the alleged and defunct corporation known by the name of the New York, Westchester and Boston Railroad Company can never build any railroad within The City of New York, and that it has long ceased to exist; and

Whereas, The Central Federated Union, representing upwards of 250,000 working men, together with the Journeymen's Stonecutters' Association, together with other representatives of labor and property, have repeatedly protested against the defunct New York, Westchester and Boston Railroad Company, and have as repeatedly requested and demanded the granting of the assent to the New York and Port Chester Railroad Company; and

Whereas, The summer vacation of the New York Board of Aldermen is approaching, and the delaying of the granting of the assent to the said New York and Port Chester Railroad Company beyond the coming vacation will work irreparable injury to the laboring men, the public and the property-owners of Westchester County and the Borough of The Bronx; now therefore it is

Resolved, At a meeting of the Common Council of the City of New Rochelle, of Westchester County, held on the 21st day of June, 1904, That the said Common Council of the City of New Rochelle does, upon behalf of the City of New Rochelle, the laboring men, property owners, taxpayers and public of the City of New Rochelle and Westchester County, hereby earnestly petition the Board of Aldermen and the Mayor of The City of New York to grant the application of the said New York and Port Chester Railroad Company for the right to cross such streets of the Borough of The Bronx as will be crossed by the line of its road; and it is further

Resolved, That the Common Council of the City of New Rochelle does hereby earnestly and sincerely, upon behalf of the City of New Rochelle, and the laboring men and wage earners of Westchester County, hereby request the Board of Aldermen, the Mayor and the Board of Estimate and Apportionment of The City of New York to reject the application of the defunct New York, Westchester and Boston Railroad Company now before them, and thereby protect the interests of the laboring men and property owners of these sections; and it is further

Resolved, That a committee of three members of the Common Council of the City of New Rochelle be appointed by the Mayor to attend the hearing before the Railroad Committee of the New York Board of Aldermen at 11 o'clock A. M., on Tuesday, June 28, and to then and there read these resolutions and present them to the Railroad Committee of the Board of Aldermen with the request that they at once grant the application of the Port Chester Railroad; and it is further

Resolved, That copies of this action be sent to the Board of Aldermen of The City of New York, to the Mayor of The City of New York, and to the members of the Board of Estimate and Apportionment of The City of New York.

City:

Dear Sir—I beg to hand you herewith certified copy of resolution adopted at a regular meeting of the Common Council, held Tuesday evening, June 21, 1904.

Very truly yours,

CHARLES KAMMERMEYER, City Clerk.

Whereas, The city of Mount Vernon, acting through its Common Council, and upon behalf of the public, the laboring men and taxpayers of the city of Mount Vernon, did, in 1903, petition the Board of Aldermen to expeditiously grant the application of the New York and Port Chester Railroad, conferring upon that road the right to cross those streets of the Borough of The Bronx which will be crossed by the line of its road; and

Resolved, That the Common Council of the city of Mount Vernon, at a meeting held on Tuesday, June 21, 1904, does hereby, upon behalf of the city of Mount Vernon and upon behalf of the laboring men, citizens and taxpayers of Mount Vernon, protest against The City of New York injuring the interests of the city of Mount Vernon and its citizens by attempting to confer any rights upon the defunct New York, Westchester and Boston Railroad, and does hereby request the said Board of Aldermen, the said Mayor, and the said Board of Estimate and Apportionment of The City of New York to at once reject the application of the defunct Westchester and Boston Railroad and demand that the said defunct Westchester and Boston Railroad shall first secure its certificate from the Railroad Commission and shall demonstrate by a decision of the Court of Appeals that it has a legal existence; and it is further

Resolved, That the Board of Aldermen and the Mayor of The City of New York be and hereby are requested, upon behalf of the city of Mount Vernon, its citizens, laboring men and taxpayers, to grant to the New York and Port Chester Railroad the right for which that Railroad has applied and to which it alone is entitled, to cross the streets of The Bronx which its road will cross; and it is further

Resolved, That a Committee of Three of the members of the Common Council of the city of Mount Vernon be and hereby is appointed to attend the public hearing in the matter of the New York and Port Chester Railroad, called for Tuesday, June 28, 1904, and to at that hearing present to the Railroad Committee a copy of these resolutions and to request of the said Railroad Committee and the Board of Aldermen at that hearing that the application of the New York and Port Chester Railroad be granted before the Board of Aldermen adjourns for the summer; and it is further

Resolved, That copies of this resolution be sent to the President and members of the Board of Aldermen, to the Mayor, and to the President and members of the Board of Estimate and Apportionment of The City of New York.

I, A. W. Reynolds, Clerk of the city of Mount Vernon, N. Y., do hereby certify that the above is a true and correct transcript from the minutes of the Common Council of the city of Mount Vernon, N. Y., at a meeting held June 21, 1904.

Given under the hand of the Clerk of the city of Mount Vernon, N. Y., and seal of said city affixed hereto, this 23d day of June, 1904.

A. W. REYNOLDS, City Clerk.

Whereas, At the public hearing held by the Railroad Committee of the New York Board of Aldermen, on May 23, 1904, it was again unanimously demonstrated that the entire sentiment, interest and welfare of the public of Westchester County and the Borough of The Bronx demands immediate favorable action by the Railroad Committee and the New York Board of Aldermen on the application of the New York and Port Chester Railroad Company; and

Whereas, The said New York and Port Chester Railroad Company has acquired from the Cities of New Rochelle and Mount Vernon, as well as from the Supreme Court of Westchester County, the right to cross every street in Westchester County which its line will cross, and has, in addition, sustained its charter by two unanimous decisions of the Appellate Division of the Supreme Court, and by two unanimous decisions of the Court of Appeals of the State of New York; and

Whereas, The said Appellate Division of the Supreme Court of the State of New York and the said Court of Appeals of the State of New York have both unanimously decided that the alleged and defunct corporation known by the name of the New York, Westchester and Boston Railroad Company can never build any railroad within The City of New York, and that it has long ceased to exist; and

Whereas, The summer vacation of the New York Board of Aldermen is approaching, and the delaying of the granting of the assent to the said New York and Port Chester Railroad Company beyond the coming vacation would work irreparable injury to the laboring men, the public and the property-owners of Westchester County and the Borough of The Bronx; now therefore it is

Resolved, At a meeting of the Common Council of the City of New Rochelle, of Westchester County, held on the 21st day of June, 1904, that the said Common Council of the City of New Rochelle does, upon behalf of the City of New Rochelle, the laboring men, property-owners, taxpayers and public of the City of New Rochelle and Westchester County hereby earnestly petition the Board of Aldermen and the Mayor of The City of New York to grant the application of the said New York and Port Chester Railroad Company for the right to cross such streets of the Borough of The Bronx as will be crossed by the line of its road; and it is further

Resolved, That a committee of three members of the Common Council of the City of New Rochelle be appointed by the Mayor to attend the hearing before the Railroad Committee of the New York Board of Aldermen at 11 o'clock A. M., on Tuesday, June 28, and to then and there read these resolutions and present them to the Railroad Committee of the Board of Aldermen with the request that they at once grant the application of the Port Chester Railroad; and it is further

Resolved, That copies of this action be sent to the Board of Aldermen of The City of New York, to the Mayor of The City of New York, and to the members of the Board of Estimate and Apportionment of The City of New York.

I, Charles Kammermeyer, City Clerk of the City of New Rochelle, do hereby certify that I have compared the preceding resolution with the original resolution adopted at a meeting of the Common Council of the City of New Rochelle, held on the 21st day of June, 1904, and do hereby certify that the same is a correct transcript therefrom and of the whole of such original.

In testimony whereof, I have hereunto subscribed my name and affixed the official seal of the City of New Rochelle, this 24th day of June, 1904.

P. J. SCULLY, Esq., City Clerk, New York City:

Dear Sir—We desire to call your attention, as a member of the Board of Aldermen, to the importance of the action of the Board of Estimate to-day in indorsing a contract which shall permit the New York, Westchester and Boston Railway Company to build its line in our borough. We understand that this proposition now goes to your Honorable Board, and we desire to most urgently petition your immediate approval of it.

Tremendous development of the Borough of The Bronx waits only upon improvement of our transit facilities. The measure which shall now come before you seems to us to offer the most promising improvement in that line which has been projected in many a year. The Westchester Company seems ready and eager to actually build a new railroad. Others may be ready and willing, too. We do not know about that. But we do know that the Westchester proposition has been developed further than any similar plan has ever gone. To delay it now, while you wait to see what others may do, means serious harm to our interests.

We beg that you will vote to pass the Westchester ordinance without delay. Assuring you of our cordial respect,

THE BRONX PROPERTY OWNERS' ASSOCIATION,

William Eberle, President.

#### COMMUNICATIONS FROM CITY, COUNTY AND BOROUGH OFFICERS.

The President laid before the Board the following communication from the President, Borough of The Bronx, transmitting ordinance:

No. 786.

The City of New York,  
Office of the President of the Borough of The Bronx,  
Municipal Building, Crotona Park,  
New York, June 27, 1904.

Hon. CHARLES V. FORNES, President of the Board of Aldermen:

Dear Sir—I beg leave to inclose copy of a resolution adopted by the Board of Estimate and Apportionment on June 10, 1904, in the matter of the construction of approaches to bridges over the Port Morris Branch Railroad, pursuant to chapter 424, of the Laws of 1903, and I would respectfully ask you to present the matter to the Board of Aldermen at its meeting to-morrow, as it is a matter of great importance to provide the necessary means to provide for the construction of these approaches.

Very truly,

LOUIS F. HAFFEN,  
President of the Borough of The Bronx.

AN ORDINANCE providing for an issue of Corporate Stock in the sum of three hundred thousand dollars (\$300,000) to provide the necessary means for the payment of all expenses to be borne by The City of New York, in connection with the construction of bridges and approaches to bridges over the Port Morris Branch Railroad, between One Hundred and Fifty-sixth street and the East river.

Be it Ordained by the Board of Aldermen of The City of New York, as follows: The Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment on June 10, 1904, and authorizes the Comptroller to issue Corporate Stock of The City of New York to the amount and for the purposes therein specified:

Resolved, That, pursuant to the provisions of sections 169 and 176 of the Greater New York Charter, the Comptroller be and hereby is authorized to issue Corporate Stock of The City of New York to an amount not exceeding three hundred thousand dollars (\$300,000), to provide the necessary means for the payment of all expenses to be borne by The City of New York, pursuant to the provisions of chapter 424 of the Laws of 1903, in connection with the construction of bridges and approaches to bridges over the Port Morris Branch Railroad, between East One Hundred and Fifty-sixth street and the East river.

President Haffen moved the adoption of the ordinance.

The President put the question whether the Board would agree with said ordinance. Which was unanimously decided in the affirmative by the following vote:

Affirmative—Aldermen Ahner, Baldwin, Boerner, Boyhan, Brenner, Callahan, Chambers, Collins, Dietz, Dougherty, Dowling, Doyle, Gillen, Haenlein, Higgins, James, Jones, Keely, Kenney, Kevin, Kline, Koch, Lochner, McCall, McCarthy, Malone, Morris, Arthur H. Murphy, Owens, Poole, Redmond, Richter, Robinson, Schloss, Shea, Sheil, Stapleton, Sturges, Twomey, Ware, Wafer, Wentz, President Cromwell, President Haffen and the Vice-Chairman—45.

The President laid before the Board the following communication from the Department of Public Charities:

No. 787.

Department of Public Charities of The City of New York,  
Foot of East Twenty-sixth Street,  
June 22, 1904.

To the Honorable the Board of Aldermen, City Hall, City.

Gentlemen—I beg to request that a resolution be adopted, under section 419, chapter 10 of the Charter, authorizing this Department to purchase in the open market, without advertising, a steamboat, at a cost not exceeding \$11,000. This boat is to be used for the ferry service which this Department maintains between the City, Randall's and Blackwell's Islands. One of the launches that has been used on this service was loaned to this Department by the Department of Correction, and now it is required for the service of that Department. The emergency has been so great lately that we have chartered a steam launch such as we require at a cost of \$25 per day, and find it admirably adapted for our purposes. This boat can be bought of the owner for \$11,000. This sum will include the amount already due on the charter. I consider it advisable to buy the boat in this way, as it would take at least six months to advertise for and have a boat built to suit our purposes. We have the funds necessary to purchase this boat, and the only question is to have authority to buy without advertising. During the year 1903 our boats carried 492,677 passengers, of which 150,131 visited Randall's Island.

Respectfully submitted,  
JAMES H. TULLY, Commissioner.

Which was referred to the Committee on Public Letting.

The President laid before the Board the following communication from the Board of Estimate and Apportionment, transmitting ordinance.

No. 788.

Board of Estimate and Apportionment—The City of New York,  
June 24, 1904.

Hon. CHARLES V. FORNES, President, Board of Aldermen:

Dear Sir—I send you herewith certified copy of resolutions adopted by the Board of Estimate and Apportionment, at a meeting held this day, fixing the terms and conditions of the proposed consent on the part of The City of New York granting the right to the New York, Westchester and Boston Railway Company to cross certain streets and highways in the Borough of The Bronx, and to construct and operate a four-track railway thereon.

This action was taken pursuant to a resolution adopted by the Board of Aldermen on March 15, 1904.

Respectfully,  
J. W. STEVENSON, Secretary.

**PROPOSED TERMS AND CONDITIONS GRANTING TO THE NEW YORK, WESTCHESTER AND BOSTON RAILWAY COMPANY THE RIGHT TO CROSS CERTAIN STREETS AND HIGHWAYS IN THE BOROUGH OF THE BRONX, AND TO CONSTRUCT AND OPERATE A FOUR-TRACK RAILWAY THEREON.**

Resolved, That the Board of Estimate and Apportionment, having received from the Board of Aldermen, pursuant to a resolution of such Board adopted March 15, 1904, a proposed ordinance, granting to the New York, Westchester and Boston Railway Company the right to cross certain streets and highways for the purposes of constructing and operating a four-track railway, and having duly inquired into and considered the matter, does hereby, pursuant to the Greater New York Charter, fix the terms and conditions of the proposed grant and the money value of the right proposed, for a period of 25 years from the date of the approval of the proposed ordinance by the Mayor, as follows:

I.—The New York, Westchester and Boston Railway Company, its successor and assigns, shall pay into the Treasury of The City of New York for this privilege the following sums of money: During the first ten years, commencing upon the date when the ordinance granting such right shall be approved by the Mayor, an annual sum of eight thousand (8,000) dollars, and during the succeeding fifteen years an annual sum of sixteen thousand (16,000) dollars. From the date of the commencement of the operation of any portion of the railway until the end of the first ten years of the proposed grant an additional sum of forty (40) cents per linear foot per annum for each line of single track railway within the lines of any street in use, legally opened street, or street for which proceedings to open have been initiated; and for the succeeding fifteen years an additional sum of eighty (80) cents per linear foot per annum, in lieu of said sum of forty (40) cents. The terms hereafter to be fixed for any renewal term of the proposed grant, shall not in any event be less than the minimum amount fixed as the sum to be paid annually during the last year of the original grant, and no renewal of such grant shall provide for a further renewal.

II.—Upon the termination of the proposed grant, whether original or renewal, all rights and privileges to cross the said streets shall cease and determine, unless the said railway company, its successor or assigns, shall have previously procured a new grant from The City of New York.

III.—The ordinance granting such right or privilege should be in substance, as to the terms and conditions of such grant, in the words and figures following:

AN ORDINANCE granting to the New York, Westchester and Boston Railway Company the right to cross certain streets and highways and to construct and operate a four-track railway above or below said streets or highways of The City of New York.

Be it Ordained by the Board of Aldermen of The City of New York, as follows:

Section 1. The Board of Aldermen of The City of New York hereby grants to the New York, Westchester and Boston Railway Company, subject to the conditions and provisions hereinafter set forth, the right to cross certain streets and highways and the privilege to construct and operate a four-track railway, with all connections, turnouts, switches and cross-overs necessary for the accommodation and operation of said railway, by means of electricity, except the overhead trolley system, or by any other mechanical motive power which may be lawfully employed upon the same, except steam locomotive power; in, upon and across the following-named streets, avenues, parkways, highways and public places, and upon the following route, all situate in the Borough of The Bronx, City, County and State of New York, namely:

First—Main Line: Beginning at a point on the Harlem river, between Lincoln avenue and Third avenue, and then running northerly substantially parallel to Lincoln avenue and crossing the Southern Boulevard, One Hundred and Thirty-fourth street, One Hundred and Thirty-fifth street and One Hundred and Thirty-sixth street, between Lincoln avenue and Third avenue; All as shown on maps entitled "Map and Profile of the Amended Route of the New York, Westchester and Boston Railway Company, Section 1," adopted by the Board of Directors of said company on the twentieth day of May, 1904, and signed by Wm. L. Bull, President; John Bogart, Engineer, and H. C. Winchester, Secretary, under seal, and "Map and Profile of the Amended Route of the New York, Westchester and Boston Railway Company, Section 2," adopted by the Board of Directors of said company on the seventh day of April, 1904, and signed by Wm. L. Bull, President;

John Bogart, Engineer, and Thomas W. Baker, Secretary, under seal, and which maps and profiles were filed in the office of the County Clerk of the City and County of New York on the 23d day of June, 1904, or any lawful amendment thereof consented to by the Board of Estimate and Apportionment.

Second—Branch Line: Beginning at a point on the main line of the New York, Westchester and Boston Railway at or near One Hundred and Eightieth street and running southerly, crossing One Hundred and Eightieth street, Lebanon street, West Farms road, One Hundred and Seventy-eighth street and One Hundred and Seventy-seventh street, between Morris Park avenue and Bronx Park avenue (with a curved connection also joining the main line near One Hundred and Seventy-seventh street which crosses One Hundred and Seventy-seventh street and Bronx Park avenue at or near their intersection); then crossing the New York, New Haven and Hartford Railroad and running southerly crossing Westchester avenue; thence running southeasterly and crossing the Clason Point road near Clason's Point and running substantially parallel with the United States bulkhead-lines, in the vicinity of Clason's Point; thence crossing Pugsley's creek and Westchester creek and Baxter creek, and thence running easterly along Throgs Neck and crossing Throgs Neck road with a terminal near the lines of the United States Reservation property. All as shown on a map entitled "Map and Profile of the Amended Route of the New York, Westchester and Boston Railway Company, Section 3," adopted by the Board of Directors of said company on the 5th day of May, 1904, and signed by Wm. L. Bull, President; John Bogart, Engineer, and H. C. Winchester, Secretary, under seal, and which maps and profiles were filed in the office of the County Clerk of the City and County of New York on the 23d day of June, 1904, or any lawful amendment thereof consented to by the Board of Estimate and Apportionment.

Third—General: And such other streets, avenues, highways, public places, etc. (named and unnamed), as may be hereafter opened or encountered in such routes or amended routes; and also such other streets, avenues, highways, public places, etc. (named and unnamed), now open or in use, or as may be hereafter opened or put in use, which it may be necessary for said railway to cross in order to make connections with any other railway within one thousand (1,000) feet of said routes; provided that the Board of Estimate and Apportionment shall first have given permission for such connection or connections, and provided further that such connections shall be limited to two in number.

Sec. 2. The grant of this privilege is subject to the following conditions:

First—The provisions of section 6 of the Railroad Law shall be fully complied with, and in addition to the maps required to be filed with the Railroad Commissioners, it shall be incumbent upon the grantee to file with the Comptroller of The City of New York, and also with the President of the Borough of The Bronx, a map or maps showing the number of tracks and the length and direction of each crossing of all streets legally open, in use, or for which proceedings have been initiated to open, accurately determined by measurements to be taken after the commencement of the operation of any portion of the railway.

Second—The said right to cross the streets and the privilege to construct and operate said railway shall be held and enjoyed by said railway company, its lessee or successors, for the term of twenty-five years from the date when this ordinance is approved by the Mayor, with the privilege of renewal of said grant for a further period of twenty-five years upon a fair revaluation of said right and privilege. Such revaluation shall be of the right and privilege to maintain and operate said railway across the said streets by itself, and not to include any valuation derived from the ownership, operation or control of any other railroad by the grantee, its successor or assigns.

If the railway company shall determine to exercise its privilege of renewal, it shall make application to the Board of Estimate and Apportionment of The City of New York, or any authority which shall be authorized by law to act for the City in place of the said Board. Such application shall be made at any time not earlier than two years and not later than one year before the expiration of the original term of this grant. The determination of the revaluation shall be sufficient, if agreed to in writing by the railway company and the Board of Estimate and Apportionment or such other authority in its place. If the railway company and the Board, or such other authority in its place for the City, shall not reach such agreement on or before the day one year before the expiration of the original term of this grant, then the annual rate of compensation for such succeeding twenty-five years shall be reasonable; and either the City (by the Board, or such other authority in its place) or the railway company shall be bound upon request of the other to enter into a written agreement with such other authority fixing the rate of such compensation at such amount as shall be reasonable; and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board of Estimate and Apportionment or its successors in authority; one disinterested freeholder shall be chosen by the railway company; these two shall choose a third disinterested freeholder; and the three so chosen shall act as appraisers and shall make the revaluations aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of the grant, and their report shall be filed with the Comptroller or his successor in authority within three months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience, and upon such information as they may obtain by inquiries and investigations without the presence of either party. They shall have the right to examine the books of the railway company. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but shall not in any event be less than the minimum amount fixed as the sum to be paid annually for the last year of the original grant. If in any case the annual rate shall not be fixed prior to the termination of the original term of this grant, then the railway company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate.

Third—Upon the termination of this grant, whether original or renewal, all rights and privileges hereby granted to cross the said streets shall cease and determine, unless the said railway company, its successor or assigns, shall have previously procured a new grant for the same from The City of New York.

Fourth—The New York, Westchester and Boston Railway Company, its successor or assigns, shall pay for this privilege to The City of New York the following sums of money: During the first ten years, commencing upon the day when this ordinance shall be approved by the Mayor, an annual sum of eight thousand (8,000) dollars, and during the succeeding fifteen years an annual sum of sixteen thousand (16,000) dollars. From the date of the commencement of the operation of any portion of the railway until the end of the first ten years of this grant, an additional sum of forty (40) cents per linear foot per annum for each line of single track railway within the lines of all streets in use, legally opened streets, or streets for which proceedings to open have been initiated, and for the succeeding fifteen years an additional sum of eighty (80) cents per linear foot per annum, in lieu of said sum of forty (40) cents. Such payments shall likewise apply to all streets hereafter opened during the terms of this grant, unless the land required for the opening of such street across the right of way of the railway company shall have been ceded free of cost to The City of New York. All such payments shall be made to the Comptroller of the City in equal payments at the end of each quarter year on the 1st day of January, April, July and October in each year. The terms hereafter to be fixed for any renewal term of this grant shall not in any event be less than the minimum amount fixed as the sum to be paid annually during the last year of the original grant, and no renewal of such grant shall provide for a further renewal.

Fifth—The said annual charge or payment shall continue throughout the whole term of the privilege hereby granted, whether original or renewal, as hereinbefore provided, notwithstanding any clause in any statute or in the charter of any other railway company providing for payments for railway rights or franchises at a different rate, and no assignment, lease or sub-lease of the rights or privileges hereby granted, whether original or renewal, or of any part thereof, or of any of the routes mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sub-lease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this grant; and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said

condition as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise, exemption from liability to perform each and all of the conditions of this grant. Nothing herein contained shall apply to any mortgagee or mere lienor, but shall apply to any purchaser upon foreclosure or under or by virtue of any provision of a mortgage or lien.

Sixth—The rights and privileges granted hereby shall not be assigned either in whole or in part, or leased or sub-let in any manner, nor shall title thereto or right, interest or property therein pass to or vest in any other person or corporation whatsoever, either by the act of the New York, Westchester and Boston Railway Company, its successor or assigns, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations, or otherwise, without the consent of The City of New York, acting by the Board of Estimate and Apportionment, or its successor in authority, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents. This provision, however, shall not apply to the making of a mortgage, but shall apply to a sale under foreclosure.

Seventh—No street shall be crossed by the railway at grade, and all streets now open or in use, or streets hereafter opened crossing the line of said railway shall be carried over or under said railway by the grantee, at the sole cost and expense of the grantee. The costs of all approaches to said crossings and any damages to property incurred by such change of grade shall likewise be borne and paid by the grantee.

Eighth—All viaducts over streets and all tunnels under streets and all bridges necessary to carry the streets over an open cut, shall be constructed at the expense of the grantee, and in such manner as shall not interfere with the ordinary use of the street as a public highway. All viaducts over streets shall have a height of at least sixteen feet in the clear throughout, and in the case of arch construction not less than sixteen feet in the clear at the centre and ten feet in the clear on the building or side line of said street. In the case of tunnel construction under a street, there shall be at least four feet between the grade of the street and the exterior surface of the arch of said tunnel.

Ninth—Any superstructure of the railway crossing a street and having a length of seventy-five (75) feet or less, shall be constructed in a single span; if more than seventy-five (75) feet in length, intermediate columns to support the structure may be placed in the street in such manner as may be approved. The width of such superstructure of the railway shall not exceed sixty (60) feet when measured over all.

Tenth—The plans for all structures over or under any street must first be submitted to and approved by the Board of Estimate and Apportionment, and all such structures shall be constructed of either steel, concrete or masonry, or a combination of these materials.

Eleventh—The railway shall be constructed in the most modern and approved manner of railway construction. The roadbed shall be ballasted throughout its entire length within the limits of The City of New York, with a sufficient quantity of either blast furnace slag or broken trap rock of a hard and durable quality, and no dirt, sand, gravel or cinders shall be used in such ballast.

Twelfth—The roadbed within the limits of The City of New York shall be watered daily whenever the thermometer is above 35 degrees Fahrenheit. For any failure to comply herewith, the railway company shall be liable for a penalty of fifty dollars (\$50) per day.

Thirteenth—The entire right of way of the company within the City limits shall be fenced throughout.

Fourteenth—All abutments or foundations for bridges, viaducts and stations and the stations proper, except intermediate supports for viaducts, as hereinbefore provided, shall be placed on the land of the company. There shall be constructed along the line of the route of the main line of the railway as proposed, for the accommodation of local passenger traffic, at least six (6) stations between the Harlem river and the Bronx river, and at least four (4) stations between the Bronx river and the northerly line of The City of New York as now fixed; provided, however, that if the railway is constructed only as far south as the intersection of the Southern Boulevard and Westchester avenue, then there shall be at least three (3) stations west of the Bronx river. On the branch line there shall be constructed at least three (3) stations east of Westchester avenue.

Fifteenth—The said railway may be operated by electrical power, except the overhead trolley system, or by any other mechanical motive power which may be lawfully employed upon the same, except locomotive steam power; provided, however, that steam locomotive power may be used for switching and shunting trains when specifically authorized by the Board of Estimate and Apportionment; such permission to continue only during the pleasure of the said Board.

Sixteenth—No wires for the transmission of power shall be permitted except they be placed in conduits, and in any conduits laid by the company for the transmission of power for its own use, provision shall be made to carry three (3) cables for the use of the police, fire and ambulance service of the City without charge therefor.

Seventeenth—The railway company shall not carry power along its structure for any purpose except the operation of its railway, except as provided above.

Eighteenth—The railway company shall operate a train schedule on the main line of at least sixty (60) trains in either direction daily, stopping at all of the stations within the City limits, and at no time either day or night shall there be greater headway between such trains than thirty (30) minutes; provided, however, that said railway company during the first five years after the commencement of the operation of any portion of the railway shall not be required to operate its trains within the City limits between the hours of 1 o'clock and 4 o'clock A. M., each day, unless the Board of Estimate and Apportionment shall determine, after a hearing had thereon, that public convenience requires the operation of its cars during such hours.

Nineteenth—All cars on said railway shall be heated during the cold weather in conformity to such laws and ordinances as are now in force, or may hereafter be enacted or adopted by the State or City authorities, and any failure to keep the temperature of any of the cars of the company above 50 degrees Fahrenheit, shall make the company liable for a penalty of fifty (50) dollars per car per day for each offense.

Twentieth—All cars operated by the company shall be vestibuled and the system of lighting same shall be adequate and be made satisfactory to the Board of Estimate and Apportionment.

Twenty-first—During the first twenty-five (25) years of this grant the rate of fare upon said railway within the limits of The City of New York as now fixed shall not exceed five (5) cents for any passenger. The said company shall not charge any passenger more than such sum for one continuous ride from any point on said railway or a line or branch operated in connection therewith and controlled by it, to any point thereof or of any such connecting line or branch thereof, within the limits of The City of New York, as such limits now exist, during such term.

At the expiration of twenty-five years the Board of Estimate and Apportionment shall be entitled, after due hearing and determination of the reasonableness thereof, to require for the term of the renewal of said grant that the fare for each passenger within the City limits, as they may then be constituted, shall not exceed five (5) cents.

The rates for the carrying of property upon the routes of the grantee within the limits of The City of New York shall in all cases be reasonable in amount and shall be subject to the control of the Board of Estimate and Apportionment, or its successor in authority, and may be fixed by such Board after notice and hearing to the grantee, and when so fixed such rate shall be binding upon said grantee, its successor or assigns, and no greater sums shall be charged for such service than provided for by it.

Twenty-second—The said railway company shall carry free within the limits of The City of New York during the existence of this grant or its renewal, all letter carriers of the United States Government, and members of the Police and Fire Departments of The City of New York, when such employees are in full uniform.

Twenty-third—The said railway shall be constructed, maintained and operated subject to the supervision and control of all the authorities of The City of New York who have jurisdiction in such matters under the Charter of the City.

Sec. 3. In case of any violation or breach or failure to comply with any of the provisions herein contained this grant may be forfeited and avoided by The City of New York by a suit brought by the Corporation Counsel, provided, that in case of any such violation, breach or failure to comply with any of said provisions the said City shall cause notice in writing thereof to be served upon said company, and said

company shall remedy such violation, breach or failure within ten (10) days thereafter, and in default thereof then, and not otherwise, said right of forfeiture shall accrue and may be enforced by the said City; provided, further, that if the said railway company, grantee hereunder, shall within said ten (10) days commence to remedy said violation, breach or failure and shall prosecute the work of completing such remedy with diligence and with the utmost practicable dispatch until the same shall be completed, then no right of forfeiture shall accrue.

Sec. 4. The grant of this privilege shall not affect in any way the right of The City of New York to grant a similar privilege upon the same or other terms and conditions to any other person or corporation.

Sec. 5. Said railway company shall commence actual construction within one year from the date of the signing of this ordinance by the Mayor, and shall complete a four-track railway upon the main line, from the northerly line of the City as far south as the intersection of the Southern Boulevard and Westchester avenue, within five years from such date, otherwise this grant shall cease and determine.

Said railway company shall expend the sum of at least one million dollars (\$1,000,000) for construction within the limits of The City of New York within two years from the date of the signing of this ordinance, which sum shall be exclusive of any moneys expended for right of way.

A statement of the moneys so expended for construction shall be submitted to the Comptroller of The City of New York, who shall, after investigation, report to the Board of Estimate and Apportionment his opinion as to whether such sums have been actually expended, and if in the opinion of the said Board the grantee has not proven an expenditure of the said sum within the time given, then said Board may declare that this grant has ceased and determined, and the said action of said Board shall be prima facie evidence of said forfeiture.

Any portion of the route covered by this grant which shall not be completed and in full operation within seven years from the date of the signing of this ordinance shall be deemed to have been abandoned, and all rights hereby granted in and to such portions of said railway shall cease and determine.

And in the event that the said railway company shall not, within the said seven years, construct its main line south of the intersection of the Southern Boulevard and Westchester avenue and to the Harlem river, the Board of Estimate and Apportionment, or its successors in office, may fix and finally determine such additional compensation as shall be imposed upon said railway company because of such failure.

A majority vote of the members of the Board of Estimate and Apportionment shall be prima facie evidence in regard to the forfeiture of any or all the rights under this grant, as provided for in this section. Before action is taken by the Board of Estimate and Apportionment, under the provisions of this section, the grantee shall have at least thirty (30) days' notice of the intention of said Board to take action, and at such time as is appointed, shall be allowed a hearing. In case any or all of the rights hereby granted are forfeited, it is a condition of this grant that all sums theretofore paid to The City of New York, together with the deposit of \$20,000, as provided for in section 14 of this ordinance, and all structures erected by said grantee, its successor or assigns, within the lines of any street, shall be forfeited to and become the property of The City of New York.

The Board of Estimate and Apportionment shall have power to extend the time provided for in this section for the completion of the railway and for the work to be performed and expenditure to be made, as above, for a period or periods not exceeding in the aggregate two years, but such extension shall not be made unless the reasons given by the grantee for non-fulfillment are, in the opinion of the Board of Estimate and Apportionment, for causes over which the grantee had no control and was in nowise responsible.

Sec. 6. The grantee shall assume all liability by reason of the construction and operation of the railway and the City shall assume no liability whatsoever to either persons or property by reason of its construction or operation.

As a condition of this grant, the grantee, its successor or assigns, hereby agrees to repay to the City any damages which the City shall be compelled to pay by reason of any acts or defaults of the railway company, its successor or assigns.

Sec. 7. Any portion of the right of way of the said railway company falling within the lines of a street now shown on the map of The City of New York, which it may be necessary for the City to subsequently acquire, shall be ceded to the City, without cost to it, subject to the company's easement therein.

Sec. 8. In case the City shall acquire the land necessary for a street across the grantee's right of way and such land for the street is not ceded by the said grantee, then the railway company shall pay the same rates for the privilege of crossing said street as are provided for in paragraph fourth of section 2 of this ordinance.

Sec. 9. In case any of the streets as now shown on the map of The City of New York and crossed by the said railway above grade are altered or widened after the grantee has completed its railway, and such widening requires the alteration of the superstructure of the railway, the grantee and The City of New York shall each pay one-half of the cost of such alteration as may be necessary.

Sec. 10. In case the route as laid out shall make it necessary in the opinion of the Board of Estimate and Apportionment to change the map of The City of New York, in order to avoid unnecessary or undesirable crossings or for other reasons purely on account of the location of the railway, and by such change or alteration additional streets bounding the grantee's right of way are determined upon, then the grantee shall acquire such streets at its own expense.

Sec. 11. Any alterations which may be required to the sewerage or drainage system, or to any subsurface structures, pipes, etc., laid in the streets, on account of the construction or operation of the railway, shall be made at the sole cost of the railway company, and in such manner as the proper City officials may prescribe.

Sec. 12. All construction of railway crossings shall be done in such manner as shall not substantially interfere with the ordinary use of any street as a public highway, and all streets in any way disturbed by such construction shall be restored to their original condition. In case of failure on the part of the grantee to restore such streets within a reasonable length of time, The City of New York shall have the right, under resolution of the Board of Estimate and Apportionment, to cause the work to be done and the materials to be furnished after due notice and shall collect the reasonable cost thereof from the fund herein provided.

Sec. 13. The company's property and structures shall not be used for advertising purposes in any way, under a penalty of fifty (50) dollars per day for each offense. Such restriction shall not apply to the interior of stations or cars.

Sec. 14. This grant is upon the express condition that the New York, Westchester and Boston Railway Company, within thirty days after the said company has been duly authorized to operate its railway and before anything is done in exercise of the rights conferred thereby, shall deposit with the Comptroller of The City of New York the sum of twenty thousand dollars (\$20,000), either in money or in securities, to be approved by him, which fund shall be security for the performance by such company of the terms and conditions of this grant, especially those which relate to the payment of the annual charge for the privilege and the penalties herein provided, and in case of default in the performance by said company of such terms and conditions, The City of New York shall have the right, after due notice, to collect the same from the said fund without legal proceedings, or after default in the payment of the annual charges shall collect the same, with interest, from such fund after ten days' notice in writing to the said company. In case of any drafts so made upon this security fund, the said company shall, upon thirty days' notice in writing, pay to the Comptroller of The City of New York a sum of money sufficient to restore the said fund to the original amount of twenty thousand dollars, and in default thereof the grant hereby made may be canceled and annulled at the option of the Comptroller of The City of New York, acting on behalf of said City. No action or proceeding or rights under the provisions of this section shall affect other legal rights, remedies or causes of action belonging to The City of New York.

Sec. 15. That if the said New York, Westchester and Boston Railway Company, its successor and assigns, shall fail to give efficient public service at the rates herein fixed, or fail to maintain its structures and all street crossings in good condition throughout the full term of its occupancy of said streets, the Board of Estimate and Apportionment of the City may give written notice to said company, specifying any default on the part of said company and requiring said company to remedy the same within a reasonable time, and upon the failure of said company to remedy its said default within a reasonable time, said company shall, for each day thereafter during which the default or defect remains, pay to The City of New York the sum of two hundred and fifty dollars (\$250) as fixed and liquidated damages, or the said City in case said structures over or

under streets shall not be put in good condition within a reasonable time after notice by the Board as aforesaid, shall have the right to make all needed repairs at the expense of the company, in which case the said company shall pay to the City the amount of the cost of such repairs, with legal interest thereon; all of which sums may be deducted from the fund hereinbefore provided.

Sec. 16. This grant shall not become operative until said railway company shall duly execute, under its corporate seal, an instrument in writing wherein said company shall promise, covenant and agree on its part and behalf to conform to and abide by and perform all the terms and conditions and requirements in this ordinance fixed and contained, and file the same in the office of the Comptroller of The City of New York, within ten days after the adoption of this ordinance.

Sec. 17. This ordinance shall take effect immediately.

A true copy of resolution adopted at a meeting of the Board of Estimate and Apportionment held 24th day of June, 1904.

J. W. STEVENSON, Secretary.

Which was referred to the Committee on Railroads.

In connection herewith Alderman Haggerty offered the following:

No. 789.

Resolved, That the proposed ordinance granting to the New York, Westchester and Boston Railway Company the right to cross certain streets and highways and to construct and operate a four-track railway above or below said streets or highways of The City of New York, which has just been received from the Board of Estimate and Apportionment, be published in the CITY RECORD for at least twenty (20) days, and twice in two daily newspapers to be designated therefor by his Honor the Mayor, at the expense of the New York, Westchester and Boston Railway Company.

Resolved, further, That the said ordinance be made a special order for the consideration of the subject matter thereof, as provided in section 48 of the Greater New York Charter, on Tuesday, July 5, 1904, at 2 o'clock p. m.

Which was adopted.

In connection with the above matter, President Haffen submitted the following communication:

No. 790.

Re Application New York, Westchester and Boston Railway Company.

The application of the New York, Westchester and Boston Railway Company was presented to the Board of Aldermen at its meeting held on March 1, 1904 (page 681 of the minutes of the Board of Aldermen). Its general route was as follows:

"Beginning at a point near the intersection of the westerly line of Lincoln avenue and the north shore line of the Harlem river, in the Borough of The Bronx, in The City of New York, and running thence in a northerly, easterly and northeasterly direction through the said Borough of The Bronx, as hereinafter more specifically described, and the cities, towns and villages of West Farms, Westchester, Baychester, Pelham Manor, Pelham, New Rochelle, Larchmont, Mamaroneck, Rye and Port Chester, to the boundary line between The City of New York and the State of Connecticut, with a branch line leaving said main line at or near Pelham, and running through the towns, villages and cities of Mount Vernon, Alameda Park, Fairview Park, Tuckahoe, Arthur Manor and Scarsdale to White Plains, and with another branch line leaving said main line at or near the southeast corner of Bronx Park, and running thence southerly to the East river at Clason's Point, and running thence northerly and crossing Westchester creek to Ferris avenue, and thence northeasterly and approximately parallel to the east shore line of the East river to and across Fort Schuyler road; thence easterly and southeasterly to and around a loop upon Throgg's Neck, on the East river."

In the third subdivision or paragraph of the petition, the route of said railroad and of the branches thereof, within the limits of The City of New York, intersects certain streets and avenues in the said City of New York, a description of which route and of the streets intersected or crossed, is set forth in Exhibit "A," hereto annexed:

Exhibit "A" (Page 689).

"Beginning at a point near the intersection of the westerly line of Lincoln avenue and the north shore line of the Harlem river; thence running northerly diagonally across Lincoln avenue to a point near the intersection of the easterly line of Lincoln avenue, with the northerly line of East One Hundred and Thirty-second street; thence running easterly, crossing Alexander avenue and Willis avenue, between the Southern Boulevard and East One Hundred and Thirty-second street, to a point near the intersection of the easterly line of Willis avenue with the northerly line of One Hundred and Thirty-second street, in the Borough of The Bronx; thence running easterly to and crossing Brown place, Brook avenue and St. Ann's avenue, to the easterly line of St. Ann's avenue, between East One Hundred and Thirty-second street and the Southern Boulevard, with a branch line to form a loop, leaving the main line at or near the easterly side of Willis avenue, and running thence to and across the Southern Boulevard at or near the intersection of the same with Willis avenue; thence running easterly between the Southern Boulevard and East One Hundred and Thirty-fourth street, etc."

On May 27, 1904, at a meeting of the Board of Estimate and Apportionment (see CITY RECORD June 22, 1904) a resolution was adopted fixing the terms and conditions of the granting of the assent of The City of New York to the New York, Westchester and Boston Railroad, and referring the matter to the Corporation Counsel for approval as to form, in which the description of the route of the said railroad was entirely different from the route named in the application of the said company in its application to the Board of Aldermen of March 1, 1904, in that the location of the route reads as follows:

(1)

"Main Line—Beginning at a point on the Harlem river, between Lincoln avenue and Third avenue, and then running northerly substantially parallel to Lincoln avenue and crossing the Southern Boulevard, One Hundred and Thirty-fourth street, One Hundred and Thirty-fifth street, and One Hundred and Thirty-sixth street, between Lincoln avenue and Third avenue; then crossing One Hundred and Thirty-seventh street, at or near its intersection with Lincoln avenue; then crossing Lincoln avenue, between One Hundred and Thirty-seventh street and One Hundred and Thirty-eighth street; then crossing One Hundred and Thirty-eighth street and One Hundred and Thirty-ninth street, between Alexander avenue and Third avenue; thence crossing Alexander avenue, between One Hundred and Thirty-ninth and One Hundred and Fortieth streets; then running substantially parallel to One Hundred and Thirty-ninth street, and crossing Willis avenue, Brook avenue and St. Ann's avenue, between One Hundred and Thirty-ninth and One Hundred and Fortieth streets; then crossing One Hundred and Fortieth street, between St. Ann's avenue and Cypress avenue; then crossing Cypress avenue and One Hundred and Forty-first streets at or near their intersection; then crossing Powers avenue, between One Hundred and Forty-first and One Hundred and Forty-second streets; then crossing Robbins avenue and One Hundred and Forty-second street, at or near their intersection, etc."

In the revision of June 24, 1904, by the Board of Estimate and Apportionment of the proposed terms and conditions granting to this railroad the right to cross certain streets, etc., Borough of The Bronx, the description of the route differs radically from that specified in the railroad company's application presented to the Board of Aldermen March 1, 1904, in that it omits about three miles of said route in the southerly portion of the borough, between Lincoln avenue and the Harlem river and Westchester avenue, the construction of which is not guaranteed, and also about six miles of the Clason Point and Throgg's Neck portion of said route, the construction of which is not guaranteed.

Point 1.

The Board of Aldermen should not act upon, or pass the proposed franchise for the New York, Westchester and Boston Railway until it can be ascertained by the opinion of the Corporation Counsel that the description of route contained in the revision of June 24, 1904, by the Board of Estimate and Apportionment, differing from the description of the route in the petition of the applicant company is legal.

Point 2.

Nor should the Board of Aldermen act upon this franchise until said company guarantees that the three miles of route of the southerly portion thereof, between Westchester avenue and the Harlem river, omitted therefrom, be inserted or the construction thereof guaranteed within a reasonable time.

Point 3.

The Board of Aldermen should also before passing upon said franchise provide for the six miles of construction petitioned for in the application of the company of March 1, 1904, of the Clason Point and Throgg's Neck portion, which is omitted in the terms of the revision of the Board of Estimate and Apportionment of June 24, 1904.

Point 4.

If the franchise sought be granted, and the expressed intention of the petitioner be carried out, namely to not construct south of Westchester avenue and the Southern Boulevard, then the people of the Borough of The Bronx who will use this road will be obliged to pay two fares for railroad transit in their own borough.

As President of the Borough of The Bronx (representing, as I believe, almost the unanimous sentiment of the residents and property owners of the southeasterly and easterly sections of said borough, who are desirous of rapid transit which will serve their interests and those of the City as well, I earnestly request the Board of Aldermen to consider carefully these questions before deciding this most important matter.

Respectfully submitted,

LOUIS F. HAFEN, President of the Borough of The Bronx.

Which was referred to the Committee on Railroads.

The President laid before the Board the following communication from the Board of Estimate and Apportionment transmitting ordinance:

No. 791.

Department of Finance—City of New York, }  
June 27, 1904. }

Hon. CHARLES V. FORNES, President, Board of Aldermen:

Dear Sir—I send you herewith certified copy of resolution adopted by the Board of Estimate and Apportionment June 24, 1904, authorizing the issue of Corporate Stock to an amount not exceeding \$5,000,000 for the purpose of providing means for the construction, permanently bettering and equipment of school buildings and additions thereto and the acquisition of sites therefor, in The City of New York.

I also inclose form of ordinance for adoption by the Board of Aldermen to indicate its concurrence therein.

Very truly yours,

J. W. STEVENSON, Deputy Comptroller.

AN ORDINANCE providing for an issue of Corporate Stock in the sum of five million dollars (\$5,000,000) for the purpose of providing means for the construction, permanently bettering and equipment of school buildings and additions thereto and the acquisition of sites therefor, in The City of New York.

Be it Ordained by the Board of Aldermen of The City of New York as follows: Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution, adopted by the Board of Estimate and Apportionment June 24, 1904, and authorizes the Comptroller to issue Corporate Stock of The City of New York to the amount and for the purposes therein specified:

"Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended by chapter 409 of the Laws of 1904, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock to an amount not exceeding five million dollars (\$5,000,000), for the purpose of providing means for the construction, permanently bettering and equipment of school buildings and additions thereto and the acquisition of sites therefor, in The City of New York, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding five million dollars (\$5,000,000), the proceeds whereof to be applied to the purposes aforesaid."

Which was referred to the Committee on Finance.

The President laid before the Board the following communication from the Board of Estimate and Apportionment, transmitting ordinance:

No. 792.

Department of Finance—City of New York, }  
June 27, 1904. }

Hon. CHARLES V. FORNES, President, Board of Aldermen:

Dear Sir—I send you herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment June 24, 1904, authorizing the issue of bonds or other evidence of indebtedness to the amount of \$235,000, to provide means for the purpose of cleaning the sewers and sewer-basins in the Borough of Manhattan, together with copies of communications from the President of the Borough of Manhattan and the Commissioner of Public Works relative thereto.

I also inclose form of ordinance for adoption by the Board of Aldermen to indicate its concurrence therein.

Very truly yours,

J. W. STEVENSON, Deputy Comptroller.

AN ORDINANCE providing for the issue of Corporate Stock in the sum of two hundred and thirty-five thousand dollars (\$235,000), to provide means for the purpose of cleaning the sewers and sewer-basins in the Borough of Manhattan.

Be it Ordained by the Board of Aldermen of The City of New York as follows: Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment June 24, 1904, and authorizes the Comptroller to issue bonds or other evidence of indebtedness to the amount and for the purposes therein specified:

"Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended by chapter 409 of the Laws of 1904, the Board of Estimate and Apportionment hereby approves of the issue of bonds or other evidence of indebtedness of The City of New York, to an amount not exceeding two hundred and thirty-five thousand dollars (\$235,000), for the purpose of cleaning the sewers and sewer-basins in the Borough of Manhattan, and that when authority therefor shall have been obtained from the Board of Aldermen the Comptroller is authorized to issue bonds or other evidence of indebtedness to an amount not exceeding two hundred and thirty-five thousand dollars (\$235,000), payable on the 16th day of October, 1905, out of the tax levy of said year 1905, the proceeds whereof to be applied to the purposes aforesaid."

June 8, 1904.

JAMES W. STEVENSON, Esq., Secretary, Board of Estimate and Apportionment: Dear Sir—Pursuant to section 47 of the Greater New York Charter, as amended by chapter 409 of the Laws of 1904, request is herewith made to the Board of Estimate and Apportionment for an issue of Special Revenue Bonds in the amount of two hundred and thirty-six thousand dollars (\$236,000), the proceeds of which are to be used for cleaning sewers in the Borough of Manhattan.

Yours respectfully,

(Signed) JOHN F. AHEARN, President.

June 2, 1904.

Hon. JOHN F. AHEARN, President, Borough of Manhattan:

Dear Sir—Referring to my letter of May 26, transmitting a report by the Chief Engineer of Sewers, showing the necessity of expending this year \$235,440 to place the sewerage system in proper condition, I herewith transmit a copy of a supplemental report by the Chief Engineer of Sewers in the matter.

Very respectfully,

(Signed) WILLIAM DALTON, Commissioner.

June 1, 1904.

(Copy.)

Hon. MATTHEW F. DONOHUE, Superintendent of Sewers:

Dear Sir—Referring to our conversation yesterday with President Ahearn, in reference to appropriation for cleaning sewers and basins, I beg leave to state, as a matter for his information as to the present condition of the system, I find upon consulting records, that since the 1st of January there were received at this office by letters and telephone messages, 1,618 complaints, and at the headquarters of the laboring force, No. 72 Elm street, 449 complaints, making a total of 2,067 complaints as to sewers and basins out of repair and stopped by accumulation of dirt and filth, and that of these we have on hand 328, which are not yet attended to.

To show how this branch of our work has gone beyond our control, on account of inadequate means to meet the situation, I submit the following:

For a corresponding period in the year—

1900, 478 complaints received.  
1901, 689 complaints received.  
1902, 720 complaints received.  
1903, 925 complaints received.  
1904, 2,067 complaints received.

The number of complaints received is a pretty good index as to the condition of our sewer system. While we receive no praise for a successful operation, as soon as it fails in any particular, these are speedily brought to our notice by complaining citizens.

I think the foregoing figures make it plain that a speedy remedy should be found for the present condition of our sewer system. Since the heated term is now upon us, I am of the opinion that it would not be feasible to undertake to organize a day labor force to meet the present emergency. Before a thorough organization could be effected the season would be over.

I am of the opinion that to obtain quick relief it would be advisable to employ reliable contractors who have plants and men at their command, and could be immediately set to work. This system was in vogue some years ago, and worked well.

I think our present difficulties could be solved in this way, while a permanent reorganization of our labor force could be made later on.

Yours respectfully,  
(Signed) HORACE LOOMIS,  
Chief Engineer of Sewers.

May 25, 1904.

Hon. WILLIAM DALTON, Commissioner of Public Works:

Dear Sir—The alarming conditions developed by the overflowing of sewers and receiving-basins, caused by rainfalls and by the flushing of the streets by the employees of the Street Cleaning Department, causing an endless number of complaints to be filed in this office, called for an investigation as to the existing conditions of the sewers and basins in the Borough of Manhattan.

The result of this investigation has shown a most alarming condition of affairs. I forward herewith the report of Mr. Horace Loomis, Chief Engineer of Sewers of the Borough of Manhattan, together with a tabulated statement showing the location of the sewer manholes and basins, at which locations measurements of deposits were taken.

This report shows that at the beginning of the summer months and the heated term we are confronted with a condition that would warrant the immediate intervention of the Department of Health. There are over 6,000 receiving-basins in this borough, containing an average deposit of over three feet each, located on every corner of every street. The recognized danger of cesspools as a menace to public health, years ago, calls for stringent measures to eradicate the evil.

The present condition of our basins makes them almost as serious a menace to the public health, and the report of the Chief Engineer regarding the condition of the sewers, showing an average deposit of 11 inches, is no more reassuring.

Measures should be taken at once to remedy these conditions, for which this Bureau is not responsible.

I regret to say that the present force, including the additional help obtained since January 1, 1904, is totally inadequate to cope with these conditions; and if the present force is continued until the end of the year the report on my appropriation for sewers, cleaning and repairing, rendered by our bookkeeper on May 5, shows that at the end of the year we will have a deficiency of \$21,381.19.

I have no desire to reflect on past administrations of this Bureau, as the records of this office and the report of the Chief Engineer show that year after year an increased appropriation was urged upon the Board of Estimate and Apportionment, and that said Board refused to grant the same favorable consideration.

In the year 1890 the appropriation for cleaning sewers and basins was \$160,000, since which time over 70 miles of sewers and 850 basins have been constructed, the maintenance of which is an additional charge upon our appropriation. The appropriation for the year 1904—fourteen years later—is \$165,000, only \$5,000 additional; and this policy has been carried out religiously during the period of fourteen years, with a tendency, if anything, to reduce the amount allowed for this purpose.

The census of the Health Department shows that the population of the Borough of Manhattan in the year 1890 was 1,538,669, from which time to the present date the census of the year 1904 shows that the population has increased 401,453 souls, making a total of 1,940,121.

In addition to this a large increase of the temporary population of the day should be taken into consideration. It is fair to presume that fully as many more people come into the Borough of Manhattan from various outlying sections, and are for an average of ten hours per day sojourning in this borough.

In 1890 the assessed valuation of property was..... \$1,353,893.473 00  
Since which time the total valuation in the Borough of Manhattan has increased by..... 2,348,489,888 00

Making the total assessed valuation of 1904..... \$3,702,383.361 00

These figures are obtained from the Department of Taxes. The greater percentage of this increased valuation is represented in large office buildings, hotels, apartment houses, factories and buildings of miscellaneous description, a great number of which have been erected during the past fourteen years, all of which conditions have added to the burdens of the sewerage system of this borough.

An additional burden has been the increase of the flushing system of pavements, which system has been materially extended. This system, while resulting in much good from the cooling of the heated pavements and the thorough cleansing of the streets; has carried mud and dirt into the receiving basins and sewers, helping to congest and choke the same, and has added still further to the charges against our appropriation for sewers cleaning and repairing.

The report of the Chief Engineer shows that at this time there is absolutely required to place the sewerage system in a proper condition an additional expenditure for this year of \$235,440, and the liberal increase of the yearly appropriation for these purposes. (See page 2 of the Chief Engineer's report.)

I would urge upon you the importance of using every possible effort to obtain this money, which is absolutely needed, and by the expenditure of which alone we can place the system, which has been becoming more and more overcharged year after year, in a safe and sanitary condition.

Yours respectfully,  
(Signed) MATTHEW F. DONOHUE,  
Superintendent of Sewers.

May 23, 1904.

Hon. MATTHEW F. DONOHUE, Superintendent of Sewers:

Dear Sir—Agreeable to your instructions heretofore given to use all the available force of this Bureau to make an examination and survey of sewers and basins in this borough as to the amount of dirt accumulated therein, and as to the necessity of immediately cleaning out the same and estimating the cost thereof, I would say that such an examination has been made, and it is herewith submitted—as far as time would permit and with the force available—with the following results:

Total number of basins examined..... 2,948  
Total number in the system..... 6,107  
Balance, not examined..... 3,159

—being about one-half of the total number in use.

The average depth of deposit was found to be 3.97 feet, or about 1½ cubic yards each. Under the present system it costs \$5.36 per cubic yard, or at the rate of \$7.54 per basin. In round numbers, to clean the 6,000 basins of the city once thoroughly would cost \$45,240.

With the whole system once cleaned, for sanitary reasons, a system should be inaugurated for cleaning them every three months (four times per year). While in some locations it would not be necessary to clean as often as this, in others it should be done at shorter intervals—in some cases as often as once a month; so it is safe to say there should be at least 24,000 cleanings per year.

I estimate that the deposits would average one foot for each basin, or one-half cubic yard each, or 12,000 cubic yards per year, which, at \$7.50 per cubic yard, would equal \$90,000 per year for basin cleaning alone.

As to the cleaning of brick sewers, of which there are about 300 miles in this borough, the record of 1903 shows 9,404 loads removed at the cost of \$29,828.85. A cart is rated at 40 cubic feet, but on account of the watery character of the mud removed, it does not carry over one cubic yard, or 27 cubic feet. The cost for one cubic yard for removing is therefore \$3.17.

By examinations recently made, the deposits were found to average about 11 inches, which, taking all sizes of sewers, means about 200 cubic yards per mile, costing to remove \$634, so that to now clean thoroughly the 300 miles of brick sewers would cost \$190,200.

Therefore, to put the system of basins and brick sewers in order to-day, leaving out of the account the flushing of about 200 miles of pipe sewers, would cost:

Cleaning sewers ..... \$190,200 00  
Cleaning basins ..... 45,240 00

Total..... \$235,440 00

The conditions described above are the result of lack of means to establish a proper system for the maintenance of the sewer system. The importance of the subject does not seem to be appreciated. While it ranks next to the water supply in its value as a public utility, it has never been treated with any liberality, or even justice in the matter of appropriations.

In 1890, \$160,000 was set apart for this purpose. Since that time the system has increased in length by over 70 miles and 850 receiving basins have been added to it, and yet 14 years later only \$165,000 is allowed.

Year after year, I have stated the needs of this service, and argued that the proper regard for the public health required that the sewers and basins be cleaned and kept clean, for which purpose much larger sums were needed. But being unable by actual visual demonstrations to prove all my statements as to the conditions of the sewer system, my appeals were not heeded.

If our financial officers could see the dirty sewers as they see the dirty streets, there would be no delay in furnishing the necessary funds.

At the present time the situation is further aggravated by the practice of the Street Cleaning Department of cleaning streets by flushing instead of sweeping and carting away the dirt.

A large number of catch basins are filled up daily by this practice, and when they will receive no more the nozzle of the hose is inserted and as much dirt as possible is forced into the sewers. This use of the sewers and street basins is forbidden by law, and notice should be served on the Street Cleaning Commissioner to discontinue the same. Unless it now be stopped, basins overflowed and crosswalks flooded will still be a daily spectacle.

Assuming that funds will be provided to put the sewer system in good condition during the coming hot season, the next step will be to reorganize the maintenance force on the basis of thorough and systematic methods, so that sewers and basins, once cleaned, can be kept so, and this means of preserving the public health efficiently maintained.

Yours respectfully,  
HORACE LOOMIS, Chief Engineer of Sewers.

Which, on motion of Alderman Marks, was made a special order for 2.30 o'clock P. M.

Subsequently, the hour of 2.30 o'clock having arrived, Alderman Marks called up the ordinance and moved its adoption.

The President put the question whether the Board would agree with said ordinance. Which was unanimously decided in the affirmative by the following vote:

Affirmative—Aldermen Ahner, Baldwin, Boerner, Boyhan, Brenner, Callahan, Chambers, Coggey, Collins, Cullin, Dietz, Donohue, Doull, Dowling, Downing, Doyle, Gaffney, Gass, Gillies, Gillen, Goodman, Grifenhagen, Haenlein, Haggerty, Harburger, Harnischfeger, Hann, Higgins, James, Jones, Kenney, Kevin, Kline, Koch, Lochner, McCall, McCarthy, Marks, Morris, Owen, J. Murphy, Owens, Poole, Richter, Robinson, Schappert, Schloss, Shea, Stapleton, Stumpf, Sturges, Twomey, Wafer, Wentz, Wirth, President Cromwell, President Haffen, the Vice-Chairman and the President—58.

Brooklyn, February 16, 1904.

Hon. MICHAEL J. KENNEDY, Park Commissioner, Litchfield Mansion, Prospect Park, Brooklyn, N. Y.:

My Dear Sir—At the conference held on February 12 between yourself and the Executive Committee of the Board of Trustees of the Institute, with regard to the immediate need at the Museum Building of the construction of front steps, the approach thereto, and the completion of the pediment portico, you will remember that you requested us to present to you by February 16 such recommendation as we might have to make with regard to this work and other necessary work in connection with the Museum.

In pursuance of your request, we have asked the architects of the building, Messrs. McKim, Mead & White, to furnish estimates on the cost of the front steps, the approach thereto, and the carving of the pediment. We have also asked them to submit a statement with regard to the necessity for having completed plans and a model of the entire Museum structure.

Inclosed please find a communication from Messrs. McKim, Mead & White with regard to the above points.

The proposition to have completed plans for the entire Museum structure was carefully considered at a conference between Park Commissioner Young, the architects, and the Trustees in the spring of 1903, and it was then agreed as between the Park Commissioner, the Trustees, and the architects, that it was essential to the economic construction of the Museum Building that the plans and model be prepared.

On behalf of the Trustees of the Institute, I therefore respectfully recommend to you that the Department of Parks seek from The City of New York the appropri-

ation, through the issue of Corporate Stock of the City, of a sum not less than \$147,000, to be expended as follows:

On front steps and sub-structure, as per plans and specifications already approved by the City authorities.....	\$55,000 00
On central approach from Eastern parkway, including granite steps, copings, posts and paving.....	30,000 00
Carving of pediment front portico.....	12,000 00
Cost of plans, thoroughly worked out, for entire Museum structure, with model of the same.....	50,000 00

Total..... \$147,000 00

Very respectfully yours,  
PRESIDENT OF THE BOARD OF TRUSTEES.

J. W. STEVENSON, Deputy Comptroller.

AN ORDINANCE providing for an issue of Corporate Stock in the sum of one million dollars (\$1,000,000) to provide the necessary means to pay for the expenses connected with the water supply of The City of New York.

Be it Ordained by the Board of Aldermen of The City of New York, as follows: Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment June 24, 1904, and authorizes the Comptroller to issue Corporate Stock of The City of New York to the amount and for the purposes therein specified:

"Resolved, That, pursuant to the provisions of section 178 of the Greater New York Charter, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock of The City of New York, to the amount of one million dollars (\$1,000,000) in addition to the sum of one million dollars authorized May 13, 1904, to provide the necessary means to pay for the expenses connected with the water supply of The City of New York, as set forth in said section 178 of the Charter, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding one million dollars (\$1,000,000), the proceeds whereof to be applied to the purposes aforesaid."

June 10, 1904.

Hon. GEORGE B. McCLELLAN, Mayor and Chairman of the Board of Estimate and Apportionment, The City of New York:

Dear Sir—I would most respectfully request that the application of the Commissioner of Water Supply, Gas and Electricity for one million of dollars (\$1,000,000) for the purpose of laying water mains in the boroughs of Manhattan and The Bronx be granted.

I am in constant receipt of requests from various sections of this borough that water mains be laid in the streets and avenues of the borough that are still unsupplied with Croton water, and in relation to the last request, which was forwarded by me to the Commissioner of Water Supply, Gas and Electricity, requesting that water mains be laid in the Lott G. Hunt estate, Twenty-fourth Ward, Van Nest, Borough of The Bronx, the Chief Engineer of said Department reports as follows:

"We are unable to lay all the water mains we desire to lay, owing to the fact that the funds granted this Department for the purpose of laying mains are utterly inadequate for our needs. There are approximately one hundred streets in the Borough of The Bronx, aggregating forty miles in length, which are graded, have sidewalks, curbs, and many cases sewers, and have buildings thereon, but which have no water mains; and we are unable, with our inadequate appropriations, to supply these streets with water.

"We cannot lay water mains in the Lott G. Hunt estate at the present time. Sometime in the future it is intended to lay a water main in the Bear Swamp road, from the Morris Park race track to the Bronx and Pelham parkway; and in connection with this work we will, if possible, take up the matter of laying a main in the Hunt estate, but at the present time, as stated above, we cannot do it."

Under these circumstances, I respectfully request that the funds requested by the Commissioner of Water Supply, Gas and Electricity be granted at an early date.

Yours truly,

(Signed) LOUIS F. HAFFEN,  
President of the Borough of The Bronx.

Which were severally referred to the Committee on Finance.

AN ORDINANCE providing for an issue of Corporate Stock in the sum of forty-five thousand dollars (\$45,000), to provide means for making improvements and permanently bettering and equipping the City Hall, Borough of Manhattan.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment June 24, 1904, and authorizes the Comptroller to issue Corporate Stock of The City of New York to the amount and for the purposes therein specified:

June 7, 1904.

JAMES W. STEVENSON, Esq., Secretary, Board of Estimate and Apportionment:

Dear Sir—Pursuant to section 47 of the Greater New York Charter, as amended by chapter 409 of the Laws of 1904, request is herewith made to the Board of Estimate and Apportionment for an issue of Corporate Stock in the amount of forty-five thousand dollars (\$45,000) for making permanent betterments to the City Hall.

The above amount of forty-five thousand dollars is in addition to the \$15,000 worth of Special Revenue Bonds heretofore authorized by the Board of Estimate and Apportionment on February 5, 1904, for the same purpose.

After having caused a thorough examination of the condition of this building it has been determined that sixty thousand dollars will be required to make additional necessary repairs and put the building in a perfectly sanitary condition.

Very respectfully,  
(Signed) JOHN F. AHEARN, President.

June 17, 1904.

Hon. EDWARD M. GROUT, Comptroller:

Sir—In relation to request of Hon. John F. Ahearn, President of the Borough of Manhattan, for an issue of Corporate Stock in the amount of \$45,000, pursuant to section 47 of the Greater New York charter, as amended by chapter 409 of the Laws of 1904, for the purpose of making permanent betterments to the City Hall, I would report

The general description of the work to be done mostly given by the architects, Bernstein & Bernstein, No. 72 Trinity place, is as follows:

Mason's Work, Iron Work, Concreting—All necessary excavation for new tunnel and removal of present cesspools under sidewalk and filling in brick work and iron work for new tunnels under corridors of basement, tunnels to extend the entire length underneath basement corridors and to be about 9 feet wide by 6 feet 6 inches high, 250 feet long, with concrete floor. Brick piers for support of new house drain. Foundations for pumps, all concrete footings under new walls, arches for new floor of basement corridor over tunnels, brick catch-basins in area, resetting of manhole covers, all bluestone templates, resetting of flagging of area walls. New brick wall 32 feet long for area on northerly side of building in place of present damaged wall. Concreting present damaged sidewalk at northerly side of building 22 feet by 58 feet, concreting of all areas and tunnels.

Plastering—All defective plastering and all plastering that will be disturbed during the alterations to be repaired in three-coat work.

Tiling, Marble and Slate Work—Present tiling of floor of basement corridors to be removed and relaid, damaged tiling to be replaced by new. The floors of Captain's toilet to have Italian marble and 4-foot high wainscoting of marble on the walls of the same. Floor, partitions and wainscoting of Police toilets to be of slate.

Iron Work—Seven-inch steel beams 4 feet on centres for ceiling of tunnels and steel lintels over new brick openings. All anchors for brick work of tunnel walls, repairing of damaged grating and railings.

Renovating—All structural marble work, exterior and interior to be renovated by method known as sand-blasting, and all damaged ornaments, mouldings and other work to be repaired and reconstructed with artificial stone made to match present work.

Roofing—All present damaged or defective work to be repaired in the best manner and guaranteed against

16-ounce soft sheet copper. Two new leaders from roof of janitor's apartment. All present defective leaders to be repaired. New octagonal sides for bulkhead ventilator over dome to receive electric fan. All flashings, ridges and valleys to be of copper wherever tin exists. All present ventilators and skylights to be repaired as to tinning and glazing wherever damaged. Present stained and leaded glass top over dome to be raised 24 inches to allow for ventilation around sides of same.

Plumbing—A 10-inch house drain in place of present 6-inch drain, to be placed in new tunnel and extended to street sewer on Park row. All present and new waste or soil, area drains and leaders to be connected to new house drain. Present cesspools under sidewalks receiving the discharge of areas and leaders are to be removed. Pipes to be disconnected and to be removed. Provide in police precinct five (5) new water-closets, one urinal, one wash-basin, one slop-sink. All gas piping to be repaired wherever defective in the Governor's rooms, and also throughout building.

Electric Work, Motors, Ventilation, Etc.—The Edison Company's service to be extended to the new pump-room, and connected to new switch and water-board. Connect to three (3) new exhaust fans, and two pump motors in new pump-room. Wiring to be extended for lighting 69 lights in basement, 26 lights on first story, 72 lights on second story. New Electric auxiliary centrifugal pump capable of delivering 6,000 gallons of water per hour.

Ventilation—Rooms to be ventilated. Marriage Bureau, Officers' toilet-room, Roundsmen's room, new pump-room, street lamps room, new tunnels and rotunda. Rotunda to have 48-inch fan; Marriage Bureau, 24-inch fan; new tunnel, 42-inch fan. There are to be 47 panels of automatic ventilators under sashes for various rooms requiring same.

Carpentry—New partitions in Mayor's Clerks' rooms. Parquet flooring for Governor's rooms, Mayor's Secretary and Clerks' (3) rooms, panel wainscoting, 45 inches high, of cherry, in the three (3) Governor's rooms. Circular trim over entrance of easterly room, repairing of all flooring throughout building where damaged or disturbed. New Mullion window in Captain's room of Police Precinct and two (2) new doors in passage of police toilets. To provide necessary hardware.

Painting and decorating—All outside iron-work to be scraped and painted. All exterior sashes, frames, doors and other woodwork to be cleaned and painted and varnished and rubbed. Doors and frames to have present paint burnt off and painted, varnished and rubbed. All present stone-work on north wall of building, easterly and westerly walls of third story of centre section, to have paint removed and repainted, sanded and marbelized to match present front. Clock tower to be scraped and painted, clock to be regilded. The woodwork of foyer, corridors and stairways to be cleaned, painted, varnished and rubbed, same for the Governor's rooms, and members' room of Board of Aldermen, including the walls and ceilings of same. Plaster coat-of-arms over entrance of east Governor's room, also ornamental doors and cornice.

Rugs—Present rugs in Governor's rooms to be taken up and delivered to the custodian of building, and new rugs to be furnished as follows:

In three Governor's rooms, 17 feet by 24 feet; 17 feet by 50 feet; 17 feet by 24 feet.

In Mayor's private office, 8 feet by 15 feet.

In Mayor's Clerks' rooms, 19 feet by 15 feet; 14 feet by 8 feet 6 inches; 14 feet by 8 feet 6 inches.

In Secretary's room, 22 feet by 14 feet, irregular.

Rugs to be imported and tufted.

Mr. Walker, Superintendent of Public Buildings and Offices, has furnished me with the following detailed estimate:

Plumbing .....	\$7,500 00
Electric work .....	6,500 00
Mason work, iron-work and excavating.....	20,000 00
Carpentry .....	5,000 00
Painting, decorating, etc.....	7,000 00
Refurnishing Governor's room.....	2,000 00
Outside work (repairs to roofing, painting and cleaning stone-work)....	4,000 00
Architects' fees and incidentals.....	8,000 00

Total..... \$60,000 00

I have had the building examined with the plans and general specifications as prepared by the architects, and it is reported to me that all the work proposed to be done is necessary, in order to repair certain defects and put the building in a good sanitary condition. The new tunnel, which is the largest item of expense, is essential to carry the drain, steam and water pipes and all the electric conduits; the present tunnel in basement is entirely inadequate, besides not being large enough to admit of the increased size drain-pipes, made necessary by the leaders being connected with the house drain; it is entirely too small to allow repairs to the present pipes without tearing up the floor of the basement corridor.

On February 5, 1904, the Board of Estimate and Apportionment authorized an issue of Special Revenue Bonds in the amount of \$15,000, for repairs and alterations to the City Hall; of this amount \$10,000 has been issued, but I understand none of it has been expended. The estimate of the work being \$60,000, it will be only necessary to authorize an additional \$45,000.

I have endeavored to classify and divide the work, in order to make an estimate of what may be called solely repairs, although in a general sense all the work may be considered as "improving and permanently bettering" the building.

Considering the matter with the architects and the Superintendent of Public Buildings and Offices, I estimate the repairs proper as follows:

Mason's work.....	\$1,000 00
Painting, decorating, etc.....	7,000 00
Refurnishing Governor's room.....	2,000 00
Outside work.....	3,000 00
Architects' fees and incidentals.....	2,000 00
Total.....	\$15,000 00

The Board of Estimate and Apportionment having authorized \$15,000 of Special Revenue Bonds for repairs and alterations to the City Hall, I think the Board may properly authorize the Comptroller, pursuant to section 47 of the Greater New York Charter, as amended by Chapter 409 of the Laws of 1904, to issue Corporate Stock of The City of New York to the amount of \$45,000, to provide for improving and permanently bettering and equipping the City Hall.

Respectfully,  
(Signed) EUG. E. McLEAN, Engineer.

New York Supreme Court.

In the Matter  
of

Acquiring title to lands required for the bridge across the Harlem river, between First avenue and Willis avenue, pursuant to the provisions of chapter 147 of the Laws of 1894.

To the Board of Estimate and Apportionment:

Gentlemen—Under date of May 26, 1904, the Corporation Counsel advises payment of the awards made for Parcels Nos. 14 and 15 on the Damage Map of the Commissioners of Estimate, in the above entitle proceeding.

The awards for these parcels were made by said Commissioners in their second partial and separate report, which report so far as it relates to said Parcels Nos. 14 and 15, was confirmed by an order of the Supreme Court, dated May 17, and filed May 25, 1904.

The title to the lands covered by said parcel numbers vested in the former City of New York May 22, 1897, pursuant to the provisions of section 4 of chapter 147 of the Laws of 1894, as amended by chapter 664 of the Laws of 1897. The awards are payable with interest from said date.

The awards in question amount to..... \$192,380 24  
Interest thereon, from May 27, 1897, to July 27, 1904..... 82,723 50

Total..... \$275,103 74

The amount of bonds authorized to be issued under chapter 147 of the Laws of 1894 for the construction of said bridge and the acquisition of the title to the property required therefor was limited to \$2,000,000, which amount was duly authorized. There remains unissued, on account of this authorization, bonds to the amount of \$36,135.17. There also remains unexpended from the proceeds of the bonds issued and the premiums realized thereon, the sum of \$201,255.99.

Applying these two amounts towards the payment of the awards recommended to be paid, there remains to be provided for \$37,092.58.

To provide the means to supply this excess of awards and interest over and above amounts available therefor, Corporate Stock should be issued under the authority of section 47 of the Greater New York Charter, as amended by chapter 409 of the Laws of 1904.

A resolution for that purpose is herewith submitted.

Respectfully,

AN ORDINANCE providing for an issue of Corporate Stock in the sum of seventy-five thousand dollars (\$75,000) to provide for the improvement of the New York Botanical Garden in the Bronx Park.

Be it Ordained by the Board of Aldermen of The City of New York as follows:  
Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment June 24, 1904, and authorizes the Comptroller to issue Corporate Stock of The City of New York to the amount and for the purposes therein specified:

"Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended by chapter 409 of the Laws of 1904, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock to an amount not exceeding seventy-five thousand dollars (\$75,000), to provide for the improvement of

the New York Botanical Garden in the Bronx Park, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to the amount of seventy-five thousand dollars (\$75,000), the proceeds whereof to be applied to the purposes aforesaid."

February 5, 1904.

To the Honorable the Board of Estimate and Apportionment of The City of New York:

Gentlemen—I herewith transmit, with my full approval, schedule of items of appropriation asked for by the Botanical and Zoological societies for the improvement of those portions of Bronx Park known as the Botanical Garden and the Zoological Park, and I trust it will receive your favorable consideration at an early date.

It will be unnecessary for me to elaborate upon the great value of the Botanical Garden and the Zoological Park as public educators, and on the efforts of both the societies named to give our City at the earliest possible time a couple of institutions that will be a lasting credit to our City and the admiration of the world.

The Botanical Garden and Zoological Park are component parts of the Park System of the Bronx, and their improvement is as vitally necessary as is the improvement of any other portion of our parks.

Respectfully submitted,  
(Signed) WILLIAM P. SCHMITT,  
Commissioner of Parks, Borough of The Bronx.

January 13, 1904.

Hon. WM. P. SCHMITT, Commissioner of Parks for the Borough of The Bronx, Claremont Park, New York City:

Dear Sir—At a meeting of the Board of Managers of the New York Botanical Garden, held January 11, 1904, I was instructed to request you to apply to the Board of Estimate and Apportionment for an appropriation of \$75,000 for improving the grounds of the New York Botanical Garden, in accordance with the following estimates:

A. For the completion of the driveway system, including (a) approach to the Moshulu Parkway Bridge, now under construction, (b) approaches to Long Bridge, now under construction, (c) road along east side of river, from Long Bridge to Newell avenue, (d) driveway connection to Lorillard entrance.	
1. 18,600 square yards telford macadam roadway, at \$1.....	\$18,600 00
2. 12,000 cubic yards earth filling, at 40 cents.....	4,800 00
3. 10,800 cubic yards earth excavation, at 35 cents.....	3,780 00
4. 6,500 cubic yards rock excavation, at \$1.....	6,500 00
5. 20 surface basins, at \$30.....	600 00
6. 2,600 feet 6-inch vitrified drain pipe, at 30 cents.....	780 00
7. 500 feet 8-inch vitrified drain pipe, at 40 cents.....	200 00
8. 400 feet 12-inch vitrified drain pipe, at 60 cents.....	240 00
9. 3,500 feet 6-inch cast-iron water pipe, at \$1.....	3,500 00
10. 35 hose taps, at \$6.....	210 00
11. 750 running feet concrete curb on road curves, at \$1.....	750 00
12. Bridge to carry driveway and paths over valley of the lakes and its approaches.....	30,000 00
	\$69,960 00
B. For the continuation of the path system, 36,000 square feet of path, at 6 cents.....	2,160 00
C. Engineers' and architects' fees and contingencies.....	2,880 00
Total.....	\$75,000 00

It is estimated that the earth filling and the stone for the telford macadam driveways will mostly be obtained by excavations in the rear of the Museum Building, which are necessary for the proper grading of the grounds at that point.

The completion of the driveway system will be of very great advantage in the development of Bronx Park, and it is believed that if this appropriation can be made that it will be possible to finish this important part of the work during 1904 and 1905.

Yours respectfully,

	Per Annum.

Resolved, That the Board of Aldermen hereby concurs in said resolution and fixes the salaries of the above positions as set forth therein.

District Attorney's Office, County of New York, }  
June 7, 1904. }

To the Honorable the Board of Estimate and Apportionment of The City of New York, New York City:

Gentlemen—By chapter 563 of the Laws of 1904 the Legislature has enacted that after September 1, 1904, all cases prosecuted in the Court of Special Sessions in this County shall be tried upon information filed by the District Attorney, substantially in the form of an indictment. This law makes no provision to meet the expenses of its enforcement, which, in my opinion, will amount to at least \$17,500 per annum.

In order that your Honorable Board may have an idea as to the large volume of business which will devolve upon this office, I beg to state that under the present conditions, an average of 4,500 cases is received annually, all of which are disposed of in the Court of General Sessions and the Supreme Court, while under this new law at least 7,000 additional cases, triable in the Court of Special Sessions, will have to be carefully investigated and prepared by this office before they are ready for trial.

During the year 1903, 7,460 cases were disposed of in the Court of Special Sessions, and for the past three years the number of cases tried in that Court has been constantly increasing, and it is to be supposed that it will continue to increase in the future.

It will be necessary for me to establish an entirely new bureau in my office to dispose of the immense amount of additional work which this statute necessitates, and to meet this expense I hereby request your Board to authorize the Comptroller to issue Special Revenue Bonds to the amount of \$10,166, the proceeds thereof to be used in making additions to the professional and administrative force of my office, and to purchase desks, safes and other necessary office supplies, in order that the new bureau, so to be created, may be properly equipped for the transaction of public business.

The following itemized statement shows how it is proposed to expend this appropriation:

	Increase of Force.	Amount Per Annum.	Amount for Six Months.
1 Deputy Assistant District Attorney, at .....		\$5,000 00	\$2,500 00
1 Deputy Assistant District Attorney, at .....		3,500 00	1,750 00
2 Clerks, at, each .....		1,500 00	1,500 00
2 Stenographers and Typewriters, at, each .....		1,500 00	1,500 00
2 County Detectives or Subpoena Servers, at, each .....		1,000 00	1,000 00
2 Messengers, at, each .....		600 00	600 00
Total amount .....			\$8,850 00

In order to prepare properly for the work of this Bureau it is necessary that the appointments should be made about July 1, as it will be necessary to prepare a large number of new blank forms to cover all of the common offenses triable in the Court of Special Sessions, together with the record books, registers, etc., of the bureau, and to have the entire bureau in readiness for work at the time the law goes into effect.

In making the foregoing appointments it is proposed to promote experienced and efficient men to fill said positions and to appoint new men to minor positions.

The increase of force requested herein is absolutely essential in order to cope with the large volume of business which will devolve upon this bureau, and in all probability it may be necessary later on to request another appropriation to secure additional force. With the constantly increasing population of this county, the business of this office naturally increases also, and from year to year makes it necessary to increase its working force, and add to its expenditures; nevertheless, the salary appropriations, instead of showing a corresponding increase, have been greatly diminished, as will be seen from the following comparative statement showing the number of persons employed and the appropriations granted for salaries for the years 1900, 1903 and 1904: Statement Showing Number of Persons on Pay-roll and Appropriations Granted, etc.

	1900.	1903.	1904.
Assistant District Attorneys and Deputies.....	27	28	27
Secretary, Clerks, Librarian, etc.....	37	30	28
Stenographers, including Stenographer to Grand Jury..	11	11	11
County Detectives .....	40	32	31
Messengers .....	14	6	6
Office Boys .....	..	5	6
Total number of force.....	129	112	109

Appropriation for salaries for the year 1900..... \$244,410 00  
 Appropriation for salaries for the year 1900..... 6,600 00

Total appropriation for salaries for the year 1900..... \$251,010 00

Total appropriation for salaries for the year 1903..... \$232,500 00

Total appropriation for salaries for the year 1904..... \$232,500 00

This statement shows that our appropriation for salaries for the current year is \$18,510 less than the amount granted for salaries for the year 1900, and the work of this department has considerably increased since that time.

Owing to various resignations in my professional staff in 1903 it was necessary to reorganize the same and readjust their salaries, and in May, 1903, the Honorable Board of Estimate and Apportionment approved my recommendation increasing their salaries, but in making up the Budget for 1904, this readjustment, which took effect in May, 1903, was overlooked, and no provision made to continue the payment of the increases authorized by the said the Board of Estimate and Apportionment, which resulted in creating two vacancies in this office, one Deputy Assistant District Attorney at \$2,000, and one County Detective at \$1,200 per annum, which positions I have been unable to fill owing to the lack of appropriations, thereby imposing additional labors on my present limited force.

In order to equip this bureau, it is essential to purchase the following office supplies, which are actually necessary, and the estimated cost of same is also given:

1 steel safe (72 inches by 43 inches by 33 inches).....	\$225 00
1 large steel cabinet for 200 blank forms (8½ inches by 14 inches).....	385 00
1 roll top desk (66 inches) for Deputy Assistant District Attorney.....	35 00
1 roll top desk (60 inches) for Deputy Assistant District Attorney.....	35 00
2 roll top desks (55 inches) for Clerks, at \$35.....	70 00
2 roll top desks for Typewriters, at \$35.....	70 00
2 Underwood typewriter machines, at \$87.50.....	175 00
4 office chairs (revolving), at \$6.....	24 00
6 office chairs, at \$4.50.....	27 00
2 office chairs (typewriters), at \$5.....	10 00
2 steel filing cabinets, at \$90.....	180 00
2 settees, 6 feet each, at \$13.50.....	27 00
4 wardrobes, at \$9.50.....	38 00
1 letter copying press, etc.....	15 00
Total .....	\$1,316 00

#### Summary.

Total amount for salaries..... \$8,850 00  
 Total amount for office supplies, etc..... 1,316 00

In view of the foregoing conditions, I respectfully request that your Honorable Board will grant the desired appropriation at your earliest convenience, the same to take effect from July 1, 1904.

Very respectfully yours,

WM. TRAVERS JEROME, District Attorney.

District Attorney's Office, County of New York, }

June 11, 1904.

To the Honorable the Board of Estimate and Apportionment:

Gentlemen—I have the honor to request that, pursuant to section 56 of the Greater New York Charter, you recommend to the Board of Aldermen that the position of Information Clerk in the office of the District Attorney of New York County be created and the salary of same be fixed at the rate of \$1,500 per annum.

By chapter 563 of the Laws of 1904, sections 221, 747, et seq., of the Criminal Code were entirely remodelled, and the law was so altered that the proceedings in the Court of Special Sessions will be substantially conformed to proceedings upon indictment in the Court of General Sessions, and it will be necessary for me to establish a new Bureau in my office to dispose of the immense amount of work which this statute necessitates. One of the provisions of the new law provides that defendants in misdemeanor cases will no longer be tried on papers presented by the Magistrate, but in each case the District Attorney is required to prepare what the statute designates as "an information," the form of which the law provides, and which is substantially identical with an indictment, save that instead of being filed by the Grand Jury, it is presented by the District Attorney himself.

It will be the duty of the Information Clerk to assist the Deputy Assistant District Attorney in charge of the Bureau in making a careful examination of the facts surrounding the commission of each misdemeanor, in order to ascertain whether to prosecute or recommend the dismissal of the complaint, and to make such recommendations on behalf of the District Attorney as the circumstances may warrant.

Respectfully yours,

WM. TRAVIS JEROME, District Attorney.

The President laid before the Board the following communication from the Board of Rapid Transit Railroad Commissioners:

No. 804.

To the Honorable the Board of Aldermen of The City of New York:

Communication of the Board of Rapid Transit Railroad Commissioners for The City of New York, transmitting certificate to the New York Connecting Railroad Company.

June 27, 1904.

Board of Rapid Transit Railroad Commissioners, }

No. 320 Broadway, New York.

To the Honorable the Board of Aldermen of The City of New York:

The New York Connecting Railroad Company is a steam railroad corporation owning a railroad wholly within the limits of The City of New York. In pursuance of the provisions of the General Railroad Law it has filed a route and profile showing an extension which it desires to build entirely within this City. The proposed route begins in the Borough of Brooklyn, close to the line of the Borough of Queens, and near the Cemetery of the Most Holy Trinity, and thence the route runs through the Borough of Queens to the East river, and crosses over the East river by a bridge and runs over Ward's Island and Randall's Island to a point in the Borough of The Bronx, where it forms a connection with the lines of the New York, New Haven and Hartford Railroad Company.

The New York Connecting Railroad Company has applied to this Board pursuant to chapter 4 of the Laws of 1891, and the various acts amendatory thereof and supplemental thereto, to fix and determine the route or routes by which the applicant corporation may connect with other railroads or the stations thereof in The City of New York and may extend its lines within the City, and for authority to acquire terminal and other facilities necessary for the accommodation of the traveling public on certain streets and places in The City of New York as shown upon the map and profile submitted by it, together with all necessary sidings, platforms, stations and other appurtenances, and to lay its tracks and operate its railways and to transport passengers or freight over the same, and to run either passenger trains or freight trains, or mixed trains, and that this Board shall fix and determine the location and plans of construction of the said railway.

The New York Connecting Railroad Company has obtained from the Legislature of the State of New York, by chapter 752 of the Laws of 1900, the right and privilege to construct upon the line of its railroad a bridge of a single span across East river, at or near Hell Gate, together with the necessary viaduct and approaches, and to maintain and operate the same. The said bridge is to have an elevation of not less than one hundred and thirty-five feet above mean high water, and to span the East river from abutments built upon the shores thereof. This Board is advised that the railroad company has also obtained from the United States authorities approval of the proposed bridge.

The proposed route of the New York Connecting Railroad Company lies wholly within private property acquired or to be acquired by the railroad company except where the same crosses over or under various City streets and except where it crosses over Ward's Island and Randall's Island and the waters adjacent thereto. The route does not at any point follow the line of any City street or avenue. For the most part it will be constructed upon a viaduct or embankment running through the blocks, and near the river it will necessarily attain a great height above the ground, inasmuch as the bridge, as above stated, must be at height of one hundred and thirty-five feet above mean high water.

The stock of the New York Connecting Railroad Company is owned jointly by the Pennsylvania Railroad Company and the New York, New Haven and Hartford Railroad Company. The Pennsylvania Railroad Company also owns the stock of the Pennsylvania, New York and Long Island Railroad Company, which is now constructing the new tunnel line extending from New Jersey under the Borough of Manhattan to the Borough of Queens, and a controlling interest in the stock of the Long Island Railroad Company.

By means of the new railroad now proposed, the controlling interests have in contemplation the establishment of a through line of railroad for the transportation of freight and passengers between all points reached by the Long Island Railroad and all points reached by the New York, New Haven and Hartford Railroad. The

new railroad will, it is expected, be used chiefly for carrying freight. The result here sought is a closer intimacy between the business interests of Brooklyn and the rest of Long Island and those of New England, and a direct freight outlet and inlet from Long Island to the Northeast, North and Northwest.

This Board, after careful consideration of the application, did, on the 23d day of June, 1904, by a concurrent vote of six of its members, fix and determine the location and plans of construction of the said railroad of the New York Connecting Railroad Company upon the proposed routes and of its tracks and facilities, the times within which they are to be respectively constructed and the compensation to be paid therefor to the City by the railroad company, and did also prescribe such terms, conditions and requirements as to the Board appeared to be just and proper for the grant in question, including the terms, conditions and requirements provided by the Rapid Transit Act, and including a provision that the company shall from the time of the commencement of the operation of such railroad under the determination of the Board annually pay to the City a rental for a period of twenty-five years, beginning with such operation, and also providing for a readjustment of the amount of such sum or rental at the expiration of such period, and at intervals thereafter of twenty-five years. The general form of the certificate granting this franchise follows the form of the certificate granted to the Pennsylvania, New York and Long Island Railroad Company and approved by your Honorable Board on December 16, 1902.

In view of the fact that this railroad, unlike the Pennsylvania tunnel, does not follow the line of any street, the compensation payable to the City should obviously be calculated upon a different scale. So far as the franchise to cross the East river is concerned, the sum of one hundred dollars a year has been fixed, being the same amount that was fixed in the Pennsylvania franchise for the right to pass under the East river. For the remainder of the road an annual charge is made of five cents a linear foot of railroad track for the first ten years, and ten cents a linear foot for the next fifteen years. These amounts, considering the small extent to which the railroad makes use of any City property in the streets, are considered by this Board full and reasonable compensation.

So far as Ward's Island and Randall's Island are concerned, the Railroad Company will need to make use of the property, first, by obtaining the right to place foundations on the ground for the support of their viaduct, and, second, by securing an easement for an overhead right of way between such supports. Inasmuch as the exact extent of such use cannot now be determined, and inasmuch as the Board of Sinking Fund Commissioners is the usual authority for determining the value of property disposed of by the City, it has been agreed that the compensation to be paid to the City for the property so needed shall be determined by the Sinking Fund Commissioners.

The certificate provides that the new railroad shall be constructed so as to cross all streets either below or above grade at suitable distances; that all plans for and the method of doing the work shall from time to time be subject to the approval of the Rapid Transit Board, and that the roadbed, except on bridges, shall be ballasted with either blast furnace slag or broken stone of a hard, durable quality, so as to avoid dust as far as possible.

The motive power to be used by the new railroad company is to be steam, but the railroad company is given the option to substitute electricity at any time. It is also provided that if by reason of increased density of population upon or along the line of the new railroad the use of steam shall constitute a nuisance, the railroad company shall change its motive power upon the demand of the Rapid Transit Board, unless the Supreme Court should hold that the use of steam was not in fact a nuisance or dangerous to the residents along the route or that it did not materially depreciate the value of property.

This Board is of the opinion that while every improved means of communication is of benefit to the City, the fact that the proposed new road will give to the boroughs of Brooklyn and Queens, and through them to the whole of Long Island, direct railroad communication with New England, is a matter of peculiar advantage to the City as a whole and to the two boroughs above mentioned in particular. It is to be remembered that large tracts of land in those two boroughs are vacant and well adapted for manufacturing and other business enterprises. Up to the present time the fact that they were cut off from the Continent of America by broad tidal streams has undoubtedly operated to retard their development. The plans now in contemplation will, it is believed, tend to bring into use many tracts of land within the City which would otherwise not be available; and by enhancing taxable values and also by broadening the area within which the industries of the City are carried on it will in a great variety of ways enure to the benefit of the entire community. When to this is added the fact that the City will receive a substantial income from the railroad corporation, which is to be readjusted in the future at intervals of twenty-five years, but is never to be less than the greatest rental now fixed, it is believed that the proposed arrangement is one which will commend itself to the judgment of your Honorable Board.

A copy of the certificate of this Board, together with a copy of a written instrument duly executed and acknowledged by the New York Connecting Railroad Company accepting the said franchise and all the terms, conditions and requirements thereof, is transmitted herewith.

This Board feels that it is for the interest of the public and of The City of New York that the necessary constitutional consents to the construction and operation of said proposed railroad should be obtained as soon as possible.

In Witness Whereof the Board of Rapid Transit Railroad Commissioners for The City of New York has caused its official seal to be hereto affixed and these presents to be attested by its President and Secretary this 27th day of June, 1904.

BOARD OF RAPID TRANSIT RAILROAD COMMISSIONERS FOR THE CITY OF NEW YORK.

The Board of Rapid Transit Railroad Commissioners for The City of New York to the New York Connecting Railroad Company.

Certificate, June 23, 1904.

The Board of Rapid Transit Railroad Commissioners for The City of New York does hereby certify as follows:

Whereas, The New York Connecting Railroad Company (which is hereinafter called the railroad company) is a railroad corporation duly incorporated under the laws of the State of New York and owns and actually operates railroads now constructed which are wholly within the limits of The City of New York, which City is hereinafter called the city, and which railroads are hereinafter called the railroad now constructed; and

Whereas, The railroad company desires that the said railroad now constructed shall be connected with the railroad of the Harlem River and Port Chester Railroad Company and thereby with the railroad of the New York, New Haven and Hartford Railroad Company and that the said railroad now constructed shall be also connected with the railroad of the Long Island Railroad Company (both railroads with which connection is so desired being railroads within the State of New York and extending respectively from points within the City to points without the same), and that the said railroad now constructed shall be also connected with the railroad of the Pennsylvania, New York and Long Island Railroad Company (being a railroad now under construction and situate and to be situate entirely within the City), and the railroad company desires by such connections to form a continuous line or lines for the carriage of passengers and property between points, on the one hand, within the City and more particularly points within the boroughs of Brooklyn and Queens therein, and still more particularly points on the Long Island Railroad therein and, on the other hand, points as follows: First, points without the City, along the railroad of the New York, New Haven and Hartford Railroad Company between the City and various points thereby reached in the States of Connecticut, Rhode Island and Massachusetts and other States of New England; secondly, points upon the Long Island Railroad without the City; thirdly, points upon the line of the railroad of the Pennsylvania, New York and Long Island Railroad Company now being constructed and thereby and through it, by the Pennsylvania Railroad and otherwise, with points without the City upon the said Pennsylvania Railroad and upon its connections in the States of New Jersey, Pennsylvania and other States to the West and South, the intention being to establish rapid, direct

and convenient connections between the said boroughs of Brooklyn and Queens and such States of New England, the West and South; and

Whereas, The Legislature of the State of New York has, by chapter 752 of the Laws of 1900, granted to the railroad company the right to construct upon the line of its railroad a bridge for railroad purposes only, of a single span across the East river at or near Hell Gate, together with necessary viaduct approaches, and to maintain and operate the same, the said bridge to have an elevation of not less than one hundred and thirty-five feet above mean high-water and to span the East river from abutments built upon the shores thereof and within the bulkhead-lines so as not to impede navigation upon the said river; and

Whereas, The railroad company did, prior to the 11th day of June, 1903, duly file its route and profile as provided by the Railroad Law, and, whereas, later and on the said 11th day of June, 1903, the railroad company did duly and with the assent of two-thirds of all the directors of the said company, file in the offices of the Clerks of the Counties of Queens and New York its amended route and profile, and on the 21st day of June, 1904, with like assent did file said amended route and profile in the office of the Clerk of the County of Kings; and

Whereas, The said route lies wholly within private property acquired or to be acquired by the railroad company except where the same crosses over or under certain streets, avenues and highways, and also except where the same extends over and across Ward's Island and Randall's Island and the waters surrounding the said islands and the shores of the East river, Little Hell Gate and Bronx Kills; and

Whereas, The railroad company, pursuant to section thirty-two of chapter four of the Laws of 1891 as amended by chapter five hundred and eighty-four of the Laws of 1902 (which entire statute as amended by various acts and as now in force, is hereinafter called the Rapid Transit Act), has made application to the Board of Rapid Transit Railroad Commissioners for The City of New York (which Board is hereinafter called the Board) to fix and determine the route or routes by which the railroad company may connect with the several railroads above mentioned, and may establish, construct and extend the lines of the railroad company within the City, and also for authority to the railroad company to lay railroad tracks within the City and to operate its railway to certain terminals within the City, and otherwise for the authority and rights hereinafter more particularly set forth, including the right to transport over its railroad passengers and freight or both; and whereas, the additions, tracks, extensions, railroad and connections hereby authorized (and including the portion of the routes hereinafter described upon which the railroad company has already constructed and now owns a railroad) are hereinafter called the new railroad; and

Whereas, The Board, by a concurrent vote of at least six of its members, has fixed and determined the locations and plans of construction of such new railroad of the railroad company upon such routes and of such tracks and facilities, the times within which they shall be respectively constructed, and the compensation to be paid therefor to the City by the railroad company; and

Whereas, The Board, by such concurrent vote, has prescribed such terms, conditions and requirements as to the Board appear to be just and proper for the grant hereby made to the railroad company, including the terms, conditions and requirements provided by the Rapid Transit Act, and has included among them a provision that the railroad company shall, from the time of the commencement of the operation of such new railroad of the railroad company under such determination, annually pay to the City certain sums or rentals for a period of twenty-five years, beginning with such operation, and also providing for a readjustment of the amount of such sums or rentals at the expiration of such period and at intervals thereafter of twenty-five years;

Now, therefore, the Board has authorized and does hereby authorize, but subject, however, to the terms, conditions and requirements hereinafter set forth, the railroad company,

1. To lay down, construct and operate a railway upon a route the centre line of which is as follows, to wit: Beginning at a point in the Borough of Brooklyn over the northeasterly side of Knickerbocker avenue, near the Roman Catholic Cemetery of the Most Holy Trinity, and not more than one hundred and forty-five (145) feet or less than one hundred and fifteen (115) feet southeasterly from the southeasterly side of Moffat street as the same is now laid out or proposed, and running thence into the Borough of Queens and to the west of Evergreen Cemetery and crossing over Cooper avenue at or near its intersection with Wyckoff avenue as now existing, or proposed; thence running in a generally northeasterly direction, crossing over Cypress avenue at a point not more than one hundred and thirty-nine (139) feet or less than one hundred and nine (109) feet northwesterly from the intersection of the centre line of Cypress avenue with the centre line of Washington avenue; thence continuing in a generally northeasterly direction to a point over the centre line of Myrtle avenue not more than nine hundred and fifty-eight (958) feet or less than nine hundred and twenty-eight (928) feet westerly from the intersection of the said centre line of Myrtle avenue with the centre line of Fresh Pond road; thence crossing over Fresh Pond road at a point in its centre line not more than seven hundred and nineteen (719) feet or less than six hundred and eighty-nine (689) feet northwesterly from the intersection of the centre line of that road with the centre line of Myrtle avenue; thence continuing still in a generally northeasterly direction and crossing over Edsall avenue at a point in the centre line thereof at or near its intersection with Howard street as now laid out or proposed until it intersects a portion of the railroad now constructed of the railroad company at a point distant not more than two hundred and fifty-nine (259) feet or less than two hundred and twenty-nine (229) feet east of the centre line of the railway of the Brooklyn Rapid Transit Company, where it crosses the railroad now constructed of the railroad company; thence northeasterly and crossing under the centre line of Metropolitan avenue at a point not more than seven hundred and twenty-nine (729) feet or less than six hundred and ninety-nine (699) feet westerly from the intersection of the centre line of Metropolitan avenue with the centre line of Juniper avenue as now laid out or proposed; thence running northeasterly and crossing under the centre line of Juniper avenue at a point not more than eleven hundred and fifty-nine (1,159) feet or less than eleven hundred and twenty-nine (1,129) feet northerly from the intersection of the centre line of Juniper avenue with the centre line of Metropolitan avenue; thence running northeasterly on a curve with its concavity to the west to a point under the centre line of Johnson avenue not more than three hundred and thirty-seven (337) feet or less than three hundred and seven (307) feet easterly from the intersection of the centre line of Johnson avenue with the centre line of Western avenue as now laid out or proposed; thence northerly to a point under the centre line of the North Hempstead Plank road not more than sixteen hundred and three (1,003) feet or less than fifteen hundred and seventy-three (1,573) feet easterly from the intersection of the said line of the said Plank road with the centre line of Grand street; thence northerly to a point under the centre line of Grand street not more than five hundred and thirty-eight (538) feet or less than five hundred and eight (508) feet easterly from the intersection of the said centre line of Grand street with the centre line of Back street (or avenue); thence northerly to a point over the centre line of Calamus road not more than one thousand and thirty (1,030) feet or less than one thousand (1,000) feet southeasterly from the intersection of the said centre line of Calamus road with the centre line of Jackson avenue; thence northerly to a point in (over or under) the centre line of the main line of the Long Island Railroad not more than five hundred and fifteen (515) feet or less than four hundred and eighty-five (485) feet southeasterly from the intersection of said centre line with the centre line of Maurice avenue; thence northerly to a point over the centre line of Maurice avenue not more than seven hundred and forty-three (743) feet or less than seven hundred and thirteen (713) feet easterly from the intersection of said centre line of Maurice avenue with the centre line of Jackson avenue; thence northerly to a point over the centre line of Thompson avenue not more than five hundred and seventy-three (573) feet or less than five hundred and forty-three (543) feet southeasterly from the intersection of the said centre line of Thompson avenue with the centre line of Lexington avenue; thence northwesterly to a point under the centre line of the Newtown turnpike not more than one hundred and seventy-seven (177) feet or less than one hundred and forty-seven (147) feet westerly from the intersection of the said centre line of Newtown turnpike with the centre line of Walnut street; thence northwesterly to a point under the centre line of Chestnut street not more than two hundred and forty-six (246) feet or less than two hundred and sixteen (216) feet westerly from the intersection of the said centre line of Chestnut street with the centre line of Walnut street; thence northwesterly to a point under the centre line of Prospect street not more than three hundred and eighteen (318) feet or less than two hundred and eighty-eight (288) feet westerly from the intersection of the said centre line of Prospect street with the centre line of Walnut street; thence northwesterly to a

point under the centre line of Woodside avenue not more than four hundred (400) feet or less than three hundred and seventy (370) feet westerly from the intersection of the said centre line of Woodside avenue with the centre line of Walnut street; thence northwesterly to a point under the centre line of First street not more than two hundred and three (203) feet or less than one hundred and seventy-three (173) feet easterly from the intersection of the said centre line of First street with the centre line of Worthington street; thence northwesterly to a point under the centre line of Forest street not more than nine hundred and seventy-three (973) feet or less than nine hundred and forty-three (943) feet easterly from the intersection of the said centre line of Forest street with the centre line of Trains Meadow road; thence northwesterly to a point under the centre line of Trains Meadow road not more than one hundred and ninety (190) feet or less than one hundred and sixty (160) feet westerly from the intersection of the said centre line of Trains Meadow road with the centre line of Sprague street as now laid out or proposed; thence northwesterly to a point over the centre line of Jackson avenue not more than eighty-one (81) feet or less than fifty-one (51) feet easterly from the intersection of the said centre line of Jackson avenue with the centre line of Ninth street as now laid out or proposed; thence northwesterly to a point over the centre line of Charlotte avenue not more than one hundred and ninety-six (196) feet or less than one hundred and sixty-six (166) feet westerly from the intersection of the said centre line of Charlotte avenue with the centre line of Ninth street as now laid out or proposed; thence northwesterly to a point over the centre line of the Bowery Bay road not more than five hundred and fifty-four (554) feet or less than five hundred and twenty-four (524) feet southwesterly from the intersection of the said centre line of the Bowery Bay road with the centre line of Wilson avenue; thence northwesterly to a point over the centre line of Wilson avenue not more than seven hundred and eighty-four (784) feet or less than seven hundred and fifty-four (754) feet northwesterly from the intersection of the said centre line of Wilson avenue with the centre line of the Bowery Bay road; thence northwesterly to a point over the centre line of Titus street not more than one hundred and sixty-one (161) feet or less than one hundred and thirty-one (131) feet northeasterly from the intersection of the said centre line of Titus street with the centre line of Wilson avenue; thence northwesterly to a point over the centre line of Luyster street not more than three hundred and thirty-one (331) feet or less than three hundred and one (301) feet northeasterly from the intersection of the said centre line of Luyster street with the centre line of Wilson avenue; thence northwesterly to a point over the centre line of Stemler street not more than four hundred and ninety-six (496) feet or less than four hundred and sixty-six (466) feet northeasterly from the intersection of the said centre line of Stemler street with the centre line of Wilson avenue; thence northwesterly, the railroad here beginning to ascend from natural grade by way of approach to the bridge over the East river, and while rising upon such approach, crossing over Flushing avenue at a point in the centre line thereof at or near its intersection with the centre line of Grace street as now laid out or proposed; thence crossing Nassau street, at a point over the centre line thereof not more than four hundred and seventy-four (474) feet or less than four hundred and forty-four (444) feet southeasterly from the intersection of the said centre line of Nassau street with the centre line of Steinway avenue, crossing Frankfort street at a point over the centre line thereof not more than one hundred and thirty-four (134) feet or less than one hundred and four (104) feet southeasterly from the intersection of the said centre line of Frankfort street with the centre line of Steinway avenue, crossing Steinway avenue at a point over the centre line thereof not more than four hundred and thirty-two (432) feet or less than four hundred and two (402) feet southwesterly from the intersection of the said centre line of Steinway avenue with the centre line of Potter avenue, crossing Kouwenhoven street at a point over the centre line thereof not more than three hundred and twenty-one (321) feet or less than two hundred and ninety-one (291) feet southwesterly from the intersection of said centre line of Kouwenhoven street with the centre line of Potter avenue as now laid out or proposed, crossing Pomeroy street at a point over the centre line thereof not more than two hundred and sixteen (216) feet or less than one hundred and eighty-six (186) feet southwesterly from the intersection of said centre line of Pomeroy street with the centre line of Potter avenue as now laid out or proposed; thence in a northwesterly direction on a curve with its convexity toward the east, crossing Blackwell street at a point over the centre line thereof not more than one hundred and eleven (111) feet or less than eighty-one (81) feet southwesterly from the intersection of the said centre line of Blackwell street with the centre line of Potter avenue, crossing Potter avenue at a point over the centre line thereof about midway between Blackwell street and Rapelje street, crossing Rapelje street at a point over the centre line thereof not more than one hundred and one (101) feet or less than seventy-one (71) feet northeasterly from the intersection of the said centre line of Rapelje street with the centre line of Potter avenue, crossing Debevoise avenue at a point over the centre line thereof not more than two hundred and nine (209) feet or less than one hundred and seventy-nine (179) feet northeasterly from the intersection of the said centre line of Debevoise avenue with the centre line of Potter avenue, as now laid out or proposed, crossing Lawrence street at a point over the centre line thereof not more than two hundred and eighty-seven (287) feet or less than two hundred and fifty-seven (257) feet northeasterly from the intersection of the said centre line of Lawrence street with the centre line of Potter avenue, crossing Chauncey street at a point over the centre line thereof not more than three hundred and thirty (330) feet or less than three hundred (300) feet northeasterly from the intersection of the said centre line of Chauncey street with the centre line of Potter avenue, crossing Crescent street at a point over the centre line thereof not more than four hundred and five (405) feet or less than three hundred and seventy-five (375) feet northeasterly from the intersection of the said centre line of Crescent street with the centre line of Potter avenue as now laid out or proposed to a point over the centre line of the boulevard not more than four hundred and sixty-five (465) feet or less than four hundred and thirty-five (435) feet northeasterly from the intersection of the said centre line of the boulevard with the centre line of Potter avenue as now laid out or proposed; thence by bridge in a northwesterly direction over the East river to a point on Ward's Island; thence with a curve towards the east in a general northeasterly direction by bridge over Ward's Island and Little Hell Gate to a point on Randall's Island; thence still continuing in a general northeasterly direction by bridge over Randall's Island and the Bronx kills to a point in Willow avenue in the Borough of The Bronx not more than seven hundred and ninety-two (792) feet, or less than seven hundred and forty-two (742) feet southwesterly from the intersection of the said centre line of Willow avenue with the centre line of East One Hundred and Thirty-second street; thence northeasterly, the route here descending on the approach from the Bronx side of the bridge over the East river, and while upon such approach crossing Willow avenue; crossing East One Hundred and Thirty-second street at a point over the centre line thereof, not more than three hundred and two (302) feet, or less than two hundred and seventy-two (272) feet southeasterly from the intersection of the said centre line of East One Hundred and Thirty-second street with the centre line of Willow avenue; crossing East One Hundred and Thirty-third street at a point over the centre line thereof not more than three hundred and seventy (370) feet, or less than three hundred and forty (340) feet southeasterly from the intersection of the said centre line of East One Hundred and Thirty-third street with the centre line of Willow avenue, crossing East One Hundred and Thirty-fourth street at a point over the centre line thereof not more than four hundred and sixteen (416) feet, or less than three hundred and eighty-six (386) feet southeasterly from the intersection of the said centre line of East One Hundred and Thirty-fourth street with the centre line of Willow avenue, crossing East One Hundred and Thirty-fifth street at a point over the centre line thereof, not more than four hundred and fifty-five (455) feet, or less than four hundred and twenty-five (425) feet southeasterly from the intersection of the said centre line of East One Hundred and Thirty-fifth street with the centre line of Willow avenue, crossing East One Hundred and Thirty-sixth street at a point over the centre line thereof, not more than four hundred and ninety-four (494) feet or less than four hundred and sixty-four (464) feet southeasterly from the intersection of the said centre line of East One Hundred and Thirty-sixth street with the centre line of Willow avenue, crossing East One Hundred and Thirty-seventh street at a point over the centre line thereof, not more than five hundred and thirty-three (533) feet or less than five hundred and three (503) feet southeasterly from the intersection of the said centre line of East One Hundred and Thirty-seventh street with the centre line of Willow avenue, crossing East One Hundred and Thirty-eighth street at a point over the centre line thereof not more than five hundred and seventy-four (574) feet or less than five hundred and forty-four (544) feet southeasterly from the inter-

section of the said centre line of East One Hundred and Thirty-eighth street with the centre line of Willow avenue, the route here reaching the commencement of the approach from the Bronx side of the bridge over the East river, and here connecting with the railroad of the Harlem River and Port Chester Railroad Company.

Together with spurs or connections as follows, to wit:

A. A spur or connection upon a route, the centre line of which is as follows, to wit: Beginning at a point in the railway hereinbefore in paragraph 1 described about midway between the crossings of Fresh Pond road and Edsall avenue, and running thence northeasterly along a curve with its convexity towards the north to a point in the railroad now constructed of the railroad company south of the Lutheran Cemetery and not more than fourteen hundred and fifteen (1,415) feet or less than thirteen hundred and fifteen (1,315) feet westerly from the Glendale Station of the said railroad, as now constructed.

B. A spur or connection upon a route, the centre line of which is as follows, to wit: Beginning at a point in the centre line of the railroad now constructed of the railroad company, not more than fourteen hundred and fifteen (1,415) feet, or less than thirteen hundred and fifteen (1,315) feet westerly from the Glendale Station of the said railroad, as now constructed; running thence northwesterly along a curve with its convexity towards the southwest and crossing the railroad now constructed of the Railroad Company at a point not more than three hundred and ninety (390) feet or less than three hundred and sixty (360) feet southeasterly from the intersection of the said railroad now constructed with the centre line of the railway of the Brooklyn Rapid Transit Company; thence running northerly and west of the Lutheran Cemetery to a point in the railway hereinbefore in paragraph 1 described not more than five hundred and forty (540) feet or less than four hundred and forty (440) feet along said railway northeasterly from the intersection of its centre line with the railroad now constructed of the Railroad Company.

C. A spur or connection upon a route, the centre line of which is as follows, to wit: Beginning at a point in the centre line of the railroad now constructed of the Railroad Company distant not more than one thousand and eighty (1,080) feet or less than nine hundred and eighty (980) feet northwesterly from the intersection of the centre line of the said railroad now constructed with the centre line of the railway of the Brooklyn Rapid Transit Company west of the Lutheran Cemetery; running thence upon a curve with its convexity towards the southeast to a point in the railway hereinbefore in paragraph 1 described not more than three hundred and sixty-five (365) feet or less than two hundred and sixty-five (265) feet southwesterly along said railway from the intersection of the centre line of the said railway with the centre line of Metropolitan avenue.

D. A spur or connection upon a route, the centre line of which is as follows, to wit: Beginning at a point in the railway hereinbefore in paragraph 1 described, about fifty (50) feet southeasterly from the intersection of its centre line with the centre line of Bowery Bay road, thence in a general southwesterly direction to a point over the centre line of Charlotte avenue not more than one hundred and thirty-five (135) feet or less than one hundred and five (105) feet easterly from the intersection of the said centre line of Charlotte avenue with the centre line of Fourth street; thence crossing Fourth street at a point over the centre line thereof not more than four hundred and sixty-one (461) feet or less than four hundred and thirty-one (431) feet northerly from the intersection of the said centre line of Fourth street with the centre line of Jackson avenue; thence crossing over Third street and Jackson avenue at a point at or near the northwest corner of their intersection; thence still in a general southwesterly direction crossing Woodside avenue at a point over the centre line thereof to a point in the centre line of the railroad of the Pennsylvania, New York and Long Island Railroad Company, now being constructed on the westerly side of Woodside avenue.

The said route is illustratively shown upon the plan and profile of the new railroad and its spurs and connections herewith attached, which plan and profile are to be deemed a part of this franchise and to be construed with the text hereof, and are to be substantially followed; Provided that deviations therefrom which are consistent with the foregoing description and the other provisions of this franchise may be permitted by the Board.

2. To lay down, construct and operate upon the main line of the said route of the said railway tracks not exceeding four in number, and upon the said spurs A., B., C. and D. tracks not exceeding two in number, Provided that the entire structure of the said railway, including cuttings and embankments, shall not over or under any street or road exceed two hundred (200) feet in width, and Provided, still further, that the Railroad Company shall have the right to add an additional track by way of siding along any portion or portions of its main line of its said railway not in all exceeding in length of such siding or sidings forty (40) per cent. of the total length of the said main line, and to increase the width of the structure or right of way of the said railway by not more than fifty (50) feet for each such siding or sidings for the length or lengths thereof; Provided, however, that the said percentage of sidings may be increased upon consent of the Board; and Provided, further, that this provision shall not limit the right of the railroad company in the use of lands owned or which shall be owned by it.

3. To acquire and maintain terminals or stations.

4. To run upon the said railway (which with the said terminal, stations and all other appurtenances, are together hereinafter called the new railroad) locomotives, motors, cars and carriages for the transportation of persons and property and to use thereon and in connection therewith all suitable appliances.

5. To maintain and operate upon or over the routes aforesaid including all streets, avenues or highways which shall be intersected by the new railroad, or over or under which any part of the routes thereof shall run, telegraph wires and wires, cables, conduits, ducts and ways for the distribution of power, heat and light, and other appurtenances for use of the new railroad and for no other purpose.

6. To acquire and use for power plants, pumping stations, shafts or stairways for access to or from the railroad, and other necessary purposes of the new railroad, as well as for stations and station extensions, private property, as the same has been or shall be lawfully acquired, within the scope of the corporate rights and powers of the railroad company.

Nothing herein contained shall be deemed to give any right to construct or operate a railroad upon the surface of any street, avenue or highway in The City of New York.

The rights hereinbefore granted to maintain and operate the new railroad or necessary or convenient for that purpose, shall be held by the railroad company in perpetuity except as may be herein otherwise expressly provided.

But this authorization, including all the rights and privileges hereby granted, are subject to certain terms, conditions and requirements which appear to the Board to be just and proper and as so subject, are hereinafter called the franchise hereby granted.

The following further terms, conditions and requirements are accordingly hereby prescribed as follows, to wit:

#### I.

This certificate will be executed by the Board in four identical originals, so proved as to be entitled to be recorded in the office of the Register or County Clerk of each of the Counties of Kings, Queens and New York, and to be filed in the office of the Secretary of State of the State of New York, all of which will be delivered by the Board to the president, vice-president, secretary or treasurer of the railroad company. The franchise hereby granted shall be inoperative, and this certificate shall be void unless within thirty days after such delivery or such further period not exceeding three months as shall be prescribed in writing by the Board, the railroad company shall have procured three of the said identical originals to be returned to the Board, each of them having an acceptance of the franchise and all the terms, conditions and requirements thereof subscribed at the foot thereof by the railroad company, such acceptance being so proved as to entitle it to be recorded and filed as aforesaid.

#### II.

The franchise hereby granted shall, if the Board shall so determine, become void unless within six calendar months after the time of the delivery to the Board of the acceptance of this certificate by the railroad company, that company shall, in due and lawful form, obtain or receive the consent of the Board of Aldermen of the City, being the local authority having the control of the streets, avenues and highways over or under which it is proposed to construct the new railroad, and of the other property of the City upon, under or over which such new railroad is to be constructed, together with the approval of the Mayor of the City.

The franchise hereby granted shall, if the Board shall so determine, become void, unless within one year after the time of such acceptance of this certificate by the rail-

road company, that company shall further, and in due and lawful form, obtain, so far as may be necessary, the consent of the owners of one-half in value of the property bounded on each portion of the streets or avenues over or under which the new railroad or any part of the route thereof runs, to the construction and operation of the new railroad or such part thereof, or in case the consent of such property owners cannot be obtained, then the determination of commissioners to be appointed pursuant to law by the Appellate Division of the Supreme Court in the First Department or the Second Department (as the case may be) that such portion of the new railroad ought to be constructed and operated, the said determination of such commissioners, when confirmed by the Appellate Division which shall have appointed such commissioners, to be taken in lieu of such consent of property owners, provided, however, and it is expressly stipulated, that the Board shall have power, upon reasonable cause shown, to extend by written certificate either of the periods hereinbefore in this article prescribed.

### III.

The railroad company shall begin or continue the construction of the new railroad within three months after it shall have obtained the consents aforesaid, or such of them as shall be necessary as aforesaid and shall complete the construction of the railroad and begin its operation within five years after such construction shall be begun or continued.

In case the railroad company, within the period of three months after it shall have obtained the consents necessary as aforesaid, shall not have begun or continued the actual construction of the new railroad, or if, after having begun or continued such construction, it shall suspend the same prior to the completion thereof for a period exceeding three months, or if it shall not complete such construction and begin the operation of the new railroad within the said period of five years, then and in that case, the Board, upon a written notice to be delivered to the railroad company, may annul the franchise hereby granted as to any part of the new railroad not then completed and in operation; provided, however, that the Board shall have the power, upon reasonable cause shown, to extend by written order any of the periods in this article prescribed; provided, further, however, that such extension or extensions shall not in all exceed five years; and provided, further, that additional time shall be allowed by way of extension of any period for such commencement or continuance of construction or for the completion thereof, or for the commencement of operation of the new railroad equal to the total period of delay caused by injunction or by necessary proceedings for condemnation of real estate, easements or other property, so far as such proceedings shall necessarily prevent the railroad company from prosecuting such construction, but no delay to be so allowed for unless, during the same, such proceedings shall be diligently prosecuted by or for the railroad company; and provided, further, that in no case shall such delay be deemed to begin until the railroad company shall have given written notice to the Board of the injunction or other occasion of delay and delivered to the Board copies of the injunction or other orders causing delay and of such of the papers upon which the same shall have been granted as shall have been served upon the railroad company, and unless, upon the request of the Board, the railroad company shall, in writing, consent that the Board, either in its own name as a party or in the name of The City of New York as a party, may intervene in any such injunction proceedings or other suit or proceedings; and provided, further, that in case of annulment of any part of the franchise the railroad company shall have no right to any return of payments which it shall have made to the City by way of rental or otherwise.

### IV.

The railroad company shall pay to the City for the franchise to construct and maintain the new railroad over the East river between bulkhead-lines as heretofore determined by the War Department of the United States, the sum of one hundred dollars (\$100) for each year, beginning on the date on which the railroad company shall first commence the actual operation of the new railroad (but such date to be not later than the last day on which the railroad company shall be bound to begin such operation) and ending on the day twenty-five (25) years next thereafter. The railroad company shall further pay to the City for the rights, franchises and licenses hereby granted the sum of five (5) cents per annum for each linear foot of single track of the new railroad, which at the dates when the respective payments are due shall be constructed or which the railroad company shall be bound to have then constructed, during the period beginning on the date when the railroad company shall first commence actual operation of the new railroad (but not later than the last day on which the railroad company shall be bound to begin such operation) and ending on the day ten (10) years next thereafter, and ten (10) cents per annum for each linear foot of such single track during the period beginning on the last day of such ten (10) years and ending on the day fifteen (15) years next thereafter. In computing the length of the tracks on which payments are to be made as aforesaid both main tracks and side tracks shall be included; but tracks shall be excluded which are used exclusively for switching and storage of cars and which are situated wholly within yards or terminals belonging or leased to the railroad company; and there shall also be excluded such tracks as rest upon the portions of the bridge directly over the East river, Little Hell Gate and Bronx Kills. The length of the said portions of the bridge shall be determined by ascertaining the distance from the bulkhead-line as heretofore determined on one shore to the bulkhead-line as heretofore determined on the other shore, at points vertically under the bridge. The railroad company, in addition to the payments hereinbefore provided, shall pay annually the reasonable value of its use and occupation of the portions of ground upon the said Ward's Island and Randall's Island permanently occupied by the abutments, piers and other supports of the bridge or elevated structure and of its use and occupation of the portions of overhead space occupied by such bridge or elevated structure. The time for such payment shall be computed from the date of the first occupation of the ground of Ward's or Randall's Island for any purpose of such bridge or elevated structure. The amount of such annual payments may be agreed upon in writing by the railroad company and the Board of Commissioners of the Sinking Fund of the City. If such agreement shall not be made within six months after such date of the first occupation of the ground as aforesaid, then the rates of such payment shall be prescribed by the Board of Commissioners of the Sinking Fund and, as so prescribed, shall be paid by the Railroad Company. Provided, that, if the Railroad Company shall claim that the amount prescribed is unreasonable, it shall have the right, notwithstanding such payment, to recover back from the City the amount of the excess, if any, of its payment over and above the amount which shall be reasonable, and the City shall repay to the Railroad Company the amount of such excess. Two rates shall be agreed upon or prescribed as aforesaid, the first for the period which shall begin on the date of the first occupation of the ground on Ward's or Randall's Island for any purpose of such elevated structure and shall end ten (10) years from and after the date when the Railroad Company shall first commence the actual operation of the new railroad (but not later than the last day on which the Railroad Company shall be bound to begin such operation) and the second rate for the period of fifteen (15) years which shall begin on the last day of such first period and end on the day fifteen (15) years next thereafter. In case either of the said rates shall be prescribed, not by agreement, but by the Board of Commissioners of the Sinking Fund as aforesaid, and if the Railroad Company shall, as aforesaid, object that the rate is unreasonable, then the rate, if any, which shall be ascertained to be reasonable in any suit or proceeding brought by the Railroad Company as aforesaid, shall be deemed to be the reasonable rate for the remainder of the said period ending on the last day of the said period of ten (10) years or for the said period of fifteen (15) years as the case may be. The payments hereinbefore provided with respect to Ward's Island and Randall's Island are to be limited to amounts which are reasonable for the occupation and use of the estate and title of the City in the property occupied or used as aforesaid. In determining what amounts shall be reasonable, due regard shall be had to such estate and title.

All such payments shall be made to the Comptroller of the City in equal payments at the end of each quarter year on the first days of January, April, July and October in each year.

The amounts to be paid by the Railroad Company as aforesaid shall be readjusted at the end of the first period of twenty-five (25) years, and shall thereafter be readjusted at intervals of twenty-five (25) years. The amounts to be paid by the Railroad Company at the end of the first period and at the end of each successive period of twenty-five (25) years shall be determined as follows, to wit: Each such determination shall be had upon the application of either the Railroad Company or the Board or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two years and not later than one year before the expiration of the preceding period

of twenty-five (25) years. The determination shall be sufficient if agreed to in writing by the Railroad Company and the Board or such other authority in its place. If the Railroad Company and the Board or such other authority in its place for the City shall not reach such agreement on or before the day one year before the expiration of such preceding twenty-five (25) years period, then the rate of compensation for such succeeding twenty-five years period shall be reasonable; and either the City (by the Board or such other authority in its place) or the Railroad Company shall be bound, upon request of the other, to enter into a written agreement with such other fixing the rate of such compensation at such amount as shall be reasonable; and if the parties shall not forthwith agree upon what is reasonable, then they shall enter into a written agreement fixing such rate at such amount as shall be determined by the Supreme Court of the State of New York; and either party may in such case apply to the said Court to fix such rate. If, in any case, the rate shall not be fixed prior to the commencement of such succeeding twenty-five years period, then the Railroad Company shall pay the rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of the excess of the rate then determined over the previous rate. Nothing herein contained shall be deemed to determine or affect the basis of any such readjustment of amounts to be paid, it being intended that such basis shall be completely open to either the City or the Railroad Company whenever any such readjustment is to be made, except that any such readjusted amount shall never be less than the greatest corresponding amount provided herein.

The Board shall certify to the Comptroller the dates from which the payments herein provided for shall respectively be computed.

### V.

The new railroad, wherever the same shall intersect roads, streets or avenues, shall be constructed above or below the grade thereof and in every case so as to permit the convenient use by the public of such street or avenue. The City shall be entitled to require vertical clearances for streets crossing under its route of not less than twelve nor more than fourteen feet, and for streets crossing above the route not less than eighteen feet. The City shall also be entitled to require solid floor construction on all bridges crossing streets. In crossing Ward's Island and Randall's Island the railroad shall be upon an elevated structure in continuation of the bridge over the East river; and the under side of the roadway of such elevated structure over the said islands shall be at a height of not less than thirty (30) feet above the present natural grade; and the railroad company shall have the right upon the said islands to construct all necessary or proper piers, columns and other supports for the elevated structure and all necessary or proper foundations therefor. In case of tunnel construction under a street, there shall be at least four (4) feet between the grade of the street and the exterior surface of the arch or cover of said tunnel. The roadbed, except on bridges, shall be ballasted with a sufficient quantity of either blast furnace slag or broken stone of a hard durable quality.

The railroad company shall, in the course of its construction and at its own expense, maintain and care for all underground and overground structures (including pipes, wires and other conduits) in its route or directly interfered with by its construction; and any necessary interference with underground or overground structures shall be subject to reasonable regulation by the Department, if any, of the government of the City in control or charge thereof.

The railroad company shall observe all reasonable regulations which shall be prescribed by any lawful authority tending to prevent the throwing, deposit or dropping of noxious or offensive objects, substances or things from the portion of the new railroad crossing the East river, Ward's Island and Randall's Island and other public property.

The bridge across the East river shall in all respects conform with the provisions of the said act of the legislature granting the right to build the same.

The railroad company shall make good to the City all damage which shall be done to the property of the City, and shall make good to every owner of property abutting upon the new railroad or which shall be injured by the work of construction or by operation thereof, all damage which shall be done to such abutting or injured property through any fault or negligence of the railroad company or any successor thereof or of any contractor, sub-contractor or other person in the course of any employment upon the construction or operation of the new railroad or any part thereof. The railroad company shall save harmless the City of and from all claims lawfully made against the City by reason of any act or proceeding of the railroad company hereunder. The railroad company shall keep its structure in good order and where the same crosses public property it shall have such access as may be reasonably necessary in order to maintain and repair the same.

All plans for, and the method of doing, the work including necessary interference with roads, streets, avenues or other public property during construction, shall from time to time, be subject to the approval of the Board which shall be given when reasonably requested. All necessary permits for work upon roads, streets or avenues or other public property and other departmental permits so far as any shall be necessary shall be respectively granted by the presidents of the proper boroughs or other officers as provided by law.

### VI.

The motive power to be used upon the new railroad shall be steam with the right to the railroad company to substitute therefor electricity; but any other motive power may at any time hereafter be substituted for steam or electricity upon the consent of the Board and the railroad company. If the railroad company shall use steam and if, by reason of increased density of population along the line of the new railroad, such use of steam shall constitute a nuisance or be dangerous to the residents along the route, or materially depreciate the value of property along the route, then the Board may notify the railroad company that such use constitutes a nuisance, or is, in its opinion, dangerous to the residents along the route or materially depreciates the value of property along the route, and that the public necessity for a change by reason thereof to some other motive power is such that the railroad company should make a change, and that the Board accordingly requires the change to be made. The railroad company shall thereupon within ninety days notify the Board whether it will change its motive power as required by the Board. If the railroad company refuses or neglects to notify the Board within the time above specified, the Board may thereupon apply to the Supreme Court of the State of New York for a writ of mandamus or other proper remedy and the issues shall thereupon be whether in fact such use of steam by the railroad company constitutes a nuisance, or is dangerous to the residents along the route or materially depreciates the value of property along the route, and whether the public necessity for such change by reason thereof is such that the railroad company should make the change. In case the Supreme Court upon such proceeding shall decide against the railroad company that such use constitutes a nuisance, or is so dangerous or materially depreciates the value of property along the route and that the public necessity by reason thereof is such that the railroad company should make the change, and upon a written notice of not less than three years to be given by the Board, the railroad company shall change its motive power to electricity or to some other motive power not less convenient to the public.

### VII.

The railroad company shall itself bear the entire cost of preserving the streets already opened across the route of the railroad company from injury or interference with the traffic thereof or with the lawful public use thereof, by the construction or operation of the new railroad under or over the same.

The City reserves the right additionally to open across the said route in the Borough of Queens three streets between Juniper avenue and Johnson avenue, a fourth street between Trains Meadow road and Jackson avenue and a fifth street between Charlotte avenue and Bowery Bay road.

The City shall also have the right, but only if and when the public necessity requires, to open across the route of the railroad company any new streets other than the five last mentioned; and the railroad company shall consent to such opening (but subject to its right without interference to control, maintain and operate its road as herein provided) if and when the public necessity shall require and shall not object to the right of the City to so open them on the ground that the land required therefor is already applied to a public use,—provided, however, and it is expressly agreed that if the railroad company shall deny that the public necessity does in fact exist, and shall raise an issue as to the existence of such necessity either in the City's proceedings to acquire title to such street or in some other proper action or proceeding, and if the Supreme Court shall decide that such public necessity does not exist, then and in every such case the railroad company shall not be required to permit the actual use of its land for such street. The determination of the Appellate Division of the

Supreme Court, in case an appeal is taken by either party, shall be the decision of the Supreme Court herein intended.

The cost of regulating, grading and paving all streets which shall be opened as herein provided across the route of the railroad company, shall be borne and paid by the railroad company.

The cost of regulating, grading and paving streets within the meaning of this article shall be deemed to include only the cost of actual construction within the limits of the right of way of the railroad company together with the cost of bridges over such streets and the abutments thereof and supports therefor whether such bridges be used to carry the new railroad over streets or to carry streets over the new railroad.

## VIII.

It is understood that the intention of the railroad company is to use the new railroad principally for the carriage of property; but the railroad company shall have the right without restriction to transport over the new railroad passengers, provided, however, that the railroad company shall have no power to carry on merely local traffic unless with the approval of the Board and of the Board of Aldermen and Mayor of the City, and for such additional consideration to be paid to the City as they shall prescribe. Local traffic shall be deemed to include the carriage of passengers or freight between points all within the boroughs of Brooklyn and Queens or between points all within the Borough of The Bronx.

The new railroad shall be diligently and skillfully operated with due regard to the convenience of the traveling public so long as the franchise hereby granted shall be in force.

## IX.

The City shall have a lien upon the franchise and real property of the railroad company to secure the payment of such compensation and rental and for the performance of all the other obligations by the railroad company hereunder including the obligation to make good to the City damage in the case and as prescribed in Article V hereof. In case of any failure to make such payments as herein prescribed, the lien aforesaid may be enforced by the Board or by any authority which shall be authorized to act for the City in place of the Board, either by entry, foreclosure or other proper proceeding and by sale of such franchise and real property.

The Board may, in its own name, or in the name and behalf of the City, bring action for the specific performance, or may apply by mandamus to compel the performance by the railroad company of the duties and obligations hereby imposed upon the said company, or any of them. And the Board may, in behalf or in the name of the City, bring action or proceedings to recover possession of any part of the property of the City to be used by the railroad company as aforesaid, where such recovery is necessary to the enforcement hereof or to enforce the said lien of the city, or to enforce any part of this contract in the manner provided by section nine (9) of the Rapid Transit Act, or any other proper action or proceeding.

## X.

The railroad company will not at any future time oppose—but shall at any time upon the request of the Board consent to—the construction of any rapid transit or street railroad otherwise duly authorized over, along, under or across any portion of any of the said streets, roads or avenues to be occupied by the new railroad where the same shall not actually interfere with the structure or uses of the new railroad as herein authorized.

## XI.

The City, the Board, and all duly authorized representatives of the City, shall have the right at all reasonable times, as well during construction as afterwards, to inspect the new railroad and any part thereof, and to enter thereon when necessary for the examination, supervision or care of any property of the City or of abutting property-owners or for any proper purpose. Nothing in this franchise shall be deemed to diminish or affect the sanitary or police jurisdiction which the public authorities shall lawfully have over property in the City.

## XII.

The railroad company shall have the right to grant, convey, mortgage, assign or transfer the franchise hereby granted. Provided, however, that every grantee, assignee or transferee thereof, not including, however, a mortgagee or mere lineer, but including any purchaser upon foreclosure of or under or by virtue of any provision of any mortgage or lien, shall be a corporation subject to the laws of the State of New York, and shall, upon accepting the grant, assignment or transfer, and before such grant, assignment or transfer shall be valid, assume and agree to perform all of the obligations which by the provisions hereof are assumed by the railroad company, and that no such grant, conveyance, assignment or transfer shall relieve the railroad company of its obligations hereunder. Such obligations shall be deemed to include all obligations for damages or otherwise and whether such obligations shall have been reduced to judgment or not.

## XIII.

If, at any time, the powers of the Board or any other of the authorities herein mentioned or intended to be mentioned shall be transferred by law to any other board, authority, officer or officers, then and in such case such other board, authority, officer or officers shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

In Witness Whereof this certificate has been executed by the Board of Rapid Transit Railroad Commissioners for The City of New York by and upon the concurrent vote of at least six of the members of the said Board, and is now attested by its seal and by the signature of its President, who is its presiding officer, and by the signature of its Secretary, this 23d day of June, 1904.

BOARD OF RAPID TRANSIT RAILROAD  
COMMISSIONERS FOR THE CITY OF NEW YORK.

[SEAL]  
Bion L. Burrows, Secretary.

By A. E. Orr, President.

State of New York, County of New York ss.:

On the 23d day of June, 1904, in The City of New York, in said County, before me personally appeared Alexander E. Orr and Bion L. Burrows, each to me known and known to me to be, the said Alexander E. Orr, the President, and the said Bion L. Burrows, the Secretary of the Board of Rapid Transit Railroad Commissioners for The City of New York; and the said Alexander E. Orr and Bion L. Burrows, being by me duly sworn, did depose and say, each for himself and not one for the other, the said Alexander E. Orr, that he resided in the Borough of Brooklyn in the said City, that he was the President of the said Board, and that he subscribed his name to the foregoing certificate by virtue of the authority thereof, and the said Bion L. Burrows, that he resided in the Borough of Brooklyn in the said City, that he was the Secretary of the said Board and that he subscribed his name thereto by like authority; and both the said Alexander E. Orr and Bion L. Burrows that they knew the seal of the said Board and that the same was affixed to the foregoing certificate by the authority of the said Board and of a resolution duly adopted by the same.

Certificate filed in New York County.

Which was referred to the Committee on Bridges and Tunnels.

The President laid before the Board the following communication from the Tenement House Department:

No. 805.

Tenement House Department of The City of New York,  
Irving Place, Southwest Corner Eighteenth Street,  
New York City, June 15, 1904.

Board of Aldermen, City Hall, City:

Gentlemen—I am in receipt of a communication from the Hon. Henry Berlinger, Secretary for the Municipal Civil Service Commission, which communication is as follows:

"There are now before the State Civil Service Commission resolutions of this Commission including in the classification of positions in the Exempt Class in your Department the following positions:

"Messenger in the Commissioner's office.  
"Secretary to the Department.  
"Secretary to the Superintendent, The Bronx.  
"Assistant Superintendent, The Bronx."

Referring thereto, I beg to quote from a letter received from the Secretary of the State Commission this day, as follows:

"The State Commission desires it to be understood that it cannot consider applications for the classification of positions until it has satisfactory evidence that the creating power has established the position.

"In order that we may advise the State Commission, will you kindly inform us whether the positions referred to herein have been created by the concurrent action of the Board of Estimate and Apportionment and the Board of Aldermen."

In the light of this communication and in order that if your Honorable Board thinks favorably of the creation of these positions, for the reasons set forth in my previous communication, no unnecessary delay may occur, I would respectfully ask the speedy consideration of such applications by your Honorable Board.

Yours respectfully,

THOS. C. T. CRAIN, Commissioner.

Which was referred to the Committee on Salaries and Offices.

The President laid before the Board the following communication from the Police Department:

No. 806.

Police Department of The City of New York,  
No. 300 Mulberry Street,  
New York, June 20, 1904.

Hon. P. J. SCULLY, City Clerk:

My Dear Mr. Scully—I inclose herewith copies of proceedings of the Police Commissioner upon which some action should be taken by the Board of Aldermen, and I respectfully ask that you will prepare such resolutions as may be necessary to have them take the matter up at the next meeting.

On June 6 the Commissioner requested the Board of Estimate and the Board of Aldermen to authorize the issue of Special Revenue bonds for the payment of additional salary for Hostlers. As I understand it, this has to be first acted upon by the Board of Aldermen. In this case the Board of Aldermen fixed the salary at \$2.50 per day, but no provision has been made for their payment.

On July 9 the Commissioner asked the Board of Estimate and the Board of Aldermen to authorize the issue of Special Revenue bonds for the payment of an additional Inspector of Police. The Board of Aldermen have authorized the additional Inspector, but no provision has been made for the payment of his salary. As I understand it, this must first be acted upon by the Board of Aldermen before the Board of Estimate will act.

You will greatly oblige me if you will give these matters your personal attention.

Very respectfully,

WM. H. KIPP, Chief Clerk.

(Extract from proceedings of June 6, 1904.)

Whereas, That Board of Estimate and Apportionment at a meeting held March 4, 1904, adopted the following resolution:

Resolved, That the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen, in accordance with the provisions of section 56 of the Greater New York Charter, that the salary of the position of Hostler in the Police Department be fixed at the rate of \$2.50 per day; and

Whereas, That Board of Aldermen at a meeting held May 24, 1904, adopted the following:

Resolved, That the Board of Aldermen hereby concurs in said resolution and fixes the salary of the position of Hostler in the Police Department at the rate of \$2.50 per day (approved by the Mayor May 31, 1904); and

Whereas, It appears that the liability of the Police Department in the account of appropriation to pay the salaries of clerks and employees is such in amount that the Police Commissioner could not pay the additional compensation of hostlers without exceeding the appropriation made to the Police Department for said account, therefore,

Ordered, That the Board of Estimate and Apportionment and the Board of Aldermen be and are hereby respectfully requested to authorize the issue of Special Revenue Bonds for the payment of additional compensation for hostlers in the Police Department from June 1, 1904, viz.: 214 days at 50 cents per day for 46 hostlers, \$4,922.

(Extract from Proceedings of June 9, 1904.)

Whereas, The Board of Aldermen at a meeting held May 31, 1904, adopted the following:

Resolved, That, in pursuance of the provisions of section 276 of the Amended Greater New York Charter, and upon the recommendation of the Mayor and the Police Commissioner made in accordance therewith, the Inspectors of Police in the Police Department of The City of New York are hereby increased in number from 15 to 16. (Approved by the Mayor June 7, 1904.) And

Whereas, It appears that the liability of the Police Department in the account of appropriation for the year 1904, viz.: "Salaries—Police Fund, Police Commissioners and Police Force" is such in amount that the Police Commissioner could not pay the compensation of an additional Inspector of Police without exceeding the appropriation made to the Police Department for such account; therefore

Ordered, That the Board of Estimate and Apportionment and the Board of Aldermen be and are hereby respectfully requested to authorize the issue of Special Revenue Bonds for the payment of one additional Inspector of Police in the Police Department of The City of New York from June 1, 1904, viz.: seven months at the rate of \$3,500 per annum, amounting to \$2,041.62.

Which was referred to the Committee on Salaries and Offices.

The President laid before the Board the following communication from the Municipal Civil Service Commission:

No. 807.

Municipal Civil Service Commission of The City of New York,  
No. 61 Elm street, Corner of Leonard street,  
New York, June 25, 1904.

To the Honorable, the Board of Aldermen:

Gentlemen—I am directed by the Municipal Civil Service Commission to request your Honorable Board to authorize the issuance of Special Revenue Bonds to the amount of fifteen thousand dollars (\$15,000), this sum to be added to the appropriation for the Commission for the year 1904.

On August 31, 1903, the Commission presented to the Board of Estimate and Apportionment its estimate for this year. Request was made for the sum of \$115,730 (an increase of \$15,730 over the amount appropriated for 1903) in lump sum, but to be devoted to the following purposes:

Salaries .....	\$88,950 00
Per diem Examiners.....	10,000 00
Monitors .....	4,000 00
Experts .....	2,000 00
Rent .....	2,000 00
Postage .....	5,000 00
Carfare and incidentals.....	2,500 00
Telephone .....	980 00
Messenger and telegraph service.....	300 00
Total .....	\$115,730 00

The Board of Estimate and Apportionment appropriated the sum of \$100,000, the same as that fixed for 1903, despite the fact that in the latter part of that year it became evident that the expenses of the Commission would exceed the sum fixed in the appropriation and that then the Board of Estimate and Apportionment, at the Commission's request, transferred the sum of \$8,700 from the unexpended balance of the appropriation of another department, increasing the appropriation for that year (1903) to \$108,700.

The Commission now believes that if the work of the Department is to be advanced an additional appropriation of \$15,000 is absolutely necessary. The increase in the business of the City and the constant enlarging of the several departments make necessary the holding of many more examinations, and the growing interest on the part of the public in civil service matters and the prolific advertising of examinations in publications devoted to civil service news, in the daily press and in technical and professional journals has attracted to those examinations unusually large numbers of candidates.

Five of the six months of 1904 have been given to the holding of examinations, the remaining month—so far as the examining force was concerned—having been devoted exclusively to the clearing up of work left over from the year 1903. During that month, however, other examinations were announced and applications were received, so that the temporary cessation of the work of holding examinations will increase proportionately the amount of work that will have to be done during the remaining months of the year. It is estimated that 25,000 persons will have been examined before the close of the year for positions in the competitive class alone, this estimate being based on the amount of work that has thus far been accomplished.

The following table will give some idea of the increase of the work of this Department during the past few years:

Year.	Number Examined.	Appropriation.
1898.....	10,168	\$86,000 00
1899.....	12,692	86,000 00
1900.....	11,265	86,000 00
1901.....	11,797	86,000 00
1902.....	16,113	98,665 97
1903.....	21,215	108,700 00
1904 (estimated).....	25,000	.....

Respectfully submitted,  
HENRY BERLINGER, Secretary.

In connection herewith Alderman Haggerty offered the following:

Resolved, That, upon the request of the Municipal Civil Service Commission, the Board of Estimate and Apportionment be and is hereby requested, in pursuance of the provisions of subdivision 8 of section 188 of the Amended Greater New York Charter, to authorize the Comptroller to issue Special Revenue Bonds to the amount of fifteen thousand dollars (\$15,000), the proceeds whereof shall be added to the appropriation for said Commission for the year 1904, in order to meet the necessarily increased expenses as set forth in the aforesaid request.

The President put the question whether the Board would agree with said resolution. Which was unanimously decided in the affirmative by the following vote:

Affirmative—Aldermen Ahner, Baldwin, Bennett, Boerner, Boyhan, Bridges, Callahan, Chambers, Collins, Culin, Davies, Dietz, Donohue, Dougherty, Doull, Dowling, Downing, Doyle, Gaffney, Gass, Gillies, Gillen, Goodman, Grifenhagen, Grimm, Haenlein, Haggerty, Harburger, Harnischfeger, Hann, Higgins, James, Jones, Kenney, Kevin, Kline, Koch, Lochner, Lundy, McCall, McCarthy, Malone, Marks, Morris, Owens, Poole, Redmond, Richter, Robinson, Schappert, Schloss, Shea, Sickles, Stapleton, Stumpf, Twomey, Ware, Wafer, Wentz, President Cromwell, President Haffen, the Vice-Chairman and the President—63.

The President laid before the Board the following communication from the President of the Borough of Richmond, transmitting resolution:

No. 808.

Office of the President of the Borough of Richmond,  
New Brighton, N. Y., June 23, 1904.

P. J. SCULLY, Clerk to the Board of Aldermen, City Hall, New York, N. Y.:

Dear Sir—On the 4th day of February, 1902, the last Board of Aldermen (1902-04) requested the Board of Estimate and Apportionment to issue Special Revenue Bonds in various amounts, for the purpose of erecting suitable street signs in all the boroughs of the City, including a request for \$15,000 for that purpose in the Borough of Richmond. Owing to the fact, however, that the Board of Estimate and Apportionment failed to take action upon the request of the Board of Aldermen, so far as Richmond was concerned, before the expiration of their terms of office, the matter with reference to Richmond has lapsed.

I accordingly renew the former application, and request that the present Board of Aldermen request the Board of Estimate and Apportionment for an issue of Special Revenue Bonds in the amount of \$15,000, for the purpose of erecting suitable signs designating the names of streets in the Borough of Richmond.

Probably in no part of the City is the need for an expenditure of this kind more apparent. Appropriations for this purpose were made last year and the year before for all of the boroughs except Richmond.

The requests made by the Board of Aldermen for this purpose upon which the Board of Estimate and Apportionment acted were as follows:

Manhattan .....	\$105,000 00
Brooklyn .....	86,000 00
Bronx .....	35,000 00
Queens .....	20,000 00

Respectfully yours,  
GEORGE CROMWELL,  
President of the Borough.

Resolved, That the Board of Estimate and Apportionment be and hereby is requested, in pursuance of the provisions of subdivision 8 of section 188 of the amended Greater New York Charter, to authorize the Comptroller to issue Special Revenue Bonds to the amount of fifteen thousand dollars (\$15,000), the proceeds whereof shall be used for the purpose of erecting suitable signs designating the names of streets in the Borough of Richmond.

President Cromwell moved the adoption of the resolution.

The President put the question whether the Board would agree with said resolution.

Which was unanimously decided in the affirmative by the following vote:

Affirmative—Aldermen Ahner, Baldwin, Bennett, Boerner, Boyhan, Brenner, Bridges, Callahan, Chambers, Coggey, Collins, Culin, Dietz, Donohue, Dougherty, Doull, Dowling, Doyle, Gass, Gillies, Gillen, Goodman, Grifenhagen, Grimm, Gunther, Haenlein, Harburger, Harnischfeger, Hann, Higgins, James, Jones, Kenney, Kevin, Kline, Koch, Lochner, McCall, McCarthy, Malone, Morris, Arthur H. Murphy, Odell, Owens, Poole, Redmond, Richter, Robinson, Schappert, Schloss, Shea, Sickles, Stapleton, Stumpf, Sturges, Twomey, Ware, Wafer, Wentz, Wirth, President Cromwell, President Haffen, the Vice-Chairman and the President—65.

#### REPORTS OF STANDING COMMITTEES.

##### Report of Committee on Water Supply, Gas and Electricity—

No. 697—(G. O. No. 86).

The Committee on Water Supply, Gas and Electricity, to whom was referred the communication from his Honor the Mayor, submitting to the Board of Aldermen the question of determining the attitude of this City on the suggestions which appear in the memorandum filed by the Governor in giving his approval to the measure now known as chapter 752 of the Laws of 1904, commonly called the Smith Dutchess County bill, begs to report that in obedience to the instructions of the Board it held a public hearing on the subject on June 17, 1904, and invited the following representative associations and gentlemen to be present:

The Merchants' Association.  
The Chamber of Commerce.  
New York Board of Fire Underwriters.  
New York Fire Insurance Exchange.  
Builders' League.  
Manufacturers' Association of Brooklyn.  
Brooklyn League.  
Real Estate Board of Brokers.  
The City Club.  
President, Stock Exchange.  
President, Produce Exchange.  
Col. Robert Grier Monroe.

Commissioner of Water Supply, Gas and Electricity.

Charles H. Schnelle, Secretary of the Twelfth and Nineteenth Ward Real Estate Association.

The Committee also issued through the public press of the city a general invitation to the citizens of the city to be present at the hearing.

The Merchants' Association, through Mr. William F. King, spoke of the necessity for an increased water supply for the city, and favored an extra session of the Legislature to consider the subject.

Mr. Henry W. Eaton, of the New York Board of Fire Underwriters; Mr. V. Underwood, of the Chamber of Commerce; Mr. Horace E. Deming, of the City Club, and Mr. Albert R. Lesinsky, in behalf of several manufacturing concerns, while strongly advocating an additional water supply argued against the advisability of calling the Legislature in extra session.

The Committee also received letters, which are appended hereto, from Col. Robert Grier Monroe, former Commissioner of Water Supply, Gas and Electricity, and from Mr. John B. Creighton, Secretary of the Brooklyn League, opposing a call for an extra session of the Legislature.

The Committee, after giving this most important subject full consideration, respectfully begs to report as follows:

Should the Governor call an extra session of the Legislature for the purpose of "framing a measure that will accomplish the object of securing additional water supply to The City of New York" it would do either one of two things.

1st. It might, through the influence of the Governor, establish a State Purveyor of Water, as stated by Mr. Wm. F. King, and place all authority for furnishing water to cities under State control.

2d. It might amend the Dutchess County act to permit this City to take such water from that county as was not required by the citizens of that county.

Neither of these propositions would be a guarantee of an increased water supply to the City.

If the first proposition prevailed it would violate the first principles of home rule for the City and would place the water supply of this City at the mercy of the politicians of the State, a proposition not to be countenanced for a moment.

If the second proposition prevailed, it would mean that this City after an expenditure of millions of dollars would be permitted to take only the surplus water from that county, and in years of small rainfall and in years of drought, the officials of that county could, and doubtless would, claim that the county needed all of its water supply for its own use, and this City would be deprived of water from that source at times when it was most urgently needed.

And in any case, it may be assumed, as the Mayor says, that "an extra session of the Legislature, which would consist of the same men who passed this measure, would not result in relief from the oppression of this law."

But the Mayor did not confine his communication to the question of an extra session of the Legislature. He submitted a comprehensive statement of the water supply problem, which he declares to be a question of primary importance.

We have sought, therefore, to obtain an expression of public opinion relative to the character and sources of the future water supply of the City, as affecting the question before us.

The Committee find there is a general feeling of protest against unnecessary delay in securing an additional water supply and a popular disapproval of whatever has been done, in the Legislature or elsewhere, to obstruct the City in obtaining such a supply.

But we do not find that there is any public sentiment in favor of obtaining water from the Dutchess County streams. The water from those streams, as shown by the report of the Burr Water Commission, is not of the best quality, owing to its excessive hardness, making it undesirable for municipal use unless mixed with softer water, because, with other objections, of the danger to steam boilers from the use of water of extreme hardness. And, we find, there are other and more important reasons why the extension of our water system to the Dutchess County streams is undesirable.

For many years past property-owners and insurance men have united in demanding an additional water supply delivered by gravity from elevations greater than the Croton. They have protested against the low pressure of the Croton, which makes it necessary to pump into tanks most of the water used in the lower part of the City, and much of that used in the upper portion.

The Fire Underwriters have repeatedly urged the need of a supply of water by gravity, under a pressure due to an elevation superior to that of the Croton system, and sufficient for the extinguishment of fires, at the time of delivery from standpipes and hose in the buildings, and without depending upon pumping.

Our attention has been called to the fact that the pressure of the Croton is so low that, as has repeatedly happened, fires have gained dangerous headway because the engines could not obtain sufficient water from the hydrants, at the street level.

It is conceded by all that we have a Fire Department superior to most and unexcelled by any; but the fire engines can only use the water supplied to them. If that supply is deficient, in quantity or pressure, the engines are necessarily ineffective.

Few cities have water pressures as low as ours. In many cities the pressure is from three to six times greater than in New York, and fires can be extinguished without fire engines. There are many towns in New York State which have water pressures sufficient to put out fires direct from the hydrant. To quote from a statement made by authority of the Board of Fire Underwriters:

"New York has outgrown its water supply, aside from any question of quantity. When the Croton system was introduced, in 1842, the Astor House was the highest building in the City, and its roof was eight feet below the level to which the water would rise by gravity. That roof is now fifty feet above the highest point in the building which could be supplied if the street pressure were to be relied upon for distribution. As the height of buildings has increased, and the residential districts have extended to higher grounds, the Croton water delivery has steadily gone down lower and lower; as the buildings have risen the pressure has fallen. In thousands of buildings the water does not rise above the first floor. Throughout the city are tanks, on the roofs, which must be supplied by pumps. All large buildings and thousands of residences have force pumps."

It is evident, therefore, that while we must have more water, quantity alone is not all that is required. Security against fire, as well as that free use of water upon which depends our health and comfort, cannot be had with a supply which must be pumped up or drawn from tanks.

And the cost of such pumping is so great as to be a serious burden upon property-owners; while the use of drinking water drawn from tanks is always a menace to health. To quote from the Underwriters' statement:

"It is inadvisable to extend any pumping system. The water supply of the City should be furnished wholly by gravity; not only because of the greater cost of pumping, but for the more important reason that a gravity supply affords better security against fire; and it should be drawn from that available source having the greatest elevation."

In considering the City's needs as to quantity, waste and excessive use of water have been frequently charged, unjustly, we believe. The City of New York uses less water per capita than any large city in this country. In our opinion there should be no restriction upon the proper use of water by our people. It is not pertinent to make comparison between this city and London and Paris, which use less water. In both of those cities bath tubs and water closets are unknown to a great majority of the people, and the need of water for manufacturing and navigation purposes, and for boilers for pumping and running elevators, is comparatively insignificant.

Waste should be prevented. But if we are to rely upon the report of the Burr Commission the loss from waste "is much less than heretofore supposed."

We are convinced that the future needs of the City should be supplied from a source and through a system separate from that of the Croton.

It is possible for The City of New York to obtain water, of greater purity and softness than the Croton, from mountain regions west of the Hudson, in abundant quantity, from elevations that will afford a pressure sufficient to carry the water by gravity to the tops of all buildings, except the so-called "sky-scrapers." It would not be desirable to supply water under such pressure to all parts of the City, but it could be furnished to the lower sections and to parts of Brooklyn, where high pressure is most needed and where fire risks are greatest, and to those "high service" districts now furnished from pumping stations; leaving the Croton to be supplied to those sections where "high service" is not necessary. A rearrangement of pipes and con-

nections for such distribution would be necessary. But whatever might be required in that direction would be more than compensated for by the advantages gained. The burden of cost would doubtless be less than now imposed by the necessity of pumping, and by the high rates of insurance due to greater fire risks.

The report of the Burr Commission informs us that water may be obtained from the Catskills in greater quantity, from superior elevations and of better quality, than from any other sources. The report says:

"The waters of the Esopus and Rondout creeks are exceptionally desirable for public supply; they are the best waters that are available in any direction for an additional supply for New York City."

If that be so, and from our inquiry we are convinced that it is so, the City ought not to go to Dutchess County, or to any watershed east of the Hudson, for its additional water supply. Such a supply from Dutchess County, besides being of inferior quality, would necessarily be supplemental to the Croton system, and could not be delivered in the City under a pressure greater than that of the Croton.

The Mayor says:

"It is not improbable that before long New York City will be required to cross the Hudson and draw water from the streams in the Counties on its westerly bank."

Our inquiry has convinced us that the City should do that now, and that it is inadvisable to resort to any other sources of supply until the watersheds west of the Hudson are exhausted. How long it will be before that would occur may be judged by the fact that it is demonstrated by the Engineers' reports that we may obtain from those sheds a supply of nearly, if not quite, 1,000,000,000 gallons per day.

The superior quality and purity of the water from the Catskill regions, where the population is sparse and there is little or no manufacturing, should, apart from any other consideration, determine the matter as against the watersheds east of the Hudson, where population is rapidly increasing, and where there are numerous factories and other sources of pollution, which do not exist on the mountain slopes west of the Hudson.

It may be that the cost of constructing works necessary to secure a supply from the west side of the river would be greater than from the east side; but, if so, we believe it would be offset, and perhaps overbalanced, by the greater cost of the property necessary to be taken on the east side of the Hudson. It certainly would be greatly overbalanced if the City were compelled to pay damages on account of the industrial interests which might be destroyed or injured. The question of cost is a serious one and should be carefully considered; but it should not govern the conclusion as to what is best to be done, if it shall appear that the cheaper method is, in all other respects, the least desirable.

We are convinced that public opinion will sustain the City authorities in dealing with this question not from the standpoint of the present, but with a broad and comprehensive regard for the needs of the metropolis which is to come.

We are justified in supposing that this is to be the first city of the world, not only in wealth and importance, but in population. Everywhere we have evidence that former administrations have failed to realize the future greatness of the city they were providing for. We should not make that mistake. In dealing with this water question we should provide for all future needs. It is not necessary for us to obtain more water now than we will need for the immediate future; but the system we adopt should be capable of extension into elevated areas from which can be drawn by gravity, as necessity requires, further supplies of pure water under pressure sufficient to make pumps and tanks unnecessary, in great part at least, and to afford protection against fire.

The report of the Burr Commission, the reports formerly made by the Engineers of the Water Department, and the statements of the fire underwriters and property owners who have interested themselves in the matter, in their own and in the City's behalf, warrant us in the conclusion that such a water supply as that described can only be obtained from west of the Hudson.

That being so, our being prohibited from going to Dutchess County for water is of no present consequence. That was the opinion of the greater number of those who appeared at the public hearing held by the committee.

To sum up, the Committee most respectfully reports that, according to the sentiments expressed by those who attended the public hearing, and in the communications received from prominent gentlemen, the Committee finds that the citizens of the City are opposed to requesting the Governor to convene the Legislature in extra session.

The City of New York has authority, under sections 472, 486, 488, 489 and 490 of the Charter, to condemn for its water supply land in any part of the State, except in Suffolk and Dutchess counties. And it can proceed to do whatever may be necessary without awaiting further legislation.

The Commissioner of Water Supply, Gas and Electricity and the Corporation Counsel are vested with full power under the sections of the Charter above quoted, to go into any county, except the two above mentioned, make surveys and prepare maps of available watersheds and to file the same in the county or counties from which it is considered necessary to draw a supply of water for the City, these being the first necessary steps toward condemnation proceedings.

Realizing the truth of the declaration of the Mayor, that "the prosperity of the City, as well as the health of its inhabitants, is largely dependent upon an abundant and wholesome water supply."

The Committee recommends that his Honor the Mayor, be requested to communicate with the Commissioner of Water Supply, Gas and Electricity, who has the authority under the law to determine sources of available water supply, and to urge the resumption of the work which was commenced in May, 1901, by the then Commissioner of Water Supply and suspended by his successor in office in January, 1902, and that the Board of Estimate and Apportionment be requested to make the necessary appropriations.

It is to be regretted that by the interruption of this work nearly three years of valuable time has been lost.

The Committee attaches herewith all the papers on the subject.

June 17, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, City Hall, New York:

Dear Sir—On behalf of the New York Board of Fire Underwriters, and at its special request, I present to your Honor copy of a resolution unanimously passed at its monthly meeting yesterday, drawing your serious attention to the situation brought about by the late action of the Legislature as affecting the water supply of this City. This resolution has been signed, as you will perceive, by the President of the Board, and I am now addressing you as Chairman of the Committee on Water Supply of that body.

For a period of over twenty years the underwriters of this City have endeavored to awake public interest to the needs of the City in regard to its water supply, and have repeatedly urged that the Croton watershed was inadequate as a source of supply, and much gratification has been afforded the interests I represent by the clearly expressed view of the eminent engineers who form the Water Commission confirmatory of the opinion so consistently entertained by the underwriting interest.

As the watersheds of the Fishkill and Wappinger figure in the report of the Commission as those most readily available, and whose supplies could be the most quickly furnished, the action taken by the Legislature would appear to be peculiarly unfortunate in the interests of the City; especially as your Honor's attention has doubtless been drawn to the fact that the consumption of water in New York now fully equals the estimated supply of the Croton watershed, even after the completion of the works now in progress. As, in order to procure the supply recommended by the Commission to be taken by the City from the Fishkill and Wappinger, a considerable time would be required, the situation would appear to be most threatening and to demand the quickest remedy it is in the power of the City to apply.

Respectfully yours,

(Signed) HY. W. EATON,  
Chairman of Committee on Water Supply of  
New York Board of Fire Underwriters.

Copy of resolution unanimously adopted by the New York Board of Fire Underwriters at a meeting held in New York on Wednesday, June 16, 1904.

In view of the report of the Commission appointed to consider the water supply of New York City, in which the acquisition by the City, among other sources of supply, of the watersheds of the Fishkill and the Wappinger was strongly urged as a necessary addition to the Croton system; and in view of the urgency of the City's need in the near future for more water than it is possible for the Croton shed to supply, even with the additional storage facilities now in course of construction; and

in view of the recent law having the assent of the Governor of this State, which prohibits the diversion to the Croton of the sources of supply mentioned,

Resolved, That this Board regards with much anxiety the delay in providing an additional water supply involved in the action in question, and respectfully invites the serious attention of the Mayor of this City to the report of the Commission, deprecating any action that will interfere with or diminish any of the natural sources of water supply recommended in said report.

Resolved, That the Committee on Water Supply be authorized to present the above resolution, bearing the signature of the President of this Board, to his Honor the Mayor of this City, with such remarks in furtherance as may be necessary, and to take such other action in a like direction as may seem to it desirable in the best interests of the Board.

The City Club of New York,  
No. 55 West Forty-fourth Street,  
New York, June 17, 1904.

Hon. GEORGE B. McCLELLAN, Mayor of The City of New York, City Hall:

Sir—In a communication sent by you to the Board of Aldermen under date of June 7, 1904, you call attention to the necessity of increasing the water supply of The City of New York, both present and future.

We submit for your consideration the following facts:

#### The Present Needs.

The danger of a water famine is always perilously near in The City of New York. The serious risk of such a condition of affairs, not only to the business and financial interests of this City, but to the health and safety of the community as well, need not be dwelt upon, nor the danger from a conflagration which might ensue such as that which recently took place in Baltimore.

The present possible supply of water from the Croton watershed, when there is abundant rainfall, is about 270,000,000 to 280,000,000 gallons per day. This is barely sufficient for the City's present needs without any increase of consumption. In a dry season, such as occurred several times between 1880 and 1898, and which is sure to occur again, this supply would be reduced from one-third to one-half, and the City would face a water famine.

The daily consumption of water in Manhattan and The Bronx increases each year from 7,000,000 to 10,000,000 gallons. Without provision for an increased supply of water to meet this increased consumption a water famine will result, irrespective of whether we have dry seasons or wet seasons.

#### The Facts Well Known.

These facts are not new; attention has been called to the situation repeatedly in the past five years by those familiar with the subject, but the warnings given have not been heeded. The problem has been investigated again and again. What is required now is action.

#### Sources of Additional Supply.

The available sources of additional water supply for the City all lie to the north and northwest of the present Croton watershed.

The main sources are:

1. The Fishkill creek watershed.
2. The Wappinger creek watershed.
3. The Esopus watershed in the Catskills.
4. Rondout creek watershed.
5. The Jantzen kill watershed.

All of the above are gravity systems. A sixth possibility is to obtain water from the Hudson river by a pumping system with a pumping station at about Hyde Park. A Hudson river supply would involve provision for artificial filtration.

The Fishkill and Wappinger creek watersheds with the necessary reservoirs would afford a supply of 60,000,000 gallons per day at a cost of approximately \$39,000.

The Esopus creek watershed would afford a further supply of 260,000,000 gallons per day, at an additional cost of \$21,000,000. That is, an additional supply of 320,000,000 gallons per day from the Fishkill creek, Wappinger creek and Esopus creek watersheds can be secured at an expenditure of \$60,000,000.

To get water from any of these sources or from any additional source whatever it is necessary in every case to build a tunnel through the mountainous country north of the Croton watershed.

Under the most favorable conditions, it will take five years to build this tunnel.

#### What Should be Done.

Existing law gives the City power to condemn for its water supply land in any part of the State except in Suffolk and Dutchess counties. The City has the financial ability and the legal power to build the tunnel through which the additional water supply must be brought. Whether the so-called Smith law is repealed this summer or next winter is of little moment. It will take at least five years in any event before the City can procure water from Dutchess County.

What is most imperatively needed now is that the City Administration declare a definite policy as to the procuring of an additional water supply—a policy which can be carried out within measurable time—and show some clear indications of a determination to act.

#### The Legislature.

When New York City has a definite and adequate policy for obtaining the additional water without which, as is perfectly plain, its growth in population and commerce must cease, and for lack of which the health and the property of its citizens are in grave peril, there is no doubt but that the State Legislature will grant any further powers needed to put that policy into execution.

#### To Sum Up.

The City's dire need of more water is known. The most readily available sources of additional water supply are known. A commission composed of three of the most competent and best equipped experts in the country has reported a complete and thoroughly worked out plan which, if carried out intelligently, will, within the shortest possible time, bring these courses within reach of the City and furnish an adequate supply of water to every one of its boroughs. The City has ample legal power to begin the work at once.

The City should either adopt this plan promptly or give the most cogent of reasons for rejecting it; and if this plan is to be rejected there is the greater need of prompt action by the City authorities.

Respectfully,

HORACE E. DEMING,

Chairman of the City Club's Special Committee on Water Supply.

New York, June 16, 1904.

Hon. R. S. DOULL, Chairman, Committee on Water Supply, Gas and Electricity,  
City Hall, N. Y. C.:

My Dear Sir—We desire to thank you for your invitation to attend the public hearing on the 17th inst. at 2 P. M. and to express our appreciation of the course that has been taken by his Honor and the Board of Aldermen in their endeavor to act in accordance with the wishes of our citizens in this very important matter of the City's water supply.

We feel, however, that we are not sufficiently well informed on the subject matter as to justify taking up the time of your Committee with an expression of views, although we shall probably attend in order to listen and obtain information on this subject.

Our Board of Directors feel that the attention that you have given the matter and the knowledge that you have obtained entitle your personal opinion on this subject matter to the greatest respect, and from our knowledge of your record would be willing to indorse in advance any stand that you may take.

With an expression of sincere respect, believe me,

Yours very truly,

JOHN P. LEO, President.

New York City, June 21, 1904.

Committee on Water Supply, Gas and Electricity of the Board of Aldermen:

Chairman and Gentlemen—As a careful listener at the public hearing before you June 17, 1904, upon the question whether an extra session of the Legislature should be called to consider the City's water supply problem, I was impressed with the fact that only one of the civic bodies represented advanced any arguments in favor of

calling such an extra session. The representatives of that body stated that the extra session was needed to "put up" to the Legislature not merely the water supply question, but also the question of pipe galleries, transportation reforms and other unrelated matters.

Your committee, therefore, if you believe that the gentlemen who spoke before you represented the sentiments of the "citizens," may conscientiously report to the Board of Aldermen that the "citizens" of the City do not desire the extra session which the Governor has volunteered to call if the "citizens" desire it.

There are other considerations, however, which may appeal to your committee. The thinking and voting independent citizens of the City were not represented by any gentleman who spoke before you. Most of the speakers represented special interests, and each one of them has a different solution of the water supply problem, and no one of them can by any known arguments be induced to abandon the advocacy of his particular solution.

The thinking and voting independent masses will be individually affected by any scarcity or shortage of the public water supply, and exactly to the extent to which they are individually harmed will they hold responsible the City administration which fails for no matter how good a reason to foresee a coming disaster and take the necessary steps to avert it. It is impossible to expect that those masses either knew of your public hearing, or if they did know of it, could attend, or if they could attend, could make their sentiments known to your committee. Doubtless there are few of them who have any definite ideas on the question of water supply. That is a very technical question which only an interested and intelligent minority can properly solve. The fact remains, however, that the great majority whose sentiments it is impossible to obtain by calling public hearings will hold responsible for any disaster those who have the power to act to avert such disaster and who fail to use such power.

Whether properly or improperly the responsibility has been shifted upon you of determining whether action in the direction of an adequate water supply should be taken at once. That disaster through water shortage is a reasonable probability has been pointed out by all of the experts and officials who have ever studied the water question. Four years ago, according to the present Counsel to the Corporation, the danger was so imminent as to justify the then City administration in advocating a very long-term contract with the Ramapo Water Company for the purchase of water by the City at \$70 per million gallons. If the danger was so imminent then as to justify such a contract, how much more imminent it is now!

The best sources from which to obtain an adequate future supply of pure and wholesome water have been determined at great expense by the Burr Commission, composed of experts, two of whom had made previously special studies of the water problem of this City, and the third of whom is so highly regarded as an engineer as to be placed upon the Panama Canal Commission. It is not to be conceived that any other or different commission could make any better recommendations or get at the necessary facts more accurately and exhaustively, and any one who attempts to state otherwise runs the risk of being considered favorable to interests which are adverse to those of the City. You can well therefore take for granted that the best and most available future sources of water supply have been determined.

The City authorities as at present constituted have ample power to carry out all of the recommendations of the Burr Commission except a recommendation to take the head waters of the Fishkill and Wappinger creeks in Dutchess County. The City can outside of that county condemn land which may be needed as a source of water supply and for the aqueducts and other appurtenances to make such source available. The City's debt limit will not be exceeded if the entire expense estimated by the Burr Commission should be authorized by the City authorities. The City authorities have power to issue bonds for any purpose authorized by the Charter. There is absolutely nothing to prevent the present City administration from taking action on the whole Burr Commission report, except that the so-called Smith Bill prevents the City from condemning land for a water supply in Dutchess County. Such land can, however, even now, be bought at private sale.

There are only two things, then, which can require an extra session of the Legislature. The first is the modification of the Smith Bill, in case the present City administration think it necessary or advisable to take the water of Dutchess County. If the administration fails to seize the present opportunity of getting such water, the responsibility is on it alone. It can say the Dutchess County water is not fit for municipal use even when mingled with the Croton. It can say that the Croton supply when properly impounded will be entirely adequate for many years to come. It can say that the Mayor and the Corporation Counsel were all wrong when they begged and implored the Governor not to sign the Smith Bill. It can say that what with politics and other things it is entirely too busy, anyhow, to take up the water question at the present time. It can do any of these things, but the responsibility is on it, and it will be held accountable according as it recognizes or fails to recognize the responsibility or meets or evades the same.

The second and only other consideration which could lead to the calling of an extra session at the present time would be a concession by the present administration that it is unable to grapple with the present situation, either because of the press of other public business or lack of facilities or for any other reason. Here again the administration is at the meeting of the ways, and according to the path which it shall choose will it be judged. If the Mayor and the Board of Estimate and Apportionment immediately take up the water problem with the intention of getting some results, and they actually do get results, the City will applaud. If they frankly and honestly confess that the press of current business prevents them from taking action which will end in results and if they call upon the Governor to pass a law for the creation of a water supply commission to serve for a fixed term of years, removable by the Mayor on charges possessing properly regulated but independent powers and functions to do those things which the Mayor and the Board of Estimate and Apportionment are too busy to do, the City will again applaud, even though political or other considerations may prevent the Republican Governor and Legislature from giving the City what its representatives ask. The responsibility of failure in such a case will not rest upon the City administration, but it will be deemed to have fulfilled its entire duty.

Even though the public hearing may not have made it clear to your committee, the people of this City want action on the water supply problem, and the present administration will be applauded or condemned according as it foresees or fails to foresee its plain duty. The function of your committee and of the Board of Aldermen is to make these truths plain to those who would shift upon you the responsibility for doing nothing.

Very respectfully yours,

EDW. S. BROWNSON, Jr.  
New York Stock Exchange—Secretary's Office,  
New York, June 16, 1904.

R. S. DOULL, Esq., Chairman, Committee on Water Supply, Gas and Electricity:

Dear Sir—I am instructed by the President of the Exchange to acknowledge the receipt of your communication of the 11th inst., and to state that his engagements will render it impossible for him to comply with your request.

Yours truly,

CHARLES L. BURNHAM, Assistant Secretary.

Hon. REGINALD S. DOULL, Chairman Committee on Water Supply, Gas and Electricity, Board of Aldermen, City Hall, New York:

Robert Grier Monroe, No. 15 Wall Street,  
New York, June 15, 1904.

Dear Sir—I have your communication referring to the memorandum filed by the Governor in giving his approval to a bill which now stands as chapter 752 of the Laws of 1904, by which measure it appears that the City is practically prohibited from acquiring by condemnation lands or water rights in Dutchess County for the purpose of securing an additional water supply. I am compelled to be out of town on Friday and will be unable to attend the public hearing at which this matter is to be discussed.

Before my appointment as Commissioner of Water Supply, Gas and Electricity in July, 1902, Mayor Low stated to me that in his opinion steps should be immediately taken for securing and developing an additional source of water supply for the City; that the matter was most urgent and should be undertaken with the least possible delay. In the fall of that year, the Comptroller addressed a letter to the Mayor urging immediate action and suggesting the appointment of an expert commission to investigate the entire subject and submit the result of their investigations with such recommendations as they saw fit to make to the Board of Estimate and Apportionment.

On December 16, 1902, a contract was entered into between the City and William H. Burr, Rudolph Herring and John R. Freeman, as a Commission on Additional

Water Supply, such Commission agreeing to "make a thorough, complete and exhaustive examination and investigation of" certain subjects connected with the water supply of The City of New York, and to report fully upon

"The future source of supply for the City which shall be most available from the point of view of cost and quality of water, to meet the probable future conditions of the City, with the estimated cost of each, the probable yield of water from each and the length of time required to complete each, with general plans and specifications."

The Commission completed the work of investigation on November 30, 1903, and presented their report, which was subsequently submitted by Mayor Low to the Board of Estimate and Apportionment. The Commission reported that the most available waters for the future source of supply for the City in cost and quality were the upper waters of the Fishkill and Wappinger creeks in Dutchess County, together with the waters of the Esopus and Rondout creeks in the Catskills, and later the Jansen kill in Columbia County. The Commission found that by the development of the upper waters of these nearby streams on both banks of the Hudson, a gravity supply could be obtained which would provide for the increasing needs of the City during the next thirty years. The Commission called attention to the fact that a supply from Fishkill creek could be secured more quickly than from any other source. They emphasized this consideration because we are now using what may be considered the safe yield of the Croton watershed in dry years, and each month's delay in starting the work of construction involves additional risk of shortage.

The bill which the Governor has approved in effect deprives the City from securing not only any of the waters of the Fishkill creek, but any creek on the east bank of the Hudson.

At the hearing before the Governor it was urged on behalf of the City that the plan proposed by the Commission on Additional Water Supply did not contemplate extracting all the water from the two Dutchess County streams, but, on the other hand, after the City's development of the watersheds was completed there would be a more even flow and better provision for local industries than now exists. The supporters of the bill met these statements with the argument that there could be no guarantee that the City would adhere to the plan recommended by the Commission on Additional Water Supply, but might decide to divert the entire flow of the streams.

I do not think that the Legislature as at present constituted will repeal absolutely chapter 752 of the Laws of 1904, and I believe, moreover, that before application is made to the Legislature to modify this law the policy of the City should be definitely determined. The people of Dutchess County have secured special legislation, but the situation in Dutchess County with regard to local riparian industries is not unique, and unless this City has a specific proposition to submit legislation of a general character may be enacted which will prove more embarrassing than the loss of water from the two streams we are trying to secure.

In my opinion The City of New York should first adopt the recommendations contained in the report of the Commission on Additional Water Supply, or reject that report and prepare and adopt other plans for the development of other sources as speedily as possible. If, during the next four or five weeks, the City government can fully examine and consider the report of the Commission on Additional Water Supply and after examination and consideration decide that the sources of supply recommended in that report should be developed for a future supply for the City, then I would advocate the calling of an extra session for the repeal or a modification of the Smith bill and the enactment of whatever further legislation may be advisable. On the other hand, if the recommendations of the Commission on Additional Water Supply do not meet with the approval of the City authorities and other plans are to be prepared, then, in my opinion, an extra session of the Legislature is neither necessary or advantageous.

Respectfully,

R. G. MONROE,

The Brooklyn League,  
Temple Bar, No. 44 Court Street,  
Brooklyn, N. Y., June 18, 1904.

Hon. REGINALD S. DOULL, City Hall, Manhattan:

Dear Sir—I must apologize for this tardy reply to your letter of June 11 regarding an expression of opinion from the Brooklyn League with reference to an extra session of the Legislature for the consideration of an increased water supply for The City of New York. I was disappointed upon attending the meeting to find J. Hampden Dougherty, James McKeen and Abner S. Haight all absent. I had depended upon these men to be present and speak on behalf of the League. We have had no general meeting at which this matter has come up, and I am unable to report what the action of the League might be.

There seems to be a very great apathy on the part of Brooklyn citizens which a special session of the Legislature might possibly dispel. However, personally, I believe that it would be better to defer any legislation until the regular session.

Yours very truly,

JOHN B. CREIGHTON, Secretary.

REGINALD S. DOULL, PATRICK S. KEELY, JOHN V. COGGEE, PETER A. SHEIL, JOHN J. HAGGERTY, CHARLES W. CULKIN, LEOPOLD A. HARBURGER, Committee.

In connection therewith Alderman Wirth moved that the following Law of 1904 be printed:

Laws of New York.—By Authority.

Chapter 752.

AN ACT to amend the general municipal law, in relation to the acquisition of water rights.

Became a law May 14, 1904, with the approval of the Governor. Passed, three-fifths being present.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Chapter six hundred and eighty-five of the laws of eighteen hundred and ninety-two, entitled "An act in relation to municipal corporations, constituting chapter seventeen of the general laws," is hereby amended by inserting a new section to be section twenty-five-a thereof, and to read as follows:

§ 25-a. Limitation on acquisition of water rights.—Notwithstanding the provisions of any general or special law, a municipal or other corporation shall not have power to acquire, by condemnation, for the purpose of increasing or improving its water supply, any stream or waters, situated outside the boundaries of such municipal corporation, that afford the chief source of power to, or are necessary in the process of manufacturing, washing or dyeing in, a mill or mills, situated in a city or village within the county of Dutchess that flows through either of the towns of Fishkill, Wappingers or Poughkeepsie into the Hudson river, the inhabitants whereof are chiefly dependent upon such mill or mills for employment and support.

§ 2. This act shall take effect immediately.

City of New York—Office of the Mayor,  
June 7, 1904.

To the Honorable the Board of Aldermen of The City of New York:

I have the honor to submit to you the question of determining the attitude of the City on the suggestions which appear in the memorandum filed by the Governor in giving his approval to the measure now known as chapter 752 of the Laws of 1904.

This measure purports to deny to The City of New York the right to acquire by condemnation, for the purpose of increasing or improving its water supply, "any stream of water which may be the chief source of power to, or necessary in the process of manufacturing, washing or dyeing in a mill or mills situated in a city or village within the County of Dutchess, which flows through either of the towns of Fishkill, Wappingers or Poughkeepsie into the Hudson river, the inhabitants whereof are chiefly dependent upon such mill or mills for employment or support."

I have quoted the exact language of the statute, but do not purpose to comment on the adequacy of expression as affecting the seeming intention of the act.

Assuming for the sake of argument that the language is legally sufficient, and that the measure is constitutional, its effect will be to exclude New York City from acquiring by condemnation any water rights in Dutchess County to increase its present resources.

On the hearing before the Legislative Committee which had the bill under consideration, the representative of the City opposed its passage, but it passed both Houses, and was sent to the Governor. On the hearing before the Governor the Cor-

poration Counsel, at my instance, opposed it, and associated with him in opposition appeared Hon. John T. Oakley, the Commissioner of the Department of Water Supply, Gas and Electricity, and his predecessor in office, Hon. Robert Grier Monroe, with Mr. J. H. Freeman, the Engineer under the commission appointed by my predecessor, as well as representatives of several quasi-public bodies and many of our foremost citizens. These gentlemen made clear explanation of the effect of the bill on the present and future prosperity of the City and the well-being of its citizens. The Governor, however, signed the measure, and I append hereto the full text of his memorandum filed at that time.

The principal feature to which I direct your attention, is stated in these words: "In giving my approval, therefore, to this measure, I do so with no other object in view than this: to reserve such authority as is in me vested to convene the Legislature in extra session, if the citizens of New York so desire, in order to permit the framing of a measure that will accomplish the object of securing additional water supply to The City of New York."

I am not convinced that an extra session of the Legislature, which would consist of the same men who passed this measure, would result in relief from the oppression of this law. But, even if it did, such legislation would still have to stand the survey of the Governor, whose fixed opinion, as I glean it from his memorandum, is opposed to anything like a repeal of this law. It may be, therefore, that hope of relief must be deferred until the Senate and Assembly consider the matter in next year's session.

I am loath, however, to permit my personal misgivings as to the result to interfere with any effort on the part of the people of this City to remedy the present situation, and I would ask for an extra session of the Legislature were it not for the language of the Governor's memorandum which makes as a condition for the convening of an extra session the contingency "if the citizens of The City of New York so desire."

I know of no feasible method of ascertaining the desire of the citizens of New York, except by securing an expression of opinion from their representatives in the City Government, and it is for that reason that I submit the whole question to your Honorable Body and ask that you accord to it immediate consideration.

I do not presume to point out to you the method by which you may reach a result in this matter. I venture, however, to make some suggestions on its importance which I deem may be of service to you in your deliberations on the subject.

The City of New York has shown an uninterrupted growth which has necessitated a vast extension, year after year, of the area of settlement for residential and industrial purposes, and an average annual increase of population of 100,000 persons. The question of the water supply is, therefore, one of primary importance and it is our duty not only to minister to the needs of the present but to insure provision for the future, and as the acquisition of rights and territory and the construction of works necessary for an increased water supply generally require years of effort, delay in such a matter would be contrary to the City's interests. As we stand now the City is dependent to a great extent upon the continuance of an abundant water supply from natural sources. Should this supply of nature at any time undergo any considerable diminution for two successive years, the City would suffer a calamity almost indescribable.

With the development of the Borough of Brooklyn its water supply, I am advised, will have to be augmented by connection with the system which now supplies the boroughs of Manhattan and The Bronx, and the welfare of the Borough of Brooklyn demands that no condition should be permitted to arise which would dwarf its growth. The water supply of Brooklyn, chiefly because of the physical formation of Long Island, is furnished by wells naturally limited in producing capacity. At present it is to an extent adequate, but the day is fast approaching when mining for water will not produce sufficient for the needs of that growing part of our City.

If our growth for the next twenty-five years continues as it has during the past quarter of a century—and the indications point to even a greater growth—there seems to be no question that the water to be had from all the available streams within the State will be needed, and the problem will then present itself of supplying additional water from the seemingly only other source of supply—the Hudson river.

This probably will not require the attention of the City Government for some years, provided we secure other available sources in the meantime.

The importance of a reservoir connection with streams in Dutchess County as a part of the chain of our supply system lies in the fact that such connection would not only furnish a large quantity of wholesome water, but it could be used, by extension, to draw from streams beyond that county, which, on account of the quantity and the quality of the water there obtainable, would not justify the expense of an independent aqueduct. These waters, it is asserted by competent authorities, would be worthless to the City unless they could be commingled with the waters of Dutchess County.

It is not improbable that before long New York City will be required to cross the Hudson river and draw water from the streams in the counties on its westerly bank. When every means of supply from streams in these localities shall have been used, then resort may have to be had to the waters of the Hudson river. The advocates of this measure wish to consign us to that necessity now; but there are grave reasons against the use of river water if it can be avoided. Natural streams tapped at a high elevation, with all sources of contamination removed from the area of drainage, and the territory properly policed, would give practically pure water, and, for the maintenance of public health, pure water is indispensable. If at any time the water of the Hudson river were to be used it would be necessary to establish, among other things, a filtration plant. A vast expense would be involved, also, in the construction of pumping stations furnishing the power sufficient to lift the water to a height where it could be stored in reservoirs. Such a plant would have to be established above Poughkeepsie, and so great would be the quantity of water withdrawn from the river at the point that the equal flow of the river would be disturbed and the water from the sea would rush in and invade the territory from which the water for the City's supply was being taken. This would render ineffectual the taking of such water unless means were employed to maintain the equal flow of the river, because no system of filtration will remove all the salt held in solution, and salt water would be unserviceable for domestic use because unwholesome for drinking purposes, and it would be unsuitable for manufacturing needs.

It is urged, furthermore, that in order to prevent the invasion of salt water it would be necessary to establish in the northern section of the State reservoirs in which would be stored water which at all seasons of the year, when necessary, might be permitted to escape in quantities so as to equalize the flow of the Hudson river at a point where river water would be withdrawn.

By what I have said I do not wish to convey the impression that under any circumstances there could occur a water famine in the sense of a total deprivation of water for purposes of food, but should the withdrawal of the supply of water for manufacturing purposes be forced upon us for a period of a month or even of a week, the ensuing loss in money to so many of our population would cause intense misery, and it might be years before we would recover from its consequences.

There never has been a disposition on the part of The City of New York to injure the residents of other sections of the State, and in all the proceedings which have been heretofore taken for the acquisition of land and water rights for the City's water supply, the expenses to the City have been generally conceded to be beyond what was reasonable and just.

Furthermore, the precedent of this law is pernicious. It gives Dutchess County practically a monopoly and there seems to be no reason why, if the measure be just, other counties in the State might not fairly apply for the same exemption. If such should be the case it would be impossible for The City of New York to take by condemnation any property for this important public purpose, and it would be left at the mercy, not of persons for whose protection this bill ostensibly is designed, but the owners of the water right who could sell as they saw fit without any consideration for those who might be consequently injured by the withdrawal of the power from mills employing the waters. As a matter of fact the measure restrains The City of New York, but does not protect the persons in whose interest it is pretended to have been enacted. The City or any other person or corporation could buy these protected lands or rights in Dutchess County at the owners' price, and the people of the vicinity for whom such sympathy seemed to be displayed by the promoters of the measure, could not prevent the sale and would not share a penny in its profit.

If there is to be a modification of this measure by this suggested supplemental legislation, it will be useless to The City of New York if it creates a new system of claims for damage, and it seems to me that well established law sanctioned by centuries of application should not now be changed to the detriment of The City of New York alone.

I need not prolong the discussion of this many-sided case beyond this point. The prosperity of the City, as well as the health of its inhabitants, is largely dependent upon an abundant and wholesome water supply, and I would suggest, therefore, that this matter receive your most earnest consideration. This effort must be the beginning of an active agitation on the part of all the people of The City of New York for the protection of the future of the City and its inhabitants, and the question involved is so grave that it transcends every consideration of a partisan nature and should be dealt with in a broad and truly civic spirit and without any display of feeling which might embitter those in other sections of the State who are likely not to appreciate the situation and who might be misled into the belief that we meditate injustice to them.

In conclusion I would suggest that you devise some means of ascertaining the sentiments of the people of the City and of your several districts, and then take such action as to you seems best in reference to the suggestion to which I have called your attention in the memorandum of the Governor.

Respectfully,

GEO. B. McCLELLAN, Mayor.

Memorandum Filed by the Governor with Chapter 752 of the Laws of 1904.

I am fully aware of the fact that the needs of the great municipality at the mouth of the Hudson are of greater importance, perhaps, so far as numbers go, than any small community within the State, and were I satisfied that even this great loss were necessary in the interest of the people of The City of New York I should not hesitate in disapproving this bill; nor do I believe that there would be any difference of opinion anywhere as to the necessity of contributing to the health and the comfort of the citizens of New York City. But there seems to be no immediate necessity for this improvement.

True it is that the Engineer's estimate that within the next seven or eight years there will be necessity for the utilization of this watershed. There can be no objection, however, to such use, provided the ideas and the intentions of the engineers are incorporated as a part of the law, thus making a certainty of what is now but a vague promise, and thus remove all fear in the minds of those who are most directly interested in the watershed of Dutchess County. But why, it may be said, not allow the work to proceed under the existing law, and await action by the next Legislature? The answer to this query is that in the meantime it will inflict unnecessary hardship and sacrifices which should not be tolerated because they are unnecessary.

There has been much talk of the Ramapo Water Company through this measure menacing the interests of the citizens of New York. It will be remembered, perhaps, that among my first official acts of 1901 was my approval of a bill which repealed the extraordinary privileges and powers which had been granted to this company. It now possesses no more power and no greater rights than any individual.

Its rights are not pre-emptive, and they can be condemned and made use of by the City, if there are any rights existing, of which I have grave doubt, in the same manner and following the same procedure as would apply in any other condemnation proceedings.

Of this there certainly can be no doubt, because the improvements proposed to be made under the authority and sanction of a former administration, that of Mayor Low, are in the very territory which it is now claimed is a part of the original Ramapo territory. Nothing, therefore, is gained or lost by this bill so far as the Ramapo Company is concerned. The same rights will be in existence after my signature as existed before.

But the bill guarantees, under a future session of the Legislature, however, such immunity as will secure, not as a matter of favor, but as an absolute right, concessions which are promised, but for which there is no positive guarantee, and will enable The City of New York to secure even this watershed if it contents itself with what it claims to be its desire for surplage only.

I am constrained, therefore, to believe that the bill is wise in so far as it safeguards private interests, and by those interests I mean not those of corporations, but of the humble home dweller, who has, perhaps, all of his savings invested in a home, representing, in many cases, the result of years of toil.

In giving my approval, therefore, to this measure I do so with no other object in view than this, and reserve such authority as in me vested to convene the Legislature in the extra session if the citizens of New York so desire, in order to permit the framing of a measure that will accomplish the object of securing an additional water supply to The City of New York as well as protection of vested rights, which I feel bound to do in giving this measure my approval.

Alderman Wentz, on behalf of a minority of the Committee on Water Supply, Gas and Electricity, announced that a minority report would be submitted at the next meeting.

Which was laid over.

#### Report of Committee on Railroads—

No. 358.

The Committee on Railroads, to which was referred, on March 22, 1904 (Minutes, page 913), the annexed petition of the Bush Terminal Railroad Company for the consent of the Board of Aldermen of The City of New York to a grant of the right, privilege and franchise to use certain streets, avenues and highways in the Borough of Brooklyn, for street railway purposes, respectfully

#### REPORT:

That, having examined the subject, a public hearing having been held thereon in pursuance of the provisions of the Railroad Law, they submit herewith a proposed ordinance, and recommend that the annexed resolution be adopted.

AN ORDINANCE granting to the Bush Terminal Railroad Company the right or franchise to construct and operate a street-surface railroad in, upon, over and along certain streets, avenues and highways in the Borough of Brooklyn, in The City of New York.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

A grant of the franchise and right to use certain streets and highways in the Borough of Brooklyn, City of New York, hereinafter described, is hereby given to the Bush Terminal Railroad Company, its successors, lessees or assigns, upon the premises hereinafter mentioned, for the period of twenty-five years; and there is also given to the said Bush Terminal Railroad Company, its successors, lessees or assigns, the right of renewal of said franchise and right to use said streets and highways for twenty-five (25) years, after the expiration of said original period of twenty-five (25) years, at a fair revaluation or revaluations, provided, however, that on the termination of the franchise and right herein granted, there shall be a fair valuation of the plant of the said Bush Terminal Railroad Company located in that portion of the streets and avenues hereinafter set forth, and such plant shall become the property of the City on paying the grantee such valuation. Such payment shall be at a fair valuation of said plant as property, excluding any value derived from the franchise. And the City shall have the option either to operate the plant and property aforesaid on its own account, or to lease the said plant and property, and the right to the use of the streets and public places in connection therewith for limited periods, in the same or similar manner as it leases the ferries and docks.

The following is a description of the streets and avenues covered by the franchise and right herein granted:

Commencing at a point where the centre line of Twenty-eighth street, if extended, would meet the centre line of Second avenue, if extended; running thence southerly upon and along private property to Second avenue at the former tide-water line; thence southerly upon and along Second avenue to Forty-first street; thence westerly upon and along Forty-first street to First avenue; and thence southerly upon and along First avenue to the southerly side of Sixty-fifth street.

Together with the necessary connections, switches, sidings, turn-tables, turn-outs, cross-overs and suitable stands for the convenient operation of said street surface railroad, and for the accommodation of the cars of the said Bush Terminal Railroad Company, which may be run over said railroad tracks by the said Bush Terminal Railroad Company, its successors, lessees or assigns.

And also consent and permission is hereby granted to the said Bush Terminal Railroad Company, its successors, lessees or assigns, for the erection along the line of said extensions of the necessary apparatus and poles for stringing wires, so that the cars of the said Bush Terminal Railroad Company may be used and operated thereon by means or power of electricity.

Provided, however, that said railroad shall be so built and at all times equipped and maintained on the surface of the streets and highways aforesaid in safe and

suitable condition, and the surface of the streets shall be restored to their former condition as soon as can be done.

The said Bush Terminal Railroad Company, its successors, lessees or assigns, shall be entitled to fix and collect the following rates of fare as compensation for transporting any passenger thereon, to wit Five cents (5c.) for passage over the whole of the line of said Bush Terminal Railroad Company, or any part thereof.

The said Bush Terminal Railroad Company, its successors, lessees or assigns, shall equip and maintain the railroad and its property in the streets and highways aforesaid throughout the full term of this grant, and shall give the public good and sufficient service.

And the said Bush Terminal Railroad Company prior to and as a condition of the making of this grant shall enter into a binding agreement, to be duly executed by it, to pay to The City of New York three per cent. (3%) of the net profits derived from the use of the tracks constructed by it, upon the streets and highways hereinabove specified, after there shall have been retained by said Bush Terminal Railroad Company, its successors, lessees or assigns, from such profits a sum equal to five per cent. (5%) upon the amount expended to construct the railroad upon that portion of said streets and highways covered by this grant.

And the consent of this Board of Aldermen is hereby given to the construction, maintenance and operation of the railroad aforesaid for the public use in the conveyance and transportation of persons and property, in cars propelled by electric power or some other desirable mechanical power other than steam for compensation upon the surface of the streets hereinabove specified.

And consent is hereby given to the construction of all necessary connections, switches, sidings, turn-tables, turn-outs and stands in connection with said railroad necessary for the convenience and accommodation of passengers and for the convenient operation of said railroad.

Resolved, That the proposed specific grant, embodied in the form of an ordinance to the Bush Terminal Railroad Company, of the right or franchise to construct and operate a street surface railroad in, upon, over and along certain streets, avenues and highways in the Borough of Brooklyn, in The City of New York, be and the same is hereby approved and declared to have had its first reading.

Resolved, further, That the said ordinance be and hereby is referred to the Board of Estimate and Apportionment for the purpose of making inquiry as to the money value of the franchise or right proposed, to be paid therefor in accordance with the provisions of section 74 of the amended Greater New York Charter.

To the Honorable Board of Aldermen of The City of New York:

The petition of the Bush Terminal Railroad Company respectfully shows:

First—That your petitioner is a street surface railway corporation, organized and existing under the laws of the State of New York, having filed its certificate of incorporation in the office of the Secretary of State of New York on the 17th day of January, 1903, for the purpose of constructing, maintaining and operating a street surface railway in the Borough of Brooklyn, City of New York.

Second—That your petitioner desires to obtain from the Board of Aldermen of The City of New York its consent to and a grant of the right, privilege and franchise to use certain streets, avenues and highways in the Borough of Brooklyn, City of New York, for street railway purposes, and for the construction, maintenance and operation of a double-track street surface railway upon and along the surface of certain streets, avenues and highways, a description of such streets, avenues and highways being as follows:

Commencing at the point where the centre line of Twenty-eighth street, if extended, would meet the centre line of Second avenue, if extended; running thence southerly upon and along private property to Second avenue at the former tide-water line; thence southerly upon and along Second avenue to Forty-first street; thence westerly upon and along Forty-first street to First avenue, and thence southerly upon and along First avenue to the southerly side of Sixty-fifth street. Together with the necessary connections, switches, sidings, turnouts, turn-tables, cross-overs and suitable stands necessary for accommodation and operation of said railroad by the overhead system of electricity or any other motive power which may be lawfully employed upon the same, all in the Borough of Brooklyn, City and State of New York.

Third. That said corporation expects to operate said railway by the overhead trolley system or by any other motive power except steam locomotive, which may be permitted by the said State Board of Railroad Commissioners, and consented to by property-owners, pursuant to law.

Fourth. Your petitioner further shows that there is now no adequate means of transportation provided between the termini of the proposed railroad, and your petitioner believes there is a public demand for the construction and operation of its proposed railroad, and that such construction and operation will be a public convenience and benefit.

Wherefore, your petitioner prays that the notice of the time and place when and where this application will be first considered be given, pursuant to the provisions of section 92 of the Railroad Law, and all other laws applicable thereto, and that consent or grant be given in the form of an ordinance, subject to the laws and ordinances applicable thereto, and upon terms of compensation to be fixed and determined in accordance with the provisions of the Greater New York Charter.

Dated New York City, March 22, 1904.

BUSH TERMINAL RAILROAD COMPANY,  
By Irving T. Bush, President.

State and City of New York, County of New York, ss.:

Irving T. Bush, being duly sworn, deposes and says that he is the President of the Bush Terminal Railroad Company, the petitioner named in the foregoing petition. That he has read the foregoing petition and knows the contents thereof; that the same is true of his own knowledge, except as to the matters therein stated to be alleged on information and belief, and as to those matters he believes it to be true.

IRVING T. BUSH.

Sworn to before me this 22d day of March, 1904.

On motion of Alderman McCall, the above vote was reconsidered, and the paper was made a special order for the next meeting, at 2.30 o'clock.

#### SPECIAL ORDERS.

The Vice-Chairman called up Special Order No. 18, being a resolution, as follows:

No. 777.

The President put the question whether the Board would agree with said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Ahner, Baldwin, Bennett, Boerner, Boyhan, Brenner, Bridges, Callahan, Chambers, Coggey, Collins, Culklin, Davies, Diemer, Dietz, Donohue, Dougherty, Doull, Downing, Doyle, Gaffney, Gass, Gillies, Gillen, Goodman, Grifenhagen, Grimm, Haenlein, Haggerty, Harburger, Harnischfeger, Hann, Higgins, James, Jones, Kenney, Kevin, Kline, Koch, Lochner, Lundy, McCall, McCarthy, Malone, Marks, Morris, Arthur H. Resolved, That the Board of Estimate and Apportionment be and hereby is requested, in pursuance of the provisions of subdivision 8 of section 188 of the Amended Greater New York Charter, to authorize the Comptroller to issue Special Revenue Bonds to the amount of fifty thousand dollars (\$50,000), the proceeds whereof, or as much thereof as may be necessary, to be expended in the succor of the survivors and stricken families by the disaster to the steamer "General Slocum" on Wednesday, June 15, 1904; all expenditures on account of the fund to be hereby created to be under and by direction of the Mayor.

## MOTIONS, ORDINANCES AND RESOLUTIONS.

In connection with the above, Alderman Goodman asked and obtained unanimous consent to introduce the following:

No. 809.

Whereas, The burning of the excursion boat "General Slocum"—resulting in the loss of hundreds of human lives—emphasizes the imperative necessity of legislation which will tend to minimize, if not avert, the danger of a repetition of such a terrible calamity; and

Whereas, It has been wisely suggested that on each and all boats leaving our docks with excursion parties there shall be assigned by the Fire Department at least two Firemen, with similar powers as are now vested in the Firemen detailed at out several theatres—the presence of whom, because of their training and experience, will tend to prevent a panic such as occurred on the fated steamboat "General Slocum"; and

Whereas, This timely suggestion has elicited many expressions of approval, notably from the officials of the Fire Department; and

Whereas, The power or right does not now exist in the City to carry this proposed plan into practical operation, therefore

Resolved, That our Committee on Law and Legislation be and it hereby is instructed to carefully and promptly give this matter due consideration, and to take such steps as may be necessary to bring about the relief and the safety which the plan proposed is intended to guarantee.

Resolved, That in the furtherance of the plan suggested the Committee keep constantly in mind the words of the Rev. Dr. Haas:

"That the tragedy has opened the eyes of the country to what is needed to save others from like fate";

—and thus the Committee, by its recommendations and by its acts, shall provide the means that will save from danger the many thousands of men, women and children who are necessarily and constantly seeking recreation on our excursion boats.

Resolved, That the said Committee on Laws and Legislation confer with his Honor the Mayor, with the Fire Commissioner and with all others who may be disposed to lend encouragement or aid to the plan herein contemplated.

Resolved, That whatever official authority or sanction may be needed from the United States Government—whether from departmental heads or by special legislation—or from the State, shall be sought and solicited without delay; and if any City ordinances are requisite they shall be prepared by the said Committee and presented for our consideration and action at the earliest date practicable.

Which was adopted.

## SPECIAL ORDERS, RESUMED.

Alderman McCall called up Special Order No. 14, being a report and substitute ordinance, as follows:

No. 144.

The Committee on Buildings, to whom was referred on February 2, 1904 (Minutes, page 435), the annexed ordinance relative to fireproofing buildings, respectfully

## REPORT:

They therefore recommend that the said ordinance be adopted.

## ORIGINAL.

## AN ORDINANCE relative to fireproofing buildings.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

Every building hereafter erected or altered to be used as a theatre, hotel, lodging house, school, jail, police station, hospital, asylum, institution, for the use or treatment of persons, the height of which exceeds thirty-five feet, excepting all buildings for which specifications and plans have been heretofore submitted to and approved by the proper public authorities, and every other building the height of which exceeds seventy-five feet shall be built fireproof, that is to say: They shall be constructed with walls of brick stone, Portland cement, concrete, iron or steel, in which wooden beams or lintels shall not be placed. The stairs and staircase landing shall be built entirely of brick stone, Portland cement, concrete, iron or steel. No wood-work or other inflammable material shall be used in any of the partitions, furrings or ceilings in any such buildings, excepting, however, the doors and windows and their frames and trims, the casings, the interior finish when filled solid at the back with fireproof material, and the floor boards and sleepers directly thereunder may be of wood treated by some process approved by the Board of Buildings or other public authorities, now having jurisdiction in such matters, to render the same fireproof or of wood covered with metal, but the space between the sleepers shall be solidly filled with fireproof materials and extend up to the underside of the floor boards.

The Committee on Buildings, to whom was committed on May 17, 1904 (Minutes, page 341), the annexed ordinance in relation to the height of buildings, with instructions to report it out within two weeks, as an amendment to the Building Code, respectfully

## REPORT:

The annexed substitute ordinance for adoption.

## (SUBSTITUTE.)

AN ORDINANCE to amend section 105 of the Building Code, relative to fireproofing buildings.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

That section 105 of the Building Code of The City of New York is hereby amended to read as follows:

Section 105—Fireproof Buildings. Every building hereafter erected or altered to be used as a theatre, hotel, lodging house, school (theatre), jail, police station, hospital, asylum, institution for the (care) use or treatment of persons, the height of which exceeds thirty-five feet, excepting all buildings for which specifications and plans have been heretofore submitted to and approved by the (Department of Buildings) proper public authorities, and every other building the height of which exceeds seventy-five feet (, except as herein otherwise provided,) shall be built fireproof; that is to say (,): (they) They shall be constructed with walls of brick, stone, Portland cement, concrete, iron or steel, in which wooden beams or lintels shall not be placed (, and in which the floors and roofs shall be of materials provided for in section 106 of this Code). The stairs and staircase landings shall be built entirely of brick, stone, Portland cement, concrete, iron or steel. No wood work or other inflammable material shall be used in any of the partitions, furrings or ceilings in any such (fireproof) buildings, excepting, however, (that when the height of the building does not exceed twelve stories nor more than one hundred and fifty feet) the doors and windows and their frames (, the) and trims, the casings, the interior finish when filled solid at the back with fireproof material, and the floor boards and sleepers directly thereunder, may be of wood (, but the space between the sleepers shall be solidly filled with fireproof materials and extend up to the under side of the floor boards. When the height of a fireproof building exceeds twelve stories, or more than one hundred and fifty feet, the floor surfaces shall be of stone, cement, rock, asphalt, tiling or similar incombustible material, or the sleepers and floors may be of wood) treated by some process approved by the Board of Buildings, or other public authorities now having jurisdiction in such matters, to render the same fireproof (, All outside window frames and sash shall be of metal) or of wood covered with metal, but the space between the sleepers shall be solidly filled with fireproof materials and extend up to the under side of the floor boards. (The inside window frames and sash, doors, trim and other interior finish may be of wood covered with

metal, or of wood treated by some process approved by the Board of Buildings, to render the same fireproof.)

All hall partitions or permanent partitions between rooms in fireproof buildings shall be built of fireproof material and shall not be started on wood sills, nor on wood floor boards, but be built upon the fireproof construction of the floor and extend to the fireproof beam filling above. The tops of all door and window openings in such partitions shall be at least twelve inches below the ceiling line.

LEOPOLD W. HARBURGER, JOHN J. DIETZ, ISAAC MARKS, SAMUEL H. JONES, ANDREW M. GILLEN, MORITZ TOLK, Committee on Buildings.

The President put the question whether the Board would agree to accept said report and adopt said substitute ordinance.

Which was decided in the affirmative by the following vote:

Negative—Aldermen Robinson and Ware—2.

Alderman Cullin called up Special Order No. 15, being a report and resolution, as follows:

No. 407.

The Committee on Finance, to whom was referred, on April 5, 1904 (Minutes, page 81), the annexed resolution in favor of requesting the Board of Estimate and Apportionment to authorize the Comptroller to issue Special Revenue Bonds, \$3,000, for salary of Inspector of Weights and Measures, respectfully

## REPORT:

That, having examined the subject, they believe the proposed issue to be necessary. They therefore recommend that the said resolution be adopted.

Whereas, In and by an ordinance duly passed by the Board of Aldermen at its meeting on March 15, 1904, and duly approved thereafter by his Honor the Mayor, it was in part provided in section 1 thereof, as follows:

"There shall be a Mayor's Bureau of Weights and Measures in The City of New York, in charge of an Inspector of Weights and Measures, to be appointed by the Mayor and removable by him at his pleasure, who shall be paid a salary of twenty-five hundred dollars per annum"; and

Whereas, There now exists no appropriation from which said salary can be paid and the incidental expenses of said office can be defrayed; now therefore be it

Resolved, pursuant to subdivision 8 of section 188 of the Charter, That the Board of Estimate and Apportionment be and they hereby are requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of three thousand dollars, to provide the means necessary to make said payments for the year 1904, from and including the first day of April, 1904.

JOHN T. McCALL, WILLIAM WENTZ, OWEN J. MURPHY, FERDINAND HAENLEIN, JAMES W. REDMOND, JOHN DIEMER, Committee on Finance.

The President put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Ahner, Baldwin, Boerner, Boyhan, Brenner, Bridges, Callahan, Chambers, Coggey, Collins, Cullin, Davies, Dietz, Donohue, Dougherty, Doull, Dowling, Doyle, Gaffney, Gass, Gillies, Gillen, Goodman, Grifenhagen, Grimm, Haenlein, Haggerty, Harburger, Harnischfeger, Hann, Higgins, James, Jones, Kenney, Kevin, Kline, Koch, Lochner, Lundy, McCall, McCarthy, Malone, Marks, Morris, Arthur H. Murphy, Owen J. Murphy, Owens, Poole, Richter, Robinson, Schappert, Schloss, Shea, Sheil, Stapleton, Stumpf, Sturges, Tolk, Twomey, Ware, Wafer, Wentz, Wirth, President Cromwell, President Haffen, the Vice-Chairman and the President—67.

Alderman McCall called up Special Order 13, being resolution, as follows:

No. 565.

May 10, 1904.

Whereas, The City now holds under lease offices in the Borough of The Bronx intended for use by the Tenement House Department; and

Whereas, Such offices are fully furnished and equipped for the purpose for which they were leased, but owing to the insufficiency of the amount heretofore appropriated for salaries for the Tenement House Department that Department is unable to maintain in such offices a force of Clerks and other employees for the transaction of the public business, with the result that such offices are not now open to the public; and

Whereas, The public convenience would be served by the opening to the public of such offices and the establishment there of a sufficient force to transact the business of the public with the Tenement House Department in the Borough of The Bronx; and

Whereas, Application has been made by various organizations in the Borough of The Bronx for the opening and establishment of such offices and application has been made by the Commissioner of the Tenement House Department for an increase in the amount appropriated for salaries to that Department in order that such offices may be opened; now be it hereby

Resolved, That the Board of Estimate and Apportionment be and it hereby is requested to authorize the Comptroller to issue, pursuant to subdivision 8 of section 188 of the Charter of The City of New York, Special Revenue Bonds to provide the means necessary to make payments for the salaries of persons to be employed in such offices of the Tenement House Department, in the Borough of The Bronx, to an amount not exceeding twenty thousand dollars.

The President put the question whether the Board would agree with said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Ahner, Baldwin, Boerner, Boyhan, Brenner, Bridges, Callahan, Chambers, Coggey, Collins, Cullin, Dietz, Donohue, Dougherty, Doull, Dowling, Doyle, Gaffney, Gillies, Gillen, Goodman, Grifenhagen, Grimm, Haenlein, Haggerty, Harburger, Harnischfeger, Hann, Higgins, James, Jones, Kenney, Kevin, Kline, Koch, Lochner, Lundy, McCall, McCarthy, Malone, Marks, Morris, Arthur H. Reports of Committee on Laws and Legislation—

No. 427—(G. O. No. 103).

The Committee on Laws and Legislation, to which was referred on April 13, 1904 (Minutes, page 111), the annexed communication and ordinances in relation to the public parks in The City of New York, respectfully

#### REPORT:

That, having examined the subject, they believe the proposed ordinances to be necessary. They recommend, therefore, that the said Code of Ordinances, as submitted by the Department of Parks, be approved under the following title:

"AN ORDINANCE establishing rules and regulations for the government and protection of the public parks of The City of New York."

Be it Ordained by the Board of Aldermen of The City of New York as follows:

That the following Code of Ordinances, Rules and Regulations for the government of the parks, parkways, etc., in The City of New York, as approved and adopted by the Commissioners of Parks of The City of New York, be and the same is hereby approved.

The Park Board of the Department of Parks of The City of New York ordains as follows:

All persons are forbidden—

I. To cut, break or in any way injure or deface the trees, shrubs, plants, grass, posts, railings, chains, lamps, lampposts, benches, tree-guards, buildings, structures or other property in or upon any of the public parks, parkways, squares or places of or within The City of New York, under the jurisdiction of the Department of Parks, or to dig into or upon the soil within the boundaries of any such parks, parkways, squares or places, or of any roads or roadways upon or across the same.

II. To go on foot or otherwise upon the grass, except when and where permitted, or to throw or leave any paper, refuse or rubbish on any of the lawns or walks of the said parks, parkways, squares or places.

III. To expose any article for sale or exhibition, unless previously licensed by the Department of Parks therefor, on any part of such public parks, parkways, squares or places.

IV. To post any bill, placard, notice or other paper upon any structure within such public parks, parkways, squares or places, or upon any street or avenue adjacent thereto under the jurisdiction of the Department of Parks, unless previously licensed so to do by the Commissioner having jurisdiction, and in accordance with the provisions of section XVI. hereof.

V. To play upon any musical instrument within such public parks, parkways, squares or places, or take into, carry or display any flag, banner, target, or transparency without the permission of the Commissioner having jurisdiction.

VI. To erect any structure, stand or platform, or hold any meetings in such parks, parkways, squares or places, without previous permission therefor from the Commissioner having jurisdiction.

VII. To use threatening, abusive or insulting language upon any of such public parks, parkways, squares or places, or doing any obscene or indecent act thereon, or any act tending to a breach of the public peace.

VIII. No hackney coach, carriage, wagon, cart or other vehicle for hire shall stand upon any such public park, parkway, square or place, or upon any street or avenue adjacent thereto under the jurisdiction of the Department of Parks without previous license, and then only at such place as shall be indicated and allowed by the Commissioner having jurisdiction.

IX. No horse or other animal shall be allowed to go at large upon such public parks, parkways, squares or places, except that dogs may be allowed therein when led by a chain or proper dog-string not exceeding six feet in length.

X. No person shall bathe or fish in any of the waters or fountains, nor cast any substance therein, nor disturb or interfere in any way with the fish, birds or animals within such public parks, parkways, squares or places, except in the waters adjacent to Pelham Bay Park, where bathing and fishing shall be permitted, subject to the rules and regulations prescribed by the Commissioner of Parks for the Borough of The Bronx. Fishing may be allowed in the lakes of Prospect Park under permits granted by the Commissioner having jurisdiction.

XI. All drunken, disorderly, or improper persons, and all persons doing any act injurious to such parks, parkways, squares or places, shall be removed therefrom by the parkkeeper or police in charge thereof. When necessary to the protection of life or property, the officers and keepers of the park may remove all persons from any designated part thereof.

XII. No animal or vehicle shall be permitted to stand, nor any incumbrance of any kind be allowed to remain upon any street adjacent to or bounding upon any public square or place in The City of New York, under the jurisdiction of the Department of Parks, without permission of the Commissioner for the boroughs wherein located, except that vehicles may be permitted to take up and set down passengers, and to load and unload merchandise in the usual manner, and may occupy the street a reasonable time for the purpose; provided, however, that they shall not, while so doing unnecessarily incumber the street or obstruct travel therein.

XIII. No one shall throw stones or other missiles, nor beg or publicly solicit subscriptions or contributions, nor tell fortunes, nor play games of chance or with any table or instrument of gaming, nor make any harangue, nor climb upon any wall, fence, shelter, seat, statue or other erection within such public parks, parkways, squares or places within The City of New York.

XIV. No automobile or horseless vehicle shall be driven upon or over the drives of such public parks, parkways, squares or places at a greater rate of speed than eight miles an hour.

XV. No fence in or about any land fronting upon or adjacent to any public park, parkway, square or place in The City of New York, shall be erected until a plan, showing the height, character and method of construction of the proposed fence, has been submitted to the Commissioner of Parks having jurisdiction, and approved by him, and a permit in writing issued therefor.

XVI. No poster or advertising device shall be placed upon any fence or other structure used for advertisement or the exhibition in, about or upon any land fronting upon or adjacent to any public park, parkway, square or place in The City of New York, until a description or a drawing of the same shall be filed with the Commissioner of Parks having jurisdiction, and approved by him, and a permit in writing issued therefor.

XVII. Owners of fences or other structures now existing in, about or upon lands fronting upon or adjacent to any park, parkway, square or place in The City of New York used for advertising or exhibition of advertisements, shall not modify or alter such structures or the advertising device placed thereon until a written application has been made to the Commissioner having jurisdiction over the same, requesting his permission for the said alteration or modification, which shall be fully described in the said application, and the necessary permit obtained therefor.

XVIII. No military or target company, or civic or other procession, shall be allowed to parade, drill or perform upon any of the parks, parkways, squares or public places, without permission from the Commissioner of Parks having jurisdiction, except in the case of the use of Van Cortlandt parade ground in Van Cortlandt Park and the Parade Ground adjacent to Prospect Park, by the National Guard of the State of New York.

XIX. No automobile, stage or other vehicle shall be allowed to carry passengers for hire over or upon any of the parks, parkways or drives, concourses,

plazas or circles, under the control of the Department of Parks, excepting upon traffic roads and except by special permission of the Commissioner having jurisdiction.

XX. It shall be unlawful for the owner or operator of any automobile or other vehicle to stop near any of the music stands or other places, in or about any of the parks, parkways, plazas, concourses, circles or squares, of the said Department of Parks, where any number of persons are accustomed to congregate, or where such automobiles would be a source of danger to life and limb, except by permission of the Commissioner having jurisdiction.

XXI. No garbage, ashes, manure or other offensive material, is to be carried over any of the parkways or through such parks, circles, squares or concourses, except upon traffic roads set apart for such purpose. When such refuse is to be removed from residences fronting on any of the above parkways, etc., the vehicles collecting such refuse must leave the parkway as soon as such collection is accomplished, and within the time prescribed by the Commissioner having jurisdiction.

No earth, sand or broken stone is to be carted over any of the parkways, except on traffic roads, unless special permit for the same is obtained from the Commissioner having jurisdiction.

XXII. It shall not be lawful to modify, alter, or in any manner interfere with the lines or grades of any of the aforesaid parks, parkways, concourses, circles, squares, avenues, roads, streets, entrances or approaches under the jurisdiction of the said Department of Parks, nor to take up, move or disturb any of the curb and gutter-stones, flagging, trees, tree-boxes, railing, fences, sod, soil or gravel, or to go upon or cross said parks, parkways, concourses, circles, squares, roads, streets or avenues, except by the means and in the manner provided therefor; nor shall it be lawful to open or otherwise expose or interfere with any of the water, gas and sewer pipes, or any of the hydrants, stop-cocks, basins or other constructions within or upon said places, nor to take any water or gas therefrom, nor to make any connection therewith, except by special written consent of the Commissioner having jurisdiction, and where such consent is given a deposit of money may be required to insure the restoration of the said curbs, gutters, flagging, etc.

XXIII. No person in bathing costume will be permitted to walk or ride upon any parks, parkways or beaches, except Pelham Bay Park, under the jurisdiction of the Department of Parks. No boat or vessel shall be placed upon any of the waters of the said parks, except by special permission from the Commissioner having jurisdiction. No skating or sledding will be allowed on the lakes unless the ice is declared by the Commissioner having jurisdiction to be in a suitable condition for that purpose.

XXIV. No one shall fire or carry any firearm, fire cracker, torpedo, or fireworks, nor make a fire, nor make any oration, nor conduct any religious or other meeting or ceremony within any of the parks, parkways, squares or places in The City of New York under the jurisdiction of the Department of Parks without special permission from the Commissioner having jurisdiction.

XXV. No one shall enter or leave the parks except at the established entrance-ways; nor shall any one enter or remain therein after 12 o'clock at night, except as, on special occasions, use thereof may be authorized beyond the regular hours.

XXVI. The drives shall be used only by persons in pleasure vehicles, on bicycles, or on horseback; the bridle paths only by persons on horseback. Animals to be used on either shall be well broken, and constantly held in such control that they may be easily and quickly turned or stopped; they shall not be allowed to move at a rate of speed on the drives or bridle paths of more than eight miles an hour; and when it shall be deemed necessary to safety, good order, or the general convenience that the speed of an animal or vehicle should be checked, or that it should be stopped, or its course altered, and the officers on duty shall so direct, by gesture or otherwise, such direction shall be obeyed; and no horse or other beast of burden nor automobile shall be driven or suffered to stand anywhere except on the drive or bridle path.

XXVII. No hackney coach or other vehicle for hire shall stand within the public parks, parkways, squares or places under the jurisdiction of the Department of Parks for the purpose of taking up passengers, other than those whom it has brought in, excepting with the permission of the Commissioner having jurisdiction. No public omnibus or express wagon, and no wagon, cart or other vehicle, carrying or ordinarily used to carry merchandise goods, tools or rubbish shall enter such public parks, parkways, squares or places without permission of the Commissioner having jurisdiction, excepting upon traffic roads provided for the purpose. No fire engine or other apparatus on wheels for extinguishing fire shall enter or be allowed upon any part of the park excepting the Transverse and Traffic roads.

XXVIII. No military or target company and no civic, funeral or other procession, or a detachment of a procession, and no hearse or other vehicle, or person carrying the body of a dead person shall enter or be allowed on any part of the public parks, except by the permission of the Commissioner having jurisdiction.

XXIX. No person shall bring into or carry within the parks any tree, shrub, plant or flower, nor any newly plucked branch or portion thereof without a permit from the Commissioner having jurisdiction.

XXX. No person shall solicit passengers for any coach or other vehicle for hire within or upon any of the parks, parkways, squares or places within the jurisdiction of the Department of Parks. All drivers or attendants of vehicles for hire standing upon or within any such parks, parkways, squares or places shall remain in close proximity to their vehicles while so standing, and shall not follow, solicit or importune any person entering or leaving the said parks, parkways, squares or places.

Ordinances relating to the use of vehicles in the public parks, parkways and streets under the jurisdiction and control of the Commissioners of Parks of The City of New York:

1. All vehicles must carry a lighted lamp, showing a white light ahead, from thirty minutes after sunset until thirty minutes before sunrise.

2. All vehicles and horsemen when passing another vehicle or horseman going in the same direction, must keep to the left and leave the vehicle or horseman they are passing on the right hand.

3. All vehicles or horsemen going at a walk or slow trot must keep near the curbstone or gutter on the right hand side of the road; those going more rapidly must keep nearer the middle of the road.

4. No vehicle shall stop for any purpose without drawing up to the curbstone or gutter, and always on the right hand side of the road.

5. Before pulling up and before crossing from one side to the other of the road or street the driver should signal to those behind him by raising his whip.

6. On all drives and parkways where grass plots divide the drive all vehicles and horsemen must keep on the right hand side drive or bridle path.

7. Drivers, riders and cyclists must not exceed a speed of eight miles an hour in the parks and parkways.

8. Cyclists must not coast in the parks, nor on the parkways, or bicycle paths, and must keep their feet on the pedals and their hands on the handle bars.

9. Cyclists must not mount or dismount, except on the extreme right of the roads or bicycle paths.

10. All bicycles, tricycles, velocipedes or other vehicles of propulsion must be provided with a bicycle bell, not to exceed three inches in diameter.

11. Riding more than two abreast is prohibited.

12. Instruction in operating automobiles, bicycles, tricycles, velocipedes or other such vehicles of propulsion, and all trick or fancy riding on the same, is prohibited in the parks and parkways at all times.

13. Wheelmen shall not ride on the paths in any park; those walking upon the park paths may push their wheels along said paths; but in no case shall the wheels be taken upon the turf.

14. The delivery of supplies to the residences of West Seventy-second street, West Eighty-sixth street, Riverside drive, Cathedral parkway and Morningside avenue, west, in Manhattan, and the Shore road in Brooklyn, will be permitted in the forenoon; but no business vehicles shall enter upon or pass over said parkways after the hour of noon, excepting by special permission of the Commissioner having jurisdiction. In passing over the said parkways, business vehicles must go direct to place of delivery, must leave the said parkways without unnecessary delay, and by the shortest route—the place of entry, if possible. The said parkways must not be used to enable business vehicles to reach places exterior to them.

Ordinances applying to the Harlem River Driveway:

1. The use of the Speedway is restricted to light vehicles of the classes known as buggies, runabouts, surreys and other like vehicles adapted to the speeding of

light harness horses, seating not more than four persons and drawn by one or two horses, except by permission of the Commissioner having jurisdiction. Exercising carts may be used until 1 p. m. only.

2. Speeding on Sundays and holidays, and after 3 o'clock p. m. on other days, will be permitted in one direction—from north to south only.

Turning is forbidden except at the ends of the driveway and at the bridges.

3. When not speeding, drivers must keep closely to the right hand side of the road and keep moving.

4. Pedestrians must not cross on the Speedway; subways are provided for that purpose.

5. Loud shouting to make horses break or to urge them on is strictly forbidden.

6. The use of hobbles, or other similar device or apparatus to fetter or connect the legs of horses, for the purpose of restricting or hampering their motion or gait, is forbidden upon the Harlem River Driveway.

Rules and regulations for establishing limits of projection for constructions on the line of Riverside drive:

1. No structure or construction of any description or any part thereof shall be placed or permitted on or under Riverside avenue until working plans in duplicate, drawn to a scale of one-quarter inch to the foot, shall have been filed with the Department of Parks, with an application for the erection or construction of the said structure; said drawings to show elevations, floor plans and vertical sections of the extent of projections, and that the applicant has received permission to erect the said projection, as shown on drawings from the Department of Parks.

A (a) Stoops or steps, courtyards and areas, or any part or appurtenance thereof shall not project in the avenue beyond the building line to the extent of more than 5 feet where the sidewalk is 16 feet wide; 7 feet where the sidewalk is 20 feet wide; 8 feet where the sidewalk is 25 feet wide; and in proportion to the above where the sidewalk is between 16 and 20 feet or between 20 and 25 feet.

(b) No stoop or steps shall be covered, except over the landing or platform at the top; nor shall they be inclosed except by an open railing not more than 4 feet in height.

B (a) Bay windows shall not project in the avenue beyond the building line to the extent of more than 4 feet.

(b) Bay windows when allowed to project in the avenue shall not occupy longitudinally with the avenue more than two-thirds of the width of the building from which they project.

C (a) No balcony, cornice or ornament shall project in the avenue beyond the house line to the extent of more than 4 feet.

(b) No balcony shall be inclosed on the front or side, except by a railing not over 4 feet in height.

D. No vault or other construction below the sidewalk shall be built, except in such manner as shall leave the sewers, gas and water pipes, or space proposed to be occupied by the same, free and uninclosed and in safe condition; nor in any case to extend in the clear beyond the curb line.

Ordinance adopted, pursuant to chapter 453 of the Laws of 1902:

1. No shade or ornamental tree or shrub shall be planted in any of the streets, avenues or public thoroughfares of The City of New York until such tree or shrub shall have been first approved by a duly appointed employee or expert of the Commissioner having jurisdiction, and a permit granted therefor.

2. No holes or excavation shall be prepared for planting any tree or shrub unless sufficient mould of satisfactory quality shall be used, and a duly appointed employee or expert of the Department of Parks shall report that the conditions, such as the absence of poisonous gas and deleterious substances, have been made satisfactory and a permit granted therefor.

3. No stem, branch or leaf of any such tree or shrub shall be cut, broken or otherwise disturbed until a permit has been granted therefor by the Commissioner having jurisdiction.

4. No root of any such tree or shrub shall be disturbed or interfered with in any way by any individual or any officer or employee of a public or private corporation until a permit shall have been issued therefor by the Commissioner having jurisdiction.

5. The surface of the ground within three feet of any tree or shrub growing on any street, avenue or other public thoroughfare shall not be cultivated, fertilized, paved, or given any treatment whatever, except under permit granted of the Commissioner having jurisdiction.

6. It shall not be lawful to attach or maintain any guy rope, cable or other contrivance to any tree or shrub, or to use the same in connection with any banner, transparency, or any business purpose whatever, except under a permit from the Commissioner having jurisdiction.

7. It shall not be lawful to cut, deface, mutilate, or in any way misuse, any tree or shrub, nor shall any horse or other animal be permitted to stand in a manner or position where it may or shall cut, deface or mutilate any tree or shrub, nor shall any building material or other material of any kind or any debris be piled or maintained against any tree or shrub.

8. It shall not be lawful to attach or string any electric or other wire, or to adjust or carry the same into or over any park or parkway, except under a permit from the Commissioner having jurisdiction.

9. Any person violating the foregoing ordinances of chapter 453 of the Laws of 1902 shall be guilty of a misdemeanor, and shall on conviction thereof before a City Magistrate be punished by a fine not exceeding \$50, or in default of payment of such fine, by imprisonment not exceeding thirty days.

Rules and regulations relating to projections and line of curb and surface constructions, under provisions of section 612 of the Greater New York Charter, as amended by chapter 723 of the Laws of 1901:

1. Each Commissioner may grant permits for the erection and maintenance of projections on any park, parkway, square or public place in his jurisdiction, and on all streets and avenues within a distance of three hundred and fifty feet from the outer boundaries thereof, upon such terms and conditions and upon the making of such compensation to the City as in his discretion he may determine with respect to the particular locality.

2. Where permits have heretofore been granted upon the making of compensation and a new permit is desired to correct any irregularity, defect or supposed want of jurisdiction in the granting of such permit, a new permit may be granted without the making of further compensation.

3. Each Commissioner may determine the line of curb and the surface constructions of all streets and avenues lying within any park, parkway, square or public place in his jurisdiction or within a distance of three hundred and fifty feet from the outer boundaries thereof as he may deem advisable according to the particular locality, and best calculated to maintain the beauty and utility of such parks, parkways, squares and public places.

4. All applications for the privilege of erecting bay windows or other house projections shall be made to the Commissioner in whose administrative jurisdiction the park or parkway affected lies, who may in his discretion grant the same upon payment of a fee to be determined in each case by said Commissioner.

5. Working plans in duplicate, drawn to a scale of one-quarter inch to the foot, shall be required to accompany each application, showing elevation, plans and vertical section of extent of projection, one copy of which will be filed in the office of the Commissioner having jurisdiction, and one other shall be returned to the applicant for filing in the Department of Buildings, with the approval of said Commissioner.

6. No permit will be granted to cover more than four feet of projection beyond the house or building line, nor shall the projections occupy longitudinally with the street or avenue more than two-thirds of the width of the building from which they project.

Affecting Central Park and Fifth Avenue, Manhattan.

1. Owners of property on the easterly side of said Fifth avenue, between Fifty-eighth and One Hundred and Eleventh streets, are permitted to inclose, for courtyard purposes, and not otherwise, fifteen feet of the sidewalks adjacent to and in front of their respective lots; and the stoops of buildings erected on said avenue may, in such cases, project to the extent of such courtyards; provided further, that such stoops shall, in every instance, be open above the railing or balustrade thereof, and the form, size and character thereof, together with the form, size and character of the area railings, shall be subject to the approval of the Commissioner having jurisdiction; and provided further, that no stoop or area railing shall be constructed or put upon said Fifth avenue, or upon any of the streets or avenues surrounding said park, within the boundaries first above mentioned, until the plan thereof has been submitted to and approved by the said Commissioner.

2. No more than four horses shall be allowed to be driven together in the parks of the Borough of Manhattan, and then only when attached to private vehicles, except by special permit.

3. No person shall go on the turf without the permit of the Commissioner having jurisdiction except when and where a blue flag with a white star is shown as an indication that at that time and place all persons are allowed to go on it.

4. No bicycle or tricycle shall be allowed to be taken upon or remain on the Mall in Central Park during the progress of a concert.

#### Rules Relating to Park Conservatories.

1. The Conservatories will be open daily between 10 A. M. and 4.30 P. M.

2. Visitors on entering will keep to the right in order to avoid crowding.

3. Any person found pilfering flowers or leaves or causing damage to the buildings or plants will be arrested and punished.

4. No intoxicated, noisy or disorderly persons will be admitted.

5. Children under eight years of age will not be admitted except when accompanied by parents or guardians.

6. No dogs will be allowed inside the buildings or on the grounds.

7. The scattering of paper or refuse inside the buildings or on the grounds is prohibited.

8. Any incivility on the part of employees should be reported to the Commissioner having jurisdiction. Visitors are requested not to engage in unnecessary conversation with employees.

9. Fifteen minutes before closing time visitors will be warned by the call "All out."

10. No person will be permitted in a house or wing of the conservatory which is shown to be closed.

11. No smoking will be allowed.

12. Loud, indecent or noisy language is strictly prohibited.

#### Rules and Regulations Relating to the New York Botanical Garden in Bronx Park.

1. The picking of flowers, leaves, fruits, nuts, or the breaking of branches of any plants either wild or cultivated, the uprooting of plants of any kind, the defacing of trees, and the carrying of flowers, fruits or plants into or from the grounds of the Garden, are prohibited, except by written permission of the Director-in-Chief of the Garden.

2. Leaving or depositing paper, boxes, glass or rubbish of any kind within the grounds of the Garden is forbidden.

3. Dogs are not allowed within the limits of the Garden except in leash.

4. It is forbidden to take fish from within the Garden, or to molest in any way squirrels, birds, snakes, frogs, toads, turtles or any other wild animal.

5. Throwing stones or other missiles, playing ball, football, tennis or any other game is prohibited.

6. It is forbidden to offer for sale food, candy, newspapers, books, tobacco, beverages, flowers or other objects, without written permission from the Director-in-Chief and the Commissioner of Parks for the Borough of The Bronx.

7. Boating or rafting on the ponds, lakes and streams is forbidden.

8. Trucking, or the driving of business wagons of any kind, is forbidden on the roads of the Garden, except those designated for such purposes.

9. It is forbidden to accept or solicit passengers for any cab, carriage, or other conveyance at any point within the grounds of the Garden without written permission from the Director-in-Chief of the Garden and the Commissioner of Parks for the Borough of The Bronx.

10. Visitors are not allowed within the Garden after 11 o'clock at night nor before 6 o'clock in the morning, except upon driveways and paths designated for their use between those hours.

#### Ordinances Applicable to the Ordinary Use of the Ocean Boulevard, the Eastern Parkway and the Speedway in the Boroughs of Brooklyn and Queens.

Light harness driving on the Speedway, Ocean parkway (Ocean Parkway, between Bay parkway and Kings Highway) shall not be restricted as to speed between the hours of sunrise and sunset; speeding, however, is only to be permitted from Bay parkway toward Coney Island, and drivers shall be compelled to observe the rules of the road. Automobiles will not be permitted on the Speedway, but must take the west road on the Ocean parkway, between Bay parkway and Kings Highway, at all times.

Business wagons, trucks, etc., heavy or light, are prohibited from using the main drive of the Ocean parkway, and must use the west road at all times. Business wagons, trucks, etc., must use the block pavement at either side of the main road or the traffic roads of the Eastern parkway.

#### Prospect Park.

1. All lawns in Prospect Park are commons, and may be used as such, except those restricted by special order, and such restricted sections plainly indicated by proper signs.

#### Coney Island Cycle Paths.

Cyclists must use the west path when going toward Coney Island and the east path in returning.

Cyclists must not exceed a speed of twelve miles an hour on the bicycle paths.

Racing on the bicycle paths is prohibited, except by special permission of the Commissioner having jurisdiction.

Horses, wagons, carriages and pedestrians must not use the bicycle paths.

All ordinances or parts of ordinances heretofore adopted affecting the parks, parkways and public places of The City of New York under the jurisdiction of the Department of Parks inconsistent with or in conflict with the ordinances above set forth are hereby repealed.

The Committee on Laws and Legislation, to which was referred, on June 7, 1904 (Minutes, page 872), the annexed ordinance in relation to the carrying of pistols, respectfully

#### REPORT:

That, having examined the subject, they believe the proposed ordinance should be amended by inserting the words "payment of" between the words "of" and "such" in the third from the last line thereof, and therefore recommend that the said ordinance, as so amended, be adopted.

#### AN ORDINANCE in relation to the carrying of pistols.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

Section 1. Every person, except Judges of the Federal, State and City Courts, and officers of the general State and Municipal Government authorized by law to make arrests, and persons to whom permits shall have been issued, as heretofore provided, who shall have in his possession within The City of New York a pistol of any description concealed on his person or not carried openly shall be guilty of a misdemeanor and shall be punished on conviction before a City Magistrate by a fine not exceeding twenty-five dollars, or, in default of such fine, by imprisonment not exceeding ten days.

Sec. 2. This ordinance shall take effect immediately.

AN ORDINANCE relating to the carrying of concealed weapons in The City of New York.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

Section 1. That any person or persons who carries or conceals on his person, loaded fire arms or other dangerous weapons is guilty of a misdemeanor, and upon conviction he or they shall be fined the sum of \$50 and be required to give a bond in the sum of \$500 for six months to preserve the peace, and in default of said fine and bond, he or they shall be imprisoned in the City Prison for six months.

Sec. 2. The City Magistrates, on application of any citizen shall, if they shall deem it necessary for the protection of said citizen, issue to such citizen a permit, in writing, attested by the Clerk of said Magistrate's Court, granting such citizen the right to carry loaded fire arms on his person, said permit shall be issued for such time as said Magistrate shall, in his opinion, determine, and said Magistrate may revoke such permit at any time that he shall deem fit, and to the peace and welfare of the community.

Sec. 3. This ordinance shall in no way effect the carrying of loaded concealed fire arms on the person of the police or such other public officers as are now required to carry the same as provided by law.

Sec. 4. This ordinance shall in no way effect the rules and regulations of the United States Army, the United States Navy and the Militia of the State of New York, permitting the carrying of loaded fire arms on the person of said soldiers, sailors or militiamen in The City of New York.

Sec. 5. All ordinances or parts of ordinances or parts of ordinances affecting or conflicting with this ordinance are hereby repealed.

Sec. 6. This ordinance to take effect immediately.

June 11, 1904. }

Hon. CHARLES V. FORTES, President, Board of Aldermen:

Dear Sir—I send you herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment at a meeting held this day fixing the terms and conditions of the proposed consent on the part of The City of New York to the Harlem Transfer Company to lay tracks in Railroad avenue, East, Borough of The Bronx, together with a copy of a map referred to in said resolution.

This action was taken pursuant to a resolution adopted by the Board of Aldermen on April 19, 1904, and approved by the Mayor April 21, 1904.

Respectfully,

J. W. STEVENSON, Secretary.

JOHN J. HAGGERTY, JAMES GAFFNEY, TIMOTHY P. SULLIVAN, JOHN T. McCALL, JOHN E. McCARTHY, Committee on Railroads.

Which were severally laid over.

Alderman Kenney then moved that the Board return to the order of business of motions, ordinances and resolutions.

Which was adopted.

AN ORDINANCE giving and granting to the Harlem Transfer Company permission to lay and maintain and operate railroad tracks on Railroad or Park avenue, south of One Hundred and Thirty-fifth street, Borough of The Bronx.

Be it Ordained, by the Board of Aldermen of The City of New York, as follows:

Section 1. The Board of Aldermen hereby approves and concurs in the following resolution adopted by the Board of Estimate and Apportionment the 10th day of June, 1904, giving and granting the Harlem Transfer Company permission to lay, maintain and operate railroad tracks on Railroad or Park avenue, south of One Hundred and Thirty-fifth street, Borough of The Bronx, upon the terms and conditions therein specified.

Resolved, That the consent of the Corporation of The City of New York be and the same is hereby given to the Harlem Transfer Company, a corporation, to lay, maintain and operate two (2) railroad tracks along Railroad avenue, East, beginning at the bulkhead line of the Harlem river and extending northerly along said avenue to a point south of East One Hundred and Thirty-fifth street, as shown and indicated upon the map marked "The Harlem Transfer Company, Map showing proposed tracks in Railroad avenue, Borough of The Bronx, New York City. Proposed tracks shown in red. Scale, 1 inch, 20 feet. Dated May 6, 1904, made by Edward D. B. Brown, Engineer, and signed Harlem Transfer Company, per J. C. Watson, General Manager," copy of which is annexed hereto, and which is made a part hereof, upon the following terms and conditions:

First—Said consent shall be for a period of time coterminous with the lease now held by the said Harlem Transfer Company of the bulkhead at the foot of Railroad avenue, and the extensions or renewals of said lease, not exceeding twenty-five years from the granting of said consent.

Second—The Harlem Transfer Company, its successor or assigns shall pay into the Treasury of The City of New York, the following sums of money:

During the first five years the annual sum of.....	\$1,320 00
During the second five years the annual sum of.....	1,390 00
During the third five years the annual sum of.....	1,455 00
During the fourth five years the annual sum of.....	1,530 00
During the fifth five years the annual sum of.....	1,600 00

—after which the permission, unless sooner revoked, shall expire by limitation.

Such sums shall be paid into the Treasury of The City of New York on November 1 in each year, provided, however, that the first payment shall be only that proportion of \$1,320 as the time between the approval of this consent and November 1, following, shall bear to the whole of one year.

Third—Upon the revocation or termination by limitation of this consent, the said company shall forthwith remove the plant and property, with its appurtenances, from the street, and the surface of the street shall be restored to a condition equal to that of the surrounding surface or pavement. In default of the performance of this condition by the said company, its successor or assigns, the proper local authorities may cause such tracks, property and plant to be removed from the street aforesaid, and the surface thereof to be restored in the manner above described, at the expense of the said company, its successor or assigns, and such expense shall be recovered by The City of New York by action or otherwise.

Fourth—The consent hereby given shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein pass to or vest in any other person or corporation whatsoever, either by the acts of the Harlem Transfer Company, its successor or assigns, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of The City of New York, acting by the Board of Estimate and Apportionment, or its successor in authority, evidenced by an instrument under seal, anything herein contained to the contrary thereof in any wise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Fifth—The said railroad tracks may be used and operated by locomotive steam power or by any other motive power which may be approved by the Board of Railroad Commissioners, in accordance with the provisions of the Railroad Law, excepting overhead electrical power, provided, however, that the locomotive steam engines used shall be housed or boxed so as to conform to the type commonly known as the dummy engine.

The number of cars to be included in any train operated upon the railroad tracks shall be limited to ten, and the speed of the engine and cars shall never exceed six miles per hour.

Sixth—The railroad tracks constructed under this consent shall be maintained and operated solely for the purpose of transportation of goods, wares and merchandise, and for no other purpose, and especially for no purpose in connection with the passenger traffic as commonly understood.

Seventh—Such railroad tracks shall be constructed, maintained and operated in the latest improved manner of street railroad construction and operation, and solely upon the terms and according to the lines and surveys and of the character of the rails and other parts of the construction approved by the President of the Borough of The Bronx. Such railroad tracks of the said company, its successor or assigns, shall be maintained in good and safe condition throughout the terms of this consent.

Eighth—Such railroad tracks shall be constructed, maintained and operated subject to the supervision and control of all the authorities of The City of New York who have jurisdiction in such matters under the Charter of The City of New York.

Ninth—The Harlem Transfer Company, its successor or assigns, shall at the time of the laying of the tracks hereby authorized to be laid, pave with granite blocks or other material, as required by the proper City authorities, upon a good and sufficient foundation, a roadway of a width of twenty-four (24) feet in the centre of Railroad avenue, East, extending from the bulkhead platform to the southerly side of East One Hundred and Thirty-fifth street, under the supervision of the President of the Borough of The Bronx, and shall pay the cost thereof.

Tenth—The said company, its successor or assigns, shall keep in permanent repair the pavement of the roadway required to be laid by it, under the supervision of the proper local authorities, and whenever required by them to do so, and in such manner as they may prescribe.

Eleventh—The said company, its successor or assigns, shall at all times keep the street between the tracks free and clear from ice and snow.

Twelfth—Said company shall be liable for all damages to persons or property and to the street and the sewer therein by reason of the construction or operation of said railroad tracks, and it is a condition of this consent that The City of New York assumes no liability to either persons or property on account of this consent.

Thirteenth—This consent is upon the further and express condition that the provisions of the Railroad Law applicable thereto, and all laws or ordinances now in force or which may be adopted relating to surface railroads operating in The City of New York shall be strictly complied with.

Fourteenth—The said company, its successors or assigns, shall commence the construction of the railroad tracks under this consent and complete the same within one year from the date when it has obtained the necessary permits and resolutions of the City officials and departments and on or before June 1, 1905; otherwise this consent shall be forfeited forthwith and without any proceedings either at law or otherwise for that purpose; provided, however, that such time may be extended by the Board of Estimate and Apportionment for a period not exceeding six months.

Fifteenth—This consent is upon the express condition that the said company, within thirty days after it has been duly authorized to construct, maintain and operate its railroad tracks hereunder and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of The City of New York the sum of five hundred dollars (\$500), either in money or in securities, to be approved by him, which fund shall be security for the performance of the terms and conditions of this

consent, especially those which relate to the payment of the annual charge for the consent, the repairs of the street pavement and the removal of snow and ice and the quality or construction of the railroad tracks. In case default in the performance by said company of such terms and conditions The City of New York shall have the right to cause the work to be done and the materials to be furnished for the performance thereof, after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings, or after default in the payment of the annual charges shall collect the same with interest from such fund after ten days' notice in writing to the said company.

In case of any drafts so made upon the security fund, the said company shall, upon thirty days' notice in writing, pay to the Comptroller of The City of New York a sum of money sufficient to restore the said fund to the original amount of five hundred dollars (\$500), and in default thereof the consent hereby given may be canceled and annulled at the option of the Comptroller of The City of New York, acting on behalf of said City. No action or proceeding or rights under the provisions of this section shall affect any other legal rights, remedies or causes of action belonging to The City of New York.

Sixteenth—This consent shall not become operative until said company shall duly execute, under its corporate seal, an instrument in writing wherein said company shall promise, covenant and agree on its part and behalf to conform to and abide by and perform all the terms and conditions and requirements in this consent fixed and contained, and file the same in the office of the Comptroller of The City of New York within thirty days after the signing of this resolution by the Mayor.

Seventeenth—The compensation herein reserved shall commence from the date of the approval of this resolution by the Mayor.

Eighteenth—The consent hereby granted is revocable at the pleasure of the Board of Aldermen.

Proposed Terms and Conditions Granting the Consent of The City of New York to The Harlem Transfer Company to Lay Tracks in Railroad Avenue, East, Borough of The Bronx.

Resolved, That the Board of Estimate and Apportionment having received from the Board of Aldermen, pursuant to a resolution of such Board adopted April 19, 1904, and approved by the Mayor April 21, 1904, a proposed consent of the Corporation of The City of New York to the use of Railroad avenue, East, between the bulkhead-line of the Harlem river and East One Hundred and Thirty-fifth street in the Borough of The Bronx, for the purpose of constructing, maintaining and operating thereon a double railroad track by the Harlem Transfer Company, does hereby, pursuant to the Greater New York Charter, fix the terms and conditions of the proposed consent, and the money value of such privilege or rights proposed, as follows:

I.—Said consent shall be for a period of time coterminous with the lease now held by said Harlem Transfer Company of the bulkhead at the foot of Railroad avenue and the extensions or renewals of said lease, not exceeding twenty-five years from the granting of said consent, said consent being revocable at the pleasure of the Board of Aldermen.

II.—The Harlem Transfer Company, its successor or assigns, shall pay into the treasury of The City of New York the following sums of money:

During the first five years the annual sum of.....	\$1,320 00
During the second five years the annual sum of.....	1,390 00
During the third five years the annual sum of.....	1,455 00
During the fourth five years the annual sum of.....	1,530 00
During the fifth five years the annual sum of.....	1,600 00

—after which the permission, unless sooner revoked, shall expire by limitation.

III.—The resolution granting such consent or right should be in substance, as to the terms and conditions of such consent, in the words and figures following:

Resolved, That the consent of the Corporation of The City of New York be and the same is hereby given to the Harlem Transfer Company, a corporation, to lay, maintain and operate two (2) railroad tracks along Railroad avenue, East, beginning at the bulkhead-line of the Harlem river, and extending northerly along said avenue to a point south of East One Hundred and Thirty-fifth street, as shown and indicated upon the map marked "The Harlem Transfer Company, Map showing proposed tracks in Railroad avenue, Borough of The Bronx, New York City. Proposed tracks shown in red. Scale 1 inch, 20 feet. Dated May 6, 1904, made by Edward D. B. Brown, Engineer, and signed Harlem Transfer Company, per J. C. Watson, General Manager," copy of which is annexed hereto, and which is made a part hereof, upon the following terms and conditions:

First—Said consent shall be for a period of time coterminous with the lease now held by the said Harlem Transfer Company of the bulkhead at the foot of Railroad avenue, and the extensions or renewals of said lease, not exceeding twenty-five years from the granting of said consent.

Second—The Harlem Transfer Company, its successor or assigns, shall pay into the Treasury of The City of New York, the following sums of money:

During the first five years the annual sum of.....	\$1,320 00
During the second five years the annual sum of.....	1,390 00
During the third five years the annual sum of.....	1,455 00
During the fourth five years the annual sum of.....	1,530 00
During the fifth five years the annual sum of.....	1,600 00

—after which the permission, unless sooner revoked, shall expire by limitation.

Such sums shall be paid into the Treasury of The City of New York on November 1 in each year, provided, however, that the first payment shall be only that proportion of \$1,320 as the time between the approval of this consent and November 1 following, shall bear to the whole of one year.

Third—Upon the revocation or termination by limitation of this consent, the said company shall forthwith remove the plant and property, with its appurtenances, from the street, and the surface of the street shall be restored to a condition equal to that of the surrounding surface or pavement. In default of the performance of this condition by the said company, its successor or assigns, the proper local authorities may cause such tracks, property and plant to be removed from the street aforesaid, and the surface thereof to be restored in the manner above described, at the expense of the said company, its successor or assigns, and such expense shall be recovered by The City of New York by action or otherwise.

Fourth—The consent hereby given shall not be assigned either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the acts of the Harlem Transfer Company, its successor or assigns, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of The City of New York, acting by the Board of Estimate and Apportionment, or its successor in authority, evidenced by an instrument under seal, anything herein contained to the contrary thereof in any wise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Fifth—The said railroad tracks may be used and operated by locomotive steam power or by any other motive power which may be approved by the Board of Railroad Commissioners in accordance with the provisions of the Railroad Law, excepting overhead electrical power; provided, however, that the locomotive steam engines used shall be housed or boxed so as to conform to the type commonly known as the dummy engine.

The number of cars to be included in any train operated upon the railroad tracks shall be limited to ten, and the speed of the engine and cars shall never exceed six miles per hour.

Sixth—The railroad tracks constructed under this consent shall be maintained and operated solely for the purpose of the transportation of goods, wares and merchandise and for no other purpose, and especially for no purpose in connection with the passenger traffic as commonly understood.

Seventh—Such railroad tracks shall be constructed, maintained and operated in the latest improved manner of street railroad construction and operation, and solely upon the terms and according to the lines and surveys and of the character of the rails and other parts of the construction approved by the President of the Borough of The Bronx. Such railroad tracks of the said company, its successor or assigns, shall be maintained in good and safe condition throughout the terms of this consent.

Eighth—Such railroad tracks shall be constructed, maintained and operated subject to the supervision and control of all the authorities of The City of New York who have jurisdiction in such matters under the Charter of The City of New York.

Ninth—The Harlem Transfer Company, its successor or assigns, shall at the time of the laying of the tracks hereby authorized to be laid, pave with granite blocks or other material, as required by the proper City authorities, upon a good and sufficient foundation, a roadway of a width of twenty-four (24) feet in the centre of Railroad avenue, East, extending from the bulkhead platform to the southerly side of East One Hundred and Thirty-fifth street under the supervision of the President of the Borough of The Bronx, and shall pay the cost thereof.

Tenth—The said company, its successor or assigns, shall keep in permanent repair the pavement of the roadway required to be laid by it, under the supervision of the proper local authorities, and whenever required by them to do so, and in such manner as they may prescribe.

Eleventh—The said company, its successor or assigns, shall at all times keep the street between the tracks free and clear from ice and snow.

Twelfth—Said company shall be liable for all damages to persons or property and to the street and the sewer therein by reason of the construction or operation of said railroad tracks, and it is a condition of this consent that The City of New York assumes no liability to either persons or property on account of this consent.

Thirteenth—This consent is upon the further and express condition that the provisions of the Railroad Law applicable thereto, and all laws or ordinances now in force or which may be adopted relating to surface railroads operating in The City of New York shall be strictly complied with.

AN ORDINANCE in relation to certain vehicles operated by electricity or steam in the City of New York and the better protection of passengers riding therein.

Be it Ordained, by the Board of Aldermen of The City of New York, as follows:

Section 1. Each owner, lessee, driver or operator of a public cab, coach, hansom, coupe, brougham, automobile locomobile or vehicle operated by electricity or steam, with the exception of railroad trains and surface cars, used for the purpose of carrying passengers, except stages and omnibuses operated on highways or in parks and capable of carrying six or more passengers, shall attach, install and use in said vehicles so owned, leased or driven, a machine, device, register or taximeter in such a manner as can be readily seen by the passenger or occupant therein, showing in numerical figures the fare of the passenger during, and at the termination of the distance ridden by the said passenger the number of miles covered by said vehicle, the number of trips counting from the destination of each route for which the cab or vehicle may have been employed or engaged by the said passenger, the fare for the time waited during such employment or engagement, the amount of money in total earned by said driver, lessee, or operator of said vehicle or conveyance above mentioned.

Sec. 2. A public cab, hansom, coupe, brougham, automobile, locomobile or other public vehicle or conveyance is herein defined to be a vehicle or conveyance used for public hire, standing at any street curb or any public place, or in front of any hotel, railroad station, ferry or public building, and owned, leased or operated by any person or persons, corporations or firms for the accommodation of the public and for passenger service. Nothing herein contained shall prevent a private call or engagement made at any stable for the hire or use of any vehicle mentioned above for funeral or private purposes only.

Sec. 3. Nothing herein contained shall in any way affect or change ordinances heretofore existing in reference to cab service so far as the rate per mile and the rate per hour are concerned, nor shall anything in this act be construed as abridging the rights of The City of New York over the cab owners or lessees of vehicles herein described not inconsistent herewith.

Sec. 4. Any owner, lessee, driver or operator of any vehicle or conveyance mentioned herein who refuses or neglects to attach such a machine as herein specified, in any vehicle of conveyance described, shall forfeit any license granted to him to operate such a vehicle or public conveyance, and no new license shall be issued to him for at least one year from the time of such forfeiture as herein provided.

No. 822.

By Alderman Marks (by request)—

An Ordinance to regulate the construction of fences, signs, billboards and sky signs within the building line, being an amendment to Part XXVIII., section 144, of the Building Code.

New matter is underscored thus ———; old matter to be omitted is bracketted thus ( ).

Be it Ordained by the Board of Aldermen of The City of New York, as follows:

Section 1. Part XXVIII., section 144, of the Building Code is hereby amended to read as follows:

The provisions, in this section contained, shall apply to buildings and structures, whether temporary or permanent, within the fire limits, as the said fire limits now are or may hereafter be established.

Temporary one-story frame building may be erected for the uses of builders, within the limits of lots whereon buildings are in course of erection, or on adjoining vacant lots, upon permits issued by the Commissioner of Buildings having jurisdiction.

Temporary structures shall be taken to mean and include platforms, stands, election booths, temporary buildings and circus tents.

Sheds of wood not over fifteen feet high, open on or at least one side, with the sides and roof thereof covered with fireproof material, may also be built, but a fence shall not be used as the back or side thereof.

Such sheds shall not cover an area exceeding 2,500 square feet, except by permission of the Board of Buildings.

Fences, signs or billboards shall not be at any point over ten feet above the adjoining ground; except that when any fence, sign or billboard shall be constructed entirely of metal or of wood covered on all sides with sheet metal, including the uprights, supports and braces for same, it shall not be at any point over fifteen feet (eighteen feet six inches) above the adjoining ground.

Any letter, word, model, sign, device or representation in the nature of an advertisement, announcement or direction, supported or attached, wholly or in part, over or above any wall, building or structure, shall be deemed to be a "sky sign."

Sky signs shall be constructed entirely of metal, including the uprights, supports and braces for same, and shall not be at any point over four (nine) feet above the front wall or cornice of the building or structure to which they are attached or by which they are supported.

All fences, signs, bill boards and sky signs shall be erected entirely within the building line, and be properly secured, supported and braced, and shall be so constructed as not to be, or become, dangerous.

Before the erection of any fence, sign, bill board or sky sign shall have been commenced a permit for the erection of the same shall be obtained from the Superintendent of Buildings having jurisdiction, as provided in Part II, section 4 of this Code. Each application for the erection of any fence, sign, bill board or sky sign shall be accompanied by the written consent of the owner or owners, or the lessee or lessees of the property upon which it is to be erected.

Piazas or balconies of wood on buildings other than frame buildings which do not exceed eight feet in width and which do not extend more than three feet above the second-story floor beams, may be erected, provided a permit from the Commissioner of Buildings having jurisdiction be granted therefor.

In connected houses such piazas or balconies may be built, provided the same are open on the front and have brick ends not less than eight inches thick, carried up above the roof of such piazza or balcony and coped with stone.

The roofs of all piazas shall be covered with some fireproof material.

Frame buildings already erected may have placed on any story piazas, balconies or bay windows of wood, the roofs of which may be covered with the same material as the roof of the main building.

Exterior privies, and wood or coal-houses, not exceeding one hundred and fifty square feet in superficial area and eight feet high, may be built of wood, but the roofs thereof must be covered with metal, gravel or slate.

Sec. 2. All ordinances or parts of ordinances inconsistent or conflicting with the provisions of this ordinance are hereby repealed.

Sec. 3. This ordinance shall take effect immediately.

Laid over without action.

The Commission then adjourned.

FRANZ S. WOLF, Secretary.

### MUNICIPAL EXPLOSIVES COMMISSION.

Headquarters of the New York City Fire Department.

Stated meeting held at the Headquarters of the New York City Fire Department, Thursday, May 19, 1904.

Present—Commissioners Montgomery, Sherry and Piser.

On motion, duly made and seconded, Commissioner Montgomery was elected Chairman pro tem.

Motion by Commissioner Piser, seconded by Commissioner Sherry.

Resolved, That the next meeting be held Wednesday, May 25, 1904, and that the stated meeting for Thursday be dispensed with.

Carried unanimously.

On motion of Commissioner Sherry, seconded by Commissioner Piser, the vote of the stated meeting held May 12, 1904, was reconsidered, and the resolution adding a new section, to be known as section 31a, to part 5 of the Regulations, was taken up.

On motion of Commissioner Sherry, seconded by Commissioner Piser, the resolution was amended and adopted to read as follows:

Resolved, That a new section to be known as section 31a be added to part 5 of the Municipal Explosives Commission's Regulations, requiring a weekly report from certain licensees, and to read as follows:

Section 31a. Every licensed manufacturer and wholesale dealer in fireworks, in signals, in paper caps or in torpedoes, whose place of business is located without the City, shall render to the Fire Commissioner each week a statement verified as to its correctness by an affidavit covering sales and deliveries of fireworks, signals, paper caps and torpedoes for the preceding week within the City.

Every manufacturer of caps and torpedoes within the City shall render to the Fire Commissioner each week a statement verified as to its correctness by an affidavit covering sales and deliveries of paper caps and torpedoes for the preceding week within the City.

Such reports shall be in detail as follows:

(a) Date of delivery.

(b) Name of buyer.

(c) Where delivered.

(d) Quantity and kind of goods delivered.

Resolution carried.

Commissioners Montgomery, Sherry and Piser voting in favor thereof.

Commissioner McKenna absent.

On motion of Commissioner Piser, seconded by Commissioner Sherry, the vote at the special meeting held April 22 was reconsidered and the resolution amending section 49, part 5 of the Regulations was taken up. On motion of Commissioner Piser, seconded by Commissioner Sherry, the resolution was amended and adopted to read as follows:

Resolved, That section 49, part 5 of the Municipal Explosives Commission's Regulations be amended to read as follows:

Section 49. A special permit may be granted for the keeping of paper caps and toy torpedoes, for sale at retail only, upon payment of a fee of two dollars.

Resolution carried.

Commissioners Montgomery, Sherry and Piser voting in favor thereof.

Commissioner McKenna absent.

On motion of Commissioner Sherry, seconded by Commissioner Piser, it was:

Resolved, That section 69, part 2, of the Municipal Explosives Commission's Regulations be amended and altered so as to read as follows:

Section 69. Retail dealers may be licensed to carry a stock of black powder and of smokeless powder in such quantities of each, or of both, as the Fire Commissioner may deem fit, but in no case may said license permit the carrying of more than 14 pounds of black powder and more than 100 pounds of smokeless powder.

All powder shall be kept outside the walls of the building, in a manner and in a place approved by the Fire Commissioner, or:

In a light metal receptacle, properly locked (and on wheels, if weighing more than 75 pounds when filled with its full complement of powder), plainly marked Powder, and located not more than ten feet from and in a clearway from the entrance from the street; or:

In a receptacle which can be flooded from the street.

All receptacles or places where powder is kept shall at all times be kept securely locked except when actually necessary to obtain access to its contents. On the front of each of such establishments, not more than seven feet above the sidewalk, shall be displayed a sign not less than 18 inches long and 10 inches high, to be approved by the Fire Commissioner, worded, "Licensed to Sell Gunpowder."

Resolution carried.

Commissioners Montgomery, Sherry and Piser voting in favor thereof.

Commissioner McKenna absent.

The Secretary was instructed to forward the resolution passed May 12, 1904, amending section 17, part 5, of the Regulations to the Chairman of the Board for signature as originally passed.

Meeting then adjourned.

FRANZ S. WOLF, Secretary.

## BOROUGH OF MANHATTAN

## LOCAL BOARD—WASHINGTON HEIGHTS DISTRICT.

At a meeting of the Board of Local Improvements of the Washington Heights District, held May 3, 1904, the following members were present:

Aldermen Meyers, Davies, Grifenhagen, and President Ahearn.

The minutes of the previous meeting were approved.

The President presented for the Board's consideration the matter of laying out West One Hundred and Sixty-first street, between the Boulevard Lafayette and "Hudson River Railroad lands."

The Engineer of Street Openings reported in favor of this project.

Mr. J. C. Butterly, representing petitioners and owners of all the abutting land, appeared before the Board and urged the passage of a suitable resolution providing for this improvement.

On motion, subject was laid over for one week and referred to Alderman Grifenhagen for investigation and report.

The President presented for the Board's consideration, petition for the opening of West One Hundred and Twenty-eighth street, from Amsterdam avenue to Broadway.

Mr. Schieffelin presented letters from Bishop Greer and Bishop Potter, advocating the proposed opening, which were ordered on file.

Hon. Colin H. Woodward appeared before the Board and stated that in his opinion this subject should be carefully considered.

Rev. X. H. R. Hulse appeared before the Board and stated his views in favor of the proposition.

Alderman Meyers suggested to the petitioners that they obtain the names of property-owners to be affected by this improvement to their petition.

Rev. Dr. Hulse stated that the petitioners had the support of the Sheltering Arms in favor of their proposition.

On motion the subject was referred to Alderman Grifenhagen for investigation and report.

The President presented the matter of laying out for use as public park all the land within the following-described boundaries: Broadway (Kingsbridge road), West Two Hundred and Eighteenth street and the Harlem River Ship Canal.

Mr. R. P. Bolton appeared before the Board and stated his objections to this proposition, and presented new petition providing for the laying out of parks at the upper end of Manhattan Island.

On motion, subject was laid over for two weeks.

The President presented for the Board's consideration, petition for the acquiring of title as an extension to Highbridge Park, the triangular strip of land lying between Highbridge Park and the new avenue, east of Amsterdam avenue, about 49 feet wide, and extending northward to a point 343 feet, where the park intersects the new avenue. Estimated cost, \$2,000.

The Engineer of Street Openings recommends the acquisition of this land.

Mr. Joseph Flannery appeared before the Board in favor of the petition.

On motion the following resolution was introduced and adopted:

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Manhattan; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused the notice to be published in the CITY RECORD that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same and give a full hearing thereon; now therefore it is

Resolved, by the Local Board of the Washington Heights District, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, That the said petition be and the same hereby is granted; and it is hereby

Resolved That this Board does hereby initiate proceedings for the said local improvement, to wit:

To acquire title to an extension of Highbridge Park, within the following described boundaries: Beginning at a point in the easterly line of the new avenue east of Amsterdam avenue, distant 150.06 feet northerly from the northerly line of the land of the Washington Bridge, opposite West One Hundred and Eighty-first street; thence northerly along said easterly line, distance 280.42 feet; thence in a curve line deflecting to the left, radius 396.60 feet, distance 62.42 feet; thence southerly along the westerly line of Highbridge Park, as now laid out, distance 349.11 feet; thence westerly and along the northerly line of the Highbridge Park, and parallel to and distant 150 feet northerly from the land of the Washington Bridge, distance 49.86 feet, to the point or place of beginning; and it is hereby further.

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

The President presented for the Board's consideration, matter of changing the grade of West One Hundred and Fifty-first street, so as to give an approach to the extension of Riverside drive.

A new petition presented, not having been filed in time to be considered at to-day's meeting, this subject was ordered laid over for one week.

Mr. Joseph Flannery called to the Board's attention the necessity of recommending the construction of a sewer in West One Hundred and Thirty-sixth street, between Broadway and Riverside drive.

Mr. Joseph O. B. Webster, the Engineer of Street Openings, stated that he was informed by the Bureau of Street Openings that there were objections to the Board proceeding to the passage of a resolution providing for the construction of a sewer in this street.

On motion, the subject was laid over and the Engineer requested to furnish the Board with a report on the matter.

The President presented for the Board's consideration, matter of constructing a sewer in West One Hundred and Thirty-fifth street, north and south sides, between Riverside drive and Broadway.

Mr. Joseph O. Flannery appeared in favor of this petition.

On motion, the following resolution was introduced and adopted:

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Manhattan; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused the notice to be published in the CITY RECORD that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same and give a full hearing thereon; now therefore it is

Resolved, by the Local Board of the Washington Heights District, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, That the said petition be and the same hereby is granted; and it is hereby

Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

To construct sewers in One Hundred and Thirty-fifth street, north and south sides, between Riverside drive and Broadway; and it is hereby further

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

On motion, the Board adjourned.

BERNARD DOWNING, Secretary.

## LOCAL BOARD—WASHINGTON HEIGHTS DISTRICT.

Aldermen Davies, Grifenhagen, Meyers and Acting President Dalton.

The minutes of the previous meeting were approved.

The Acting President presented for the Board's consideration matter of change of grade of West One Hundred and Fifty-first street, between Broadway and Riverside Drive Extension.

Mr. Seth P. Robinson, representing Jessie Gillender, owner of the water-front between West One Hundred and Fifty-first and West One Hundred and Fifty-second streets, appeared in opposition to any change of grade on West One Hundred and Fifty-first street, which would prevent the use of their water-front.

Mr. J. Romaine Brown stated that various property owners were in favor of this change.

Mr. Edgerton L. Winthrop, Jr., representing the Field estate, appeared before the Board and objected to the frontage of their property on Riverside Drive being taken.

On motion, subject was referred to Alderman Grifenhagen for investigation and report.

The Acting President presented for the Board's consideration the matter of paving Audubon avenue, from West One Hundred and Seventy-fifth street to Ft. George avenue, with asphalt blocks, and curbing and recurbng same. Estimated cost, \$74,310. Assessed value of the property affected, \$2,582,000.

A communication from the Commissioner of Public Works, to the effect that a sewer had been constructed in the avenue, but that water or gas mains had not been laid, was submitted.

On motion, the following resolution was introduced and adopted:

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Manhattan; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the CITY RECORD that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same and give a full hearing thereon; now therefore it is

Resolved, by the Local Board of the Washington Heights District, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, that the said petition be and the same hereby is granted; and it is hereby

Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

To pave Audubon avenue, from One Hundred and Seventy-fifth street to Fort George avenue, with asphalt blocks, and curb and reset curb on same.

And it is hereby further

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

The Acting President presented for the Board's consideration the matter of flagging and reflagging, curbing and recurbing sidewalks on the west side of St. Nicholas avenue, between One Hundred and Twenty-second and One Hundred and Twenty-third streets. Estimated cost, \$651. Assessed value of the property affected, \$50,000.

On motion, suitable resolution providing for this improvement was introduced and adopted.

Alderman Grifenhagen offered the following resolutions which were adopted:

Resolved, That the Board of Local Improvements of the Washington Heights District recommends to the Commissioner of Water Supply, Gas and Electricity, that water-mains be laid in West One Hundred and Eighty-ninth street, from Amsterdam avenue to St. Nicholas avenue.

Resolved, That the Board of Local Improvements of the Washington Heights District recommends to the Commissioner of Water Supply, Gas and Electricity, that water-mains be laid in West One Hundred and Eighty-eighth street, between Audubon avenue and Amsterdam avenue.

The Acting President presented for the Board's consideration the matter of opening West One Hundred and Twenty-eighth street, from Amsterdam avenue to Broadway.

On motion of Alderman Davies, subject was laid over for two weeks.

The Acting President presented for the Board's consideration the matter of widening Boulevard Lafayette and "laying out tributary streets to the said widening, between West One Hundred and Fifty-eighth street and West One Hundred and Sixty-fifth street."

Mr. J. C. Buttery appeared before the Board in support of this project.

The Acting President presented for the Board's consideration the matter of acquiring title for park purposes to strip of land on the east side of Boulevard Lafayette, about 161 feet south of the northerly turn the Boulevard takes to connect with Broadway, on the westerly side of Fort Washington avenue, and on the southerly end of the new street to be called Durando's lane.

On motion, the following resolution was introduced and adopted:

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Manhattan; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused the notice to be published in the CITY RECORD that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same and give a full hearing thereon; now therefore it is

Resolved, by the Local Board of the Washington Heights District, That the said petition be and the same hereby is granted; and it is hereby

Resolved, That this Board does hereby recommend to the Board of Estimate and Apportionment

That the map or plan of The City of New York be changed by laying out on same for use as a public park the land bounded by Fort Washington avenue, Durando's lane and a line 1,288.82 and 662.37 feet northerly therefrom, containing in area 1.95 acres, in the Twelfth Ward, Borough of Manhattan, City of New York; and it is hereby further

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

The Acting President presented for the Board's consideration the matter of sewer on the westerly side of St. Nicholas avenue, between One Hundred and Eighty-third and One Hundred and Eighty-fourth streets.

Mr. F. E. Wise appeared before the Board as being in favor of this proposition.

On motion, the following resolution was introduced and adopted:

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Manhattan; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused the notice to be published in the CITY RECORD that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same and give a full hearing thereon; now therefore it is

Resolved, by the Local Board of the Washington Heights District, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, That the said petition be and the same hereby is granted; and it is hereby

Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

To construct sewer in St. Nicholas avenue, west side, between One Hundred and Eighty-third and One Hundred and Eighty-fourth streets; and it is hereby further

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

The Acting President presented for the Board's consideration the matter of laying out parks at Inwood; one to be partially bounded by Emerson street, Bolton road and Spuyten Duyvil creek, and the other from Cold Spring to the mouth of the Spuyten Duyvil and down the Hudson.

The following gentlemen were heard in favor of the petition:

Mr. Alexander Chenoweth, Mr. Bolton, Colonel Henry W. Sackett, Edward Hegeman Hall, Mr. Dos Passos.

On motion, subject was laid on the table.

The acting President presented for the Board's consideration the matter of laying out for use as a public park land bounded by Broadway, West Two Hundred and Eighteenth street and the Harlem ship canal.

The following gentlemen were heard in opposition to this proposed change in the map of the City:

Mr. Bolton, representing the Washington Heights Taxpayers' Association.

Mr. Fred V. Mayforth, representing Mr. Charles Weisbecker.

Colonel Henry W. Sackett.

Mr. Richard Barter, representing a number of property-owners.

On motion the following resolution was introduced and adopted:

Resolved, That the petition for the laying out for use as a public park the land bounded by Broadway, West Two Hundred and Eighteenth street and the Harlem ship canal be denied.

Ayes—Alderman Grifenhagen, Alderman Davies, Acting President Dalton.

Alderman Meyers excused from voting.

On motion, the Board adjourned.

BERNARD DOWNING, Secretary.

**THE COMPTROLLER OF THE CITY OF** New York, pursuant to a resolution of the Commissioners of the Sinking Fund, adopted at a meeting held June 17, 1904, and under the provisions of section 1553 of the Charter, will sell at public auction on

**TUESDAY, JULY 19, 1904.**

at 12 o'clock M., on the premises located on the east side of Guernsey street, about 160 feet north of Driggs avenue, and extending through to the west side of Lorimer street, in the Borough of Brooklyn, all the buildings located on the premises formerly the property of the American Rattan and Reed Manufacturing Company, together with all

the machinery and other fixtures contained therein. The sale of the said property to be made on the following terms and conditions of sale:

The highest bidders, respectively, will be required to pay the full amount of his bid or purchase money and the auctioneer's fee at the time of sale.

The purchaser of the buildings on the said premises will be required to agree to permit the said buildings to remain intact for a period of at least twenty days from and after the date of sale, for the purpose of allowing sufficient time for the purchaser of the machinery to take down and remove the same. All building material, however, must be taken down and removed within sixty days from the date of sale.

The purchaser of the machinery, etc., will be required to take down and remove the same from the said buildings as soon after the sale as possible, but such period shall not exceed in any event twenty days.

The Comptroller may, at his option, resell the property if the successful bidder shall fail to comply with the terms of sale, and the person failing to comply therewith will be held liable for any deficiency which may result from any such resale.

The right to reject any bid is reserved. Any further information in reference to the buildings and property to be sold may be obtained on application at the Comptroller's office, No. 280 Broadway, Borough of Manhattan.

By order of the Commissioners of the Sinking Fund, under a resolution adopted at a meeting of the Board held June 17, 1904.

EDWARD M. GROUT,

Comptroller.

CITY OF NEW YORK, DEPARTMENT OF FINANCE,

COMPTROLLER'S OFFICE, June 21, 1904.

**DEPARTMENT OF DOCKS AND FERRIES.**

PETER F. MEYER, AUCTIONEER, WILL sell, at public auction, on behalf of the Department of Docks and Ferries, on

THURSDAY, JUNE 30, 1904,

commencing at 10 o'clock, A. M., on the premises with Lot No. 1, on the block between West Thirtieth and West Fourteenth streets, and westerly from Tenth avenue, in the Borough of Manhattan, the following lots of materials composed in the buildings, hereinafter described:

Lot No. 1. A 3-story brick building on the north-west corner of Tenth avenue and Thirtieth street, with a frontage of about 86 feet on West Thirtieth street and a frontage of about 28 feet on Tenth avenue.

Also a one-story frame extension in rear of same and with a frontage of about 12 feet on West Thirtieth street.

1-story frame structure, situate on Tenth avenue the southerly side of which is about 56 feet northerly from the northerly side of West Thirtieth street. The building has a frontage of about 10 feet on Tenth avenue, and a depth of about 17 feet.

Also a frame shed to the south of and immediately adjoining the buildings described above, with a frontage of about 28 feet on Tenth avenue, and a depth at right angles of about 32 feet.

Also an open frame shed in the rear of the above-described structures, the southerly side of which is distant northerly about 63 feet from the northerly side of West Thirtieth street, and the easterly side of which is distant about 86 feet from the westerly side of Tenth avenue. Its dimensions are approximately 13 feet by 40 feet.

Lot No. 2. A 3½-story brick building, situate on southerly side of West Nineteenth street and distant about 526 feet westerly from the westerly side of Tenth avenue, known as No. 540 and No. 542 West Nineteenth street, with a frontage of 50 feet on West Nineteenth street and a depth of about 52 feet.

Also a 4-story brick building in rear of and immediately adjoining the same, whose dimensions are approximately 40 feet by 94 feet.

Lot No. 3. A 2-story brick building situate on northerly side of West Eighteenth street and distant about 624 feet westerly from westerly side of Tenth avenue, having a frontage of about 25 feet on West Eighteenth street, and a depth of about 20 feet.

Also the 2-story brick building in rear of and immediately adjoining the same, whose dimensions are approximately 25 feet by 65 feet.

**TERMS AND CONDITIONS OF SALE.**

The sale will commence at 10 o'clock, A. M. Each of the above lots will be sold separately and for a sum in gross.

The purchaser of the property will immediately take the necessary steps to protect his property, so that no claim or demand may hereafter be made that any of the items have been removed from the premises by others after he has purchased them.

The estimated dimensions given for the several lots are believed to be correct; but the Commissioner will not make any allowance from the purchase money for variations in any lot, and bidders must judge for themselves as to the correctness of the estimate when making their bids.

The purchase money must be paid in funds current, to Peter F. Meyer, Auctioneer, at the time and place of sale.

All the materials of every class and description composing the buildings and their foundations with the hereinbefore described area are to be torn down to the level of the existing curb, and entirely removed from the premises.

The removal of said materials composing the buildings and their foundations must be begun by the purchaser within three days from the date of the receipt of a notification from the Engineer-in-Chief to begin work, and all the material of every class and description composing the buildings and their foundations is to be torn down to the level of the existing curb and entirely removed from the premises within ten days after the receipt of the said notice to begin work. If the purchaser fails to commence the said removal as specified, and to diligently prosecute the same with a sufficient force, and to complete the same within the time specified, the money paid on the day of sale will be forfeited, and all claim of ownership in said materials is waived by the purchaser.

Then the Commissioner of Docks may, at his option, complete the said removal and charge the expense of the same to the said purchaser, who shall sign the present terms of sale and agree to be bound thereby.

The work of removing the materials composing the various buildings herein enumerated shall be carried on in such manner and at such times as may be directed by the Engineer-in-Chief of the Department of Docks and Ferries. The work of removal may be suspended and shall not be resumed until written notice is given by said Engineer-in-Chief so to do. The time elapsed during such suspension shall not be counted against the purchaser, but a like number of days will be given him which may have elapsed during such suspension.

All machinery and other personal property is to be removed from the buildings on or before June 30, 1904, and in case of failure so to do, such machinery and personal property will be removed by this Department and stored at the expense and risk of the owner. No machinery or personal property of any description contained in said buildings will be sold.

And for the further securing of the removal of the said materials, etc., hereinafter mentioned, the purchaser will be required at the time of sale and the award of said property to him, to execute a bond in such form and with such sureties as may be approved by the Commissioner of Docks of the City of New York, and in a penalty of One Thousand Dollars (\$1,000), that he will in all things carry out the terms of sale and comply with the conditions thereof, and remove all of said property within the time required by the said terms of sale.

The form of bond to be executed by the purchaser may be seen at the office of the said Department at Pier "A," Battery place, New York.

Dated, THE CITY OF NEW YORK, JUNE 2, 1904.

MAURICE FEATHERSON,

Commissioner of Docks.

### SECOND DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title to the lands and premises required for the opening and extending of a NEW STREET (although not yet named by proper authority), between Bayview avenue and Eldert avenue, from the Boulevard to the southerly property line of the New York and Rockaway Beach Railway, in the Fifth Ward, Borough of Queens, in The City of New York.

WE, THE UNDERSIGNED, COMMISSIONERS of Estimate and Assessment in the above entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners occupant or occupants, of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—that we have completed our estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections in writing, duly verified, to us at our office, No. 21 Jackson avenue, in the Borough of Queens, in The City of New York, on or before the 21st day of July, 1904, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 22d day of July, 1904, at 2 o'clock P. M.

Second—that the abstract of our said estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making our report, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, No. 21 Jackson avenue, in the Borough of Queens, in said city, there to remain until the 30th day of July, 1904.

Third—that the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Queens, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at the point of intersection of a line parallel to and 100 feet southerly from the southerly line of the Boulevard with the easterly line of Holland avenue; running thence northerly along the easterly line of Holland avenue to its intersection with the southerly shore of Jamaica Bay; thence easterly along the southerly shore of Jamaica Bay and a line parallel to and 100 feet northerly from the southerly line of the right of way of the New York and Rockaway Railway to its intersection with the westerly line of Grove avenue; thence southerly along the westerly line of Grove avenue to its intersection with a line parallel to and 100 feet southerly from the southerly line of the Boulevard; thence westerly along said parallel line to the point or place of beginning, excepting from said area all streets, avenues and roads or portions thereof heretofore legally opened, as such area is shown upon our benefit maps deposited aforesaid.

Fourth—that our report herein will be presented for confirmation to the Supreme Court of the State of New York, Second Department, at a Special Term thereof for the hearing of motions, to be held in the County Court-house, in the Borough of Brooklyn, in The City of New York, on the 20th day of October, 1904, at the opening of the Court on that day.

Dated Borough of Manhattan, New York City, June 15, 1904.

In the matter of the application of the Mayor, Aldermen and Commonalty of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the purpose of opening SUMMIT AVENUE (although not yet named by proper authority), from East One Hundred and Sixty-sixth street, as the same has been heretofore laid out and designated as a first-class street or road, in the Twenty-third Ward of The City of New York.

WE, THE UNDERSIGNED, COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants, of

all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our supplemental and amended estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby and having objections thereto, do present their said objections in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 6th day of July, 1904, and that we the said Commissioners will hear parties so objecting, and for that purpose will be in attendance at our said office on the 8th day of July, 1904, at 2 o'clock P. M.

Second—That the abstract of our said supplemental and amended estimate and assessment, together with our damage and benefit maps, and also the affidavits, estimates, proofs and other documents used by us in making our report, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 15th day of July, 1904.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of The Bronx, in The City of New York, which, taken together, are bounded and described as follows, viz:

Beginning at the corner formed by the intersection of the easterly side of Lind avenue with the southerly side of Union place; thence easterly along the southerly side of Union place to the westerly side of Ogden avenue; thence southerly along the westerly side of Ogden avenue to its intersection with the northwesterly side of Jerome avenue; thence southwesterly along the northwesterly side of Jerome avenue to its intersection with the northeasterly side of Sedgwick avenue; thence northwesterly and northerly along the northeasterly side of Sedgwick avenue to its intersection with the easterly side of Lind avenue; thence northerly along the easterly side of Lind avenue to the point or place of beginning, excepting from said area all streets, avenues and roads, or portions thereof, heretofore legally opened as such area is shown upon our benefit map deposited as aforesaid.

Fourth—That our supplemental and amended report herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III, to be held in the County Court-house, in the Borough of Manhattan, in The City of New York, on the 14th day of October, 1904, at the opening of the Court on that day.

NOTICE IS HEREBY GIVEN THAT WE, THE undersigned, were appointed by an order of the Supreme Court, bearing date the 7th day of May, 1904, and duly entered in the office of the Clerk of the County of New York, at his office, in the Borough of Manhattan, in The City of New York, on the 6th day of May, 1904, a copy of which order was duly filed in the office of the Register of the County of New York, and indexed in the Index of Conveyances, Block Nos. 2000 and 2005. Commissioners of Estimate and Assessment for the purpose of making a just and equitable estimate and assessment of the loss and damage, if any, or of the benefit and advantage, if any, as the case may be, to the respective owners, lessees, parties and persons respectively entitled unto or interested in the lands, tenements, hereditaments and premises required for the purpose by and in conse-

quence of opening the above-mentioned street or avenue, the same being particularly set forth and described in the petition of The City of New York, and also in the notice of the application for the said order thereto attached, filed herein in the office of the Clerk of the County of New York on the 6th day of May, 1904; and a just and equitable estimate and assessment of the value of the benefit and advantage of said street or avenue so to be opened or laid out and formed, to the respective owners, lessees, parties and persons respectively entitled unto or interested in the said respective lands, tenements, hereditaments and premises not required for the purpose of opening, laying out and forming the same, but benefited thereby, and of ascertaining the extent and boundaries of the respective tracts or parcels of land to be taken or to be assessed therefor, and of performing the trusts and duties required of us by chapter 17, title 4 of the Greater New York Charter, as amended, and the acts or parts of acts supplementary thereto or amendatory thereof.

All parties and persons interested in the real estate taken or to be taken for the purpose of opening the said street or avenue, or affected thereby, and having any claim or demand on account thereof, are hereby required to present the same, duly verified, to us, the undersigned Commissioners of Estimate and Assessment, at our office, fourteenth floor, Nos. 90 and 92 West Broadway, Borough of Manhattan, in The City of New York, with such affidavits or other proofs as the said owners or claimants may desire, within twenty days after the date of this notice.

And we, the said Commissioners, will be in attendance at our said office on the 14th day of July, 1904, at 12 o'clock noon of that day, to hear the said parties and persons in relation thereto. And at such time and place, and at such further or other time and place as we may appoint, we will hear such owners in relation thereto and examine the proofs of such claimant or claimants, or such additional proofs and allegations as may then be offered by such owner, or on behalf of The City of New York.

#### FIRST DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title in fee, wherever the same has not been heretofore acquired, to the land deemed necessary for the construction of a BRIDGE OVER THE BRONX RIVER AT WEST-CHESTER AVENUE, in The City of New York, authorized by chapter 617 of the Laws of 1896.

NOTICE IS HEREBY GIVEN THAT WE, the undersigned, were appointed by an order of the Supreme Court, bearing date the 15th day of September, 1896, and duly entered in the office of the Clerk of the County of New York, at his office, in the Borough of Manhattan, in The City of New York, on the 6th day of May, 1899, a copy of which order was duly filed in the office of the Register of the County of New York, and indexed in the Index of Conveyances, Section 10, Block No. 2759, and Section 17, Block No. 3017. Commissioners of Estimate and Assessment for the purpose of making a just and equitable estimate and assessment of the loss and damage, if any, or of the benefit and advantage, if any, as the case may be, to the respective owners, lessees, parties and persons respectively entitled unto or interested in the lands, tenements, hereditaments and premises required for the purpose by and in consequence of acquiring title in fee wherever the same has not been heretofore acquired to the land deemed necessary for the construction of a bridge over the Bronx River at Westchester avenue in The City of New York, authorized by chapter 617 of the Laws of 1896, the same being particularly set forth and described in the petition of The City of New York, and also in the notice of the application for the said order thereto attached, filed herein in the office of the Clerk of the County of New York on the 6th day of May, 1899, and defining the extent and boundaries of the respective tracts or parcels of land to be taken therefor, and to perform the trusts and duties required of us by chapter 617 of the Laws of 1896, and by chapter 1, title 1 of the Greater New York Charter, as amended, and the acts or parts of acts supplementary thereto or amendatory thereof in so far as they may be applicable.

Further notice is hereby given that, by an order of the Supreme Court, duly filed in the office of the Clerk of the County of New York on the 23rd day of May, 1904, a copy of which order was filed in the office of the Register of the County of New York on the 16th day of May, 1904, the above-entitled proceeding is duly and regularly amended and corrected by including therein a certain piece or parcel of land, with the buildings thereon and the appurtenances thereto belonging, the same being more particularly bounded and described in the petition attached to said order.

All parties and persons interested in the real estate affected by this order and having any claim or demand on account thereof, are hereby required to present the same, duly verified, to us, the undersigned, Commissioners of Estimate and Assessment, at our office, Nos. 90 and 92 West Broadway, Borough of Manhattan, in The City of New York, with such affidavits or other proofs as the said owners or claimants may desire, within twenty days after the date of this notice.

And we, the said Commissioners, will be in attendance at our said office on the 6th day of July, 1904, at 11 o'clock in the forenoon of that day, to hear the said parties and persons in relation thereto. And at such time and place, and at such further or other time and place as we may appoint, we will hear such owners in relation thereto and examine the proofs of such claimant or claimants, or such additional proofs and allegations as may then be offered by such owner, or on behalf of The City of New York.

## FIRST DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the purpose of opening and extending of EAST ONE HUNDRED AND THIRTY-SIXTH STREET (although not yet named by proper authority), from Locust avenue to the East river, in the Twenty-third Ward of the Borough of The Bronx, City of New York.

**WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants, of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:**

First—That we have completed our estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 7th day of July, 1904, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 11th day of July, 1904, at 2 o'clock P. M.

Second—That the abstract of our said estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making our report, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 13th day of July, 1904.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of

The Bronx, in The City of New York, which, taken together, are bounded and described as follows, viz:

Beginning at a point formed by the intersection of the middle line of the blocks between East One Hundred and Fortieth street and East One Hundred and Forty-first street with the United States bulkhead-line of the East river, running thence westerly along the United States East river bulkhead-line to its intersection with a line parallel to and distant 100 feet west of the westerly line of East One Hundred and Thirty-second street; thence northwesterly along said parallel line to its intersection with a line parallel to and distant 100 feet north of the northwesterly line of Cypress avenue; thence easterly along said last-mentioned line to its intersection with the middle line of the block between East One Hundred and Fortieth street and East One Hundred and Forty-first street; thence southerly along said middle line of the block to the point or place of beginning, as such streets are shown upon the final maps and profiles of the Twenty-third and Twenty-fourth Wards of The City of New York, excepting from said area all streets, avenues and roads or portions thereof heretofore legally opened as such area is shown upon our benefit maps deposited as aforesaid.

Fourth—That our report herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III, to be held in the County Court-house, in the Borough of Manhattan, in The City of New York, on the 11th day of October, 1904, at the opening of the Court on that day.

Dated BOROUGH OF MANHATTAN, NEW YORK, May 25, 1904.

HENRY J. SMITH, Chairman,  
ANTHONY MCOWEN,  
GEORGE STARK,  
Commissioners.

JOHN P. DUNN,  
Clerk.

## PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

## NOTICE TO CONTRACTORS.

## GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau deputy thereof, or clerk therein, or other officer of The City of New York, is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 470 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately.

The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there
