BUREAU OF MUNICIPAL STATISTICS.

ROREAU OF MUNICIPAL STATISTICS, Nos. 13 TO 21 PAUK ROW, ROOM 1911, NEW YORK, February 14, 1900.

Supervisor of the City Record :

DEAR Str.—In accordance with section 132 of the Laws of 1897, a meeting of the Municipal Statistical Commission was held at the office of the Commission, Park Row Building, on Tuesday,

Statistical Commission was held at the office of the Commission, Park Row Building, on Tuesday, February 13, 1900.

The meeting was called toorder at 3.25 n. M., Dr. Nagle in the chair.

The members present were Commissioners Antonio Rasines, Frederick W. Grube, Thomas Gilleran and John T. Nagle.

The minutes of the last meeting were, on motion, dispensed with.

The Chief of the Bureau submitted the following statement: That the Bureau is conducted entirely in accordance with the provisions of the Charrer, and that he has collected, tabulated and prepared the material for publication that is required of it by the Charrer, namely:

The results attending the work of the various departments of the City Government and other statistical facts and data relating in the City of New York which are deemed of public interest.

He desires to request the heads of the various departments and officers of the City to complete their annual reports as soon as it is possible for them to do so, as the Bureau has to depend on these reports to complie the results attending their work. It is the intention of the Bureau to obtain itlustrations of some of the work done by the different departments of the City during the year 1890, so that the character of their work and the statistics relating to them will be better understood.

year 1899, so that the character of their work and the statistics relating to them will be better understood.

The duties of this Bareau are confounded by many with the duties of the Commissioners of Accounts. This Bareau is only empowered by the law to publish, in so far as it may deem advisable, the results attending the work of the various departments of the City government for the preceding calendar year, and such other statistical information and lasts relating to the City of New York or its inhabitants as it may deem of public interest. It has no power or authority by law to investigate the departments or demand information from them, and its total annual appropriation of \$7,200 for clerks and assistants would not be sufficient to enable it to perform such duties if such power were vested in it by law.

The Bureau has already commised the statistics of the following for the year 1899, viz.: Board of Estimate and Apportonment, Budget.
