BOARD OF ESTIMATE AND APPORTIONMENT.

CITY OF NEW YORK, BOARD OF ESTIMATE AND APPORTIONMENT.

PUBLIC NOTICE IS HEREBY GIVEN that at a meeting of the Board of Estimate and Apportionment, held September 14, 1906, the following petition was received:

To the Honorable the Board of Estimate and Apportionment:

The New York Central and Hudson River Railroad Company, for itself and as lessee of the New York and Harlem Railroad Company, being about to change the motive power used upon the said New York Central and Hudson River Railroad and the said New York

and Harlem Railroad, within The City of New York, from steam to electricity, and having erected at Port Morris, in the Borough of The Bronx, a power house for the purpose of generation of such electricity, applies for a franchise for the construction of ducts or subways through the following streets and between the following points:

Beginning at the point in Webster Avenue where East One Hundred and Ninety-fourth street, if prolonged across Webster Avenue, would touch the right of way of the New York and Harlem Railroad Company; thence substantially northwesterly across Webster Avenue to One Hundred and Ninety-fourth street; thence substantially northwesterly through One Hundred and Ninety-fourth street to the point between Valentine Avenue and the Concourse where East One Hundred and Ninety-fourth street joins the Kingsbridge road; thence substantially northwesterly through the Kingsbridge road to the point or place where Heath Avenue crosses Kingsbridge road; thence substantially southwesterly through the Kingsbridge road to a point where said Kingsbridge road touches the tracks of the New York and Putnam Railroad.

Beginning at a point at the westerly line of the right of way of the Spuyten Duyvil and Port Morris Railroad situated on Exterior Street, at a point about 300 feet south of West One Hundred and Ninety-fourth street; thence substantially westerly across said Exterior Street.

Being the route shown on the white prints hereto annexed, marked "A," "B" and "C."

The purpose of these ducts or subways is to transmit electricity from the said power house to the lines of the New York Central and Hudson River Railroad Company and of the New York and Harlem Railroad Company.

The New York Central and Hudson River Railroad Company is a corporation, formed by the consolidation on the first day of November, 1869, of the railroads known as the New York Central Railroad and the Hudson River Railroad. The Hudson River Railroad was chartered by chapter 216 of the Laws of 1846, with power to build a railroad and transport, take or carry any property or persons upon the same by the power and force of steam, animals, or of any mechanical or other power, or of any combination of them. The New York and Harlem Railroad Company was chartered by chapter 263 of the Laws of 1831, with power to build a railroad and carry property and persons upon the same, by the power and force of steam, animals or of any mechanical or other power, or by any combination of them.

By chapter 425 of the Laws of 1903 the New York Central and Hudson River Railroad Company, for itself and as lessee of the New York and Harlem Railroad Company, were forbidden, after the expiration of five years from the passage of said act, to operate trains by steam locomotives in Park Avenue, in The City of New York, south of the Harlem River. Both railroad companies enter The City of New York, passing through Park Avenue, in said City, with a terminus at Forty-second street. They were further authorized to run their trains by electricity or by compressed air, or by any motive power other than steam, and it was further specified in the said act that no power house, constructed to supply electricity for the purpose of said act, should be placed upon Manhattan Island more than two blocks from the water front, except with the consent of the Board of Estimate and Apportionment.

The power house has been constructed at Port Morris, in the Borough of The Bronx.

The franchise asked for is a necessary incident to the operation of the trains of the New York Central and Hudson River Railroad, for itself and as lessee of the New York and Harlem Railroad Company, in carrying out the purposes of the said act of 1903, and in carrying out the purpose of changing its motive power from steam to electricity, within The City of New York.
