FINANCIAL MATTERS.

The Board met in pursuance of an adjournment.

Present—William J. Gaynor, Mayor; William A. Prendergast, Comptroller; Francis P. Bent, Acting President, Board of Aldermen; George McAneny, President, Borough of Manhattan; Alfred E. Steers, President, Borough of Brooklyn; Cyrus C. Miller, President, Borough of The Bronx; Lawrence Gresser, President, Borough of Queens; and George Cromwell, President, Borough of Richmond.

After disposing of the Public Improvements Calendar, the following FINANCIAL MATTERS were considered:

The minutes (Financial and Franchise Matters) of the meeting held May 25, 1911, were approved as printed in the CITY RECORD June 1, 1911.

The Secretary presented the following communication from the Chief City Magistrate of the First Division requesting the transfer of $4,500 within the appropria-

tion for the year 1911, together with a report of the Comptroller recommending that said request be disapproved, as it is proposed to transfer the amount from a salary to a supply account, which is contrary to the resolutions governing the 1911 Budget:

Board of City Magistrates, First Division, City of New York, 300 Mulberry Street, Manhattan, New York, May 1, 1911.

To the Honorable Board of Estimate and Apportionment:

Gentlemen—We find under a decision of the Corporation Counsel given to the Presidents of the Boroughs, that they cannot make purchases of furniture, etc., for the various Departments and Courts, as has been done in previous years. In the refitting of the Magistrates' Courts of this Division, to comply with the new Inferior Criminal Courts Act, chapter 659 of the Laws of 1910, we find it necessary to procure quite some new furniture in the line of desks, chairs, Stenographers' tables, linoleum, rugs, etc. In making application for our 1911 Budget, there was appropriated to us the sum of $2,200 for general supplies, which we find to be an entirely inadequate amount to meet the new conditions that now prevail. We have in our salary fund about $4,619 unexpended. The reason for the same being that this Board has not made appointments to the position of Probation Officer, awaiting a decision of the Appellate Division of the Supreme Court, Second Department.

In order to meet the increased expenditures for this year for furniture, etc., for the various courts, and the new Library that has been established at 300 Mulberry street, we most respectfully request that your Honorable Board transfer from the salary fund of the Board of City Magistrates, First Division, Schedule, Code No. 1415 to the General Supplies Fund, Code No. 1416, the sum of $4,500.

Respectfully, WM. McADOO, Chief City Magistrate.

Attest: PHILLIP BLOCH, Chief Clerk.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, May 20, 1911.

To the Board of Estimate and Apportionment:

Gentlemen—On May 1, 1911, the Chief City Magistrate of the First Division requested the transfer of $4,500 within appropriations for the City Magistrates' Courts, First Division, for the year 1911.

It is proposed to transfer the amount from a salary to a supply account. The transfer is contrary to the resolutions governing the 1911 Budget.

I recommend, therefore, that the request be not approved.

Respectfully, WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That the request of the Chief City Magistrate of the First Division, contained in communication dated May 1, 1911, for the transfer of $4,500 from account No. 1415 to account No. 1416, within the appropriation made to the City Magistrates' Courts, First Division, for the year 1911, be and the same is hereby disapproved.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary was directed to transmit a copy of the report of the Comptroller to the Chief City Magistrate, First Division.

4. Requesting the fixing of the compensation of Janitors of sundry school buildings.

Which were referred to the Committee on Salaries and Grades, consisting of the Comptroller and the President of the Board of Aldermen.

The Secretary presented a communication from the Corporation Counsel transmitting report of one of his Assistants in the matter of the investigation of the complaint of property owners on Crotona Park North and vicinity, Borough of The Bronx, in regard to the grand stand at the athletic field in Crotona Park North erected by the Department of Education and petitioning its removal.

The objections upon which the petition is based are treated in the above report in three groups, and concludes that from the facts stated in the report of the Chief Engineer of the Board on the subject, it does not appear that the maintenance of this stand and athletic field could be held to be a nuisance, and if it were placed in charge of the Park Department most of the general objections could be obviated. The property was acquired under the so-called "New Park Act," chapter 522, Laws of 1884, can only be used for park purposes and should remain under the jurisdiction of the Park Department, etc.

Which was referred to the other members of the Committee as designated below.

(On March 9, 1911, the petition, as above, was presented to the Board and referred to the Chief Engineer, and at the meeting of April 20, 1911, the report of the Chief Engineer was referred to a Committee consisting of the Corporation Counsel, General George W. Wingate, representing the Board of Education, the Commissioner of Parks, Borough of The Bronx and the President of the Borough of The Bronx.)

Which were referred to the Comptroller.

The Secretary presented communications as follows:

From the President of the Board of Trustees of Bellevue and Allied Hospitals requesting issues of corporate stock for the following purposes:

$10,000 for the construction of a small ward over the ambulance station at Gouverneur Hospital.

From the Chairman of the Auxiliary Taxpayers' Association of the Broadway Board of Trade, Brooklyn, submitting certain recommendations in connection with the extension and improvement of the distribution system of water supply in the districts known as the Broadway-Eastern District and the Evergreen District, of Brooklyn.

Which were referred to the Corporate Stock Budget Committee, consisting of the Comptroller, the President of the Board of Aldermen and the President of the Borough of Manhattan.

The Secretary presented a communication from the secretary of the United Civic Associations of the Borough of Queens enclosing resolution adopted by said associations advocating the ownership by the City of all water supply facilities and favoring the purchase of the properties of the private water companies operating in The City of New York, notably in Queens.

Which was referred to the Fire Commissioner.

(On May 11, 1911, the report of the Fire Commissioner, as above, was referred to said Association.)

The Secretary presented communications relative to additional rapid transit facilities as follows:

Which were referred to the Committee of the Whole.

Department of Docks and Ferries, City of New York, Pier A, North River, New York, May 5, 1911.

Hon. WILLIAM J. GAYNOR, *Mayor, and Chairman of the Board of Estimate and Apportionment:*

Sir—In Code No. 146 of this Department's Budget for 1911, General Administration, provision is made for one Secretary to the Commissioner at $2,000 per annum. A resolution has been adopted by the Board of Aldermen, on recommendation of the Board of Estimate and Apportionment, establishing a grade of $3,000 per annum in the position of Secretary to the Commissioner for this Department.

Code No. 172, Bureau of Superintendence, in the 1911 Budget provides for two Locomobile Enginemen at $1,500. One of these positions is vacant, and there is no present intention to appoint an additional Locomobile Engineman.

Code No. 172 also provides for one Clerk at $2,100 per annum and for one Stenographer and Typewriter at $900 per annum. The Clerk paid at the rate of $2,100 per annum under this code number is first on the promotion eligible list for the position of Fifth-Grade Clerk, and I desire to promote him to the position of Fifth-Grade Clerk, with pay at the rate of $2,400 per annum. I also desire to increase the pay of the Stenographer and Typewriter referred to in this code number from $900 to $1,100 per annum.

I respectfully request that the Budget, in so far as it applies to Code Nos. 146 and 172 be modified as follows:

Code No. 146 to provide for one Secretary to the Commissioner at $3,000 per annum instead of $2,000 per annum.

Code No. 172 to provide for one Clerk at $2,400 per annum instead of $2,100 per annum.

Code No. 172 to provide for one Stenographer and Typewriter at $1,100 per annum instead of $900 per annum.

Yours respectfully, CALVIN TOMKINS, Commissioner of Docks.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, May 17, 1911.

To the Board of Estimate and Apportionment:

Gentlemen—On May 5, 1911, the Commissioner of Docks requested modification of two salary schedules, involving a transfer of $1,000, in the Department of Docks and Ferries for the year 1911. In connection therewith I report as follows:

The request is in General Administration, No. 146, and the Bureau of Superintendence, No. 172. In No. 146 it is proposed to increase the compensation of the Secretary to the Commissioner from $2,000 to $3,000 per annum. In No. 172 it is proposed to increase a Clerk from $2,100 to $2,400 per annum, and a Stenographer and Typewriter from $900 to $1,100 per annum. The total increase of $1,500 in the two schedules is to be covered by the striking out of an Engineman (Locomobile) at $1,500 per annum in No. 172.

The incumbent in the position of Secretary to the Commissioner is Harry T. Clews, appointed on January 7, 1910, at the present rate. On April 20, 1911, the Board of Estimate and Apportionment recommended the establishment, pursuant to the provisions of section 56 of the Greater New York Charter, of the grade of Secretary to the Commissioner, at $3,000 per annum, to provide for the $1,000 increase for Mr. Clews. On May 2, 1911, the Board of Aldermen concurred in the recommendation and fixed the grade.

The other incumbents proposed for increases, their periods of service, etc., are as follows:

Clerk, $2,100 to $2,400 Per Annum—Thomas F. O'Rourke, appointed May 27, 1898, as a Laborer at sixteen cents per hour. On December 31, 1901, he was promoted to Messenger, at $1,200 per annum, and on June 26, 1906, to Collector, at $1,800 per annum. On February 5, 1909, his title was changed to Clerk, and on May 1, 1909, his salary was increased to the present rate.

Stenographer and Typewriter, $900 to $1,100 Per Annum—Martin S. Mulvihill, appointed March 24, 1910, at the present rate.

The following tables shows the schedule changes in detail:

The attached resolution, if adopted, will grant the request.

Respectfully, WM. A. PRENDERGAST, Comptroller.

Department of Docks and Ferries, City of New York, Pier "A," North River, May 26, 1911.

Hon. WILLIAM J. GAYNOR, *Mayor, and Chairman of the Board of Estimate and Apportionment:*

Sir—In compliance with request made at the meeting of the Board of Estimate and Apportionment on the 25th instant for information concerning modification of salary schedules for the Department of Docks and Ferries, as per Item No. 19 of the Financial Calendar, I have to submit the following:

On February 9, 1911, request was made by the Commissioner of Docks for the establishment of the grade of position of Secretary to the Commissioner with salary at the rate of $3,000 per annum. On April 1, 1911, the Select Committee on Salaries and Grades of the Board of Estimate and Apportionment reported as follows:

"Gentlemen—In reference to a request from the Commissioner of Docks on February 2, 1911, for the establishment in the Department of Docks and Ferries, pursuant to the provisions of section 56 of the Greater New York Charter, of the grade of position of Secretary to the Commissioner, at the rate of $3,000 per annum, we report as follows:

"The grade is proposed for an increase of $1,000 per annum for H. T. Clews, who was appointed to the position on January 7, 1910, at the present rate. The Commissioner states as follows:

"The Secretary to the Commissioner of this Department is practically the only Secretary receiving less than $2,500 per annum. The average salary is $3,280 per annum, and a majority of Secretaries to Commissioners receive from $3,000 to $5,000 per annum. Mr. Clews is not only performing the duties of his predecessor, but also the duties formerly performed by a $2,100 Clerk, which position was abolished early last year.

"In view of the large and varied responsibilities naturally developing upon the Secretary to the Commissioner of so large a Department as this, I feel that the increase asked for is just and proper, and necessary in order to obtain the services of a man of sufficient capabilities properly to perform the work."

"It is stated that no additional appropriation will be required.

"We recommend the adoption of the attached resolution approving the request.

"Respectfully,

"(Signed) WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President of the Board of Aldermen; Select Committee."

The resolution offered establishing the grade of position of Secretary to the Commissioner at $3,000 per annum was unanimously adopted by the Board of Estimate on April 20, 1911.

On May 2, 1911, the Board of Aldermen established in the Department of Docks and Ferries the grade of position of Secretary to the Commissioner, in accordance with the recommendation of the Board of Estimate and Apportionment.

Modification of the Budget is now requested in order that the above salary may be paid.

The increase in salary from $2,100 to $2,400 is for a Clerk in the Bureau of Superintendence of this Department. The work in this Bureau has materially increased and the man in question is number one on the Civil Service list for promotion.

The increase from $900 to $1,100 is for a Stenographer, in order that salary may be made commensurate with the services rendered the Department. During the past year this Department has experienced considerable difficulty in obtaining efficient Stenographers at $900 per annum, and two Stenographers have been able to better themselves by means of transfers to other Departments.

Yours respectfully,

B. F. CRESSON, Jr., Deputy and Acting Commissioner.

Respectfully yours, M. J. DRUMMOND, Commissioner.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, May 23, 1911.

To the Board of Estimate and Apportionment:

Gentlemen—On May 1, 1911, the Commissioner of Public Charities requested modification of forty-four schedules supporting appropriations for salaries and wages to his Department for 1911, involving a cash transfer of $35,073.35. In connection therewith, I report as follows:

It is proposed to transfer $33,333.35 of the cash amount from the appropriation of $50,000 made under the title, Miscellaneous, No. 808A, Additional Allowance for Salaries and Wages in the Department of Public Charities, to be expended subject to new schedules or amendments of existing schedules upon approval thereof by the Board of Estimate and Apportionment. The $50,000 is to be apportioned among thirty-three schedules, the cash transfer representing the cost of the changes from May 1, 1911, to the end of the year. The request also includes small cash transfers within several accounts for the wages of temporary employees.

It is proposed to allot $21,707 for thirty-two new positions; $11,223 for additional Hospital Helpers in ten bureaus and hospitals; $9,340 for increasing to $180 per annum the compensation of 395 Hospital Helpers, and $7,230 for increased salaries for 22 other incumbents.

In General Administration, Office of the Commissioner, No. 705, Salaries, it is proposed to include a Draftsman at $1,500 per annum, now paid the same rate by voucher from an account for General Supplies. A Confidential Inspector, at $1,500 per annum, is to be added, and a Clerk at $600, to keep the records of the Mechan-

ical Bureau. The salary of William Flanagan, Draftsman, is to be increased from $1,350 to $2,100 per annum. Mr. Flanagan was appointed on April 14, 1902, at $1,000 per annum, and was increased to the present rate on January 1, 1909. He acts as Departmental Architect, and has drawn plans and specifications involving the expenditure of $300,000 for new buildings and repair work in the Department. Miss Gertrude Hall, Stenographer, appointed on July 7, 1909, at $600, is to be increased to $750. Miss Mae Coles, Stenographer, appointed on July 8, 1909, at $600 and increased on July 8, 1910, to $750, is to be promoted to $900. Miss Emily L. Janson, Stenographer, appointed on March 18, 1907, at $600, increased on May 1, 1908, to $750, and on June 1, 1910, to $800, is to be promoted to $900.

In General Administration, Office of the Commissioner, No. 706, Wages, Regular Employees, James Fitzsimmons, a Driver, appointed on June 18, 1898, at $750, increased in December, 1902, to $800, and in May, 1905, to $900, is to be fixed at $1,050. For the last three years, the incumbent has run one of the Department automobiles. It is proposed to strike out the line item number of Mechanics in the account.

This would make the incumbents temporary instead of regular employees, contrary to the resolutions governing the 1911 Budget. I recommend, therefore, that this item in the request be not approved.

In General Administration, Office of the Commissioner, No. 707, Wages, Temporary Employees, it is proposed to add three additional Hospital Helpers and increase the compensation of one incumbent from $300 to $360 per annum; the increased cost of $1,165 to be transferred from Accounts Nos. 712 and 741.

In the General Drug Department, No. 709, Salaries, it is proposed to increase the compensation of Alexander McPherson, a Hospital Clerk, from $600 to $720 per annum. The incumbent was appointed in February, 1908, at the present rate. An Apothecary at $1,500 is to be substituted for a Supervising Apothecary at the same rate.

In the Bureau of Dependent Adults, No. 711, Salaries, it is proposed to appoint a Superintendent of Domestic Relations at $1,800, a Clerk at $1,200, and a Stenographer at $1,050 per annum to comply with the requirements of chapter 659, Laws of 1910. A Morgue Keeper for night duty at $600, and a Clerk at $480 per annum also are requested. The salary of John Fane, Keeper of the City Morgue, is to be increased from $700 to $1,050. Mr. Fane was appointed in 1897, at $500 per annum, and was increased on July 1, 1903, to the present rate. The $1,050 rate is paid in the Brooklyn Morgue. An Examiner of Charitable Institutions at $1,200 is dropped.

In the Children's Bureau, No. 713, Salaries, the compensation of Joseph Basheim, a Hospital Clerk who acts as interpreter, is to be increased from $600 to $720 per annum. Mr. Basheim was appointed at the present rate in August, 1904.

In the Children's Bureau, No. 714, Wages, Temporary Employees, the Hospital Helper's cost is to be increased from $2,940 to $3,500 by transfer from No. 765.

In Departmental Steamboats, Launches and Piers, No. 715, Salaries, the compensation of Robert Sullivan, a Clerk, is to be increased from $1,200 to $1,350 per annum. Mr. Sullivan was appointed as a Junior Clerk in August, 1899, at $360, and through five promotions, up to February, 1903, he was increased to the present rate.

In Departmental Steamboats, Launches and Piers, No. 716, Wages, Regular Employees, two Deckhands at $500 each are added to comply with the United States Shipping Laws. The position of Watchman at $500 is abolished.

In Departmental Steamboats, Launches and Piers, No. 717, Wages, Temporary Employees, an allowance for Hospital Helpers is increased from $5,100 to $6,000.

In No. 718, the salary account for Storehouse, Bakery and Stables, it is proposed to add a Stenographer at $750 for service in the storehouse. The compensation of John J. Finnegan, a Clerk, is to be increased from $750 to $900 per annum. The incumbent was appointed on May 3, 1909, at $600, and increased on February 9, 1910, to the present rate.

In No. 720, Wages, Temporary Employees, for the Storehouse, Bakery and Stables, an allowance for Hospital Helpers is increased from $8,784 to $9,324.

In the City Hospital, No. 724, Salaries, it is proposed to increase the compensation of Dr. Charles B. Bacon, Superintendent, from $3,000 to $5,000 per annum, and change his title to General Medical Superintendent. Dr. Bacon was appointed as Deputy Superintendent on October 23, 1899, at $1,200 per annum. He was increased in January, 1902, to $1,800; in September, 1903, to $2,400, and in July, 1907, to the present rate, with the title of Superintendent. He is now acting as General Medical Superintendent, having charge of all institutions on Blackwells Island. The proposed rate is paid in the Kings County Hospital, and is $1,000 less than the rate in Bellevue and Allied Hospitals. The salary of Miss Margaret Schmidt, Stenographer, appointed in July, 1909, at $600, is to be increased to $750 per annum.

In the City Hospital, No. 726, Wages, Temporary Employees, the compensation of 149 Hospital Helpers, ranging from $60 to $180 per annum each, is to be fixed at the uniform rate of $180, increasing the yearly cost $3,250.

In the New York City Training School for Nurses, No. 728, Wages, Regular Employees, an additional Supervising Nurse at $750 is to be appointed, for service in the operating room. Miss F. O. Morgan, appointed on May 15, 1906, as a Supervising Nurse, at $600 per annum, and increased in January, 1908, to $750, is to be transferred from the City Home to the Training School, at $850 per annum.

In No. 729, for the wages of temporary employees in the Training School, $1,200 is transferred from the line item for Pupil Nurses to Hospital Helpers. This is to provide for trained attendants instead of pupil nurses in the erysipelas wards.

In the New York City Home for Aged and Infirm, No. 730, Salaries, it is proposed to increase the compensation of Deputy Medical Superintendent Bauer from $1,000 to $1,800 per annum. Dr. Bauer was appointed in February, 1902, at $900 per annum, and increased in May, 1902, to the present rate. The proposed rate is paid for the position in other institutions of the Department.

In No. 731, for the wages of regular employees in the Home, provision is to be made for an additional Trained Nurse at $600 per annum.

The request also provides for a uniform rate of $180 per annum for 126 Hospital Helpers in the City Home and in the City Hospital. The yearly cost involved is $2,250.

In the Metropolitan Hospital, No. 733, Salaries, it is proposed to appoint a Deputy Superintendent (lay) at $1,000 per annum; a Chaplain at $450, and two Auto-Enginemen at the rate of $1,200 per annum, for the ambulance in service at the foot of East 70th street.

A Laundryman at $600 for the new laundry plant, and two Oilers at $3 a day for the ice plant, are to be added in the regular wage schedule for the hospital. In the schedule for temporary employees, $3,495 is added to give a rate of $180 per annum for 114 Hospital Helpers.

In the Metropolitan Hospital Training School, No. 736, Salaries, it is proposed to increase the compensation of Miss Helen D. Bengston, Deputy Superintendent, from $1,050 to $1,200 per annum. Miss Bengston was appointed on May 2, 1905, as Head Pupil Nurse at $360 per annum, and was promoted on January 1, 1906, to Trained Nurse at $480. Her compensation was increased in February, 1907, to $600, and on January 10, 1908, to $850, with the title of Supervising Nurse. On May 1, 1909, Miss Bengston was promoted to Deputy Superintendent at the present rate. In No. 738, Wages, Temporary Employees, the allowance for Hospital Helpers is to be increased from $48,200 to $48,800.

The request provides for a Dentist at $400 per annum, in the New York City Children's Hospitals and Schools, No. 739, Salaries. The incumbent now is paid at the rate from the account for General Supplies. The salary of Max Niklas, Hospital Clerk, at $600 is to be increased to $1,000, and his title changed to Deputy Superintendent (lay). Mr. Niklas was appointed Hospital Helper at $240 on January 24, 1904; through four promotions, up to December 1, 1906, he was increased to the present rate.

In the regular wage account for the children's hospitals and schools, it is proposed to appoint an Instructor (Bandmaster) and a Farmer at Randalls Island at $720 and $600 per annum, respectively.

An Examining Physician (female), now paid from a supply account at the rate of $1,000 per annum, is to be added to the salary schedule for the Municipal Lodging House. The sum of $1,426 is added to the temporary wage schedule for additional Hospital Helpers in the Lodging House.

In the office of the Deputy Commissioner, Brooklyn, No. 758, Wages, Temporary Employees, the allowance for Hospital Helpers is increased from $1,800 to $3,240. Miss Catherine M. Kaine, a Pupil Examiner in the Children's Hospital, No. 761, Salaries, is proposed for increase from $360 to $480 per annum. Miss Kaine was appointed on April 1, 1908, at the present rate. The allowance for Hospital Helpers in the Bureau is to be increased from $1,260 to $1,740.

In the Kings County Hospital, No. 763, Salaries, it is proposed to add a Deputy Medical Superintendent, at $1,800 per annum, and an Assistant Alienist in the psychopathic ward, at $600. Dr. W. B. Moseley, Resident Physician, appointed December 7, 1903, at $1,800, the present rate, is to be increased to $2,000 per annum.

A Supervising Nurse at $850 and a Waitress at $192 are added to the regular wage schedule for the hospital. John Maydel, Morgue Keeper, appointed December 20, 1904, at $480, the present rate, is to be increased to $700. Miss Annie F. Mack and Miss Anna E. Cunningham, Trained Nurses at $600 per annum each, are to be increased to $750, as Supervising Nurses.

In No. 767, the Home for Aged and Infirm, Brooklyn, Wages, Regular Employees, it is proposed to eliminate a Driver at $720 and increase the wage of Samuel Stevens, Driver, from $800 to $900. Mr. Stevens was appointed on June 15, 1892, at $840, and decreased on May 1, 1902, to $800.

In temporary wage schedule for the Home, $1,000 is added for Hospital Helpers.

In the Bureau of Dependent Adults, Richmond, No. 789, Miss Mary E. Moore, Stenographer, appointed December 5, 1906, at $600, is to be increased to $750 per annum.

To provide for an increased number of inmates in the New York City Farm Colony, No. 790, Salaries, it is proposed to add a Hospital Physician at $500, a Deputy Medical Superintendent at $1,000 and an Apothecary at $720 per annum. The average census for the years 1908, 1909 and 1910, was 360, 374 and 457, respectively; the average for April, 1911, was 623. It appears that the grade of Hospital Physician at $500 is established only for the one incumbent now employed. Pending further establishment, therefore, no action can be taken for an additional incumbent. It is also proposed to increase the Hospital Helper service at the Farm Colony to the amount of $3,472.

Request is made to strike out the number of Nurses in five of the accounts for Wages, Regular Employees. This would include temporary employees in regular schedules, contrary to the resolutions governing the 1911 Budget.

The Commissioner states that the salary increases are for equalization in compensation, length of service and efficiency.

The Secretary presented the following communication from the Department of Bridges requesting, and report of the Comptroller recommending approval of the schedule, as revised, for Regular Employees, Williamsburg Bridge Division of said Department for the year 1911, providing for the addition of a Laborer at $2.50 a day for 365 days and a Brick Mason (layer) at $5.60 for 276 days:

Hon. WM. A. PRENDERGAST, *Comptroller, The City of New York,* 280 Broadway, New York, N. Y.:

Sir—I have to request a further modification and revision of schedule of wages, Regular Employees, Williamsburg Bridge Division of the Department of Bridges, for the year 1911, which schedule was adopted by the Board of Estimate and Apportionment on March 30, 1911, and to be effective as of April 1, 1911, as follows:

Drop line item: Laborers, 11 at $2.50 a day (365 days); insert line item: Laborers, 12 at $2.50 a day (365 days).

This request is made to include employees on list of regular employees omitted by inadvertence, as he is employed under the jurisdiction of Toll Division in cleaning toll boxes, carrying tickets to toll booths, etc.

Copy of revised schedule herewith. Respectfully,

KINGSLEY L. MARTIN, Commissioner.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, May 24, 1911.

To the Board of Estimate and Apportionment:

Gentlemen—The Commissioner of Bridges has requested modification of the non-budgetary schedule for the wages of Regular Employees in the Williamsburg Bridge Division for the year 1911. The only changes are the addition of a Laborer at $2.50 for 365 days and a Brick Mason (layer) at $5.60 for 276 days.

The Commissioner states that the Laborer has been regularly employed in cleaning toll boxes, carrying tickets to the toll booths, etc., and that he was inadvertently omitted from the list on which the existing schedule was prepared and approved by the Board of Estimate and Apportionment.

The Brick Mason is requested for necessary repairs to the brick work on the bridge approaches.

I recommend the adoption of the attached resolution granting the request.

Respectfully, WM. A. PRENDERGAST, Comptroller.

The Secretary presented the following communications from the Department of Bridges, and report of the Comptroller, relative to an appropriation of $213,443 from the revenues received by the New York and Brooklyn Bridge during the year 1911 for the maintenance of said bridge and approval of the schedules, as revised, for the employees of that Department chargeable to said account:

Department of Bridges, City of New York, 13-21 Park Row, Manhattan, N. Y., May 2, 1911.

Hon. WILLIAM A. PRENDERGAST, *Comptroller,* The City of New York, 280 Broadway, New York City:

Sir—I transmit herewith the revised estimate for the maintenance and operation of the New York and Brooklyn Bridge during the year 1911.

Attention is called to the increased amount requested for wages, due entirely to the schedulizing of the payrolls of this division, in that the full amount must be provided for the year without any deductions for lost time incidental to sickness, due to the exposure of the men on this structure.

It is requested that the existing schedules for salaries and wages be amended to correspond to the schedules as set forth in this estimate. Respectfully,

KINGSLEY L. MARTIN, Commissioner.

Respectfully, KINGSLEY L. MARTIN, Commissioner.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, May 22, 1911.

To the Board of Estimate and Apportionment:

Gentlemen—On May 2, 1911, the Commissioner of Bridges submitted a revised estimate for appropriations from the revenues of the New York and Brooklyn Bridge for the operation and maintenance of the bridge during 1911. Modification of schedules is involved for changes in the regular and temporary force and rates of compensation. In reference to the full request, I report as follows:

The total estimate for the year is $426,799.65. Preliminary appropriations amount to $205,000. The following table shows the itemized estimate of revenues:

Tolls.

Roadways	$85,000 00	
Trolley cars	75,000 00	
Elevated railway cars	140,000 00	
		$300,000 00
Rentals.		
Real estate	$80,000 00	
Privileges	10,000 00	
		90,000 00
Labor and material furnished to other bridges and divisions		40,000 00
Total revenues		$430,000 00

The revenues for the last three years were as follows:

Year.	Tolls.	Rentals and Privileges.	Labor, Materials and Miscellaneous.	Total Revenue.
1908	$294,966 27	$91,571 06	$65,547 07	$452,084 40
1909	332,108 72	81,809 25	24,116 11	438,034 08
1910	287,630 01	81,381 79	88,957 63	457,969 43

The estimated decrease of approximately $49,000 in revenues from labor and materials furnished by this bridge is on account of the diversion of payments for automobile repairs, supplies and storage to the Municipal Garage Fund.

The expenditures for operation and maintenance during 1911, are estimated as follows:

Salaries	$41,948 75	
Wages, regular employees	283,113 40	
Wages, temporary employees	25,937 50	
Total salaries and wages		$350,999 65
Hired teams, horses and carts		5,800 00
		$356,799 65
Supplies and contingencies		65,000 00
Snow removal		5,000 00
		$426,799 65

The expenditures for operation and maintenance in the last three years were as follows:

Year.	*Salaries and Wages.	Supplies and Contingencies.	Snow Removal.	Total Expenditures.
1908	$343,214 88	$69,100 46	$2,007 00	$414,322 34
1909	365,317 61	67,236 61	1,656 75	434,210 97
1910	340,008 82	89,030 33	2,412 25	431,451 40

*Including expenditures for hired teams, horses and carts.

The revised estimate exceeds the original estimate of December 20, 1910, by $10,799.65, made up as follows:

	Original Estimate.	Revised Estimate.	Increase.	Decrease.
Salaries	$74,000 00	$41,948 75	.....	$32,051 25
Wages	261,200 00	309,050 90	$47,850 90	.....
Supplies and contingencies...	70,000 00	65,000 00	.....	5,000 00
			$47,850 90	$37,051 25
			37,051 25	
			$10,799 65	

The increase in the estimate for wages is mainly due to the transfer of certain Foremen from salary to wage schedules. The Commissioner states that the wages estimate has been increased by the schedulizing of the payrolls so that the full amount must be provided for the year without any deductions for lost time incidental to sickness.

In the schedule for salaries, a Clerk at $1,500 is dropped and a Clerk at $360 per annum is added. A Master Mechanic at $2,400, a Foreman Carpenter at $2,400, a Superintendent of Electric Lights at $2,200 and a Foreman Painter at $1,800 are to be transferred to the schedule for Wages—Regular Employees. It is stated that the inclusion of the four Mechanics in the salary schedule has caused dissatisfaction on the part of Foremen doing similar work and in the wages schedule.

An Assistant Engineer at $1,800 is to be transferred from the Construction Division, for statistical and cost accounting work.

In the schedule for Wages, Regular Employees, Thomas Pollitt, a Foreman Riveter, is to be increased from $1,800 to $2,100 per annum. In a report under date of March 20, 1911, recommending the establishment, pursuant to the provisions of section 56 of the Greater New York Charter, of the $2,100 grade for the increase, your Select Committee stated as follows:

"Pollitt was appointed as a Riveter on the New York and Brooklyn Bridge on January 10, 1889. His compensation was fixed on February 18, 1903, at 60 cents per hour, and on July 1, 1903, at 67½ cents per hour. On March 17, 1905, he was promoted to Foreman Riveter at $1,800 per annum, and now is in charge of a force of forty-two Riveters and seven Riggers."

The grade was fixed by the Board of Aldermen on May 2, 1911.

A Riveter at $5 for 276 days, a Laborer at $3 for 276 days, and a Laborer at $2.50 for 365 days, are added to regular wage schedule. Four Machinists at $4.50 are increased from 276 days to 302 days. The titles of two Stationary Enginemen at $4.50 for 365 days, two Dynamo Enginemen at $4.50 for 365 days, and one Dynamo Engineman at $4.50 for 312 days are changed to Stationary Engineer to meet Civil Service requirements. Two Riggers at $3.75 for 276 days, a Wireman at $4.50 for 302 days, and a Helper at $2.62 for 302 days, are dropped.

In the schedule for Wages, Temporary Employees, small changes in the number of days are proposed for Mechanics and Laborers.

The necessary schedule changes are as follows:

	30,305 50	.....
Net decrease in schedule totals	$1,547 10	.....

The salary payrolls for the first four months of 1911 amounted to $20,300.38. For the remaining eight months approximately $27,966 will be required, making a total for the year of $48,200.

The payrolls for the wages of regular employees for the first seventeen weeks of the year amounted to $80,389.02. If all the employees put in full time during the rest of the year, a total appropriation of $270,734 would be necessary. An allowance of $270,500 probably will be ample.

There are no pro rata restrictions on the expenditures from the account for Wages, Temporary Employees. The estimated total of $25,943 seems to be reasonable.

The following employees in the schedule are detailed to the Municipal Garage: One Clerk at $1,200 per annum, one at $360; a Stationary Engineer at $4.50, for 365 days; three Machinists at $4.50 for 302 days each; two Oilers at $3 for 365 days each; a Laborer at $3 for 365 days, and four Laborers at $2.50 for 365 days each. These employees are paid from the Municipal Garage Fund. No provision for their compensation is included in the request.

The following table covers the items for supplies and contingencies:

		Expenditures, 1910.	Estimate, 1911.	Recommended, 1911.
A	General Supplies	$7,021 47	$7,500 00	$7,500 00
B	Materials for repairs and replacements by departmental labor	55,122 44	36,800 00	36,800 00
C	Repairs and replacements by contract or open order	2,095 51	3,000 00	3,000 00
D	Apparatus, machinery, vehicles, harness, etc., including care and storage	7,931 55	5,250 00	5,250 00
E	Purchase of furniture and fittings	175 78	500 00	500 00
F	Purchase of horses	325 00	650 00	650 00
G	Fuel	7,666 35	8,000 00	8,000 00
H	Forage, shoeing and boarding horses	1,729 41	1,800 00	1,800 00
I	Telephone Service	1,117 01	1,100 00	1,100 00
J	Hired teams, horses and carts	5,145 86	5,800 00	5,800 00
K	Contingencies	699 95	400 00	400 00
L	Snow removal	2,412 25	5,000 00	3,000 00
		$91,442 58	$75,800 00	$73,800 00

The items that show increases over the 1910 expenditures are explained as follows:

An item of $900 for stair treads is included in the estimate for general supplies. Extensive repairs to stairs are stated to be necessary, whereas the cost of stair treads in 1910 was only $83.99.

The estimate for repairs and replacements by contract or open order contains an item of $1,500 for repairs to roofs, skylights, stairs, rolling shutters and plumbing in the buildings attached to the bridge. The 1910 expenditures were $650.39. The estimate for repairs to asphalt pavements and miscellaneous repairs is $1,500 against expenditures of $1,445.12 in 1910.

The increased estimate for the purchase of furniture and fittings is for furniture and fittings, linoleum and shades for the offices of the Administration and Toll Divisions.

The $650 item is for the purchase of two horses at $325 each. Two horses died in 1910.

Extensive repairs to the planking of the bridge roadways call for increased expenditures for hired teams, horses and carts.

The estimate of $5,000 for snow removal appears to be excessive. The average cost for the years of 1908, 1909 and 1910 was approximately $2,000. An appropriation of $3,000 for 1911 would appear to be sufficient.

The total of the various amounts necessary for the year is $418,443. The following table details the amount:

Title of Account.	Estimate, 1911.	Recommended, 1911.	Already Appropriated.	Additional Appropriation Necessary.
Salaries	$41,948 75	$48,200 00	$37,000 00	$11,200 00

The Secretary presented a report of the Comptroller recommending that the Secretary of the Board be directed to send to the head of each City Department a copy of the resolution adopted by the Board of Aldermen on February 28, 1911, concurring in the resolution of the Board of Estimate and Apportionment adopted February 9, 1911, recommending the establishment in all City Departments of the grades of position of Steamfitter and Pipefitter at $5.50 per diem, in order that the various Departments and offices of the City government may be fully apprised of the established rates for said positions.

The Secretary was directed to transmit to the heads of all City Departments, etc., employing Steamfitters and Pipefitters copy of the resolution of the Board of Aldermen above referred to.

The Secretary presented the following resolution of the Board of Aldermen requesting, and report of the Comptroller recommending, an issue of $50,000 special revenue bonds (subdivision 8, section 188 of the Charter) for the purpose of providing means for a municipal celebration on July 4, 1911, under the jurisdiction of a special committee of the Board of Aldermen:

(On May 18, 1911, the resolution of the Board of Aldermen requesting the above appropriation was referred to the Comptroller.)

In the Board of Aldermen.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of fifty thousand dollars ($50,000), the proceeds whereof to be used under the jurisdiction of a Special Committee of the Board of Aldermen for the purpose of providing means for a municipal celebration on July 4, 1911.

Adopted by the Board of Aldermen May 9, 1911, four-fifths of all the members voting in favor thereof.

Approved by the Mayor May 16, 1911. P. J. SCULLY, Clerk.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, May 25, 1911.

To the Board of Estimate and Apportionment:

Gentlemen—On May 9, 1911, the Board of Aldermen adopted a resolution requesting special revenue bonds to the amount of $50,000, "the proceeds whereof to be used under the jurisdiction of a Special Committee of the Board of Aldermen for the purpose of providing means for a municipal celebration on July 4, 1911." In connection therewith I report as follows:

The appropriation is proposed for expenditure by "The City of New York Fourth of July Committee" appointed by the Mayor, for "municipal celebrations" in each of the five boroughs. The active officers of the Committee are as follows: Herman Ridder, president; Edward Hagaman Hall, vice-president; William A. Johnston, secretary; Isaac N. Seligman, treasurer.

The Committee plans to raise $50,000 by private subscription, to give a total fund of $100,000. Three hundred "neighborhood celebrations" are to be held. The Committee further outlines its plans as follows:

There will be no National Guard parade this year, but this money will be spent for music, orchestral and vocal; prizes for athletic events; erection of stands; decorations; school, armory and park celebrations and general expenses. In the evening there will be band music, singing and fireworks in nearly a hundred different places.

The expenditures for preliminary expenses amount to $575. The following estimate for the proposed City appropriation has been submitted by the Secretary of the Committee:

Stenographer, Auditor, Press Agent, Office Staff and General Office Expenses	$1,500 00
Athletic prizes, including gold, silver and bronze medals, printing programs, etc.	5,000 00
Decoration of all stands, and one silk flag to each of 200 public schools	7,500 00
Erection of stands	5,000 00
Music and fireworks	31,000 00
	$50,000 00

The general plans of the Committee include five great patriotic celebrations at the City Hall and the four Borough Halls; two hundred and fifty school children's celebrations in schools, parks and armories; fifty special celebrations at places of historical interest, and one hundred night celebrations.

The Committee states the following:

"New York last year for the first time undertook to have a safe and sane Fourth. It was successful far beyond expectations, press and people agreeing unanimously in commending it. The Fourth of July Committee plans to repeat last year's celebration upon a much more elaborate scale.

"The rational celebration of Independence Day should receive the support of our citizens not only for patriotic reasons, but also for humanitarian and practical considerations. In the past eight years 37,526 persons have been injured, 1,662 persons have been killed and millions of dollars' worth of property destroyed by fire in the United States, as the result of the old-fashioned Fourth. Last year, the deaths and bodily injuries were reduced 66 per cent. in New York, and the loss by fires also greatly reduced."

The sum of $15,000 in revenue bonds was appropriated in 1910 for expenditure by a Special Committee appointed by the Mayor. The appropriation was specifically for the "purchase and display of aerial fireworks at points within the several boroughs." The money was expended for these purposes under two contracts, one to the Pain Manufacturing Company for $12,500, and one to the Lloyd Manufacturing Company for $2,500. The appropriation was made after the awarding of the contracts.

It is stated that no contracts for the 1911 celebration have yet been awarded, and that the plans of the Committee in this respect still are indefinite.

In view of the greatly enlarged plans proposed for the celebration this year, the appropriation of $50,000 would appear to be reasonable.

I recommend, therefore, the adoption of the attached resolution, granting the request of the Board of Aldermen and providing for the usual examination and audit of disbursements in the Department of Finance. Respectfully,

WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That the resolution adopted by the Board of Aldermen on May 9, 1911, and approved by the Mayor May 16, 1911, requesting an issue of special revenue bonds in the sum of fifty thousand dollars ($50,000), the proceeds whereof to be used under the jurisdiction of a Special Committee of the Board of Aldermen for the purpose of providing means for a municipal celebration on July 4, 1911, be and the same is hereby approved of and concurred in by the Board of Estimate and Apportionment, and for the purpose of providing means therefor, the Comptroller be and is hereby authorized, pursuant to the provisions of subdivision 8 of section 188 of the Greater New York Charter, to issue special revenue bonds of The City of New York to an amount not exceeding fifty thousand dollars ($50,000), redeemable from the tax levy of the year succeeding the year of their issue, the proceeds of said issue of special revenue bonds to be disbursed only upon claims duly audited in the Department of Finance of The City of New York.

The Secretary presented the following report of the Comptroller recommending approval of the schedule for employees for the Street Improvement Force of the Bureau of Sewers, office of the President of the Borough of Queens, for the year 1911, providing for the addition of 20 Inspectors of Sewer Construction at $4 each per diem:

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, May 25, 1911.

To the Board of Estimate and Apportionment:

Gentlemen—On May 11, 1911, the Board of Estimate and Apportionment approved a schedule for employees for the Street Improvement Force of the Bureau of Sewers, in the office of the President of the Borough of Queens, for the year 1911. The request of the Acting President included twenty Inspectors of Sewer Construction, at $4 per diem. In making up the schedule, it was found that the position had not been established pursuant to the provisions of section 56 of the Greater New York Charter. The item was therefore omitted from the schedule. The position was established for an unlimited number of incumbents by the Board of Aldermen on May 16, 1911.

I recommend the adoption of the attached resolution including the twenty incumbents in the schedule. Respectfully, WM. A. PRENDERGAST, Comptroller.

(On May 25, 1911, the above report was presented and ordered on this Calendar.)

New York, May 24, 1911.

To the Board of Estimate and Apportionment:

Gentlemen—The undersigned, constituting the Committee on Standardization of Salaries and Grades of the Board, are of the opinion that the Division of Franchises should be segregated from the office of the Chief Engineer, its functions being entirely separate and distinct therefrom, and that it be restored to the position it occupied when first created, to wit, as a separate Bureau and under the jurisdiction of the Board.

With this conclusion the Chief Engineer is entirely in accord.

We transmit a resolution establishing the Bureau and assigning the employees of the Division of Franchises thereto, and recommend its adoption.

The Secretary presented the following communication from the Board of Trustees of the Bellevue and Allied Hospitals requesting, and report of the Committee on Standardization of Supplies, approving of the request of said Board of Trustees, that Harlem, Fordham and Gouverneur Hospitals be exempted from July 1 to December 31, 1911, from use of the specifications requiring the purchase of meat in carcass form:

(On April 6, 1911, the request of the Board of Trustees of Bellevue and Allied Hospitals, as above, was referred to said Committee.)

Bellevue and Allied Hospitals, Office of the Board of Trustees, 4th Avenue and 26th Street, New York, March 30, 1911.

Hon. JOSEPH HAAG, *Secretary, Board of Estimate and Apportionment,* 277 Broadway, New York City:

Sir—The Trustees of Bellevue and Allied Hospitals have the honor to request that Gouverneur, Harlem and Fordham Hospitals be exempted from the provisions of the specifications adopted by the Board of Estimate and Apportionment on January 12, 1911, requiring the purchase of meat in carcass form in these hospitals after July 1, 1911. There are no facilities at these institutions for the handling of meat in carcass form, neither is there a butcher. The expense involved in providing facilities for the purchase of meat in carcass form in these hospitals would not be warranted by the benefits which would be derived. Respectfully,

J. K. PAULDING, Secretary, Board of Trustees.

The following resolution was offered:

Resolved, That the application of the Board of Trustees of Bellevue and Allied Hospitals, that Harlem, Fordham and Gouverneur Hospitals to be exempted from the use of the specifications adopted by this Board on January 12, 1911, requiring the purchase of meat in carcass form in the above named hospitals after July 1, 1911, be granted for a further period of six months, ending December 31, 1911, for the reasons set forth in the accompanying report of the Select Committee of this Board, composed of the Mayor, the Comptroller and the President of the Board of Aldermen, for the promulgation of specifications and for the purpose of standardizing supplies.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

City of New York, Department of Finance, Comptroller's Office, May 19, 1911.

The Committee on Standardization of Supplies, Board of Estimate and Apportionment, New York City:

Sirs—At the meeting of the Board of Estimate held April 6, 1911, the following request from the Board of Trustees of Bellevue and Allied Hospitals was referred to your Committee:

Bellevue and Allied Hospitals, Office of the Board of Trustees, New York, March 30, 1911.

Hon. JOSEPH HAAG, *Secretary, Board of Estimate and Apportionment,* 277 Broadway, New York City:

Sir—The Trustees of Bellevue and Allied Hospitals have the honor to request that Gouverneur, Harlem and Fordham Hospitals to be exempted from the provisions of the specifications adopted by the Board of Estimate and Apportionment on January 12, 1911, requiring the purchase of meat in carcass form in these hospitals after July 1, 1911. There are no facilities at these institutions for the handling of meat in carcass form, neither is there a butcher. The expense involved in providing facilities for the purchase of meat in carcass form in these hospitals would not be warranted by the benefits which would be derived. Respectfully,

(Sgd.) J. K. PAULDING, Secretary, Board of Trustees.

Pursuant to request, the Commission on Standardization has made an investigation into the merits of the above request.

Comparison of the relative cost of fresh meats supplied to Bellevue and Allied Hospitals during the twelve months of 1910, with the actual cost of fresh meats supplied to Bellevue and Allied Hospitals for the months of January, February, March and April of the current year, with a careful estimate of the probable cost for the remaining months of the year shows a saving for the current year of $12,756.26, or about fifteen (15) per cent., as follows:

Cost of fresh meats supplied to Bellevue and Allied Hospitals during twelve months of 1910, in cut meat form		$88,727 54
Cost of fresh meats supplied to Bellevue and Allied Hospitals for first four months of 1911	$25,451 52	
Estimated cost of May and June, on basis of consumption during April	12,534 12	
Estimated cost for second six months of 1911 on basis of consumption during first six months	37,985 64	
		75,971 28
Estimated saving for 1911		$12,756 26

It is probable that the actual cost of fresh meats for the second six months of 1911 will be considerably less than $37,985.64, inasmuch as the amount required is calculated upon the unit prices of contracts entered into last December when the market for fresh meats was from a cent to a cent and a half higher than it is at present.

The proportion of the saving, and estimated saving, which is, and will be directly due to the operation of the new standard specifications requiring departments to purchase fresh meats in carcass form is accurately indicated by the experience of Bellevue and Allied Hospitals during the current six months. When the contracts for fresh meats required for the four hospitals under control of the Board of Trustees of Bellevue and Allied Hospitals were awarded for the first six months of 1911, it was found possible to purchase carcass meats under the new standard specifications for Bellevue Hospital only. The old specifications calling for cut meats were used in contracting for the fresh meat required for Fordham, Harlem and Gouverneur Hospitals. The prices paid under the old and new forms of specifications therefore reflect accurately the saving to the City effected by the use of the standard specifications for Bellevue as compared with the use of the old specifications for Fordham, Harlem and Gouverneur Hospitals.

	For 6 months.	For 12 months.
Saving for the first 6 months of 1911 on 171,200 lbs. of fresh meats bought in carcass form under the new standard specifications for Bellevue Hospital, at an average of .0999 per pound, as compared with an average of .1158 per pound paid for cut meats—Fordham, Harlem and Gouverneur—under the old specifications during the same period and for the same class of meats	$2,722 08	
Saving for 12 months at same rate		$5,444 16
Possible saving for the second 6 months of 1911 on 115,500 lbs. of cut meats for Fordham, Harlem and Gouverneur Hospitals, at an average price of .1158 per pound, if purchased in carcass form under the new standard specifications, at an aggregate price of .0999 per lb	1,836 45	
Possible saving for 12 months at the same rate		3,672 90
	$4,558 53	$9,117 06

The saving directly due to the use of the new standard specifications by Bellevue Hospital for the first six months of the current year has been $2,722.08, and the estimated saving for the year at the same rates would be $5,444.16.

The estimated saving directly due to the use of the new standard specifications for the second six months of the current year by Fordham, Harlem and Gouverneur Hospitals would be $1,836.45, and the estimated saving for twelve months would be $3,672.90.

The officials of Bellevue and Allied Hospitals admit that the use of the new standard specifications will effect a saving of approximately $10,000 a year in the fresh meat bills, apart altogether from the fluctuations in the market prices of fresh meats, and express entire willingness to use the new standard specifications in purchasing fresh meats required for Fordham, Harlem and Gouverneur Hospitals.

The reason for the request for a further exemption for six months from the use of the new standard specifications for the purchase of fresh meats for Fordham, Harlem and Gouverneur Hospitals is not that the benefits to be derived therefrom do not warrant the change, but that the Board of Trustees is now considering a plan to make the storehouse at Bellevue Hospital the receiving point for all supplies to be purchased in the future for the four hospitals under its control, with distributions to Fordham, Harlem and Gouverneur Hospitals by means of a motor truck. It is expected that the plan will be put into effect before the first of next year. The purchase of meat in carcass form under the new standard specifications for the second six months of the current year would entail the employment of three butchers, one at each of the three hospitals, at approximately nine hundred dollars ($900) for the six months, and the expenditure of three thousand dollars ($3,000) or four thousand dollars ($4,000) for increasing the ice box facilities at the three hospitals. Under the new plan, making the storehouse at Bellevue Hospital the receiving point for supplies for all the hospitals under control of the Board, with daily deliveries therefrom to each of the three outlying hospitals by motor truck, the expense of increasing the ice box facilities at Fordham, Harlem and Gouverneur Hospitals could be avoided, and instead of three butchers being required—one for each of the outlying hospitals—the cutting up of the carcass meat for the three outlying hospitals at Bellevue would require the addition of a single butcher only to the present staff at Bellevue.

Under the circumstances, the Commission respectfully recommends that the request of the Board of Trustees of Bellevue and Allied Hospitals, "that Fordham, Harlem and Gouverneur Hospitals be exempted from the provisions of the specifications adopted by the Board of Estimate and Apportionment on January 12, 1911, requiring the purchase of meat in carcass form after July 1, 1911," be granted, and that the above named hospitals be exempted from the operation of the said specifications until December 31, 1911, on the understanding that the plan of making

the storehouse at Bellevue Hospital the general receiving point for all supplies required by the hospitals under control of the Board be put into effect by that date.

Respectfully submitted,

EDMUND D. FISHER, CHARLES N. SWIFT, OTTO H. KLEIN, H. RAPHAEL, HENRY BRUERE, J. L. PULTZ, Commission on Standardization of Supplies.

The Secretary presented a communication from the Central Federated Union of Greater New York and vicinity requesting the construction of a pier at the foot of 50th street and the East River, Borough of Manhattan.

Which was referred to the Commissioner of Docks.

The Secretary presented the following communication from the Sheriff of Richmond County requesting, and report of the Comptroller recommending, that the Board approve the expenditure of $400 for the compensation of one Finger Print Clerk in the office of said Sheriff for the months of September, October, November and December, 1910, at the rate of $1,200 per annum, and that the Comptroller be authorized to make such payment from the proceeds of special revenue bonds issued pursuant to the provisions of subdivision 7, section 188 of the Charter:

Sheriff's Office, Richmond County, Richmond, N. Y., January 24, 1911.

Hon. WM. A. PRENDERGAST, *Comptroller of the City of New York:*

Dear Sir—It was necessary to appoint a man temporarily to the position of Finger Print Expert in the Richmond County Jail on September 1, 1910, under the new Inferior Court Act, which made it mandatory upon me to install that system. I have had to pay the man whom I appointed out of my own personal account, and I wish to know if I could make this a County charge in order that I may be reimbursed for the sum which I have paid out.

The Board of Estimate and Apportionment has provided the sum of $1,200 in the Budget of 1911 for this position. Awaiting your reply, I beg to remain,

Respectfully, JOHN J. COLLINS.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, May 26, 1911.

To the Board of Estimate and Apportionment:

Gentlemen—In a communication to the Comptroller, under date of January 24, 1911, the Sheriff of Richmond County stated as follows:

"It was necessary to appoint a man temporarily to the position of Finger-print Clerk in the Richmond County Jail on September 1, 1910, under the new Inferior Court Act, which made it mandatory upon me to install that system. I have had to pay the man whom I have appointed out of my personal account, and I wish to know if I could make this a County charge in order that I may be reimbursed for the sum which I have paid out.

"The Board of Estimate and Apportionment has provided the sum of $1,200 in the Budget for 1911 for this position."

The Sheriff personally paid $400 for the compensation of the Finger-print Clerk for the last four months of 1910.

On February 14, 1911, the Comptroller requested the Corporation Counsel to advise him whether or not, in his opinion, the Sheriff could be reimbursed by an issue of special revenue bonds, pursuant to the provisions of subdivision 7 of section 188 of the Greater New York Charter. On April 7, 1911, the Corporation Counsel transmitted his opinion, in part, as follows:

"I think that there is no theory upon which the Sheriff can legally be reimbursed for the expenditure of his personal funds as salary paid to this Clerk. If, however, the Clerk was appointed in accordance with the law and the rules made in pursuance of law and if the civil service has so certified, there will be no objection, as far as I can see, to payment directly to the Clerk for his services. * * *

"If the facts are such as to impose a legal liability to pay the Clerk's salary and if no money has been provided in the Budget, you are authorized, pursuant to the provisions of subdivision 7, section 188 of the Charter, to issue special revenue bonds to obtain the necessary funds."

On May 2, 1911, Peter J. Finn filed a claim for the $400 in the Department of Finance. The Sheriff certifies to the appointment of Mr. Finn and his work as Finger-print Clerk during the four months of 1910 covered by the claim. The claim also is certified by the State Civil Service Commission.

In view of the opinion of the Corporation Counsel, I recommend the adoption of the attached resolution approving payment of the claim.

Respectfully, WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves of the expenditure of a sum not to exceed four hundred dollars ($400) for the compensation of one Finger Print Clerk during the months of September, October, November, December, 1910, at the rate of one thousand two hundred dollars ($1,200) per annum, in the office of the Sheriff of Richmond County, and recommends that payment of the same be made by the Comptroller out of the sale of special revenue bonds of The City of New York, issued pursuant to the provisions of subdivision 7 of section 188 of the Greater New York Charter.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented the following communication from the Department of Parks, Boroughs of Manhattan and Richmond, requesting, and report of the Comptroller relative to, the modification of Salary Schedule No. 1057, supporting the appropriation made in the Budget for the year 1911, for said Department, to take effect as of June 1, 1911, providing for an increase in the salary of a Clerk from $1,200 to $1,500 per annum, and decreasing a Clerk from $1,200 to $900:

The City of New York, Department of Parks, Boroughs of Manhattan and Richmond, Arsenal, Central Park, May 17, 1911.

To the Honorable, the Board of Estimate and Apportionment, The City of New York:

Gentlemen—I have the honor to request the following change in the 1911 Budget, Manhattan and Richmond, "Administration, Commissioner's Office," Account 1057, line item 10, "Clerk (Bookkeeper), $1,200," changed to read "Clerk, $900."

Also, line item 9, Account 1057, "Clerk, $1,200," changed to read "Clerk, $1,500."

This request is made in order to grant a well-deserved increase in salary to an employee who has been in the Department for nine years, now that a vacancy has occurred which enables this change without decreasing the salary of any present employee. Respectfully,

CHAS. B. STOVER, Commissioner of Parks, Boroughs of Manhattan and Richmond.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, May 26, 1911.

The Secretary presented the following communication from the Department of Water Supply, Gas and Electricity requesting, and report of the Comptroller recommending, the modification of Salary Schedules Nos. 451 and 494, supporting the appropriation made in the Budget for the year 1911, for said Department, providing for the elimination of a Clerk at $900 and one at $750 per annum, and the addition of a Clerk at $1,200 per annum, and the transfer of a Storekeeper at $1,200 per annum from one schedule to another, involving the transfer of $700:

Department of Water Supply, Gas and Electricity, Commissioner's Office, 13-21 Park Row, City of New York, April 28, 1911.

Mr. JOSEPH HAAG, *Secretary, Board of Estimate and Apportionment:*

Dear Sir—I wish to appoint a Storekeeper at $1,200 per annum, for whom provision was made in the Budget appropriations for this year. The vacancy, however, exists in the supporting schedule of the salary account for the pumping stations of Manhattan and The Bronx, and before making the appointment I would like the Board of Estimate and Apportionment to transfer that position to the salary schedule of the general staff in order that the control of the stores may be more directly under my supervision. This will necessitate the modification of the salary schedules supporting Accounts Nos. 451 and 494, and also the transfer of $800, the proportionate amount of the salary for the balance of the year, from Account No. 494 to Account No. 451.

In the modification of the salary schedule supporting Account No. 451, I desire at the same time to provide for the salary of a Clerk at $1,200, who is now paid from another account, and the supporting schedule herewith enclosed provides also for that change.

I respectfully request that the Board of Estimate and Apportionment approve these modifications, and that they also make the required transfers.

Yours truly, HENRY S. THOMPSON, Commissioner.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, May 26, 1911.

To the Board of Estimate and Apportionment:

Gentlemen—On April 28, 1911, the Commissioner of Water Supply, Gas and Electricity requested modification of two salary schedules in his Department for 1911, involving a transfer of $700. In connection therewith, I report as follows:

In Departmental Administration, Commissioner's and Central Office, No. 451, it is proposed to drop a Clerk at $900 and one at $750 per annum, and add a Clerk at $1,200 per annum, the balance of $450 to be scheduled as unassigned. A Storekeeper, at $1,200 per annum, is to be transferred to the account from the salary schedule for Collection and Storage Pumping Stations, No. 494.

The Commissioner states that the transfer of the Storekeeper is asked for so that the control of the stores may be more directly under his personal supervision. The Clerk at $1,200 is to be transferred to No. 451 from the office of the Water Register, Manhattan. No salary increases are involved.

The schedule and cash transfers in detail are as follows:

Account No.	Schedule Line.	Schedule Transfer. Increase.	Schedule Transfer. Decrease.	Cash Transfer. Increase.	Cash Transfer. Decrease.
451.	Clerk, 1 at $1,200.....	$1,200 00	.....	$700 00	.....

The Secretary presented the following communication from the Acting Commissioner of Public Works, Borough of Richmond, requesting, and report of the Comptroller recommending approval, pursuant to resolution adopted June 3, 1910, of the plans and specifications, as amended, and the estimate of cost ($37,000) for Contract No. 2, comprising sewers in Willow Brook road, from Richmond avenue to Port Richmond road, and in Port Richmond road, from Willow Brook road to the New York City Farm Colony road, Borough of Richmond, as submitted by said Acting Commissioner:

Dear Sir—Herewith we transmit contract and specifications, plans and Engineer's estimate of the cost of construction of sewers in Willow Brook road, from Richmond avenue to Port Richmond road, and in Port Richmond road, from Willow Brook road to The New York City Farm Colony road, known as Contract No. 2, for your approval, pursuant to resolution of the Board of Estimate and Apportionment. This sewer contract covers a portion of the entire system which was authorized by the Board of Estimate and Apportionment for the relief of the Sea View Hospital, Borough of Richmond, to be built under the jurisdiction of the President of the Borough of Richmond. The first contract, from the Pierhead Line to Blackford avenue has already been let, and is about 40 per cent. completed. A comprehensive report was made on the whole subject by your Engineers when approving of Contract No. 1.

We request the early consideration of this matter so that the work of construction may proceed during the summer months. Yours very truly,

LOUIS L. TRIBUS, Acting Commissioner of Public Works.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, May 25, 1911.

To the Board of Estimate and Apportionment:

Gentlemen—On May 12, 1911, the Acting Commissioner of Public Works of the Borough of Richmond transmitted for approval by the Board of Estimate and Apportionment of plans, specifications and estimate of cost ($37,000), for constructing sewers in Willowbrook road, from Richmond avenue to Port Richmond road, and in Port Richmond road, from Willowbrook road to the New York Farm Colony.

This sewer contract, which is designated "Contract No. 2," covers a portion of the entire system which was authorized by the Board of Estimate and Apportionment for the relief of the Sea View Hospital and the Farm Colony, to be built under the jurisdiction of the President of the said Borough.

The construction of the trunk line system will be divided into three sections. Contract No. 1, from the pierhead line to Blackford avenue, about one-third of the entire distance, has been let and the work is now in course of construction. Under the contract now under consideration (Contract No. 2), it is proposed to complete the sewer from Richmond avenue to the Farm Colony grounds, which will leave an intermediate section between Blackford avenue and Richmond avenue still to be completed.

The construction of the sewer in this intermediate section is held in abeyance pending the acquirements of easements through private property which the sewer will cross if built as planned.

Under a resolution of the Board of Estimate and Apportionment, adopted June 3, 1910, $84,200 was provided from corporate stock to cover the cost of the entire work. Contract No. 1 was awarded at $20,000. It is believed that the present contract will be let at about $37,000, which will leave ample funds to complete the third and last section when the necessary easements have been procured.

The estimate of cost ($37,000), for the construction of the second section is based on the actual quantities of work and materials required and fair estimated contract prices therefor, and is considered reasonable. The plans and specifications have been examined and with some slight modifications are satisfactory.

I recommend the adoption of the resolution hereto attached.

Respectfully, WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the resolution of June 3, 1910, hereby approves of the plans and specifications (as amended) and estimate of cost, thirty-seven thousand dollars ($37,000) for Contract Number Two (2), comprising sewers in Willow Brook road from Richmond avenue to Port Richmond road, and in Port Richmond road from Willow Brook road to the New York City Farm Colony road, in the Borough of Richmond, City of New York, under the jurisdiction of the President of the Borough of Richmond.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented the following communication from the Department of Parks, Boroughs of Manhattan and Richmond requesting, and report of the Comptroller recommending approval, pursuant to resolution adopted June 3, 1910, of the plans and specifications for the construction of a playground at the northwest corner of Worth and Baxter streets, Manhattan, at an estimated cost of $4,000, submitted by said Department:

Department of Parks, The City of New York, Arsenal, Central Park, Charles B. Stover, President of Board, May 17, 1911.

Hon. WILLIAM A. PRENDERGAST, *Comptroller,* City of New York:

Sir—In compliance with the requirement of the resolution of the Board of Estimate and Apportionment of January 5, last, I beg to forward herewith, for the approval of said Board, plans, specifications and form of proposed contract for improving the playground at the northwest corner of Worth and Baxter streets in the Borough of Manhattan, the cost of which improvement, estimated at $4,000, will be chargeable against the fund provided by the corporate stock issue designated "C-DP-58A." Respectfully,

CHAS. B. STOVER, Commissioner of Parks, Boroughs of Manhattan and Richmond.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, May 26, 1911.

To the Board of Estimate and Apportionment:

Gentlemen—Under date of May 17, 1911, the Commissioner of Parks transmitted for approval by the Board of Estimate and Apportionment, copies of plans and specifications for the construction of a playground at the northwest corner of Worth and Baxter streets, Manhattan, the cost of which, estimated at $4,000, will be chargeable against the corporate stock fund "C-DP-58A."

This playground will be about 100 feet (across Baxter street) from the Mulberry Bend playground, already authorized, and will occupy about 5,000 square feet of a small triangular corner there, the remaining 2,000 square feet being set aside for a playground house development.

The estimated cost of this playground work is at the rate of 80 cents a square foot. Considering the character of work shown on the plans and specifications, which conform to the Park Department's general scheme of playground construction, the cost is not excessive.

I present a resolution which, if adopted, will carry the Board's approval of the plans and specifications. Respectfully,

WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

The Secretary presented the following communication from the Commissioner of Docks requesting, and report of the Comptroller recommending, that said Commissioner be authorized, pursuant to the provisions of section 1554 of the Charter, to rent from the Rooke Automatic Register Company of Providence, Rhode Island, 12 automatic hand registers, or to rent other automatic registers equal thereto, for the period from June 1, 1911, to November 1, 1911, for the sum of $350:

(On May 18, 1911, the request of the Commissioner of Docks for the above authority was referred to the Comptroller.)

Department of Docks and Ferries, City of New York, Pier A, North River, New York, May 9, 1911.

Hon. WILLIAM J. GAYNOR, *Mayor, and Chairman of the Board of Estimate and Apportionment:*

Sir—In connection with the operation of the Municipal ferries between the Borough of Manhattan and the Borough of Brooklyn and Richmond, I find, particularly on the Staten Island ferry, that many passengers boarding the boat at one terminal will return with the boat without leaving at the other terminal. On the Staten Island ferry this is so in the case of women and children who make the trip for the sail. In these instances where passengers remain on the ferryboats, the return cash fares are taken up by the Department's Collectors, who make their returns after each trip; these men boarding the boat on its arrival at a terminal and collecting the cash fares from all persons remaining on board.

In order to keep a check on the collection of these fares, this Department has been considering many devices, the necessity for the employment of such devices having shown itself in the past when it was found that some of the men had not been properly accounting for the fares collected, resulting in their dismissal from the service.

I am of the opinion that the most available machine is a hand register manufactured by the Rooke Automatic Registering Co., of Providence, Rhode Island. This company does not sell these hand registers, but has made an offer to rent 12 of these registers to this Department for the period beginning May 15, 1911, and continuing up to and including October 15, 1911, for the sum of $350. These automatic registers will be used on the Staten Island ferry, where the bulk of the excursion traffic occurs, and the period covers the summer season when the heavy return trips are made.

These registers being a patented article, I respectfully request authority, pursuant to the provisions of section 1554 of the Charter to issue an order to the Rooke Automatic Register Co. for the renting of these 12 automatic registers at the sum stated, $350. Yours respectfully,

CALVIN TOMKINS, Commissioner of Docks.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, May 25, 1911.

To the Board of Estimate and Apportionment:

Gentlemen—On May 9, 1911, the Commissioner of Docks and Ferries transmitted to the Board of Estimate and Apportionment a request for authority, pursuant to the provisions of section 1554 of the Greater New York Charter, to issue an order to the Rooke Automatic Register Company of Providence, Rhode Island, for the renting of twelve automatic hand registers for the period May 15, 1911, to October 15, 1911, for the sum of $350.

It is explained by the Commissioner of Docks and Ferries that many passengers on the Staten Island Ferry, particularly women and children, take the trips for the sail and do not leave the boat at the terminals, but remain on board for the round trips. This necessitates the collecting of fares on the boats. There is no check on these collections, and it is to provide a check that the automatic registers are wanted.

I submit for your approval the resolution hereto attached.

Respectfully, WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 1554 of the Greater New York Charter, hereby authorizes the Commissioner of Docks and Ferries to rent from the Rooke Automatic Register Company of Providence, Rhode Island, twelve (12) automatic hand registers, or to rent other automatic registers equal thereto, for the period from June 1, 1911, to November 1, 1911, for a sum not to exceed three hundred and fifty dollars ($350).

Which was adopted by the following vote:

To the Board of Estimate and Apportionment:

Gentlemen—The Board of Education, in a communication dated May 19, 1911, submitted for approval by the Board of Estimate and Apportionment, plans, specifications and estimates of cost for fire protection work at school buildings in the Borough of Queens, as follows:

	Approximate Cost.
Public School 8	$10,660 00
Public School 11	9,839 00
Public School 20	9,487 00
Public School 35	9,430 00
Public School 44	7,815 00
Public School 46	1,450 00
Public School 66	1,793 00

Following is a brief statement of the work proposed on each building as shown by the plans and specifications:

Public School 8, Queens—It is proposed to remove the two existing pupils' stairways and erect in their place two fire-proof stairways with greater capacity. The existing wooden stairs, at the main entrance, will be rendered unnecessary by the construction of the new stairs for pupils, and will be removed. The space they now occupy will be floored over, giving an additional room to be used as an office.

A fire stop partition is to be erected in the attic.

Public School 11, Queens—The plans and specifications call for the removal of three existing wooden stairways for pupils and the erection in their places of fireproof stairways. Two wooden stairs, between the basement and first floor, are to be removed and the flooring filled in, these stairs being unnecessary. A fire stop partition is to be erected in the attic.

Public School 20, Queens—Two existing wooden stairways for pupils are to be removed and in their places fireproof stairways are to be constructed.

Public School 35, Queens—The two present wooden stairs for pupils, leading from the basement to the third floor are to be removed, new fireproof stairs erected in their places, and openings to the boiler room closed up where necessary to insure protection from fire.

Public School 44, Queens—The wooden stairs for pupils at both ends of the building are to be removed and replaced with stairs constructed of fireproof materials. A floor of fire-proof composition is to be laid in the corridors of the first and third stories similar to the present flooring of the second story corridor.

Public School 46, Queens—The present wooden stairs from the basement to the first floor are to be removed and concrete stairs constructed, a new doorway provided to the outside, in place of that now existing between these stairs and the main stairway. The wood work of the main stairway is to be covered with metal and all classroom doors are to be kalameined.

Public School 66, Queens—The existing wooden main stairway is to be removed and replaced with a stairway of fireproof construction.

All work incidental to the alterations in the several buildings is included in the plans and specifications which appear to be complete and satisfactory. The Department of Water Supply, Gas and Electricity has approved the plans and specifications for gas and electric lighting. The estimates of cost are reasonable.

The cost of this work is to be charged to fund C-DE-81, in which there is at the date of this report a sufficient balance to pay for this work.

I submit for adoption the resolution appended hereto. Respectfully,

WM. A. PRENDERGAST, Comptroller.

The Secretary presented the following communication from the Acting President of the Borough of Richmond requesting, and report of the Comptroller recommending approval, pursuant to resolution adopted June 3, 1910, of the plans and specifications, as amended, and estimate of cost ($42,000) for the construction of building, etc., for the Clifton Refuse Destructor in the Borough of Richmond, as submitted by said Acting Borough President:

The City of New York, Office of the President of the Borough of Richmond, Borough Hall, New Brighton, New York Citv, May 5, 1911.

Hon. WILLIAM A. PRENDERGAST, *Comptroller,* 280 Broadway, New York:

Dear Sir—I send herewith for approval one set of plans, contract and specifications for the construction of the Clifton Destructor building. The estimated cost of this work is $42,000, which is to be paid from corporate stock funds.

As we are anxious to start construction as soon as possible, we will appreciate early action on the plans, so that, if feasible, the Board of Estimate and Apportionment may pass upon the contract at its next meeting.

The Art Commission has approved the plans and the Corporation Counsel has approved the contract form. Yours very truly,

LOUIS L. TRIBUS, Acting President.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, May 29, 1911.

To the Board of Estimate and Apportionment:

Gentlemen—On May 5, 1911, the Acting President of the Borough of Richmond transmitted for approval by the Board of Estimate and Apportionment, the plans, specifications and estimate of cost ($42,000) for the construction of building, destructor foundations, chimney base, etc., for the Clifton Refuse Destructor in the Borough of Richmond.

The President of the Borough of Richmond, on February 24, 1909, requested a corporate stock appropriation to the amount of $200,000, to construct refuse destructors and Foremen's houses, etc., in the Borough of Richmond.

It was stated at that time that a destructor plant would be built at Clifton with a capacity of 90 tons per 24 hours, at an estimated cost as follows:

Two (2) furnaces complete	$50,000 00
Building complete	80,000 00
Chimney and foundations	6,000 00
Engineering, etc	7,000 00
Total	$143,000 00

In response to this request an authorization of corporate stock to the amount of $7,500 was made to prepare plans and specifications.

Subsequent authorizations of corporate stock for the construction of a refuse destructor at Clifton have been made by the Board of Estimate and Apportionment as follows:

June 3, 1910	$100,000 00
December 2, 1910	43,500 00
	$143,500 00

A contract was awarded to "The Destructor Company" on January 13, 1911, for the construction of the furnaces, steam boilers and appurtenances of the Clifton Destructor for the lump sum of $67,867. This contract was let first to establish the size of building that will be required and so that the machinery could be manufactured and ready for assembling and erecting as soon as the foundations and adjuncts were made ready, and before the erection of the sidewalks of the building could interfere with installation.

It is provided and agreed in the contracts that both shall be carried on simultaneously, the contractors co-operating with each other.

The combined cost of the two contracts, $67,867 for the destructor and $42,000 (estimated) for the foundations, a total of $109,867, comes well within the amount provided.

The plans and specifications have been approved as to electrical work by the Department of Water Supply, Gas and Electricity. As amended, they are considered satisfactory. The estimate of cost is reasonable.

I recommend the adoption of the resolution hereto attached.

Respectfully, WM. A. PRENDERGAST, Comptroller.

Schaefer, Jr., & Company for $2,543, alleged to be due for extra work and material furnished in the erection of the Administration Building at Bronx Park; that according to an opinion of Acting Corporation Counsel G. L. Sterling, dated December 20, 1910, the said claim is illegal and invalid as against the City, but, notwithstanding, in my judgment it is equitable and proper that the City should pay the said sum of $2,543, inasmuch as it has received value for the same, and the Acting Corporation Counsel, in his said opinion, stated that the claim might be certified to the Board of Estimate and Apportionment for payment. Respectfully,

WM. A. PRENDERGAST, Comptroller.

City of New York, Department of Finance, Comptroller's Office, March 10, 1911.

In the matter of the application made by John V. Schaefer, Jr. & Company for the adjustment by the Board of Estimate and Apportionment under section 246 of the Charter of its claim for $2,543, alleged to be due for extra work and material furnished in the erection of the Administration building at Bronx Park.

Hon. WILLIAM A. PRENDERGAST, *Comptroller:*

Sir—Under date of December 5, 1910, a report was made by me upon this claim in which the facts were fully set forth. In accordance with a recommendation therein contained the said report and other papers in the case were transmitted to the Corporation Counsel with a request for his opinion concerning the legal liability of the City in the premises.

In reply to such request a communication, dated December 20, 1910, has been received from Acting Corporation Counsel G. L. Sterling, in which he stated in part: "It appears from the papers that the work was ordered by the architects, in writing, and agreed upon, and the prices were also agreed upon in advance, and if it had been authorized pursuant to clause 'K' of the contract and the Commissioner had given written orders therefor, there could be no question as to the payment of this bill. The failure to comply with the terms of the contract in this respect makes the claim an illegal one. I am of the opinion, however, that there was a sufficient authority from the Commissioner and head of the Park Department to justify the payment of this claim by the Board of Estimate and Apportionment, pursuant to section 246 of the Charter. It follows that the claim cannot be paid by the Comptroller under section 149 of the Charter, there being no legal liability of the City in the premises, but that on presentation of a proper petition the Comptroller may certify the claim to the Board of Estimate and Apportionment for payment."

In a communication, dated February 23, 1911, addressed to you on the part of the claimant, application was made for the adjustment of this claim under section 246 of the Charter.

Attention is directed to the report, dated June 27, 1910, made by Assistant Engineer Peter P. Sheridan of this Department in which he stated that the charge of $2,543 was not unreasonable. The Board of Estimate and Apportionment would, therefore, be justified in making an allowance of that amount in settlement of this claim.

In view of the foregoing it is respectfully recommended that the certificate requisite for the consideration of this claim by the said Board under section 246 of the Charter be issued in favor of the claimant in the said sum of $2,543.

Respectfully, JOS. L. HANCE, Auditor of Accounts.

Approved, March 21, 1911.

ALBERT E. HADLOCK, Chief, Division of Law and Adjustment.

Approved, May 17, 1911.

DOUGLAS MATHEWSON, Deputy and Acting Comptroller.

The following resolution was offered:

Schaefer, Jr., & Company of a full release in favor of the City of the said claim, which release shall be in such form as shall be approved by the Corporation Counsel, and that of the said amount the Comptroller is authorized to pay the sum of fourteen hundred and nine dollars and eighty-six cents ($1,409.86) out of the account C-DP-332 New York Zoological Garden Fund, and the sum of eleven hundred and thirty-three dollars and fourteen cents ($1,133.14) out of the Revenue Bond Fund for claims, Miscellaneous, R-CL-11.

The Secretary presented the following report of the Comptroller recommending the acquisition at private sale, at a price not exceeding $3,000, of property on the westerly side of Benedict avenue, between Fulton avenue and Sterling street, Wyckoff Park, Borough of Queens, for the use of the Fire Department:

City of New York, Department of Finance, Comptroller's Office, May 29, 1911.

To the Honorable, The Board of Estimate and Apportionment:

Gentlemen—On June 3, 1910, your Board approved of an issue of corporate stock amounting to $3,000, the proceeds of which were to be applied to the acquisition of a site for the purposes of the Fire Department, at Benedict avenue and 5th street, Woodhaven, Borough of Queens.

On June 10, 1910, the Fire Commissioner addressed a communication to the Comptroller, submitting for consideration the site at Benedict avenue and 5th street, with the request that an investigaion be made and that the Comptroller submit a recommendation.

A careful examination of the available sites in the vicinity of the location selected by the Fire Commissioner developed the fact that a desirable parcel of land having a frontage of 50 feet by 100 feet in depth, was available on the westerly side of Benedict avenue, between Fulton avenue and Sterling street, within 500 feet of the location originally suggested.

The owners originally demanded $4,200 for this property, but after negotiations by the Comptroller, the site may be purchased for the sum of $3,000, which figure in the opinion of the Division of Real Estate of this Department, is the fair market value of the premises.

The assessed valuation of this property for the year 1911 is about $1,800.

The Fire Commissioner has approved the selection of the site above referred to.

The price being reasonable and just, I respectfully recommend that your Honorable Board approve of the request of the Fire Commissioner, and authorize the Comptroller to enter into a contract for the purchase at private sale, of the following described property:

All that certain lot, piece or parcel of land situate, lying and being in the Fourth Ward of the Borough of Queens, City and State of New York, bounded and described as follows:

—at a price not exceeding $3,000, said contract to be submitted to the Corporation Counsel for his approval as to form.

Respectfully, WM. A. PRENDERGAST, Comptroller.

The Secretary presented a report of the Comptroller recommending that the request of the Board of Trustees of Bellevue and Allied Hospitals, that the Board of Estimate and Apportionment ask the Commissioners of the Sinking Fund to assign to said Board of Trustees the plot of land lying to the east of Gouverneur Hospital, bounded by Front street, South street, Gouverneur street and Gouverneur slip, Manhattan, as a site for the erection of a dispensary for said hospital, be referred to the President of the Borough of Manhattan, for his opinion and report as to whether it would be advisable to take the necessary steps to effect the closing of that portion of Gouverneur slip, and in the event of the President of the Borough of Manhattan deeming such closing advisable, then the Board of Estimate and Apportionment can take measures to effectuate such recommendation, etc.

Which was referred to the President of the Borough of Manhattan.

(On February 11, 1910, the request of the Board of Trustees of Bellevue and Allied Hospitals as above was referred to the Comptroller.)

The Secretary presented the following communication from the Armory Board requesting, and report of the Select Committee, consisting of the Comptroller and the President of the Board of Aldermen, recommending the establishmnt in said Board of grade of position of Secretary at $4,500 per annum for one incumbent:

(On October 7, 1910, the request of the Secretary of the Armory Board for the establishment of the above grade of position was referred to said Committee.)

Office of the Secretary, the Armory Board, Basement Suite 6, Hall of Records, New York, October 3, 1910.

To the Honorable, the Board of Estimate and Apportionment:

Gentlemen—The Armory Board having fixed the salary of the Secretary in the Budget for 1911 at $4,500 per annum, request is hereby made that your honorable Board recommend to the Board of Aldermen the establishment of the grade of Secretary in this Board with salary at the rate of $4,500 per annum.

Respectfully, C. D. RHINEHART, Secretary.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, May 9, 1911.

To the Board of Estimate and Apportionment:

Gentlemen—In reference to a request of the Secretary of the Armory Board for the establishment in the Board, pursuant to the provisions of section 56 of the Greater New York Charter, of the grade of Secretary, at $4,500 per annum, we report as follows:

The position of Secretary, at $2,500, the present rate, was established in 1902. Six new armories have since been biult and three have been enlarged. At present, the Second Battery armory is nearing completion; the Twenty-second Regiment Engineers armory is in course of construction, and a new armory for the Eighth Artillery District in The Bronx is under consideration. The increase in armories has added largely to the duties of the Secretary.

In connection with the Twenty-second armory the Secretary is preparing drawings and specifications for the necessary furnishings and finishings, thereby saving the five per cent. commission formerly paid the architect for such work. This plan is to be followed in future, wherever possible. Work for the standardization of coal has been done by the Secretary, with the result that it is estimated about $7,000 will be saved this year in the fuel cost for the armories. In addition, the Secretary now has taken up the matter of sundry supplies, with a view to standardization.

Repair work in the armories now is done under the supervision of the Secretary at a material saving to the City. The voucher and office work, it is stated, has increased by about 60 per cent. since the present grade was established, while Budget appropriations for repairs and supplies have grown from $96,477.98 in 1902 to $173,523 in 1911. In addition, approximately $1,000,000 in corporate stock is expended each year under the supervision of the Secretary.

The present incumbent has held elective positions in the City and County governments at salaries greatly in excess of the proposed rate, and has demonstrated superior administrative and executive ability.

We recommend the adoption of the attached resolution granting the request.

Respectfully,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen; Select Committee.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the

Board of Aldermen the establishment in the Armory Board of the grade of position, in addition to those heretofore established, as follows:

Title.	Rate Per Annum.	Number of Incumbents.
Secretary	$4,500 00	1

The Secretary presented the following report of the Comptroller certifying claim of the Queens County Water Company, pursuant to section 246 of the Charter, in the sum of $8,032.09, for hydrant rental in the Borough of Queens for the year ending December 31, 1910:

City of New York, Department of Finance, Comptroller's Office, May 29, 1911.

To the Board of Estimate and Apportionment:

Gentlemen—Under and pursuant to section 246 of the Greater New York Charter, I hereby certify that a claim has been presented by the Queens County Water Company, for the sum of $8,032.09 for hydrant rental in the Borough of Queens for the year 1910; that said claim, according to the opinions of the Acting Corporation Counsel rendered in connection with the amount claimed by said Company for hydrant rental for the year 1908, is illegal and invalid against The City of New York; but, notwithstanding, in my judgment it is equitable and proper for the City to pay the same, as it has received a benefit to the extent of the amount claimed.

Respectfully, WM. A. PRENDERGAST, Comptroller.

City of New York, Department of Finance, Comptroller's Office, May 1, 1911.

In the matter of Claim No. 62,951 of the Queens County Water Company for the sum of $8,032.09, alleged to be due for hydrant service furnished the territory comprised by the former villages of Far Rockaway, Arverne and Rockaway Beach, Borough of Queens, from January 1 to December 31, 1910.

Hon. WILLIAM A. PRENDERGAST, *Comptroller.*

Sir—There was filed in this Department March 10, 1911, a formal notice of claim, by Henry DeForest Baldwin, President of the Queens County Water Company, in which it is stated:

"Please take notice that the Queens County Water Company hereby notifies you that, pursuant to the statutes in such cases made and provided, it makes claim against The City of New York for the sum of three thousand nine hundred and fifty-four dollars and forty-four cents ($3,954.44), with interest from July 21, 1910; and the sum of four thousand and seventy-seven dollars and sixty-five cents ($4,077.65), with interest from January 13, 1911, being amounts due the Queens County Water Company from The City of New York for hydrant service furnished during the period between January 1, 1910, and December 31, 1910, to the territory formerly constituting the Villages of Far Rockaway, Arverne and Rockaway Beach, now a part of the Fifth Ward of the Borough of Queens of The City of New York, being the territory covered by three certain contracts, as follows: One entered into on or about the 28th day of January, 1896, between the Queens County Water Company and the incorporated Village of Far Rockaway, which expired July 31, 1901; another agreement entered into on or about the 27th day of November, 1897, by and between the Village of Arverne-by-the-Sea, Town of Hempstead, Queens County, New York, and The Queens County Water Company, which expired June 30, 1902; and another agreement entered into on or about the 28th day of December, 1897, by the Village of Rockaway Beach, in the Town of Hempstead, Queens County, New York, which expired June 30, 1902, which provided for hydrant service at the rate of twenty dollars ($20) per hydrant per annum, such rate having been fixed by said contracts and subsequently established for The City of New York by the Board of Public Improvements. The sum of twenty dollars ($20) per hydrant per annum, is the reasonable and fair value of the services furnished.

The Queens County Water Company has been ready at any and all times, since the expiration of the above mentioned contracts to renew the said contracts in writing on the same terms, but the authorities of The City of New York desired to insert in proposed written contracts certain clauses concerning the rates of the Company to other consumers, and clauses affecting possible condemnation proceedings which were connected in no way with the matter of hydrant service and which the company was willing to agree to, and hence there have been no new written contracts entered into since the expiration of the above-mentioned contracts; but the City has continued to use the hydrants and to pay for such use at the same rate as was provided in the original contracts until January 1, 1910.

On the 9th day of February, 1911, the Board of Estimate and Apportionment of The City of New York, adopted a resolution, pursuant to chapter 601 of the Laws of 1907, providing for the payment to the Company of the hydrant rentals for the years 1908 and 1909, at the rate of twenty dollars ($20) per hydrant per annum.

The facts of this claim are similar to those recently presented to the Board of Estimate and Apportionment in connection with the application of claimant company for payment for the hydrant service furnished the City in the territory specified in the above notice of claim, during the years 1908 and 1909. This claim is for payment for hydrant service for a continuing period, viz., the year 1910.

Two vouchers have been prepared and forwarded to this office by the Department of Water Supply, Gas and Electricity, in payment of the amount claimed herein. Said vouchers, which are transmitted herewith, are for the sums of $3,957.78 and $4,077.65, respectively. Attached thereto are the itemized bills presented to the Department of Water Supply, Gas and Electricity by claimant company. The amount of the bill for hydrant service for the first six months in the year 1910 totals $3,954.44, whereas the voucher drawn in payment of the same calls for the sum of $3,957.78. The difference in the above figures is the result of an error which claimant company made in the original bills. It appears that on the bill dated July 15, 1910, for hydrant service in Far Rockaway, two hydrants, Nos. 582 and 583, are mentioned as being set April 30, 1910, and in computing the rental thereof from said date to June 30, viz., 61 days, at $.0548 per day, the sum of $3.34 is ascertained as the charge thereof, whereas said amount represents the rental of only one hydrant, and should be $6.68, which is the rental charge of the two hydrants for the period in question, at the rate of $20 per year per hydrant. This amount has been corrected in the bill in question, by the Department of Water Supply, Gas and Electricity, and thus accounts for the difference between the amount claimed and that named in the voucher above mentioned.

Annexed to the voucher under discussion is an affidavit by John F. Thompson, Inspector of Meters and Water Consumption in the Department of Water Supply, Gas and Electricity, Borough of Queens, in which he certifies that the number of hydrants and the periods for which charge is made are correct. In addition thereto, the above Inspector appends to each bill covered by the voucher a statement certifying to the correctness of the number of hydrants. A similar certificate by the same Inspector is appended to the bills covered by the other voucher mentioned above.

Inspector J. A. Lynch, of the Division of Inspection, Bureau of Audit, Department of Finance, makes a report dated February 17, 1911, in connection with the last named voucher, which is drawn to cover payment of the hydrant service in question for the last six months of the year 1910. In that report Inspector Lynch says:

"I have verified the number of hydrants for which a charge has been made by the records of the Department, and find same to be correct."

James H. Cocks, an Examiner employed in this Division, makes a report concerning this claim under date of April 8, 1911, in which he states:

"I have checked up the number of hydrants in this claim and the dates of the new hydrants set since January 1, 1910, with the records in the Department of Water Supply, Gas and Electricity of Queens Borough, and find this claim to be correct. * * * If the claim is adjusted at the rate of $20 per hydrant, claimant is entitled to $8,035.43, instead of $8,032.09, as claimed."

As set forth by the claimant Company in its notice of claim, the Board of Estimate and Apportionment, by resolution adopted February 9, 1911, provided, pursuant to chapter 601 of the Laws of 1907, for the payment of the hydrant service furnished by said company for the territory in question during the years 1908 and 1909. At that time the reasonableness of the rate charged, viz., $20 per hydrant, had been thoroughly investigated.

In view of the action taken by the Board of Estimate and Apportionment, as set forth above, it is respectfully recommended that the Comptroller issue his certificate for the sum of $8,032.09, pursuant to section 246 of the Greater New York Charter.

Respectfully, H. C. W. MELICK, Auditor of Accounts.

Approved May 11, 1911, Albert E. Hadlock, Chief of the Division of Law and Adjustment.

Approved May 27, 1911, Douglas Mathewson, Deputy and Acting Comptroller.

The records of the Department of Finance show that neither the whole nor any part of the within claim has been paid.

Dated May 25, 1911, J. H. Cocks.

Correct as to calculations and extensions, PHILIP J. MCEVOY, Examiner.

The Comptroller presented the following communication from Jacob A. Riis, President of the Jacob A. Riis Neighborhood Settlement, requesting the Board to authorize the Commissioner of Parks, Borough of The Bronx, to expend the sum of $450, or as much thereof as shall be necessary, for the purpose of erecting fire escapes on the house on Twin Island in Pelham Bay Park, leased by said society from the Park Department as a summer vacation house for mothers and children:

The Jacob A. Riis Neighborhood Settlement, 48 and 50 Henry Street, New York, May 29, 1911.

Hon. WILLIAM J. GAYNOR, *Mayor, Chairman of the Board of Estimate and Apportionment:*

Dear Sir—The Jacob A. Riis Settlement, of which I am the President, is a tenant of the Park Department, occupying the house on Twin Island in Pelham Bay Park as a summer vacation house for our mothers and children. We have just been served with notice that the Department of Buildings demands that fire escapes be put on the house, and we will be unable to occupy it this summer unless the order is obeyed. Under our lease we make repairs and are at this moment expending over $400 on the house; but fire escapes are not repairs, nor is there any claim to that effect by the Park Department, only regrets that there is no money appropriated for that purpose.

We cannot afford to put up these fire escapes. The cost, according to an estimate made by the Department of Buildings to Mr. Higgins, will be about $450, and we have not the money. Much less can we, or The City of New York, afford to let the five hundred mothers and children, whom we send there from the tenements of the lower East Side in July and August, be debarred from this, their only escape from the hot streets in a bad season. It will be a case of life or death to some of them.

Hence I respectfully ask in their behalf that the Board of Estimate and Apportionment will authorize at once the expenditure by the Department of Parks of The Bronx, for the purpose of building fire escapes on the Twin Island House, the sum of $450, or as much of that sum as shall be needed. I ask this with the knowledge of the Department of Parks, and in this perhaps unusual way, in order that the emergency may be made clear to the Board. In three weeks our parties should begin to go up to Twin Island. Sincerely yours,

JACOB A. RIIS.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby requests the Board of Aldermen to recommend to the Board of Estimate and Apportionment the authorization of an issue of six hundred dollars ($600) special revenue bonds, pursuant to the provisions of subdivision 8 of section 188 of the Greater New York Charter, to provide means for the erection of fire escapes by the Department of Parks, Borough of The Bronx, on the buildings in Pelham Bay Park, occupied as summer houses by the Jacob A. Riis Neighborhood Settlement and the Little Mothers' Aid Association.

The Board of Education proposes to advertise and award these contracts by items up to the limit of the available funds. Should additional funds be found necessary, request will be made for the exact amount required, which can only be determined when bids are opened.

I submit for adoption the resolution appended hereto. Respectfully,

The Comptroller presented the following communication from the Brooklyn Disciplinary Training School for Boys requesting, and report relative to the modification of Salary Schedule No. 1298 supporting the appropriation made in the Budget for the year 1911 for said School, providing for the increase in salary of a Stenographer, from $900 to $1,050 per annum, etc.:

The Brooklyn Disciplinary Training School for Boys, Superintendent's Office, Eighteenth avenue, between 56th and 58th streets, Borough of Brooklyn, N. Y., February 20, 1911.

JOSEPH HAAG, ESQ., *Secretary, Board of Estimate and Apportionment,* 277 Broadway, New York City:

Dear Sir—In compliance with a resolution which was unanimously passed at a regular meeting of the Board of Management of this Institution to increase the salary of our Stenographer, from $900 to $1,050 per annum, and the salary of our Investigator, from $720 to $900 per annum, I respectfully petition your Honorable Board of Estimate and Apportionment to change our Budget Schedule No. 1298 under the title of Salaries and Wages by abolishing the positions of Cleaner, at $180, and Orderly, at $180, a total of $360, and transferring from that amount the sum of $150 to apply to the position of Stenographer, and $180 to apply to the position of Investigator, thus making the salary of Stenographer $1,050 per annum, and the salary of Investigator $900 per annum. I also request that the said positions be established in accordance with the provisions of section 56 of the Greater New York Charter. The balance of $30 to remain unassigned for the present.

Trusting this petition will meet with the approval of your Honorable Board, I beg to remain, Yours very respectfully, ROSCOE V. WOLFE, Superintendent.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, May 29, 1911.

To the Board of Estimate and Apportionment:

Gentlemen—On February 20, 1911, the Superintendent of the Brooklyn Disciplinary Training School for Boys requested modification of the Salaries and Wages Schedule for the school for the year 1911. In connection therewith, I report as follows:

It is proposed to increase a Stenographer from $900 to $1,050 per annum, and an Investigator from $720 to $900 per annum. A Cleaner and an Orderly, at $180 per annum each, are to be dropped to provide the $330 for the two increases, leaving $30 for an unassigned balance.

The $1,050 grade for the increase to the Stenographer was established, pursuant to the provisions of section 56 of the Greater New York Charter, by the Board of Aldermen on May 2, 1911. The incumbent is Abraham N. Fauer, appointed in September, 1907, at $720 per annum, with maintenance, and increased in January, 1909, to the present rate, without maintenance. The $1,050 rate also is to be without maintenance.

On April 13, 1911, the Board of Estimate and Apportionment disapproved of the $900 grade for the proposed increase to the Innvestigator. In a report recommending disapproval, your Select Committee stated as follows:

"Ludwig Antonius is in the position of Investigator at $720 per annum, without maintenance, his carfare, etc., being paid from the contingency account. It is proposed to increase his salary to $900 per annum and allow him to pay his own expenses. Carfare and similar expenses incident to the work of an Investigator are properly chargeable to the contingency account. It would appear to be undesirable to cover these by a salary increase."

I recommend, therefore, that this item in this request be not approved, and that the position of Cleaner, to provide for the increase, be not stricken out.

The following table shows the line item changes in detail:

Account No.	Schedule Line.	Schedule Transfer. Increase.	Schedule Transfer. Decrease.	Cash Transfer. Increase.	Cash Transfer. Decrease.
1298.	Stenographer, 1 at $900	$900 00	.....	$525 00	.....
	Stenographer, at $1,050	.....	$1,050 00	.....	$612 50
	Orderly	180 00	.....	105 00	.....
	Unassigned balance	.....	30 00	.....	17 50
		$1,080 00	$1,080 00	$630 00	$630 00

The attached resolution, if adopted, will provide for the increase for the Stenographer. Respectfully, WM. A. PRENDERGAST, Comptroller.

To the Board of Estimate and Apportionment:

Gentlemen—On May 9, 1911, the Board of Aldermen adopted a resolution requesting $5,000 in special revenue bonds to be expended by the President of the Borough of The Bronx for the maintenance of two free floating baths. In connection therewith I report as follows:

Two floating baths have been secured by the President from another department, and arrangements have been made for free moorage at the foot of East 132d street. The only charges, therefore, are for repairs, supplies and the actual expense of operation.

It is planned to keep the baths open four months, from June 1. In 1910 one bath was used from July 28 to September 30, at a total cost of $1,861.04. During the period more than 72,000 persons used the bath, and many thousands were turned away for lack of accommodations.

The proposed force for the two baths is as follows:

Four male Attendants, at $2.50 a day; 4 female Attendants, at $2 a day; 2 watchmen, at $2.50 a day.

The monthly payroll will approximate $700, or $2,800 for the four months. The additional expenses are estimated as follows:

Towage of baths from Manhattan and return	$300 00
Estimated repairs, painting, etc.	1,220 00
Supplies	100 00
Contingencies, including the erection of a runway	620 00
	$2,240 00

The estimated total is $5,040.

I recommend the adoption of the attached resolutions granting the request, and approving a schedule for the fund. Respectfully,

WM. A. PRENDERGAST, Comptroller.

The Comptroller presented the following communication from the Commissioner of Street Cleaning requesting, and report recommending, approval of the award by said Commissioner of a contract for completing an abandoned contract for the final disposition of ashes, street sweepings and rubbish delivered on board scows and other vessels at the waterfront dumps of the Department of Street Cleaning, in the Borough of Manhattan, on the Hudson River, and Clinton Street Dump on the East River, to the Harbor Dredging and Scow Construction Company:

(On May 25, 1911, the request of the Commissioner of Street Cleaning for the above approval was referred to the Comptroller.)

Department of Street Cleaning of the City of New York, 13-21 Park Row, New York, May 25, 1911.

Hon. WILLIAM J. GAYNOR, *Mayor, Chairman, Board of Estimate and Apportionment,* The City of New York:

Sir—As advertised according to law, bids were opened in this office on the 19th inst. for a contract for completing an abandoned contract for the final disposition of all ashes, street sweepings and rubbish that may be delivered on board of deck scows or other vessels at the waterfront dumps of the Department of Street Cleaning, on the Hudson River, and Clinton Street Dump on the East River, at prices per scow-loads as classified in the proposal of said contract, and I enclose herewith a copy of the schedule of bids received.

From the bids so received I have selected the bid of the Harbor Dredging and Scow Construction Company (with offices at 59 Pearl street, Borough of Manhattan), the acceptance of which will, in my judgment, best secure the efficient performance of the work, and I recommend to your Board the approval of the said bid as a part of the terms and conditions of the said contract, pursuant to section 544 of the Charter.

Respectfully, WM. H. EDWARDS, Commissioner.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, May 31, 1911.

To the Board of Estimate and Apportionment:

Gentlemen—On May 25, 1911, the Commissioner of Street Cleaning requested the approval of a bid for the completion of an abandoned contract for the final disposition of all ashes, street sweepings and rubbish delivered aboard scows and other vessels at the waterfront dumps on the Hudson River, and at Clinton Street Dumps on the East River. In connection therewith I report as follows:

The Commissioner, on January 2, 1909, awarded a five-year contract for the work to the Waterfront Improvement Company, of 220 Broadway, New York City. The contract was to expire on January 2, 1913. Bonds to the amount of $100,000 were furnished by the following companies: People's Surety Company, 55 Liberty street, New York City; National Surety Company, 115 Broadway, New York City; Massachusetts Bonding and Insurance Company, 84 William street, New York City.

The Superintendent of Final Disposition reported to the Commissioner that the contracting company had failed to do the work, and on April 13, 1911, the Commissioner addressed the following communication to the president of the company:

"From a report just made to me by the Superintendent of Final Disposition, accompanied by his certificate, as required by Clause (O) of the said contract, it appears that your Company has failed in the work under the said contract to such an extent that the present performance has practically become a mere pretense, and as this contract is for the performance of an extremely important work for the Department of Street Cleaning and The City of New York, it ought not to be allowed to go undone for even a fraction of a day.

"I deem it my duty, as provided by said Clause (O), to notify your Company to discontinue at once all work under the said contract, and I shall immediately procure all of the said work to be otherwise done and shall charge the costs and expenses thereof to your Company and shall hold your Company and the sureties on its contract liable for any loss or damage to The City of New York because of the failure to perform the said contract.

"I shall forthwith send a copy of this communication to each of your Company's sureties on the said contract."

Since April 13, 1911, when the contract was declared abandoned, the Commissioner, in accordance with the provisions of Clause (O) of the contract, has continued the work at a cost $200 a day in excess of the contract figure. This excess cost has been charged to the Waterfront Improvement Company.

The Commissioner proposes to award a contract for the completion of the work to the Harbor Dredging and Scow Construction Company, on the lowest of four bids opened on May 19, 1911. The new contract will not release the sureties on the first contract, but will relieve the Waterfront Improvement Company of the excess charges.

The bid of the Harbor Dredging and Scow Construction Company is about 50 cents per scow less than the price on the discontinued contract. It is estimated that 6,900 scows will be covered by the new contract, giving a saving of $3,450.

The excess charges, if the contract is approved on June 2, 1911, will amount to $8,600 for forty-three days. Deducting the $3,450 saved under the new contract, the net deficit at the expiration of the contract will approximate $5,150.

The Surety Companies on the proposed contract are the same as those on the abandoned one, with the exception of the People's Surety Company. This company has suspended business, and has been replaced on the contract by the American Surety Company, of 100 Broadway.

In view of the fact that the City is protected against loss by the sureties on both the discontinued contract and the contract now proposed, I recommend the approval requested by the Commissioner.

Respectfully, WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That, pursuant to the provisions of section 544 of the Greater New York Charter, the Board of Estimate and Apportionment hereby approves of the award by the Commissioner of the Department of Street Cleaning of a contract for completing an abandoned contract for the final disposition of ashes, street sweepings and rubbish delivered on board scows and other vessels at the waterfront dumps of the Department of Street Cleaning, in the Borough of Manhattan, on the Hudson River, and Clinton Street Dump on the East River, to the Harbor Dredging and Scow Construction Company at their bids, as follows:

Gentlemen—On May 24, 1911, the Board of Education returned to the Comptroller for approval by the Board of Estimate and Apportionment, corrected plans, specifications and estimate of cost ($9,000) for erecting a storage and locker building, forming track, etc., for Athletic Field at Clinton, Cherry and Water streets, Borough of Manhattan.

These plans and specifications were first presented for approval on May 9, 1911.

Examination at that time disclosed defects. The plans and specifications were returned to the Board of Education for correction. The necessary corrections have been made and the approval of the Department of Water Supply, Gas and Electricity has been obtained. The plans and specifications in their present form are satisfactory and the estimate of cost is reasonable.

The cost of this work is to be charged to the issue of revenue bonds authorized for this purpose by the Board of Estimate and Apportionment July 1, 1910, to the amount of $9,650.

I submit for adoption the resolution appended hereto.

Respectfully, WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

The Comptroller presented the following communication from the Acting President of the Borough of Brooklyn requesting, and report relative to, the modification of Schedules Nos. 1765, 1771, 1791, 1804, 1805 and 1820 supporting the appropriation made in the Budget for the year 1911, for the office of the President of the Borough of Brooklyn, involving the transfer of $70, but no additional appropriation:

The City of New York, Office of the President of the Borough of Brooklyn, Brooklyn, May 13, 1911.

Hon. WILLIAM A. PRENDERGAST, *Comptroller*, 280 Broadway, New York City:

Dear Sir—I respectfully request you to kindly recommend to the Board of Estimate and Apportionment modification of Salary Schedules Nos. 1765, 1771, 1791, 1804, 1805 and 1820, in accordance with the proposed schedules attached. The modifications in these schedules are as follows:

1765. General Administration—Salaries. Changes the line, 1 Automobile Engineman at $3 per diem, to read 1 Automobile Engineman at $1,200 per annum, and reduces the unassigned balance from $630 to $525.

1771. Bureau of Highways—Regular Employees, Maintenance, Salaries. This modification changes the salaries of two Automobile Enginemen at present receiving $3 per diem to $1,200 per annum, also one Inspector of Regulating and Grading from $1,500 to $1,650 per annum. It also provides for one additional Driver, in our Bureau of Highways. A number of the lines on this schedule make allowance for 303 days to the various classes of labor, whereas in a majority of the cases 300 days is a sufficient allowance, and in the case of Asphalt Foremen at $4.50 per diem an allowance of 230 days is sufficient.

1791. Bureau of Sewers—Administration, Salaries. Change in this account reads, 1 Automobile Engineman at $3 per diem, to 1 Automobile Engineman at $1,200 per annum, for which $105 is to be transferred from Account No. 1820.

1804. Bureau of Sewers—Engineering Division, Regular Force, Salaries. Changes the line "Inspector of Sewer Construction" from 35 to 34, at $4 per diem (313 days), also the line "1 Automobile Engineman at $3 per diem," to 1 Automobile Engineman at $1,200 per annum.

1805. Bureau of Public Buildings and Offices—Administration, Salaries. The Change in this account eliminates the line, "1 Messenger at $1,050 per annum and 1 Automobile Engineman at $3 per diem," and creates a new line, "1 Automobile Engineman at $1,200 per annum," and an unassigned balance of $945.

1820. Bureau of Buildings—Inspection and Field Force, Salaries. The change in this account eliminates the line "1 Automobile Engineman at $3 per diem" and establishes a line reading "1 Automobile Engineman at $1,200 per annum," and allows for the transfer of $105 to account No. 1791, reducing the unassigned balance to $390.

I would respectfully request you to return to me my communication of the 1st instant on this matter, and would thank you to have the above request given your early consideration. Yours very truly.

L. H. POUNDS, Acting Borough President.

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Comptroller presented the following communication from the Board of Education requesting, and report recommending, approval, pursuant to resolution adopted June 3, 1910, of the plans, specifications and estimate of cost ($450,000) for the general construction, etc., of the Bushwick High School, Brooklyn, provided the specifications are amended in accordance with the attached resolution:

Department of Education, City of New York, Board of Education, Park Avenue and 59th Street, New York, May 6, 1911.

Hon. W. A. PRENDERGAST, *Comptroller:*

Dear Sir—I beg to advise you of the receipt of a communication from Mr. C. B. J. Snyder, Superintendent of School Buildings, under date of May 6, 1911, reading as follows:

"I am forwarding herewith the plans and specifications for the general construction, etc., of the Bushwick High School, Borough of Brooklyn, for transmission to the Comptroller, to be presented to the Board of Estimate and Apportionment, in compliance with the resolution adopted by that Board on January 5, 1911.

"These plans have all been approved under the provisions of section 1073 of the Charter.

"The plans and specifications have also been approved by the Department of Water Supply, Gas and Electricity, as noted on same.

"The above have just been returned by the said Department.

"Approximate cost, $450,000."

The plans and specifications referred to in the foregoing letter are transmitted herewith. Respectfully yours,

FRED. H. JOHNSON, Assistant Secretary, Board of Education.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, May 29, 1911.

To the Board of Estimate and Apportionment:

Gentlemen—The Board of Education, in a communication dated May 6, 1911, submitted for approval by the Board of Estimate and Apportionment the plans, specifications and estimate of cost ($450,000) for the general construction, etc., of the Bushwick High School, Borough of Brooklyn.

The specifications, as submitted, in specifying the floor system to be used, contained the following, under paragraph 3, "Other Systems," on page 18:

"The contractor, subject to the approval of the Bureau of Buildings and of the Superintendent of School Buildings, may use other systems of floor construction, as per section 106 of the Building Code, consisting of segmental arches of concrete, composed of Portland cement, clean, sharp sand and clean steam boiler cinders, mixed in the proportions of one, two and five, as required by section 18 of said code; * * *"

It was pointed out to the Department of Education that section 18 of the Building Code describes broken stone concrete only, and further that the system of cinder concrete arches described were not reinforced with steel and would not meet with the approval of the Department of Buildings. It was agreed to correct the specification in this respect by striking out the words "composed of Portland cement, clean, sharp sand and clean steam boiler cinders" and inserting the words *Portland cement* before the word concrete, fourth line of third paragraph on page 18.

It was further pointed out that the specification for kalameined doors, on page 62, called for "sempermereous iron" to be used. This is a patented material, the manufacture of which is controlled by one firm in the United States, and to specify it is a violation of section 1554 of the Charter, which prohibits the purchase of patented articles, except for repairs, without opportunity for competitive bidding, the conditions to secure which must be prescribed by the Board of Estimate and Apportionment.

The Department of Education has agreed to insert the words "or approved equal" after the words "sempermereous iron," seventh line, seventh paragraph, page 62, of the specifications, which will overcome the objection made.

With the above stated corrections, the specifications are satisfactory. The plans also are satisfactory. The estimate of cost is reasonable. The cost of this work is to be charged to Fund C-DE-10A. Corporate stock to the amount of $450,000 was authorized for this purpose by the Board of Estimate and Apportionment by resolution adopted February 18, 1910, and amended December 9, 1910.

The resolution appended hereto, if adopted, will carry into effect the recommendations above made and the necessary approval of this Board.

Respectfully, WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to its resolution adopted June 3, 1910, hereby approves the plans, specifications and estimate of cost, four hundred and fifty thousand dollars ($450,000), for the general construction, etc., of the Bushwick High School, Borough of Brooklyn, under the jurisdiction of the Department of Education, provided the specifications are amended as follows:

Page 18, third paragraph, to read as follows:

Other Systems—The contractor, subject to the approval of the Bureau of Buildings and of the Superintendent of School Buildings, may use other systems of floor construction, as per section 106 of the Building Code, consisting of segmental arches of Portland cement concrete, mixed in the proportions of one, two and five, as required by section 18 of said code; * * *

Page 62, seventh paragraph, seventh line, after the words "sempermereous iron," insert the words *or approved equal.*

Yours respectfully, GEORGE CROMWELL, President of the Borough.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, May 31, 1911.

To the Board of Estimate and Apportionment:

Gentlemen—On March 25, 1911, the President of the Borough of Richmond requested modification of the 1911 schedule for the budgetary part appropriation for the Bureau of Engineering, Construction. A report of the Comptroller, relative to the request, was referred on May 25, 1911, to the Corporate Stock Budget Committee for consideration in connection with corporate stock budget salary and wage schedules. The proposed increase is for two Rodmen from $900 to $1,050 per annum. The President states that the incumbents have given efficient service during more than four years in his office.

This change is impossible at the present time, as the position of Rodman at $1,050 is established in the Department for only one incumbent, which position is now filled. In order to make the proposed change, action will be required pursuant to the provisions of section 56 of the Greater New York Charter.

We understand that the Committee on Salaries and Grades of this Board has, on this date, among other grades proposed for the President of the Borough of Richmond, recommended the establishment of the position of Rodman at $1,050 for an unlimited number of incumbents, instead as now for one incumbent only.

We therefore recommend the adoption of the accompanying resolution, making the proposed modification of schedule subject to subsequent favorable action under section 56 of the Charter in the matter of the line item of Rodman at $1,050.

Respectfully,

WM. A. PRENDERGAST, Comptroller; FRANCIS P. BENT, Acting President, Board of Aldermen; GEORGE McANENY, President, Borough of Manhattan; Corporate Stock Budget Committee.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves of the schedule, as revised, for the office of the President of the Borough of Richmond for the year 1911, as follows, except that the line Rodman, 2 at $1,050, shall be construed to read Rodman, 2 at $900, until the grade of Rodman at $1,050 shall be established pursuant to section 56 of the Charter for unlimited number of incumbents instead of for one incumbent, as at the date of the adoption of this resolution:

This is a renewal of our request of February 25, 1911, the modification adopted on April 27 not being in accordance with said request and not meeting our requirements. The modification now proposed provides for the increase in salary of three Rodmen of $150 each, a total increase for this item of $450. This item was disallowed from our former request for the reason that it would result in an increase in the total of the schedule adopted by your Board on January 26. As the schedule is for the same amount called for in the schedule adopted December 15, 1910, I do not believe that the reason for the refusal to allow this increase was well grounded, the schedule adopted on January 26, 1911, being $450 less than that adopted on December 15, 1910.

In the schedule adopted April 27, following our request of February 25, the position of Topographical Draftsman at $1,350 was eliminated for the reason that this position had not been established. A request dated April 17 has been made for the establishment of this position and has been referred to the Committee on Salaries and Grades, but in order that the eight employees now serving in this office under this title and salary be not put to inconvenience with regard to the receipt of their salary, I would ask that this line be allowed to go into the modification and immediate action taken by your Board toward the establishment of the position. I would also request that like action be taken in regard to the item, 4 Rodmen at $1,050 per annum, there being allowed in the modification now in force only 1 Rodman at $1,050, leaving 3 unprovided for, the reason for this being that the position of Rodman has been established for one incumbent in the Budget for 1911, no provision being made for the others, as the position has never been established, although in the cases of both the Topographical Draftsmen at $1,350 and the Rodmen at $1,050, varying numbers have been employed in this office and have been paid by the Finance Department for several years past.

The number of Rodmen at $1,050 per annum now employed is seven, but as above stated, we desire to increase the salary of three of these Rodmen to $1,200, at the same time changing their title to Transitman and Computer, and if it is not considered proper to allow this increase in salary the number of incumbents to be allowed in the position of Rodmen, at $1,050, in establishing this grade should be 7, if the number of incumbents is to be limited.

Trusting that prompt action will be taken in this matter and the modification made as requested, I am, Yours respectfully,

GEORGE CROMWELL, President of the Borough, by LOUIS L. TRIBUS, Acting President.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, May 31, 1911.

The Comptroller presented the following communication from the Department of Bellevue and Allied Hospitals requesting, and report of the Select Committee, consisting of the Comptroller and the President of the Board of Aldermen, recommending the establishment in said Department of the grades of position of Resident Obstetrician, at $1,200 and $900 per annum for one incumbent, respectively:

(On April 27, 1911, the request of the Board of Trustees of Bellevue and Allied Hospitals for the establishment of the above position was referred to said Committee.)

Bellevue and Allied Hospitals, Office of the Board of Trustees, 1st avenue and 26th street, New York, April 19, 1911.

Hon. JOSEPH HAAG, *Secretary, Board of Estimate and Apportionment,* 277 Broadway, New York City:

Sir—The Trustees have the honor to request the Board of Estimate and Apportionment to authorize the establishment of new grades in this Department as follows:

Resident Obstetrician	$1,200 00
Resident Obstetrician	900 00

It is proposed to employ these incumbents in the training school for midwives, an appropriation for the establishment of which was authorized by the Board of Aldermen on March 21, 1911. Respectfully,

J. K. PAULDING, Secretary, Board of Trustees.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, May 29, 1911.

To the Board of Estimate and Apportionment:

Gentlemen—On April 19, 1911, the Board of Trustees of Bellevue and Allied Hospitals requested the establishment, pursuant to the provisions of section 56 of the Greater New York Charter, of the grades of positions of Resident Obstetrician, at $1,200 per annum, and Resident Obstetrician, at $900 per annum. In connection therewith we report as follows:

The Board of Trustees has planned to open a school for midwives in the old Emergency Hospital, 223 East 26th street. The school will take patients and will be in charge of the two Obstetricians for whom the grades are requested. Patients also will be attended in their homes by an Obstetrician, accompanied by a pupil midwife.

The Board of Trustees states the following:

"In 1910 over 52,000 births in The City of New York were attended by midwives. The great majority of these midwives are ignorant and uncleanly, many of them being unable to read or write. From 25 to 40 per cent. of the babies born under their care suffer from ophthalmia. The Board of Health has obtained adequate power to regulate and control the practice of midwives, but there is no place in New York City, nor anywhere in the country, where they can be properly trained. In all the countries of Europe there have been for many years hospital schools for the training of midwives."

We recommend the adoption of the attached resolution approving the request.

Respectfully,

WM. A. PRENDERGAST, Comptroller; FRANCIS P. BENT, Acting President, Board of Aldermen; Select Committee.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the Department of Bellevue and Allied Hospitals of the grades of positions, in addition to those heretofore established, as follows:

Title.	Rate Per Annum.	Number of Incumbents.
Resident Obstetrician	$1,200 00	1
Resident Obstetrician	900 00	1

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Comptroller presented the following communication from the President of the Borough of The Bronx requesting, and report of the Corporate Stock Budget Committee recommending, the modification of Salary Schedule No. 1734 supporting the appropriation made in the Budget for the year 1911 for the office of said Borough

President providing for the increase in salary of a Clerk from $1,050 to $1,350 and the addition of a Clerk at $300 per annum, to take effect April 1, 1911:

(On May 25, 1911, the above matter was referred to the said Committee.)

City of New York, President of the Borough of The Bronx, 3d Avenue and 177th Street, April 11, 1911.

To the Honorable, the Board of Estimate and Apportionment:

Gentlemen—Modification of the schedule of salaries of the Engineering Force, Bureau of Highways, is necessary, which amended will read as follows:

1734. Salaries: Budgetary part allowance, $28,000.

Principal Assistant Engineer	1	at	$4,000 00
Assistant Engineer	1	at	2,700 00
Assistant Engineers	3	at	2,500 00
Assistant Engineers	3	at	2,250 00
Assistant Engineer	1	at	2,100 00
Assistant Engineers	3	at	1,950 00
Assistant Engineer	1	at	1,650 00
Transitman	1	at	1,800 00
Transitman	1	at	1,650 00
Transitmen	5	at	1,500 00
Transitmen and Computers	2	at	1,650 00
Levelers	5	at	1,500 00
Topographical Draftsman	1	at	1,200 00
Rodmen	7	at	1,350 00
Rodmen	8	at	1,200 00
Chainmen and Rodmen	2	at	1,200 00
Axemen	3	at	1,050 00
Axemen	5	at	900 00
Inspector of Cement Tests	1	at	1,350 00
Laborer, per day	1	at	2 25
Clerks	2	at	1,350 00
Clerk	1	at	300 00
Typewriting Copyist	1	at	1,200 00
Stenographer and Typewriter	1	at	900 00

The modification as shown above involves the following changes, namely:

The increase of one Clerk from $1,050 to $1,350, and the addition of one Clerk at $300.

In explanation of same would say that the increase of the Clerk from $1,050 to $1,350 refers to John V. McKenna, who was recently promoted from a Second to a Third Grade Clerk by the Civil Service Commission, he having been in the Second Grade for three years, during which time he had so mastered the duties of his position as to acceptably perform the work of a Clerk who was transferred to another Bureau, and who had been receiving $1,800. The increase is a worthy one.

The Clerk at $300 is necessary in the Engineering Bureau, there being a great deal of minor detail work in connection with the books and records of said Bureau.

Respectfully, CYRUS C. MILLER, President, Borough of The Bronx.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, May 31, 1911.

To the Board of Estimate and Apportionment:

Gentlemen—On April 11, 1911, the President of the Borough of The Bronx requested your approval of a modification of the schedule supporting the budgetary-part appropriation for the Engineering Division, Regular Force, in the Bureau of Highways of his office. On April 24, 1911, the Comptroller submitted a report relative thereto, which was referred to the Corporate Stock Budget Committee for consideration with the schedules of salaries and wages in connection with the Corporate Stock Budget for the ensuing year.

The proposed changes consist of an increase in the salary to John V. McKenna, a Clerk now employed at $1,050 to $1,350, and an increase in force consisting of one Clerk at $300. McKenna has recently passed a promotion examination, having been paid at his present rate for the past three years, during which time he has performed excellent service, and at present is doing the work heretofore performed by a Clerk who received $1,800 per annum, but who has been transferred to another Bureau in the Department.

We recommend the approval of the request and transmit herewith resolution providing therefor. Respectfully,

WM. A. PRENDERGAST, Comptroller; FRANCIS P. BENT, Acting President, Board of Aldermen; GEORGE McANENY, President, Borough of Manhattan; Corporate Stock Budget Committee.

DEPARTMENT OF PARKS.

BOROUGH OF THE BRONX.

Report for the Three Months Ending March 31, 1911.

Hon. WILLIAM J. GAYNOR, *Mayor of the City of New York:*

Sir—I have the honor to submit herewith, in accordance with section 1544 of the Charter, Quarterly Report of the proceedings and finances of the Department of Parks, Borough of The Bronx, from January 1, 1911, to and including March 31, 1911. Respectfully,

T. J. HIGGINS, Commissioner of Parks, Borough of The Bronx.

The maintenance work for the Quarter ending March 31, 1911, was of the customary character of this season of the year, and consisted of the removal of snow and ice from the paths and roadways; repairing of washouts; removal of dead and diseased trees; repairing and painting of wagons, tools, etc., and such other work, as the weather permitted, in preparation for the summer season.

Care of Trees in City Streets.

Total number of trees pruned and sprayed	3,560
Complaints investigated and attended to	118
Dangerous trees removed	16
Total	3,694

The work of the gardeners in the greenhouses consisted of the handling, which included the planting, transferring, etc., of 218,500 miscellaneous plants, seedlings, etc.

The work on the foot-bridge over Bronx Falls which was awarded in the latter part of March, 1910, has been taken over by the Department, as the contractors failed to complete the contract.

The road which connects the road system in Botanical Garden has been cleared, rock stripped, and work will be resumed very shortly. This road is being built by park labor.

Work on addition to greenhouses near Lorillard Mansion, begun during the previous quarter, is now completed satisfactorily, and the greenhouses have been in use for more than a month. Work on addition to greenhouses in the Botanical Garden is likewise progressing satisfactorily, only the superstructure of house No. 4 being uncompleted.

The Vulcan Rail & Construction Company has completed its contract for the delivery of six thousand (6,000) feet of two-pipe iron railing which has been erected by the Botanical Garden force.

The Shelter House in the Botanical Garden, which was delayed by the difficulty in procuring the required chestnut timber, is now completed, and it is expected will be ready early in May.

The shop work in connection with the erection of additional bear dens is nearly completed, and the work of erection will be started very soon.

The contract for the erection of an aviary and winter house for eagles and vultures was awarded last fall, and the contractor was ordered to begin work January 23, 1911.

The work of furnishing and fitting up the new administration building was completed during this quarter, and the final estimate was awarded January 9, 1911.

Work on contract for reconstructing the roadway of the Bronx and Pelham parkway from its junction with the Eastern boulevard to the crossing of the N. Y., N. H. & H. R. has been completed.

Plans and specifications have been prepared for reconstructing and surfacing the roadway of this Parkway from the Southern boulevard to the Butler street road, and the letting of the contract will probably be advertised in May.

Plans and specifications for a reinforced concrete bridge from Hunter to Twin Island have been prepared, and the work has been advertised.

Work has been resumed on the construction of the brick drain in Van Cortlandt Park. This work was suspended during the winter, and the contract will probably be completed by the first of July.

Contract for the improvement of the Clay avenue side of Claremont Park was awarded on March 9, 1911, and work will begin early in April.

The total receipts for the quarter from rents, privileges, lockers, building projections, etc., are $3,055.43.

Attached is financial report for the quarter.

Sec. 2—The grant of this privilege is subject to the following conditions, which shall be complied with by the Company:

First—The consent in writing of the owners of half in value of the property bounded on said streets and avenues to the construction and operation of said railroad shall be obtained by the Company within one (1) month from the signing of this contract by the Mayor, and a copy of such consents shall be filed with the Board within such time, or in the event that such consents cannot be obtained within such time, the Company shall within said one (1) month or within one (1) month thereafter, make application to the Appellate Division of the Supreme Court for the appointment of Commissioners in the manner provided by the Railroad Law to determine if said railroad ought to be constructed; otherwise this grant shall cease and determine.

Second—The said right to construct, maintain and operate said railroad shall be held and enjoyed by the Company for the term of fifteen (15) years from the date upon which this contract is signed by the Mayor.

Third—Upon the termination of this contract at the expiration of said fifteen (15) years, or upon the termination of the rights hereby granted for any cause at any other time, or upon the dissolution of the Company before such termination, the tracks and equipments of the Company constructed pursuant to this contract within the streets and avenues shall become the property of the City without cost, and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

If, however, at the termination of this contract, as above, the Board shall so order by resolution, the Company shall, upon thirty (30) days' notice from the Board, remove any and all of its tracks and other equipment constructed pursuant to this contract and the said streets and avenues shall be restored to their original condition at the sole cost and expense of the Company.

Fourth—The Company shall pay to the City for the privilege hereby granted the following sums of money:

(a) The sum of three thousand dollars ($3,000) in cash within thirty (30) days after the date on which this contract is signed by the Mayor and before anything is done in exercise of the privilege hereby granted.

(b) During the first ten (10) years of this contract an annual sum of five hundred dollars ($500).

During the succeeding five (5) years of this contract an annual sum of one thousand dollars ($1,000).

The annual charges shall commence from the date upon which this contract is signed by the Mayor.

All annual charges, as above, shall be paid into the Treasury of the City on November 1 of each year and shall be for the amount due to September 30 next preceding. Provided that the first annual payment shall be only for that proportion of the first annual charge as the time between the date upon which this contract is signed by the Mayor and September 30 following shall bear to the whole of one year.

Any and all payments to be made by the terms of this contract to the City by the Company shall not be considered in any manner in the nature of a tax, but such payments shall be made in addition to any and all taxes of whatsoever kind or description, now or hereafter required to be paid by any ordinance of the City, or resolution of the Board, or any law of the State of New York.

Fifth—The annual charges or payments shall continue throughout the whole term of this contract, notwithstanding any clause in any statute or in the charter of any other railway or railroad company providing for payment for railway or railroad rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted, or of any part thereof, or of any of the routes mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this contract.

Sixth—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any person or corporation a franchise or right to use the streets hereinbefore described or any part of them for railway purposes.

Seventh—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall the title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company, or by operation of law, whether under the provisions of the statute relating to the consolidation or merger of corporations or otherwise, without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Eighth—The Company shall commence construction of the railroad herein authorized within six (6) months from the date upon which the consents of the property owners are filed with the Board, or from the date of the order of the Appellate Division of the Supreme Court made pursuant to section 174 of the Railroad Law confirming the determination of the Commissioners appointed thereunder, that such railroad ought to be constructed, and shall complete the construction and place the same in full operation within nine (9) months from the date of filing such consents or the date of such order, otherwise this right shall cease and determine, and all sums paid, or which may be deposited with the Comptroller of the City, as hereinafter provided, shall thereupon be forfeited to the City; provided that the period for commencement and the period for completion and placing the railway in full operation may be extended by the Board, but the total extension of time for either of such periods shall not exceed in the aggregate six (6) months; and provided, further, that when the commencement or completion of said construction shall be prevented by legal proceedings in any court or by works of public improvement, or from other causes not within the control of the Company, the time for the commencement or completion of such construction may be extended for the period of such prevention, but no delay shall be allowed for unless the court proceedings shall be diligently prosecuted by the Company, and provided further, that in no case shall such delay be deemed to begin until the Company shall have given written notice to the Board of any such court proceedings or other occasion of delay, and deliver to the Board copies of any injunction or other orders, and the papers upon which the same shall have been granted, and unless upon the request of the Board the Company shall, in writing, consent that the Board, either in its own name as a party, or in the name of the City as a party, may intervene in any such proceedings.

Ninth—Said railroad shall be constructed, maintained and operated subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided by the Charter of the City.

No construction upon said railroad shall be commenced until written permits have been obtained from the proper City officials.

In any permits so issued such officials may also impose such conditions, as a condition of the granting of the same, as are necessary for the purpose of protecting any structures, in the streets and avenues, over which such officials have jurisdiction, and the Company shall comply with such conditions.

The electrical equipment to be installed, if any, by the Company for the operation of the railroad within the limits of the City, whether the same be upon streets and avenues or upon private property, shall be constructed and maintained under the supervision and control of the Commissioner of Water Supply, Gas and Electricity.

Tenth—The work of construction of the tracks hereby authorized shall be done in such manner as shall not substantially interfere with the ordinary use of any street or avenue as a public highway.

Eleventh—Cars may be operated upon said tracks by steam locomotives, which shall be housed or boxed so as to conform with the type commonly known as the dummy engine, or by any other motive power which may be approved by the Board and consented to by the abutting property owners, in accordance with the provisions of law, and by the Public Service Commission for the First District of the State of New York, provided, however, that the Board, upon giving to the grantee one year's notice, may require the Company to operate its railroad upon the whole or any portion of the tracks hereby authorized by such system of electric power as may be designated by the Board, and the Company shall thereupon discontinue the use of steam locomotives from such tracks.

Twelfth—Neither passengers nor vehicles shall be prevented from crossing the tracks hereby authorized by the occupation of such tracks by cars or trains operated thereon, for a greater period than five consecutive minutes at any time, and the aggregate of such periods shall not exceed ten minutes in any hour between 7 o'clock a. m. and 6 o'clock p. m.

Thirteenth—Should the Company be allowed to operate at the same grade as the streets and avenues, the Company shall station flagmen at such points as shall be necessary to exclude pedestrians and vehicles from the tracks at all times when cars or trains shall be operated thereon. Should it seem necessary in the opinion of the Board at any time during the term of this contract, that gates be erected, maintained and operated across any of the streets or avenues for the purpose of excluding pedestrians and vehicles from the tracks hereby authorized, then the Company shall erect, maintain and operate such gates as may be designated, upon thirty days' notice by the Board to the Company.

Fourteenth—As long as said tracks or any portion thereof remain in any street or avenue, the Company shall set the curbs, pave the roadways and sidewalks and keep in permanent repair that portion of the surface of the streets and avenues in which said railroad is constructed, between its tracks, the rails of its tracks for a distance of two (2) feet beyond the rails on either side thereof under the supervision of the local authorities whenever required by them to do so, and in such manner as they may prescribe. In case of the neglect of the Company to make pavement or repairs after the expiration of thirty (30) days' notice to do so from the President of the Borough of Brooklyn, said President may make the same at the expense of the Company. And the City shall have the right to change the material or character of the pavement of any street or avenue, and in that event the Company shall be bound to replace such pavement in the manner directed by the proper City official at its own expense, and the provisions as to repairs herein contained shall apply to such renewed or altered pavement.

Fifteenth—Should the Company be allowed to operate at the same grade as the streets and avenues, it shall at all times keep the streets and avenues upon which the said railroad is constructed, between its tracks, the rails of its track and for a distance of two (2) feet beyond the rails, on either side thereof, free and clear from ice and snow; provided, however, that the Company shall, at the option of the Commissioner of Street Cleaning, enter into an agreement for each winter season, or part thereof, to clean an equivalent amount of street surface from house line to house line.

Sixteenth—Should the grades or lines of the streets and avenues in which the railroad is hereby authorized be changed at any time after the railroad has been constructed and during the term of this contract, the Company shall, at its own expense, change its tracks and appurtenances to conform with such new grades and lines, and during the construction of any public improvement upon said streets and avenues the Company shall take care of and protect the tracks and appurtenances at its own expense, all to be done subject to the direction of the City official having jurisdiction over the construction of such change.

Seventeenth—It is agreed that the right hereby granted to operate a railroad shall not be in preference or in hindrance to public work of the City, and should the said railroad in any way interfere with the construction of public works in the streets and avenues, whether the same is done by the City directly or by a contractor for the City, the Company shall, at its own expense, protect or move the tracks and appurtenances in the manner directed by the City officials having jurisdiction over such public work.

Eighteenth—Any alterations to the sewerage or drainage systems, or to any other subsurface or to any surface structures in the streets, required on account of the construction or operation of the railroad, shall be made at the sole cost of the Company, and in such manner as the proper City officials may prescribe.

Nineteenth—Said railroad shall be constructed and operated in the latest approved manner of street railroad construction and operation, and it is hereby agreed that the Board may require the Company to improve or add to the railroad equipment, including rolling stock and railroad appurtenances, from time to time, as such additions and improvements are necessary, in the opinion of the Board. Upon failure on the part of the Company to comply with the direction of the Board within a reasonable time the rights hereby granted shall cease and determine.

Twentieth—The rates for carrying property upon the tracks hereby authorized shall in all cases be reasonable in amount, subject to the control of the Board, and may be fixed by the Board after notice to the Company, and a hearing had thereon, and when so fixed such rates shall be binding upon the Company, and no rates in excess of those fixed shall be charged for such service.

Twenty-first—The Company shall at all times keep accurate books of account of the gross receipts from all sources within the limits of the City, and shall, on or before November 1 of each year, make a verified report to the Comptroller of the City of the business done by the Company, for the year ending September 30 next preceding, in such form as he may prescribe. Such report shall contain a statement of such gross receipts, the total miles in operation within the limits of the City and the miles of railroad constructed and operated under this contract and such other information as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report, and may examine its officers under oath.

Twenty-second—In case of any violation or breach or failure to comply with any of the provisions herein contained, or with any orders of the Board, acting under the powers herein reserved, the franchise or consent herein granted may be forfeited by a suit brought by the Corporation Counsel, on notice of ten (10) days to the Company, or at the option of the Board by resolution of said Board, which said resolution may contain a provision to the effect that the railroad constructed and in use by virtue of this contract shall thereupon become the property of the City without proceedings at law or in equity. Provided, however, that such action by the Board shall not be taken until the Board shall give notice to the Company to appear before it on a certain day not less than ten (10) days after the date of such notice, to show cause why such resolution declaring the contract forfeited should not be adopted. In case the Company fails to appear, action may be taken by the Board forthwith.

Twenty-third—If the Company shall fail to give efficient public service at the rates herein fixed, or fail to maintain its structures and equipment as herein provided in good condition throughout the whole term of this contract, the Board may give notice to the Company specifying any default on the part of the Company, and requiring the Company to remedy the same within a reasonable time; and upon failure of the Company to remedy such default within a reasonable time the Company shall, for each day thereafter during which the default or defect remains, pay to the City the sum of two hundred and fifty dollars ($250), as fixed or liquidated damages, or the Board, in case such structures or equipment which may affect the surface of the streets shall not be put in good condition within a reasonable time after notice by the Board as aforesaid shall have the right to make all needed repairs at the expense of the Company, in which case the Company shall pay to the City the amount of the cost of such repairs, with legal interest thereon, all of which sums may be deducted from the fund hereinafter provided for.

Twenty-fourth—The Company shall assume all liability to persons or property by reason of the construction or operation of the railroad authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or default of the Company.

Twenty-fifth—This grant is upon the express condition that the Company, within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of rights conferred hereby, shall deposit with the Comptroller of the City the sum of Five Thousand dollars ($5,000), either in money or securities, to be approved by him, which fund shall be security for the performance by the Company of all of the terms and conditions of this contract and compliance with all orders of the Board acting under the powers herein reserved, especially those which relate to the payment of the annual charges for the privilege hereby granted, the rendering of efficient public service at reasonable rates, the repairs of the street pavement, the removal of snow and ice, the quality of construction of the railroad, and the maintenance of the property in good condition throughout the whole term of this contract, and in case of default in the performance by the Company of such terms and conditions, or compliance with such orders or either or any of them, the City shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings; or after default in the payment of the annual charges, shall collect the same, with interest, from the said fund after ten (10) days' notice to the Company; or in case of failure to observe the said terms and conditions of this contract and orders of the Board acting hereunder, relating to the obstruction of traffic, the maintenance of gates and flagmen, the Company shall pay a penalty of fifty dollars ($50) per day for each day of violation, all of which sums may be deducted from said fund.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

The Board, on complaint made, shall give notice to the Company, directing its President, or other officer, to appear before the Board on a certain day not less than ten (10) days after the date of such notice, to show cause why the Company should not be penalized in accordance with the foregoing provisions. If the Company fails to make an appearance, or, after a hearing appears, in the judgment of the Board, to be in fault, said Board shall forthwith impose the prescribed penalty, or where the amount of the penalty is not prescribed herein, such amount as appears to the Board to be just, and without legal procedure direct the Comptroller to withdraw the amount of such penalty from the security fund deposited with him. In case of any drafts made upon the security fund the Company shall, upon ten (10) days' notice, pay to the City a sum sufficient to restore said security fund to the original amount of five thousand dollars ($5,000), and in default thereof, this contract shall be cancelled and annulled at the option of the Board, acting on behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City.

Twenty-sixth—The grant of this privilege is subject to whatever right, title or interest the owners of abutting property or others may have in and to the streets and avenues in which the Company is hereby authorized to operate.

Twenty-seventh—The Company hereby agrees that it will not institute any proceedings to acquire by condemnation any land, property, appurtenances or rights pursuant to any law, unless and until permitted to do so by resolution of the Board, otherwise this grant shall cease and determine.

Twenty-eighth—The words "notice" or "direction," wherever used in this contract, shall be deemed to mean a written notice or direction. Every such notice or direction to be served upon the Company shall be delivered at such office in the City as shall have been designated by the Company, or if no such office shall have been designated, or if such designation shall have for any reason become inoperative, shall be mailed in the City, postage prepaid, addressed to the Company at the City. Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing.

Twenty-ninth—If at any time the powers of the Board or any other of the authorities herein mentioned or intended to be mentioned, shall be transferred by law to any other Board, authority, officer or officers, then and in such case such other Board, authority, officer or officers, shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

Sec. 3—Nothing in this contract shall be construed as in any way limiting the present or future jurisdiction of the Public Service Commission under the Laws of the State of New York.

Sec. 4—This grant is also upon the further and express condition that the provisions of Article 5 and other provisions of the Railroad Law, pertinent hereto, shall be strictly complied with by the Company.

They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall, in any event, be less than the sum required to be paid for the last year of the original term of this contract. If in any case the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Third—The Company shall pay to the City for the privilege hereby granted, the following sums of money:

(a) The sum of five hundred dollars ($500) in cash within sixty (60) days after the date on which this contract is signed by the Mayor, and before anything is done in exercise of the privilege hereby granted.

(b) During the first term of five (5) years an annual sum which shall in no case be less than four hundred and seventy-five dollars ($475), and which shall be equal to three (3) per cent. of its gross annual receipts if such percentage shall exceed the sum of four hundred and seventy-five dollars ($475).

During the second term of five (5) years an annual sum which shall in no case be less than eight hundred and seventy-five dollars ($875), and which shall be equal to five (5) per cent. of its gross annual receipts, if such percentage shall exceed the sum of eight hundred and seventy-five dollars ($875).

During the third term of five (5) years an annual sum which shall in no case be less than nine hundred and seventy-five dollars ($975) and which shall be equal to five (5) per cent. of its gross annual receipts, if such percentage shall exceed the sum of nine hundred and seventy-five dollars ($975).

During the fourth term of five (5) years an annual sum which shall in no case be less than one thousand and seventy-five dollars ($1,075) and which shall be equal to five (5) per cent. of its gross annual receipts, if such percentage shall exceed the sum of one thousand and seventy-five dollars ($1,075).

During the remaining term, expiring* an annual sum which shall in no case be less than one thousand one hundred and seventy-five dollars ($1,175), and which shall be equal to five (5) per cent. of its gross annual receipts, if such percentage shall exceed the sum of one thousand one hundred and seventy-five dollars ($1,175).

As the Company is operating both railway and electric light and power properties, it is agreed that the gross annual receipts mentioned above shall be the portion of the gross receipts from the railway property of the Company, as distinguished from the electric light and power property, as shall bear the same proportion to the whole gross receipts from such railway property as the length of the extension hereby authorized shall bear to the entire length of the railway of the Company in operation within the limits of the City.

The annual charges shall commence from the date upon which this contract is signed by the Mayor.

All annual charges as above shall be paid into the treasury of the City on November 1 of each year and shall be for the amount due to September 30 next preceding. Provided that the first annual payment shall be only for that proportion of the first annual charge as the time between the date upon which this contract is signed by the Mayor and September 30 following shall bear to the whole of one year.

Whenever the percentage required to be paid shall exceed the minimum amount as above, then such sum over and above such minimum shall be paid on or before November 1 in each year for the year ending September 30 next preceding.

The annual charges herein provided are intended to include the percentages of gross receipts now required to be paid by railway companies to the City, pursuant to the Railroad Law as amended.

The sum of five hundred dollars ($500) which is hereinbefore required to be paid to the City by the Company within sixty (60) days after the date on which this contract is signed by the Mayor shall not be considered in any manner in the nature of a tax, but such payment shall be made in addition to any and all taxes of whatsoever kind or description, now or hereafter required to be paid by any ordinance of the City, or resolution of the Board, or any law of the State of New York.

Fourth—The annual charges or payments shall continue throughout the whole term of this contract (whether original or renewal), notwithstanding any clause in any statute or in the charter of any other railway or railroad company providing for payment for railway or railroad rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted (whether original or renewal), or of any part thereof, or of any of the routes mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this contract.

Fifth—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual or other corporation a similar right or privilege upon the same or other terms and conditions, over the route hereinbefore described.

The use of the railway constructed by the Company under this contract, including the tracks, wires and other equipment or any structures used in connection therewith, in streets and avenues and private property hereinbefore described shall be permitted by the Company, to any individual or corporation to which the City may have granted, or may hereafter grant, the right or privilege to use such streets and avenues for street railway purposes, upon payment of an annual sum by such individual or corporation to the Company, which shall equal the legal interest on such proportion of the actual cost of the construction of such railway and structures, and additions and betterments thereto, as the number of cars operated by such individual or corporation shall bear to the number of cars operated by the companies then using the same; and also such proportion of the cost of keeping the tracks and electrical equipment in repair, and the cost of additions and betterments thereto, such proportion of laying and repairing of pavement and removal of snow and ice and all other duties imposed upon the Company by the terms of this contract in connection with the maintenance or the operation of said railway so used, as the number of cars operated by such individual or corporation shall bear to the number of cars operated by the companies then using the same, together with the actual cost of the power necessary for the operation of the cars thereon of such individual or corporation. Provided, however, that if in the opinion of the Company, the legal rate of interest upon the cost of such railway shall be an insufficient sum to be paid for the use of such tracks, it may appeal to the Board and the Board may fix a percentage upon the cost to be paid to the Company, at a sum in excess of the legal rate of interest, if, in its opinion, such action is justified.

The Company shall not at any time oppose, but shall, upon the request of the Board, consent to the construction or operation of any street surface railway which may necessitate the use of any portion of the railway which shall be constructed by the Company, pursuant to this contract.

Sixth—The rights and privileges hereby granted shall not be assigned, either in whole or in part or leased or sublet in any manner, nor shall the title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in any wise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Seventh—Upon the termination of this original contract, or if the same be renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any cause, or upon the dissolution of the Company before such termination, the tracks and equipments of the Company constructed, pursuant to this contract, within the streets and avenues shall become the property of the City without cost, and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

If, however, at the termination of this contract as above, the Board shall so order by resolution, the Company shall, upon thirty (30) days' notice from the Board remove any and all of its tracks and other equipment constructed pursuant to this contract and the said streets and avenues shall be restored to their original condition at the sole cost and expense of the Company.

Eighth—The Company shall commence construction of the railway herein authorized within three (3) months from the date upon which the consents of the property owners are filed with the Board or from the date of the order of the Appellate Division of the Supreme Court made pursuant to Section 174 of the Railroad Law confirming the determination of the commissioners appointed thereunder, that such railway ought to be constructed and shall complete the construction and place the same in full operation within three (3) months from the date of filing such consents or the date of such order, otherwise this right shall cease and determine, and all sums paid, or which may be deposited with the Comptroller of the City, as hereinafter provided, shall thereupon be forfeited to the City; provided that the period for commencement and the period for completion and placing the railway in full operation may be extended by the Board, but the total extension of time for either of such periods shall not exceed in the aggregate six (6) months; and provided, further, that when the commencement or completion of said construction shall be prevented by legal proceedings in any court or by works of public improvement, or from other causes not within the control of the Company, the time for the commencement or completion of such construction may be extended for the period of such prevention, but no delay shall be allowed for unless the court proceedings shall be diligently prosecuted by the Company, and provided, further, that in no case shall such delay be deemed to begin until the Company shall have given written notice to the Board of any such court proceedings or other occasion of delay, and deliver to the Board copies of any injunction or other orders, and the papers upon which the same shall have been granted, and unless upon the request of the Board the Company shall, in writing, consent that the Board either in its own name as a party, or in the name of the City as a party, may intervene in any such proceedings.

Ninth—Said railway shall be constructed and operated in the latest approved manner of street railway construction and operation, and it is hereby agreed that the Board may require the Company to improve or add to the railway equipment, including rolling stock and railway appurtenances, from time to time, as such additions and improvements are necessary, in the opinion of the Board. Upon failure on the part of the Company to comply with the direction of the Board within a reasonable time, the rights hereby granted shall cease and determine.

Tenth—Said railway shall be constructed, maintained and operated subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided by the Charter of the City.

No construction upon said railway shall be commenced until written permits have been obtained from the proper City officials.

In any permits so issued such officials may also impose such conditions, as a condition of the granting of the same, as are necessary for the purpose of protecting any structures, in the streets and avenues, over which such officials have jurisdiction and the Company shall comply with such conditions.

The electrical equipment to be installed by the Company for the operation of the railway within the limits of the City, whether the same be upon streets and avenues or upon private property, shall be constructed and maintained under the supervision and control of the Commissioner of Water Supply, Gas and Electricity.

Eleventh—Said railway may be operated by overhead electric power substantially similar to the overhead electric system now in use by street surface railways in the Borough of Richmond, or by any other motive power, except locomotive steam power or horse power, which may be approved by the Board, and consented to by the abutting property owners, in accordance with the provisions of law, and by the Public Service Commission for the First District of the State of New York.

Twelfth—The rate of fare for any passenger upon said railway shall not exceed five (5) cents and the Company shall not charge any passenger more than five (5) cents for one continuous ride, from any point on its road or on any road, line or branch operated by it or under its control to any other point thereof, or any connecting branch thereof within the limits of the City.

The Company shall carry free upon the railway hereby authorized during the term of this contract all members of the Police and Fire Departments of the City, when such employees are in full uniform.

Thirteenth—No cars shall be operated upon the railway hereby authorized, other than passenger cars, cars for the transportation of express matter, mail matter and cars necessary for the repair or maintenance of the railway, and no freight cars shall be operated upon the tracks of said railway.

The rate for the carrying of such property over the said railway upon the cars of the Company shall in all cases be reasonable in amount, subject to the control of the Board, and may be fixed by the Board after notice to the Company and a hearing had thereon, and when so fixed such rates shall be binding upon the Company, and no greater sum shall be charged for such services than provided for by it.

Fourteenth—The Company shall attach to each car run over the said railway proper fenders and wheel-guards, in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities, or as may be required by resolution of the Board.

Fifteenth—All cars which are operated on said railway shall be heated during the cold weather, in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities, or as may be required by resolution of the Board.

Sixteenth—All cars operated on said railway shall be well lighted by electricity, or by some lighting system equally efficient, or as may be required by resolution of the Board.

Seventeenth—Cars on the said railway shall run at intervals of not more than thirty (30) minutes both day and night, and as much oftener as reasonable convenience of the public may require, or as may be directed by the Board.

Provided, however, that the Company shall not be required to operate its cars between the hours of 1 o'clock a. m. and 5 o'clock a. m. each day, unless the Board shall determine after a hearing had thereon that public convenience requires the operation of cars during said hours.

Eighteenth—The Company, so long as it shall continue to use any of the tracks upon the streets and avenues in which said railway shall be constructed, shall, if required by the President of the Borough of Richmond, cause to be watered at least three (3) times every twenty-four (24) hours when the temperature is above thirty-five (35) degrees Fahrenheit, the entire width of the streets and avenues, except when the width of such streets and avenues shall exceed sixty (60) feet between curb lines, in which case the Company shall cause to be watered only sixty (60) feet in width of such roadway, and the Company shall provide for such purpose at least one tank car, the capacity of which shall be sufficient to water such streets and avenues in a satisfactory manner.

Provided, however, that the Company may, with the approval of the City official having jurisdiction over such matters, oil that portion of the surface of the streets and avenues between the tracks, the rails of the tracks and two (2) feet beyond the rails on each side thereof, at least twice each summer season, in such manner as may be necessary to prevent the rising of dust, and if the Company shall so oil such portions of the surface of the streets and avenues, then the Company shall not be required to water such streets and avenues as herein provided.

Nineteenth—The Company shall at all times keep the streets and avenues upon which the said railway is constructed, between its tracks, the rails of its tracks and for a distance of two (2) feet beyond the rails, on either side thereof, free and clear from ice and snow; provided, however, that the Company shall, at the option of the President of the Borough, enter into an agreement for each winter season, or part thereof, to clean an equivalent amount of street surface from house line to house line.

Twentieth—As long as said railway, or any portion thereof, remains in any street or avenue, the Company shall pave and keep in permanent repair that portion of the surface of the street or avenue in which the said railway is constructed between its tracks, the rails of its tracks and for a distance of two (2) feet beyond the rails on either side thereof, under the supervision of the local authorities, whenever required by them to do so, and in such manner as they may prescribe. In case of the neglect of the Company to make pavement or repairs after the expiration of thirty (30) days' notice to do so from the President of the Borough of Richmond, said President may make the same at the expense of the Company. And the City shall have the right to change the material or character of the pavement of any street or avenue, and in that event the Company shall be bound to replace such pavement in the manner directed by the proper City official, at its own expense, and the provisions as to repairs herein contained shall apply to such renewed or altered pavement.

The Company shall cause to be paved a strip sixty-four (64) feet in width across the entire roadways of New York and Tompkins avenues at their intersections with Wadsworth avenue, and a strip sixty (60) feet in width across the entire roadway of Richmond avenue at its intersection with Ocean avenue. The precise location of such pavement and the kind and character of the same shall be as determined by the President of the Borough of Richmond, and the work shall be done in the manner directed by said President.

Twenty-first—Any alteration to the sewerage or drainage systems, or to any other subsurface or to any surface structures in the streets, required on account of the construction or operation of the railway, shall be made at the sole cost of the Company, and in such manner as the proper City officials may prescribe.

Twenty-second—It is agreed that the right hereby granted to operate a street surface railway shall not be in preference or in hindrance to public work of the City, and should the said railway in any way interfere with the construction of public works in the streets and avenues, whether the same is done by the City directly or by a contractor for the City, the Company shall, at its own expense protect or move the tracks and appurtenances in the manner directed by the City officials having jurisdiction over such public work.

Twenty-third—Should the grades or lines of the streets and avenues in which the railway is hereby authorized be changed at any time after the railway has been constructed and during the term of this contract, the Company shall, at its own expense, change its tracks and appurtenances to conform with such new grades and lines, and during the construction of any public improvement upon said streets and avenues the Company shall take care of and protect the tracks and appurtenances at its own expense, all to be done subject to the direction of the City official having jurisdiction over the construction of such change.

Twenty-fourth—The Company covenants and agrees to abandon and relinquish and does hereby abandon and relinquish to the City all its

rights and franchises to construct, maintain and operate a street surface railway upon the route beginning at the intersection of New York avenue with Wadsworth avenue; thence upon New York avenue to Richmond avenue; thence upon Richmond avenue to Ocean avenue, and the Company shall, within one year from the date on which this contract is signed by the Mayor, comply with the provisions of Section 184 of the Railroad Law in regard to the abandonment of said route so abandoned and relinquished, and shall remove therefrom any and all existing tracks of the Company within such time, and restore the pavement in the manner prescribed by the President of the Borough of Richmond. If the Company shall fail to secure the approval of the Public Service Commission or shall fail for any other reason to comply with the provisions of this subdivision within the time stipulated this contract shall be void and of no effect, and the grant made herein shall thereupon cease and determine. Provided, however, the Board may extend said period for a period or periods not exceeding in the aggregate six months.

Twenty-fifth—Should the City at any time during the term of this contract lay out and acquire a street of sixty-four (64) or more feet in width, between New York avenue and Tompkins avenue, the lines of which shall approximately correspond with the proposed street shown upon the map hereinbefore described, and made a part of this contract, as Wadsworth avenue, then the Company shall, on one year's notice, alter the position of the curbs in said Wadsworth avenue to such position as shall be directed by the municipal authorities having jurisdiction and the Company shall cause to be paved the entire portion of the roadway between the new curb lines of said Wadsworth avenue which is not now paved under the supervision of the municipal authorities having jurisdiction in such matters and such authorities shall designate the kind and character of the pavement to be laid.

Should the City at any time during the term of this contract lay out a new street along all or any portion of the railway hereby authorized, between the northerly line of Richmond avenue and the westerly line of Tompkins avenue, then the Company shall convey or cause to be conveyed the tree and clear title to all of that portion or portions of land now claimed to be owned by the Company and shown upon the map hereinbefore described and made a part of this contract, which shall lie within the lines of such new street or any portion of the same as may be laid out by the City, and should the City at any time during the term of this contract lay out the portion of such new street immediately north of Richmond avenue, then the Company shall convey or cause to be conveyed the free and clear title to all of those two triangular pieces or parcels of land, one of which lies immediately south of the property of the Company, as shown upon said map and between the easterly line of Florida avenue and the easterly line of such new street, being shown upon the hereinbefore described map as Parcel A, and the other of which has a frontage on Richmond avenue and lies between the westerly side of Florida avenue and the westerly side of such new street, being shown upon said map as Parcel B.

The conveyances hereinabove required shall be executed within thirty (30) days of the date of the approval by the Mayor of the resolution of the Board of Estimate and Apportionment adopting the map laying out such new street or streets.

The Company hereby agrees that if the City is, or shall become, entitled to acquire, and shall at any time during the term of this contract acquire or otherwise come into the possession of any of the property on which railway tracks shall be constructed on that portion of the route described herein as private property, no compensation shall be awarded for the right to have railway tracks thereon.

When the City shall have acquired or come into possession of any property, as provided above, then the rights hereby granted in the streets and avenues shall be extended to cover such property and all the terms and conditions of this contract shall be applicable thereto.

Twenty-sixth—The Company shall submit to the Board a report not later than November 1 of each year for the year ending September 30 next preceding, and at any other time, upon request of the Board, which shall state:

1. The amount of stock issued, for cash, for property.
2. The amount paid in as by last report.
3. The total amount of capital stock paid in.
4. The funded debt by last report.
5. The total amount of funded debt.
6. The floating debt as by last report.
7. The total amount of floating debt.
8. The total amount of funded and floating debt.
9. The average rate per annum of interest on funded debt.
10. Statement of dividends paid during the year.
11. The total amount expended for same.
12. The names of the directors elected at the last meeting of the Corporation held for such purpose.
13. Location, value and amount paid for real estate owned by the Company as by last report.
14. Location, value and amount paid for real estate now owned by the Company.
15. Number of passengers carried during the year.
16. Total receipts of Company for each class of business.
17. Amounts paid by the Company for damage to persons or property on account of construction and operation.
18. Total expenses for operation, including salaries.

—and such other information in regard to the business of the Company as may be required by the Board.

Twenty-seventh—The Company shall at all times keep accurate books of account of the gross receipts from all sources within the limits of the City, and shall, on or before November 1 of each year, make a verified report to the Comptroller of the City of the business done by the Company, for the year ending September 30 next preceding, in such form as he may prescribe. Such report shall contain a statement of such gross receipts, the total miles in operation within the limits of the City and the miles of railway constructed and operated under this contract, and such other information as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report, and may examine its officers under oath.

Twenty-eighth—In case of any violation or breach or failure to comply with any of the provisions herein contained, or with any orders of the Board, acting under the powers herein reserved, the franchise or consent herein granted may be forfeited by a suit brought by the Corporation Counsel, on notice of ten (10) days to the Company, or at the option of the Board by resolution of said Board, which said resolution may contain a provision to the effect that the railway constructed and in use by virtue of this contract shall thereupon become the property of the City without proceedings at law or in equity. Provided, however, that such action by the Board shall not be taken until the Board shall give notice to the Company to appear before it on a certain day not less than ten (10) days after the date of such notice, to show cause why such resolution declaring the contract forfeited should not be adopted. In case the Company fails to appear, action may be taken by the Board forthwith.

Twenty-ninth—If the Company shall fail to give efficient public service at the rates herein fixed, or fail to maintain its structures and equipment as herein provided in good condition throughout the whole term of this contract, the Board may give notice to the Company specifying any default on the part of the Company, and requiring the Company to remedy the same within a reasonable time, and upon failure of the Company to remedy such default within a reasonable time, the Company shall, for each day thereafter during which the default or defect remains, pay to the City the sum of two hundred and fifty dollars ($250) as fixed or liquidated damages, or the Board, in case such structures or equipment which may affect the surface of the streets shall not be put in good condition within a reasonable time after notice by the Board as aforesaid shall have the right to make all needed repairs at the expense of the Company, in which case the Company shall pay to the City the amount of the cost of such repairs, with legal interest thereon, all of which sums may be deducted from the fund hereinafter provided for.

Thirtieth—The Company shall assume all liability to persons or property by reason of the construction or operation of the railway authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or default of the Company.

Thirty-first—This grant is upon the express condition that the Company, within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of the City the sum of one thousand dollars ($1,000), either in money or securities, to be approved by him, which fund shall be security for the performance by the Company of all the terms and conditions of this contract and compliance with all orders of the Board acting under the powers herein reserved, especially those which relate to the payment of the annual charges for the privilege hereby granted, the rendering of efficient public service at the rates herein fixed, the repairs of the street pavement, the removal of snow and ice, the quality of construction of the railway and the maintenance of the property in good condition throughout the whole term of this contract, and in case of default in the performance by the Company of such terms and conditions or compliance with such orders, or either or any of them, the City shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings; or after default in the payment of the annual charges, shall collect the same, with interest, from the said fund after ten (10) days' notice to the Company; or in case of failure to observe the said terms and conditions of this contract and orders of the Board acting hereunder, relating to the headway, heating and lighting of cars, fenders and wheel guards, the Company shall pay a penalty of fifty dollars ($50) per day for each day of violation, and the further sum of ten dollars ($10) per day for each car that shall not be properly heated, lighted or supplied with fenders or wheel guards, in case of a violation of the provisions relating to those matters, all of which sums may be deducted from said fund.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

The Board, on complaint made, shall give notice to the Company, directing its President or other officer, to appear before the Board on a certain day not less than ten (10) days after the date of such notice, to show cause why the Company should not be penalized in accordance with the foregoing provisions. If the Company fails to make an appearance, or, after a hearing appears in the judgment of the Board to be in fault, said Board shall forthwith impose the prescribed penalty, or where the amount of the penalty is not prescribed herein, such amount as appears to the Board to be just, and without legal procedure direct the Comptroller to withdraw the amount of such penalty from the security fund deposited with him. In case of any drafts made upon the security fund the Company shall, upon ten (10) days' notice, pay to the City a sum sufficient to restore said security fund to the original amount of one thousand dollars ($1,000), and in default thereof this contract shall be cancelled and annulled at the option of the Board, acting in behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City.

Thirty-second—The words "notice" or "direction," wherever used in this contract, shall be deemed to mean a written notice or direction. Every such notice or direction to be served upon the Company shall be delivered at such office in the City as shall have been designated by the Company, or if no such office shall have been designated, or if such designation shall have for any reason become inoperative, shall be mailed in the City, postage prepaid, addressed to the Company at the City. Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing.

Thirty-third—The words "streets or avenues," and "streets and avenues," wherever used in this contract, shall be deemed to mean "streets, avenues, highways, driveways, concourses, boulevards, bridges, viaducts, public places or any other property to which the City has title or over which the public has an easement," encountered in the route hereinabove described, and upon or in which authority is hereby given the Company to construct a railway.

Thirty-fourth—If at any time the powers of the Board or any other of the authorities herein mentioned or intended to be mentioned, shall be transferred by law to any other board, authority, officer or officers, then and in such case such other board, authority, officer or officers, shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

Sec. 3. This grant is also upon the further and express condition that the provisions of article 5, and the other provisions of the Railroad Law pertinent hereto shall be strictly complied with by the Company.

Sec. 4. Nothing in this contract shall be construed as in any way limiting the present or future jurisdiction of the Public Service Commission under the laws of the State of New York.

Sec. 5. The Company promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms and conditions and requirements in this contract fixed and contained.

In witness whereof, the party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto signed and the corporate seal of said City to be hereunto affixed, and the party of the second part by its officers thereunto duly authorized, has caused its corporate name to be hereunto signed and its corporate seal to be hereunto affixed, the day and year first above written.

FIRST DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title wherever the same has not been heretofore acquired, to an easement in the lands and premises required for the opening and extending of a TUNNEL STREET, extending from Broadway, near Fairview avenue, to the subway station at West One Hundred and Ninety-first street and St. Nicholas avenue, in the Twelfth Ward, Borough of Manhattan, City of New York.

PURSUANT TO THE STATUTES IN SUCH cases made and provided, notice is hereby given that an application will be made to the Supreme Court of the State of New York, First Department, at a Special Term thereof, to be held in Part III. thereof, in and for the County of New York, in the County Court House, in the Borough of Manhattan, City of New York, on the 14th day of June, 1911, at the opening of Court on that day, or as soon thereafter as counsel can be heard, for the appointment of Commissioners of Estimate and one Commissioner of Assessment in the above-entitled matter.

The easement to be acquired under this proceeding to be a permanent and perpetual right, easement and right of way for the construction and maintenance in perpetuity of a tunnel street, extending from Broadway, near Fairview avenue, to the subway station at West One Hundred and Ninety-first street and St. Nicholas avenue as laid out upon a map approved by the Board of Estimate and Apportionment on April 20, 1911, the said easement to relate to all of the space included between planes parallel with the grade line as established and distant respectively 14 feet above the said grade line and two feet below the said grade line, these distances being measured in each case at right angles to the tunnel grade.

This easement is not to be construed as preventing the improvement by owners of abutting property either on the side of, or above or below the property to which it relates, provided, however, that such improvement or improvements shall be so designed as to either place no load upon the tunnel structure, or that if such load is placed thereon, the cost of such tunnel reconstruction as may be required shall be borne by the said owners making application therefor, and also provided that any such reconstruction work shall be carried on without interfering with the public use of the said tunnel street, and that any loads placed upon the said tunnel structure or reconstructed tunnel structure shall be made the subject of an agreement to be entered into between the said owners and The City of New York and shall be placed thereon wholly at the risk of the said owner making application therefor, who shall be obligated to compensate the City for any damage which it may sustain thereby.

The Board of Estimate and Apportionment on the 20th day of April, 1911, duly fixed and determined the area of assessment for benefit in this proceeding as follows:

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of $50, the sum of $50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances, between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beamholes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resoved, That, while the said sale is held under the supervision of the Commissioner of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.
