Local Board, Washington Heights District.

A meeting of the Local Board of the Washington Heights District was held in the Council Chamber of the City Hall on Tuesday, May 16, 1911, at 11 a. m.

Present: Alderman Boschen and Acting President Frothingham.

The Acting President presented for the consideration of the Board the matter of acquiring title to 144th st. from Hamilton terrace to St. Nicholas ave.

Raphael Tobias, representing the Barney Estate, spoke in opposition to the proposed improvement, on the grounds that the proceeding was premature; that 144th st. between Hamilton terrace and St. Nicholas ave. has not yet been laid out upon the maps of the City, and copies of such map filed as required by law; and that until the Board of Estimate and Apportionment passes on the change and makes it a part of the street system, the Local Board is without jurisdiction.

Sidney Nordlinger, representing the Hamilton Terrace Company, appeared and stated that he had the same objections to offer.

The following also desired to be noted in opposition: Richard Wohlgemuth, M. I. St. John, representing the Reliant Holding Company; Ray Trauerman, property owner, 24 Hamilton terrace.

Mr. Benno Lewinson appeared and stated that he was willing to have the proposition laid over.

So ordered. Adjourned.

tion for a local improvement described below has been received by the President of the Borough of Manhattan, etc., Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit: Alteration and improvement to sewer in Central Park West between 98th and 100th sts., and it is hereby further

A letter was presented to the Board from the Parks and Playground Association of The City of New York, stating that, in their opinion, the proposed site is a very desirable one.

The following resolution was introduced by Alderman Brush: Whereas, A petition for a local improvement described below has been received by the President of the Borough of Manhattan, etc.,

Resolved, That this Board does hereby recommend to the Board of Estimate and Apportionment the establishment of a playground on the site located between 131st and 133d sts. and Broadway and Old Broadway, and it is hereby further

COMMUNICATIONS FROM CITY, COUNTY AND BOROUGH OFFICERS.

The Vice-Chairman laid before the Board the following communication from the Department of Water Supply, Gas and Electricity:

No. 3591.

Department of Water Supply, Gas and Electricity, Commissioner's Office, 13-21 Park Row, City of New York, May 11, 1911.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen:

Dear Sir—The condition of the water supply in the Croton and Westchester Watersheds has now become so serious and alarming that I wish to urge upon the Board of Aldermen the necessity for prompt action upon my application for \$100,000 to employ a corps of Inspectors to make a complete inspection of all buildings for the purpose of locating leaking of defective plumbing fixtures. I trust that the Board will recognize the importance of this matter and vote this appropriation at its next meeting. Yours truly,

HENRY S. THOMPSON, Commissioner.

Which was ordered on file.

The Vice-Chairman laid before the Board the following communication from the Trustees of Bellevue and Allied Hospitals:

No. 3592.

Bellevue and Allied Hospitals, Office of the Board of Trustees, 1st Avenue and 26th Street, New York, May 18, 1911.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, New York City:

Sir—The Trustees of Bellevue and Allied Hospitals have the honor to request authority of the Board of Aldermen to buy without public letting, at a cost not to exceed \$2,000, an automobile for the use of the General Medical Superintendent. Much of the time of the Superintendent is now lost in traveling to the allied hospitals, particularly Gouverneur and Fordham, and it is considered that if an automobile was provided better supervision of these hospitals could be secured.

Respectfully, J. K. PAULDING, Secretary, Board of Trustees.

Which was referred to the Committee on Public Letting.

The Vice-Chairman laid before the Board the following communication from the President, Borough of Manhattan:

No. 3593.

City of New York, Office of the President of the Borough of Manhattan, City Hall, May 19, 1911.

Hon. JOHN PURROY MITCHEL, President of the Board of Aldermen, City Hall, New York City:

Sir—Herewith you will find form of resolution requesting the issue of special revenue bonds in the amount of nine thousand dollars (\$9,000) for the payment of salaries of an additional inspection force for the Bureau of Buildings, Borough of Manhattan.

The necessity for this additional appropriation is fully explained in the attached report from the Building Superintendent. The reasons advanced by the Superintendent seem sufficient without any further comment on my part. The object in view is to minimize danger to life from fire, by rearranging existing buildings and providing additional safety appliances. This account, when available, will be administered under the following salary schedule:

Engineer-Inspectors 12 at \$1,500 00

It is requested that this matter be reported on without delay in order that action may be had in the Board of Estimate and Apportionment before adjournment is taken for the summer. Very truly yours,

GEORGE McANENY, President of the Borough of Manhattan.

Resolved, That, pursuant to the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of nine thousand dollars (\$9,000), the proceeds whereof to be applied to the payment of salaries of additional inspection force for the Bureau of Buildings, Borough of Manhattan, for the months of July, August, September, October, November and December, 1911.

Bureau of Buildings, 220 4th Ave., New York City, May 12, 1911.

Hon. GEORGE McANENY, President, Borough of Manhattan:

Dear Sir—As you well know, it is not within the province of this Bureau to make periodic inspections of buildings after they are completed, except so far as the passenger elevators in the same are concerned.

The duty, however, is imposed on this Bureau by the Building Code to inspect existing buildings on complaint with respect to their safety, either structurally or from the standpoint of exit facilities. Since the Asch Building fire, an unusual amount of work of this kind has been imposed on this Bureau.

I have organized, and had organized for some time previous to the Asch Building fire, a division for the purpose of handling complaints, and under normal conditions it would probably have been possible to handle them very effectively. With my present force, I cannot afford to draw further on the regular inspection force for this kind of work, as that would mean interfering seriously with the duties imposed on this Bureau for the inspection of new buildings and buildings being altered.

I therefore wish to submit herewith a request for the establishment of the grade of Engineer-Inspector at \$1,500 per annum for 12 incumbents to carry on the extra work that has been imposed on this Bureau. I should also request at the same time that you secure the necessary appropriation, which I believe is done by corporate stock issue, for the payment of the salaries of these Engineer-Inspectors for the remainder of the year 1911. Assuming that these men would be appointed June 1, the appropriation required would be \$10,500.

I would like to have this appropriation and establishment of grade as soon as possible, as I find that the work is apparently on the increase.

You will note that I am asking for an Engineer-Inspector rather than an ordinary Inspector, as I am looking for a higher type of man than I would get in an ordinary Inspector. The particular work these men would have to do would require considerable judgment, and they would need to be capable to pass on plans from a structural standpoint and from a designer's standpoint—men who could work out intelligently the necessary exit facilities for a building of any size and character.

Respectfully, RUDOLPH P. MILLER, Superintendent of Buildings.

Which was referred to the Committee on Finance.

The Vice-Chairman laid before the Board the following communications from the President, Borough of Richmond:

No. 3594.

The City of New York, Office of the President of the Borough of Richmond, Borough Hall, New Brighton, New York City, May 17, 1911.

Board of Aldermen, City Hall, New York:

Gentlemen—I send herewith a copy of communication which I have just sent to the Board of Estimate and Apportionment, so that the same matter can be referred to the Committee on Salaries and Grades for its consideration, and we trust favorable action as soon as the matter shall reach the Board from the hands of the Board of Estimate and Apportionment. Yours very truly,

GEORGE CROMWELL, President of the Borough.

The City of New York, Office of the President of the Borough of Richmond, Borough Hall, New Brighton, New York City, May 17, 1911.

Board of Estimate and Apportionment, 277 Broadway, New York:

Gentlemen—Last year we requested the establishment of the position of Engineer in the Borough of Richmond for one incumbent at a salary of \$5,000, making an increase for the present incumbent of the position of \$1,000.

Due to the great effort making for economy and even decreasing City expenditures, favorable consideration was not given to our request and, in fact, we were willing to have this Borough share reasonably with the whole City in the line of retrenchment.

There are other questions, however, beside those of retrenchment, and the important ones are justice and proper equalization in remuneration for similar work in similar departments of the City service.

The incumbent of the present position, whose services it is our desire to recognize by this increase, has been in different departments of New York City and the County of Richmond for nearly 27 years, with increasing responsibilities and increasing efficiency.

The expense can be met for this year without any increase in present appropriation.

We would ask that this matter receive immediate and favorable consideration, so that the Board of Aldermen may be able to pass upon the establishment of the position and the change can go into effect as soon as possible.

Yours very truly, GEORGE CROMWELL, President of the Borough.

Which was referred to the Committee on Salaries and Offices.

No. 3595.

The City of New York, Office of the President of the Borough of Richmond, Borough Hall, New Brighton, New York City, May 19, 1911.

Board of Aldermen, City Hall, New York City:

Gentlemen—We have in the Borough of Richmond quite a large district, as shown on the accompanying map and list known as New Dorp, where many of the property owners have constructed by private contract at one time or another sidewalks having a paved width of four feet. Until comparatively recently the streets of this portion of the Borough were not upon the legal City map, so that the general ordinance covering improvements did not rule.

There is a very active movement under way to complete the sidewalks, but the property owners are very desirous to complete them on the four-foot basis, believing that the provisions of the special ordinance covering the Borough of Richmond (article 2 of part 14 in the Code of Ordinances), which call for five-foot pavements, would render unsightly a large part of the work already completed.

We agree with that view, and would ask that for the streets noted on the accompanying map the ordinance provision be amended so as to permit of legally constructing the paved portion of said sidewalks at four feet in width.

This would, therefore, amend section 25 of the ordinance to read "four" feet instead of "five" feet.

We would ask that the earliest possible action be taken upon this request.

Yours respectfully, GEORGE CROMWELL, President of the Borough.

List of Streets.

The Vice-Chairman laid before the Board the following communication from the Acting Chief, Bureau of Licenses:

No. 3596.

Mayor's Office, Bureau of Licenses, City Hall, New York, May 22, 1911.

To the Honorable Board of Aldermen, City of New York:

Gentlemen—I hereby make application for permission to buy an automobile for the use of the officials in this Bureau, and also for the issuance of revenue bonds up to the amount of \$2,000 to pay for the expenses thereof.

It is necessary to have an automobile attached to this office because the scope of the work includes the entire City, and it is necessary for us to investigate 450 moving picture shows and about 400 dance halls in The City of New York and keep them constantly under surveillance. Furthermore, all of the hacks, cabs, peddlers, pawnbrokers, porters and other licensees who need constant attention, come under the jurisdiction of this office, and it is necessary if the officials of this Bureau are to be well informed concerning the action of these men in the various parts of the City that they have the use of an automobile. Respectfully,

W. B. F. ROGERS, Deputy and Acting Chief.

Reports of Committee on Finance—

No. 3500.

The Committee on Finance, to which was referred on May 9, 1911 (Minutes, page 261) the annexed ordinance in favor of an issue of \$15,000 corporate stock for removal of old bridge over Eastchester Bay, The Bronx, respectfully

REPORTS:

That inasmuch as the bridge built to replace this old one is now in use, this superseded structure is only an unsightly obstruction, and should be removed at once. It, therefore, recommends that the said ordinance be adopted.

AN ORDINANCE providing for an issue of corporate stock in the sum of fifteen thousand dollars (\$15,000), to provide means for the removal of old bridge over Eastchester Bay in Pelham Bay Park, Borough of The Bronx, restoring the site thereof, and for expenses incidental thereto.

Be It Ordained by the Board of Aldermen of The City of New York as follows:

The Committee on Finance, to which was referred on April 18, 1911 (Minutes, page 115) a resolution of the Board of Estimate and Apportionment requesting the Board of Aldermen to issue special revenue bonds to the amount of \$15,000 for establishment of a standard testing laboratory, respectfully

REPORTS:

That the details of this application are set forth in the Engineer's report attached hereto. The grades required in this connection have been reported by another committee of this Board.

The Committee recommends that the accompanying resolution be adopted. Whereas, The Select Committee on Standardization of Supplies, appointed by the Board on January 14, 1910, composed of the Mayor, the Comptroller, and the President of the Board of Aldermen, has recommended the establishment of a Standard Testing Laboratory under the direct control of this Board; be it

Resolved, That this Board hereby approves of the plan for the establishment of a Standard Testing Laboratory, and be it further

Resolved, That the Committee of the Board on the Establishment of Salaries and Grades, be instructed to report upon the creation of such salary grades as may be necessary for the organization and carrying out of the work planned; and be it further

Resolved, That the Committee of the Board on the Allotment of Space in the new Municipal Building be instructed to provide adequate space in the said building for the projected Standard Testing Laboratory; and be it further

Resolved, That for the purpose of providing means for the preliminary work of organizing the new Standard Testing Laboratory, and to provide the necessary equipment and the salaries of the necessary staff of Chemists and Assistants to begin work at once in the temporary laboratory, the Board of Aldermen be requested to recommend to the Board of Estimate and Apportionment the authorization of an issue of special revenue bonds, under the provisions of subdivision 8, section 188, of the Charter, in the sum of fifteen thousand dollars (\$15,000).

A true copy of resolution adopted by the Board of Estimate and Apportionment, March 30, 1911.

JOSEPH HAAG, Secretary.

Engineer's Report No. 647, New York, April 7, 1911.

Subject—Recommendations relative to the establishment and organization of a Fuel Testing Laboratory.

Hon. RAYMOND B. FOSDICK, Commissioner of Accounts:

Dear Sir—In accordance with a resolution of the Board of Estimate and Apportionment, adopted March 30, 1911, approving the establishment of a standard testing laboratory, and requesting the Board of Aldermen to recommend to the Board of Estimate and Apportionment the authorization of an issue of special revenue bonds, under the provisions of subdivision 8, section 188, of the Charter, in the sum of \$15,000, I beg to state as follows:

The above amount is requested for the purpose of starting the existing laboratory of the Commissioner of Accounts to form the nucleus of the new standard testing laboratory for immediate needs as a coal testing laboratory at large and to provide for the necessary equipment and staff of chemists and assistants to begin work at the earliest possible date under the supervision of the Commissioner of Accounts.

From data obtainable at the present time, I beg to submit the following estimate:

2 Fuel Engineering Chemists, at \$1,800 per annum	\$3,600 00
1 Fuel Engineering Chemist, at \$1,500 per annum	1,500 00
2 Coal Samplers, at \$1,200 per annum	2,400 00
1 Clerk, at \$1,200 per annum	1,200 00
1 Stenographer, at \$1,000 per annum	1,000 00
Total	\$9,700 00
Deduct 3 months' salary	2,425 00
	\$7,275 00

Supplies:	
Pulverizing machinery	\$600 00
Repairs and additions	400 00
Chemicals and apparatus	200 00
New standard calorimeter (Mahler Atwater)	800 00
Crusher outfit	3,500 00
Oxygen (135 tanks at \$5)	685 00
Incidentals, telephone, fares, etc.	600 00
	\$6,785 00
	\$14,060 00

Testing of fuels has become a specialty and the regular Chemist is not always conversant, and, as a rule, has had no experience in this particular class of work, which requires the utmost accuracy. I would therefore recommend that the Municipal Civil Service Commission be requested to hold a special examination for fuel engineering chemists. In order, however, not to delay the opening of our laboratory, I would suggest that until such an examination can be held, competent men be employed temporarily under the Civil Service rules as "experts" skilled in this special line of work.

Two Coal Samplers will be required to obtain the samples of coal from the point of delivery as well as prepare the samples at the laboratory for the tests. These Samplers must be trustworthy men and a new grade of "Coal Sampler" should be established under Civil Service rules. A Clerk will be required to keep track of the samples and to check up the calculations of the Chemists. A Stenographer will be needed not only to do the stenographic work but also keep records and do other clerical work in connection with the laboratory.

In reference to supplies, I beg to state that it is almost impossible to make an accurate estimate of the money required for that purpose. It is of the utmost importance that, in order to obtain fair samples both from the standpoint of the City and the contractor, a portable crushing plant be installed, which I estimate will cost in the neighborhood of \$3,500. This will consist of a motor truck, on which is mounted a coal breaker with a capacity of eight tons per hour. In using such a large machine the sampling could be done in short order, and owing to the large quantity of coal used in sampling fair results could be obtained.

There are many repairs to be made on the apparatus in our laboratory. These repairs and additions will consist of overhauling of balances, the possible purchase of new balances, the overhauling of the old calorimeter, the purchase of a new standard calorimeter, the addition of motors for stirring apparatus, etc. It may be required that an additional sampler must be provided for, and it is therefore apparent that the sum of \$15,000 will be badly needed for the purposes herein stated.

Respectfully submitted, OTTO H. KLEIN, Chief Engineer.

Resolved, That in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of fifteen thousand dollars (\$15,000), the proceeds whereof to be used by the Commissioners of Accounts for the purpose of providing for the establishment of a standard testing laboratory.

Reports of Committee on Salaries and Offices—

No. 3509.

The Committee on Salaries and Offices, to which was referred on May 9, 1911 (Minutes, page 268), the annexed resolution in favor of establishing certain grades of positions in office of the Commissioners of Accounts, respectfully

REPORTS:

That, having examined the subject, it believes the proposed positions to be necessary to carry on the work recommended by the Committee on Standardization of the Board of Estimate and Apportionment. It, therefore, recommends that the said resolution be adopted.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, May 2, 1911.

To the Board of Estimate and Apportionment:

Gentlemen—On April 25, 1911, the Commissioner of Accounts requested establishment in his office, pursuant to the provisions of section 56 of the Greater New York Charter, as follows:

New Positions.	Rate Per Annum.	Number of Incumbents.
Fuel Engineering Chemist	\$1,800 00	2
Engineering Chemist	1,500 00	1
Coal Sampler	1,200 00	Unlimited
New Grade of Positions.		
Clerk	1,200 00	1
Stenographer	1,000 00	1

The establishment is for incumbents to form the nucleus of the force for the Standard Testing Laboratory, to be organized in compliance with the resolution of your Board of March 30, 1911, and to be temporarily in charge of the Commissioner of Accounts.

The three Chemists are to test samples of coal purchased for the various City Departments, and to secure a proper audit of all claims therefor.

The Coal Samplers are to collect samples of coal from points of delivery and to prepare the samples in the laboratory for the tests.

The grade for the \$1,200 Clerk is established in the office. No action, therefore, is necessary on this item in the request.

The Stenographer is for general purposes and to assist in keeping records and other clerical work. It would appear to be advisable to make the rate \$1,050 per annum, to conform to the salary gradation customary in other departments.

The Commissioner of Accounts states the following:

"The number of incumbents in the grades requested to be established has been arrived at after careful study and through the joint efforts of the Commission on Standardization."

The sum of \$15,000 has been requested for the preliminary work of organizing the laboratory.

We recommend the adoption of the attached resolution approving of the request, with the exceptions noted. Respectfully,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen; Select Committee.

Whereas, The Board of Estimate and Apportionment adopted the following resolution at a meeting held May 4, 1911:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the office of the Commissioners of Accounts of the positions and grades of positions, in addition to those heretofore established, as follows:

Fuel Engineering Chemist	\$1,800 00	2
Engineering Chemist	1,500 00	1
Coal Samplers	1,200 00	Unlimited
Stenographer	1,050 00	1

Resolved, That the Board of Aldermen hereby approves of and concurs in the above resolution and fixes the salaries of said positions as set forth therein.

GENERAL ORDERS.

Alderman Cole called up General Order 115, being a report and resolution as follows:

No. 3295.

The Committee on Finance, to which was referred on April 11, 1911 (Minutes, page 76), the annexed resolution in favor of an issue of \$100,000 special revenue bonds for an inspection and clerical force to be used in checking waste of water in Manhattan and The Bronx, respectfully

REPORTS:

That, having examined the subject, it believes the proposed allowance to be necessary. The reasons for this request are set forth in the letter of application. The shortage of water has reached a most serious stage, and any method resulting in a saving should receive all official assistance possible.

It, therefore, recommends that the said resolution be adopted.

Department of Water Supply, Gas and Electricity, Commissioner's Office, 13-21 Park Row, City of New York, April 17, 1911.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen:

Dear Sir—Supplementary to my letter of April 4, I wish to add that the large number of reports which will be filed by the Inspectors in their house-to-house canvass will make it necessary that a sufficient clerical staff be employed to issue the notices of violations on the properties where leaks are reported. I therefore wish to modify my previous letter to the extent of providing for 175 Inspectors and 25 Clerks.

I am enclosing a form of resolution which I would request be submitted to the honorable Board of Aldermen for adoption, as a substitute for the one transmitted with my previous letter. Yours truly,

HENRY S. THOMPSON, Commissioner.

Department of Water Supply, Gas and Electricity, Commissioner's Office, 13-21 Park Row, City of New York, April 4, 1911.

Hon. JOHN PURROY MITCHEL, President Board of Aldermen, City Hall, City:

Dear Sir—I wish to present herewith a very important and vital matter which affects all the residents of the Boroughs of Manhattan and The Bronx. The attention of the public has already been directed to the small amount of water on storage in the Croton and Westchester watersheds. At the present time there are reserved about 45,000 million gallons, which is equivalent to about 136 days' supply, at an average draught of 330 million gallons per day, this being, approximately, the present rate of consumption.

During the past month there was a very slight increase in the collection of water. The months of the year during which we should expect the heaviest rainfall and consequent run-off, are now passed, with the possible exception of the month of April. If the flow of the Croton River for the remainder of the year was to be equal to the average flow during, approximately, the past forty years, there would be ample water for the Boroughs of Manhattan and The Bronx during this year, and at no time would the amount in storage be less than 34,000 million gallons. Unfortunately, however, the City cannot depend upon having normal rainfall and run-off, but with a supply which is dependent almost wholly on the storage of large quantities of water, we must always be safe for the driest year or else take the chances of a complete exhaustion of the supply. The inconvenience to the people and the financial loss to the City, if an actual shortage of supply should occur, would be so great as to call forth just condemnation of those responsible for the collection, storage and distribution of water, if they had not taken all the precautions that seemed in any degree reasonable to prevent such shortage in the supply.

With the amount of water now in storage, and taking the minimum yield for any six months from 1868 to date, we find that in 1870, 1876, 1877, 1880, 1881, 1883, 1885, 1886, 1891, 1895, 1908, 1909 and 1910, the flow of the river has been such that the reservoirs would be absolutely emptied before the expiration of the six months' period, and there would be practically no supply available for this City. Taking the year which showed the least flow for a period of six months, i. e., 1880, when the flow was 7,311 million gallons, the water at present in storage, plus this flow, would last, at present rates of consumption, for a period of about 158 days. As it is reasonable to expect that the month of April will give a yield greater than the consumption during that month, the conditions are actually more favorable than would be indicated by figures based on the six dry months, with present storage. The condition is one, however, which certainly requires careful consideration, and I believe that every reasonable effort should be made to reduce the waste of water and safeguard the supply.

Very little can be accomplished in these two Boroughs by a reduction in pressure during the night. This is due to the fact that the upper floors of many of the large dwelling houses are dependent for a supply on the tanks, which are generally placed on the roofs of the building and which fill at night, when the pressure is stronger, and hold sufficient water for the needs of the tenants during the day. A house-to-house inspection to detect defective plumbing and unnecessary waste or use of water, and a survey of the flow of the mains to determine whether there are leaky joints or broken mains, are, in fact, the only methods available for reduction in water waste.

The house-to-house inspection is the one from which the quickest results can be obtained. There are about 150,000 buildings in the Boroughs of Manhattan and The Bronx. Assuming that each Inspector can, on an average, including the first inspection and a later re-inspection, cover about eight buildings per day, there would be inspected, with a corps of 200 Inspectors, 1,600 buildings per day; and in one month, 40,000 buildings, on the basis of a twenty-five working-day month. With this inspection force it would be possible to have visited and made an inspection of every building in four months' time. The saving in the water which would otherwise have been lost through leaking or defective fixtures, would equal about ten per cent. of the consumption, or about 30-million gallons per day.

As it is possible that the safe supply from the Croton system may not be over 275 million gallons per day under the worst conditions which have been experienced since 1868, it will be seen that even with a house-to-house inspection it may be possible that a still further reduction in the consumption by other means, such as reducing the pressure, might be required.

The amount of money required for salaries to pay the corps of Inspectors above outlined would be \$100,000. This sum, while apparently large, is but slightly over one per cent. of the amount of revenue derived from the sale of water in these two

Boroughs. Practically the entire staff of Inspectors now employed in these Boroughs is engaged in a house-to-house canvass. It would be very unwise, in my opinion, to entrust this very important work to the present small force, and there should be no delay in putting in the field 200 additional Inspectors.

This is the most serious proposition which I have been obliged to present to the honorable Board, and one which I feel will be recognized as being of such importance as to receive their immediate consideration.

I am attaching a form of resolution, which I would respectfully request you to submit to the Board of Aldermen for their adoption.

Yours truly,

HENRY S. THOMPSON, Commissioner.

No. 3226.

The Committee on Public Letting, to which was referred on April 4, 1911 (Minutes, page —), the annexed resolution in favor of permitting the President, Borough of Queens, to purchase three automobiles without public letting, at a cost not to exceed \$6,000, respectfully

REPORTS:

That at present this Borough, the largest in the City in area, is without automobiles. That, owing to the scarcity of transit facilities, such means of travel are an absolute necessity. That one of these machines is for the head of the Borough and the others for the use of the various departments. The difficulty of preparing specifications for automobiles is generally admitted. These machines are not to cost over \$2,000 each. The Committee recommends that the said resolution be adopted.

The City of New York, Office of the President of the Borough of Queens, Long Island City, March 29, 1911.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen:

Dear Sir—We beg to enclose herewith resolution for adoption by your honorable Board, authorizing this office to purchase in the open market, without public letting, three automobiles, at a cost not to exceed six thousand dollars (\$6,000), funds for which were allowed by the Board of Aldermen May 31, 1910, and the Board of Estimate and Apportionment October 7, 1910.

We would thank you to take such action as will facilitate this matter.

Yours respectfully,

WALTER H. BUNN, Acting President of the Borough of Queens.

Resolved, That, pursuant to the provisions of section 419 of the Charter of the City of New York, the Board of Aldermen, deeming it for the public interest, hereby authorizes and empowers the President of the Borough of Queens to purchase in open market, instead of by contract at public letting, for the official use of the President of the Borough of Queens, three (3) automobiles, at a cost not to exceed the sum of six thousand dollars (\$6,000).

No. 3598.

By President McAneny—
City of New York, Office of the President of the Borough of Manhattan, City Hall, May 23, 1911.

To the Honorable Board of Aldermen:

Gentlemen—I have the honor to request your authority for an issue of special revenue bonds in the amount of \$70,000 for the purpose of replenishing the fund established two years ago for the repair of street pavements in the Borough of Manhattan, where the period of maintenance covered by contracts has not expired, and where the contractors have failed to meet the contract requirements. It becomes necessary for me to procure authority for such an issue before the adjournment of your Board, for the reason that the present contracts and available funds will become exhausted in a month or two if the present rate of repair is maintained.

The past winter was unusually harmful to the sheet asphalt, and particularly so in the streets covered by these abandoned contracts, upon which the pavements are all old and without any foundation for the asphalt but the old stone blocks. It will therefore be necessary to lay, during the year, a much larger yardage of repairs than was originally estimated. This fact, coupled with a large and unexpected increase in the price of the repair work, is responsible for the insufficiency of the present appropriations.

The estimated cost of keeping these abandoned streets in proper repair from the time the present funds are exhausted until the end of the present year is as follows:

Streets abandoned by the Atlantic Alcatraz A. Co.....	\$17,975 00
Streets abandoned by the Fruin-Bambrick P. Co.....	22,162 00
Streets abandoned by the Warren-Scharf A. P. Co.....	35,100 00
Total.....	\$75,237 00

There is, however, an unused balance in the fund of about \$4,000, which is available for use during the balance of the coming year; and it is accordingly believed that the amount asked for will be sufficient to provide for the satisfactory repair of the streets in question until the end of the year. Respectfully,

E. V. FROTHINGHAM, Acting President of the Borough of Manhattan.

No. 3622.

By Alderman Brush—

Whereas, Morningside Park forms an almost complete barrier to the passage of persons traveling east or west across the City between 110th and 123d sts., the only means of passage through the park being the steep ascent or descent of the circuitous paths and steps; and

Whereas, The only crosstown surface lines adjacent said park are those operating at 106th and 125th sts., which makes it necessary for those desiring to pass across the park in either direction to be transported in a roundabout way to their destination, with consequent loss of time and money; and

Whereas, People living in that part of the city west of Morningside Park are compelled to use the subway, owing to the difficulty of passing over the park, which, during the rush hour, results in great congestion and often in blockades above 96th st. and Broadway; and

Whereas, If some convenient mode of transportation were provided through the park at or near 116th st., large numbers of persons living in that neighborhood would patronize the elevated, and thereby relieve the congestion on the subway; and

Whereas, Large numbers of persons living in this neighborhood have signed a petition requesting the Park Commissioner to provide some means of transportation over said park, by means of an escalator or otherwise, at or near 116th st.; now, therefore, be it

Resolved, That the Park Commissioner be and he hereby is requested to provide some convenient means, either by way of an escalator or otherwise, for carrying persons over and across Morningside Park at or near said point.

Which was adopted.

PROPOSED FORM OF CONTRACT.

This contract, made this day of 1911, by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and The Jay Street Connecting Railroad (hereinafter called the Company), party of the second part, witnesses that

In consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1—The City hereby grants to the Company, subject to the conditions and provisions hereinafter set forth, the right and privilege to construct, maintain and operate railroad tracks, either at the same grade as the surface of the streets, or above or below the grade thereof, as shall be determined by the Public Service Commission for the First District of the State of New York, pursuant to law, for the purpose of conveying goods, wares and merchandise only, in the Borough of Brooklyn, City of New York, the centre lines of which are as follows:

A. One track beginning at a point on the easterly side line of Jay street about fifty-eight (58) feet northerly from the northerly side line of John street; thence southeasterly for a distance of about one hundred and thirty (130) feet to a point on the southerly side line of John street situated about twenty (20) feet eight (8) inches westerly from the westerly side line of Jay street.

Also two spurs or turnouts from said Track A as follows:

(1) One spur or turnout beginning at a point in Track A situated about seventy (70) feet from the southerly side line of John street, measured along the centre line of Track A; thence southwesterly on a curve whose radius is one hundred and fifty (150) feet, for a distance of fifty-three (53) feet, to a point in John street; thence continuing in a straight line a distance of about thirty-nine (39) feet to a point in the southerly side line of John street, which point is about fifty (50) feet six (6) inches from the westerly side line of Jay street.

D. The said track, spurs and turnouts hereby authorized are shown upon a map entitled, "Plan showing proposed tracks on John, Jay, Pearl and Plymouth streets, Borough of Brooklyn, City of New York, to accompany amended application dated 11th day of October, 1910, The Jay Street Connecting Railroad to the Board of Estimate and Apportionment," and signed "The Jay Street Connecting Railroad by William A. Jamison, President, and F. E. Pratt, Engineer," a copy of which is attached hereto, is to be deemed a part of this contract, is to be construed with the text thereof, and is to be substantially followed, provided that deviations therefrom and additional turnouts, switches and crossovers which are consistent with the foregoing description, and the other provisions of this contract may be permitted by resolution of the Board.

Sec. 2—The grant of this privilege is subject to the following conditions, which shall be complied with by the Company:

First—The consent in writing of the owners of half in value of the property bounded on said streets and avenues to the construction and operation of said railroad shall be obtained by the Company within one (1) month from the signing of this contract by the Mayor, and a copy of such consents shall be filed with the Board within such time, or in the event that such consents cannot be obtained within such time, the Company shall within said one (1) month or within one (1) month thereafter, make application to the Appellate Division of the Supreme Court for the appointment of Commissioners in the manner provided by the Railroad Law to determine if said railroad ought to be constructed; otherwise this grant shall cease and determine.

Second—The said right to construct, maintain and operate said railroad shall be held and en-

joyed by the Company for the term of fifteen (15) years from the date upon which this contract is signed by the Mayor.

Third—Upon the termination of this contract at the expiration of said fifteen (15) years, or upon the termination of the rights hereby granted for any cause at any other time, or upon the dissolution of the Company before such termination, the tracks and equipments of the Company constructed pursuant to this contract within the streets and avenues shall become the property of the City without cost, and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

If, however, at the termination of this contract, as above, the Board shall so order by resolution, the Company shall, upon thirty (30) days' notice from the Board, remove any and all of its tracks and other equipment constructed pursuant to this contract and the said streets and avenues shall be restored to their original condition at the sole cost and expense of the Company.

Fourth—The Company shall pay to the City for the privilege hereby granted the following sums of money:

(a) The sum of three thousand dollars (\$3,000) in cash within thirty (30) days after the date on which this contract is signed by the Mayor and before anything is done in exercise of the privilege hereby granted.

(b) During the first ten (10) years of this contract an annual sum of five hundred dollars (\$500).

During the succeeding five (5) years of this contract an annual sum of one thousand dollars (\$1,000).

The annual charges shall commence from the date upon which this contract is signed by the Mayor.

All annual charges, as above, shall be paid into the Treasury of the City on November 1 of each year and shall be for the amount due to September 30 next preceding. Provided that the first annual payment shall be only for that proportion of the first annual charge as the time between the date upon which this contract is signed by the Mayor and September 30 following shall bear to the whole of one year.

Any and all payments to be made by the terms of this contract to the City by the Company shall not be considered in any manner in the nature of a tax, but such payments shall be made in addition to any and all taxes of whatever kind or description, now or hereafter required to be paid by any ordinance of the City, or resolution of the Board, or any law of the State of New York.

Fifth—The annual charges or payments shall continue throughout the whole term of this contract, notwithstanding any clause in any statute or in the charter of any other railway or railroad company providing for payment for railway or railroad rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted, or of any part thereof, or of any of the routes mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this contract.

Sixth—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any person or corporation a franchise or right to use the streets hereinbefore described or any part of them for railway purposes.

Seventh—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall the title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company, or by operation of law, whether under the provisions of the statute relating to the consolidation or merger of corporations or otherwise, without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Eighth—The Company shall commence construction of the railroad herein authorized within six (6) months from the date upon which the consents of the property owners are filed with the Board, or from the date of the order of the Appellate Division of the Supreme Court made pursuant to section 174 of the Railroad Law confirming the determination of the Commissioners appointed thereunder, that such railroad ought to be constructed, and shall complete the construction and place the same in full operation within nine (9) months from the date of filing such consents or the date of such order, otherwise this right shall cease and determine, and all sums paid, or which may be deposited with the Comptroller of the City, as hereinafter provided, shall thereupon be forfeited to the City; provided that the period for commencement and the period for completion and placing the railway in full operation may be extended by the Board, but the total extension of time for either of such periods shall not exceed in the aggregate six (6) months; and provided, further, that when the commencement or completion of said construction shall be prevented by legal proceedings in any court or by works of public improvement, or from other causes not within the control of the Company, the time for the commencement or completion of such construction may be extended for the period of such prevention, but no delay shall be allowed for unless the court proceedings shall be diligently prosecuted by the Company, and provided further, that in no case shall such delay be deemed to begin until the Company shall have given written notice to the Board of any such court proceedings or other occasion of delay, and deliver to the Board copies of any injunction or other orders, and the papers upon which the same shall have been granted, and unless upon the request of the Board the Company shall, in writing, consent that the Board, either in its own name as a party, or in the name of the City as a party, may intervene in any such proceedings.

Ninth—Said railroad shall be constructed, maintained and operated subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided by the Charter of the City.

No construction upon said railroad shall be commenced until written permits have been obtained from the proper City officials.

In any permits so issued such officials may also impose such conditions, as a condition of the granting of the same, as are necessary for the purpose of protecting any structures, in the streets and avenues, over which such officials have jurisdiction, and the Company shall comply with such conditions.

The electrical equipment to be installed, if any, by the Company for the operation of the railroad within the limits of the City, whether the same be upon streets and avenues or upon private prop-

erty, shall be constructed and maintained under the supervision and control of the Commissioner of Water Supply, Gas and Electricity.

Tenth—The work of construction of the tracks hereby authorized shall be done in such manner as shall not substantially interfere with the ordinary use of any street or avenue as a public highway.

Eleventh—Cars may be operated upon said tracks by steam locomotives, which shall be housed or boxed so as to conform with the type commonly known as the dummy engine, or by any other motive power which may be approved by the Board and consented to by the abutting property owners, in accordance with the provisions of law, and by the Public Service Commission for the First District of the State of New York, provided, however, that the Board, upon giving to the grantee one year's notice, may require the Company to operate its railroad upon the whole or any portion of the tracks hereby authorized by such system of electric power as may be designated by the Board, and the Company shall thereupon discontinue the use of steam locomotives from such tracks.

Twelfth—Neither passengers nor vehicles shall be prevented from crossing the tracks hereby authorized by the operation of such tracks by cars or trains operated thereon, for a greater period than five consecutive minutes at any time, and the aggregate of such periods shall not exceed ten minutes in any hour between 7 o'clock a. m. and 6 o'clock p. m.

Thirteenth—Should the Company be allowed to operate at the same grade as the streets and avenues, the Company shall station flagmen at such points as shall be necessary to exclude pedestrians and vehicles from the tracks at all times when cars or trains shall be operated thereon. Should it seem necessary in the opinion of the Board at any time during the term of this contract, that gates be erected, maintained and operated across any of the streets or avenues for the purpose of excluding pedestrians and vehicles from the tracks hereby authorized, then the Company shall erect, maintain and operate such gates as may be designated, upon thirty days' notice by the Board to the Company.

Fourteenth—As long as said tracks or any portion thereof remain in any street or avenue, the Company shall set the character of the roadways and sidewalks and keep in permanent repair that portion of the surface of the streets and avenues in which said railroad is constructed, between its tracks, the rails of its tracks for a distance of two (2) feet beyond the rails on either side thereof under the supervision of the local authorities whenever required by them to do so, and in such manner as they may prescribe. In case of the neglect of the Company to make pavement or repairs after the expiration of thirty (30) days' notice to do so from the President of the Borough of Brooklyn, said President may make the same at the expense of the Company. And the City shall have the right to change the material or character of the pavement of any street or avenue, and in that event the Company shall be bound to replace such pavement in the manner directed by the proper City official at its own expense, and the provisions as to repairs herein contained shall apply to such renewed or altered pavement.

Fifteenth—Should the Company be allowed to operate at the same grade as the streets and avenues, it shall at all times keep the streets and avenues upon which the said railroad is constructed, between its tracks, the rails of its track and for a distance of two (2) feet beyond the rails, on either side thereof, free and clear from ice and snow; provided, however, that the Company shall, at the option of the Commissioner of Street Cleaning, enter into an agreement for each winter season, or part thereof, to clean an equivalent amount of street surface from house line to house line.

Sixteenth—Should the grades or lines of the streets and avenues in which the railroad is hereby authorized be changed at any time after the railroad has been constructed and during the term of this contract, the Company shall, at its own expense, change its tracks and appurtenances to conform with such new grades and lines, and during the construction of any public improvement upon said streets and avenues the Company shall take care of and protect the tracks and appurtenances at its own expense, all to be done subject to the direction of the City official having jurisdiction over the construction of such change.

Seventeenth—It is agreed that the right hereby granted to operate a railroad shall not be in preference or in hindrance to public work of the City, and should the said railroad in any way interfere with the construction of public works in the streets and avenues, whether the same is done by the City directly or by a contractor for the City, the Company shall, at its own expense, protect or move the tracks and appurtenances in the manner directed by the City officials having jurisdiction over such public work.

Eighteenth—Any alterations to the sewerage or drainage systems, or to any other subsurface or to any surface structures in the streets, required on account of the construction or operation of the railroad, shall be made at the sole cost of the Company, and in such manner as the proper City officials may prescribe.

Nineteenth—Said railroad shall be constructed and operated in the latest approved manner of street railroad construction and operation, and it is hereby agreed that the Board may require the Company to improve or add to the railroad equipment, including rolling stock and railroad appurtenances, from time to time, as such additions and improvements are necessary, in the opinion of the Board. Upon failure of the part of the Company to comply with the direction of the Board within a reasonable time the rights hereby granted shall cease and determine.

Twentieth—The rates for carrying property upon the tracks hereby authorized shall in all cases be reasonable in amount, subject to the control of the Board, and may be fixed by the Board after notice to the Company, and a hearing had thereon, and when so fixed such rates shall be binding upon the Company, and no rates in excess of those fixed shall be charged for such service.

Twenty-first—The Company shall at all times keep accurate books of account of the gross receipts from all sources within the limits of the City, and shall, on or before November 1 of each year, make a verified report to the Comptroller of the City of the business done by the Company for the year ending September 30 next preceding, in such form as he may prescribe. Such report shall contain a statement of such gross receipts, the total miles in operation within the limits of the City and the miles of railroad constructed and operated under this contract and such other information as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report, and may examine its officers under oath.

Twenty-second—In case of any violation or breach or failure to comply with any of the provisions herein contained, or with any orders of the Board, acting under the powers herein reserved, the franchise or consent herein granted may be forfeited by a suit brought by the Corporation Counsel, on notice of ten (10) days to the Company, or at the option of the Board by resolution of said Board, which said resolution may contain a provision to the effect that the railroad constructed and in use by virtue of this contract shall thereupon become the property of the City without proceedings at law or in equity. Provided, however, that such action by the Board shall not be taken until the Board

shall give notice to the Company to appear before it on a certain day not less than ten (10) days after the date of such notice, to show cause why such resolution declaring the contract forfeited should not be adopted. In case the Company fails to appear, action may be taken by the Board forthwith.

Twenty-third—If the Company shall fail to give efficient public service at the rates herein fixed, or fail to maintain its structures and equipment as herein provided in good condition throughout the whole term of this contract, the Board may give notice to the Company specifying any default on the part of the Company, and requiring the Company to remedy the same within a reasonable time; and upon failure of the Company to remedy such default within a reasonable time the Company shall, for each day thereafter during which the default or defect remains, pay to the City the sum of two hundred and fifty dollars (\$250), as fixed or liquidated damages, or the Board, in case such structures or equipment which may affect the surface of the streets shall not be put in good condition within a reasonable time after notice by the Board as aforesaid shall have the right to make all needed repairs at the expense of the Company, in which case the Company shall pay to the City the amount of the cost of such repairs, with legal interest thereon, all of which sums may be deducted from the fund hereinafter provided for.

Twenty-fourth—The Company shall assume all liability to persons or property by reason of the construction or operation of the railroad authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or default of the Company.

Twenty-fifth—This grant is upon the express condition that the Company, within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of rights conferred hereby, shall deposit with the Comptroller of the City the sum of Five Thousand dollars (\$5,000), either in money or securities, to be approved by him, which fund shall be security for the performance by the Company of all of the terms and conditions of this contract and compliance with all orders of the Board acting under the powers herein reserved, especially those which relate to the payment of the annual charges for the privilege hereby granted, the rendering of efficient public service at reasonable rates, the repairs of the street pavement, the removal of snow and ice, the quality of construction of the railroad, and the maintenance of the property in good condition throughout the whole term of this contract, and in case of default in the performance by the Company of such terms and conditions, or compliance with such orders or either or any of them, the City shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said fund, without legal proceedings; or after default in the payment of the annual charges, shall collect the same, with interest, from the said fund after ten (10) days' notice to the Company; or in case of failure to observe the said terms and conditions of this contract and orders of the Board acting hereunder, relating to the obstruction of traffic, the maintenance of gates and flagmen, the Company shall pay a penalty of fifty dollars (\$50) per day for each day of violation, all of which sums may be deducted from said fund.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

The Board, on complaint made, shall give notice to the Company, directing its President, or other officer, to appear before the Board on a certain day not less than ten (10) days after the date of such notice, to show cause why the Company should not be penalized in accordance with the foregoing provisions. If the Company fails to make an appearance, or, after a hearing appears, in the judgment of the Board, to be in fault, said Board shall forthwith impose the prescribed penalty, or where the amount of the penalty is not prescribed herein, such amount as appears to the Board to be just, and without legal procedure direct the Comptroller to withdraw the amount of such penalty from the security fund deposited with him. In case of any drafts made upon the security fund the Company shall, upon ten (10) days' notice, pay to the City a sum sufficient to restore said security fund to the original amount of five thousand dollars (\$5,000), and in default thereof, this contract shall be cancelled and annulled at the option of the Board, acting on behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City.

Twenty-sixth—The grant of this privilege is subject to whatever right, title or interest the owners of abutting property or others may have in and to the streets and avenues in which the Company is hereby authorized to operate.

Twenty-seventh—The Company hereby agrees that it will not institute any proceedings to acquire by condemnation any land, property, appurtenances or rights pursuant to any law, unless and until permitted to do so by resolution of the Board, otherwise this grant shall cease and determine.

Twenty-eighth—The words "notice" or "direction," wherever used in this contract, shall be deemed to mean a written notice or direction. Every such notice or direction to be served upon the Company shall be delivered at such office in the City as shall have been designated by the Company, or if no such office shall have been designated, or if such designation shall have for any reason become inoperative, shall be mailed in the City, postage prepaid, addressed to the Company at the City. Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing.

Twenty-ninth—If at any time the powers of the Board or any other of the authorities herein mentioned or intended to be mentioned, shall be transferred by law to any other Board, authority, officer or officers, then and in such case such other Board, authority, officer or officers, shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

Sec. 3—Nothing in this contract shall be construed as in any way limiting the present or future jurisdiction of the Public Service Commission under the Laws of the State of New York.

Sec. 4—This grant is also upon the further and express condition that the provisions of Article 5 and other provisions of the Railroad Law, pertinent hereto, shall be strictly complied with by the Company.

Sec. 5—The Company promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms, conditions and requirements in this contract fixed and contained.

In Witness Whereof, the party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto signed and the corporate seal of said City to be hereunto affixed; and the party of the second part, by its officers, thereunto duly authorized, has caused its corporate name to be

hereunto signed and its corporate seal to be hereunto affixed, the day and year first above written.

Whereas, The Richmond Light and Railroad Company has under date of January 6, 1911, made application to this Board for the grant of the right, privilege and franchise to construct, maintain and operate a street surface railway, as an extension to its existing system, upon and along Wadsworth avenue and other streets and avenues in the vicinity of Fort Wadsworth, Borough of Richmond; and

Whereas, Section 172 of the Railroad Law and Sections 72, 73 and 74 of the Greater New York Charter, as amended by Chapters 629 and 630 of the Laws of 1905, provide for the manner and procedure of making such grants; and

Whereas, This Board has made inquiry as to the money value of the franchise or right applied for, and proposed to be granted to the Richmond Light and Railroad Company, and the adequacy of the compensation proposed to be paid therefor; now, therefore, it is

Resolved, That the following form of the resolution for the grant of the franchise or right applied for by the Richmond Light and Railroad Company, containing the form of proposed contract for the grant of such franchise or right, be hereby introduced and entered in the minutes of this Board, as follows, to wit:

Resolved, That the Board of Estimate and Apportionment hereby grants to the Richmond Light and Railroad Company the franchise or right fully set out and described in the following form of proposed contract for the grant thereof, embodying all the terms and conditions, including the provisions as to rates, fares and charges upon and subject to the terms and conditions in said proposed form of contract contained, and that the Mayor of the City of New York be and he hereby is authorized to execute and deliver such contract in the name and on behalf of The City of New York, as follows, to wit:

PROPOSED FORM OF CONTRACT.

This contract, made this day of 1911, by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and the Richmond Light and Railroad Company (hereinafter called the Company), party of the second part, witnesseth:

In consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1. The City hereby grants to the Company, subject to the conditions and provisions hereinafter set forth, the right and privilege to construct, maintain and operate a double track street surface railway, as an extension to its present railway, with the necessary wires and equipment, for the purpose of conveying persons and property in the Borough of Richmond, in The City of New York upon the following route, to wit:

Beginning at and connecting with the existing tracks of the Company in New York avenue at or near its intersection with a private street known as Wadsworth avenue; thence by double track southwesterly in and upon said Wadsworth avenue to Tompkins avenue; thence across said Tompkins avenue to a private right-of-way; thence in a southerly direction along said private right-of-way to Sea avenue; thence across Sea avenue to a private right-of-way; thence southwesterly along said private right-of-way to Florida avenue; thence along Florida avenue to Richmond avenue; thence across Richmond avenue to Ocean avenue and there connecting with the existing tracks of the Company.

And to cross such other streets and avenues, named and unnamed, as may be encountered in said route.

The said route with turnouts, switches and crossovers hereby authorized is shown upon a map entitled:

"Map showing proposed alteration in the Richmond Light and Railroad Company, in the Borough of Richmond, to accompany petition dated January 6, 1911, to the Board of Estimate and Apportionment, City of New York,"—and signed by S. F. Hazelrigg, Vice-President, and Walter E. Pettigrew, Engineer; a copy of

which is attached hereto, is to be deemed a part of this contract, is to be construed with the text thereof, and is to be substantially followed, provided that deviations therefrom and additional turnouts, switches and crossovers which are consistent with the foregoing description, and the other provisions of this contract may be permitted by resolution of the Board.

Sec. 2. The grant of this privilege is subject to the following conditions, which shall be complied with by the Company:

First—The consent in writing of the owners of half in value of the property bounded on said streets and avenues to the construction and operation of said railway shall be obtained by the Company within three (3) months from the signing of this contract by the Mayor, and a copy of such consents shall be filed with the Board within such time, or in the event that such consents cannot be obtained within such time, the Company shall, within said three (3) months or within one (1) month thereafter make application to the Appellate Division of the Supreme Court for the appointment of Commissioners in the manner provided by the Railroad Law to determine if said railway ought to be constructed; otherwise this grant shall cease and determine.

Second—The said right to construct, maintain and operate said railway shall be held and enjoyed by the Company from the date upon which this contract is signed by the Mayor until, with the privilege of renewal of said contract for the further period of twenty-five (25) years, upon a fair revaluation of such right and privilege.

If the Company shall determine to exercise its privilege of renewal it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two (2) years and not later than one (1) year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at a less amount than the sum required to be paid during the last year prior to the termination of the original term of this contract.

If the Company and the Board shall not reach such agreement on or before the day one (1) year before the expiration of the original term of this contract, then the annual rate of compensation for such succeeding twenty-five (25) years shall be reasonable, and either the City (by the Board) or the Company shall be bound upon request of the other to enter into a written agreement with each other fixing the rate of such compensation at such amount as shall be reasonable, but in no case shall the annual rate so fixed be less than the sum required to be paid for the last year prior to the termination of the original term of this contract, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate and at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board; one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six (6) months prior to the expiration of this original contract, and their report shall be filed with the Board within three (3) months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall, in any event, be less than the sum required to be paid for the last year of the original term of this contract. If in any case the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate, therefore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Third—The Company shall pay to the City for the privilege hereby granted, the following sums of money:

(a) The sum of five hundred dollars (\$500) in cash within sixty (60) days after the date upon which this contract is signed by the Mayor, and before anything is done in exercise of the privilege hereby granted.

(b) During the first term of five (5) years an annual sum which shall in no case be less than four hundred and seventy-five dollars (\$475), and which shall be equal to three (3) per cent. of its gross annual receipts, if such percentage shall exceed the sum of four hundred and seventy-five dollars (\$475).

During the second term of five (5) years an annual sum which shall in no case be less than eight hundred and seventy-five dollars (\$875), and which shall be equal to five (5) per cent. of its gross annual receipts, if such percentage shall exceed the sum of eight hundred and seventy-five dollars (\$875).

During the third term of five (5) years an annual sum which shall in no case be less than nine hundred and seventy-five dollars (\$975), and which shall be equal to five (5) per cent. of its gross annual receipts, if such percentage shall exceed the sum of nine hundred and seventy-five dollars (\$975).

During the fourth term of five (5) years an annual sum which shall in no case be less than one thousand and seventy-five dollars (\$1,075), and which shall be equal to five (5) per cent. of its gross annual receipts, if such percentage shall exceed the sum of one thousand and seventy-five dollars (\$1,075).

During the remaining term, expiring an annual sum which shall in no case be less than one thousand and seventy-five dollars (\$1,175), and which shall be equal to five (5) per cent. of its gross annual receipts, if such percentage shall exceed the sum of one thousand and seventy-five dollars (\$1,175).

As the Company is operating both railway and electric light and power properties, it is agreed that the gross annual receipts mentioned above shall be the portion of the gross receipts from the railway property of the Company, as distinguished from the electric light and power property, as shall bear the same proportion to the whole gross receipts from such railway property as the length of the extension hereby authorized shall bear to the entire length of the railway of the Company in operation within the limits of the City.

The annual charges shall commence from the date upon which this contract is signed by the Mayor.

All annual charges as above shall be paid into the treasury of the City on November 1 of each

*Limit 25 years. To be made coterminous with grant for rights at St. George for which application is now pending.

year and shall be for the amount due to September 30 next preceding. Provided that the first annual payment shall be only for that portion of the first annual charge as the time between the date upon which this contract is signed by the Mayor and September 30 following shall bear to the whole of one year.

Whenever the percentage required to be paid shall exceed the minimum amount as above, then such sum over and above such minimum shall be paid on or before November 1 in each year for the year ending September 30 next preceding.

The annual charges herein provided are intended to include the percentages of gross receipts now required to be paid by railway companies to the City, pursuant to the Railroad Law as amended.

The sum of five hundred dollars (\$500) which is hereinbefore required to be paid to the City by the Company within sixty (60) days after the date upon which this contract is signed by the Mayor shall not be considered in any manner in the nature of a tax, but such payment shall be made in addition to any and all taxes of whatsoever kind or description, now or hereafter required to be paid by any ordinance of the City, or resolution of the Board, or any law of the State of New York.

Fourth—The annual charges or payments shall continue throughout the whole term of this contract (whether original or renewal), notwithstanding any clause in any statute or in the charter of any other railway or railroad company providing for payment for railway or railroad rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted (whether original or renewal), or of any part thereof, or of any of the routes mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this contract.

Fifth—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual or other corporation a similar right or privilege upon the same or other terms and conditions, over the route hereinbefore described.

The use of the railway constructed by the Company under this contract, including the tracks, wires and other equipment or any structures used in connection therewith, in streets and avenues and private property hereinbefore described shall be permitted by the Company, to any individual or corporation to which the City may have granted, or may hereafter grant, the right or privilege to use such streets and avenues for street railway purposes, upon payment of an annual sum by such individual or corporation to the Company, which shall equal the legal interest on such proportion of the actual cost of the construction of such railway and structures, and additions and betterments thereto, as the number of cars operated by such individual or corporation shall bear to the number of cars operated by the companies then using the same; and also such proportion of the cost of keeping the tracks and electrical equipment in repair, and the cost of additions and betterments thereto, such proportion of laying and repairing of pavement and removal of snow and ice and all other duties imposed upon the Company by the terms of this contract in connection with the maintenance or the operation of said railway so used, as the number of cars operated by such individual or corporation shall bear to the number of cars operated by the companies then using the same, together with the actual cost of the power necessary for the operation of the cars thereof of such individual or corporation. Provided, however, that if in the opinion of the Company, the legal rate of interest upon the cost of such railway shall be an insufficient sum to be paid for the use of such tracks, it may appeal to the Board and the Board may fix a percentage upon the cost to be paid to the Company, at a sum in excess of the legal rate of interest, if, in its opinion, such action is justified.

The Company shall not at any time oppose, but shall, upon the request of the Board, consent to the construction or operation of any street surface railway which may necessitate the use of any portion of the railway which shall be constructed by the Company, pursuant to this contract.

Sixth—The rights and privileges hereby granted shall not be assigned, either in whole or in part or leased or sublet in any manner, nor shall the title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in any wise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Seventh—Upon the termination of this original contract, or if the same be renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any cause, or upon the dissolution of the Company before such termination, the tracks and equipments of the Company constructed, pursuant to this contract, within the streets and avenues shall become the property of the City without cost, and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

If, however, at the termination of this contract as above, the Board shall so order by resolution, the Company shall, upon thirty (30) days' notice from the Board remove any and all of its tracks and other equipment constructed pursuant to this contract and the said streets and avenues shall be restored to their original condition at the sole cost and expense of the Company.

Eighth—The Company shall commence construction of the railway herein authorized within three (3) months from the date upon which the consents of the property owners are filed with the Board or from the date of the order of the Appellate Division of the Supreme Court made pursuant to Section 174 of the Railroad Law confirming the determination of the commissioners appointed thereunder, that such railway ought to be constructed and shall complete the construction and place the same in full operation within three (3) months from the date of filing such consents or the date of such order, otherwise this right shall cease and determine, and all sums paid, or which may be deposited with the Comptroller of the City, as hereinafter provided, shall thereupon be forfeited to the City; provided that the period for commencement and the period for completion and placing the railway in full operation may be extended by the Board, but the total extension of time for either

of such periods shall not exceed in the aggregate six (6) months; and provided, further, that when the commencement or completion of said construction shall be prevented by legal proceedings in any court or by works of public improvement, or from other causes not within the control of the Company, the time for the commencement or completion of such construction may be extended for the period of such prevention, but no delay shall be allowed for unless the court proceedings shall be diligently prosecuted by the Company, and provided, further, that in no case shall such delay be deemed to begin until the Company shall have given written notice to the Board of any such court proceedings or other occasion of delay, and deliver to the Board copies of any injunction or other orders, and the papers upon which the same shall have been granted, and unless upon the request of the Board the Company shall, in writing, consent that the Board either in its own name as a party, or in the name of the City as a party, may intervene in any such proceedings.

Ninth—Said railway shall be constructed and operated in the latest approved manner of street railway construction and operation, and it is hereby agreed that the Board may require the Company to improve or add to the railway equipment, including rolling stock and railway appurtenances, from time to time, as such additions and improvements are necessary, in the opinion of the Board. Upon failure on the part of the Company to comply with the direction of the Board within a reasonable time, the rights hereby granted shall cease and determine.

Tenth—Said railway shall be constructed, maintained and operated subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided by the Charter of the City.

No construction upon said railway shall be commenced until written permits have been obtained from the proper City officials.

In any permits so issued such officials may also impose such conditions, as a condition of the granting of the same, as are necessary for the purpose of protecting any structures, in the streets and avenues, over which such officials have jurisdiction and the Company shall comply with such conditions.

The electrical equipment to be installed by the Company for the operation of the railway within the limits of the City, whether the same be upon streets and avenues or upon private property, shall be constructed and maintained under the supervision and control of the Commissioner of Water Supply, Gas and Electricity.

Eleventh—Said railway may be operated by overhead electric power substantially similar to the overhead electric system now in use by street surface railways in the Borough of Richmond, or by any other motive power, except locomotive steam power or horse power, which may be approved by the Board, and consented to by the abutting property owners, in accordance with the provisions of law and by the Public Service Commission for the First District of the State of New York.

Twelfth—The rate of fare for any passenger upon said railway shall not exceed five (5) cents and the Company shall not charge any passenger more than five (5) cents for one continuous ride, from any point on its road or on any road, line or branch operated by it or under its control to any other point thereof, or any connecting branch thereof within the limits of the City.

The Company shall carry free upon the railway hereby authorized during the term of this contract all members of the Police and Fire Departments of the City, when such employees are in full uniform.

Thirteenth—No cars shall be operated upon the railway hereby authorized, other than passenger cars, cars for the transportation of express matter, mail matter and cars necessary for the repair or maintenance of the railway, and no freight cars shall be operated upon the tracks of said railway.

The rate for the carrying of such property over the said railway upon the cars of the Company shall in all cases be reasonable in amount, subject to the control of the Board, and may be fixed by the Board after notice to the Company and a hearing had thereon, and when so fixed such rates shall be binding upon the Company, and no greater sum shall be charged for such services than provided for by it.

Fourteenth—The Company shall attach to each car run over the said railway proper fenders and wheelguards, in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities, or as may be required by resolution of the Board.

Fifteenth—All cars which are operated on said railway shall be heated during the cold weather, in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities, or as may be required by resolution of the Board.

Sixteenth—All cars operated on said railway shall be well lighted by electricity, or by some lighting system equally efficient, or as may be required by resolution of the Board.

Seventeenth—Cars on the said railway shall run at intervals of not more than thirty (30) minutes both day and night, and as much oftener as reasonable convenience of the public may require, or as may be directed by the Board.

Provided, however, that the Company shall not be required to operate its cars between the hours of 1 o'clock a. m. and 5 o'clock a. m. each day, unless the Board shall determine after a hearing had thereon that public convenience requires the operation of cars during said hours.

Eighteenth—The Company, so long as it shall continue to use any of the tracks upon the streets and avenues in which said railway shall be constructed, shall, if required by the President of the Borough of Richmond, cause to be watered at least three (3) times every twenty-four (24) hours when the temperature is above thirty-five (35) degrees Fahrenheit, the entire width of the streets and avenues, except when the width of such streets and avenues shall exceed sixty (60) feet between curb lines, in which case the Company shall cause to be watered only sixty (60) feet in width of such roadway, and the Company shall provide for such purpose at least one tank car, the capacity of which shall be sufficient to water such streets and avenues in a satisfactory manner.

Provided, however, that the Company may, with the approval of the City official having jurisdiction over such matters, oil that portion of the surface of the streets and avenues between the tracks, the rails of the tracks and two (2) feet beyond the rails on each side thereof, at least twice each summer season, in such manner as may be necessary to prevent the rising of dust, and if the Company shall so oil such portions of the surface of the streets and avenues, then the Company shall not be required to water such streets and avenues as herein provided.

Nineteenth—The Company shall at all times keep the streets and avenues upon which the said railway is constructed, between its tracks, the rails of its tracks and for a distance of two (2) feet beyond the rails, on either side thereof, free and clear from ice and snow, provided, however, that the Company shall, at the option of the President of the Borough, enter into an agreement for each winter season, or part thereof, to clean an equivalent amount of street surface from house line to house line.

Twentieth—As long as said railway, or any portion thereof, remains in any street or avenue, the Company shall pave and keep in permanent repair that portion of the surface of the street or avenue in which the said railway is constructed between its tracks, the rails of its tracks and for a distance of two (2) feet beyond the rails on either side thereof, under the supervision of the local authorities, whenever required by them to do so, and in such manner as they may prescribe. In case of the neglect of the Company to make pavement or repairs after the expiration of thirty (30) days' notice to do so from the President of the Borough of Richmond, said President may make the same at the expense of the Company. And the City shall have the right to change the material or character of the pavement of any street or avenue, and in that event the Company shall be bound to replace such pavement in the manner directed by the proper City official, at its own expense, and the provisions as to repairs herein contained shall apply to such renewed or altered pavement.

The Company shall cause to be paved a strip sixty-four (64) feet in width across the entire roadway of New York and Tompkins avenues at their intersections with Wadsworth avenue, and a strip sixty (60) feet in width across the entire roadway of Richmond avenue at its intersection with Ocean avenue. The precise location of such pavement and the kind and character of the same shall be as determined by the President of the Borough of Richmond, and the work shall be done in the manner directed by said President.

Twenty-first—Any alteration to the sewerage or drainage systems, or to any other subsurface or to any surface structures in the streets, required on account of the construction or operation of the railway, shall be made at the sole cost of the Company, and in such manner as the proper City officials may prescribe.

Twenty-second—It is agreed that the right hereby granted to operate a street surface railway shall not be in preference or in hindrance to public work of the City, and should the said railway in any way interfere with the construction of public works in the streets and avenues, whether the same is done by the City directly or by a contractor for the City, the Company shall, at its own expense, protect or move the tracks and appurtenances in the manner directed by the City officials having jurisdiction over such public work.

Twenty-third—Should the grades or lines of the streets and avenues in which the railway is hereby authorized be changed at any time after the railway has been constructed and during the term of this contract, the Company shall, at its own expense, change its tracks and appurtenances to conform with such new grades and lines, and during the construction of any public improvement upon said streets and avenues the Company shall take care of and protect the tracks and appurtenances at its own expense, all to be done subject to the direction of the City official having jurisdiction over the construction of such change.

Twenty-fourth—The Company covenants and agrees to abandon and relinquish and does hereby abandon and relinquish to the City all its rights and franchises to construct, maintain and operate a street surface railway upon the route beginning at the intersection of New York avenue with Wadsworth avenue; thence upon New York avenue to Richmond avenue; thence upon Richmond avenue to Ocean avenue, and the Company shall, within one year from the date on which this contract is signed by the Mayor, comply with the provisions of Section 184 of the Railroad Law in regard to the abandonment of said route so abandoned and relinquished, and shall remove therefrom any and all existing tracks of the Company within such time, and restore the pavement in the manner prescribed by the President of the Borough of Richmond. If the Company shall fail to secure the approval of the Public Service Commission or shall fail for any other reason to comply with the provisions of this subdivision within the time stipulated this contract shall be void and of no effect, and the grant made herein shall thereupon cease and determine. Provided, however, the Board may extend said period for a period or periods not exceeding in the aggregate six months.

Twenty-fifth—Should the City at any time during the term of this contract lay out and acquire a street of sixty-four (64) or more feet in width, between New York avenue and Tompkins avenue, the lines of which shall approximately correspond with the proposed street shown upon the map hereinbefore described, and made a part of this contract, as Wadsworth avenue, then the Company shall, on one year's notice, alter the position of the curbs in said Wadsworth avenue to such position as shall be directed by the municipal authorities having jurisdiction and the Company shall cause to be paved the entire portion of the roadway between the new curb lines of said Wadsworth avenue which is not now paved under the supervision of the municipal authorities having jurisdiction in such matters and such authorities shall designate the kind and character of the pavement to be laid.

Should the City at any time during the term of this contract lay out a new street along all or any portion of the railway hereby authorized, between the northerly line of Richmond avenue and the westerly line of Tompkins avenue, then the Company shall convey or cause to be conveyed the free and clear title to all of that portion or portions of land now claimed to be owned by the Company and shown upon the map hereinbefore described and made a part of this contract, which shall lie within the lines of such new street or any portion of the same as may be laid out by the City, and should the City at any time during the term of this contract lay out the portion of such new street immediately north of Richmond avenue, then the Company shall convey or cause to be conveyed the free and clear title to all of those two triangular pieces or parcels of land, one of which lies immediately south of the property of the Company, as shown upon said map and between the easterly line of Florida avenue and the easterly line of such new street, being shown upon the hereinbefore described map as Parcel A, and the other of which has a frontage on Richmond avenue and lies between the westerly side of Florida avenue and the westerly side of such new street, being shown upon said map as Parcel B.

The conveyances hereinabove required shall be executed within thirty (30) days of the date of the approval by the Mayor of the resolution of the Board of Estimate and Apportionment adopting the map laying out such new street or streets.

The Company hereby agrees that if the City is, or shall become, entitled to acquire, and shall at any time during the term of this contract acquire or otherwise come into the possession of any of the property on which railway tracks shall be constructed on that portion of the route described herein as private property, no compensation shall be awarded for the right to have railway tracks thereon.

When the City shall have acquired or come into possession of any property, as provided above, then the rights hereby granted in the streets and avenues shall be extended to cover such property and all the terms and conditions of this contract shall be applicable thereto.

Twenty-sixth—The Company shall submit to the Board a report not later than November 1 of each year for the year ending September 30

next preceding, and at any other time, upon request of the Board, which shall state:

1. The amount of stock issued, for cash, for property.

—and such other information in regard to the business of the Company as may be required by the Board.

Twenty-seventh—The Company shall at all times keep accurate books of account of the gross receipts from all sources within the limits of the City, and shall, on or before November 1 of each year, make a verified report to the Comptroller of the City of the business done by the Company, for the year ending September 30 next preceding, in such form as he may prescribe. Such report shall contain a statement of such gross receipts, the total miles in operation within the limits of the City and the miles of railway constructed and operated under this contract, and such other information as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report, and may examine its officers under oath.

Twenty-eighth—In case of any violation or breach of failure to comply with any of the provisions herein contained, or with any order of the Board, acting under the powers herein reserved, the franchise or consent herein granted may be forfeited by a suit brought by the Corporation Counsel, on notice of ten (10) days to the Company, or at the option of the Board by resolution of said Board, which said resolution may contain a provision to the effect that the railway constructed and in use by virtue of this contract shall thereupon become the property of the City without proceedings at law or in equity. Provided, however, that such action by the Board shall not be taken until the Board shall give notice to the Company to appear before it on a certain day not less than ten (10) days after the date of such notice, to show cause why such resolution declaring the contract forfeited should not be adopted. In case the Company fails to appear, action may be taken by the Board forthwith.

Twenty-ninth—If the Company shall fail to give efficient public service at the rates herein fixed, or fail to maintain its structures and equipment as herein provided in good condition throughout the whole term of this contract, the Board may give notice to the Company specifying any default on the part of the Company, and requiring the Company to remedy the same within a reasonable time, and upon failure of the Company to remedy such default within a reasonable time, the Company shall, for each day thereafter during which the default or defect remains, pay to the City the sum of two hundred and fifty dollars (\$250) as fixed or liquidated damages, or the Board, in case such structures or equipment which may affect the surface of the streets shall not be put in good condition within a reasonable time after notice by the Board as aforesaid shall have the right to make all needed repairs at the expense of the Company, in which case the Company shall pay to the City the amount of the cost of such repairs, with legal interest thereon, all of which sums may be deducted from the fund hereinafter provided for.

Thirtieth—The Company shall assume all liability to persons or property by reason of the construction or operation of the railway authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or default of the Company.

Thirty-first—This grant is upon the express condition that the Company, within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of the City the sum of one thousand dollars (\$1,000), either in money or securities, to be approved by him, which fund shall be security for the performance by the Company of all the terms and conditions of this contract and compliance with all orders of the Board acting under the powers herein reserved, especially those which relate to the payment of the annual charges for the privilege hereby granted, the rendering of efficient public service at the rates herein fixed, the repairs of the street pavement, the removal of snow and ice, the quality of construction of the railway and the maintenance of the property in good condition throughout the whole term of this contract, and in case of default in the performance by the Company of such terms and conditions or compliance with such orders, or either or any of them, the City shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings; or after default in the payment of the annual charges, shall collect the same, with interest, from the said fund after ten (10) days' notice to the Company; or in case of failure to observe the said terms and conditions of this contract and orders of the Board acting hereunder, relating to the headway, heating and lighting of cars, fenders and wheel guards, the Company shall pay a penalty of fifty dollars (\$50) per day for each day of violation, and the further sum of ten dollars (\$10) per day for each car that shall not be properly heated, lighted or supplied with fenders or wheel guards, in case of a violation of the provisions relating to those matters, all of which sums may be deducted from said fund.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

The Board, on complaint made, shall give notice to the Company, directing its President, or other officer, to appear before the Board on a certain day not less than ten (10) days after the date of such notice, to show cause why the Company should not be penalized in accordance with the foregoing provisions. If the Company fails to make an appearance, or, after a hearing appears in the appearance of the Board to be in fault, said Board shall forthwith impose the prescribed penalty, or where the amount of the penalty is not prescribed herein, such

amount as appears to the Board to be just, and without legal procedure direct the Comptroller to withdraw the amount of such penalty from the security fund deposited with him. In case of any drafts made upon the security fund the Company shall, upon ten (10) days' notice, pay to the City a sum sufficient to restore said security fund to the original amount of one thousand dollars (\$1,000), and in default thereof this contract shall be cancelled and annulled at the option of the Board, acting in behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City.

Thirty-second—The words "notice" or "direction," wherever used in this contract, shall be deemed to mean a written notice or direction. Every such notice or direction to be served upon the Company shall be delivered at such office in the City as shall have been designated by the Company, or if no such office shall have been designated, or if such designation shall have for any reason become inoperative, shall be mailed in the City, postage prepaid, addressed to the Company at the City. Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing.

Thirty-third—The words "streets or avenues," and "streets and avenues," wherever used in this contract, shall be deemed to mean "streets, avenues, highways, driveways, concourses, boulevards, bridges, viaducts, public places or any other property to which the City has title or over which the public has an easement," encountered in the route hereinafter described, and upon or in which authority is hereby given the Company to construct a railway.

Thirty-fourth—If at any time the powers of the Board or any other of the authorities herein mentioned or intended to be mentioned, shall be transferred by law to any other board, authority, officer or officers, then and in such case such other board, authority, officer or officers, shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

Sec. 3. This grant is also upon the further and express condition that the provisions of article 5, and the other provisions of the Railroad Law pertinent hereto shall be strictly complied with by the Company.

Sec. 4. Nothing in this contract shall be construed as in any way limiting the present or future jurisdiction of the Public Service Commission under the laws of the State of New York.

Sec. 5. The Company promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms and conditions and requirements in this contract fixed and contained.

JOSEPH HAAG, Secretary.
Dated New York, April 27, 1911. m15,j8

PUBLIC NOTICE IS HEREBY GIVEN THAT at a meeting of the Board of Estimate and Apportionment, held May 11, 1911, the following petition was received:

To the Board of Estimate and Apportionment:
The petition of New York, Westchester and Boston Railway Company respectfully shows as follows:

That your petitioner is a railroad corporation of the State of New York and is engaged in constructing its railroad in The City of New York in accordance with a certain ordinance adopted by the Board of Aldermen on the 26th day of July, 1904, and approved by the Mayor on August 2, 1904, granting to your petitioner the right to cross streets, avenues and public places as therein specified, which ordinance was subsequently amended by a contract between the New York, Westchester and Boston Railway Company and The City of New York, dated January 29, 1909.

That in and by the said contract dated January 29, 1909, the entire route of your petitioner, as therein amended, was set forth in full.

That on the 10th day of December, 1910, the Board of Directors of your petitioner, for the purpose of improving the line of the railroad, by affirmative vote of two-thirds, at a meeting duly called and held in the manner provided by law, adopted a change of route

of a portion of its main line and of its branch line in The City of New York so that the same should be in accordance with a certain map thereupon adopted by the said Board of Directors, entitled "Map and Profile of New York, Westchester and Boston Railway for New York County, New York, Part of Sections 1, 2 and 3, December 10, 1910, being Map and Profile of that part of the route of the main line of said Railway Company within said county; extending from a point between Ludlow avenue and Westchester avenue, east of Whitlock avenue, in the Borough of The Bronx, City of New York, to a point in White Plains road near its intersection with Sagamore street, in said Borough and City; and Map and Profile of that part of the route of the branch line of said Railway Company within said county, extending from a point in 177th street, between Van Nest avenue and Berrian street in said Borough and City, to a point in Bronx Park avenue between Chanute avenue and Craighill avenue in said Borough and City. All as altered, changed, amended and adopted by affirmative vote of two-thirds of all the directors of the said Company on the 10th day of December, 1910. E. J. Langford, Chief Engineer, New York, Westchester and Boston Railway Company."

That subsequently thereto your petitioner applied to the Public Service Commission for the First District for leave to exercise its right to change its route within the said County in accordance with the map so adopted and that the said Public Service Commission for the First District, by an order dated April 25, 1911, approved and authorized the exercise of the right by your petitioner to make such alteration and change and to adopt such amended route.

That on May 1, 1911, your petitioner duly filed in the office of the County Clerk of New York County the said map and profile, together with a certified copy of the order of the Public Service Commission for the First District approving the said alteration and change. A copy of the said map is submitted herewith marked Exhibit A.

That your petitioner, by the contract dated January 29, 1909, was permitted to make a connection with the Interborough Rapid Transit route at or near West Farms road. That your petitioner, in order to improve such route, desires to charge the same as hereinafter set forth.

That it is the purpose and intention of your petitioner to construct north of Lebanon street and across Lebanon street and 180th street, Adams street and Berrian street, a central station for the accommodation of its trains and the trains running over the connection with the Interborough, and also allowing room enough for the introduction of the Broadway-Lexington avenue road in case it should be extended up to this point, together with the trains of your petitioner's Throgg's Neck Branch.

That the proposed plan will require the crossing of the streets named at a width in excess of 60 feet, which is the limitation imposed by the franchise in regard to the crossing of streets.

That submitted herewith is a map marked Exhibit B, showing that portion of the amended route shown in Plan A between 177th street and Unionport road, and showing the proposed width of your petitioner's road across the streets between the said two points, and also showing a proposed amendment to the connection between your petitioner's railroad and the terminus of the Interborough Rapid Transit Company near 180th street.

Wherefore, your petitioner prays that your Honorable Board will amend the said ordinance granting a franchise to your petitioner adopted by the Board of Aldermen on July 26, 1904, approved by the Mayor August 2, 1904, as amended by the contract between your petitioner and The City of New York, dated January 29, 1909, in the following respects:

(1) The description of the route of your petitioner's railroad with reference to that part thereof extending from 174th street to Adams street, shall be as follows:

thence crossing 174th street and Van Nest avenue, between Devoe avenue and the Harlem River and Port Chester Railroad; thence running northerly and crossing an unnamed street between Devoe avenue and Van Nest avenue; thence crossing 177th street at its junction with Berrian street (or Bronx Park avenue); and thence crossing Wyatt street, 178th street, Walker avenue (or West Farms road), Lebanon street, 180th street, and Adams street, between Morris Park avenue and Berrian street (or Bronx Park avenue);

—and the description of the beginning of the branch line shall be as follows:

Beginning at a point on the main line near its intersection with Tremont avenue (East 177th street); thence running southerly, crossing an unnamed street between Devoe avenue and Van Nest avenue;

—all be as shown on the map, entitled "Map and Profile of New York, Westchester and Boston Railway for New York County, New York, Part of Sections 1, 2 and 3," dated December 10, 1910, adopted by the Board of Directors of said Company on the 10th day of December, 1910, which map and profile were filed in the office of the County Clerk of the County of New York on the 1st day of May, 1911.

(2) That the connection with the present subway elevated route permitted by your Board in the said contract dated January 29, 1909, be amended so that the same shall read as follows:

In Connection with the Present Subway Elevated Route (Interborough Rapid Transit Company).

Beginning at a point on the main line of the New York, Westchester and Boston Railway Company at or near Adams street; thence running southerly crossing 180th street, between Morris Park avenue and Berrian street (or Bronx Park avenue); thence crossing Berrian street and Lebanon street at or near their intersection; thence crossing 179th street and Devoe avenue at or near their intersection; thence crossing Bronx street between Clover street and Walker avenue; and thence to a connection with the Interborough Rapid Transit Railroad on Boston road, between Clover street and Walker avenue.

(3) That subdivision Ninth of Section 2 of the ordinance adopted July 26, 1904, be amended so that the same shall read as follows:

"Ninth—Any superstructure of the railway crossing a street and having a length of 75 feet or less, shall be constructed in a single span. If more than 75 feet in length, any intermediate columns to support the superstructure may be placed in the street in such a manner as may be approved. The width of such superstructure of the railway shall not exceed 60 feet when measured over all, except that the width of such superstructures at the following streets may be as herein designated:

- | | |
|---|--------|
| (1) Unnamed street (between 174th and 177th streets) | 70 ft. |

| (7) Berrian street, between 180th street and Lebanon street | 215 " |
| (8) Lebanon street, between Berrian street and Devoe avenue. . . | 195 " |
| (9) Unionport road | 140 " |

And further provided that at 180th street, Adams street and Berrian street, platforms and a station may be constructed across the said streets within the width of the superstructure above designated."

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing thereon or permitting the occupancy of any such building by any tenant, free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances, between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the De-

partment of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on, in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-ends, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioner of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a Department, chief of a Bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below. No bid or estimate will be considered unless as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application thereto at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
