MESSAGE FROM THE MAYOR.

No. 1661.

His Honor the Mayor—Disapproval of Ordinance (Int. No. 1661) Entitled "An Ordinance to Repeal Section 155, Article 11, Chapter 10 of the Code, Relating to Oil Separators."

City of New York, Office of the Mayor, September 17, 1917.

The Honorable the Board of Aldermen:

Gentlemen—I return herewith disapproved proposed Ordinance, Int. No. 1661, entitled:

"Ordinance to repeal section 155, article 11, chapter 10 of the code relating to oil separators."

This proposed amendment to the Code of Ordinances would repeal subdivisions 1, 2, 3 and 4 of section 155 of chapter 10.

The sections to be eliminated require an oil separator or some similar device to be installed in all garages where more than four motor vehicles are stored. It also provides that such oil receptacle shall not exceed 50 gallons capacity, and to be emptied and cleaned when required. Each separator is also to be connected with the house drain. The Fire Commissioner, under subdivision 1, may exempt from the present requirements a garage that drains into a short sewer line.

This appeal is similar to the one presented to me in 1914, and which I returned disapproved in a message to your honorable Board on September 21 of that year. I sent your Board a further message in relation to another sewer accident on September 22, 1914, in which an explosion occurred at First avenue and 42d street.

My action at this time was taken on the reports received from the Sewer Bureau in Manhattan and from the Fire Department.

I have asked the Chief Engineer in charge of sewers in Manhattan to give me a further report on present conditions, which brings this matter down to date. After referring to the explosions charged to gasoline in 1914 the Chief Engineer states:

"Since that time, either due to the agitation of the subject or to the installation of oil separators, there has been much less difficulty and practically no explosions until the present summer. This does not mean that the sewers have been free from gasoline, but our workmen have been provided with means to protect themselves from serious injury in cases where there has been no explosion. We have provided a gas mask and also a blower which is able to force fresh air into the sewers in sufficient quantities to expel steam or gas."

"On June 14, 1917, another explosion occurred in the East 42d Street sewer. Less damage was done by this explosion than by the one in 1914, but this is probably due to the fact that the greater part of the lining of this rock tunnel was destroyed at that time and only a small part of it remained to be destroyed by this explosion. Another reason for less damage was that the easterly end of this sewer was open into the excavation of the Lexington Avenue subway and served as a vent for the expanding gases. In this case, as in previous cases, the explosion started near the East River and was probably caused by the sparking from the third rail of the crosstown trolley. The manhole covers were blown up into the air, but the tops of the manholes were not destroyed as in the previous explosion."

"On July 23, 1917, at about 2 p. m., an explosion occurred in the sewer in West 23d street. This explosion also appeared to start near the outlet. Twelve of the manhole covers were blown up into the air and broken and, while we have no exact facts, our men upon arriving on the ground were told that a number of people were injured by the flying covers and had been taken away in ambulances. The wooden barrel sewer under the dock was found to be on fire and had to be partially destroyed before the Fire Department could get control of the flames. The garage of the Adams Express Company in Tenth Avenue is suspected of being one of the chief sources of the gasoline causing this last explosion. The sewer structure itself, aside from the manhole covers and the wooden barrel sewer, was not injured by the explosion."

"On June 14, 1917, the day of the explosion in the 42d Street sewer, Assistant Engineer McGrane, of the Sewer Bureau, entered the sewer to make measurements and investigations. The gas fumes were so strong, however, that he and his assistants were compelled to abandon their work and leave the sewer. Previous to this Assistant Engineer N. B. Gardiner, while examining a sewer in 15th Street near Avenue C, was made seriously ill by the gas fumes. At this place the odor of the gas did not seem to be very perceptible and Mr. Gardiner did not realize that he was being affected until he came out of the sewer."

The Fire Commissioner has also made a report in reference to the present conditions, the same reading in part:

"I am of the opinion that the danger of sewer explosion from gasoline is confined to a limited section of the city, where many garages may drain into a single sewer and that it is entirely unnecessary to require garages in the less congested districts to install separators. A very careful investigation made by this department shows that no explosions have been recorded in the Borough of Queens, none have occurred in Richmond and there is a record of only one explosion of any importance occurring in Brooklyn. This explosion occurred at Crescent street near Fulton street about three years ago and tore up the pav-

ing. Two or three minor explosions occurred of which no record was kept. One explosion occurred in the Bronx on February 10, 1911, and three men who were at work cleaning the sewer were slightly burned and had to be taken to the hospital. This explosion occurred opposite a large meat packing house, belonging to Conron Brothers, who make their own ice, and in the opinion of Josia H. Fitch, Engineer of Sewers in that Borough, the explosion was caused by the discharge of something from the artificial ice plant.

"Practically all of the sewer explosions of any moment which have occurred in the city within recent years have occurred in Manhattan. There have been about fourteen of these in the last eight years. It is a striking fact that most of these have occurred in a concentrated area bounded roughly by 42d and 54th streets. The dates and locations of these explosions are as follows:

"522 W. 46th st., Oct. 16, 1910. 51st st. bet. 8th and 9th aves., March 17, 1910. 43d st. bet. 2d and 3d aves., Oct. 12, 1912. 333 W. 49th st., June 10, 1913. 354 W. 49th st., June 27, 1913. 54th st. and Broadway, Nov. 8, 1913. 43d st. bet. 2d and 3d aves., Jan. 5, 1911. 42d st. and 1st ave., July 1, 1914.

"Another report states that there is an explosion practically once a year in the East 42nd St. sewer; Broadway, bet. 119th and 120th Sts., Jan. 23, 1912; Central Park West, bet. 92nd and 93rd Sts., Mar. 13, 1912; 110th St. and Lexington Ave., June 22, 1914; Rector St., bet. Washington and West Sts., June, 1913; Hubert and Washington Sts., Oct. 21, 1911.

"The record of these explosions indicates that they have been confined to certain congested localities, but whether the explosions in these localities have been due to the fact that a considerable number of garages drain into the sewers of these localities or whether they are due to the peculiar structure of the sewers themselves is a matter about which there is considerable dispute."

From the report of the Fire Commissioner I am informed that there have been no records of explosions in either Queens or Richmond, and but one or two have been recorded in Brooklyn and The Bronx. The main difficulty seems to have been in the so-called automobile district in Manhattan.

I might draw to your attention the case of *Stubbs vs. Adamson*, 220 N. Y., 459, decided by the Court of Appeals at the April Term, 1917. This opinion sustained the constitutionality of the present ordinance requiring oil separators, Chief Justice Hiscock, in the course of the opinion, stating that the present ordinances, which were brought over from the regulations of the old Municipal Explosive Commission, had the force and effect of statutes and were to be considered as such. At page 469 the Court said:

"The legislature is justified in guarding against evils both real and fairly to be anticipated by any legislation which reasonably tends to prevent them, and it has a wide discretion in formulating the means which shall be adopted to this end. It is a sufficient basis for legislative action if only there are reasonable grounds for belief that the evil may occur, and even though there be 'an earnest conflict of serious opinion on the subject.'"

Further at page 470, after referring to the affidavits presented in behalf of the garage people, the opinion continues:

"These affidavits on the whole make it perfectly clear that the questions whether such danger did exist and whether such separator would eliminate it if it did exist, were largely questions of opinion and judgment in the decision of which reasonable men might differ, and they make it apparent that we should not say that there was such an entire absence of possibility of danger and that the proposed remedy was so utterly ineffective that the legislature was without power to adopt the legislation if it saw fit. We must always remember that the limitation upon its right to adopt police measures to avoid dangers is that the latter may fairly be anticipated, although vigorously denied, and that a wide range of discretion is allowed in determining when a possible evil ought to be guarded against and in fixing upon the means by which this shall be done."

In view of the report I have received from the Bureau of Sewers for Manhattan, I feel very strongly that some legislation providing for oil separators is necessary, at least in the Borough of Manhattan. It may be that in the outlying neighborhoods these machines could be dispensed with, without damage to the sewers or endangering the lives of the sewer workmen. That is a matter for your honorable Board to determine. If you should deem it expedient to take the matter up along this line, I would most strongly urge that you consider the advice of the sewer officials and employees in any neighborhood in which you consider eliminating the oil separator. I feel that the safety of these men, who are required to work daily in the sewers, should be considered before oil separators are eliminated. The inconvenience of installing oil separators and their maintenance by garage owners should not be controlling when the lives or health of the City employees may be endangered.

For the reasons above set forth I have disapproved the total repeal of the provisions on oil separators throughout the entire City, and return the matter for reconsideration. Respectfully,
JOHN PURROY MITCHEL, Mayor.

The Committee on General Welfare, to which was referred on May 29, 1917 (Minutes, page 425), the annexed ordinance to repeal section 155 of article 11 of chapter 10 of the Code of Ordinances relating to "oil separators," respectfully

REPORTS:

That, having examined the subject, it believes the repeal of this particular section to be advisable in that it will be of inestimable benefit to owners of private garages, particularly in the outlying sections of the City.

It therefore recommends that the said ordinance be adopted.

AN ORDINANCE to repeal section 155 of article 11 of chapter 10 of the Code of Ordinances, relating to oil separators.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

Section 1. Section 155 of article 11 of chapter 10 of the Code of Ordinances, relating to oil separators, is hereby repealed in its entirety, said section reading as follows:

[§155. Oil separators.

1. *When required.* No garage permit authorizing the storage of volatile inflammable oil shall be issued for any premises, storing more than 4 motor vehicles, which are not provided with an oil separator, trap or other similar apparatus attached to the house drain, for the purpose of preventing volatile inflammable oils from flowing into the sewer; provided, however, that the fire commissioner may exempt from the requirements of this section a garage draining into a short sewer line. (O. R., §376.)

2. *Oil receptacle.* The oil-receptacle of an oil separator shall not exceed 50 gallons capacity, and shall be emptied as often as may be necessary to prevent the oil from overflowing; and such oils as are recovered from the separator shall be removed from the garage within 24 hours after being taken from the separator. (O. R., §397.)

3. *Sewer connection.* Each oil separator shall be connected to the house drain, and shall be so arranged as to separate all oils from the drainage of the garage. (O. R., §396.)

4. *Waste oil.* All oils spilled on the floor of a garage shall be removed by sponging or swabbing, and poured into the drain leading to the oil separator. (O. R., §398.)

Sec. 2. This ordinance shall take effect immediately.

HARRY ROBITZEK, Chairman; ARNON L. SQUIERS, JAMES R. FERGUSON, W. F. QUINN, FRANK T. DIXON, WILLIAM T. COLLINS, S. FRIEDLANDER, Committee on General Welfare.

Which was laid over, ordered printed in the minutes and published in full in the CITY RECORD.

The President laid before the Board the following communication from the Department of Plant and Structures:

No. 1814.

Commissioner of Plant and Structures—Request for Authority to Rent Cable Wrapping Machines Without Public Letting.

Department of Plant and Structures, City of New York, Municipal Building, Manhattan, N. Y., August 3, 1917.

To the Honorable the Board of Aldermen of The City of New York:

Gentlemen—On July 7, 1916, your Honorable Board adopted a resolution authorizing this department to enter into a contract with Mr. Holton D. Robinson, without public letting, for the rental of certain machines and accessories, for use in the work of wrapping the main cables of the Williamsburg Bridge, at a price of 80 cents per linear foot of cable wrapped, said cost not to exceed \$3,000.

This work has been in progress some time, and on July 3, 1917, the Board of Estimate and Apportionment appropriated additional funds to the amount of \$44,650 for carrying on said work.

In the schedule approved by the said Board on July 3, 1917, is included the sum of \$6,600 for General Plant Service, Rent of Wrapping Machines and Accessories.

I believe that the price being paid to Mr. Robinson for the use of his machines is reasonable, and I beg to request your Honorable Board to grant me permission, pursuant to the provisions of section 419 of the Greater New York Charter, to rent the said machines without public letting at the price of 80 cents per linear foot of cable wrapped, the total expenditure for the use of the machines at this time not to exceed \$6,600, in addition to that already provided for. Respectfully,

F. J. H. KRACKE, Commissioner.

The President laid before the Board the following communications from the Commissioner of Public Charities:

No. 1815.

Commissioner of Public Charities—Request for Authority to Contract for Construction Work on Cumberland Street Hospital Without Public Letting.

Department of Public Charities of The City of New York, Municipal Building, Tenth Floor, September 5, 1917.

To the Honorable the Board of Aldermen, City Hall, New York City:

Gentlemen—We have an appropriation of \$800,000 for the construction of a new Cumberland Street Hospital. On September 5th bids were opened for its construction. For general construction eight bids were received, for plumbing four, and for heating nine were received. The lowest of these bids, in addition to the architect's fees, exceeds our total appropriation by \$6,529. The Board of Estimate and Apportionment, at its meeting on September 6th, granted additional funds sufficient to cover the bids and fees. It would undoubtedly cost the City a large additional amount to readvertise. The matter has been fully advertised and we respectfully request permission to let the contracts to the lowest bidders and without further advertising, as follows:

General Construction—Albert Winternitz	\$557,000 00
Plumbing—The Wm. Gordon Corporation	88,446 00
Heating—Teran, Mahaney & Munro, Inc.	118,000 00

\$763,446 00

As it is a hardship in this period of fluctuating markets to hold these bidders in suspense I trust you may find it possible to take very early action.

Very truly yours, JOHN A. KINGSBURY, Commissioner.

Department of Public Charities of The City of New York, Municipal Building, Tenth Floor, September 15, 1917.

To the Honorable the Board of Aldermen, City Hall, New York City:

Gentlemen—We desire to withdraw our communication of September 5th with regard to the Cumberland Street Hospital and substitute therefor the following:

We have an appropriation of \$800,000 for the construction of a new Cumberland Street Hospital. On September 5th bids were opened for its construction. For general construction eight bids were received, for plumbing four, and for heating nine were received. The lowest of these bids, in addition to the architect's fees, exceeds our total appropriation by \$6,529. The Board of Estimate and Apportionment, at its meeting on September 6th, granted additional funds sufficient to cover the bids and fees. It would undoubtedly cost the City a large additional amount to readvertise. The matter has been fully advertised and we respectfully request permission to let the contracts to the lowest bidders and without further advertising, as follows:

General Construction—Albert Winternitz	\$557,000 00
Plumbing—The Wm. Gordon Corporation	88,446 00
Heating—Teran, Mahaney & Munro, Inc.	118,000 00

\$763,446 00

In our public advertising there were alternate bids requested on plumbing, providing a bid for faucets, made of brass and plated with nickel, and an alternate of the same equipment to be constructed of Benedict metal. The lowest bidder, the William Gordon Corporation, was unable to give an alternate bid on Benedict metal. But one alternate bid was received, and the additional price asked by that bidder for the Benedict metal was \$4,800. The William Gordon Corporation has written us under date of September 15th that they will supply the Benedict metal as called for in the specification and in the alternate bid for \$2,500, in addition to the price bid in response to the advertisement, thus making their present quotation \$90,946, instead of their bid, which included only nickel brass, of \$88,446. We desire to let the contract for the modified amount, as set forth.

The Benedict metal is a white metal, the same as is used for faucets in the Municipal Building. It is in all regards much superior to brass nickel plated, owing to the fact that it always retains the same bright surface and does not need to be subsequently plated, as does all brass fixtures which have been originally plated.

As it is a hardship in this period of fluctuating markets to hold these bidders in suspense I trust you may find it possible to take very early action.

Very truly yours, HENRY C. WRIGHT, Acting Commissioner.

In connection with the foregoing communication, Alderman McCann offered the following resolution and moved that the same be made a Special Order for the day.

Which was adopted.

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the Commissioner of Public Charities be and he is hereby authorized and empowered to enter into contracts, without further advertising for bids, for the construction of a new Cumberland Street Hospital, as follows:

General construction, Albert Winternitz	\$577,000 00
Plumbing, The Wm. Gordon Corporation	90,946 00
Heating, Teran, Mahaney & Munro, Inc.	118,000 00

\$765,946 00

Which was unanimously decided in the affirmative by the following vote:

No. 1816.

Commissioner of Public Charities—Request for Authority to Purchase Food Supplies Without Public Letting.

Department of Public Charities of The City of New York, Municipal Building, Tenth Floor, September 15, 1917.

To the Honorable Board of Aldermen, City Hall, New York:

Gentlemen—The Central Purchasing Committee will open bids for food supplies for this department on September 28 to amount exceeding two hundred thousand dollars.

There has been some delay in the advertisement for our food supplies. As a result we will be entirely out of meat and milk on September 30, which is a Sunday

following the day the bids will open. It will be impossible to enter into a contract with the contractor in time to get a delivery from the lowest bidder for Sunday's use. It may happen, as it frequently does in fluctuating markets like the present, that the low contractor will refuse to deliver until after his sureties are accepted and contract has been signed, which requires fully two weeks. In order to protect this department we feel that we must have the right to purchase in open market in case we are not able to secure our supplies by contract. We accordingly request your Honorable Board to grant us permission to purchase without public letting food supplies to the amount of twenty-five thousand dollars.

It is imperative that this be acted upon before September 28. Very truly yours,
HENRY C. WRIGHT, Acting Commissioner.

In connection with the foregoing communication, Alderman McCann offered the following resolution and moved that the same be made a Special Order for the day. Which was adopted.

Resolved, That, in pursuance of section 419 of the Greater New York Charter, the Commissioner of Public Charities be and he is hereby authorized and empowered to purchase food supplies in the open market without public letting, to the amount of twenty-five thousand dollars (\$25,000).

The President laid before the Board the following communication from the Commissioner of Parks, Borough of Queens:

No. 1817.

Commissioner of Parks, Borough of Queens—Request for Special Revenue Bonds, \$7,935, to Pay Wages of Laborers, Etc.

The City of New York, Department of Parks, Borough of Queens, Sept. 11, 1917.
Hon. FRANK L. DOWLING, President, Board of Aldermen, City Hall, New York City:

Dear Sir—Application is hereby made for an issue of Revenue Bonds in the amount of \$7,935, to the Department of Parks, Borough of Queens.

Of this sum \$280 is required for 56 days for one painter; \$155 is required for 31 days for a second painter, to fill out the quota of days allowed in the budget for 1917. This number was reduced by action of the Board in increasing the per diem rate to be paid to painters from \$4.00 to \$5.00.

These days were decreased temporarily, with the understanding that we were to be given them again at a later date, when required.

Of the balance, \$5,000 is requested for 3,000 days of Laborers at \$2.50 and \$2,500 for 1,000 days of Climbers and Pruners at \$2.50 per diem.

This sum is required to provide for the routine work of the Department.

The emergencies in connection with war gardens early in the year, together with the vacancies in the Department caused by enlistment of members of the force for military purposes, and other emergencies due to the war have practically used up our available funds.

I would respectfully request early action on this application, in order that the work of the Department may not suffer.

I have the honor to remain, Respectfully,

JOHN E. WEIER.

The President laid before the Board the following communication from the President, Borough of Manhattan:

No. 1818.

President, Borough of Manhattan—Request for Authority to Contract for Reconstruction Work on the City Hall Without Public Letting.

City of New York, Borough of Manhattan, Municipal Building, Sept. 12, 1917.
Hon. FRANK L. DOWLING, President, Board of Aldermen, City Hall:

Dear Sir—Under date of September 6th, 1917, the Board of Estimate and Apportionment appropriated the sum of \$50,000.00 for the reconstruction, renovation and preservation of the City Hall Building.

The work to be undertaken is of a nature requiring great care in the protection of the building and the contractor to do the work should be selected for responsibility and experience.

I therefore respectfully request permission to contract for the work without public letting at a cost not to exceed the amount of the appropriation above mentioned. Yours very truly,

MARCUS M. MARKS, President, Borough of Manhattan.

Which was referred to the Committee on Public Letting.

The President laid before the Board the following communication from the Board of Estimate and Apportionment:

No. 1819.

Board of Estimate and Apportionment—Resolution Amending Corporate Stock Issue for the Purchase of Property Adjoining Cumberland Street Hospital.

City of New York, Board of Estimate and Apportionment, Office of the Secretary, Municipal Building, September 12, 1917.

To the Honorable the Board of Aldermen:

Gentlemen—I transmit herewith certified copy of resolution adopted by the Board of Estimate and Apportionment on September 6, 1917, amending resolution adopted June 26, 1913, which authorized the issue of \$45,000 corporate stock for the purchase of property adjoining Cumberland Street Hospital and remodeling the buildings thereon, in the Borough of Brooklyn, under the jurisdiction of the Department of Public Charities, by reducing said amount to \$25,000 for the purchase of said property. I also enclose herewith copy of report of the Comptroller relative thereto.

Yours very truly, JOSEPH HAAG, Secretary.

Resolved, That subject to concurrence herewith by the Board of Aldermen, the resolution adopted by the Board of Estimate and Apportionment on June 26, 1913, and approved by the Board of Aldermen on July 15, 1913, which authorizes forty-five thousand dollars (\$45,000) in corporate stock for the purchase of property adjoining Cumberland Street Hospital (\$25,000) and for remodeling the buildings thereon (\$20,000) be and is hereby amended to read as follows:

"Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended, the Board of Estimate and Apportionment hereby approves of the issue of corporate stock of the City of New York to an amount not exceeding twenty-five thousand dollars (\$25,000) for the purchase of property adjoining Cumberland Street Hospital, Borough of Brooklyn, under the jurisdiction of the Department of Public Charities, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller be and is hereby authorized to issue said corporate stock of the City of New York in the manner provided by section 169 of the Greater New York Charter, the proceeds thereof to the amount of the par value of the stock to be applied to the purposes aforesaid."

The City of New York, Department of Finance, September 6, 1917.

To the Board of Estimate and Apportionment:

Gentlemen—The Commissioner of Public Charities has requested the modification of the corporate stock fund authorized August 5, 1913, and entitled C. C. H. 1C, Remodeling Building on Property adjoining Cumberland Street Hospital, Borough of Brooklyn, to read C. C. H. 1D, Construction and Equipment of Building to Replace Cumberland Street Hospital, also the approval of increased estimates of cost for the construction of the new Cumberland Street Hospital.

On September 5, 1917, bids were opened for the construction of the new Cumberland Street Hospital. The approved estimated cost and lowest bids received for the work were as follows:

	Estimated Cost.	Bid.
General Construction	\$582,505 00	\$557,000 00
Plumbing	62,500 00	88,446 00
Heating	97,930 00	118,000 00
Total	\$742,935 00	\$763,446 00

The bids exceed the total approved estimated cost by \$20,511. The architect's fees are estimated at \$43,333.45, which, together with additional expenditure of \$5,000, which will be necessary to provide white metal fixtures in place of brass, as provided in an alternate bid on plumbing work, exceeds the total appropriation of \$800,000 now available by \$12,779.45.

In order that a small working balance may be available, over the actual cost as at present determined, it is recommended that \$15,000 additional be made available. It is suggested, however, that the \$20,000 authorized in 1913 be rescinded and that a new appropriation of \$15,000 be approved.

I recommend the adoption of the attached resolutions (3) which will grant the request as suggested. Respectfully,

(Sgd.) WM. A. PRENDERGAST, Comptroller.

The President laid before the Board the following communication from the President, Borough of Manhattan:

No. 1820.

President, Borough of Manhattan—Request for Special Revenue Bonds, \$4,000, to Pay the Salaries of Eight Inspectors.

City of New York, Borough of Manhattan, Municipal Building, July 27, 1917.

Hon. FRANK L. DOWLING, President, Board of Aldermen, City Hall, New York City:

Dear Sir—Request is hereby made for an issue of Special Revenue Bonds in the amount of \$4,000.00 to provide funds to pay the salaries of eight inspectors for the balance of the year who are to be employed as a traffic squad for the purpose of obtaining traffic data upon which determination is made for street widening.

The Chief Engineer of this department, in his request for funds to re-establish this force in the department, says in part:

"At the time of the discussion before the Board of Estimate and Apportionment of our request for funds to widen the roadways of certain streets, a great deal of stress was put upon the fact that it was proposed to widen streets which had been recently repaved. It was contended that the widening should have been foreseen in advance of the repaving so that the entire improvement could be done at the same time. Until about one year ago this office maintained a traffic squad for the purpose of securing information which would indicate where roadway widenings were most needed, but the squad was discontinued for lack of funds, and up to the time of its discontinuance there is no record of any instance where the roadway of a street was widened immediately after it was repaved. It is most essential that a comprehensive study of the traffic problem be made in order that plans may be made in advance to determine where widenings of roadways are necessary and to make the paving conform thereto. In our request for funds for street widening purposes, there was included an item of \$10,000.00 to provide means for the traffic squad, which was disallowed upon the ground that Corporate Stock should not be used for such purposes."

In order that the traffic squad may be reorganized and immediately assigned to the work described herein, I would respectfully request your favorable consideration as soon as possible. Yours very truly,

MARCUS M. MARKS, President, Borough of Manhattan.

No. 1821.

Board of Education, Park Avenue and 59th Street, New York, August 7, 1917.

Hon. FRANK L. DOWLING, President, Board of Aldermen, City Hall, New York City:

Dear Sir—I transmit herewith a duplicate certified copy of a preamble and resolution adopted by the Board of Education on May 9, 1917, requesting the Board of Aldermen to adopt an amendment to the Building Code, Code of Ordinances of The City of New York, so as to provide that Sections 520 and 521 of Chapter 5, Article 25, shall not apply to dramatic or other entertainments in public school buildings when written approval thereof is obtained from the Fire Commissioner.

Respectfully yours,

Whereas, The provisions contained in sections 520 and 521 of chapter 5, article 25, of the Building Code, Code of Ordinances of The City of New York, relating to the use of buildings for theatrical or operatic purposes, or for public entertainments of any kind, where the seating capacity exceeds 300, prevents the production of dramatic performances, with scenery, in public school buildings; be it

Resolved, That the Board of Aldermen be, and it is hereby, respectfully requested to adopt an amendment to the Building Code, Code of Ordinances of The City of New York, so as to provide that Sections 520 and 521 of Chapter 5, Article 25, shall not apply to dramatic or other entertainments in public school buildings when written approval thereof is obtained from the Fire Commissioner.

The President laid before the Board the following communication from the President, Borough of Manhattan:

No. 1822.

President, Borough of Manhattan—Request for Authority to Execute a Certain Contract for the Construction of the Park Avenue Viaduct Without Public Letting.

City of New York, Borough of Manhattan, Municipal Building, August 9, 1917.

Hon. FRANK DOWLING, President, Board of Aldermen, City Hall, New York:

Dear Sir—Under date of July 30, 1917, proposals were received and opened in this office for the construction of the Park Avenue Viaduct. These bids were received from representative contractors of the City, the lowest of which was the Terry & Tench Co., whose bid was \$517,070.

The amount appropriated for this improvement under resolutions of the Board of Estimate and Apportionment of July 15, 1912, and April 20, 1917, was \$474,000, of which \$7,000 was expended for preliminary engineering work, leaving a balance available of \$467,000.

On Tuesday, August 14, 1917, at 10 a. m., the Board of Estimate and Apportionment will meet especially to consider the appropriation of additional moneys, and favorable action is anticipated. In view of the fact, however, that the resolutions of the Board of Estimate authorizing this improvement did not carry sufficient moneys to cover the estimated cost, a contract cannot be legally awarded upon the proposals received July 30, 1917.

In a comparison of the bids submitted, the lowest bid appears sufficiently favorable to suggest its prompt acceptance, as the present uncertain market conditions would indicate a much higher figure if the bids were rejected and the contract advertised again at a later date. I would therefore earnestly request that a special meeting of the Board of Aldermen be held at a very early date to authorize me to enter into this contract with the Terry & Tench Co. without public letting, at a price not to exceed the low bid of \$517,070. Yours very truly,

MARCUS M. MARKS, President, Borough of Manhattan.

In connection with the foregoing communication Alderman McCann offered the following resolution and moved that the same be made a Special Order for the day.

Which was adopted.

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the President of the Borough of Manhattan be and he is hereby authorized and empowered to enter into contract with the Terry & Tench Co., without public letting, for the construction of the Park Avenue Viaduct, at a price not to exceed five hundred and seventeen thousand and seventy dollars (\$517,070).

The President put the question whether the Board would agree with said resolution.

Which was unanimously decided in the affirmative by the following vote:

Affirmative—Aldermen Bassett, Bent, Burns, Burden, Browne, Cardani, Cassidy, Collins, Colne, Cox, Crane, Curley, Daly, Delaney, Diemer, Dixon, Donnelly, Dostal, Dunn, Drescher, Eagan, Farley, Ferguson, Ferrand, Gaynor, Gilmore, Goetz, Hatch, Haubert, Heyman, Hilkemeier, Hogan, Kenneally, Kenney, McCann, McGillick, Manus, Molen, Moore, Mullen, O'Rourke, Post, Quinn, Roberts, Robitzek, Ryan, Schmitz, Schweickert, Shields, Smith, Squiers, Stapleton, Stevenson, Tolk, Trau, Walsh, Williams, Wise, the Vice-Chairman—59.

The President laid before the Board the following communication from the Commissioner of Parks, Borough of Queens:

No. 1823.
Park Commissioner, Borough of Queens—Request for Special Revenue Bonds, \$2,600, to Pay for the Hire of Teams for Remainder of the Year 1917.

The City of New York, Department of Parks, Borough of Queens, August 16, 1917.

The Board of Aldermen, City Hall, New York City:

Dear Sirs—Application is hereby made for an issue of Revenue Bonds in the sum of \$2,600 for 520 days of teams at \$5 per day.

The funds for the hire of teams in this Department, are entirely exhausted and we are today without a single team.

The money is required to carry on the following activities for the remainder of the year:

<i>Forestry Bureau.</i>		
Trees and City Streets—Trimming, spraying and removing, 2 teams, 120 days	\$240 00	
Parks and Boulevards—Trimming, removing, spraying, transferring equipment and general work, 1 team	120 00

The President laid before the Board the following communication from the Commissioner of Docks and Ferries:

No. 1824.
Commissioner of Docks and Ferries—Request for Authority to Contract for Certain Work on Pier at Foot of West 46th Street, North River, Without Public Letting.

The City of New York, Department of Docks and Ferries, Office of the Commissioner, Pier A, North River, August 11, 1917.

Hon. FRANK L. DOWLING, President, Board of Aldermen, City Hall, New York:

Dear Sir—On July 16, 1917, bids were opened for completing the offices and mechanical equipment on the pier foot of West 46th street, North River, under Contract No. 1573. The work is divided into three classes: Class 1 includes all the work except the heating and plumbing; Class 2 covers the heating work and Class 3 covers the plumbing work.

Five bids were received on Class 1, as follows:

Lustig & Weil	\$142,115 00
Post & McCord, Inc.	154,850 00
J. M. Knopp	157,993 00
Snare & Triest Co.	161,600 00
North Eastern Construction Co.	171,580 00

Two bids were received on Class 2, as follows:

Teran, Mahaney & Munro, Inc.	\$8,934 00
William J. Olvany	12,988 00

Three bids were received on Class 3, as follows:

Wm. Young Plumbing Co.	\$5,495 00
John J. Kenney Co.	5,743 00
V. S. Rittenhouse, Inc.	5,800 00

I have investigated the financial responsibility and experience of Messrs. Lustig & Weil, and am convinced that on work of this importance it would be unwise to award the contract to them. They have been unable to show that they have ever performed work of this character, and in view of the urgent necessity of completing this important pier at the earliest practicable date I do not feel that I can recommend award to them. The next lowest bidder, Post & McCord, Inc., is thoroughly competent and experienced.

In Classes 2 and 3 I am willing to award to the lowest bidders.

In order to make the awards suggested it will be necessary to obtain additional money in the sum of \$49,279. At a meeting of the Commissioners of the Sinking Fund held on the 26th ultimo, a resolution was adopted recommending to the Board of Estimate and Apportionment that the additional corporate stock be provided, and the matter is now before the Board of Estimate and Apportionment.

Under a recent decision of the Supreme Court it is not permissible to award contracts on advertised bids under the provisions of section 419 of the Charter except where the necessary money is appropriated and available at the time the bids are opened.

I request that a resolution be adopted by the Board of Aldermen authorizing the Commissioner of Docks to enter into a contract, without public letting, with Post & McCord, Inc., for the work called for in Class 1.

The necessary money being available, awards can be made in Classes 2 and 3 to the low bidders. Yours very truly,

RICHARD C. HARRISON, Acting Commissioner of Docks.

The President laid before the Board the following communication from the Commissioner of Correction:

No. 1825.
Commissioner of Correction—Request for Amendment of Ordinance Adopted March 17, 1914, Establishing a "Manufacturing Fund."

Department of Correction of The City of New York, Commissioner's Office, Municipal Building, Centre and Chambers Streets, New York, July 17, 1917.

Hon. FRANK L. DOWLING, President, the Board of Aldermen:

Dear Sir—On March 17, 1914, the Board of Aldermen adopted a report of its Committee on Charities and Corrections establishing a reserve fund of working capital amounting to \$50,000 for the Department of Correction manufacturing industries. Experience has shown that the amount of this fund, \$50,000, is insufficient to meet the needs of the Department of Correction, particularly in view of the difficult market conditions and advancing prices.

I hereby make application to your Honorable Board for a modification of the plan adopted by your Board on March 17, 1914, by increasing the amount of the reserve fund for the working capital from \$50,000 to \$75,000. The immediate purpose of this request for an increase in the working capital is to provide sufficient funds with which to purchase African bass for the manufacture of street brooms for the Street Cleaning Department.

Attached hereto are communications from the Superintendent of Industries of this department, Mr. Luther C. White, and from Commissioner John T. Fetherston, of the Department of Street Cleaning, addressed to the Commissioner of Correction, to the Mayor and to the Auditor of Receipts of the Department of Finance. These communications call attention to the necessity of the purchase now of materials for the manufacture of brooms for use in 1918. Respectfully,

BURDETTE G. LEWIS, Commissioner.

A true copy of resolution adopted by the Board of Estimate and Apportionment, July 19, 1917.

JOSEPH HAAG, Secretary.

July 18, 1917.

To the Board of Estimate and Apportionment:

Gentlemen—Chapter 802 of the Laws of 1917 known as "The Farms and Markets Law" provides for the establishment of a Department of Public Markets in this City by a resolution of the Board of Estimate and Apportionment approved by the Board of Aldermen. It is extremely important that such steps as are necessary to make the law operative in New York City be taken at once. The duly authorized agencies of the federal government are at present making comprehensive studies of the food supply conditions of the United States, both present and future, with a view of adopting such measures for the control and distribution of food supplies as may be deemed best for the public welfare. A special session of the state legislature has been called for July 30, in order that the state authorities may enact such legislation as will enable the state to maintain intelligent and adequate control of its food production and distributing activities.

The law provides that existing powers, duties and responsibilities having to do with the control and development of the public market system of the City of New York vest in the Department of Public Markets immediately upon the appointment by the Mayor of a Commissioner for this department. The position and salary of the Commissioner of the Department of Public Markets were established by resolution of the Board of Estimate and Apportionment on June 29, 1917, under the provisions of Section 56 of the Charter, and the Department has been established subject to the approval of the Board of Aldermen in accordance with the provisions of Chapter 802 of the Laws of 1917.

In order that there may be no failure in the orderly operation and maintenance of the existing public markets of the City, it is necessary that transfers be made of certain employees now engaged in market work from the Bureau of City Revenue and Markets of the Finance Department, the Bureau of Public Buildings and Offices, President, Borough of Manhattan, and the Bureau of Public Buildings and Offices, President, Borough of Brooklyn. The law gives discretion to the Board of Estimate and Apportionment to determine the need for such employees in the new department and provides that they shall be transferred by act of the Board of Estimate and Apportionment without change of salary. Until a careful survey of the existing situation in the City of New York has been made by the Commissioner of Public Markets, it will be impossible to determine upon a complete organization for the work to be done. For this reason, the Committee has deemed it wise at this time to recommend the transfer of only those employees directly engaged in existing public market activities and the establishment, under Section 56, of such positions as will be immediately required for the proper conduct of the department leaving for consideration later in the year or in the budget for the year 1918 such appropriations as may be necessary to provide for the development of the market system along such lines as the Commissioner may recommend.

It is clear that the Commissioner of Public Markets will require immediately the assistance of an officer in charge of the actual, current, physical and financial operation of existing and future public markets. In view of the urgent public necessity, which is the basis for the legislation already enacted, and the expressed intention to enlarge greatly the public market system of the City of New York, your Committee believes that a salary of \$5,000 a year should be provided for this position.

The Commissioner will also require immediately the advice and assistance of a Deputy Commissioner, who will act as his principal consultant and adviser in the study of the numerous problems which are pressing for solution and in establishing such relations for co-ordinate activities of the federal and state government as are necessary to the intelligent development of the market system of this City. This officer will be co-ordinate in rank with the Superintendent of Markets and will have a relation to the head of the department on theoretical and policy determining side similar to that of the Superintendent of Markets on the side of practical operation. Your Committee recommends a salary of \$5,000 a year for this position.

It will be necessary to provide an office force for the immediate assumption of the duties and responsibilities connected with the administration of the department. The Committee recommends the establishment of the following positions:

1 Draftsman (Architectural) at	\$1,800 00
1 Clerk at	1,320 00
1 Bookkeeper at	1,320 00
1 Senior Stenographer at	1,320 00
1 Stenographer at	960 00
1 Junior Stenographer at	720 00
1 Junior Clerk at	420 00

Your Committee recommends the transfer to the Department of Public Markets, as provided in The Farms and Markets Law of the following positions with the salaries of the incumbents from August 1 to December 31:

In relation to the available appropriations for purposes other than Personal Service, The Farms and Markets law provides as follows:

"On the establishment of the Department of Public Markets in the City the Board of Estimate and Apportionment * * * may in its discretion transfer all or part of the existing funds and unexpended appropriations made by the City to enable the Department, office, division, bureau, officer or employee to exercise the powers and duties so transferred."

An immediate analysis of the existing appropriations in the funds of the Bureau of Public Buildings and Offices and offices of the Presidents of the Boroughs of Manhattan and Brooklyn will be made and such transfers recommended as are properly chargeable to those activities taken over by the Department of Public Markets. For the purpose of the modification of schedules and the transfer of funds it is necessary to fix a definite date. Any necessary adjustments may be made by subsequent action. We, therefore, recommend the adoption of the attached resolutions (1) establishing certain positions under provisions of section 56 of the Charter; (2) transferring present employees from the Department of Finance, the Borough President of Manhattan and the Borough President of Brooklyn at existing salaries; (3) transfer of funds to provide salaries of these employees; such action to take effect as of August 1, 1917. Respectfully,

WM. A. PRENDERGAST, Comptroller; FRANK L. DOWLING, Acting Mayor; LEWIS H. POUNDS, President, Borough of Brooklyn, Committee on Salaries and Grades.

The President laid before the Board the following communication from the President, Borough of Brooklyn:

No. 1827.

President, Borough of Brooklyn—Transmitting Communication Relative to the Changing of Names of Streets in the Bensonhurst Section.

The City of New York, Office of the President of the Borough of Brooklyn, Brooklyn, July 25, 1917.

Hon. FRANK L. DOWLING, President, Board of Aldermen:

Dear Mr. President—By direction of the Commissioner I am transmitting herewith a communication relative to the changing of street names in the Bensonhurst section, for such attention as you may deem necessary.

Yours very truly,

WM. G. CARLISLE, Secretary.

July 16, 1917.

President, Borough of Brooklyn:

Dear Sir—I think it would be right to have the streets and avenues of the city made to conform to some regularity in name. It would be proper for you to take the matter up with the Board of Aldermen and make such changes in names as would effect the result.

I am living at present in Bensonhurst, practically a new part of the city, where the names of avenues and streets are so similar to Manhattan, I wonder how the P. O. authorities can properly deliver the New York city mail.

The time to act is now, before the names get settled permanently in the minds of our people.

Trusting you will give the matter your active attention, I am,

Very truly yours, HENRY F. VAN LOAN, 7 Pine Street.

The President laid before the Board the following communication from the President, Borough of Manhattan:

No. 1828.

President, Borough of Manhattan—Request for Special Revenue Bonds, \$25,000, for Repairing Sidewalks During the Remainder of the Year.

City of New York, Borough of Manhattan, Municipal Building, August 28th, 1917. Hon. FRANK L. DOWLING, President, Board of Aldermen, City Hall, N. Y. C.:

Dear Sir—Request is hereby made for an issue of Special Revenue Bonds in the amount of \$25,000 to provide funds for repairing sidewalks in this Borough during the remainder of the year.

A recent ordinance of the Board of Aldermen requires that the City shall repair all broken and defective sidewalks which were heretofore repaired by the owner of the property, and if upon failure so to do were repaired by the City and the expense of the work was assessed and became a lien against the property.

In order to carry out the provisions of the new ordinance funds will have to be provided, and as there are no balances available in any of this year's appropriations I respectfully request that Special Revenue Bonds be provided. An appropriation will be asked for in the 1918 budget to provide funds for next year.

Yours very truly RALPH FOLKS, Acting President, Borough of Manhattan.

The President laid before the Board the following communication from the President, Borough of Queens:

No. 1829.

President, Borough of Queens—Request for Issue of Special Revenue Bonds, \$1,000, for Purchase of Automobile for Superintendent of Street Cleaning.

The City of New York, Office of the President of the Borough of Queens, Long Island City, September 14, 1917.

To the Honorable Board of Aldermen, City of New York:

Gentlemen—In accordance with the provisions of subdivision 8 of section 188 of the Charter I hereby request your approval of an issue of revenue bonds in the sum of \$1,000, to provide funds for the purchase of an automobile for the use of the Superintendent of Street Cleaning of this department.

On July 27, 1917, the car used by the Superintendent was completely wrecked in an accident and cannot be repaired at a reasonable expense. The necessity for a car for the use of the Superintendent is absolutely essential and there are no funds available in the appropriation accounts from which this car may be purchased.

Yours very truly, MAURICE E. CONNOLLY, President of the Borough of Queens.

Int. No. 1519 (G. O. 363).

Report of the Committee on Buildings, in Favor of Adopting an Ordinance to Amend the Code of Ordinances Relating to Signs and Showbills.

The Committee on Buildings, to which was referred on May 8, 1917 (Minutes, page 341), the annexed ordinance to amend section 215 of article 16 of chapter 23 of the Code of Ordinances, relating to signs and showbills, respectfully

REPORTS:

Your Committee is still of the opinion that this ordinance should be adopted in the form recommended on May 8, 1917, when it was recommended for further consideration. No objection seems to exist to a more effective use of illuminated signs, and the Committee again recommends the adoption of the ordinance.

ORDINANCES AND RESOLUTIONS, AGAIN RESUMED.

No. 1837.

Preamble and Resolution Requesting Board of Estimate and Apportionment to Take Immediate Steps Looking Towards the Construction of Two Municipal Bathing Pavilions on Land Owned by the City at Coney Island.

By Alderman Drescher—
Whereas, during the summer just past thousands of the citizens of Greater New York of modest means have been unable to secure bathing accommodations at Coney Island, especially on holidays, Sundays and in extremely hot weather unless they would pay exorbitant rates to the private bathhouses, in such cases, as much as \$2 for the use of a locker for a limited time; and

Whereas, the facilities of the Municipal Bathhouse now in use at Coney Island are wholly inadequate to take care of the pressing needs of the thousands of city workers and their families, whose only recreation is surf bathing; and

Whereas, bathing in the surf at Coney Island furnishes the one form of health-giving recreation that all the members of the family can participate in at one time; and

Whereas, the only opposition to additional municipal bathing pavilions at Coney Island is that of the so-called "bathhouse interest," which opposition is based on the fallacious ground that the present Municipal Bathhouse is a financial burden to the City; and

Whereas, the last fiscal report of the Municipal Bathhouse showed that the municipal service, on the basis of a dime per bather, with children free, was rendered for 1,640,501 persons up to January 1st of this year. The gross income on this small fee basis was \$164,050.10; while the cost of maintenance for salaries, repairs, gas and electricity was \$148,831.21. This left a surplus over all running expenses of \$15,218.89, to apply on the retirement of the bonds, and

Whereas, the apparent argument against the erection of additional municipal bathhouses on the ground of "financial burden" disappears completely on an examination of the current fiscal report; and

Whereas, on August 5th of this year the Municipal Bathhouse took in 12,512 paid admissions, July 1st 12,303 and July 22d 13,793; but despite these large figures thousands of persons, many of them mothers with small children, have been turned away from the Municipal Bathhouse for lack of accommodation. There is therefore a real and vital need for additional municipal bathing pavilions at Coney Island.

Be it Resolved, That the Board of Aldermen do hereby respectfully request the Board of Estimate and Apportionment of the City of New York to take immediate steps looking toward the immediate construction of two municipal bathing pavilions on land already owned by the City at Coney Island.

Which was referred to the Board of Estimate and Apportionment.

Resolved, That the Board of Estimate and Apportionment hereby grants to The Staten Island Rapid Transit Railway Company the franchise or right, fully set out and described in the following form of proposed contract for the grant thereof, embodying all of the terms and conditions, including the provisions as to rates, fares and charges upon and subject to the terms and conditions in said proposed form of contract contained, and that the Mayor of The City of New York be and he hereby is authorized to execute and deliver such contract in the name and on behalf of The City of New York, as follows, to wit:

PROPOSED FORM OF CONTRACT.

This Contract, made and executed in duplicate this day of , 1917, by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and THE STATEN ISLAND RAPID TRANSIT RAILWAY COMPANY (hereinafter called the Company), party of the second part, witnesseth:

In consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

SECTION 1. The City hereby grants to the Company, subject to the conditions and provisions hereinafter set forth, the right and privilege to construct, maintain and operate, five (5) standard gauge railroad tracks over and across Western Avenue in the Third Ward, Borough of Richmond, the center line of the northerly line of said five tracks to be approximately one thousand five hundred and thirty (1,530) feet northerly from the center line of Washington Avenue; said five tracks to connect the terminal yard of the Company located on either side of Western Avenue.

All as shown on a map entitled: "Map showing proposed tracks across Western Ave., the Third Ward, Borough of Richmond, City of New York," and approved by resolution of the Board of Estimate and Apportionment, dated April 25th, 1917—The Staten Island Rapid Transit Ry. Co. to the Board of Estimate and Apportionment."

—signed by W. H. Averell, General Manager, and Wm. B. Redgrave, District Engineer; which map is attached to and made a part of this contract.

SECTION 2. The grant of this right and privilege is subject to the following conditions, which shall be complied with by the Company:

First—The said right and privilege to construct, maintain and operate said railroad tracks shall be held and enjoyed by the Company from the date on which this contract is signed by the Mayor to and until October 28, 1934, with the privilege of renewal of said contract for the further period of twenty-five (25) years, upon a fair revaluation of such right and privilege.

If the Company shall determine to exercise its privilege of renewal it shall make application to the Board at any time not earlier than two (2) years and not later than one (1) year before the expiration of the original term of this contract.

The time within which such application for renewal must be made is of the essence of this contract, and a failure of the Company to present its application within the time fixed shall be considered as an election on the part of the Company not to take advantage of the renewal privilege and as a relinquishment of its right to such renewal, in which event the franchise shall terminate on the last day of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at a less amount than the sum required to be paid during the last year prior to the termination of the original term of this contract.

If the Company and the Board shall not reach

such agreement on or before the day nine (9) months before the expiration of the original term of this contract, then the parties hereby agree that the annual rate for the renewal term shall be determined by three disinterested persons selected in the following manner:

One disinterested person shall be chosen by the Board; one disinterested person shall be chosen by the Company; these two shall choose a third disinterested person, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six (6) months prior to the expiration of the original term of this contract, and their report shall be filed with the Board within three (3) months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigation, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuation so ascertained and agreed to by any two of such appraisers shall be conclusive upon both parties, but no annual sum shall in any event be less than the sum required to be paid for the last year of the original term of this contract. If in any case the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The entire expense of such appraisal shall be borne jointly by the City and the Company, each paying one-half thereof.

Second—The Company shall pay to the City for this right and privilege during the original term of this contract, expiring October 28, 1934, the following sums of money:

(a) The sum of one thousand dollars (\$1000) in cash within three (3) months after the date on which this contract is signed by the Mayor and before anything is done in exercise of the privilege hereby granted.

(b) From the date when the annual charges commence as hereinafter provided until October 28, 1924, the annual sum of five hundred dollars (\$500).

During the succeeding term of five (5) years, the annual sum of seven hundred and fifty dollars (\$750).

During the last term of five (5) years the annual sum of one thousand dollars (\$1000).

The annual charges shall commence on the date upon which the Company obtains the permission and approval of the Public Service Commission as required by Section 33 of the Public Service Commissions Law. The Company hereby agrees to file its application with the Public Service Commission for such permission and approval within ten (10) days from the date upon which this contract is signed by the Mayor.

The annual charges as above shall be paid into the treasury of the City on November 1 of each year, and shall be for the amount due to September 30 next preceding; provided that the first annual payment shall be only for that portion of the first annual charge as the time between the date when the annual charges commence as hereinabove provided and September 30 following shall bear to the whole of one year.

Any and all payments to be made by the terms of this contract to the City by the Company, shall not be considered in any manner in the nature of a tax, but such payments shall be made in addition to any and all taxes of whatsoever kind or description, now or hereafter required to be paid by any ordinance of the City, or resolution of the Board, or any law of the State of New York.

Third—The annual charges or payments herein provided for shall continue throughout the whole term of this contract, notwithstanding any clause in any statute or in the charter of any railroad or railway company providing for payment for railroad or railway rights or franchises at a different rate.

Fourth—The rights and privileges hereby granted shall not be assigned or transferred, either in whole or in part, whether by consolidation, merger, reorganization or otherwise, or leased or sublet in any manner, either in whole or in part, without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in any wise notwithstanding, and the granting, giving or waiting of any one or more of such consents shall not render unnecessary any subsequent consent or consents, nor shall the title thereto, or right, interest or property therein pass to or vest in any other person or corporation whatsoever, either by the act of the Company or by operation of law, whether under the provisions of the statutes relating to the consolidation, merger or reorganization of corporations or otherwise, unless, in addition to obtaining the above consent of the Board, the proposed successor in title to the rights of the Company shall file with the Board an instrument under seal, agreeing to assume and be bound by each and all of the terms and conditions of this contract and agreeing to waive any more favorable conditions created by its charter or any statute relating to the consolidation, merger or reorganization of corporations or otherwise. The filing of such agreement shall constitute a condition precedent to the passing to or vesting in such proposed successor in title to the rights of the Company of the rights and privileges hereby granted, or of any portion thereof, or of any right, interest or property therein. In case of the failure of such proposed successor in title to the rights of the Company to file such agreement within sixty (60) days after the date on which such succession in title is to take effect, the right and privilege hereby granted may be forfeited, or the consent of the City provided for herein may be revoked by resolution of the Board.

Fifth—Upon the termination of the original term of this contract, or if the same be renewed, then at the termination of the said renewal term, or upon the termination or forfeiture of the right and privilege hereby granted for any cause, or upon the dissolution of the Company before such termination, the tracks and other property of the Company constructed or existing pursuant to this contract within the streets shall become the property of the City without cost, and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

If, however, at any time preceding the date upon which this contract shall terminate the Board shall so order by resolution and give notice to the Company, the Company shall, upon the termination of this contract, remove any and all of its tracks and other property constructed or existing pursuant to this contract and the said streets shall be restored to their original condition at the sole cost and expense of the Company.

Sixth—The Company shall commence and complete the construction of the tracks and appurtenances herein authorized within three (3) years from the date upon which this contract is signed by the Mayor, otherwise this right and privilege shall cease and determine.

Seventh—The tracks hereby authorized shall be constructed and maintained across Western Avenue upon a bridge or viaduct. The Company shall pay the entire cost of the construction and maintenance of such tracks and bridge or viaduct and in addition shall pay the following:

(a) The cost of the protection of all surface

and subsurface structures which shall be in any way disturbed by the construction, reconstruction, repair or removal of such tracks and the bridge or viaduct.

(b) All changes in sewer or other subsurface structures made necessary by the construction, reconstruction, repair or removal of the said tracks and the bridge or viaduct including the laying or relaying of pipes, conduits, sewers or other structures.

(c) The replacing or restoring the pavement in said street which may be disturbed during the construction, reconstruction, repair or removal of the tracks and the bridge or viaduct.

(d) The inspection of all work during the construction, reconstruction, repair or removal of the tracks, and the bridge or viaduct, as herein provided, which may be required by the President of the Borough of Richmond and the Commissioner of Water Supply, Gas and Electricity.

Eighth—Before the work of construction, reconstruction, repair or removal shall be begun the Company shall obtain permits to do the work from the President of the Borough of Richmond and from the Commissioner of Water Supply, Gas and Electricity. The Company shall perform all the duties which may be imposed upon it by these officials, as conditions of such permits, provided such conditions are not inconsistent with the provisions of this contract. The Company shall submit to these officials working plans, which shall include and show in detail the method of construction, reconstruction, repair or removal of said railroad tracks and the bridge or viaduct, and the mode of protection of or changes in all subsurface structures required by such construction, reconstruction, repair or removal.

Ninth—The bridge or viaduct to be constructed under this contract shall, subject to the approval of the President of the Borough of Richmond, be constructed in a single span from house-line to house-line, and there shall not be any supporting columns erected in the street. Such bridge or viaduct shall have a vertical clearance of not less than sixteen (16) feet above the surface of said street at the center line thereof and shall have drip-pans placed under the same for the entire width of the street. The said tracks and bridge or viaduct shall be constructed, maintained and operated at the expense of the Company, subject to the supervision, control and inspection of the proper authorities of the City who have jurisdiction over such matters under the Charter of the City or under this contract.

Tenth—Should the grade or lines of Western avenue be changed at any time during the term of this contract, whether original or renewal, the Company shall, at its own cost and expense, change or reconstruct the said bridge or viaduct under the supervision of the proper authorities of the city so that there shall be at all times a vertical clearance of not less than sixteen (16) feet above the surface of the street at the center line thereof, and that no portion of the piers or abutments of said bridge or viaduct shall encroach within the lines of said street as changed.

Should Western avenue be widened, the Company shall make no claim for, nor shall it be entitled, as against the City, to any compensation or damages by reason of the taking of any portion of the piers or abutments of the bridge or viaduct in condemnation proceedings.

Eleventh—Free and uninterrupted access to and passage over Western avenue shall be maintained at all times, both during construction and thereafter, unless otherwise directed by the President of the Borough of Richmond, and no cars shall be allowed to stand upon said railroad tracks within the limits of said street.

Twelfth—This right and privilege is granted on the further and express condition that all laws or ordinances now in force, or which may hereafter be adopted, shall be strictly complied with.

Thirteenth—This grant is upon the express condition that the Company, within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of the rights and privileges hereby granted, shall deposit with the Comptroller of the City the sum of two thousand dollars (\$2,000), either in money or securities to be approved by the Comptroller, which fund shall be security for the performance by the Company of all the terms and conditions of this contract and for its compliance with all the orders of the Board and of the officials of the City acting under the powers herein reserved. From the said fund deductions may be made as hereinafter provided.

(a) Should the Company, within such time after notice as may be herein prescribed, or where no time is prescribed, within such time as the Board or the proper official of the City may hereafter prescribe, fail to comply with the provisions of this contract or with the orders of the Board or of the officials of the City herein named or referred to, relating to:

Paving and repairing of the streets,
Protecting the City's structures during the construction, reconstruction, repair or removal of the tracks and bridge or viaduct hereby authorized,

Protecting the Company's tracks, appurtenances or other structures during the performance of any public work or as may be required on account of the changing of the lines or grades of the streets,

Or with any other provision of this contract which may affect the repair, protection and maintenance of the streets or of the City's structures within the streets,

The City shall have the right to cause the work to be done or the defect remedied and to reimburse itself for the cost of such work, by deducting such cost, with interest from the security fund hereinabove provided. Such deduction shall be made by the Comptroller upon the direction of the Board.

(b) Should the Company, within ten (10) days after demand has been made upon it, fail to pay to the City the cost of any alterations to the sewerage or drainage systems occasioned by the construction, maintenance or operation of the tracks and bridge or viaduct hereby authorized, or fail to repay to the City any damages caused to persons or property which the City shall be compelled to pay by reason of the construction, maintenance or operation of the said tracks and bridge or viaduct, or by reason of any acts or defaults of the Company in connection therewith, the City shall have the right to collect such costs or damages, with interest, by deducting the amount of the same, with interest, from the security fund hereinabove provided. For. Such deduction shall be made by the Comptroller upon the direction of the Board.

(c) Should the Company fail to pay to the City the annual charges required to be paid by this contract, within the time fixed for the payment thereof, the City shall have the right to collect the amount of such charges, with interest, by deducting the same from the security fund hereinabove provided. For. Such deduction shall be made by the Comptroller without further or other direction.

(d) Should the Company fail to comply with the provisions of this contract, or with the orders of the Board or of the officials of the City herein named or referred to, then the Company may be required to pay to the City, as liquidated damages for each breach or violation, the following sums:

For failure to maintain the tracks and bridge or viaduct in good condition throughout the whole term of this contract, the sum of two hundred and fifty dollars (\$250) for each day during which the default or defect remains.

For failure to comply with any other provision of this contract as to which liquidated damages are not fixed herein, the sum of fifty dollars (\$50) per day for each day during which such failure or default shall continue.

All of such sums may be collected by deducting the same from the security fund hereinabove provided for.

The procedure for the collection of such liquidated damages shall be as follows:

Whenever the Board shall have knowledge of any such breach or violation on the part of the Company, the Board shall give notice to the Company, specifying the nature of such breach or violation and the amount of liquidated damages which it is proposed to collect therefor, and directing its President or other officer to appear before the Board on a certain day, not less than ten (10) days after the service of such notice, to show cause why the Company should not be required to pay such liquidated damages in accordance with the foregoing provisions. If the Company fails to make an appearance, or, after a hearing, appears in the judgment of the Board to be in fault, the Board shall forthwith direct the Comptroller to collect such liquidated damages by deducting the amount of the same from the security fund hereinabove provided for.

(e) In case of any deductions from the security fund pursuant to this contract, either for the reimbursement of the City for work done by it or amounts expended by it on behalf of the Company, or amounts paid by it to any person by reason of any act or default of the Company, or for the collection by the City of the annual charges herein provided, or of liquidated damages, the Company shall, upon ten (10) days' notice by the Comptroller, deposit with the Comptroller a sum, either in money or securities, sufficient to restore such security fund to its original amount of two thousand dollars (\$2,000), and in default thereof, the right and privilege hereby granted may be forfeited by the City.

(f) Should the right and privilege hereby granted be forfeited pursuant to the provisions of this contract, or should such right and privilege be terminated upon the dissolution of the Company as herein provided, the security fund hereinabove provided for shall be forfeited to the City as liquidated damages for failure of the Company to perform this contract pursuant to the terms hereof.

(g) No action or proceeding or right under the provisions of this subdivision shall affect any other legal rights, remedies or causes of action belonging to the City.

The provisions for the reimbursement of the City for work done by it or amounts expended by it on behalf of the Company, or amounts paid by it to any person by reason of any act or default of the Company, or for the collection by it of the annual charges, or of liquidated damages, are and shall be in addition to the City's right, as herein reserved, to forfeit the right and privilege hereby granted.

Fourteenth—In case of any violation or breach of this contract by the Company, or by any person acting under the authority of the Board or any official of the City acting under the powers herein reserved, the right and privilege hereby granted may be forfeited by resolution of the Board, which said resolution may contain a provision to the effect that the tracks and bridge or viaduct constructed and in use by virtue of this contract shall thereupon become the property of the City without proceedings at law or in equity. Provided, however, that such action by the Board shall not be taken until the Board shall give notice to the Company to appear before it on a certain day not less than ten (10) days after the date of such notice, to show cause why such resolution declaring this right and privilege forfeited should not be adopted. In case the Company fails to appear, action may be taken by the Board forthwith.

Nothing herein contained shall affect in any way the right of the Company to apply to a court of competent jurisdiction for a review of any action of the Board forfeiting the right and privilege hereby granted.

Fifteenth—The Company shall assume all liability for damages to persons or property occasioned by reason of the construction, maintenance and operation of the tracks and bridge or viaduct hereby authorized, and it is a condition of this contract that the Company shall assume the liability whatsoever to either persons or property on account of the same, and the Company shall repay to the City any damage which the City shall be compelled to pay by reason of any acts or default of the Company.

Sixteenth—The words "notice" or "direction" wherever used in this contract, shall be deemed to mean a written notice or direction. Every such notice or direction to be served upon the Company shall be delivered at such office in the City as shall have been designated by the Company, or if no such office shall have been designated, or if such designation shall have for any reason become inoperative, shall be mailed in the City, postage prepaid, addressed to the Company at the City. Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing.

Section 3. Nothing in this contract contained shall be construed as in any way limiting the present or future jurisdiction of the Public Service Commission under the Laws of the State of New York.

Section 4. Nothing in this contract contained shall be deemed to limit in any way the police power now vested in or hereafter to be delegated or granted to the City by the State of New York.

Section 5. The Company promises, covenants and agrees to conform to and abide by and perform all the terms, conditions and requirements in this contract fixed and contained.

IN WITNESS WHEREOF, the party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto signed and the corporate seal of said City to be hereunto affixed, and the party of the second part, by its officers, hereunto duly authorized, has caused its corporate seal to be hereunto affixed, the day and year first above written.

NEW YORK SUPREME COURT, SCHOHARIE, DELAWARE AND GREENE COUNTIES.

Application for Appointment of Commissioners.

SCHOHARIE RESERVOIR, SCHOHARIE SECTION AND SUPPLEMENTARY SHEET SECTION 3.

In the Matter of the Application and Petition of the Board of Water Supply of the City of New York for the appointment of a commission under Chapter 724 of the Laws of 1905, as amended.

PUBLIC NOTICE IS HEREBY GIVEN THAT it is the intention of the Corporation Counsel of the City of New York to make application to the Supreme Court for the appointment of Commissioners under Chapter 724 of the Laws of 1905 as amended.

Such application is to be made at a Special Term of the said Court to be held at the Court House in the City of Troy, Rensselaer County, New York, on the 20th day of October, 1917, at 10 o'clock in the forenoon of that day or as soon thereafter as counsel can be heard.

The object of this application is to obtain an order of the Court for the appointment of three disinterested and competent freeholders, at least one of whom shall reside in the County of New York, and at least one of whom shall reside in one of the Counties of Schoharie, Delaware or

Greene, as Commissioners of Appraisal to ascertain and appraise the compensation to be made to the owners and all persons interested in the real estate laid down on a certain map entitled:

"Board of Water Supply of the City of New York. Map of real estate situated in the Towns of Gilboa & Conesville, County of Schoharie, Roxbury, County of Delaware, and Prattsville, County of Greene and State of New York, to be acquired by the City of New York under the provision of chapter 724 of the laws of 1905 as amended for the construction of Schoharie Reservoir and appurtenances in the vicinity of Gilboa and Prattsville."

and which map was filed as follows:
In the County Clerk's office, County of Schoharie, at Schoharie, N. Y., on the 29th day of May, 1917.

In the County Clerk's office, County of Delaware, at Delhi, N. Y., on the 28th day of May, 1917.

In the County Clerk's office, County of Greene, at Catskill, N. Y., on the 26th day of May, 1917; and also in the real estate laid down on a certain supplementary map entitled:

"Board of Water Supply of the City of New York. Map of real estate situated in the Town of Gilboa, County of Schoharie and State of New York, to be acquired by the City of New York under the provisions of chapter 724 of the laws of 1905 as amended for the construction of Schoharie Reservoir and appurtenances in the vicinity of Gilboa."

and which map was filed in the County Clerk's office, County of Schoharie, at Schoharie, N. Y., on the 30th day of July, 1917; and that said Commissioners of Appraisal shall also ascertain and determine and state separately the items of damage, if any, to which the owner or any person interest in the said real estate laid down on said maps filed at Schoharie, May 29 and July 30, 1917, Delhi, May 28, and Catskill, May 26, 1917, may be entitled by reason of Section 42, Chapter 724 of the Laws of 1905, as amended by Section 9, Chapter 314 of the Laws of 1906, and Section 2, Chapter 327, of the Laws of 1916, provided that an agreement cannot be had with the Board of Water Supply, and further that said damages arise by reason of acts of the City of New York, or its Board of Water Supply after May 12th, 1916.

Except that the Corporation Counsel of the City of New York will make application to the Supreme Court that all parcels of real estate laid down on said above recited maps wholly or in part in the fire district of Gilboa, and all parcels of real estate laid down on said maps above recited where the claimants allege an enhancement by reason of water power thereon, including any claim the Gilboa Water Co. may have, shall be assigned by the Court to the present Schoharie Reservoir and Shandaken Tunnel Commission which is now appraising real estate in said fire district and has jurisdiction over certain claims for water powers in connection therewith.

Further, to prevent any conflict of jurisdiction between the Commission herein applied for and the Schoharie Reservoir and Shandaken Tunnel Commission already appointed, and to obviate, so far as possible, disproportionate awards and inharmonious decisions, the Court will be asked to assign to the Commission herein applied for, all the telephone and telegraph companies' claims, whether for loss of business or for rights of way or easements, leaving to the Commission heretofore appointed the determination of nothing in connection with the telephone and telegraph claims except the value of the Pierce and Peaslee telephone building in Gilboa.

Also at the same time and place the Corporation Counsel of the City of New York will make application to the Supreme Court to approve the substitution for all rights of way and highways existing within the lines of the maps filed in the County Clerk's Office at Schoharie, on the 31st day of January, 1917, the 19th day of March, 1917, the 29th day of May, 1917, and the 30th day of July, 1917, in the County Clerk's Office, County of Greene, on the 26th day of January, 1917, the 26th day of May, 1917, in the County Clerk's office of Delaware, the 31st day of January, 1917, and the 28th day of May, 1917, and the County Clerk's office in the County of Ulster on the 26th day of January, 1917, of the highways as prepared and laid down on the map prepared by the Board of Water Supply of the City of New York pursuant to chapter 724 of the Laws of 1905 as amended. All of which substituted highways are on real estate embraced in the above recited maps. For said substituted highways no real estate is required in addition to the use of certain real estate laid down on said aforesaid maps for highway purposes.

And for such other and further relief as may be just and proper.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of the City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 will be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the contract, and the sum of the purchase price, purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property at the date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances, between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations, and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street and the openings of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days

from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portions as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the date of possession, and the successful bidder will provide and furnish all materials or labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

"No buildings, parts of buildings, fixtures or machinery sold for removal under these terms and conditions shall in any case be re-located or re-erected within the lines of any proposed street or other public improvement, and if any such buildings, parts of buildings, fixtures or machinery, etc., shall be re-located or re-erected within the lines of any proposed street or other public improvement, title thereto shall thereupon become vested in The City of New York and a resale at public or private sale may be made in the same manner as if no prior sale thereof had been made."
