Eggs broken from the shell intended for food purposes shall be promptly cooled to a temperature not to exceed 50 degrees Fahrenheit and shall be deemed adulterated for the purposes of this section if the temperature at the time of delivery to the consumer be above said temperature.

No person conducting the business of trucking or draying, or engaged in the transportation of goods or merchandise, or conducting the business of storing food or other products in cold storage buildings, shall be required to have a permit for receiving, holding, transporting or keeping eggs opened from the shell, whether canned, frozen, dried or treated in any other manner, provided that such person shall show to said Board, when required, satisfactory proof of the ownership of such eggs.

(b) No person shall receive, hold, keep, sell or offer for sale or deliver, as or for food, or to be used in food, in The City of New York, any canned, frozen, or dried eggs or eggs broken from the shell, which are adulterated or to which has been added any poisonous ingredient or any ingredient which may render such eggs injurious to health, or to which has been added any antiseptic, preservative, or foreign substance not evident and not known to the purchaser or consumer, or which shall contain filthy, decomposed or putrid animal matter.

(c) No person shall wilfully or intentionally crack or check eggs intended for sale in the shell, the shells of which are whole and sound, with intent to make any false representation in respect to the quality thereof or as being what the same are not, as respects wholesomeness, soundness, or safety for food. Wilful cracking or checking of eggs to be sold in the shell shall be prima facie evidence of intent to deceive.

(d) No person shall receive, hold, keep, sell or offer for sale or deliver in The City of New York any eggs known as "spots" except in cases which shall be plainly and indelibly labeled at both ends with the printed words "Spot Eggs," with block letters at least two inches high and one and one-half inches wide, with no intervening marks or lettering between the words or the letters composing the words.

The term "Spots" and "Spot Eggs" when used herein means all unsound eggs, including those affected by moulds, partly decomposed, broken yolked, blood ringed or veined, partially hatched, sour, or eggs the shells of which are so broken or cracked that the contents are leaking therefrom.

For the purposes of this section a case of eggs shall be deemed to be a case of spot eggs if fifty per cent. or more of the eggs in the case are "Spots" as defined herein.

Every person who shall receive, hold, keep, sell or offer for sale or deliver in The City of New York any eggs known as "Spots" shall keep a record in a manner approved by the Board of Health, of all such "Spot Eggs" received or held by him and the disposition of such eggs, and every person who conducts the business of breaking out eggs for canning, freezing, drying or other purposes or for preparing eggs for tamers or manufacturing usages shall keep a record in a manner approved by the Board of Health, of all eggs received or held by him and the disposition of such eggs.

(e) No person shall receive, have, hold, sell or offer for sale, or deliver in The City of New York any eggs broken from the shell, designed for use in manufacturing processes or for tanning, unless the same shall have been denatured with some denaturant approved by the Board of Health. The cans or receptacles containing eggs broken from the shell designed for use in manufacturing processes or for canning, shall be plainly and indelibly labeled with the words "for manufacturing purposes--denatured with," to which shall be added the name of the denaturant.

(f) The term "denatured" where used herein as applied to eggs, means eggs that are broken into receptacles into which has previously been placed a denaturant or denaturants approved by the Board of Health in proportions as may be prescribed and the mixture thus made thoroughly stirred, or which are transferred to receptacles promptly after breaking and on the premises where broken to receptacles into which has previously been placed a denaturant or denaturants approved by the said Board in proportions as may be prescribed, and the mixture thus made thoroughly stirred.

(b). Aerial conductors when grounded as above specified must be effectively cut off from all apparatus within the building.

(c). Or the aerial to be permanently connected at all times to earth in the manner specified above, through a short-gap lightning arrester; said arrester to have a gap of not over .015 inch between brass or copper plates not less than 2½ inches in length parallel to the gap and 1½ inches the other way

with a thickness of not less than ⅛ of an inch mounted upon non-combustible non-absorptive insulating material of such dimensions as to give ample strength. Other approved arresters of equally low resistance and equally substantial construction may be used.

(d). In cases where the aerial is grounded as specified in paragraph "a," the switch employed to join the aerial to the ground connection shall not be smaller than a standard 100-ampere jack-knife switch.

It will be noticed that Class F, Marine Work, disappears entirely from the City's rules under this rearrangement. This is for the reason that that class of work comes under federal rather than that of municipal jurisdiction.

Commissioner Patrick A. Whitney, of the Department of Correction, appeared in behalf of the proposed amendment. There was no opposition.

Mr. Austin Reilly, Jr., of No. 325 East Seventy-seventh street, Borough of Manhattan, appeared before the Commission relative to the statements of Robert Beasley, a candidate for appointment to the position of Disinfecter, as to his previous experience.

On motion, it was

Resolved, That the disqualification appearing against the name of Robert Beasley, of No. 406 East Seventy-ninth street, on the eligible list of Disinfecter, be removed.

On motion, it was

Resolved, That the Secretary communicate with the State Civil Service Commission and request that the proposed amendment of the Municipal Civil Service Classification, by including in the exempt class, under the heading "Mayor's Office," the title "Chief of the Bureau of Weights and Measures," be reconsidered.

On the recommendation of the Committee on Appeals the appeal of Mrs. Mary E. Breyer, of No. 171 West Ninety-ninth street, New York City, for a special mental examination for the position of Attendant, was granted, it appearing that her failure to appear on the day of the general examination had been due to compulsory attendance at court.

A report was presented from Mr. James P. Conway, Acting Chief Examiner, dated April 22, stating that in the examination for Female Attendant, held on April 21, Candidate No. 892 had been disqualified, pending the decision of the Commission, for returning at 2.35 p. m. in view of the instructions issued to the candidates that they should return before 2.30 p. m. The action of the Acting Chief Examiner was approved.

Conway, Acting Chief Examiner, dated April 20, stating that in the examination for Female Attendant, held on April 19, candidates Nos. 79 and 135 had been disqualified, subject to the decision of the Commission, for consulting certain memoranda. The action of the Acting Chief Examiner was approved.

A report was presented from Mr. Thomas C. Murray, Assistant Chief Examiner in Charge of Promotions, dated April 23, relative to the request of the Board of Water Supply that an examination be held for promotion from the grade of Patrolman to that of Sergeant on the Aqueduct, and recommending that the request be granted, in accordance with Rule XV., paragraph 7, the examination to be open to all persons in the grade of Patrolman on Aqueduct who should have served far not less than one year. The recommendation was adopted.

A report was presented from Mr. Thomas C. Murray, Assistant Chief Examiner in Charge of Promotions, dated April 20, relative to the request of the Superintendent of Buildings, Borough of Brooklyn, that permission be granted Miss Mary T. Donohue, a second grade Stenographer and Typewriter, to qualify for the position of third grade Stenographer and Typewriter, on the ground that she was the only Stenographer employed in the Bureau, and that she had served the necessary length of time. The request was denied, without prejudice to a renewal of same in the month of October, the time set apart by the Commission for the receipt of applications for promotion in the clerical service.

A report was presented from Mr. Thomas C. Murray, Assistant Chief Examiner in Charge of Promotions, dated April 21, relative to the request of the Secretary of the Department of Health that a non-competitive examination be held by which John Donohue, a first grade Clerk in the office of the Secretary of the Department, might

A report was presented from the Record Clerk, dated April 25, relative to Miss Evelyn A. Higgins, of No. 1209 Herkimer street, Brooklyn, who had been appointed a Temporary Clerk in the Permanent Census Board from the list of Stenographer and Typewriter. It appeared that Miss Higgins had given the date of birth in her application and in the preliminary sheet of her examination papers as July 16, 1886, while in the declaration sheet filled out at the time of appointment, the date was given as July 17, 1887; that a birth certificate had been furnished giving the date as July 16, 1886, and the name as Ellen Higgins. After consideration of the matter the Secretary was authorized to permit the appointee to amend the statements in her papers where in error.

A report was presented from the Record Clerk, dated April 23, relative to Peter J. Masterson, of No. 307 East Eighty-fourth street, who had been appointed an Inspector of Meters and Water Consumption in the Department of Water Supply, Gas and Electricity on April 11, 1910. It appeared that Mr. Masterson had given the date of birth in his application as December 1, 1874; in the preliminary sheet of his examination papers as December 1, 1873, and in the declaration sheet, filled out at the time of appointment, as December 1, 1876; that, according to a birth certificate furnished, November 30, 1872, was the correct date. The Secretary was authorized to permit the appointee to amend the date of birth in his papers to conform to the certificate furnished.

A letter was presented from the Commissioner of Public Works, Borough of Manhattan, dated April 23, requesting authority to employ, under paragraph 6 of Rule XII., five Expert Chauffeurs to operate automobiles recently purchased for his Department, and stating that the grades for the said position had not been established, as required by section 56 of the Charter; that application for the grades had been made, and the employment of the Chauffeurs under the expert clause would probably not last more than two or three weeks. On motion, it was

Resolved, That, pursuant to the provisions of paragraph 6 of Rule XII., five Expert Chauffeurs, to be employed by the Commissioner of Public Works, Borough of Manhattan, be and they hereby are excepted from examination; provided, however, that the total compensation shall in no case exceed seven hundred and fifty dollars.

A letter was presented from the Secretary of the Department of Public Charities, dated April 20, requesting authority to employ Samuel Coughlin as an Expert Gardener, at five dollars a day, "for about five weeks," and stating that Mr. Coughlin was employed in the Department of Parks, Boroughs of Manhattan and Richmond, as a Gardener, and that the Commissioner had consented to his detail to the Department of Charities for that period. The request was granted, with the understanding that the name of the said employee should appear upon the payroll of the Department of Public Charities during the period of his employment therein.

A letter was presented from the Commissioner of the Department of Bridges, dated April 21, reporting the disposition made of the names certified from the preferred list of Assistant Engineer on March 28, April 8 and April 20, 1910, and stating that the persons certified had either declined the proffered appointment or had been rejected by the Chief Engineer of the Department as not qualified to design steel and steel concrete structures, their experience having been confined to field work. After consideration of the matter the Secretary was directed to certify the promotion list for the position of Assistant Engineer in the Department of Bridges.

On motion, the following appointments in the Board of Water Supply were approved, in accordance with paragraph 7 of Rule XII.:

Miner, \$3 Per Diem Working on Surface, \$3.50 Per Diem Working in Shafts.

A letter was presented from the Commissioner of Street Cleaning, dated April 19, requesting authority to reinstate Henry S. Quinn, of No. 533 West Fifty-first street, Borough of Manhattan, as a Sweeper "assigned to act as Assistant to Section Foreman." The Secretary stated that Quinn had entered the Department of Street Cleaning on April 8, 1898, as a Sweeper, and had been promoted from time to time until he had reached the grade of Section Foreman, on August 23, 1907, from which position he had been dismissed on charges on April 28, 1909. The Secretary was directed to communicate with the Commissioner of Street Cleaning and state that to effect a reinstatement in the Department it would be necessary to reinstate Mr. Quinn in the position from which he had been dismissed, and then, with his consent, reduce him to the grade of Sweeper, as there was no provision in the Rules for the reinstatement of a person in a class other than the one in which he had been serving at the time of his resignation or dismissal.

A letter was presented from the Secretary of the Board of Trustees of Bellevue and Allied Hospitals, dated April 20, requesting the Commission to approve a supplementary payroll for the salary of Dr. Byron C. Darling as X-Ray Photographer, from February 28 until the time of the appointment of his successor. It appeared that Dr. Darling had served as X-Ray Photographer in Bellevue and Allied Hospitals, pursuant to the provisions of paragraph 3 of Rule XII., pending the preparation of an eligible list for that position; that, as his name did not appear among the first three on the eligible list, the Department had been notified of the necessity for discontinuing his services; that Dr. Darling had thereupon appealed to the Commission to re-rate his papers, and that in view of his efficient service the Trustees had decided to make no appointment pending the decision of the Commission on the appeal; that as the appeal had been denied the vacancy in the position was to be filled from the eligible list, and that the Department believed that Dr. Darling should be paid for his services up to the date of the appointment of his successor. The request was granted.

A letter was presented from the President of the Board of Trustees of Bellevue and Allied Hospitals, dated April 22, requesting the Commission to amend its classification, by including in the Non-Competitive Class the position of Instructor in Anaesthesia for that Department. The Secretary was directed to advertise a public hearing, in accordance with Rule III.

A letter was presented from the Secretary of the Department of Health, dated April 20, requesting authority to appoint Edward J. Riley, of No. 251 West Thirty-seventh street, Borough of Manhattan, to the position of Laboratory Assistant in the Department of Health, with salary at the rate of \$600 per annum, in the absence of an eligible list for that position. The appointment was approved for a period of fifteen days, in accordance with paragraph 4 of Rule XII., and the Secretary was

directed to summon Mr. Riley for a non-competitive examination to qualify him for provisional appointment.

A letter was presented from Mr. W. J. Sears, the Expert in charge of the Bureau of Ferries, Department of Docks and Ferries, dated April 21, transmitting, at the suggestion of the Deputy Commissioner, a letter from one H. K. Murray, relative to the appointment of Miss Anna Boylan as a Ticket Agent in the Ferry Service, under the provisions of chapter 533 of the Laws of 1905. The letter was referred to the Secretary for a reply.

Morris Steinberger, Interpreter, Coroners' Office, Borough of The Bronx, March 23, 1910.

The Secretary submitted the following voucher in payment of salary to persons not regularly employed by The City of New York for special services rendered to the City:

The Secretary was directed to certify the voucher in accordance with paragraph 6 of Rule XII.

On motion, it was

Resolved, That, in accordance with the provisions of paragraph 6 of Rule XII, Professor Floyd J. Metzger be and he hereby is excepted from examination, to serve as an Expert Chemist in the Metropolitan Sewerage Commission, for a period of one year, beginning October 2, 1909; provided that his total compensation shall not exceed seven hundred and fifty dollars.

The following requests for restoration to the eligible lists specified were granted:

John V. O'Connor, No. 241 West Sixty-sixth street, New York City, Temporary Clerk, preferred.

A letter was presented from Mr. James P. Gill, of No. 710 Leonard street, Brooklyn, a candidate for Police Doorman and Prison Keeper, dated April 20, submitting a letter from Mr. Richard F. McKay, of No. 144 Java street, Brooklyn, to the effect that Gill had been in his employ as a steam fitter during the years 1904 and 1905, and requesting that he be permitted to amend his papers accordingly. The Secretary stated that in his application and in his experience paper, the candidate had described his employment during the years 1904 and 1905 as "steam fitter, New Amsterdam Gas Company," and that as the result of an investigation of the statement a letter had been received from the said company to the effect that Gill had been in its employ from September 1 to December 15, 1902, a period of about three months. After consideration of the matter, the Secretary was authorized to permit the candidate to amend his statement and to remove the disqualification appearing against his name on the eligible list.

The Secretary called the attention of the Commission to a birth certificate submitted by William H. Farrell, of No. 301 West One Hundred and Fiftieth street, who had been appointed to the position of Stenographer and Typewriter in the Department of Docks and Ferries, and who had made conflicting statements as to the date of his birth. On motion, the Secretary was authorized to permit the appointee to amend the date of birth appearing in his papers to conform with the certificate furnished.

A letter was presented from Max Shapiro, of No. 327 Madison street, New York City, dated April 16, relative to his civil service status, and requesting that his name be placed on the preferred list of Transitman rather than Rodman. The Secretary stated that on October 1, 1908, Mr. Shapiro, then a Rodman in the employ of the President of the Borough of The Bronx, had been promoted to the grade of Transitman, but that his name had been subsequently carried on the payroll under the title of Rodman, as the higher grade had not been established by the Board of Estimate and Apportionment and the Board of Aldermen, in accordance with section 56 of the Charter; that Mr. Shapiro had been suspended under section 1543 of the Charter on March 31, 1910, and his name had been placed upon the preferred list of Rodman. The request was denied for lack of power.

A letter was presented from Mr. S. William Briscoe, No. 299 Broadway, dated April 21, relative to the status of Edward G. McNeerney, a Keeper in the Department of Correction, and requesting that the Commission recognize the increase in salary of the said employee to \$901 per annum, from January 7, 1910, the date on which he had become eligible under Ordinance No. 149 of the year 1906 of the Board of Aldermen. The Secretary was directed to reply to the letter and state that upon receipt of the proper application from the Commissioner of Correction, accompanied by his certificate to the effect that all the Keepers who had become eligible for promotion at the same time as Mr. McNeerney had been treated alike, the necessary action would be taken by the Commission to adjust his and any similar case.

The Commission then adjourned, to meet Wednesday, April 27, 1910, at 10 o'clock a. m.

F. A. SPENCER, Secretary.

Minutes of Meeting Held Wednesday, April 27, 1910.

At the conclusion of the hearing the Secretary was instructed to furnish Mr. Cunningham with a copy of the report of the Department.

John L. Peterson, of No. 537 West One Hundred and Forty-ninth street, appeared before the Commission relative to his complaint that in the examination for Janitor-Steam Heating he had not been supplied with an experience paper. Mr. Peterson stated that he had applied to the Monitor in charge of his section for an experience paper, but had been informed that there was no other paper to be given out in the examination. At the conclusion of the hearing, the Commission directed that Mr. Peterson be permitted to fill out an experience paper and that the same should be rated in conjunction with his examination for Janitor-Steam Heating.

Pierce L. Murphy, of No. 523 West One Hundred and Twenty-fourth street, an applicant for Police Doorman and Prison Keeper, appeared before the Commission relative to a discrepancy in his statements as to the date of his birth, also to explain the fact that he had answered "No" to question 11 ("Have you ever been arrested?") when an investigation of his case had disclosed that on June 11, 1909, he had been tried and acquitted on the charge of violating section 1710 of the Penal Laws of the

The Secretary was directed to communicate with Mr. Saxton and state that the physical examination for Attendance Officer would be completed about May 6, and that the Commission would like to be advised whether the State Board desired it to proceed with the mental examination; also as to the employment of Monitors, etc.

The Secretary presented the following communication from the Department of Public Charities:

"April 20, 1910.

"Mr. F. A. SPENCER, Secretary, Civil Service:

"Dear Sir—Your communication of April 12 regarding the non-competitive class of appointees has been carefully considered. This, as you will remember, was the matter I was before you about yesterday. I just wish to put in writing what I stated. I would say during the first three quarters of 1909 we had 3,068 appointments in the whole Department, divided as follows:

"First quarter	966
"Second quarter	1,150
"Third quarter	952

"That is about the average of the number of appointments made during each year. These appointments are, of course, in the small grades. Ninety-five per cent. are at least in the grades of \$150 per annum and under.

"We at present comply with the resolutions adopted except we do not have any Schedule 'F' paper for those appointed at \$150 and under. To comply with the request in full, that is, to give a Schedule 'F' paper for everybody employed in the non-competitive class, would entail quite a lot of extra work upon this Department, and I do not see that it would serve any purpose, because while we made during the first three quarters of last year a total of 3,068 appointments, we also made the following changes:

	First.	Second.	Third.
"Appointments	966	1,150	952
"Promotions	209	246	135
"Resignations	214	328	242
"Transfers	10	10	14
"Dismissals	620	715	725
"Reductions	79
	2,098	2,449	2,068

"You will therefore see that the people appointed at the small salaries stay not more than about ten days or a month at the outside on an average.

"I enclose you herewith forms we use in making appointments as well as our Schedule 'F' paper. Your Schedule 'F' paper submitted is practically the same as ours, except we do not have a physician's certificate attached. Even that would be quite a hardship as our people are all over at different institutions and at some institutions we do not even have a doctor. To send a doctor to examine every one of our applicants would take all of his time. We are willing to send you, however, after having recorded the same, a Schedule 'G' paper in order that they may be filed in your office. As to the last paragraph of your communication, asking for the name, address, title and compensation and date of employment of all employees now in the non-competitive class in our Department, there are around 2,000. I would say to do that would take me at least three or four weeks to compile, and by that time I presume half of them or more would be gone. I do not see therefore what would be gained by that proposition. If you will notice in the City Record of July and January, the name of every person who has been in the Department during the previous six months is always published, with their date of appointment, salary and title. So, generally there is a record of everybody whom we appoint.

"I therefore trust the resolution will not be extended beyond what we are doing at present; that is, sending Schedule 'F' papers of all people appointed over \$150 per annum.

"Respectfully yours,
(Signed) "J. McKEE BORDEN, Secretary."

After consideration of the matter, it was

Resolved, That, pursuant to a conference had with the State Civil Service Commission at its meeting of April 21, the action of this Commission in directing that application blanks be filled out for all appointments in the non-competitive class, and filed in the office of the Commission, be and the same hereby is canceled.

On motion, it was

Resolved, That regulation 4 (the Labor Clerk) of the general regulations of the Municipal Civil Service Commission be and the same hereby is amended to read as follows:

"The Labor Clerk, subject to the direction of the Secretary, shall have charge of all matters relating to the registration of applicants for employment in positions in the labor class, and, subject to the direction of the Chief Examiner, of all examinations or other preliminary tests required therefor."

A letter was presented from the Secretary of the State Civil Service Commission, dated April 27, transmitting a copy of the opinion of the Attorney General with reference to Boards of Education, dated April 15, 1910, which concluded as follows:

"It was also held in this case that the fact that the board was listed in the city charter as one of the city departments made no difference in the actual status of the board.

"In my judgment the foregoing cases are sufficient authority to establish the proposition that boards of education, which are vested with corporate powers exercised independently of the municipal corporations in which they exist, form a part of the state system of education and that the employees of such boards are not in the civil service of the municipality. This is true in reference to the board of education of New York City and also of boards of education similarly constituted and vested with powers and duties as in New York City. My conclusion, therefore, is that employees of the board of education in New York City are subject to the jurisdiction, not of the municipal, but of the state civil service commission."

The letter was ordered filed.

of City Revenue, Room 141, No. 280 Broadway, Borough of Manhattan, until 11 a. m. on the 14th day of June, 1910, and then publicly opened for the sale for removal of the above described buildings and appurtenances thereto, and the award will be made to the highest bidder within twenty-four hours, or as soon as possible thereafter.

Each parcel must be bid for separately and will be sold in its entirety, as described in above advertisement.

Each and every bid must be accompanied by a deposit of cash or certified check in a sum equal to 25 per cent. of the amount of the bid, except that a minimum deposit of \$50 will be required with all bids, and that a deposit of \$500 will be sufficient to entitle bidders to bid on any or all of the buildings.

Deposits of unsuccessful bidders will be returned within twenty-four hours after successful bidders have paid purchase price in full and given security, and those of successful bidders may be declared forfeited to The City of New York by the Comptroller upon the failure of the successful bidder to further comply with the requirements of the terms and conditions of the sale as set forth hereinafter.

Successful bidders will be required to pay the purchase money and deposit the required security within twenty-four hours of the receipt of notification of the acceptance of their bids.

The Comptroller reserves the right to reject any and all bids and to waive any defects or informalities in any bid should it be deemed in the interest of The City of New York to do so.

All bids must state clearly (1) the number or description of the building or buildings bid for, (2) the amount of the bid, (3) the full name and address of the bidder.

All bids must be inclosed in properly sealed envelopes, marked "Proposals to be opened June 14, 1910," and must be delivered, or mailed in time for their delivery, prior to 11 a. m. of that date to the "Collector of City Revenue, Room 141, No. 280 Broadway, New York City," from whom any further particulars regarding the buildings to be disposed of may be obtained.

The buildings will be sold for immediate removal only, subject to the following

TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay cash or a certified check drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not exceed the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances, between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers, Borough of Brooklyn, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances or any part thereof within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the costs and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought

against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property, not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., bricked up, and the wall pointed and made to exclude wind and rain, and present a clean exterior. The roofs of adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York, is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be included in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department. No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
