DEPARTMENT OF FINANCE.

WARRANTS MADE READY FOR PAYMENT IN DEPARTMENT OF FINANCE—THURSDAY, AUGUST 20, 1914.

Below is a statement of warrants made ready for payment on the above date, showing therein the Department of Finance voucher number, the dates of the invoices or the registered number of the contract, the date the voucher was filed in the Department of Finance, the name of the payee and the amount of the warrant.

Where two or more bills are embraced in the warrant, the dates of the earliest and latest are given, excepting that when such payments are made under a contract, the registered number of the contract is shown in the place of the second invoice date.

Where the word "final" is shown after the name of the payee, payment will not be made until thirty days after the completion and acceptance of the work, but all of the other warrants mentioned will be forwarded through the mail unless some reason exists why payment is to be made in person, in which event written notice will be promptly given to the claimant.

In making a written or verbal inquiry at this office for any of the above mentioned warrants, it is requested that reference be made by the Department of Finance voucher number.

WILLIAM A. PRENDERGAST, Comptroller.

A statement is herewith submitted of all vouchers filed in the Department of Finance on this date, in which is shown the Department of Finance voucher number, the date of the invoices or the registered number of the contract, the name of the payee and the amount of the claim. Edward W. Heckler, Jr., and George Girard, candidates on the eligible list of Fireman, having failed to appear, as directed, the Secretary was instructed to summon them to appear at the next meeting of the Commission.

John J. Burns, of 450 Manhattan Avenue, New York City, having failed to appear, as directed, the Secretary was instructed to continue the disqualification appearing against his name on the eligible list of Stenographer and Typewriter.

Herman E. Goldschmidt, of 150 Nassau Street, New York City, having failed to appear, as directed, in connection with his request that his name be restored to the eligible list of Accountant, Fifth Grade, the Commission took no action in the matter.

The Commission then considered a communication dated July 9 from the Commissioner of the Department of Public Charities relative to the proposed amendment of the classification by including in the Exempt Class for his department three additional Confidential Inspectors upon which matter a public hearing was had on April 15, 1914. The application of the Commissioner of Public Charities was denied.

On motion, it was Resolved, That Mr. Leonhard Felix Fuld be and he hereby is promoted to the position of Assistant Chief Examiner in the office of the Commission at \$3,000 per annum.

On motion, it was Resolved, That Philip J. Coffey be and he hereby is suspended from the position of Fifth Grade Clerk (designated as Labor Clerk) in the office of the Commission under section 1543 of the Greater New York Charter, on account of lack of work, said suspension to take effect at the close of business July 18, 1914.

Upon the recommendation of the Committee on Transfers, the following transfers were approved:

John P. Higgins, Clerk, from the Department of Finance, at \$750 per annum, to the Board of Estimate and Apportionment, Bureau of Standards, at \$900 per annum. Anna L. Finan, Stenographer and Typewriter, at \$1,200 per annum, from the Board of Water Supply to the office of the Mayor, effective July 1, 1914.

Amy M. Ford, Clerk, at \$1,050 per annum, from the Department of Finance, to the Committee on Education of the Board of Estimate and Apportionment.

Mathilde C. Ford from Examiner, at \$3,500 per annum in the Department of Finance, to Secretary to the Committee on Education of the Board of Estimate and Apportionment, at \$4,000 per annum, effective July 1, 1914.

James A. Mulligan, Automobile Engineman, at \$1,200 per annum, from the Department of Health to the Bureau of Buildings, Borough of The Bronx.

Upon the recommendation of the Committee on Transfers, the following transfers

were disapproved for the reason that the rules do not provide for the transfer of temporary appointees:

Louise Keenan, Tabulating Machine Operator, at \$780 per annum (appointed under clause 6 of Rule 7) in the Department of Finance to the Committee on Education of the Board of Estimate and Apportionment.

Charlotte Muller, Tabulating Machine Operator, at \$780 per annum (appointed under clause 6 of Rule 7) from the Department of Finance to the Committee on Education of the Board of Estimate and Apportionment.

The Commission approved the transfer of Moses Altmann from the position of Executive Clerk, at \$3,500 per annum, in the office of the President of the Borough of Richmond, to that of Secretary to the Committee on Charter Revision, at \$4,000 per annum, in the Board of Estimate and Apportionment, under the provisions of clause 1 of Rule 14. The positions of Executive Clerk and Secretary both naturally fall into Group 1 of Part 2 of the Clerical Service, and the salaries paid place both positions in the same grade. The transfer, therefore, does not involve a promotion, and the Commission, in accordance with its regular practice and the terms of Rule 6, paragraph 5, considers that the titles of positions in the Competitive Class set forth in the classification are descriptive of the duties and functions attaching generally to such positions or to groups of positions of similar or corresponding character and not necessarily to particular positions. The general duties attaching to the titles of Secretary and Executive Clerk are, in the opinion of the Commission, closely similar.

After consideration of an opinion from the Corporation Counsel, dated July 6, the Commission approved the transfer of Harry S. Harding from Assistant Engineer, at \$2,000, in the Board of Water Supply, to Examining Engineer, at \$1,800 per annum, in the office of the Commissioners of Accounts.

After consideration of a communication dated July 9 from the Police Commissioner, the Secretary was instructed to note on the records the transfer of the following members of the Police Force of the Board of Water Supply to the position of Patrolman in the Police Department of The City of New York, under section 424 of the Laws of 1914: Joseph Anckner, John C. Gordon, Edward D. Kane, James B. O'Brien.

After consideration of a communication dated July 10 from the Police Commissioner, the Secretary was instructed to note on the records that the Police Commissioner had refused to consent to the transfer of James Allen Williamson from the Police Force of the Board of Water Supply to the position of Patrolman in his department.

PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT.

By EDWARD E. McCALL, Chairman.

TRAVIS H. WHITNEY, Secretary. a7a11

INVITATION TO CONTRACTORS.

Route No. 33, Section No. 3.

THE PUBLIC SERVICE COMMISSION FOR the First District (hereinafter called the Com-

mission), acting for and in behalf of The City of New York (hereinafter called the City), hereby invites proposals to construct Section No. 3 of Route No. 33, a part of the Broadway-Fourth Avenue and Seventh Avenue-Lexington Avenue Rapid Transit Railroads.

The points within the City of New York between which the said part is to run and the route or routes to be followed are briefly as follows:

SECTION No. 3. Beginning at a point under Montague Street in the Borough of Brooklyn about seventy-five (75) feet west of the westerly line of Clinton Street, and extending thence eastwardly under Montague Street and continuing southeastwardly under Fulton Street and eastwardly under private property, Willowby Street and again under private property to a connection with the Fourth Avenue Rapid Transit Railroad in Flatbush Avenue Extension at Prince Street; with a station in Montague Street between Clinton Street and Court Street.

Also beginning at a point under Fulton Street in the Borough of Brooklyn about one hundred and forty-eight (148) feet south of the southerly line of Clark Street, and extending thence southeastwardly under Fulton Street to a connection with the Brooklyn-Manhattan Rapid Transit Railroad subway under Fulton Street, Willowby Street; with a station at Borough Hall.

The general plan of construction calls for a subsurface railroad in two parts, each part having two tracks.

The Contractor will not be required to provide or place permanent track, ventilating apparatus or station finish.

The work under the contract will include the care and support of buildings, vaults, sewers, pipes, railroads and other surface, subsurface and overhead structures, the maintenance of traffic and the restoration of pavements and other surfaces.

The method of construction will be generally by tunneling and partly by excavation from the surface.

Bidders must examine the form of contract and the specifications and the contract drawings, must visit the location of the work and inform themselves of the conditions along the line of the work and make their own estimates of the facilities and difficulties attending the execution of the work.

The attention of bidders is especially directed to the contract requirements as to the methods of tunneling, the Contractor's responsibility for damage to property, and the damages for non-completion within the time prescribed.

A fuller description of the work and other requirements, provisions, details and specifications are given in the form of contract and in the contract drawings therein referred to. Copies of the form of contract, bond and contractor's proposal and of the contract drawings may be inspected and purchased at the office of the Commission, No. 154 Nassau Street, Borough of Manhattan, New York City. The form of contract, bond and contractor's proposal and the contract drawings are to be deemed a part of this invitation.

Partial payments to the Contractor will be made as the work proceeds.

The Contractor must complete the work within thirty-six (36) months from the delivery of the contract.

At the time of delivery of the contract, the Contractor must furnish security to the City by depositing a bond, cash or securities in the sum of three hundred thousand (\$300,000) dollars. As further security ten (10) per centum of the amounts certified from time to time to be due the Contractor will be deducted.

Sealed bids or proposals will be received at the office of the Commission at No. 154 Nassau Street, Borough of Manhattan, City of New York, until the 21st day of August, 1914, at twelve fifteen (12.15) o'clock p. m., at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission.

A statement, based upon the estimate of the Chief Engineer of the Commission, of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work required is to be found in the schedule forming a part of the form of contractor's proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids, and no claim is to be made against the City for damages or anticipated profit or loss of profit on account of any excess or deficiency, absolute or relative, in the same.

Every proposal must, when submitted, be enclosed in a sealed envelope endorsed "Proposal for Constructing Part of Rapid Transit Railroad—Route No. 33, Section No. 3," and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal, it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received unless accompanied by a separate certified check for the sum of fifty thousand dollars (\$50,000), payable to the order of the Comptroller of the City and drawn upon a national or state bank or trust company satisfactory to the Commission and having its principal office in New York City. Such check must not be enclosed in the envelope containing the proposal.

The Unit Prices must be properly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn.

The award of the contract will be made as soon as practicable after the opening of the proposals.

Deposits made by bidders whose proposals are not accepted will be returned within three (3) days after the contract is executed and delivered and its provisions in respect of the bond or deposit are complied with, unless such proposals shall be rejected, in which event such deposits will be returned within three (3) days after such rejection. The deposit of the successful bidder will be returned when the contract is executed and delivered and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. The amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all sewer connections to the main sewer in the street and the openings of the main sewer

in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beams, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money or corporate stock or certificates of indebtedness of any nature issued by The City of New York, and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

The amount shall be as specified in the proposals or instructions to bidders and shall not be in excess of 5 per cent.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
